ENGLAND PLAGUED WAITERS MIGRATE BY HEAT AND ANTS

Temperature and Rushes for Cooling Beverages.

London, Aug. 28. - The vagaries of conversation in London last week, and, following the South American eartha relationship of cause and effect.

For several days the temperature had cury went up with a jump to 87 degrees Fahrenheit in the shade, and achieved a record for this year.

prise by this heat wave. A legend diswith a mighty rush Thursday afternoon and Londoners were no longer troubled to devise schemes for keeping cool. One remarkable phenomenon is reported. At Sandwich, what is described as resembling a black thundercloud advanced out of a fog which overhung the sea on Tuesday afternoon, and, crossing the sand hills, spread over the town and then descended. The cloud proved to consist of millions of winged ants. Pedestrians covered their heads with handkerchiefs and fled precipitately into shops and houses, while thousands of insects covered horses and vehicles in the streets. The River Stour was covered with a thick black ayer. Later the visitation continued oward Deal and Ramsgate.

STRUGGLE WITH THE WASP WAIST

Makes It Necessary and Then Hasten to Cultivate It.

London, Aug. 28. - The wasp waist the majority of women with distrust. Fashion's decrees must be obeyed. however, and many women who are most emphatic in deploring the necessity of the wasp waist suffer much in their efforts to obtain one for them-

One well-known corsetlere says she always advises her customers to avoid tight lacing as it ruins the figure and shortens life. She contends it is a mistake to imagine that a man admires a tiny waist, as what he admires is a trim and rounded waist, which is easily cultivated "without discomfort, or cramming the body into corsets which

resemble mail armor." On the other hand, a west end costumer says the wasp waist need not be a result of tight lacing, and guarantees to give her customers a wasp waist without discomfort. Her secret is that she studies her customers. If a woman complains about the size of her waist she does not recommend tight lacing, but deigns a gown which emphasizes the shoulders and hips and makes the waist in comparison appear

a couple of inche smaller. One physician, who was consulted on the subject, declared that he had issued warnings without end against tight lacing, and that at last he had given it up in despair. He could only offer this promise to a girl who was tightly laced: "She will suffer from Truly, an awful warning!

FOR LACK OF TIPS

Suffers from Brief Wave of High Resorts in England Unable to Obtain Men Because They Go to the Continent.

London, Aug. 28. - The close of the the weather formed a fruitful topic of London season has brought about a dearth of waiters, and the chief waiter employment agencies are receiving dozens of applications which they are quake, have suggested to many minds unable to meet. It is computed that every summer some five thousand "knights of the napkin" leave London for the continent and English seaside been slowly rising, and the climax was places. This year, however, a greater reached on Wednesday, when the mer- number than usual has gone abroad. R. Kipfer, secretary of the London branch of the Union Helvetia, which in other words is the Swiss hotel employes' society, in explaining the cause of this Shopkeepers, particularly clothiers migration, threw light on the tipping and caterers, were quite taken by sur- question. One reason is an increasing continental demand for waiters who played in tailors' establishments in the played in tailors' establishments in the ant reason "lies in the fact that Lonwest end, "New Winter Goods Now in don waiters find it a difficult matter Stock," had a quite exasperating effect, and created in one an unholy desire to smash the shop windows. An abnormal demand was experienced for cooling drinks, and in many cafes and will, when in their own country, offer a hotel employe a sixpence or a shilcooling drinks, and in many cases and a hotel employe a sixpence or a shilling for two weeks' incessant attention. In consequence, fewer waiters have this year accepted engagements at these places."

Another feature of the tipping ques. tion mentioned by Mr. Kipfer was that in many seaside hotels the head waiter presents the bills to patrons and pockets all tips, with the result that an ordinary waiter finds it difficult to earn

THE KILLING OF DYNES

THE SATISFACTORY STORE

Sample Waists at Prices That You'll Be Pleased to Pay

Sample Waists - silks, velvets, lusters, cashmeres, sateens, 10 doz in the lot - no two alike.

We will not attempt a description - in fact, styles are far too numerous to describe in detail.

These are the fall samples of a leading manufacturer. Styles range from the simple, neat waists to the more elaborately trimmed affairs. All are correct, in every detail, for fall wear. Some have short sleeves, others long. Some fastened in front, others at back. Embroideries, lace insertions, tucks and fancy buttons are employed in various beguiling ways for trimmings.

Thursday Is the Day

we place them on sale. Come in the morning for best choice. Ought to go out with a rush with prices like these to greet you:

\$1.25	Waists	for	87c
\$1.50	Waists	for	\$1.13
\$1.75	Waists	for	\$1.25
\$2.75	Waists	for	\$2.00
\$3.25	Waists	for	\$2.25
\$5.00	Waists	for	\$3.50
			\$4.00
\$6.50	Waists	for	\$4.50
\$7.00	Waists	for	\$5.00
\$8.50	Waists	for	\$6.00

This is only a partial price list of the "good things." You'll find a host of other waist values every bit as good as the foregoing examples.

SEE WINDOW DISPLAY. Goods on Sale in Waist Dept. -2nd Floor.

Semi-Made **Dresses For Fall** Just In: Lace, Chiffon and Net Materials

The new fall styles in these popular semimade dresses are on display in the silk

They are very handsome creations. You will experience difficulty in getting more handsome dresses at the prices marked on these-vou'll be fortunate if you secure as handsome.

They are almost ready to slip into. Very little to do to complete one. No trimmings to purchase. The most economical kind of a dress to buy.

THE BLACK BRUSSELS NET DRESSES are beautifully appliqued with fine silk braids. Very full skirts with graduated flounces. Waist parts are in bertha and bolero styles.

BLACK CHIFFON DRESSES will be admired by those who like very rich appearing things. Valenciennes laces and insertions are effectively used for trimmings.

But we haven't the space to go into details. Come and see the whole collection and draw your own conclusions. Come soon, too. We expect a great demand for these dresses, and we would like you to see the collection before it becomes depleted.

BLACK DRESSES at \$15, \$20, \$22.50, \$24, \$25, \$26, \$28 and \$42.50.

GUARD OUR COUNTRY AGAINST MILITARISM

Plea for Peace.

Toronto, Aug. 28,-A strong address against militarism in Canada was given by Sir William Mulock this afternoon at the opening ceremonies of the Canadian National Exhibition in replying to the address of welcome of

the board of directors. Sir William spoke eloquently of the victories of peace in Canada. "The strength of the nation," he said, "lay in its peaceful and happy homes. There were no battleships or engined of destruction in Canada, for its people were building upon a better and surer foundation, the products of peace. He would ask the people of the country of trade operations in 1905 of the Can- to guard public opinion that it would not lead their public men into the mistakes, which in other countries had resulted in the people staggering under customs show a slight increase of for- the burden of debt incurred by rulnous

Miss Ruth cannot get redress because the manager who engaged her is away probability that he on his return might break the contract for her dances, which are already deflowered, and had the idea of this display of Oriental pomp as a way of keeping herself in protest before the public in order that her appearance later might be even more sen

ENLIGHTENED METHODS IN LIFE INSURANCE

The Metropolitan Life Insurance Company, of New York, has just distributed microbes for the medical faculty at some official information in the form of a statement which would be quite unprecedented in the history of life insurance were it not for the fact that this same institution has before treated its policynolders to similar surprises.

The company announces that it has declared and is paying a cash dividend upon its Industrial Policies maturing in 1906, amounting to more than two millions of dollars. The full significance of this Metropolitan Life's insurance contract is understood. This company is in no sense mutual. It does not "estimate" or guess at what it will be able to pay an insured person when his policy matures, but agrees to pay a definite, specified sum in return for a definite, specified premium paid by the insured according to contract. In other words, it sells insurance at what this basis the cost to the person insured is, of course, determined by past experience, and as the factor of competition prevents the exaction of too high a rate. the premiums must always be as low as safe administration of the business will

It may be assumed, then, that a policyholder in the Metropolitan Life has bought a definite amount of insurance at the it in definite sums at definite intervals. and has no more expectation of extra benefits than he would have in buying fire insurance or a house under similar

terms. It happens, however, that this policyholder is associated with a company that by skillful management, has had phenomenal growth and prosperity, and as "And if a burglar entered your home the actual cost of individual insurance decreases with each year's increase in "I'd do as any other sensible person volume of business, there has arisen a profit which the company gives back to the source whence it came-though no obligation to do so, implied or expressed, exists in its contracts. It has thus distributed approximately ten millions of dollare within the past few years, and it is Rev. Father Whelan, who is a-pret- a significant indication of the company's ty shrewd observer of human nature, present condition that the voluntary says that the people who do their dividend of two millions now being paid

IF YOU READ

The series of advertisements which will appear in this paper every other week, pointing out the many points in which our brands, "FIVE ROSES" and "HARVEST QUEEN," are superior to any ordinary bakers' flour, you will see that it will pay you to use these brands.

All we ask you to do is to read the series carefully from first to last-weigh the statements made-compare the advantages you can obtain by using our brands with the worry and anxiety you must have with ordinary flour-consider the reputation we have already established for uniformity and purity in flour, and then send us a trial order—and you will be pleased, and will realize that the time spent in considering the matter has been by no means wasted.

We want your trade. You want our brands-though you may not know it. Can't we get together through the medium of these advertisements and do business to our mutual benefit?

It took a corporal and his 30 vaqueros the following reasons:

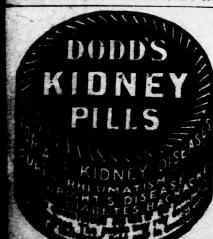

a solid month of severe toll to do the trick. Cowboys, by the way, never see anything but hard work. Their hours are careless in her conduct. om 4 a.m. to 8 p.m., or as much longer Santa Gertrude's ranch was founded in

of the transport service on the Rio Grande which supplied Gen. Taylor's army during the Mexican war. Capt. King's ambition was to possess the largest and best-conted ranch in Texas, but he died twenty ago, after accumulating 800,000

When Mr. Kleberg took charge of the neh it was stocked with the usual in-rior long-horned native cattle. He at-mpted to improve the breed, but the stly blooded bulls he brought to the particulars. costly blooded bulls he brought to the ranch invariably died a few days after

tigation led to the conviction that fatal malady was caused by the bite a tick with which all cattle were intere immune. He invited the co-opera-tion of the Agricultural Department in seking a preventive. In due time a pro-ses of inoculation which was found to almost infallible was perfected at

This discovery put an end to the loss untold millions, for Texas cattle had beretofore left a trail of infection and their thing their bird. eath among their kind wherever they tent in the north. Incidentally Mr. Kle-org was enabled to breed up his cattle atil all those on the ranch are now from

one-half to fifteen-sixteenths Hereford or Durham.

The practical value of the discovery was illustrated last spring, when one lot of 19,000 yearling steers were sold at 345 a head, and another lot of 700 bull calves were sold at 340 a head, Longhorn yearlings were worth 38.

Formerly the water supply was so insufficient that it took ten acres of the poor pasturage to support one steer. Four

sufficient that it took ten acres of the poor pasturage to support one steer. Four years ago Mr. Kleberg determined to have a better water supply. He found an abundance of artesian water at a depth of 800 feet. Now there are 125 wells scattered over Santa Gertrude's, with a flow or 25 to 300 gallons a minute. That, of course, meant the evolution of the vast region exclusively devoted to cattle raising into a diversified farming country.

The next step in the sequence was the building of a railroad to afford an outlet for the crops and the cattle, and the slicing up of the great ranches into small truck farms. Although the road has been in operation barely two years, 45,000 acres of crops, ranging from cotton, rice and sugar cane to cabbage and onions, are now under cultivation, where two years ago no sign of human habitation could be seen in the course of arising in the course of a sign of human habitation could be seen in the course of a sign of human habitation could be seen in the course of a sign of human habitation could be seen in the course of a sign of human habitation could be seen in the course of a sign of human habitation could be seen in the course of a sign of human habitation could be seen in the course of a sign of human habitation and sign of human habita

Metropolitan Life Insurance Co

JOHN R. HEGEMAN, President.

Dividend Announcement

INDUSTRIAL

The Company has just declared a cash mortuary dividend on Policies over 5 years in force which have matured and shall mature in 1906. To all death claims on Policies over 5 years in force it adds 5 per cent.; to all death claims on Policies over 6 years in force, 6 per cent, and an additional 1 per cent for each year of duration. Thus the dividend on claims under Policies over 10 years in force is 10 per cent; over 15 years, 15 per cent; over 20 years, 20 per cent; over 25 years, 25 per cent; 1879 (the earliest issue), 27 per cent. The cost of this dividend payable during tht current year is

One Million Two Hundred Thousand Dollars

In addition to this the immediate benefits (payable during the six months after date of issue) on adult Industrial Policies, excepting Term and Endowment, issued during 1906 have been doubled. Certain increases have also been made in the benefits on infantile Endowment Policies during the first year. The cost of these, which will operate as a dividend on all claims maturing during this year, on the issue of this year, is approximately

One Hundred and Fifty Thousand Dollars

These dividends are over and above the dividend declared on Industrial Policies Jan. 1 last, which was a quinquennial cash dividend, amounting to about 20 per cent of the premium for a year, declared on all Policies (except Increasing Life and Endowment Policies, which by their terms carry benefits increasing yearly after the third year) issued in 1881, 1886, 1891, 1896 and 1901. The amount appropriated for this dividend was about

Six Hundred and Eighty-Two Thousand Dollars

Thus the Company THIS YEAR has declared and IS PAYING dividends on Industrial Policies amounting to

Over Two Millions of Dollars

Every one of these policies is non-participating, promising a definite sum only at maturity, without dividends. The payment of the dividend is PURELY VOLUNTARY. Dividends have been actually paid without promise for many years by the Metropolitan. The total amount now approximates

Ten Millions of Dollars

in 12 years. Included among these Pelicles are hundreds of thousands of Policies issued by other companies and assumed by the Metropolitan. /

INTERMEDIATE

Intermediate Policies for \$500 each have been issued by the Metropolitan for 10 years past. They are Policies designed for such of the Industrial classes as can afford to pay annual, semi-annual or quarterly premiums instead of weekly. As the plan was new there was no actuarial experience to guide the Company as to the mortality cost. The Company promised to pay, if earned, dividends after five year and annually thereafter. This year the Company sea aside over

Six Hundred and Twenty Thousand Dollars

to be paid in dividends on Intermediate Policies during 1906. Payment of these dividends has brought the cost of the Policies very nearly down to the non-participating rates of this and other Ordinary companies.

ORDINARY

The Ordinary Policies issued by the Company for the last 15 years have been practically all written on non-participating rates—plain business contracts for plain business nen, which tell their whole story upon their face, leave nothing to the imagination, borrow nothing from hope, require definite conditions and make definite promises in dollars and cents. The rates, therefore, are low. The Company has in force, however, a considerable, though, compared with its total business, a very small percentage of participating business. Some of the Policies were issued on annual dividend and some on deferred dividend plans-many of the latter having been issued by other companies and assumed by the Metropolitan. Upon these Policies the Company has this year declared and is paying a dividend equal to the excess premium charged by mutual rates over the non-participating rates charged on its current business. The amount of this dividend is nearly TWO HUNDRED THOUSAND DOLLARS, which is a voluntary extra dividend.

Thus the amount of dividends the METROPOLITAN LIFE INSURANCE COMPANY is paying this year is nearly

Three Millions of Dollars

THREE-QUARTERS OF WHICH IS A VOLUNTARY GIFT BY THE COMPANY TO ITS PATRONS.

Smith, on Monday, he went round in available with the exception of Doc 64 strokes—two strokes better than his old record for the green, made two Shaw and George McDonald. The latyears ago, when the course was 90 yards shorter than it is now. Vardon took his only 5 at the eleventh hole, which measures 430 yards. He secured fall. There is some talk in Dundas of that hole in 3 when accomplishing his previous record by getting down a entering a team in the senior series, mashie pitch. Then, however, he had two 5's on the outward journey, and a total of 34 for the first nine holes, whereas on the previous occasion, a 2, three 3'c, and five 4's gave him a score of 31 for the nine holes. His long game was as brilliant as at any time in his career, and his putting was

A certain man in London, who is bald, has for some time been trying a number of remedies on the advice of friends, without securing any hair. It is alleged that he recently ate some poultry food in the hope of securing o crop of feathers.

Now he announces that he will sow alfalfa in the spring, as he has been told it will grow anywhere.

His experiment will doubtless be "watched with interest."

On the results at Galesburg the public has been kept posted every day, Pan Michael, winner of the 2:30 trot or Wednesday, is a converted pacer practice next week. President Pyke issues were overlooked. One of with a record of 2:03, which in itself is a world's record, as no other pacer will this year manage the team. The with that sort of a mark was ever shifted to the trot and proved good Trinitys last year scored more points enough to win at the first time of asking in 2:13 1-4, 2:14 1-2, 2:15 1-4. When Star. it is added that Pan Michael is a full brother to the trotter Boralma, 2:07, winner of the Kentucky futurity, the Transylvania and the Massachusetts stake—a feat never accomplished by any other horse—the main points of

first meeting tomorrow night for the purpose of electing a successor to Two of Eight=Rink Matches

Below will be found a statement, compiled by the Toronto News, of the results of the various contests between the British bowlers and the Canadian clubs throughout the country. The otals do not show the results of each clubs throughout the country. The otals do not show the results of each clubs throughout the showing made by each Canadian club against the days' play, but present the showing made by each Canadian club against the British visitors. It is not pretended that this is a fairer method of combridge and never falls to conquer the disease. No one need fear cholera, summediate relief dren teething. It gives immediate relief dren teething cases, for various reasons, the Canadian clubs were not represented by their strongest players, and again in cases rinks representing certain clubs which made a particularly good showing may not have been drawn against the strongest rinks from the old country. Nothing is claimed for the table except that it shows in an interesting way the stand made by the various Canadian clubs against the visitors. It should also be noted that in London the Rowing Club and Thistles united in the match against the Visitors, and therefore it has not been possible to show which club made the better stand against he old countrymen. There were cases, too, in which rinks from certain clubs played the visitors at home, and also sent rinks to other towns. For example, three rinks of Ridgetown players lost by 63 to 35 at Ridgetown, while one Ridgetown rink lost by 20 to 15 at Chatham. So a Thamesville rink won by 26 to 14 at Ridgetown, while another Thamesville rink won by 26 to 14 at Chatham. Again, four rinks of Chatham players defeated the visitors at Chatham by 15, while one Chatham rink lost at Ridgetown by 26 to 12. In each case the totals made by the various clubs are given, whether they played on their own or on other greens. It will be seen that only twelve of the Canadian clubs won against the visitors, and that in almost every case the majority was very small. In only two of the regular eight-rink matches arranged by the Ontario and Western Bowling Associations were the visitors defeated. They lost to the Victorias and Thistles of Toronto by seven shets, and were beaten on the Goderich and Clinton lawns by fifteen shots. Brit. Can. Can. Maj. Maj. Rinks. Brit.

ing a sharp pain on his hip. J. M. Burby a syndicate of New York and dick put his hand down to discover what as it fiew about his head. He withdrew his hand and found it covered

with blood. Lighting a lamp, he discovered a huge black bat crouching in a corner. With vivid recollections of "Tales of consul here, M. Laptow, was shot in the Vampire," Burdick seized a slat the stomach today by a Russian confrom his bed and dispatched the crea- cession contractor, named Lavinsky. ture. Though he had lost much blood, The shooting occurred at the Russian Burdick has experienced no ill-effects consulate. Lavinsky was arrested. His street, left today for Ottawa, where is to tie him to a string and let a pug from the bite of his nocturial visitor. victi mis in a critical condition.

A SPECIAL TRAIN FOR WEDDING CAKE

The question to be considered is such Steamboat, Too, Is Needed to Serve a Mackinac Breakfast.

Mackinac Island, Mich., Ang. 29. -An interesting story has just come to light in connection with the wedding of Miss Julia Camilla Cudahy, ney Vincent J. Walsh, of Chicago, The lake levels give some idea of which occurred recently at the magwhat it will mean to bring water from nificent summer home of the Cudahys here. To serve the wedding breakfast public until after the Western Fair. London is shown to be exactly 222 in a style befitting the multi-millionadre guests, a "wedding cake special" was run from Chicago, making an almost record-breaking run of more than

400 miles. The "wedding cake special" flew and eighteen waiters and cooks.

Awaiting him was the manager of the catering company which prepared a wedding feast in Chicago and served here as easily and with as little fuss as if the wedding guests had been seated in the dining-room or a restaurant. It required a steamboat, a car loaded with silver and cut glass, and the

It was to be a morning ceremony and wedding breakfast was to follow. Mackinac bakeries are not equal to the demands of such an occasion. Moreover, some wedding cake needs

One Best

Baking Powder-it is Strong's. There are a number of good reasons why it is best, but the three principal reasons are:

1st.-Only the purest and finest materials are used. 2nd.—It is all Baking Powder-no adulterants added to make weight. 3rd.—It is always fresh and of full strength. Another very good reason is that it costs one-half the price of other good powders. Have you tried Strong's Baking Powder?

Toronto, Aug. 28.—There was a light run at the Western cattle market this morning, and the expected slump in prices did not come. The market was not particularly active.

The receipts totaled 78 cars, consisting of 1.115 cattle, 2.081 sheep and lambs, 200 ft.115 cattle, 2.081 sheep and lambs, 200 hogs and 164 calves.

There was a fairly good trade in the butcher cattle, and almost everything was bought up. Common stuff is not wanted however, and brings but a low figure.

Nothing doing in export cattle. Ranch cattle, coming in from the States, show up better than the common class of exup better than the common class of exup better than the common class of expectation.

mined. All the directors are silent on that point and also on the question of whether there will be any criminal

prosecutions. of the company and save himself, Hipple resorted to the falsification of his reports, which were accepted as Great Financier Refuses To Allow true by the directors. He used what the receiver termed, "a double system" of making reports. When the state bank examiner called, Hipple presented to him good securities to offset the loans made, and when the president made his reports to the directors he would show them a bundle of other securities and other papers, and along with these he would exhibit the certificate of the bank examiner which showed that the accounts the exam-

iner had investigated were correct. The directors, supposing the securities shown them were the same, approved the reports.

an Important Point.

Hamilton, Aug. 28.-The strike on ing was averted at the last moment by W. D. McMahon, the international president, from Detroit.

certified accountants and were found of the Presbyterian Church, said he Hawkin's house after midnight, and to be correct, but it cannot be stated believed the securities of the trustees the company made a slight concession to the men.

It was that if the committee of either of the suburban lines desired to lay a matter before the company, it might be accompanied by an outsider, whether he be president of the union

This was the point of dispute in the negotiations so far. The company insisted on dealing

with employes only. President McMahon and the local president were at the conference with

Manager Hawkins and Grant. While they were there, the union assembled in Labor Hall, and a very

strong, stormy meeting ensued. Even when President McMahon reported the concession made by the company, scores of hot-headed members demanded a strike.

A vote was taken and it was de cided to continue the negotiations. The committee of the three roads met this morning and prepared agreements to be submitted to the company, for increased wages and readjusting the hours.

At a meeting of the executive of the Trades and Labor Council last night a committee was appointed to wait on erection, two or three years ago. Segal the mayor, and ask him if the report has been the promoter of several enthat he asked the military to be called out on Saturday is true.

TRUE BLUES CONVENE

32nd Annual Session of Grand Lodge At St. Catherines.

St. Catharines, Aug. 28.-The 32nd annual session of the grand lodge of Loyal True Blues of Canada opened Boston, Aug. 28. — Refusing to be in the Orange Hall this afternoon with

E. W. Sheriff, Picton; grand secretary, His grief is heartrending and shows N. Ingram, Port Perry; grand treasgrand organizer, Robert C. Newman; president of orphanage board, C. F.

A feature of the present session will be the burning of the mortgage on the orphanage at Picton. It was in St. Catharines that the idea of establishing an orphanage originated, and since that time the home has been practically free from debt.

HARVARD IN FINE SHAPE

Experts Say Race With Cambridge Wil Be Magnificent Struggle.

Best Kidney Remedy Known To Science

For pain in the backscanty urine—highly colored urine - irritated bladder irregular bowels-bad stomach - there is nothing that will bring such quick relief and so certain a cure as FRUIT-A-TIVES.

These marvelous tablets are nature's natural remedy for irritated or weakened kidneys. They act directly on the kidneys_soothe the irritated membranes -clean, heal and strengthen the organs -and help them to new vigor with their work.

Often kidney trouble is not due to any organic defect in the kidneys. If the bowels are constipated-if the skin does not throw off the tissue waste of the body-then these impurities are carried to the kidneys. In a vain endeavor to rid the system of impurities. the kidneys are overworked—the blood vessels are dilated—the nerves inflamed That causes a host of kidney troubles.

not only heal and strengthen the kidneys but they also increase the action of the skin, and act directly on the liver, thus

curing the constipation.

FRUIT-A-TIVES are the natural and logical cure for all kidney troubles. They are made of fruit and tonics—are pleasant to take—and a guaranteed cure when faithfully used. goc, a box or 6 boxes for \$2.50. Sent on receipt of price if your druggist does not handle them. It Detects Approach of Illness

It is not difficult to tell when a person has a fever, but it is impossible without a fever thermometer to tell whether the temperature is 99° or 100°, or whether it be 102° or 103°. The difference of a degree or two is a matter of vital importance. There is no doubt that thousands have died from fevers through delay in securing a doctor in cases where the use of a thermometer would have revealed the serious character of the ailment. We have thermometers at all prices from nometers at all prices from

In the recent death of Mrs. Wilson, relict of the late Gilbert Wilson, there passed away one of the oldest settlers of Mosa. Deceased was born at Sun-

ess Hill, on Jedwater (a small stream near Jedburgh, flowing into the River Tweed, Roxburgh, Scotland, on Aug. 26, 1810, the same day as the present Duke of Roxburgh's grandfather first saw the light of day. Mrs. Wilson's miss. She was the daughter of James and Helen Middlemiss. Her father was a shepherd and tended his facile on the maiden name was Christian Middlea shepherd and tended his flocks on the hills adjacent to the historic old Jedburgh, so renowned in the history of Scotland, and associated with the memories of the Black Douglas. She was married at Stamford, England, to Gilbert Wilson, in 1841. Mr. Wilson was also of Scotch descent, he being a native of Ayrshire. The couple lived for a number of years at Stamford where Mr. Wilson traveled for a drygoods firm. However, in 1856, actuated no doubt by the spirit of the times, Mr. Wilson, accompanied by his brothers, Thomas and Adam, decided to try his fortune in the new world Early in 1856 they sailed from Liverpool, and arriving in this country they located near Hamilton. Next year Mr. gan again in earnest, for land in Mosa at that time was covered with forest.

Thomas Clements and James Donay.
