FORBES GODFREY SWEEPS WEST YORK CLEAN

Carries By-Election for Legislature by Nearly 2400 Over Inde- pendent and Socialist.

Dr. Forbes Godfrey, Conservative, on Saturday was elected by a majority of about 2500 as member for West York in the legislature, his two opponents, Esten Williams, Independent, and F. J. Peel, Socialist, polling a ridiculously small vote.

Dr. Godfrey came out as a clean-cut advocate of the Beck work propa- ganda. In Vaughan he upset a Liberal stronghold, supposed to be impreg- nable.

He has the men of a fighter, the con- viction of a champion of the people, and from the outset his career in the house will be observed with interest.

The general tip is that Dr. Forbes Godfrey will wake up some of the back- benchers in more ways than one. On Saturday, the day of the by-election, he was all over the riding in his automobile. His aged father got the fever, and journeyed about addressing crowds and winding up at Brantford.

Early in the nature of the contest, he began to come into Dr. Godfrey's com- mittee-junction at 117 Dundas-street, Toronto, which was easily seen his election was sure from the start.

The doctor walked into the room about 6.30, and the crowd of workers there demanded a speech.

Francis Trevelyan organized this dis- trict for the Conservative candidate, and the result showed the thoroughness of the work done by the party.

Will Work For the People.
Dr. Godfrey was delighted with the result. He came from Mimico in his automobile, in rubber coat and cap. He was met by an outburst of congratulatory applause. In response to the de- mands for a speech, Dr. Godfrey doffed his cap and, mounting a chair, said:

"I hope I will do nothing in the com- ing session of parliament that will dis- grace the name of riding of York. I will do all that I said I would do in speech- es. I made during my canvass. I will try to obtain for you, thru a general plebis- cite, the work done by the party. If I don't do anything else.

"I believe a great deal of the votes cast for me to-day is an endorsement of the Whitney-Beck power policy. Mr. Beck will find me behind him in that fight.

"I have obtained in my own home to- day a majority of over 400, very few voting against me, and to-day I have received 200 Liberal votes, and I thank these Liberals for sinking party to vote for me."

"I would like to have a speech from my Dad," the member-elect said, after thanking many Liberals for giving him their support.

The elder Godfrey, who had sat for nearly two hours in the committee room, noticing the results, responded.

All Tories.
Since the time of Charles I., Mr. God- frey said, the Godfreys have been Tories. In Kerry, Ireland, they were the same. Sir William Godfrey had been a member of the English parliament, and the family was represented in the Irish parliament.

"I think we are sound in the faith," Mr. Godfrey said in his automobile for Brantford, where a meeting was held.

**LITTLE BOY STRANGLES
IN BOARDS OF FENCE**
The young son of Robert Toffer of Humber Summit, a short distance south of Woodbridge, climbed a board fence on Friday afternoon, and in an endeavor to reach some cherry blossoms, put his head thru between the second and third boards of the fence and his feet slipping off the bottom board was caught by the neck and before help arrived was strangled. The little fellow was about two years and three months old, and the parents are prostrated. Mrs. Toffer was in the city at the time the accident occurred and returned to find her little son dead.

CHAMBERLAIN IS HOME IN VERY BAD HEALTH

Condition Shocks His Friends—Too Weak to Raise His Hat to Cheering Crowd.

LONDON, June 2.—After the recent re-assuring reports from St. Raphael, France, regarding the improvement in the health of Joseph Chamberlain, his arrival in England last night was some- what of a shock to the friends and admirers who gathered to meet him both here and at Dover. Quite apart from the fatigue of the troublesome journey, which he bore well, it was evi- dent that Mr. Chamberlain was still a long way from such recovery as to give hope of his resuming political life with any activity.

Mr. Chamberlain was accompanied by his wife and son, Neville. When the train arrived at the Victoria station he was weak on the cushions, seemingly almost breathless. He made no effort to rise until he was assisted by his wife and son, and it was remarked that he made a vain attempt to raise his hat in response to a cheer from the small crowd at the station.

Mr. Chamberlain was almost carried from the train to his carriage. He drove immediately to his London resi- dence. It seems that he is quite un- able to walk by himself. Mr. Cham- berlain's face was much bronzed, but certain twitchings of the facial muscles suggested that the effects of his recent seizure have not yet been completely shaken off.

In response to enquiries, the family authorized the following statement: "Mr. Chamberlain has returned much improved in health and none the worse for the long journey. He has not yet made any plans, but will certainly re- main in London for a time."

**BALLOONIST STRUCK BY
LIGHTNING IN MID-AIR**
Tragic Incident Takes Place at
Review of Troops Before King
Victor Emmanuel.

ROME, June 2.—A tragic incident took place during a review to-day of the troops of Victor Emmanuel and Queen Helena. As a part of the man- oeuvres, a military balloon was sent up to a height of 700 feet, with Ulliv- vell in the car.

A storm which had been coming up burst suddenly, and the thousands of spectators were horrified to see a flash of lightning strike the gas bag. There was an enormous burst of flame and a terrific detonation and the collapsed balloon, with its dangling car, fell to the ground, over a mile from the scene of the review.

Crowds of persons, afoot and in autos and other conveyances, rushed in the direction where the balloon had fallen. Ullivvell was found alive, but unconscious. He was placed in an auto and rushed to a hospital, where he died without regaining consciousness.

King Victor Emmanuel and the military authorities went to the hospital after the review to enquire concerning him.

**JUDGE BOUND TO START
HAYWOOD CASE AT ONCE**
Only One More Jurer Needed—
Prisoner Has Somewhat Re-
covered.

BOISE, Idaho, June 2.—The work of obtaining a jury in the case of William D. Haywood, charged with the murder of ex-Governor Steunenberg, will be resumed to-morrow morning, unless the prisoner has a relapse. To-day, altho a little drawn and pale, as a result of the medicine and the opiates given him to relieve him of the acute pains he suffered yesterday morning, he ap- peared to be in his normal condition. He was out early in front of the court- house and walked in the sun.

Judge Freeman Wood has said that he is determined a jury shall be ob- tained to-morrow, if possible. Forty- four talesmen remain of the venire of sixty-one summoned last week.

**FRIDAY NOT A BARRIER
TO ENTERTAINING PRINCE.**
QUEBEC, June 2.—Lieutenant-Governor and Lady Jette have issued invita- tions to a dinner and reception to be given at Spencer Wood in honor of Prince Fushimi on Friday, June 7.

This dinner and reception, having nec- essarily to take place on Friday, a special dispensation from abstaining has been asked for and granted by the ordinary of the diocese.

**ADDITIONAL GUARDS FOR
THE FUSHIMI RECEPTION.**
OTTAWA, June 2.—Military orders state that an additional guard of honor will be required at Toronto on the de- parture of Prince Fushimi.

The Japanese hymn, "Kimigayo," is to be played where "God Save the King" would be played at the reception of a member of the royal family.

**LAURIE LED THE CHEERS
WHICH GREETED GEN. BOTHA**
(Canadian Associated Press Cable).
LONDON, June 2.—The Earl of Car- ington, replying to a speech by Lord Milner, who criticized the radical policy in the Transvaal, contrasted it with the attitude of Laurier.

Carlington stated that when he pre- sided at the National Liberal Club banquet to the colonial premier, Lau- rier led the cheers which greeted Botha, and waved his napkin, and when the cheers subsided, said to him: "No nation in the world could have had so plucky or brave a policy ex- cept one, and that was old England."

**WITNESS IN EMMERSON
CASE LOSES HIS JOB**
John Lloyd, Oldest Employee of St.
Lawrence Hall, Montreal, Dis-
charged by Proprietor.

MONTEREAL, June 2.—(Special).—Mr. Higgins of the St. Lawrence Hall dismissed John Lloyd, witness in the Emerson libel suit, upon his return from Fredericton. Lloyd was connect- ed with the hall for over thirty-six years, and had been night clerk for a long time, and was one of the late Henry Hogan's most trusted employes.

Mr. Higgins, who was seen this evening, admitted that he had dispensed with Lloyd's services, but denied that the Fredericton trip had anything to do with it.

Snow Falls in New York On First Sunday in June

Pleasure Trips Abandoned and People Remain Indoors—Coney Island Was Practically Deserted.

NEW YORK, June 2.—Snow fell in New York on this the first Sunday in the summer month of June. The flakes did not fall as snow all the way to the pavements, but coming from a colder strata of air, they swirled about the tops of skyscrapers and before dis- solving added a midwinter touch to the most remarkable June 2 that New Yorkers have known.

The warmest moment of the day was 12.05 a.m., when the temperature was officially recorded as 51 degrees. At 10.20 a.m. the mercury had dropped to 45. At 8 o'clock to-night it had risen to 47.

At the local weather bureau, where a conservative view is always taken, the day was admitted to be the coldest recorded here for the second of June.

A stiff breeze, accompanied with a heavy rainfall, prevailed throughout the day, which was about as cheerless as could be imagined. Holiday excursions generally were abandoned, and the pleasure resorts were without patrons.

Gale Sweeps City.
The day broke with a fresh gale that swept over the city with startling ef- fect. At an early hour the wind at- tained a velocity of 50 miles an hour. The brunt of the blast was felt in the Bronx, where a two-story half com- pleted frame house was torn apart and its timbers scattered for a block.

The watchman of the building, Hel- ler Rubenstein, owes his escape from death to the temerity that led him outdoors for a first hand observation of the elements just before the house crumbled.

In the same vicinity several trees were uprooted, while others lost their branches. Along the Bronx Park and on the airport-road, fences were laid flat and stone blown down from business buildings. On Third-avenue, a row of workmen's shanties were wrenched one of shanty.

Coney Island Deserted.
As a holiday the Sunday was lost. A week ago 150,000 persons visited Coney Island to-day the place was deserted. The only suggestion of sum- mer was the open trolley cars, which carried well bundled up shivering thousands unfortunate enough to be called from home.

For the first time since the resort was established, not a boat put out for Coney Island, and one steamer company, which reckons on 25,000 pas- sengers every June Sunday, was out completely. This is but a single instance of the losses incident to the recent unseasonable weather, and which it is estimated will amount to millions of dollars in greater New York alone. Scarcely any business, but has been injured.

Mountain Summits Covered.
The summits of North Mountain and High-peaks are covered with snow to-night, as the result of two heavy squalls to-day. Snow fell in Tar- zell Park and Hester's Falls here this morning with temperature at 39 de- grees.

**WOMEN ENTER A HOUSE
AND CARRY OFF CHILD**
Strange Case of Kidnapping Re-
ported From Near Toronto
Junction.

TORONTO JUNCTION, June 2.—(Special).—A. Tucker, living on Haywood-avenue, York Township, near Prospect Cemetery, reported to the police on Saturday afternoon that a child, 18 months old, adopted by him about ten months ago, had been stolen. He was very excited and told his story in a rather disconnected manner. Chief Flintoff was called up yesterday and stated that Mrs. Tucker had left the child asleep in the house while she had gone to call on a neighbor. Dur- ing her visit two women entered the house and carried off the child. A man passing by the door saw the two wom- en, but not noticing anything out of the ordinary did not interfere. The women got into a buggy awaiting and drove west along St. Clair-avenue. The police have not yet received any word or clue of the whereabouts of the lit- tle boy.

HART MAY DIE.
Francis Hart, steward of the Coruna, who was run over by a train at the Bay-street crossing, is in a very low condition, and the doctors at St. Michael's Hospital, where he was taken after the accident, have little hope of his recovery.

The sixth standing of candidates in the Trip to London Contest, as it was on Saturday at midnight, is given above.

For the second time, Miss Ida Van- demark has managed to overcome the lead of Miss McGregor, and is now in the first position. It is very close between these two candidates. It was not known until the last hour who was in the lead. Separated in their occupa- tions by less than one hundred yards, these two candidates are setting a ter- rific pace.

There have been quite a number of changes in the standing of candidates since last week. Miss Mabel Hodgson has passed Miss Rhoda Gardiner, and is now in sixth place, and Miss Nellie Sabine has passed Miss Della Harmer, the St. Charles' candidate. Miss Vir- tue is more than holding her own. A number of the candidates are working harder, and during the coming week will doubtless bring forth surprises.

In district No. 2 (the City of Ham- iltion), Miss Minnie E. Corner, the Sla- ter Shoe Store representative, closed the week with a rush, and leads Miss Board by nearly fifty thousand votes. It was common rumor in Hamilton all during the past week that Miss Corner had a large vote in reserve, and this prophecy was realized.

As an evidence of the interest taken in the Trip to London Contest in Hamilton, the Hamilton Leather Goods Manufacturers Association has donated a steamer truck for the successful candidate.

In district No. 3 (the Province of Ontario at large), the interest in the battle of ballots is increasing as each day passes. The contest is widening in scope, and now includes all portions of the province. Miss S. McDonald has been nominated by Mayor Ken- nedy of Owen Sound, and during the coming week she will undoubtedly poll a very large vote. Nominations have been received from Peterboro, Na- panee, Collingwood and other places.

The fact that each candidate has her own particular constituency, and is dangerous, is proven by the entry of Miss Sarah Flanagan of Kingston. Miss Flanagan was nominated the first of the week, entered the contest with a determination to succeed, in three days polled 46,757 votes, and is now in tenth place.

To each and every candidate, and to the women of Ontario at large, deter- mination and perseverance are the only necessary ingredients for a vic- tory in the Trip to London Contest. There is plenty of time for you to en- ter the race and make a success. BUT THERE IS NOTHING TO BE GAINED BY DELAY.

MURDERS WRONG WOMAN. Young Mother Victim of Drunken Man's Jealousy.

FREEMONT, Ill., June 2.—Mrs. Edna Humelbagen, 19 years old, was shot to death today by Herbert Springer, 18 years old, of Rockford, Ill., who chased Mrs. Humelbagen from her baby thru a crowd in Ninth-street, thinking she was a Rockefeller woman who had spurned him. Springer to-night revived from an alcoholic stupor and raved over the fatal mistake.

Mrs. Humelbagen had been married only seventeen months and was wheeling her six-months-old baby along Ninth-street, on a shopping trip. As she stopped to rearrange the infant in the cab, Springer stepped up and muttered a threat that caused the young mother to retreat a few paces from the baby carriage.

With a hand made unsteady by drink, Springer drew a revolver and fired at the woman, missing her. As the man paid no attention to the child, but started toward the mother, she turned and fled down the street, pursued by Springer.

A second shot missed Mrs. Humelbagen as she ran, and, nearly overcome by fright, she tried to enter a grocery, calling for help. Just as she reached the door of the grocery, Springer fired a third shot, and the bullet struck her dead as she fell into the arms of Grocer Anton, moaning, "Save me for my poor baby's sake."

POLICE KEEP UP THEIR ANTI-GAMBLING CRUSADE

Building Permits Amount to About Two Million.—Raid on Chinese Store.

HAMILTON, June 2.—(Special.)—The police continued their anti-gambling crusade to-day. Great crowds went down to visit the Hamilton Jockey Club tracks, but the management locked the place up and had policemen posted at the gates.

That did not prevent the usual "crap" games from places outside the gates. Constables Tuck and Campbell, in plain clothes, and a number of county constables, swooped down on a couple of games in the morning and on in the afternoon. Those arrested on the charge of gambling are as follows: Lou Conley, 196 North John-street; Joseph Corner, West-avenue; J. Rosart, 112-1/2 North James-street. Rosart was the only one allowed out on bail.

The feast of Corpus Christi was celebrated in the Catholic churches this morning. The usual processions around the church grounds were held. At St. Mary's Cathedral this morning about 100 children received their first communion, and ninety-five were confirmed.

Run Over by Auto. John Simpson, 33 East Stuart-street, received what is believed to be a fatal injury about 2.30 this afternoon when he was run over by a motor car.

REAR-END COLLISION. Street Car Vestibules Smashed Up in an Accident Lee Avenue.

There was considerable destruction of street railway property, but fortunately no injury to the passengers, in a rear-end collision between a couple of cars at the corner of Lee-avenue and Queen-street at 8.45 o'clock last night.

The accident was the result of one car following too closely on another and being unable to stop in time when the first came to a halt.

The rear car—an open motor—crashed into an open trailer, which was attached to a westbound closed motor, and threw it right off the rails.

The vestibule of the rear motor and the hind vestibule of the trailer were badly smashed, but as there were no passengers on the trailer, no one was hurt.

Both cars were greatly well dented, and for a moment or two there was something like a panic among the startled people on board.

PREPARE FOR PICNIC. Drummers' Snack Club Get Things Into Shape.

HAMILTON, June 2.—(Special.)—Preparations were completed for the annual picnic of the Drummers' Snack Club at a meeting of the executive held here on Saturday at the Royal Club.

President J. W. Charles occupied the chair, and the others present were: Col. Stenmark, Col. Moore, Charles Smith of Bay Hill, Robert Usher, D. McGregor, R. Algie, George F. Campbell, J. W. H. Smith, J. H. Smith, Col. Thompson, Fred Hunt, R. E. Smith, M. P. Malone, E. Clark James Hooper, Peter Smith, David Griffith, Guy Laidlaw.

The different committees gave in their reports, which went to show that everything was in readiness for the event which is to come off early in July.

A good concert is on the program, and the features of which is a minstrel show to be put on by the Hamilton boys. Donald McGregor is looking after the night of Mary Manningering at the Princess Theatre with the appearance of the late S. A. Ryan, a former treasurer.

&& PUBLIC 22 AMUSEMENTS

An event to which our playgoers have been looking forward with more than ordinary interest is the appearance here to-night of Mary Manningering at the Princess Theatre with the appearance of the late S. A. Ryan, a former treasurer.

A drama of the mountains of Colorado is entitled "At Cripple Creek," and will be the closing attraction at the Majestic Theatre, opening with a matinee to-night. "At Cripple Creek" tells a simple story of pure heart interest, absorbing, dramatic and powerful. Many novel effects are introduced and sensation follows sensation with breathless rapidity.

Shea's Theatre closed for the season on Saturday night to reopen on or about Aug. 5.

Also the weather last week was not the best for park-goers, large numbers visited Hanlan's Point, and enjoyed themselves. There is so much to amuse both old and young

1925 Child's One-Piece Dress.

Closed at Centre of Back and With Dutch Neck.
Paris Pattern No. 2955.
All Seams Allowed.
The one-piece dress solves many vexing problems for the mother, and this latest development of the familiar idea presents some novel features that will win for it new votaries. Made in all-white, of pique or duck or linen, with a ruffle of Hamburg edging on the collar, and a similar insertion on the front box-pleat, neck-yoke and sleeve-hands, it is the daintiest little frock imaginable.
The pattern is in four sizes—2 to 8 years. For a child of 6 years, the dress requires 2 7/8 yards of goods 27 inches wide, or 3 yards 38 inches wide, or 2 3/4 yards 42 inches wide; 1 1/8 yards of insertion and 2 1/2 yards of edging to trim.
Price of pattern, 10 cents.

SHOULD TEACH CHILDREN TO LOVE ALL BIRD-LIFE

War has been declared by the New Haven Bird Club against the use of the wings and feathers of birds which are being such favor as hat trimmings this season. While thousands of these wings and breasts are manufactured and colored to suit the dictates of fashion, thousands more are genuine wings and genuine breasts, and their wholesale use as at present means that thousands of birds must lose their lives to supply embellishments for my-lady's chapeau. Fashion turns itself inside out from season to season. One year we trim our hats with ribbon, nothing but ribbon, the next season flowers, the next ostrich feathers, and the next wings, and so it goes. If there has been a chance of obtaining a hearing, much less of making a headway when Fashion demands a thing and has launched its ideas for a season. At least this is true of this generation of women, who worship more or less blindly at its feet.
If the humane men and women who are interested in preserving the birds and in preventing the torture of these tiny creatures would have their good intentions and efforts bear fruit, they must, to a very great extent, tolerate what exists and devote their energies in this direction to the school children. It is the coming generations who can make the killing and torturing of all birds and animals an impossible thing that will bring about the change if it is to be accomplished.
There is no better way to impress the lesson of kindness and consideration to birds upon children than by instruction that takes them into the fields and woods, where many winged creatures may be studied and viewed at their own pleasure. Particularly this season can an interest and an understanding that the birds are not unlike human beings and entitled to the same measure of consideration be cultivated. For the

SHOULD TEACH CHILDREN TO LOVE ALL BIRD-LIFE

birds are building their nests now, and their cunning, thrifty habits are a lesson in themselves and very entertaining to the average child.
It is said that most of the damage that is done to birds is done by the birds of commercial gain is done thru ignorance. The little boy who spies a delicately-constructed nest high up in one of the branches of a tree does not know oftentimes of the tremendous hard work that it represents to two little birds, the purpose for which it was built and the consternation and suffering its loss will cause. He does not realize that if the nest, he carries away contains eggs it is quite as the same great giant came along and carried him and his little sisters and brothers off under the eyes of his mother.
He doesn't know, but he can be taught, and perhaps some day, if this system of teaching children to be considerate of all things that live and breathe is persisted in, we shall ultimately produce a race of women who will not wear hats and wings not procure them at their retailer's beauty. The young are thus left in the nest and starve to death, having no one to supply them with food. These are the most beautiful and becoming trimmings. Let a woman stop and consider from whence they come and they will undoubtedly instantly lose favor with any woman whose heart is in the right place, and who really desires to do as she would be done by.

Royal Doctors.

Writes the Marquis de Fontenay: "King Alfonso's action in bestowing the dignity of a marquis upon Dr. Guitierrez, the principal Spanish physician in attendance on the young queen at the time of the birth of her little boy the other day, serves to recall the fact that London Punch, whose ponderous British wit is of the most ultra-respectable order, on a recent occasion suggested that a peerage rather than a mere baronetcy should be conferred upon the physician in attendance on the English royal family, and that he should be invested with the title of 'Lord Deliverer.' Monarchs are not so easily won over by flattery as they bestow on occasions such as these, and no one seems disposed to cavil at the royal munificence in this matter for the burden of responsibility resting upon the physician is very great, since the entire succession of the crown, and the fate not alone of the dynasty, but of the entire nation may be affected by any untoward occurrence. To such a degree is the physician here accessible by the royal family and by the people, in the event of anything going wrong, that the only thing that the monarch can do is to grant him the peerage which is a child's commission. This was the course adopted by Sir Richard Croft, the accoucheur of Princess Charlotte of England, whose death in childbirth thru his alleged mismanagement of the case had the effect of placing Queen Victoria upon the throne.

Do not lose sight of the \$15 Semi-ready Suits. With the upshoot on all-wool cloth prices there cannot long be many real Semi-ready Tailored Suits at \$15. You had better enjoy them while you may.

As a matter of fact the Semi-ready Company claim that these \$15 Suits cost them an average of \$1.00 more than they get for them. And costs are still advancing on the cloth market.

We've been in the factory. We know that the same men make these \$15 Suits as make the \$25 and \$30 Semi-ready Suits. And they have no cheap workmen in the Semi-ready tailor shops.

EATON'S INNOVATION HANDSOME GRILL ROOM

Magnificent Accommodation For Diners is Now to Be Provided At Big Store.

Canada's wonderful progress, boundless wealth and limitless resources have attracted the attention of the whole world. Toronto in particular is basking in the sunshine of unparalleled prosperity.

No greater evidence of this can be seen than at the famous Eaton store. The management appear to look upon every wish expressed by a patron as a command to be instantly obeyed. Eaton's has long been the most popular place for dining when down town. Every day 3000 to 4000 people are served with meals at popular prices.
Not content with this, Eatons have now added a spacious grill and handsome suite of private dining rooms, which will be opened to-day. The new dining room is a fine apartment of 15 square, with weathered oak panels and beam ceiling. The upper portions of the wall are covered with tapestry, carried out by a dandy, the panels are plate racks, upon which are placed some very beautiful specimens of old Dutch, china, bowls and plates. On the walls are hung exquisite old-style etchings and engravings that will seriously tempt many a collector to greater than the best of the commandments had been omitted from the Mosaic law.
The windows are fitted with antique style leaded lights. This room contains 24 tables. On these near the wall are placed table lights in brass of choice design. Suspended from the ceiling is an electrifier of similar construction. Telephones are on each side of the room, thus enabling the diner to converse with any part of the city desired.
There are three semi-private rooms, fitted and furnished similar to the foregoing, where the amount of privacy desired may be secured. Adjoining is the golden room, a dainty apartment equipped in splendor as its name implies. Everything here is of golden brown. On the floor is a superb pile carpet, plush curtains hang over the doors, which are drawn to secure privacy.
This and the next room are of immense service to those desiring to entertain guests. So well equipped is this room that one may give a banquet to 60 or 70 guests with greater comfort than can be done at home. Many people shrink from giving dinner parties because of the expense. Here the expense is a superb pile carpet, plush curtains hang over the doors, which are drawn to secure privacy.

WORK OF FARMERS' INSTITUTES

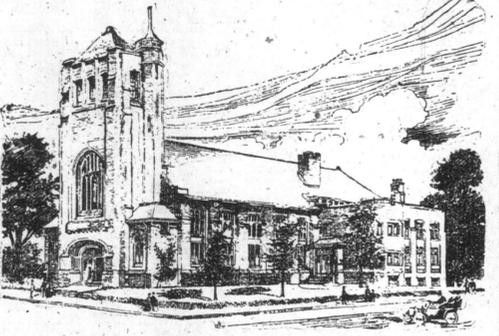

George Putnam, superintendent of Farmers' Institutes for Ontario, has issued a circular to the secretaries of institutes, saying in part:
"We regret that very little local assistance is furnished at many of the points visited by delegates. Until an effort is made on the part of the offices and secretaries of the institute to furnish local assistance, the greatest good will not be done. When only one meeting a year is held at each place, the amount of information imparted is necessarily very limited. It is suggested that the secretaries of the institute form themselves into Farmers' Institute clubs for the discussion of agricultural matters from time to time through the year, much greater good would result than under the present methods. We are pleased to note that the number of local clubs has been formed and that the work carried on has been found most beneficial to the members.
In order to have such subjects as are of prime importance in the different localities taken up at all meetings, we are suggesting to the institutes this year that, instead of giving them the benefit of addresses by only two delegations, we shall be prepared to send specialists in three or four different lines, provided the officers of the institute think it wise to arrange the work. Instead of all the supplementary meetings being attended by the same delegates, we would be glad to send special speakers to attend two or three meetings in each riding upon the following or other subjects of interest: 'Horse Raising,' 'Poultry Production and Sheep Raising,' 'Dairying and Bacon Production,' 'Fruit and Vegetable Growing,' 'Bee Keeping and Country Raising,' 'Hillside Cultivation and Improvement of Crops.'
The advantage in having special meetings of this nature will be that definite announcements can be made as to the subjects to be taken up at the meetings, and it will be generally understood that only one or two topics will be taken up and dealt with exhaustively. If this method is followed, it will be easier to secure local men to take part in the regular programs and discussions.
It is certain we must have more definiteness of purpose in the institute work. We cannot only invite our friends and neighbors to attend, but we must have definite meetings where there is an uncertainty as to the subjects to be discussed."

MACHINISTS' DEMANDS MAY END IN A STRIKE

Matter Left to Union Executive to Deal With This Week.
A strike of machinists may take place before the end of the week. At a meeting in Labor Temple on Saturday, attended by 300 members of the union, it was decided to leave the matter with the executive. The chief demand is that they receive wages for a nine-hour day similar to those now being had for 10 hours' labor. This is at the rate of 25 cents an hour.
The union demands are: 16 hours a week and a half, and after 5 o'clock, double time; for night shift work the men to receive 10 per cent above the ordinary rates; in traveling for out-of-town jobs, to be paid as the at work, and expenses additional.
Apprentices, aged 16 to 21, are to be allowed at one for each shop and one extra for each five machinists.
"Hardly" men are not to be employed as machinists.
In case of disagreement between masters and men, if a committee from the men cannot arrange it, arbitrators are to be chosen two from each side, who are to appoint a fifth man.
The agreement is to go into effect as dating from May 1, and last for a year.
The firms chiefly affected are: The Massey-Harris Company, Canada Foundry Company, Canada Cycle & Motor Company, Dodge Pulley Company, Fairbanks Scale Company, Inglis Company, Canadian Rolling Mill Company, Nelson Iron Works, Grey Foundry, Toronto Gas and Gasoline Engine Company. Negotiations have been in progress for two months.
About 60 structural iron-workers employed by the Hamilton Bridge Company went on strike Friday afternoon at the Exhibition Grounds because the contractors, French & Hewitt, were employing non-union carpenters. The strikers were working on the large central dome of the new agricultural building. French & Hewitt's representatives say they are not working, and will maintain an open shop. While they will not employ non-union men, many of them are being paid less than 25 cents an hour. The firm is, however, building the work independently of the Hamilton Bridge Company, who were doing the steel work under sub-contract.

PREPARE FOR GREATER TORONTO.

Optimism, not pessimism, should be the note of a progressive city. Far more opportunities have been lost by timidity than were even in part retrieved by belated recognition and frantic efforts after betterment. Here in Toronto—the capital of a province from its position and the abundance of its resources is second to none in the Dominion—there is ample justification for sanguine yet prudent anticipation. If our city governors were less concerned about security of tenure and more alive to the necessity of providing now for the deficiencies of the present and the requirements of the immediate future, they would better establish their claim to popular confidence.

All great cities have suffered more or less from this lack of foresight and courage. But there is less excuse now for inability or unwillingness to learn the lesson of experience and read the signs of the times. Nothing is more common to-day than the prophecy that within the compass of this century the population of Canada will number anything from thirty to a hundred millions. Is Toronto to stagnate while all this marvelous development is in progress, or is it to grow with the expanding nation? The history of the last decade is enough to show that its increase will continue to be at least correspondingly great, and that within a very few years the present suburban towns and townships must become part of the city.

Taking a strict view of the problem of Greater Toronto as it now offers itself, ordinary common-sense requires the council without a day's delay to survey comprehensively the existing situation and decide upon a comprehensive plan calculated to bring the public-services up to date and provide for the necessities of the imminent future. It should include preparation for the inclusion of the suburban districts, and for their linking up with the business centre. If the city council persists in following the happy-go-lucky, hap-hazard policy of doing as little as possible—no more, indeed, than to meet indifferently the most urgent needs—the end can only be confusion and huge ultimate expense in doing later, under worse conditions, what should be done now and ought to have been done long ago. Greater Toronto is coming, and the city must be ready for its advent.

HONEST ADMINISTRATION.

Governor Hughes of New York is steadily reaping the reward of his single-hearted and assiduous devotion to the cause of the people. Thanks to the popular confidence he has evoked as a result of his command of the measures he recommended for acceptance are going thru despite the open opposition of some state senators and representatives and the scarcely veiled disaffection of many more. When the hostile element appeared likely to prevail, instead of placating antagonism by concession, the governor appealed to the people and the response was more than sufficient to paralyze the malcontents. The latest chapter in the chequered political history of the State of New York should strengthen and stimulate reformers throughout the continent of America. Serve the people and they will trust you—trust the people and they will support you.

Speaking the other day to the Young Republican Club of Brooklyn, Governor Hughes indulged in some plain speaking of his own party. He declared his belief that if the sentiment of its rank and file had its way and was permitted to have voice thru the action of its representatives, "it will stand as it should stand, the invincible champion of the people's cause in their just demand for the elevation of the standards of public service and for the vindication of the supremacy of public rights over any private interest." Those who set private interest against the public interest, he declared, are neither Democrats nor Republicans. "They can teach no lessons of party loyalty—their loyalty is to the interest which they serve." This epigrammatic summary of the political situation in the United States is just as true of the corporation partisans of Canada, whatever the political label they wear. Their loyalty is not to their nominal party, but to the interests which they serve. The plea of it is that they are numerous enough, influential enough, both in governments and legislatures, to make the task of serving the people one of extraordinary difficulty.

The people have an effectual remedy if they will only use it. Let the electors of each constituency watch their representatives closely and insist that he stands in every case for the public interest, not for private interest. The same pressure that brought the recalcitrant Republican senators and representatives of New York to their knees will prove equally effectual in Canada if it is only exercised. There is not a candidate returned who does not profess an ardent desire to serve the people and a most virtuous resolve to resist all temptations to act contrary to the public interest. Yet administrative abuses are rampant; public service companies are insufficiently controlled; provincial rights are invaded by the use of transparent pretences; great corporations break their statutory and contractual obligations and the regulations imposed for the public safety with absolute impunity. The electors of the Dominion and the provinces have only themselves to blame if these conditions continue. In Governor Hughes' words—"Party loyalty is loyalty to the interest of a great party which may be the instrument of a wise and just administration of government." A party which does not do this is not deserving of loyalty and the only way to make it worthy is to ensure an administration that will "redeem its honorable pledges to the state." If a sufficient number of the constituencies of Canada insisted on distinct pledges and held their representatives strictly to account for their fulfillment that administration could be obtained.

MEXICANIZING THE UNITED STATES.

In considering the matter of President Roosevelt's successor, there has been a tacit agreement not to discuss the third-term proposition. Some deny that it would be a "third term." Others contend that Mr. Roosevelt would never accept a nomination. Still others, willing, under the circumstances, to stretch a point in this particular case, are not unwilling to subscribe to the general rule which limits presidential service to the years of Washington. It has remained for Senator Foraker of Ohio to distinctly challenge the third term. Always adroit to seize an argument easily understood by the people, he says: "We have an object lesson in the experience of Mexico. She is probably more prosperous and happy under Diaz than she could be under anybody else, for he is one of the most marvelous and most successful of the world's rulers, but so far at least as the choice of her president is concerned, Mexico is no longer a republic, except only in name." The contention that Mr. Roosevelt is now serving his first term because not elected president until 1904, would seem to be settled against him. When President Harrison died in 1841, there were many who contended that his successor should be known as "John Tyler, vice-president of the United States, acting as president." Tyler insisted that Harrison's death made him President of the United States, in name and in fact. He had his way, and the point was never revived, although no less than five vice-presidents have succeeded. Meanwhile, it would appear that the strongest anti-third-term man in the United States is Mr. Roosevelt himself. It can only be because he agrees with what has heretofore been so strong a sentiment among the people that he is willing to retire from an office which he is so well qualified to fill for many years to come. Should he persist in declining a third term, it will be one a precedent hard for any successor to override hereafter.

WEST YORK ELECTION.

West York has spoken with no uncertain sound, and the absolute unanimity of the support accorded the power policy of the provincial government should confirm the premier's belief in its efficacy and popularity. This election is important because it affords another proof that the surest way of winning and preserving public confidence is to maintain public rights. Mr. Whitney has it in his power to perform an inestimable service for Ontario, by ridding the province, once and for all, of that malignant party spirit which is prepared to sacrifice the most sacred principles of democratic government to its own

Some Items Condensed From The Sunday World

A writ has been issued against the directors of the Grand Valley Railway Co. to enjoin the proposed sale of the road to M. A. Verrier of Pittsburgh. Serious allegations are made by the petitioner, J. S. Clark, former president of the road.

Dr. Forbes Godfrey was on Saturday elected to the legislature to represent West York by 2090 majority.

Nominations to fill the vacancy for alderman in the first ward brought out three candidates, W. T. Stewart, roofer; W. J. Sanderson, manager McColl Oil Co., and J. C. Graham, manager Graham Ice Co. Ex-Ald. Fleming declined a nomination, as he will again contest for the board of control on Jan. 1.

Three earthquake shocks frightened the inhabitants of Guayaquil, Ecuador, early Saturday.

The steamer Selwyn Eddy was sunk after a collision with the steel barge Masada in the Detroit River Saturday morning.

Prince Von Baulow, commenting on the visit of Sir Wilfrid Laurier to Germany, spoke in high terms of Canada, whose progress he said is watched by G. many with sympathetic concern.

The jury in the Asselin libel case at Quebec disagreed.

The strike of French seamen has extended to every port in France, and at Rotterdam a general strike of sailors has also been declared.

Haywood, now on trial at Boise, charged with the Steuenberg murder, was seized with terrific pains in his head Saturday and is in a state of collapse.

Gen. Bliot, ex-minister of war for France, and a famous figure in the Franco-Prussian war, is dead.

predominance. A better and safer way is to exhibit vigilant activity in defending the interests of the people, and in protecting the public resources, and utilities from improper exploitation. Once an administration establishes this reputation, it can trust the electors, and West York has made their response plain.

ORDERED "C.O.D." PARCELS

To Different Names at Hotel Room, Not His.

What looks like a scheme to cover shoplifting operations was disclosed when Ernest Robert Gleason was arrested Saturday afternoon in Seaton's hotel, Yonge street.

W. J. Wright asked for his arrest, saying that he had seen him trying to sell brushes which he believed to have been stolen from the Crown Drug Company, Alice and Yonge streets.

Wright says that Gleason bought a parcel of goods, including brushes, at the store of Charles Blake, Room 40, Tremont street. It was not claimed on delivery, and no such person was at the store, but a parcel had come in the same way to J. Cadden at the same room. Both were returned.

Wright saw Gleason offering brushes which he believed to be his for sale, but, although several remembered his having offered the goods, nothing of the kind was found on him.

BOY KILLS HIS FATHER.

Was Protecting Mother Against His Attacks.

NEW YORK, June 2.—In protecting his mother, Anthony Fusello, a 19-year-old lad, shot and killed his father, John Fusello, a laborer. The boy was arrested and told the police that his father came home in an irresponsible condition to-day and threatened the mother with a revolver.

He declared he grappled with the elder man, wrested the pistol away, and that his father then started for him with a knife. Then he pointed the loaded gun at his father's head and fired.

FINED \$1,500,000.

Convicted of Violating Anti-Trust Law and Entering State by Fraud.

AUSTIN, Texas, June 2.—The Pierce Oil Company of Missouri yesterday was adjudged guilty of violating the anti-trust laws of Texas, convicted of having entered the state by fraud, and fined \$1,500,000. The state request for ousting proceedings was granted.

The issue of the present legal controversy is the anti-trust laws of 1890 and 1893, of the penalties assessed by the verdict of the jury, \$387,375 will go to the county attorney if the verdict is finally upheld.

COAL \$6.75 FOR CASH.

Commodity Not Likely to Get Further Rise in the Fall.

The local coal dealers on Saturday raised the price of coal to \$7 per ton, or \$6.75 for cash.

"No particular reason, but only on general principles" is the explanation given by Patrick Burns. He did not think there would be a further increase in the fall.

E. Wheeler of the Wheeler Coal Co. states that he does not believe the price will exceed \$7 per ton during the winter.

"If the price should be raised a little it will be due to increased expenses locally, but I don't think there is any cause for alarm in this respect," said Mr. Wheeler.

To Set Aside Deed. Martha A. McDonald is asking the court to have a certain deed set aside as fraudulent and void. She has made Eugene Horan and John Curran defendants to the action.

Shoe Trouble. The Slater Shoe Co. have begun an action against W. G. Begg & Co. of Collingwood, claiming an injunction restraining the defendants from offering for sale the "Slater Shoe" so long as they have the brand or price upon them.

A LIVING GHOST! That is What Her Friends Said About Her.

Read how Mrs. James Steele, Waterville, Que., was cured by the use of MILBURN'S HEART AND NERVE PILLS.

She writes: "For the past fourteen months I was nervous all the time, and became so nervous I was unable to walk across the house without getting dizzy. My friends told me I looked like a living ghost and advised me to try Milburn's Heart and Nerve Pills. I got two boxes and within two weeks I had improved wonderfully and after finishing the fourth box I was completely cured. They are the greatest pills I ever used and I can recommend them to all sufferers."

Milburn's Heart and Nerve Pills act directly on the disordered heart and nerves, and restore them to healthy action. They have no equal for reviving and strengthening the heart beat, invigorating the nervous system, and acting as a food for the blood, improving its quality, making it rich and red.

Price 50 cents per box or 3 boxes for \$1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

MEMORIES OF FORTY-ONE YEARS AGO Recalled by Commemoration of Fenian Raid.

Twinges of old wounds and memories of the battle stirred the members of the Veterans' Association yesterday afternoon, as they gathered to commemorate the Fenian Raid and the field-day at Ridgeway forty-one years before. About eighty met in Riverside Park, under the presidency of Lieut. J. K. Marshall. Among the past presidents who were given command of sections when the company proceeded to decorate the graves in the Necropolis and at St. James' were: Capt. W. Fahey, Capt. George Musson, David Creighton, T. R. Whiteside, W. M. Miller and J. T. Hornbrook. Walter H. Bright followed later. Charles Winter, Deer Park, who received a terrible wound in the engagement, and Prof. James G. McLaughlin, who were present, and Mark Bush of the Meaford Rifles was another old soldier present. The men are wonderfully hale for their years, averaging nearer 70 than 60, and they marched steadily from the one cemetery to the other.

The Necropolis are interred Ensign Malcolm McEachern, No. 5 Company; Sergt. Hugh Matheson, No. 2 Company, and Private William Fairbanks, Company, No. 9 Company, all of the Queen's Own. Each grave was decorated with crosses and flags. The graves of the Canadian Ensign, and a collect was repeated by one of the clergymen.

"We praise Thy Holy Name, O Lord, for all Thy mercies that departed this life in Thy faith and fear, and for Thy servant who departed this life in the discharge of his duty. We beseech Thee to give us grace to follow his good example, that we may be partakers of Thy heavenly Kingdom. Grant this, O merciful Father, for Jesus Christ, His sake. Amen."

At the close of the decorations in the Necropolis the band was sung. Rev. G. I. Taylor, St. Bartholomew's Church, chaplain to the association, and both old comrades in arms, took part in the solemn services.

Shoe Trouble. The Slater Shoe Co. have begun an action against W. G. Begg & Co. of Collingwood, claiming an injunction restraining the defendants from offering for sale the "Slater Shoe" so long as they have the brand or price upon them.

A LIVING GHOST! That is What Her Friends Said About Her.

Read how Mrs. James Steele, Waterville, Que., was cured by the use of MILBURN'S HEART AND NERVE PILLS.

She writes: "For the past fourteen months I was nervous all the time, and became so nervous I was unable to walk across the house without getting dizzy. My friends told me I looked like a living ghost and advised me to try Milburn's Heart and Nerve Pills. I got two boxes and within two weeks I had improved wonderfully and after finishing the fourth box I was completely cured. They are the greatest pills I ever used and I can recommend them to all sufferers."

Milburn's Heart and Nerve Pills act directly on the disordered heart and nerves, and restore them to healthy action. They have no equal for reviving and strengthening the heart beat, invigorating the nervous system, and acting as a food for the blood, improving its quality, making it rich and red.

Price 50 cents per box or 3 boxes for \$1.25 at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

EARLY CLOSING Commencing 1st June and on each Saturday of JUNE, JULY and AUGUST. This store will close at 1 p.m.

Why You Save On Diamonds

The greatest factor in building up our Diamond business—the largest in Canada—has been due to the great savings made by our customers.

And there is a reason for it, a "Ryrie" Diamond is not an ordinary Diamond, but one that has been personally selected by a member of our firm at "spot cash" prices from the Amsterdam cutters.

Then there is absolutely no duty whatever on Diamonds entering Canada.

And still further. Besides purchasing at money saving prices, the customer receives our personal quality guarantee.

EDUCATION CONFERENCE.
 One Under Government Auspices Likely To Be Held In 1911.
 (Canadian Associated Press Cable).
 LONDON, June 3.—An official report of the private meetings of the federal conference on education shows that in reference to the interchange of teachers and inspectors the conference resolved that it was desirable that financial and administrative arrangements should be made for such a purpose. The conference also expressed the opinion that quadrilateral conferences were desirable, and that the first should be convened by the imperial government. This will be held probably in 1911.

THREATENED THIS JUDGE WITH LOSS OF PENSION

Another Sensational Feature to Asselin Label Case—Jury Disagrees.

QUEBEC, June 2.—(Special.)—The disagreement of the jury in the Asselin label case Saturday and their immediate dismissal by the judge was no surprise, for as the judge himself declared in addressing the jury, the case had assumed quite a political character for some time past, or ever since the correspondence concerning the fund came out and evidence had been given.

Sensational Incident.
 The most sensational incident of the day was the court's statement that it had received threatening letters during the trial. Judge Bossé did not relate this fact to the jury, but only after the latter had retired to consider its verdict and when the judge proceeded to take up the case against the sole newspaper for contempt of court in publishing the threatening letters.

Everybody Attacked.
 In dealing with this case Judge Bossé said that a regular tempest seemed to have blown over the city since the trial commenced. Everybody had been attacked, including lawyers and witnesses, and even the court itself. He had been threatened by an anonymous letter, and if he did not change his method of conducting the case, it might seem incredible, but it was true.

No Chance For Agreement.
 The court spoke for an hour and a half, and the jury, who retired at 11.30, returned at 12.45 and did not agree, even if locked up for a year. They were then discharged. The change was a modest one, but it was a change, and the belief that the case should never have come before it, but have gone to the civil courts. He had done his best to prevent it coming, but the crown had insisted.

May Be a Commission.
 The statement is made, also it cannot be confirmed, that Sir Lewis Jetté, Lieut.-Governor of Quebec, will insist that a royal commission be appointed to enquire into several of the matters brought out at the trial.

HAD NARROW ESCAPE.
 Ernest Blackman Picked Up by Trolley Car Fender.

COBALT --- Mining Markets Weak From Tretthewey Announcement --- COBALT

MINING MARKETS QUIET PRICES ARE IRREGULAR New Find Strengthens Nipissing Shares, But Other Issues Are Irregular and Weak.

The news from the Cobalt camp recently is highly encouraging to those looking beyond the immediate present for the value of the various securities in this district. The premier mining property in the camp, the Nipissing, has again come to the front with an exceedingly valuable find, which was uncovered only a few days ago. The new vein is believed to be almost as good as the Bonanza strike, which made this property so famous, and which has given such great wealth to the company. The vein is understood to have been immediately adjacent to the McKinley-Darrah property, and is naturally expected to make big money for the shareholders of this property.

The Toronto market for the mining securities is still in a very dull condition, and trading is largely restricted to a few properties, of which Tretthewey and Foster are the principal. A small improvement in the price of both of these issues occurred early in the week, in the one case by reason of buying for London accounts, and, in the other, that of Foster, for the reason that the expert report on this mine is believed to be more favorable than the opinions recently held of the claim. The confidence which appears to have been lost in the camp because of the slump in the various stocks is gradually being restored in a substantial way; that is by actual development, which gives a better basis of value to the mines than has hitherto been the case. The shares, which are not active features of the market, are dull and more depressed than the others, and where liquidation has to be effected the prices show a gradual decline. Many of the local brokers spent the end of last week and the beginning of this in the camp, and the development activity now going on, as witnessed during this visit, has made a good impression and improved sentiment in the market.

The weak undertone at the end of the week was due to the decision of the Tretthewey directors to pay no further dividends for a time. The passing of dividends until the property is thoroughly prospected is a protective measure that appears commendable under existing conditions.

NEWMARKET, June 2.—(Special.)—In a convention which Saturday packed the town hall to overflowing, Frederick Underhill of Aurora was nominated to contest the riding of North York in the Liberal interest in the provincial legislature in opposition to the sitting member, Herbert Lennox, M. L. A.

Mr. Underhill, in accepting the nomination, declared that he would leave no stone unturned to redeem North York, and if necessary would spend 20 hours of every 24 to that end. He was well received.

Organizer Fred Inwood gave a ten-minute talk, and declared that the Whitney government had out of 100 license inspectors, dismissed all but five, and appointed some 6000 justices of the peace.

Hon. G. P. Graham said the Liberal government was dead. With the causes of their death he was not concerned. The Whitney administration had found a surplus of some \$2,000,000, but were dissipating it. They had, he declared, condemned the Soo loan, the building of the government railway, and every good movement.

He did not follow that it had been improperly secured, nor that the licensee had ever been approached in the matter, but it might well be thought good policy to insure in a company in which the representative licensee from M. Soper to Frank McDonald was left over for another hearing, as there are some accounts that are not yet settled.

The property committee of the town council were to have met Saturday night, but owing to the fact that there was not a quorum no meeting took place.

On Saturday at noon one of the drivers of the state bakery was feeding his horse near the corner of Ethel-avenue and Argyle-road. A passing engine startled the horse and he ran away north on Argyle-road, and was stopped by Charles Taylor who happened to be strolling outside the polling booth. No damage was done.

MARKHAM, June 2.—E. Somerville has been appointed by the town council to superintend the grading at the southern end of the new bridge, and the work has been going on under his superintendence for a week.

FOR THE BEST MAN

Weddings all this month. Every "best man," every groomsmen and usher, must wear the inevitable but the handsome and becoming Silk Hat. In June we have an extra large stock of these "tiles" and are prepared to meet all comers and give perfect satisfaction, with the best makes known.

In stiff hats and soft hats we carry the full lines of such makers as Knox, Youmans, Stinson, Peol, Christy and Glyn.

SILK HATS \$5.00 to \$8.00 STIFF HATS \$2.50 to \$5.00 SOFT HATS \$2.00 to \$3.50

Fairweather 84-86 YONGE STREET.

Markham will be held here on June 6. H. S. Milne of "Hillside" has purchased a new 20 horse-power touring car.

Two seals were caught in the Rouge River the other day measuring 3 feet in length. It is 30 years since any were caught here before.

The funeral of James Stacey, who formerly lived with his nephew Thomas, about a mile and a quarter south of Markham, took place yesterday to Markham Cemetery. Mr. Stacey was in his 86th year, and the fact that he wandered away from his nephew's house on Monday, and lay exposed all night in the woods hastened his death.

North Toronto. NORTH TOWN, June 2.—The by-election yesterday created very little stir, and the number of votes polled as one of the smallest in the history of the town. In Englishton West ward, with a voting capacity of about 215, only 43 were polled for Dr. Godfrey, 2 for Williams and one for Peol. In Englishton East Ward, out of a possible of 223 votes Dr. Godfrey secured 36, Williams 1, and Peol none.

The vital statistics for the Township of York for the month of May are: Thirteen marriages, 47 births and 13 deaths. Joseph Seward of Sherwood-avenue has purchased a building lot with 100 feet frontage on Kensington-avenue. Mr. Seward will erect two residences on it.

JACKSON'S POINT. JACKSON'S POINT, June 2.—The formal opening of the extension of the new road to this place was successfully carried out to-day by the installation of a thru service from the city to the lake. Immense crowds were carried thru, notwithstanding the fact that no special prominence was given the event. A number of tourists from Newmarket, are already camped here for the summer, and indications point to the greatest season in the history of the "Point."

County Council. At the June session of the York County council, which opens in the council chamber on Monday, June 10, with the exception of the "good roads" movement, there are no outstanding questions. The January session of the council practically adopted the measure, but the action of the several municipalities since that time has not been uniform. The council has minimized the general adoption of the plan. Scarborough prefers to manage its own road matters, and Etobicoke has a perfect system of good roads. Reeve Warner's measure has practically thrown down the "good roads" measure.

The scheme altogether, involving the outlay of a great deal of government money, and which, if carried out, would mean a perfect system of good roads all thru the country, is a most ambitious one, and the result of the June session will be awaited with interest.

LOCAL OPTION SIMPLY CLOSES THE BAR

Hotel keeping in itself is an honorable business. Its association with the sale of strong drink gives it a bad reputation to-day. LOCAL OPTION cuts the two asunder and where carried takes away the black stain now upon the business. It separates the bad from the good. LOCAL OPTION is the hotelkeeper's best friend.
