LACHINE, Que.

An incorporated town in Jacques Cartier co., on Lake St Louis, and on the Grand Trunk Railway (Province Line division), 8 miles from Montreal. It is the summer residence of many Montrealers, and a favorite resort of pleasure parties during the winter. It contains churches for the Episcopalians, Roman Catholics, Presbyterians and Methodists, express and telegraph offices, 1 convent, 15 stores, 1 brewery, 8 hotels and 3 schools. Lachine is the starting and landing place for the Ottawa Line of steamers; and the Richelieu Co's Line of steamers for Kingston, Toronto and Hamilton leave daily at noon during the summer season. The Indian village of Caughnawaga lies immediately opposite Lachine. Pop. census 1891, 3761.

LACHUTE, Que.

The county town of Argenteuil co., formerly formed part of the parish of St. Jerusalem, but but was detached therefrom and erected into a town by special act of Parliament in 1885, under the name of "*Lachute Town.*" It is situated on the North River, which here washes the base of the Laurentian range of mountains and runs through the town in a winding and picturesque course. The West River also runs through the north-west corner of the town. It contains the county registry office, is the place where the sessions of the Circuit Court are held, and has also a Commissioners' Court for the trial of small causes and a municipal council, composed of a mayor and nine councillors. The C. P. R. passes through the town, which is 44 miles west of Montreal and about 70 miles east of Ottawa. The St. Andrews branch of the Ottawa Valley Ry. also runs from Lachute to Geneva and St. Andrews. It contains 6 churches, 2 Presbyterian, 1 Methodist, 1 Episcopalian, 1 Baptist and 1 Roman Catholic, a large and flourishing academy, capable of accommodating 300 pupils, 1 French school, 1 very large and extensive paper mill, 1 pulp mill, 1 cloth factory, 2 carriage factories, 2 iron foundries, furniture, sash and door factory, 1 grist mill, 2 saw mills, 1 bobbin factory, 3 bakeries, 2 post offices, 4 hotels, money order office, post office savings bank, 2 telegraph offices, 1 telephone office, 1 electric light station, 1 express office, some 50 stores, 4 livery stables, 2 printing offices, a weekly newspaper, and possesses a vast amount of water power. Pop. 1812.

LIVERPOOL, N.S.

A seaport town of Nova Scotia, capital of Queen's co., situated on the right bank of the River Mersey at its entrance into Liverpool Harbor, 75 miles south-west of Halifax. It is well and regularly built, and is the centre of an important and increasing trade. To the north of Coffin's Island, the channel is not navigable for vessels drawing more than 9 feet of water; but the passage to the south is fully ½ miles wide with from 15 to 18 fathoms of water. There is a lighthouse on Coffin's Island exhibiting a revolving light, 75 feet above the level of the sea. Liverpool contains, besides the county buildings, several places of worship, 1 telegraph office, 2 printing offices issuing weekly newspapers, 2 saw and planing mills, 1 tannery, 2 carriage factories, a number of stores, 2 branch banks and manufactories of leather. Head quarters of the Queens County Telephone Co., which connects with the Nova Scotia telephone system. It has considerable of a shipbuilding and shipping trade. A free bridge spans the Mersey from the most central business part of the town to Bristol. A large fire destroyed a portion of the business part of the town in Sept., 1895, causing severe losses, but new buildings are now nearly completed. Liverpool is a port of entry. Pop. 2500.

LONDON, Ont.

The capital of Middlesex co., on the River Thames, 121 miles west of Toronto, 107 miles E. N. E. of Windsor. It has a fine appearance, the streets are lighted by electricity, and are wide, and run at right angles to each other. Upon them are many excellent buildings. It is the centre of the finest agricultural region of Ontario, and a sort of diverging centre of four railways, being a very important station of the southern division G. T. R. from Niagara Falls to Windsor, with branches to Sarnia, St. Mary's and Wingham. It is also an important station on the C. P. R. The Michigan Central runs into the city from St. Thomas over the London and Port Stanley tracks, and the Lake Erie and Detroit River Railway have leased the London & Port Stanley road and run trains between these points. London contains branches of the following banks, Montreal, Commerce, Merchants, Molsons, British North America and Toronto, 2 telegraph agencies, a number of fine hotels, exhibition building, lunatic asylum, orphan asylum, 2 hospitals, 9 schools, 1 convent, the Western university, with several faculties, and Hellmuth ladies' college, a number of churches, including St. Paul's cathedral, Episcopal, and the Roman Catholic cathedral. The Queen Street Methodist congregation whose edifice was recently destroyed by fire, are building a very handsome structure on Dufferin avenue. The manufactories of London are represented by extensive iron foundries and machine shops, mills, breweries, chemical works, peroleum refineries, tanneries, boot and shoe, soap and candle, musical instrument, carriage and other factories, &c. The commercial affairs of the city are regulated by a Board of Trade. The city returns one member to the House of Commons and 1 to the Provincial Legislature. During the summer months large numbers of invalids and health seekers visit London to enjoy the benefit of its white sulphur springs (famed for their medicinal qualities). London is a port of entry.

Pop. in 1852, 6034; 1861, 11,555; 1871, 15,826; 1881, 26,266; 1891, 31,977; 1895, 36,500.

MATTAWA, Ont.

An incorporated town in the townships of Papineau and Mattawan, district of Nipissing, situated at the confluence of the Ottawa with the Mattawan River, from which it derives its name—Mah-tah-wan signifying in Algonquin "Meeting of the waters." Mattawa is the junction of the C. P. R. with the Lake Temiscamingue Colonization Ry. It is the point of departure for settlers going into the far-famed Temiscamingue region, and an important distributing point for lumber supplies. The Bank of Ottawa has a branch here. There are 4 churches, English, Methodist, Presbyterian and Roman Catholic, 1 General hospital, 2 weekly papers, 1 tannery, 1 grist mill, 2 factories, 7 hotels and 40 stores. Mattawa is doubtless the point from which the projected Ottawa ship canal will diverge from the Ottawa River. It has a well equipped steam fire engine, an efficient fire brigade and hook and ladder company. Pop. 2000.

Bank of Ottawa, F. R. Godwin, manager

MONTEBELLO, Que.

An incorporated village in Ottawa co., on the River Ottawa and on the Can. Pac. Ry., 70 miles from Montreal. It was originally inhabited by Indians of the Algonquin tribe, who called it "Quiennontaterous," signifying a place intersected by two mountains. It contains a new Roman Catholic church, 1 chapel, 2 telegraph and 1 express office, 3 hotels, 6 stores, 1 convent, 1 Protestant school, 1 cheese factory, 1 steam saw mill and tannery. An aqueduct of tamarac logs brings a pure mountain stream into the village and supplies every house with water. Its post is called Owens. office. Bank at Hull. Pop. 900.

H. A. NELSON & SONS, MONTREAL.

MONTREAL, Que.

A city in Hochelaga co., Que., the commercial metropolis of Canada, and the largest city in the Dominion. It is situated on the south side of the island of Montreal at the head of the St. Lawrence ocean navigation and the commencement of inland navigation. It is, of course, connected by rail with all points of importance in America, being the headquarters of the Canadian Pacific and Grand Trunk Railways, and being a terminus of several others.

The city is between the mountain and the St Lawrence, here about 2 miles wide, and is 986 miles from the Straits of Belle Isle and 457 miles from New York by the Champlain system of navigation. It is 274 miles by water from Port Arthur, at the head of Lake Superior, with which it is connected by the finest canal system in the world. It is divided into 9 wards, and has over 200 miles of streets and lanes. Of recent years vast sums have been expended in enlargement and improvement of the streets, and now they will compare favorably with those of any other city on this continent. The principal streets have large well built edifices, constructed chiefly of limestone quarried near the city. These buildings, combined with the effect of the lofty towers and spires, give the city a very imposing appearance when viewed from a distance. Notre Dame is the main street, running on the centre of the ridge on which the city is built, but St James street is wider and more elegant.

The city is well supplied with water, electricity, electric lights and gas, and has one of the finest electric street railways on the continent.

The principal public buildings are the City Hall, Court House, Post Office, Custom House, Seminary of St Sulpice, Grey Nunnery, Montreal College, McGill University, St. Mary's College, Young Men's Christian Association, Academy of Music, Queen's Theatre, Theatre Royal, Victoria Skating Rink, Protestant House of Industry and Refuge, St. Bridget's House of Refuge, Protestant Orphan Asylum, Deaf and Dumb Asylums (Protestant and Catholic), the Hotel Dieu, Ladies' Benevolent Institution, Female Home, Protestant Infants' Home, Nordheimer's Hall, Mechanics' Hall, Sailors' Institute, St. George's Home, St. Andrew's Home, St James's Club, Windsor Hotel, New York Life building, Temple building, Royal Insurance building, Imperial building, Art Gallery, Royal Victoria Hospital, Montreal Telegraph office, Canada Life building, etc., and 8 markets, including the Bonsecours, a magnificent pile with a lofty dome, fronting the river. There are also a Society of Natural History, Mechanics' Institute, Board of Trade, Corn Exchange, etc., and 25 Roman Catholic churches, 33 Roman Catholic chapels, 58 Protestant churches and 29 Protestant chapels, 4 synagogues, 23 convents and monasteries, 4 Roman Catholic and 8 Protestant hospitals. The Cathedral of Notre Dame is capable of containing from 10,000 to 12,000 persons. It is 255 feet long and 145 feet broad, with two towers 220 feet in height. In the north-east tower is a fine chime of bells, and in the north-west is a bell weighing 3000 tons. Christ Church Cathedral is the most perfect specimen of Gothic architecture in America. It is built of Montreal limestone with Caen stone dressings, obtained from Normandy. The Church of the Gesu, a very imposing edifice, is 230 feet long and 102 feet wide, with a transept 152 feet long, and will accommodate 4500 persons. The walls and ceiling of the interior are beautifully frescoed. Another magnificent pile is the St James Roman Catholic Cathedral. It is after a model of St. Peter's in Rome, and one of the finest ecclesiastical edifices on this continent. Trinity, St. George, St. Andrew, St. Paul, St. James' Methodist, and the majority of the other churches are all exceedingly handsome edifices, and add much to the beauty of the city. It has about 50 mills, over 300 factories, 100 insurance companies, 40 newspapers and periodicals.

The largest banking houses in the Dominion have their head offices in Montreal, are mostly situated in Place d'Armes and St. James street, and consist of very handsome and costly structures.

The harbor of Montreal, which is formed towards the St. Lawrence, is secure, and the quays are unsurpassed by those of any city in America. Built of limestone, and uniting with the locks and cut stone wharves of the Lachine canal, they present, for several miles, a display of continuous masonry which has few parallels. No unsightly warehouses disfigure the river side, a broad terrace, faced with grey limestone, the parapets of which are raised by a temporary dyke, soon to be removed, divides the city from the river, throughout its whole extent. Improvements in the harbor are yearly being made to accommodate the large increase of shipping, and a large guard wall is being built to enclose the harbor from the Victoria bridge downward.

Among the manufactories of Montreal are founderies of cast iron, distilleries, breweries, sugar refineries, soap and candle works, manufactories of hardware (including excellent cutlery), carriages and sleighs, corn brooms, woodenware of every description, glass, paints and drugs, edge tools, locomotives, steam engines, boilers, India rubber goods, printing presses, agricultural implements, musical instruments, paper, rope, sewing machines, types, pins, tobacco, woollen and cotton goods, boots and shoes, etc., etc. There are besides saw and flouring mills, rolling mills, lead works, brass foundries, and many other industrial establishments.

Montreal is the seat of the Grand Trunk and of the Canadian Pacific Railway. The head offices and chief works of the former are at Point St. Charles, a suburb in the western part

Montreal—Continued.

of the city. The Victoria bridge here spans the River St. Lawrence. The first stone of this great masterpiece of Stephenson was laid July 20, 1854, and the first train crossed over it December 19, 1859. It is 9184 lineal feet in length—24 spans of 242 feet each, and one, the centre, 60 feet above the river, of 330 feet. The bridge cost nearly $7,000,000. Near Lachine, the C. P. R. bridge crosses the St Lawrence.

The educational means of the city comprise McGill University with faculties of medicine, arts, applied science, law and comparative medicine, open to persons of all religious denominations; Roman Catholic, Wesleyan, Presbyterian, Methodist and Anglican Theological colleges, 1 Jesuit college, 1 High School, 2 Normal Schools, several classical and scientific academies, and a number of private and public schools; also 2 affiliated medical colleges, one to Bishop's College, Lennoxville and another to Laval University, Quebec.

Montreal returns 5 members to the House of Commons and 6 to the Provincial Legislature. It is the seat of the See of the Anglican Bishop of Montreal, and of the See of the Roman Catholic Archbishop of Montreal. The climate in summer is hot, often reaching 90 degrees in the shade; and the winters are sometimes severe, the temperature ranging very often from zero to 10 and even 30 degrees below it. Pop. in 1851, 37,715; 1861, 90,323; and in 1871, 107,225—composed chiefly of French Canadians, English, Irish and Scotch. The population in 1891 was 216,650, and in 1895, if the surrounding suburbs are included, about 300,000.

The following table shows the various religious denominations in Montreal, in 1891:—

Roman Catholics	162,984
Church of England	21,695
Presbyterians	16,324
Methodists	7,859
Baptists	1,730
Congregationalists	893
Unitarians	455
Jews	2,460
Lutherans	532
Brethren	274
Universalists	20
Quakers	5
Not given	429
Other denominations	1,000
Total	216,650

The two oldest churches in Montreal are the Bonsecours (Roman Catholic) and St. Gabriel (Church of Scotland). The former was erected in 1658; was burnt in 1764, but rebuilt in 1771. The latter was built in 1792. Montreal was visited by smallpox in 1885. In 1887, Sir Donald A. Smith and Sir George (now Lord Mount) Stephen presented the Royal Victoria Hospital to the city. In 1894, for the first time in many years a governor general took up his residence here for several months during the winter.

NELSON, B.C.

The seat of government of West Kootenay dist. Its location on the west arm of Kootenay Lake makes it the distributing point of all the mining camps on the main lake. Its two railways (the Nelson & Fort Sheppard and the Columbia & Kootenay) give it competitive transportation facilities with the commercial cities of both Eastern Canada and the Pacific Coast. It has a number of wholesale houses, 2 banks, 2 newpapers, 2 breweries, 2 wood manufacturing mills and 4 churches. One of the richest and largest silver-copper mine in the world (the Silver King) is 4½ miles south of Nelson. The great Slocan silver-lead mines are 70 miles north. Pop. 1000.

See end of Alphabetical.

NIACARA, Ont.

An incorporated town of Lincoln co., situated on Lake Ontario, at the mouth of Niagara River, and on the Michigan Central Ry., 36 miles south of Toronto by water, 15 miles from Niagara Falls. It contains 4 churches, several stores and hotels, telegraph and express offices, 1 canning factory, etc. Niagara is the oldest town in the province and was the first capital of Upper Canada. The district was mainly settled by the United Empire loyalists at the close of the American Revolution, and was the scene of many stirring events in the beginning of the present century. In 1813 it was burned by Gen. McClure, of the American army, in his retreat from the north. Niagara had the first public library in Upper Canada, the first agricultural society, the first grammar or high school. Here the first newspaper in Upper Canada was published; here also was passed the first act in the world for the abolishing of slavery in its first parliament, and here also was the establishing of the first Chatauqua Institution in Canada. It is a favorite resort during the summer months for pleasure and health seekers. Three large steamers run daily between Toronto and Niagara. The town is lightful with electricity and has a good system of water works. Pop. 1397.

NIAGARA FALLS, Ont.

Formerly CLIFTON or SUSPENSION BRIDGE, an incorporated town in Welland co., situated on the west bank of Niagara River, 12 miles from St. Catharines, and 43 miles from Hamilton, and about 2 miles below the great cataract, of which it commands a most magnificent view. At this point the International Railroad Suspension bridge crosses the river, connecting the G. T. R. with the several railways of New York. The bridge is a single span of 800 feet in length, raised 230 feet above the

Niagara Falls—Continued.

water, and supported by 4 wire cables, 9½ inches in diameter, which are calculated to sustain 10,000 tons; the bridge has two floors, the upper for the railroad track and the lower for wagons, and the east end commands a very fine view of the falls and of the rapids under and below the bridge for ½ of a mile to the whirlpool. The water of these rapids runs at the rate of 25 miles per hour with breakers dashing from 10 to 20 feet in height. Viewed from the shore they present one of the grandest sights of the kind in the world, and the tourist has not seen Niagara until he has stood on the shore, 150 yards below the bridge. Niagara Falls is a port of entry. It contains 5 churches, Church of England, Roman Catholic, Presbyterian, Methodist and Baptist, 1 branch bank, 3 planing mills, 13 hotels, 42 stores and 2 telegraph offices, and has an extensive general trade. Pop. 4500.

NIAGARA FALLS SOUTH, Ont.

A village in Welland co., is situated ½ a mile west of the great cataract on the highest ground between Lakes Erie and Ontario, and on the famous battleground of Lundy's Lane, where 930 Americans and 820 British were killed on the night of the 25th July, 1814, and are buried on Drummond Hill. Upon the hill there is a steel observatory tower 112 feet high, with steam elevator, fancy goods store and a fine collection of war relics. The village is connected by street railway with Niagara Falls, G. T. R., Michigan Central, Erie electric, and the Niagara Falls Park & River Ry. (Electric). The village has many advantages, being very high, is naturally healthy, and is situated in one of the best fruit growing districts in Canada. It has a good system of water works and is lighted by electricity, has two telegraph lines, telephone connections and two mails daily; contains one of the best public schools in Canada, 1 high school, 4 churches, Methodist, Presbyterian, English and Baptist, Lundy's Lane Historical Society, public library, town hall, fire hall, 2 fire companies, 1 hook and ladder company, 3 good hotels, several large boarding houses, 2 large wine factories, Collegiate Institute. Pop. 1400.

NORTH BAY, Ont.

The district town of Nipissing, is situated on Lake Nipissing, at a junction of the C. P. R. and G. T. R. A post office was established early in 1883, and stores were erected at the same time. It is the terminal point of one of the divisions of the C. P. R., and contains 5 churches, Anglican, Presbyterian, Methodist, Baptist and Roman Catholic, 40 stores, 7 hotels, 2 saw mills, 1 sash and door factory, a branch bank and 2 printing offices, issuing weekly papers. It has a good system of water works and is lighted by electricity. The far famed Trout Lake is 4 miles distant, and with Turtle and Pure Lakes and Lake Talon form what is called the central chain of lakes. North Bay will doubtless be the outlet for the projected canal. The James Bay Ry. is located here and will be built shortly. Pop. 2500.

NORTH SYDNEY, N.S.

A seaport town in Cape Breton co., on the I. C. R., on the northern side of Sydney harbor, 5 miles by water from Sydney town; one of the finest harbors in the world, easy of access and capable of holding the British fleet with safety. It is situated near the entrance of the harbor and directly inside of North Bar, which forms a perfect natural breakwater. It contains 3 telegraph offices, 60 stores, several tanneries, 1 boot and shoe factory, 2 printing offices, 2 planing mills, 5 churches, 1 graded school, 2 carriage factories, commodious Opera House, 3 banks and the shipping pier of the General Mining Association is at the north eastern end of the town, where large shipments of coal are made to Montreal, Newfoundland and Maritime towns, and several shipyards. The steamers of the Black Diamond, The Anglo French S.S. Co., Pickford & Black Harvy line of N. F. Coast, boats ply to this port as well as transatlantic steamers, in American and Canadian commerce, use it as a coaling station and a port of call, 2 steam ferries run between here and Sydney—also steamers run between here and Baddeck, Whycocomagh, St Peters Canal, English Town, Ingonish and Cape St Lawrence. Arrangements are being made for a daily boat to connect with the Newfoundland Ry. at Port Absque for St John's, Nfld. There is a fine marine slip, and a board of trade. The town is lighted by electricity. Its post office is the finest building in Cape Breton. It is a port of entry. Pop. 3590.

ORILLIA, Ont.

A flourishing town in Simcoe co., prettily situated on Lake Couchiching (at the northern extremity of Lake Simcoe), and at the junction of the Northern and Midland Rys., 22 miles from Barrie and 86 miles from Toronto. It contains 6 churches, 2 branch banks, 2 telegraph offices, 3 printing offices issuing weekly newspapers, 1 lunatic asylum, several grist, saw, shingle and planing mills, 2 iron foundries, 2 woollen mills, 6 hotels and about 80 stores. This village was first settled by Indians, who subsequently removed to Rama, on the opposite side of the lake. Orillia is a favorite resort during the summer months. The fishing in the lake is excellent. Steamers run between here and Barrie. Pop. 4752.

OTTAWA, Ont.

Formerly and still in telegraphic "calls" Bytown, a city of Ontario, capital of the Dominion of Canada and of Carleton co., is beautifully situated on the south bank of the Ottawa River, at the outlet of the Rideau, and on the C. P. R., C. A. R., Ottawa, Arnprior & Parry Sound, Pontiac Pacific Junction and Ottawa & Gatineau Valley Railways, 54 miles north of Prescott, 120 miles west north-west of Montreal, 280 miles east of Toronto, 95 miles north-east of Kingston and 450 miles from New York. It is one of the most flourishing cities in Ontario, being the entrepot of the great lumber trade of the Ottawa River and its tributaries. It is divided into Upper and Lower Town by the Rideau Canal, which connects it with Kingston. The locks here are eight in number and very massive.

The town was founded in 1826 by Col. By, R. E. It was incorporated a city, and its name changed to Ottawa, in 1854, and selected by Queen Victoria as the capital of Canada in 1858.

One of the chief attractions in Ottawa is the Government buildings, which occupy an elevated piece of ground, about 25 acres in extent and 150 feet above the river, now known by the name of "Parliament Hill." The view from these heights is superb. The great river carrying upon its heaving bosom beautiful steamers which run to Montreal, and barges innumerable are used to forward the immense lumber cut, which has now reached hundreds of million feet, rolls swiftly on through splendid hill ranges towards the south. In the distance the fine bridge which spans this majestic river just below the Chaudiere Falls attracts the eye, even though it be tempted to rest upon the wild beauty of the cascade sweeping by craggy rocks between abrupt islands, and plunging into the basin below, where part of its waters are said to disappear through a mysterious channel. Beyond the cascade glitters the broad river swiftly rushing down the rapids Des Chenes; and in the remote background rise towering hills and mountains, often brilliant with purple and gold when the sun dips from view and gilds their lovely summit with her parting beams.

The government buildings, the corner stone of which was laid by H. R. H. the Prince of Wales in September, 1860, are constructed of a light-colored sandstone found in the township of Nepean, in the valley of the Ottawa. The walls and arches are relieved with cut stone dressings of Devonian sandstone from Ohio, U. S. The roofs were originally covered with purple and green slates, which is now being replaced by copper sheet roofing, and the pinnacles ornamented with wrought iron castings. The style of architecture is the Italian Gothic, and the south front of the quadrangle is formed by the Parliament building, 500 feet in length. The two departmental buildings are 375 feet long. The library, a beautiful detached circular building, with a dome 90 feet high, is in the rear of the central tower, 250 feet high. The two legislative halls are on each side of the library, but in the main building. The dimensions of these halls are the same as those of the House of Lords, namely, 80 feet by 45; they are situated on the ground floor and lighted from above. The library is constructed after the plan of the new library of the British Museum, and contains at present about 300,000 volumes. The two departmental buildings contain in the aggregate 300 rooms, and are intended to accommodate all the departments of the Government of the Dominion; and are so constructed as to be capable of extension at any future time without injuring the general architectural effect. The buildings cover nearly four acres, and cost about $4,000,000.

The Langevin block, subsequently built on Wellington street opposite the Parliament grounds, is a magnificent massive pile of sandstone, covered with copper sheet roofing, and cost over a million dollars.

Besides the above magnificent buildings Ottawa contains 39 churches, viz: Church of England, 8; Church of Rome, 7; Presbyterian, 7; Methodist 5; Congregational, 2; Baptist, 2; Catholic Apostolic, 1; Reformed Episcopal, 2; Ch of Scotland, 2; Jewish Synagogue, 1; Danish church, 1; Lutheran 1; several flouring mills, and large saw mills; and has manufactories of iron castings, mill machinery, agricultural implements, brooms, bricks, leather, paper, wooden ware, carbon works, car factory, etc., and agencies of 2 telegraph and a number of assurance and insurance companies, and 10 banks, 5 daily news-

Mink Fred., carpet weaver and lime kiln
Post office, Adam Cranston, postmaster
Reid Thomas, blacksmith and wagonmaker

PEMBROKE, Ont.

An incorporated town, capital of Renfrew co., on Allumette Lake and on the C. P. R., 15 miles from Renfrew and 86 miles from Ottawa. The town rises almost abruptly from the lake, the business section skirting the shores, whilst elegant residences, handsome churches and buildings surmount the ascent. The Muskrat River, flowing through the centre of the town, empties into the lake and affords excellent water-power. A new railway, to be known as the Pembroke Southern Ry., is projected, which will cross the O. A. & P. S. Ry and connect Pembroke with the Grand Trunk Ry. at Haliburton, materially benefiting Pembroke. The county and town buildings are large and substantial. The Ottawa and Quebec Banks have branches here. Fine water works have been erected at a cost of $55,000. There are 8 churches, the Roman Catholic being the seat of a Bishop. There are 15 leading manufacturing establishments, including lumber, grist, flour and woollen mills, sash, axe and carriage factories, stove foundry, machine shops and manufacturers of lumbermen's tools and agricultural implements, 2 printing offices issue 2 weekly newspapers. A board of trade, hospital, fire brigade, market, electric system and public and separate schools contribute to the well-being and progress of the town. There are 9 hotels and about 95 stores. Adjacent to Pembroke are Fort William, Highview and Thousand Islands, popular and beautiful summer resorts. Fishing and hunting abound in their vicinity. Pop. 4638.

PETERBOROUGH, Ont.

An incorporated town, capital of Peterborough co. The streets are all wide, laid out at right angles, well drained, and lighted with electric light, and the residential streets nicely shaded with trees. There are 4 miles of electric rail-

THE GRAND TRUNK RY. **Run through trains from Montreal to Halifax via Levis and the I.C.R., passing through the celebrated Metapedia Valley.**

PATENTS Promptly secured. **No Patent, No Pay.** We report whether patent can be secured or not, free of charge. Send for **"Book on Patents"** and **"100 Inventions wanted."**
MARION & LABERGE, 185 St. James St., Montreal.

Peterborough—Continued.

way. The modern buildings, public and private, are of fine architectural design, and built of the celebrated white brick manufactured there. There are 12 churches of all denominations, county buildings, town hall, 1 union, 4 ward and 3 separate schools, collegiate institute, mechanics' institute, law library and club, 4 bank agencies, viz., Montreal, Toronto, Ontario and Commerce, 1 private bank, 2 hospitals, 5 parks, Post Office building, Customs and Inland Revenue building, 3 electric printing presses, 3 weekly and 3 daily papers, 1 job printing office, and telegraph offices of G. N. W. & C. P. R., 24 hotels, and about 100 principal wholesale and retail stores. The town is beautifully and conveniently situated on either bank of Otonabee River, which is spanned at that point by six bridges, 2 for railway and four for ordinary traffic; the water being dammed at five places giving an aggregate fall of about 50 feet, and an unlimited power for manufacturing and other purposes; and about midway between waters of Lake Ontario and Georgian Bay, on the route of Trent Valley navigation and the centre of a rich rolling agricultural country. There are two saw, 3 flour and 3 woollen mills, 1 of which employs 200 hands daily, 1 oat meal mill, 4 manufactories of agricultural implements, steam engines, mill machinery, etc., also the manufactories of the Canadian General Electric Co., including carbon and porcelain wares and street railway cars, the Central Bridge & Engineering Co., the Peterborough Lock Manfg. Co., 2 pork packing establishments, 3 canoe factories, 1 curling stone factory, manufactories of furniture, doors, sashes, furs, leather, brick, pottery, etc., etc.

The railway connections are the Canadian Pacific Ry., 76 miles to Toronto and 262 miles to Montreal, and the Grand Trunk Ry., the purchasers of the whole Midland system, south to Port Hope, 31 miles; north-west to Georgian Bay, via Lindsay and Orillia, 85 miles; north-east to Lakefield (connecting by new canals and locks with 150 miles of navigable waters there), 9 miles; south-east to Belleville via Hastings, Campbellford and Stirling, 64 miles, and northward 7 miles to Chemong Lake, connecting there with a line of steamers to Boycaygeon, Lindsay and Fenelon Falls on the Victoria Ry., a distance of 30 miles to the latter point on the waters of the Trent Valley route, and a line of steamers connect with all points south and east on Trent Valley route, a distance of 150 miles, including Rice Lake and its charming summer resorts; and with Cobourg and Peterboro' Ry. at Harwood. Pop. 10,835; including Ashburnham, 12,498.

PICTOU, N.S.

A seaport town of Nova Scotia, chief town of Pictou co., situated on the north side of a harbor of the same name, opening into Northumberland Strait, and 1 mile from Pictou Landing, the east terminus of the Truro and Pictou branch of the I. C. R., 113 miles N. N. E. of Halifax. A branch of the I. C. R. runs into Pictou town from Stellarton; distance from Halifax, 117 miles. Another branch of the I. C. R. runs into Pictou from Oxford Junction, called the Short Line. There is a marine railway in Pictou capable of taking vessels of 1500 tons. The surrounding country is fertile, well cultivated and beautifully diversified with hill and dale. The climate is comparatively mild, and the air salubrious. The sea-coast is well adapted for sea-bathing, and few districts afford more romantic and sheltered drives. In close proximity to the town are quarries of a dark, fine-grained sandstone, admirably adapted for building purposes, the Pictou Bank building giving a fair idea of the value of the material for architectural uses. Extensive coal fields are to be found at Stellarton, Westville and the Vale. The Foord Pit is at a short distance from the thriving town of New Glasgow. This pit has been on fire for a number of years, and all efforts to subdue the fire have been unavailing. The portion on fire is now being walled off, and the seams in the remainder will be opened. The annual exports of coal are very large, and great quantities are exported to Quebec, Montreal, Ottawa and Toronto. The Drummond Mine exported to St. Lawrence ports in 1894 over 80,000 tons. The harbor is one of the finest on the south shore of the Gulf of St. Lawrence. At the south side of the entrance, situated on a sand spit, is a lighthouse, with a fixed light 65 feet above the sea. During the year ending June 30th, 1893, the tons of shipping arrived and cleared were 44,351. The value of imports was $361,353, and of exports $120,232. N. S. steamers from Charlottetown. Steamers run regularly to Boston, Gulf Ports, Magdalen Islands, Prince Edward Island, Cape Breton, and other countries. The town is substantially built, and contains several fine buildings. The Pictou Academy was founded by Act of Incorporation of the Legislature of Nova Scotia in 1818. It was modelled on the plan of a Scottish university, but without the power of conferring de-

Pictou—Continued.

grees. It experienced various vicissitudes of fortune in its early history, although supported nearly unanimously by the House of Assembly and four-fifths of the population of the Province, on account of prejudice against it in "a majority of one" in the irresponsible council of the pre-constitutional era of government. Academy burned by lightning in fall of 1895, but is being rebuilt in more modern style. Pupils attend this Academy from all over the province. The fine brick and stone building of the Y. M. C. A. contains first-class reading room, free to strangers and to students attending the academy. The building also affords accommodation to the Sons of Temperance, lodge of Good Templars and other temperance bodies. The town also contains 2 banks, 2 telegraph offices, 2 newspaper offices, masonic hall, 7 churches, 1 Episcopal, 1 Roman Catholic chapel and convent, 3 Presbyterian, 1 Baptist and 1 Methodist, several hotels, a number of stores, 2 steam carding mills, 2 tobacco, 1 biscuit and 1 confectionery, and sash and door factories, 1 iron foundry, several saw and grist mills and tanneries. Pictou is a port of entry. Its streets are lighted with gas. Pop. 3000.

PORT ARTHUR, Ont.

A flourishing incorporated town in Algoma district, at the head of navig tion on Lake Superior and from its magnificent harbor in Thunder Bay extends by an unbroken water connection to the straits of Belle Isle and the Atlantic, through lakes, canals and the St Lawrence River, a distance of 2260 miles. It is the nearest seaport to the fertiles prairie of Manitoba and the Western Territories, and is the supply centre for the extensive mineral region in the adjacent country. It is also the distributing point for Thunder Bay district and Western Algoma. Port Arthur was first called "The Station". In 1870 Mr. Thomas Marks and Mr. Wm. Murdoch, C. E., stopped here from aboard the "Chicora" to define the line of the C. P. R. General Wolseley who was on board with troops in transit to Manitoba, suggested the name of Prince Arthur Landing, by which it was known until 1883, when by wish of the C. P. Ry. it was changed to Port Arthur and was incorporated under that name in May, 1884. It was made a port of entry in July, 1874. Huge bluffs of iron, both hematite and magnetite exist here, as do gold and silver. The fishing industry is extensive, $65,000 worth of fish was shipped from here in 1895. It contains 5 churches, English, Baptist, Presbyterian, Methodist and Roman Catholic, 12 hotels, 50 stores, 2 printing offices issuing weekly newspapers, lumber mill, machinist's shop, 1 branch and 1 private bank. Port Arthur is the Lake terminus of the Port Arthur, Duluth & Western Ry. Electric cars connect the town with Fort William. A large number of lake steamers and other lake craft arrive and depart daily. An elevator and large docks afford ample accommodation. Pop. 2700.

PORT HOOD, or JESTICO, N.S.

A seaport town, capital of Inverness co., prettily situated on the Gulf of St. Lawrence, 32 miles from Point Tupper. Its harbor is safe for frigates with any wind, has good anchorage in 4 to 5 fathoms, and during the fishing season presents a most animated scene,—the mackerel fleet making it their rendezvous, when as many as five hundred sail can be seen at one time. The town contains 3 churches, 1 bank, 1 telegraph office, 2 hotels, 8 stores and 1 lobster cannery. Pop. 1500.

PORT HOPE, Ont.

An incorporated town and port of entry of Durham co., on the north shore of Lake Ontario, at the south terminus of the Midland division and on the main line Grand Trunk Railway, 63 miles east of Toronto. It is built in a valley and on the side of a hill commanding fine views of the lake, and contains 8 churches, 2 branch banks, 2 newspaper offices, 2 telegraph offices, a number of stores, several hotels and flouring mills, 1 plaster and 1 planing mill, breweries and manufactories of woollens, buttons, leather, wooden ware, steam engines, machinery, iron castings, etc. Good water power is afforded by Smith's Creek, which runs through the town. The streets of Port Hope are lighted with gas and electricity. The harbor is one of the best on the lake. The trade of this port in lumber and grain is considerable. Pop. 5042.

PORT MORIEN, N.S.

Formerly Cow Bay, a populous village in Cape Breton co., N.S. situated on Cow Bay, an inlet on the Atlantic coast, 22 miles from Sydney. It contains 11 stores, 3 churches, 2 schoolhouses and 2 rich coal mines (the Block House and Gowrie), which are worked by two companies, employing about 600 hands. Large quantities of coal are yearly shipped to Canada, the United States and the West Indies, and steamers often call for bunker coal on their voyage from the United States to England. A break-water in the bay makes it a safe harbor in stormy weather. Steamers ply between Cow Bay and Sydney. Little Glace Bay is the nearest banking point. Pop. of township 2100.

PRESCOTT, Ont.

An incorporated town in Grenville co., on the River St Lawrence and on the Grand Trunk Railway and C. P. R., 112 miles west of Montreal and 52 miles south of Ottawa. It contains 5 churches, 1 branch bank, 2 telegraph offices, about 57 stores, 1 iron foundry, 2 breweries, 1 distillery, 1 emery wheel factory, 1 grain elevator, 1 casket factory, 8 hotels, etc. Two newspapers are published here, The Messenger and The Journal. Fort Wellington is in Prescott. A short distance below the town is Windmill Point, where stands the lighthouse, which originally was the ruins of an old stone windmill, in which, in 1837, a number of "Patriots" established themselves, but were driven out with severe loss. The town of Ogdensburg, N.Y., lies immediately opposite Prescott. Pop. 3000.

QUEBEC, Que.

The capital of the Province of Quebec, is situated on the left bank of the River St. Lawrence, which here receives the St. Charles, 400 miles from the mouth of the River St. Lawrence at Point des Monts, 180 miles north-east of Montreal, and 328 miles north, north-west of Portland, Me.

The city has a remarkably picturesque situation between the two rivers at the north-east extremity of a narrow but elevated table land, which for about eight miles, forms the left bank of the St. Lawrence. Cape Diamond, the extremity of the table land, is 333 feet above the level of the river, to which it presents a nearly precipitous face; the descent to the River St. Charles is more gradual. The distance from one river to the other across the ridge is rather more than a mile. Opposite Cape Diamond the St. Lawrence is contracted to a breadth of only 1314 yards; but immediately below, at the confluence of the St. Charles, it spreads out into a broad and beautiful basin more than 2500 yards wide, forming a capacious and excellent harbor. The spring tides rise and fall 18 feet.

NATIONAL ASSURANCE CO. OF IRELAND. CAPITAL £1,000,000

OCEAN WAVE BAKING POWDER Manufactured by
The HAMILTON COFFEE and SPICE CO., HAMILTON, Ont.

Quebec—Continued.

Quebec is divided into two parts, called Upper and Lower Towns. The Upper Town occupies the highest part of the promontory; it is surrounded with walls, and otherwise fortified. The ancient citadel, which crowns the summit of Cape Diamond, covers, with its numerous works, an area of 40 acres, and from its position is probably the strongest fortress in America

The chief ascents to the Upper Town are by a steep and narrow winding street and by a flight of steps.

Among the public buildings of Quebec may be mentioned the Parliament Buildings, the Drill Shed on Grande Allee, the Roman Catholic Cathedral, an irregular building, capable of containing 4000 persons, and covering, with the university attached, an area of 8 acres; the English Cathedral, surmounted by a lofty spire; St. Matthew's Anglican church which has a lofty spire and a beautiful chime of bells. St. John's Roman Catholic church, also on St. John st., adorned with a lofty spire, is a handsome and costly church, occupying elevated positions in the Upper Town.

There are in all 28 churches in Quebec, and 1 Synagogue. Of the churches, 5 are Church of England, 16 Roman Catholic, 2 Presbyterian, 1 Baptist, and 2 Wesleyan Methodist.

The educational institutions comprise 3 Roman Catholic colleges, viz.: Laval University, with faculties of law, medicine and arts; the Grand Seminary, and the Minor Seminary; the Ursuline convent, an extensive establishment founded in 1641; several nunneries; Morrin College, with 10 professors; Laval Normal and Model School; the Quebec High School; and a number of academies and private and public schools. There are, in addition, the Canadian Institute, provided with library and reading room; the Literary and Historical Society, the oldest chartered institution of the kind in Canada, having been founded in 1824, and possessing valuable "Records of the Realm," in 80 or 90 folios, and a large collection of historical manuscripts, but nearly the whole of its museum, and a great part of its library were destroyed by fire with the Parliament Buildings in 1854; the Entomological Society, St. Patrick's Literary Institute, Advocates' Library, Board of Trade, and Merchants' Exchange.

Seven daily newspapers are published in Quebec, 4 of which are in the French language.

The principal benevolent institutions are the Hotel Dieu, the General Hospital, Jeffrey Hale Hospital, and the Lunatic Asylum at Beauport.

Quebec has the head offices of 3 banks, viz.: Quebec Bank, Banque Nationale, and Union Bank of Canada, besides which there are 2 savings banks, and agencies of the Bank of Montreal, Merchants' bank, Bank of British North America, and Banque Jacques Cartier.

The manufacture of boots and shoes is the chief industry of Quebec. There are also manufactories of iron castings, machinery, cutlery, nails, leather, musical instruments, paper, India rubber goods, rope, tobacco, steel, etc.

Quebec returns three members to the House of Commons and three to the Provincial Legislature. It is the seat of the See of two bishops, the Lord Bishop of Quebec (Church of England), and Cardinal Archbishop of Quebec (Church of Rome). Pop. in 1832, 27,562; in 1844, 34,500; in 1852, 42,052; in 1861, 51,100; in 1871, 59,699; and in 1891, 63,090; 1896, 67,000.
