More Need for Bank Reform

The evidence of yesterday in connection with the Farmers' Bank shows how needful it is for public inspection and for an unquestioned medium of circulation. Had there been a public inspector to pass on the first stages of that concern, it would never have opened its doors, or having opened them could it have kept long in business.

Its circulation was a matter of bat-tledore and shuttlecock. Travers could only let it out as he could take care of it in the clearing house. And the other banks saw that it got to him every morning. That is not the best kind of money to have in circulation. The Farmers Bank notes—now lies in the hands of a trust company for other banks, and as yet unredeemed and bearing interest, and if not redeemed out of the assets of the bank—a poor prospect—will have to be paid from the bank note redemption fund. This fund is made up of a percentage on their bank note issue paid into the federal treasury by all the banks. As a matter of fact the notes of the Farmers Bank were not good money—and yet it was bank notes issued under the Canadian banking law! This country and our people are entitled to better money than that! Why should depositors have to redeem a bank's note issue? That is a great query.

We say that it is time that a national or other note issue secured by a proper gold reserve should be the one paper issue in this country, and that its value, currency, and availability in all cases should be beyond question, and beyond attack. We believe such a currency can be provided by the state without recourse to bank notes, and that a withdrawal of the existing privileges to banks in this respect will work them no great injury, but will be a genuine public good.

And one other thing: most of the criticism on the Bankers' Association and its existence under the wing and protection of the Canadian Banking Act turns almost wholly on the fact of bank note circulation!

Also: The Farmers Bank, according to the evidence of yesterday, practically sank all its capital in organization expenses, leaving only its note issue and deposits for business and for the speculation of those who ruined it. What has happened before may happen again. Public inspection would tend to prevent it.

There was lack of caution by the department of finance in issuing the license, and there was no public inspection afterward. Public inspection would not stop everything, but it can at least verify the truth of the sworn statements made from time to time by the banks. It would have located some of the things wrong in the Farmers Bank and in several others that were wrecked before it.

U. S. Senate Imposes Duty of \$2 Per Ton — Many Farm Implements on the Free List.

WASHINGTON, May 28.—(Can. Press.)—After devoting the day largely to the consideration of amendments to the iron and steel bill the senate adjourned to-night without reaching a final vote on that measure. Senator Heyburn held the floor upon adjournment and the understanding is that when he concludes a vote will be taken.

The amendments adopted place a long list of farm implements on the free list; repeal the Canadian reciprocity law and provide for a duty of \$2 per ton on iron and steel and reduce the duty on pig iron to 6 per cent, and that on ferro-alloy to 30 per cent. There was a prolonged and sharp controversy over an amendment by Senator Pomeroy of Ohio to take machine tools from the free list, as the house provided, and fix a duty of 20 per cent on them. This was defeated by 42 to 14.

Senator Gronna first proposed the repeal of all the reciprocity laws except the second section which permits the free admission of print paper from Canada.

Came as Compromise.

Senator Gallinger moved as an amendment the repeal of the reciprocity laws, including the paper provision. This was accepted by Mr. Gronna, who withdrew his own amendment in its place. The effect of the success of the Gallinger amendment would have been to restore the Payne-Aldrich rate of \$25 per ton on print paper and Senator Cummins declared his unwillingness to do so. He then proposed a rate of \$2 per ton, which was accepted. The vote on this amendment stood 41 to 27.

Senator Cummins stated positively that if it should become a law, the provision of \$2 per ton on print paper from all countries, as well as on that from Canada.

SAYS DARROW DIDN'T SPEAK OF BRIBERY

LOS ANGELES, Cal., May 28.—(Can. Press.)—Bert H. Franklin, former chief of detectives for the McNamara defence, entered into the details of the alleged bribery of George N. Lockwood by himself at to-day's session of the trial of Clarence S. Darrow, on the indictment charging Lockwood's bribery. Franklin was seen under examination when the trial was adjourned until Friday morning.

The prosecution sought to connect Darrow with the alleged corruption of Lockwood, but Franklin repeatedly testified that he could remember no specific conversations with Darrow concerning Lockwood.

Just prior to adjournment, Franklin testified that he met Darrow at a local cafe, where the latter was dining with Lincoln Steffens, the magazine writer. At that time he said Darrow took from his pocket what purported to be a list of the Ninth McNamara jury venire, concerning Lockwood, the magazine writer. "He called my attention to two names on the list," said Franklin, "and said that looks better than the other."

"One of the names was Lockwood," said the witness. He was not asked the other.

ADDITIONAL EVIDENCE IN FARMERS' BANK CASE

Travers Tells Story of the Ontario Government Deposit and the Loan to The Toronto World—Plot to Get \$150,000.

"What do you think the plot was for?"

"The plot was to beat the Farmers' Bank out of \$150,000."

The above was the startling disclosure made by W. R. Travers to Sir William Meredith at the Farmers' Bank enquiry yesterday afternoon. The former manager uttered the statement after explaining to the commission how several Americans attempted to cheat him out of \$150,000 in currency, which he carried to Syracuse in a satchel for the purpose of making a loan.

There still remains work for the city detectives to do in connection with the investigation. A ledger has disappeared, and Sir William advised Mr. Hodgins to get the police to search all the offices for this and the rest of the missing documents.

Gave Option.

"What can you say, Mr. Travers, about the Keely mine affair?" enquired Mr. Hodgins.

"Only that I differ with Mr. Clarkson. I gave an option to a man in New York for a one-quarter interest in the Keely at \$600,000. It was given in 1910. When the option ran out I refused to renew it. That is the only reason that the deal fell thru."

"I understand you to say that you

Special Committee of Board of Education Advises That New Position Be Created—Protestant Members Held Meeting to Consider Names of Men Suitable for Position

The board of education committee appointed to report on the supervision of the schools on the retirement of J. L. Hughes, drafted its report last night.

The board will be advised to appoint a director of education to superintend both the high and public schools.

It transpired that while the formal meeting was held last night, a previous one had taken place at a leading restaurant of Protestant members, where the trustees present had considered the names of those considered eligible for the position.

Friends of Dr. Embree, Inspector Chapman and Dr. Merchant, are pressing the claims of these educationists for the appointment, while it is also said that Prin. McKay of the technical school, formerly chancellor of McMaster University, has only to hold out his hand to be proffered the position.

Principal McKay, however, is reluctant to give up the direct work of education, which he has done for many years on the broad and comprehensive basis which his plans for the new building and curriculum involve.

DUKE'S VISIT OF 22 YEARS AGO

Shown Over General Hospital by Dr. O'Reilly—House Surgeons of the Time Have Achieved Prominence.

Twenty-two years ago to-day H. R. H. the Duke of Connaught visited the Toronto General Hospital. He is inscribed in the hospital by the late Walter S. Lee, chairman of the board of trustees and D. A. O'Sullivan, M.D., John L. Bialick, George Gooderham and Mayer E. F. Clarke. He was conducted thru the hospital by Dr. Charles O'Reilly, medical superintendent from 1878 to 1905, who is today the only one living of that party.

Dr. O'Reilly, during his regime of 20 years, had the honor to receive the Countess of Dufferin, Marquis of Lorne, H. R. H. the late Prince Leopold, Lord and Lady Lansdowne, Lord and Lady Aberdeen, H. R. H. the Duke of Connaught, and many more notables interested in hospital work.

The house surgeons on duty when the duke visited the hospital in 1890 were Dr. L. F. Barker, professor of medicine, Johns Hopkins University, Baltimore, successor to Sir William Osler, Bart., now at Oxford; Dr. Thomas Callen, professor of surgery, Johns Hopkins University; Dr. Charles F. McGilivray, Whitby, president of Ontario Medical Association; Dr. Roland Hill, Chicago; Dr. R. M. Hillary, Aurora, and the late Dr. Owen McCarthy of Niagara Falls, N. Y. Miss Selwyn was superintendent of nurses, and A. F. Miller, secretary of the hospital at the time of the visit.

MAKING FARMERS IN NEW ZEALAND.

The government of New Zealand intends to educate young farmers in future.

The cabinet has allotted a large sum for the immediate erection of apprentices' quarters at an experimental farm outside of Wellington. The lads will be instructed by officers in the agricultural department. After three months' training, a slight remuneration will be paid, increasing in proportion to the degree of industry and ability.

PHONE INDEPENDENTS UNITE.

WHITEBY, May 29.—The Merham, Pickering, Clarendon and Ashburn, and a number of other independent telephone companies operating in York and Ontario Counties, to-day, thru their shareholders, voted to amalgamate and to take the name of the Home Telephone Company.

This is of historic interest, as reviving the old time title of the Home District, which included the territory wherein those companies were established.

President Alf. Hoover, while here to-day, was the recipient of many congratulations upon this auspicious event in the evolution of the independent telephone enterprises.

Extensions of the Home Company from this, the county town, to Brooklin and Port Perry, are now under way.

SHIP OWNERS DECLINE TO NEGOTIATE

LONDON, May 29.—(Can. Press.)—The hopes for a speedy settlement of the dock workers strike were disappointed to-night by the refusal of the ship owners to accept the government's invitation to meet the representatives of the men at a joint conference of the board of trade on Friday next. This decision was reached by the London ship owners' dock labor committee this afternoon, and was announced in a letter to Sydney Buxton, president of the board of trade, in which they state that they failed to see where any good can arise from attending such a conference.

Apparently the ship owners were resolved to fight to a finish, relying upon the government to afford protection to whatever workers are employed.

The main issue now dividing the two parties concerns the status of non-union labor.

NOT MUCH OF A SEASON!

Still the ceaseless rain, following the ceaseless cold—five months of steady cold or steady bad weather. Many a farmer has not yet got in his crop! The universal cry, when such a winter and spring!

Yet the trees have leafed out at last. And fruit blossoms have come along. Never better pasture, and clover more lush. Fall wheat that was not winter-killed is almost rank. But there have been no bright spring days the June is to-morrow. Lilies scent the garden air; but there is no pleasure in a soggy garden.

As altogether unusual and unpropitious spring. No suggestion of song or the blithe verger of the poet in either farm or garden. The world would sooner swear if they must. As for outside work generally it is nearly all at a standstill. And yet, somehow a lot of things are muddling along. There is an absence of all cheerfulness in the spring—that about his off.

EVERYTHING UP BUT PAY OF POLICEMEN

Food and House Rent Have Increased Nearly 100 P.C. in Seven Years, While Salaries Paid to Constables Have Increased Only \$200 a Year, With 7 P.C. Off for Pensions

"Everything goes up but a policeman's pay," was the way one disgruntled "cop" put it to the World yesterday. Every other policeman met on the beat or in the sacred precincts of the city hall had the same thing to say. Some of them even swore about it when none of the officers of the morality department are near. And even the dread of the eagle eye of "Togo," the watchful watchdog of the chief, is not enough to quell their protest.

One of the men, who is loaded with statistics, pointed out that seven years ago the pay of second, third and first-class constables was \$600, \$700 and \$800 respectively. Now it is only \$600, \$700 and \$1000 respectively. Added to this there are service badges, of which about half a dozen men have five. Others have less numbers of them, and they bear ten cents a day. Every man must pay out seven per cent of his salary into the pension fund, which nets them half pay on retirement. The men say that nowhere else is this assessment so high, and in most places the fund is carried by the municipality.

Everything Up But Wages.

Harking back to the seven year standard, the policeman pointed out that then it was possible to rent a house for from \$15 to \$17 per month. The same house to-day costs him from \$20 to \$25, and there are only a few at the \$20 mark. He pointed out that bread, butter, eggs, milk and meat had just about doubled their price, while the increase in salaries had done nothing by way of a corresponding increase.

The men declare that increases to officers have little bearing on the force for the double reason that there are so few them and that owing to the desperate way in which an officer holds on to his job the men beneath him see the hope of ever securing any of these none too enviable plums fading and dying with the advancing years. They say that after all only a few can hope to be officers, and that the only way to hold the force together and to attract desirable recruits is to make the life of the common or garden constable one of at least ordinary comfort and attractiveness.

City May Take Small's Pond And Resell Land

As Necessary Part of East End Sewerage System—Could Resell Reclaimed Land.

While the owners of Small's Pond are considering a scheme to drain it off and convert the land to building purposes, the city is said to be contemplating something along somewhat similar lines. To provide sewerage disposal for that part of Riverdale north and northeast of the pond, a section that is filling up fast, some intricate piping problems must be solved. It is believed that the solution to the difficulty of draining this uneven section of the city is that the main sewer pipes be laid thru the ravine in which runs the tiny creek that feeds the pond, thru the pond bed, and then under Queen-st. The city's engineers have found this the most feasible way of overcoming the difficulties of grades. It is a way that would save considerable in cost, as well.

Fifty More Houses For N. Toronto

Purchases of lots during the last ten days that total \$75,000 are reported by the Dovercourt Land Company on their Gleds Manor property in North Toronto, just beyond the city limits. A quarter of the original offerings has now been sold off, chiefly to builders and people who will build homes for themselves. Fifty houses that will aggregate a quarter of a million dollars in cost, will be under way on this property next month. As many more will probably be started before the end of the summer. The Town of North Toronto is arranging now to supply water to all these new additions to the assessment roll.

Hugh Munro Bought 50 Ac. Forsyth Farm

It is learned that the John Forsyth farm on the corner of Yonge-st. and Mercer-ave., was not bought by Canadian-Northern land interests, but by Hugh Munro, M.P.A., of Alexandria, Ont. The deal was closed last week by Mr. Proctor of Geo. M. Proctor & Co. The fifty acres brought \$900 an acre. Mr. Munro bought the property for investment.

Malta Conference To Promote Peace

NEW YORK, May 29.—(Can. Press.)—A cable to The Tribune from London says: "Council of war does not describe to-morrow's important and unprecedented meeting at Malta. 'Council of peace' is the true designation," said an official of the foreign office to-day, speaking of the conference. "The meeting is significant of two facts," this official continued. "The first is that the present is a look about your government. The second is that the chiefs of the empire realize the necessity of abandoning attempts to check German naval development. The copulatory is that Britain must strengthen its defences in the Mediterranean."

SIR CHARLES AT OTTAWA.

OTTAWA, May 29.—Sir Charles Tupper, whose train reached here at 1.10, was met by Premier Borden and many of the cabinet ministers, who personally extended their sympathy to the ex-premier on the death of Lady Tupper. TESTAMENT LEAGUE

First Annual Meeting Held and Interesting Addresses Given.

At first annual meeting Tuesday night of the Pocket Testament League of Canada in the assembly hall of the Bible House, College-street, Hon. Sam Blake, R.C., declared that there was never a time in Canada of greater need for the study of God's word than now. If any man doubted it, let him cast his eye back over the past week, he said. One could not attend the Woodbine race course or the theatres without leaving his pocket testament behind, for such places led one away from the path of righteousness. He produced a copy of the Testament that Cromwell had placed in the hands of his soldiers, which he claimed was the instrument that made the "Ironsides," his great regiment, "Was not that their object to make all young men and women invincible against sin and vice?" asked Mr. Blake.

He called the higher critics the enemies of God and man. The Christian church was just as much enslaved to-day by higher critics as the church of Rome was by traditions. Young men and women must have the true light. Nothing else would save them or would drive out their selfishness. John Firstbrook, president of the league, presided over an assembly which, while small, represented the leading churches and secular organizations in Canada. Addresses were made by Rev. Jesse Gibson, Ven. Archdeacon Coyle, George A. Warburton, Rev. E. W. Halpenny, Dr. W. A. Young and W. H. Munro. The annual report presented by Harold A. Waite showed that the league had achieved most successful work. There

HOLLINGER STAMP MILL TO BE ENLARGED--COMMERCIAL REPORTS

IMPROVE COP-UTLOOK REFLECTED IN MARKET

Values Decline in Wheat Fit on Reports of Better Growing Conditions--Corn and Oats Record Losses Under Heavy Selling.

CHICAGO, May 29. -- Statements from Kansas and Nebraska bankers, that crops would be all right if rain came within the next six or seven days, tended to make wheat speculators go slow to-day regarding sensational dispatches sent in by local experts. Largely in consequence the market closed weak, with prices ranging from 1-2c to 5-8c net decline to 1-8c up. Corn showed a loss of 1-2c to 1-4c and provisions finished irregular, varying from 7-12c down to a gain of a shade.

Country offerings of corn exhibited some increase. The weather also was in the main against the bulls, although unseasonably cool and wet in Illinois. Nervous shorts, however, brought about a transient bulge in the May option, apparently without substantial reason. It was a choppy market in oats. Cooler weather was said to have favored the growing crop, but rain was declared to be badly needed in most sections.

Breaks in hog values owing to larger receipts than anticipated had a weakening effect on provisions. Northwest Receipts. Receipts of wheat at northwest primary points, with usual comparisons, are as follows:

European Markets. The Liverpool market closed to-day on wheat 1/4d to 1/2d higher than yesterday, and on corn 1/2d to 3/4d higher. At Berlin, wheat closed unchanged; at Berlin, 1/2c higher, and at Buda Pest, 1/2c higher.

Primarys. Wheat--To-day, Wk. ago, Tr. ago. Chicago 120 120 120. Minneapolis 120 120 120. Peas--No. 2, \$1.20 to \$1.25 per bushel, outside.

Liverpool Markets. The Liverpool market responded to the steady American cables yesterday and at the opening cables light and shorts covered, which resulted in an advance of 1/4d to 1/2d. Following the opening there was strong support in May, which advanced an additional 1/4d to 1/2d.

ST. LAWRENCE MARKET. Receipts of farm produce were 12 loads of hay. Hay--Twelve loads of hay sold at \$23 to \$25 per ton. Market Notes. Jearns Ingham bought 20 calves at \$9 per cwt. 65 lbs. at \$4 to \$5 each; 10 yearlings, at \$3.50 per cwt. 10 sheep, at \$9 per cwt. 11 dressed hogs, at \$12.25 per cwt.

STEADY CATTLE TRADE. DISTILLERY STEERS \$0

Swifts Buy Seventy-six Distillery Fed Steers at \$8 Per Hundredweight.

The railways reported 68 carloads of live stock at the City Market, comprising 27 cattle, 127 hogs, 283 sheep and lambs and 467 calves. The cattle market was reported by the leading buyers to be not any more than steady at Tuesday's prices. The best lot of cattle on the market was bought by James Halliday at \$7.50 per cwt.

Sheep, Lambs, Calves. Western Duns bought 100 sheep at \$5.00 for ewes, and \$4 to \$5 per cwt. for rams; 150 spring lambs at \$4.50 each; 20 calves at \$4 to \$5 per cwt.

UNION STOCK YARDS. Receipts of live stock at the Union Yards were 18 cars--115 cattle, 111 hogs, 27 sheep and 40 calves. Rice & Whaley sold 12 carloads of distillery-fed steers and built up good prices, as will be seen by sales reported below.

MONTEAL LIVE STOCK. Hogs at Lower Prices--Cattle Steady on Recent Decline. MONTEAL, May 29. --At the Canadian Pacific Live Stock Market the receipts of live stock for the week ending May 29 were 89 cattle, 40 hogs, 170 sheep and 1700 calves. The supply on the market this morning for sale consisted of 500 calves, 900 yearling lambs, 1700 hogs and 1500 calves.

MONTEAL PRODUCE. MONTEAL, May 29. --There was no improvement in prices for Manitoba spring wheat and business in consequence continues dull. The demand for oats from local buyers for shipment from Fort William is fair and further sales of round and white winter wheat flour is becoming scarce and prices have a higher tendency. Hired quiet and steady. A fair local trade is passing in butter and cheese, fairly active at firm prices. Eggs active and steady. Dressed hogs have declined 2c per cwt.

Chicago Live Stock. CHICAGO, May 29. --Receipts, 15,000; market steady. Beaves, \$9.00 to \$9.25; Texas steers, \$8 to \$8.75; western steers, \$8.25 to \$8.50; calves and yearlings, \$1.25 to \$1.50; hogs, \$10.00 to \$11.00; sheep, \$4.50 to \$5.00.

Chicago Markets. J. P. Bickel & Co., Standard Bank Building, report the following prices on the Chicago Board of Trade: Wheat--Open, High, Low, Close. Prev. May 1912 112 114 112 112 112 112.

Porcupine Stocks Show Irregular Undernote, With Advances and Declines in Evidence--Cobalts Fall to Reflect Any New Feature.

World Office. Wednesday Evening, May 29. The see-saw motion of the Porcupine stocks in the local mining markets was plainly exemplified in the action of prices to-day. The same narrow trading movement in evidence, and quotations in the main did nothing more than recover the loss sustained yesterday. There were some particular spots in the list even which failed to reflect anything like a buoyant undernote, and these stocks generally closed at small declines. On the whole, therefore, the exchange showed decided irregularity, and at the close it was impossible to classify the trend as being of either a bullish or bearish nature.

STOCK MARKET. The Toronto Stock Exchange closed to-day with a net gain of 1/2 point, or 1/2 cent, over a point above the closing of the previous day. The buying was confined to a few stocks, and the selling to a few others.

STANDARD. The Globe this morning writes from its official representative at South Porcupine. 'At the 100-foot level the Standard Mine has run into a good body of ore. Following an old vein a lens of ore, narrow but rich in visible gold, was discovered and now under further development, four feet wide. A plant is now being installed and development work undertaken under efficient management. The property is now looking better than at any time in its history.'

THE MCKINLEY-DARRAGH-SAVAGE MINES OF COBALT, LIMITED. Notice is hereby given that the Board of Directors of this company, at a meeting held on the 18th day of May, A.D. 1912, declared its regular quarterly dividend of three per cent, also a bonus dividend of seven per cent, making in all a total of ten per cent, on the first day of July, A.D. 1912, on its outstanding capital stock to all stockholders of record at the close of business on the fifteenth day of June, A.D. 1912.

GRON POTATOES. THE MCKINLEY-DARRAGH-SAVAGE MINES OF COBALT, LIMITED. Mining Properties Will Be Used to Raise Vegetables as Well as to Produce Gold. PORCUPINE, May 28. --(From Our Man Up North).--Mine managers in many instances plan growing a crop of potatoes on the company's lowlands and the work of turning the unproductive lands into productive fields is now under way. Whether potato growing will be a success this year depends largely upon the amount of cultivation the earth receives before the seeds are planted. Stumps and roots have to be blasted out following the chopping down of timber.

COAL IS ALREADY FUEL OF PORCUPINE. PORCUPINE, May 28. --(From Our Man Up North).--Men of energetic spirit seek to widen the trading scope and to enlarge upon business out here in Porcupine, under a severe handicap of no roads, to important sections of the camp, while where roads do exist, they are impassable. It is pointed out that the first requisite to a more profitable and increasing business is better facilities for travel. Good roads the year around is the one quick and sure way of reaching the purse of the man who must buy from day to day.

MORE STAMPS FOR BIG MILL. Hollinger Will Increase Its Plant to Fifty Stamps in July. Cyanide Mill at That Capacity. PORCUPINE, May 29. --The order has been placed for ten additional stamps for the Hollinger mill. This will bring the total stamp battery up to fifty stamps. The additional stamps will be 1500 lbs. similar to the ones already installed, this being 250 lbs. heavier per stamp than the stamps at the 'Dome Mill'.

PROFITABLE. The annual report of the Standard Mine, which was made public last week, shows a profit of \$100,000. The profits of the Standard Mine are the highest in the history of the mine. The Standard Mine has been a success since it was first opened in 1892. The Standard Mine has been a success since it was first opened in 1892.
