Citizen Urges Punishment for Scratching Matches on Buildings

North End Asks for Bigger Representation on Board of School Trustees

Endorsement of a suggestion by members of the council that steps be taken to enforce the by-law against the throwing of rubbish on the street and defacing buildings by scratching matches on them was contained in a letter read yesterday at the council meeting by Commissioner Harding. It was written by C. H. Flewelling, Commissioner Wigmore had a piece of the top from the Erin street sewer,

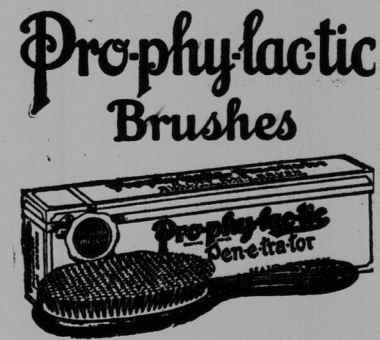

The brush that penetrates as it brushes

THIS hair brush is made so that it penetrates through the hair and smooths out the tangles quickly and easily. After a few days you will notice that the hair comes a clean-looking and glossy. It will have that well-cared-for look. A few easy strokes with this brush are more effective than long minutes of brushing with an ordinary hair brush.

Deep brushing when you can feel the brush on your scalp—that is the sort of brushing that stimulates the scalp, keeps it free from dandruff, and promotes the health and beauty of the hair.

The Pro-phy-lac-tic is the brush that gives all the benefits of deep brushing and scalp massage.

Examine this brush at any store where brushes are sold. Always sold in the yellow box.

Toronto, Ont., Sept. 8, 1924.
 Dear Sirs:—
 This summer having seen testimonials from several people that had used your Soilgro, I decided to procure some and give it a fair trial, which I have done with exceptionally good results.

I may say I was some time managing the Horticultural Dept. at MacDonald College, St. Anne de Bellevue, Que., and had considerable experience in this kind of work. I consider it as a fertilizer for all kinds of flowers, vegetables and lawns, the best I have ever seen. (Sgd.) T. J. GIBBS.

Send a \$6.00 cheque or money order for enough Soilgro to last all summer on a good sized lawn or garden or an acre and a half of potatoes, roots or grain.

which collapsed recently, at the council chamber for inspection. He said the sewer was being cleared now from the earth which had fallen into it and soon he would be in a position to tell how much of the cover would have to be removed. This sewer was laid in 1874 and the sides and bottom are as good as new.

Report on Pavement.
 Commissioner Prink said he would at the next meeting of the council bring in a report on the pavement of Douglas avenue. He had been giving consideration to ways and means of financing the job and while he was not in favor of spreading payment for street work over a term of years, in view of the opposition to bond issues at the present time he would probably recommend that payment for the work be made in this manner.

Wants Damages.
 Roy A. Davidson wrote on behalf of his client, Charles H. Oatey, claiming \$50 for damage alleged to have been done to his house in Somerset street by blasting operations carried out by the Civic Power Commission. This was referred to the power commission for a report.

The Civic Power Commission wrote that George H. Simpson had been elected a member of the commission to represent the parishes of Simonds and Lancaster, and asked the council to confirm this selection. The election was confirmed.

A petition from residents of North End asking that the representation of that part of the city on the Board of School Trustees be enlarged was laid on the table until the next appointment was to be made, which would be in July next, the term of S. W. Palmer expiring on June 30, 1925. Mr. Palmer was elected to complete the term of the late George E. Day.

On motion of Commissioner Harding the application of George H. Ellis for permission to install an additional tank and pump in his place of business, Waterloo street, was granted.

Rejected, Slashes Girl With Razor

SPRINGFIELD, May 27.—Police are looking for Ralph Furcolo, 40, one of the best known Italian business men of the city, who is accused of having slashed and disfigured Miss Madeleine Harrington, 20, of 18 Margaret street, because she rejected him as a suitor. He is believed to have fled the city in his automobile after the alleged attack and New York police were notified, as he has many friends there.

The girl says that Furcolo drew a razor across her face, springing out of his car and attacking her without any warning. After the attack, Miss Harrington ran screaming down the street, until an autoist finally picked her up and took her to her home.

HEIRESS IS MISSING

Girl Disappears After Courts Grant Control of \$1,200,000 Estate to Guardian.

MIAMI, Okla., May 27.—Maude Lee Mudd, 16 years old Indian heiress to an estate of more than \$1,200,000, has disappeared from the home of her mother, Mrs. Susan Bomberly and the authorities have been unable to find any trace of her.

The disappearance of the girl followed on the heels of a writ of prohibition granted Thursday by the State Supreme Court, barring District Judge J. J. Smith, Mrs. Bomberly and her husband, Levi Bomberly, from attempting to interfere with William Simms of Vinia, United States Probate Attorney and guardian of the heiress, in the custody of the ward.

The Indian Department at Washington has been notified of the girl's disappearance and requested to assist in restoring her to the custody of her guardian.

The girl's disappearance became known late Friday after Sheriff Simpson had spent several hours trying to find her so that he could serve a copy of the Supreme Court's writ upon her.

CANADA TODAY AND TOMORROW.

The always eloquent voice of Sir George Foster is raised again on the question of Canada today and tomorrow. Sir George has been delivering a series of noteworthy addresses on Canada's domestic affairs and its place in the Empire, and the speech he made at Moncton last evening contained no little sound counsel and inspiration for all good Canadians.

In looking ahead—very far ahead—Sir George sees a Canada containing 100,000,000 people, a hundred years from now. He is the advocate of a more intense Imperialism, and from the past and the present of the Empire he draws inspiring lessons of confidence and hope. Sir George has sometimes expressed uneasiness because of American influences upon Canada. He made some reference to these last evening, pointing out that the trend of our growth and to some extent the nature of our thought and our material development are bound to be influenced by the presence of 120,000,000 people in the Republic beside us.

While we realize the importance of friendly relations with the United States, there are sufficient differences between the two countries to warrant Canada in building up a strong nationality of its own on our half of the Continent—a conclusion which Canadian most heartily agree.

What of Canada to-day? Sir George feels that we are drifting, and he asks what we can do to prevent that. In reply to this question he sounds a note with which we have become increasingly familiar in Canada, and particularly in the Maritime Provinces, during the last few months when the relations of the Maritimes to the other provinces have been brought under searching review.

"We should go to work," he says, "with some sort of system to strengthen and develop national consciousness in Canada." The need for that greater national consciousness is becoming much better recognized of late, and there is a growing call for broad policies which will promote greater unity and co-operation. Sir George thinks Canadian to-day are too much inclined to dwell upon material affairs and he directs their attention to the higher claims of a true Imperialism.

AT OUR DOORS.

Mr. T. B. Macaulay, of Montreal, President of the West Indies League of Canada, in the course of an interview which is published by The Telegraph-Journal to-day, brings up once more the question of a greatly expanded trade between Canada and the West Indies, and much that he says is of immediate interest and striking importance to the Maritime Provinces. There is to be a conference at Ottawa next month for the purpose of perfecting new tariff and transportation arrangements between the Dominion and the Islands, and if the negotiations produce the results they should the benefits to the trade of Canada, and especially of the Maritimes, will be on a very important scale.

The people in this part of the country have followed closely the investigations and recommendations made by Mr. Hance J. Logan in relation to this matter, and they hope that with little further delay an agreement may be made which will open in a new sense the great market which lies practically at our doors. The Maritime ports are the natural points of entry and departure for this West Indian business and there seems no reasonable doubt that a modern steamship service together with the proper tariff arrangements would get the business.

Mr. Macaulay sees no reason why there should be any tariff between the West Indies and the Dominion. They need much that we produce, and we in turn need much that they produce. We are not competitors. The existing preferential arrangements, Mr. Macaulay believes, fall far short of what is necessary. He advocates what would practically be commercial union. He does not think the question of political union is a practical one today, in which most Canadians will agree with him. He would sweep away that existing tariff so far as the West Indies are concerned, and by so doing he believes that we should capture and hold the West Indian market. The United States has adopted that policy

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

Kitchener's Fate

(Toronto Star.) With Ludendorff, claiming that the Russian Reds caused the death of Kitchener and that no German torpedo or mine was responsible, and the latter's private secretary saying that there can be no question that the field marshal's drowning was caused by a German mine placed as the result of information secured from Russia, the public will be more mystified than ever. But a study of all the facts makes it reasonably certain that the mine that sank the British cruiser Hampshire was not placed under the command of either Russian or German and received as to Kitchener being on board the mines were placed in preparation for the naval battle of Jutland, which occurred about that time. The Germans hoped thereby to destroy some of the principal fighting ships of the main British fleet going to or returning from the battle. But the captain of the Hampshire, a comparatively small boat, changed his course unexpectedly because of a storm and struck mines that his ship would have passed over in safety because of her shallow draught but for the rough seas prevailing.

Aircraft Industry Will Boom.

(Ottawa Citizen.) Canada is looking on while commercial organizations in other countries get in on the ground floor of an industry which may some day rival the manufacture of motor cars. Establishment of the aircraft industry in the United States is proceeding apace with influential business men behind it. Reports from Great Britain indicate that the way is being prepared similarly over there for a great expansion of commercial aviation. It will probably come within the next five years.

THE EMPIRE.

The Prime Minister of Australia is quoted as having said at an Empire Day dinner that eventually his country is likely to appoint an Ambassador to London, or a representative with semi-ambassadorial functions, who would be able to keep his Government more quickly in touch with developments. Hon. Mr. Bruce said in this connection that "closer relations with the Motherland are generally desirable, but never an Empire Government."

A Controversy Settled.

(Boston Transcript.) Controversy over the placing of a bronze tablet to the memory of former Governor Baxter's dog, Garry, may be regarded as officially ended. The tablet has been placed in the museum in the State House at Augusta.

Out in the Air With Baby While the Cake Bakes

The answer to this seeming impossibility is that the mother is enabled to enjoy the air, with baby, while a Gas Range, with oven heat control, bakes the cake at home. The same applies to dinner, to cooking in general. It is merely one of the many wonders of the Gas Range. Nowadays, no home is well equipped unless a Gas Range has been installed.

PIES

Will be the subject of Miss Mason's attention at the COOKING SCHOOL CLASS tomorrow afternoon at 2:30 o'clock.

At Gas Range Headquarters

The Cooking School classes, every Tuesday and Thursday afternoon, are being followed by hundreds of Saint John housewives, and the announcement that this department will be a permanent one has been hailed with general satisfaction.

Our Home Service Department

Is to assist the housewife in correcting any little trouble she may have with her Gas Range, and to help her to secure the best results at the least cost. It is always at your service.

Gas Ranges Come From \$18 up

and you can have one on easy monthly installments, or you can rent one as low as \$5 a year. Call any time and inspect them.

INVESTIGATE HEADACHES
 THOUSANDS suffer from headaches without knowing that headaches are symptoms of some physiological disturbance. Headache causes are both direct and indirect. Here is a list of a few of the causes:
 Constipation, bad air, hunger, fatigue, eye strain, indigestion, brain tumors, various neuralgias, nasal growths, mouth breathing, worry, anger, excitement, alcoholic indulgences, lack of sleep, coffee, drugs and a score of other things.
 The most usual remedy applied by headache sufferers comes from drug stores in small boxes, or vials.
 By the use of drugs the pain is killed, as far as the patient can feel, but the headache is not gone.
 Neither is the cause.
 If persons who suffer from headaches, make a careful study of themselves they have a chance of effecting a permanent cure.
 If they do not care to take the trouble to look into their own

Adventures of the Twins

By OLIVE ROBERTS BARTON.
MRS. RAZOR-BILL'S TEA PARTY.
 Peter Penguin began to laugh until his white shirt front shook up and down like a boiled pudding.
 "Oh, dear! I have to laugh when I think of the way Polly Puffin had got fooled! I just can't help it."
 "Who fooled her and what was it all about?" asked Nancy.
 "Yes, do tell us," said Doctor Bill, "we may all learn about it, too."
 "Well," said Peter Penguin, "it happened at a tea party that Mrs. Razor-Bill gave. Mrs. Razor-Bill is one kind of a sea bird and Polly Puffin is another, but still they are fast friends and you will never find them very far apart. They always live on the same cliff near the sea, although their families have different floors, you might say. Like an apartment house. The Puffins live on the top ledge and the Razors live lower down. Oh, yes, I forgot. Mrs. Kittiwake was there, too, when it happened and she was fooled just as much as Polly Puffin. Mrs. Kittiwake lives on the lower floor at the same rock, and she is almost as great a friend of Mrs. Razor-Bill as Polly Puffin. Yes, she was there, too, and she got fooled just the same as Polly Puffin."
 "My goodness!" said Nick. "What

An Apple of Discord

the day hunting up tid-bits for the party, and you would be surprised at the number of goodies she had collected.
 "What did they have?" asked Nancy curiously.
 "Well, if I stop to tell you everything I'll never get on with my story," said Peter Penguin. "But now that you ask, I'll see if I can remember."
 "Well, they had claims to begin with, on the half shell. Mrs. Razor-Bill had opened them herself one at a time. She is one of the few people who can do this easily.
 "Then they had shrimps and limpets and pawns and sea-urchins and scallops and—and just everything."
 "This is a real party," said Polly Puffin as she sat down. Then she noticed something. "What a fine lot of eggs you have, Mrs. Razor-Bill, she said. 'But they are lying right near the edge of the rock. Aren't you afraid they will fall off?'"
 "Oh, no!" said Mrs. Razor-Bill. "They are safe. My eggs always take care of themselves. I never have to put them into a nest. No matter how flat the rock is, they never roll off."
 "Well, I declare," said Polly Puffin and Mrs. Kittiwake together.
 To Be Continued.

STREAMERS have returned to favor, not only for picture hats, but even for the little black felt models we wear every day. Besides modest streamers, this model also has an apple of discord on one side, very shiny and red, and we hope it won't cause too much trouble for the wearer—or her suitors.

Not So Simple (Montreal Gazette)
 Canada's Minister of Defence gives warning that the world is not free from the menace of war, and Messrs. Forke and Woodworth meet the warning with denunciations of militarism, which are cheered by their Progressive and Laborite associates. If only war could be abolished by the simple process of denouncing it!

SIR GEO. FOSTER IS OPTIMISTIC

Predicts 100,000,000 Population in Canada Hundred Years From Now

Has Traveled Through Many Countries, But Prefers Native Land.

MONCTON, N. B., May 26.—Sir George E. Foster delivered an address here tonight under the auspices of the Moncton Canadian Club on "Canada, What and Whither Tending."

The address was broadcast through C. N. R. A. Aid. Doiron, vice-president of the club presided and in introducing Sir George paid a warm tribute to his ability as a speaker.

Sir George Foster in opening his speech reviewed the progress made since Confederation, pointing out that two links bind the Dominion to the Mother Country, a judicial system that ends in laying Canadian appeals before the Privy Council in England, and a common King with other parts of the British Empire.

After traveling through other countries he was able to come back and say out of a full and honest heart that there is no country in the world in which he would rather live than in Canada.

"We need never be ashamed of our stock," he said. Sir George pointed out that Canada had a fine judicial system and a "sane conservatism which saves democracy from its greatest faults."

"One trouble with democracy," he said, "is that after howling and fighting for universal suffrage people are apathetic. There is danger of a small autocracy because of the apathy of voters."

Record Breaking 1925 Car Report Stimulates Buying Orders

NO DEFINITE TREND TO MONTREAL MARKET

Abitibi Is Principal Strong Shot, But Price Declines Three-Quarters

NEW YORK, May 27.—Stock prices displayed a strong tone at the opening of today's market, with buying stimulated by reports of record-breaking 1925 car loadings for the week ended May 16. Oils were in brisk demand as a result of the extensive gasoline price advances announced yesterday.

MONTREAL, May 27.—There was not much activity at the opening of today's stock market, and the general trend was in evidence, declines and advances being about equal. Abitibi yesterday's leader, and strong spot, was again the centre of attention, but the price eased 3-4 to 71. The burst of activity in this stock yesterday followed its listing on the New York market, where active buying carried the price to 78. Abitibi's gain locally amounted to 4 1/2 points.

TRADE UNION WITH W. INDIES RECOMMENDED

T. B. Macaulay Sees Market of 2,000,000 for Canadian Producer

WHAT is virtually a complete commercial union of Canada and the British West Indies is advocated strongly as a means to prosperity for all the American parts of the British Empire by T. B. Macaulay, of Montreal, president of the West Indies League of Canada.

SEES MARITIMES BENEFIT. The Maritimes would benefit especially from the arrangement if decided, he declared, as they were closer to the West Indies and had a very short haul before their goods could be shipped.

CHANCE FOR FARMERS. The Maritime farmers would have a great opportunity to find new markets for their hay, oats, potatoes, butter, cheese, condensed milk, coal and many other products.

HAS CAMPAIGNED IN SOUTH. Mr. Macaulay has visited nearly all parts of the West Indies supporting the plan he outlined and he has spoken before trade bodies there on several occasions.

ANAEMIC—NERVOUS. The anaemic child is in no condition to stand the mental and nervous strain of school work and examinations, along with the enormous burden which physiological changes put upon the system at this time of life.

Helpful Advice to Overworked Women. DAY in and day out, week in and week out the tired, over-worked housewife and mother toils on, sweeping, dusting, cooking, cleaning and mending. Is it any wonder that after a time a weakness, such as Mrs. Chapman had, develops and the wife and mother pays a toll in physical weakness and pain for her efforts of love, the natural result of overwork!

Thousands of Women owe their health to Lydia E. Pinkham's Vegetable Compound. Mrs. Chapman's Letter Reads as Follows: 'New Albany, Ind.—I took Lydia E. Pinkham's Vegetable Compound for a weakness which many women have from over work, and from which I suffered for quite a while. I wasn't fit to do my work and my sister advised me to take this medicine. After the first few days the pains were not so severe as they had been and after taking a few bottles I am not bothered any more. I am doing my housework every day and highly recommend the Vegetable Compound to any woman suffering from female trouble. Only yesterday a friend called me on the phone and knowing what it did for me wanted to know what to ask for at the drug store, so she meant to give it a trial.'—Mrs. C. E. CHAPMAN, 1920 Elm Street, New Albany, Indiana.

Paavo Nurmi Defeated By Alan Helffrich In Feature Half Mile Race

Along The Sport Trail

By RAY HANSEN

BOMBARDIER WELLS has found his groove. In his earlier days he floundered under the delusion that he was a boxer and it took some years of heavy hammering on the part of glove artists of diverse nations to impress upon him the fact that he was not destined for fame in the squared circle. Then he took up golf! And it has developed that his talents for swatting the little white sphere had relegated to the background his erstwhile dreams for pugilistic fame. Yesterday in his first championship encounter at Westward Ho, England, he survived the opening round by defeating Captain W. H. Ricardo, five up and four to play. Perhaps the title "Bombardier" will even yet be justified.

VINCENT SHIELDS, who was formerly the star pitcher for St. Stephen and who is now with Quincy in the Three I League, recently won a game against Danville. It was his first win of the season. Two days later against Terra Haute he was driven to the showers in the third inning. Shields will have to get going or he will have a hard job making the majors.

WILLIE HOPPE has again demonstrated that he is more entitled to the world's three cushion billiard title than the champion, Bob Canefax. The former ballline king has defeated Canefax on two occasions. Last week he scored 600 points, while his opponent was amassing 484. While Canefax will still be known as the world's champion Hoppe will undoubtedly be considered the uncrowned king. The latter is undoubtedly one of the greatest billiard experts that ever handled a cue.

THE LOCAL professional clubs appear to be well balanced and their series of games should prove interesting. The introduction of the 60-40 per cent. split of the net receipts to the winners and losers has started keen rivalry and as a result every game should be bitterly contested.

SPORT LOVERS in the States seem to have cottoned to a new pastime, namely racing speed boats with the 20th Century Limited train. This undoubtedly holds a thrill, but it seems like starting something which may end in a catastrophe. Running on its regular schedule every train must take certain risks in order to make time, but it is another thing to start driving them over the rails at an excessive rate of speed simply to have it to say that it can go from New York to Albany faster than a motor boat. Many people will undoubtedly want to be on the fast train during a race to enjoy the thrill, but it seems like flirting with fate. Thrills are all right in their place, but when it comes to staking one's life the price is too great.

ROVERS WIN TITLE

Crack Quintette From Y.W.C.A. Awarded Maritime Basketball Championship, 1923

As there are no girls' basketball teams in Nova Scotia playing under the Dominion Basketball Association rules, the Maritime title for 1923 has been awarded to the Rovers of the Y. W. C. A., of Saint John, N. B., who have won every game they played this season in both the city and provincial leagues.

The Maritime Provinces are affiliated with the Dominion Basketball Association which controls all Canadian play-offs and next season the games in this section will be so arranged as to allow the winner to be decided in time to participate in the Dominion semi-finals and finals if necessary. Such an arrangement would be a big boost to girls' basketball in this territory.
