LOCAL HAPPENINGS

THE GUIDE-ADVOCATE welcomes all items of interest for this column. Call Phone 11, send by mail or drop them in GUIDE-ADVOCATE Letter Box.

NEXT Sunday is Whit Sunday. JOHN GRAHAM COMPANY at the Lyceum on Saturday.

REAL BARGAINS in used Cars at RAY MORNINGSTAR'S.

NEXT Monday is Victoria Day and a statutory holiday.

THERE will be another total eclipse of the moon on October 18th.

A NEW MOTOR COAT for the 24th May, Ladies' and Gents'.—SWIFT'S.

Dr. F. D. MATHEWS V.S., Toronto, was here for several days this week.

MR. AND MRS. ROBT. TAYLOR spent over Sunday with friends in Sarnia.

THE new tax on clothing will likely give a boost to the old clothes habit.

PLACE your order for June clothing at SWIFT'S Tailoring.

MRS. J. JOHNSON, Toronto, spent last week at the home of Mrs. Tye, Huron St.

MRS. MARY G. WILLIAMS, Detroit, is visiting her sister-in-law, Mrs. J. Baker.

THE partial eclipse of the sun on Tuesday was not visible here. The day was cloudy.

PROSPECTS are reported good for an immense apple crop throughout Ontario this year.

NURSE CLARA TYE has returned to Toronto after spending a few days at her home here.

HELP WANTED at SWIFT'S Tailoring. Coat makers, pant makers, vest makers, skirt makers.

THANKS to the forethought of nature, there is no substitute for rhubarb in a rhubarb pie.

THE ratepayers of the town are deeply interested in higher education at the present time.

BELLEVILLE has given the use of 40 acres of land for home gardens, and will plow the plots for citizens free.

GOODYEAR STANDARD TIRES and full supply of Tire Savers. Come in and see our stock.—WILLIAMS BROS.' GARAGE.

THE Salvation Army is willing to help everybody. This week everybody has an opportunity to help the Salvation Army.

IF CITY COUSINS intend to visit on the farm this summer they should bring with them the overalls they are now so proud of and help with the chores.

IT is supposed to bring bad luck to have a black cat cross one's path early in the day. The Chief wants to know whether this hoodoo is attached to "black kittens."

STILL a splendid new stock of Wall Papers to choose from at all the most reasonable price. Come in today and see this season's most beautiful designs.—P. DODDS & SON.

ALL members of Peabody Lodge 99, especially the degree team, are urgently requested to meet at the Hall Friday evening, May 21st, at 8 p.m. sharp. Special business.

THE annual meeting of the Huron Diocese W. A. takes place this year on May 26th and 27th, in London, the sessions to last but two days instead of three as formerly.

YES, times have changed. A few years ago we used to get two bags of potatoes for the Guide-Advocate for one year. Now we have to give the paper three or four years for one bag.

HOLEPROOF HOSIERY for the 24th May at SWIFT'S.

THE marriage took place at Cleveland, Ohio, on Thursday, May 6th, of Miss Effie A. Johnston, daughter of Mr. John Johnston, formerly of Watford, to Mr. Thomas H. Wilkins, of Cleveland.

SATURDAY, May 22nd, special program, celebrated English actor, John Graham, in person, in "IT PAYS TO ADVERTISE." An avalanche of laughs in each performance. Millions have laughed at it; millions more will laugh. Lyceum Theatre, Watford. Performance begins at 8.15 p.m. Reserved seats 50c, rush 35c. Plan of Lyceum and tickets at Taylor's. Don't miss seeing this show. There is nothing on the road equal to it.

DOMINION TIRES have proven their superiority. We have a complete stock all the time.—R. MORNINGSTAR.

PEDESTRIANS have the first right to the sidewalk, but the small boy with his wagon seems to think differently. The lady who walks for an amusement path, and using the foot as motive power propel their vehicles more or less swiftly along the walks, regardless of the number of people using them. The practise is not so objectionable on the side streets but the boys should be made to pull the wagon by the tongue when on the main street.

MEN'S, Women's and Boys' Heavy Shoes in all sizes, made of best quality leather for long wear and comfort. You'll appreciate the price. See them today.—P. DODDS & SON.

THE Stratford District meeting of the Methodist church is being held in Arkona on Thursday and Friday of this week. Rev. A. C. Tiffin, J. H. Hume and W. H. Harper are in attendance. The annual meeting of the London Conference assembles in Stratford on Thursday, June 3rd.

GET your 24th May needs at SWIFT'S. Mr. JAMES GLASS returned to Watford this week after spending the winter in Thordale and London.

ROYAL OAK TIRES, guaranteed for 6,000 miles. The best tire on the market.—WILLIAMS BROS.' GARAGE.

THE evening service at the Cong'l church on Sunday will be conducted by the Young People. A cordial welcome to all to this interesting service. The pastor will preach at 11 a.m., his topic being: "The Triumphant Christ."

THE public school pupils are training under Prof. Howard Gordon for a grand concert to be given in the Lyceum on Friday, May 28th. This promises to be a most enjoyable entertainment of a character that will please both old and young. Keep the date in mind.

BUY your needs and pay cash. Read the new Government tax.—SWIFT, SONS & CO.

THE CHILDREN'S AID SOCIETY have for adoption a baby girl about six weeks old, a baby boy about same age, father and mother both died, fine child. Also two boys, nice looking children, 4 and 5 years old. Apply to John Wilkinson, City Hall, Sarnia.

NEXT Sunday is Empire Day and the occasion will be observed by special service in the Methodist church next Sunday evening, when the pastor will preach an appropriate sermon and the music will be in keeping with the day. You are welcome.

BURTON EDWARDS, on the charge of theft from His Majesty's mail, was sentenced to three years in the Kingston penitentiary Monday by Judge Taylor in the county court at Sarnia. On two charges of forgery he was sentenced to one year on each charge and the sentences to run concurrently.

MR. JOHN SMITH and Mr. Taylor of Port Huron and Mr. Menzies, publisher of a paper in Yale, Mich., made a fraternal call at this office on Saturday. Mr. Smith was formerly on the staff of the Guide-Advocate and the other gentlemen some years ago were connected with Lambton newspapers. All are now prospecting in Uncle Sam's domains.

MATERS connected with the High School are still in an unsettled state at time of writing. The minutes published elsewhere show the proceedings being taken regarding the Principal. The affair is expected to be satisfactorily settled shortly. As is usual in such matters all kinds of rumors are afloat but the minutes show what has transpired officially.

ON FRIDAY evening last the members of Lambton's 149 chapter, I.O.D.E., went in a body to the home of their Secretary, Miss R. M. Brown, where they spent several very pleasant hours. During the evening the chapter presented Miss Brown with a handsome china tea set accompanied by many expressions of regret at losing her as a member of the chapter and wishes for her future happiness. Her approaching marriage and removal from town was the reason for these expressions of good will.

WARWICK.

Mrs. Wm. Smith who has been quite ill for some time is improving slowly.

Mr. John Campbell, London Junction, visited his son R. D. Campbell last week-end.

Mrs. Charles Stewart, Sr., is visiting her daughter, Mrs. George A. Smith, 12 Alderwood.

LET us take care of your battery troubles. We guarantee satisfaction.—R. MORNINGSTAR.

Miss Ada Munnely spent the week end at the home of her cousin, Miss Mabel Munnely, 2nd line north.

Mrs. John S. Munnely visited her mother and sister, Mrs. Ada and Miss Amy Harper of Chatham over the week end.

I AM now able to deliver a good number of Ford cars but the supply is still short. Better get your order in at once as the New Ford is in great demand this year. First come, first served.—R. MORNINGSTAR.

The monthly evening service will be held at Zion Congregational Church on Sunday at 7.30 p.m. when the pastor, the Rev. T. DeCourcy Rayner will preach on "An Introduction to Oneself." Everybody welcome.

BORN

In Watford, on Wednesday, May 19th, 1920, to Dr. and Mrs. H. B. Taylor (nee Ruth Marwick) a son.

In Watford, on Sunday, April 11th, 1920, to Mr. and Mrs. Thomas A. Gault, 508—Albert Carman.

In Watford, on Thursday, May 13th, 1920, to Mr. and Mrs. Alex. Elliot, a son.

In Kerwood, on Wednesday, May 12th, 1920, to Mr. and Mrs. Wm. Brush, a daughter—Margaret Helen Blanche.

In Petrolia, on Sunday, May 9th, to Mr. and Mrs. L. Hottel, a son.

In Enniskillen, on Saturday, May 8th, 1920, to Mr. and Mrs. Harvey Melton, a son.

In Plympton, on Saturday, May 8th, 1920, to Mr. and Mrs. Gus Hubbard, a son.

In Oil Springs, on Sunday, May 9th, 1920, to Mr. and Mrs. Stanley Tripp, a daughter—Lois Olive.

MARRIED

In Cleveland, O., on May 6th, 1920, by Dr. Wilbur Miskey, Effie A. Johnston, formerly of Watford, to Thomas H. Wilkins, of Cleveland.

DIED

In Forest on Friday, May 7th, 1920, Charles G. Munro, of Parkhill, in his 90th year.

In Watford, on Saturday, May 8th, 1920, Margaret Dowd, widow of the late William Brederton, aged 81 years and 7 months.

Masonic Lodge of Instruction

Rt. Wor. Bro. J. D. Morrison, D. D. G. M., of St. Clair Masonic District No. 2, will hold a lodge of Instruction in Inwood on Wednesday, June 2nd. The lodge will be opened at 2 p.m. and the 1st degree exemplified by the officers of Cassia Lodge, No. 116, Theford. The work of the 2nd degree will be exemplified by the officer of Inwood Lodge, No. 503, followed by discussion. The lodge will then call off for lunch. The lodge will resume labor at 7.30 when the work of the 3rd degree will be exemplified by the officers of Petrolia Lodge No. 194, followed by a discussion. To conclude the day's proceedings there will be a short program; also some speeches by some of the prominent members.

FOREST SPRING HORSE SHOW

The annual spring horse show under the auspices of the Forest Agricultural Society, held on Friday last, was favored with one of the finest days of the season. Owing to the scarcity of horses in the country the number exhibited was not large, only seventeen entries being made. Brandon Bros., of Warwick, had nine Clydesdale stallions on the grounds, and these constituted the big end of the show. There was a good attendance of visitors, and \$87.50 was taken at the gate. W. S. Mossip, of St. Marys, satisfactorily performed the duties of judge. After paying the prizes and other expenses there will be a balance of about \$20 to the credit of the Society.

THE PRIZE LIST

Clydesdale Stallions, aged—1st, 2nd and 3rd—Brandon Bros.
Clyde Stallions, 3 years—1st and 2nd—Brandon Bros.
Clyde Stallions, 2 years—1st and 2nd—Brandon Bros.
Percheron Stallions—D. Shannon, W. L. Fraser.
Span, H. D.—Wesley Mathews.
Rev. A. C. Tiffin—John Hall, Eph. Pierce, S. Kerwood.

W. H. S. MEMORIAL DAY

Memorial service was observed at the High School on Friday, May 14th, at 3 p.m. The meeting was opened with the hymn, "O God Our Help in Ages Past," with Rev. C. Tiffin then led in prayer. The affair is expected to be satisfactorily settled shortly. As is usual in such matters all kinds of rumors are afloat but the minutes show what has transpired officially.

ON FRIDAY evening last the members of Lambton's 149 chapter, I.O.D.E., went in a body to the home of their Secretary, Miss R. M. Brown, where they spent several very pleasant hours. During the evening the chapter presented Miss Brown with a handsome china tea set accompanied by many expressions of regret at losing her as a member of the chapter and wishes for her future happiness. Her approaching marriage and removal from town was the reason for these expressions of good will.

BROOKE

Mr. Joseph Campbell is on an extended visit with relatives and friends in London and Michigan.

LET us take care of your battery troubles. We guarantee satisfaction.—R. MORNINGSTAR.

Mr. Clifford Lucas attended the annual meeting of the Synod of Huron held in Brantford last week. On Thursday he visited his brother, Mr. A. B. Lucas, of Beaverville.

"Broken Hearts", will be the subject on Brooke circuit, Sunday, May 23rd, services: Salem 11 a.m., Walnut 3 p.m., Bethesda 7.30 evening. Sunday School: Salem 10 a.m., Walnut 2 p.m., Bethesda 3 p.m.

I am now able to deliver a good number of Ford cars but the supply is still short. Better get your order in at once as the New Ford is in great demand this year. First come, first served.—R. MORNINGSTAR.

On the evening of May 14, friends and neighbors to the number of seventy-five, assembled at the home of Mr. and Mrs. Jas. Strevell, (nee Blanche Holbrook), Edy's Mills, Ont., and showered them with a host of kitchen utensils. A pleasant evening was spent in games and music and lunch was served by the ladies before the gathering dispersed.

A very pleasant time was spent at the home of Mrs. Joseph Hoskins on the afternoon of Wednesday, May 5th, when a number of her old time neighbors and friends met to spend a social hour and say goodbye to her before leaving for her new home. During the afternoon she was presented with a half dozen silver knives and forks and sugar spoon, accompanied by an address in behalf of her old neighbors and friends as a slight token of their love and esteem for her. Mrs. Hoskins made a suitable reply. A dainty lunch was then served after which goodbyes were said and all repaired to their homes feeling it to be an afternoon well spent.

GREAT ENGLISH ACTOR COMING TO WATFORD

It is with a thrill of anticipation that the people of Watford will read the announcement that the celebrated English character actor John Graham is coming in person to the Lyceum Theatre on May 22nd. He plays the role of the millionaire who has in Megrue and Hackett's sensational comedy success, "IT PAYS TO ADVERTISE" which took Broadway by storm. Mr. Graham has in his present role ample scope to display his wonderful acting ability, and he misses no opportunity of putting in the finer details that only a truly great actor thinks of.

Mr. Graham playing his present role has been greeted with capacity houses wherever he has gone, and also has had a great many bookings. He is supported by a cast of phenomenal ability none of which could be excelled in his or her role. From the advertising agent and the soap-king's son, to the French Countess and the butler all the actors contribute to the humor and funny situations. They all have famous reputations for their acting ability which they have well earned.

The story of the play centres around the soap-king's son, Rodney Martin. The old man gets tired of seeing his son doing nothing around the house and sends him away without a cent to earn his own living. Rodney however hoping to "put one over" on the old man starts into the soap business as a rival to his dad. With his father's secretary, Mary Grayson, and an old college friend of his, Ambrose Peale, they start advertising their soap "13 Soap, Unlucky for Dirt." They spend thousands of dollars advertising and everything goes along smoothly until the creditors become pressing for money for the advertising they have done for the "13 Soap Co.", as they call themselves. A French countess appears on the scene and mixes things up properly for a time, finally proving to be a fake. When they are almost down and out and no one will give them credit, orders for their soap begin piling in. They however soon realize that these orders are worthless as they have never made any soap themselves and the soap trust will not sell to them. It is left to the secretary to finally devise the scheme that puts them on their feet and the road to success.

The old man is finally convinced through the united efforts of the 13 Soap Co., and seeing the worth of the trademark they have built up through their advertising finally buys out their business. Mary also manages to pull Rodney's heart strings and ties them in a knot.

This comedy is a riot of laughter from the rise of the curtain to its fall. It is one of the funniest comedies ever written—you'll say so when you see it on May 22nd.

The Lyceum Theatre hopes that the people of Watford will show their appreciation for bringing one of the higher class of comedies here, by their patronage.

KERWOOD

Mr. Silas Sinclair, Chicago, visited his sister, Mrs. Blain.

Mr. and Mrs. F. Parkhill, visited his son here recently.

Mr. and Mrs. T. F. Mills spent a couple of days in St. Marys.

Mr. and Mrs. Wm. Johnson called on friends in Glencoe Sunday.

Mr. and Mrs. J. H. Richardson visited friends in London recently.

Mrs. Orville Dowling and little son have returned to Port Huron.

Mr. Wilkinson, of Warwick, visited his brother, Mr. Joseph Wilkinson.

Mrs. Wilkins and little son, Sarnia, spent a few days with her aunt, Mrs. Doan.

Mrs. Moffatt and Mr. and Miss Moffatt, of Watford, visited the former's brother, Mr. A. Woods.

Mr. and Mrs. John Armstrong and Mr. and Mrs. Wm. Adams, Port Huron, called on friends here Sunday.

Mr. and Mrs. Richardson and Mr. and Mrs. John Johnson visited the former's daughter, Mrs. Bourne, Alvinston.

There will be no service in the Methodist church next Sunday evening, as the pastor and several members of the choir will assist in the memorial service at Napier.

We were all sorry to hear of the accident Mr. Will Miller had in Stratford mill, where most of his fingers on his right hand were so badly crushed it was necessary to amputate them.

The Women's Missionary Auxiliary of the Methodist church met at the home of Mrs. Manicom with a large attendance.

Several very interesting papers on missions were given by members, also a paper on "The Previous Engagement."

Mrs. Athelstone Edgar exhibited a number of curios brought recently from China and Miss Gwendine Manicom favored with a very sweet solo.

The next meeting will be held at Mrs. Jas. Richardson's.

Friday evening about eighty-five friends and neighbors gathered at the home of Mr. Seymour Langford to tender farewell to Mr. John Joyce and his sister who have spent their lifetime in the neighborhood. Mr. Geo. Johnson was the chairman for the evening. A nicely worded address was read and Mr. and Miss Joyce presented with a handsome couch, a rocker and a clock.

The remainder of the evening was very pleasant spent in songs, instrumentals and readings, a social time generally and a dainty lunch served by the ladies. At the close all went home wishing Mr. and Miss Joyce much happiness and prosperity in their new home in Stratford.

BOARD OF EDUCATION

Minutes of a special meeting of the Watford Board of Education, called for business as specified, held in the Library Board room on Friday, May 14, 1920, at 7.30 p.m.

Present:—Wm. Harper, chairman; Dr. Howden; J. W. McLaren, W. E. Fitzgerald, Dr. McGillicuddy, J. D. Brown, John McKecher, E. D. Swift and Dr. Siddall.

A communication from Principal Steer was read.

Howden—Siddall, and carried, that we rescind the motion made May 5th, 1920, re Mr. Steer and take the matter up again.

McGillicuddy—Brown, that Mr. Steer be dismissed and that the Treasurer be instructed to issue check in favor of A. B. Steer for May and June salary and that he hand in the keys of the school immediately. The Yeas and Nays being called for the motion was carried as follows: Yeas—Harper, Howden, McLaren, McGillicuddy, Brown, McKecher, Swift and Siddall. Nays—W. E. Fitzgerald.

McLaren—Swift, that the Secretary be instructed to write the Education Department regarding a science teacher for the balance of the term. Motion carried as follows: Yeas—Harper, Howden, McGillicuddy, McLaren, Brown, McKecher, Swift and Siddall. Nays—W. E. Fitzgerald.

McLaren—Brown, and carried, that we adjourn.

D. WATT, Secretary.

Minutes of a special meeting of the Watford Board of Education held in the Library Board room on Tuesday evening, May 18th, 1920. Present—Wm. Harper, chairman; Dr. Howden, W. E. Fitzgerald, John McKecher, E. D. Swift, Dr. Siddall, J. W. McLaren, J. D. Brown and Dr. McGillicuddy.

A communication was read from A. B. Steer.

McLaren—Swift, and carried, that the communication from Mr. Steer be received and filed for further reference.

It was moved, seconded and carried, that Mr. Steer be notified that if he trespass on the High School property again a warrant will be issued for his arrest and he will be dealt with accordingly.

McGillicuddy—Brown, and carried, that we adjourn.

D. WATT, Sec.

CHOP STUFF

The Stratford spring horse show brought out only four horses.

Potatoes sold on the Hamilton market on Saturday at 80 cents per dozen.

The old American Hotel, Stratford, will be turned into an apartment house.

Petrolia lost 91 in population during the last year and its assessment is \$35,000 less.

LET us take care of your battery troubles. We guarantee satisfaction.—R. MORNINGSTAR.

Kingsville's assessment increased 25 per cent. this year and now has a per capita assessment of \$654.

A cow was sold for \$7,800 the other day at New Jersey. Yet some people complain about the price of shoes.

Burglars entered Mihell & Gill's dry good store Stratford, Saturday night and took about \$2000 worth of silks.

William Miller, returned soldier, Stratford, had the fingers of his right hand cut off by the veneer press in the furniture factory.

The Synod of Huron, which met in Brantford last week, fixed the minimum stipend for ministers at \$1,300 and a free rectory.

GOING TRAVELLING SOON? See our big range of Trunks, Suit Cases and Bags. Bought early and at low prices.—P. DODDS & SON.

The 124-acre farm of the late Angus McLeish, of West Williams, was sold by auction last week to John Waun, a neighbor, for \$12,000.

Mr. W. A. Romph, of Theford, trapped ninety muskrats in the Drowned Lands this season. He received \$4 and \$5 per skin.

Forest Bowling Club reorganized last week with R. F. Douglas president and W. J. F. Ross secretary. The ladies' bowling club will use the green in the afternoons.

A couple of men in a gasoline launch got stranded on the rocks at Kettle Point last week. Mr. George Harrower went to their help and towed their boat in. After making repairs they resumed their journey north.

The tooth of a pre-historic elephant, weighing six pounds, was found in Saskatchewan recently. Considering the present price of hay the ranchers in the vicinity are glad that the owner of the mammoth molar has long since ceased to grind.

Will Cooper, townline, Plympton, received a severe shaking up last week, when a cow he was leading became suddenly mad and charged at him, knocking him down and bruising him quite severely. No bones were broken and Will is able to be at work again.

The Secretary of the Adelaide Oil Company, writing to Mr. Carlton Yerkes, of Petrolia, says of the well recently struck there: "Our third well is now down. I got a pump in it and for six hours pumping it pumped at the rate of eleven or twelve barrels per day. We were unfortunate, however. After getting our first tank about half full some person lighted their pipe and exploded the tank and burnt up all the oil, also the tank and half a wagon."

ONE WOMAN'S EXPERIENCE

"Of Interest to Childless Women."

Toronto, Ontario:—"I suffered for a long time from female weakness, inflammation, and a terrible backache caused by that condition. One day one of your booklets was left at my door, and I read how other women with troubles like mine had been made well, so I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash, and it helped me wonderfully, and I now have the finest little baby boy that any mother could want. I want to recommend Lydia E. Pinkham's Vegetable Compound to any woman who has female troubles."—Mrs. JOSEPH LA BELLA, 423 Shaw Street, Toronto, Ontario, Canada.

"The experience of Motherhood is a joy to most women and marks a happy epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism."

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong, and this good old-fashioned and herb remedy contains no alcohol or harmful drugs.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Medicine.

Hall's Catarrh Medicine has been taken by catarrh sufferers for the past thirty-five years and has become known as the most reliable remedy for Catarrh. Hall's Catarrh Medicine acts through the Blood of the Mucous surfaces, expelling the Poison from the Blood and healing the diseased portions.

After you have taken Hall's Catarrh Medicine for a short time you will see a great improvement in your general health. Start taking Hall's Catarrh Medicine at once and get rid of catarrh. Send for testimonials, free.

P. J. CHENEY & CO., Toledo, Ohio. Sold by all Druggists, 75c.

For Asthma and Catarrh.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from asthma and catarrh will find that the Oil when used according to directions will give immediate relief. Many sufferers from these ailments have found relief in the Oil and have sent testimonials.

"—that certainly is Good Bread! Whose make is it?"

"Why, LOVELL'S of course!"

Try it You'll like it, too!

ARABS ARE DEFIANT.

More Troubles Develop in the Near East.

It is quite certain that all is not as well as it might be in Syria. True, Mr. Lloyd George announced in the British House of Commons, a short time ago, that the tension in that country had "sensibly relaxed." Nevertheless, there can be no doubt that the recent clash between the French and the Arabs at Baalbek, on the kind of no man's land which now exists between the French "sphere of influence" and the Arab kingdom" was a very symptomatic engagement. The fact of the matter is that the Arabs, headed by the able Emir Feisal, are quite unable to see the relevancy of "traditional policies," where the future of Syria is concerned, or the cogency of the time-honored doctrine of "compensations," as enunciated by European diplomacy. They are, as a consequence, entirely opposed to the idea of allowing such considerations to influence the delimitation of their new state. The Sykes-Picot agreement, secured by France from Great Britain at a time of considerable stress, namely, in 1916, may declare that the Syrian coast, from Tyre to Alexandretta, Cilicia, and most of Southern Armenia, from Sivas to Diarbekir, is to become "French." The Arabs, however, do not see the necessity. The Emir Feisal, their spokesman, indeed, made it quite clear, in the course of a conversation with a representative of the press, some time ago, that, with all due respect to the agreements which had been made over the heads of the Arabs, he did not intend to recognize them, or to appeal to them, even where favorable to the Arab cause. "I do not take my stand," he said on that occasion, "on what is called the Sykes-Picot agreement, nor any other secret agreement that may exist. I take my stand on that fundamental right of nations to freedom for which the whole war was fought, and which has been acknowledged by President Wilson and all the leading allied statesmen."

It is this, of course, that is causing all the tension. The Syrian question, like the whole of the Near Eastern question, is still an open question, and France's "special" position in Syria has not yet been finally upheld. France, however, is certainly acting as if there were no doubt whatever about it. Gen. Gouraud, the French High Commissioner in Syria and commander-in-chief of the army in the Levant, is applying himself to his task with zeal. There is nothing temporary about his policies. His reforms and enterprises go to the root of things. To-day, he contemplates the introduction of French currency; to-morrow he undertakes the completion of the German harbor works at Alexandretta. He receives deputations from all manner of "leading people"; makes patriotic speeches; listens to patriotic speeches, and alludes, as a matter of course, to the "French protectorate over Syria." It is quite in vain that the Arab press at Beirut, for instance, points out that article XXII of the covenant of the League of Nations provides that the Syrian people shall be independent, with no reservations save that they shall choose a mandatory power to assist them for a period of co-operation and support. Gen. Gouraud is quite evidently satisfied that he has come to stay, and is determined to see if he cannot achieve for himself, in Syria, a name similar to that which Gen. Lyautey achieved in Morocco.

Morocco, however, is not Syria. "The Arabs will fight the French," said the Emir Feisal in the interview already referred to, "if the French, in any way, interfere with our claims to independence." Those who know the part which the Arab armies played in the war in the Middle East recognize that this is no idle threat. Mr. Lloyd George may be right, "tension" may have "sensibly relaxed," but tension will never be entirely dissipated until it is made perfectly clear to the Arab peoples, and other peoples concerned, that they are not to be sacrificed to the so-called exigencies of diplomacy.

Carlyle's Grit.

In 1835 there occurred an incident which would have deranged an ordinary man. Thomas Carlyle was living at No. 5 Cheyne row, Chelsea, near London, says an exchange. He had not earned a penny, says he to himself, "by the craft of literature for twenty-three months." But with the push of a tiger he was ploughing his way through his "History of the French Revolution." The first volume was finished. It had taken him five months to write. He loaned the manuscript to John Stuart Mill. On a certain morning Mill called upon Carlyle, his face as white as ashes. After two hours of awkward stammering Mill managed to tell it—he had left the priceless manuscript on a desk and the housemaid had taken it to light the morning fire in the grate! Carlyle was like a stricken man. One day, as he sat humbly at his window, he saw cheery bricklayers building a house, brick by brick. He burst into tears and, sobbing like a child, he cried: "I, too, can bring back thought by thought!" He did. He recalled all of the manuscript and rewrote it. What torture!

THE DAILY MISERY OF ILL-HEALTH

Three Years of Suffering Quickly Relieved by "FRUIT-A-TIVES"

MR. GASPARD DUBORD

159 Avenue Pius IX, Montreal.

"For three years, I was a terrible sufferer from Dyspepsia and my general health was very bad. I consulted a physician and took his medicine and faithfully carried out his instructions; but I did not improve and finally the doctor told me I could not be cured."

At this time, a friend advised me to try "Fruit-a-tives" and I did so. After taking two boxes of "Fruit-a-tives", I was greatly relieved; and gradually this marvelous fruit medicine made me completely well. My digestion and general health are splendid—all of which I owe to "Fruit-a-tives".

GASPARD DUBORD.

50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

Women and Asthma.—Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

MOTORIZING THE FARM

THE horse has been declared by Thomas Edison to be the most inefficient machine in the world. In return for the amount of food and care needed, the horse returns less in work than any other machine.

The average team of farm horses costs \$400, a good set of double harness \$100, a wagon without box \$115, making a total of \$615.

A Ford Truck costs \$750 at Ford, Ont. A Fordson Tractor costs \$850 at Dearborn Mich.

The initial cost of motorizing a farm is slightly greater than the cost of a horse outfit, but the lower cost of operation and upkeep of the tractor and truck and the greater amount of work done easily put the horse out of the running.

Government experiments have proved that the cost of feeding a horse is 8.7 cents per working hour.

A team of horses cannot plow more than two acres in a ten-hour day. At 8.7 cents per hour or 17.4 cents per hour for a team, the cost would be \$1.74, or 37 cents an acre. A Fordson Tractor plows on an average of seven acres a day. The cost per acre averages not more than 75 cents per acre for gas and oil. The Fordson does three and a half times as much plowing in a day at a smaller cost per acre.

Suppose you are hauling produce to market or bringing out supplies. If the town is twenty miles away it will take you a whole day to make the return trip

with horses. If you have a heavy load and the weather is hot it will take you two days. If it took you twelve hours, the cost at 17.4 cents an hour for your team would be \$2.09. The average cost of running a Ford Truck, for gas and oil, is 4 1/2 cents a mile or \$1.80 for the forty miles. But with the Ford Truck you can make the return trip in four hours. The truck enables you to make three times as many trips and at a lower cost per trip.

But this is not all. If you motorize your farm you can get up an hour later in the morning. You have no horses to feed, groom or harness. You start work after breakfast.

When dinner is ready you stop at the end of the field, drive your tractor direct to the house, eat your dinner, and rest till it is time to go to work again.

In the afternoon your motor works just as well though the sun is hot and the flies are bad.

And at night when work is over you are through for the day,—no horses to rub down, feed or water.

You are always free to leave your farm for picnic or vacation—no worry about horses left behind to be cared for.

Every way you look at it the motor has the advantage over the horse. It means shorter hours on the farm, more work done in less time and at less cost.

WATFORD

GRAFTING PAYS.

Top-Working to Improve Ancient Apple Trees.

Old and worthless apple trees can be changed for the better by grafting. Varieties that have been planted and found not suited to local and climatic conditions or to the demands of the market may be worked over with varieties of desired merit. Top-working may be employed also to reform the top of trees that have been found not true to name. Its most important use for beginners and in farm orchards is the changing of poor varieties for ones of value.

Even in backyards, where there is only one apple tree, the practice of grafting will result in pleasure and novelty. The writer has seen a tree bearing as many as twenty or more varieties of apples. This effect is produced by grafting each branch, or as many as desired, with a different sort.

Apple trees are usually top-worked by means of what is known as the cleft graft. As a rule, it is better to top-work each year only a portion of the top, in the case of old trees, so as not to be too severe at one time. Cut the branches of an inch or an inch and a half in diameter off squarely, making a good clean-cut with no ragged edges. Split these in the centre and insert the scions, usually two, one on either side, so that the cambium, or green layer just beneath the bark, comes in contact with the cambium of the stock, or cut-off branch. A scion is a twig, or cutting, from a tree of the variety desired. The scion must be bevelled so that it will fit into the cleft made by splitting the cut-off branch.

Coat the wounds with grafting wax or wax bandages so as to exclude the air, the spores of diseases, and to insure rapid healing. To make a good grafting wax, use resin, four parts; bees-wax, two parts; tallow, one part. Melt these ingredients in an iron vessel over a slow fire, mixing thoroughly and taking care not to burn. When well incorporated, in a half-hour or so, pour into cold water, and when sufficiently cooled, in a minute or less, take out and pull like taffy until it becomes light colored, when it may be made into rolls three or four inches long and an inch in diameter, for convenience in use. A little tallow, as little as possible, will be needed on the hands to prevent sticking. As the sticks are made, they should be put in another vessel containing cold water to harden, after which they should be put away in a cool place until they are wanted for use.

Cleft grafting is not difficult in the hands of a person of ordinary care and intelligence. Try your luck at it. The best time to do it is in early spring before the buds burst.—A. B. C. in the Veteran.

Where Pests Hibernates.

Every weed and bunch of grass near the fields serves as winter home for some farm or garden insect pest.

After a crop has been harvested there usually remains not only some part of the crop; but also weeds and grasses that have grown up in the field and around the edges, or along the fence rows. In this crop remnant, and on the weeds, grasses, and trash, the insects peculiar to the crop make their fall and winter home. After the harvest this is where the pests feed and multiply until frost.

They then hibernate, insuring injury to similar crops on the same land the next year. With the first warm days of spring they are again busy destroying the growing spring crop.

The old adage, "An ounce of prevention is worth a pound of cure," is never more true than in the control of the farm and garden insect pests, says George A. Dean, entomologist at the Kansas State Agricultural College. For the control of these insects one is compelled to rely largely on general methods of good farm management, which may be carried out in connection with the farm operations, and which will not interfere with the development of the insects to be controlled.

"The cleaning up of the old remnant crops, and of weeds and grasses that furnish food and shelter for insects, may often be accomplished by burning," says Mr. Dean. "The farms upon which the fence rows and roadsides are kept free from weeds and grasses, and the fields are cleaned up and ploughed as soon as possible after a crop is removed, usually suffer much less from insect pests than those of the careless and more easy going ones."

"Disking, ploughing and harrowing are the most effective means of ridding the soil of many insects infesting farm and garden crops. Thus many cutworms, army worms, corn earworms, grasshoppers, corn root worms, corn root aphids, white grubs, wire worms, and many other insects that live through the winter either in the egg, adult, or partially grown condition, may be destroyed. They will at least be thrown out and exposed to the attack of birds, predaceous and parasitic enemies, and subjected to undue freezing and thawing, and excessive moisture."

THE voters' lists used in the Provincial election in October, with possible revisions to bring them up to date, will be used in taking the coming referendum on the liquor question. This is in accordance with the Dominion Franchise Act which provides for the use of provincial voters lists with revisions where necessary in Dominion elections.

A MOTHER'S ADVICE

Once a mother has used Baby's Own Tablets for her little ones she is always happy to recommend them to others. Her advice, given after a careful trial, can be readily followed with assured good results. The Tablets are a mild but thorough laxative which never fail to regulate the bowels and sweeten the stomach. They always do good—they cannot possibly do harm even to the youngest babe. Concerning them Mrs. P. Laforest, St. Nazaire, Que., writes:—
"For three months my baby was constipated and cried continually. On the advice of a friend I gave him Baby's Own Tablets and now at the age five months he is perfectly well and weighs twenty pounds. I am delighted to be able to advise other mothers to use them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

HIGH SCHOOL NOTES

The greatest athletic meet ever held in Western Ontario takes place in Queen's Park, London, May 24th, 1920, under the auspices of the Western University Athletic Association. Almost forty High Schools and Collegiate Institutes in Western Ontario will compete for trophies presented by the city of London and the Chamber of Commerce, London.

The Watford High School boys are to be congratulated on the number of entries they have made. Among those competing in the Upper School events are:—G. Cox, N. Cox, A. C. Jackson, G. Jones, G. Richardson and Kenton Mitchell. The Lower School athletes, E. McKerrcher, S. Trenouth, G. Fortner, L. Jones, C. Leberland and F. McGillicuddy have also entered their names, and intend bringing back the Lower School trophy.

The W. H. S. boys have shown a fine spirit in entering such a contest and deserve the encouragement of the town.

There will be a monster banquet in the University Gymnasium for all taking part.

ANAEMIA ROBS ITS VICTIMS BY STEALTH

Conditions of Thin Blood That Could be Corrected Easily Are Stealing the Health and Energy of Many Men and Women, and Boys and Girls.

Anaemia, which literally means bloodlessness, is one of the most prevalent troubles of the present day. If neglected it is apt to develop into pernicious anaemia, one of the most hopeless diseases. While anaemia attacks men and boys, it is more prevalent among young girls and women and for this reason every woman, particularly every mother, should know how to recognize the signs of this trouble which makes its approach so gradually and so stealthily that it is often far advanced before the nature of the trouble is noticed. One general symptom of anaemia is pallor. The cheeks gradually lose their color, and the lips become pale or white. With this loss of color there comes a tendency to fatigue, a palpitation of the heart, and breathlessness after slight exertion, with occasional headaches. In the more severe cases fainting spells frequently occur.

In ordinary anaemic conditions, including the anaemia that affects young girls in their teens, Dr. Williams' Pink Pills are all the medicine required. Fresh air, sunlight and nourishing food will do the rest. Any woman or girl taking Dr. Williams' Pink Pills can tell by the growing redness of her lips that the pills are making her blood rich and red.

Miss Mabel Feener, Liverpool, N. S., says:—"Before I began the use of Dr. Williams' Pink Pills I felt like a complete wreck of my former self. My blood was thin and watery; I suffered from faint and dizzy spells, and had headaches almost every day. I was taking doctor's medicine, but it was not helping me and at this time I was learning my trade as a tailoress, and was forced through my illness to give up work. After reading an advertisement of Dr. Williams' Pink Pills one day I decided to give the pills a trial. After taking two boxes I felt that I was being benefited, and continued their use until I was fully restored to health. The pills certainly did wonders for me, and I cannot recommend them too highly."

The purpose of Dr. Williams' Pink Pills is to build up the blood. They do this one thing and they do it well. They are for this reason an invaluable remedy in diseases arising from bad or deficient blood, as rheumatism, neuralgia, after-effects of the grip and fevers. The pills are guaranteed to be free from opiates or any harmful drug, and cannot injure the most delicate system. You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

SALVATION ARMY JUBILEE SELF-DENIAL

In 66 different countries throughout the world the Salvation Army is this year celebrating 50 years of service by a Jubilee Self-Denial Appeal. In the territory known as Canada East, which is bounded by Fort Arthur on the West and Newfoundland and the Bermudas on the east, the date set is May 15th to 22nd, during which time it is hoped to raise \$500,000 for Salvation Army work at home and in the mission fields.

One-half of the amount will be devoted to the work at home and the other half will be spent in the activities abroad. The money raised will be as a tribute to the memory of General William Booth, the founder of the organization and will enable the Salvation Army to carry on and extend urgently necessary operations.

In the Canada East Territory the money will be used to maintain and extend the usefulness of the Salvation Army's maternity homes, children's and rescue homes, women's shelters, working men's homes and shelters and institutions of that character; it will be used to further the Salvation Army's police court work, its present jail and penitentiary work. It will help to maintain the free labour bureau where employment is found for thousands of people every year. The hospitals conducted by the Salvation Army will be enabled to fulfill their glorious mission, while the industry work-shops where derelict men find the opportunity to support themselves will be able to continue and expand and meet the demands which are placed upon them.

In the mission field the Salvation Army is a forceful factor. It has always been the practice to devote a portion of the Self-Denial fund to this field of unlimited opportunities. A great unselfish force of men and women are at work in the foreign field that can hardly be estimated. In 42 different languages the mighty activities of the Salvation Army are carried on.

The Salvation Army Jubilee Self-Denial has the endorsement of His Majesty, Rt. Hon. David Lloyd George, Rt. Hon. H. H. Asquith, Rt. Hon. Arthur Henderson, and many others in the old land, while among those in Canada who have been pleased to endorse the Campaign are Hon. Lionel Clark, Lieut. Governor of Ontario, Sir Robert Falconer, Sir George Foster, Sir Edmund Walker, Sir Edmund Osler, Mr. Justice Riddell, Mr. Justice W. A. Logie, D. B. Hanna. There are many others who have spoken highly of Salvation Army work who reflect the opinion of thousands of admirers of the Salvation Army.

ARKONA

Mr. Wm. Evans of Sarnia is spending a few days at his home here.

Messrs. James Riggs and Arthur Munn motored to Flint, Mich., last week.

Mr. and Mrs. Joseph Wilcox, of London, spent Sunday at the home of Mr. C. Cliff.

If you want a crop of Apples—Spray Now—Arsenate of Lead and Paris Green in stock. For sale by Brown Bros.

Miss Olive Oakes left on Monday for Jarvis, where she has accepted a position in the Public School until the end of the term.

Commencing the first Wednesday in June the stores will close every Wednesday at 12 o'clock noon during June, July, August and September.

Sole Agents for Fleet Foot Wear. All shades and styles for Men, Women, and Children. White and Tan Canvas with rubber soles.—Brown Bros.

The Annual District meeting of the Strathroy District will be held in the Methodist Church here next Thursday and Friday. On Thursday evening a public service will be held conducted by Rev. Tiffin of Watford, and Rev. Donnelly of Alvinston. Rev. Reid of Strathroy, will occupy the chair. All are welcome.

Rev. C. W. King, pastor of the Arkona Baptist church, resigned last Sunday

morning to accept a call to the work in Claremont. Claremont's offer, with its proximity to Toronto, where Mr. King's two sons will shortly take up their university training, was a contributing factor in his decision to accept the opportunity which was unanimous and hearty on the part of the church there. Mr. and Mrs. King and her sister, Miss Stark, express regret at leaving Arkona where they have made many friends. Mr. King spent the first fifteen years of his ministry in Kingston, Toronto and Woodstock, serving also on the Church Extension, Foreign Mission, and other boards, then in the West for a few years, returning to Ontario two and a half years ago.

WEST WILLIAMS

Next Sunday, May 23rd, will be "Go-to-Church Sunday" at West Adelaide Presbyterian church. Sunday school at 10 a.m., church service at 11 a.m. It is expected that everyone in the community will endeavor to be present. Special music by the choir.

The death of Helen Gilliatly, widow of the late John Lockie, occurred at her late residence, 6th line of Plympton, on Saturday, May 8th, in her 74th year. She leaves to mourn her loss two sons and two daughters, Mrs. Wm. Brayne, New Liskeard; William, of Sarnia; James and Annie, at home.

Are you willing -

To forget what you have done for some people; and to remember what other people have done for you? To ignore what the world owes you, and to think what you owe to the world? To put your rights in the background, your duties in the middle distance, and your chances to do a little more than your duty in the foreground? To see that your fellowmen are just as real as you are, and try to look behind their faces to their hearts, hungry for joy? To close your book of complaints and look around you for a place where you can sow a few seeds of happiness?

Then you are ready for Self-Denial.

Are you willing -

To stoop down and consider the needs and the desires of little children; to remember the weakness and loneliness of people who are growing old; to stop asking how much your friends LOVE YOU, and ask yourself whether you LOVE THEM enough? To bear in mind the things that other people have to bear on their hearts; to try to understand what those who live in the same house with you really want, without waiting for them to tell you? To trim your lamp so that it will give more light and less smoke, and to carry it in front so that your shadow will fall behind you? To make a grave for your ugly thoughts and a garden for your kindly feelings, with the gate open?

Are you willing to do these things, even for a little while?

Then you are ready for Self-Denial.

Are you willing -

To believe that love is the strongest thing in the world—stronger than hate, stronger than evil, stronger than death—and that the blessed life which began in Bethlehem nineteen hundred and twenty years ago is the image and brightness of the Eternal Love?

Then you are ready for Self-Denial.

(With acknowledgments to Dr. Henry Van Dyke.)

A Terrible Penalty

Frequently follows the neglect of an injury. Germs and dust get into the wound, it begins to fester, blood-poisoning sets in, and sometimes the loss of a limb is the result. Safeguard yourself against such a possibility by applying Zam-Buk at once. This antiseptic balm destroys all germs and prevents festering and blood-poisoning. Then the healing essences promote the growth of new tissue and it is not long before the wound is completely healed. Zam-Buk should be kept handy in every home, office, store and factory for cuts, scratches, burns, scalds and bruises. It is equally good for eczema, rashes, boils and ulcers. All dealers, 50c. box.

BLUING IN CATTLE

Gases From Fermenting Foods Create the Trouble.

The Cause and Symptoms of the Ailment Fully Described—Methods of Relief Suggested, Both Simple and Heroic.

(Contributed by Ontario Department of Agriculture, Toronto.)

THIS condition, known as Tympanitis, Bloating, Hoven or Blown in cattle, consists of distension of the rumen or paunch with gas. The most common cause is a sudden change from dry food to a liberal supply of green food of any kind, principally to the different varieties of clover, and more particularly when the clover is in flower. It frequently occurs from the voracity with which cattle that have been accustomed to dry food consume green fodder. Hence it is more prevalent in the spring than in other seasons. It may result from feeding too freely on green food of any kind, especially on that upon which dew or rain is present, and more particularly when frosted; hence is not uncommon in the fall when cattle are allowed to consume clover, rape, turnip tops, etc., when frosted. Any food that readily ferments, if taken in sufficient quantities to temporarily check digestion, will quickly form gases and cause bloating. It is often a complication in cases of choking, the mechanical impediment in the gullet being the direct cause by preventing escape of gas through that organ. Sudden changes of diet of any kind may cause the trouble, and insufficient secretion of saliva may have the same effect.

While some of the above-named causes usually precede an attack, it is not uncommon to notice a well-marked case for which no well-marked cause can be traced. Such cases are doubtless due to some unsuspected and not well understood temporary derangement of the digestive gland and muscular coat of the rumen. Any condition that causes torpidity of the rumen may cause bloating, even though no change of food of a dangerous nature has taken place. Torpidity of the rumen occurs in debilitating diseases, in fact in most diseases of the ox, and also from the introduction of excessively cold material, as frosted fodder, into the organ.

Symptoms.—The patient exhibits symptoms of pain and uneasiness by lying down and rising frequently, kicking at the belly, etc. Rumination is suspended and food refused. There is general depression, protrusion of the muzzle, projection and congestion of the eyes, increased flow of saliva, and usually moaning during expiration. The belly is arched and there is a more or less well-marked swelling of the abdomen, especially marked on the left side between the point of the hip and the last rib. If this be pressed with the finger it will yield, but at once regain its former condition when pressure is relieved. If tapped with the fingers a resonant, tympanic or drum-like sound will be heard, hence the name "tympanitis." Distension of the rumen causes forward pressure upon the diaphragm (the muscular partition between the abdomen and lung cavity), hence lessens the space of the lung cavity and causes difficulty in respiration in proportion to the degree of bloating. Death may occur quickly from rupture of the rumen, rupture of the diaphragm, suffocation, or absorption of gases.

Treatment must be directed to remove or neutralize the gases, and prevent the formation of more. It will depend upon the severity of the attack and the degree of distension of the rumen, whether it will be wise to attempt the immediate removal of the gases by an operation, or administer drugs to neutralize them. When bloating is not excessive, with little or no danger of death occurring quickly, the administration of any drug that will neutralize the gases may and should be effective.

For this purpose oil of turpentine, commonly called "spirits of turpentine" is probably the best simple remedy. This is given in 2 to 4 oz. doses (a tablespoon holds about 1/2 oz.) according to the size of the patient and state of distension. This should be mixed with a pint of raw linseed oil. When this cannot be procured, melted butter or lard or new milk answers the purpose well. If necessary the dose may be repeated in one to two hours.

Carbonate of ammonia, 4 to 6 drams, or bi-carbonate of soda, (baking soda) 1 to 1 1/2 oz. in a pint of water, also acts well, but not so surely, and promptly as turpentine. It is also good practice to put a hay rope or piece of wood about 2 inches in diameter into the patient's mouth and fasten it there. This facilitates the escape of gas through the gullet.

In cases where bloating is extreme the gases should be removed by mechanical or surgical means. In some cases the passing of a rubber tube down the gullet to the rumen will give immediate relief. When this fails an opening must be made through the skin and coats of the rumen at the most prominent part in

front of the point or the left hip. The hair should be clipped off the seat of operation, and it, with the hands of the operator, and instruments, disinfected with a 5 per cent. solution of Carbolic acid or one of the coal tar antiseptics. The proper instrument for this operation is a trocar and canula, but when this is not on hand an ordinary pocket-knife can be used and the lips of the wound kept apart to allow escape of the gases.

After bloating has disappeared it is good practice to administer a laxative of about 1 lb. epsom salts or 1 1/2 pints raw linseed oil, and feed lightly for a few days.—J. H. Reed, V.S., O. A. College, Guelph.

BUSY WOMEN.

Wives and Daughters of Japan Worked to Death.

The wife and daughter of the Japanese workman is an unfortunate. Recruiting for the spinning and silk factories is carried on in the country districts from which the girls are enticed by promises of good wages and kind treatment, but actually they are kept in the company's dormitory like prisoners, surrounded by high brick walls and fed by the company with food fit for pigs, says Sen Katayama, in Asia Magazine. They have a working day of fourteen hours, with only two days of rest in a month. There are to-day some 700,000 such poor girls in the cotton and other mills of Japan. Over 70 per cent. are under twenty. In the textile industry more girls are employed than men. In 1908, 190,000 girls were working in silk mills and 230,000 girls in cotton mills. The statistics show that the percentage of illness was over five per cent. as great for women as for men, and that over half the sickness was tuberculosis. In the year 1909, out of seven northern provinces, 16,989 girls went to the spinning factories, and during the same year 7,200 returned home. Of these, 938 went back on account of illness, 107 being seriously sick. Every year more than 6,000 girls go out for work from Niigata Prefecture, and every year about 3,000 girls return home; half of these return on account of sickness.

Girls leave the factory within six months, mostly on account of illness from overwork. They work on an average of 12 hours a day or a night, and every seven or ten days they work 18 hours to make the adjustment from the day to the night shift. There were 515,217 girls working in factories in 1912, and 454,411 girls doing coolie labor, besides 29,670 girls employed in Government works. Of these 54,518 girls in private factories and 2,127 in the Government works were under 14 years of age. The are even to-day many girls under 12 in some of the worst arranged and most insanitary parts of Japan, says the march advertised improved conditions of factory girls is a simple camouflage reform without a basis of reality. Every factory advertises some sort of reform in giving pleasure and education to their employees, such as lessons in tea serving, flower arrangement and etiquette. But the girls, after a day's work of 14 hours in a dirty spinning-room, are dead tired and can seldom learn anything that is taught. To-day 200,000 new girls are supplied every year to appease the appetite of modern industry, but 80,000 return home sick and worn out.

Yeast as Food.

Perhaps before long we may be feeding our babies on yeast, to make them grow fast. Yeast is particularly rich in the mysterious "vitamines" on which, in our foods, so much of health depends. Nobody knows what vitamins are, but we have got to have them.

Recently a series of experiments was tried on white rats to find out what effect yeast would have. Thirty-two were selected, representing six litters—half the number of each sex—and all of them about a month old. Each rat was first weighed and received a number. They were fed on ground meat, cheese and butter. At first they were systematically underfed, their growth being thereby retarded. After two weeks, though without increase of ration, a little yeast was added. Every rat picked up.

They were then supplied with a fair allowance of food, plus yeast, and every rat doubled its weight in two weeks. One rat, No. 14, trebled its weight in that time. Next, the yeast was eliminated, without reduction of the food allowance, and every rat thereupon began to lose weight. No. 14 ran down from eighty-one grams to fifty-four grams in three weeks on the yeastless diet. Yeast was again supplied and all the rats rapidly gained weight. In another experiment rat No. 25 lost eight grams in two weeks on a yeastless diet and gained fifty-five grams in the next fortnight on the same ration with a little yeast added.

Barn and Silo Roofed with Brantford Asphalt Roofing.
Resists Fire, Sheds Water, Wears Long

Flying sparks and embers from a burning building often cause roofs near by to catch fire, especially in a dry, hot season. Under like conditions, roofs covered with

Brantford Asphalt Roofing

are in no danger from flying embers, because any that fall on Brantford Asphalt Roofing die out harmlessly. Build a bonfire on a roof of Brantford Asphalt Roofing and the fire will not spread and the boards underneath the roofing will be protected in a surprising manner.

If a fire starts in the interior of a building Brantford Asphalt Roofing acts as a retardant and keeps the fire from spreading. Fire chiefs and insurance companies endorse its use in the most congested cities.

Brantford Asphalt Roofing does not absorb water, but sheds the heaviest rain with ease. Acid proof and alkali proof. Reliable, durable, economical. Three weights—60 lb., 70 lb., 80 lb. per square.

Brantford Rubber Roofing
is the same quality as Brantford Asphalt, but has a smooth, rubbery surface instead of the sand. It is particularly suitable for verandah decks and floor coverings. Three weights—40 lb., 50 lb., and 60 lb. per square.

Leatheroid Roofing
Slightly lower quality than Brantford Rubber Roofing. Used for same purposes. Has a leathery surface. Exceptionally good roofing at a low price. 35 lb., 45 lb., and 55 lb. weights.

Standard Mohawk Roofing
is made of the same materials as Brantford Asphalt Roofing, but is lighter in weight. A thoroughly reliable roofing at a low price. Tested for years and has given entire satisfaction. Sanded on one side. One weight—40 lbs. per square.

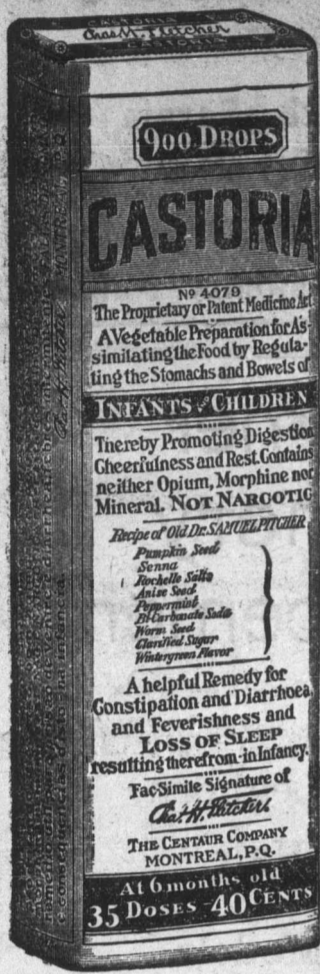

Climax Sheathing Paper
A tough kraft paper coated with high-grade asphalt. For making buildings damp-proof and wind-proof. Also for roofing temporary bunk houses, lumber camps, etc.
Samples of any of these roofings and prices will be furnished on request.

PREVENT APPLE SCAB

Much of the Loss Through This Disease Is Needless.

Careful Spraying Will Do the Trick—Three Sprayings Necessary—Either Lime Sulphur or Bordeaux Mixture May Be Used.

(Contributed by Ontario Department of Agriculture, Toronto.)

THIS is the most common and most serious disease of apples in Ontario. It occurs wherever apples are grown, and the scab spots on the fruit and leaves are familiar to almost every fruit grower. In wet seasons it causes a financial loss of many thousands of dollars to the fruit growers of the Province. This is to a large extent a needless loss, for Apple Scab can almost always be prevented no matter how wet the season may be, by thorough, timely and intelligent spraying, in combination with the proper pruning of the trees. The scab only develops and spreads during wet weather. The times of the year therefore when we get our wet weather are the times we have to spray if we are going to prevent scab. One spraying with either lime sulphur or Bordeaux mixture is not sufficient to prevent scab, as the rain gradually washes the spray off, and as the leaves and fruits by growing larger develop more surface to cover. In order to be sure of preventing the disease we must spray from three to six times during the season, the number of sprayings depending upon whether the weather is wet or dry. The first spraying should be done just as or soon after the leaf buds burst. For this application use commercial lime-sulphur, strength 1 gallon commercial to 7 gallons of water. If the grower is certain that there is no San Jose Scale in the orchard and very little Oyster Shell Scale, a weaker solution may be used, 1 gallon to about 20 gallons of water, or Bordeaux mixture 4.4.40 formula may be substituted.

The second spraying should be given just before the blossoms open, that is just when they are showing pink, using commercial lime-sulphur strength 1 gallon to 35 gallons of water, or Bordeaux mixture 4.4.40 formula.

In average seasons the third application should be given immediately after the blossoms have all or nearly all fallen, with lime-sulphur strength, 1 gallon to 40 gallons of water. This is generally the most important spray for the control of Apple Scab and always for Codling Moth, and it must be promptly applied, as a delay of a day or two may make all the difference between success and failure. Bordeaux mixture should not be used at this time, as it is almost sure to cause the fruit to be russeted. Arsenate of lead should be added for the second and third sprayings to control Codling Moth and other biting insects.

In seasons of normal weather conditions these first three sprayings should control the scab completely. In some seasons, however, additional applications are absolutely necessary if the scab is to be prevented. The time of the weather depends upon when we get our cold, wet weather. In some seasons there is a long period of cold, wet weather between the date when the blossoms begin to burst and when they fall. Sometimes the length of this period is three or four weeks. In such cases it is necessary to give an intermediate spraying between the second and third. Hence, if the grower finds at the end of twelve days or two weeks after he has applied the second spray that the weather is still cold and wet and development of the blossoms is very slow, another spraying should be given at once to protect the young blossoms and foliage. This should be of the same strength as for the third regular spraying, but poison should be omitted because of the bees. It is very important to observe carefully the weather conditions and apply this spray when necessary.

Spraying early in August is an insurance against late infection of Apple Scab and Sooty Fungus. In wet autumns such spraying is necessary to prevent late attacks of scab, especially with varieties such as McIntosh Red and Snows, which are very susceptible to scab. For this application use a weak lime-sulphur solution, 1 gallon to 40 or 45 gallons of water, or Bordeaux mixture. No poison should be used at this time. Even if the spraying is some time later than the first or second week in August there is a chance of the fruit being discolored at picking time. Should the dust method prove satisfactory it could be used at any time in the fall without danger of staining the fruit. If the early sprayings are thoroughly done, and the fall is not extremely wet, usually the crop will remain clean without this last application.

Thoroughness in Spraying.—Very few men spray thoroughly enough to get the best results. The object of spraying is to cover the surfaces of the leaves and fruits with a good fungicide (a substance which destroys the spores of fungi), such as lime-sulphur or Bordeaux mixture, so that

when a spore reaches leaf or fruit it is destroyed and cannot grow and cause scab. We see, therefore, that if spraying is to accomplish its object it must be very thoroughly done; every fruit and leaf must be completely covered with the fungicide so that there is not the least space on which a spore can germinate. Thorough spraying necessitates the liberal use of the spray mixture. A large apple tree will require from six to ten gallons or more to cover it properly. Care must be taken to reach every side of the young forming fruit or (in other words) of the calyxes or flower cup which develop into the fruits.—Prof. J. E. Howitt, O. A. College, Guelph.

The Makers of Mischief.
In a recent issue Collier's Weekly states that many communications have reached it from Canada "indicating growing bad feeling among many Canadians toward the United States." Perhaps some of these letters are written by persons who are nettled by the claim that the United States won the war all off its own bat; or by the injurious exchange rate on Canadian money; or by the talk in the Senate at Washington against admitting Canada to a place in the League of Nations, although no objection is made to the admission of Cuba, Panama, Haiti, and San Domingo. Perhaps Canada expected a very different attitude from her great neighbor after the war, and some persons may have written letters expressing their feelings not wisely, but too well.

Fate of Sea Cows.
The last Arctic "sea cow" was seen in 1854—about a century after the first discovery of the species by white men. When full grown, the creature weighed as much as 8,000 pounds. These animals frequented shallows at the mouths of rivers in herds; and while feeding they drove before them their young, to protect the latter from danger. So tame were they that one could stroke their backs without any objection on their part. Unfortunately, their flesh was good to eat, resembling beef. Whalers got in the way of depending upon them for stores of fresh meat; and so, in the natural course of events, they were wiped out.

If Miller's Worm Powders needed the support of testimonials they could be got by the thousands from mothers who know the great virtue of this excellent medicine. But the powders will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose, in

Germes Long-lived.
The microbes of disease are long-lived when kept in favorable surroundings. Dr. J. Dansyz reports to the French Academie des Sciences that a strain of paratyphoid bacilli kept in broth in sealed ampoules were alive and virulent after twelve years. When these bacilli were transferred to a new test tube every 24 hours they were still virulent after five years. At the beginning they produced nine generations in 24 hours, after a year they were producing nine generations in 12 hours. Thus at the end of five years Dr. Dansyz had 25,000 generations of paratyphoid germs.

Hats in China.
The manufacture of hats in China is expected to become an important industry. With the cutting of the queue, foreign hats displaced the native styles. More than 2,000 rush hats are exported each year from Ningpo to the United States. A hat of good quality is being made in Echowang of palm leaf fibre. The extensive manufacture of straw braid in Shanghai will lead to the manufacture of straw hats in that section.

Destructive Earthquake.
One of the most destructive earthquakes in the world's history was that which occurred in Yeddo, in the year 1703, when 190,000 people were killed.

A Reason.
Sam—Dey say dat de parrot am one o' de longest lived birds dere is.
Rastus—Ah 'specks de reason fo' dat am, he ain't no good to eat.
