# Stresemann Government In Germany May Be Forced Out

## REQUIRE BETTER GRAIN FACILITIES

### SOCIALISTS ACTIVE IN CAMPAIGN

Ultimatum Sent to Government of Saxony Approved.

#### REINFORCE TROOPS

Diplomatic Break Between Bavaria and Saxony is Serious.

(By Canadian Press.)

Berlin, Oct. 19.—A cabinet council yesterday discussed the situation in Saxony and the demand of the Socialists for the withdrawal of the state of emergency.

Apparently, according to unofficial statements, the sending by Gen. Von Mueller, commander of the Reichswehr in Saxony of an ultimatum to the Saxon government, was approved by President Ebert and the cabinet, but no decision was arrived at regarding the next step to be taken in view of Saxony having ignored the ultimatum. The cabinet, however, is said to be contemplating reinforcing the troops in Saxony, as acts of terrorism by communist bands are continuing in parts of Saxony where no troops are stationed.

Berlin, Oct. 19.—The United Socialists are becoming increasingly important factors in the German political situation. Not only is the parliamentary party apparently unable to deal with the demands of the masses for economic reforms, thereby threatening the tenure of its three members in the coalition cabinet, but its spokesmen have been conferring informally with representatives of the Communists.

The Socialists, who hitherto have refused to subscribe to the views of the ultra radicals, are now making a program so extreme that the conferences have been temporarily postponed, but it is said that the ultra radicals have been endeavoring to establish a plotarian working alliance" is regarded as a significant indication that these parties desire to find common ground.

The United Socialists are demanding repeal of the emergency act in the hope of placing Saxony, a position which is taken as a possible indication of the retirement of the cabinet ministers. Should this take place, the Stresemann government would probably be forced out.

The diplomatic break between Bavaria and Saxony, Saxony's defiance of the Berlin government and the general economic situation, all lead to the belief that Chancellor Stresemann will invoke the dictatorial powers recently vested in him.

Despatches from Dresden report that Premier Zeigler's government appointed two prominent Communists, Minister of Finance Boettcher and Minister of Economics Hecker, as the Saxony members of the Imperial Council. Both have refused to take the oath of allegiance to the constitution of the republic.

Training For Fight  
Another despatch says a furor was created in the Saxon Diet yesterday when Premier Zeigler asserted that unknown to Berlin, an unauthorized army existed in the Reichs. Illegal organizations, he declared, were in training at Koenigsbrueck and Neuse during the last summer, while hundreds of thousands of men trained in these bodies had been admitted to the Reichswehr. The Prussian state police, the Premier said, had frustrated an uprising of several of these units near Berlin.

### NOT MOBILIZATION

Moscow Military Chiefs Make Statement About Summoning of Soldiers.

Moscow, Oct. 18.—The chiefs of the Moscow military district issued statements to the press last night declaring that the summoning of six military classes for militia training has no connection with any mobilization for war. The statements were issued in answer to rumors circulated throughout the city that war was at hand.

The classes of 1922 and 1923, said the statements, were called for only 24 hours of preliminary military training, while the 1899, 1890, 1900 and 1901 classes will merely receive.

### Arrives In Time to Stop Own Funeral

Groversville, N. Y., Oct. 19.—Garrett Van Denburgh, 70, reported dead for two days, returned home just in time to interrupt plans for his funeral. The body beside which his wife and children were mourning proved to be that of Richard Gordon of Carlyle.

### FATHER MURDERER OF HIS 2 CHILDREN

That is Charge Against M. Douglas, American Arrested in Saskatchewan.

Prince Albert, Sask., Oct. 19.—Charged with the murder of his two children, Marshall Douglas, a citizen of the U. S., aged 40, was arrested at Yarmouth, yesterday, according to information reaching the provincial police. The crime is an exceptionally brutal one, according to police reports. Douglas is alleged to have first battered in the head of his seven-year-old girl and five-year-old boy and then cut their throats with a razor. He is also alleged to have savagely attacked his wife, who now is in Adam Hospital in a dangerous condition.

### ELIHI ROOT MAY BE SENT TO ST. JAMES

London Features Report That he is to Be Appointed Ambassador to Britain.

London, Oct. 19.—A report that President Coolidge is offering to Elihu Root the ambassadorship to Great Britain, featured appreciatively by the morning newspapers, most of which display Mr. Root's picture, with the demands of the masses for economic reforms, thereby threatening the tenure of its three members in the coalition cabinet, but its spokesmen have been conferring informally with representatives of the Communists.

### Jewish Labor Leaders Placed Under Arrest

Warsaw, Oct. 19.—Some of the principal Jewish labor leaders have been arrested as suspects in connection with an explosion in one of the forts of the Warsaw citadel on last Saturday, which killed approximately 50 persons and wounded nearly 1,000. Many arrests were made in Posen, Cracow and Lemberg. One of those held is Marcus Lew, chairman of the General Workers' Cooperative.

### Italian Columns Are Under Attack

London, Oct. 19.—Italian columns in Tripoli yesterday attacked a force of fifteen hundred rebels south of Mount Saurata, says a Central News message from Rome. The rebels were dispersed, leaving four hundred dead, a large number of wounded and considerable booty.

### Wire Briefs

New York, Oct. 19.—The malady affecting Zev has assumed the proportions of an epidemic at Belmont Park where three barns have been closed and every precaution is being taken to prevent it reaching the stable where Papyrus the English Derby winner, is located.

London, Oct. 19.—It is estimated that fifteen million contributors to the National Health Fund will be affected by the action of the "panel doctors' union," in refusing to accept a reduction in fees proposed by the Minister of Health.

Fort Snelling, Minn., Oct. 19.—Frank Schweighofer, 33, of Stratford, Wis., was brought to Fort Snelling yesterday on a charge of draft evasion and probably will face a court martial within three weeks, officers at the post said.

Mexico City, Oct. 19.—General Emiliano Ortis, former chief of the Bureaus in the State of Hidalgo, has revolted and taken to the mountains with fifty followers. He has raised the flag of Agrarianism, according to the reports from Pachuca.

Detroit, Oct. 19.—Announcement of a decrease of two cents a gallon in the price of gasoline, effective today, was made by two independent companies.

### MANY NOTED SPORTSMEN COMING HERE

Frederickton Plans Reception to Babe Ruth and Others.

### FANS INTERESTED.

Capital to Show Appreciation of Work of the Champions.

(By Canadian Press.)

Frederickton, Oct. 19.—Members of the champion New York Yankees, with Babe Ruth home king, probably one of the party, are not the only athletes in the recent world's series who will come to New Brunswick to hunt moose and other big game.

W. Harry Allen, of Peniac, president of the New Brunswick Guides' Association, has received word that Major Bill McGeehan, noted baseball writer and sports editor of New York, who broadcasted the recent world's series by radio from the Yankee Stadium and Polo Grounds this year, in addition to next week with two other writers whose identity is so far not known.

They will reach here on Tuesday, October 23, and leave that evening for Rocky Brook, where they will go into the woods after moose. They will be accompanied by Bill McGeehan, a number of other equally famous writers in the party.

Local baseball fans are taking steps to see that a fitting reception is provided for Babe Ruth if the home running comes with the party who are going to Miramichi Lodge, the elaborate rustic home at Blenheim, Dr. and Mrs. P. W. MacDonald, of Boston, it happens that the big bambino does not come along with the party, but a suitable reception is being arranged in a few days just the same for Herb Penock, Aaron Ward and Bill McKee, who have definitely accepted invitations those three players having been highly important factors in the Yankees' ultimate success. Frederickton will show them, the fans say, that they know how to win championships in its own league but that it also knows how to do honor to world's champions when they come to town.

### LOOKING FOR LIQUOR HOLD UP A FUNERAL

Police Search Hearse in Connecticut; Widow Collapses At The Sight.

Milford, Conn., Oct. 18.—The local police, directed by Chief of Police Maher, held up the funeral cortege of James Fuller, a garage proprietor of 529 Park avenue, Westchester, N. Y., as it was passing through their town on its way to a cemetery in Litchfield and hunted through the hearse and casket for liquor. None was found, but Mrs. May Fuller, the widow, fainted as the flowers and wreaths were taken from the coffin. The procession was delayed more than an hour by the searchers.

Chief Maher told members of the funeral party that a resident of Devon, through which the cortege had passed, had informed him that the casket and carriages contained thousands of dollars' worth of liquor being smuggled into the State. After the coffin had been rearranged and the flowers replaced, Chief Maher apologized and the carriages were permitted to continue toward Litchfield.

### STRIKE PARALYZES TRADE AT VERA CRUZ

Vera Cruz, Oct. 18.—A general strike that has grown out of the controversy between the maritime workers and the railway terminal employes has continued for one week without prospect of settlement. The Government has intervened only so far as to assure the movement of trains. Trade is paralyzed.

### No Squabbles In Home; the Wife Quits

New York, Oct. 19.—A married life which lacks the excitement of domestic squabbling is too tame a thing for Mrs. Fannie Florio, 21, of 518 East Fourteenth street, according to her husband, James, who told the police she left home two weeks ago, taking their three-year-old son, Frank, with her. James said he never had a quarrel with his wife and that their married life had been a happy one. She returns he is willing "to forget and forgive" her departure.

### INSISTS ON HAVING AMPLE TIME TO REST

Lloyd George Has Programme at St. Louis Slashed—Week End at Louisville.

St. Louis, Oct. 19.—At his request St. Louis started today to entertain Right Hon. David Lloyd George with a programme curtailed sharply from that first projected. He insisted that he be permitted ample rest.

Coming from Springfield, Ill., where he placed a wreath on Abraham Lincoln's tomb, and made an address, Lloyd George faced a twelve-hour stay here with public activities limited to an auto drive through St. Louis, a reception to newspapermen, and an informal luncheon. He will leave tonight for Louisville, Ky., where he will spend the week-end.

The British statesman retired immediately after a dinner in his honor at Springfield last night, sleeping in his private car, which, with the two others carrying members of his party, was parked in the yards there. At dawn it was hooked on a regular train to St. Louis.

### WOMEN ON VIGIL ALL NIGHT AT MOUNT JOY

Recite Rosary Outside Jail When 400 Irish Republicans Are On Hunger Strike.

Dublin, Oct. 19.—A band of Irish republicans who have recited the rosary throughout last night outside Mount Joy jail, where 400 Republicans are continuing their hunger strike.

### MYSTERY UNSOLVED

Police Continue Hunt For 85-Year-Old Hermit in N. S.

Halifax, Oct. 19.—The mystery surrounding the disappearance since October 10 of Miss Katherine Harkins, the 85-year-old hermit who is thought to have left her lonely cottage at Mail and Lantz streets, over a week ago to gather wood in the forest surrounding her home, and who has not been heard from since, remains unsolved.

### NEW VESSELS FOR EASTERN S. S. LINES

Boston to Be Launched Oct. 27 and, With New York, Ready For Next May.

Boston, Oct. 19.—The Eastern Steamship Lines announced that two new steamers under construction at Sparrows Point, Md., for their Boston-New York passenger and freight service will be named, the Boston and the New York. The Boston will be launched on October 27. Both will be placed in commission next May on the night Boston-New York run via the Cape Cod Canal.

The two vessels, which are larger than the Harvard and Yale, which formerly plied on this run, were built at a cost of \$1,000,000 each. Each will be 402 feet long, with a normal speed of 17 knots and a maximum speed of 19. They will be turbine driven and oil burning, and will have accommodation for 900 passengers each.

### Assassination of Four Frustrated

Bucharest, Oct. 12.—A general assassination plot, with four members of the cabinet among the prospective victims, is declared by the police to have been uncovered following an attack on M. Rosenthal, editor of the newspaper Adevener by an alleged Rumanian fascist named Baclogiu. Rosenthal is expected to live.

The police are holding one, Codreanu, one of the leaders of the Rumanian Fascist and say that the plot originated in the Fascist organization. The ministers said to have been marked for assassination.

M. Banu, Minister of Worship; M. Florescu, Justice; Constantinescu, agriculture, and Marcescu, labor.

### DROUGHT BAD IN NEW ENGLAND

Water Shortage Forces Use of Supply from Unprotected Ponds.

### WORST SINCE 1914

Serious Situation in Vicinity of Boston—Industries May Be Crippled.

Boston, Oct. 19.—A serious water shortage threatens many of the cities and towns of Massachusetts as a result of the worst drought since 1914.

According to information received at the State Department of Health, people of many sections of Massachusetts will be obliged to drink water taken from streams and lakes which have not been protected as water supplies, and the water which will have to be treated chemically and afterwards boiled before it will be safe for human consumption.

A serious situation has developed in some communities. Worcester badly off.

The city of Worcester has only about 40 days' supply of water on hand at present, and the city government has arranged to connect with the Metropolitan water system, a step which will take longer than 40 days, however, to lay the pipe connections with the Metropolitan system and start the water flowing.

In Woburn, where the large tanning industry consumes a great amount of water daily, there also is a serious shortage, and the city has been forced to turn to Horn Pond, a step which has not been taken since 1914.

It is claimed by those who protest that Horn Pond water is polluted and not fit for drinking. The task of the city is to purify the water in the pond by the use of chemicals and then require the householders and others to drink it before anyone is allowed to touch it.

Face Shut-Down  
Hackensack, N. J., Oct. 19.—Industrial plants in Northern New Jersey yesterday were facing a shut-down of their water supply. Yesterday's rain, it is believed, had little effect on the supply available to the Hackensack Water Company. It probably will be some time before a more accurate measurement of the water supply can be made again.

Despite the cutting off of water, however, industrial plants continued to operate so far as possible, no wholesale suspensions of work being expected. In West New York, 1,500 persons were temporarily thrown out of work by the cutting off of water.

### JURORS REWARD JUDGE WHO EXPEDITED CASES

New York, Oct. 18.—The jurors of the Trial Term of Supreme Court expressed their appreciation to Justice Isidor Wasservogel for the manner in which he had expedited cases brought before them.

It is one of the most ardent advocates of speeding up justice. The juror's appreciation took the form of a sterling silver ash tray on which was inscribed: "Judge Isidor Wasservogel—We the jurors empaneled in Part 12, Supreme Court, New York city, from October 1 to October 17, 1923, congratulate you and appreciate your personal settlement of the very large majority of cases brought before you without their going to the jury."

### MAINE BANK ROBBED

Wilton, Me., Oct. 19.—Burglars broke into the Wilton Trust and Bank Company here and after "blowing" three doors leading to the vault, rifled seven safe deposit boxes of \$10,000 in cash and negotiable securities, as well as other valuables. They were in the act of "blowing" a burglar-proof chest when they were scared away, leaving their tools and three heavy horse blankets, used to muffle the explosions, behind them.

The bank offered a reward of \$1,000, but no trace of the fleeing safe robbers has yet been found.

### Walking-Stick Chair

The walking stick which may be converted into a seat by unfolding the handle is frequently seen at English sporting events. Miss Bessie Oulahan has introduced it to Washington, D. C.

### Loses \$3,000 Bequest When He Refuses To Give Up Wife

Boston, Oct. 19.—David Melvin van Horn of Worcester, having neglected to follow the suggestion of his uncle, the late George T. Aitchison, that he divest himself of the society of his wife, loses a bequest of \$3,000, according to a decision yesterday of the Supreme Judicial Court. Under a trust deed made to Frederick H. Chamberlain of Worcester, Mr. Aitchison made provision for a gift of \$3,000 to his nephew "on the condition that at the time of the death of George T. Aitchison said David Melvin van Horn is not married to his present wife."

Mr. van Horn was married in July, 1913 and was still married to his present wife on Oct. 2, 1915, when the \$3,000 gift was provided for in the will of the late George T. Aitchison. He never knew of the provision until after the death of his uncle. The latter had objected to the marriage of his nephew at the time he made the memorandum and also at the time of his death. He refused to receive calls or visits from her and several years before his death said to his nephew, "if you will get rid of her I will make you the richest of the family."

Judge Brley of the Supreme Court in his opinion says in part: "The wording of the gift holds out no inducement to the nephew to separate from his wife. The condition having been valid the failure of the respondent to bring himself within it deprives him of any share in the trust estate."

The money will now be distributed in accordance with an order of the Probate Court to other heirs.

### Seventeen Taken In Raids By Drys

Atlantic City, Oct. 19.—Federal prohibition agents, under the direction of Agent Kramer of the Pittsburg District, last night conducted a series of raids throughout the north side and back-town districts of this city, arresting 17 men and confiscating liquor valued at \$100,000.

### Weather Report

### CONVEYOR EXTENSION IS URGED

New Berth Also Asked to Accommodate Tramp Steamships.

### INQUIRY TODAY

Visiting Commissioners are Told About Needs for Grain Handling.

The immediate necessity for the extension of the grain conveyors to berths 7-14-16 and the erection of another berth which would be available for tramp steamers, were two points strongly stressed by St. John men who were heard by the Royal Grain Inquiry Commission at the Board of Trade rooms this morning.

It was also pointed out to the members of the Commission that St. John had endorsed the stand of the Quebec Board of Trade in reference to movement of grain over the National Transcontinental. Representatives of the Board of Trade, shipping interests, railways and city were heard.

This evening the members of the Commission will leave for Halifax and from there will visit Quebec, Montreal and Toronto.

Those present were Mr. Justice Ruthenford, who presided; Dean W. J. Rutledge, Dr. D. A. McGillivray, J. G. Scott and D. D. Young, members of the Commission. C. S. Blue acted as official reporter for the session.

The first speaker was G. E. Barbour, president of the St. John Board of Trade, who extended a welcome on behalf of the Board to the Commission and then called on H. C. Seaton to speak.

Mr. Seaton said the first grain shipments through St. John were made in the winter of 1863 and grown steadily since that time. At the present time the elevator capacity was about 225,000 bushels, 1,700,000 bushels in the C. P. R. elevators and 500,000 on the East Side and the C. N. R. elevator. With the present facilities the maximum business in grain had been very reached. He said that St. John was very largely a liner port and must remain so until more berths had been provided, as there was not the accommodation for tramp steamers. What was needed, no decision was the extension of the grain conveyor system to berths 7-14 and 16 and at least on additional berth for tramp steamers.

### ZEV IS REPLACED

My Own Substituted To Race Papyrus, N. Y. Sun Says.

New York, Oct. 19.—My Own today was substituted for Zev as the U. S. representative against the British Worthy winner, Papyrus, in the \$100,000 international horse race at Belmont Park tomorrow, the New York Sun said it had learned today.

From other sources it was reported that Major Belmont, chairman of the Jockey Club, was meeting at the club house with his colleagues and considering the substitution of My Own. According to these sources, no decision had yet been reached.

Zev has developed a skin malady, which may prevent the Hancocas colt from carrying the colors of the U. S. in the \$100,000 race with Papyrus tomorrow, it was learned today.

The Jockey Club's race committee, however, after inspecting the horse, indicated it would withhold decision pending the arrival of My Own, which has been shipped here prepared to take Zev's place if necessary.

### Restaurant In Toronto Robbed

Toronto, Oct. 19.—Carrying revolvers and with the upper portions of their faces covered by orange-colored masks, two thugs entered a restaurant owned and operated by Frank Greer, in the east end last night, and, after holding Greer helpless, emptied the cash register of all the money it contained, \$12.

The thieves then made their escape in an automobile and are still at large.

DEMAND BETTER GRAIN FACILITIES

(Continued from page 1)  
In answer to a question of Mr. Scott as to insurance rates compared with Portland he said they were slightly higher as this port was penalized on account of the St. Lawrence. The port was not more hazardous than those to the south as statistics proved.

The Tramp Steamships

J. T. Knight said he would like to point out that tramp steamers had the same rights as liner boats and all were placed at the discretion of the harbor master. He believed more berths and conveyors were necessary if the grain trade through this port was to grow.

Mr. Scott said a broker in New York had said ships did not like to come to St. John, but gave no reason for it, and asked if any of those present could explain this.

D. W. Ledingham said he thought it was largely a matter of lack of knowledge of real conditions and he did not think any captain would ever be here who would say anything against the port.

Commissioner Bullock

Commissioner Bullock gave evidence as to the form of harbor control and method adopted in handling the boats. He said the city had six deep water berths on the west side and two on the east side; the Government had four deep water berths on the west side and two on the east side. He said there were needed additional berths on the west side and the grain conveyors extended to serve all the berths there and it was hoped the C. N. R. would develop terminals on the east side of the harbor. He also expressed the opinion that the city was not getting enough grain over the C. N. R.

F. D. Alward, harbor master told of his duties in connection with the docking of boats and said the C. P. R. was the only line carrying passengers and mail and these boats were given a preference.

Could Handle Much More

J. C. Kirby, resident engineer of the C. P. R., presented a map of the layout on the west side, and explained it to the commission. He said that with the extension of the grain conveyors to No. 7 berth it would be possible to handle 2,500,000 bushels more per year of grain, and with the extension to No. 16 the additional amount depended on the class of boats and the amount they could carry.

Living Cost In France Is Climbing

Paris, Oct. 18.—The cost of living in France is increasing rapidly. Taking the cost in 1914 as an index figure, statistics for 100 commodities today give the number 331 against 289 for the corresponding period last year, and there seems no reason why this will not reach the 400 mark in the near future. The index figure for 20 foodstuffs now stands at 383. Coal which cost 65 francs a ton in 1914, now sells for 270, while shoes have risen from 19 to 275 francs a pair.

SUNDAY SCHOOLS IN MASS MEETING

Observance of Jubilee of St. John Deaneary Teachers' Association.

Dean Owen is to address a mass meeting of Sunday school scholars and parents in St. John's (Stone) church, Sunday afternoon at 8 o'clock. Sunday will be a big day for all scholars and Sunday school workers of the Church of England in this city.

The third Sunday in October is observed as "Children's Day" annually in the Church of England throughout Canada, when special reference is made by the clergy to work among the young people of the church.

This year in St. John, however, the opportunity is being taken to celebrate the fiftieth anniversary of the organization of the St. John Deaneary Sunday School Teachers' Association, by the holding of a mass meeting of all scholars and teachers and others interested in Sunday school work.

In this connection the Sunday schools of St. James', St. Paul's, Trinity, Mission, St. Mary's, St. John's (Stone) all will meet in St. John's (Stone) church. The service will be conducted by Rev. Canon Armstrong of Trinity, and the address will be given by Very Reverend D. T. Owen of the Diocese of Niagara, who has been speaking of very large groups in St. Paul's church during the week.

A feature of the service that is expected to be very pleasing to all will be the music provided by a specially organized choir of boys, under the direction of Professor Brown, organist and choirmaster of the church.

Maine Guide Is Shot On Hunting Trip

Bangor, Me., Oct. 18.—Sanford Hodgkins, one of the best known guides in this section of the State, was the first victim of a hunting accident since the opening of the big game season. He was shot while in the woods with a party of hunters, according to word received by Sheriff Orman B. Fernandez from Hancock County.

Hodgkins was an old-time guide, living in Burlington, and also at times in Enfield. The shooting, which resulted in his death, occurred in Township No. 8 in Hancock County, about 15 miles from Burlington.

Mr. Hodgkins and his brother had charge of large camps at Pistol Lake for the American Woolen Company.

SAYS JACKSON WAS HEAVYWEIGHT KING

Corbett Calls Peter Greatest of All Big Men of the Ring.

St. Louis, Oct. 19.—James J. Corbett reformed heavyweight, currently engaged in uplifting the drama, tells the world the greatest heavyweight of them all was Peter Jackson, the black man, Corbett doesn't even except Bob Fitzsimmons or Jack Dempsey.

"I saw Jackson box an exhibition with Fitz at the old California A. C.," Corbett relates, "and it was like a teacher giving a pupil a lesson. No wonder Fitz wanted to battle the world at large—BAR JACKSON."

Corbett battled Jackson himself. They fought over four hours without reaching a decision. The bout was finally stopped and called a contest.

"I started to box with Jackson early in the fight," Corbett tells, "and he went right along, landing just as often as I did. I figured he would tire. At about the fifteenth round he was puffing. I thought I had him. I stepped in and started to slug with him. Billy Delaney was in my corner. Don't slug with him, Jim. He'll kill you," shrieked Delaney.

"I took his advice. It probably saved me from being flattened. I went back to boxing and held my own. I never met another fighter like Jackson. He was just as good a boxer as a slugger, and great at both. That's why I hold him up as the ideal fighting type."

#### THE LATEST CASSANDRA

In London there are well-meaning military gentlemen and not a few civilians whose powers of description are great, and who if they do not delight in at least excel in the business of describing what would happen to the great city in the event of an attack by aircraft raining down tons of high explosives. London had some experience of that sort not many years ago, and it has possible fives within short radius. Its scars from enemy aircraft bombs were not so long since healed. Whatever we may think of the chances of another European war involving Great Britain, even if we believe them to be slight and fervently hope so on good grounds, it is not difficult to understand why the counsel for preparedness finds many converts. It is but human that it should be so. The latest Cassandra, however, appears in New York, and while one nation's right to prepare against attack is no less than another's, the existence of two wide oceans would seem to render the peril of the United States somewhat less menacing than it appears in the view of General Mason Patrick, Chief of Air Service. He has been speaking under the auspices of the National Security League, a patriotic organization which desires Congress to make still larger appropriations for defence against all possible foreign enemies. General Patrick, in a statement issued through the league, tells of bomb-carrying planes each capable of carrying five tons of high explosives. "Imagine," he says, "what havoc could be played to a city like New York by these planes, equipped with rapid-fire guns, gas bombs and high explosive bombs." The general, he says, is no longer a protection. The country must not "hull herself into a sense of satisfaction that her shores are protected and cannot be reached." Unless there is money enough for the air service "we may expect defeat and disaster when the time comes to compete with the air forces of any first class Power."

Not "it" the time comes, mark you, but "when" the time comes. In the same way, he speaks of "future conflicts": "The one important question is: What can be done in the way of preparing ourselves so that the same end may be reached more economically and without the needless loss of life in a future conflict?" In all these future conflicts, says the Air Chief, aircraft will be a deciding factor. The Security League is undertaking a country-wide publicity campaign "to arouse the people to the dangers General Patrick apprehends and the possible outcome of which he so dramatically describes."

Mr. Wells, the novelist, many years before the great war, equipped the Yellow Peril with numberless flying machines and turned the Atlantic horse loose upon western civilization. They devastated Europe. In Great Britain civilization was blotted out and the few inhabitants remaining went about clad in skins and fed scantily upon such roots as they could dig up. In America, if one recalls the dread prospect of the Wells imagination, the devastation was scarcely less complete. There is a suggestion here for the Security League. They should dig up the book, print millions of copies with a hair-raising introduction by General Patrick, and rain down the most graphic narrative upon the forty-eight states from all the available aircraft. Then a terrified Congress would "come across."

#### MORE CANADA FIRSTS

An agreeable feature and a highly important one in connection with the bumper wheat crop in the West is the increased yield per acre. The new crop is reckoned at 469,000,000 bushels, or some 70,000,000 bushels more than were grown in 1922, and the average per acre this year is almost twenty-one bushels, while last year it was a little less than eighteen—a great and telling gain. A higher average was recorded during the war, but only slightly higher, and comparing Canada with other countries where wheat is a leading crop and grown under conditions similar to those in the West, Canada is first in fertility. A higher average is to be found only in some European countries where necessity compels the use of intensive methods in regard to wheat and field crops generally. The western yield of 20 3/4 bushels is actually six bushels greater than the American average for the whole period from 1916 to 1921 inclusive. And there is no doubt that the prairie soil will continue to do as well, or even much better as methods improve and as land found unsuitable for wheat, which brings down the average, is devoted to other uses. The West will greatly extend its crop area as agricultural conditions improve and as population increases, and he would be a bold man who would say to what limit the wheat production may grow in ten or fifteen years. Only the other day the Saturday Evening Post, in

arguing the western American farmers to go in more for mixed crops, spoke of the Canadian prairie farms as being most attractive to Americans because the wheat land will still rise in value, while on the American side such is not the case. As the Canadian West gains in population mixed farming will not only increase the value of the land but will give the farmer increased protection against the dangers attending to one-crop methods, which include low markets and crop failure.

Canada's lead in the wheat yield per acre is not the only triumph scored by its farmers this year. Cattle from Ontario and Quebec won the most highly coveted prizes at the recent National Dairy Exposition in Syracuse. Every contest for state herds was carried off by Canadian exhibits. In the Holstein, Ayrshire and Jersey classes Ontario carried off two firsts and Quebec the other, a conspicuous victory for these provincial dairymen and one scored in the face of very stiff competition, for the Syracuse event drew entries from the best American dairying territory.

In discussing Canadian agricultural resources and methods of keeping our people in their own country it is well not to forget the outstanding achievements of the farmers, of which the dairy herd prizes and the high wheat yield are current examples. Sound and sustained national prosperity must be based upon expanding, efficient and successful agriculture as well as upon the healthful growth of manufacturing. Canada, fortunately, has the resources, the skill and the markets to promote this well-rounded development. The farmers have been having a rough time, generally speaking, but do not very distant day agriculture will come into its own again, and in all probability it will enjoy a long period of "good times." And the cities thrive when the farmer smiles.

#### "HAVE ALL VOTED WHO WISH?"

If a whole lot of people were deprived of the right to vote they probably be talking about taking up arms to recover the rights of free men. But an amazing proportion of the people who enjoy what is called the sacred right of the ballot have a habit of exhibiting their appreciation of the priceless privilege by just not voting. And these defaulters are among the first to complain when affairs go wrong, ignoring the fact that under popular government those who refuse to govern themselves, not only have forfeited the right to complain but have actually contributed as much as they could to the evils of bad government.

There have been many striking examples of this failure of the people in our own country and others, and New York has just presented another one. Quite recently it was Ontario. The average time required to register and so qualify to vote is only a few minutes. In New York a few days ago the number who registered was 1,106,000, but an even greater number failed to register and so will be unable to vote. There are in the city some 2,484,000 citizens who should have registered but almost fifty-five per cent. of them omitted to do so for one reason or another, chiefly lack of interest. Even in the last presidential election, the occasion on which interest is supposed to reach high water mark, only 51 1/2 of the eligible New Yorkers voted, and in the nation at large the vote cast was only forty-nine per cent.

A strange feature of the case, perhaps explained by the large influx of foreigners, is that voting in the United States has been steadily declining for a great many years. About seventy-seven per cent. of the electorate voted in the presidential contest of 1880, and almost as many in that of 1892. But in 1912 there was a drop to sixty-four per cent., and in 1920 to forty-nine.

It has been estimated that the cost of all kinds of government in the United States is \$220 a year for every person who is self-supporting. That is merely one element of interest. In theory no one consents to be governed wholly by someone else, to have laws made and taxes levied, and local or national policies carried into effect, without some say in the matter; yet from the figures it is established beyond question that in actual practice half of the people of voting age in the United States stand aside from the whole business and forget at once their right and their duty.

a grand scale needs a host of militant volunteers, and there is no host. The ordinary man does not take these conditions very seriously. He contents himself with thinking that if anything very vital turns up interest will be keen and the vote large, and in so thinking he reflects the very apathy which is the cause of the trouble. People in self-governing countries are said to deserve the kind of government they get, but the non-voter deserves worse than he gets. He invites the growth of evils, which are current to uphold. Others protect his liberty and his property. They are the citizens who vote.

It is often argued that the neglect to vote will become so bad after awhile that it will cure itself. It can do so only by bringing about conditions so dangerous that people may not in that day think voting a sufficiently quick and drastic cure for them.

#### TWILIGHT

(J. Corson Miller in N. Y. Times.)

So evening falls—  
As still as death-lights drop in old men's eyes—  
Mysterious with longing and surmise,  
And sad as dust that clings to ancient walls.

A white cloud swings  
Serenely homeward to the faltering West,  
As night's cool hands anoint a robin's breast  
With oils that drop with fluted echoes.

Now near, now far,  
Wild hawks spin raucous circles overhead;  
But chicks beneath their mother wings are spread,  
In sleep while wakes the gallant evening star.

For summer sprays the loam  
With kisses intimately warm to press  
Her seal of love upon earth's loveliness.

While hand in hand,  
Down through the emerald painted evening land,  
A boy and girl are slowly walking home.

The inquest into the death of Douglas Fudger, seven-year-old son of Mr. and Mrs. B. D. Fudger, Wentworth street, who died of injuries received as a result of being run over by an automobile driven by William Broderick in Duke street Tuesday afternoon, was concluded in the Court House before Coroner H. A. Porter last night. The jury brought in a verdict to the effect that the boy died as a result of a fractured skull, and from the evidence adduced, the jury found that the driver of the car was in no way to blame. The jury was made up of E. J. Todd, H. T. Worden, J. J. Merrifield, Roland Miller, John Short, J. D. Williams and Charles E. Farren. S. S. Skinner was present in the interests of Mr. Broderick and C. J. Cozer appeared in the interests of the boy's relatives.

# SAVE YOUR FACE—and your time

## 78 Seconds from Lather to Towel

Dr. O. C. Stackhouse, the well known skin specialist, says. "Many men feel they are getting old before their time. They come to me for advice—they want to stay young."

"I have seen thousands of such men—men who at twenty-one had the smooth and unlined skin of youth. And at thirty-five, a coarse rough skin with well-pronounced wrinkles."

"Wrong shaving causes much of this. A dull blade, slowly pulling and scraping each hair from the face, enlarges the tiny pores and coarsens the skin. Wrinkles result."

**TO KEEP THE FACE YOUNG**

"I have for many years studied correct shaving. A fast shave, once over the face, with a keen blade, acts as a stimulant to the skin. It is like a daily massage—it keeps the face young."

"Wrong shaving harms and ages the skin. I have investigated all razors and unqualifiedly recommend the Valet AutoStrop Razor to men who desire to shave correctly."

Dr. Stackhouse's advice is authoritative, as men everywhere are discovering. The world's fastest shave—78 seconds from lather to towel—is fast becoming the national favorite. Left Alone in House and Fire Broke Out in Apartment

New York, Oct. 18. — Mrs. John Duddleson of 1915 Walton avenue, The Bronx, went out on business late yesterday afternoon and left her children, John, Jr., four, and Levon, two, alone in the apartment on the fourth floor. She left John in charge because he was a boy and the eldest, and she cautioned him particularly to take good care of his little sister.

"And don't play with matches and don't go near the gas stove," said Mrs. Duddleson.

"We won't," John promised. "We'll read in my book. But you better bring us some candy when you come back."

Mrs. Duddleson was not gone more than half an hour, but when she got back, carrying a bag of candy for the children and hurrying so they could have at least one piece before dinner and bedtime, she found "wood" in front of her home and a crowd was there. She became hysterical when neighbors told her the fire was in her apartment and that nothing had been seen of her children.

The police tried to stop her, but Mrs. Duddleson broke away from them, ran through the fire lines and started into the house. She had got half way to the second floor landing when she met a

**RECENT WEDDINGS**

**Tompkins-Toner.**  
A wedding of interest in many places in the province took place at Woodstock on Oct. 8 when Miss Allie Toner, youngest daughter of Mr. and Mrs. John Toner, and Donald C. Tompkins, son of Mr. and Mrs. W. S. Tompkins, all of Fredericton, were united in marriage. Rev. H. F. Rigby performed the ceremony. The young people are very popular in Fredericton. The bride is a sister of Mrs. Harry F. Black, 171 Main Street, and has many friends in St. John.

Good Reason For Refusal  
"Do you wish the court to understand you refuse to renew your dog license?" asked the magistrate.  
"Yes, Your Worship, but—"  
"We want no butts. You will be fined. You know the license has expired."  
"Yes, but so has the dog."

TWO MEN ARE DROWNED IN THE HARBOR AT ABOUT SAME HOUR

Captain of Tug and Dry Dock Employee are the Victims.

The drowning of two men in St. John Harbor about the same time last evening caused a gloom to spread over the whole city. One of the victims was Capt. J. A. Hersey, master of the tug James S. Gregory. He tripped over a coal hatch on the boat while she was being tied up to her wharf at the foot of Acadia street and fell into the harbor. Being unable to swim, he sank before assistance could reach him, although every effort was made by the crew to rescue him. About 10:15 o'clock the body was recovered by Grenville Ring and removed to Brennan's undertaking rooms.

Captain Hersey is well known along the waterfront. He has been in command of the tug James S. Gregory for several months past. Formerly he was the commander of the steamer Grand Manan and is well known to the traveling public. He was a native of Grand Manan, where his wife and one son now reside. He also leaves one daughter, Mrs. Cecil Peretz, of 21 High street, North End. The sad news was telegraphed to the widow and son last night.

The other victim was Morten Mortenson, an employee of the St. John Dry Dock and Shipbuilding Co., who, in company with Herman Allen and William Batson, left the hoisting scow about 6 o'clock in a small row boat to come to this side of the harbor. When about half way across the boat began to fill and the men were thrown into the waters of Courtney Bay. Allen and Batson clung to the boat, but Mortenson started to swim back to the East St. John shore and disappeared from the sight of his companions after going about 100 yards. His companions were rescued by a crew from the Leonfield, who heard their cries and came to their help.

The late Mr. Mortenson was a widower and had been employed with the dry dock company for about four years. He boarded at 129 Orange street. He leaves one daughter, Mrs. Ole Hansen, 204 Britain street, and, it is understood, two sons, now residing in Boston. He was 53 years old.

**Noted Horsewoman Wins Divorce From Rich Banker's Son**  
Mrs. Walsh Obtains Decree on Ground That Husband Was Unkind.  
St. Louis, Mo., Oct. 19.—After a hearing lasting ten minutes Mrs. Julius S. Walsh obtained a divorce in the Court of Domestic Relations. Mrs. Walsh, a nationally known horsewoman, testified that Mr. Walsh had been "disrespectful, unkind and blasphemous."

Mr. Walsh entered an appearance and made a general denial. He is a son of the late Julius Walsh, wealthy banker and railroad director.  
Mrs. Walsh's petition was filed only several hours before the decree was granted. It recited that they were married in Lexington, Ky., her home town, on December 30, 1905, and separated on October 7. For a number of years, the petitioner alleged, her husband made her conditions intolerable, calling her insulting names and humiliating her before their friends and members of their families.  
Her testimony followed closely the language of the petition. She gave her age as thirty-nine years. From 1909 to 1922, she said, she and her husband resided in New York. They have no children.

**DOCTOR FLIES TO TREAT TROTSKY FOR CANCER**  
London, Oct. 18.—A dispatch to the Exchange Telegraph Company from Munich says Dr. Ferdinand Sauerbruch noted surgeon, has departed for Moscow in an airplane to attend Leon Trotsky, War Minister of Soviet Russia, "who is suffering from cancer of the stomach."  
Previous dispatches from Moscow have told of Trotsky's slight physical indisposition, but no indication was given that his ailment was alarming. Travelers returning from Russia, however, have reported both Lenin and Trotsky suffering from incurable maladies.

Lecture On Fossils Is Given At N. H. S.

How life first began and how from simple and imperfect forms it developed to more elaborate and diversified structures, increasingly prepared to meet the necessities and emergencies of existence, was clearly shown in the fossil forms which had been discovered. Miss Christine Mathew contended in the course of her interesting and illuminating address given yesterday afternoon in the Natural History Society's rooms as the first lecture in the Kate M. Mathew Memorial course which the Ladies' Auxiliary has arranged for this season. Miss Mathew is well known as an eminent scientist and clever lecturer and the Ladies' Auxiliary was considered unusually fortunate in having been able to commence its season with an address by Miss Mathew, especially since she is the niece of Mrs. Mathew, whom the course commemorates. Mrs. Harold Lawrence, the president, was in the chair and the hearty thanks of the meeting were extended to Miss Mathew on the motion of Mrs. George F. Smith.

At the close of the address many of the members of the audience remained to speak with Miss Mathew and to examine the specimens.  
It was announced that the lecture next month would be given by Miss Ethel H. Jarvis on the collections of old china in the museum.

New President Of Mt. A. Inaugurated

Sackville, N. B., Oct. 18.—George Johnson Trueman was this afternoon, amid impressive scenes and in the presence of an audience that taxed the capacity of Fawcett Memorial Hall, inaugurated as the fifth president of Mount Allison University.  
Dr. Trueman was introduced by Senator F. B. Black, of Sackville, welcomed to the university by Professor Hunton, by Dr. Graham, of Victoria College, Toronto, representing the Methodist of Canada, and by Dr. A. Stanley Mackenzie, president of Dalhousie University, Halifax, representing the colleges of Canada. Dr. Byron Borden, the retiring president, presented Dr. Trueman the charter of the university, and in so doing declared him the president, and later humorously remarked "My attitude from now on will be that of 'Let George do it.'"

### CONFERENCE ON HYDRO IS HELD

Power Co. Officials Think Canvass for Customers Now is Unfair.

At a conference held yesterday afternoon between the local directors of the New Brunswick Power Company and the members of the City Council, the present situation in regard to the supply of current was very thoroughly discussed, the directors desiring to demonstrate to the Council that they were doing all in their power to aid in the present difficulty.

A. P. Patterson, one of the Power Company directors, was the first speaker and he said the attitude of the new directors of the Power Company was to do all in their power to help out in a serious situation. He pointed out, however, that the directors felt it was not fair to them for the civic commission to continue to canvass actively for business while the company was supplying the current to energize the Musquash line and if this course was followed it might possibly be necessary to cancel the agreement.

Mayor Fisher asked if this was an intimation that such a course would be followed and Mr. Patterson said it was not. He was just pointing out that the directors considered the unreasonableness of the proceeding.

Mr. Pooler was then called on and gave a brief summary of what had taken place between the provincial commission and the Power Company from Sept. 12 down to date. He said that the first application received from the provincial commission was not in the form agreed upon between Mr. Sanderson and Premier Veniot and Dr. Smith. The directors also objected to the cancellation clause not being reciprocal. This application had been received on the morning of Oct. 9, several hours after the morning papers announced the shutting down of the Musquash plant for seventeen hours a day.

Following the conference with Premier Veniot and the New Brunswick

### How to Keep a Child Healthy

A GENERATION ago parents thought that sickness was a part of a child's life, but we know better now. The secret is in the food the mother allows the child to eat, and in watching that elimination occurs regularly, two or three times a day. Mrs. W. E. Mar-geson, Centreville, N. S., and Mrs. Pratt, 45 Gillson Ave., Humber-stone, Toronto, always keep a bottle of Dr. Caldwell's Laxative Syrup Pepsin in the house, ready for use, and avoid many of the ills to which children are subject.

**A Substitute for Physics**  
Dr. Caldwell's Laxative Syrup Pepsin is a scientific compound of Egyptian gums with pepsin and suitable aromatic. The formula is on every package. You will find you do not have to force children to take it, and it is much better for them than castor oil, calomel, phenolphthalein even if covered with sugar or chocolate. Laxative Syrup Pepsin is mild and gentle in action and your child will have an easy passage without griping or strain. It does not contain narcotics, and

you can give it with absolute safety to an infant at the breast.  
"Magic" in a Teaspoonful  
Every store that sells medicines sells Dr. Caldwell's Laxative Syrup Pepsin, and the cost is less than a cent a dose. Give half a teaspoonful to any ailing baby or child at night when you put it to bed and you will find a happy, laughing youngster in the morning. Take Laxative Syrup Pepsin yourself when constipated, and give it to any member of the family young or old, for any ailment due to constipation, such as biliousness, headache, lack of appetite, sleeplessness, bad breath, coughs, fever sores, indigestion, and to break up fevers and colds. Stop that first anorexia or sniffling and you will have a healthy winter.

New Brunswick Power Company,  
Saint John, N. B.

Dear Sir—  
Having further reference to the matter of purchasing from you electrical power and energy, following our conference of the sixteenth with your directors and with the Hon. P. J. Veniot, may we ask that provision be made by your company for the supply to us of such electrical energy and power as outlined in our former letter to you, namely, such amount as we may require up to a maximum of approximately 25,000 kilowatt hours daily or as much thereof as you are capable of supplying after providing for your own requirements and the requirements of your customers.

The telegram of your Mr. Sanderson of Sept. 18 to the Hon. Mr. Veniot has

been referred to our commission, and we will be pleased to avail ourselves of his offer. We would call your attention to the fact that certain technical equipment, namely, the transformers, lines and other equipment necessary to make connection with your company is owned by the Power Commission of the City of Saint John, and none other is available for this purpose. Our arrangements will of necessity be contingent upon our coming to some agreement with the city commission for the use of this equipment.

The duration of our contract for the purchase of this power is indefinite, but we would ask that both your company and our commission shall have the right to cancel any arrangement made upon either giving seven days' notice to the other of its intention so to do.

Yours very truly,  
NEW BRUNSWICK ELECTRIC POWER COMMISSION,  
(Sgt.) E. A. SMITH, Chairman.

### Says Americans Boss Rum Running

Gen. Williams, Ontario Police Chief, Answers Charges Against Canadians.

Toronto, Oct. 19.—Americans are directing virtually the entire Canadian-American rum-running industry, according to a statement by General V. A. S. Williams, Commissioner of the Ontario Provincial Police, appearing in "The Toronto Evening Telegram" in refutation of the charge that Canadian bootleggers were keeping the United States moist.

"I am told that American officials do not want to stop this trade. If they do want to, why on earth don't they do it?"  
"The business is managed, operated and financed by their own citizens, who use motorboats and automobiles of United States ownership. Surely they should have some responsibility in controlling the situation."

An alarm from Box 7 called the firemen out about 11:45 last night, but on arrival they found no fire. The hook was pulled by the watchman of the Dominion Coal Co., who saw smoke and fire under one window of the G. E. Barbour building just opposite their premises. The origin of the fire seen by him is a mystery.

Mrs. George Lahey, of Manawagoshish Head, entertained yesterday afternoon for her daughter, little Miss Flor-

COMMITTEE ON PARADE MEETS

Pageant of Ships Urged for Opening of the Big Dry Dock.

That the mammoth parade on the day of the dry dock opening should take the form of a pageant of ships was the suggestion made at a meeting of the parade committee last night and it met with hearty approval. The committee met last night in the office of the chairman, Commissioner Thornton, and appointed Guy L. Short as secretary. There was a large attendance and keen interest and enthusiasm in the parade were evidenced. Word was received of three civic floats which would take part in the

Don't Neglect Your Skin

Ladies—A few days' treatment with CARTER'S LITTLE LIVER PILLS will do more to clean up the skin than all the beauty treatments in creation. An imperfect complexion is caused by a sluggish liver. TELLS DYSPEPTICS WHAT TO EAT

Avoid Indigestion, Sour Acid Stomach, Heartburn, Gas on Stomach, Etc.

Indigestion and practically all forms of stomach trouble, say medical authorities, are due nine times out of ten to an excess of hydrochloric acid in the stomach. Chronic "acid stomach" is exceedingly dangerous and suffers should do either one of two things. Either they can go on a limited and often disagreeable diet, avoiding foods that disagree with them, that irritate the stomach and lead to excess acid secretion or they can eat as they please in reason and make it a practice to counteract the effect of the harmful acid and prevent the formation of gas, sourness or premature fermentation by the use of a little Bisurated Magnesia at their meals.

There is probably no better, safer or more reliable stomach antacid than Bisurated Magnesia and it is widely used for this purpose. Its action on the stomach and is not a digestant. But a teaspoonful of the powder or a couple of live grains of tablets taken in a little water with the food will neutralize the excess acidity which may be present and prevent its further formation. This removes the whole cause of the trouble and the meal digests naturally and healthily without need of pepsin pills or artificial digestants.

Cold Completely Cured With Two Bottles

Most colds are the result of a weakened condition of the system. Nothing will undermine your health so quickly as a cold. More consumption results from neglected colds than from any other source. When you notice a cold developing build up your system. The most effective way to do this is to take a tonic—Carnol. Mr. Harry Heller, of Regina, cured a cold of two months' standing by taking Carnol. Read what he says: "After having used two bottles of your Carnol, I find that it has completely removed my cold from which I have suffered since the first week of December last. All other remedies have been failures and I strongly recommend to others who have been suffering from a similar ailment to try a bottle of your Carnol and I am sure they will not regret such a purchase."—Harry Heller, 2126 Broad St., Regina, Sask.

PROGRESS MADE IN PLANS FOR FAIR. Sub-committee reports presented at a meeting of the G. W. V. A. Fair Committee last evening augur well for the success of the enterprise. It was announced that the City Coroner had volunteered his services for the opening night. A committee composed of Lt.-Col. N. P. McLeod, R. Munro and A. L. Machum was appointed to interview the other bands in the city in an effort to have them contribute their services to one night during the fair.

YOU CANNOT HIDE YOUR FAT. Overfatness is the one misfortune you cannot hide from yourself or from those around you. If too thin, your dresser-maker or tailor can supply deficiencies, but the overfat, carry a burden they can not conceal. There is one sure way to reduce your weight surely and quickly. The harmless Marmola Prescription, which changes the fatty tissues and fat-producing foods to solid flesh and energy, helps the general health and digestion, permits you to eat substantial food, and keeps the skin clear and smooth. This famous prescription is now condensed into tablet form. Each tablet contains an exact dose of the same harmless ingredients that made the original prescription capable of reducing the overweight body steadily and easily without the slightest ill effects. Take but one tablet after each meal and a bedtime until the normal weight is reached and the bodily health completely restored.

GOES IN FOR 6 YEARS. Curry Posed As Dry Agent and Also Sought Hush Money. New York, Oct. 19.—James Curry walked into the candy store of Jack Mabrey, 309 Tenth avenue, September 20, flashed an internal revenue badge and said he knew the storekeeper had liquor on the premises, but that he would not make any report to the "boss" at headquarters if Mabrey would pay him "hush money."

EX-CONGRESSMAN GUILTY OF OVERCHARGING VETERAN. B. F. Welty, of Ohio, Convicted of Extracting \$1,274 for Getting Soldier Compensation. Toledo, Oct. 19.—Benjamin F. Welty, former Congressman from Lima, Ohio, was found guilty of overcharging for services in obtaining compensation for a former service man by a jury in Federal Court here.

MENTHOLATUM Quickly clears a Snuffy Cold.

PEPS. The real breathable tablets, make the throat, chest, and lungs cold-resisting. When a nasty cold or a coughing bout foretells the revival of your old bronchial trouble, the best thing to do is to take Peps at once to strengthen and PROTECT the chest. When a Peps tablet is taken from its preserving silver wrapper and allowed to dissolve in the mouth, it gives off powerful medicinal and germicidal fumes that immediately circulate with the breath through all the air-passages, and destroy any germs that have got into YOUR nostrils and throat. At the same time the sore, inflamed membrane is soothed, healed, and protected, phlegm is released from the bronchial, breathing is made easy, and that distressing cough and throat soreness disappear. By this direct treatment Peps keeps trouble off the CHEST and lungs, and the worst weather can be faced without fear of evil consequences. It is the safest plan to always have a few Peps handy to arrest a cold, and prevent it reaching the lungs or starting bronchitis and chest weakness.

YOUR CHEST. While you may not notice any ill effects from errors of vision which would be extremely serious, the fact remains that these defects are causing the eyes to use up and waste a tremendous amount of nervous energy. Have your eyes examined. If they are defective, the proper lenses correctly mounted will bring you corrected vision.

PAPYRUS WILL BE FAVORITE

The Derby Winner's Flash Causes Uneasiness to Zev Supporters.

New York, Oct. 19.—Papyrus today looms as a probable favorite over Zev in tomorrow's \$100,000 international match race that will make racing history.

Reas-Admiral Grayson's My Own is the one at Belmont Park today, to be used as a substitute should anything happen to prevent Zev from facing the barrier tomorrow.

The race committee's request yesterday that My Own be taken to the track gave rise to reports that Zev was not in condition and might be replaced by Admiral Grayson's horse.

Varied estimates are being placed on the probable attendance at the first international horse race. The advance sale of tickets indicates it will reach 100,000.

Zev's workout yesterday was confined to a gallop around the track. Today the horses were held to brief limbering up canter.

The ease with which Papyrus did the mile yesterday indicated he would go to the barrier in excellent condition, while Zev's trainers maintained he was fit.

The international race will be the fourth race of the afternoon's card and will be started about four p.m. eastern standard time.

LET OUT OF JAIL FOR RING; HE WINS

Newark, N. J., Oct. 19.—Teddy Snacks, local bantamweight boxer, who is serving two weeks in the Essex County jail, here, got a leave of absence "from the jail" long enough to make a flying trip to Passaic last night, where he defeated Willie Darcy of New York in a 10-round bout.

Snacks and his trainer, I. N. Mott, were sentenced to two weeks in jail for failure to attend drills of the New Jersey National Guard, to which they belong.

Kansas City Make It 3-1. Kansas City, Oct. 19.—Kansas City defeated Baltimore five to two yesterday, making the count Kansas City three games to one.

MACDONALD SENT TO HIGHER COURT

Magistrate Commits Him in Check Case—More Evidence Given. Harold C. MacDonald this morning was sent up for trial by Magistrate Henderson in the Police Court on a charge of obtaining money and goods under false pretences. At the completion of the evidence for the prosecution, the prisoner declined to make any statement. D. Mullin, K. C., appeared for the defence. Three witnesses were heard this morning. J. A. Lively testified that he resided at 9 Garden street, the address given by the accused as his home, that he had resided there for some years and did not know the accused. William B. Hicks, a clerk in the D. S. C. B., told of the procedure adopted by the Government in paying pensions and said that the checks in evidence, alleged to have been passed by the accused, were not the same as the pension checks. Detective Foster identified a coat and pair of shoes as those in the possession of the prisoner when arrested, and which, when worn by him, said were similar to those obtained in exchange for alleged worthless checks. The case will likely be heard at next month's session of the County Court.

GIVEN A SHOWER. An interesting event took place last evening when friends gathered and gave a novelty shower to Mr. and Mrs. Percy Whalen at 24 Chapel street, West End. The bride and groom received many useful and beautiful gifts, which were presented by Charles Gallop, publisher-in-law of the bride. The evening was spent in music and dancing, after which a delicious supper and menu were served by the hostess. Speeches by the bride and groom and the singing of "For They Are Lovers" brought the evening to a close.

BODY FOUND AS WATER RECEDES

Viewed by Coroner Porter and Inquest Will Likely be Held.

The body of Morton Mortenson, who was drowned from a small boat while crossing Cansuway Bay last evening, was found last night about 10:30 o'clock lying on the flats near the city shore after the tide had receded. The body was viewed this morning by Coroner H. A. Porter, who said this afternoon that an inquest likely would be held. He proposed carrying out an investigation of the matter this afternoon. He said that he had decided that the drowning of Captain J. A. Hersey, of the tug James S. Gregory, was entirely accidental and there was nothing in the circumstances to warrant an inquest. Besides his wife and son, Harry R. Hersey of Grand Manan, Captain Hersey is survived by one daughter, Mrs. C. W. Perrett of 81 High street, North End; also two brothers, John P. of West St. John and Manning of the United States; and two sisters, Mrs. Reid Orde of South Milford, N. S., and Mrs. Arthur Moore of Freeport, N. S.

MEETINGS ON THE LIGHTING MATTER

This morning the chairman of the Civic Power Commission, R. A. McAvity, and Harry Wilson, engineer, met engineers and officials of the New Brunswick Telephone Co. and discussed matters pertaining to interference by the commission with the company's system. After the conference it was said that it was believed an amicable agreement would be arrived at. A meeting of the Civic Power Commission has been called for 4 o'clock this afternoon to deal with matters arising out of the present situation in regard to the supply of current. Mayor Fisher this morning urged the New Brunswick Electric Power Commission about the present situation in regard to the supply of current, and also the bill from the commission to the city of \$50,000 for current.

OXFORD MEN WERE IN ST. JOHN TODAY

Debating Team on the Way to Nova Scotia—New Brunswick Later.

Messrs. Bagnall, McLean and Speight, men of Oxford University, England, who have been matching their debating ability against the best that universities and colleges in U. S. and Canada can put against them, arrived in St. John this morning and were met by Arthur N. Carter, himself an Oxford man. They arrived here on the early train from Montreal where they won a debate with the men of McGill, and left on the steamer Empress for Halifax via Digby. They are to debate against Dalhousie at Halifax on Saturday night, Mount Allison at Sackville, Monday night and U. N. B. at Fredericton on Tuesday. As was announced His Lordship Bishop Richardson and Chief Justice Sir Douglas Hazen will be two of the judges at Fredericton. Hon. J. B. Baxter will be one judge at Mount Allison and Professor Keirstead and Hon. H. A. McKinnon are mentioned as the others, though this is not confirmed. The subject to be debated at Dalhousie and the U. N. B. is the League of Nations; at Mount Allison, the reparations problem. So far the Oxford men have debated with Yale, Harvard, Universities of Washington, Columbia, Cornell, Toronto and McGill, at the latter, the League of Nations was the subject; at the U. S. universities the problems of the Ruhr.

YOUNG MEN ARE GIVEN BANQUET

Guests at Pleasant St. Andrew's Function—Officers are Elected. About 80 of the young men of St. Andrew's church, were entertained at a banquet given them by the ladies of the church Thursday night last, the occasion being their first meeting of the season for the discussion of fall work and election of officers. At the banquet a delicious supper served in the vestry of the church, Rev. Mr. Bonnell briefly outlined a proposed programme for the coming season, after which the gathering removed to their new class room where the election of officers took place, resulting as follows—President, Fred Smith; vice-president, Everett Magarity; treasurer, Wesley Stewart; secretary, W. Brander. Committees were also appointed to handle the various forms of activity. It was decided to enter teams in the local basketball leagues and badminton tournaments.

As Hiram Sees It

"Hiram" said the Times reporter to Hiram Hornbush, "a good lady has asked me to enquire if you would interest yourself enough in missions for the Chinese in Canada to put it up to the church in the Settlement that they ought to aid in sending the delegates from here to the convention in Kingston. She thinks the churches ought to help."
