The Air Line railway between St. Thomas and Aylmer is almost a straight line, and for several miles west of Aylmer almost a dead level. On this road a serious collision A shift Aylmer is almost a straight line, and for severel miles west of Aylmer almost a dead level. On this road a serious collision took place yesterday morning—an excur-sion train for the provincial exhibition and a freight train from the west running into each other near the village of Orwell. Both engines sud a number of cars were smashed, five men killed and several others seriously injured. It is quite clear that somebody blundered, but why the trains should have collided on a straight and level track and in open day is inexplicable. AYIMER, Ont., Sept. 29.—The 9.25.ez-cursion train from here to the exhibition at a Convell, about two and a half miles from here, this morning. There is so much excitement and so many conflicting runors it is impossible to get full particulars, but the following appear to be the facts: The excursion train hadorders to meet the freight train here, but being ten minutes shead of time the conductor went on, intending to meet the freight at Orwell. The first of the series of three races ar ranged between the Scotch cutter Madge and a sloop selected by the Seawanhaka vacht club took place on Tuesday over the Seawanhaka course. The club vessel was the Schemer, and the race from Fort Wads-worth, Staten island, around Sapit buoy No. Mo, to and around Saudy Hook lightship and return. The result of the contest was articularly gratifying to the yachtsreen who have advocated the building of cutters on this side of the Atlantic, as the Schemer was badly beaten without any "ifs," the Madge show jug to greater advantage on almost every point of sailing. There were indications in the day, but outsuid the Hook there was wind enough and sea enough to suit the bost. HER RECORD. Torane stock Market. Teranto stock Market. Torane stock Market. In a Life Insurance Company, conducted on the mutual principle (such as the Mutual Department of the ÆTNA LIFE), all the money paid in will, substantially, come back to the insured, with compound interest-except that portion disbursed for working expenses. Some expenses are necessary, even in charitable operations. Other things being equal, those companies are usually found among the best- and live the longest, and return most value for the money they receive—which are most economically conducted. Only three old companies (and they well grown previous to 1850) have shown better record in this respect than the ÆTNA LIFE. The following table, care-fully compiled from the official reports, embraces all the other leading U. S. companies, also those of Canada, and lastly three British companies doing business in Canada :--Average Annual In-come during past ten years. Average Expenses. For instance, by confining its working expenses to \$\$9.05 instead of \$15.07, the rate of the Amsacchusetts Mutual (9th in the list, it has aveid the difference of \$5.07 per \$100, which upon the ten years' receipts of the *ATNA* comes to \$3.15.470? When it is considered that the real cost of being insured is nor the premium paid, but the portion of that premium used up in expenses, it will be under-stood how large an interest the insuring public have in a table like the above. Such a table exerts a powerful influence in favor of economy.
