signed up to MONDAY, SEPTEMBER 17TH,  
1906, at 5 o'clock p. m., for the undermentioned  
contracts, plans and specifications of which can  
be seen at the office of the City Engineer. The  
Council reserves to itself the right to reject any  
or all tenders. A marked cheque of 5% pay-  
able to the Secretary-Treasurer at Moose Jaw,  
is to accompany each tender.

### CONTRACT A

Labour and certain materials in connection  
with installing a gravity water supply consist-  
ing of 11,950 lineal feet 12" wood stave water  
main; 29,715 lineal feet 12" wood stave water  
main, and 650 feet 15" tile gallery, with all  
necessary valves and fittings, more or less.

### CONTRACT B

For the construction of a Concrete Dam with  
earth embankment at the Snowy Springs,  
eight miles south west of the city and a con-  
crete lining to one side of basin.

### CONTRACT C

For cleaning off the top soil at Snowy  
Springs to a depth of five feet more or less.

### CONTRACT D

For the construction of a Re-inforced Steel  
Concrete Storage Reservoir adjoining the City  
Power House.

JOHN D. SIMPSON,  
Secretary-Treasurer,  
Moose Jaw, Sask.

## FOR SALE

We offer for immediate shipment from  
stock, and subject to prior sale: 10,000 ft. 8  
& 7 Cast Iron Pipe "MacLarens," 5' x 45' x  
12' 6" Proved to 303 and coated.

L. H. GAUDRY & CO.,  
Quebec.

## Tenders For HIGHWAY BRIDGES

Sealed tenders will be received by the  
undersigned up to SEPTEMBER 14TH for the  
replacing of the Edenville Bridge in the County  
of Simcoe by a steel or concrete structure about  
150 feet long, according to plans and specifica-  
tions prepared by Connor, Clarke & Monds,  
Consulting Engineers, Toronto.

Separate tenders are asked for the steel  
superstructure for concrete abutments for  
same; and also for a reinforced concrete arch  
bridge. Plans and specifications may be seen  
at the office of the undersigned or of the En-  
gineers, 35 Toronto Street, Toronto, or of W. J.  
Stewart, Elmvale.

R. J. FLRTCHER,  
County Clerk, Barrie.

## TEMISKAMING AND NORTHERN ONTARIO RAILWAY COMMISSION.

**POWER DEVELOPMENT IN QUEBEC.**

The Quebec Railway Light and Power Company, finding the power at Montmorency Falls inadequate at certain seasons, have undertaken the construction of a huge reservoir about half a mile higher up the river to provide an ample supply of water all the year round. The company have erected there, according to the plans of Mr. E. A. Evans, chief engineer and general manager, a dam 84 ft. high the highest in Canada, for such a purpose. It is 67 feet 4 inches wide at the base and 12 feet wide at the crest, and will hold back 52,000,000 cubic feet of water. The contract for the plant to develop this power has been awarded to Allis-Chalmers-Bullock, Limited, Montreal, the only firm in Canada who build both the electrical and the mechanical portions of a hydro-electric development. It will consist of a 1,500 k.w. alternating current generator, driven by a 2,225 h.p. turbine water wheel.

**REINFORCED CONCRETE BRIDGES**

This cut shows ONE of SEVEN arch bridge spans which we are now completing at Ottawa, Ont. All parts including arches and railings are in concrete thoroughly reinforced with steel bars imbedded in same. This construction is very rigid under heaviest loads, and will resist any flood or ice flow. No painting or maintenance; they are there to stay as long as the native rock. Cost about same as for steel bridges, and superior beyond comparison. Plans and tenders promptly submitted.

**STEEL CONCRETE CO., Limited**

CORRESPONDENCE SOLICITED.

**HUGH CAMERON & CO., Selling Agents, Manning Chambers, TORONTO**

Stackpole

Patent Improved

## Street Sweeping Machine

is the Standard

of Perfection

Because no sweeper so effectively does the work for which it is designed as "The Studebaker." It Sweeps Clean. No sweeper is constructed with the same degree of care and mechanical precision. It Wears Well. "The Studebaker" has the smallest number of working parts, and has less gearing than any other sweeper made. It is free from all unnecessary complications. With reasonable care it does not get out of order. Send for complete descriptive catalogue.

## Studebaker Sprinkler

(PATENT IMPROVED.)

Does not clog or get out of order. Greatest width of spray  
Can be graded from driver's seat to any volume.

We also make an . . .

## IMPROVED VERTICAL SPRAY

REGINA

**FOUNDATION OF ROADS** is the subject now under most earnest investigation by Engineers throughout the World. Poor foundations and good surfaces are found everywhere—on all our great roads. **THERE IS NOT ONE FOUNDATION ON THE MARKET TO-DAY THAT PROPERLY SUPPORTS THE SURFACE.** The steel rail and the wooden cross tie is always the same, but the highway is a different thing; different surfaces and different foundations are required for different services. We have these different foundations; they DO properly support the surface, and, **IN OTHER WAYS**, they give a life to the surface that was never before even contemplated. **The Nash Road**, Borough of Brooklyn, N.Y.
