OTTAWA'S VAST JUBILA OVER NATION'S NEW LEADER

**Celebration at Capital Re-
flects Enthusiasm of All
Canada on Accession of R.
L. Borden to Power—Car-
riage Drawn Thru Three
Miles of Cheering People.**

OTTAWA, Sept. 26.—Ottawa gave R. L. Borden a joyous welcome to-night. The premier-elect was the central figure in a demonstration which for size and enthusiasm was approached only by the Liberal rejoicings in 1896, when Laurier was returned to power.

The chief event was a monster procession, the largest in the capital's history, which escorted Mr. Borden from his house thru the main streets of the city and back to his home again.

Several thousand people took part in the parade, while the streets were thronged with cheering crowds, who heartily acclaimed the Conservative leader as he passed in his carriage, drawn by 100 men.

There was no doubt about the whole-heartedness of the tribute paid to Mr. Borden. The procession took 40 minutes to pass a given point, and there was a roar of cheering all along the route. It was a great sight for Ottawa Conservatives.

Paraded Three Miles.

In the carriage with Mr. Borden was George H. Perley, whose tireless work as chief opposition whip did so much to carry the party to victory, and the two elected Conservative members for Ottawa, Messrs. Frapp and Chabot. The parade reached Mr. Borden's house on Wurttemberg-street at 8 o'clock, and Mr. Borden and his conferees were placed in a carriage and dragged thru the three miles of packed humanity.

The Union Jack was everywhere in Ottawa to-night, and the city was brimming over with British sentiment. Some of the banners carried in the parade caught the eye of the crowd, particularly one which proclaimed that "Reciprocity is dead." "We kept Canada in the Empire" was another favorite motto, while the length of life of the Conservative administration was forecast in the slogan "Borden forever."

Mr. Borden was obviously pleased and touched by the magnificent welcome. He was kept bowing continuously, and when the crowd had vented their enthusiasm and escorted him home again, it was a tired but happy premier-elect who, in a few brief words, thanked his fellow-citizens for the honor accorded him. There were no formal speeches.

Pugsley Will Retire.

Hon. William Pugsley, it is stated, will resign his seat in St. John City and go out of federal politics. Mr. Pugsley made what practically amounted to a statement of his intentions in conversation to-day. He does not want to sit in opposition with Conservatives in control of his old department, especially when there are prospects of lucrative law work in St. John.

HAMILTON, Sept. 26.—The official result of last Thursday's polling in this city, according to the returning officers for the two Hamilton constituencies are:

West Hamilton, T. J. Stewart, 4390; J. I. McLaren, 2370; Hiram Dickout, 822. Stewart's majority over McLaren is, therefore, 1820.

In East Hamilton the count is 4981 for Samuel Barker, and 2496 for John Peebles, giving the former a majority of 2485 votes.

It is rumored that the Liberals in West Hamilton are trying to get Hiram Dickout to contest the West Hamilton seat in the provincial assembly. Mr. Dickout is said to be somewhat shy in the matter.

Cornwall Will Jubilate.

CORNWALL, Sept. 26.—The Conservatives of the Town of Cornwall and County of Stormont, have arranged for a grand demonstration in honor of the double victory in this county and throughout the Dominion on Thursday last, which will be held at Cornwall, on Friday evening, Sept. 22.

In order that the people from the country districts, who played such an important part in the local contest, may have an opportunity of attending the celebration, cheap rates have been secured on the Ottawa and New York Railway, and a special train will run north along this road at the conclusion of the celebration.

There will be a torchlight procession, followed by a magnificent display of fireworks by Prof. Dominico Ruffe, on the canal bank in front of Central Park. Music will be furnished by the Citizens' Band, the National Band, and several Highland pipers.

Short addresses will be delivered at Central Park by Dr. D. O. Aguirre, member-elect for Stormont; Andrew Broder, member-elect for Dundas; Dr. J. D. Reid, member-elect for Grenville; John Webster, member-elect for Brockville; A. E. Tripp, K.C., and Dr. J. L. Chabot, members-elect for Ot-

Continued on Page 3, Column 3.

Will March in Old Path

Premier-elect Borden, at the close of the procession thanked the demonstrators, saying: "This is a wonderful demonstration, perhaps the greatest in Ottawa, or in fact, the Dominion, and it is right that it should be so in the capital city, for gentlemen, the twenty-first of September will go down in the history of the country as one of the most important and notable dates since confederation."

"This is not so much a demonstration of the triumph of one political party over another, this demonstration is because the people of Canada have spoken and have said that this country will march in the old path, the path that leads to Canadian unity, Canadian nationhood and British connections. Canada has said: 'Now and for all time in the future, there is no 'parting of the ways.'"

NE TEMERE DECREE LIKE INQUISITION TORTURES

**Hon. S. H. Blake Makes Strong
Comparison in Address at
Wycliffe College.**

Hon. S. H. Blake addressed the Wycliffe Association last night upon the still prominent subject, the Ne Temere decree. His address did not have the vigor which usually attends his utterances, and which it was expected would have enlivened his treatment of this question, but his attitude left no doubt as to his opinions of the decree. His address partook more of the nature of a history of the decree and a review of its effects.

He traced back its history to the Council of Trent in 1563, when the Church of Rome first made its influence felt in the laws of marriage as related to others outside its jurisdiction, mentioning that its introduction was made in this country as early as 1741, but that its complete enforcement was not made until four years ago, when the Catholic Church declared that a mixed marriage, under the decree, was absolutely invalid.

"The Church of Rome," declared Mr. Blake, "has brought misery, degradation and grief into many homes thru this outrageous decree. Can Canada be compelled to submit to the dictation of Rome on the subject of validity of marriage?" He believed that a test case should be prepared and submitted to the privy council, so that the question of a church's interference in a civil contract would be finally settled.

"No torture of the inquisition could more hurt the chaste woman than the unwarrantable presumptions of this decree," he declared.

"The question raised under the Ne Temere decrees must not be the subject of strife with the Catholics on the one side and the Protestants on the other, but is a matter of civil rights, embracing a solemn contract on which all should look the sacramental blessing of the church to which they belong. Each church should give its blessing, but should not place such impediments in the way as does this decree," declared Mr. Blake.

Matthew Wilson, the Chancellor of Niagara, who followed, in a short address, said that if we would preserve the sanctity of the home and the morality of the country, we must preserve the marriage status.

Dr. C. H. Thomas, the president of the Wycliffe Association, presided.

KILLED IN PISTOL FIGHT

Sheriffs Were Shot in Trying to Arrest Negroes.

LITTLE ROCK, Ark., Sept. 26.—Sheriff W. D. Preston of DeSha County and Deputy Sheriff Barney Stiel of Little Rock were killed in a pistol battle with a party of negroes near Dumas, Ark., late this afternoon. Three negroes were also killed.

Preston and Stiel were endeavoring to arrest several of the negroes, wanted in Little Rock.

McBride for Cabinet?

VANCOUVER, Sept. 26.—The World alleges that Aid. H. H. Stevens, M.P. elect, will resign to be collector of customs here in succession to J. M. Bowell, who will soon be retired on a pension.

According to The World, the theory is that Premier McBride will be taken into the federal cabinet, and will take Stevens' Vancouver seat. Stevens denies the story.

ALL IN THE HOLE

An Accident to the Rescue Party.

ZIA BEY PASHA SEES NO WAR AHEAD

Turkey Is Happy to Be On
Friendly Terms With Every-
body—Compromise Likely
in Recognition of Italy's
Economic Interests—Canada
No More Subject to
Washington Than Tripoli to
Rome.

BELLFORT, L. I., Sept. 26.—Zia Bey Pasha, the Turkish ambassador to the United States, told a representative of the Canadian press to-night that he had as yet received no instructions from the Porte to invoke the good offices of the American Government in the way of restraining Italy from hostile action in Tripoli.

A despatch from Constantinople, Sept. 25, said that all Turkish representatives abroad had been requested to act in this direction. But should such instructions be received, the ambassador said he would not be surprised, for it would be entirely in accord with the treaty of Paris of 1856, to which the United States had subscribed, and by which the powers undertook to guarantee the integrity of the Ottoman Empire.

The guarantee of integrity contained in the treaty of Paris, which concluded the Crimean war between Russia and Turkey, was reiterated in the treaty signed at Berlin in 1878.

International Authority.

Zia Bey Pasha believes that the Tripoli dispute will be settled without recourse to war. He is entirely familiar with every phase of that question, and during his long and varied diplomatic service at St. Petersburg, Berlin and Paris, has had an opportunity to follow at close diplomatic range its various aspects and developments. He is, moreover, an authority on international law, and is now engaged in translating an important treatise on that subject from French into the Turkish language.

"Remember," said the ambassador, "that Tripoli is a province of Turkey. According to some despatches, Italy would try to take that province and make it an Italian protectorate. When France took Tunis, Italy, which had

John D. With Pride Recalls First Job

**'Twas Just 55 Years Ago That Oil
King Started Business Career—
Flag Flying Marks Anniversary.**

CLEVELAND, Sept. 26.—John D. Rockefeller to-day issued his first statement to the public in many years. It came in the shape of a message expressing his thankfulness for a long and successful business career, following the gaining of his first job 55 years ago.

Incidentally it revealed the fact that the Oil King held only one "job" in all his career.

Here is how the statement read: "The flag is flying over Forest Hill to-day in memory of 55 years ago when I secured my first and only situation, in the forwarding and commission house of Hewitt and Tuttle, on the river. I am very grateful for this memory."

The statement was made by Mr. Rockefeller to his brother-in-law, Geo. Rudd. The latter telephoned it to the papers.

Hewitt and Tuttle years ago was a well-known business firm, with offices on the Cuyahoga River front.

C.N.R. AND G.T.P. IN RACE

**Both Railways Work Hard on Lines
From Edmonton to Calgary.**

It is announced at the Canadian Northern offices that the grading on the company's line from Edmonton to Calgary has been completed to the city limits of Calgary, but the rails have yet to be laid on a considerable stretch of the roadbed.

The Grand Trunk Pacific has also made good progress on their line between these cities. It has more miles of rails laid than the C.N.R., but is not so far advanced with the grading. Western Canada, especially the citizens of Calgary, is very much interested in the race into Calgary between these two lines. Both railways are pushing on their lines with all speed, and it is problematical which will be completed first.

MANY DIFFERENT BLOCKS.

This year's fashions in men's hats are sufficient in range to suit almost anyone. There is the flat brim and low crown derby or the high crown and rather narrow rim. In Alpines there is a great variety in texture, color and design. The silks are very novel in the new fall shapes. The Dineen Company, of London and Dunlop of New York, have an unusually fine display now on sale in the showroom. All prices in hats to suit any face and in all sizes.

CAN'T BE HAPPY TILL THEY GET IT

New Brunswick Paper and
Pulp to Be Admitted Free
to United States Till Next
August—Sworn Statements
Wanted Regarding Pro-
ducts From Crown and Pri-
vate Lands.

WASHINGTON, Sept. 26.—Practically all the wood pulp and print paper produced in New Brunswick until Aug. 1, 1912, will enter the United States free of duty.

This is made possible by a revised rule made to-day by Acting Secretary of the Treasury Curtis, under the only operative clause of the Canadian reciprocity agreement.

The surveyor-general of customs of New Brunswick advised the treasury department that the new law of that province restricting the exportation of wood pulp and print paper did not apply to lands operated under licenses issued or renewed prior to Oct. 1, on which date the act becomes effective.

The lands are used under long-term licenses, governed by yearly licenses, and Aug. 1 is the date for renewing these licenses. Consequently, until that time there will be no American import tax on pulp wood or print paper originating from those lands.

Regulations also were issued by Mr. Curtis to-day governing the taxation of Canadian pulp wood and print paper coming partially from crown lands and partially from private lands.

American customs collectors will insist upon sworn statements showing the percentages of origin, assessing duty on products of crown lands where the importation is restricted and entering the remainder free.

PARNELL MONUMENT.

DUBLIN, Sept. 26.—Richard Croker has accepted John E. Redmond's invitation to unveil the Parnell monument. This ceremony will take place on Oct. 1. The monument consists of a bronze statue of Parnell, by Augustus St. Gaudens, on a pedestal with a shaft of Connemara marble, which forms its background. It is the tribute of Ireland to the great Irish leader.

Demand New Legislation To Stop Race Track Betting

Moral Reformers' Platform.

Legislation against race-track betting.
Protection of morals of men in all employments.
Probation or indeterminate sentences in certain cases of infractions of the law.
Complete suppression of immoral resorts.
Refusal of bail in cases of social crime.
Power to search for obscene literature given to constables.
Make the possession of obscene literature a crime.
Amelioration of conditions in lodging houses of low standards.

HAMILTON ASYLUM FIRE PRESENTS NEW FEATURE

**Continuous Startling Developments
Demand Further Investigation
By Provincial Government.**

HAMILTON, Ont., Sept. 26.—Since the publication on August 14 and 15 of The World's charges in regard to the farcial inquest into the deaths of the eight men, who lost their lives in the terrible fire at the Hamilton Asylum for the insane, on August 1, additional information, which has a direct bearing on the fire, and the subsequent inquest, has been secured.

At the inquest it was sworn that inmates were not allowed to smoke in the corridors of the asylum. The World has positive information to the effect that they were habitually allowed to smoke in corridors, but that it was the practice of the hall attendants to light only one match in each corridor at "smoke time."

This one match provided the initial blaze, and the necessary "light" was transferred from one patient to another by means of small torches improvised from bits of paper, and in such manner the small blaze was frequently carried from one end of a corridor to the other.

The World has previously shown beyond reasonable doubt, that the fire of August 1, started at some spot in hall C, and this discovery in regard to smoking, and the manner in which it was carried on, suggests a possible cause of the horrible conflagration, in which eight helpless inmates of the asylum were burned to death, without a chance to escape.

BUSY IN QUEEN'S PARK BUT PREMIER IS SILENT

**Provincial Organizer and Andrew
Broder Confer With Cabinet—
Lists Being Printed.**

Whatever its political significance may be, there was an unusual activity yesterday up at the parliament buildings. All afternoon the premier's office was a busy place. A cabinet meeting was held in the morning, with nearly every minister in attendance. At noon one or two of the ministers left the city, grip in hand and wearing a very business-like expression. Sir James Whitney had numerous callers during the afternoon and there was every evidence that business of importance was being discussed.

Andrew Broder, M.P. for Dundas, was in calling on the premier, and so was J. S. Carstairs, the Conservative organizer for Ontario.

When asked about the report that he might be the new minister of agriculture, Broder said: "I have no particular ambitions, personally. But I do want to see Mr. Borden with a good, strong, honest government."

J. S. Carstairs was in good spirits. He hadn't heard anything about provincial elections. "But we couldn't have too much of a good thing," he jokingly remarked.

Sir James Whitney had no positive information to impart concerning the political plan of action in Ontario at this time.

"With regard to the question of these nine by-elections, or whatever they may develop with reference to them," said the premier, "there is nothing to say, but the fact that these questions beyond the fact that they will be taken up and dealt with by the cabinet in the ordinary routine way."

As the reporters left the office, Sir James remarked that the weather was very nice.

It is stated that the provincial lists are being printed, which would seem to indicate that an appeal to the country is not many months distant.

Moral and Social Reformers At- tack Pari-Mutuel System as Fostering Gambling Spirit— Social Evil is Vigorously As- sailed and Suggestions Made for Raising Moral Standard.

"The executive of the council in the light of these facts and considerations is of opinion that the time has arrived when this matter must again be faced and the battle fought to a finish, it being impossible to rest until this degrading business of exploiting vice is made in law what it is in fact, a criminal business, quite regardless of whether it is practised by those in the highest social circles or in the lowest strata of society."

In these words, following a long praiseworthy setting forth the results of the recent legislation at Ottawa designed to restrict race-track betting, the legislative committee of the Moral and Social Reform Committee urged that renewed efforts be made at the meeting in St. George's Hall yesterday.

The matter of race-track gambling was referred to a committee which was authorized to obtain legislation which will make race-track wagers illegal.

Slap at the Pari-Mutuels.

Commenting on the race-track situation the report says:

"Two racing seasons have passed and several things have transpired.

"1. Race tracks have increased in number.

"2. Several tracks have introduced the pari-mutuel machines, either along with or as a substitute for bookmakers.

"All the information we have been able to gather as to how this innovation is working out leads us to believe that it has not resulted in the lessening of the evils of race-track gambling and betting, but rather increasing them. Many people who were afraid of matching their wits against the bookmaker have no objections to putting up their money against each other thru the medium of the pari-mutuel machine.

"By this system the racing association becomes the keeper of a common betting house within the definition of the criminal code itself. The reports from Australia also bear testimony to the same fact that the pari-mutuel machines encourage and extend the vice of gambling.

"3. The courts have interpreted the law as not prohibiting the publication and circulation of information that may be used in bookmaking, namely, the Minor of Vancouver, B.C., has had three immediately successive seven-day racing meets with full gambling and betting accompaniment, the second and third being held under the auspices nominally other than those of the association owning the track.

Moral Standards Confused.

In addition to these considerations we are compelled to face the following facts:

"1. Parliament two years ago deliberately put itself on record, in the name of the Canadian people, as favoring within specified limits of space and time, what is, outside of these limits, universally recognized as a criminal and degrading business, involving financial, social and moral ruin to large numbers, particularly of young men. This is a confusion of moral standards which must inevitably bear a terrible harvest of harm in days to come.

"2. This same action leaves the Canadian people open to the charge of permitting under the Union Jack what is criminal under the Stars and Stripes in almost all of the states in the American union, so that the professional swindlers in the persons of race track gamblers look upon Canada, and speak of it as almost the only remaining

Continued on Page 7, Column 5.

The Coming and The Going

I stood in the September field in the morning looking toward the upland and the rising sun. It had rained thru the night and the ground was wet; the young fall wheat was up two or three inches, as to show the regimented drill and every bright green blade was a little scimitar with sparkling drops in the sunlight. The slight breeze made them wave in unison; and as you saw them wave you again thought of them as choristers, and if you bowed reverently enough you thought you heard what seemed a glorious but almost inaudible song. At all events they were all joy.

And alongside was a great field of fodder-corn ready for the harvest. Tall, gaunt with the frost that had been a few nights ago, and every lance-like stalk with a rustling, faded, drooping plume. They, too, were regimented as choristers, and they, too, were quiring some invisible music, but in another key.

Perhaps the myriads of little green blades of the wheat were hymning the mighty corn stalks that were to fall that day to the charioted knife of the farmer; and perhaps the rustling stalks, in their turn about to die, were saluting them as they came bursting into the sunshine of life.

The coming and the going and the aimed the one the other, each in its fitting way. But how much you heard of the two choirs was measured by how much you had left of comings and partings of your own.

HAMILTON HAPPENINGS

STRENUOUS LIFE TO-DAY
LOOSENS MARRIAGE TIE

Bishop Clark Gives Warning at
First Synod Meeting—New
Polish Church.

HAMILTON, Sept. 26.—The first annual meeting of the Synod of Niagara, under the administration of Bishop Clark, opened this morning in Christ's Church. His lordship's address to the delegates recited the episcopal acts of the diocese, for the year, and referred to a number of subjects in which the church is interested. His lordship deplored the present-day manner of strenuous living and expressed the opinion that marriage was becoming unsatisfactory.

The feature of the morning session was the presentation of a handsome pastoral staff to the bishop by Rev. Canon Sutherland and Adam Brown, on behalf of the members of the standing committee. The staff is made of ebony, mounted with highly ornamented solid silver and jewels. A radiant cross and shields, containing the diocesan and provincial coat-of-arms, the bishop's personal crest, and a representation of Niagara Falls, are attached to the head of the staff. The afternoon session of the synod was mostly taken up in receiving and considering reports from the various committees.

Polish Church to Cost \$60,000.
Funds for the erection of a \$60,000 church by the Polish residents of Hamilton will be raised by the contribution of a day's wages once a month by each of several hundred Poles, who have pledged themselves to finance the project in this manner. Work on the edifice has already been started and will likely be completed next summer. The church will be one of the finest in the city.

Sixty-eight new applications for membership in the board of trade were reported at the mid-day luncheon today in connection with the board's membership campaign, which opened to-day.

After Coal Oil Nuisance.
HAMILTON, Sept. 26.—Dr. Roberts, medical health officer, to-night expressed the opinion that the board of health should take a hand in the coal oil nuisance, as no immediate relief is promised by the board of control, which body apparently intends to defer the abatement of the nuisance until such time as it can afford to fill in the entire lot, instead of going ahead and filling up the small part in which the real nuisance exists at present. The board of health was unable to transact any business at its scheduled meeting to-night, on account of the lack of a quorum.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1906. Modern and strictly first-class American plan. Rates \$1.50 to \$2.00 per day. Thos. Hanrahan, proprietor. Phone 1466.

Mrs. Kingdon's Body Arrives.
NEW YORK, Sept. 26.—Among the passengers who arrived to-night on board the steamer Kaiser Wilhelm II. from Bremen, Southampton and Cherbourg, were a number who were on the White Star liner Olympic when it was rammed by the British cruiser Hawke, near Southampton last week. Other passengers were Mr. and Mrs. George J. Gould, who brought home the body of Mrs. Gould's mother, Mrs. Mary Carter Kingdon, who died in Paris this summer; Andreas Dippel, the impresario; and Sir Edgar Speyer.

Hamilton Rulers Here To-day.
The Hamilton city council will be here to-day for the purpose of viewing and studying the local hydro-electric system. They will look for pointers for their own system. Toronto's council will give them a dinner to-night.

A Trial Treatment
of Cuticura Soap
and Ointment Free
to Skin Sufferers

If you, or someone dear to you, are suffering the itching, burning, sleep-destroying torments of eczema or other cruel skin eruption, with its embarrassing, unsightly disfigurement; if you have tried all manner of treatment, no matter how harsh, to no avail, and have all but given up hope of cure, write to-day for a liberal sample of Cuticura Soap and Ointment. Thousands of skin-tortured sufferers, from infancy to age, have found that the first warm bath with Cuticura Soap and gentle application of Cuticura Ointment bring instant relief, permit rest and sleep, and prove the first steps in a speedy and successful treatment. Address "Cuticura," Dept. 20M, Boston, U. S. A.

McPHARLAND CLAIM

Will Soon Be Under Drill—Building at Porcupine.

PORCUPINE, Ont., Sept. 26.—Preparations for starting work on the McPharland claim to the west and north of the Foley-O'Brien by the Porcupine Central Mining Company are on and shot drilling will be under way there very soon. Camp buildings are being put up and this claim may be made the central company.

Building continues at a rapid rate and Porcupine Centre and Lake View localities are rapidly building up. Many excellent buildings are under construction. Teaming to the mines and to Pearl Lake continues as strong as any time last winter when the rush was on. The announcement that the Scottish Ontario would be taken over by an English company that will start work within a month, has started much speculation. That the property has good mines in the mind of many engineers that a new mill and a larger plant must be built at once. The Scottish syndicate step out the last of the week. Stock will be sold.

Chas. Fox.

ARTICLES LOST ON CARS

Ontario Railway Board Will Discuss This Question To-morrow.

To-morrow at three p.m. the Ontario Railway and Municipal Board will hear the city's application with reference to the collection of articles lost on the street cars. The city objects to the loss of the lost property, and down to recover their property. The application of the Toronto and York Radial Railway Company's application for a deviation of their tracks on North Yonge-street will also be considered on Thursday. The board has approved of Berlin's bylaw to raise \$20,000 for the extension of its gas and electric light systems. The appeal of the Ontario and Minnesota Power Company against its assessment in the Town of Port Francis, amounting to \$600,000, will be heard by the board on Wednesday, Oct. 18, as well as the appeal of H. Williams of the same place against an assessment of \$40,000.

VLADIMIR DE PACHMANN TO-NIGHT

The appearance of Vladimir de Pachmann at Massey Hall to-night promises to be a grand opening of the musical season. The recital is under the auspices of the Ontario Musical Association, which will be present. The program is made up of Chopin numbers, and as De Pachmann is a true interpreter of Chopin, all who hear him are assured a rich treat. 400 rush seats at 50 cents each will be on sale at 7.15.

R. C. Y. C. STEWARD HONORED.

At the closing of the Royal Canadian Yacht Club for the season, Mr. C. Lacy, the energetic, capable and obliging steward, was presented by the staff with a handsome leather bag. It was a token of appreciation and affection for one of the best officials the club has ever had and the staff united in the hope that next season would again find them under the management of Mr. and Mrs. Lacy.

A BELFAST MAN IN TOWN.

Mr. R. H. H. Baird, proprietor of The Belfast Telegraph, left town last night for Montreal. In the afternoon he took a drive out to Donlands and the neighboring country with W. F. Maclean, M.P.

Architect Waits Notified.

"Had the city architect's department been notified that the walls of the building at 184 West King-st. were in a dangerous condition, men would have been there to keep the public out of the danger zone when the building fell," said Building Inspector Riddell yesterday.

Welland Jailor Dead.

WELLAND, Ont., Sept. 26.—This evening the death of James A. Allen, turnkey, Welland Jail, occurred at his residence after an illness of considerable duration. He leaves a widow and five children. He was appointed turnkey five years ago from Town of Thorold.

The president and executive committee of the Canadian Society of Applied Art have issued invitations to the private view of their exhibition on the evening of Thursday, Sept. 28, at the gallery of the Toronto Art Museum, Public Library, College and George-streets.

The marriage takes place to-day at 3 o'clock in St. James' Cathedral of Miss Frances Gordon married to Dr. Colin Alexander Campbell.

The Russian pianist, De Pachman, will give a recital in Massey Hall to-night at 8.15 o'clock.

The Women's Press Club will hold its monthly meeting at the Brown Betty this afternoon at 4.30 o'clock. Miss Marjorie MacMurchy will speak on her trip to the coronation.

A dance will be given at McConkey's on Oct. 28, to introduce Miss Marjorie MacMurchy, Jarvis-st.

Mrs. Harold Beatty (formerly Miss Lois Duggan) will receive for the first time since her marriage on Thursday, Oct. 5, at her house, 28 McMaster-ave.

The most noticeable costume at the races yesterday was worn by Mrs. Edward Reynolds. It was a coat to the feet of rich English brocade in a silver grey tint, with the new so fashionable extremely wide revers of minkskin, the same beautiful fur round the hem of the coat and reaching to the knees. With this was worn a large black velvet hat, with a forest of white ostrich on it.

Mr. William and Lady Wiseman are visiting Mr. and Mrs. Frederick Robbins.

Their Excellencies the Governor-General and Countess Grey will be guests of the Lieutenant-Governor of Quebec at a luncheon on Thursday, Oct. 5, and at a garden party at Spadina on the afternoon of the same day.

The Rev. Dr. Gordon, principal of Queen's University, and his daughter, Miss Minnie Gordon, are returning to Kingston this week after spending the summer in the old country.

Mr. Walter H. Harris, C.M.G., London, accompanied by Mr. Harris, arrived in Montreal yesterday. Mr. Harris is lieutenant for the City of London, and a director of the Neaton and Brecon Railway. He has sat on many British commissions since 1892 in various parts of the world.

Miss Laura Smith, who spent the summer in Vancouver, left last week for her home in Ottawa. She was accompanied by Miss Marjorie Lindsay and Miss Fitzgerald, Montreal, who have also been among the holiday visitors in British Columbia.

Mrs. William J. Turk, Vancouver, has returned after a few weeks' visit to Toronto and to Hamilton.

COLONY OF WALDENSES

Rev. Prof. Clet in Toronto on Important Mission.

The Waldenses are said to be the oldest Protestant church in the world, as they were in existence as a protesting body since the days of the Crusades, in the mountains and valleys of Piedmont, northern Italy. Milton celebrated their heroism and Whittier their missionary work. Since 1848, when they were liberated and are branching out in missionary enterprises, organizing churches throughout Italy, Sicily, Malta, Egypt, Syria and elsewhere.

The Waldenses have prospered ones in the U. S. A. and as there are some families scattered throughout Canada, it is the intention of the Waldensian Church to group together in Manitoba. Rev. Prof. Albert Clet, University of Palermo, Italy, official representative of his church for America, is to give stereoscopic lectures in Westminister Church, Sept. 27; Knox Church, Oct. 4; Western Congregational, Oct. 11; and at St. James-square Presbyterian Church evening, Oct. 1; St. Paul's Presbyterian, morning, Oct. 1; Northern Congregational, evening, Oct. 5. His address, while in the city, is at Rev. N. Lacocchini, Italian Church, 51 Elm-street.

MOTORS RACE THRU STREET

Buffalo Contractor and His Chauffeur Arrested.

There was wild consternation in Gervard and Parliament-sts. at 6 o'clock last evening, when two big touring cars went tearing thru the congested traffic of that hour pursued by Motor Cycle Policemen Anderson and Smith. The cars, which were carrying the General Hospital, and the finish was where the crowd of Queen-st. stretched across Parliament-st. When the policemen caught up with the racers, they found that one of the men was a local owner, while the other was Roderick Ryan, a Buffalo contractor, whose car was being driven by Clark McNab, his chauffeur. The two latter were arrested, charged with racing a motor vehicle in the street, while the local man was later bailed. Policeman Anderson says that the time it took him to catch the car, and that it was going all there was in it in the chase.

AGAIN NO QUORUM.

Lack of enough members to form a quorum prevented the meeting of the fire and light committee being held yesterday afternoon. Ald. Hilton, the chairman, is out west, and some of the other members were too busy to turn up.

A MOTION TO HAVE THE CITY ARCHITECT

make periodical inspections of all the grandstands in athletic parks, and links and other public places, and the galleries in all the public buildings of Toronto, would have been brought up had the committee met.

C. N. R.'S Big Tunnel.

VANCOUVER, Sept. 26.—Fifteen hundred men are now employed on the Canadian Northern Railway between Hope and Kamloops. Work is going ahead rapidly on the tunnel of the 200-foot tunnel and on the tunnel in Black Canyon, on the main line at Thompson, near Ashcroft.

CLIMAX OF SELFISHNESS.

CORNWALL, Sept. 26.—Walter E. Omer, aged 46, took two ounces of carbolic acid while sitting in a cab in a local livery yard. He threw out the bottle and a farewell message to his family, who were in the cab with him, was written on the bottle. He was found dead at 3 o'clock this afternoon. In getting into the cab one of the party accidentally discharged a gun, shooting Mr. Switzer in the calf of the leg.

TERSELY PUT.

Andrew Broder, the Abe Lincoln of Canadian politics, was in the city last night. He tells of his French-Canadian constituent who said: "I'm going to work for you, Mr. Broder, because, I say, I don't want no Yankee to have the key of my house."

her old home. Before leaving Toronto she placed her young daughter, Grace, in Haverall College, which school that young lady will attend for the next three years.

Mrs. Berkeley Powell is in town from Ottawa.

Miss Ethel Armour, Perth, has returned to Toronto to resume her musical studies.

Mr. and Mrs. Fred Nettleton are the guests of their son, Mr. S. W. Nettleton, Main-street east, Hamilton.

The engagement is announced of Mr. Joseph Cowles, Montreal, to Miss Anna Augusta Smyth, daughter of the late Mr. Justice Frederic Smyth, for many years recorder of New York. The marriage will take place in New York in the spring. The bride and bridegroom-elect will reside in Montreal.

Miss Gertrude Young left Hamilton yesterday for a two weeks' tour of the Canadian west, accompanied by Toronto friends.

Mrs. Edward Jarvis, Andover, N.H., was in town last week, bringing her eldest daughter to Haverall College.

Mrs. Henry de Blois, Annapolis Royal, N.S., spent a day in town last week on her return from the coast, and a visit to her sister in Regina.

Miss Kathleen Chipman, daughter of Mr. and Mrs. William Chipman, Spadina-ave., will be one of the debutantes this season.

Mr. C. C. Chipman, who for 20 years past has been the manager and commissioner of the Hudson Bay Co., will before the close of the current year, retire from the active direction of the affairs of the company in the Canadian west. The company is to mark its appreciation of his valuable services by granting him an extremely handsome retiring pension. Mr. Chipman will, it is reported, leave Winnipeg, and England is regarded as his probable future residence. It is just twenty years since Mr. Chipman, after a brilliant career in the Dominion civil service, went to Winnipeg to fill the position of assistant manager of the Hudson Bay Co. Since then he has been actively in charge of the company's immense interests in Canada, and has admittedly been a great factor in the growth and development of the company's business in the period.

Chipman has been for two decades one of Winnipeg's first citizens, and his retirement will be an occasion of general regret. Mr. Chipman is a Nova Scotian, born in Amherst, May 24, 1865. During his connection with the Hudson Bay Co., he has been attached to the office in London, and also, as private secretary to Sir Chas. Tupper, took part in the negotiations for the purchase of the Hudson Bay Company, with full charge of all branches of the business in Canada.

COLONY OF WALDENSES

Rev. Prof. Clet in Toronto on Important Mission.

The Waldenses are said to be the oldest Protestant church in the world, as they were in existence as a protesting body since the days of the Crusades, in the mountains and valleys of Piedmont, northern Italy. Milton celebrated their heroism and Whittier their missionary work. Since 1848, when they were liberated and are branching out in missionary enterprises, organizing churches throughout Italy, Sicily, Malta, Egypt, Syria and elsewhere.

The Waldenses have prospered ones in the U. S. A. and as there are some families scattered throughout Canada, it is the intention of the Waldensian Church to group together in Manitoba. Rev. Prof. Albert Clet, University of Palermo, Italy, official representative of his church for America, is to give stereoscopic lectures in Westminister Church, Sept. 27; Knox Church, Oct. 4; Western Congregational, Oct. 11; and at St. James-square Presbyterian Church evening, Oct. 1; St. Paul's Presbyterian, morning, Oct. 1; Northern Congregational, evening, Oct. 5. His address, while in the city, is at Rev. N. Lacocchini, Italian Church, 51 Elm-street.

WOMEN'S AUXILIARY C. M. S.
MEETING AT WINNIPEG

Delegates From Seventeen Dioceses Assemble in Eighth Triennial Conference.

WINNIPEG, Sept. 26.—From as far east as New Brunswick, as far west as the Pacific coast, as far north as the Yukon, delegates assembled in Winnipeg to take part in the eighth triennial meeting of the Women's Auxiliary to the Missionary Society of the Church of England in Canada. Last evening the opening service took place in Holy Trinity Church, at which the Rev. Canon J. H. H. Harris, rector, presided. The service was a most impressive one, and the announcement was made that the thanks offering presented by the various constituent parts of the auxiliary amounted to \$13,251.88.

The first business session took place this morning, there being present about 125 delegates from the eighteen diocesan boards, including representatives of the dioceses of Algoma, Calgary, Columbia, Fredericton, Huron, Keweenaw, Moosemin, New Westminster, Niagara, Nova Scotia, Ontario, Ottawa, Qu'Appelle, Rupert's Land, Saskatchewan, Toronto and the Yukon. In addition to these attended 250 general members, 10 officers and many visitors. The president, Mrs. Patterson Hall of Montreal, delivered an address on the objects of and work accomplished by the auxiliary and the need for more volunteers for service in missionary work. The work already done by the members in the mission field was told in the report of Miss Bogart of Ottawa, the corresponding secretary, while Miss Rynnes of Montreal, the recording secretary, reported a membership to date of 41,697 in 163 parochial branches, an increase of 860 members and 23 branches during the past three years. The Dorcas secretary, Miss Halsey of Toronto, announced that the expenditure in this department of the work during the three years had been \$70,290.87 and 2389 1-2 bales of goods sent out. This expenditure includes a large amount of church furnishings.

Mrs. George Greene of Ottawa, delivered an account of the Edinburgh conference, at which she had been present last year.

The delegates were afterwards entertained by the Lieutenant-Governor of Manitoba and Mrs. Cameron at a reception.

HARRIMAN MAGNIFIERS WOULD STRIKE.

Davenport, Iowa, Sept. 26.—Resolutions declaring for a strike of magnifying glass makers and dealers, and contents of the Harman magnifying glass makers' union, were adopted by the International Association of Magnifying Glass Makers in convention here late to-day.

FIRE IN CAN. TRANSFER CO'S STABLES.

Threatens to Spread to Hotel.

Fire, which broke out in the hayloft of the Canadian Transfer Company's stables in Front-street, just west of the Union Station, damaged those premises and contents to the extent of \$2000, at four o'clock yesterday afternoon. Only hay, other feed and a feed chopper were burned. The damage to the building was \$1000 and to the contents \$1600.

The fire was a hard one to fight owing to the dense clouds of smoke, thru which a number of the drivers and stablemen succeeded in getting out forty horses stabled there and a great quantity of harness. One of these horses, a bay, was severely injured and was taken to the Daily Hours, across the street, but the firemen were able to restrict it to the building where it started. The cause is unknown.

FIRE, FIRE, FIRE.

Five-year-old Harvey Johnston, 44 Hook-ave., West Toronto, was struck and killed by motor car No. 22, owned by Taxi Cabs, Limited, and driven by J. B. Finney, 46 Cameron-st., at noon yesterday. G. S. Beck, H. R. Tilley and Mrs. Tilley were in the cab at the time, on their way to Lambton Golf Club. The lad was in the roadway in Dundas-st., near Bruce-st., when he was struck. As the cab approached the boy started to run across the street. He was struck down and when the cab was stopped, he was carried into Dr. G. W. Glendinning's office. There he died. Coroner Glendinning opened an inquest at William Spear's undertaking rooms in the afternoon, which was adjourned till Sept. 28 at the city morgue.

KILLED BY TAXI.

RAISE STANDARD OF INDIANS

Methodist Mission Board Favors Special Schools in Alberta.

The third session of the general board of the Methodist mission board was held yesterday in the Methodist church, Toronto. The board decided to ask the government to give more protection among the Indians from intemperance and immorality, and will urge that government officials be appointed to look after this work. The board also decided to build three Indian schools in Alberta, with a home for boys in Port Simpson.

Rev. C. C. Farrow delivered the report of the Indian Educational Commission, showing that there were twenty missions in Ontario and Quebec, at an average cost of \$25,000 to the board. The total membership of the schools was 2000. The report of the Indian Educational Commission was given by H. H. Fudge, J. W. Flavelle, and the report on the work in Canada.

At the morning session Rev. Geo. Steele, president of the board, called attention to the work of the board in the past year, and Dr. Young to assist him. Rev. Mr. Hickman was appointed chairman of the committee on home missions, and Thos. Hilliard secretary. The foreign missions committee reported that the total receipts of the board, as given in the Treasurer Fudge's report, amounted to \$62,181.86, the expenditures amounting to \$58,200.38, leaving a balance of \$3,981.48, and \$14,444.44, respectively.

It was decided to use the sum of \$100 for the purchase of a new building. A special committee was appointed to consider the advisability of raising the stipends of the missionaries.

"LADY NAPIER" DILICT.

ST. JOHN'S, N.F., Sept. 26.—When the crew of the British brig Lady Napier were forced to abandon their vessel in the ocean about ten days ago they were fortunate in having within signalling distance the British schooner Mildred, which towed them aboard and brought them here to-day.

The Lady Napier, a 26-ton craft, left St. John's on Sept. 10, bound for the north coast of Labrador. Captain Dean decided that his crew's safety demanded abandonment and hailed the Mildred, who was bound for St. John's from Oporto.

LEGISLATIVE JOURNALS LOST. Alexander Fraser, provincial architect, in the late test case called attention to the fact that the Journal of the Legislative Assembly for Upper Canada, now known as the Ontario Legislative Assembly, was lost for the years 1794, 1795, 1796 and 1797, and for the years 1800, 1801 and 1802, as missing. Mr. Fraser thinks that the copies either were sent from Canada to London as was the custom, or if they were sent the vessels carrying them have been captured by French men-of-war. The general belief, however, is that the journals found their way to London, and were inadvertently mislaid. They may yet be found.

Rev. R. B. Cochrane Called. WOODSTOCK, Sept. 26.—Rev. R. B. Cochrane, who succeeded Rev. Dr. R. C. Mullen as pastor of Knox Church, has received a call from the congregation of Zion Presbyterian Church, Bradford, of which his father was at one time pastor. He has not yet decided whether he will accept the call or not.

Laymen's Missionary Conventions. H. K. Cusker, secretary of the Canadian Laymen's Missionary Movement, returned yesterday from London, where he has been meeting the laymen of the district, preparing plans for the fall conventions.

Harper, Customs Broken, McKinley Building, Jordan St., Toronto, ad

Must Pay Employee's Wages. Judge Moran yesterday morning gave judgment in favor of L. B. White, who brought action against the Empire Theatre for five dollars, because he was discharged without a week's notice.

Thought It Was Abused. A crowder, who lives at 24 Simcoe-street, thought that Fountain the Tailor should pay him twenty dollars for ripping his coat while cleaning it. Judge Moran thought differently, and dismissed the action yesterday morning.

THE WEATHER

OBSERVATORY, TORONTO, Sept. 26. (5 p.m.)—Rain has fallen to-day in the maritime provinces, while elsewhere in Canada the weather has been fair. Warmer conditions have prevailed in the west, but from the lake region to the Atlantic it has been very dry. Weather changes have been very rapid.

Minimum and maximum temperatures: At 10 a.m., 44°; at 4 p.m., 48°; at 10 p.m., 44°; at 11 p.m., 42°; at 12 a.m., 40°; at 1 a.m., 38°; at 2 a.m., 36°; at 3 a.m., 34°; at 4 a.m., 32°; at 5 a.m., 30°; at 6 a.m., 28°; at 7 a.m., 26°; at 8 a.m., 24°; at 9 a.m., 22°; at 10 a.m., 20°; at 11 a.m., 18°; at 12 a.m., 16°; at 1 a.m., 14°; at 2 a.m., 12°; at 3 a.m., 10°; at 4 a.m., 8°; at 5 a.m., 6°; at 6 a.m., 4°; at 7 a.m., 2°; Mining Markets Moving in Rut of Lethargic Trading

Speculation Still at a Low Ebb With Little Improvement Shown

Porcupine Issues Record Only Restricted Price Changes Under Decidedly Narrow Transactions—Cobalt Pick Up a Little.

World Office.
Tuesday Evening, Sept. 26.
Mining stocks showed a small improvement in the market to-day, restricted advances in the Porcupine issues reflecting a change for the better in speculative sentiment. Trading continued at almost unimpaired volume, however, and in consequence the action of prices attracted little interest.

There has been a remarkable falling off in speculation in the gold mining securities during this week, and this is taken as indicative of a decided lessening of professional operations pending the inception of a broader public interest which would make such transactions profitable.

The improvement in the market to-day was due largely to the smaller volume of offerings on the decline, and a medium of short covering being in evidence, prices rallied to a slight extent under that influence.

Hollinger was in poor demand during the morning session, and under realization lost an additional 20 points, the shares getting down as low as \$11.15. The recession was made up later, however, the stock recovering to its former level of \$11.70.

The cheaper issues moved in a lethargic manner through trading being of little more than nominal volume in the majority of instances, and price changes being few and far between.

Domestic Extension, Vipond, and Preston East Dome sold in small quantities, and recorded fractional advances. Other than this there was no apparent change.

The best bid on Dome Extension at the opening was 60, but the stock was held firmly three points higher, and the bid quotation was raised from time to time, these did not prove attractive to holders, only one block of the shares changed hands on the Standard Exchange, this sale being put thru at 63 1/2.

There was more extensive trading than usual in the Cobalts, with Beaver and Timiskaming the features in this respect. The former issue sold up to 50 again, but Timiskaming proved immovable around 34. Crown Reserve was up a few points at 255.

There was more extensive trading than usual in the Cobalts, with Beaver and Timiskaming the features in this respect. The former issue sold up to 50 again, but Timiskaming proved immovable around 34. Crown Reserve was up a few points at 255.

BEWICK-MOREING CO. TAKES OFF THE LID

Northern Ontario Exploration Answers Criticism by Clearing Up Some Veiled Transactions.

In response to the continued agitation for information concerning the internal affairs of the Northern Ontario Exploration Co., the secretary has sent a statement to Canadian brokerage houses which throws some light on the questions under dispute. It is also stated that the directors will issue an interim report and statement of accounts up to June 30.

The following information is contained in the letter:

1. Up to Sept. 15, 1911, there had been issued 119,425 shares of one pound each of the company's capital.
2. Options are outstanding on the balance of the unissued capital, namely 280,575 shares.
3. There is no stock in the treasury free from options.
4. The Northern Exploration Co. still owns 6000 shares of Hollinger.
5. The company also owns 165,900 shares of Ontario Porcupine Gold Fields Development, fully paid, also 17,250 shares on which 15 shillings per share is paid, and 96,580 shares on which 10 shillings per share is paid.
6. The company has cash on hand of \$25,000, or approximately \$425,000.

GREAT TONNAGE INCREASE AT PORT OF MONTREAL

Tremendous Growth of Flour Trade Is Shown During the Year—Manufactures Multiply.

MONTREAL, Sept. 26.—So far this season there is an increase of 11,248 tons in the tonnage of incoming vessels over the same period last year, and an increase of \$7,144 tons in the tonnage of outgoing vessels. Up to outward registered tonnage. Up to the tonnage of the inland tonnage so far this season to be 1,680,248, and the outward tonnage for the same period 1,649,132, with several ships still in port.

The arrivals this year number 570, while last year the number was 560, an increase of nine, which includes all classes of vessels, coastwise and schooners from the lower ports.

A remarkable feature of the year is the tremendous increase in the flour trade, which has doubled itself every year, and further shows that there is more money spent in the manufacture of flour in Canada, which has developed tremendously. Especially has the manufacture of flour developed in the port of Montreal and in the province of Quebec.

Along the waterfront, the water level in Toronto Bay lowered yesterday to six degrees below the zero point; this is certainly low for September.

With a cargo of 285,000 gallons of gas oil, barge No. 41 of the Queen City Oil Co. was towed into the harbor yesterday from Cleveland. The oil is valued at about \$600.

RECKLESS MOTORIST FOUND GUILTY BY JURY

Alexander Tracey Convicted of Criminal Negligence—Recommendation for Clemency.

After an hour's deliberation, the jury in the general sessions yesterday afternoon returned a verdict of guilty against Alexander S. Tracey, who ran his motor car into a crowd of people at the corner of Boscawen-avenue and Queen-street on the evening of Labor Day.

Mr. Henderson for the defence read the testimony of his client while in the witness box the previous afternoon, and pointed out how he had sworn that the car was brought to a standstill before reaching the corner, and that the brakes had suddenly failed to work. The car sprang forward, throwing the people to both sides of the road.

Acting Crown Attorney Monahan in addressing the jury reminded the jurors that Tracey's words after alighting from his car were, "Have I injured anyone?" "Now, that is exactly what a man under the influence of liquor would say, and if he ran his car into a crowd of people, it is his duty to stop and see if he is guilty of criminal negligence."

The jury in presenting its verdict asked for mercy on behalf of the prisoner. Tracey will appear at the close of the sessions for sentence.

Overcrowding Case Adjourned.
The overcrowding case against the Toronto Street Railway was adjourned in the court of appeal yesterday, to a date to be agreed on by counsel, or to be brought in on two days' notice.

Woman Stole Comb and Vase.
Miss Elizabeth Parson was found guilty in the general sessions yesterday afternoon of stealing a comb and a vase from the S. H. Knox store on Sept. 6.

Spiders as Mosquito Enemies.
Spiders are in high favor among Roumanian peasants as the deadly foes of mosquitoes, and bushes designed especially for these pests have been planted along the Danube. Both mosquitoes and spiders are very abundant. Trees covered with a thick veil of webs are common in places near the river, and the influence of the spiders has been put to a practical test by cutting down a considerable number of these trees. The immediate effect was an enormous increase in the mosquitoes.

Stole Mining Stock.
For theft of a quantity of mining stock, George H. Bourne was sent to jail for 60 days from police court yesterday morning. He had taken something like 7000 shares.

College-street Grocer Assigns.
An assignment has been made by H. A. Cooper, grocer of College-st., to E. R. Clarkson. The assets are about \$450 and the liabilities are in the neighborhood of \$750. The failure was caused by too keen competition.

More Room for Detectives.
The civic property committee decided to recommend that \$1500 be spent on five new quarters for the local detective force, at the their meeting yesterday.

The new quarters will be over the Albert entrance to the city hall. Some other small matters were dealt with.

Sentiment on Wall Street Assumes More Cheerful Attitude

BANK OF EGYPT FAILS

Big Institution Forced to Wall Thru Cotton Crop Failure.

LONDON, Sept. 26.—The Bank of Egypt, with headquarters in this city, has failed. A liquidator will be appointed. The closing of the institution is attributed to the partial failure of the cotton crop.

The institution, which was established in 1868, had a subscribed capital of £1,500,000, of which £825,000 was paid in.

The suspension came as a big surprise, who at the last annual meeting of the bank it was announced that the profits had decreased because of the had cotton crop and keen competition. It is expected that the institution will be able to meet its liabilities.

R. L. Barclay is chairman of the board of directors, which includes Lord Grenfell and Lord Baltimore. From 1896 to 1906 inclusive, the bank paid annual dividends of from 12 to 18 per cent. In July, 1910, four per cent. was paid on the account of that year.

LONDON IRREGULAR

Lower Prices at Opening Made Up Late in Day.

LONDON, Sept. 26.—Money was in demand for the settlement to-day and discounts hardened to near the rate of the Bank of England.

The stock market opened heavy on the suspension of the Bank of Egypt, and gilt edged securities were most affected. Consols fell, but later the losses were recovered and the market closed firm. Kaffirs and Mexicans fell, but Turkish bonds and Ottoman banks were weak.

American securities opened weak under liquidation, but recovered on covering of shorts. The whole market weakened upon the receipt of the New York opening quotations, but later recovered sharply under the lead of the United States Steel stocks, which jumped 2 1/2 points over the final New York prices of yesterday. The closing tone was firm, with prices at the highest point of the day.

EUROPEAN BOURSES.

BERLIN, Sept. 26.—The threatened trouble in Italy and Italy over Tripoli restricted trading on the bourse to-day, but prices with a few exceptions ruled fairly steady.

PARIS, Sept. 26.—The tone of the bourse was quiet and prices generally firm, except Turkish and Italian securities, which were depressed.

Tobacco Trust Reorganization.

NEW YORK, Sept. 26.—Monday's conference over the disintegration of the American Tobacco Co. resulted in a plan being prepared which offers a satisfactory solution of the entire trust problem, according to the statement of a prominent lawyer to-day.

It is stated that the plan provides for the formation of three new companies out of disintegrated parts of the present trust. The stock's assumption that there would be a multitude of small companies is said to be entirely wrong.

Estimated Steel Earnings.

NEW YORK, Sept. 26.—Net earnings of U. S. Steel for current quarter are expected to run close to \$30,000,000, comparing with \$27,355,000 previous year.

Union Pacific Changes.

NEW YORK, Sept. 26.—Union Pacific will probably announce this week a change in internal organization referred to by President Lovett last month. Lovett will continue chief executive officer, but it is rumored Vice President Kruttschnitt may be made president in charge of operations.

Trusts are Reorganizing.

NEW YORK, Sept. 26.—The "power trust" is making preparations to reorganize in order to conform to the decision of the U. S. Circuit of Delaware. A plan will be announced in the near future.

International Harvester Co., in order to conform to Sherman law, will probably discontinue its selling agent and issue new selling contracts.

New Listing.

The securities of the Canadian Locomotive Co. Ltd., have been listed on the Toronto Stock Exchange as follows: \$2,000,000 of the common and \$1,000,000 of the preferred stock and \$1,000,000 bonds.

Bank Merger Denied.

LONDON, Sept. 26.—Announcement came across to the effect that the Colonial Bank is about to be absorbed by the Royal Bank of Canada received official denial from both offices. Tentative negotiations were under way some time ago, but have fallen thru for the present.

Stock Market Less Turbulent And Undertone Turns Stronger

Sharp Break in Early Trading Followed by Recovery—Nervousness Still in Effect—Toronto Market Easier.

NEW YORK, Sept. 26.—Trading in stocks was less turbulent to-day and changes less violent than during yesterday's upheaval. The tone was distinctly stronger. A sharp break occurred in the early trading, and for a time it appeared as if another breathless plunge downward was imminent. But the market soon reacted and during the remainder of the day ruled well above the low point.

It was apparent at all times that the demand was considerably enlarged. The change was pronounced during the last hour, when the market rose rapidly under the influence of spirited bidding. United States Steel rose 1 1/2 points above yesterday's close and ended the day with a net gain of a point. The preferred gained 1/2 point on the day. Reading, Leligh Valley, Canadian Pacific and American Smelting closed a point or more higher and the Hartman issue nearly as much.

Despite the showing of strength in to-day's market, the nervousness of recent days did not disappear. Attorney-General Wickham's statement of the government's attitude regarding enforcement of the Sherman law did little to clear the situation. Wall Street had hoped for definite information as to what was in store for the United States Steel Corporation, and expressed some disappointment because the attorney-general was unable to disclose his intentions. The deduction drawn in some quarters was that the tenor of the statement indicated that a dissolution suit was to be filed and the early break was ascribed largely to selling on the theory that the company was driven to cover.

The buying appeared to be largely the result of an extensive demand for the shorts. There were indications that the market was overvalued in some quarters. Brokers acting in the "clean crowd" said that the borrowing of stocks yesterday morning was the heaviest in many years. In addition to the demand from this source, there appeared to be extensive supporting orders on any appearance of weakness. Speculative sentiment was undoubtedly helped by the general belief that a satisfactory plan had been agreed upon for dissolution of the American Tobacco Company. It was argued that it had been found possible to liquidate the corporation on terms upon which its active heads felt it possible to agree with the officials of the government, similar results were expected in the case of other corporations should their dissolution be required.

Aitchison's August statement, showing a decline in net earnings of \$671,000, was a much poorer showing than had been expected. The stock sold off on the basis of the statement, but was subsequently recovered.

Dealings in bonds were enormous. The total, which exceeded \$5,000,000, was by far the heaviest in many years. Transactions in the American Tobacco bonds made up a large part of this total, reaching \$3,500,000. The 6 per cent. bonds rose 3/4, and the 5 per cent. bonds rose 1/2. The general bond market was firm. Total sales were valued at \$17,000,000. United States bonds unchanged on call.

World Oil.

There was no indication of any revival of interest in the Toronto stock market to-day, speculation continuing of decidedly small volume and thereby putting an effective check on professional operators, which might have otherwise given a more lively appearance to the exchange.

A slightly active issue, the list seemingly dragging toward lower prices of its own weight. This was due to the fact that the market was in evidence, and to the disposition to take advantage of the firmer tone, which developed after the elections.

The idea is being expressed by local traders that something out of the ordinary will have to develop before the list can be lifted out of its chronic state of lethargy. The market has proved absolutely impervious to the influence of Wall-street, yet it refuses to make a move toward higher levels, and the continuous sympathy is causing not a little disappointment to the brokers, who looked for the passing of the elections to impart a certain amount of confidence.

Easier Trend in Evidence.

An easier trend to values was in evidence from the opening of the market, and under the combined influences of an apathetic interest and a tendency to realize on holdings, values gradually succumbed. In no instance, however, was the record of material volume, the market in the main holding comparatively steady with the previous day.

A decline in a full point in Bell Telephone was the feature of the early trading, but since this was recovered in its entirety later in the day, the incident did not occasion more than passing comment. The shares held between 152 and 153, while the rights for the new stock issue, changed hands around 3-1/2.

Half-point losses were registered by Toronto Railway, Sao Paulo, and Steel Corporation. But preferred lost a full point at 114 1/2 on one sale, while Canadian was still weaker, the shares dropping back to 7 1/4, a recession of 1-1/2. There was a modicum of trading in the bank stocks, and both Standard and Dominion showed advances, but these were not of material volume, and were set down as purely tentative for the present.

Charles Head & Co. to R. R. Bondard: There was a furious opening to the market this morning and transactions were on a much greater scale than heretofore. The course of speculation was difficult to fathom. An opening break of 7-8 in Steel was followed by a further break of one point; then by a frantic rally of 2 1/4 points. Ontario Pacific lost two points and then gained three. Evidently the short interest was set to cover without much regard as to prices and it is estimated that the outstanding shorts are now somewhat reduced, and this fact, coupled with the market will be lessened in the future. The borrowing demand for stocks this morning was very insistent, many loans being made at high rates, revealing a much overvalued position. London buying was in evidence, that city taking over \$5,000 shares on balance. Closing was at near highest, with the conditions rather feverish. There still remains a lack of outside interest, however. We think it likely that the rally will carry still further.

ON WALL STREET.

Erickson Perkins & Co. (J. G. Beatty) wired: The stock market showed good resistance power in the late trading and some of the best prices were made just before the close. Stocks are at a more attractive level now for trading and they may be bought on a moderate recovery in prices.

Charles Head & Co. to R. R. Bondard: There was a furious opening to the market this morning and transactions were on a much greater scale than heretofore. Charles Head & Co. to R. R. Bondard: There was a furious opening to the market this morning and transactions were on a much greater scale than heretofore. The course of speculation was difficult to fathom. An opening break of 7-8 in Steel was followed by a further break of one point; then by a frantic rally of 2 1/4 points. Ontario Pacific lost two points and then gained three. Evidently the short interest was set to cover without much regard as to prices and it is estimated that the outstanding shorts are now somewhat reduced, and this fact, coupled with the market will be lessened in the future. The borrowing demand for stocks this morning was very insistent, many loans being made at high rates, revealing a much overvalued position. London buying was in evidence, that city taking over \$5,000 shares on balance. Closing was at near highest, with the conditions rather feverish. There still remains a lack of outside interest, however. We think it likely that the rally will carry still further.

FIGHT TO LAST DITCH.

NEW YORK, Sept. 26.—A meeting of the directors of the United States Steel Corporation was held this afternoon to consider whether the company is immune from the Sherman law under the supreme court decision. Judge Gary, the chairman of the board, refused to discuss the matter after the close of the meeting, but hinted that a statement would be given out soon.

The following statement concerning the steel outlook was read at the meeting: "Extensive conditions are affecting business to the extent that, instead of booking contracts for forward delivery, customers are buying only immediate requirements. Nevertheless volume of prompt business is larger than usual, specifications running up to 20,000 tons a day. This represents active business in sufficient volume to operate mills on regular basis for several months to come."

If the final decision of the directors is that the corporation is immune from the Sherman law, a statement will be made that the corporation will fight to the last ditch, should the government attempt to force dissolution. J. P. Morgan attended the meeting.

At the close prices were comparatively unchanged thru the whole list.

TOO MUCH COTTON.

WASHINGTON, Sept. 26.—There was an increase of more than 12 per cent in the supply of raw cotton in the United States during the cotton year, which ended August 31, 1911, according to the census bureau's preliminary report on the supply and distribution of cotton issued to-day. The supply amounted to 13,626,174 bales, compared with 12,109,021 bales for the previous year, when there was a decrease of 20 per cent. from that available in 1909.

Notwithstanding this increase in the raw supply, the consumption of cotton in the United States showed a decrease of slightly more than 2 per cent. over last year and was the smallest during the history of the industry, which, being 4,696,316 bales.

During the cotton year the exports were 32 per cent. greater than during 1910, the year before last, compared with 6,338,028 bales a year ago. The year was fourth largest in the history of the export trade, more than 10 per cent. the total amount, 291,161 bales, being greater than any year in the history of the industry.

COTTON HIGHER.

Market Recovered After Early Slump to New Low Records.

Erickson Perkins & Co. had the following: Further liquidation followed the publication of the weekly weather report, which characterized the past week as extremely favorable for the maturing of cotton and for picking. Private telegrams from Texas reported a weak start to the season, the decline, which brought the market to the lowest prices for this season. Better trade buying was in evidence. Prices regained most of the loss sustained during the closing session. The trade are inclined to look for record gains in the October 2 report, which will be made possible by local conditions. Present prices seem low enough, however, in view of the fact that the top crop this season has suffered more than any other in the history of the industry. Prices are still ahead of us are due for a moderate recovery in prices.

ON WALL STREET.

Erickson Perkins & Co. (J. G. Beatty) wired: The stock market showed good resistance power in the late trading and some of the best prices were made just before the close. Stocks are at a more attractive level now for trading and they may be bought on a moderate recovery in prices.

Charles Head & Co. to R. R. Bondard: There was a furious opening to the market this morning and transactions were on a much greater scale than heretofore. The course of speculation was difficult to fathom. An opening break of 7-8 in Steel was followed by a further break of one point; then by a frantic rally of 2 1/4 points.
