AND INVALUABLE
FOR THE TOILET.
HYPERION FLUID,
PRESERVING, AND EMBEL-
ING THE HAIR.
DR. CHRISTIE'S
GALVANIC BELT
AND
MAGNETIC NECKLACE
MAGNETIC FLUID.
For the Removal and Permanent Cure of all
NERVOUS DISEASES,
And of those Complaints which are caused by an im-
paired, weakened or unhealthy condition of the
NERVOUS SYSTEM.
This beautiful and convenient application of the
mysterious powers of GALVANISM and MAGNE-
TISM, has been pronounced by distinguished physi-
cians, both in Europe and the United States, to be the
most valuable medicinal discovery of the Age.
Dr. CHRISTIE'S GALVANIC BELT
and
MAGNETIC FLUID,
is used with the most perfect and certain success in
all cases of
GENERAL DEBILITY,
Strengthening the weakened body, giving tone to the
whole nervous system,
PARALYSIS and PALSY,
RHEUMATISM, RHEUMATISM,
GOUT, EPILEPSY, TIC DOU-
REUX, NERVOUS TREMORS, PAL-
PITATION, HEART, APOPLEXY, NEU-
RALGIA, SIDE and CHEST, LIVER
COMPLAINT, and CURVATURE OF THE HIP COMPLAINT, DIS-
EASES, DEFICIENCY OF NERVOUS ENERGY, and all NERVOUS
COMPLAINTS arising from one simple
cause,
The Nervous System.
Drugs and Medicines, for they weaken the
already prostrated system; while
the life-giving, vitalizing influ-
ence, as applied by this beautiful and
wonderful discovery, the exhausted patient and weak
nerved sufferer is restored to former health, strength,
elasticity and vigor.
The great peculiarity and excellence of
Dr. Christie's Galvanic Curatives,
consists in the fact that they arrest and cure disease
by outward application, in place of the usual mode of
drugging, and physicking the patient, till exhaustic
Nature sinks hopelessly under the infliction.
They strengthen the whole system, equalize the circu-
lation of the blood, promote the secretions, and never do
the slightest injury under any circumstances. Since
their introduction in the United States, only three
years ago, more than
75,000 Persons
including all ages, classes and conditions, among
which were a large number of ladies, who are pecu-
liarly subject to Nervous Complaints, have been
ENTIRELY AND PERMANENTLY CURED,
when all hope of relief had been given up, and every
thing else been tried in vain!
To illustrate the use of the GALVANIC BELT,
any person afflicted with that bane
of the human system, DYSPEPSIA, or any other Chronic or
Nervous complaint, in ordinary cases, stimulants are
applied to the nerves and mus-
cles, producing temporary relief, but which in a short
time leaves the nerves in a worse state, and with injured
tone, from this exercise has ensued
the direct consulting from the
use of the GALVANIC BELT. Take a Dy-
namometer, and test the word! symptoms of a
Galvanic Battery passing around the body, using
the Galvanic Belt around the body, using
the Magnetic Fluid. In a short period the
Galvanic Belt will act on the positive element
of the system, while the Magnetic Fluid will act on the negative, and there being
a constant flow and counter flow, the keeping up a continuous
circulation of the Galvanic Fluid throughout the system. THUS
DYSPEPSIA, the most obstinate disease of DYSPEPSIA are PERMA-
NENTLY CURED IN A FEW DAYS IS AMPLY
SUFFICIENT TO ERADICATE THE DISEASE
OF YEARS.
CERTIFICATES AND TESTIMONIALS

cient to fill every column in this paper:
AN EXTRAORDINARY CASE,
which conclusively proves that
"Truth is stranger than Fiction"
CURE OF
Rheumatism, Bronchitis and Dyspepsia.
REV. DR. LANDIS, A CLERGYMAN
of New Jersey, of distinguished attainments and es-
teemed reputation:
SIDNEY, New Jersey, July 12, 1848.
DR. A. H. CHRISTIE—Dear Sir: You wish to know
of me what has been the result in my own case of
the application of THE GALVANIC BELT AND
NECKLACE. My reply is as follows:
For about twenty years I had been suffering from
Dyspepsia. Every year the symptoms became worse
and more distressing,
without experiencing permanent relief from any course
of medicine whatever. About fourteen years
ago, in consequence of frequent exposure to the
inclemency of my pastoral duties
in the mountains of Chenango Dutchess,
Delaware, I caused me indescribable
suffering in the winter of '34 and '35, in
the midst of a great deal in my own and
in this region, I was attacked
with most became so severe as
to cause a suspension of my pastora
labors for more than one thoroughly pros-
trating attack became worse, so also
did my Rheumatic affection—the
disorders were connected with
the medium of the Nervous Sys-
tem alone. IN EIGHT DAYS I WAS ENABLED TO RESUME
MY PASTORAL LABORS, NOR HAVE I SINCE OMITTED
A SINGLE SERVICE ON ACCOUNT OF THE DISEASE
AND MY RHEUMATIC AFFECTION HAS ENTIRELY CEASE
TO TROUBLE ME. Such is the wonderful and happy re-
sults of the experiment.
I have recommended the BELT and FLUID to
many whom I knew had been likewise suffering from Ner-
vous affections. They have tried them, WITH HAP-
RESULTS, I BELIEVE, IN EVERY CASE.
I am, dear sir, very respectfully yours,
ROBERT W. LANDIS.
DR. CHRISTIE'S
GALVANIC NECKLACE
Is used for all complaints affecting the Throat C
Head, such as Bronchitis, Inflammation of the Throat
Nervous and Sick Headache, Dizziness of the Head
Nerves and Sick Face, Buzzing or Ringing in the
Ears, and is generally Nervous, and the
so called Tic Doloreux.
DR. CHRISTIE'S
GALVANIC BRACELETS
Are a valuable remedy in cases of Convulsions o
Fits, Hysterics, and general Nervous
Debility, and speedy relief and
cure are obtained in these and all diseases caused by a
Deficiency of Nervous Energy in the limbs
and body.
Rheumatism and Neuralgia.
The most agonising complaints are re-
moved by the application of the GALVANIC
BELT and MAGNETIC FLUID. The Belt diffuses the
Galvanic Fluid through the system; the Necklace has a
local effect, and the Fluid acts directly upon the af-
fected nerves. In these distressing afflictions the ap-
plication NEVER FAILS.
No trouble or inconvenience attends the use
of DR. CHRISTIE'S GALVANIC ARTICLES
and they may be worn by the most fashionable and delicate
with perfect comfort and safety. In many cases the con-
sultation attending their use is highly pleasant and
agreeable. They can be sent to any part of the
country.

ANGEL HOTEL,
DALE STREET,
LIVERPOOL.
S. TOWERS, Proprietor of the above Hotel, begs most respectfully to inform the Citizens of the United States and Canada that the "Angel Hotel" is a First Class Establishment. Great improvements and alterations have recently been made, which render it equal to any House in Liverpool.
The Family Department of the Hotel will be found to embrace everything tending to comfort, whilst to Foreigners visiting Liverpool it presents additional accommodations, as a Suite of French Salons, and German Servants form a portion of its arrangements.
The Hotel is situated within a few yards of the Exchange, and the principal business parts of the Town, and within five minutes walk of the Docks, Custom House, and Railway Stations.
S. T. has been the Proprietor of the "Angel Hotel" twenty years, and for the last seven years the Proprietor of the Queen's Hotel, Manchester, which he is now giving up to devote all his attention to the former, where he hopes to have that kind patronage he has so long been favoured with; assuring those who patronise him that every thing will be done to conduce to their comforts, and at moderate charges.
Warm Baths, Smoking Rooms, and Billiard Rooms, are on the premises.
N. B.—Captains of Ships will find this Establishment very convenient, being one of the nearest respectable Hotels to the Docks.

THIS COMPANY, which has been established 30 years, commenced with a subscribed Capital of £500,000, and was the first, 20 years ago, to offer to the Public two Scales of Premium —the lower, to insure only a fixed amount; the higher, entitling the Insurers to a participation in the profits.
Advantages offered to Ensurers.
Very low Rates of Premiums on Young Lives.
The security of a large realised and invested Capital.
Large Bonuses on Policies effected on the high Scale.
Prompt settlement of Losses.
The full value given for Policies when discontinued.
On Insurances for the Whole of Life: one-half of the Premiums, if desired, permitted to remain unpaid for the first seven years, as a Loan at interest, and then to be paid, or to remain as a permanent Loan, at the option of the Insurer.
Loans upon Policies for the Whole of Life, after payment of three Premiums, in proportion to the value of same.
The acceptance of Naval, Military, Climate, and Special Risks of all kinds, on payment of a commensurate Premium. Age admitted on the Policy when issued, if desired, on proof of date of birth.
Permission for the Lives assured to reside in any part of Europe, without extra premium or special license. Canada, at and from California, at a small extra premium.
Insurances, if required immediately, may be effected any day between the hours of 10 and 4.
The Reports published by this Company fully set forth the merits of Life Insurance; and copies thereof may be had, gratis, on application to the Agent, who is also prepared to furnish every information that intending Insurers may require.

REDUCED RATES OF PREMIUM—HALF CREDIT RATES OF PREMIUM.
THE great and decided success which has attended this Institution, has induced the Directors to REDUCE the RATES originally required in British North America, to the ordinary European Rates. The result of such Reduction is to enable parties to avail themselves of the important benefits in Assurance at much lower Rates of Premium than those of any other Assurance Company t anxiety business in Canada.
The Directors have also resolved to extend to British North America the advantages afforded by the HALF CREDIT RATES of PREMIUM which have been so highly approved, and are so generally adopted by Policy Holders in the United Kingdom. The other liberal conditions are likewise offered to the Assured in the limits to which they may proceed by sea or land, to other parts of North America without affecting their Interest in their respective Policies.

THE LAST GRAND DISCOVERY!
ALAS for the poor PLANTAGENET WATER!—It has not only to bear its own sins, (if it has any,) but the sins of all other Springs, whether up the river or down the river, whether fresh or salt, sweet or bitter,—no matter where,—they must all rise into fame on the reputation of the Plantagenet Water. The last discovery comes from Georgia Lake, via Montreal, or rather goes to Georgia by this route. It appears that, by the agency of a great "learned pundit," a notable "analysis" has been furnished of the Georgian Spring Waters, which are said to "contain all the ingredients found in the Plantagenet," only with the addition of something else, and a marvellous disproportion of quantities. On this principle, we take it, a cabbage contains all the ingredients found in a pine-apple, with the addition, of course, of something else, and a slight disproportion in the quantities! Certain it is that Georgian is not the Plantagenet, and was never yet mistaken for it. If it had been so, it could never have happened that it would have remained for twenty years in hopeless obscurity, in spite of all attempts to pull it into notoriety? Where is the old analysis so too? There was such an analysis, and it might be instructive to see it; how much iodine was there in that? Perhaps it was the wonderful discovery of iodine which led Mr. Kalo to set the magnificent establishment at Georgian to Mr. Tucker, Potassium, Magnesium, Chlorides, Sulphates, Iodine, and all! The fact is, that the new analysis is only a creation of the new agency; a good "How-am-I" liker to have two stones to tie how, and the famous Plantagenet Spring is a capital mark.
We beg to call attention to the annexed certificate of the efficacy of the Plantagenet water in croups and rheumatism by Captain Elliot, barque Berbice, of Aberdeen:—
QUEBEC, 18th Oct., 1851.
MR. A. MANN: DEAR SIR,—For sake of humanity I cheerfully comply with your request to certify the benefit I derived from the use of your invaluable Plantagenet water. During last winter I suffered severely from Rheumatism, besides I was very subject to excruciating cramps in my legs, both tortures attacking me more or less from time to time, up to my leaving home this June last, a goodly supply of your Plantagenet. Ever since I commenced its use, no pain of either kind has touched bone, joint or muscle of my body. I cannot attribute this gratifying change to any thing but the use of your water, and I shall take care to approve of some of it before I leave Quebec.
JAMES ELLIOT,
Capt. Barque Berbice, Aberdeen.

ST. LEON AND CAXTON SPRINGS.
MONTREAL, June 3, 1850.
For the past twelve months I have frequently recommended the Waters of the St. Leon and Caxton Springs, and have found, in a favorable opinion of their efficiency as aperients in various derangements and diseases.

contrary to the express orders of the Physician and High Constable." After the Inquisition, the Coroner issued his Warrent for the apprehension of McGuire, who is now in custody, to stand his trial at the coming Assizes for Manslaughter.—*Hamilton Gazette.*

THE MICA BAY FARCE.—After an awfully long interval, the public is to be treated to another scene of this ridiculous farce. Three assizes have passed over since the Messrs McDonell and Medcalf, were threatened with the vengeance of the law, for being *supposed* to do what the law had no jurisdiction over, and for being present when the bumbugged and plundered Indians chose to assert their own rights—and took steps to resist the encroachments made upon them. At one period the Government brought down a formidable band of witnesses, including a number of the Indians, to support their cause, but it turning out that the testimony of these people would effectually damage them, they sent them all back again, knowing that they would be important witnesses in favour of Messrs. McDonell. Mr. Medcalfe is now in England, but before he went away he endeavoured to ascertain what course the Government intended to take. All, all in vain!—up to last Saturday morning no intimation was given to any of the supposed delinquents. That day, however, an indictment was laid before the Grand Jury, and they found, no doubt correctly, *on the evidence sent before them*, a True Bill as we noticed yesterday. We are not disposed to enter very deeply into the merits of this protracted and unaccountable business—(unaccountable as to the proceedings of Government)—but we see and hear nothing which can justify the Government in their proceedings. The fact of their sending the Indians away *after bringing them down for this purpose*, and this alone, the whole being at a very heavy expense to the Province—knowing that the defendants were then prepared for them, and their now pouncing down upon them when they might have been off their guard, looks very ill. We do not believe they will venture to come to trial; but if they do, we may expect a rich treat. Is it possible that this is a mere flare up of the expiring Government, like "a dying snuff on a save-all?" Will they venture to face the papers produced during the last session of Parliament?—*Toronto Patriot.*

WORK BOX BY HUGH HASTINGS PRESENTED TO HER MAJESTY THE QUEEN.—We are happy to find in the *London Times* and other papers, favourable notices of the work box presented by Mr. Hugh Hastings, Cabinet Maker of this Town, both as to the workmanship and the material. Mr. Hastings has earned no small fame and name by his royal and dutiful present, and we sincerely trust it may be of benefit to him in his trade.—*Cobourg Star.*

A PORKER.—Yesterday there was sold in this market a hog weighing in pork 700 lbs. The animal was raised by Patrick McCauley from J. McNiece's stock of this city, and was two years old when he came under the butcher's knife.—Another 18 months old, from the stock of Alderman Flanagan, weighed 369 lbs.—*Kingston News.*

UNITED STATES.

MURDER OF DR. CHAMBERLAIN.—On the 15th of September, the Rev. J. Chamberlain, D. D., President of Oakland College in the United States, was murdered at his own gate in sight of his two daughters, who witnessed the tragedy from a window in the second story of the house. It appears that, in the State of Mississippi, an excitement has for several months prevailed between two political parties known as belonging to what is called the "Union" and "Southern States;" and by some means the Doctor, who was of a mild and conciliatory character, and of pleasing and social manners, became obnoxious to some adherents of the latter, one of whom named Briscoe rode to his house in a carriage, and, after some altercation at the gate, struck him with a loaded whip, and finally killed him with a dirk or knife, with an eight inch blade. On the second day after the murder, Briscoe was found in the woods in a state of great prostration, and evidently near his end. He was taken to an adjacent house, and a physician was sent for, but to no purpose, as he soon died in great agony. It was supposed he had taken poison under the harrowing influence of remorse, as parts of his body were much blackened.

RAILROAD AND LAKE BUSINESS AT DUNKIRK.—On the 26th inst., the propeller *Ohio* landed at Dunkirk 1100 bbls of beef, and other steamers 1000 bbls. flour, 500 hogs, and from the country 50 tons butter and cheese. She is said to have been carrying large quantities of freight to the West.—*Troy Whig.*

A TOUGH STORY.—It is well known that an engineer is now engaged in removing Pot Rock, in Hurl Gate, by blasting. A New York paper, describing the operation, says that specimens of the rock were exhibited, and among them the apex of it, *worn smooth by contact with vessels.* The friction must have proved destructive to many wooden bottoms before the obstinate rock yielded!—*Boston Journal.*

Madame Biscaccianti, who has just returned from Europe, gave a private concert and a magnificent supper at the Astor House, New York, on Tuesday evening, to the artists, editors and critics of the city, and the boarders of the house. The occasion was one of unusual interest and pleasure. She has announced a concert for Saturday evening, at Tripler Hall.—*Ib.*

RAILROAD ACCIDENT.—A brakeman named Timothy Sullivan, on the Fall River Railroad, fell from the top of a freight car attached to the train which leaves Fall River at 8½ o'clock, when the train was within a mile and a half of East Stoughton Depot, and was so much injured that but little hopes are entertained of his recovery. He was taken up senseless, and carried back to the depot at North Bridgewater, where medical attendance was summoned, and every attention paid to him.—*Ib.*

ACCIDENT AT THE WASHINGTON MONUMENT.—A block of dressed marble weighing ten tons fell from a height of about ten feet at the National Monument on Saturday, and broke three of the marble steps around the base. Governor Floyd and Mr. Rand, the contractor, were standing not more than a yard from the spot where it fell. The stone cost about $600, the injuries can probably be repaired at cost of $150.—*Ib.*

A BARTLETT PEAR IN OCTOBER.—Some of the fruit and forest trees appear to have indulged in curious freaks this season. We have already spoken of the blossoming of the Horse Chesnut tree in front of Dr. Windship's house in Roxbury. It was but a short time since in passing through Dorchester, we saw a large apple tree, about one half of the branches of which were leafless, and the other half were covered with a profusion of blossoms! On the 20th inst. we gathered a Bartlett Pear from the limb of a tree which had grown, during the early part of summer, more than twelve inches, and then put forth a cluster of blossoms. The Pear was fully ripe, and of excellent flavor!—*Ib.*

OPENING OF A MOUND.—The workmen on the Baltimore & Ohio Railroad opened an Indian mound on Saturday last, on the farm of B. M'Mechen, Esq. The mound was about 70 feet in diameter and 11 feet high. Nearly on a level with the surrounding earth were found an altar of stone, evincing the action of the fire, west of north of the altar the head and body of an Indian extending west of north, at a slight declination from the head to the feet. This body was covered to the depth of a foot or more with ashes, in which the salt was still manifest to the taste, as we are told. The body was remarkably perfect, and was mostly preserved. Around this body were twelve others with their heads centering toward it, and feet projecting. No articles of art were found except a polished stone tube, about 12 inches in length.—*Wheeling Gazette.*

EMIGRATION WESTWARD.—More than one thousand emigrant wagons passed through Indianapolis during last week, all bound West. The number of emigrants this season has been greatly augmented, in consequence of the passage of the Bounty Land Bill. Many an old soldier who has been a tenant all his life, is now enabled to become a freeholder and be a free man indeed. Others by this means have secured homes for their children, who are now flocking by thousands to cultivate [illegible] unproductive lands.—*Indianapolis Sentinel, 21st.*

A RESCUE.—Not long since, while passing [illegible]

nearly exhausted, where he could not have remained much longer without perishing. After the excitement had partially subsided, we heard from the boys the singular reason for the act. It appears there had been three playmates, who had spent the most part of their time together; that one of their number had removed to another part of the village, leaving these two to pass their play hours in what they considered solitude. In order to remedy this, they formed a plan to increase their number. One was to be planted, leaving his legs out of the ground, from which two boys would grow, and restore their former number. The one planted had volunteered to be the victim of transformation. His part was to dig the hole and crawl in, and the other to cover him up. At first they were indignant at our interference, but after a familiar dissertation on cause and effect, the boys became reconciled to us, and promised they would never again undertake this kind of horticulture.—*Poughkeepsie Journal.*

The Louisville *Courier* says that an aged lady, member of the Methodist Episcopal Church, one who heard John Wesley preach in England, partook of the Lord's Supper along with the wives and widows of Ministers of the Gospel at the Conference at Indianapolis, by the special request of Bishop Waugh, on Wednesday, the 15th inst.

Late from the Rio Grande.

NEW ORLEANS, October 30th.—By the arrival of the schooner *Major Barbour* we are in possession of advices from Rio Grande to the 24th inst. On the previous day a party of revolutionists who were reconnoitering were fired on by the Mexicans, when the former rushed upon Matamoras and penetrated to the Custom House of that city. An engagement ensued in which three Texans and many Mexicans were killed, when the revolutionists retired.

The steamer *Neptune* had arrived at the mouth of the river, with reinforcements, which were transferred to a small U. S. schooner. Two hundred Texans started to attack them, when the men composing the reinforcement returned with Artillery to the *Neptune.* Many American troops stationed on the Rio Grande deserted and joined the revolutionists. A requisition had been forwarded by the commandant of the department at New Orleans, for more troops.

Col. Caravajal was expected to attack Matamoras on the 25th. The Mexican garrison continued their operations to defend the place.

Application had been made to the American authorities by the Mexican commander for permission to march on the American side of the Rio Grande, which was refused.

EUROPEAN AFFAIRS.

NEW YORK, Nov. 2.

The steamer *Franklin*, from Havre and Cowes, sailed from the latter port at half past 6 o'clock evening of Wednesday, Oct. 22nd, and arrived at her wharf in this city at half past 11 this morning. She brings 130 passengers and a moderate cargo of Continental merchandise.

The Cunard steamship *Africa* arrived at Liverpool at 3 o'clock on the morning of Sunday, 19th ult., after a boisterous passage of 10 days and 15 hours from New York.

The new Philadelphia built steam propeller *S. S. Lewis*, from Boston 4th Oct., arrived at Liverpool on the 21st. Off Cape Clear, on the 15th, she experienced a heavy gale, and was disabled by the loss of her propeller.

On the 23rd at 9½ P.M., the *Franklin* passed off St. Alban's Head, a large steamer, supposed to be the *Washington.* It not being known in England that the *Washington* had been compelled to put back after she sailed from New York, considerable anxiety was felt for her safety.

A telegraphic despatch from our correspondent at Liverpool, received at Southampton just previous to the sailing of the steamer, announces the arrival of the Collins' steamer *Baltic* at that port, in a passage of 10 days and 14 hours from New York.

Oct. 27, 9½ A.M., lat. 50, lon. 34, spoke ship *Constitution*, from Liverpool for New York; Oct. 31, John Sheen, of Galway, fell from the rigging of the *Franklin* and was drowned.

Kossuth.

Kossuth has not yet arrived at Southampton, but he was confidently expected from Gibraltar in the steamer due on the 24th.

The most extensive preparations were being made in Southampton to give him a hearty and enthusiastic reception. Mr. Croskey, the American Consul, was most active in these arrangements, in seconding the wishes of the Mayor and Corporation.

The Hon. Abbott Lawrence, the American Minister, had promised to be present at the banquet to be given to Kossuth at Southampton. The Hon. Mr. Walker, late Secretary of the U. S. Treasury, had also promised to be present. After the banquet a great mass meeting is to be held in an open square, fronting the U. S. Consulate, at which Kossuth would be presented with the Hungarian Flag from New York.

England.

Mrs. Fanny Kemble was thrown from her horse with great violence on the 20th, at Brighton. She escaped injury, and in a few hours was able to give a reading at the Newbury Rooms.

Miss Dexter delivered a successful lecture on Bloomerism, in Liverpool, on the 19th, which is reported at length in the papers. Miss Louisa, Lapont, also an American, was lecturing on the same subject at Kensington. Two Scotch women were delivering lectures on Bloomerism in the Rotunda, at Dublin.

Ireland.

A Dublin correspondent of the *Morning Post* states that a communication has been addressed to the Galway Harbor Board, that citizens of New York are prepared to embark £100,000 and four steamers in establishing a packet communication with Galway, provided the same amount can be raised in Ireland.

One hundred and sixty inmates of the workhouse at Newton, Ireland, had been sent to Dublin on their way to America.

France.

The latest news from Paris announces no termination to the ministerial crisis. M. Billavat had declined to form a ministry, although pressed to do so. It was thought the President would not speedily find any public man, with a character to lose, who would be willing to undertake the formation of a ministry on the principle of conniving at a violation of the constitution. It was therefore generally hoped that some compromise would be patched up with his old Cabinet, and that a modification of the suffrage law would be agreed to, and submitted to the Assembly on the 4th of November. In the meantime, Louis Napoleon had sent for M. Ducaso, from Bordeaux, and the arrival of that gentleman was looked for with much interest. The Foreign Ministers in Paris were much alarmed, and were trying to induce Louis Napoleon to retrace his steps. Paris remained perfectly tranquil, and no immediate disturbance was apprehended.

The weekly commercial news was favourable. The city retail trade had, however, suffered slightly from the agitation attending the ministerial affairs. The French funds were pretty steady.

The insurrection in the department of Cher had been completely suppressed.

Spain.

From Madrid we learn that the Queen had addressed an autograph letter to the inhabitants of Cuba, expressive of her gratitude for their conduct during the invasion by the "American Pirates."

Austria.

Accounts from Vienna state that the Astrian Minister in London had received instructions to break off all diplomatic intercourse with England if the British Secretary should grant Kossuth an audience.

The King of Hanover had been taken so severely ill that the Duke of Cambridge his only nephew, had been summoned to his bed side. Little hope was entertained of the king's recovery.

The *Corrier Mercantile* of Genoa states that a series of measures are in contemplation to incorporate Tuscany *de facto* with the Austrian Empire.

A telegraphic congress assembled lately at Vienna to originate measures for facilitating telegraphic communications between different countries.

The new Governor, Arch Duke Albrecke, had been received with extraordinary demonstrations of joy in Hungary. Triumphal arches were erected, and flowers strewed along the way.

Greece.

Letters from Athens announce that the Grecian Archipelago was at last cleared of the pirates who had so long infested it. Negros, the chief buccanier, had been killed, and his band dispersed.

Cape of Good Hope.

Most disastrous intelligence had been received from the Cape of Good Hope, by the British war steamer Birkenhead, bringing dates to September 12th. The accounts of the state of affairs on the frontiers were very unfavorable, and it was said that additional troops to the number of 10,000 would be required to restore peace. The British troops had suffered a severe repulse in the Fish River bush, and disaffection was said to be extending, and that it was feared there would be an union of all the tribes to drive the white men into the sea.

Markets.

LONDON, Oct. 21.—The London Money Market continued easy, and business affairs were pretty prosperous. The unfavorable news from the Cape produced but a trifling effect on the price of the funds, in consequence of the abundance of capital seeking investment. Accounts of the state of trade in the Provinces show some dullness.

At Manchester, in consequence of the decline in the Liverpool Cotton Market, and the absence of revival in the Indian markets, there was some considerable depression.

At Nottingham there had been a good home trade, but a pause in the export markets. The prospects of the Iron trade were more favorable. Produce markets were firm. Tallow quiet. In Indigo less animation, but with an unabated demand.

At Mark Lane, on the 20th, the Corn market was dull, and prices with difficulty obtained. Foreign Grain flat, and 30,000 quarters had been re-sold for re-exportation to Holland and Belgium. Indian Corn for Ireland was in good demand at 6 to 9 ₰ quarter advance. English Flour met a tolerably free sale, but French and inferior marks were dull. Foreign Barley unaltered.—Peas scarce. Beans lower in price. Some qualities of foreign Grain were in good demand.

LIVERPOOL, October 21.—The demand for Wheat and Flour during the last week has been languid, and prices for inferior have slightly receded. At this day's market, the business done in wheat was extremely limited, at a decline of fully 1d ₰ 70 lbs on prices of this day week. Bbl Flour met with a good demand at Friday's prices, being rather under those of Tuesday last. Floating cargoes of Indian Corn have met with a good enquiry, and rather more money has been paid. The Cotton market was rather depressed, and prices continued in favor of the buyers, there not being sufficient demand to meet the quantities pressed on the market. Sales yesterday 5000 bales, to-day 4000.

THE COURIER.

WEDNESDAY, NOVEMBER 5, 1851.

☞ SEE FIRST PAGE.

The Address of the not yet Hon., in one sense, John Young, who is not yet Chief Commissioner of Public Works, in a legal sense, is now before the citizens of Montreal. We perceive that our contemporary the *Pilot*, in advocating his cause, speaks, we do confess, in a very straightforward and candid manner; no honest journalist, indeed, requires to have recourse to either disingenuity or subterfuge, when Mr. Young's private character as a gentlemen, or public character as a citizen, is canvassed. In speaking of him, therefore, the *Pilot* is right in saying that "party animosity is disarmed," because, in opposing such a man as Mr. Young, not one single word of "animosity" can ever escape from the pen of any respectable opponent.

We freely and fully grant all that the *Pilot* says of Mr. Young as a merchant and a citizen of Montreal. The youth of the city have been indebted to him for several advantages, which but for him they might not have enjoyed so soon by many years, and he has besides been a liberal and active promoter of every scheme having any prospect of advancing the internal interests of the city. But with all this, we doubt very much whether Mr. Young be the proper person to represent us in Parliament, unless some stronger guarantee is given than that contained in his very brief, vague, and unsatisfactory Address.

The truth seems to us to be, that Mr. Young's praiseworthy exertions and services as a citizen have been so cried up, and he has been so flattered into security of obtaining the suffrages of the electors of Montreal, that he approaches them with the saucy and *nonchalant* air of a conceited coxcomb, to whom a weak and loving girl had said or sung, in the words of the old Scottish ballad, "John, come kiss me now."

Mr. Young may be assured that this will never do. The constituency, which he wishes thus flippantly to represent, are as alive to their privileges as they are convinced of the importance of not being betrayed into measures contrary to their interests. Had Mr. Young been previously a Member of Parliament, so that the electors of Montreal might have had the advantage of referring back to his speeches and his votes, a shorter Address might have been sufficient; but a *novus homo*, so far as Parliamentary action is concerned, must advance a stronger guarantee of support to the real interests of the city than he has chosen to give. Montreal is not the Kingdom of Cockaigne, in which the electors fly about in the shape of apple-dumplings and pigeon-pies, calling out, "John, come eat me."

We refrain at present from any criticism of Mr. Young's Address, because we suppose, if he persists in his resolution, he will speak at greater length and more satisfactorily in a few days. We only remark at present, that he is very unfortunate, not only in some of the plans he proposes to advocate and carry out, but also in the men with whom he proposes to co-operate. Any Ministry who has John Rolph as an ingredient in its composition, must be of necessity considered unsound and poisonous by every Canadian who has the real love of his country at heart.

There are many questions of the greatest importance, which any candidate for the suffrages of the electors of Montreal must answer before he can be permitted to represent them in Parliament, and this honour cannot ever be obtained by a *coup de main* Address, such as Mr. Young has presented to them. But we suppose, if he has really the judgment and common sense which public report unanimously ascribes to him, he will yet explain his views at greater length and without ambiguity.

Missisquoi.

We are glad to find that no doubt remains of Mr. Badgley's success in this county. The exploded absurdity of having what is called a resident representative has not been entertained seriously by any of the more respectable and intelligent Electors, except perhaps for the hollow purpose of a factious opposition. Canadian interests have pretty much the same character throughout the whole country, and it is therefore the duty of every constituency to select such men to represent them as, from their education, profession, and standing in society, will best promote the prosperity of the place represented, wherever the home of the representative may happen to be. This is a recognised principle in England, and if in so densely populated a country, a city or county can with impunity call upon talented men from any distance to accept of their suffrages, it may still be more safe and more proper in Canada, where the population is comparatively thin, and the number of qualified persons more difficult to find.

The English Hospital.

The Roman Catholic Organs are discoursing most discordant music at present upon the affairs generally, and upon the internal management in particular, of this Hospital. Their complaint is just the same complaint that has ever been made at any time respecting any Protestant institution to which they or their Priests have ever gained admission. It is truly contemptible to hear of men who are clergymen, and who call themselves gentlemen, complaining of the conduct of chambermaids and cobweb-dusters for no other reason that we can see than because the servants in this Protestant Hospital are Protestants and not Romanists.

There is no necessity for a lengthened discussion upon the subject, so far as we are concerned. The English Hospital is almost entirely supported by Protestants, who, however, accept a small and very trifling pittance from Government in aid of its funds. The proportion of Roman Catholic subscription to its support is about one in a hundred, while the patients from that body number more than three fourths of the whole. We think, therefore, that it would be much better for both parties that the Romanists should take their own people to their own Hospitals, and that the Government grant to the English Hospital should go along with them, because it is by no means commensurate to the trouble and expense of receiving and treating the Romanist part of the population, and this the more, since they and their *spiritual guides* are so dissatisfied. The Protestant population are both willing and able to support their own Hospital, and the only difficulty in their way all along in the government of this Institution has been the pressure upon their funds by that part of the people who contribute almost nothing. Protestant tracts and Protestant books as well as bibles are very proper and necessary adjuncts to a sick bed in a Protestant Institution, and we hope the Governors of the Hospital, who are the most respectable and dignified persons in Montreal, will not so far forget their duty as to discountenance their *general* circulation among the inmates, whatever may be the faith or want of faith in the Holy Scriptures which these inmates may profess,—and if any of the sick do profess the latter in any degree, so much the more are Protestants bound to supply them, and to surround the dying bed of the Christian with the word of life, rather than the dictum of fallible man. We repeat that the Roman Catholics ought to receive their own people into their own Hospitals, where they would have nurses of their own persuasion, and, above all, sweepers who would drop in a corner with their mops when the Priests happened to pass.

We are far from wishing to have any controversy with the *Gazette*, but when he talks about a *State Church* and applies that term to the Romanists in Canada, he is in a very grievous error. Nor would any amount of income, whether he may choose to call it *tythes*, or rents, or fees, entitle them to *State* consideration in a British Colony. The Church of England is the State Church, not only in England, but also in every one of England's dependencies. At the treaty consequent upon the surrender of Quebec the property of the Romish Church was guarranteed to them by the British Government, and that Church has ever since held it by the same tenor as other dissenting Churches hold property and derive income from it. In proof of this, the Romish Church in Canada, some time towards the end of the Reign of George III, and previous to the Regency, applied to the King in Council for authority to act and to be considered as the Established Church in Lower Canada. This very insidious and as it was thought impudent demand was instantly and promptly denied by his Majesty, who then authoritatively declared that no Church in any British Province could be called Established except the Church of England. And when the *Gazette* or any other person or authority calls a dissenting Church, such as the Roman Catholic Church really is in a British Colony, a *State Church*, he joins the ranks of those unscrupulous persons who would despoil the Church both of her patrimony and her title of superiority, and would reduce her to a dissenting level upon her own native territory. This would never do. The Romanists have property in Ireland, and derive income from it. Are they a *State Church there?* No indeed, nor are they so in any Protestant country. Laws may be made in their favour in the Provincial Parliament under the shadow of Responsible Government, which is but a gentler name for incipient rebellion, but nothing but a surrender of the Protestant character of the British Government and the British Crown can ever make the Roman Catholic a *State Church.*

THE PLAGUE IN THE CANARY ISLANDS.—The latest accounts from Palmas, Canary Islands, represent the pestilence which has raged so fearfully at that port, as abating in violence. Some time since we published a description of the disease. It is not thought to be cholera, for it is very contagious, but it resembles cholera in the quickness with which death succeeds the attack. It is supposed to have been brought from the coast of Africa, but the evidence of this is not very strong. Mr. Torres, the American Consul at Palmas, and his family, with the exception of one child, have fallen victims. The panic and distress on the Island were inconceivable. The people fled before the destroyer, but it was in vain, and the roads are represented as covered with corpses. The fugitives carried the infection wherever they went, and the whole Island became the theatre of terrible scenes. In two months over 6,000 persons died in the city of Las Palmas, and 18 000 in the whole Island—one-fifth of the population being cut off. Great pains are taken to prevent the disease from being carried to the neighboring Islands, and communication is stopped, except from Teneriffe, whence a small vessel sails twice a week for letters to a part that has as yet escaped the malady.

The *Louisville Varieties*—an excellent weekly Journal, has been a visitor to our sanctum for some weeks past. We have no better American paper among our exchanges than the *Varieties.* May it always be as it is, unless, if it were possible, it should change for the better. We hope he will be daily soon, and then he will be better still.

A fire broke out on Sunday night, between 11 and 12 o'clock, in a wooden house in St. Maurice Street, belonging to Mr. Donegani, and occupied by Mr. Sarsfield and Mrs. Connors. The house in which the fire originated was consumed; but the house opposite, belonging to Mr. Kerrigan, sustained considerable injury, and the one adjoining the latter also sustained some damage. The tenants were not insured. We have not been able to ascertain how the fire originated.

THE MATTHEWS' CONCERT.—We have been unable to attend the Concerts given by this family, which are said to have been excellent. They will remain a few nights longer, and we understand that, by the kind permission of Lieut.-Colonel Horn, the splendid Band of the XXth Regiment will attend.

LAW STUDENTS' SOCIETY OF MONTREAL.—The Annual Meeting of this Society, for the election of office-bearers for the ensuing year, will be held this (Wednesday) evening, the 5th instant, in the Committee Room of the Mechanics' Institute, at 7¼ o'clock. All Law and Notarial Students are invited to attend.

At a meeting of the Montreal Section of the Bar of Lower Canada, held on Monday, W. P. Cantwell, Esq., of this city, was admitted to the practice of the law.

There will be a sermon this evening in the Wesleyan Chapel, Great St. James Street, by the Rev. James Caughey, and a Tea Meeting in the basement of the same building to-morrow evening.

The Sale of Fruit Trees, &c., by Mr. Leeming, for account of Mr. Dougall, has to be postponed for one week, on account of the storms on the Lakes causing a delay on the part of the steamer *Cathcart*, which is to bring them.—*See Adver.*

Bloomerism.

To those who are favourable to this very convenient and really fascinating dress we recommend a visit to the store of Mr. J. R. Boyce, Hairdresser, No. 157, Notre Dame Street, West, in whose window there is a full length figure attired in this far-famed costume. There is not so much of the *Turk* in this very picturesque dress as most of people think; indeed we consider it a very great deal more modest than the low long-waisted boddice which the Yankee ladies wear with a point hanging down below, nobody knows or dares to know where, and which the high close neck of the dress cannot redeem.

THE MONTREAL EARLY SHOP-SHUTTING ASSOCIATION held their Annual Meeting on Wednesday evening last, when the Annual Report was received, and the following office-bearers were elected for the ensuing year:—

President—Alex. McDonald; 1st Vice President—J. R. Richardson; 2nd do do—A. Leslie; Cor. Secretary—John McWatters, junior.; Rec. Secretary—David McGregor; Treasurer—John Gardiner; Committee—— Morier, J. Y. Gilmour, H. Leblanc, P. McGuirk, E. Doutre, —Cleghorn, L. Tourville, Robt. Campbell, jr.

The ship *Montreal*, one of Messrs. Edmonstone, Allan & Co.'s line of regular traders, arrived at Liverpool on the 8th ultimo, after a passage of twenty-two days from Quebec.

Butler, late messman of the XXth regiment, has removed from his cool and airy situation at the corner of the Place d'Armes, to more substantial and comfortable winter quarters in St. Lambert Street, near Mussen's corner. The plate of soup he has always ready will refresh the weary witness or saddened suitor on his way to or from the court-house to his lawyer's; and the other commodities for invigorating the inward man retain the celebrity he gained during his stay in his summer quarters. In addition he has excellent accommodation for evening amusement in old English style.

ST. LAWRENCE AND ATLANTIC RAILWAY.—We learn with great pleasure that the business done upon this road since it opened has been twice as much, as its most sanguine friends had anticipated. The depot at Richmond, which was calculated to store all the goods likely to come over the line for some time, is not able to contain the one-half; and additional buildings are now going up.

We regret to state that Mr. Thomas Baldwin, of Kemptville, C. W., merchant, dropped down suddenly in McGill Street, on Saturday afternoon, about four o'clock, and immediately expired. He was a man of very regular habits, and the disease is supposed to have been affection of the heart. The coroner directed the body to be forwarded to the deceased gentleman's late place of residence.

MONTREAL, November 4th, 1851.

To the Editor of the MONTREAL COURIER:

SIR,—I have perused Mr. Young's address "to the Electors of the City of Montreal." Mr. Young states:—"In accepting office I can sincerely state that I have been influenced solely by considerations of a public nature. * * I felt so deeply the importance of completing the great chain, &c., on which the prosperity of this City and of Canada so much depends," &c. This being a free country (it is, so far, a pity that it was ever cursed with free trade) every man has a right to give free vent to his sentiments; I therefore take the freedom of differing from Mr. Young as to "*the prosperity of this City*" depending upon the great chains in question—on the contrary, I plainly forsee the rapid decay of the commercial business of Montreal, from every new link that is added to its closer connection with the United States. My time will not permit of my going into this subject at length at present; I shall however do so shortly. Meantime I may remark that if Mr. Young had devoted all the time that he has spent in interesting himself in the construction of Railroads, to the completion of a ship canal, 17 feet deep, *through one mile of Lake St. Peter*, he would have conferred a benefit on the citizens of Montreal which would have carried their gratitude to the grave at least, and were not our citizens very little inclined to remember good works, I might add, the memory of the man would be honor'd—perchance the ship owners and ship masters would be moved to the erection of a monument. Let Mr. Young amend his address, and tell the Electors of Montreal, that he will leave no stone unturned, until the Provincial Parliament agree to grant a sum sufficient for the construction of a ship canal, and then *he may depend upon it* he will have many *converts.*

I doubt not that the gentlemen with whom he enters office, will carry out "*a truly enlarged and liberal policy*" in so far as self-interest, and that of their friends, are concerned; what proofs exist of reform and retrenchment? "Entire religious equality"—I should like to read Mr. Young's definition of the above. I view entire religious equality, as sapping the foundation of the Catholic Churches, also the Established Church of Scotland; thereby endeavouring to bring about a chaos, subversive of all religion. If I am wrong I beg to be put right.

I am, sir,
Your obedient servant,
AN ELECTOR.

MONTREAL, November 3, 1851.

To the Editor of the MONTREAL COURIER:

SIR,—Allow me to request the favor of you to cause the following brief extract from the proceedings at a dinner given to Mr. Black at St. Hyacinthe, by the Contractors on the Line of the Railroad to Richmond, to be inserted in your paper. It is a portion of the speech delivered by Mr. James Black, son of the individual to whom the dinner was given. My motive in asking this favour of you is, that many of the Boston visitors at the Railroad Jubilee, may "read, mark, and inwardly digest" the sentiment contained in the few brief lines:—

"Gentlemen, in all ages of the world and among every people, the man whose heart ceases, when among strangers, to beat warmly for his native land, however humble or low in the scale of nations that land may be, has been justly despised."

THRASHING MACHINES.

LETTERS  PATENT.

TIME AND LABOR SAVED IS MONEY EARNED.

THE subscribers having secured to themselves the exclusive right of manufacturing and vending to others to use within the territory of Upper and Lower Canada,
SEVERANCE'S CELEBRATED IMPROVED HORSE POWER & THRASHING MACHINE,
one of the most valuable time and labor saving Machines ever devised by human ingenuity, respectfully inform the public, that they have just completed a new and extensive Factory on Wellington Street, extending from Prince to George Street, which gives them more than double the accommodations they had in the old shops, which will hereafter, they trust, enable them to supply the whole farming community of the United Provinces with a machine that will thrash and clean more grain in a day, with less expense and with greater cleanliness, than any other known invention—only requiring two horses.
We beg leave to say to our customers and friends, that we are again prepared to furnish those in want of Thrashing Machines with an article superior even to those heretofore manufactured by us.
Our long experience in making, and the very liberal patronage we have enjoyed in the sale of our Machines, has, together with a constant determination to produce an article that will never fail to excel all others, caused us to watch carefully all the improvements that could be made from time to time, until now we feel confident in saying, that for durability, neatness of work, and amount of it they can do, our Thrashing Machines are unequalled by any in use. And while the grain is thrashed clean, and none of it broken or wasted, it is, at the same time, perfectly cleaned, fit for the Mill or any Market.
All orders addressed to us, or our Agent, WM. JOHNSON, will be promptly attended to.
Machines shipped to any port in Canada, and every one warranted to be as good as recommended.
Liberal terms of payment allowed.
B. P. PAIGE & CO.
Whereas, Letters Patent were obtained, bearing date March 5, 1849, on said Machine, the public are cautioned against purchasing, using, or manufacturing any imitation article, as all infringements will be dealt with according to the law of the land.
All genuine Machines will be accompanied by a Deed signed by B. P. PAIGE, the owner of the right, giving the purchaser the right to use or transfer the same. Without such a Deed, no person will be safe in purchasing or using said Machines.
B. P. PAIGE.

TO THE ELECTORS OF THE COUNTY OF MISSISQUOI.

GENTLEMEN,—The approach of another General Election throughout the Province, and the announcement of a Candidate for your suffrages, call upon me once more to address you, as the Representative of your County in Parliament.

My public conduct for the last five years, during which your confidence has maintained me in the political position which I have the honor to occupy, remains, at the termination of my stewardship, as freely open to your examination as it is freely offered for your approval or reprehension. I shall claim no merit if your approbation sustain me in the belief of having faithfully discharged the trust reposed in me, nor shall I feel ill will if your censure teach me the difficulty of a satisfactory performance of political duty ; permit me to add, however, that the interests of the Province invariably received my earnest and attentive consideration, whilst those of my constituents were supported with my best ability.

Adverting to my connection with the County, it is your rightful privilege to be informed of my opinions, upon the important measures which will probably be submitted to the judgment of the coming Parliament, and without desiring to inveigle you of your support by specious or prospective promises, it will suffice to observe, that a recurrence to my past opinions will serve as an exponent of my future political sentiments.

Whilst affording ready support to the interests of Provincial Agriculture and Manufactures, a reduction of such duties as are alike burthensome to the people and injurious to the trade of the country has been steadily advocated.

Whilst a rigid economy in the expenses of the public departments has been strongly urged, thereby encouraging retrenchment in the most effectual manner, in the general expenditure, a fair compensation to the public servant has been advocated, conceiving that there is no desire in the public mind that efficient services rendered to the public should be otherwise than liberally remunerated.

Whilst enforcing the necessity for an increased representation, as essential to the best interests of the Province, the regulating principle of population alone has been opposed as eminently prejudicial and partial in its operation ; but the abolition of the representative numerical equality between the two sections of the Province, according to the spread of population in each respectively, the consequent gradual formation of new Counties, and a limitation in the number of representatives for the present and future electoral divisions will have the effect of connecting the progress of population with a proper increase in the popular Branch of the Legislature.

Whilst every measure of acknowledged Provincial utility, either in the establishment of Railroads or in the construction of Public Works has been cheerfully supported, enterprises of a merely speculative or questionable character have been discouraged, or warmly opposed, as endangering alike the public credit, and eventually increasing the public burthens. Upon these grounds, I was strongly opposed to the Halifax Line of Railway without its extension through the Province, as of itself enormously augmenting the public debt, without affording any prospective advantage or probable return.

The simplification and assimilation of the Provincial Laws appeared to be of paramount importance, and did not fail to engage my attention and occupy my time ; in view of which, the Criminal Law, and its system of procedure have been methodised and codified, and finally submitted to the consideration of the Legislature.

Referring to those objects which are of peculiar interest to Lower Canada, I may observe, that the entire abolition of the Feudal Tenure, and the commutation of existing feudal burdens upon fair and equitable terms to Tenants and Seigniors, have been strenuously advocated, and will at all times receive my unqualified support.

The decentralization of the judicial business of Lower Canada from the great cities, and its expansion throughout the country parts, by the establishment of Assizes and County and District Courts, have been constantly and unhesitatingly, though unsuccessfully urged, as a most desirable means of social advancement. The application of the savings in this necessarily increasing branch of legal expenditure, would assist in the erection of County Jails and Court Houses, and at the same time afford ready means for the payment of Jurors and others, who are now called upon to give their gratuitous attendance, upon the administration of justice.

Deeply sensible that there are no means of cultivating the growth of intelligence among the people equal to the establishment of good schools, in which the elements of a sound education may be fully given to form the man and the citizen of an advancing community, the defects in the School system of Lower Canada, and which are universally prevalent, though in different degrees, have been deeply felt ; and it has long appeared to me, that the Province has a right to demand, and that the Government are in strict duty bound to enforce, not only the universal establishment of Schools, but their establishment and regulation upon a system different from the present, and better adapted to the popular requirements.

Before concluding, allow me briefly to remark upon the question of residence as a qualification in your representative. It is a sound and important principle, that the Representative ought to be acquainted with the interests and circumstances of his Constituents ; but this can only extend to those interests and circumstances, to which the authority and care of the Legislature relate : an ignorance of a variety of minute and particular objects exclusively of Municipal supervision, and of mere local interest, which do not lie within the compass of Legislation, is consistent with every attribute necessary to a due performance of the Legislative trust—and unless some Legislative difficulty exists in the County, which cannot be comprehended by a person of ordinary intelligence, except he be a resident, the application of the qualification of residence would necessarily characterize your representative as a mere Municipal Councillor, and the great popular branch of the Legislature, in effect, as nothing but a Municipal Council. I trust, therefore, that I am not incorrect in assuming, as of course, that the intelligence of your Representative should not be confined to the knowledge of merely local interests, but that rather he should be possessed of information coextensive with the general interests of the Province.

Relying, then, upon the past as a pledge for the future, it only remains to be observved that I fully recognize the Constitutional right of self-government,—that I will sustain the adoption of a liberal policy commensurate with the increasing wealth, intelligence and population of the Province, and that I am prepared to support any measure which will improve the administration of justice, sustain the public credit, and encourage our commercial relations with other countries.
I remain your obedient servant,
W. BADGLEY.

THE AGRICULTURAL JOURNAL AND TRANSACTIONS OF THE LOWER CANADA AGRICULTURAL SOCIETY will hereafter be PUBLISHED by the Subscriber, to whom all communications must be made, which relate to the Subscriptions, Advertisements, and all business matters which refer either to the past or forthcoming Volume or Number.

The Journal will be vastly improved both in quality of paper and typography. The Work will also be increased in value and interest, by the introduction of Diagrams, Improved Fixtures, and Implements of Husbandry, together with Plans of Modern Farm Buildings, Illustrations of the best varieties of Fruit, Profiles of Domestic Animals, &c., &c.

Agents and Subscribers are required to remit immediately to the Publisher the amount due the Society.

Any one who will obtain new Subscribers, and remit $5, will receive a Duplicate of the Journal for One Year, or 10 copies will be sent for $8.

The Subscriber also publishes the SNOW DROP, (a Juvenile Magazine,) at $1 per annum. The same Commission will be allowed to those who obtain six or more Subscribers.

The Subscriber is AGENT for all of the important AMERICAN MAGAZINES and REPRINTS, embracing the higher departments of Literature, Science and Art; which he delivers in the principal Towns of Canada East at New York prices.

RESPONSIBLE AGENTS WANTED, to CANVASS for the SNOW DROP, AGRICULTURAL JOURNAL, and other WORKS, to whom a liberal Commission will be allowed.

MOST IMPORTANT
To Farmers, Housekeepers, and others, having Store-Houses, &c., infested with Vermin or Insects.

SMITH'S EXTERMINATOR
FOR THE ENTIRE EXTIRPATION OF
Rats, Mice, Cockroaches, Beetles, Crickets, Ants, &c,
Without the use of Arsenic or other Mineral Poisons.

The following TESTIMONIALS, from parties of high respectability, will place its efficacy above suspicion:—

With pleasure I assert, that the use of SMITH'S EXTERMINATOR was attended with complete success in destroying Cockroaches, Beetles, and Rats, in and about my premises; which was effected without any inconvenience.
C. F. BAILLARGEON, Pte.
Quebec, 7th March, 1848.

My premises have been infested with Rats for several years, and I have tried various means to rid myself of the annoyance, without success. Having been strongly recommended SMITH'S EXTERMINATOR, I have much pleasure in testifying that its use has been perfectly successful in the total destruction of the Rats with which my place abounded, and that without the least inconvenience.
BENJAMIN HART.
Montreal, November 22, 1845.

I hereby *certify*, that by using SMITH'S EXTERMINATOR it has perfectly succeeded in raiding the College premises of Cockroaches, Crickets, and such like disgusting Insects, which were before very numerous.
S. VILLENEUVE,
Director of Montreal College.
Montreal, April 20, 1848.

From the Rev. B. Davis, D. D., Miss'ter of the Baptist Church, Montreal.

I most willingly bear testimony to the good effects of SMITH'S EXTERMINATOR. I found my premises dwelling over-run with Beetles; the nuisance bid defiance to all efforts to abate it, until this preparation was applied. One Box has sufficed to exterminate the Insects almost entirely from the house. Similar cases of success have occurred in my neighbourhood.
BENJ. DAVIS.
4 Sydenham Place, Montreal, Nov. 15, 1848.

This preparation is warranted in all cases; and Agents are instructed to *refund the money* to purchasers, should it not prove effectual.

KEATING'S COUGH LOZENGES.

A CERTAIN REMEDY for *disorders of the Pulmonary Organs*—Asthma, Epilepsy, Influenza, Chronic Inflammancy of Phlegm—in Incipient *Consumptions*—(of which Cough is the most positive indication)—they are of unerring efficiency. In *Asthma*, and in *Winter Coughs*, they have never been known to fail.

KEATING'S COUGH LOZENGES are free from every deleterious ingredient; they may, therefore, be taken at all times by the most delicate constitution, or by even the youngest child; while the *Public Speaker* and the *Professional Singer* will find them invaluable in allaying the hoarseness and irritation consequent on study, or the influence of Tropical Climates; Local and Constitutional Weakness, Syphilis, and all Diseases and Derangements resulting from Indiscretion.—KEATING'S Cough Lozenges, by illustrating the Anatomy, Physiology, and Diseases of the Reproductive Organs, explaining their structures, uses and functions, and the various injuries that are produced in them.

BY SAMUEL LAMERT, M.D.,
No. 37, Bedford Square, London,

Doctor of Medicine, Matriculated Member of the University of Edinburgh, Licentiate of Apothecaries' Hall, London, Honorary Member of the London Hospital Medical Society, &c.

This Work contains an accurate and complete account of the Anatomy and Physiology of the Reproductive Organs, and of their various conditions in health and disease. Nor are these the sole contents of the Work: the means of escape, as well as the nature of the danger, are pointed out in clear and intelligible language. It describes fully requires the closest attention and study, for what subject can be of more importance than the preservation of health, and of the physical capabilities of which every man should be possessed. It unfortunately happens that the unhappy victim of his own indulgence and pernicious habits, whether acquired in early life, or from the follies of advanced age, while suffering from their inevitable consequences, unwisely entertains a fear of applying to a qualified physician for relief. Shame and the dread so frequently, but erroneously, entertained, that their complaints are beyond the reach of art, alike restrict him, and prevent the asking for assistance where alone it can be procured. In acting thus, he forgets that accurate information in ascertaining the causes of disease, sympathy with the sufferer, and, above all, secrecy, invariably characterize the intelligent and practical physician, and in the medical man, who can screw by his possession of the requisite legal qualification, that he is entitled to esteem and respect in his professional pursuits. the utmost confidence should be extended. DR. LAMERT has obtained the highest medical honors, as his diplomas testify, and the great extent of his practice for many years, is a guarantee for his professional experience, which has reference almost solely to the treatment of these diseases.

The Work may be had in Montreal, of BENJAMIN DAWSON; in St. Johns, of H. CRUSE & Co., price 2s. 6d. Stirling; Halifax, Messrs. Morton & Co.

THE BRITISH PERIODICALS
AND THE
FARMERS' GUIDE.

LEONARD SCOTT & Co.,
No 54, Gold Street, New York.

CONTINUE to publish the four leading British Quarterly Reviews and Blackwood's Magazine; in addition to which they have recently commenced the publication of a valuable Agricultural Work, called

"THE FARMERS' GUIDE TO SCIENTIFIC AND PRACTICAL AGRICULTURE."

By HENRY STEPHENS, F. R. S., of Edinburgh, Author of the "Book of the Farm," &c., &c., assisted by JOHN P. NORTON, M. A., New Haven, Professor of Scientific Agriculture in Yale College, &c., &c.

This highly valuable Work will comprise two large royal octavo volumes, containing over 1400 pages, with 15 or 20 splendid Steel Engravings, and more than 600 Engravings on Wood, in the highest style of the Art, illustrating almost every implement of husbandry now in use by the best farmers, the best methods of ploughing, planting, haying, harvesting, &c., &c., the various domestic animals in their highest perfection; in short, the *pictorial* feature of the book is unique, and will render it of unbelievable value to the student of agriculture.

The Work is being published in Semi-Monthly Numbers, of 64 pages each, exclusive of the Steel Engravings, and is sold at 25 cents each, or $5 for the entire Work in Numbers, of which there will be at least 22.

The British Periodicals Re-Published are as follows, viz.:—

The London Quarterly Review, (Conservative.)
The Edinburgh Review, (Whig.)
The North British Review, (Free-Church.)
The Westminster Review, (Liberal.)
AND
Blackwood's Edinburgh Magazine, (Tory.)

Although these Works are distinguished by the political shades above indicated, yet but a small portion of their contents is devoted to political subjects. It is their literary character which gives them their chief value, and in that they stand confessedly far above all other journals of a like class. *Blackwood*, still under the masterly guidance of *Christopher North*, maintains its ancient celebrity, and in its time tone, unusually attractive, from the serial Works of Bulwer and other literary notables, written for that Magazine, and first appearing in its columns but a few months in advance of publication in Great Britain and in the United States. Such works as "The Caxtons" and "My New Novel," (both by Bulwer,) "My Literary Life and Opinions," "The Green Hand," and other serials, of which numerous rival editions are issued by the leading publishers in this country, have to be reprinted by those publishers from the pages of Blackwood, *after it has been issued by Messrs. Scott & Co.*, so that Subscribers to the Reprint of that Magazine may always rely on having the *earliest* reading of these fascinating tales.

Edinburgh, News of Battle after Flodden, by
Tait, do. do. £120 0 0
Round him rush the people crying, 'Tell us all, oh, tell us true!
Where are they who went to battle, Randolph, Murray, sworn to you?
Where are your brothers, children? Have they met the English foe?
Why art thou alone, unfollowed? Is it weal, or is it woe?
Like a corpse the grisly warrior looks from out his helm of steel;
But no word he speaks in answer, only with his armed heel
Clashes his weary steed, and onward up the city streets they ride;
Fathers, sisters, mothers, children, shrieking, praying by his side.
'By the God that made thee, Randolph! tell us what mischance hath come?'
Then he lifts his riven banner, and the baker's voice is dumb.*

ELEGANT AND INVALUABLE
ARTICLES FOR THE TOILET.

BOGLE'S HYPERION FLUID,
FOR RESTORING PRESERVING, AND EMBELLISHING THE HAIR.

The following Certificate, from Dr. Winslow Lewis, one of the most eminent Physicians of Boston, will show the estimation in which it is held by the scientific and learned, being one only of many similar ones.

BOSTON, Feb. 15, 1847.

MR. WM. BOGLE.—Sir,—The preparation invented by you for the hair, has been extensively used in my family, and they give it the decided preference over all other compositions of the kind. It invigorates and beautifies the hair, and cleans the skin of all impurities, without producing any ultimate deleterious effects, which are so frequently the result of many well-known patented compounds. WINSLOW LEWIS.

It is an indispensable article for the Ladies, as it keeps the hair in place and curl, and the skin or parting of the hair free from dandruff and scurf. For children, it lays the foundation of a good head of hair.

BOGLE'S AMOLE,
A COMPOUND FOR SHAVING.

This delightful article is totally different and far superior to anything yet invented for shaving. The base of it is derived from the *Amole*, or "soap plant," of California, an article used by the natives of that country for washing; and thus the use of strong alkali, so hurtful to the skin, is avoided. Its vegetable and detergent properties have the purest and most nourishing effects on the skin,—it soothes and allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable soap. It is done up in elegant style, calculated either for the dressing case of the rough and ready "traveller, or the toilet of the most fastidious connoisseur.

BALDNESS CURED.

The following is from Messrs. F. Barrett, Saratoga Street, East Boston:

EAST BOSTON, Feb. 8, 1847.

Mr. William Bogle.—Dear Sir: For several years past, my wife has been troubled with baldness on the Crown of the head, about six or seven inches in circumference.—After repeated failures of other so-called remedies, and by the advice of friends, she was induced to use your Hyperion as a wash, for the purpose of restoring her lost hair, and I am happy to say that its effect has been to cause the hair to grow all over the part affected. She has used only two bottles, and that very irregularly; had she used it oftener and more regular, I am convinced that the re-inputed by those publishers from the pages of Blackwood, *after it has been issued by Messrs. Scott & Co.*, so that Subscribers to the Reprint of that Magazine may always rely on having the *earliest* reading of these fascinating tales.

Sir, yours respectfully, SUMNER F. BARRETT.

BOGLE'S HEBEAIONA,
FOR REFRESHING AND BE UTIFYING THE COMPLEXION,

Eradicating Tans, Pimples, and other eruptions of the skin, and rendering it fair, delicate, and blooming. It is equally efficacious in protecting the skin from the hot suns of summer, and freezing blasts of winter, and is the most fragrant and delightful article to be found at the toilet of fashion.

All the above articles have stood the test of the strictest investigation, and are WARRANTED superior to anything yet invented.

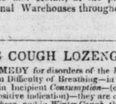
JUDSON'S
CHEMICAL EXTRACT OF



CHERRY AND LUNGWORT,
FOR THE CURE OF
Coughs, Colds, Hoarsness, Spitting of Blood, Night Sweats, Asthma, Liver Complaints, and
CONSUMPTION.

THE most strongly marked and developed cases of Pulmonary Consumption, in which the lungs have become diseased and ulcerated, and the case so utterly hopeless as to preclude the possibility of relief, even to friends to be past all possibility of recovery, and at times thought to be dying, have been cured by this wonderful remedy, and restored to perfect health and strength. It is a compound of medications which are peculiarly adapted to, and essentially necessary for the cure of

COUGHS AND CONSUMPTION.

Its operation is mild, yet efficacious; it loosens the phlegm which produces so much difficulty, relieves the cough, and assists nature to expel from the system all diseased matter. By experience it has been found a delightful change in the breathing and chest, and this, after the prescriptions of the very best medical men, and the inventions of kind and sorrowing friends and nurses, have failed to give the smallest relief to the *Consumptive sufferer.*

Extremely in the following complaints:—

FOR DROPSY—Creating extraordinary absorption at once.

SWELLINGS—Reducing them in a few hours.

RHEUMATISM—Acute or Chronic, giving immediate ease.

SORE THROAT—By Cancers, Ulcers, or Colds.

CANCER AND WROOPING COUGH—Externally and over the chest.

ALL BRUISES, SPRAINS, AND BURNS—Curing in a few hours.

SORES AND ULCERS—Whether fresh or of long standing, and fever sores.

In cases upon adults and children, in reducing rheumatic swellings, and loosening coughs and tightness of the chest by inunction or rubbing, its power is surprising beyond conception. The common remark of those who have used it in the *Pains*, is, "It gets like a charm."

It is perfectly harmless, being Purely Vegetable.

Caution.—Never buy it unless you find the *fac simile* signature of Comstock & Brother, Proprietors, on the wrapper of the genuine article.

CAUTION.—*All of the above-named articles are sold only in New York by Comstock & Brother, No. 9, John Street, five doors from Broadway.*

Sold in Montreal by WM. LYMAN & Co., 194, St. Paul Street; also by W. E. BOWMAN, WORKMAN & Co., and SAVAGE & CO., In Quebec, by JOHN MUNRO. In Lampruie, by J. THOMSON & Co. DR. HALSEY'S FOREST WINE.

THE discovery of the FOREST WINE is the greatest blessing of the age. Put up in Quart Bottles, a single bottle of which does more good, and goes farther in the cure of Disease, than ten bottles of any Sarsaparilla in use, and warranted to cure without any unpleasant or weakening effect.

The method by which all Sarsaparillas, and other similar medicines are prepared, is by boiling the Roots or Plants to obtain the extracts. Their medicinal virtues are thus principally evaporated and destroyed.

It is not to be wondered at then, that ten and even twenty bottles of these Sarsaparillas are sometimes taken without any perceptible benefit. Not so with the Forest Wine! By the invention of a wonderful chemical apparatus, a perfect wine is produced without heating; retaining, at the same time, all the primitive healing properties of the rare medicinal plants of which it is composed, thus rendering the Forest Wine the most efficient medicine the world ever produced, at the same time the most agreeable.

NERVOUS DISORDERS

Are diseases of the mind as well as of the body, are usually brought on by troubles and afflictions, and are most common to persons of delicate constitution and sensitive minds. Low spirits, melancholoy, frightful dreams, and fearful anticipations of evil form the slightest causes, generally accompany nervous disorders. The Forest Wine and Pills are an energetic remedy in these complaints.

EXTRACT of a letter from Mr. Joseph C. Paulding, dated PHILADELPHIA, Sept. 7, 1843.

DEAR SIR,—Your Forest Wine and Pills have cured my wife of a dreadful Nervous affection, with which she had been afflicted for many years. Her body was almost wasted away. She was frequently disturbed in her sleep by frightful dreams, awaking quite exhausted and covered with perspiration, and at times laboring under the decided impression that she was about to lose her mind. By the use of four bottles of the Wine, and a box of the Pills, she is now in perfect health. She has regained her flesh and color, and enjoys society as well as ever.
Dr. G. W. Halsey. J. C. PAULDING.

GENERAL DEBILITY, EMACIATION, WASTING OF THE BODY, &c.

Many persons are afflicted with some one of the above complaints, without being able to trace it to any particular cause, and therefore delay the use of the proper remedy until the disease becomes constitutional. These disorders are often characterized by a sense of sinking, or entire exhaustion after exertion. Some experience sluggishness, inactivity, and, at times, paleness or flushing of the countenance, or palpitation of the heart, or like symptoms. The excellent effects which have ever attended the use of the Forest Wine and Pills, in every species of debility, is conclusive evidence of its happy results in this class of disorders. Many have resorted to these medicines as an *ultimatum*, and been speedily cured. For Nervous Diseases and Debility, the Wine and Pills are taken according to the directions on the label.

AGUE AND FEVER, OR CHILLS,

Are caused by the miasmatic effluvia arising from marshes, decayed vegetables, and low damp situations. In Fever and Ague, the Wine and Pills are a decided and speedy remedy. When they have been taken agreeably to the directions, we have never known them to fail in effecting a complete cure. In the first place, take a large dose of the Forest Pills in time, that their operation may subside before the return chill. The stomach being now well cleansed, take three or four large doses of the Wine, at intervals of half an hour, commencing about two hours before the expected time of the chill return. This breaks the ague, after which the Wine should be continued in small doses, three times a day. See directions round the bottle.

DR. HALSEY'S GUM-COATED FOREST

Are an important adjunct to the Forest Wine. They are coated with pure gum arabic, an invention for which Dr. Halsey has received the only patent ever granted on Pills by the Government of the United States.

The Forest Wine and Gum-coated Forest Pills unite in accomplishing the same end—that is, the Purification of the Blood, and restoration of the Stomach and Bowels.

The Forest Wine and Pills are recommended as an efficient and certain cure in the following complaints:—Dyspepsia, Habitual Costiveness, Dropsy, Complaints of the Kidneys, Incipient Consumption, Decline of general Health, and Female Weakness, for which it is a Sovereign Remedy; Languishess, Night Sweats, Nervous Disorders, Loss of Appetite, Low Spirits, and want of Nervous Energy; Ague and Fever, which it never fails to cure; Scrofula, Evil, or King's Evil, Unhealthy Color of the Skin, Weakly and Impaired State of the Constitution.

TO THE LADIES.

Nothing is the world is more absurd than the custom of using pearls, chalks, &c., to improve the countenance. True beauty and loveliness accompany the highest perfection of health, which again invariably follow the PERFECT STATE OF THE BLOOD. What artificial appendages could that vivid expression of countenance which emanates from blooming health? What paints compare with the crimson-colored blood existing in brilliant rosette hue through the transparent texture of the skin? What charms are more captivating than those of purity, the highest perfection of health! Let Dr. Halsey's Forest Wine supply the place of all cosmetics. The use of this Forest Wine for a short time creates pure rich Blood, which, coursing through the veins, penetrates the minutest fibres that verge toward the surface of the skin, causing all unhealthy pimples and blotches to disappear, imparting a vivid, rosy color to the cheek, and brilliant expression to the eyes.

THIS IS NATURAL BEAUTY.

In corroboration of these facts, Dr. Halsey has many testimonials from ladies of the highest respectable standing in society.

The Forest Wine in large square bottles, $1 per bottle, or six bottles for $5. Gum-coated Forest Pills, 25 cents per box. For sale by the appointed Agents in Montreal, W. LYMAN & Co., and all respectable Druggists.

Rectory, Three Rivers, May 12, 1851. 364

* The Rev. James Tate, latterly Canon Residentiary of St. Paul's Cathedral, in addition to many other contributions to the cause of education, was the author of Elementa Rectitutea, of an Introduction to Greek Metres, and of a Continuous History of St. Paul, works all favorably known to men of letters.

Out of a small number of pupils, compared with that which annually issues from the great public schools of England, a large proportion distinguished and advanced themselves during their Academical Course, or in other walks of life. Not to mention the attainments of various other College honors by many of them, from twelve to fifteen obtained fellowships at the University; among whom were Dr. Besse, author of a Greek Gradus, &c., &c., Dr. Peacock, Dean of Ely, Archdeacon Thorpe and Musgrave, and the Archbishop of York.

THE PROPHECY FULFILLED.

IN the month of August, 1849, we promised to the world that we would produce a medicine that would instantly stop the most severe pangs of pain, and speedily remove its cause.

We proposed to Hospitals, and all other Institutions for the re-creation of the sick; to Physicians, Surgeons, and all Medical Institutions and Bodies, to introduce our Ready Relief for their investigations, and to illustrate its merits and miraculous power over pain upon the patients.

We claimed that it would allay, in a few minutes, the most severe Cramps and Spasms—it would arrest the progress of that dread plague, the Cholera—that in a few minutes it would change the hard, knotty, cold, and lifeless body, to warmth, vitality, and vigor.

That in a few minutes it would relieve the most severe pains in the bowels, that in fifteen minutes it would stop all painful and diarrhœa discharges, and impart a genial warmth to every organ and secretion of the body; that it would positively relieve the most severe and disagreeable pains of sick and nervous headache in fifteen minutes, and effectually cure this distressing complaint.

That it would be an instant mitigator to the cruel pangs of Neuralgic pains, and permanently cure this excruciating affection. That it would stop the most tormenting toothache in a few seconds.

That it would relieve all Rheumatic pains in fifteen minutes, and cure many Chronic
