The Universal Ozonator produces about 4000 cubic feet of ozonized air per hour. A motor-driven blower draws fresh air into the ozone generating units and expels the ozonized air into the room. As the ozone diffuses very rapidly, this feature assures a wide distribution of the ozone. The two-point switch produces means for varying the amount of ozone. For deodorizing purposes the ozonator will be found invaluable.

Somehow I came to the conclusion that, though mademoi selle could no doubt play any piece of music which might be set before her, she would play it without caring a straw about it.

The music went on; so did on chatter, though in subdued tones, in leference to it. The breeze, blowing n coolly at the open window, made Nat and Alice shiver under their ight dresses. Madame, looking acros

So, his din ier over, he had strolled out with hi igar, and passed the boundary beween his own grounds and Chavass lmost without knowing it.

Watching how his dark eyes fur ively sought Nat's face, I put the las art of the statement down as more han slighly mendacious. The maste of Holmedeane strolled into Chavass good deal too often to do it by ac eident, in my opinion.

I kept apart from the piano, turning over Nat's music, intending to as! her for a song presently, while the conversation round madame's table grew brisk enough, as most conversations did in which Miss Alice Deeping ook part. It might be that the young ady did not like Fraser Froude; but he had no objection to talking to im if no one better was near. #### Why Have "Nerves?"

This is the reason why women have "nerves." When thoughts begin to grow This is the reason why women have "nerves." When thoughts begin to grow cloudy and uncertain, impulses lag and the warnings of pain and distress are sent like flying messages throughout limbs and frame, straightway, nine times in ten, a woman will lay the cause of the trouble to some defect at the point where she first felt it. Is it a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back, a woman naturally says, but all the time the real trouble very often centers in the womanly organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The local disorder and inflammation of the delicate special organs of the sex should be treated steadily and systematically.

Dr. Pièrce, during a long period of practice, found that a prescription made from medicinal extracts of native roots, without the use of alcohol, relieved over 90 per cent. of such caces. After using this remedy for many years in his private practice he put it up in form of Dr. Pierce's Favorite Prescription, that would make it easily procurable, and it can be had at any store where medicines are handled.

MRS. LILA B. HAWKINS, of Zeus, Va., writes: "I had been failing in health for two years—most of the time was not able to attend to my household duties. Female weakness was my trouble and I was getting very bad but, thanks to Doctor Pierce's medicines, I am well and strong again. I took only three bottles of 'Favorite Prescription,' and used the 'Lotion Tablets.' I have nothing but praise for Doctor Pierce's wonderful medicines."

is a form of so cial dissipation which has the unqualified ap proval both of the ministry and the bone-setting profession. It is an exciting pastime, as one never knows when he will be run into by some

Roller skating

passionate de vetee who has lost control of his steering gear and be thrown head first into the spectator's gallery.

Roller skating is usually practiced in some thoroughly ventilated rink which is heated by the breath of the skaters thereby compelling everybody to keep in motion or freeze. The average rink has plenty of leg room for 200 proficient skaters, but looks as small as a bedroom eleset to a wildeyed, loose-limbed beginner who has no direct supervision over his feet. When one of these animals is turned loose on the floor, he generally succeeds in falling on the back of his neck several times in succession, each time taking down with him a number of people who are not given to decide

whether they will alight on the left

ear or the bridge of the nose. The roller skate is a treacherous ar ticle which is harder to stay on than a broncho with the stomach ache. It is attached to the ball of the foot by who feels perfectly satisfied if the gets within six inches of a fit. Ninetenths of our surgical operations are the result of roller skates which fit like a bathrobe on a mountain .goat. If the skates are too short, the wearer is liable to tip over in front and impale himself on the hardwood floor, after which he is sat upon with grea animation by everybody who can get to him. If the skates are too long, the beginner proceeds to fall over backward and allow a long procession of preoccupied skaters to meander over his physique, depriving him of his vest buttons and breath.

The roller skating rink is a poor place in which to nourish pride. Many a tall svelte stranger in white flannel pants has invaded a neighbouring rink and endeavored to do the grapevine twist for the benefit of the ladies, only to run into a ten-penny nail and slide feet first into the bandstand on his shirt front, being obliged to retire hurriedly to the dressing room for repairs.

The HERALD, on the 7th inst., contained the following editorial note:

"The claims of the Telegram's 'circulation liar' remind us strongly of its boasts as to 'victory all along the line' in the late political campaign."

On the 8th inst.:

The proprietor and editor of the TELEGRAM commenced an action for libel against the Herald Co. and its managing director, alleging that the foregoing reflected upon a statement as to its circulation purporting to be sworn to by Mr. W. J. Herder which the TELEGRAM had published, on the 2, 3, and 4th inst., and to a statement as to its New Year circulation published over its editorial columns by the TELEGRAM on the 6th inst.

It has been arranged between the parties to the action for libel that it shall be discontinued on condition that a complete and unequivocal apology shall be published in the HERALD, and the costs of the action be paid by the defendants. In pursuance of this agreement, the HERALD now tenders an apolflect on the veracity of Mr. Herder or Mr. Lloyd, and did not and does not question that the ogy for the utterance complaindoes not question that the circulation of the TELEGRAM has been accurately represented.

The following is a diary of the s.s. Nevada's terrible experience off our corst, kept by Jno. C. Daley, one of Mer scomen: -"At 6 a.m. Dec. 27th, 1812, the steamer Nevada was getting inderway in St. John's, Nfid., for Luisburg, N.S. Everything was serede until Dec. 28th when it started blowing a gale, and at 4.30 p.m. our radder became disabled, and we were helplessly adrift with a heavy sea running. We kept the engines going d ad slow ahead all night. The morning broke, Dec. 29th with a heavy sea and blowing a gale; Capt. Willett had the crew lower drags over the side, and had her going half speed ahead but was unable to keep her on a course. We had a large iron bucket which was purchased for the same of the same which was purchased for the purpose of hoisting ashes; the crew made a line fast to it and lowered it first on the one side until she came around, then shifted to the other side, but the sea was too heavy, and we could not steer. Her engines were stopped and we continued to drift. On Dec. 30th at 4 a.m., we sighted a vessel off our port bow, and sent up signals of distress, but she either did not see us, or paid no attention and was soon out

About 9 a.m. we started trying to get a line aboard her. We floated line down to her and she picked it up and made fast to a heavier line. Our crew took a turn on the after winch and started heaving in. They had the line almost aboard when the small line parted and we lost all we had gained. They then got a heavier line, made it fast to a hatch cover and floated it down, but the float was so heavy and the sea so rough they were unable to get the line over the rail of the Athenia. The crew then hauled the line aboard and began casting about for something lighter and still Luoyant enough to carry the line. It was about this time that some verleavy seas struck us. Once in particular we went down in the trou .n of the sea, and a big wave broke over entirely covering us with wats. When we came up water pouring of our decks, in torrents, all the people were lined up on the starboard rail of the Athenia. They

# Tea and Coffee "Over-Exercise" the Heart.

Normal exercise is healthful.

Over-exercise is harmful.

Exercise, up to a certain degree, increases the pulse-rate, causing ample flow of nourishing blood to all the body organs.

That is normal exercise.

Physicians and Physical Trainers know this.

Over-exercise urges the Heart to excessive actionflooding the body organs with blood. The after-effect is stagnation and decomposition in the tissues—as in the low-lands after a Spring freshet; and toxins (poison) abound.

These toxins are reabsorbed into the blood stream, and, passing through the Heart, poison that organ with the rest.

Over-exercise also causes strain.

Architects know what "strain" means in buildings and in bridges, just as Doctors and Trainers know it in the Human Structure.

When "strain" passes a certain limit, the structure begins to weaken-slowly dis-organize.

So with the Heart.

It can stand so much "strain"-more or less, in different persons. Beyond the individual limit-look out!

When the Heart is compelled to over-exercise and convey a blood-stream filled with toxins—it is serious, in the ex-

"OVER EXERCISE" OF HEART. Very Plain in Some People.

A great many people go on suffering from annoying ailments for a long time before they can get their own consent to give up the indulgence from which their trouble arises.

An Eastern man describes his experience as follows:

"I became satisfied some months ago that I owed the palpitation of the heart, from which I suffered almost daily, to the use of coffee-I had been a coffee drinker for 30 years. (Tea also is injurious because it contains caffeine, the same drug found in coffee.)

"I realized that I must give up the harmful indulgence in coffee but I felt the necessity for a hot table drink, and as tea is not to my liking, I was at a loss for awhile what to do.

"One day I ran across a very sensible and srtaightforward presentation of the claims of Postum, and was so impressed thereby that I, concluded to give it a trial, and I have used it ever

"The effect on my health has been most salutary. The heart palpitation from which I used to suffer so much. particularly after breakfast, is gone, and I never have a-return of it except when I dine or lunch away from home and drink coffee because Pestum is not served. I find that Postum cheers and invigorates while it produces no stim-

"There's a reason," and it is explained in the little book, "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, ture, and full of buman individual is at rest. The habitual use of tea or coffee, three or more times daily, forces the Heart to over-exercise.

This produces what Life Insurance Examiners and Physical Trainers term "Coffee Heart." Tea causes the same effect on the heart, because it contains caffeine, the drug found

If you have "Coffee Heart" you can't get life insurance and you can't "go in for athletics"-not much.

But-thousands of former "Coffee Hearts" now beat regularly, supplying the body organs with pure blood in normal amount; are insured and enjoy life.

They have wisely guit tea and coffee entirely and now drink the wholesome, famous food-drink,

## POSTUM

Made of clean, hard wheat, Postum contains no tea or coffee or any other harmful substance.

It does not scourge; it neurishes.. It does not cause overexercise of the Heart; it supplies nutrition to that organ and to the blood-stream which feeds and preserves the whole

MINARD'S LINIMENT CURES

#### A Straight Appeal To The Voters Of Mid.

We want to ask a pertinent and timely question of the honest, intelligent voters of this badly governed Colony, and we think voters we may reasonably ask your attention just for one moment. We want to say, first, that we regard it as a most unfertunate thing for any Government to intrigue and the frequent use of declarations and statements that cannot bear the light of day, and that are made simply with the view of gulling the people and catching their votes.

In the light of what follows can you

intelligent voters give any credence to every thing that may be said by Premier Morris or by his two backers P. T. McGrath and John A. Rob-

Please give good heed to the following:—In 1908 the Morris Party did its best to defame Sir R. Bond claimng that he ought to be defeated because during his lease of power he had done nothing but waste valuable

This Was Either True or False. The question can be easily decided. In 1907 just one year previous to the time when these statements were made, Morris did utter the truth it the House of Assembly with Bond at the head of the Government. This is what he said during a speech that he was making in favour of the Bond Government: — "The Government," said he, Bond's Government remember) "has been able to reduce taxation annually to the extent of \$250,000 and increase public service to the extent of \$300,000, including grants for extension of Coastal Service, Houses, etc., the people have lived better and have been able to put away in the Savings Bank of the country five millions of money."

Now, gentlemen, you can easily see that this first statement of Sir E. P. Merris, made in 1907, in the House of Assembly was correct. This is just what official records show Sir Robert Bond did during his administration. Morris men are reported as saying: "If we get it now we will have it for-ever," meaning of course that they will move heaven and earth between now and the next election to serve the

sinister purpose. But they will not do it. The whole cuntry is up in arms against the squandering picnic crowd, and Mc-Grath's utterances will be the great-est force against them. The Bond Party are winning every-

"I have had close calls in my life and heard tell of some, but the escape of the Regal's crew from a watery grave was indeed miraculous." Our report-er then got in touch with Captain Mayo of the ill-fated vessel and learn-water, began to make rapid her ed the story of the voyage. On December 20th the Regal left North Sydney laden wih 156 tons, of coal and ound to Harbour Grace. At the start conditions were moderate but after rounding Low Point the wind shifted but nothing to impede the headway of the vessel. The following day at noon the weather became stormy. There was a strong S. E.

Gale Raging With a Terrific Sea running and very little progress could be made by the craft which began to drift and two days later, the 22rd, Capt. Mayo put into St. Pierre and harbored there. The next morning the Regal put out to sea again and into Burin on Christmas morning. She left there on the morning of the 26th and at 10 o'clock the next night the Regal was between Cape Spear and the Narrows sailing into St. John's. Suddenly a fierce W. S. W. gale sprung up and the craft which was making bold endeavours to beat her way into St. John's was prevented and in trying to hold the land had her jib and jumbo sails blown away and here foresail damaged. At daylight on the 28th a double reefed foresail was rigged as the wind had changed to N. N. W.. Four hours later it changed to E. by E. and when ten miles E. N. E. of Cape Spear a

After this the vessel began to leak and now and then the water would rush through the seams, decks and topsides where the vessel was open and flood the cabin; soon she became numanageable and Capt. Mayo, Mate, R. Breen, Cook, Weston Mosher, and Seamen, W. Blagden, B. Brady and George Lee, all belonged to Fortune, were brought to port yesterday afternoon by the barqt. Gaspe, Capt. Connors, which was thirty-five days out from Pernambuco.

A Sour, Gassy, Upset Stomach.

"Pape's Diapepsin" regulates your stomach and ends Indigestion in five minutes. Wonder what upset your stomach-

which portion of the food did the damage-do you? Well, don't bother. If your stomach is in revolt, if sour. gassy and upset, and what you just ate has fermented into stubborn lumps; your head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated-just take a little Diapepsin and in five minutes you truly will wonder what became of the indigestion and distress.

Millions of men and women to-day know that it is needless to have a bad stomach. A little Diapepsin occasionally keeps this delicate organ regulated and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, nost harmless relief is Pape's Diapepsin which costs only fifty cents for a arge case at drug stores. It's truly onderful—it digests food and sets things straight, so gently and easily that it is really astounding. Please, or your sake, don't go on and on with a weak, disordered stomach; it's 83

At 4.45 p.m. yesterday, an alarm of fire was turned in from box 3 which was quickly responded to by the firemen of the Central. The fire was in the double tenement house at the corner of Buchannan and George Sts., the upper part of which was occupied by the family of Mr. John Kearney while the lower apartment was tenanted by Mr. Frank Wickham. The whole structure was enwrapped with flames. Soon it was known that an infant was inside the Wickham household but it was death to enter the abode the interior of which re-sembled an inferno. A length of hose was attached to a hydrant on George Street but there was some delay in an adequate force of water coming through the nozzle and the meantime the chemical was played on the build-ing. When a good stream of water was had the fire was under control in about twenty minutes but not before the houses were gutted out and all the bedding, furniture, etc., in the Wick-ham household destroyed and the bedding and furniture of the Kearney both families had to take refuge with friends last night. ### Missing Man Found.

Body of John W. Green, Missing Since September, Found off Blackmarsh Road,

Shortly before 2 p.m. yesterday Mr. Mark Whiteway, of 89 Bond Street, came to the Western Fire Station and reported having found the body of a man in the woods off the Blackmarsh Road about 60 yards from the old rellway track. A bat, which, he had picked up near the body, he had with him. The body lay with the face turned earthwards with the hands behind the back in a stooping or crouching position, with the right hand doubled up near the right foot and the left hard under the breast. Head Peet with Consts. T. Stamp and P. Peet with Consts. T. Stamp and P. Whalen taking axes and picks and with Mr. J. T. Martin's express left for the scene, Mr. Martin also going and Mr. Whiteway, while Const. Stamp's father who lives near Mundy's Pond went with the men as a guide.

from the ice in which it was embed-ed and brought it to the morgue. Near the body was found a revolver within reach of the hand and this was taken by Head Peet and deposited at the station with some papers found near the body. At the morgue rela-tives and friends of the deceased visited the remains for identification. A brother-in-law, Mr. E. J. Horwood, identified the decomposed corpse. He examined the hat on which he found the shop mark of the Royal Stores and the initials "J. W. G." wood said answered to the description of John Green who was also identified by the light green mackintosh wore. The revolver was found lay-ing in the ice near his right hand and contained 4 empty chambers. A gold watch, a purse containing \$16.00 and an accident insurance nolicy was found in the clothes. This removed all doubt as to the remains.

It will be remembered John W Green left his home at 6 o'clock on Monday morning, Sept. 2nd, last. He was last seen by a man who was going to work at Bennett's Brewery.

The funeral of the deceased will take place Friday afternoon, at 2.39 and the S. O. E., of which deceased was a member, will attend.

Shortly after Mr. Green disappeared Mr. and Mrs. Lidstone, of Cabot Street, while driving in the road wer accosted by a man who seemed to b demented and who after they had turned their carriage ran into the woods. From the description of the men given by them and published in the Telegram at the time be likely that this was Mr. Green.

#### Serious Fire At Renews.

Last night a Southern Shore man furnished us with some particulars of the fire which occurred at Renews the previous night and which razed to the ground the house and its con-tents of Mr. Thomas McCarthy, Cus-toms Officer at that place. The house was unoccupied at the time and was being re-moddled, and it was only during the Christmas season that the owner vacated it and went to live in another house a short distance away. Infortunately McCarthy did not remove any of his furniture or other belongings including his winter's pro-Infortunately McCarthy did not remove any of his furniture or other belongings including his winter's provisions — all of which went up in smoke—as he intended to re-occupy the 'old homestead' as soon as the carpenters had it finished. There was no insurance carried on the property destroyed and the loss, which amounts to over \$1,000, is a heavy one to the owner. The origin of the fire is unknown, though, it is thought, that the workmen left fire in the stove which they had used. During their absence a burning cinder fell out on the floor and a blaze followed. The fire was and a blaze followed. The fire was not discovered until late at night when it was well under way. If there had been a strong wind blowing to fan the flames other property may have
