COLOMBIAN REBELS SEIZE A U S. LAUNCH. Chicago, April 12.-The Tribune's New Orleans special says: "News reached here tonight of the confiscation of an American steam launch by Colombian insurgents at Bocas Del Toro, north of Colon. One of the American crew was killed and his body thrown overboard. The insurgents escaped with the boat, but a United

states cruiser has gone to recover it.

NOTHING LOOKS more ugly than to see a person whose hands are covered over with warts. Why have these disfigurements on your person, when a sure remover of all warts, corns, etc., can be found in Holloway's Corn Cure?

SHORTHAND

A few years ago Mr. E. Bok, editor of "Ladies' Home Journal" was a stenographer for Charles Scribner & Sons. He is now vice-president of the Curtis Publishing Company. He owes his advancement to Shorthand. You may miss your chance in life if you do not gain a knowledge of the lightning art. It is taught

76 Dundas Street

The women are all talking about Peruna. Of course they are. Why should they not? Peruna is the remedy that cured them. If they have a cold, Peruna cures them. They found that out by experience.

If they are hoarse or have a cough, they find Peruna an unfailing remedy. Weak lungs, and even the first stages of consemption, Peruna promptly restores, and there are a hos of women who have a slight derangement of the stomach and digestive organs. All these derangements are of a catarrhal nature. Peruna comes to the rescue at once. A very short course of Peruna is sufficient to put the stomach right and to make the assimilation of the food perfect.

But this is not all. This does not exactly explain why the women especially are talking about Peruna. Men, the same as women, have found Peruna useful for the above-mentioned ailments. The reason that Peruna is such a special favorite with the women is something more than this.

Women are subject to pelvic catarrh. This condition has been called all sorts of names, and is often referred to under the general phase, female diseases. Peruna cures these cases. Peruna cures them because it cures catarrh wherever located. The nature of most of these ailments is catarrhal. Catarrh is liable to attack any organ of the body. It is especially

liable to attack one or more organs of the female pelvis. No wonder women talk about Peruna. No wonder they think it is the greatest medicine in the world. Peruna cures the catarrh wherever located. Peruna is not a guess nor an experiment-it is an absolute, scientific certainty. Peruna has no sub-

stitute-no rivals. Insist upon having Peruna. Miss Mary Ratz writes:—

"Peruna is a blessing to suffering women and I am pleased to recommend it. I suffered for over a year with backache, headache and nervous debility, and although I tried many remedies, Peruna is the medicine that cured. I am now in perfect health, and am very grateful to you."

Miss Louise Westbrook writes:-

"For several years I suffered with pains at regular periods, which was followed by general debility, until I was but a wreck of myself. Thanks to Peruna I am a well woman today. I would not exchange my health for all the riches in Michigan."

Miss Rose de la Sen writes:—

"I have been a sufferer from ovarian trouble for over four years, which caused me excruciating pains at times, and life looked very dreary to me. My family physician and other doctors prescribed for me, but failed dismally in relieving me, but I am pleased to state that after years of suffering I have been entirely cured by your woman's friend, Peruna."

Miss Della Janvean writes:-

"Last spring I had a regular spring fever; my blood seemed clogged up, my digestion poor, my head ached, and I felt languid and tired all the time. I tried Peruna and am pleased to state that I found it a wonderful cleanser and purifier of the system." Mrs. J. E. Finn writes:-

"A few years ago I had to give up social life entirely, as my health was completely broken down. I had often heard of Peruna as an excellent tonic, so I bought a bottle, and in less than two months I was in perfect health."

Miss Helen Whitman writes:-

"After a prolonged illness, about a year ago, I felt unable to regain my health, but four bottles of Peruna made a wonderful change and restored me to perfect health."

Miss Mariol Armitage writes:-

"I suffered for five years with irregularities, which brought on hysteria and made me a physical wreck. I tried doctors from the different schools of medicine, but without any perceptible change in my condition. In my despair I called on an old nurse, who advised me to try Peruna, and promised good results if I would persist and take it regularly. When I had used fifteen bottles I considered myself entirely cured. I am a grateful, happy woman today."

Mrs. M. E. Jenkins writes:—

"I heartily indorse Peruna as an excellent tonic for weak and brokendown woman, for such I was before I began taking Peruna, and it really worked wonders with my system. My health is excellent now, and whenever I feel languid or nervous I take a few doses of Peruna."

Miss Mattie Ketchun writes:-

"Peruna has made me a well and strong woman, and I have all the faith in the world in it. When I first began taking it I was troubled with headache and backache and dizzy spells. The doctors did not seem to help me, but three bottles of Peruna cured me completely. I have not felt badly for over a year, and am pleased that it was brought to my notice. I have recommended it to a number of my friends."

Miss Johanna Lewis writes:-

"Last winter I suffered with general debility, caused by a cold. I had almost constant dragging pains and backache until I became so unstrung and nervous that I could not sleep nights and became a physical wreck. Fortunately Peruna was brought to my notice and I decided to try it. It was nothing short of a blessing to me. It cured the cold, allayed the nervousness, renovated my entire system and brought health and youth back to me."

Miss Beatrice Brown writes:-

"This fall I became very much run down, being overtaxed with social and domestic duties. I caught a hard cold, and my system being in a weakened condition I found it impossible to shake off the cold. I was advised by a neighbor to try Peruna, and bought a bottle, and am only sorry now that I did not know of it before, as it would have saved me much suffering. I shall not be without it again, as it effected a speedy cure."

Miss Florence E. Kenah writes:-

"A few months ago I caught a severe cold, which settled on my lungs and remained there so persistently that I became alarmed. I took medicine without benefit, until my digestive organs became upset and my head and back began to ache severely and frequently.

"I was advised to try Peruna, and although I had little faith I felt so sick that I was ready to try anything. It brought me blessed relief at once and I felt that I had the right medicine at last. Within three weeks I was completely restored and have enjoyed perfect health since."

Miss Ida B. Wood writes:-

"I consider Peruna of especial value for the different ailments of women; its restorative powers have saved me much pain, and I now enjoy perfect health."

Miss Lizzie Bamber writes:-

"I was delicate in health for four years, and while not actually in bed, I took but small comfort out of life. Early this fall a friend who had suffered with weakness similar to mine, told me that Peruna had cured her. I was not slow to profit by her experience, and before retiring I had taken my first portion. During the week I noticed that my appetite increased and my general health improved. I kept taking it for three weeks, and now I feel buoyant in mind and body."

Mrs. Ida Proctor writes:-

"Two years ago my health was entirely broken down from social ares and responsibilities and I felt that I was going to be very ill. As Pe una had been used by other members of the family with good results I thought best to give it a trial before putting myself in the care of a physician, and was glad that I did so, for the use of four bottles restored my strength and vitality."

If you do not derive prompt and satisfactory results from the use of Peruna write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

THE TORONTO HORSE SHOW.

Toronto, April 11.-There was a slim

morning, due partly to the rainy weather and partly to the preference of the multitude for the afternoon and evening exhibitions. Every seat in the Armories was occupied tonight. Some

very fine horses were shown this morning, the Clydesdale varieties be-

ing especially well represented. The proceeds of the Horse Show over the

above expenses is divided between the

Horse Breeders' Association and the Toronto Hunt Club. This year \$500 is

to be granted to country associations, and it will undertake to encourage breeding of first-class horses.

CAME TOO LATE!

Murderer's Reprieve Arrived 35 Minutes After He Was Hanged.

St. Louis, Mo., April 12 .- Henry Flutcher (colored) was hanged yesterday for the murder of Louis Roth, Aug. 27, 1900. At 11 o'clock Thursday night Circuit Attorney Folk telegraphed Gov. Dockery, recommending a ten days' reprieve in order to investigate more fully some testimony to the effect that Elutcher acted.

Mr. Arc der to investigate more fully some testimony to the effect that Flutcher acted in self-defense when he killed Roth.

A messenger sent from Jefferson City said that the governor, when aroused by the messenger, refused to open the door to receive the message, but ordered it slipped under.

No answer was received by Circuit Attorney Folk before the hanging, but at 6:45 a.m., just 35 minutes after the fatal drop fell a telegram was received by the drop fell, a telegram was received by the sheriff from Gov. Dockery, granting a

Letters to the Editor VETERANS OF '66.

To the Editor of The Advertiser: Recognizing the influence of the the next six months, and additional press, may I ask the favor of your aid men are being placed at Temiskamto do justice to a section of our militia, who deserve recognition at the hands | baptisms during the three months in of the government, in the selection of the mission field was 174, and \$2,-men to compose the coronation con- 500 had been received in special gifts. men to compose the coronation contingent. It would be pleasing and the president, Mr. John Stark, was popular to the people, and a fitting recognition of services rendered in defense of the country. Were the military authorities to select at least 100 of the veterans of 1866 to accompany the contingent. I believe it would be pleasing to the King himself to see among the representatives from the colonies men who at a critical period turned out in defense of this important portion of the empire. If you will aid in the consummation of this your efforts would, I believe, be appreciated Prison. by the people of Canada. Yours truly,

LIEUT.-COL. A. E. BELCHER, A veteran of '66. Southampton, April 12, 1902.

CONFESSES TO TWO MURDERS. Brandon, Man., April 12.-It is now positively known that Walter Gordon has confessed to the double crime of murdering Smith and Daw, at Whitewater. A written confession, signed by Walter Gordon on April 7, has been in the possession of Rev. Mr. Henry the accused murderer's spiritual adviser, since that date, and has now been made public.

SETTLERS FROM DAKOTA. Toronto, April 12.-A telegram from Port Arthur stated that 30 people and five carloads of effects had left for the Rainy River Valley, and that about the same number of settlers from South Dakota had just left for the Thunder Bay district.

The purchase of the Ottawa, Northern and Western Railway is said to be still under advisement by the management of the G. T. R. The difference about the price it is said is \$1,000,000. The St. Lawrence and Adirondack Railway Company gives notice that it will apply to parliament for power to purchase the charter, bonds and other securities of any other railway in

The Turn of the Tide.

'All eyes are turned toward the Northwest. The movement of population from the border States of the Union to the Canadian territories has pulse of the Dominion beat faster, as the sudden fulfillment of a national hope long deferred. Official estimates place the number of Americans who will cross the line this season at 30,000, all of them seeking homes, and the great majority of them practical farm-This is only the vanguard.

more extensive transportation facili- its insane population in the asylum. ties, the great need of which is to be seen in the handling of the wheat yield by shipping, and storage in elevators, about \$10,000,000 worth of grain still remains in the hands of the producers. The Canadian Pacific Railway has heeded the lesson and will increase its capital stock by \$20,000,000, most of which will be devoted to increasing its western capacity. It is quite clear that the great wheat-growing portion of Canada is the western plains, and that the older settled parts of Ontario must engage more largely in other branches of husbandry, such as stock

There is also a political problem. An increase in numbers in the west will eventually mean increased representation in the House of Commons. It will mean, too, the organization of the territories into provinces, with greater powers of self-government. The most serious question, however, is the assimaltogether probable that the newearliest moment the privileges of citizenship and a personal share in the molding and amalgamating power of

Canadian Dairying.

The development of dairying in the Dominion has proceeded with great rapidity since the first cheese factory was built 35 years ago. At present there are over 3,000 cheese factories in Canada, manufacturing over two hundred million pounds of cheese annually. The creamery system is not so old. Thirty years ago there were no co-operative creameries in Canada; twenty years ago there were 46. Ten years ago, that is, in the year 1891, there were 170 creameries, and last anyway?" year the number was nearly 1,000, with a production of fifty million pounds of butter. And still the butter-making industry is scarcely out of its infancy, when we take into consideration its splendid possibilities. The introduction and improvement of cold storage transportation will bring to the dairymen of Canada a wider market for their produce. Dairying is making satisfactory progress in Manitoba and the Territories as well as in the Mari- | gets up. time Provinces. In the West emphasis has been laid on the buttermaking branch of dairying. The chief market is the Kootenay and the Klon-

The butter industry is bound to become enlarged, when it is considered that so much is in its favor. It has an advantage over cheese-making, inasmuch as it can be carried on in connection with other industries, such as the bacon hog industry. Already many farmers have their own cream separators, and manufacture butter on a much larger scale than they did at any time before.

The position of Canadian cheese is somewhat different. It must, of necessity, be manufactured in a more complex way than butter, from the farmers' point of view, at least. The fact that special factories must be erected and specially equipped, will deprive the industry of a certain elasticity that is possessed by the butter industry. But setting this aside, the Canadian cheese trade has suffered some reverses during the past year. The value of our exports in cheese for 1900 was something over seventeen million dollars; last year it was a triffe over thirteen million, which is a falling off of four million dollars. This has been accunted for by a falling off in the British demand for Canadian cheese. The demand now is for mildflavored cheese, with soft, rather than "but I'm afraid it would prove unsathard body. The problem now con- isfactory. In order to do you justice how to produce an article that will stead of water."

meet the requisite of the British market. To the cheesemaker comes the task of obtaining improved curing facilities; but the whole matter of producing such an article as will meet the demand does not rest entirely with him. The patron who supplies the milk must co-operate. He must bring of the question. Efforts have already

A Striking Contrast.

been made to reach the patron, and it

is probable that Canada will not only

soon regain her former figure in the

foreign trade in cheese but greatly

surpass it.

In a recent issue of the London Pall Mall Gazette it is reported that "Some rather startling revelations were made at the Metropolitan Asylums Board. Mr. Helby, the chairman of the finance assumed such proportions as to attract | committee, said that at least £300,000 the serious attention of the American of the ratepayers' money had been press. It is something to make the wasted by the dilatoriness of the board in providing increased permanent accommodation for patients. An increased estimate necessitated a rate of 3d in the pound-three farthings more than in the corresponding period of 1901." And we observe in the Montrose (Scotland) Standard that a neighers, owning live stock and implements, boring parish council has been protest- was a prominent subject of discussion and prepared to go on the land at once. ing against having to pay a share in the expenditure of from \$30,000 to \$35,-The situation brings forward several | 000 for an additional villa for the Disnew problems. A greater number of trict Lunatic Asylum, because the people means greater production and municipality already pays a large sum greater consumption. It necessitates annually (over \$10,000) for the keep of

These are interesting chronicles, because they go to show that in Great crop in Manitoba and the Northwest Britain it is the municipalities and last year. After all attempts were not the central Government-as in made to dispose of the phenomenal this Province-which provide the funds for the maintenance of the insane and other dependent population.

If our Provincial Government were to refuse to provide for the cost of of the Province, we should have the taxes greatly increased in every city, town, village and township.

It is true that we have politiciansopponents of the present Administration-who adversely criticise the system by which, through the sale of lands, timber and minerals, the Provincial Government provides for the maintenance of the asylums and other charitable institutions, and gives generous aid to the hospitals, orphanages, and refuges. But it will take a long time to convince the electors of Ontario that the system now carried out can be improved upon. Without the payment of a cent of taxation by the and economically by the Provincial probably relate to trade questions. public this work is carried on efficiently Government, side by side with the our American cousins, race and lan- maintenance of the other Provincial guage present no difficulties, and it is institutions, which are also kept up without the imposition of taxes on the comers from across the line, trained in public. And it is highly to the credit similar political ideals, will seek at the of the Government and the officials in charge that on every occasion that these institutions have been examined government of the country. There is by disinterested outsiders, they have no reason why they should not become been found to be conducted on model loyal Canadians and a testimony to the lines and to equal, if not excel, similar institutions in any part of the world. A striking testimony from a famous American writer is published in today's edition of The Advertiser.

In the management of our public institutions, it certainly is not time for

WORKING ON THE BUDGET

Sir Michael Hicks-Beach at the Cabinet Meeting.

Bank of England Representatives Confer With the Chancellor.

Triple Alliance Renewed for a Term of Years-Another British Steamer Scandal.

London, April 12.-Both the chancellor of the exchequer, Sir Michael Hicksand the colonel secretary, Chamberlain, attended the cabinet council held at the foreign office at noon today. Prior to the meeting of the ministers, representatives o fthe Bank of England had a conference with the chancellor of the exchequer, indicating that the budget by the ministers, especially as to the best means of issuing a war loan.

Last night Mr. Balfour announced in the course of business that there was a "very remote" chance of Sir Michael Hicks-Beach, the chancellor of the exchequer, being sufficiently recovered to deal with the budget.

STEAMER STRANDED. London, April 12.-The British steamer Kinfauns Castle, homeward bound from the Cape of Good Hope, with 350 passengers on board, stranded off Brightstone, Isle of Wight, at 3 o'clock this morning. The these institutions out of the resources calm, but the vessels position is somewhat dangerous. The passengers and mails are being landed by tugs.

THE TRIPLE ALLIANCE. The conferences held in Vienna by Count Von Buelow, the German imperial chancellor, have resulted in a decision that the triple alliance shall afternoon and today. The delibera-be renewed for another term of years. tions were confined to the delegates, This news reached Berlin from Vienna and no communication with outsiders last night.

Count Von Buelow's interviews with Emperor Francis Joseph, Count Go-luchowski, the Austro-Hungarian peace negotiations, they will submit minister of foreign affairs, and Dr. Von Koerber, the Austrian premier, resulted in bringing Austro-Hungary into an agreement to which Italy has already given adherence.

Fresh terms of alliance will be drawn, embracing some of the concessions that Germany makes to Austria and Italy. These concessions will It is reported here that Germany is really more greatly interested in the renewal of the triple alliance than was indicated by the utterances of her ministers last January.

QUEEN'S DAUGHTER ILL. est daughter of the late Queen Victoria, is indisposed.

THE DUKE'S DEBTS. In the bankruptcy court, the registrar decided, in spite of "rash speculation and extravagence in living," that he would annul the bankruptey of the Duke of Manchester, an arrangement having been reached by which the sum of £11,676 is provided, giving the creditors 12s 6d in the pound sterling. BELGIAN DEPUTIES EXCHANGE

BLOWS. Brussels, April 12.-The Belgian Govrnment has decided to proclaim martial law on Monday, unless order is

previously restored. The sitting of the Chamber of Deputies today was characterized by violent scenes. The premier, Count De Naeyer, referring to the deplorable events of yesterday, said: "The appeal of the Socialists to the population proves that it is their avowed plan to continue the struggle even after parliament has pronounced on the revision bill. Their aim is the dethronement of power and the triumph of revolu-

tion. The government is resolved that the debate in the revision bill shall occur in spite of the assertions of the Moniteur Socialiste as to the contrary. At this point of the premier's speech violent altercations, which nearly led to blows, arose between the deputies of the opposing parties. Liberals and Socialists engaged in a sharp discussion concerning the agreement concluded between them for the defense of universal suffrage, and M. Deblon, a Socialist, shouted, "We are betrayed." At the close of the sitting, Socialist deputies shouting "Jesuit thief," stormed the president's tribune. Ushers were then summoned to preserve order, and a violent scene ensued, in

BLOODSHED. Demonstrations and encounters occurred at Liege, Ghent and elsewhere, the most serious being at Houdeng-Geogries, in the coal district. During the collision between the police and strikers at that place the latter used brickbats and firearms. The police fired upon the rioters, killing a coal miner and a young girl. Fifteen persons were wounded, including two po-

which blows were freely exchanged.

licemen.

SENDING OUT MORE TROOPS 2101/2 and 212

Regardless of Negotiations Fighting Goes On.

Preparing to Dispatch 20,000 Men to the Front.

The Fourth Contingent of Canadians May Go to South Africa in Any. Event-The Peace Parleys.

London, Saturday, April 12.-That the fighting continues in South Africa is shown by a casualty list given out yesterday, which contains the names of a few of the killed and wounded in engagements which occurred at three separate points as late as the 8th and 9th of April.

Preparations here continue for the dispatch of 20,000 additional troops for the winter campaign. Lord Roberts yesterday inspected the first draft of the Guards, which will sail for South Africa next week.

THE FOURTH CANADIAN CORPS. Ottawa, April 11.-The rumors of peace in South Africa have not affected the plans of the militia department for raising and equipping the fourth contingent. Preparations for the mobilization of the force proceed with unabated vigor. Indeed the impression in official circles is that even should peace be proclaimed, the contingent will be dispatched to South Africa as originally intended. It is believed that a fresh force of 2,000 well appointed and well-mounted men will be welcomed as substitutes for an equal number of the war-worn veterans now in the field, who will need to be returned home as soon as possible to recuperate.

THE KLERKSDORP CONFERENCE Klerksdorp, Transvaal Colony, April '11.-The representatives of the Orange Free State and the Transvaal Government had conferences yesterday was allowed. Should the Boers taking part in the

peace negotiations, they will submit their proposals to Lord Kitchener, who has been instructed to forward them nmediately to the government. Inquiries made tonight at the war office by the Associated Press elicited the statement that that office knew nothing about the rumors of peace, or the alleged telegram from Lord Roberts to Dover, in which he is reported to have said the war was over.

FOUNDATIONLESS RUMORS. In the House of Commons at midnight, Mr. A. J. Balfour, replying to a question by Sir Henry Campbell-Bannerman, declared that the government had no information concerning the peace rumors, and that there was no

foundation for them.

Mr. Balfour's denial of the peace rumors was very emphatic. He said: 'We have no information at all, nor in the nature of things could there be

The sudden calling of a cabinet meeting and the fact that King Edward rather unexpectedly terminated his cruise yesterday in order to return to London convinces people that something important is pending, and has led to the most extraordinary rumors. Among other things it is reported that Mr. Chamberlain, the colonial secre-Princess Henry of Battenberg, young- tary, has resigned. This is quite untrue. Mr. Chamberlain was suffering from a chill yesterday, but he expects to attend the cabinet meeting today.

THE ONLY APPREHENSION. The only apprehension as to the effect of the conclusion of peace is that it will dampen the enthusiasm of officers

and men to enlist. In corroboration of the belief that the contingent will be raised and forwarded to South Africa, even if peace be declared, Dr. Borden said he had just received a cablegram from the war office, stating that the funds to pay for the equipping and outfitting of the contingent were being forwarded.

THE BOERS IN EUROPE. Utrecht, Holland, April 12 .- Dr. Leyds, the Transvaal agent, and other Boer leaders, had a long conference yesterday evening. Dr. Leyds afterwards asserted that the meeting was not connected with the conference proceeding at Klerksdorp, Transvaal Colony. Peace, however, he added, could not be concluded without previous consultation with the Boer representatives in Europe.

MRS. MILLER

Won't Believe Her Husband Is a Murderer Even If He Tells Her.

Detroit, April 12 .- "I do not believe it; I will not believe it until he tells me so with his own lips, and then-well, I will not believe it," said Mrs. Miller, in her quiet, rather apathetic way, when told quiet, rather apathetic way, when told shortly after 1 o'clock today, by a News reporter, that her husband had confessed to the murder of Carrie Jennett. "He had no reason to do it; it is impossible that he could have done it," she continued, without display of emotion other than a painful quivering of the lips and trembling of the thin fingers as she lifted her hand to her head in half-dazed fashlon.

WAS KIND TO HIS WIFE. "He was never cruel to anyone, not even to a dog, and was so good to me and the children always," continued the loyal wife. "We have been married 23 loyal wife. "We have been married 23 years, and I never knew him to get in a passion or show any temper. For the past year and a half I have been an invalid, and he has waited on me hand and foot, without one word of complaint. and foot, without one word of complaint. I cannot believe that he could butcher that poor girl, and—" but the poor woman got no further, as her young son, James, broke in with protestations of the innocence of his father.

When asked if she would go to see her husband if the authorities would permit it, Mrs. Miller said she did not think she could because if her husband

think she could, because if her husband confessed to the killing of Carrie Jennett, she never wanted to see him again, thought she might remain unconvinced The poor woman is a confirmed invalid, only able to get from her bed to a rocking chair in the little sitting-room, and is subject to severe fainting fits, due to heart trouble.

AT THE JENNETT HOME. There was no surprise in the Jennett nome when told that Miller had confess-

Special Friday and

Saturday Bargains. ed. They had been confident that he was LAST LINK IN THE CHAIN.

Detroit, April 12.—The last link in the chain of evidence against Miller was forged when Edward Partello, night watchman at the plant of the Wolverine Manufacturing Company, on Twelfth street, near the railroad crossing, positively identified Miller as the han whom he noticed with Miss Jennett between 10:30 and 11 o'clock on the night of the murder. He had witnessed the couple murder. He had witnessed the couple together on numerous occasions.

The funeral of Miss Jennett will take place this afternoon, and the services will be conducted by Rev. F. S. De Vona, pastor of the Arnold M. E. Church, of which the deceased was a member. Six young men members of the church will young men, members of the church, will act as pall-bearers.

The Agricultural Estimates Were

Mr. Benjamin Russell introduced his

AGRICULTURAL ESTIMATES. Hon. Sydney Fisher, in explaining the increase of \$21,000 in the vote for cold storage, making a total of \$210,000 for the year, said that the results of the Canadian cheese trade with Great Britain were not so satisfactory last Thousands of women in Canada with | year as formerly, the reason being that the curing of the softer and moister cheese now required could not be done by the old process, and experiments proved that this quality of cheese required to be kept in storage below 60 degrees of temperature. The Canadian farmers had lost \$2,000,000 by in-

It was proposed to have central curing stations, to which factories in the district could send their cheese as manufactured. Four of these would French part of Quebec and one in the English part of Quebec. Each would cost \$8,000 to \$10,000, or \$36,000 for the Fisher went on to explain at great length the work of the department in promoting chicken fattening, cold storage, stock raising, dairying and

Then the Canadian Northern Railway bill was taken up. It was announced employed at Sanders & Powers' plan-ing mill, had his left hand caught in a with the minister of railways not to press the clause authorizing an increase of the capital stock from \$24,that it was necessary to amputate 750,000 to \$35,000,000. The capital will remain as at present.

THE SENATE.

The Bell Telephone Company's bill came up before the senate railway street. Throughout the western discommittee. The bill asked for power company from \$5,000,000 to \$10,000,000. The mayors of Toronto, Ottawa and Westmount, Montreal, were present in opposition to it. Mr. C. F. Sise, resident of the Bell Telephone Company, was heard on behalf of the promoters. He explained that the capital stock of the company was now \$5,000,000. All that money was expended, and for the past two years the company had been orrowing money. The company started with a capital of \$500,000. It was increased gradually until now it was \$5,000,000. There were 50,000 subscribers, and all the money subscribed had been paid out. The demands of the company were growing, and the resources to make improvements and extend the system were exhausted. offer of 35 cents on the dollar will be an increase from five to ten millions. The company would require to spend

about one million dollars a year, not in buying old companies that are try-ing to sell out, but in improving the service and giving it to the people at During the hour devoted to private a very low rate. Of the expenditure over \$300,000 would be made in the city of Toronto alone. Without getting more capital it would be impossible to improve the service or construct new Monday, the 21st day of April, 1902

Senator Millar submitted the same amendments which were offered to the bill last year. These were to make the act of 1892 clear as to what was intended of it. The amendment sum- Front and Wellington Streets, South marized made provision for a compulsory telephone service upon application by any person, company or corporation. No increase in rate over the act of 1892 to be allowed except for long distance phones, which were excepted. The control of rates for both local and long distance phones should or to amended the report by appointing Mr. be left to the governor-general-incouncil.

A Reliable Tea House. About the oldest established firm tea importers in Western Ontario is Marshall Bros. & Co., 67 Dundas trict this firm has become widely to increase the capital stock of the known as the pioneer tea house. From north to south and east to west they have been most successful in their line of business. Recently the management decided to inaugurate a retail trade, and have arranged their premises with counters, shelving, etc., so as to sell all teas, coffees, extracts, spices, and other household necessities at retail prices. The window has been handsomely decorated with the variety of

Dorchester, April 11 .- The results of the promotion examinations held in Dorchester Station public school on March 26 are as follows, being in order of merit:

Junior IV. Class to Senior IV. Class -R. Steep, M. Kay, D. Munroe, P. Senior III. to Junior IV .-- W. Ford, E. Chittick, G. McCann, F. Hayes, M. Mullen, J. McIntyre, M. Hunter, F. Sweet, G. Hayes, W. Carrothers, A. Hunter.

From Junior III. to Senior III.-G. Shaw, T. Webster. From Class II. to Class III. Junior-H. McIntyre, A. Wilson, I. Baker, J. Shaw, M. Paterson, E. Drake, A. Walker, L. Smith, M. Kay. From Part II. to Class II.-W. Kay,

A. Mitchell, G. Williams, H. Morrish. From Part I. to Part II.—R. Hunter, T. Munroe, S. Smith. HOW TO CLEANSE THE SYSTEM.—Parmelee's Vegetable Pills are the result of scientific study of the effects of extracts of certain roots and herbs upon the digestive organs. Their use has demonstrated in many instances that they regulate the action of the Liver and the Kidneys, purify the blood, and carry off all morbid accumulations from the system. They are easy to take, and their action is mild and beneficial.

than ever I did, and Dodd's Kidney Pills did it all. They are worth their weight in gold to any young woman suffeing as I used to suffer. A JOURNALIST'S PROMOTION. Washington April 10.-Robert J. Wynne, the Washington correspondent of the New York Express, has been of-

sistant postmaster-general. THERE IS NOTHING equal to Mother Graves' Work Exterminator for destroy-ing worms. No article of its kind has

given such satisfaction. A meeting of the creditors of W. G.

PIMPLES

We talk about them for their removal.

We talk about them at this time more than we do at any other because, for various reasons, they are more common in the Spring than in other seasons.

You can get rid of them, but you must eleanse your system, thoroughly.

You can't get rid of them any other way.

Hood's Sarsaparilla thoroughly cleanses the system, cures pimples and all other eruptions, makes the complexion clear and wholesome, corrects all run-down Spring conditions, and builds up the whole system.

> "My sister and I have been in the habit of taking Hood's Samperilla in the Spring and we find it works wonders. It reviewes that tired feeling, purifies the blood, clears the complacion and makes us feel better in every way. I believe it to to a duty to speak in praise of so beneficial a remedy." ETHEL REMPT, 509 East Espanschild St., South St. Louis, Ma.

Accept No Substitute for Hood's Sarsaparilla.

STOCK BOARD TIPS. (Special to Haight & Freese Co., 13 Masonic Temple. F. P. Rae, Mgr.] sonic Temple. F. P. Rae, Mgr.]
New York, April 12.—London strong.
The Morgan party is bullish on Steel.
Canadian Pacific is booked for a substantial advance. A considerable short interest will be for covering. Speculative sentiment has been improved by the positive statement that there will be no corner in Louisville, and it is now pretty certain that control of this company has changed hands. The stocks have had a big advance, and it is advisable to take profits in it and leave it alone. India a big advance, and it is advanced to take profits in it and leave it alone. Interest will center in the bank statement, and the character of this will be governed by the condition in the loans items, which is very uncertain. With crop condition favorable, all fears of a corner removed the market should do corner removed, the market should do better next week, even if the money rate should continue at the present lift. Bull points are out on M. O. P., St. Paul, Union and B. and O. The shorts in Copper are numerous, but it is a good stock to leave alone. Buy B. R. T. and Man. on every weak spot. M. X. C. will go higher, and H. V. are stocks to buy. New York, April 12.—The American stocks in London are firm, with quotation on Louisville almost nominal. Reported Moore Bros. gained control of Louisville. Big Four bidding for Cincinnati, Hamilton and Dayton. Copper dividend expected, ½ or 1 per cent. No early prospects of gold shipment. The Dun's and Bradstreet's report both incorner removed, the market should do

Dun's and Bradstreet's report both in-dicate business quieter on unfavorable weather and uncertainty of crops. unfavorable The New York bank statement for today shows: Reserves, increase. Loans, decrease. Deposits, decrease. Circulation, decrease.....

MUCH ADVICE GIVEN WHEN HORSE FELL

People Who Thought They Knew Told How He Might Be Raised.

This morning a carriage horse slipped and fell on Dundas street, owing to the slippery condition of the asphalt. Many people stopped near it and offered sage advice as to how it should be raised. One man told the owner to put his fingers in the animal's eyes, while four or five others thought that to go about it gently and sit on his head would at least keep the horse from hurting itself. Several said that a screw-jack would assist the owner out of the difficulty, and a lusty-voiced bartender advised him to send for the Grand Trunk auxiliary. None of the advice-givers, however, were sufficiently energetic to assist in the work of really getting the horse up.

MURITRER MILLER ARRAIGNED IN COURT! cemetery at that place tomorrow.

Counsel Raises the Questien of His Sanity-Experts Will Examine Him.

Detroit, April 12.-Prof. Jos. Miller. the music teacher, who yesterday confessed to having murdered Miss Carrie Jennet with a hatchet, was arraigned in the recorder's court today. Judge Murphy apointed F. C. Chamberlain to act as the murderer's attorney. Attorney Chamberlain raised the question of Miller's sanity, and said that while he had no desire to delay action, the matter ought to be determined now.

Judge Murphy appointed three alienists to examine Miller. His plea of guilty or not guilty was held in abeyance until this afternoon, when the result of the alienists' examination

LONDON WILL HAVE NO RACE MEETING AT PARK THIS YEAR

Local Trotting and Facing Asso- ficit. Those who stood to make money ciation Has Been Disorganized.

It is definitely settled that no race meeting will be held in London this spring. Mr. Dan Ferguson told the local association months ago that his business interests compelled him to resign the post of secretary, and he left for someone possessed of more leisure time. There has been difficulty in finding a successor, for while many were willing to enjoy the sport afforded by good racing, but few were willing to make any sacrifice in making

arrangements. As a result, when the Canadian cirguard; Sutherland, guard. cuit meeting was held in Stratford, no ne was present to repr don association, and naturally the HEATHERBLOOM CLEARS 7 FEET worst end of the deal was received by

them in apportioning dates. "No one can show any good cause for kicking," said a well-known horse-London, though, for horsemen liked to come here. They received better treatment here than anywhere else, and this city's races attracted many fast horses that will now remain out of Canada. I believe that had the usual dates been set aside by the circuit officials at Stratford for the meeting here, some enthusiasts would have been found to push the meeting through as in former years. But you can definitely state that we are out of the game this year.

It was learned from a reliable source that the race meetings held in London have been unprofitable for some time past, and a number of those regsold his 50-acre farm, being lot 10, con. ularly doing the hard work, while enjoying the sport no more than other people, have been liable for any de- his own record by almost two inches.

ing men have also been slow with contributions when called on, and three or four furnished the bulk of the BASKET BALL. LONDONERS LOST.

through the presence of many sport-

Detroit, April 12.-A large crowd turned out at the Y. M. C. A. last night to witness the post-season basketball and indoor baseball games. In the basketball game the Londoners were completely outclassed and at no the position he has filled so many years time had a chance to win, the score at the close being 26 to 4 in favor of the Clark Coal Company, of this city. The line-up of the basketball team follows: Clark Coal Company-Johnson, forward; Clark, guard; center; Gardner, guard; Adix, forward; Mann, sub. London-Marshall, forward; Dale

Gidley, center; Corcoran,

6 INCHES. New York, April 12.-Heatherbloom, the jumping horse, has broken the

man to an Advertiser man today, "for world's record at the Riding Academy the London people are entirely to Horse Show in this city, by clearing blame in the matter. I think the circuit meeting will feel the absence of record was 7 feet 41/2 inches, Heatherbloom's previous mark. The academy was well filled with society people, and there was a roar of applause over the wonderful performance. James A. Garland's brown mare Sure Pop and a horse entered by Charles Pfizer were pitted against Heatherbloom for the final test. They both failed. Heatherbloom acted badly and several times nearly threw Donnelly

by stopping short before the barrier. At last, with an excellent start, the excited animal got to the bars. Within four feet of the barrier the horse rose with the grace of a panther, and cleared the six-foot bar at least a foot and a half.

Although the record is now an official one, the judges were a unit in declaring that Heatherbloom had beaten

ciation Football Union, Canadian La-National League team beat the base- Hockey Association conferred with ball nine of the University of Maine to- the C. A. A. U. on the subject of recasting its constitution so as to make it a more representative body. The present C. A. A. U. was organized at Montreal on Dec. 14, 1883. At this meeting six athletic associations or clubs were represented. At a meeting held in 1884 in Toronto twenty clubs became members. Several additions and losses in membership leave the association today with twenty members. These members, however, today are not individual clubs as at the time of organization, but comprise the leagues or associations governing the individual clubs, so that the old association has grown in strength. The great objection to the C. A. A. U. has always been that it was not a thoroughly representative body and that it undertook to govern associations and clubs Bristol, Conn., in two straight five- who had no representation on its ex-

When the committee of representatives of the leading Ontario organizations not yet members of the C. A. A. U. met, it was decided that representation must be had and it was claimed that if changes were made the C. A. A. U. would not only have a large and important addition in membership, but be strengthened by the affiliation of the important athletic organizations of this province. The C. A. A. U. have acted most kindly to the suggestions and the new constitution will be ing expressed his intention of giving a adopted today at Montreal with few, if any, changes. The C. A. A. ment at the London Opera House,

The Garment Does Not Become the Very Fat or the Very Lean Person.

not to order" is the position of the retail dealer, and until he decides, some time about May 2, "To make or not to make" will be the query of the manufacturer.

For nothing in the line of wearing apparel comes quicker from the bat of the manufacturer than does a shirt waist in many colors. It will not be

made till men want it; men will not demand it until the mercury column is nearing the 90s; and when the 90s have been passed and when the shirt waist shall have been decided upon as the proper thing for another season, a hot summer is expected to keep hotel porters and even hired bruisers busy in throwing the shirt waist man out of windows of the dining-rooms, provided the flimsy garment is not accepted as inevitable.

In this respect, however, the shirt waist for 1902 will find it possible to for the entertainment is said to be avail itself of the cumulative victories of a stormy past. When the first

spicuous comfort. Still it is a question if the shirt waist is to be an institution in the that it may be, if there is a hot summer; that last season a sudden hot spell made a sharp demand for the garment in the neuter gender, while

would shut it off in an hour. "We haven't a man's shirt waist in the house," said the manager of one of the largest furnishing houses downtown. "Whether we shall have one later on is a question. We have to consider two possibilities in a probable demand. One is the heat of sum-

shirt waist is to be good form. "Last season's shirt waist brought out two marked difficulties in the way of making the garment popular. first was that fat men, to which the waist really appealed most, could not find becomingness in them. A really fat man in a shirt waist of any color is a thing to drive a nervous friend to drink. The only man who looks at all well in them is the man of average height, weight and build. A long, stance. It cost Jack \$20 a head if it lean, man cannot wear the thing. other chief difficulty in wearing readymade shirt waists is that the peculiar other twenty. And the most he will shape of the shoulders of the garment get from us will be a few oyster forks makes the fitting of colors difficult, and, having the sharply defined waist band, has to be carried in almost in-

trousers, and with cuffs attached to

"As to colors, everything this season seems to be on a white background. Any colors to be popular will have to be modest and figures in the main will be small. The only thing really new and striking are the tan shades, which promise to have a vogue in shirts. They would make up tastefully into shirt waists."
From another point of view than that of the furnisher's, too, the shirt friends, there is usually only time waist in Chicago hangs on the hook cago man never wholly separates himself from his overcoat. A drop of 20 degrees in temperature is as likely on August 20 as it is on January 15 and 20 degrees down for the mercury is hard on the shirt waist man.

"As a matter of truth," said a well-It is a woman's garment, not neces-Our custom begins to lean more and sarily from its shape and coloring, more toward the modern English one but because of its lightness of maon, buttoned to the chin, while women in shirt waists and without wraps are wholly uncompaining. If a man with undershirt shirt, vest, and coat must still put on an overcoat in a tempera-

> "I don't know if anyone has decided just why it is that women wear shirt waists with such impunity in midof the blood may account for it. In a man the heart, in weight, is about one pound for each one hundred pounds of flesh; in a woman it is one pound to one hundred and forty. Theoretically, one might argue from this basis that a woman should be of warmer blood than a man.

"Certainly, from what I know of able gift, which may be bought for Chicago men and the Chicago climate, the shirt waist will never become universal here. As a garment it is an It is the only country in the cago man prefers heat to cold any

afflicted as Job was and has done his best to be patient. One thing, how-ever, is, that the boil could not be hid, as it attacked the most prominent feature of his physiognomy, his nose, that nose would be worth a fortune to some one in the role of a living ex-

ENJOYABLE SMOKER. An enjoyable smoker was given at the Conservative Club Rooms last night, with Mr. Wm. Gray, the president of the club, in the chair. Mr. Wm. M. McMahon, of Tilsonburg, rendered several comic songs in a manner which proved him to be a clever entertainer. Other musical numbers were contributed by Penny Brothers, Mr. John Dromgole and Mr. A. Morphy, instrumentals; Mr. John Hughes, whistling solos; Mr. G. Morkin, clog dances; and Messrs. Fred Fitzgerald, E. Moule, Albert Riddle and A. E. Galpin, in quartets. Mr. Morphy was the accompanist. Among those who spoke were Dr. John D. Wilson, Mr. John Forrestal, Major Beattie, ex-Mayor Essery and Mr. John Christie. A chair won in a whist match by Mr. John M. Dillon was presented him by Mr. John M. Bayly.

ST. JOHN'S 209a

Exceptional Attendance at the Col. Leys, Ex-M. P. P., Informs Gun Club Blue Room.

Grand Master Fred Guest Noteworthy Event.

The members of St. John's Lodge, No. 209a, excelled themselves as hosts last night at the Masonic Temple. The occasion was inspiriting. The deputy district grand master, Brother R. W. Fred. Guest, of St. Thomas, was their guest, for the first time officially, and more visitors thronged the blue room than have been in it since the new temple was erected. For their edification, W. M. Eardley, of 209a and his staff of officers, exemplified the third degree, in a manner so precise and impressive as to win the utmost praise from their guests. When the formalitles of the lodge room were over, the brethren assembled in the banqueting hall, where, under the gladdening influences of an appetizing supper, delightful songs and recitations, and speeches of usual Masonic excellence, an extremely enjoyable time was spent. Some of those who were present were: R. W. Bro. Guest, D. D. G. M.; Bros. Henry Jones, W. J. Murray, John A. Couse, W. Kettle, J. Giles, R. Mc-Donald, Arthur Baldwin, John Forbes, G. W. RECORD-BREAKING FREIGHT HANDLING

Engine No. 980 Pulls 1,410 Tons From

Tunnel to Falis.

The heaviest train ever pulled over the tracks of the Grand Trunk by one engine passed through this city yesterday on its way to Niagara Falls. Engine No. 980, under charge of Engineer Newell, pulled the train, which was composed of 50 51-ton cars and caboose. The cars were filled to their utmost capacity, and the train weighed 1,410 tons. Conductor Holingshead was in charge of the train. It took about twelve hours to make the trip from the tunnel to Niagara Falls.

GOVERNMENT WILL BUILD HATCHERY HERE

of This Intention.

The London Gun Club executive, at he told them that the Ontario Government intends to establish a fish hatchery here this summer. It will be a permanent structure and will cost about \$1,000. Bass and trout fry are to be raised in great numbers, and will be used to supply the streams throughout the district, and it is expected that by this means the waters in London and the adjoining district will in a few years be rich with fish. It is intended to make the hatchery a first-class one and to employ in it none but experts. The club will consider these and other matters at its meeting next Tuesday night.

ON THE SLY."

Patients Drink Contrary to Doctors

Orders. Bad food habits hurt the habitue and sometimes affect others. A mother was in such a miserable condition from coffee drinking that when her baby was born-but let her tell her own talc. "I steadily grew worse. When baby was born it was a skeleton of mere bones, and so weak and puny that its little life soon flickered out. I had been suffering for several years with stomach trouble and nervous diseases, the doctor said 'brought on by coffee.' "At times I would swell up until I could hardly breathe, but I poohed when the doctor told me coffee was the cause of it all. Why, I had used coffee for years without seeing that it did me any harm, so the silly idea of a fogey doctor was not going to make me give up my favorite beverage and I kept on using it on the sly unknown him, while he gave me every sort of tonic and pills to attempt to cure me and get my nerves in a healthy

"After baby's death I was sick in bed and the doctor insisted on keeping coffee away from me. He put me on Postum Food Coffee and Grape-Nuts. I shall never forget how I relished the first cup of fragrant, black Postum and how good the Grape-Nuts with cream tasted, and, as if by magic, I began to sleep all night for the first

time in months. "Slowly I began to gain in strength and flesh, and my mind began to clear up. My stomach gave me no pain, and the doctor was greatly surprised at the change caused by the food and drink and pleasantly named them the 'magic nerve restorers,' for he says they built up my nerves and strength as nothing else on earth could. "It seems to me I am twice as large as I used to be, but it is good, healthy tissue. I have been made a well woman by Postum Food Coffee and Grape-Nuts."

Name given by Postum Company, Battle Creek, Mich. The cost of making a cranberry bog

productive is \$300 to \$500 an acre and three to five years' time. HOW TO CURE ALL SKIN DIS-EASES.
Simply apply Swayne's Ointment. No internal medicine required. Cures tetter, eczema, itch, all eruptions on the face, hands, nose, etc., leaving the skin clear, white and healthy. Its great healing and curative powers are possessed by no other remedy. Ask your druggist for Swayne's Ointment.

There are 51 women to every 49 men general break down. General Hampton celebrated his 84th birthday last week.

Anyone troubled with boils, pimples, rashes, festering sores, or any chronic or malignant skin disease, should use Burdock Blood Bitters externally and take internally. It will cure where others fail.

In Switzerland.

THE great lung healer is found in that excellent medicine sold as Bickle's Anti-Consumptive Syrup. It soothes and diminishes the sensibility of the membrane of the throat and air passages, and is a sovereign remedy for all coughs, colds, hoarseness, pain or soreness in the chest, bronchitis, etc. It has cured many when supposed to be far advanced in consumption. in Switzerland. advanced in consumption.

ELBERT HUBBARD PRAISES THE ASYLUM AT LONDON

Better Than Similar Institu- of the runaway. They telegraphed to his friends, but he had not reached tions in the States.

Sets World Example in Many Important Respects.

Has Shown What Kindness, Trustfulness and Work Can Do in Ministering to a Mind Diseased.

Elbert Hubbard, whose unique and strong personality has brought him into prominence among the men of the world who are "doing good work," to use one of his favored expressions, writes most interestingly of the London Asylum for the Insane, and of its late superintendent, Dr. R. M. Bucke, in "The Philistine" of this month. He

The Asylum for the Insane at London, Ont., under the superintendence of Dr. R. M. Bucke, has in several important respects set the medical world an example. It has shown what kindness, trustfulness and work can do in ministering to a mind diseased, plucking from memory its rooted sor-

carry the idea that what is known to Dr. Bucke is not known elsewhere. Truth is in the air and below. who can appropriate it; every great invention has been worked out by several men, in different parts of the world, at about the same time; and the general policy that Dr. Bucke follows in the treatment of his patients is world-property, like the kindergarten idea, and belongs everywhere to the men who think and the women who

Dr. Bucke has no secrets. Anything he knows is yours for the asking-but tive ability shown in their manage neither Dr. Bucke, nor anyone else, can impart to you anything you do not

Dr. Bucke called his attendants together and said, "Let us never again cuffs, straps and straight-jackets; never again will we meet violence with violence; if we are struck, we will never strike back-we will rule kindness; we will master by mind."

POLICY OF KINDNESS.

And for twenty years, this has been the policy-kindness, patience, cheerfulness, trustfulness, work. And the scientific world has to great degree adopted the policy.

for well doing. mania for destroying things, are placed in a ward where there is no furnisesses. A simple condition—less made or Pocatello, at the very low rate patient has a room of his own. This 2. The attendants, including nurses days' trip, including all meals and lodgroom contains an iron bed with and physicians, at London are in the ing beyond Monida. springs, mattress, blankets, sheets and ratio of one to each fifteen patients. bedding it is taken away from him, seven. but only for a few hours at a time. ed with sunshine and is scrupulously accustomed to using tobacco are allowed the weed in moderate quan-

In summer the inmates of this "violent ward," which we will call ward A, are all taken out into a large pleasant yard, and spend the day there. No exception is made to the rule, unless a patient is so ill that he cannot leave his bed. If a patient is violent, they let him work it off-it will not last long. Unless you meet violence with violence he soon gets enough of it. The insane man is apt to be a supreme egotist, and a good way to punish him

is to pay no attention to him. SCHEME OF WARDS.

Beginning in ward A the plan is adopted of trying to get a patient to forget himself and become interested in others. Thus one patient is asked to help take care of someone else. If he reveals a disposition to be useful, even in the most trivial way, his case is looked upon as hopeful and he is promoted to ward B.

Here the plan of the room is the same as in ward A, only there are pictures on the walls, chairs instead of benches, tables with books and magazines and usually a piano. The vomen and men are in separate wards, but the scheme of getting the patients to workis the same. In the wo-man's department, for instance—ward B-I noticed a young woman patient combing the hair of another who was somewhat uneasy and fretful. does not appreciate your kindness," I

said to woman No. 1. "Oh," was the answer, "one does not expect gratitude from these poor creatures. We never resent anything, no matter what they do." Woman No. 1, a patient herself, yet was full of the Master Spirit of the place-she must be helpful and she

must be patient.

Ward C differs only from ward B in that there are curtains at the windows, more pictures on the walls, rugs on the floors, and each patient's bedroom has a mirror, washbowl, soapdish, hair-brush, comb, etc., and many little things in way of decoration. Some of these rooms with their photographs on the walls looked not unlike students' rooms at colleges—no orderly, well kept, and full of individuality they

In ward C the inmates, almost without exception, come and go at will. If they run away they usually come back of their own account. Dr. Bucke told me that in 26 years at this asylum he had never known a patient that ran away to injure either himself or anyone else. To make surveillance too rigid is a disadvantage in many ways; to be deceived by a man is not so bad as to distrust him-and this applies even to insane people.

TRUST DOMINATES.

Trust-that is it-trust is the dominnt note in that whole institution. Once a man escaped from ward A The man had recently arrived and was said to be very dangerous. A search was made, but no trace could be found | Lock Box 75.

About three months afterward one of the employes of the asylum accidently found the man working for a farmer ten miles away. The man had hired out and was doing good service, living in the farmer's household. The family were entertaining a lunatic, unawares. The employe said nothing, but went home fast to report to Dr. Bucke, so the runaway could be cap-

"Leave him alone," said Dr. Bucke. "He is getting better treatment than

we can give him here."
The man worked a year for the farmer, and having saved a hundred dollars, bought himself a new outfit of clothes and a ticket for Colorado, and disappeared. Dr. Bucke tells this story with a sly twinkle, to illustrate what scientific treatment rightly applied will do for

an insane man. Ward D is made up of detached cottages, scattered around over the beautiful farm. Here the patients live simply as families. There is no restraint of any kind. They keep regular hours, work, and have many employments—

each according to his need. When patients are discharged from this ward they sometimes decline to go; and when they do go it is with much handshaking, fond adieus and the usual feminine tears.

I happened to witness one such scene at the London railway station. Four women were in the carriage, two men were on the box. "They are all our folks," said Dr.

One of the women was in tears, and

the white-aproned nurse looked weepy. "Ah," I said, "poor things, they have just arrived." "No," said the doctor, "the woman who is crying we discharged cured. The others just came down to see her

off, and say good-bye." While the general policy of conducting hospitals for the insane is everywhere about the same, yet the execument, of course, varies greatly. A great success in anything is only possible where there is one-man power. Ontario Government has shown rare wisdom in leaving Dr. Bucke aloneuse physical restraint with our pa- he has not been hampered by petty tients; we will do away with all hand- officialism, and thus he has been able to work out his own ideas.

THE ASYLUM'S EXCELLENCE. In several respects, I believe the asylum at London is in advance of any

similar institution in the United States and Yellowstone Stage Company, in -three of which items might be nam-1. Better housing at less expense per capita. The buildings at London represent an outlay of \$400 for each in- Denver, Cheyenne and points east,

Intoxicants are counts for the small number of paid excluded entirely, but those who are employes and attendants. The prime object of this economy is not to save money, but is a hygienic measure and

in the interest-physical and mentalof the patient himself. "When thee builds a prison, thee would better build with the thought in mind that thee or thy children may

occupy the cells," said Elizebth Fry to the King of France. Most of the buildings at the London asylum were built under the personal supervision of Dr. Bucke himself, and in the arrangement, as well as in the entire conduct of the institution, he has worked as if it were for himself. His attitude toward a patient is, "I am

that man.'

A SPIRITUAL ANNEX. As a sort of spiritual index to the heart of Dr. Bucke I herewith reprint the dedication from his book "Cosmic Consciousness'

"To my son, Maurice Andrews Bucke.

"Dec. 8, 1900. "Dear Maurice-A year ago today, in the prime of youth, of health and strength, in an instant, by a terrible and fatal accident, you were removed forever from this world in which your mother and I still live. Of all young men I have known you were the most pure, the most noble, the most honorable, the most tender-hearted. In the business of life you were industrous, honest, failthful, intelligent and entirely trustworthy. How at the time we felt your loss-how we still feel it -I would not set down even if I could. I desire to speak here of my confident hope, not of my pain. I will say that through the experience which underlie this volume I have been taught, that in spite of death and the grave, although you are beyond the range of our sight and hearing, notwithstanding that the universe of sense testifies to your absence, you are not dead and not really absent, but alive and well and not far from me this moment. If I have been permitted -no, not to enter, but through the narrow aperture of a scarcely opened door, to glance one instant into that other divine world, it was surely that I might thereby be enabled to live through the receipt of those lightning-flashed words from Montana which time burns only deeper and deeper into my brain "Only a little while now and we will

PREMIER ROSS AND HIS MINISTERS AT THE SOO

ing City of the West."

Industrial Development Unequaled for Rapidity in Canada.

A Glance at the Clergue Industries-Activity and Prosperity in Full Swing -Remarks at the Meetings.

Sault Ste. Marie, April 10.-This "rising city of the west," as it is aptly described, was honored today as perhaps no place outside the capital of the that there was not another Clergue province has ever been honored. That Company to open up that region, and At had within its limits at one time | not twenty Clergues to assist in build-Premier Ross and five of his ministerial ing up Ontario. He referred to the colleagues and Hon. F. E. A. Evanconstruction of the government railturel, speaker of the legislature for the way, and declared he felt sure the ridpast seven years, was a tribute to the growth as if by magic of the "Soo" to a city of 12,000 people by an industrial tard the development which was takdevelopment unequaled in rapidity in the history of Canada. The visit was the climax of the ministers' observations of the results of the development stated amid laughter that a meeting policy in New Ontario, and, though a of the Privy Council might yet be held careful inspection of the industries es- at the Soo before the departure of the tablished by Mr. Clergue has been deferred until tomorrow, enough has been seen to open wide with astonishment

the eyes of every member of the party. It was with the greatest delight and surprise that Premier Ross listened to Mr. Clergue today, when he said that place in this vicinity. (Laughter.) He the original expenditure of \$4,000 contemplated on a pulp mill here had been | their town was attracting the widest increased to beyond \$20,000,000 already attention, and in his visit to Montreal laid out on the Canadian side, and he had seen the people of that place that, as the great capitalist put it, casting jealous eyes on the there is still \$15,000,000 in the treasury to be invested on this side. SUCCESS OF THE GOVERNMENT'S

POLICY. It was therefore with great satisfaction that the ministers heard and saw the evidences of prosperity, and as they faced the splendid audience tonight pointed to the success of the government's policy, and indulged with confi-"Soo." The speakers did not fail to tario. refer to the opposition of Mr. Whitney | which make for your advantage, and to the pulp concessions of the government, and the grant to the Algoma Central Railway, the latter being the ization," declared Mr. Harcourt.

NEW ARRIVALS.

basis upon which the industries de-

The ministerial party became complete tonight by the arrival of Hon. Mr. Harcourt concluded by predicting Mr. Dryden, Hon. Mr. Latchford and Hon. Mr. Evanturel, who recently addressed two very successful meetings would become one of the foremost at Sturgeon Falls, where the Liberals cities in Canada. of West Nipissing nominated Mr. Joseph Michaud, merchant of that town, as their candidate in the coming elecleave at 7 p.m. for Toronto.

AT SAULT STE. MARIE.

before noon, when they were met by a reception committee and driven around a portion of the Canadian "Soo," the trip including a visit to the General Hospital. In the afternoon Mr. F. H. Clergue conducted the party, on his tug, the Phila, on a trip down the river, from which a good view was obtained of the many new houses and factories being erected on both sides er house being erected by the Clergue syndicate inspected. This is a building 1,400 feet long designed to ing 1,400 feet long, designed to genebeen built for factory sites, out of the earth excavated from the power canal. The latter is 21/2 miles long, 250 feet wide, is of the most permanent construction, and cost, together with the power house, upwards of \$4,000,000. Half the power has been leased to the Union Carbide Company, and the power plant will, it is expected, be completed by July. A drive through the American "Soo" concluded the after-

noon's programme. THE EVENING MEETING.

The meeting this evening was held in the auditorium of the International ... Hotel, which was crowded to suffocation with an audience of probably 800 people. The chair was filled by Mr. Neison Simpson, beside whom sat Premier Ross and his five colleagues, Hon. F. E. A. Evanturel, Mr. C. N. Smith (Liberal candidate), Mr. D. M. Brodie, of Massey, and Mr. C. F. Far-well, ex-M.P.P. The hall was decorated with mottoes, flags and bunting, "Welcome amid the former being: "Remember Ross, the Builder of New Ontario"; "Develop Natural Re-sources", "Vote for Smith."

The chairman expressed gratification at the great honor paid to what he called "the rising city of the west" by the presence of so many distinguished speakers.

HON. E. J. DAVIS.

Hon. E. J. Davis, who was first called upon, referred to Mr. Whitney's opposition to nearly all the pulp agree-Investments of this kind were apt to lead to further business ventures, and he reminded the audience that from the original investment at that from the original investment at the "Soo" of \$4,000 in a pulp mill, there had sprung an expenditure of from \$15,000,000 to \$20,000,000. The pulp agreements thus far entered into

Marvelous Growth of a "Ris- | Whitney had also, at the late session, opposed all the railway subsidies, and years ago he had denounced the grant to the Algoma Central Railway as a gigantic steal, while, as a matter of fact, that railway was doing more of fact, that railway was doing more to build up the "Soo" and vicinity than any other enterprise in this portion of Ontario. (Cheers.) Mr. Davis referred to the rapidity with which settlement was going on in New Ontario, and said the people could not do better than return Premier Ross

> HON. F. R. LATCHFORD. Hon. F. P. Latchford expressed pleasure in ldressing a meeting in a town where there were more than ten thousand living witnesses to the wisdom of the development policy of the Ross Government. (Loud cheers.) Mr. Latchford referred to the proposed construction of the government railway from North Bay, and regretted ing would return a supporter of the government and condemn a party which had done all in its power to ra

ing place. MR. SPEAKER EVANTUREL. Hon. F. E. A. Evantural, who spoke briefly, and in his own bright way, ministers. He was too recently from outside the party strife to make a political speech, and he had merely come to Sault Ste. Marie to ascertain if the statements were true, made in his presence in the house regarding a phenomenal steal which had taken assured the residents of the Soo that

(Laughter.) HON. RICHARD HARCOURT. Hon. Richard Harcourt congratulated the people of the Soo on the great progress they were making. He referred to the late Cecil Rhodes as a man of ideals, his object being to con-Ontario, had an idea, which was to sidered promising. Marter had opposed the policy of his party and supported the government on all the issues affecting New Ontario, and he was the only man in that party who knew this part of the province. a great future for Northern Ontario, and expressed the belief that the Soo

PREMIER ROSS.

Premier Ross, who was received with tions. Hon. Mr. Gibson and Hon. Mr. loud and prolonged cheers, said he had Davis returned from Thessalon, where first visited the Soo in 1859, when as a they addressed a most successful meet- school teacher, dissatisfied with a saling last evening. The premier and Hon. ary of \$14 50 per month, he started out Mr. Harcourt came on from Bruce in search of better fields. After a brief Mines, where they, too, spoke at an general review of some of the features enthusiastic meeting. It is intended to of the government's general adminisinspect a portion of the Algoma Cen- tration, he referred to the growth of tral Railway and the various industries | the industries at the Soo. Three years of the "Soo" tomorrow, and the party ago Mr. Clergue had two small steamers on the lakes; now he had eighteen steamers. What would have been the result if the government had not seen The train containing the premier's fit to encourage Mr. Clergue in his efparty arrived at 10:30 a.m. The tourforts to develop the country? Now they ists remained on board until shortly had seventy miles of railway laid northerly with steel, and in a few months there would be seventy miles more laid with steel, all made on the shores of their beautiful river. A few years ago there was not a man in the Soo employing five men; today Mr. Clergue had paid out \$150,000 in wages for the past month. Twenty million dollars had been spent on this side by Mr. Clergue, and he had stated there was the American side, and the new pow-

sion to a point three miles away, where Algoma Central Railway as a phenomfidence can you place in men who so seriously misjudge events? What confidence can you place in men who have so failed to appreciate those things upon which so much depends? Amid laughter, Mr. Ross referred to the name of Mr. Miscampbell, the Conservative candidate; the prefix usually, as in misstep, misquotation and misfortune, meant bad. He said they would have to consider whether they would vote for a bad Campbell or a good Smith. (Loud laughter.) The opposition had opposed the School of Science, so important for the education of the miners. In fact, you cannot turn to the right or left, the premier added, without finding monuments to the prosperity of this country, not one of which would have been erected if the

opposition had had its way. NOT A DESIRABLE CHANGE.

The opposition say it is time for a change. It would be a change, a change that every man in the "Soo" would feel in his pocket; a change that would keep away the millions that would come to us for pulp and railway enterprises. It would be a wet blanket upon the pulsating forces of this country that are trying to keep step with than usual, which will g the prosperity of the country. (Loud tate traffic at the north. cheers.)

called upon, was given a cordial reception. He predicted victory for himself on election day. The "Soo" wanted a manual training school, and he promised, if elected, to secure that or know the reason why. He asked for three cheers for Premier Ross one of the avoyed consequative intention would result in the employment of hundreds of men and the expenditure in plants of upwards of \$5,000,000. Mr. Mr. Mow the leason why. He asked for six months. This price is in line with three cheers for Premier Ross, one of the avowed conservative intentions of the avowed conservative intentions of the leading interests. Yet spot transmit in plants of upwards of \$5,000,000. Mr.

ness, and the meeting closed at 11:30

with cheers for Mr. Smith. The hotel auditorium being unable to hold all who wished to hear the speakers, an overflow meeting was held in the court house, where Hon. Mr. Davis and Hon. Mr. Gibson spoke. Mr. Gibson, who speaks with much enthusiasm of the development in Algoma, dealt in a way that roused the enthusiasm of his audience with the great many lines withdrawn or advanced in progress made at Sault Ste. Mare since his last visit.

AND NUMEROUS

Satisfactory State of Trade in Canada.

Banking Transactions Have Been of Enormous Volume.

The Situation in the United States-Bad Weather and Labor Disputes Interfere With Business.

Toronto, April 11.-Bradstreet's Weekly Trade Review says:

Reports as to Canadian trade deal largely with prospective rather than present trade. Banking transactions are, however, of enormous volume. Failures for the week number 26, as against 18 last week, 25 in this week a year ago and 35 in 1900. Clearings aggregate \$54,502,000, an increase of 71 per cent over last week and 87 per cent over last year.

There have been the usual drawbacks to trade at Montreal this week, which are characteristic of the spring season, but the volume of business done has been very satisfactory for this time of the season. The looked-for early opening of navigation is causing some activity in shipping circles, and large quantities of ocean freight are accumulating for the first boats to depart as soon as the season opens. There struct the Cape to Cairo Railway. Mr. is a buoyant feeling in wholesale Clergue, the Cecil Rhodes of Northern trade circles, and the outlook is con-

which will soon and surely come to the fortunes with those of Northern On- of fair volume. Orders by mail and from travelers are large and numerous, and although the bulk of the shipments in first orders have been made, the wholesale trade here is still busy sending out goods. The large influx of settlers into New Ontario and the west has stimulated the large demand for goods from those parts of the Dominion, and a large increase in the volume of business with those sections of the country is expected the present year. Country remittances

are very fair. At Quebec business as a rule is reported satisfactory. The continued fine weather with good roads in the country districts has had a desired effect in wholesale circles, and the movement of merchandise is in order. Shoe factories are busy. Country remittances are reported fair. maple sugar crop will be ahead of previous years, and an abundance will

shortly be in the market. Business at Hamilton has been quite active this week. Large shipments are still being made by the jobbing trade. Prices of staple goods are very firmly held.

Trade in wholesale circles at Winnipeg is more settled. The effects of the recent big storms and the subsequent floods are passing, and business is resuming its normal conditions. Reports on the wholesale trade situation are very encouraging, and jobbers are getting in large stocks to meet the expansion in the demand for

staple goods. Business at Pacific coast trade centers is moderately active in some de-partments. Building operations are fairly active, and the demand for lumber is good. There is great activity in shipping business is showing consid-Mr. Ross then quoted Mr. Whitney's erable activity, and a good season is denunciation of the grant to the promised for that industry. Payments

new land 3,500 feet long has enal steal and the greatest attempt at t for factory sites, out of the public robbery, and asked: What congruence of the public robbery, and asked: What congruence of the public robbers and interpretation of the public robbers. At London there has been a fair inmer goods to sort stocks, and jobbers are busy shipping goods. The outlook for the coming season is bright. Pay-

ments are very fair. Wholesale trade at Ottawa has been fair for this season. Orders for sorting stocks are coming forward quite freely from country retailers, prospects are that the sorting trade that he turned suddenly and surlily this year will be much larger than in won Capt. Baker, who sat where he previous seasons.

IN THE UNITED STATES.

New York, April 11.-R, G. Dun & Co.'s weekly review says: Good news predominates in the business world, notwithstanding two somewhat serious drawbacks. Weather conditions have been unsatisfactory at many points, retarding retail distribution and delaying outdoor work, while excessive rain has put many southern planters behind with work in the cotton fields. Still more of a handicap is the strife between wage-earner and imployer. Manufacturing is exceptionally active in lines not in disturbed districts, and there is a vigorous movement of goods through regular channels.

Transportation is heavy, as shown by railway earnings in March that are 7 per cent larger than last year and 14.8 per cent above 1900. Lake navigation has opened two weeks earlies than usual, which will greatly facili-

Although speculation has increased very materially, it is still far short of ago.

to secure prompt shipment.
Firmness in cotton goods naturally follows the combination of light stocks, and the interruption of work at some mills with threatened disturbance at dations at about 6 per cent. Sales of others, together with the higher price

of raw material. Clothing buyers are seeking to secure woolen goods to substitute for deliveries retarded by the strike, but find the market heavily over-bought, and Worsted manufacturers are busy, and

there is a noticeable inquiry for yarns. Footwear manufacturers have secured a little more business, and shops have been able to avoid the reduced time that was feared. Jobbers have placed orders for fall supplies earlier than usual, which had a helpful in-Leather is quiet, after the recent ac-

More animation has appeared in the speculative markets for staples. Fluctuations were more irregular in corn, which broke sharply here and at the west, but made a partial recovery, although still remaining below the best prices last month. Wheat moved within narrow limits, varying a fraction, according to the preponderance of good or bad crop news. The most definite dispatches indicated a

thing positive. For the third consecutive week, the

slightly lower condition in the south-

THE TERRIBLE STORY OF A COLD-BLOODED MURDER

Joseph M. Miller Confesses ried and with a family, when my eye fell on a hatchet up at the house. It His Awful Crime.

Made an Engagement With Intention of Killing the Girl.

How He Planned and Carried Out His Dreadful Deed-Had a Bad Record in Woodstock.

Detroit, April 12.-As briefly announced last evening, Prof. Joseph M. Miller, at 12 o'clock, confessed to murdering Carrie M. Jennet. After being in the "sweat box" for an hour and twenty minutes, Miller broke down and confessed to the crime. Assistant Prosecutor Morram, three officers and the official stenographer of the police department were present. tions with the girl, and was respon-

Miller said that he had illicit relasible for her condition. He said he offered to send Miss Jennet to a lying-in hospital, but she refused to go, insisting that he leave his family and go to some other city with her. This he would not do. INTENDED TO KILL HER.

from home for the lodge meeting, he there for me." had an engagement with the girl, and intended to kill her. He took the hatchet that was found by the officers; after awhile sat down on the edge of yesterday in his kitchen with him. He the sidewalk." secreted this on 17th street, on his way to the meeting. When he left the lodge rooms he secured the hatchet Miss Jennet to her death. again, and proceeded to the corner of 14th street and Warren avenue, where he met Miss Jennet. They walked over to 13th street and out to where the killing was done.

THE GIRL'S ENTREATIES. Miller says they sat down on the sidewalk and talked for a while, the girl urging him to abandon his family and leave the city with her. then whipped out the hatchet struck her in the head.

THE FIRST BLOW. When asked why he mutilated her so, Miller said he had no recollection of anything after the first blow until he found himself wiping the blood off his hatchet on the grass in the vacant

DENIED ALL KNOWLEDGE OF THE MURDER.

At first Miller denied any knowledge of the murder, and later was inclined to be defiant, telling the officers that they undoubtedly thought them- position. selves clever, and he would therefore leave it to them to prove that he was

But he began to weaken when he had

been questioned about twenty minutes.

It was then, when he was being closely interrogated by Mr. Hunt, as to when he had last seen Miss Jennet, could look the prisoner full in the face. "Look at that man!" cried the murderer, dropping his eyes before the steady gaze of the police captain. "His eyes pierce me through and through." A shudder passed over him and he

It was understood by this that he meant the blood-stained clothes, the hatchet and other circumstantial evidence which the captain had shown him and talked about, told the story. Then, with a heavy sigh, the man who had partly unburdened himself of a fearful secret went on to tell the circumstances leading up to the mur-

glanced at Baker again and added:

"I guess that man has it about right.

MADE A DATE.

Miller said that he made a date with of Warren avenue and 14th street about 11 o'clock Wednesday night. They Mr. C. N. Smith, the Liberal candidate in the "Soo" division, on being date in the "Soo" division, on being were 175 per cent less than a week in view of the expected birth. He he had to attend a meeting of the Garland Rebekah Lodge.

"Last Wednesday afternoon," he and joking together, Miller, to make answered. "I was thinking of what the occasion more interesting, telling

could be done, and of my being marseemed to tell the way out of the trouble, and the idea of killing the girl swept over me with irresistible force

"HAD TO DO SOMETHING." "I felt that I had to do something," he went on in a lower tone, the baleful light in his eyes dying away, and an impatient look taking its place. "I

to be in the neighborhood." "So you concluded to kill her?" "Yes," this slowly, deliberately, as though Miller was once more weighing

the awful matter in his mind. "I waited until evening, then took hatchet in my pocket, and, walking over to 17th street and the railroad more good. The result of last night's track, hid it inside the fence, where I function will be the adding of a tidy ten. could get it later."

"And then you went to the meeting of the Wolverine Circle on Baker street?" asked Mr. Hunt. Miller merely nodded.

"What time did you leave there?"

WALKED ALL WAY. "About 10 o'clock, I think it was." "How did you get from the hall?" "I walked all the way," explained Miller. "I went first and got the hatchet, then walked down to Warren Wednesday night, when he started and 14th and found Carrie waiting

"What did you do then?" "We took a walk up 13th street, and

Letters to the Editor lead to the conviction of the parties

LETTER FROM MR. LANG. To the Editor of The Advertiser: I want to protest against the Springbank line being diverted from its present course, and I believe many other South London residents will join with me, if they will only give the matter serious thought. It seems a very little thing to merely change the route of Springbank cars to run via Beaconsfield avenue, but it means that residents of South London, who are now carried near to their homes without change on their return from Springbank, will have to transfer at Railway street. There they will be compelled to wait, goodness knows how long, for a belt line car, most of which are taken off in times of a rush and used for Springbank traffic. Very often passengers would be dumped there without transfers, as well, for it is a well known fact that frequently the conductor is unable to finish colle CRIME OF TWO YEARS." ing tickets until after Beaconsfield avenue has been passed. The proposed living down-town, but South Londoners will suffer, and I register a strenu-

ous protest. I hope others will join with me. JOHN LANG. 41 Bruce street. South London, April 12.

and go to Dresden, where he will engage in the grain business. John Hartley and son, Arthur, left on Monday for Sault Ste. Marle. John Woodward has offered a reward

sum to the funds of the benefit so-

At the hall over 150 couples thronged the floor of the city hall and joined in the merry dance from 9 a.m., when the grand march was led off by Col. Gartshore and Miss Patten, till an early hour in the morning. Every one of the 26 numbers on the programme was enjoyed to the full by the dancers. Mr. Fred Floyd proved an ideal master of ceremonies, and kept things moving with smoothness and celerity. The hall was artistically decorated with bunting and flags, while the floor was in prime condition. A number of spectators watched the gay scene from

the galleries, and seemed to find as much pleasure in the spectacle as the merry participants themselves. About midnight a tasty supper was served at the Walsh House. A pleasing feature of the affair was the enthusiasm with which members of the McClary Company entered into the initial arrangements and actual

enjoyment of the ball. Every assistance was given the society in their efforts to make the ball a success, and members of the company were seen on this cordial co-operation of sympathy between employers and employes which explain in a great measure the continued prosperity and success of the big manufacturing industry, of which the city of London is so proud.

The general ball committee, which worked faithfully and efficiently to make the ball an event to be long re-John McClary; president, W. M. Gart-Dr. B. Bayley; R. Spencer, H. Jinks, S. Reid, E. GIRLS' NEW JOBS.

Five Young Women Who Are Chopping In Minnesota Forest.

George J. King, the well-known hotel man of Pelican Lake, has just returned from his claim near the Big Fork River In Cass county, where he and Mrs. King hive been living since December, most

of the time in a tent. Mr. King says five young women from Minneapolis are their nearest neighbors, and all have been spending the winter on their homesteads in the woods. These women came out with store clothes, wraps and furs, but have discarded them and are now wearing skirts and jackets made from blankets. They were armed when they went into meat saws, but they have substituted posure, or of hard work seven days in four-pound axes and two-men saws for the playthings. The experiences of the young women would fill a book, but they do not compare with the astonishment of the two bachelor storekeepers in the wilderness when the five damsels paraded up to the store for supplies. One of the young women was in need of something to protect her feet, as her shoes were worn out. The best the bachelors could offer was Gerwaiting for a pair of small-sized lum- to no purpose. berman's overshoes to complete her Miss Homesteader pranced around the forest with the aforesaid socks and a pair of birch bark soles

ashed to her feet with binder twine. Mr. King is authority for the statement that the young women are becoming expert in the use of their axes. They can cut down trees, but the stumps look so much like the work of peavers that an experienced trapper would think he was on the trail of the iam builders. The young women are more careful now, for in felling a tree they managed to drop it on one of the tabins, and the owner was compelled to go visiting until her house could be

"They are the grittiest bunch I ever saw and I didn't think they would stay pre night in the woods," said Mr. King. "But they appear to enjoy it and none Yes, they are all young—from 20 years verity of the case, and the remarkable up. They will come out in a few days rapidity of his recovery through the and go to Minneapolis for a while, but use of Dodd's Dyspepsia Tablets.

they will be back on their claims again this summer. It will be easier for them to go in then, for they have cut three miles of road through the timber, and when they strike that road there is no danger of their getting lost, unless the beavers work a cross cut on them while they are away."

SALVATION ARMY.

Captain Lacy, An Earnest Worker in -His Patience is Re warded at Last

The life of an officer in the Salvation Army is never a bed of roses.

No man or woman has a place in this wonderful organization who is not prepared for hard work. There is no room in the army for the woods with lathing hatchets and those who are afraid of hunger, ex-

It is quite natural, then, that many of these devoted men and women find themselves very much run down, and the victims of many forms of disease. Capt. Lacy, of Hamilton, than whom there is no more self-sacrificing officer in the service of the Salvation Army in Canada, was tortured for eight long years with dyspepsia.

He exercised the greatest care pos-

sible in his diet, and did everything in man wool socks, and while she was his power to correct the trouble, but He used many medicines and treatments, some of which gave him a little temporary relief, but none gave

him a permanent cure. At last, by the advice of friends, he began a treatment of Dodd's Dyspepsia Tablets, and the results in his case were simply marvelous. The first dose gave him positive and instant relief, and before the first box was completely used he was almost entirely

cured. He can now eat anything he cares to without the slightest unpleasant consequences, and his general health is very much improved.

It is not often that such a small quantity even of Dodd's Dyspepsia Tablets will make a complete cure of peoples." a case of eight years' standing, but Capt. Lacey's careful living no doubt very much assisted and facilitated the

Capt. Lacey's experience is only one putfit, Miss Homesteader pranced of a great many, and it is conspicuous tled on their claims early in the winter. only on account of the exceptional se-

ANECDOTES OF CECIL RHODES

The Personal Side of His Character Illustrated.

Phrase-Maker — Sympathy With the Natives-Rhode's Love of Books-Impressed by Trifles.

[New York Sun.] If a man is rightly to be measured by the space devoted to him in the newspapers when he dies, then indeed none can deny that Cecil Rhodes was none can deny that Cecil Rhodes was great. It is not the purpose of this letter to discuss Rhodes' features or the story of his life. Posterity will settle the former, and the events of the latter are sufficiently well known. A few stories dealing with the personal side of his character may however. al side of his character may, however, be interesting.

His personality seems, indeed, to have been the most striking feature of Those who have written of the man. him that he was a subtle schemer, as some few have said, have been wrong. For the most part he seemed to have been of a frank, almost unblushing nature. His speeches are described as having sounded like the words man thinking aloud. And certain that if Rhodes

could only meet a man or a committee personally he could talk either over. One of the widest spread stories of Rhodes is that which credits him with having declared that he had never met a man whom he could not buy. The story is not true. It has its form in an expression of his which showed his confidence in his own powers of persuasion. When asked how he proposed to carry his Cape to Cairo telegraph across the Soudan, which was then under the dominion of the Kha-

lifa, he replied: "Oh, leave that to me. I never met the man yet that I could not come to an agreement with, and I shall be able to fix things up with the kalifa right enough when the time comes.' Rhodes rather fancied himself as a phrase maker. A writer who saw a good deal of him, describes him as repeating over and over again some saying of his with which he seemed to have been pleased as soon as he had

uttered it. Perhaps one of his best-known phrases is the "unctious rectitude" with which he reproved a certain class of his opponents in this country. No one in future who wishes to discuss the traits of the British character will be able to do without those two words. Some other sayings of Rhodes which have been left on record are as fol-

My life is a temporary one, but the country will remain after me. If I forfeit my flag what have I left? If you take away my flag you take away everything. Remember that sentiment rules half

the world.
When Dr. Jameson was convicted and sentenced for the part he took in the raid, Mr. Rhodes exclaimed: "What a tribute to the moral worth of the nation that has jumped the

World!"

I will challenge any man or woman you will come out all right. however broad their ideas may be, who objects to go to church or chapel who objects to go to church or chapel become a little hurried in our ideas beto say they would not sometimes be better for an hour or an hour and a half in a church.

In the Oriel Hall, Oxford, in 1899, he "I have been interested in Aristotle's definition of virtue in the 'Ethics' as the 'highest activity of the soul living for the highest object in a perfect life.' That has always seemed to me the noblest rule for a man to follow, and I have made it my rule

"Life is too short, after all," he used to say, "to worry about previous lives. From the cradle to the grave-what is Three days at the seaside. Just that and nothing more. But although it is only three days, we must be doing something. I cannot spend my time throwing stones into the water. But what is worth while doing?" Sympathy with the natives, Dr.

Jameson affirms, was one of Mr. Rhodes' prominent characteristics. He says: "He likes to be with them; he is fond of them, and trusts them, and they admire and trust him. His favorite recreation every Sunday afternoon was to go into the De Beers native compound, where he had built a fine swimming bath, and throw shillings In for natives to dive for. If there is a man in South Africa who deserves the title of the black man's friend, it is Cecil Rhodes."

LOVE OF BOOKS. Archibald Colquhoun, author of the "Mastery of the Pacific," who served under Rhodes and knew him well,

writes "So much has been written on the subject by people who either knew little about him, or were not in a position to express unprejudiced opinions, that there is nearly as much obscurity save the king, who was his honored around the great modern statesman as guest. Now, what would you do?" Napoleon Bonaparte. Where real man in all this tangle of fulsome Hamilton, Ont., Endured Awful Pain praise or wholesale denunciation? We can at once dismiss the idea that he was either an archangel or a demon, a great Elizabethan statesman, a simple English gentleman, or an unscrupulous

"When a man has become a millionaire it is usually safe to suppose that money-making plays a great part in his life. Cecil Rhodes profoundly believed in money; until he had made it he believed he was powerless to carry through the great schemes he had evolved. Money to him meant power, but the mere accumulation of shekels, or the pleasures and splendors which gold could buy, he cared nothing.

and his extraordinary powers of as-similating them. He could, like John booklet of CHOICE RECIPES, pre-Richard Green, suck the heart out of pared by Miss Parloa and other noted a book in a very short time, but, unlike the author of the "Shorter History," he was incapable of reproducing in

writing what he had read. "The shortest letter was a trouble to him, and, indeed, he seldom, if ever, could be induced to write one. It must be said, however, that this extreme reticence on paper was not due merely to a dislike for writing or a feeling of incapacity, but to a caution which grew more and more marked. He was averse from committing anything to of the book will be sent free by mail the compromising evidence of black to any applicant in the United States

"His literary studies did not take him into the region of intellectual subjects, but were all connected with living facts. History, ancient and modern, was particularly congenial to him, and he devoured anything which would tell him of new countries or new

With all his greatness of conception it was curious how he was impressed by trifles. He related how, when in London for the raiders' trial, full of disappointment and apprehension, he found nothing so cheerful as the recognition of the London bus drivers as he took his morning ride. They got to know him; they touched their hats to

NEED A SPRING MEDICINE

GET YOURSELF INTO SHAPE FOR THE SUMMER.

After the hard work of the winter, the eating of rich and heavy foods, the system becomes clogged up with waste and poisonous matter.

The Blood Becomes Thick, Heavy and Sluggish,

Causing that tired, weary, listless, all-gone feeling so prevalent at this time of the year. It is necessary for you to take a blood medicine. Nothing is so good for this purpose as

BURDOCK BLOOD BITTERS

It has been used by thousands for over a quarter of a century and we have yet to receive a complaint as to its efficacy.

GET A BOTTLE AND SEE IF IT WILL NOT DO FOR YOU WHAT IT HAS DONE FOR OTHERS.

"No, that will not be necessary; she will doubtless soon be here," Mrs. Remington said, in reply to Laura's offer. "The guests are beginning to come down, and I want you here with me," and even as she spoke a number of people entered

Agnes, up in her own chamber, was indeed trying to calm her throbbing pulses and school herself to composure, to a semblance at least of indifference, that she might thus conceal the wretchedness of her heart. She did not mean to go down until a

good many of the guests had arrived; she thought she could slip in among them without being conspicuous and it them without being would not be so difficult to meet Max in a crowd. She had fully determined upon her role. Luckily for her, she thought, had not committed herself in any way she had betrayed by no word that she loved him, and she now resolved

to meet him upon the old friendly footing, with perhaps a trifle of reserve in her manner, while the absence of his flowers would tell him that she had decided not to wear his colors.

His colors! it seemed that he had a variety, she thought, with curling lips. had heard the bell ring many times, and was upon the point of going down, when a servant put her head in-side the door, saying that Mrs. Remington had sent to ask if anything had occurred to delay her appearance in the

'No. Jennie. I am all ready now, thank you," Agnes replied, calling a smile her lips, and checking a sigh over ordeal awaiting her, and then she went reluctantly down the stairs.
It was really Max who had sent the servant with that message. He had begun to be troubled and im-

feared that she might have been taken Agnes saw Mrs. Remington, Laura and Max, surrounded by a gay company, as she quietly entered the room and took her stand near her hostess, but as far om the two supposed lovers as po It caused her a spasm of keen pain to see them side by side, and she noticed, too, how unusually lovely Laura looked, but of course it was natural, she thought. for they were already betrothed, since she had heard her rival go down to meet him at the appointed hour. "My dear, how very late you are!" chided Mrs. Remington, the moment she could get an opportunity to address her;
"you have missed being introduced to a

number of nice people."
Max, who had been watching for her, saw her the moment she entered, and his face lighted, while his eyes rested with exceeding tenderness upon her; sh was so unspeakably lovely, he thought. But she never once looked at him, though she was conscious of every move-

ment that he made.
"My modest darling." he said to himself, as he noticed it, "she dare not meet my glance for fear she will betray her-"I am sorry if I have annoyed you by being so late," Agnes said, gently, in reply to Mrs. Remington, "but I fell asleep, and did not awake until nearly

"Poor child! I was afraid you were getting too tired; but your nap must have done you good, for you look as fresh as can be; your costume is charmonly you should have had some nice flowers. I am vexed with myself for not sending you some," her friend replied, regretfully, but regarding her with undisguised pleasure.

Agnes knew that Max had been listening to every word of this, and she wondered what he thought because she had not worn his offering, or what he would say if he knew it was at that moment lying among the ashes in the grate. She thanked Mrs. Remington, but quietly remarked that she had not cared to wear any flowers that evening. Again Max smiled, believing that he knew why she had not cared; that not being able to wear his roses, she would wear no others. He thought her rope of

CHAPTER XVIII. Yes, there stood Mr. Archibald as large as life—which, by the way, was nothing imposing—upon the threshold and surveying the brilliant company and beautiful rooms with the keenest interest manifest in every alert feature of his round, rosy face. He had come to the reception to see for himself what the creme de la creme of Chicago society was like, while he was also actuated by another motive in accepting Mrs. Remington's invitation, which was to subject Agnes to a severer test than any she had yet borne.

He was a striking, almost a grotesque, figure as he entered that elegant room, which was brilliant with the color, and redolent with the perfume of many flowers, and blazing with the light from a ndred gas-gets.

had yet borne.

The style of his own apparel was the same as he had been in the habit of wearing all his life—a short-waisted swallow-tail coat, black velvet vest, and old-style pantaloons, a stand-up dickey, and an ancient satin stock. The material of which they were made fectly new, and the suit had evidently been made for the occasion; his shirt front was immaculate, and his boots were polished to the last degree of brightness; his hair, which was rather cantily disposed upon his head, had dently been made the most of, for he had parted it in the middle behind, and brushed it forward on either side, to cover his baldness as much as possible

thus forming a bristling fringe on each side of his shining forehead, that gave him a comically pert appearance. But, in spite of all this, to Agnes' aching heart, the sight of his familiar face was the most welcome of any in the room, and she went eagerly forward to greet him, without a thought of being ashamed of his peculiar appearance. I am very glad you have come, Mr. she said, as she gave him her hand, and speaking with a real heartiness in her tone that testified to

'Eh? I believe you are." he returned. scrutinizing her face with an air of satisfaction, "and I don't mind saying I'm glad I came, too, though these new-fan-gled parties ain't much after my style." Agnes smiled, then slipping her hand within his arm told him he must come and pay his respects to Mrs. Reming-

That lady greeted him very kindly, and at once introduced him to Laura, who saluted him as if he had been a perfect stranger, and then immediately turned away to chat with some young people who were hovering admiringly around the beautiful girl. Max readily extended his hand to him,

are very glad to see you, sir, and though this is the first time you have nored us, I hope it will not be the "Thank you, youngster: I reckon you mean it, and I shall take you at your word," the old gentleman replied, in no very subdued tone, greatly to the amuse-ment of several people standing near, of several people standing near, wondered where the Remingtons had picked up such a specimen of originality

to grace their reception.

After chatting socially for a few mo ments with Max and his mother, and making two or three ineffective attempts to engage Laura in conversation, Mr. to engage Laura in conversation, Mr. Archibald began to turn his attention elsewhere. Agnes, fearing that he might be ignored by the stylish crowd about him, excused herself to Mrs. Remington and devoted

herself to his entertainment. She led him through the handsome rooms, pointing out choice pictures and other works of art, and finally introduced him to some pleasant people whom she had previously met and who she was uld treat him courteously. After that the old gentleman found no difficulty in being amused. Naturally independent, he had no notion of allowing anybody to snub him, and he did not hesitate to address any one if he took a notion to do so, and, being really bright and intelligent, it was not long before people began to be interested in him. "Mr. Archibald," Agnes whispered,

"Mr. Archibald." Agnes whispered, during a pause, and drawing him a little one side, "Mrs. Remington is beckoning me to come to her; but I want you to take me in to supper—will you?" "Eh?" he ejaculated. "Supper! I've had my supper." had my supper."
"Well, but of course you know that Mrs. Remington has provided entertain-ment for her guests," Agnes replied. "Hum—I would suppose you'd rather go with some youngster. What made you ask me that?" he demanded, curiously, "Because I would rather go with you than anyone else," the fair girl answered, and, in spite of her resolution not to yield to the wretchedness of her heart,

her lips quivered a trifle.

She knew if she was with him she would not be obliged to exert herself so would not be obliged to exert herself so much in conversation, or to keep up an appearance of enjoyment; besides this, she wanted to be able to say to Max or anyone else who might request her company, that she was already engaged.

"Well, then, if that is the case, fair and square, I don't mind telling you that I'd rather take you than anybody else," he rejoined, but thinking to himself that something had gone wrong with her, for

partial eyes, as to many others, she was the fairest woman in the room.

At that moment another group of people entered, and among them, and greatly to her relief and comfort, Agnes espied Mr. Archibald.

there was, now and then, a grieved expression about her mouth and a weary look in her eyes.

"Thank you," Agnes said, with a smile, "but," trying to speak archly, "be sure you don't forget me and engage yourself to some other girl."

there was, now and then, a grieved expression about her mouth and a weary look in her eyes.

"Thank you," Agnes said, with a smile, "but," trying to speak archly, "be sure you don't forget me and engage yourself to some other girl."

"Never you fear—there ain't another girl here than can hold a candle to you, in my mind," he responded, looking her over from head to foot for the first time. Agnes half turned away, then wheeled suddenly about again.

"Oh, how negligent I am! I have not inquired about mamma," she said, in a inquired about mamma," she said, in a contrite tone.
"I thought something had made you forget her," the man returned, searching

"I thought something had made you forget her," the man returned, searching her flushed face again, and with something of anxiety, "but she sent her love —said she hoped you'd enjoy yourself, and she should look for you home tomorrow or next day."

"But how is she, Mr. Archibald?" Agnes persisted improved in some way that persisted, impressed in some way that he had evaded a direct reply. first-rate. "She took cold a couple of days ago, and it seems to have settled on her lungs."

Agnes looked startled. Is she really ill-in bed?" she asked 'Hum! I reckon she hasn't sat up much day," he replied.
"Mr. Archibald, I shall go home with you tonight," Agnes asserted, with sud-den resolution, and at heart glad of an "Tut, tut! I did not say there was any cause for you to be frightened," Archibald returned, reassuringly.

That does not make any difference: I shall go," the young girl reiterated; then with a heavier heart than ever she went back to Mrs. Remington. Max-had been watching her all this time, and with a growing feeling of un-When her face was in repose easiness. When her lace was in repose she did not appear much like a happy, newly-betrothed maiden. He longed for an opportunity to speak to her, just to see the joyous light leap into her eyes as he looked fondly into them.

Gradually he edged his way around to her side, but she was so absorbed, just them in thinking shout her mother, that then in thinking about her mother that

he was close to her. Bending down to bring his lips on a evel with her ear, he said in a low tone: "Supper will be served in about fifteen minutes; you will come with me, will you not? I have scarcely seen you since you came downstairs." Her heart gave a great bound, for there had been an undertone of deep tenderness and appeal in his words; then it sank again like lead in her bosom.

If she had allowed herself to act out what she felt, she would have turned upon him with contempt. How dare he

continue such a farce with her after having betrothed himself to Laura? She controlled her feelings, however, remembering the role she had laid down for herself, and quietly replied:
"I cannot; I have promised to go with
Mr. Archibald." Max looked disappointed, while he grew more and more troubled over her man-ner. She had not even turned to look at him; her eyes were downcast, and there was a coldness in her tone that chilled his fond heart. "I am sorry," he said, regretfully, "I am sorry," he said, regretfully "but it was like you to be thoughtfu for him. Are you not quite well, Agnes?" he concluded, with tender anxiety, as

he saw how pale she had grown all at The effort she was making to preserve her calmness was almost beyond her power, and again her heart leaped wildly as he spoke her name—"Agnes." How he gave it a cadence all his own! Why need he so deceive and trifle with her? "Yes—no—Mr. Archibald says my mother is ill," she stammered.

Someone else addressed her just the Someone else addressed her just then, and she was only too glad to turn away from his anxious gaze, for that tense strain upon her nerves was becoming

Max moved away to another part of the room, but feeling strangely ill at Something was wrong with her, he could plainly see that, and he could not think that it was all caused by solicitude about her mother, although it was but natural that such unwelcome news should depress her

should depress her.

Still, she need not have denied him the comfort of one loving look to tell him that she was happy in her new relation with him, and that she yearned for his sympathy.

Her tone had been cold, reserved; her words brief, her manner constrained. What could it all mean? He resolved to know before he slept To be Continued.1

but Abyssinian for "Good morning." The words mean literally, "How have you spent the night?" The people of King Menelek are very punctilious in their salutations, and have a carefully graded scale of greetings according canal from the Danube to the Oder; to the person addressed and the time second, for a canal from the Donube to the Moldau, near Budweis; third, for a canal from the Danube-Oder canal to the Upper Elbe, and fourth, for a canal from the Danube-Oder canal to the Visadaw." they would gave "Index adaw." adru," they would say, "Indet adreh" (pronounced "adrech"-ch as in loch), 'Good afternoon' would be "Indet watu," or "wateh," meaning, "How have you spent the morning?". And

'Good evening," "Indet mashu," or masheh," i. e., "How have you spent the day?" There is a similarly complete series of good-byes for people separating at different times. Two friends parting in the evening, say, one going home and the other going to his club (only they haven't clubs in Abyssinia-except wooden ones, perhaps), would say to

each other, "Badehna adar" ("May you spend the night well"), which we might translate, "Good night; be good." THE CALENDAR. The Abyssinian calendar is a fearful and wonderful thing. Nearly every day is a saint's day, and is known by its proper name, and not by its date. For instance, if you ask an Abyssinian whether a certain thing happened on the 14th of Hadar (the equivalent of our Nov. 23), he will not understand what you mean; but if you say, "Was it on Abuna Aragawe (the name for that day) that you stole that sheep?" a comprehending smile will overspread his

handsome and intelligent features. The year is divided into twelve months of 30 days each, and at the end of the year, to make up the 365 days, are added five days, called "Quagme." Each year in succession is called Matthews, Markos, Lukos, Johannis, Matthews, Markos and Johannis each have a "Quagme" of five days, but Lukos, or leap year, has a "Quagme" of six days. The Abyssinian year begins on our Sept. 11, and, although dating as we do from the birth Christ, they are nearly eight years behind us in time—Sept. 11, 1900, was in their calendar 1st Maskaram, 1893. Their method of reckoning the hours of the day is also peculiar, to our notions. They count the day as beginning at sunrise, and not at midnight, as we do. Thus, our 7 a.m. is their 1 o'clock day, and our 6 p.m. their 12 o'clock day; 8 p.m with us would be 2 o'clock night with them, and our 4 a.m. would be their 10 o'clock night.

The whole population consists of two-fifths soldiers, two-fifths priests and one-fifth merchants, at least as far as the Abyssinians-the dominant race -are concerned. All the other necessary work of the community is performed by subject races, like the Gallas or Somalis, or domestic slavesmostly prisoners of war captured in the western negro provinces. All Abyssinians, except the very poorest, employ slaves for domestic purposes. These are well cared for and are regarded after a time as members of the

family. There is no trade in slaves in Abyssinia, as they can only be procured by the king's order, which has to be shown to the governor of the province, who thereupon gives his sanction. The slaves, generally boys or girls-the former for outdoor and the latter for indoor work-are purchased from their parents at an average price of \$10 a head, but the purchaser may never resell them, though he may, if he likes. give them away. The soldiers lead an easy life and have no work to do except use has this brand and when called out to serve on an expedition. It is true their pay is only \$5 is this shape you are a year-cash is scarce in Abyssinianot getting the best. but during peace time they are billeted

addition to this munificent rate of pay, a paternal government provides the new recruit at the outset of his military career with a donkey free. But his rifle the soldier must provide himself, as he must also maintain his don-

AUSTRALIA'S CANALS

Gigantic System To Be Begun in 1904 and Completed in 20 Years.

Of exceptional importance is a measure for a new system of canals which has just been adopted in Austria. According to Mr. Carl B. Hurst, United "Indet adru!" This is not a curse, States consul-general at Vienna, "this undertaking will do more than anything undertaking will do more than anything in Austria to promote the commerce of the country. It will only bring the various provinces closer touch, but will also afford cheapest freight connections with Ger-

> measure provides, first, for a The for a canal from the Donube tula and to some navigable portion of the Dniester. There will be about 1,000 miles of navigable waterways, which will be constructed by the state, with the co-operation of the provinces, districts and towns, and especially of Vienna and Prague. The contributions of the municipalities and provincial authorities can be made either by single payment or in annual installments, or through the erection of certain works, such as har-bors, docks or streets leading to them, bors, docks or streets leading to them, or through the cession of land or water

rights. The work of construction will begin at the latest during 1904, and the entire sys-tem will be finished within twenty years. The cost of construction, in so far as it will not be covered by contributions, is to be met by an issue of 4 per cent tax government bonds, redeemable a 90 years. The government is empowered to issue these bonds to an amount not exceeding \$50,750,000 during the period of construction from the year 1904 to 1912, and the money thus raised shall be used only in building the designated waterways. For the expense after 1912 due provision will be made by law. The entire cost of construction estimated at \$152,150,000 and the can

COMMERCIAL USES OF ROSES

The Industrial Importance of the

Queen of Flowers. Cultivation of the Blossoms for Their

Perfume-Odors Vary With the Species. Associated as the rose is in the minds

of every English man, woman or child, with everything that is beautiful in poetry, form, or color, it seems to amount almost to sacrilege to consider these choice flowers in connection with any practical uses, says the London Gardeners' Magazine. Yet the perfume of the rose has long been one that has given delight to ancient peoples, and to the desire of others to possess, or even to imitate, and in these matterof-fact days people have not been behind in recognizing that in the rose there was and still is a source of a most important and widespreading industry. Consequently the cultivation of roses gives employment to a very

large number of persons, whether for garden purposes or for the preparation of attar of roses, which is carried on very extensively in Roumelia, as well as in Persia or India. Besides being our national emblem, the rose is also rendered interesting from its connection with the armorial bearings of some of the most ancient and noble families of Europe. It was a symbol of honor among the Roman emperors, who allowed their most distinguished generals to inscribe it upon their shields.

In no country is the rose more cherished and cultivated than in Persia, and it is generally associated with the nightingale by the eastern poets, who represent the flower bursting forth from its bud at the song of its tunelover. Chaucer, Spenser and Shakespeare are among our own poets who have written in praise of roses, as well as many others of minor de-gree in all ages . A rose bush of any size, age or beauty is always an obwith about the same results, only I ject of admiration, and even sometimes of veneration. To any one endowed only with the ordinary sense of smell, the odor of one rose, compared with that of another, would seem to be almost identical; indeed, we generally speak of the odor of the rose as a very perts. We all know that there are many roses entirely devoid of any odor, authorities on perfumes that there are experienced rose cultivators who can name many varieties of roses in the dark simply from the smell, and that no two varieties possess the same odor. As further eccentricities in rose growing, it may be stated that the natural odor is never fully developed exheat. Again, the flowers of Rosa galcomparatively odoriferous lica are

when freshly gathered, but attain their

full fragrance in the course of desic-

cation, while the odor of the damask

rose is most powerful in an early

stage, and is lost by drying. On this

account on the Bulgarian plantations the flowers are gathered before they open and a little before sunrise. If fully expanded it is said the perfume would be much stronger and of a less

delicate fragrance. At Kezaulik, in Bulgaria, where by far the largest number of roses are grown for the production of attar, two forms are cultivated, namely, the red and white flowered, the former R. damascent and the latter R. alba. On an average, about 6,000 pounds of roses will be gathered from about two acres of land. The gathering, which is continued day by day during the whole period of blossoming, begins at dawn, whatever conditions of weather prevail. Every flower is gathered, and every half-opened bud, and they are thrown into a basket, which the gatherer carries on the left arm, or simply placed in her apron. The gathering is finished as early as possible, before the heat of the day commences, and usually about 9 o'clock. The reason is that flowers gathered during intense sunshine have a feeble scent, and yield but a slight return in attar. It is estimated that it takes about 1,000 roses to make a kilogram, or a little over 21 pounds, and as about two acres

this quantity of rose blooms to produce one kilogram of attar. The only other species of rose that may be said to have any commercial value are the common Dog rose of our hedges (R. canina), the fruits, or "hips," of which are used to make a conserve with sugar, which is sometimes used in medicine; also the French rose, Provins rose or Red rose (R. gallica), a single rose that has been widely cultivated from a remote period than it has passed into a large number of varieties of double form and numerous shades of color. It was very early introduced and cultivated at Provins.in France, and is still grown in that country, as well as in Holland, Germany, and in medicine gardens in Eng Confection of roses is prepared om the freshly gathered flowers of this species. The flowers of the Cab bage rose, which has been cultivated from a very early period, and the varieties of which are extremely numerous, are chiefly used in the preparation

of land will yield over 6,000 pounds of

flowers, or nearly 3,000,000 roses, it takes

For Dicky Dibbs is touring in the skies, And has left us all a-touring down -Arthur Coles Armstrong, in Chicago

The New York Journal of a recent flate contains an editorial utterance which is so entirely in accord with the last week that it is given in full be-The editorial bears the heading: "The Passion Play a Thing of the Past: Only Primitive Minds Could En-Thing of the dure Gross Caricature of the Divine

Spirit,' and reads: "The attempt to produce the Passion Play in New York city will of strel aggregation to London this sumcourse be frustrated by public indignation. If necessary it will undoubtedly be stopped by the police. Ignorant peasants may innocently enough portray in their gross and clumsy fashion the sufferings of Christ and those who followed him. These simple people are inspired by religious feeling. They are the United States for the purpose of making money the sufferings of the Saviour of humanity is so atrocious as to be almost unbelievable. There is no longer the excuse of sincerity. Except among the dull witted imaginations of a peasant population, except in the back waters of the human race where progress has stopped for ages, humanity has progressed beyond the stage of a crude presentation of disuffering. Civilization even now has but little to boast of. We produce plays in which old age is made ridiculous. We produce plays imported from France or elsewhere in which morality is lampooned and decency laughed at. But we have reached a certain stage of respect for things sacred. No actor, no manager in the United States will dare try to make money by presenting to the public a mimicry of the sufferings of Christ and of the faithful women who attended

to the last. 'So much for the proposition to produce the Passion Play viewed from the moral standpoint. Any actors or managers attempting it would be mobbed and they would deserve to be mobbed. From another and less important standpoint the question is preposterous. It is well known that no actor has ever succeeded in creating a convincing impersonation of Napoleon, Washington, Lincoln or other truly great human beings. Henry Irving tried to play the part of Napoleon. He looked like a well-meaning magple to be married. playing the part of an eagle. When a really great man is put on the stage, instead of looking like a really great man the individual always looks like a very small actor. In the mind of each of the spectators there is impressed a distinct picture of the great man who is represented, and no actor strutting ranting can realize that picture. If It is impossible to present satisfactorily on the stage the characters and chievements of great men, how preposterous as well as blasphemous is McKinley memorial fund is to be the idea of portraying the character

of Jesus Christ! "In the mind of every Christian, of every living human being who admires their services. nobility of soul, Christ is the emblem of divine inspiration, self-sacrifice and wisdom. To all minds save the most ignorant and dull the attempt by a human being to represent Christ's character would be offensive beyond endurance. Every man of imagination would resent the portrayal of his own mother or father on a public stage. How much more indignantly must every good man resent the suggestion of portraying for the purpose of mak-ing money the character of one who sacrificed his life to save others."

sassa Gossip of the Stage and Platform. cott. *****************************

DICKY DIBBS: PLAYER AND GEN- | Volunteer Organist," and who left the show shortly after, to restrain Gray & Martell, the proprietors of the play, from using lithographs bearing her portrait and name. Judge Truax, of New York, has just handed out judgment in the cose to the offert that ment in the case to the effect that while Miss Totten's name must be obliterated from the posters and pro-grammes, the management may continue to use her portrait to advertise the show. This seems to mean that the future managers may put on their lithographs pretty much whom they like without any interference from the courts. This is unfortunate, as it leaves the way open for a continuation of the practice of foisting upon the public inferior players in the place of well-known performers, who are advertised to appear and whom theatergoers have paid to see.

> The programme of the Grand Opera House, Hamilton, which is under the same management as the Grand here, has the following paragraph upon the

front page: "Persons coming late will please have consideration for those seated, and re-main at the back of the auditorium until the end of the act, when ushers will show them to their seats."

The insertion of a similar paragraph in the local programme would probably

have to be backed up by the vigorous enforcement of a strict rule to the same effect. Appeals to the good breeding and consideration of the late comers in London seem to have no effect, probably because of the total abuse of either of these two desirable quali-Before the mummer tumbled to the ties in their makeup.

Rudyard Kipling's story, "The Light That Failed," is to be played next season by Nat Goodwin and Maxine Elliott. The dramatization is reported to be almost completed, and Mr. Goodwin expresses himself as thoroughly satisfied with its dramatic possibilities. Word to the interested Parties. down from his Pedestal. The Thing that saved Kipling was that he did not hear anything about it. But when they rallied around the Home Topics, that was where they lived. When it came to setting down Rules for repressing the natural-born

Fine and Fancy. Occasionally they took up Man and picked him to Pieces. One Week they proved that he was absolutely No Good, and at the next Round-Up they discussed Ways and Means of keeping him at Home. A Girl who had been a pillar letter-box, and contains a on the Bargain Counter since the Year small medicine chest, a folding stretchof the Big Wind, and no Takers, arose and wanted to know why if Man was the nearest ambulance station. Access such a Bunch of Trouble they were not willing to get shut of him. She was hooted, and the executive committee threatened to take her License away from her if she didn't behave.

Myrtle McGraw had a very hot

Paper, tied with Blue Ribbon, on how to make Home so attractive that the Meal-Ticket would not care to go chasing out every Evening. Myrt had just escaped from a School for Girls and she had a lot of beautiful Theories that were simply waiting to be frostbitten. She allowed that if a wife would put Tissue Paper Shades on all the Lamps and surround the Old Boy with plenty of Sofa Pillows and permit him to smoke, and then flit to the Piano and do a crooning Love Song he would be so Charmed with his own Fireside that it would never occur to him to put on his Things and go Down Town for a little while. Myrt had it all figured out with herself. She was for a Cheery Home with an \$80 Angora on the Prayer Rug and a glowing Bed of Coals in the Grate.

A reformed School Teacher who belonged to the Club, took a different Tack. She never had been Married, but she knew how to manage a man, because she had worked the whole thing out by Algebra. She said that boss Scheme for anchoring the Wage-Earner was to supply him with an atmosphere of Culture right at Home. Then he wouldn't have to go out to a Saloon in order to find it. She matician that when the horses in "Ben advised each Wife to back the Provid-Ralph Waldo Emerson to him. Later on, by way of Recreation, they could take a couple of Leaves out of the Din- of no avail to cure him. ing-Room Table and play Authors. A Husband who was kept busy trying to

guess the most celebrated Works of Nathaniel Hawthorne would never hanker for a Stag Party at the Club Another Lady who had been doing a Monologue for forty odd Years put up Theory that Home Life had lost all Attraction for Married Men because of the horrible Evaporation of Love's Young Dream. She said that the Honeymoon ought to be made a Continuous Performance. Even those who had been married for Twenty Years ought to sit around on one another, talking Baby Talk and trading Conversation Hearts.

Then there arose a stern Woman who had been to the Mill and got her Grist Stock because she never knew at what given at the Opera Comique, Paris. Minute she would need them. Four times that she looked the Preacher straight in the Eye and taken an awful Chance. Of the Theories of Home-Making she knew precious little, but when it came to a working knowledge of Man as he is constructed nowadays she was there with the Goods

"Men are roughly divided into two classes," she began, "We have those who love Home so well that they cannot be dragged out after they are once curled up for the Evening. On the other hand, we have those who telephone ahead when they are coming Home, so that it won't be too much of a Shock. I have tried both Kinds, and

SOFT SNAP FOR THE PARSON?

Hasn't He Anything to Do But Write Sermons?

The New York Sun Thinks He Has Several Other Duties-A List of Some of Them.

[New York Sun.]

"The parson has a soft time of it," says the village butcher, or the oiled clerk in the old red store. "Why he hasn't nothin' to do but write sermons.' Nothing to do but preach, go to prayer meetings, and evening meetings, and praise meetings and revival meetings, and children's meetings, Bible meetings and business meetings of the church societies and village improvement societies and sociables and Sunday schools and sewing circles and funerals and so on. Nothing to do but to call on all his people regularly and visit the sick and look after the poor and entertain traveling clerical and semi-clerical visitors and serve on the school committee, and take a prominent part in all town affairs and heaven knows how many religious, charitable, educational, musical and miscellaneous concerns and consider letters from all orts of persons who have no business to bother him and always neglect to send stamps. Nothing to do but to be at the disposal of every crank, busybody and bore, to go to conference and ministerial meetings, to hear long yarns from seedy impostors whom his heart distrusts, but who seldom go away empty-the poorer the minister the more he gives away in proportion to his means.

Nothing to do but try to be the peacemaker among his people, to give up his rare peep into the Greek Testament and hear some old snuffy woman bewail her imaginary woes, to tutor his boys when he can get the chance Evening, surrounded by the Wedding to try to eke out his slender resources Presents and rearding a History of the by a little work on his potato patch, his agricultural labor much derided by his parishioners; to drive the old gray she tells herself that Domestic mare twenty miles and back so that Life is a Cinch. But there comes an he can preach the funeral sermon Evening when he lowers the Volume over an old parishioner; to be on the run from week's end to week's end and to call him up on the Phone and say find time to write his sermons only through the pious diplomacy of his him at the Hotel. She never met wife; to be preacher, lecturer, almon-Adams of Galesburg, but she will hear er, unofficial overseer of the poor, man of business, general public character, Balancing the Books at the end of the counselor and agent and everybody's Month, putting somebody through the friend and servant seven days a week Blue Lodge or the Consistory, and a for the love of God and \$300 a year

The Bigger Family.

"Have you heard about the Bigger family?" asked a merry wag at the District building to a fellow clerk the other day.

"Nope," replied the one to whom the query was addressed.

"Well, there is Father Bigger and Nother District Distric

Mother Bigger and Baby Bigger. Which is the bigger?"
"You're 'bug-house,'" declared the second clerk, as he turned to go about

The wag grasped him by the coat sleeve, however, and insist question should be answered. "I won't answer such a fool question," the second clerk protested. "It isn't a fool question," the wag asserted with a show of vehemence 'and you've got to answer it if I hold

you here all day." "I can't solve the equation." "Then I will do it for you." "Let me hear the worst, I always was interested in the Bigger family." "You really want to know which is

the bigger, do you?" "Yes; I'm resigned." "It is Baby Bigger, because he is

little Bigger. "Ha, ha, ha, ha." "But that isn't the worst." "Go ahead then and pile it on." "Mother Bigger, Father Bigger and

DOES

A woman's health so often break down at an early age? Put a man

at a washing tub, let him get heated with the hot suds until every pore is opened, then let him stand over the filthy steam that comes

from scalding and boiling clothes and his health certainly would

break down before long, and yet this terrible ordeal is exactly what

has to go through on washing days; and besides, while over-

heated at the hot work she has to risk her life by going

out in the open air to hang up clothes. These facts, which are

known to every housekeeper, readily explain why so many women

while yet young in years, and physicians and boards of health

cannot draw attention too strongly to the injurious effects of the

usual way of washing, with its necessary steam and scalding

or boiling to get the clothes pure and sweet. Fortunately this

trouble can be avoided; scalding, boiling and steam done

away with, clothes made sweet and beautifully white, and much

by the old way, by using the SUNLIGHT SOAP, a soap so purifying

and cleansing that the dirtiest clothing can be washed in lukewarm

water with very little rubbing, and clothes, bedding and linen cleansed

without either scalding or boiling, while the work is so light that

a girl of 12 or 13 can do a large wash without being tired. Now

that there is a remedy for the great washing day evil, so economical

in its use as to be within the reach of all, there is not a woman or

A MAN?

who is not directly interested in having introduced into their houses

that wonderful way of washing clothes which, when properly tried, does

"I—I want particularly to say some-thing to you, Miss Hopkins," he began, nervously—rather suddenly it seemed to the girl. "I want to tell you how much I have thought of you. I have felt—I feel now—as though I could not get on—could not live—without you. Dare I hope you care for me, even a lit-

Muriel Hopkins blushed furiously, and bent her gaze upon the sand. It was the consciousness that at one time she had schemed for this that made her blush. She felt herself to be unworthy of the man who was offering her his heart. And the fact that she felt so was a proof that she herself was touched.

"I-you may-you may hope, you may know it!" she stammered, and in another moment Arthur Seton had her in his arms.

At this moment there was a sudden interruption. Cyril Bastwick and the American appeared round a corner of a rock. At the sight of the lovers the face of the former became white with passion and his eyes blazed. Before he had time to speak, however, Seton, seeing they were detected, addressed Mr.

"I have just asked your daughter to become my wife, Mr. Hopkins," he said. "I cannot tell you with what diffidence I did so, nor how happy I am

made by her consent."

He glanced at Muriel as he spoke. She flashed back a look at him from her incomparable eyes which assured him once for all as to what were her feelings.

"I am sure, Lord Ullinborough," began Hopkins, blandly when he was furiously interrupted by Cyril. "Don't believe a word that scoundrel says, Mr. Hopkins!" he cried. "He's a rogue, a cheat, an impostor. He is no more Lord Ullinborough than I am!

The fellow is merely a secretary masquerading as his master!" The confidence with which Bastwick spoke somewhat diminished when Seton for a week or two, and I believe I shall stepped forward and gravely held out

"I have treated you bodly, Mr. Bastwick, very badly indeed," he said. "I beg of you to forgive me." "The deception must end at once,"

cried Cyril. "I see that it must," rejoined Seton. Then, drawing a card from his vest pocket, he handed it to Bastwick. "That is my real name," he said. "You have been the only person deceived. It was only for the sake of a little more freeself when first I met you my own private secretary."

"Really, Lord Ullinborough," said Ebenezer J. Hopkins, an hour later. "I don't see why you should have deceived Mr. Bastwick about your name.

cannot understand how wearisome the continual wearing of a title becomes. Perhaps one day Muriel-He glanced tenderly at the little Am-"I am sorry for Mr. Bastwick," she

said. "Be comforted," rejoined Ullinborough; "I am convinced that he will And he did.

DICKENS' FIRST LOVE AFFAIRS

Episodes Minutely Described in His Writings.

His Interesting Passions for "Mrs. Finching" and Mary Hogarth, Sister of His Wife.

Dickens' first serious love affair is a subject that must be interesting to everybody. Like everything of importance in his youth, it is minutely decribed in his writings. He was no more than 19, so the time was about 1831. It was so great a passion that, as he tells us, for a period of four years it excluded every other thought. He worked and strove with a view to earning sufficient to marry upon. And we may assume that Traddles' efforts in this way, with the picking up of odd bits of furniture, were recollections of what he did himself. After five and twenty years as he told his friend Forster, he could not think of the without pain. "I can never see the face or hear the voice without all the old scenes being called up." Now comes the interesting question, whose was this face and voice, and who was this prototype of Dora and Mrs. Finching? Who was this youthful love of the thirties when Boz was not 20 years old?

Dickens and a young friend named Kolle used to frequent the house of a family named Beadnell, where there were two attractive sisters, to one of whom Kolle became attached. The other was the object of Dickens' affection. Before 1833 Kolle had married. Dickens was not so fortunate. His suit was opposed by the parents—notably by the mother. Their courtship was carried on clandestinely. If Miss Beadnell was like Dora, as is said, she must have been a fascinating little creature. And this story quite accords with that of the fictitious maiden. The disagree-able Mrs. Murdstone, who kept guard over Dora, may have been suggested by the hostile mamma. Years later, Dickens went to call on his old flame. He saw the stuffed Jip in the hall, and the interview so revived his old feelings that not long after he began the touching episode of Dora. These feelings were, of course, independent of the rather grotesque ones which the changed appearance and flighty be-havior of the heroine produced. And the embodiment of these he reserved for a later story—"Little Dorrit"—when his once fascinating Dora became Flora

Finching. Some cynics have dealt rather harshly with Boz for thus ridiculing what should have been sacred to him; but they forget that he had already enshrined all that was tender and romantic in the history in the exquisitely attractive Dora. In "Little Dorrit" the attractive Dora appears as Flora Casby-now Mrs. Finching. In the book she comes to see her old admirer. The author meets her in the character of Arthur Clennam. "Clennam's eyes no sooner fell upon the object of his old passion than it shivered and broke to

But Dickens married neither the Miss Green of his boyhood love nor Miss Beadnell, the prototype of Dora, and Mrs. Finching. In 1836 he married Catherine, one of the three daughters of George Hogarth. His later attachment Mary, Catherine's older sister, is one of the most interesting episodes in his life. Before his marriage he was

Group of Buildings.

Medieval Ceremonial Observed Daily Within the Walls of London's Famous Fortress.

markably meager. Most accounts of the group of buildings that Lord Ronald Gower considers the most interest- country outside of New York. ing in the world are either costly and inaccessible or mere compilations which help but little to a clear appreciation

Interest in the tower centers naturally in the Norman Keep, better known Tower. It was the first of the conqueror's buildings on the site of the Roman "Arx Palatina," and it has survived later ones, such as the Wardrobe and Coldharbor towers, and, as an epitome of "our rough island story," Westminster Hall alone can compete with it. What, indeed, Rufus' Hall began his father's tower too often completed. Some simulacrum of a trial was followed speedily by the gleam of what Shakespeare calls "the great axe," and another turbulent and ambitious, or, as often as not, simple and innocent spirit was added to the terrible roll of

Plantagenet and Tudor tragedies. Lord Ronald Gower has much to say of the picturesqueness of the grim and time-worn fortress, a little town within itself, where portcullises are still 'practicable," where the gates close every night, and where "King Edward's keys" are escorted to the governor's chamber with a medieval ceremonial which reads like a page out of Sir Walter Scott or Harrison Ains- lishment is on a lavish scale. Guesses worth. These things take place within are frequently hazarded as to the sight and sound of the waters of the pool where the "ever-changing but furnishes any data on the subject, and time-defying stream" is crowded with machinery and modernity. But while stern dignity of the series of realize their colossal strength, their impregnable security before artillery

became formidable. No stronger defense than the White Tower was ever built. Winding staircases and corridors so narrow that one man could defend them almost against an army had to be traversed before the kernel of the place could be reached, while the meurtrieres, from which molten lead or great stones could be dropped upon assailants who were en-It extremely unlikely that there would ever be any necessity to defend the interior. These defensive precautions the White Tower shared, no doubt, with other fortresses, but its importance as deavoring to storm an entrance, made other fortresses, but its importance as output of Vermont. the key of all that the Norman had inspired Gundulf, its builder, to make it an exemplar of consummate

But, attractive as the tower may be from such points of view as these, it is its human interest that appeals most powerfully to the imagination. Within those thirteen-storied acres was worked out the long tragedy of English history from the conquest to the hour when the severed heads of the Jacobite lords brought that tragedy to an end. For many centuries the tower was almost as terrible as death. It made and deposed kings and annihilated great houses; its vengeance fell upon families even to the third and fourth generation, as in the case of the Fitzalan Howards; it was the sovereign cure for ambition, a standing warning against the perils of high place and of consanguinity with thrones. There is scarce a prison chamber within its walls that has not, at some time or

great historic name. The keep, the council chamber-the supposed scene of Richard's vengeance upon Lord Hastings-traitor's gate, the chamber of the regalla, the bloody tower, beneath whose stairs the murdered princes were buried; the chapel of the pathetically named St. Peter and Vincula, where so many at last found peace to whom it had been denied in life-these are, perhaps, the most inter-Either their story is especially well ascertained, or they have been the scene of outstanding events of which

WHERE LOSS MAY BE MADE GAIN

Methods by Which Cheesemakers May Increase Profits.

other, contained the bearer of some Care in Regard to Temperature and the Kind of Boxes-Improving Old

Curing-Rooms.

Professor Robertson, the Dominion ommissioner of agriculture and dairying, has frequently urged that there is not a department in the whole of our agricultural commerce in Canada where any marked improvement has been made, resulting in an increased esting portions of the Tower of Lon- production, and the development of our export trade, except along the lines of increasing the intelligence of the producer, of enlarging his practical abileverybody knows something. Possibly ity for constructive productive work, and of bringing about co-operation between the operators in manufacturing, the operators in commerce, the managing operators in transportation, and the producers. It is by the application of these fundamental principles to every class of agricultural work that paying results can be secured.

Dairymen throughout the Dominion might, with advantage, take a leaf out might, with advantage, take a leaf out might, with advantage, take a leaf out on the dead letter office, about 50,000 annually, containing on an average of about the operators in commerce, the man-

might, with advantage, take a leaf out of the book of their Prince Edward Island brethren in the matter of handling cheese. When we started in Prince Edward Island to make and ship cheese to the British market, the dairymen there were put on right lines from the beginning, and now less than 3 per cent of the boxes which come from that province are broken when landed in the United Kingdom, as against 40 per cent of breakage from some other parts of Canada. The boxes which are used in Prince Edward Island are made of birch instead of elm; and it makes a tougher and better box than elm. An enterprising man who will devise a really strong, light box, easily adjustable to the exact size of the cheese to be carried in it, has a fortune awaiting

In handling cheese it is important to make the box fit the cheese. If this rule be ignored, boxes get broken and their contents damaged to the disparagement of Canadian credit in dairy-

Flavor and body are the two qualities which determine the relative market price of cheese, and the character of these qualities is largely determined had a siege of whoopingby the process of curing. A fairly cough in their institution. steady temperature, not over 60 degrees They said that every case Fahrenheit in the curing room, gives the best results. At that temperature loss in weight by the shrinkage of the cheese is considerably less than at higher points. A dry atmosphere causes the cheese to lose in weight by the evaporation of the moisture, and it may, also, cause small cracks on the surface, especially when the cheeses the curing rooms of many Canadian cheese factories causes many of the faults which are complained of by the cheese exporters, as well as by the receivers of cheese in Great Britain.

If the temperature rises as high as 70

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene complete, \$1.50; extra supplies of Cresolene 25 cents and 50 cents. Illustrated booklet containing physicians' testimentals free upon request. Vapo-Carsolene Sc., New York, U.S.A. are new. Too high a temperature in

it altogether as being "off-flavored." An old curing room of the ordinary open construction may be improved materially and beneficially by adopting the following method: Thoroughly cleanse the whole inside by a liberal whitewashed with fresh slaked lime. To make the old floor close, it will be necessary to put two thicknesses of building paper over it, and a new floor closely laid on the top of the paper. If the inside walls of the old curing room be of lumber or plaster, two

should be made close and double doors and windows should be put on for use

In a curing room 30 feet by 28 feet, ial places in the capital city is owned these improvements would only cost room, the price of lumber, the cost of labor, and the like, in the locality. At the shrinkage in weight, which would cheese from over-heating might in a great measure also be prevented. The extra value which might be realized out of the cheese from diminished shrinkage and superior quality would, in a factory of the size mentioned, probably be not less than \$450 during the season. Above all else, great and lasting benefit would result to the cheese trade if all cheeses of Canada were cured in a proper manner. The demand from the consumers in Great Britain would be increased, and the risk of loss to the merchants would be

SOME POSTAL DONT'S

Errors Commonly Committed By People In Posting Letters.

"It is astonishing how questions pour in regarding mail matter and its treatment," said a postal official, "and it shows on the part of the general public a woeful lack of information with which it ought to be familiar. I have from time to time intend down some postal idealing. to time jotted down some postal 'don'ts' which will be found of value.
"Don't mail your letter without placing at least one 2-cent postage stamp

thereon. Of course, you will say that you always do this, but there were 150,000 patrons of the mails last year who did not.

"Don't fail to write the name and address of the person for whom your letter or package is intended plainly on the envelope or face of the package. You may find comfort in the knowledge that more than 100,000 pieces of mail matter without a line of superscription were received last year at the dead letter office in Washington.

The German Emperor is a soldier by temperament, by training, and above all, by race—the ablest and most accomplished soldier-sovereign who has occupied the throne of Prussia since it was vacated by the hero of the Seven Years' War, as far as this may Seven Years' War, as far as this may be inferred of a commander who has never yet heard a shot fired in anger. But there's the rub.

THE EMPEROR'S TWO SOULS. Two souls have been struggling for supremacy in the heart and mind of the emperor ever since he came to the throne fourteen years ago-one of the soldier, the other of the sailor-and sometimes it has seemed that the contest has been pretty equal. But on the whole the soldier-soul would appear to have been the predominating element in the complex character-composition of the many-sided kaiser, and

telescope. Yet his majesty is the first of his race who has taken not only kindly, but even enthusiastically, to the water, so that, as someone suggested, a symbolical duck natant might now appropriately be added to the rapacious eagle on the imperial arms.

the field marshal's baton has been of-

tener in his hand than the admiral's

"German's future is on the sea," as the emperor himself remarked, which was only another way of saying that her expansion must follow her unification; and he himself has ever been the most enthusiastic champion of this idea. As Frederick the Great had found the finest army in Europe ready to his hand, thanks to the giant-kidnapping mania of his father, so "William the Greater," as he will probably come to be called some day, was the first German ruler to inherit a large, powerful and ever-increasing navy. The feeling, therefore, of being a war lord by sea as well as by land came quite natural to him. LIKE ANOTHER PETER THE

GREAT. The emperor had acquired all the tastes and nomenclature of the sea before he became a sovereign. As a boy he had been taught the trade of a sailer, in a minor way, on board the miniature frigate Royal Adelaide, which, from having first plowed the waves of Virginia Water, had come to adorn the placid bosom of the Havel lakes around amphibious Potsdam. Besides, how could a grandsom of the Queen of England, the mistress of the main, how could he have failed to imbibe from his English mother the inspiriting story of England's naval greatness, coupled with a natural enough ambition to enable the father-

land to emulate her glory? "Don't think you can beat the game when you receive a polite letter from a stranger in a city telling you how to get rich quickly for nothing. You will be out of pocket and sadly fooled, if you entertain this popular belief.

"Don't fail to prepay full rate upon your foreign mail, both letters and packages, even though the former will go forward to destination without any prepayment of postage at all, and the latter if partially prepaid. Double postage is collected abroad for the amount due.

"Don't forget with domestic mail that, while a letter will go forward if it has a single rate of postage paid thereon, 2 cents, the balance due to be collected of the addressee, newspapers and package. The result was that when he came something entirely new to the Germans man leader is that he has practically to find the grandson of their old pipe- no bridle arm, owing to an accident at dressing himself up as an admiral with engage in the simultaneous practice fiant look on his face, maneuvering his sword. Consequently he has this naval squadrons, borrowing his best at least in common with Lord Nelson, and boldest metaphors from the imag- that he has to use at table a combinaferences with his startling knowledge of all the technical details of modern shipbuilding-like another Peter the yachtsmen Great-running English hard with his cutters and his yawls at Cowes, and threatening to dissolve his parliament unless it granted him all the ironclads he wanted for the successful prosecution of his over-sea pol-

icy of the "mailed fist." A SOLDIER FIRST. But, after all, the sailor in the emperor is subordinate to the soldier. A as to incur the severest criticism of sailor only by spare reading, so to speak, and sovereign many sidedness, professional preference. Proud of his rank as an admiral of the British fleet, he is still prouder of his baton and his uniform as field marshal in the British army. The greatest wonder of the regenerated fatherland, the German navy is much, but it is not nearly so essential to the stability of the empire as its army, consisting of three-and-twenty superbly organized army corps, of which the emperor is the haughty war

He has placed several of his sons in the army, but only as yet one in the navy. "The noblest weapon is the sword," he said to one of those sons when inducting him into the Potsdam Guards, "and the noblest uniform is the Prussian soldier's"-which was a

good deal to say.

The kaiser himself underwent a thorough training with all branches of thorough training with all branches of thorough training with a stillery the service-horse, foot, the artillerythough he wears by preference on all ceremonial occasions, the scarlet, goldembroidered tunic of the Hussars of the Guard, or the jack-boots and the white uniform of the Garde du Corps, or First Life Guards, whose eagle-crested helmet is quite as aweinspiring as an imperial crown, and even more symbolical to the vulgar mind. It is generally in this impressive guise that the kaiser-king opens his parliaments, when, with his helmet on his head, and his mustache twisted flercely up, he looks as formidable and

fetching as a crusading hero. Yet on horseback-which is said to be the heaven of the true Prussian, whose supreme happiness is to be in the saddle ordering about some other body on foot-the emperor does not present an ideal cavalry figure. For one thing, his thighs are too thick for that, and he rather suggests a sturdy infantry-

Feeling.

Not exactly sick; but neither are you well. Sometimes you have a headache; slight exercise fatigues you; your appetite is variable; there is a want of energy; you are easily irritated; you feel depressed and "out of sorts." That is the Spring feeling. It is easily accounted for; close confinement; indifferent or bad ventilation and want of exercise during the winter months are responsible.

What you need to put you right is a tonic, and

Dr. Williams Fink Fils

is the greatest of all tonic medicines. These pills make rich, red blood, build up tired and jaded nerves and make weak, depressed men and women bright, active and strong.

Rev. Geo. Read, Methodist Mission, Hartley Bay, B.C., says:-"Dr. Williams' Pink Pills have been of great benefit to my wife. She was greatly run down in health, and very weak and nervous. They have made her an feel an entirely new woman."

W. C. Graham, 98 Lombard Street, Winnipeg, Man., says:—"We keep Dr. Williams' Pink Pills in the house all the time and have found them invaluable as a blood builder and regulator of the system. As a spring medicine they are unequalled."

The world over, Dr. Williams' Pink Pills are known as the greatest tonic medicine medical science has yet discovered. What these pills have done for others they will do for you. But you must insist upon getting the genuine with the full name "Dr. Williams' Pink Pills for Pale People" on the wrapper around every box. If you cannot get these pills at your dealers, send direct to the Dr. Williams' Medicine Co., Brockville, Ont., and they will be mailed post paid at 50c. per box, or six boxes for \$2.50.

IS THERE SNOW ON LUNA'S FACE?

Criticism of the Theory Advanced By Prof. Pickering.

Snow Without Clouds and No

The theory that there is snow on the moon has been supported by the high maneuvers on a large scale, though his authority of Prof. Pickering, of Harvard College observatory. opinion, we may remark, which will require no little proving, contends a writer in the London Standard. As, however, the professor has done little more than mention the principal ground for his views, criticism is, perhaps, premature; but we may fairly inquire whether no other interpretation is possible. The professor has been carefully watching certain brilliant white areas on the surface of the moon, and finds that they grow apparently smaller after continued exposure to sunlight, which, of course, would happen with beds of snow. But in that case the moon would have some kind of an atmosphere which must be capable of absorbing the vapor of water. All the observations of astronomers, however, have led them conclude that it possesses nothing worthy of the name. The intense light which illuminates its surface, the black shadows thrown by its peaks, the hard, sharp outlines of every feature on its disk, are incompatible with

a vaporous veil, to diffuse the glare and mitigate the darkness. Besides this, the moon sometimes comes between the earth and a star, for a time hiding the latter from our view, and this can be observed at the very moment of disappearance. But if the moon had an atmosphere in any way comparable with the earth, the star would disappear, not suddenly, but

Certainly, no vestige of a cloud has been seen to traverse the moon's surface, and it would have been passing strange if these had been wholly pre-cipitated during the lunar night, and no morning mists had remained to be just flushed with the rose of dawn. It is open, perhaps, for believers in the snow to assert that the moon once had an atmosphere, and that though the bulk of it has long since disappeared into space some faint traces of a

night, snow enough to linger through its not less long day. As its atmospheric envelope cannot be comparable with that of the earth, the heat by day and the cold by night would be more intense than in the most arid region of our planet; so that no small mass of snow would be needed to outlast the sun's unshaded and longcontinued glare. There is, however, another explanation to be ventured. The moon, it must be remembered, is one mass of extinct volcanoes—A huge and lifeless globe of slag. Some English Writer Holds There Can Be No of their craters are on a much grander scale than any of our earth. The opposite walls of one are as far apart as London is from Cambridge, and the htight of the crater rim above its floor is equal to that of Mont Blanc. When these were in violent eruption an atmosphere did, of course, exist; for vapor of some kind would be necessary for such terrible explosions. But as the attraction of gravity is so much less on the moon's surface than it is here, this atmosphere would more readily disappear, as it had practically done before the astronomers be-

gan to take their notes. But the moon's surface, as we have said, is a mass of lava, and as the average density of the whole satellite is only a little more than three-fifths of the earth, it is probably formed of the same materials. But the terrestrial lava streams are often glassy in the outer part; indeed some, like obsidian, retain this condition to a considerable depth. On the moon there is no rain to rust or rot, no vegetation to soften and darken the surface; the intense heat is the cause of expansion, the cold of contraction, and each must be sudden, thus producing incessant factors in the exposed rock; so that the moon's surface may well be like a gigantic heap of glassy slag when broken up for road metal. The innumerable faces of these fragments would glitter in the sunlight, and this, not improbably, would be better reflected to us when it struck obliquely on the disk of the satellite.

Loss of Appetite.

A person that has lost appetite has lost something besides—vitality, vigor, The way to recover appetite and all that goes with it is to take Hood's Sar-saparilla—that strengthens the stomach, perfects digestion and makes eating a pleasure. Thousands take it for spring loss of

appetite, and everybody says nothing elso so good as Hood's. One factory in England is turning out 4,320,000 ping-pong balls each

When you feel weak, run-down, nervous, unable to work or think as gaseous covering may still linger near its surface. But this would hardly suffice to produce during the lunar ergy.

with the managers. Lord Rosslyn and the Earl of Yarmouth are the most conspicuous de scendants of haughty peers now on the stage, but the number of others who have a place in the aristocracy of birth, and who are now connected with the English stage is surprising, especially if you include the descendants of highly connected clergymensuch as Mrs. Langtry, Arthur Bourchier Anthony Hope and the two Vanbrugh sisters. Probably half of the members of the House of Lords have some relative who is earning an honest living before the footlights. And six peers, or heirs of peers, have married actresses, while the Duke of Manchester's had in their possession a pot of Kel-American father-is-law has just had pion there would have been no need to pay up for the breakage on the heart of an actress whom the Duke

jilted for another American girl. For titled folk with historic lineage, but whose "pride of race" will not permit them to go on the stage, there is nothing for it but to go in for amateur theatricals. Foremost among such unprofessional performers stands the young Marquis of Anglesey, who has \$1,000,000 a year to spend. His devotion to the star has been startling in its manifestation-as startling as the name of the town nearest to the marquis' castle, Pwllgwyngyll.

A MARQUIS' THEATER. For the last four years grand old Anglesey Castle, the Welsh home of the marguis' ancestors-one of whom was in command of the English cavat Waterloo-has been turned into the home of acting in a fashion that must have made its former proprietors turn over in their graves. When the marquis first felt himself drawn towards the sock and buskin he deter-mined on the somewhat irreverent proof transforming the ancient chapel of the castle into a theater. He replaced the fine old altar with a stage, the pews with stalls and the organ loft with a magnificent box.

CITIZENS CIVIC DUTY.

Ian Maclaren on Importance of Local Patriotism.

Spirit of Passionate Attachment to the City.

Praises Men Who Give Years of Life, Without Material Reward, to Municipa! Duties.

Those who knew Ian Maclaren only as a writer had a revelation on Tuesday of his many-sided character, writes "Lora," in the London Times. He spoke first as the Drumtochty idylist, and through the opening paragraphs we heard, faint and sweet in the distance, the music of well-loved pages from the "Brier Bush" and "The Days of Auld Lang Syne."

Every man, he said, in a wholesome state of mind must love the country. We love its vast distances, its untainted air, its variety of color, its wealth of animal life. At times we hate the city for its cruel wrongs and its sadder waste. We hate it because of the people it devours, who come up from the country healthy, contented, religious, and who grow stunted and unbelieving in the city air. The city is like that fabled monster who lived upon a constant supply of young and beautiful life; for it is ever drawing to itself the best of the country, and feeding its shrunken veins upon the young rich blood. At times we are sick of the city, but we must not carry this feeling too far. The city is the inevitable result of a great law of human life which from the beginning has gathered people into communities actresses of real ability to help him and made the community the center of a national life. Melbourne is Victoria; Some little time ago he engaged a full company to play in his theater for a Pretoria was the Transvaal; Chicago is the Middle West; San Francisco is California. We must remember, too, that if the country has been loved with silent devotion by patient, intense folk, who would rather suffer poverty and hardship than lose her open spaces and her lovely glens, still the city has won the love of elect souls. Charles Lamb said he never felt safe except on the Holmes knew every corner of Boston; were not any box office receipts the Sir Walter Scott called Edinburgh his play was a great success, judging by own romantic town. The countryman the satisfaction of the proprietor. The run was suspended a few weeks ago, as delights in his flowery garden, his fields of ripening corn, his clear running streams, and the quietness which to to the continent for a rest, but it is to be resumed on the 17th of this month. the city man is intolerable. But the

born on the shores of the Galilean

times what's good for a sore heel? I Dr. Watson passed on to consider the importance of local patriotism. He spoke of the beautiful and almost think it is a great pity it was not pathetic patriotism of little country known among the regular troops, for towns. The people there carry an affectionate memory of everyone who has ment I saw some very bad cases of in any way, and in any part of the world, won the smallest honor for his towns. The people there are jealous of their name, and they carry an affecof a country district, and I read how the crops are coming on, and that the son of a respected townsman has been advanced in a higher situation as a railroad clerk, and that another townsman has become a corporal in the Black Watch. If I do not know the young men. I knew their fathers. It is this A negro criminal condemned to hang in North Carolina sold his body for \$10, which he invested in ginger cakes. The cakes he finished before the night of execution was to occur. The next from littleness, and makes them feel day the sentence was commuted to life that they are part of a great empire. mprisonment. One man then wished When the little town loses its pride and he had saved his \$10 and another that self-respect, it begins to decay, and with the decay of its small communi-DOAN'S KIDNEY PILLS cure back-

ties the empire will also decline." Ian Maclean had lingered lovingly on old Muirtown and Drumtochty memories, but next his hearers saw him as the eminent public man, honored in the life of Liverpool, "one of the most distinguished Scotsmen of his "You Londoners," he said. "have you the spirit of passionate attachment to your city? Have you taken your children to Westminster Abbey, where are the mighty dead, to the Tower, with its storied archives, to the House of Parliament? Do you love the parks of London? Are you resolved that your city shall be girdled about with green? Do you know that London is growing more beautiful every year? When I come here in the summer, and see flowers bursting into beauty around doors and windows, I think I have never seen a fairer town.' He urged on Londoners to remember that they are citizens of no mean city. They must not be content to make a modest fortune, pay the taxes because they must, and criticise the local administration. "That Christianity is too ethereal, too artificial, which winds a the bowels, and helps the stomach to man up so high that he is indifferent to do its work. the institutions by which he has pro-fited, and to the hundreds who dwell around him. When Christianity ceases to be patriotic it begins to deteriorate. and is not worthy of the prophets and St. Paul."

Dr. Watson praised the men who give years of life, without material reward, to municipal duties. Lord Rosebery has in him a distinguished convert, for some parts of the sermon at this part were an echo of the Swansea speech. "I deliberately say," Dr. Watson remarked, "that to be an influential member of a local parliament is a more honorable position than to be a member of the imperial parliament, in the sense that it gives the man a greater opportunity of improving the lot of his fellow citizens." In London, especially, no apology need be made for asking men to devote themselves to local government, for this city is a state within the empire ten times more important than many foreign nations.

Old alike, and is prepared in convenient tablet form, price per box, 50 cents; sold by all druggists and N. C. Polson & Co., Kingston, Ont. asking men to devote themselves to

HER FATHER WAS A DRUNKARD

A Plucky Young Lady Takes on Herself to Cure Her Father of the Liquor Habit.

STORY OF HER SUCCESS.

"My father had often promised mother to stop drinking, and would do so for a time, but then returned to it stronger than ever. One day after a terrible spree he said to us: 'it's no use. I can't stop drinking.' Our hearts seemed to turn to stone, and we decided to try the Tasteless Samaria Prescription, which we had read about in the papers. We gave him the remedy, entirely without his knowledge, in his toa, coffee, or food regularly, according to directions, and he never knew he was taking it. One package removed all his desire for liquor, and he says it is now distasteful to him. His health and appetite are also wonderfully improved, and no one would know him improved, and no one would know him for the same man. It is now aftern months since we gave it to him, and we feel sure that the change is for good. Please send me one of your little books, as I want to give it to a friend."

LUMINOUS PAINT

Not Used for Key Holes -- Of Value on Clocks and In Powder Magazines.

"No," said a dealer in paints in response to an inquiry on the subject, "luminous paint would not afford a cheap, simple and easy solution of the street corner sign problem, and furnish signs that could be read easily by night as by day because there is too much as by day, because there is too much light everywhere at night in the city ACTOR KNIGHTS.

ACTOR KNIGHTS.

The stage is getting into the aristocracy at a similar rate. Henry Broad-ribb became Henry Irving and then Sir Henry Irving. Squire Bancroft won a knighthood. Beerbohm Tree and George Alexander expect to wear "sir" in front of their names after the list of coronation honors is announced, and the adherents of Charles Wyndham and John Hare will be vastly grieved if those two comedians are square should be painted on the door, with the keyhole at the center. The

certainly get within that foot square area without difficulty to start with, and once there he would work naturally toward the center. But, seriously, while I don't know of any reason why it shouldn't be, I have never heard of luminous paints being used on keyhole plates. A simple use for luminous paint match boxes, which are thus made visible and easy to find at night. Thousands of clock faces have been painted with luminous paint, and the proper sort of contrivance painted with it can be made to serve as a lantern.

"A while ago we had a call from a powder manufacturer, who wanted to know if we could fresco the interior of a powder magazine in such a way as to make it light enough there so that they could read the marks on the powder barrels. We could scarcely do that for him, but we could supply him with some-thing that would serve the same end, which we did.

"Cardboard is treated in such a manner with luminous paint as to make it suitable for a background for signs and of luminous cardboard we made a simple light-giver by means of which the marks on the barrels could be read. This was a suitably mounted or framed sheet of the cardboard, a foot or thereabout square, with a handle on one side; some-thing like a framed picture, with a handle attached to it

attached to it.
"This is kept hanging in the office in men, I knew their lathers. It is this can read readily by it the markings it esprit de corps which elevates the character of the people, preserves them from littleness, and makes them feel cardboard illuminators right away. "Obviously such a means of shedding light could be used in cellars, and so an anywhere, in the city or out of it."

BRAIN POWER

How It May Be Strengthened and Increased.

that presides over all the powers and impulses of the human body. Very frequently as the result of poor blood it becomes enfeebled, and a general weakness of the entire system fol-

No remedy possesses the marvelous brain strengthening power that Ferrozone has demonstrated in thousands It contans an abundance of phos-

phorus and iron which are essential in the formation of red vitalizng blood, and in this way supplies the brain with extra power to perform its numerous and important duties. Ferrozone is the best peparation for brain workers, and those inclined to a sedentary life. It improves the appe-

tite, insures good digestion, regulates Lawyers, ministers, and those whose occupation entails much thinking and brain labor, will find Ferrozone of immense value, because of its power to stimulate mental activity. Students

not only clears the brain, and makes it more receptive, but makes them strong in body as well as mind. A medical student of Toronto University, who has proved the good qualities of Ferrozone, says: "On my study table there is always a place for Ferrozone. I find by keeping my digestion in perfect order, and mantaining a splendid appetite, it enables me to ac-complish a great deal of hard work. I consider Ferrozone at the same time food for the brain, the blood and the nerves, and can highly recommend it.' Sold by Druggiste Very few are so strong and healthy that a course of Ferrozone would not A. R. BREMER CO. Limited benefit. It is good for the young and TORORTO CHICAGO

A SPECIALIST'S

One Thin, One Fat-Same Prescription for Both.

Each Told to Take Buths, Drive Two Hours and Walk for One-Then the Doctor Chuckles.

The specialist's carriage was announced. He asked the footman how many patients waited for him in the

"Two," said the man, "The very thin gentleman and the very fat one." "Ah!" said the doctor. "I shall not be able to see anyone else this morning, The thin, nervous man came in quick-

ly, stumbling over the rug in his eager haste. His eyes were unnaturally bright, and his head jerked occasionally in a startling manner. He was thin to emaciation. "Good morning, Mr. Slimmer," said the doctor, gravely. "How are you

"I feel as though I were going to fall in small pieces, or else to fly," said the thin man, beginning to finger a paper

knife on the doctor's desk. "I can't sleep and I can't eat."
The doctor held the thin man's wrist for a moment, glancing at his watch

as he did so.

"H—m—m," he said; "you really ought to go to Bermuda, Mr. Slimmer."

"Impossible, doctor," said the thin man irritably. "I can't think of such a thing. I have all sorts of business affairs at stake just now. I can't get

"You tried the hot milk before retiring "

"Yes; it was no good."
"And the warm bath and massage?" "Yes, but it made me thinner. I de-clare, doctor, I lost weight. I did, I assure you I did. I want to gain some flesh. I'm nothing but skin and bone. I'm a living skeleton." "Have you taken the daily exercise
I recommended in the open air?"

"I've been out in my automobile for two hours every day." "That won't do, Mr. Slimmer. You'll

have to walk."
"But I don't feel well enough to walk. It excites me too much."
"You'll have to if you want to get well. Otherwise I'll have to send you to a sanitarium in another month or so, and I'll give up your case. Drive for two hours, but walk for an hour. Take an hour's tramp in the open air. Walk around the square where the fountain is, you know. There's a nice soft tar path. Twice around takes an Drink the hot milk, and-andcome and see me again in a week."

Mr. Slimmer put his hand nervously in his pocket and took out \$25, which he placed on the doctor's desk, with a nervous jerk of his head. Then he

flurried out. Mr. Heavyweight came in ponderously. He sat down panting from his short walk along the hall. His eyes showed duly between his fat lids. His cheeks hung in bags. He had four chins. His waist measure very indef-

"Ah. Mr. Heavyweight," said the doctor, genially; "how are you"
"No better, doctor," said Mr. Heavyweight in an underground voice. have no appetite. That is, I don't enjoy my food. My digestion is all wrong. I have headaches and a taste in my mouth. Worse than all, I've gained. five pounds in the last week. I tell you doctor, I'm desperate.

"You really ought to go to Bermuda, Mr. Heavyweight. You need a tonic. "Can't get away doctor. I've five political banquets to attend in the next two weeks-absolutely necessary."
"Have you taken the hot water every

"Yes, it makes me sick. I tell you I gain weight on hot water.' The doctor held the fat man's wrist between his finger and thumb, timing

the pulse by his watch. "H-m-m," he said. "How about the hot baths and the massage?"
"I've taken 'em till I'm tired. They give me heart failure. I weigh a pound more after each treatment. "Have you taken the daily exercise

that I ordered?" "I drive out my team every day for an hour or two in the park." "That won't do; you'll have to walk an hour also.'

'Walk? Doctor, I'm too heavy a man to go sprinting around for an hour. It looks too silly. Besides, I pant and My heart's weak. "You'll have to walk Mr. Heavy-

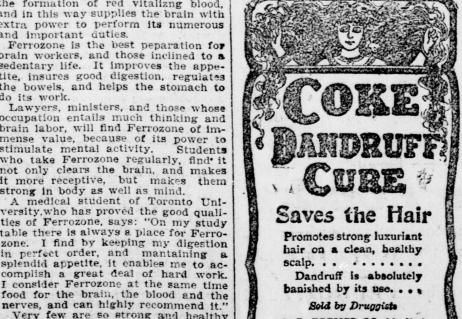

weight, or I'll give up your case You've refused to diet, but you must walk. Take a walk around the fountain in the square every day. Twice around is a mile, and takes just-well it will take you a little longer. Keep up the hot water-and-and-come and see me again in a week.'

Mr. Heavyweight deposited \$25 on the desk with a groan and panted out laboriously.

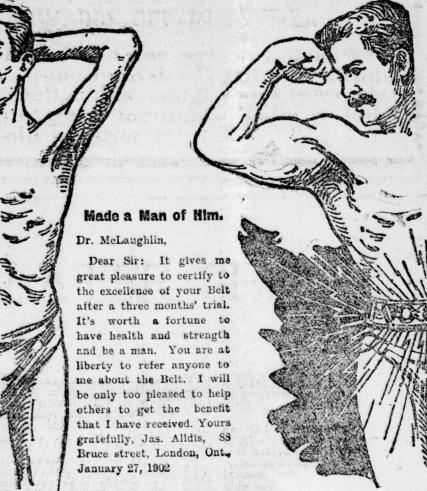

medium build, got into his coat leisure ly and thoughtfully and stepped out to his carriage. As it turned into the square he caught sight of two figures circling the path around the fountain. One was the thin man, who walked jerkily. The fat man trudged on laboriously, puffing like a steam engine.
The doctor leaned back against the

cushions chuckling softly to himself.

Valuable Advice to Rheumatics. Eat meat sparingly and take very little sugar. Avoid damp feet, drink water abundantly, and always rely on Polson's Nerviline as an absolute reliever of rheumatic pains. Being five times stronger than other remedies, its power over pain is simply beyond belief. Buy a large 25 cent bottle today, test it and see if this is not so. Polson's Nerviline always cures

TWO PATIENTS | MAKE MEN OF PIGMIES.

If there is a spark of manhood in the veins of a weak, puny man can fan it into a flame and produce a physical giant.

This refers to men who cught to be strong and have lost their physical

strength by overstepping the laws of nature.

Any man who has ever been strong can be again. Age is no barrier. It deal in vitality and I can give it to a man of 80 as well as one of 30. The energy of your body is Electricity—that is what makes you go. just as an engine goes. When you run down I can renew your power

and set your body going again. Give me a man of 50, feeling old and worn out with pains in his back and joints. I can pump a stream of Electricity into his body for a few hours every night and soon he will feel as strong and lighthearted as he

M. Haig, 36 By Ward Market Square, Ottawa, on January 26th writes me:—When I got your Belt I could not stoop to tie my shoes, and had to be helped to get my cont on. Now I have not a pain or an ache and feel as well as ever I did. If I feel sore after heavy work I put the Belt on, and get up in the mornings as himber as ever. I will be 50 years old in May next. Yesterday I lifted a barrel of butter (160 pounds) into the sleigh, and gix months ago I would not think of doing it.

Give me a man (or woman for that matter) who has been sick and suffering for years and taken medicine until the system is all run down and debilitated, the stomach unable to digest the food and the nerves shattered. My Electric Belt will give new life to every organ, drive out

disease and restore health. Mrs. M. Galtshere, Merriton, Ont., writes: Dear Sir-I am well pleased with your Electric Belt. I have not had an attack of inflammatory rheumatism this winter since using the Belt, and I was always necustomed to have them before, ever since I was 13 years old. My husband also were the Belt for weak back, which would trouble him whenever lifting heavily, and is now cured.

I sometimes wonder how people can be skeptical as to the power of my belt to cure them, when they know that the foundation of their troubles is a want of sufficient vitality in some part of the body, and it will take a sensible man only a minute to see that the vitality of the body is electricity. So, get that back, as I give it, and you are cured. My patients are the people who have made a study of their own cases. When they do they appreciate my remedy.

Mrs. John Morrison, Kincardine, Ont., writes: -Dear Sir-I was a sufferer from rheumatism, and had constantly to use a cane to assist me. After using the Belt I have discarded the cane. I would not part with my Belt now for anything, and highly recommend it to all those suffering from rheumatism.

I could fill this paper with testimonials from honest people. If you will call or write I will give you names of people all about you whom I

have cured. My confidence in my method enables me to offer the Belt on trial, and one who can offer me reasonable security can use my Belt at my risk and

PAY WHEN CURED.

I know no better way to prove my confidence in the wonderful curative power of my Belt than to cure you before I ask my pay. Can anything be fairer than that?

CAUTION There are many old style Belts on the market to-day, whose merit is their ability to burn and scar the flesh. These old style, blistering scorchers are using a cheap imitation of my Cushion Electrode. My office contains hundreds of these old style Belts, discarded as useless, many of them after the patient had only had them one week. I want every man and woman who are suffering from any pains or weakness to call at my office and TEST MY BELT FREE OF

FREE BOOK I have a book which will inspire a man or woman who wants health and strength. I will send it free, sealed, upon request if you will inclose this ad. I would like to have you call for free advice and consultation

DR. M. O. MCLAUGHLIN, 130 YONGE STREET, OFFICE HOURS-9 a.m. to 8.30 p.m.

BLOOD DISEASE CURED. If you ever contracted any Blood or Private Disease, you are never safe until the virue or poison has been eradicated from the system. Don't be satisfied with a "patch up" by some family doctor. Our New Method is Guaranteed to Cure or no Pay. 32 No Mames Used without Written companie.

"Could I live my early life over, this testimonial would not be necessary, though I was no more siaful than thousands of other young men. Early indiscretions, later excesses, exposure to contagious diseases all helped to break down my system. When I commonced to realize my condition I was almost frantic. Dorbor after doctor treated me but only gave me raiser not a cure. Hot Springs helped me, but did not cure me. The symptoms always returned. Mercury and Potash drove the poison into my system insisted of driving it out. I bless the day your New Method Treatment was recommended to me. I investigated who you were first, ned finding you had ever 25 years' experience and for spensible financially. I gave you my case under a guaranted. You cured me permanently, and in six years there has not been a sore, pain, nicer or any other symptom of the blood disease."

The animal keepers in Lincoln Park, hicago, went fishing a few days ago. Judged by ordinary standards they were fairly successful. That is, they caught something like 40,000 goldfish, and 10,000 of other varieties, mostly German carp, sunfish and bullheads. The raid on the pond serves three purposes. It will preserve the lives of the goldfish, which were being preyed upon by the other species; it will furnish a diet for such of the park animals as mill accept fish as a food, and it gave the park workmen a chance to clean the pond. The pond got a thorough scrubbing, and the goldfish will be restored to its waters. The carp and other fish will be fed to the animals

THINGS YOU MUSN'T SAY

To Be Avoided Always.

Little "Slips" of Language Which Stamp Indelibly Upon the Guilty One the Words "III-Bred."

is is a fact that words, their pronunciation and use, expressions, What is perfectly correct in one generation becomes first old-fashioned, then affected, and finally either obsolete or vulgar, according as to whether these discarded husks of civilization have been generally adopted by the

In the democratic ardor of my youth I did that which is now a source of regret to me. I carefully modernized my pronunciation, and endeavored to 'get away" from what I considered the unenlightened peculiarities of the generation above me. Alas! I can no longer say "corfy" naturally, so I resign myself to the less distinguished and more general sound, except on the occasions when, to my joy, I unconsciously revert to the pronunciation of my early youth. A highly refined writer of fiction will, in depicting his writer of fiction will, in depicting his the social world—it is, so far, her only low-life scenes, make his barbarians kindgom—that is quite as it should say "I'm orf." And when one sees the word spelled like that as a sign of the coarseness and ignorance of the character, the writer has betrayed his own hideous, mincing mispronunciation of a word which the rufflan has enunciated than the father's. The relationships correctly.

Mr. Rudyard Kipling is rather an pronounces such words as do Mr. Kip- have risen. ling's soldiers.

At the same time, there it is, and it out wishing to appear dictatorial or ar- So" will also talk about "paying calls" stance, if you have on your table no matter what specimen of the genus among them, and you know it, it must not be referred to as a "fowl," it must always be spoken of as a "chicken." I cannot say why it is so, but so it is. On the same principle, perhaps, that in any well-conducted establishment the unmarried ladies of the household, if there happens to be a married one, are always called "the young ladies," and 70. Anyhow, let no consideration ing so universal as to harden one into

terrible than when husbands call their wives "mother," or, worse still, oh, piteous sound, 'wife!" You might just "Mantel shelf" for "chimney-place" as well say "helpmeet" or "partner." shocking reminder to have thrust at one every minute. In fact, the repetition of any name, even the most corextreme of never saying a name at all if it can possibly be avoided. It always strikes me, too, as a little jarring when people talk to one about "your husband" or "your wife." Was it in Thackeray's "Book of Snobs" where Jones, having married "Lady Dulcima Tomnoddy," is greeted by Smith after the marriage with the hearty inquiry: "Well, Jones, and how's your wife?" returns the cold response: "Do you refer to Lady Dulcima?" and is scored off, as the raconteur thinks, by the reply: "Oh, I thought she was your wife?" But, although Jones showed questionable taste in his method of snubbing Smith, I can quite understand Jones' feeling of annoyance. If a person has got a name, it is just as well to use it when inquiring after him and it savors of condescension, and the Lady Bountiful when you insist upon the relationship of and to the person you are

addressing. And, after all, ignorance is the root of all evil, even in such weighty matters as have been dealt with in this paper. No plant flourishes without cultivation except where it is indigenous to the soil, but care and cultivation will produce specimens which it will need all the inherent advantages of time and place to rival even, let alone excel.-Chicago Tribune.

that determine to what sphere they belong, but it is the people themselves that build up and put their own unmistakable mark upon what to an-Given certain conditions, an individual may do or say almost anything he pleases. The only certainty is that there are things which under no cir-"the measles" instead of measles tout cumstances would he take pleasure in doing. No proverb is more irrefutably borne out by experience than the one are much used that one deplores as that points out how one man may steal a horse, and another not even be allowed to look over the hedge.

Of Sleepless Nights Is Too Well Known to Hosts of Nerve-Exhausted Men and

Women--The Fatal Error of Using Opiates. More Irrefutable Evidence That Dr. Chase's Nerve Food Cures Thoroughly and Well Every Symptom of

Nervous Exhaustion.

To lie awake night after night, the brain on fire with nervous excitement and thoughts flashing before the mind in never-ending variety, is the common experience of

The Keen Distress

persons whose nerves are weak and exhausted. During such nights nerve force is consumed at a tremendous rate.

Instead of being restored and reinvigorated for another day's wear and tear the body is further weakened and exhausted and the mind is unbalanced by this terrible waste of energy which the lamp of life is rapidly burning out.

It is in this despairing condition that many men and women attempt to drug and deaden the nerves by the use of opiates. This is a fatal step which hastens nerve decay.

Surely it is wiser to build up and completely restore the nerves by using Dr. Chase's Nerve Food, a treatment which gets right down to the foundation of the difficulty and effects permanent results by revitalizing the wasted nerve cells.

London, Ont., states: "For a long time I have been troubled with sleeplessness, and only those who have experienced this symptom can understand what I suffered. I got so bad that I could hardly sleep at all; I was restless and my nervous system seemed to be entirely undermined. Thanks to Dr. Chase's Nerve Food. I am now entirely free of my old trouble. It has toned up my nervous system so that I can sleep well, and has done me a world of good by improving my health generally."

GREY STREET.

Mrs. Hopwood, 224 Grey street, London, Ont, whose husband is a shoemaker, states: "I was a great sufferer with neuralgic pains in my head, nervousness and sleeplessness: I had tried all kinds of medicines for my trouble, but it remained for Dr. Chase's Nerve Food to cure me. My nervous system has been restored, pains in the head have left me, and I can sleep well, something that was an utter impossibility before using this remedy."

ELIAS STREET.

Mrs. Croxin, 692 Elias street, London, ont, states: "I have been troubled for long time with sleeplessness as a re-ult of a run-down nervous system. I sult of a run-down nervous system. I procured a box of Dr. Chase's Nerve Food, and can say that I never used any medicine that benefited me so much. It built up my system wonderfully, and made me feel like a different person. I can now sleep and rest well, and take pleasure in recommending Dr. Chase's Nerve Food."

HORTON STREET.

Mrs. A. Martindale, 449 Horton street, London, Ont., states: "For a long time

Dr. Chase's Nerve Food.

Sleeplessness is only one of the many distressing symptoms which entirely disappear with the use of Dr. Chase's Nerve Food. It is a positive cure for weakness of nerves and body, and is specific for woman's ills because they almost invariably arise from exhausted nerves. 50 cents a box, 6 boxes for \$2.50, at all dealers or Edmanson, Bates & Co., Toronto.

EMBALMED THE WORKS OF ART.

It is not the things people do and say How Valuable Paintings Were Preserved From Decay.

> Chemicals Which Preserved King's Body for Five Centuries Stopped Ravages of Mildew.

It is a curious fact that the same combination of chemicals which preserved in a perfect state for over 500 years the remains and shrouds of King Edward I. of England have also been used to preserve four of the great historical paintings perpetuating scenes in the foundation and establishment of the government of the United States. These four paintings occupy perhaps called, and refuse to recognize them. "Lunch" for luncheon is a League was held in the Methodist the most conspicuous place for obser-Church on Wednesday evening. The vation in the nation. They are the work of Col. John Trumbull, and hang

> The paintings were put in place in 1824, under the supervision of the artist himself, but not without much hesitation on his part because of the dampness of the walls and air in the rotunda at that time. The fears of the artist were proven to be well-founded, for four years later the changes on the surface of the paintings became so apparent that congress passed a resolution authorizing their removal from the walls of the rotunda by Col. Trumbull for inspection and remedy if possible. It was at this point that Col. Trumbull's knowledge of the preservative chemical compound was drawn

In a letter to congress, dated Dec. 9. 1828, Col. Trumbull explains in detail his treatment of the paintings at that time, and an inspection now of these four pictures shows that they are in a perfect state of preservation, both as o brightness of color and condition of

In the letter referred to Col. Trumbull says: "All of the paintings were taken down, removed from their frames, taken off from the panels over which they were strained, removed to a dry, warm room, and there separately and carefully examined. The material which forms the basis of the paintings is a linen cloth whose strength and texture is very similar to that used in the topgallant sails of a ship-of-war. The substances employed in forming a proper surface for the artist, together with the colors, oils, etc., form a sufficient protection for the face of the canvas, but the back remains bare and exposed to the deleterious effects of damp air. The effect of this is first seen in the form of mildew; it was this which I dreaded, and the examination showed that mildew was already commenced, and to an extent which rendered it manifest that the continuance of the same exposure would have accomplished the complete decomposition or rotting of the canvas, and the consequent destruction of the paintings." Col. Trumbull then explained how he first thoroughly dried the canvases and prepared them for the preservative. On this point he continues: "I had learned that, a few years ago, some of the eminent chemists of France had examined with great care some of the ancient mummies of Egypt, with a view to ascertaining the nature of the substance employed by the embalmers, which the lapse of so many ages had proved to possess the power of protecting from decay a substance otherwise so perishable as the human body. This examination had proved that, after the application of liquid asphaltum to the cavities of the head and body the whole had been wrapped carefully in many envelopes or bandages of linen prepared with wax. The committee of chemists decided further after a careful examination and analysis of the hieroglyphic paintings with which the casings, etc., are covered, that the colors employed and still retaining their vivid brightness had also been prepared and applied with the same sub-

"I also knew that toward the close of the last century the Antiquarian Society of England had been permitted to open and examine the stone coffin deposited in one of the vaults of Westminster Abbey, and said to contain the body of King Edward I., who died in July, 1307. On removing the stone lid of the coffin its contents were found to be closely enveloped in a strong linen cloth, waxed. Within this envelope, were found splendid robes of silk, enriched with various ornaments covering the body, which was found to be entire, and to have been wrapped carefully in all its parts, even to each separate finger, in bandages of fine linen which had been dipped in melted wax, and not only was the body not decom-

posed, but the various parts of the dress, such as a scarlet satin mantle, and a scarlet piece of sarsnet, which was placed over the face, were in perfect preservation, even to their colors." Col. Trumbull then states that with this knowledge he melted common beeswax and mixed with an equal quantity of oil of turpentine, which mixture was applied hot with brushes to the backs of the paintings, and afterwards rubbed in with hot irons until the cloth was perfectly saturated. The niches in the walls were backed with cement, and the paintings so placed in them that air could circulate behind the canvases. Spring doors were also ordered placed in the entrances to the rotunda by Col. Trumbull. Since that reatment these paintings have had nothing done to them, and from present appearances they need nothing.

Soda Fountain Evolution.

[American Exporter.]

The rapid increase in the trade enjoyed by the proprietors of soda fountains in the leading cities of the United States has led to the installation of many very elaborate and costly out-fits. Most of the finer ones are made of Mexican onyx, and cost in some instances as high as \$15,000 or \$20,000. A \$15,000 fountain would be made of the finest material and would be of great size. It might have 30 draft tubes and 100 syrup cans. Very beautiful onyx fountains, of the dimensions more commonly used, say with ten syrup cans and three draft tubes, can be bought for from \$850 to \$1,200. In fact, a handsome onyx fountain can be bought for \$600. But not everybody wants an onyx fountain. There are yet purchasers who prefer one of marble. A marble fountain with onyx trimmings could be had at, say, \$450. An old whe marble fountain might be had \$150.

Fifty years ago or thereas uts soda water was drawn from a silver tube rising out of the counter. Then came the first visible soda fountains, small marble boxes, placed on the counter. From these developed the elaborate and often costly fountains of marble that preceded the onyx fountain of the present. Beautiful and costly marble was brought from all parts of the earth to be used in the construction of soda fountains, but now the fashion is onyx, with a canopy or superstructure of wood. Along with its great development in beauty has come a correspondng improvement in the soda fountain's working parts. The modern fountain is far more convenient and efficient in operation than its old-time predeces-

ENGAGED GIRLS BARRED

London Dectors Say They Should Not Be Trained Nurses.

"No engaged girls need apply" is the latest phase of the nursing profession. Doctors and matrons have, it appears, been discussing the subject, and have come to the conclusion that damsels who are engaged to be married should not be admitted as probationers to training schools because, in the opinion of those staid, matter-of-fact persons, they only dally with nursing until the time comes to trip lightly into marriage, and thus stand in the way of those

Moreover, doctors and matrons entertain a strong suspicion that not a few of these giddy candidates seek the privilege of wearing a nurse's uniform, with all the attraction it possesses, for the purpose primarily of working havoc among the hearts of medical students and others, with the view of speedy marriage. An argument used on the other side is that even young women who are engaged to be married would derive inestimable advantage from passing a year or two among nurses and learning something about how to treat simple maladies such as occur frequently in households. That may be so, but nursing is now a recognized profession, and those engaged in it do not look favorably on those whom they regard as matrimonial interlopers. So the engaged girl probationer is to be shelved.-London Telegraph.

REV. DR. TALMAGE.

Washington, April 11.-There has been no change in the condition of Dr. Talmage since last bulletin was issued. SHOT HER SON AND HERSELF. Poughkeepsie, N. Y., April 11.-The coroner of this city was called late last night to investigate the deaths of Mrs. A. Edward Tower and her young son. According to information obtained by the coroner, Mrs. Tower shot and killed her son and herself in a fit of temporary aberration. Mrs. Tower's husband is a wealthy and prominent resident of this place.
