NUMBER 2

Lawrencetown

Oct. 14th—Dr. Fred Walker, Mrs. Walker and sister, who have been occupying Mr. Arthur Balcom's bungalow for the summer months, have returned to their home in Florida.

Mrs. Winnie Shaffner is spending a week in Bridgetown, and is attending the Chautauqua.

October 8th was Donation Day at the Middleton Hospital and a large number of the ladies of the Women's Institute called at the institution and left donations.

Mrs. Whitman has returned to her home in Halifax, after spending several weeks at her son's home, Mr. Victor Whitman.

The evaporator has reopened for the winter months. It is reported the apples are plentiful and a full crew is employed.

Mr. William Hall made a business trip to Halifax last week.

Mrs. William MacPherson of Annapolis was a recent visitor in town.

Mrs. Stanley Hall and Miss Margaret spent a few days in Bridgetown last week.

Mr. Lindsay Graves, of Acadia College, spent the week-end with his parents, Mr. and Mrs. Owen Graves.

Mrs. F. G. Palfrey and Miss Lillian are visiting friends in Digby.

The sympathy of the many friends of Mr. Kenneth Whitman goes out to him in his loss. Mrs. Whitman's death was very unexpected and took place at the Middleton Hospital last Friday morning. The funeral was held at her home on last Sunday afternoon and was very largely attended.

Miss Jean Shaffner, who is studying her "A" work at Bridgetown, spent the week-end at her home here.

Mrs. E. H. Freeman has returned from Windsor, where she has spent several weeks the guest of her son Mr. Edward Freeman.

Aged And Highly Respected Citizen Passes Away

The death occurred on last Sunday afternoon, October 13th, of Mr. George E. Cox, at the home of his son Frank at the ripe old age of 89 years. The deceased was born at Habitant, in the County of King's, and was the eldest and sole survivor of a family of eleven children, whose parents were Edward M. and Mary Pisco Cox.

Mr. Cox lived at Hortonville and Avonport until fourteen years ago, when he removed to Middleton. He was a Baptist in religion, having been a deacon of the former "Free Baptists." He was a man of intellectual tastes, widely read, with considerable musical ability, and a character of staunch integrity. He held the office of Justice of the Peace for many years in his native county and was also a member of the old Court of Sessions. He was known as a "Joe Howe Liberal" in earlier days and followed Mr. Howe into the Liberal-Conservative Party.

He leaves a family of six children, one son predeceasing him a year ago. The others are Frank, Fred, Florence, and Effie of Middleton; Dora, of Tacoma, Washington; and Ashley, of Avonport.

Interment took place at 3:30 Tuesday afternoon at Pine Grove Cemetery.

MORE WELCOME IN DAYLIGHT

An old Southern planter was discussing the heretofore with his servant. The first one that goes Sam must come back and tell the other what it is like over there.

"Yes, massa, dat suits me exactly, massa; but if you go fust, would you please come back in the daylight!"

Dalhousie Notes

Dalhousie, Oct. 11—Mr. and Mrs. Frank Kirkpatrick and little son, Boston, have returned to their home in Boston.

Donation Day A Success

Middleton N. S. October 19-24

Hospital Donation and visiting day Oct. 8th, was crowned with success. About 150 visitors, principally ladies showed their interest by their attendance.

Many lovely things were donated in the line of bedding and other linens, dishes, and quantities of canned fruit and vegetables besides \$30.00 (or thereabouts) in cash. Butter, eggs and cream also came in a large quantity along with other farm products. Much has been promised of the latter, when the crops are gathered. A complete list has been compiled, which thru the kindness of Mr. Black, will be published sectionally, each week, for a few weeks.

Owing to serious cases at the Hospital that day, no one was permitted to enter, but hospitality was dispensed in Mrs. Banks apartment adjoining the Hospital proper. A dainty tea table in charge of Mrs. Wheelock and several other ladies provided "The cup that cheers" to everyone who came. Mrs. Freeman and Mrs. Turner received the guests, while all donations were immediately taken care of by the committee in charge. What has already been given, will insure comfort for patients and nurses in all departments of the Hospital for several months to come. The members of the Women's Institute are very grateful for the kindly and ready response to the call.

Mill Burned At New Albany

BUILDING AND MACHINERY VALUED AT \$8,000 DESTROYED

Last Friday morning L. R. Venn's mill at New Albany was completely destroyed by fire. A small blaze was discovered, which it was thought would be quickly extinguished. This however spread very rapidly, so that with the limited means for fighting fire available, the whole structure was soon in flames, and was entirely consumed.

The whole mill, including drying room together with machinery, and a large quantity of stock ready for shipment is a total loss. The property valued at \$8,000 was one of the several mills in this vicinity in which the Coopers Company of Canada is interested, and was completed only a year ago. It was equipped with modern up to date machinery for sawing nail keg staves. There was no insurance carried.

MEMORIAL CROSS ERECTED AT MORDEN

The old familiar wooden cross that has for many years marked the place where the fleeing Acadians erected a cross in memory of the first death in that ill-fated band, now gives way to a more befitting memorial of a beautiful stone cross, mounted on a concrete base, marks that historic site. A polished slab has been set in under the arm projections, bearing the inscription, French Cross 1755 "This slab was donated by the Middleton Granite and Marble Co., of Middleton. The monument is an achievement and well merited praise is due the two ladies who undertook this work Miss M. Chase of Kentville and Mrs. James Dodge of Aylesford, who worked assiduously in collecting the Building fund. The formal unveiling will take place some time next summer.

Constipated Children

Constipation is one of the most common ailments of childhood and the child suffering from it positively cannot thrive. To keep the little one well the bowels must be kept regular and the stomach sweet. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative; are pleasant to take and can be given to the newborn and the perfect safety. Thousands of mothers use no other medicine for their little ones but Baby's Own Tablets. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville Ont.

Sacred Concert At Kingston

The Sacred Concert given in the Methodist Church by the choir last Sunday evening drew a crowded house. The selections were well picked for the occasion and splendidly rendered by the choir and Orchestra. Mr. Hartley who kindly assisted was at his best in Solo and Quartets. Mrs. Morehouse always a favorite was heard and enjoyed by all in Solo Duet and Quartets. Mr. Hilton, Mrs. Smith, Miss Myra Lightizer and Mr. Freeman Hatt also drew notices by their splendid Quartet singing. Miss Power was also heard to advantage in one of her popular readings most appropriate for the occasion.

In all the evening was a splendid success and much credit is due to Mr. Hilton for the very fine way in which he led his Orchestra gave their times and talent to make the Song Service attractive and pleasing.

On all sides were heard expressions of praise regarding the part played by the musicians.

Arrangements are being made to give another of its kind Sunday Nov. 2nd, Watch for its announcement.

British Admiral Pays Tribute To Nova Scotian Skill

There was an incident in connection with the recent visit of the Special Services Squadron of the British Fleet to Halifax that will interest those who believe that Nova Scotia produces the best.

The Admiral in charge of this world tour, Sir Frederick Field (Commander of the mighty Hood) had occasion to mention that in the course of the near future he would have to replace his present glasses. The remark was made to a gentleman who holds first position in the life of the Province.

As a result of the latter enthusiastic endorsement Sir Frederick Field arranged to have his eyes examined by and to obtain glasses from Mr. T. J. Wallace, optometrist of Halifax. His appreciation of these, accompanied by an autographed photograph, is given in his own words.

H. M. S. Hood Special Service Squadron At Halifax, N. S. 14th August 1924.

Dear Mr. Wallace, I am very grateful to you for the trouble you have taken personally to provide me with a pair of up-to-date and efficient glasses.

I would like to compliment you on the very fine workmanship and can assure you they will be a great comfort to me.

Yours faithfully
F. L. FIELD,
Vice-Admiral

Many a man who complains his wife can't take a joke forgets she took him for better and got the worst. Love is something that makes a man believe that the deahy girl he is engaged to will never get any fatter.

WITHOUT HALF TRYING
"Have you stalf on your new radio?"
Mrs. Newlywed: "Well, Harold has had Los Angeles and Cuba, and I'm sure he could get static if he wanted to."

OR MAYBE HARDER.
"Hit may be hard to a rich man to enter de Kingdom of heaven," said Rastus to the preacher, "but hit's just as hard to a po' man to stay on de earth."

ONLY ONCE
"Do people often die here?" asked a visitor to one of Devon's beauty spots. Only once, mum, said the old roadman, as he filled his pipe with the thickest twist the village store supplies.

SATISFACTION GUARANTEED
"Are you sure," asked the old woman, "that this century plant will bloom in a hundred years?"
"Positive, ma'am," answered the florist. If it doesn't, bring it right back."

ASK DAD, HE KNOWS.
Tommy: "Is that a lion or lioness, papa?"
Father: "Which one, dear?"
Tommy: "The one with its face scratched, and the hair off its head."
Father (with a sigh): "That must be the lion."

Mistress: "I told them seven o'clock for dinner, Mary, but I think we'll give them a quarter of an hour's grace."
Mary: "Well, mum, I'm as fond of religion as anyone, but I call that rather overdoin' it."

JUST WHAT SHE WANTED
"Dear Mother, writes a Kansas City girl who is teaching in Honolulu, 'I received your letter thanking me for the lovely fancy hairpin I sent you for your birthday."
"That's all right, mother dear. I'm awfully glad you like it and if it is becoming I hope you will continue to wear it in your hair. But, mother, I just must tell you that the little two-pronged ivory piece that I sent you really is intended for a lemon-fork."

The difference between landscape and landscape is small, but there is a great difference between beholders.

NEVER SURPRISED.
Some people never miss an opportunity for contradiction. Which fact recalls the story of the woman who was traveling through "Wild Wales."
"My, ain't them mountains high-exclaimed a fellow passenger.
The contradictory one looked out of the window to see the summits of the lofty hills, and sniffed:
"Only the tops of them is," she protested.

WHAT LUCK!
"Schulz always was lucky."
"Why do you say so?"
"He underwent an operation because he swallowed a pearl in an oyster, and the pearl proved to be valuable enough to cover the cost of the operation—and the funeral."

When the Beach street, New York city, police brought in Samuel Levy, 27, they believed they captured the world's champion badge collector. Sam had 58 of them, which announced simultaneously that he was a news reporter in Buffalo, a fireman in seven cities in three States, an ocean-going pilot, a musician and a deputy sheriff for a N. E. railroad.

The mind ought sometimes to be diverted that it may return the better to thinking.

Here and There
A rich strike of silver lead ore has been made on Helena Hill, Yukon Territory. One vein is eighteen feet in width and shows 70 per cent lead with 30 to 50 ounces of silver. Several big mining interests are reported as active in this area.

The manufacture of wooden boxes is an important industry in British Columbia. There are 25 box-making plants in the province, representing a capital of between \$3,000,000 and \$4,000,000, about 1,200 employees and an annual payroll of not less than \$1,250,000.

So popular has the bungalow camp system established by the Canadian Pacific Railway become that it will be necessary to extend it greatly. This statement was made recently by C. B. Foster, Passenger Traffic Manager, after a visit to the hotels and camps in the Rockies.

That the farmers of Western Canada are now giving increasing attention to the improvement of their home surroundings is shown by the fact that they have not only planted 6,250,000 trees distributed by two government forestry stations this year but have also purchased large quantities from private nurseries.

Summer fishing commenced on Lesser Slave Lake on July 28th and will close September 30th. Operators have been limited to a catch of 1,500,000 pounds of whitefish but no limit has been placed on pickerel and jack fish, as the market for these varieties is restricted. Four fish companies are operating this summer and will ship to Chicago via Dominion Express.

Imports of Canadian produce and manufacture into Australia received during the year ended June 30th, 1924, amounted in value to \$5,064,253, an expansion of \$1,899,808 over the previous year. It is the largest volume of trade yet recorded between Canada and Australia. The greatest increase was in motor chassis though a good volume of trade was also done in rubber goods, boots and shoes.

What is claimed to be a world's record for relaying rails was established by a crew of men on the Canadian Pacific Railway, in the New Brunswick district recently. In two days the 220 men in the gang tore up 29.7 miles of old 85-lb. rails and replaced them with new. All available data states that the former Canadian record was 11.7 miles, which exceeds that established in the United States.

The "Empress of Scotland," one of the Canadian Pacific Railway's finest liners, docked at Quebec on August 8th with a passenger list crowded with important names. Among them were Lord Beaverbrook, the Canadian financier, Edward W. Bok, editor of the Ladies' Home Journal, whose offer of a fifty thousand dollar prize for the best plan tending to maintain world peace created so much interest recently, and E. W. Beatty, K.C., Chairman and President, Canadian Pacific Railway. Mr. Beatty had just concluded a most successful tour of Europe with the object of attracting capital and immigrants to Canada. He spoke with great enthusiasm of the prospects of obtaining both and especially anticipated an influx of fine new Canadians from Denmark.

The Home Town Club of Plymouth, N. H., planned to mail 10,000 circulars with the Plymouth postmark, but intended to have the stamps put on in England, where machinery would do the work in two hours. Miss Florence Cliley, the Plymouth postmistress, derives her commission from the stamps sold, so she objected, and to still the rising waters the 10,000 pieces were sent to Plymouth. Miss Cliley mobilized 14 girls. Then it was found that Plymouth did not even boast a sponge and it became a question of applying the tongue to each of the 10,000 stamps. After 42 hours the circulars were stamped, but 14 young women had serious cases of indigestion.

GUNNERS OF THE INSECT WORLD

There are few animals better known than skunks.
In its wild state the skunk roams the whole of North America from Canada to Florida, and although it walks about in broad daylight is rarely molested. The reason is that, if annoyed, it can discharge from a special gland a spray, the odor of which is extremely obnoxious.
The writer speaks from experience when he says that there is nothing else to compare with it, and that a whiff of it will make any human being deadly sick. A sporting day, if "skunked," is a useless for days, losing all power of scenting game.

There is a small beetle known as the bombardier, which defends itself when attacked by discharging an acrid fluid. But this beetle's ammunition is not only offensive; it is also volatile, and actually explodes with a sharp little report when it meets the air. A bombardier can fire a dozen charges of this kind in succession.

There are other insects which have this peculiar habit, one a kind of antlion of which a specimen can be seen in the London Zoo. The spray is formic acid, and the range is about twelve inches.

Another insect gunner is the peripatus, which is something between a scorpion and a worm. It is about three inches long, and has legs and powerful jaws. Crawling up to its prey, it shoots out a pellet of intensely sticky stuff which renders its victim incapable of movement.

To mend fur which is torn or falling to pieces, apply adhesive tape to back of skin. This will hold the fur intact and greatly add to its life.

"Tired and Worried Nervous and Despondent"
Mrs. M. Chevalier, Belle River, Ont., writes:
"For eight years I suffered from despondency and nervousness. Sometimes I could not sleep at night for worrying and the next day I would be so tired that my work was a burden to me. I began using Dr. Chase's Nerve Food and can say I am now entirely relieved of the nervousness from which I used to suffer, and things do not worry me as they used to."
"Dr. Chase's Ointment also relieved me of eczema on my arms, which had bothered me for three years. My house is never without Dr. Chase's Medicines."

LINING THE CONNAUGHT TUNNEL

Upper left.—In spite of heavy snowfalls and below zero weather the work of lining the Connaught Tunnel is continued throughout the winter months. The close-wrapped heights of Mount Abbott and Bear Peak stand as western sentinels of the little town.
Upper right.—Glacier, B.C., showing Mount Macdonald, 9,423 feet, through which the five mile Connaught Tunnel passes. Eagle Peak, 9,352, is in the centre of the picture and Mount Sir Donald, one of the most beautiful peaks in the Canadian Rockies, with an altitude of 10,500 feet, is on the extreme right.
Lower left.—The resident engineer's bungalow nestled among giant evergreens on the banks of the Illecillewaet River, which has virtually been called into being through the lining of the Connaught Tunnel, hangs the great Illecillewaet Glacier on the slopes of Mount Macdonald and two miles nearer nestles Glacier House, the annual mecca of thousands of summer tourists.
Lower right.—Western Portal of the Connaught Tunnel, showing the fan house and the two huge 14 ft steel fans which ventilate the "big hole."

High up on the crest of the lofty Selkirk with half a dozen of the finest mountain peaks in the world hunching their snow-clad shoulders about its rows of trim brown houses, lies the picturesque town of Glacier on the main line of the Canadian Pacific Railway through British Columbia. Three and a half miles distant from this little construction centre, which has virtually been called into being through the lining of the Connaught Tunnel, hangs the great Illecillewaet Glacier on the slopes of Mount Macdonald and two miles nearer nestles Glacier House, the annual mecca of thousands of summer tourists.
Few of the surrounding peaks at Glacier are less than 9,000 feet in altitude. The famous Cheops, Mount Sir Donald, Ross, Eagle and Abbott Peaks encircle the little settlement. In winter time a blanket of snow enfolds town and mountains alike. In spring the brilliant yellow alpine lilies follow the ever-receding snow line as it climbs higher and higher up the mountain sides. Life is enlivened in the summer time by the crowds of guests who throng Glacier House and transforms the scene again with generous splashes of orange, crimson and russet.

Common interest in the great engineering project under way has brought about a very definite community spirit at Glacier. For almost every youngster's daddy works in the big tunnel in one or other of the various branches of work which the lining demands, and every household is regulated by a schedule of working hours which begin at 5 a.m. and end at 11.5. Half a hundred children attend the little brown school house and various clubs for the grown-ups provide interests of a recreational and cultural nature.

Engineers, foremen, carpenters, machinists, drillers, electricians, laborers and train crews make up the wage earners among the 500 residents of Glacier. Single men live in a well ordered camp. Here, as in the little homes where the men with families live, all the conveniences of a modern city are enjoyed including electric lights and running water piped from a nearby mountain stream.

The lining of this five mile tunnel, the longest on the American continent, with a steel reinforced concrete jacket represents one of the most interesting engineering projects now under way anywhere in the world.

Beneath 6,000 feet of mountain the Connaught Tunnel cuts under Mount Macdonald between the stations of Connaught and Glacier. With the opening of this underground short-cut in 1916 the Canadian Pacific Railway overcame the many difficulties which the old Rogers Pass route had presented. Track curvature to an amount corresponding to seven complete circles was eliminated; the summit attained by the Railway was reduced by 552 feet; the trackage was shortened by four and a half miles and more than four miles of snow sheds which had been necessary on the slopes of Mount Macdonald were dispensed with.

The lining of the "big hole" was begun in 1920 and when this work is completed the Connaught Tunnel will stand as one of the finest and most complete engineering jobs in the universe. Undertaken in the name of safety, the Connaught Tunnel has always been a "safety" proposition. Through its construction days, during the eight years it has been in operation and the four years that it has already taken to line it, it has been singularly free from accident.

Nearly 500,000 sacks of Canadian cement will have gone into the lining of the Connaught Tunnel when it is finished. Practically all the machinery used in the work is Canadian made, including huge compressors and powerful motors. The four types of reinforced steel collapsible forms, which are used in the various stages of the lining process, came from a western Canadian plant and the Sydney E. Jenkins Company, B.C. Limited, construction engineers are in charge of its lining.

The tunnel's concrete jacket is completed in sections 22 feet long, each section taking about four or five days to prepare, when it is sometimes necessary to do considerable blasting, one day to fill with concrete and three days in which to set. Six complete sets of forms are at work within the tunnel which means a completed section for every working day in the week, or a total of 132 feet in six days.

More than 100 powerful flood lamps illuminate the tunnel at these six working points. Owing to the remarkable ventilating system, which in itself is one of the most interesting and important features of the tunnel, working conditions are excellent. At the western portal two great steel fans, driven by two 500 h.p. four cylinder semi-Diesel engines, turn at the rate of 258 revolutions a minute driving a brisk breeze through the five-mile length of this great underground passage. The ventilation thus created makes it possible for trains to pass through the tunnel with practically no discomfort to passengers and for workmen to remain at their tasks for eight consecutive hours without detriment to health or vigor.

One comes upon many surprising things in the course of a walk through the great double-tracked tunnel. Grains of wheat fallen from the thousands of cars of Canada's 1923 bumper crop which have passed through on their way to the ports of Vancouver have taken root for many yards within each portal and the tiny field mice ever in search of provender scamper across the tracks within the very heart of the tunnel. At two points in the tunnel wall doors lead through the solid quartzite rock to the pioneer bore and here in this miniature tunnel one finds two brilliantly illuminated and immaculate "white lunches." White capped chefs preside in these underground restaurants dispensing steaming bowls of soup and fragrant coffee to the small army of workers who are bringing to completion the lining of the Connaught Tunnel.

New Lamp Burns 94% Air

BEATS ELECTRIC OR GAS

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coal oil).

The inventor, J. M. Johnson, 246 Craig St., W. Montreal is offering to send a lamp on 10 days FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Torbrook Newsies
(Occasional)

Torbrook Oct. 7.—Our postmaster, C. H. Melvin had a radio installed in his residence by his son in law, Mr. Bennett, of Halifax last evening the neighbors enjoyed listening to lectures and music in N. York, Springfield Mass. and other places. Mr. and Mrs. Bennett are visiting her parents. We are sorry to hear Mrs. C. H. Hudson has gone to the Victoria General Hospital, Halifax again for treatment.

Miss Helen Beckwith of Nictaux spent the week end at the home of Mr. and Mrs. I. J. Whitman. We are all glad to see Helen with us again.

A number of our young people attended a surprise party given to Catherine Hatt on Saturday evening it being her birthday anniversary.

Mrs. James Sproule and family of Springfield spent Sunday with her mother, Mrs. Bertha O. Woodbury.

Mr. and Mrs. Charles Clark motored to Bear River on the 5th, to visit her daughter, Mrs. Kenneth Sandford they were accompanied by Mr. Charles brother and wife.

Mr. Leander Freeman of Ayer, Mass. was visiting friends in this place last week.

A large number of old and young gave Mr. and Mrs. Leonard Nelly a serenade on Tuesday evening last, all partook of the good things provided by Mrs. Parker. All left wishing the bride and groom many happy years of wedded life.

AN EDITOR'S CONFESSION

Our wife is gone—gone to visit our mother-in-law. Gone back to the old home and the real cream. Back to the old oaken bucket and the mud pies of memory. We are not saying this to make other men envious whose wives are not gone. But is a sort of whistle to keep up courage. For a long time the opportunity to hang out all night and make a monkey of ourselves has looked good. Now with no restraint on our conduct no tearful wife waiting to throw her hooks into our hair, no one to lie to, nobody to pacify with artful inventions, no person to care a whoop whether we go to the bug house or not, now that the very hour and moment is pregnant with witchery and our horoscope is psychologically correct for a riotous period of debauchery, we get to sleep at 8:30 and mope off to bed like a mollusk.

It is enough to drive an uncontentious drunkard to the Keeley Institute. Solo has lost its charms and highballs are a mockery. We do suds or do any of the hundred disreputable things that a few days ago seemed so entrancing. If things had planned out as anticipated we would be an actor in the justification drama instead of its playwright.

A cord of wood will make about 96,000 pages of ordinary paper.

Joyful Lines From Regina, Sask.

I received my weekly "Outlook" and I find on looking through. On the seventeenth of August my subscription will be due. There is a well-known proverb that doubtless you have read, "Only death and taxes are a certainty," he said; But the sage who wrote this proverb had overlooked, I fear, "The renewal to the "Outlook" you ask for once a year. However, I cannot afford, for such a modest fee, To miss my weekly copy, for I welcome it with glee. So, dear Mr. Editor, I won't procrastinate, But enclose one Dollar fifty before it is too late. I find most interesting all the news contained in the "Outlook" To quote them all in order I never could begin, But no doubt you appreciate that living far away, I welcome "Home Town" doings, as they happen day by day. Best wishes to the ball team, the Middletonian nine, From reports in Sporting Column, they sure are doing fine. There are breezes from Port George and Margareville too, And Personal items which I eagerly review: News from Cottage Cove, and the art of hatching shad, And old familiar stories, with their usual weekly ad. As a link with dear old Middleton "The Outlook" can't be beat. From page one to the end it is a literary treat. Best Wishes, Mr. Editor, I'll write another time, I hope you don't object to my writing you in rhyme.

Rheumatic People Can now find Relief

BY DRIVING THE POISONOUS ACID FROM THE SYSTEM.

Rheumatism attacks people when the blood is thin and watery, or charged with impurities, thus setting up inflammation of the muscles and joints. Cold, wet weather or sharp winds may start the pains, but the cause is rooted in the blood and to get relief it must be treated through the blood. As a blood builder and nerve tonic Dr. Williams' Pink Pills are unsurpassed, and for that reason do not fail to give relief to rheumatic sufferers when given a fair trial. Among the rheumatic sufferers who have proved the great value of this medicine is Mrs. Simeon J. Tatton, Indian Head, Sask., who says:—"For over two years I was an intense sufferer from rheumatism and until I began the use of Dr. Williams' Pink Pills no treatment that I took helped me any. The trouble grew so bad that I could not move around the house without help, and finally I had to give up and go to bed. Words cannot tell how much I suffered, and I could not bear to have anyone come near me. Finally one of my neighbors strongly urged me to try Dr. Williams' Pink Pills and I decided to do so. In the course of a few weeks I could feel an improvement, and I was able to get up. I kept on taking the pills until all traces of the trouble were gone, and I could again do my household, feeling like a new person. Three years have passed since that and there has never been the slightest return of the trouble, so that I feel safe in saying that the relief brought by this medicine is permanent."

You can get the pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Personal Mention Of Baptists

EDITOR OF MARITIME BAPTIST VISITED FORMER PASTORATE.

(Maritime Baptist.)

Our readers will be pleased to learn that the Rev. F. H. Beals has recently recovered from the effects of his late illness and amputation of the leg as to be able to take short rides without discomfort or injury. All will hope for more and rapid improvement.

We are pleased to learn that the Rev. Z. L. Fash, who went from the pastorate of the George Street church Fredericton, to that of the West Summerland Baptist church in British Columbia about two years ago, is being blessed in his ministry there. Recently twelve converts were baptised by Mr. Fash and the work of the church is prospering. Mr. Fash is a member of the Home Mission Board of the Baptist Convention of British Columbia. The climate of Summerland has worked wonders for the health of Mrs. Fash who was far from well when she went West. Her many friends in the East will be glad to know of her fully restored health.

The editor greatly enjoyed a week end visit to his former pastorate on Grand Manan from September 5-8. He greatly enjoyed meeting the people of this former charge and preaching to them once more. He was especially delighted to note evidences of excellent work done by the present pastor, Rev. W. B. Crowell, and that blessing has attended his work. About \$2,500 have been expended in the erection of a fine vestry and Sunday school room in connection with the church building at Grand Harbour. The completion of this fine and much needed addition to the equipment of the church awaits the coming of more fish to the weirs of the fishermen. For two years the fishing has been very dull among these people.

Those present at the Baptist World Congress in Stockholm will recall that on the last day of the meetings the Rev. A. Wiegand of Vienna was suddenly taken ill. He had to remain in the city for some weeks and he

returned to Austria an evidently broken man. During the year that has passed he has carried on a brave fight for health, but he passed away at the beginning of August. He was the most conspicuous figure among the Baptists of Austria, the great majority of whom were included in his church at Vienna, and his loss will be keenly felt. Dr. Rushbrooke, English Commissioner for Europe and acting Secretary of the Baptist World Alliance has forwarded a message of sympathy to the bereaved congregation and family.

CARDS OF THANKS

The Hospital Commission desire to express their thanks to the ladies of the Woman's Institute of the Town of Middleton for the many recent expressions of their interest in the Soldiers' Memorial Hospital, and especially for promoting and carrying through last Wednesday "A Hospital Visitors' Day," so rich in practical gifts for the Hospital. They would also like this opportunity of thanking all who brought gifts on that occasion. They would like to mention of the individual donations of money, fruit, vegetables, bedding, groceries, etc., which will be found in another column of this paper. The ladies of the L.O.D.E. have just placed in the operating room a valuable sterilizer, a very necessary and much appreciated gift. Again thanking all these good friends, we are, on behalf of the Soldiers' Memorial Hospital, Middleton.
