WHAT IT COSTS TO GET INTO THE ENGLISH PARLIAMENT.—In the House of Commons Mr. Lowe recently made a speech, in which he gave the following statistics of what an election costs:—

"I will take the southern division of Derbyshire.—The election cost £8500, and is the cheapest I shall read. The northern division of Durham cost £14,620, and the southern division £11,000. South Essex cost £19,000, and North Essex £16,000. West Kent cost £18,000; South Lancashire, £17,000; South Shropshire, £12,000; North Staffordshire £14,000; North Warwickshire, £10,000; South Warwickshire, £13,000; North Wiltshire, £13,000; South Wiltshire, £12,000, and the north Riding of Yorkshire, £27,000. Now, I ask the House how it is possible that the institutions of this country can endure if this kind of thing is to go on and increase."

A correspondent of the Boston Journal who visited Ottawa, wrote:—

"Legislation is exceedingly cumbersome. In addition to all the red tape and routine, all motions must be made in French and English. All papers presented and all documents must be printed in both languages. Mr. Carter, in moving the extension of the military bill of Upper Canada to Lower Canada, spoke first in English, then in French. Mr. Rose, in advocating the repeal of habeas corpus, made a speech in English, while the words of the honorable gentleman from Quebec, in reply, were in French. Whether Canadian politics, religion and society are modeled after Barnum's 'Happy Family,' or the family after Canadian society, I cannot say, but they are wonderfully alike."

The Canadian Government has submitted the resolutions providing for the local government of the two Provinces to Parliament. These provide that the Legislature of Lower Canada shall consist of two Houses and a Lieutenant Governor, the Governor to be appointed by the Governor General, and the two Houses, with the exception of the Speaker of the Upper House, who shall be appointed by the Governor General, to be elective. The Upper House shall be called the Legislative Council, and the Lower House the Legislative Assembly. The Council shall contain twenty-four members and a Speaker, and the Lower House sixty-five members. The Legislature of Upper Canada shall be composed of a Lieutenant Governor, appointed by the Governor General, and a House of Assembly of eighty-four members; it will have no Upper House. The consideration of this subject was set down for the 7th, and brisk opposition was certain. The Canadian Opposition is growing more strong and vigorous every day. Mr. Galt will certainly have to modify some of his tariff resolutions before he can carry them.

In consequence of an accident whereby one third page, just as we were going to press, has been knocked into "pi," we are forced to replace it by old advertisements, and such other standing matter as we had on hand and could use on this emergency, in order to enable us to issue our paper to-day. Our advertising patrons and readers generally will have to hold us excused for the non-appearance of their advertisements, as well as of a summary of local and foreign news, which but for this accident, would have appeared in to-day's paper.

Remember the College Tea Party on Monday next, the 23d inst. It promises to be a first-rate affair.

The South West Tea comes off to-morrow, and the East Point Tea on Wednesday next, the 25th inst.

There will be an exhibition of Jewelry, &c., in St. Andrew's Hall on Friday next, commencing at 10 o'clock, a.m.

The young French Press Imperial has commenced learning the art of printing. A miniature press has been erected in the Tuilleries, and a printer employed to initiate His future Majesty in the mysteries of the art. Sensible young man.

We learn from Natal that Dr. Colenso has issued a hymn book, in which the words Jesus and Christ are left out of the word God, wherever possible, being substituted.

Dr. Nelson, the physician who extracted the ball from Garibaldi's foot, has declared that he has great doubts of Garibaldi's fitness for going through a campaign, or indeed undergoing any great fatigue.

The Hon. Joseph Hemery, we learn, returned yesterday from a visit to his constituents. He seems to have been well received. Two large meetings which he attended in the District passed strong resolutions against Confederation.

The Tea in aid of the funds of the Presbyterian Church, to place on Tuesday last, came off, we understand, quite successfully. The amount realized was £40-10-0.

The Annual Examination of the Prince of Wales College, took place on Thursday and Friday last.

The Episcopal Tea, which came off on the grounds of the Hon. John Longworth, on Wednesday last, realized, we understand, about £54.

Another Great Fire.—A fire occurred in Philadelphia on the 13th, destroying property to the amount of two millions of dollars.

It was reported by telegraph last week that a formidable insurrection had broken out among the blacks in Cuba. Later intelligence denies the accuracy of the report.

President Roberts, of the Fenian Brotherhood, has been indicted for a breach of the Neutrality Laws of the United States.

The latest news from Europe informs us that Earl Derby has formed a purely Conservative Government. The Austrians, according to latest accounts, appeared to be quite a match for their antagonists, the Italians and Prussians.

The Reading Room is now located on the second floor of the building occupied as a store, by Mr. Harrington, next to the Telegraph Office, Water Street.

Telegraphic communication, which had been interrupted by the fire, is restored again—the office and wires having been fixed up yesterday.

Cervary Examination.—We have occupied so much space in detailing the fate of Sunday last, that we are forced to lay over, until next week, a lengthy report of the examination of the pupils of the Congregation de Notre Dame.

The examination at St. Dunstan's College came off on Wednesday last. Business engagements, and the non-receipt of any invitation, prevented us from attending. We learned that the examination was very successful, and that the names of the Rev. P. Doyle and Mr. James Brodyrick, in English and Classics, especially acquitted themselves well. His Lordship Bishop McLeary and Chief Justice Hodgson, and many other prominent gentlemen were present.

COMMISSARIAT.

The Deputy Commissary General will receive Sealed Tenders, in duplicate, upon Printed Forms, marked—

"Hospital Services,"

until Noon, on Tuesday, the 24th July, instant, from all persons desirous of entering into a Contract for One, Two, or Three Years, from 24th July, 1866, for the following Hospital Services, viz:—
Washing and Repairing Hospital Clothing and Bedding.
The Tenders to state separately the rates for One, Two, or Three Years, and the Deputy Commissary General will have the option of accepting the most favorable offer for either period, and in the event of the agreement being for more than one year it is to be distinctly understood that the Government or the Contractor shall have the power of terminating the Contract by giving Six Months' Notice in writing from the 1st of any month after the first six months of the contract shall have expired.
The Tenders to state in words at length the prices at which each article will be Washed and Repaired respectively.

The work will have to be promptly and satisfactorily executed by the Contractor on the orders of the Purveyor, and in the event of any of the work so ordered not being properly and satisfactorily performed, payment for the same will be forfeited by the Contractor, and the Purveyor will, moreover, have the power of having the work properly executed elsewhere at the cost of the Contractor—the amount of such cost to be deducted from any monies then due, or becoming due to the Contractor upon his contract.

Forms of Tender may be obtained at the Commissariat Office, and no Tender will be noticed unless made on the prescribed form, and they must have the signature affixed of two persons willing to become bound, with the party tendering, for the due performance of a contract as above.
Payment will be made by the Commissariat, quarterly, on the orders of the Purveyor, at whose office any further information may be obtained in reference to the Contract.
Should the Troops be removed from the Island during that period, the Contract will immediately cease.

OUR TARIFF.

Perhaps the present Government will this Session make some change in our Tariff; but if they do, it will be for the purpose of preparing the Country to meet the Tariff which our Canadian masters intend to impose upon us.

Mr. Galt states that—The accounts for the past year showed that the expenditure of all kinds had been \$12,100,786, and \$770,253 had been applied to the reduction of public debt, leaving an ordinary expenditure of but \$11,330,533.

The expenditure had exceeded the estimate by \$722,298, but this expenditure for defence had been swollen to \$1,538,886, owing to the attempt at invasion.

The increase of revenue above the estimates was chiefly from Customs and Excise, and amounted to \$1,259,148.

They received from Customs \$7,228,248 against an estimate of \$6,160,000, showing an excess of \$1,078,248. In regard to the excise, the receipts, over the estimates, reached \$182,507.

We are asked to believe that the whole expenditure of the new nation, even when the local expenditure on the General Government, and after the Inter-colonial Railroad is built, and the debts of the Maritime Provinces are assumed—not to speak of all of fortifications, canals, &c., will be but 11-1-2 millions.

Mr. Galt admits that under the present Tariff there would be a deficiency during the current year of nearly one million dollars—a gratifying prospect for the poor Maritime Provinces.

The changes proposed are, doubling the excise duty on whiskey from 30 cents to 60 cents; specific duties on all kinds, 70 cents—10 cents more than exist.

He afterwards introduced a resolution to give immediate effect to the proposed change, and this was carried. Some corrections discovered what the intentions of the Government were, and turned the knowledge to good account.

He wants to raise nearly \$1-2 millions from Customs and Excise alone; but under the old Tariff he could not estimate the Customs' receipts of this year at more than six millions, and the receipts from Excise at more than \$1,500,000.

But the change will prove even more oppressive to the people of the Maritime Provinces, whose wishes Mr. Galt extends to meet. No wonder, therefore, that Mr. Brown, not imagining that the people of this Province had already become such patient slaves, declared that to make such propositions before Confederation was madness.

On tea, molasses, and tobacco alone we will, under this Tariff pay some \$200,000 a year more than we pay on those articles now under our own Tariff.

And four too is to be taxed 50 cents a barrel to begin with. Canada imports little flour for consumption, and this tax is intended for us, that we may be compelled to give Upper Canada a monopoly of the flour trade of the Lower Provinces, which Mr. Brown, of the Grand Trunk, in a letter to the Board of Trade of the Canadian cities, shows to be \$74,000 bbls; a year—more than the entire exportation of flour and wheat from Canada.

Compelled to buy in so small a market, we must pay the 50 cents a barrel, and buy and pay it with a dollar a barrel, as tribute to the farmers of Upper Canada.

GREAT FIRE AT PORTLAND.

1500 BUILDINGS DESTROYED.

LOSS \$12,000,000.

ALL THE BUSINESS PART OF THE CITY BURNED OVER.

PORTLAND, ME., July 6.

The whole business portion of the beautiful and neat little "Forest City," is no more; what was once an enterprising and commercial city is now nothing but a mass of blackened and smoking ruins.

From the corner of Maple and Commercial streets the flames and cinders were blown directly upon the extensive buildings of the Portland Sugar House Company.

The bill was ordered to be printed. In the House on the day this was introduced, a resolution of Mr. Clark, of Ohio, favoring the proposition to grant sufficient rights to the Fenian organization, was rejected without discussion.

iron of the fronts of the principal buildings, together with large masses of granite and tree stumps. Heaps of broken furniture are scattered on every side, and those who were once comfortable may now be seen wandering about destitute, not knowing where a tith of what they once possessed has disappeared, to tell it almost impossible among the chaos of ruins to tell the position of the several buildings.

MR. BANKS' SCHEME OF CONFEDERATION.

The following is the plan of Confederation submitted to the United States House of Representatives by Mr. Banks.

In making the General Government assume the Provincial debts, Mr. Banks has followed very closely the Quebec plan. The bribe thrown out to Newfoundland and Prince Edward Island is a big one.

"Mr. Banks, of Massachusetts, Chairman of the Committee on the proposed bill, has introduced into the House of Representatives a bill of more than ordinary importance and significance. It provides that the "States" of Nova Scotia, New Brunswick, Canada East and Canada West, and the Territories of Selkirk, Saskatchewan and Columbia, shall be one United and admitted State.

It is proposed that the United States should give to the proposed States a loan of five per cent interest, as follows:—Canada West, thirty-six millions five hundred thousand dollars; Canada East, twenty-nine millions; Nova Scotia, eight millions; New Brunswick, seven millions; Newfoundland, three millions two hundred and fifty thousand dollars.

It is also proposed that the United States shall pay the Hudson Bay Company. Altogether the sum amounts to one hundred and three quarters of millions. We confess this is rather a cool proposition for this warm weather; but we perceive in it the outlines of the grandest political project long entertained by the dominant political power.

It is not only for the benefit of the States, but for the benefit of the Fenian organization, which is now in the hands of the Fenians. In that event the balance of power they fear will be against them, and to remedy that difficulty they promise to annex Canada and carry it up into whatever number of States may be necessary, to enable them to retain the political preponderance. This is a good scheme and may be the reason for Mr. Seward's harsh and summary proceedings against the Fenians. He wants that Canadian peer, when fully ripe, to drop into the lap of his own party."

The bill was ordered to be printed. In the House on the day this was introduced, a resolution of Mr. Clark, of Ohio, favoring the proposition to grant sufficient rights to the Fenian organization, was rejected without discussion.
