## Montreal Stock Market.

NO REASON FOR DULL MARKET EXCEPT PUBLIC UNWILLINGNESS — PACIFIC STEADY WITHOUT CHANGE — STREET, ELECTRIC, ETC., LOWER — CONSOLS ¼ HIGHER.

Montreal, May 3.

Now that the market as a fact is continuing dull and declining, any or all such circumstances as tight money locally, lowered prices in iron and other markets, and delay of another decided victory in South Africa can be brought forward to explain why the fact is so. Experienced market men declare that while these explanations are true as far as they go, they are very far from being fully satisfactory, because they might exist along with a strong bull market. Money stringent locally, international relations strained and markets disturbed by the price of staple articles being lowered, have often been coexistent, with the strongest condition of the security market. Given a certain state of sentiment on the part of those dealing in stocks and those circumstances may keep trade in narrower limits and make advances less pronounced than they might have been, but will not have force enough to change the character of the market. It will in spite of them, remain a strong bull market still. General public feeling is indisposed for trading, that is the real explanation, but may become disposed at any moment on slight occasion and when it does, tight money, cheaper iron or anything else, will not hinder a strong market. Whether the explanation is objective like iron or money, or subjective like sentiment of the public, there is no uncertainty about the fact to be explained, a dull drooping market prolonged another day.

Canadian Pacific at 95½ closed the same as yesterday and the demand was for ¼ advance.

There was activity in Electric, but the last price of the session was at ½ decline.

There was a gradual stepping down of Street to 252, it declining 2½ points on four sales of medium size.

At 38 Toronto closed ¾ lower.  
Gas at 182 lost 1½ points.  
New St. Ry. stock sold at 240, which was 3 points below the lowest price it has made yet.

The few shares of Bank stock which were put through are standing at previous quotations.

Roy. Elec—200, 198.  
Merch. Bank—7, 160.  
Can. Col. Cot.—50, 80.

### CHEAPER OIL.

The decision of the Railway Committee of Privy Council, Ottawa, has recommended that Railways be required to reduce freight rates on all coal oils to the rate allowed the Petrolca, that is Standard Oil firms. This decision will not end the grievance of the consumer, who though holding that the price of oils was kept high partly by the discriminating tariff, holds that Standard Oil trust prices are illegal and exorbitant.

### STRAWS.

Toronto Ry earnings for 7 days ending April 25 were \$22,673, an increase of \$2,911.

People's Gas dividend was declared today at regular rate of 1½ p.c. payable May 25.

Panama—Panama Canal Company's concession has been extended for six years from April 1904.

May 1 is held as a holiday in London, and several markets on this side, as for instance Chicago, were closed yesterday. Semi-annual statements are dated to-day and constitute a landmark of the year.

Standard Oil—Standard Oil stock sold before the dividend was announced at 530 and on the announcement of the dividend advanced 5 points to 535. The company in the last six months has so far paid \$30 per share, of which \$20 was declared three months ago, and \$10 declared now. The company has been paying for years back 30 to 33 per cent a year, and it is expected that the dividend for 1900 will figure up from 45 to 50 p.c.

**MONTREAL MINING EXCHANGE.**

STOCKS DULL AND LIFELESS — VIRTUE NEGLECTED — NORTH STAR DECLARES 1ST DIVIDEND — DEER TRAIL WEAKER.

Montreal, May 8

Stocks were dull and lifeless. Sales few and far between with no change of any importance taking place. Virtue was conspicuous by its absence, so likewise were many others of the market leaders.

Montreal-London sold at 20, but only for a small lot of 500 shares.

California was lower and sold at 9 1/2 cents. This is at a recession of 1/2 a cent; 8000 shares changed hands.

Deer Trail was weaker and freely offered at 9 cents, 2000 shares sold at that figure.

A sale of 1000 Monte Christo was made at 4 cents.

The directors of the North Star Mining Co., Ltd., have to-day declared a dividend of three per cent for the quarter ending 31st May 1900, on the paid up capital stock of the company, payable on the 15th June next to shareholders of record on the 31st of May. No sales were made to-day.

No official returns of the first clean up of the 5-stamp mill on the Oregon of 70 tons of ore was \$1200 net. Sales were made at 25 cents during the early part of the session. The same price was bid for more without avail.

A hoist capable of sinking to a depth of 2000 feet is being put in place on the Le Roi. No. 1 and Josie will soon join the Le Roi as shippers. A fine body of ore has recently been unearthed on the Nickel Plate.

A mining engineer is now examining the Chicora property and further work will be gone on with in accordance with his recommendations.

The Gold Hills Company have also decided to develop the best of the properties in the Lake of the Woods district. Work will be energetically pushed. It is proposed to erect a stamp mill on the best property in the district.

# NEW YORK EXCHANGE.

**MORE BUYING OF AMERICAN STOCK AT IRREGULAR QUOTATIONS — GRIEVANCE OF N. Y. C. STRIKERS REMOVED — N. PAC. HAS BOUGHT ST. P. AND DULUTH. — STEEL STOCKS GAIN IN STRENGTH.**

New York, May 3

Early quotations from London show irregularity, fluctuations ranging from  $\frac{3}{4}$  decline to  $\frac{1}{2}$  advance. Cables reflect a continuance of apathetic conditions of market and say little will be done till some encouraging news is received from South Africa. Later cables state that there is more of a disposition to buy American shares and business is a little better.

Bank rate unchanged.

For the past three or four days London has done practically nothing in our market.

It is announced this morning that N. Y. C. strike is practically settled. The company has conceded most of the demands, and as soon as employees of other roads who went on a sympathetic strike return to work, work will be resumed by the N. Y. C. men who went out.

It is said that the concessions on the part of N.Y.C. will cost the road something like \$500,000 a year.

N.Y.C. was heavy in our market yesterday, pending a settlement of the strike, and should do better to-day.

St. Paul for four weeks in April shows an increase of \$192,000. Other roads reported also satisfactory returns. The rumor which has been in circulation for past few days to the effect that Northern Pacific had bought St. Paul and Duluth is confirmed by President Mellen.

It is also announced that some of the mills of Steel and Wire Co. recently shut down, will resume operations next week.

On to-day's steamers about \$2,600,000 gold will go out. Bankers, however, do not fear any tight money in near future.

People who are bullish on Sugar say that its strength yesterday, in anotherwise heavy market, was extremely significant, and that something is going on of importance of which the general public is not advised. There continues to be a good borrowing demand for stocks. Last night the steel stocks were the features. F. S. particularly being inquired for.

New York (noon), May 3.

This morning's market presented very few features of interest, and at present a condition of dullness exists which amounts to practical stagnation.

At the opening prices for the railroads were at or around our last night's closing, and in a few stocks there were commission house buying orders.

The result was that during first 15 minutes there was some little activity and considerable strength.

The greatest strength, however, was shown in Steel and Iron shares, all of which scored material advances as compared with last night's close.

The selling movement in these stocks was a little overdone yesterday, and there was a decided borrowing demand for them in last night's loan crowd. The announcement that work would be resumed next week at several of the steel and iron mills was the signal for a covering movement which is responsible for the advance noted. The slight activity, however, did not last long and half an hour after the market opened, business with a few exceptions was a standstill. In the early transaction Mop. showed some

strength, but when it was announced that there would be no meeting to-day, traders expressed disappointment and threw over some of long stock.

N. Y. C. and the shares of the roads allied with it were favorably affected by the strike settlement which was announced.

London has been a moderate seller of stocks, but in no case have their transactions been large.

So. Pac. to-day showed more steadiness than for some days past.

Temporarily there seems to be a cessation of the feeling which has taken place in this stock lately. There have been large selling orders, while on the other hand, there have been one or two buying orders of upwards of 1000 shares.

Sugar displays no decided tendency to-day. The Street is full of tips to buy it. Everybody has the stock, and the short interest has been materially decreased in last three or four days.

The Appellate term of the Supreme Court (U.S.) has decided that the Union Railway Co., of N. Y., must run cars on all its lines between midnight and 6 o'clock each morning every 20 minutes. The court also imposed a fine of \$100 on the company because it had failed to run cars between those hours. The suit was a test case and applies to all the railroads in New York.

## MINING NEWS.

### CRIPPLE CREEK NEWS.

THE THREE BIG RAVEN HILL COMPANIES ISSUE A CIRCULAR TO THEIR STOCKHOLDERS TELLING THEM ABOUT IT.

It has been stated that the Elkton stock would be called in and the new stock re-issued together with the stock bonus, but it now appears that another plan is to be used, namely, that each old Elkton stockholder keep his certificate which will entitle him not only to that amount of shares in the new Elkton, but also to his share of the stock bonus, which will be mailed to him when the deal is ratified. The Raven and Tornado stock will be called in and new certificates issued.

To the Stockholders of the Elkton Consolidated Mining and Milling Company, The Raven Gold Mining Company and The Tornado Gold Mining Company:

For several months past the directors of the three companies above named have been considering the advisability of consolidating the properties and assets of the three companies. It has seemed obvious to all of the directors that the best interests of all stockholders of the companies required such a consolidation, provided it could be made upon a basis equitable and fair to all parties. After many consultations the directors of all three companies unanimously agreed to recommend to the stockholders the plan of consolidation hereinafter set out, and in pursuance of this agreement the special stockholders' meetings, of which notice is herewith enclosed have been called by the directors of the several companies. The following is the

#### PLAN OF CONSOLIDATION.

Authorized capital of new company \$3,000,000, to be divided into 3,000,000 shares of par value of \$1 each.

This stock is to be distributed as follows:

To present Elkton stockholders, 1,375,000 shares.

To present Raven stockholders, 625,000 shares.

To present Tornado stockholders, 500,000 shares.

To treasury of new company, 500,000 shares.

Under this plan of distribution, the present Elkton stockholders will receive 1,222 new shares for each 1,000 of the old. Raven stockholders will receive 625 new shares for each 1,000 of the old.

Tornado stockholders will receive 434 new shares for each 1,000 of the old. No fractions of shares will be issued.

In order to compare the proposed new company with the existing companies, we direct your attention to the following statement of the

#### PRESENT STATUS OF THE THREE COS.

	Acro- age.	Capital.	Stock Outstanding.
Elkton . . . .	33	\$1,250,000	\$1,125,000
Raven . . . .	24	1,500,000	1,000,000
Tornado . . . .	14	1,250,000	1,150,000
Total . . . .	71	\$4,000,000	\$3,275,000
The new company will have . . . .		3,000,000	2,500,000

Making a reduction of . . . . . \$1,000,000 \$ 775,000

The above mentioned acreage is in a compact body on Raven hill. The consolidated company will own other claims of about 30 acres.

The Elkton and Raven companies have been paying dividends at the rate of 1 cent per share per month on 2,125,000 shares, and the Tornado company is rapidly approaching a dividend basis at the same rate. The aggregate cash surplus of the combined companies at the time of consolidation will be approximately \$200,000.

Each company will continue the production of ore to the time of consolidation without the payment of further dividends, but the payment of dividends will commence at once after consolidation.

The properties and assets of the three companies will be represented under the plan of consolidation by a much smaller capitalization — whether authorized or outstanding, as has been noted above — than is now charged against them as separate organizations. Under their present separate managements, two of the companies paying a dividend of 1 cent per month on 2,125,000 shares, and are producing ores to pay much larger dividends. The amount saved on account of reduction of expenses and economies in the management by the consolidation will, of itself, be more than sufficient to pay the dividend or the difference between \$2,125,000 and 2,500,000. The present condition of the mines of the three companies practically assures us that the new company will be able to pay a dividend of not less than one per cent per share per month for many years to come.

The mere statement of this plan of consolidation of itself seems sufficient to commend it, to the approval of every stockholder of each of the companies. It is obvious that a great reduction in operating expenses will result from the placing of all the mines under one management; but there is another reason why the plan commends itself so strongly to the directors of the several companies — about 70 acres of the combined properties lie in one compact body on Raven hill. The axes of several very rich veins are found in the claims of the various companies in such relations as to make it almost certain that expensive and complicated litigation must arise concerning the underground vein rights of the several companies; indeed, such litigation is already impending. The ore bodies in all the properties are increasing in richness and extent with depth, and it is therefore all the more important to compromise and adjust the doubtful vein rights without further delay.

It will be seen from the foregoing statement that the chief advantages anticipated from the consolidation are the avoidance of expensive litigation of doubtful and uncertain questions of law, economy in mining expenses and assured basis for the regular payment of dividends, and the formation of a very strong company with ample resources with which to increase

the extent of its mining property from time to time, as may be deemed expedient.

We earnestly request that you appear in person or by proxy at the stockholders' meeting of the company in which you are respectively interested, when the plan will be discussed in all its phases by those most concerned.

The Elkton Consolidated Mining and Milling Company, by its directors,  
George Bernard,  
William S. Jackson,  
J. W. Graham,  
William Shemwell,  
Richard Clough,  
S. S. Bernard,  
J. H. Avery.

The Raven Gold Mining Company, by its directors,

E. M. De La Vergne,  
Thomas Stark,  
M. F. Stark,  
E. R. Stark,  
C. E. Noble,

The Tornado Gold Mining Company, by its directors,

J. W. Graham,  
E. P. Shove,  
Sherwood Aldrich,  
J. J. Cooper.

#### MORNING GLORY.

The recent rapid advance in the price of the Work stock is due to a strike which has recently been made on the Morning Glory claim of that company. The strike was made in the old Davenport shaft in a drift run from the 65-foot level. A good body of ore has been encountered in the vein which returns average values of two ounces, although there is a rich streak which runs much higher.

The strike was made in the Jack Pot vein, which has not been carrying pay values, although the managers have been confident that such a strong vein would sooner or later be found to carry good ore, and this strike has now proved the correctness of their expectation. These workings are held by the Morning Glory Mining and Leasing company, which is also putting down the large shaft on the Work property, but are sub-leased to Coggswell and West. The details given above are furnished from Mr. H. E. Woods, one of the officers of the Morning Glory Mining and Leasing company.

#### DANTE.

Rudolph & Stewart, lessees on the south end of the Dante, drifting at a depth of 150 feet on a well defined vein of medium grade ore toward a known cross vein, have entered a rich shoot. Assays taken to-day across two feet of the vein gave values of \$160.80 to the ton. They believe they have a big thing. Stewart & Stewart, the sheriff of Teller county and his brother, are other fortunate lessees.

#### GOLD SOVEREIGN.

Some heavy shipments are being made by the different lessees on the Gold Sovereign properties on Bull Hill. Snyder & Co., will complete a 100-ton shipment of mill ore to-morrow. It is confined to the Arqua mill and will average up about \$20 to the ton.

The Jackson lease shipped 75 tons or more Tuesday morning.

At the Myers, Slumpp & Allison lease on the Whisper shaft, no ore has been hoisted for some days, but the lessees are stripping in the 375-foot level.

Returns from a 20-ton lot sent out from the Davis lease on this property last Friday show values of three ounces to the ton.
