FEATURES OF NEW BANKRUPTCY ACT

Regarded as Most Advanced Insolvency Legislation

Secretary of Retail Merchants' Association in Ottawa Says Act Will Be Well Received—Covers All Classes.

Ottawa, Jan. 6.—There are several important features in the new bankruptcy act, which will become effective on July 1, 1920, and which has been declared by merchants and others to be the most advanced insolvency legislation on the continent.

It provides that all assignments must be appointed by the various provincial governments, and that they must be capable men who will be bonded for the work they are to perform.

Another provision is that the benefits of the act are open to men in business or private citizens if the latter so desire to make an assignment. They may be declared insolvent if it is found that the circumstances warrant such action.

When a merchant has filed a statement showing his financial condition his creditors can take action to have him declared insolvent if his statement justifies this being done.

Another important feature of the new act is that all persons carrying on business must keep books showing the record of all their transactions. This becomes compulsory from the date of the act coming into effect.

In outlining these features, E. M. Travers, dominion secretary of the Retail Merchants' Association of Canada, said last night that the act would be well received. As it passed the house the measure had the support of business and professional men of all classes and its provisions were regarded as equally fair to those in all lines of trade as well as farmers and private citizens.

KEPT MOVING TO AVOID THIEVES

Woburn Man's Methods in Adams Square Brought Policeman Into Action.

Boston, Jan. 6.—Alta Colson of Woburn, having managed to save \$200, decided he would give anyone who tried to get it away from him a "run for his money."

He surprised early comers yesterday by sprinting around Adams square and had completed 100 laps or more at top speed when a policeman stopped him. Colson explained that he had heard there were pickpockets in town and thought it best to keep moving while he waited for a car.

Evidence of Work as Spies in War Comes To Light in Red Raids

Released Men in Nashua Lose Their Jobs

A Lawrence Protest Fails—Boston Lawyers Engaged to Fight Deportation—Haywood Surrenders Himself and is Released on \$10,000 Bail.

Special to Times.) Boston, Jan. 6.—A request of Mayor Peters for \$15,000 to be used in combating Bolshevism was passed last night by the city council and becomes available for the mayor's committee on Americanism that will work chiefly on the lines of counter-Bolshevism.

There is no sign of an attempt to interrogate the 417 Reds in relation to the charges against them. Thirty-eight men were admitted last night.

Now that the roundup is almost completed, certain evidence the government has concerning the prisoners has leaked out. It developed that some of those who maintain they are innocent victims of circumstances are known by government agents to have been acting as spies during the war. A letter in the possession of the authorities discloses this fact.

When the officers raided a house in West End they came upon a book printed in Russian in which was concealed a note addressed to a Worcester man. The missive contained information concerning the shipment of 10,000 shells to the Edlystone Ammunition Corporation, Edlystone, Pa., and it further explained that the shipment was made in a car of the Michigan Central Railway and gave the number of the car.

Released Reds Lose Work. Word reached Boston yesterday from Nashua, N. H., that the 132 Reds who had been released had been discharged from their jobs when they reported for work. They applied to the chief of police for cards which would permit them to work but they were refused these also.

As a protest against the arrest of the men taken from Lawrence some members of the Amalgamated Textile Workers Union planned a strike. They hoped that at least 600 operatives would fail to report yesterday. The protest was a decided failure as only two men adhered to the words of Harry L. Russell, a former minister, who has been active in their behalf since his last strike in that city.

Many local lawyers have been engaged by the Reds to fight deportation. (Canadian Press)

Detroit, Mich., Jan. 6.—The first effort to force the release of any of the 600 radicals came when a writ of habeas corpus was issued for Albert Renner, manager of the House of Masses, where most of the prisoners were detained. Matthews H. Bishop, county prosecutor, later announced that he would issue a complaint against Renner, an American citizen, charging violation of the state syndicalist act.

Fifty of the prisoners were released after examination today. Department justice officials held to their earlier estimate that between 250 and 300 would be held for deportation.

To Upset World's Currency. New York, Jan. 6.—Proof that the United States was included in the conspiracy of the Lenin-Trotsky regime to disrupt the currency of the world by flooding the Allied nations with counterfeit money has been revealed in documents seized in the raids, according to federal agents. The money is said to have been smuggled into the country by way of Mexico and many counterfeit \$50 and \$100 bills have been discovered.

Information now in the hands of federal officials indicate that the Moscow mint has turned out millions of dollars worth of bank notes of England, France, Italy, Japan and the United States. The sum appropriated for this country is said to be \$200,000,000.

Hayward's Case. Chicago, Jan. 6.—(Canadian Press)—William D. (Big Bill) Hayward, general secretary of the I. W. W., released from Leavenworth some time ago on bond, surrendered to State Attorney Masday Hoyne yesterday to answer to a charge of violating the new state law against syndicalism. Negotiations are under way, it was said, for the purchase of two other mills.

The transactions announced represent an initial investment of approximately \$1,000,000.

As Hiram Sees It

"Hiram" the Times reporter said to Mr. Hiram Hornbeam, a New Brunswicker in the Rocky Mountains in British Columbia writes that he has ordered a barrel of buckwheat meal and some gallons of real molasses from this province. He says they can buy both the west. There are two families from Boston these parts at a junction near a mountain lake. They think of the old home and there comes unbidden a verse of an old recitation—

"But a savory smell from the kitchen comes, To greet our freeding nose— 'Tis pancakes on the griddle, And we start from our repose."

"I was rife on 'em," said Hiram. "And I" said the reporter, "am finding the days long until I may see the records of youthful joy in sniffing around the kitchen, and then advancing to the attack with knife and fork until only an empty plate, some pork rinds and a sadly depleted molasses picher remained to tell the tale."

"By gravy," said Hiram, "it makes me hungry to hear you talk. I never seen a winter yet, that we didn't get a pig, part froze down an' part sailed down—an' all the buckwheat meal we could eat for some time. I like the old yellin' kind. This here smooth buckwheat aint got the flavor—no sir."

"Well," said the reporter, "I would like to be in that home in the Rockies the day after the start of life arrives. I have heard a doctor in the neighborhood say 'I never heard of anybody yet,' said Hiram, "that was killed by pancakes. The cooks kill a good many—or give 'em dyspepsia. If any feller ever told me Hanes' pancakes hurt him he'd need a doctor right away—By Hen!"

TORONTO BOARD OF HEALTH HAS GONE LIMIT IN FIGHT

Will Not Join Provincial Board to Get Court Order for Compulsory Vaccination.

Toronto, Jan. 6.—The Toronto board of health will not join the provincial board in a fight to compel the city council, by mandamus, to order compulsory vaccination in this city. Chairman Cowan informed his colleagues that he had obtained legal advice that the board had already done everything required in trying to get the city to have compulsory vaccination, and in compelling school children to be vaccinated, therefore the board would not be warranted in taking any legal action.

The action of the Toronto board has thrown back the fight to the provincial board.

TUBERCULOSIS SITUATION IN QUEBEC ALARMING

Quebec, Jan. 6.—Medical practitioners in Quebec are becoming alarmed over the spread of tuberculosis in the province and are arranging for a widespread campaign against the disease. An inspection of convents, colleges and orphan asylums of late has shown that tuberculosis is so prevalent, especially among workmen, that corrective work must be carried out with vigor by the government and health departments of the provinces, cities, towns and municipalities. A prominent Quebec physician, speaking of the prevalence of tuberculosis in the city and province of Quebec, said the situation was appalling.

Record Sum Received For Harbor Fisheries

Keen Competition for Some of the Lots

Total Received is \$18,670.61, Which is an Increase of Nearly 75 Per Cent. Over What Was Realized Last Year.

The highest amount ever received for the harbor fishing lots was realized this morning, when they were put up for sale in the county court rooms by Auctioneer F. L. Potts. The total amount of the sale was \$18,670.61, as compared with \$10,644.10 received last year, an increase of \$7,026.51, or nearly seventy-five per cent.

The bidding was particularly keen at times and there was a spirit of competition for some of the better lots that surpassed all previous sales. This was particularly noticeable in the sale of Lot No. 20 on the West Side shore group, which was bid in last year by Robert Irvine for \$1,700. Harry Belyea outdistanced all competitors this morning, getting the privileges for this year at a cost of \$4,200. McCormick & Zatzman had difficulty in retaining their hold on No. 8 lot on Navy Island, for which they paid \$2,100 last year and today cost them \$4,950. Lots 1, 2 and 7 on Navy Island were also eagerly sought, being knocked down to Harry Belyea for \$6,000. Last year McCormick & Zatzman bid them in for \$5,550. Lot 100C at Courtney Bay, for which \$1 was paid last year by L. C. Harred, was not knocked down until \$1,027 had been bid by him.

Mayor Hayes and all the commissioners were present at the sale, as well as H. E. Washburn, the common clerk, and D. G. Lingley, the city chamberlain.

The details of the sale are:—

LOYD GEORGE AS NEW PARTY HEAD

English Writer Says He is Preparing to Inaugurate the "Centre Party."

London, Jan. 6.—The political correspondent of the Daily Mail says that Premier Lloyd George, foreseeing that he has no political future among either the Unionists and Liberals, is preparing to inaugurate a new centre party of which he would assume the leadership.

"This," adds the correspondent, "is the real reason for Mr. Churchill's attack on labor's white inroads. He is less inspired by the premier. The association of Lloyd George and Mr. Churchill is so close that towards the end of the last session of parliament the members used to say that the government really consisted of Lloyd George and Churchill."

The correspondent maintains that the recent Spem Valley election sealed the premier's fate. He argues that the premier has nothing to hope for from the Liberals and that a strong section of the Unionists will not submit to his leadership.

James H. Thomas, general secretary of the National Union of Railwaymen said yesterday with reference to the statement of Mr. Churchill regarding the intention of laborites to govern, that he ought to be the last man in the world to be a member of the government, that his incompetence cost thousands of lives in Gallipoli and in the disaster at Antwerp. Whatever mistakes labor might make, he said, it would be a disaster to the world into a worse position than that was at present.

ONE WAY IN WHICH HUNS ARE PAYING SCORE

Krefeld, Germany, Jan. 6.—German owners of moving picture shows are being forced, it is reported, to display prominently and often Entente moving pictures showing successful battle scenes and Entente, particularly French, victories. One concern has been closed down by the Belgian authorities for having raced through a French military picture so fast that the details could not be seen.

TORONTO POSTMEN DISSATISFIED

Toronto, Jan. 6.—Local letter carriers are still dissatisfied and talking of striking to obtain their wages demands. They have been asked to accept from \$620 a year to \$650 a year, plus a bonus of \$420. Their latest grievance is the decision of the postmaster-general to pay them for overtime during the Christmas rush at twenty cents in different grades. They informed the postmaster here that their overtime rate would be from forty-one cents to sixty-one cents an hour.

Grand Trunk Earnings. Montreal, Jan. 6.—Grand Trunk Railway earnings for the ten days ended Dec. 31, 1919, were \$1,875,184, an increase of \$8,190 over the same period of 1918.

PAY \$100,000 TO GET "BABE" RUTH

That is Sum Yankees Must Hand Red Sox

Now King of Home-Run Batters Says He Will Not Play Except for Boston—Huggins Trying to Win Him Over.

(Special to Times.) Boston, Jan. 6.—One hundred thousand dollars for a ball player. That is what the Red Sox management is to get from the New York American Club for "Babe" Ruth, home run hitter extraordinaire. Last season he made twenty-nine circuits, 112 triples and twenty-nine doubles.

There is just one little fly in the ointment. "Babe's" business manager received a despatch from him at Los Angeles yesterday as follows: "Will not play anywhere except in Boston. Start for the East Monday."

It is said this is because he has money in a cigar business in Boston.

That has Spem Valley attitude all along. When he sent out a feeler three months ago that he did not intend to play by his contract, which called for \$100,000 a year, but wanted \$200,000 each for the other two years he said that if he did not get it he should quit baseball and would not allow himself to be traded. It is now up to the Yankees to persuade Ruth to join his former team mates, Carl Mays and Duffy Lewis at the Polo grounds.

Manager Miller Huggins of the Yankees has gone to California to try to influence Ruth to abide by the decision of the owners. It is most probable that the New York management will agree to Ruth's salary demands and probably this will cause the king of home run makers to cast his lot with the Yanks.

Boston certainly set up a howl if it loses Ruth, as it did when Speaker was traded to the Yankees, though storm calmed down.

Ruth, with Pitcher Ernie Shore and pitcher Ben Egan, was purchased from the Baltimore club by the Red Sox in 1914. Ruth was sent to the Providence Club for more seasoning that year and was recalled in September.

His best season as a pitcher for the Red Sox was in 1915, when he won eighteen games and lost seven. In 1916 he won twenty-three and lost thirteen and the following year he won twenty-four and lost thirteen. In 1918 he was called on for duty elsewhere and did not play in a game since then. He has won thirteen games and lost seven. In 1919 he did most of his playing in the outfield, but was named last in the game when he well his big league experience has been with the Red Sox.

Ruth was an orphan in a Baltimore charitable school. He played for its team and his pitching attracted the notice of Manager Dunn of the Baltimore Eastern League Club. The latter adopted him through the courts in order to obtain his release from school, and Ruth rushed to the front of Eastern League pitchers.

The Boston Americans purchased Ruth and his pitching team mate Shore from Baltimore in 1914.

President Frazer, in announcing the sale, said the price was something enormous, an amount the club could not afford to refuse. No other club could afford to give the amount the Yankees have paid for him, and he considered it was taking a gamble.

"I do not wish to detract one iota from Ruth's ability as a ball player nor from his value as an attraction," he said, "but there is no getting away from the fact that, despite his twenty-nine home runs, the Red Sox finished sixth in the race last season. What the Boston fans want and what I want is a winning team rather than a one-man team which finishes in sixth place."

(Canadian Press.) Los Angeles, Jan. 6.—George "Babe" Ruth today was the property of the New York Americans, according to announcement by Miller Huggins, manager of that team. He said service of the player was acquired by the biggest deal ever pulled off in baseball. He would sell for his value as an attraction, but he and his pitching partner were something other sources placed the amount paid the Boston owners as high as \$75,000 to \$100,000, but Huggins' announcement is without confirmation from Ruth.

\$150,000, with probably two players.

Washington, Jan. 6.—Immediately after the supreme court upheld the constitutionality of provisions of the Volstead act prohibiting the manufacture and sale of liquor containing one-half of one per cent or more of alcohol, the department of justice began preparations for the prosecution of all persons who have sold beer since the passage of the act on Oct. 28.

Cases against those who manufactured 2.75 before the act passed were dismissed, but all manufacturers and retailers who have dealt in beer since the act was passed have been recorded by the department of justice and they will be made defendants in cases to be started soon.

SAYS IT IS LIE

Strong Statement by Wall Street Journal About Hearst Papers and British Loan.

Montreal, Jan. 6.—A special despatch to the Montreal Gazette from New York quotes the Wall Street Journal, under the caption "Genesis of a Lie," as saying editorially:

"There is the evidence of known conditions to demonstrate that the story of the Hearst papers of a contemplated attempt by Great Britain to raise here a loan of \$15,000,000 was a falsehood, made out of whole cloth and circulated for the definite purpose of stimulating anti-British feeling for political purposes.

"The story seems to have had its genesis in the statement of Sir George Paish that central Europe first, and then the continental European allies afterwards, would require American help, and that Britain alone could not undertake the task.

"Even the sum of thirteen billions, like the attribution of any loan whatever, is pure invention. The originator of the story could not fix any sum, because nobody in Europe, however well informed, can even approximately estimate what the necessities of central Europe are.

"It is easy enough to say that its origin damned such a rumor. But it was not a rumor. It was a flat and circumstantial lie carefully related for circulation among the ignorant incorrectly, to constitute the large untruth, which Mr. Hearst supports, quite hers who read his newspapers and accept their statements for facts."

### HEAD STUFFED FROM CATARRH OR A COLD

Says Cream Applied in Nostrils Opens Air Passages Right Up.

Instant relief—no waiting. Your clogged nostrils open right up; the air passages of your head clear and you breathe freely. No more yawning, sniffling, blowing, headaches, dizziness. No struggling for breath at night; your cold or catarrh disappears.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply a little of this fragrant, antiseptic, healing cream in your nostrils. It penetrates through every air passage of the head, soothes the inflamed or swollen mucous membrane and relief comes instantly. It's just fine. Don't stay stuffed up with a cold or nasty catarrh.

James McKinney and Douglas McArthur sr. Supper was afterwards served.

A break in the service pipe in Bridge street was repaired and service continued yesterday afternoon, having been shut off since Saturday.

FARMERS AND POLITICS.

A meeting is being held in Winnipeg today at which representative farmers from the prairie provinces and Ontario will consider whether they will have a central organization to direct their campaign in the federal elections, or leave the united farmers of each province to carry on their own campaign.

In connection with probable changes in the next house the Ottawa correspondent makes a division of groups of the present membership as follows:— "If party lines should be drawn again in the future, we should probably see a line-up something like this: straight Liberals, 83; straight Conservatives, 81; Liberal-Unionists, 31; Conservative-Unionists, 15; cross-benchers (including farmers), 12; straight Unionists, 8; Labor-Unionists, 1; dual representation, 1; vacancies, 2; making a total of 234 seats.

A change that may take place before the general elections would not help either the Liberals or Conservatives, but he cross-benchers, and it may seem to be clear that the next appeal to the people. The present cross-benchers are: Dr. Clark, Hon. T. A. Creer, Caldwell (Carleton, N. B.), Buchanan, Davis (Neepawa, Man.), Burnham, Gould (Asinabouia, Kennedy (Glengarry), Knox, Ishagah and Reid. Of the above Creer, Caldwell, Gould, Kennedy, Knox, Ishagah and Reid are farmers.

A CHEERING REVIEW.

The Times-Star yesterday summed up the industrial and commercial situation in this city and province, showing that conditions are sound at the beginning of the year and the general outlook is encouraging one.

There came to hand yesterday a copy of the Toronto Globe's annual financial survey and trade review, and its contents, covering the whole Canadian field, are of such a tenor as to strengthen public confidence the country over.

"Canada has well demonstrated that during both war and peace periods she has taken part in the world export trade and with great advantage to herself.

"God's most favored country," is the definition of Canada given by another contributor, Mr. Lloyd Harris, chairman of the Canadian Trade Mission to London. He declares the fruits of victory are ready for our plucking, and it is only necessary for the people to get together and "put the same unity of effort and national pride into the problem of working out our future destiny" as was put into the war.

new markets which are now available, but which, if not taken advantage of now, will be exceedingly difficult to secure in a few years' time." Mr. D. B. Hanna, president of the Canadian National Railways, contributes a cheering article in which he pays a high tribute to the officials of the system, who "are as much on the job as any railway officers I have come in contact with," and adds the declaration that not once has he been troubled by government or political interference.

Mr. C. A. Bogert, president of the Canadian Bankers' Association, among other things says that the general outlook for Canada is better than that of most Allied countries, but adds that the people must co-operate to the utmost in a policy of production and thrift.

A special article dealing with industrial development says: "A careful analysis of the state of industry submitted by representative manufacturers in varied industries covering the whole of Canada shows that the future looks auspicious to a great majority of the business leaders. Even taking into account the drawbacks and uncertainties that are felt in different quarters, it is apparent that the manufacturers are convinced of the possibilities that lie ahead in the way of enlarging their markets."

In the sixteen pages of this special issue of the Toronto Globe there is a wealth of valuable information, and even a glance over the head-lines conveys the impression that all is well with Canada if her people get together, sink their differences, have done with suspicion and distrust, and seize the opportunities which lie at their doors.

Halifax Chronicle:—"An excellent and timely example is being set by the American government in the steps which it is taking for the suppression of Anarchism and Bolshevism in the United States. The proceedings will be watched with special interest by Canadians. The Dominion has been infected with and has suffered considerably from the same disease which is unquestionably spreading and showing symptoms of becoming more virulent. It is not a matter of indifference to either Canada or the United States. It has been maliciously brought in by outsiders of various kinds, who have been allowed the run of the two countries. It is high time now for their suppression, or at least for the definite curbing of their utterances and activities."

Tuberculosis is so prevalent in Quebec province that a general campaign against it is being planned by the health authorities. In this city the opening of the free dispensary one evening, as well as one afternoon for adults and another for children, will be of great benefit in the fight against the disease here.

It is not surprising that there should be a wave of protest against lining up two hundred criminals in Chicago to witness a hanging. The surprising thing is that any official should conceive or consent to such a shocking affair, which is simply a reversion to a savage, the world is seeking to outgrow.

Gen. Ludendorff is very bitter in his denunciation of the conduct of the Allies in regard to the terms of the peace treaty and the exactions levied upon Germany. He was not so keen to criticize when his soldiers ravaged Belgium and northern France.

While the Toronto authorities refuse to enforce vaccination the smallpox goes on claiming victims and spreads to other places. Ontario might learn something from New Brunswick that would be to its profit.

Great Britain faces another railroad crisis. The government dodges one pitfall to encounter another. The genius of Lloyd George is being constantly put to the test.

NOEL MARSHALL OF RED CROSS HONORED. Toronto, Jan. 6.—Noel Marshall of this city, chairman of the executive of the Canadian Red Cross Society, has been given the order of Regina Maria, first class, by the King of Roumania in appreciation of the work of the Canadian Red Cross Society among the soldiers and people of the Balkan kingdom. Mr. Marshall is also a Commander of the French Legion of Honor.

GOOD RIDDANCE. Of anarchists we're weary, of all the kindred freaks, of agitators beery who jar us with their shrieks, and so we've started shipping the lot across the sea, and they may do their ripping, in Russia, which is free. They didn't like our banner or eagle, worth a cent, and in unseemly manner they voiced their discontent. They said that tyrants rule us, we're trampled by the strong, the plates and robbers fool us, and everything is wrong. They pitied for they shuddered at our fate, and thought some timely dicking and bombing would be great. And now they have departed for Russia's shining shore, where patriots true-hearted may shed each other's gore; where man takes recreation with weapons in his paw, and prompt assassination is sure of great applause. I hope they'll all be joyous on Russia's happy strand, and never more annoy us, or see this darkened land. They'll have the kind of freedom that's bound to hit the spot, for friends will shoot and bludge and burn them when they're 'ere. So let's keep on dispatching the reds to Russia's shore; they've licked us long and scratching has grown to be a bore.

CANADA—EAST AND WEST

Dominion Happenings of Other Days

ADAM DAULAC. Few incidents in connection with the early history of Canada are more stirring than the battle fought by the Iroquois by Adam Daulac, who attempted to save Montreal in 1690 from the dreaded Indians. More than 600 warriors of the tribe had wintered near Montreal, while another detachment were in camp on the River Ottawa with the intention of uniting in the spring, striking a severe blow at Quebec, and then attacking Montreal and Three Rivers. Every Frenchman in the settlement knew the fate of everyone if the Indians were able to capture the place.

So Adam Daulac, a French officer in command at Montreal, decided to strike for the salvation of the people. It was a desperate enterprise he outlined to his followers as he called for volunteers for his work. Sixteen young men offered to go with him to what they had every reason to believe would be certain death. They made their will, received the Sacrament and then made their way across the Lake of Two Mountains to the locality where the Indians lay. There they awaited the attack. A few friendly Indians joined the little party but they deserted before the fight came.

The Frenchmen took up a position in an abandoned enclosure made with tree trunks; it had been erected a year earlier by a band of Algonquians. Two hundred Iroquois, attacked by their men with such a fire from the defenders that they were unable to win the easy victory they had anticipated. Then they went for reinforcements, keeping up an attack while awaiting the braves. On the fifth day other warriors arrived, but the French were exhausted by lack of food and sleep. Three days later the Iroquois broke through the wall. Daulac was slain at once, but his companions fought until every one was shot down. Only four Frenchmen were alive. The victors killed three at once and saved the other for subsequent torture, while a like fate was meted out to the deserting Indians. But the loss of the colonists had given the Iroquois such a lesson that the attacks on Montreal and Quebec were abandoned. So by their deaths they saved the colony.

LIGHTER VEIN. "Will the doctor says I must have a little change." "Sorry, dear but I need it all for carfare." (Baltimore American.)

"What's the reason your husband doesn't buy you a car?" "Says he can't afford it." "That's a funny reason." (Louisville Courier-Journal.)

"No more horse thieves in Crimston Gulch?" "No more, in Crimston Gulch. Joe. "We have progressed with the times. We have all kinds of automobile thieves." (Washington Star.)

"What is the baby crying so about, Katie?" "The master's shirt-studs, ma'am. "Why don't you let the little dear have them, then?" "I'd, ma'am, and I'm a swall'ered em!" (Yonkers Statesman.)

"There won't be many New Year resolutions out our way," said Uncle Bill Bottletop. "The regular liquor is all gone and those that try wood alcohol are automatically removed from the calculation." (Washington Star.)

"Yes," said Hawkins, who had purchased some old silver at auction, "this is the old Hawkins family plate." "Indeed," said his guest, "but surely this is an 'A' engraved on it." "It is, ma'am, and of course." The original Hawkins were English you know." (Boston Transcript.)

"Brown acknowledges that he knows nothing about women." "What an immense experience with them he must have had." (Boston Transcript.)

"There is a house near ours which has in it 200 varieties of creepers, and it is a crying nuisance." "Why, isn't it decorative?" "No; it's an infant asylum." (Baltimore American.)

SPECIAL SELLING OF MEN'S OVERCOATS AT OAK HALL. It is quite unusual for the Men's Clothing Department of Oak Hall to put on two big Overcoat Sales in the one season,—but then this has been a very unusual season in the clothing business. Because of unsettled conditions in the manufacturing field, and the enormous demand for clothing production has got away behind consumption, and as a result only small quantities of winter overcoats were shipped at the beginning of the season, and they have been drifting along in small lots ever since.

Oak Hall had large Overcoat Orders placed for last September Delivery, but the unsettled conditions delayed them until this week. Oak Hall feel that rather than put them away for another season, they prefer to offer them to their friends and customers now at a substantial reduction. Although these Coats were bought to sell at from \$30.00 to \$35.00, Oak Hall have taken the entire lot, approximately three hundred coats, and are offering them at the one price of \$25.00 for the balance of this week. These are not left-overs from the season's selling, but are new fresh coats just received from the makers. Beautiful wool materials in greys, browns and fancy mixtures, made up in slinkers, belters, waist-lines and Chesterfield styles. This offers an unusual opportunity to make a big saving on a winter overcoat. Prices are continually advancing, so that next season it is estimated that these same values will be selling at \$40.00 to \$45.00. When you can procure one of these now at \$25.00, does it not present an A1 investment? See them on display in the Oak Hall windows now. The sale starts Wednesday morning at 9 o'clock.

## RECENT DEATHS

The death occurred suddenly on Monday, January 5, of Elisha Smith, in his seventy-fifth year, leaving five daughters and four sons. The daughters are Mrs. T. A. Hurley, Regina (Sask.), Mrs. J. H. McIntyre, Roxbury; Mrs. R. C. Gilmore, Miss E. Beatrice and Eva M. of this city. The sons are: S. L. and Frank of British Columbia; Ed- ward of Allston (Mass.), and Burton G. of this city. His wife, formerly Mrs. Knowles of Newfoundland, also survives him. The late Mr. Smith was associated with the St. John Iron Works, Limited, for the last twenty years. There is scarcely a manufacturing plant of any size in the maritime provinces and Newfoundland that does not bear some evidence of his mechanical ability. He travelled extensively in Canada and United States and was constantly sought after to solve troublesome engineering problems. His advice and assistance were always cheerfully given. His sudden death will be a

great shock to his many personal and business friends as he occupied a unique position in manufacturing circles that will be difficult to fill.

The death of Basile Watson took place on Sunday afternoon at his home in Milltown. His death was caused from the effects of a slight cold which developed Friday. He leaves three daughters and four sons.

James A. Canty, formerly of Fredericton, passed away at his home in Butte, Montana, recently. He was president of the Brownfield Canty Carpet Company in that city and was prominent in business circles. His wife and one sister survive.

Mrs. James Coslan died at her home in Myhrall Settlement Monday, Jan. 5, at the age of seventy-eight years. She leaves one son, four daughters, one brother and three sisters.

The death of George Collinson took place Dec. 19 at the hospital, Bryn Mawr, Pa. He was born in Montreal fifty-six years ago and spent several years in this city as organist in several churches, later going to Pennsylvania.

ALUMNAE SOCIAL ENJOYED.  
In St. Vincent's Auditorium, Cliff street, last evening, the members of St. Vincent's Alumnae held the second in their series of social evenings and it proved a distinctly enjoyable event. One of the features was the presentation of a bright and amusing comedy, "Mrs. Fix-It" written by the vice-president, Mrs. B. P. McCafferty, which was particularly well received. The authors took part, and others in the cast included Misses Genevieve Killen, Mary Killen, Annie Gosnell and Beatrice Carleton. The ladies were assisted by Arthur McCloskey, who acted as stage manager. In the second part of the programme, which consisted of vocal and instrumental numbers, those taking part included Misses Elizabeth McInerney, Emily Bardsley, Alice Moran, Isabelle Reid, Mary Sugrue, Beatrice Gosnell, Mrs. W. P. Duerr, Mrs. James McMurray, Mrs. E. P. O'Toole and Mrs. D. J. Barrett. Refreshments were served by a committee under the sponsorship of Miss Katherine O'Neill.

A WELCOME OLD FRIEND.  
Fred Shear, who was himself a member of the Boys' Club before the war, and who while in England, after his return from France, was an instructor and had to do with boys as well as soldiers, visited the club last evening. He led the boys in games and exercises, and they crowded around him all the more eagerly because some of them at least remembered the old days before the war. The president, Capt. A. J. Mulcahy and Mrs. Mulcahy also visited the club, and the boys crowded around the piano to sing while Mrs. Mulcahy played songs they knew

## SLEEPLESS NIGHTS OVERCOME BY SAFE METHOD

Suggestions Given Whereby Insomnia Can Be Safely and Quickly Cured.

Worry, overwork, overstudy and indigestion cause insomnia.

Healthy, natural sleep can't be produced by drugs.

First, the blood circulation must be improved.

Congestion of blood in the head must be removed.

Irritation in the brain must be relieved.

It's because Ferreroze equalizes circulation, because it soothes the irritation, because it removes congestion that it does cure insomnia.

For building blood and nerve, for instilling force and life into over-worked organs, for establishing strength and vitality, where can you find anything so efficient as Ferreroze?

Remember, sleep is just as important as food.

You must sleep, or break down, but if you'll use Ferreroze and thereby remove the conditions which now keep you from sleep, you'll get well quickly.

Ferreroze is not a narcotic, not a dope; it is a health-giving tonic that any child or delicate woman can use.

Take it for a month, take it for a year—no harm, but immeasurable good will result.

To sleep well, look well, feel well, to be free from depression, nervousness or blues—use Ferreroze. It's a food tonic, a healer to the weak and wretched, a boon to the sleepless—sold in 50c boxes, six for \$2.50, at all dealers, or direct from The Catarrhzone Co., Kingston, Ont.

### LOOK FOR CRISIS

#### Fear That Railwaymen's Wage Question Will Be Cause of Trouble.

London, Jan. 6.—Apprehension is felt by government officials and labor leaders over what appears to be an impending railroad crisis in England. Delegates of the local unions will meet in conference tomorrow, and it seems almost certain the government's offer in settlement of the wage controversy with men in lower grades of the service will be rejected.

James H. Thomas, secretary of the National Union of Railwaymen, is in favor of accepting the offer, but he and associates believe labor is unwilling to compromise at the present time, especially since the Spen Valley election has shown unexpected strength of the labor party. Meetings were held at various railroad centres throughout the United Kingdom yesterday and rejection of the government's offer is the inevitable answer of the men.

It is held that the offer is a standardization downward, and the men affected by the proposed settlement show resentment because settlements with locomotive engineers and men of higher grades included the addition of bonuses to rates of higher pay.

### SPINNER NEARS ANTICOSTI ROCKS

Quebec, Jan. 6.—At noon today news from the Canadian steamer which is drifting in the ice in the Gulf, indicated the vessel was being slowly shoved towards the reefs on the shores of Anticosti. The director of the marine survey was about fifteen miles off Anticosti. No smoke shows out of her funnel and she is apparently without the means of reaching the helpless vessel, but she is having a hard time of it.

### UNITED NATIONAL CHURCH CAMPAIGN

Toronto, Jan. 5.—A series of conferences on the organization of the various inter-church forward movements has been planned by the five communions cooperating in the united national campaign. The director of the movement, the Anglican church, will request all the clergy and an equal number of lay delegates from specified districts to meet for conference in a convenient town. Each of the other communions will call a similar conference for the same day. The afternoon will be given over to denominational discussions. In the evening there will be a mass meeting, when the delegates of all five groups will assemble to hear outstanding speakers. Conferences have been planned throughout the whole of Canada.

### SUGAR LIVELY ON THE MONTREAL MARKET

Montreal, Jan. 6.—Confusion of sentiment was apparent at the opening of the local stock market as a result of severe criticism of yesterday's runaway market in Atlantic Sugar. The effect was noticeable in the first half hour, sugar opening up 3 1/2 at 84, dropping to 82 and fluctuating between that price and the opening price with alternate dips and rallies.

Trading continued very heavy and sugar practically monopolized the board in the early stages. Subsequently Sugar ran up to 83 1/2.

### Constipation or Costiveness

Constipation, although generally described as a disease, can never exist unless some of the organs are deranged, which is generally found to be the liver. There is nothing more productive of general ill health than constipation of the bowels, and a regular action is absolutely essential to general health. One of the most common, painful and troublesome troubles caused by constipation is piles, and unless the bowels are kept open by the use of a good laxative such as Milburn's Laxa-Liver Pills the whole system will be poisoned and many difficult complications of disease arise, so you would be well, keep your bowels regular.

Mr. A. Roder, Hastings St. E. Vancouver, B. C., writes: "I desire to express my thanks for what Milburn's Laxa-Liver Pills have done for me. I had been suffering from constipation for two years, and also a bad cough and headache. I tried all sorts of cures and remedies, but got no relief until I was advised to try your pills. I got great relief after the first few doses."

Get Milburn's Laxa-Liver Pills when you ask for them or send 25c. They will be sent by return of mail by The Milburn Co., Limited, Toronto, Ont.

### STRONG STATEMENT BY PAPER MAKER

#### Sir Wm. Price Says His Firm Will Seek to Resist Orders of Paper Controller.

Quebec, Jan. 6.—Sir William Price, head of Price Brothers and Company, Limited, replies to a statement of P. D. Ross, chairman of the newspaper committee, relative to the difficulties between the paper controller and Price Bros., regarding the delivery of newspaper to publishers in Canada. He says: "As a business man, the whole question for us is as to whether we manufacture or not, of all other producers we are to be restricted in our constitutional right of dealing with whom we choose and of retaining our right of freedom of contract."

"We base our refusal upon the total absence of jurisdiction in the Ottawa authorities and in the paper controller, and we will seek, by all legal means at our disposal to resist the carrying out of the orders given."

"The Ontario government of Canada has the use of powerful weapons, such as the closing of the frontier to our products, or the threat of levying an ad valorem tax, or the imposition of a discriminatory taxation upon our business to bring about a compliance with its orders, and the courts do not give us an adequate measure of relief, as the government cannot be sued without its consent. But, nevertheless, we will resist to the utmost of our power, and so that our own, as well as the industrial and commercial liberties of others may be protected against vexatious and arbitrary measures."

Toronto, Jan. 6.—J. A. Pringle, paper controller, today informed Glyn Osler, representing the trade class section of the Canadian Press Association, that he would recommend to the government a further expenditure of \$10,000 to investigate the profits on book print paper if it appeared necessary.

Mr. Osler declared that a profit of 100 per cent was being made.

### When The Day Is Over

When the household cares and the worries of everyday life have dragged you down, made you unhappy, and there is nothing in life but headache, backache and worry, turn to the right prescription, one gotten up by Dr. Pierce fifty years ago.

Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Doctor Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening pains, irregularities, inflammations, and for the many disorders common to women in all ages of life. Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine are injurious, and so he has always kept them out of his remedies. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it in liquid or tablet form.

### HOME TREATMENT FOR BAD COLDS

#### A Method Which Promises Relief in a Single Night.

Colds probably cause more trouble than any other single ailment. They also probably lead to more serious forms of disease than any other common complaint to which human beings are subject.

The secret in overcoming a cold is getting at it in its early stages. Here home treatment is effective, whereas if it is allowed to develop so that the bronchial tubes or lungs are affected, it is advisable to summon medical aid.

For home treatment of colds and grippe there is no remedy equaling at all the ingredients noted on the box, as there is no substitute which approaches it. On sale at 85 cents per box at all druggists.

### BRED SONG BIRDS WHILE IN PRISON

#### After 21 Years' Incarceration for Murder

Jackson, Mich., Jan. 6.—The recent pardoning of John Higgins after he had spent more than twenty-one years in the State Penitentiary here for a crime he says he did not commit, reveals the manner in which the convict made his life of confinement useful and interesting by raising song birds.

Higgins was convicted in 1898 on a charge of murder. During the past eighteen years he raised, inside the prison walls, and sold more than six thousand song birds. He has sold birds in every section of the country, and some have even been shipped to other lands.

In addition to developing the bird industry, Higgins became an expert photographer, and for ten years was in charge of the prison gallery.

### The Choice of Power Plant Engineers

Talking to men with reputations for continuous economical factory production we find their needs in power transmission units simmer down to—

Moderate first cost  
Minimum operating cost.  
Adaptability.  
Interchangeability.

For these reasons Dodge Wood-Split Pulleys have a firm hold upon their affections.

We never try to tell a man that he should put in Dodge Wood-Split Pulleys because someone else has. We like all superintendents, engineers and purchasing agents to prove them out on the merits of the result they personally get from them.

When they win out (as they invariably do) we then have a firm customer. And that is what we want. Our business has been built up by its orders from firm customers rather than from casual buyers.

DOYLE ENJOYS BREAKFAST NOW

Eats Three Hearty Meals Every Day Since Tanlac Restored His Appetite.

"Before I began taking Tanlac my seven years of troubles had pulled me down until my daily work was torture for me," was the statement made recently by Philip Doyle of 240 Paradise Row, St. John (N. B.). "I had suffered so long from indigestion, rheumatism, backache, neuralgia and headaches that my wife was in constant fear of my passing out and I had about given up hope myself," continued Mr. Doyle, "I had such a poor appetite that I hardly ever wanted my breakfast and I would go off to work without touching a bite. Whenever I did eat I have taken four bottles in all until it cut my breath off and often at night I would have to get up and walk the floor for hours trying to get my sleep. I had rheumatism in my arms and shoulders something awful, and I had pains across my back that were so bad they almost laid me out. I couldn't sleep well at night, felt tired-out all the time. I was planning to give up and go to the hospital."

"But before I went, my wife, as she had heard a lot about Tanlac, got after me to try it and I took her advice. And I am certainly glad I did for if I hadn't it would have been the mistake of my life. I have taken four bottles in all and now all my troubles have disappeared altogether. I eat three hearty meals a day and digest everything perfectly. Gas has stopped coming and my heart action is normal and my breathing is free and easy. I am no longer constipated and I am never troubled any more with headaches and dizzy spells. The rheumatism in my arms and shoulders has left me entirely and the pains in my back are gone. I get up every morning after a good night's rest and sleep, eat breakfast and go off to my work feeling fine. My strength and energy have come back and I have been built up so remarkably that I am feeling like my old self again."

Tanlac is sold in St. John by Ross Drug Company, 150 Prince William street, the personal direction of a special Tanlac representative. (Adv.)

NAZIOVA IN A PLAY OF SUPERB BEAUTY

"The Red Lantern" Shown at Imperial Theatre is Play of Great Power.

"The Red Lantern," the new Metro-Nazimova production in which the famous Nazimova appears, was the special feature at the Imperial Theatre yesterday, where it played to the largest audience which has ever been presented in the history of the celebrated actress and her play. The star was seen in a dual role - as Malles, a Russian girl, daughter of a Chinese mother and English father and as Blanche, her English half-sister. The double role gave the star great opportunity for her unusual power of character delineation. The play tells the dramatic story of the daughter of two races - a girl who though born in a common, the slums of Pekin, is educated among the European surroundings and ideals of the Christian Mission, where she adopts the faith of her father. How she feels the perpetual conflict of her mixed blood - the seething passions and desires of both races which are forever at war in her unusual address. She imbues the character with all the inscrutable mystery and passionate fire of the glowing East and the same time conveys to the spectators the vast racial gulf which separates the two girls, who though they possess the same father, are as remote as the poles.

Malles, who leads her to forsake the people of her father's race - casting aside their religion and beliefs, and assuming the historic and sinister title of "The Red Lantern" - is graphically shown, as is also her poignant remorse and frantic efforts to save those she has grown to love from the racial storm which she has raised about them. The powerful climax is reached when the Eurasian realizes that her yellow blood stands between her and the man she loves, and that Blanche, her white half-sister, has won where she has failed. From beginning to end, "The Red Lantern" is a bewilderment of gorgeous spectacle, exclusive Oriental trappings and incense-laden ensembles. A most talented company present the story, and the Imperial orchestra gave it rare setting.

"CHECKERS" PICTURE A SENSATIONAL HIT

"Checkers," the spectacular picture made by William Fox, which opened at the Unique Theatre yesterday, is even better as a picture than it was as a stage play. Much of the action occurs outdoors, and Director Richard Stanton took full advantage of the situation to make his exterior scenes not only elaborate but perfect in detail.

The story tells of a southern beauty who falls in love with a checker who is a horse owner. He grows a horse owned by the girl for a rich stake, and in getting the horse to the race track encounters tremendous difficulties. His chase leads from the south to New York and through Chinatown. At the last minute, just before the race is to start, the jockey is maliciously blinded, and the young girl rides the horse to victory. It is one of the best and most stirring pictures in the history of the screen.

The all-star cast headed by Thomas J. Carrigan and Jean Ackler give an evenly balanced performance. Be sure and reserve one night this week to see this excellent photoplay.

BACK TO HOMEHEADS ON NEW ENGLAND FARMS.

Washington, Jan. 6 - New England farms, now comparatively low in price, are attracting the sons of the men who sold them a generation ago to acquire cheaper lands in the west.

GOOD BEGINNING FOR THE NEW YEAR

At yesterday's Rotary Club luncheon Canon Armstrong delivered a thoughtful message suited to the new year. It was in brief that the members should carry the thought of God into all they did. He drew a picture of Gladstone when his presence in the British commons was anxiously awaited, turning aside to visit the little crossing sweeper whose absence from his accustomed place had been noted; and of Phillips Brooks caring for the child of a poor woman while she went forth to do some errands. These men could sway multitudes by their eloquence. When they greater - when they poured forth their eloquence to applauding crowds - or when they cared for little children? That each Rotarian might in the year just opened do everything he did as in the sight of God was the speaker's earnestly expressed wish.

R. E. Armstrong, who followed, said there were four corner posts to Rotary - business, citizenship, fellowship and service. He dwelt briefly upon each and how it might be used to serve the highest interests of all. He would not review what their club had accomplished, but rather have them turn their eyes to the future, and the great things yet to be done if they were but faithful to the principles of Rotary.

Both speakers were heard with deep interest by the sixty or more alert business and professional men who sat around the tables, and who gave them hearty applause.

Ottawa, Jan. 5 - An order in council has been passed setting July 1, 1920, as the day on which the bankruptcy act, passed at the 1919 spring session, is to go into force. This act was passed after twenty years of fighting by those who considered that abuses had grown alarming under the old conditions. The bill was not allowed to go into effect at once as it was desired to give the business community a year or more to adjust itself to the new situation.

AFTER 16 YEARS EXPERIENCE A DOCTOR SAYS Zam-Buk HAS NO EQUAL FOR SKIN DISEASES

"For sixteen years I have used Zam-Buk in my practice, and have always found the results from its application highly satisfactory. In my opinion there is nothing to compare with it for skin troubles - from roughness and irritation to chronic skin diseases. Without a doubt, Zam-Buk has wonderful curative properties, and when a patient requires such a remedy I always prescribe Zam-Buk." This letter of appreciation has just been received by the proprietors of Zam-Buk from Dr. A. P. Shibley, of Washington, D.C. The medical profession is always slow to recommend a remedy, and the fact that many doctors now prescribe Zam-Buk is one of the surest proofs of its superiority. Zam-Buk's superiority is due to its herbal composition. It is all medicine, with absolutely no animal fat, and is so blended, refined and concentrated that it contains the maximum germ-destroying, soothing and healing power. Owing to its absolute freedom from animal fat, Zam-Buk cannot become rancid, but will keep indefinitely without losing any of its strength or purity. While the healing power of Zam-Buk, and its power to penetrate to the root of skin disease is so great, yet its action is so mild, that it is the ideal preparation for the pimples, eruptions, and rashes which so often occur amongst young children. Mothers agree that it is the best balm for baby.

Zam-Buk should be handy in every home for cuts, burns, scalds and bruises. Equally good for eczema, ringworm, ulcers, abscesses, boils, pimples, blood-poisoning and piles. All dealers \$2c. box.

WAR DEMORALIZES SWISS SILK TRADE Industry Is Isolated and the Factories Fear Stoppage.

London, Jan. 6 - According to advices from Switzerland the silk industry of that country has been largely demoralized as a result of the war. All exportation, even to the neutrals of northern Europe, is completely suspended and manufacturers have been obliged to limit their production. Many factories are threatened with a complete stoppage. The difficulty arises chiefly through impossibility of obtaining raw material from foreign countries. At the end of the war the general opinion was that the prices of raw materials would decrease automatically, which led to failure to buy sufficient material through fear of a serious loss. In that way manufacturers ceased to import raw material to Switzerland. During the war the Swiss stocks of silk are lying idle in Italy waiting for export to Switzerland, but business is hindered by the regulation that foreign buyers must pay in advance.

After the armistice the Italian government instituted a monopoly of Italian raw silk, which was vested in Ufficio d'Acquisto delle Sete. The object of that policy is to maintain the prices at a figure eminently favorable to the Italian industrial interests. Swiss manufacturers are disposed to favor as a possible means of maintaining prices at the present level in the Swiss and Italian markets.

Large stocks of silk are lying idle in Italy waiting for export to Switzerland, but business is hindered by the regulation that foreign buyers must pay in advance. To facilitate distribution of reports to the central powers, a clearing house was established under the direction of Societe Generale d'Industrie de la Soie. Negotiations are stated to be pending between the financial department of the federal council and Swiss banking institutions for the emission of a large loan intended for funding the floating debt of the railway department and electrification of the whole railway system.

W. T. DODGE ENDS HIS LIFE BY SHOOTING.

Nashua, N. H., Jan. 6 - Willis T. Dodge, dean of newspapermen in Nashua, died from a self-inflicted wound by shooting while temporarily insane, following a long illness, and an operation at St. Joseph's Hospital, he shot himself in the abdomen while in his room in Franklin street. He had used a shotgun which he kept for hunting.

He showed remarkable pluck while being taken to the Memorial Hospital, laughing when acknowledging the shooting, until he became unconscious. Mr. Dodge came of Puritan stock, his ancestors being among the earliest settlers of Londonderry. He was born in Nashua, May 3, 1858, and was graduated from the Nashua High School with the class of 1876, winning the Noyes prize for excellence in scholarship. He entered Dartmouth College, but was forced to give up his course there because of eye trouble. During his attendance he showed remarkable ability as a mathematician, receiving a mark of 100 per cent in all his examinations in that branch.

Big Meet at Lake Placid. New York, Jan. 3.—For the first time in a dozen years the United States will witness the annual meet of the International Skating Union, and it is proposed that the fixture this year will in every way be made worthy of the occasion. It is planned that the ice carnival shall extend over three days, the dates to be Feb. 18, 20 and 21. All classes of sport on the steel blades will be catered to, with numerous events for both men and women and juveniles. Lake Placid, N. Y., has been selected as the place for the meet, and there will be special arrangements to bring skaters from all over the United States and Canada. Invitations will also be sent to European skaters, especially those of Norway and Sweden.

The programme for men will include races suitable for sprinters and distance men. It will consist of the 220, 440 and 880 yards, one mile, two miles and three miles. The races for the juniors have not as yet been decided upon.

It will be the first appearance of a list for women on the international programme. Four events have been announced for the fair sex, and they are 220, 440, 880 and mile. If enough entries are likely there may be a few additional fancy events, like tandem races.

The third day will be devoted to figure skating.

Yankees Buy "Babe" Ruth.

Colonel Jacob Ruppert, president of the New York American club, announced yesterday that the Yankees had purchased "Babe" Ruth from the Boston Red Sox. The sale was confirmed by President Harry H. Frazee, of the Boston Americans.

Philadelphia Gets Sanders.

Philadelphia, Jan. 6.—The Philadelphia National League club announced last night that it had purchased outright pitcher Ray Sanders from the Pittsburgh club.

On Freak Pitching.

Manager Huggins of the Yankees is one big league leader who opposes the abolition of freak ball pitching. The New York pilot thinks this kind of flinging tends to keep the game uncertain which is just the thing the fans like. "The pitchers in the majors who employ such methods are experts," says Huggins. In the first place they had to practice several years before they acquired skill in handling these balls that have helped to make them special artists in their line. Now to take this kind of pitching away from them would be depriving them of making a living in baseball.

"I think it would be advisable to curb it in the minors where the young pitchers are starting, because they have not spent years in acquiring the skill which the major leaguers have, and also prohibit the practice among pitchers not now using it. They say the shine ball, splitter, and other freak deliveries keep down hitting and make the games uninteresting. I do not agree with this point of view. This kind of pitching aids in keeping the game uncertain."

GOLF.

Champion May Lose Arm.

New York, Jan. 5.—Edwin M. Wild, of Cranford, N. J., champion of the Baltrol Golf Club and runner-up in the New Jersey state amateur championship, may lose his left arm as the result of an accident yesterday, when he was struck just above the elbow by the revolving propeller blade of an aeroplane, while he was strolling at North Shrewsbury.

AQUATIC.

Toronto May Have Great Race.

Felton is now on his way home in Australia. He has promised Duran a race if he wins from Barry in a return match on the Paramatta river. It is believed here that Felton will win again from Barry.

WRESTLING.

To Quickly Remove Ugly Hairs From Face

(Beauty Notes.) Beauty-destroying hairs are soon banished from the skin with the aid of a delicate paste, made by mixing some water with a little plain powdered delatone. This is spread upon the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed to remove the remaining delatone. This simple treatment banishes every trace of hair and leaves the skin without a blemish. Caution should be used to be certain that it is delatone you buy.

ECZEMA IN RASH CUTICURA HEALS

Very Itchy and Burned. Troubled Six Weeks.

"Our daughter's face came out in a rash that we were told was eczema. Her cheeks got sore and she rubbed causing loss of sleep. The breaking out was very itchy and burned so that I had to tie gloves on her hands to keep her from scratching. This trouble lasted about six weeks before I used Cuticura. I used one large box of Cuticura Ointment with two cakes of Cuticura Soap when she was healed." (Signed) Mrs. H. Stares, Blenheim Rd., Galt, Ont. BOXING LEADS IN SPORT REVIVALS

Boxing leads in the great sporting revivals of the year in this country, according to Lieut.-Col. Palmer E. Pierce, U. S. A., in his opening speech at the fourteenth annual convention of the National Collegiate Athletic Association in the Hotel Astor, New York, with 108 colleges and universities represented. President Pierce said that the educational features of this vigorous sport were used extensively as aids to the training of our soldiers. "It is taught at the military and naval academies; it is a manly sport whose educational value has not yet been fully made use of by our colleges, and it is recommended to your serious consideration during the coming year," said Col. Pierce, and continued in part as follows:—

"During the past year this association has assisted in securing the passage of laws in many states for the physical education and training of the boys and girls of secondary schools. Some twelve states have enactments to that effect and thirteen others have the matter under serious consideration. This legislation has been made possible by the realization which has grown up in the public mind, of the deficiencies of our public educational system in regard to physical training and hygiene, as demonstrated by the startling results of the draft examinations. The importance of this movement cannot be overestimated.

"The States and the War Department, however, should scrutinize more carefully all propositions to give military training to boys of secondary and high schools. Unless the work is efficiently and widely organized and carried on by a large corps of efficient instructors, the time and funds devoted to it are apt to be insufficient and wasted, and the results unsatisfactory from every point of view. It must be admitted that for boys to drill in an armory, or even out of doors, for an hour or two a week during the school term will not produce the good results that could be secured by the proper training under efficient physical instructors.

"All reports indicate that serious and successful efforts to make physical education a part of collegiate instruction and all athletic activities directly responsible to the college or university administration have been inaugurated. In this connection it may be mentioned that the army has developed a comprehensive system of physical training and athletics based upon experience during the world war. This system is being demonstrated throughout the service by instructors trained in central service schools and is being included as a permanent and essential part of the programme for the basic training of the officer and soldier. The army now recognizes that athletics may be conducted so as to have a distinct educational value as well as provide exercise and recreation. I fear many of our educational institutions are lagging in this matter."

Speaking of football, Col. Pierce said: "Certainly this much can be said for the present game—it is rough and virile, but not unnecessarily dangerous. It can be and in fact is, as a rule, played in a spirit of true sportsmanship. That it is popular is evidenced by the immense crowds that have attended the games during the past season. There is a question as to whether or not our football committee has legislated wisely in making American football so complicated in its play that to become expert players must have unusual qualifications and long periods of careful training and preparation. However, I do not hesitate to voice the opinion that the football rules committee has done a wonderful bit of constructive legislation, as a result of which collegiate football is now a safe, vigorous, spectacular game that develops in the players energy, discipline, alertness, determination, aggressiveness and resourcefulness.

"Evidence has accumulated during the past year that intercollegiate sports have become more popular even than during pre-war days. Naturally it may be suggested that an effort should be made to curtail the number of contests between colleges and endeavor to minimize their importance. Certainly this should be done if thereby body building and general mass athletics among the undergraduates will be greatly stimulated. I am not at all convinced that this most desirable extension would result from the lessening of interest in intercollegiate contests. These naturally act as a stimulus to all forms of sport, and if properly directed and controlled should prove of great value in our campaign for physical training and participation in sports by all students."

CHAMPIONS OF CUE LAUNCH LONG TOUR

Hoppe, Cannefax and Greenleaf, with Their Partners, Will Circle the Continent.

New York, Jan. 4.—For the first time in the history of billiards, champions in the three principal styles of play will tour this country and Canada, giving exhibition matches in billiards, three-cushion, and pocket billiards for the next eighteen weeks. Beginning tomorrow in Brooklyn, Willie Hoppe, the perpetual

billiard king; Robert Cannefax, holder of the three-cushion title, and Ralph Greenleaf, custodian of the pocket billiard crown, will begin a trip that will continue well into May and will carry them to every city of importance—and many that are not so important—on the North American continent.

During the current season all three of these players established undisputed rights to their respective championships. In tournaments at the three styles of play in which they were opposed by leading opponents of the cue, Hoppe, Cannefax, and Greenleaf battered down all opposition and emerged the professional champions.

The terms under which the tournament were staged stipulated that all three winners should go on this tour. Those in a position to know estimate

that Hoppe as a result of this tour, the cash prize that went with the title and his annuity, will clean up in the neighborhood of \$25,000 this year, and Greenleaf and Cannefax about \$10,000 each.

These gifts were in addition to \$2,000,000 recently given by the head of the Standard Oil Company to the Baptist Ministers' and Missionaries' Benefit Board, which will apply to the \$10,000,000 Foundation which the Baptist church is organizing. The church programme for the next five years includes an elaborate scheme for Americanization work among the foreign born, educational aid for American Indians and negroes, organization of family groups in local churches for social and civic purposes, and increases in ministers' salaries.

## Got Rid of The Cough That Sticks

Some coughs seem hard to shake off—stick right to you in spite of all you do to get rid of them. These are the kind of coughs that are dangerous—that weaken the lungs so that the germs of consumption find a ready foothold. We know of no remedy that will cure stubborn coughs—coughs that won't let go—like Dr. Wood's Norway Pine Syrup. It allays the inflammation, soothes the irritation, and heals the diseased mucous lining of the lungs and bronchial tubes. Mrs. Leo Allen, Petite de Grat Bridge, N. S., writes:—"Last winter I had an awful cough that kept me in the house for over two months. I tried several cough remedies, but no relief. I was almost discouraged when a grocer here offered me a bottle of Dr. Wood's Norway Pine Syrup. After taking that one my coughing began to cease. I took two more and they cured me completely."

Get the genuine Dr. Wood's Norway Pine Syrup; put up in a yellow wrapper; 8 pine trees the trade mark; price 25c. and 50c. manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

## GREENE WINS EXCITING MATCH

Defeats Archie Jeannett in Most Spectacular Manner—Good Preliminaries.

One of the most spectacular wrestling matches ever staged in this city was witnessed in the Opera House last evening when Bridson Greene, champion of the New England states, and Archie Jeannett, champion of the United States army and navy, met in a finish bout. The former won by straight falls, the first in forty-five minutes and the second in thirty-six minutes. That the fans thoroughly enjoyed the performance was evident from their cheering.

After a comic motion picture was shown, Archie Jeannett gave a demonstration of strong man feats, breaking a horse shoe, breaking a chain and driving a spike through a two-inch plank. He had several other stunts, but as he had been on the train for nearly twenty-four hours, the promoter refused to allow him to continue, fearing it would tire him and interfere with his wrestling.

The first preliminary was between McLaughlin, 87 78 89 240 831-3 and Isaacs, 68 81 89 238 781-3. McGouey ... 88 84 80 252 84

**CONDITION IS CRITICAL.**  
Friends will be very sorry to learn that Mrs. Smith, 31 Waterloo street, wife of City Marshal W. A. Smith, had to be taken to the hospital yesterday afternoon for further operation. About twenty-five friends of Mr. and Mrs. L. A. The early part of the evening was spent in games and music, after which they presented to Mr. and Mrs. Belyea some very valuable pieces of Nippon china. ### Y. M. C. I. LEAGUE

The Swans swam away from the Sparrows in the opening string of last night's game. For the Swans, McCurdy and Harrington were in the nineties, as were Lawson and Cosgrove of the Sparrows. The Sparrows redeemed themselves by taking the second point by the narrow margin of two pins. Cosgrove, the anchor of the Sparrows, came to the rescue by making a spare in the last box. He needed eight on it and got nine. For the Sparrows, Cosgrove had 102 and McIlveen 86. The Swans were represented in the nineties by Magee and Harrington. The third string was won by the Sparrows by twenty-four pins, giving this team the point for pinfall, making three in all. For the Sparrows, Cosgrove, Smith, McIlveen and Gambill were all in the nineties. The Swans had Harrington and George McCafferty in the nineties.

**Shots at the King Pin.**  
The holiday season does not appear to have dealt kindly with the averages of some of the players.  
The Swans won their first string by good work in the last two boxes. Harrington made his debut as an anchor man and rolled a good game.

Colonel Ross Napier of Halifax, officer commanding special coolie guards in the city today making arrangements for the accommodation of seventy special guards in the city, who will await the arrival of about 1,000 coolies on the S. S. Grampian from La Havre, France. The Grampian is expected here about January 16 or 17 and several train loads of coolies will be sent to the city to go on board ship for their homes in the Orient.  
These guards will conduct the Oriental all across the continent. Colonel Napier was at local military headquarters this morning making the necessary arrangements for the accommodation of his men while in the city.

### FINE OF \$50 IN S. P. C. CASE

A case against William McAleer, charged with ill-treating horses by keeping them in a cold stable was resumed in the police court this morning. Sergeant Rankie told of visiting the stable and finding the horses suffering from cold. The glass was gone from the windows, there were holes in the floor, a space under the doors and the stable generally was cold. There were three horses in the barn and he said they were insufficiently covered.  
S. M. Wetmore said this man called him up and said there was a horse in the barn which had not been fed for two days.  
A lad named Shannon who drives for a store, said he keeps a horse in the inside of the barn, but the outside where the defendant's horses were kept is unfit for horses. The defendant acknowledged that the barn was cold.  
A fine of \$50 or three months was imposed.

### JUDGMENTS IN CHANCERY COURT

Two judgments were delivered yesterday in Chancery by His Honor Judge Grimmen. In the case of Mary Doyle vs. John F. Doyle, her son, a finding was made in her favor, setting aside as null and void a deed which she had signed purporting to give the defendant property in McLaughlin road, Moncton, and also purporting to assign a legacy of \$3,000 to him. The plaintiff in this case is eighty years of age, or more, and an invalid. The defendant, her son, is a railway conductor.  
The court found that the deed had been prepared without her knowledge or consent, and that she had not understood it when she did sign it, as she had been induced to do so by improper explanations in regard to it. The court found that she had been unduly influenced and that the deed was executed in fraud of her creditors. Judgment was given in favor of the plaintiff, which could be offered to such a document. Evidence submitted showed that the defendant had received already from his mother real estate from which he had realized \$5,000. By the deed in question, it was said, she had stippled herself of all means of support beyond a small government pension which was not enough to keep her. The court ordered that the defendant pay all costs in the suit and that the deed be set aside. E. A. Biley, of Moncton, appeared as solicitor for the plaintiff, with M. G. Teed as counsel, while James Friel, of Moncton, represented the defendant.

Blondin will take over the seat made vacant by the death of Senator Landry and will thus leave the Laurentides division without a representative. ### He Who Buys Furniture Cheaply Most Likely Sustains Loss

Conservation does not mean going without, but in having what you need without wasting. Poor merchandise is not only a bad investment, but wasting of time and money. The furniture handled by this store comes from factories that build on the quality basis. Furniture that will stand the test of time. This standard is so firmly fixed and practiced at this store that to buy of us, no matter how small or how large the order, and at whatever price, value is safeguarded!

While it is true that prices do not always signify value, they play an important part in creating an incentive to inspect the article advertised.

We do not expect to convince you in these few words of the quality, workmanship, style and finish of our furniture—a personal inspection is necessary. And that is all that we really ask, for once you have seen and inspected our merchandise, you will appreciate the values we are offering.
