GLEANINGS FROM LATE PAPERS. PREPARATIONS FOR WAR.

THE SIZE AND FOWER OF THE FLEET. THE SIZE AND FOWER OF THE FLEET. The fleet that sailed from Spithead on Saturday last, comprises, as will be seen from the above-given list, eight serew line of battle ships, four screw and three paddle-wheel ships of inferior rank, making a total of fifteen war steamers, of which two—the Duke of Wellington and the Royal George —are three-deckers. There is thus not a single ship in the division dependent upon sails alone for pro-pulsion, while there are twelve, including all the liners and the four largest frigates.

pulsion, while there are twelve, including all the liners and the four largest frigates, which, being screws, are equally available as steamers or sailing vessels, or as both combined.

combined. Of the naval force, which for the last few weeks has been mustering at Spithead, only three vessels remained. The Neptune, the Prince Regent, and the Boscawen stay behind to form the nucleus of the second division, which is immediately to assemble there, and, under the flag of Admiral Corry, to follow Sin Charles Navies to the Baltic to follow Sir Charles Napier to the Baltic. We shall then have equipped and despatch-ed from our shores an armament such as the world has never seen equalled, and not unworthy of that supremacy which we claim to hold upon the ocean. Sir Charles Napier will have under his command a fleet of will have under his command a fleet of forty-four ships, manned by upwards of 22,000 men, mounting about 2200 guns, and propelled by a steam power of more than 16,000 horses. Of the ships, only six will be unaided by that new force which is manifestly destined to effect the same revotution in warlike operations as it has already accomplished in those of peace. These are the Neptune, 120; the St. George, 120; the Prince Regent, 90; the Boscawen, 70; the Monarch, 84; and the Cumberland, 70; noble vessels of the old school, though modern invention teaches us to rely less pon them than we used to do.

The division which put to sea on Satur-day was manned by 8320 men collected without any recouse to the pressgang, at a moment when the immense demands of the mercantile marine have almost denuded our ports of sailors. With reference to the ports of sailors. With reference to the steam-power of the fleet, we have as yet no data for showing how the enormous aggre-gate of 16,000 horses is to be made up, but, as Sir Charles Napier took out on Saturday a propelling power of 5330 horses by screw, and of 2020 by paddle, or a total of 7370 horses, it follows that, enormous as the force thus despatched is, it, in fact, forms the weaker half of what his command in the Baltic will ultimately include. As to the guas, also, a similar remark may be made; for while the fleet, when fully constituted, for while the fleet, when fully constituted, will be able to declare the will of England to the Czar through 2200 portholes, and by cannon to which those of the last war were mere toys, this first division carried out an mere toys, this nest division carried out an armament of not more than 837 guns. This, however, will be augmented to 1019 guns in the Downs, where the Cressy, of 80, and the Euryatus of 50, were to join the test of the expedition\_thus increasing the

per cord; coal 100 pound sack, \$5; per ton, delivered, \$50; at market, best cuts beef, pork and mutton, 372 cents per pound; hest fresh butter, \$1 per pound; second quality do., 65 cents; tioshen butter, 50 cents; fresh eggs, \$1.25 per dozen; Boston eggs, 75 cents per dozen; turkeys, \$5 to \$10 each, geese or ducks, \$1 each; chickens, \$2.50 to \$3 each. There are at the present time, says a San Francisco paper, nearly one hundred first-class fire-proof, stores vacant, without a tenant, while dwelling houses are very scarce, and it is difficult for a family to hire a good house at even two hundred to hire a good house at even two hundred dollars per month, in the suburbs of the city.

A CATHEDRAL .- The Antwerp cathedral is one of the largest and most splendid churches in Northern Europe. Its steeple, among the loftiest in the world, is of such beautiful and delicate workmauship, that the Emperor Charles V. said it ought to be kept in a case, while from the minuteness of the carved work Napoleon compared it to Meehlin lace. In the tower is a set of chimes, composed of ninety-nine bells, and one very large bell which requires sixteen men to ring it. These chimes discourse the sweetest music, day and night. beautiful and delicate workmauship, that

AN OBEDIENT SOLDIER .-- On Saturday AN OREDIENT SOLDER. ---On Saturday last, a soldier connected with the Charles-town navy-yard, entered a shop where liquor was vended in that city, and walking up to the bar, began to fumble for a four-pence while waiting for the bar-tender, who was busy in another part of the store. He had just secured his money when a woman entered the door, and walking up behind him, slapped him on the shoulder, and shouled, "March." The soldier turn-ed to see who cave this order, and recognied to see who gave this order, and recogni zing his wife as the giver of the command, without speaking a single word, turned on his heel and marched out of the door as straight as though under martial command. —Boston Traveller.

MAINE LAW.—There was a majority of 183 against the repeal of the Maine Liquor Law, in the Massachusetts House of Repre-sentatives.

BANKS IN THE UNITED STATES .- Accou ding to a statement lately public ed by the Secretary of the Treasury, there are in the United States 985 banks, including branches. Their joint capital stock is \$256,721,955, of which \$6,688,996 is held foreigners.

MEANS OF ESCAPE FROM FIRE .--- Means of escape from houses on firs have recently been adopted by the police of London. They have stout canvass sheets prepared, which are streched beneath the house on fire, and into which the persons in the building throw themselves, and are caught. The canvass escape has been tried, and has given the greatest satisfaction as to its utility and safety. Persoas who could not be persnaded to descend a fire ladder, have leaped into the canvass without hesitatio

The Perthshire Advertiser reports a re-80, and the Euryalus of 30, were to join the rest of the expedition—thus increasing the number of men actually despatched to the north to 10,160, and the horse power to fleet which we are thus sending from our thorea exhausta all our navel attempts. for ear, and the person spoken to will hear ear, and the person spoken to will hear distinctly in a tone of voice several notes lower. It is also important to add, that a chain could be formed upon the same princi-ple, by a number joining hands in the manner alluded to, when the individual affected will hear in a moderate key at ithen and of the bain either end of the chain. Size of LONDON.-London extends over Size of LONDON.—London extends over an area of 78,029 acres or 192 square miles, and the number of its inhabitants, rapidly increasing, was two millions three hundred and sixy two thousands, two hund-red and thirty-six (2,302,230) on the day of red and thirty-six (2,362,236) on the day of the last census. A conception of this vast mass of people may be formed by the fact that, if the metropolis was surrounded by a wall, having a north gate, a south gate, an east gate, and a west gate, and each of the four gates was of sufficient width to allow a column of persons to pass out freely four abreast, and a peremptory necessity requir-ed the immediate evacuation of the city, it could not be accomplished under four-and-twenty hours, by the expiration of which time the head of each of the four columns would have advanced a no less distance than seventy-five miles from their respective gates, all the people being in close file, four deep.—Cheskinz's Results of the Census. A Monarge Strass-sure.—The ways deep.—Cheshirs's Results of the Census. A MONSTER STEAM-EUIF.—The ways for laying down an immense screw and paddle steamer for the Eastern Steam Na-vigation Company, are in the course of completion at the yard of Messre. Scott the extensive shipbuilders at Millwall, Rus-sell, where some hundred of piles have been driven in order to support the huge fabric. Many hundreds of tons of iron for her keel are ready to be put together, and the con-racts have been signed. for the completion and isunching of the ship within two years the from the time when smoot and the former, Mesore

the set

of the present time. The following are a few particulars of ber dimensions. --Extreme length on main deck 700 feet, 430 longer than the great Himalaya steamer; extreme length of keel, 630 feet; extreme breadth of beam, 83 feet; depth of hold (forming four decks), 53 feet; length of principal saloon. 83 feet saloon, SU feet.

SUBBAY DEATH or Ma. Jestics Tainoes.-At Stafford, on Monday, Mr. Justice Talford, while in the act of addressing the grand jury, was seized with an apoplectic fit which almost instantly terminated he life. The attack appears to have been brought on by the excited feelings under which his lordship was addressing the grand jury, in reference to the attack appears to have been brought of the output is stained on the present, even more than on ordinary occasions. His lordship, in alluding to the state of the calendar, containing a list of upwards of 100 prisoners, many of them charge ed with the most atrocious öffences short of marder, called the attention of the grand jury to the fact that there were no fewer than serventeen cases of innuslaughter, and thirty cases where persons were charged with the crime of highway robbary. These crimes, his lordship observed, might be traced in a vast number of cases to the rice of intemperance, which was so prevalent in the mining districts : and, while commenting upon these topics, his lordship observed, might be traced in a vast number of rases of society to take a more lively interest in the wifter of those who are beneath them. While commenting upon these topics, his lordship became considerably excited and flashed in the face, and accurate observers noticed that his voice became somewhat thick and inartice-late. But, on a sudder, his lordship fell forward with his face upon his book, and then swycd on one side towards Mr. Snasom, his senior clerk, and his necklonk, due a feeled eation of the pulse could be feit. Mr. Justice Wightman was hurriedly summoned from the Civil Court, and has need to the spot, but only arrived in time to see his brother judge borne in mourful procession on the heudders of six gentlemen from the court in which but two or three minutes before his tooks had the endendar. Different different is the was during in 1795, and in 1822, and joined the dughter of the exert forward with his face. He was claship heid heuder different in the dis the dughter of

It is curious to observe the changes that take place in, national affairs. Not many years have gone by since. England and Russis were cooperating together, hand in hand, against France, and still more recently *Bickwood's Migazine* seriously argued the policy of a combination of States, for the purpose of keeping France in check, as the common disturber of nations. And now, England and France are acting together against Russia, and Louis Napoleon, who has been so frequently denounced as the usuper, his been for mouths exerting him-self to the utmost as a mediator between the Czar and the Sultan. Truly circumstances alter cases. alter cases.

ST. NICHOLAS HOTEL.—The extensive additions to the St. Nicholas Hotel, New York, commenced many months ago, have been completed. That hotel now has a front of three hundred feet on Broadway, and extends through to Mercer street, a depth of two hundred feet or more. It thus has entrances on Broadway, Spring, and Mercer streets, and contains six hundred rooms, including one hundred and fifty suites for families. The aggregate length of the halls and corridors in this vast estab-lishment is said to be two miles ! and two thousand gas burners are required to light thousand gas barners are required to light the various departments. The whole num-ber of servants employed is two hundred and seventy-five.

The rage for annexation has taken a new The rage for annexation has taken a new direction, a resolution having been offered in the House of Representatives to request the President to enter into negotiations for the purchase of one or more of the Chincha islands. The immediate cause for this is the guano trade, in which, an impression there is there is a memorial. The desire the guano trade, in which, an impression prevails, there is a monopoly. The desire is to remove that monopoly, and the shortest way is supposed to be to acquire the islands. Verily, it is difficult to tell were we are to stop. This looks like taking hold of South America.

ARREST OF THE SPEAKER .- The Hon. J. ARREST OF THE SPEAKER. —The Hon. J. S. Macdonald was arrented in journeying through some portion of Italy.—having been mistaken for another stranger of the same name, who had become obnoxious to the authorities. The Speaker was detained several hours, until he furnished proof of his non-identity with the culprit, when, having paid cortain extravagant redemption fees to the minions of the Pope, he was re-leased.—Toronto Examiner.

### PUNISHMENT OF DARING IMPIETY.

PUNISHMENT OF DARING IMPLET. Melancthon relates the story of a tragedy that was to be acted, of the death and pas-sion of Christ. But he that personated the Redeemer on the cross, was wounded to death by one that should have thrust his sword into a bladder of blood; and he, by his fall, killed one that acted a woman's part, lamenting under the cross. The brother of him who was first killed, also the was person who stabbed him, for which he was apprehended and executed. So speedily was their daring impiety punished.

Term, for Jadgment-egning the said Lots and Tracts of Land, respec-tively. <u>STEPHEN RICE</u> Transmission ers of the said Lots and Tracts of Land shores exha s all our naval strength. the reserve ships have not been touched, thirty additional first-class men-of war could almost at once be put into commission, and our dockyards and private establishments could enable us to show to the world results at least twice as great as those which the last few months have yielded.

ARE THE CALIFORNIA MINES FALLING ARE THE CALIFORNIA MIXES FALLING OFF.-Some discussion has lately arisen in regard to the probable depletion of the gold mines of California. The shipments for the last three or four months have shown a decided falling off, which carries with it a certain weight of reasoning that there is a diminished production; while on the other hand it is contended that the season has been series unforwarble to the miners, and diminished production; while on the other hand it is contended that the season has been very unfavourable to the minures, and to this fast is attributable the seeming fal-ling off in the amount of gold. 'Six million three buddred and thirty-three thousand dol-lars left San Francisco for the the Atlantic in the month of Feb. 1833, and in the month of February 1854, \$2,904,438 left San Francisco. In January 1852, the ship-ments from San Francisco amounted to \$1,014,717, and during the same month in the present year they were \$3,939,279, showing a falling off of \$632,438. This, added to the decrease in February, makes the total falling off this year, as compared with 1853, upwards of \$632,438. This, added to the decrease in February, makes the total falling off this year, as compared with 1853, upwards of \$630,000. After this comparison very little consideration is required to satisfy any one that the mines of California are not as productive as they have been in previous years; and it imme-diately becomes manifest that they are, to a contain extent, giving out, at least so far as individual labour is concerned.

NEW MARKET HOUSE, CHARLOTTETOWN. The Hon, the Corostat SECRETARY moved for the appointment of a Special Committee to re-port Plans and Estimates for a new Market House, Charlottetown. The motion being agreed to it

Chartotteown, And Mon. the COLONIAL SECRE-ordered, That the Hon. the COLONIAL SECRE-TART, Hon. Mr. Lord, Mr. Beer, Mr. Douse, Mr. Mooney, Mr. Macgowan, and the Hon. Mr. Haviland do compose the said Committee. R. B. IRVINO, Reporter.

THE EMPEROR NICHCLAS I have just seen one of our countrymen in his return from St. Petersburg, which he In his return from St. Petersburg, which is left along with a large number of English about a fortnight since. He contradicts the rumour that Nicholas is addicted to his bottle, but attributes his conduct to fanaticism. It is quite understood at St. Peters. burg that the Emperor is a fatalist, and believes his destiny requires the accomplish-ment of a great work, which he is to fulfil by undertaking this enterprise. Urged on by this superstition, no argument can induce him to restrain his impetuosity. He braves all consequences, in the faith that fate is on his side, and will vindicate his wisdom in trusting her decrees. The Russian nobility are gloomy and dissatisfied. Their rents are no longer well paid, and will not again be paid as heretofore till peace is resumed, the customers on whom the peasantry chiefly depend being now their enemies. burg that the Emperor is a fatalist, and This spreads discontent among both classes, and renders it very probable that Nicholas and renders it very provide the victim of his own folly by the assassin's dagger. It seems that the Crown Prince and heir apseems that the Crown Prince and heir ap-parent is at direct variance with his father on the question of war, as well as on many others. He has adopted liberal views, and desires to see the people advancing in knowledge and intelligence, while the reign-ing monarch seeks rather to repress their aspirations. A remarkable example of the difference between father and son occurred in 1851. The Emperor had declined to allow his nobility the privilege of travelling to London to witness the great exhibition, but no sooner had he left his capital to take a distant journey, giving the temporary government into his son's hands, than pass-ports were obtained from the latter by all who applied for them. This proceeding produced a serious misunderstanding for a while, the Emperor declaring that his son-is taking the sure way to make his sub-jects revolutionists, by permitting them in numbers to mingle with the Western nations. My informant assures me that it is quite believed in the Russian capital that there will be no collision between the fleets in the open sea, because the Russians will remain fast under goven of the multiple parent is at direct variance with his father there will be no collision between the fleets in the open sea, because the Russians will remain fast under cover of the walls of Sebastopol and Cronstadt, which are both nearly impregnable, and that their reliance will be on operations by land. The accu-mulated forces of the Russians are rapidly investing Kalafat, and every day may bring commute of some desided movement.

accounts of some decided movement. I they succeed in gaining this post, passing the Danube and seizing on Widdin, they will then be on the highway to Adrianople, the Balkan presenting a less formidable barrier in that direction than at any other neith and effective them are seen to be the second ome decided movement. I point, and offering them no very serious obstacle. It is therefore to be hoped that the Turks may have strength to hold their own till their Western allies can reach the field. Then will come the tug of war, Surely it ought to be our earnest prayer that this awful threatening of bloodshed and desolation may pass over without the serious conseque es we dread.

A CURIOUS CHANNEL OF COMPARISON-Water is, in many points of view, a sin-gular reflection of periodical literature, which we were not aware of before we had looked into it. For instance, it comes out in sheets, and when a suff-cient quantity is issued, it is collected into volumes. But how many sheets of water make a volume, we cannot say. The frost will bind a volume of water in a variety of ways, and it is astonishing the number of volumes every year that are "bound in Russia;" and there is this further resem-blance between literature and water, that, send them up by any high pressure you please, they are both physically sure, after a short time, to find their own level-Lon-ton Punch. A CURIOUS CHANNEL OF COMPARISOF.

don Punch. The aggregate value of bonts and shoes manufactured in Massachusetts an-aually is \$37,000,000. The town of Lina produces five millions of pairs of shoes annually.

DR. HOOFLAND'S CELEBRATED GERMAN BITTERS, Prepared by DR. C. M. JACKSON, No. 120 Arch

Prepared by Dn. C. M. JACKSON, No. 120 Arch street, Philadelphia. Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skilled physicians had failed. These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are, withal, safe, certain and pleasant. which have been unjustly gathered are accursed. "Your gold and your silver is cankered, and the rust of them shall be a witness against you, and shall ent up your flesh as fire." Far better have no gold at all, than gold with that curse upon it. Far better let cold pinch this frame, or hunger gnaw it, than the rust

augurive organs, they are, within, early, certain and pleasant. Read and be Convinced. The "Philadelphic Seturday Gazette," says of Dr. Hoofland's German Bitters. 'I to isseldom that us erecommend what are termed Patent Medicines, to the confidence and patronage of our readers; and therefore when we recommend Dr. Hoofland's German Bitters, we wish it to be distinctly anderstood that we are not speaking of the nostrums of the day, that are noised about for a brief period and then forgotten after they have done their guily race of mischief, but of a medicine long established, universally prized, and which has mot the hearty ap-proval of the faculty iself."

proval of the faculty itself." "Scott's Weekly." said. Aug. 25-"Dr. Hoodand's German Bitters, manufactured by Dr. Jackson, are new recommended by some of the most prominent members of the faculty as an article of much efficacy in cases of female weakness. Persons of debilitation constitutions will find these Bitters advantageous to their heighth, as we know from experience the salutary effect they have upon a weak system."

MORE EVIDENCE. J. G. Moore, Esq., of the Daily News said.

October 31st-"DR. HOOFLAND'S GERMAN BITTERS .--- We

"DR. HOOFLAND'S GERMAN BITTERS.--We are trying this renowned medicine for a stubborn dis-ease of the howels, and can with truth testify to its efficacy. We have taken the contents of two bottles, and we have derived more benefit from the experi-ment than we derived previously from years of allopathic treatment at the hands of our first physi-cians." iaus." Hon. C. D. Hineline, Mayor of the City of

ciain."
Hon. C. D. Hineline, Mayor of the City of Canden, N. J., suys:
"HoorLAND'S GERMAN BITTERS.—We have seen many flattering notices of this medicine, and the source from which they came induced us to make inquiry, respecting its merits. From inquiry we were persanded to use it, and must any we found it apecific in its action upon disenses of the liver and digestive organ, and the powerful influence it exerts upon nervous prostration, is really surprising. It calms and steengthens the nerves, bringing them into a state of repose, making sleep refreshing.
If this medicine was more generally used, we are satisfied there would be less sickness. as from the standed there would be less pickness. as from the stomach, liver and aervous system, the great majority of tesl and inaginary disease emanute. Have them in a healthy condition and yes can tail indisposed, to give a trial-it will recommend itself. It should, in led, he in every family. The starodians medicine cam produce evidences of the same merit." For alle whelene and retail at THE GERMAN MEDICINE STORE.

**CONSUMPTION**. Among the numerous discoveries Science has made in this generation to facilitate the business of life-increase its enjoyment, and even prolong the term of human existence, nose can be named of more real values to mankind, than this contribution of Chemistry to the Healing Art. A vast trial-fits virtues through-eat this brand country, has proven beyond a doubt, that as madicine or combination of modifiers yet known, can so surely control and cure the numerous varieties of pulmoary diseases which have higherts except from our midst thousands and thousands every year. In-deed, there is now abundant remoin to heliver a Re-medy bas at length been found which can be relied as, to care the most dangerous affections of the langs. Our space here will not permit us to publish any propertion of the cares effected by its use, but we would present the following :---and refer further en-quiry to my American Almanne, which the agent blow named, will always be pleased to furnish free, wherein are full particulars, and indisputable proof of these statements.

ND below named, will always be pleased to furnish free, wherein are fall particulars, and indisputable proof of these statements. Office of Transportation, Laurens R. R., S. C., Aug. 4, 1858. J. C. Ayzan. Dear Sir, —My little son four years old has just recovered from a severe attack of unfigure and Scarlet Fever, his throat was rotten, and every anath Scarlet Fever, his throat was rotten, and every anath Scarlet Fever, his throat was rotten, and every anath Scarlet Fever, his throat was rotten, and every anath Scarlet Fever, his throat was rotten, and every anath Scarlet Fever, his throat was rotten, and every anath Scarlet Fever, his throat was rotten, and every anath Scarlet Fever, his throat was rotten, and every anather the inter encode the state sepon-fal every three house, commencing in the morning, and by ten o'clock at night. If found a decided change for the better, and after three days use he was able to eat or drink without pain. It use in the dhove named disease will save many a child from a premanter grave, and reliver the anather three days use he was able to eat or drink without pain. It as in addressing you these times, prompts me in addressing you these times, but for your in-part discovery, my little boy would new have been in another world. I am yourn, with greent respect, J. D. PUWELL Sourt Teme, L. R. B.

I am yours, with great respect, J. D. POWELL, Supt. Trans., L. R.R.,

Rock Hill, (Somerset Co.,) N. J., July 21, 1852.
 Dr. J. C. Ay En. —Since your medicine has become known here, it has a greater demand than any other cough remedy we have ever nold. It is spoken of in terms of annensured punise, by those who have used it, and I know of some cases where the hest they can g any of it, is not too much for the good it has done.
 I take pleasure in selling it, because I know that If an giving my customers the worth of their money.
 and I feel gravified if a seeing the beceft it coufers.
 Please send me a firther supply, and believe Yours, with respect.
 JUHN C. WIHTLOCK.
 If you wish it.

was in Sc ringfield. All who saw thóm admired them, and spoke for some of the seed, which I circulated freely at one dollar per pound. Tops barely enough to pull up the single root, little bigger than a pipestem. They were as good as handsom. All this goes to encourage me in selecting the best roots and employing the best means possible, or obtaining the very best seed, from which to secure the r-ward for the best care and culture of the orchard, field, and garden.

READING AND THINKING .- Always have a book within your reach, which you may eatch up at your odd minutes. Resolve to edge in a little reading every day, if it is but a single sentence. If you can give fifteen minutes a day, it will be felt at the end of the year. Thoughts take up no room. When they are right they afford a portable pleasure, which one may travel or labour with, without any trouble or incumbrance,

Teach children to love everything that is beautiful, you will teach them to be

"Now" is the constant syllable ticking from the clock of time. "Now" is the watchword of the wise. "Now" is on the banner of the prudent. Let us keep this little word always in our mind.

Count Bruno Bronski, a Pole, ins dis-covereil the art of crossing silk-worms, a process through which he obtains silk of a splendid whiteness.

For sale wholessle and retail at THE GERMAN MEDICINE STORE, No. 120 Arch street, next door below Sixth. Phil-adelphin, and by respectable dealers generally throughout the constry. In this manmone-worshipping Age, it is rare to fird a man place his usefalsees to the public, before his interest. During a late visit to the 'City of Spindles,' we were presented by a professional friend, to the cel-ebrated Chemist, Dz. J. C. AYER, whose name is nice perings, more familier than any other, at the heddelevated Chemist, Dr. 1. C. A'zzn, whose name is note perfange, more familier than any other, at the bed-ede of sickness, in this country. Knowing the un-precedent popularity of his medicines, and the im-menase sale of them, we had expected to find him a millioners, and ralling in wealth. But no, we found him in his laboratory, basy with his laborers, among his crucibles, alembies, and rateries giving his they porsonal care to the compounds, on the virtues of which, thousands hang for health. We learned, that netwithstanding his vas business, and is prompt re-turns in cash, the Doctor is not rich. The reason as-signed is, that the material is costly, and he perints in making his preparations so expensively, that the notit profit is small.-American Farmer, Phil. For Sale by T.
