MISS CECILIA McELWAIN CAPTURES THE GOLD MEDAL IN HIGH SCHOOLS EXAMS.

Names of the Successful Applicants for Admission to High School Given Out Today—Sixty One Failed Out of Two Hundred and Seventy Seven—St. Josephs Leads Again

The results of the High School entrance examinations were made public this morning by Superintendent Bridges. The honor of leading the city falls to Miss Cecilia McElwaine, daughter of William L. McElwaine. The young lady made the splendid aggregate of 322 out of a possible 1000. Miss McElwaine is a pupil of Rev. Sister Johnson, whose students have captured the honor in previous years. The St. Joseph's girls made a brilliant showing. The scholars from this school head the list. There were sixty-one pupils who failed to make 80, the required number of marks to pass successfully the examinations.

Miss Mary Fitzpatrick is second in order with a total of 315. Cecilia McElwaine... 322, Mary Fitzpatrick... 315, Katherine McLaughlin... 308, Harold Drummond... 305, Aestha Coughlin... 300, Josephine Wetmore... 292, Elizabeth Jennings... 288, Katherine McGrath... 283, Helen Shaker... 277, Corinne Deschamps... 272, Mary Power... 272, Alice McGrath... 272, Mollie Keane... 272, Charles McHugh... 272, Emma Bovey... 267, Marion Macdonald... 265, Eileen Turner... 261, Teresa Surry... 259, Harold Drummond... 259, Agnes Tobin... 258, Helena Quinlan... 253, Mollie Keane... 253, Margaret Driscoll... 247, Mary McLaughlin... 247, Gladys Ahe... 247, Gerald McInerney... 241, Marion Macdonald... 238, Harry McGuire... 232, Evelyn Murphy... 231, William James... 231, Dorothy McKenna... 231, William Wetters... 231, Jean Howard... 227, Beatrice Macdonald... 226, Mildred McAlon... 220, John Haggerty... 219, Mildred Kierstead... 218, Lottie Parise... 218, Lillian Shand... 218, Roberts Holder... 218, Edith Ham... 218, Grace Robertson... 218, Nora Thompson... 218, Ina Cookson... 218, May Porter... 218, Gertrude Adams... 218, Gladys Boyer... 218, Amber Reed... 218, Emma Bell... 218, Grace Pearce... 218, Eileen Cushing... 218, Louis Bond... 218, Marion Foglar... 218, Winifred Waring... 218, Kate Disher... 218, Vera Vincent... 218, Florence Williams... 218, Freda Johnson... 218, Marion Mann... 218, Ada Wetmore... 218, Pauline McAfee... 218, Mildred Titus... 218, Dorothy Matthews... 218, Goldie Williams... 218, Willie Stammers... 218, Jennie Patterson... 218, Mabel Morrison... 218, Jessie Knight... 218, Edith MacFarlane... 218, Mary Murdoch... 218, Nettie Garrach... 218, Evelyn Boyd... 218, Fern Phlips... 218, Edna Armstrong... 218, Hilda Williams... 218, Hattie Wright... 218, Hazel Spaight... 218, Jennie Daye... 218, Ida Springer... 218, Eva Gilroy... 218, Wilhelmina Scott... 218, Salome Townsend... 218, Gladys Grey... 218, Myrtle Thorne... 218, Muriel Olive... 218, Mildred Estabrook... 218, Beale Burk... 218, Edna Cunningham... 218, Winnie Whoolley... 218, Susan Hammond... 218, Katie Brown... 218, Freda Patterson... 218, Edith DeLong... 218

BISLEY TEAM USING THE SERVICE RIFLE

Cobalt Camp Has Its First Highway Robbery

Two Men Drowned in the West—Big-Game Gets Four Years—Rich Find of Silver—Labor Men Coming

COBALT, Ont., July 20—While returning to Nova Scotia Mine, where he was employed, James Dale was attacked by three masked men on Kerr Lake Road and robbed of \$17. Dale pluckily grappled with his assailants, who were knocked insensible by sand bags. This is the first hold up ever reported in Cobalt camp.

Two men were drowned in the West—Big-game gets four years—Rich find of silver—Labor men coming.

COBALT, Ont., July 20—T. C. Flanagan has resigned from the Irish Canadian A. C. which he founded in 1907 and of which he has been the life and soul. While the club has a set of rifles, the entire management was vested in Flanagan, who ran it accordingly to his own ideas. This year, however, there has been friction and Flanagan's resignation is the result. His resignation has been accepted.

TORONTO, July 20—A party of Port Arthur prospectors are reported to have found silver in the district averaging a thousand dollars per ton.

TORONTO, July 20—A wire to the River Rife Company at Quebec by a local paper, as to whether the rifles used by the Canadian team at Bisley were regular service arms, elicited the following: "Rifles used at Bisley are regular service rifle, identically same as issued to militia, both regular and volunteers, known as 'Mark two, double star.' You may state this emphatically, as there were no special rifles made for team."

(Signed), Ross Rifle Co. TORONTO, July 20—Local labor men are advised that several of the prominent leaders of the movement in England will visit Canada during the meeting of the trades congress. Those who will come are Arthur Henderson, M. P. for Barnard Castle, and chairman of the Parliamentary Party of England, and William Crooke, M. P. for Woodstock. They will visit Montreal, Ottawa and Toronto at the close of the convention.

PERNIE, B. C.—While riding in a handcar Miss Lucy Harwood, Captain of the Salvation Army, was struck by the descending handcar, and her spinal cord broken. She died next morning. The body probably will be shipped to Barrie. Miss Harwood's home was in Barrie, Ont.

THE GLIDDEN SCORCHERS.

MANKATO, Minn., July 20—The automobilists of the Glidden tour left Mankato at an early hour this morning for Fort Dodge, Iowa, a distance of 137 miles. They were escorted several miles by members of the Mankato Automobile Club. The roads have been prepared in many places by farmers, commercial clubs and automobile clubs.

LIKE ONE OF THE FAMILY.

Wigwag-Bjones says that when he is at your house he acts just like one of the family. Henpeckle—Yes; he seems to be just as much afraid of my mother-in-law as I am.

Returns From Today's Contest

Show That the Opposition Candidate Has a Good Lead.

Election returns received by The Star in today's contest show the following results: Bentley, Mosher. No. 1 St. Martins... 213 176, No. 2 Little River... 122 129, No. 3 Loch Lomond... 75 90, No. 4 Black River... 24 54, No. 5 Lancaster... 103 98, No. 6... 103 98, No. 7 Musquash... 47 57, No. 8 Dipper Harbor... 19 23, Totals... 1073 1025, Bentley's majority, 47.

BELIEVE THE STRIKE IS ALMOST ENDED

More Men are Going Back to Work Every Day.

Steamers Have No Trouble in Getting Cargoes—New Coke Ovens to be Installed Very Soon.

SYDNEY, N. S., July 20—The United Coal Co. of New York which has the contract for the construction of the Steel Company's new battery of coke ovens has begun to clear the ground and actual construction work will be started next week and rushed to completion. The new ovens of which there will be 120, are of a large size and will take care of a thousand tons of coal a day. There is little new today in the strike situation. The company reported more men at work and bigger output. The situation is absolutely without incident. In well informed circles it is the opinion that the strike cannot last much longer. The output yesterday was 7705 tons, including coal from the banking stations. The shipments totalled 6410 tons. The Cacoma sailed yesterday with a full cargo and the Kronprinz Olov will sail today. There were 4500 tons available at the pier this morning. The figures as given out by the company have all along been denied by the leaders of the strike, but there can be no doubt that a very considerable quantity of coal goes over the pier every day, and it is quite evident that there is but one source from which it can come. The U. M. W. leaders continue to send a number of forgers out of the country. It is this way they are doing a great service to the community. The Coal Company on the other hand continues to bring in a lot of men, and it is understood today that arrangements have been completed to land a couple of thousand workers in this district before the end of next week.

JAPAN AGAIN TRYING TO LORD IT OVER CHINA

LOOK AT THE PRIZES, AND THEN GET BUSY

It Means Only a Little Effort to Win

Anyone Can Secure One of the Star's Magnificent Prizes by Getting Out and Hustling—Make an Early Start

Candidates will bear in mind that The Sun and The Star cannot be sent by mail in the City of St. John.

Are the magnificent prizes offered by the SUN and STAR worth trying to secure? Is it worth a few minutes of your time every day? If you think affirmatively, act upon your thought. Call upon your friends to assist in your campaign. Get them to promise to cut the coupons from their paper each day and send them to the Contest Manager of the SUN and STAR or to you, so that you yourself may send them in before the date upon which they expire.

Many of your friends pay for the paper by the week or month. Get them to pay you in advance for six months, a year, or longer and to give you their votes. Papers will be delivered to them just as at present, by mail or carrier, as the case may be. You no doubt have many friends who are not regular subscribers to the SUN and STAR. Get them to join our permanent list and to pay their subscriptions in advance. It may be that some of them do not take any paper at all. Show them the many advantages of the papers and it will not take them long to decide that the papers are needed in their homes. Remember that organization is a great help. Get a meeting of half a dozen or more of your friends. Tell them that you have made up your mind to secure one of these valuable awards and that you need their assistance. Get each one to promise to devote a few minutes of his time daily to that end. Get each one to promise to see at least three of his friends in your behalf daily and to secure their subscriptions. In other words, start an endless friendship chain for the purpose of securing subscriptions. Don't be discouraged if someone gets ahead of you. The contest will last until the 25th day of August, and between now and that time there will be many changes occurring in the list of contestants and the number of their votes. If you all would give a little more thought to the value of the prizes and estimate the number of subscriptions the chances of winning a valuable prize are so bright that you will not regret your independence and start immediately.

SIR ROBERT HART HAS DECIDED TO RETIRE

Getting Old and in Poor Health—New Man Will be Chosen to Succeed Him in China

LONDON, July 20—Sir Robert Hart, who spent a year's leave of absence in England, the first vacation he has taken in more than twenty years, has practically decided to retire from the position of director general of Chinese Customs and Labor, whose functions, in part are to find employment wherever possible for the throngs of aliens who come into this country.

Fifty thousand able-bodied men are wanted by the farmers of the west, according to Representative Stephens, of Minnesota, who says the west is literally begging for help to grow the big wheat and other crops. He declares that the crop situation all through the west is splendid.

Official Organ Says Relations are Becoming Strained, and Threatens Trouble—Prince Ito Given Great Reception in Tokio

TOKIO, July 20—Prince Ito, until recently the Japanese resident general in Korea, and regarded as being the Japanese greatest statesman, returned here today and was received with unusual honors at the express command of the Emperor.

The Imperial guard of honor occupied the square outside of the Shimobashi railroad when the Prince's train arrived. Prince Ito drove through streets lined with troops directly to the palace, where he reported to the Emperor.

Prince Ito said that the situation in Korea was hopeful and that there was no reason to expect any serious opposition to the change in the judicial system provided for in the conference between Korea and Japan, which is supposed to have been the purpose of Ito's recent mission to Seoul. The change in the judicial system in Korea, he said, was an absolute necessity, but would not change the policy of Japan toward Korea.

TOKIO, July 20—Prince Ito, who has just returned from Korea, will preside tomorrow for the first time at a meeting of the privy council of which he was recently appointed President by the Emperor. There is reason to believe that the pending questions between Japan and China, which are causing increased tension, will receive the first consideration of Prince Ito and the Council.

TOKIO, July 20—The Kokumun, one of the most influential of Japanese newspapers and which is generally regarded as the mouthpiece of Marquis Katsura, the premier, in matters pertaining to the government's policy, in an article today discusses the situation between Japan and China and strikes a somewhat shrill note. It was expected, says the article, with the withdrawal of the proposal to refer to the Hague arbitral tribunal the difference between China and Japan, preceded the adoption of what was hoped would be a conciliatory policy by China. But this expectation has not been realized. China now proposes wholly unacceptable terms and refuses to reply to Japan's request for reconsideration.

THE WESTERN STATES ARE LOOKING FOR HARVEST HANDS

Fifty Thousand Men Will be Required to Aid the Farmers in Their Autumn Work

WASHINGTON, July 20—A correspondence for help to harvest the season's bounteous crops comes from the west to officials of the Department of Commerce and Labor, whose functions, in part are to find employment wherever possible for the throngs of aliens who come into this country.

Fifty thousand able-bodied men are wanted by the farmers of the west, according to Representative Stephens, of Minnesota, who says the west is literally begging for help to grow the big wheat and other crops. He declares that the crop situation all through the west is splendid.

COAL-- American Anthracite, Scotch Anthracite, Old Mines Sydney Reserve Delivered in bulk or in bags. Prices Low. R. P. & W. F. STARR, Ltd. 49 SMYTHE ST., 14 CHARLOTTE ST.

REV. H. D. MARR IS CHOICE OF CHURCH

Queen Square Pastor Likely to Succeed Rev. Nell McLaughlin

At a postponed meeting of the quarterly board of the Portland street Methodist church last evening the choice was practically made of a new pastor to fill the place to be vacated by Rev. Nell McLaughlin, who has accepted a call to the Frederick Methodist church. As the meeting was important the meeting was fully attended. A clergyman now in charge of one of the city churches is to be extended a call to Portland street. He was unanimously decided upon, and the invitation is to be extended to him today. Members of the church board who were questioned last evening seemed to hold the opinion that the time for announcement is not yet ripe. It is understood, however, that the man who is to be honored is Rev. Hedley D. Marr, at present pastor of Queen square church. Should Mr. Marr accept such a call he will assume the pastorate of his third successive church since he has been in St. John. He was for a term in the Cathedral church before going to Queen square. Two other members of the N. B. and P. E. Island Methodist conference have already received invitations to move in July, 1910. Rev. Mr. Strothard of Moncton has accepted a call to Summerside, and Rev. Mr. Hammond Johnson, now of Summerside, will go to Redegus, P. E. I.

Court La Tour will meet in Foresters' Hall, Charlotte street, this evening for initiation and report of delegates to High Court. Visiting Foresters invited. A full attendance is requested.

The Eastern Line Calvin Austin, Captain Pike, from Boston, docked at 8:45 o'clock this morning with a good freight and four hundred and ninety passengers.

Directions for Making Iced Tea. Warm the teapot. Put in a heaping teaspoonful of "Salada" tea for every two cups. Four on freshly boiled water and allow to infuse from 6 to 8 minutes. Pour the liquor off the leaves and let cool. "Salada" Tea is a most delicious and refreshing beverage. A small piece of lemon will add to its flavor.

Herbert Ring and Willard Ring proved of great assistance to a young man from Charlton who was sailing to the harbor last evening. She was smothered from a boat in which she was sailing with two young men companions by the swinging of a boom. The Messrs. Ring happened to be very close behind in their motor boat and were able by stopping quickly to pull the young lady out of a dangerous situation.

Among the guests at the Grand Union Hotel yesterday was Mr. John Wilder, of Quincy, Mass., who is making a whealing tour through the New England States and the Maritime Provinces. Mr. Wilder came direct to this city from Boston. He left by boat for Dixey this morning and will pass from there to Halifax.

Fred McAnulty, a young son of Mr. John McAnulty of Long Wharf, had an artery cut in one of his wrists yesterday, and is having a painful experience with it, as it refuses to close permanently. The lad met with the accident in a fall from a lumber pile at Hilyard's mill. He alighted upon a dump which contained a quantity of broken glass, etc., and Mr. McAnulty is attending him.

Hon. J. J. McLaren, of Toronto, Judge of the Ontario Court of Appeal in the city, yesterday between trains. He is en route from Prince Edward Island to Boston. A son of Judge McLaren is at present in the city as the guest of Mr. Ronald Blacklock.

Swoman-Simpson, an employe at one of the cotton mills, is the sole applicant for the position of dog-catcher. The applicant will have to make a most definite statement concerning his plans for securing a dog license, before action will be taken with regard to the appointment.

Ad. Potts, chairman of the ferry committee of the Common Council, expects that the fare boxes for the collection of ferry tolls will be ready for use by the time the ferryboat Ludlow is again in commission. Thus the new system of toll collection and the re-employment and re-equipment of Ludlow will go into action together.

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDING, KINMAN & MARYVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

The Misses Burton, of the North End, entertained a party for the week-end holiday, with a sail up river in Capt. Fairweather's staunch little motor boat the "Hurley Hurley" stopping at several places of interest along the route, finally landing at Carter's Point, where camp was pitched and a bounteous lunch served in true picnic style. During the afternoon the surrounding cottages and camps were visited and an altogether delightful outing came to a close with a short sail up the Kennebec, arriving home at a late hour, a tired, sun-burned, happy company. All were enthusiastic in praise of the charming hostesses and the careful captain. Those enjoying the sail were: The Misses Kenney, Moore, Ellis, Roberts, McLellan, McNichol, Burton and Miss J. Burton; Master McNichol, Messrs. Lawson, Tait, Richardson, Howard, Johnson, Coleman, Burton and Capt. Geo. Fairweather, Jr. Mrs. McNichol and Mrs. Geo. Burton were the chaperones.

AVERAGE CANADIAN IS DRINKING MORE BEER

But Less Wine and Spirits—Tobacco Habit is on the Increase. OTTAWA, July 20—Canadians are drinking less spirits than formerly, but the consumption of beer per capita is increasing, according to a statement prepared by the Inland Revenue Department as to the consumption of articles which pay excise duty. While the per capita consumption of spirits in 1907 was declared \$1.47, it was only \$1.00 in 1906. The consumption of beer, on the other hand, rose last year to \$3.48 per head. The consumption of wine also shows a decline, from \$2.01 per capita in 1906 to \$1.88 last year. Tobacco, however, continues to grow in popularity. In 1906 the consumption was 2,777 lbs. per head; last year it was 2,810 lbs. per head.

PERSIAN SITUATION NOT ALL PEACEFUL

Troops Refuse to Disarm—Notorious Leader Plans Punishment for Enemies—Britain Threatens to Intervene. LONDON, July 20—A despatch from Teheran to the Times says that the little Shah will hold a durbar in the city Tuesday to make the acquaintance of his cabinet subjects. He is pathetically unhappy and would willingly exchange his honors for his mother's lap.

So far no serious difficulties have arisen, although some of the Shah's troops are holding out against disarmament. From Shiraz, capital of the province of Fars, comes the news that the town is in a state of anarchy. The notorious Syed Abdul Hussain is marching on the town to punish the Kawan family, who recently defeated him. The British legation has warned the provisional government that unless this advance is stopped, steps must be taken to protect the lives of foreigners and that a force of bluejackets is in readiness to march from Bushind, a port on the Persian gulf, not far from Shiraz. In the meantime the government is seeking to check the advance.

James MacKay had a narrow escape from drowning early yesterday afternoon. He was standing near Gregory's dock and fell into the water. Captain Warden of the yacht Dream, hailed him out. With the assistance of George Black and W. Allan Black, MacKay was placed aboard the yacht and was soon revived.

DODD'S KIDNEY PILLS. ALL KIDNEY DISEASES. BRONCHITIS, RHEUMATISM, GRAVEL, GOUT, DIABETES, CALCULI, NEURALGIA, MIGRAINE, HEADACHE, AND ALL AFFECTIONS OF THE URINARY SYSTEM. PRICE 25 CENTS PER BOTTLE. THE PROMOTION.

BOSTON BREAKS EVEN WITH LAJOIE'S TEAM

Cleveland Capture the First Game and Boston, Second. CLEVELAND, Ohio, July 19—(American)—Cleveland and Boston broke even today in the first double-header of the year here, Cleveland winning the first, 4 to 2, and Boston, the second, 8 to 2. Cleveland won the first game easily, Young outpitching Cheek, Collins, college pitcher, replaced Cheek and did good work. Ball's playing was a decided feature. He made an unassisted triple play in the second inning, and when he came to bat in the same inning he hit for a home run to deep center. The second game was a decided feature. He made an unassisted triple play in the second and third innings. Four runs were made in the third without the semblance of a hit. The score: Cleveland, 7; Boston, 2. Box score: Cleveland, 7; Boston, 2. Box score: Cleveland, 7; Boston, 2.

WRIGHTS THINK THAT THEY COULD CROSS THE CHANNEL

M. Pierlot Says He Will Try on Thursday—Washing on Tests More Satisfactory—Latham Beats Duration Record. WASHINGTON, D. C., July 19—The failure of Herbert Latham to cross the English Channel today brought forth expressions of confidence from the Wright brothers that their machine can make a successful flight across that body of water. Mr. Wright said the motor of Latham's aeroplane had rarely been known to run satisfactorily for more than five minutes at a time. The cause of Latham's failure—the stopping of his motor while in mid-air, bears out the contention of the Wrights that a strong aeroplane must depend upon the development of a motor. Mr. Wright said that he and his brother had been running their motor for more than an hour during the last few days. The first flight lasted 25 minutes and 18 seconds, during which the aviator circled the parade grounds, a distance of about five-and-a-half miles. The second, which continued until darkness prevented Mr. Wright from remaining longer in the air, was for half an hour's duration and 29-1/2 circuits were made. During this flight the Wrights were able to make a landing and take off again. The Wrights will soon have the aeroplane in condition for the official flight.

SCORED 335 OUT OF 350, WORLD'S RECORD FOR RIFLE

Heatherblom, World's Champion Jumper, Met Fatal Injury Trying to Make New Mark. WAKEFIELD, Mass., July 19—A new world's record for rifle shooting was made today at the Wakefield range, it is claimed, by past Middlesex champion Andrew D. Denny, U. S. A. The naval team, who scored 335 out of a possible 350. GREAT BARRINGTON, Mass., July 19—New Bedford, the 120,000 world's champion jumper in the equine line, came to his end today as the result of an attempt to beat his record of 8 feet 6 inches, made at Chicago, by topping his paddock fence, receiving an injury to his shoulder which necessitated his being shot. The horse was owned by Howard Willette, of White Plains, N. Y., and New Marlboro, Mass. Mr. Willette claimed to have refused an offer of \$20,000 for the horse. He is now being kept at the farm of a friend of the present year, and a similar offer from an Englishman who wanted the horse to enter in the international jumps.

ST. JOSEPHS CAPTURE A FRIENDLY MATCH

In a friendly match on the Shamrock grounds last evening the Saint Josephs defeated the St. Peters by a score of 4 to 3. The champions line-up was considerably changed, as the St. Peters had a number of players who were unavailable. Donnelly pitched excellent ball for the much-defeated St. Josephs team. Best advised the artists box for the St. Peters and was hit hard. Donovan secured a triple and Sullivan took a double. Small also had a two-bagger to left field. The contest went four innings. Donnelly, St. Josephs; Mahoney, Cregan and J. McCormick, St. Peters.

HUNDREDS OF MEN FORM FIRE PATROL

Woodlands Destroyed and Threatened—Few Valuable Timber Properties Left on Cape Cod. BUZZARD'S BAY, Mass., July 19—Between four and five hundred men patrolled the Buzzards Bay road tonight watching the big forest fire between that road and the valley road that already has burned between 500 and 1,000 acres of valuable oak timber land and destroyed summer cottages and damaged cranberry bogs to a great amount, estimated at about \$75,000. Owing to a light wind the fire was contained and extinguished but owing to the dry condition of the woods the upper part of the fire can only be held so long as the wind stays calm. The woodlands destroyed thus far in the two days of the fire and those threatened are among the few valuable timber properties left on Cape Cod.

AMERICAN LEAGUE BATTING

Table with columns: Player, Team, Runs, Hits, Errors, etc. Lists batting statistics for various players from different teams.

KISS, SHY OF KISSES, MRS. KISS BRINGS SUIT

NEW CASTLE, Pa., July 19—Kisses yesterday made married life happy, but Louis and Sophia Kiss have been unable to live happily, after trying it for more than five years. Sophia has applied for divorce here. They were married May 10, 1904, and lived together until June 17 of this year. The wife alleges her husband treated her badly, instead of living up to his rather unusual name, and that her name is only a mockery in her present plight.

HOW AMERICAN JACKIES CAN MAKE MONEY

By Sewing, Washing, Altering, Photography and Writing. Seventeen dollars and sixty cents a month does not seem like a very good thing to get for an able-bodied man. But as the sailor's wage, of the unskilled youth who does his blue trousers, his bell-shaped trousers and the panache hat of a United States navy man. It is not a bad thing to get, though small at the start, is practically all clear money. The result is a monthly addition, say that it may be \$10.00. The average pay of our bluejackets compares very favorably with prevailing wages in civilian life for skilled workmen. The Government starts by giving a sailor a free outfit of uniform, blankets, overcoats, underclothes, etc., and as the first supply of articles is exhausted, the Government pays for the cost of the Government. As he becomes proficient in his duties his pay is increased, and with each re-enlistment he receives a material addition, say that it may be \$10.00. The average pay of our bluejackets compares very favorably with prevailing wages in civilian life for skilled workmen. The Government starts by giving a sailor a free outfit of uniform, blankets, overcoats, underclothes, etc., and as the first supply of articles is exhausted, the Government pays for the cost of the Government. As he becomes proficient in his duties his pay is increased, and with each re-enlistment he receives a material addition, say that it may be \$10.00.

Laid Behind the Counter Until Relief Came.

TERRIBLE SUFFERING OF AN OJEW SOUND CONTRACTOR AND BUILDER. Mr. Wm. Knappe, Owen Sound, Ont., writes: "Having read some of the testimonials of cure effected by Dr. Fowler's Extract of Wild Strawberry, I thought it advisable to try a word of praise for its merits. Some years ago I was much troubled with severe trouble and cramps. I used to roll on the floor in agony, and on one occasion I went into a faint after suffering intensely for four hours. A short time after this, in driving to town, I was attacked again and had to lie down in my zig-zag, seeking relief. When I reached the drug store I asked the druggist for a quick remedy and laid behind the counter until relief came. The remedy I received from the druggist was Dr. Fowler's Extract of Wild Strawberry. Whenever after that time, I felt cramps coming on, I found speedy relief in the above mentioned remedy, and I am now cured of this dreadful malady. The bottle is small, but its contents effect a marvelous cure. I can recommend it highly for the cure of cramps."

GIRL WINS HER CASE.

Without Counsel, She Fought the Toronto Railway Co. TORONTO, July 20—Miss Agnes Martindale, a winsome young working girl, without either counsel or witnesses fought single-handed against the Toronto Street Railway Company in the police court yesterday, and won out. She was charged with non-payment of her fare by the Railway Company, a conductor alleging that she had presented a transfer over half an hour late. When Chief Inspector Archibald learned that the young girl had no witnesses, he remarked gruffly to Roadmaster Nix: "Surely you'll withdraw this case," but the official gave no sign of hearing. After the Street Railway witnesses had finished, the girl produced her line card from her workhouse, showing that she did not leave her place of business to go home to lunch till twenty minutes after the time punctuated by the transfer. "This is clearly the result of care-

YOUNG CORBETT MARRIES

SAN FRANCISCO, July 19—William Rothwell, better known to the sporting world as Young Corbett, formerly lightweight champion pugilist, was married here yesterday to Miss Daisy Merrereau, of Virginia. The couple was married at Shannon's Villa where Corbett trained for his unsuccessful fight last Saturday with John Frazer.

ANOTHER DISCOVERY ABOUT TUBERCULOSIS French Physicians Explain Method of Distinguishing Whether Disease is of Bovine or Human Origin. PARIS, July 20—Drs. Calmette and Guerin announced before the Academy of Science last night the discovery of an easy method for the determination of whether tuberculous in individual cases is of bovine or human origin. They proved that the bacilli in tuberculous of human origin do not infect cattle, by a series of experiments among which was the inoculation of a goat with the germs from tuberculous patients of a sanatorium at Saranog Lake, N. Y. The goat practically was unaffected and continued to give nourishment to its young, the health of which was in no wise affected. Another goat was inoculated with a culture taken from a boy suffering from tuberculosis and this inoculation resulted fatally. From this the doctors were able to conclude that the boy's infection was not of human origin but resulted from milk taken from tuberculous cattle.

MAN FROM MICHIGAN HANGED IN ENGLAND BODMIN, Eng., July 20—Wm. Hampton, formerly of Isheming, Mich., was hanged in the Bodmin jail this morning for the murder of his sweetheart, Emily Treves, at St. Erth on May 2 last. Miss Treves had refused to have any more to do with Hampton, whereupon he caught the girl around the neck and suffocated her. Hampton submitted quietly to being led and walked firmly to the scaffold. He did not utter a word after leaving his cell. Death was instantaneous.

SPAIN IS SENDING MORE TROOPS TO MOROCCO MADRID, July 20—King Alfonso and Premier Maura are hastily returning to the capital from San Sebastian in connection with the sending of reinforcements to Mellilla, where heavy fighting has been going on between the Moors and Spaniards. The Spanish Government is exercising the strictest censorship over telegrams from Mellilla and also the outgoing press despatches relating to the situation in Morocco.

AMUSEMENTS
ANIMAL CIRCUS FOR SURE TO-
DAY.
Owing to a whole lot of red tape the
properties belonging to the Lamont
Circus did not arrive until very late
last night, so consequently the art was
not put on. The management regretted
this very much, but as everyone
knows, you cannot overcome these
difficulties at times. This act carries
its own special scenery and effects, and
the management guarantees the best
all-round animal show that has ever
been put on in this city. This act
consists of trained monkeys, dogs and
cats. There is one little monkey, in
this circus just three months old, born
in captivity, and the cutest thing you
ever saw. The other acts on the bill
are great laugh producers. Astia
Walsh in the comedy skit, Sightseeing
New York in the rubber-neck wagon,
almost caused a riot—it's simply extra-
ordinary. Longfellow, who was billed as
the tallest man in Vanauville, certainly
came up to expectations and he is just
as funny as he is tall, and that's say-
ing a whole lot.

GLOWORM GREAT HIT AT NICKEL
The most spectacular hit of Holmes
and Buchanan's present engagement at
the Nickel was made last evening
when tremendous crowds were deluged
with their rendering of Paul
Lincke's contagious song-intermezzo,
The Gloworm, which has been the pre-
sident hit of the musical comedy,
The Girl Behind the Counter, in
metropolitan centres. During the read-
ing of the Gloworm last evening the
theatre was in darkness and in the
glare of a blue floodlight tiny glow-
worms' flickered intermittently. It
was a charming illusion and won
much applause. Both Miss Holmes
and Mr. Buchanan excelled themselves
in singing the number and were
delicately encored.

THE INDIAN SINGERS A HIT AT
H. H. H.
The H. H. H. promised a good show
WASHINGTON, July 19.—"Why
then is a rotten egg?"—is the issue
formally laid before the Department
of Justice today with a view to
criminal prosecution in the North-
west. Attorney General Wickham
two days ago received a telegram
from G. A. Neundorfer of Clark's, B.
reading, "I this day sent package by
United States Express for examina-
tion."

ST. JOHN STAR. ST. JOHN, N. B., JULY 20, 1909.

LOSING THEIR OPPORTUNITIES.

It might be supposed that in the realization of the extensive railroad construction now going on in this province, New Brunswick merchants and dealers in all forms of supplies would see the opportunities of business ready-made to their hands.

Full of it Ruth in rhyme I'm busy showing My arid glowing. In tender lines for Rose I tell my passion In fervent fashion.

And then I turn a song to pretty faces Like Maud's and Grace's, And off the charms of Nell my pen rehearses In ardent verses.

them to overlook such things and unfortunately the parents of some of our public school pupils are not even reasonably careful.

While the object of the schools is primarily the development of the minds of the pupils it is not reasonable that their bodies should be sacrificed to this end.

There are many arguments in favor of this step and few good ones against it. The proposition is one that is worthy of careful consideration on the part of the educational authorities.

OLD AGE KEPT OFF BY DOCTOR'S KNIFE. Experiments Prove Operation Can Prolong Life.

London, July 20.—As the result of investigations at St. Mary's Hospital, London, Dr. Distasi, of Paris, claims to have verified the theory of Prof. Metchnikoff that old age can be warded off.

Dr. Distasi's experiments were directed to comparing the germs found in normal individuals and those whose large intestine had been removed by operation, and he satisfied himself by his studies of the truth of Prof. Metchnikoff's theory.

AIRSHIP TOYS THE LATEST NOVELTY. Christmas Trade Announcements Already Out.

Christmas toys of this year have already begun to appear in the shops. In many forms the general interest that has attached during the last six months to attempts at navigating the air, is being extended in the direction of toys.

One of the novelties is an aerial policeman mounted on an aeroplane, with dangling legs, in his movable arm a drawn sword and his left arm slightly extended in the direction of the motor.

OPENING UP A NEW CANADA. Rush Work on Railroads North from Alberta.

Already the Alberta Board of Trade Has Mapped Out the Pack and River Trails in the Vast Territory.

EDMONTON, Alberta, July 19.—What some men believe to be a new El Dorado of commerce is now beckoning through the half opened gateway of the north and the far trade dies in the heart of the Alberta government in securing railways that are to be built into the north country in the next five years.

The reason for the delay in opening the territory, so at least western Canadians agree, that this north is the greatest far bearing country left in the world and the far trade dies in the heart of the Alberta government in securing railways that are to be built into the north country in the next five years.

Some of these traders made good, but most of them dropped quietly out of the race, selling their interests to the big company. Then there came in the lists within the last ten years the old Faraday house of Baillouin Fraser, who saw in western Canada a field as rich in furs as the Caucasian and Siberian districts they had long before exploited.

Already a new order has intervened regarding the geography of the country, and with multiplying numbers of free traders and settlers, railroad and land surveys the map has undergone radical changes.

The important step just taken by the Government in guaranteeing hundreds of miles of railways into the north was foreboded last year by a public rival of the Edmonton Board of Trade concerning the outland trails of this region.

Numerous inquiries received in Edmonton route to the Finlay River gold fields, together with the increasing number of people going into the north country, last year roused members of the Board of Trade to a sense of their responsibility to the residents of a city that will always be the meeting place of northern and western trails.

The Village Grocer (peevishly)—Look here, Aaron. What makes you put the big apples in the top of the barrel? The Hon. Mr. Farmer (Cheerfully)—What makes you comb that long hair over your bald spot?

unique affair—a concise and accurate showing of every main trail and route, the mode of travel, by steamer or scow, wagon, pack trail or dog trail; the main freight, time schedule and sleeping accommodation.

The report combines the primitive, the frontier—the stops at Johnnie Stony, at Shaganappi and Lewis's half way house, Devil's Canon in the Rockies and stern forts in the Arctic region—with handsome press work done by a plant that is the evolution of a box of nonpareil type and a hand press brought over the prairie in an ox cart twenty-seven years ago.

As yet no one has taken the trip from the northern trails by river, mountain pass and plateau woods afford delightful holiday outings for men who know the certain pleasures as well as the risks of back country traveling.

PIANOS DISORDERLY AFTER 12 AT NIGHT. Washington Judge Declares Ban on Music After Hours.

WASHINGTON, July 19.—Piano playing and singing after midnight is disorderly conduct, as much so as cursing, swearing or fighting, declared Judge Ivory G. Linnell in the police court today in dismissing with a lecture a case against Raymond Lemant.

"I want to impress upon you and your friends who were with you," said the judge to Lemant, "that playing the piano after hours will not be tolerated in the city. We can't live in a city like this all crowded together, unless everybody has some consideration for the rights of his neighbors."

"No man or woman has the right to play the piano or sing after his or her neighbors are asleep or in bed trying to sleep. Any one who does not recognize the rights of his neighbor is a transgressor."

NEW YORK, July 20.—The American League championship New York, yesterday from Southampton and Cherbourg, had an experience during the voyage probably without precedent in ocean-going annals.

Caterpillars, big red and green fellows, began to appear in the vessel's staterooms, assembly rooms, vestibules, passageways, companions, on deck, in the scuppers, along the rail and in the rigging, and were soon on their way to the chief steward, who reported to the officer in charge of the cargo, and the explanation was not as long in coming as were effective measures to arrest the plague that threatened to be more extensive.

Thirty cases, the temporary home of untold thousands of caterpillars, upon which are being imported millions of parasites to kill off the eggs of the pest, had been placed in an empty stateroom compartment forward on the lower deck.

Dr. L. O. Howard, Chief of the Bureau of Entomology of the Department of Agriculture in Washington, is reporting the parasites. They have been arriving here at the rate of 2,000 boxes a day since May 1. There are 62 varieties of the parasite, but only one variety of the caterpillar coming.

In Cuba the best tobacco comes from one strip of land only, the slopes of a certain river, and even there a north wind may ruin it. Tobacco is the most sensitive plant we know. The smallest thing affects its flavor. Plant Virginia tobacco in Germany, and the result is a better tobacco, but it is German tobacco, not Virginia.

SUICIDES INCREASE, BLAMES HOT WEATHER. New York Records Show That the Rate Is 124 Per Month.

ALBANY, N. Y., July 19.—Dr. Eugene Porter, state health commissioner, announced yesterday that according to his department a rapid increase in the number of suicides in this state is a sad condition that has become a fact.

"I want to impress upon you and your friends who were with you," said the judge to Lemant, "that playing the piano after hours will not be tolerated in the city. We can't live in a city like this all crowded together, unless everybody has some consideration for the rights of his neighbors."

"No man or woman has the right to play the piano or sing after his or her neighbors are asleep or in bed trying to sleep. Any one who does not recognize the rights of his neighbor is a transgressor."

Read Classified Ads. PAGE 3. WOULD'NT KNEEL DURING MASS, IS ARRESTED.

MONTREAL, Que., July 19.—An unusual incident resulting in actions of damages to the extent of \$3,000, occurred in court this afternoon.

Mr. J. E. Lalonde, a well known commercial traveler of this city, who passes the summer at Disle, proceeded to Lachine, yesterday morning, to attend High Mass, in the Catholic Church there. Not being a papist, Mr. Lalonde stood with many others at the rear of the church just inside the entrance door.

At a certain stage of the service, a member of the local police force, named Alfred Aubin, who also acts as special constable inside the church on Sunday, came along and called upon Mr. Lalonde to kneel. Mr. Lalonde replied that he would kneel down when he was ready to do so.

Thereupon, the constable dragged him out of the church, took him first to the sexton's house, where no one was found, and then to the police station, where he would kneel down when he was ready to do so.

Mr. Lalonde at first refused to leave the cell, but afterwards consented to do so, and a local justice of the peace having been called, found there was no ground for the issue of any warrant.

STRIKERS ARE AWAITING PEACEFUL SETTLEMENT Situation in Pennsylvania is Much Better—Men Have Abandoned Violence

BUTLER, Pa., July 19.—Following the advice of cooler heads the striking employees of the Standard Steel Car Company have abandoned acts tending to incite violence and during the next 24 hours will endeavor to bring about a termination of the strike by legal and quiet means.

WASHINGTON, July 19.—Juggling two imposing mountain peaks of the rap, transforming a bay into a lake and springing into existence two brand new islands are the astonishing feats of nature discovered in Behring sea by a government party and reported to the Treasury Department today.

WILSON'S FLY PADS One Packet of Has actually killed a Bushel of Flies SOLD BY ALL GROCERS

DISASTERS WHICH BEFALL A COUNTRY IN TIME OF WAR FROM UNTRAINED MILITIA

In the United States, General George W. Wingate, the founder of the well-known rifle matches at Creedmoor, is as zealous an advocate of the training of citizens in the use of the means of national defense as is our own Lord Roberts, whose words have recently done so much to stir up the martial ardor of the young men of Great Britain. General Wingate contends that an untrained militia in times of stress, but a broken reed to depend on, and as proof of this he cites the numerous disasters which have befallen the troops during the War of 1812-14. To most Americans such an admission is shocking, and they would rather disavow, for, says he, the majority of the American people hold the opinion that this "was on and sea a series of brilliant victories," whereas the plain, unvarnished truth is that Wingate, that the campaigns on land were, with a few exceptions, "a series of humiliating disasters." In support of this statement he quotes from a work compiled by the late Major-General Upton, and published by the War Department in the request of General W.T. Sherman, "who read and approved it." "That work," he says, "is the 'Facts of the War of 1812-14.' It tells of Hull's invasion of Upper Canada, his hurried retreat to Detroit and his surrender of the place without firing a gun to a much inferior British force under Brock; of Wilkinson's defeat at Chateaugay, and so on through a long list of disasters inflicted by inferior forces, and of which the common American histories make no mention or do not state the facts.

One paragraph in the report cited by General Wingate reads: "Gen. Dearborn assembled another invading army of 8,317 men, to capture Montreal, advanced as far as Lacolle River, captured a block-house and then went into winter quarters. Nearly all the militia refused to cross the line." The facts of the case are even worse than here stated. The American force, overwhelmingly superior in numbers, failed to capture the position attacked. They were repulsed and promptly treated, abandoning their invasion of Lower Canada, and their projected attack on Montreal. It was the Lacolle Mill, and the story of that fight is worth telling once more.

During the War of 1812-14 two campaigns were planned for the invasion of Lower Canada, and the capture of Montreal. Both were put in jeopardy, and the end of the war was the same—defeat and total failure on the part of the invaders. The first of these invasions took place in the autumn of 1812, when two American forces, advancing by separate routes, attempted to form a junction just above the Island of Montreal, and from there sweep down the St. Lawrence River to the city of Montreal. The British force, commanded by General Hampton, advanced from the north shore of the St. Lawrence River, but on November 17th, at Chateaugay, he suffered defeat, and was equally decisive as that which Hampton's force sustained at Chateaugay two weeks before. In these repulses ended the invasion of Lower Canada in 1812.

In the following spring occurred the last invasion of this Province, and the engagement in which it culminated is known in Canada as the battle of Lacolle Mill. The name Lacolle is preserved not only in our history, but in our geography as well. Forty-five miles south of Montreal on the line of the Grand Trunk Railway, a little station is known as Lacolle. It is a station on the line of the Canadian Pacific, and is a station on the line of the St. Lawrence and Atlantic Railway. The name Lacolle is preserved in our history, but in our geography as well. Forty-five miles south of Montreal on the line of the Grand Trunk Railway, a little station is known as Lacolle.

WASHINGTON, July 19.—Juggling two imposing mountain peaks of the rap, transforming a bay into a lake and springing into existence two brand new islands are the astonishing feats of nature discovered in Behring sea by a government party and reported to the Treasury Department today. In that stretch of water, with its swiftly moving current, in the island of Bogoslof, whose constantly changing conformation has more than once attracted attention. The report says that Perry Peak and McCulloch Peak, which had heretofore loomed high in the air, have disappeared and the opening of the bay or lagoon, a pretty spot shown in pictures on file in the Treasury Department, has closed up, forming a lake of warm salt water.

No Store Anywhere Can Match These Clothing Bargains!

The reason why these clothing bargains are so far ahead of any other store offerings is because our prices were at least 25 per cent. below those of any other store in the first place. So when our original prices are reduced as they have been for this mid-summer sale, you can readily see why you can still get much more for your money here than anywhere else even if you could buy elsewhere at half price.

And these Suits, Overcoats and Trousers are of such good style and quality that after the weeks of service you can still get out of them this season, you can put them away until next spring and then have practically new clothes to wear. So every way you look at it, this sale offers you unusual advantages.

Table with columns: MEN'S CLOTHING--Really Reduced, BOYS' CLOTHING--Really Reduced. Lists various clothing items and their reduced prices.

Table with column: Great Savings in Men's Furnishings. Lists various men's furnishings and their reduced prices.

Don't Forget--Sale Ends July 24th GREATER OAK HALL, SCOVILL BROS. Ltd. St. John, N.B.

BIG TWO STORY CAVE FOUND IN LAVA BEDS Discovery Made in California Declared World's Marvel Hole in Upper Corridor Leads to Similar Corridor Below, Extending for Five Hundred Feet.

KLAMATH FALLS, Ore., July 20.—The modern lava beds in California, near to Klamath county line, long a place of historic as well as scenic interest, have grown more prominent lately from reason of new discoveries, especially as to the caves, of which there are a great many in this region. All among lava beds of the most rugged description.

As one traverses Tulara Lake, the southern margin of which rests on the lava field, about forty feet above the level of the lake, in the region south of the lake, many of these are weathered and ancient, covered with shrubs and trees, and others are almost entirely bare, and the reddish lava about their crevices has a modern look.

Following the lava flows from these crinkled ridges of lava and caves of great extent and of various forms. A hole in lava bed of this region, and who has spent thirty years as a cowboy, declares he has discovered a cave in the Mammoth Cave of California, and steps are being taken to make a thorough exploration of its vast subterranean recesses.

A party of thirteen persons from Klamath Falls has recently returned from a four days' trip in the lava beds and reports a most interesting outing. This party made camp at the Bear's Paw cave, in the midst of the lava, and from that point explorations were made on horseback to various points of interest in the surrounding region.

Several new caves were discovered by the party, one of which was about two hundred feet in length, fifty in width and with a level ceiling forty feet above the floor.

The most important discovery made by the party, however, was of a two story cave, which is indeed one of the world's marvels. A hole was found ten feet in width in the bottom of a large cave. A lantern was hung on a rope until it was evident that there was another floor with a curving cavity twenty-five or thirty feet below.

A small pine tree was cut, divested of its limbs and brought into the cave. This was lowered until it touched the lower floor, and by it the party ascended to a great corridor, thirty or forty feet wide, extending apparently parallel with the corridor above in both directions from the point of descent. The corridor is not less than five hundred feet in extent, and is constructed at the ends by loose material fallen from above. No thermometer was at hand to determine the temperature, but it is cool enough to contrast greatly with the temperature above ground, and let's five or six feet in length depend from the ceiling in many places.

A GOOD REASON. "How was he acquitted?" "Insanely." "He doesn't seem crazy." "He isn't. It was the jury that was off."

FREDERICTON, N. B., July 19.—The death occurred this afternoon from convulsions of the wife of Irving Smith, assistant station master here of the Intercolonial. She was 23 years of age, and a daughter of John Kennedy, of Kingscliff. She leaves a husband and a child one day old.

The Victoria of this city defeated the St. Mary's Stars at baseball this evening by a score of three to two.

LAONA, N. H., July 21.—One of those strange freaks of animal and reptile distribution that puzzle the naturalist is found on Rattlesnake Island in Lake Winnepesaukee. The lake contains fifty-seven islands of all sizes from a few square feet to hundreds of acres, but only on Rattlesnake Island is there to be found any more alarming than the harmless and pretty garter snake. The snake is a rounder the lake is mountainous and well wooded, but it is free from snakes. Rattlesnake Island has a mountain of rattlers.

The island is one of the largest in the lake, as well as the most picturesque and its name forbids trespass and it remains today as virgin as when the Indians gave the lake its musical name. Just why the snakes should have chosen this particular island for their abode is a mystery, although an event of a few years ago made it clear how they might have reached it. Rattlesnake Island is some miles out from the mainland and several hundred yards from any other island. Some years ago a fisherman, holding his fish net, landed on the island and there he found a rattlesnake. He was a bit nervous, for he forgot to put out his fire and the wind fanned it into a blaze. A large part of the island was burned over and during the next few days many rattlesnakes were found on the mainland and the neighboring islands. Within a week, however, the snakes were gone from the mainland and not one snake of a venomous kind has been found outside of Rattlesnake Island since then.

The snakes confine themselves to the rocky cliffs that form the uplands of the island and are seldom seen. One doubting Thomas who reasoned that there could not be any snakes on the island because he had never seen any went ashore there one day and tramped about in his bare feet. As luck would have it he never saw a snake. The hardheaded explorer nearly fainted next day when a friend armed with a shotgun explored the place and came back with a five foot rattler.

This led to the organization of a hunting party. The hunters were high boots and looked the ground over carefully before taking a step. They found snakes in abundance and the members of the rattlers got on their nerves. After killing five unusually large snakes the party chose a large flat rock near the water's edge and well out of the snake's habitat for a resting place.

One of the hunters is a professor in a New York college. He doesn't teach natural history and his knowledge of outdoor life is not very extensive. As he sat munching a sandwich a cicada set up its shrill cry. Still holding firmly to the sandwich, the professor gave a wild leap that landed him in the lake. The water and the laughter of his friends restored his reasoning faculties, but he is still in the water. At the end of the evening in creator would not tempt him to visit Rattlesnake Island again.

Why the Snakes Should Remain on Rattlesnake Island Alone Nobly Seems to Know.

ADMITS CHILD IS HIS. Attorney Stephen G. Porter, who represents the wife, said: "It is the boldness of this case that is its surprising feature. It appears that Dr. Dickson publicly declared that the nurse's child is his and many of his friends saw it. Then, too, the keeping of the baby at the home of his father, Professor James Dickson, at Clinton, was another thing which raises in extent, which he calls the Mammoth Cave of California, and steps are being taken to make a thorough exploration of its vast subterranean recesses.

ADMITS CHILD IS HIS. Attorney Stephen G. Porter, who represents the wife, said: "It is the boldness of this case that is its surprising feature. It appears that Dr. Dickson publicly declared that the nurse's child is his and many of his friends saw it. Then, too, the keeping of the baby at the home of his father, Professor James Dickson, at Clinton, was another thing which raises in extent, which he calls the Mammoth Cave of California, and steps are being taken to make a thorough exploration of its vast subterranean recesses.

A party of thirteen persons from Klamath Falls has recently returned from a four days' trip in the lava beds and reports a most interesting outing. This party made camp at the Bear's Paw cave, in the midst of the lava, and from that point explorations were made on horseback to various points of interest in the surrounding region.

Several new caves were discovered by the party, one of which was about two hundred feet in length, fifty in width and with a level ceiling forty feet above the floor.

The most important discovery made by the party, however, was of a two story cave, which is indeed one of the world's marvels. A hole was found ten feet in width in the bottom of a large cave. A lantern was hung on a rope until it was evident that there was another floor with a curving cavity twenty-five or thirty feet below.

A small pine tree was cut, divested of its limbs and brought into the cave. This was lowered until it touched the lower floor, and by it the party ascended to a great corridor, thirty or forty feet wide, extending apparently parallel with the corridor above in both directions from the point of descent. The corridor is not less than five hundred feet in extent, and is constructed at the ends by loose material fallen from above. No thermometer was at hand to determine the temperature, but it is cool enough to contrast greatly with the temperature above ground, and let's five or six feet in length depend from the ceiling in many places.

A GOOD REASON. "How was he acquitted?" "Insanely." "He doesn't seem crazy." "He isn't. It was the jury that was off."

FREDERICTON, N. B., July 19.—The death occurred this afternoon from convulsions of the wife of Irving Smith, assistant station master here of the Intercolonial. She was 23 years of age, and a daughter of John Kennedy,

# Is Your Name On the List?

If not, it should be. Prizes and tours will be given away to ambitious and energetic candidates who secure subscriptions to **THE SUN** and **THE STAR** during the next six weeks

## A GREAT PRIZE VOTING CONTEST Has Been Inaugurated by **THE SUN and THE STAR**

The great gift enterprise is just starting. The List of candidates is far from complete. Only a few active candidates are at work.

### YOU SHOULD ENTER TODAY!

Cut out a nomination or information blank from the bottom of this page. Bring or send it to the Sun Office, and you will be told how you can easily win a valuable prize.

### Don't Neglect the Opportunity

Among the prizes are European tours, trips to Boston and New York, a \$1500 Russell Touring Car, \$750 Gerhard-Heintzman Player Piano, a \$400 Heintzman Upright Piano, a \$350 Chestnut Motor Canoe, Diamond Rings, Gold Watches, Ladies' Desks, Bicycles, etc.

### We Will Call

If you are thinking of entering the Contest, or if you desire any information, kindly write, phone, or call. A representative will call and give you the desired information.

Telephone Main No. 25

Open Evenings Until 8 O'clock

Help Decide the Winner

Enter your name or pay a subscription and help some candidate to win

### SEND IN THIS NOMINATION BLANK

#### Information Blank

Contest Manager.

THE SUN & ST. JOHN STAR,  
St. John, N. B.

Please send me detailed information concerning The Sun & Star's Great Prize Contest, and method to be pursued to win one of the many valuable prizes.

GORDON GRANT WITH THE N.T.R. FROM START

Appointment as Chief Popular IN PRIME OF LIFE Order Compelling Railways to Fence in Pro-perties

OTTAWA, July 19.—Gordon Grant, the newly appointed chief engineer of National Transcontinental railway, in succession to Mr. Lumsden, has been on the staff of the commission since the railway was begun...

The new engineer, who is now just in the prime of life, will be able to give much more attention to the personal inspection of the actual work of construction than did the retiring engineer...

Mr. Grant has filled many important posts in railway engineering and is very highly spoken of by all who are conversant with his work...

BISHOP RICHARDSON DEDICATES A CHURCH

Bishop Richardson was in the city yesterday on his way home to Fredericton. His lordship spent a busy Sunday, holding services at Mace's Bay, Musquash, and Prince of Wales...

The Prince of Wales, the Bishop dedicated a new church which has been under construction for the past two years.

The church building is a pretty little structure in a fine situation. Rev. J. R. Martin is in charge of the parish of which it is the centre.

"I don't keep for the dress suit," declared the statesman. "Afraid your constituents wouldn't like it."

"No, in isn't that. But dress suits ain't got no buttons to thrust your right hand into."

"Do you take this woman for better or worse?" "I do, Judge, I do. But I hope we kin kinder strike an average."

"I am a Socialist," said the man with a heavy voice. "I believe in a universal ownership in which a man's needs and his ability to use shall take precedence over one's preconceived notions of arbitrary proprietorship."

"That system is now being tried," answered Miss Cheyne, "with most unsatisfactory results."

"In what way?" "With umbrellas."

DR. CHASE'S OINTMENT. The Chase's Ointment is a certain cure for all kinds of skin diseases...

FIND OPEN DOORS TO ADMIT CHINESE Aliens Enter the Country on Tramp Steamships.

System of Checking Lat—Many Arrive as Members of Crews and Remain While Others Take Their Places.

SAN FRANCISCO, Cal., July 20.—The recent investigation by special agents from Washington into the enforcement of the act that while the gate on the main travelled ocean highway is a side entrance wide open and practically unwatched through which undesirable Celestials may be smuggled in by dozens.

How many have come in through this unguarded portal only the unweaned immigrants themselves know. The fact, however, that Chinese will pay as much as \$200 each for the rather uncertain chance of being smuggled ashore from a Pacific Mail liner leads the officials to believe that many have taken advantage of the opportunities to land open to Chinese members of the crews of the steamers operated by the Standard Oil Company.

When a standard oil ship arrives the vessel is boarded by an official of the Chinese Bureau, who lists the Asiatics in the crew, taking a brief description of each man. This description is purely perfunctory and, except for the name, is almost meaningless.

Between the time of the first list when the ship comes in and checking it up before the vessel is granted clearance, the Immigration Bureau pays no attention to the ship, and the going and coming of the Chinese is left to the discretion of the ship's officers.

As in the case on the big passenger liners, the ship's officers are personally acquainted with only a few of the members of the Chinese crew. All other crew members are given to a No. 1 man of whom there are two in the deck department and two in the foremast.

If this should happen in a dozen cases on the same ship all the No. 1 men would be in the funds; twice Chinese who could not have entered the United States by the regular route are happily located in the land of the free, and a dozen Celestials who have made their respective piles are assured of a free passage home.

To the average Immigration Bureau watchman all Chinese look alike, and when the men from Chinatown answer to the names of the men from China, the watchman doing the checking marks the list O. K. and the transaction is complete.

With the present force of fourteen watchmen by local officials are powerless to maintain the more effective supervision over the Standard Oil ships and foreign tramps carrying Chinese crews.

Trouble has arisen between the Railway Mail department and the Central Railway over the alleged breach of contract on the part of the famous road. Superintendent Gross is not disposed to accept excuses from the Central, and has said that he will insist upon the imposition of the fine payable collectable by law.

Failure to connect at Norton with the C. P. R. express is the charge laid against the little railway. On two occasions recently the C. P. R. pulled up at Norton only to find that there was no mail to be taken in owing to the non-arrival of the Central train.

The C. P. R. people were not slow to complain of this, as they had strongly resented the advice that they must make steps at Norton and Salisbury. These were given at the time of the change in the schedule to summer time arrangements, and the railway mail service insisted that the halts be made.

This forming of the C. P. R. is also the cause of a part of the present grievances on the part of latter, as it affords the C. P. R. a chance to talk back. Another cause lies in the fact that the mail collected between Chipman and Norton is held back a day. It has all to be sorted in the post office here.

"My daughter's piano lessons have been a big expense to me." "That so. Did some neighbor see you?"

TURKISH NAVY REORGANIZED BY BRITISH OFFICERS

In no department of Turkish public administration have greater strides been made in reorganization since the revolution of last July than in the navy. In this respect great credit is due to Admiral Sir Douglas Gemine, who has been sent by the British Navy for the purpose of reorganizing, and to the officers under him.

The following are the names and ranks of the British instructors, with the admiral, all of whom possess high-class certificates as experts in their various branches of the naval service: Lieutenant Tottenham, gunnery; Lieutenant Gwynne, topography; Lieutenant Fraught, navigation; and Engineer-Lieutenant Crosbie, machinery.

Each has been given honorary rank, and wears the uniform of Kalkamak (Commander) in the Turkish navy and attached to each of them is a young English-speaking naval officer as assistant.

The first-fruit of the British Admiralty's work is to be seen in the departure of the fleet for a most evolutionary and exercises cruise in the sea of Marmora, preparatory to a more extensive cruise in the Aegean Sea, during the last fortnight the ironclads and cruisers, as they were prepared for sea, made their steam trials, and were attached to each of them is a young English-speaking naval officer as assistant.

Between the time of the first list when the ship comes in and checking it up before the vessel is granted clearance, the Immigration Bureau pays no attention to the ship, and the going and coming of the Chinese is left to the discretion of the ship's officers.

COMMITTEE NAMED TO DECIDE ON SITE

Tuberculosis Commission in Session Committee Also Appointed to Decide on Best Way to Combat Disease

The tuberculosis commission met last evening in the rooms of the Medical Association. All members were present, Dr. McIntosh of St. John being in the chair. The other commissioners were Dr. Boisford of Moncton, Dr. Robertson of Keswick Ridge, Dr. Bourque of Richibucto, Dr. Rankin of Woodstock, Dr. McAvenny and Dr. Inches of St. John.

The commissioners discussed the question of a suitable site for a sanatorium. No choice of a site was made, however, but a committee was appointed to thoroughly investigate the merits of the various sites which have been suggested from time to time and to report.

Committees were also appointed to decide upon plans for combatting tuberculosis and also for the prevention of the disease. These committees were to report at the next meeting of the commission.

During the week ending July 17th there was raffled from the Douglas boom 2,104 tons of logs, totalling 65,235 pieces. From Mitchell boom during the same period there came down just one more joint than from the Douglas. The pieces numbered 8,171. There were 348 hands employed at the booms during the week.

Murray & Gregory received 1,338 pieces, Randolph & Baker 431, A. Cushing & Co. 567, Stetson, Cutler & Co. 578, Hilyard Bros. 130, Charles Miller 38 and John E. Moore 107.

Tug Captains arrived yesterday with 273 tons and the Sea King and Admiral are now on the way down from Fredericton with large rafts.

The boom and towing crews are doing some of the greatest hustling ever seen upon the river, and the towboat people are now become a little apprehensive of accidents upon the river, so heavy is the amount of hauling being done.

Not as High In the Telegraph scores were not as high, 27's getting into the prize list. None of the Canadians put on a possible, and those to get into the prize list were Corp. McInnes, who was 22nd, and won 43 7/8, Lieut. Smith, who was 21st.

What are you so downcast over? Worrying about business? "Oh, no, my dear friend, I'm not." "Yet you seem troubled." "Well, I'm reading, continued stories in six magazines. Keeps me busy carrying 'em all in my mind."

PLANTING TREES ON THE PRAIRIE Two Million Per Year are Being Set Out—Superintendent Will Inspect Work Done by Ranchers so Far.

TORONTO, July 20.—Mr. R. H. Campbell, Dominion Superintendent of Forestry, Ottawa, passed through Toronto yesterday on his way to western Canada, where he will spend the remainder of the summer inspecting the work of tree planting on the prairies, and also the work of those in charge of the forest reserves. At present about thirteen million trees have been sent out to the prairies by ranchers, under arrangements with the forestry branch of the Department of the Interior. The trees being supplied from the government nursery at Indian Head. About two million trees per year are being set out under this arrangement, and the aspect of many districts is being rapidly changed for the better thereby.

While in Toronto Mr. Campbell called on Mr. James Lawlor, secretary of the Canadian Forestry Association, and talked over the details of the special meeting which the association is holding at Regina on Sept. 3 and 4. When Western Forestry matters will be discussed by experts. His meeting promises to be of a most important character.

"Our Emancipated Women's League is going to have a lecture on the 'Social Equality of the Sex.' Now be sure and come, won't you?" "I'll certainly shall, and I'll bring Mrs. Brown with me." "Not for worlds! You know she isn't in our set!"

The sale of DEWAR'S "Special Liqueur" increases yearly!

ANOTHER PRIZE FOR CANADIANS

BISLEY, July 19.—Competitors are still protesting against the use of the Ross rifle, and the committee summoned the MacKinnon and Kolapore cup teams to appear before them this afternoon. The sportsmanlike kick of the Transvaal team was not entered into by the committee. The team insisted on the removal of the hood from the foresight of the rifle, but claim that it should not be removed. The committee's decision is that the hood is simply a protection to the foresight and not a part of the foresight. In the Stock Exchange competition the following Canadians won £2 each: McInnis, in eleventh place; Richardson, in thirteenth place; Forest, in twenty-third place; Lieut. Smith, in forty-third place, and Lieut. Mortimer, in seventy-sixth place won £1. In the Daily Graphic Lieut. Smith is tied with 25 others for first place, with a possible, while the other Canadians in the prize list are Col. Sgt. Freeman of Hamilton, who is 24th, winning £2; Maj. Brown of Toronto, 21st; Sgt. Huggins of Hamilton, 68th; Corp. McInnes of Edmonton, 77th; Lieut. Morris of Bowmanville, 82nd; Sgt. Russell of Ottawa, 29th, each winning £2, while Sgt. Mitchell of Victoria, and he has to shoot off for first place with 69 others, who did equally well. Capt. Forest of Vancouver was 81st, and Sgt. Mitchell of Hamilton, 103rd, each winning £2. In both these matches not only were 21's counted out, but every man who made his inner after the second shot was numbered among the unfortunate.

ELLA GINGLES WAS CLEARED OF CHARGE

CHICAGO, July 19.—Ella Gingles was cleared tonight of the charge of stealing lace from Miss Agnes Barrette, her former employer, but the story she told on the witness stand to the effect that an attempt was made to force her into white slavery was denounced as untrue by the jury that freed her.

"Marks is having a hard time coming to his feet." "I didn't know she was dead." "She isn't."

In All Modern Treatments for Regaining Health FOOD Plays the Most Important Part Improper food is usually the main cause of various aches and ailments and proper food is needed to correct them.

Grape-Nuts

It is not only a great help for correcting trouble, but for avoiding it. It is predigested pure food and contains the elements Nature demands for rebuilding the gray filling in Brain and Nerve Centres.

THE SAM SLICK LIKELY TO REMAIN FOR A TIME Mortgages and Claims of Various Sorts Prevent Schooner From Sailing—Question of Ownership.

Who owns the topmast schooner Sam Slick? Above is a question which would take some of the high authorities of the admiralty court to decide. At present the vessel is lying at Rankine's wharf, and seems likely to remain there indefinitely. Tied up by a mortgage, claims of lien for blockage and for workmen's material and labor as well as by the refusal of the insurance company to advance the amount of her policy, the schooner is a waif to which no person seems to be able to lay a valid claim.

The Sam Slick was towed into port some time ago from Quaco, where she had gone ashore and had sustained considerable damage. Her cargo of scantling lumber was discharged to his consignee, C. M. Kerrison, and the vessel was placed upon J. S. Gregory's blocks for repairs. These were undertaken by Charles Patterson, a local ship carpenter.

ASEPTO Both Cleans and Sterilizes A better cleanser than soap—harms skin and fabrics and hands.

Soap Powder is a scrubbing agent, and is not a sterilizer. It is not a cleanser. ASEPTO is a sterilizer, and cleanses every disease germ. ASEPTO is a cleanser, and cleanses every disease germ. ASEPTO is a sterilizer, and cleanses every disease germ.

Manufactured by The Asepto Mfg. Co. St. John, N.B.

J. FRASER GREGORY  
THE ONLY WITNESS

River Commission Resumed  
This Morning

Hear Evidence Regarding Driving Conditions on the River—The Jam at Grand Falls.

J. Fraser Gregory, president of the St. John Log Driving Co., was the only witness at this morning's session of the St. John River Commission. The commission resumed its session here at 11.30 with all the members and their counsel present.

After straightening out some trouble that had arisen owing to exhibition not being properly marked for identification, Mr. Gregory was called to the stand and under examination by Hon. W. P. Jones continued his evidence which he had commenced at a previous session at Van Buren.

He had a general knowledge of the river since 1867 and had never known any logs except cedar to be sorted above Grand Falls until the sorting works were established at Van Buren. He described the driving conditions between Grand Falls and Fredericton, saying that it was worse than above the falls owing to the difficulties in the gorge below the falls, the jagged rocks, the Presque Isle bar and other obstructions.

On June 1st he was at Van Buren and saw the jam at Grand Falls, which contained from 15 to 20 millions of logs. They had the appearance of having been there while the water fell 15 feet. No work was being done there. There was ten millions in the sorting booms at the same time.

On the 17th of June he travelled down the river and found that the river was in better condition for driving than he had ever seen it before. The quantity of logs coming over the Grand Falls for past three years was as follows: 113 millions in 1907, 84 millions in 1908 and 87 millions (estimated) in 1909.

After some delay the commission adjourned to meet at eleven o'clock came to order at 11.30. Hon. W. P. Jones, chairman for the Canadian Commission, submitted as evidence the charter of The Madawaska Log Driving Company, with its subsequent amendments.

The commission spent some further time in identifying documents which had previously been put in evidence. J. Fraser Gregory was then called to resume his evidence regarding the quantity of logs having been large up to 1907. He was asked to state what he knew of the custom of bringing logs down the St. John river to the St. John mills. His answer to the question was that he had not seen this first connection with the business in 1881.

As president of the St. John Log Driving Co., the witness was driving with the chief difficulties of traveling from Grand Falls to Fredericton which he enumerated, saying also that the whole distance of the river was cluttered with islands and bars which made driving difficult at low water.

Describing the difficulty at Munkiac Falls he said it was a frightfully jagged course with rocks showing up several miles. At high water the water was good driving, but a fall of a foot might make it very bad. The fall was enough to save the rocks uncovered. He said it was a frightfully jagged course with rocks showing up several miles. At high water the water was good driving, but a fall of a foot might make it very bad. The fall was enough to save the rocks uncovered.

He said it was a frightfully jagged course with rocks showing up several miles. At high water the water was good driving, but a fall of a foot might make it very bad. The fall was enough to save the rocks uncovered. He said it was a frightfully jagged course with rocks showing up several miles. At high water the water was good driving, but a fall of a foot might make it very bad. The fall was enough to save the rocks uncovered.

Discussing the difficulties at Grand Falls, the witness said that the pitch of the falls was not a great hindrance but often the logs got over the falls there was a gorge about a mile long lined with jagged rocks and filled with whirlpools. The logs jammed here very rapidly and it was necessary to keep a force of men and horses there with ropes suspended from each side of the banks to assist in twitching the logs out of the jam. They did not use dynamite to break up the jams. The number of logs broken in this passage increased very rapidly as the water fell. They could not get past at all at extreme low water. The average width of the gorge would be about 400 feet. It is about three-quarters of a mile from the pitch of the falls to the lower basin. The river at Fredericton is about three-quarters of a mile, at Woodstock about half a mile, at Anson about 350 feet, at Van Buren at low water, at Port Kent 350 feet at low water. In the opinion of the witness the difficulties below the Grand Falls were much greater than those above. A new start for driving purposes was made at the falls and conditions above and below might be quite different.

On the upper reaches of the river the driving ceased early in the year and did not return during the summer, but from St. Francis river to the falls a rise in the water might occur during the summer that would improve the driving.

At Grand Falls the water was usually about May 24th up higher than it might be at the first of May. At St. John the highest water might occur from the first of May to the first of June, according to the way the snow melted.

MOORS PUT UP A  
DESPERATE FIGHT

Repeatedly Attacked the Spanish Position

Heavy Losses on Both Sides in Series of Violent Assaults on Saturday and Sunday.

MELILLA, Morocco, July 20.—The attack by Moorish tribesmen made on the Spanish forces here last Saturday afternoon was executed under cover of a feint on the front against the Spanish flank. The first charge was repulsed but in the evening a more violent assault was made for the purpose of capturing the Spanish battery. The Moors displayed great courage and skillful tactics during the engagement. They rushed in small squads and many of the men succeeded in breaking through the barbed wire entrenchments where they fell at the point of the bayonet. The fighting was so hot that it was 3 o'clock on Sunday morning when the Moors finally retired. The Moors numbered 6,000 while the Spaniards and French force was composed of 5,000 men. General Marina, commander of the Spanish force in Morocco, was in the thick of the struggle encouraging his men who fought heroically. Capt. Guler, and Major Ruya were both killed while defending a battery. The Moors bore off several bodies with the intention of burning them but the Spaniards made a sortie and re-captured the bodies.

THEY WERE INVESTIGATING  
PETROSINO'S MURDER

ROME, July 20.—J. R. Crowley, A. B. Simon and A. F. Vacheri, three American detectives left here today on their way back to the United States after making investigation of the murder of Lieut. Joe Petrosino, the Chief of the Italian Bureau of the N. Y. Detective force, who was assassinated at Palermo, Sicily, last March. The detectives were assisted by the Italian police and it is understood an important report on the case will be made when they reach New York.

MRS. ENOCH McLEAN

The death occurred at Cumberland Bay, Queens Co., July 11th of heart failure of Margaret, beloved wife of Deacon Enoch McLean, aged 78 years, leaving a husband and six children, four sons and two daughters, to mourn the loss of a faithful wife and loving mother. She professed faith in Christ and was baptized by Rev. Sydney Welton and united with the Second Grand Lake church in 1875. She remained a faithful member until death. Her end was peace.

THE MEN OF LINENBURG  
ARE GREAT FISHERMEN

It is recognized that the fishermen of Gloucester have long monopolized fiction and poetry as being the real catchers of cod, and the most picturesque of those who make their living on the Grand Banks.

If you ask a Gloucester man, who is a resident of Nova Scotia, who are the real bankers, he will tell you "the men of Lunenburg." Lunenburg is the rival of Gloucester in the hunt for cod, and a pretty husky rival, too, for fishermen from that seaport on the south shore of Nova Scotia are the backbone of that industry that is valued well over \$1,000,000 a year.

The Lunenburg fishermen spend about half the year at home, but they do not use the time sitting around their houses spinning yarns. They are busy with lobster catching or in the woods. When March comes around they begin to make ready for the sea. The schooners are put in order and stocked with provisions. On the Sunday nearest March 1st the churches hold special services, and prayers go up for the safe and prosperous voyages. They are devout, these Gloucester fishermen, but they keep an eye on the profits, too.

The fishing schooners are small, rarely reaching 100 tons. The low rig carry a certified master, and the Lunenburg man can't see the use of passing examinations in navigation. With a compass and a dipsey lead the master of a banker can find his way in any weather.

The start from Lunenburg is like the start of a yacht race. Most of the bankers go out on the same day, and there is good-natured rivalry among the skippers as to who shall first anchor on the fishing grounds. When a skipper makes a berth in a likely place real work begins. The boats are anchored at each end and are sent out in the way of fishing lines. The main line is from one to one and a half miles long, with a fringe of smaller lines which carry the hooks. The trawls are anchored at each end and are set like the spokes of a wheel whose hub is the schooner. The dories move out and down the trawls, taking off the fish and rebaiting the hooks. It sounds easy, but in a heavy sea it is ticklish business.

When a schooner has loaded full with fish, cut and salted down, she steels away from the wharves, leaving the fish and makes for Lunenburg. It is a lucky ship which enters port from the spring trip about the end of May, and unloads and sails back again on the summer trip which lasts until autumn.

BANISHED FOR TRYING TO KILL HIS PARENTS

Son Sentenced to Remain Away From City and Home for One Year.

BOG HARBOR CITY, N. J., July 20.—Arnold Lehner, 20 years old, was sentenced to remain away from this city, and particularly from his parents, for one year. Young Lehner was arrested, charged by his father with having attempted to kill his entire family last night with an axe.

The senior Lehner related to the court how his son, who had been living with him and his wife, had brought the other members of the family to his assistance, who were also attacked. The young man was finally overpowered and brought to this city and lodged in jail.

When the case was called before Justice Golder, the father declared he did not care to enter any charge against his boy and asked the court to have him lectured. The justice then warned the unique sentence, and with tears rolling down his cheeks the father gave his son a \$20 bill and bade him good-bye.

A constable accompanied the boy to the station and saw that he left as ordered.

THE DISTRICTS

The territory covered by the Sun and the Star has been divided into three districts for the purpose of this contest. The districts are as follows: District No. 1—All that portion of St. John city lying south of Union street. District No. 2—All that portion of St. John city north of Union street, including West Side and North End. District No. 3—All that territory in the province of New Brunswick outside of the City of St. John.

HOW TO SECURE VOTES IN THE CONTEST

In addition to the ballots published daily in The Sun and The Star, votes may be secured by turning in paid-in-advance subscriptions, which will entitle a candidate to votes according to the following schedule:

Table with columns for subscription amounts and corresponding votes. Includes items like Six months, One year, etc.

THE STAR

Table with columns for subscription amounts and corresponding votes. Includes items like Six months, One year, etc.

THE WEEKLY NEWS

Table with columns for subscription amounts and corresponding votes. Includes items like One year, Two years, etc.

CHINESE COMPANY NOT  
SAFE FOR TORONTO GIRLS

Three Young Women Get Six Months for Frequenting Oriental Restaurant Late at Night.

TORONTO, July 19.—Three young well dressed and prepossessing white girls were arrested last night by the Toronto police. They were charged with frequenting a Chinese restaurant late at night.

The girls were identified as Misses Mary DeWolfe, Jessie McMillan and Marion Mahon and were taken to the police station. They were held for six months for frequenting a Chinese restaurant late at night.

The girls were identified as Misses Mary DeWolfe, Jessie McMillan and Marion Mahon and were taken to the police station. They were held for six months for frequenting a Chinese restaurant late at night.

GUNCLUB OF WOMEN  
AND THE PLAYGROUNDS

The St. John Local Council of Women, who established the first supervised playgrounds in St. John, and are sympathetic to the work of the women's Christian temperance union in general, are holding a meeting at the city hall tonight.

The meeting was called to order at 10.15 o'clock with the president, Dr. J. R. McIntyre, in the chair. He called upon Dr. J. S. Bentley to read the minutes of the last annual meeting at St. Stephen on July 21st, 1908. On motion they stood as recorded.

Dr. McIntyre then proceeded to address the meeting. He expressed his gratitude at being elected head of the profession. With the honor of office there came a number of duties and he had endeavored to work for the good of the society.

Subsequent to a disease which called forth vigorous efforts on the part of the public generally as well as the physicians. Personally the president had conferred with fellow members of the medical profession and discussed with them the general action to systematically attack his dreaded disease.

Dr. McIntyre referred to the steps that had been taken towards the organization of an anti-tuberculosis society. In addition to the provincial association of county auxiliary societies had been perfected. The New Brunswick organization would chiefly be devoted to the public through the distribution of literature.

At the conclusion of the helpful address a hearty vote of thanks was tendered Dr. McIntyre.

Dr. Fitzmaurice of Malina, was introduced to the meeting by the chairman and extended an invitation to participate in the discussion.

Mayor Bullock entered the chamber about this time and was called upon by the chairman. He said that he felt happy to have the members convene in this city. He voiced the sentiments of all in extending a most cordial welcome.

Mayor Bullock in conclusion congratulated the physicians on the earnest work which they practiced.

On behalf of the visitors Dr. C. T. Purdy spoke briefly. He returned an evere thanks to the mayor, and moved a vote of thanks, which was unanimously carried.

Dr. George G. Melvin, treasurer, submitted the report of the finances. There is a balance on hand of \$138.07. On motion the report was received, and Dr. Robertson, Purdy and Warwick were appointed a committee to audit the accounts.

The meeting heard two interesting papers. Dr. A. B. Atherton, of Fredericton, spoke of two cases of appendicitis, causing complicating pregnancy. Public Health was the title of an interesting paper by Dr. S. Skinner.

The session will be continued this afternoon and evening, and on Wednesday a smoker will be held tonight in the Elk's room.

TWO KILLED AND TWO  
INJURED IN COLLISION  
WHICH SANK STEAMER

NEW YORK, July 20.—The small freight steamer Martha Stevens, bound by the inside route to Trenton, N. J., was run into and sank by an tug harbor today. Two men were killed and two badly injured in the accident. All the others on board, including two women, were rescued and taken aboard a ferry boat to St. George's, Staten Island.

BOILER BURST; ONE KILLED

COLOGNE, July 20.—The boiler of the tourist steamer Gutenberg blew up yesterday near Rotterdam, a resort on the Rhine. One stoker was killed and five men were injured but several passengers were not injured but none of them, so far as known, seriously.

Attorney Hand Conner, Seaside Park tonight, weather permitting.

DOCTORS HERE IN  
ANNUAL SESSION

26th Convention of the N. B. Medical Society.

Addresses of Welcome This Morning—Interesting Papers Heard—Sessions Continue.

The twenty-ninth annual meeting of the New Brunswick Medical Society opened in the council chambers of the court house this morning.

His worship Mayor Bullock in a few happy remarks extended a welcome to the visiting delegates. An excellent address was delivered by Dr. J. R. McIntyre, president of the council.

Thirty-five delegates from various sections of the province attended the meeting. Personally the president had conferred with fellow members of the medical profession and discussed with them the general action to systematically attack his dreaded disease.

Dr. McIntyre referred to the steps that had been taken towards the organization of an anti-tuberculosis society. In addition to the provincial association of county auxiliary societies had been perfected. The New Brunswick organization would chiefly be devoted to the public through the distribution of literature.

At the conclusion of the helpful address a hearty vote of thanks was tendered Dr. McIntyre.

Dr. Fitzmaurice of Malina, was introduced to the meeting by the chairman and extended an invitation to participate in the discussion.

### LOCAL NEWS

The man Drouin of Quebec, recently brutally assaulted by his son, is believed to be fatally injured.

Mr. C. S. Stanley Dales has been appointed to the presidency of the Baptist Y. P. U. in Toronto to fill the vacancy caused by the removal to St. John of Mr. W. H. Moore.

A special showing of men's and young men's suits for \$4.98, \$5.48 and \$5.48, at C. B. Fidgeon's popular North End Clothing Store. Why pay \$2 to \$3 more at other stores because higher expenses demand greater profits.

The funeral of the late Fred D. Paterson was held this afternoon at 2:30 from his residence, 13 Horsfield street, Rev. S. W. Anthony conducted the services and interment was made in Fernhill cemetery.

A special showing of men's and young men's suits for \$4.98, \$5.48 and \$5.48, at C. B. Fidgeon's popular North End Clothing Store. Why pay \$2 to \$3 more at other stores because higher expenses demand greater profits.

Mrs. Coy of St. Paul street, and Mrs. May Campbell, of Brussels street, in court this morning told of calling each other some pretty hard names. Magistrate Ritchie refused to waste much time on them and chased them both out of court.

Dr. Samson, lecturer in chief under the Canadian Government Amalgamates Act, will deliver his Massey Hall address in the hall of the new Y. M. C. A. building tomorrow evening at 7 o'clock. His Worship Mayor Bullock will be in the chair. There will be special music by competent artists. Dr. Samson is a cool and powerful speaker, perhaps the most effective platform speaker in Canada, and though he has to handle some statistics in explaining the Act, his lecture is highly entertaining and instructive throughout. After finishing his tour of the Maritime Provinces, he goes immediately to the Pacific Coast, speaking in all the important cities on the way, informing the public of the importance of this new scheme to the people.

### COUNCIL WILL MEET THIS AFTERNOON

To Settle on Sites for Monuments—Will Also Frame Answer to Mr. Durant's Proposition.

The choice of sites for the Champlain and Tilley monuments will be submitted to a special meeting of the Common Council at three o'clock this afternoon. It is expected that the aldermen will ratify the selection of the Queen Square and King Square respectively for the two memorials.

### TO MAKE ST. JOHN C.P.R.'S ONLY ATLANTIC TERMINUS

Lefty Amblin Expressed in Proposed Agreement to Transfer Harbor Lots—Not Likely to be Adopted.

The Harbor Board meets at 9:30 to receive a draft of the agreement regarding the transfer of the West St. John harbor lots to the Government, which has been prepared by the Receiver.

### INTERFERED WITH POLICE; WAS FINED \$16

Henry Tufts Wanted to Take His Chum to the Vessel But Was a Little Too Eager.

In the police court this morning one Henry Tufts was fined \$16 for being drunk and profane. A chum of Tufts named Henry Tufts, did not wish to let his company and refused to let him go when being arrested, so he was also locked up, charged with interfering with the police. Tufts had G. H. V. Belyea in court this morning. He testified that he held on to Tufts because he did not want the police to take him.

### MONTEAL IS NEARING THE HALF MILLION MARK

MONTEAL, July 20.—The new city census shows a population for the city and suburbs of 473,324. The suburbs are put down at 86,466, which makes the city proportion 388,858, an increase of 146,817.

### PERSONAL

Miss Mary Higgins left last evening for Boston, where she will visit Mrs. Frank McLaughlin, of Jamaica Plain.

### PROBATE COURT

Estate of Peter A. Peterson, cabinet maker. Return of citation to pass the accounts of Francis L. Peterson and Arthur B. Peterson the executors. The accounts are to be correct and passed.

Elg Norwegian Who Went Insane Was Released From Jail Today.

Killer Kristiansen, alias Krist Johnson, the big six-foot-three Norwegian who went insane while in jail, was taken into the police court this morning and allowed to go. He was told to get out of the city. The big fellow still looked wild this morning, but the jail physician claims that he is all right. There was, however, no official who cared to have the fellow about the city and he was released. Johnson was given his liberty, which was a quick way to get rid of him. He was arrested on July 1st on the charge of attempting to assault Philip McGuire in the latter's saloon on Mill street, and while in jail became violent. With a table knife he tried to kill Dennis Sullivan, a drunk, who was doing time for stabbing Policeman Perry.
