TORONTO GIVES SPLENDID WELCOME TO SOLDIER SONS

"WELCOME HOME, MOOSEHEADS" IS GLAD GREETING TO C.M.R.

Toronto Stirred to Depths by Glorious
 Grim Pageant of Fighting Citizens
 Restored Triumphant to Their
 Hearths and Homes.

With their pale blue steel trench helmets strapped on their heads, their knapsacks and cartridge belts on their backs and carrying over their shoulders their rifles with fixed bayonets which have in many cases been their companions for over three years, the 4th C.M.R. arrived last evening after serving in France since October 26, 1915. The time set for their arrival was 7:45 and 8 p.m. The first train was on time and the second followed five minutes later, running ten minutes ahead of schedule.

Not since that momentous day on which the fate of the world was decided, November 11, 1918, has there been so much jubilation in Toronto as there was last evening. The people turned out en masse to welcome the "Old Mooseheads" as their battalion ensigns has led them to be called, and lined the streets from North Toronto station down Yonge, along Bloor and thru Queen's Park, down University avenue to the armories. As the battalion marched along the crowd rolled up behind it, and anyone who hoped to escape it was frustrated.

Long before they were expected those who had tickets of admittance to the armories had gone there and secured seats or standing room. When at last the men did arrive nothing could have withstood the rush of relatives, friends and all those present on the floor, much less the light rope which had been strung along. The civilians, mothers, sisters, fathers, brothers and sweethearts mingled with the men looking for their loved ones. After some time the men were gotten into formation and taken to their homes, the out-of-town men being taken to the Exhibition Camp.

The instructions issued to the men by Lieut.-Col. Gibson for their guidance were as follows: All Toronto men will go to their homes for the evening, taking their kits with them, and will report this morning at the Exhibition Camp for discharge. The out-of-town men were told that if they desired it they would be discharged immediately if they could reach their homes by a late train, but if this was not possible then they would be taken care of for the night at the Exhibition and in the morning would be discharged.

POLICE UNION IS BEHIND VETERANS

Would Reinstatement on Benefit
 Fund Free of Back
 Dues.

The round table conference between the royal commissioners, the police commissioners and representatives of the police union, will be resumed behind closed doors at Osgoode Hall, Friday. The commission will take up the grievances of the men regarding clothing equipment, the working of the 8-hour day, and the police benefit fund.

It was stated by officers of the union last night that the men are determined to have all men returning from overseas and taken back on the police department, reinstated on the benefit fund without having to make up money which they are in arrears within the benefit fund. The policemen contend that a number of the men who resigned to go overseas from the force would have to make up 7 per cent, of the salary which they would have been entitled to had they not left their positions to go over and fight. It was pointed out that 100 men would be affected by this present ruling of the benefit fund, and that it is the feeling of the men that, considering these men had been paying into the fund before enlisting to fight, they should, when reinstated on the police force, be placed in good standing with the fund without having to make up back payments from their military allowances.

At the outbreak of war, the police commissioners agreed to give 40 men who enlisted, their pay while on active service, most of whom had resigned in order so that men wanting to enlist to join the army would have to tender their resignations from the force.

CLEMENCEAU HAS NOT QUIT.
 Paris, March 19.—A rumor that Premier Clemenceau has resigned the portfolio of minister of war, which was current here today, was denied in official quarters this evening.

Portland, Me., March 19.—A decision to bring to this port from overseas all the wounded of the Canadian armies, about 20,000 men, was announced today by Major-General Fotheringham, director-general of the Canadian medical service. He came here to take charge of the arrangements for their reception. The steamer Araguaya will bring the third detachment of wounded, to arrive here some time this week.

LOYD GEORGE TO STAY
 Delegates of Neutral Countries to Air Their Views on the League.

Paris, March 19.—The situation in Galicia was considered by the supreme council at its session this afternoon, and it was decided to request the Poles and the Ukrainians to cease hostilities under certain conditions.

The text of the official statement containing this announcement, issued this evening, follows:
 "The supreme allied council met this afternoon between 3 and 7 o'clock. An exchange of views took place in regard to the military situation in Galicia. The council agreed on the terms of an injunction to be addressed to the two armies facing each other in front of Lemberg, requesting them to suspend hostilities at once, on certain conditions."

The council then dealt with the western frontier of Poland, and heard the report of the commission on Polish affairs, which was presented by its chairman, M. Jules Cambon. "The next meeting will be held on Friday, March 21, at 3 p.m."

The American delegation, it is said, plans to accept a limited number of amendments to the league of nations covenant. Secretary of State Lansing will preside over the meeting of delegates of neutral countries to air their views.

It is expected that the league of nations commission will then assemble, and then perfect the amendments, and that the complete covenant will then be attached to the peace treaty.
 Premier Lloyd George, who was in Paris by President Wilson, Premier Clemenceau and Premier Orlando to postpone his return to London, has decided to remain in Paris until the draft of the treaty of peace is concluded. This announcement was made officially today.

As a result of the withdrawal of the embargo restrictions, arrangements are being made to ship \$2,000,000 worth of rum to the United Kingdom.

Rhyl Rioting Not Due To the Wet Canteen

London, March 19.—In the house of commons today, Mr. Sidney Robinson drew attention to the statement that in connection with the disturbances at the Kimmel Camp, the wet canteen had been established in Canadian camps in direct contradiction to Canadian wishes, and that if there had been no liquor at the Rhyl Camp there would have been no disturbances. He asked what steps the minister of war proposed to take to prevent a recurrence of such happenings.

Mr. MacMaster also asked the minister of war whether he had received information that so far from their provision causing disturbances, it was stated that their establishment had quite a contrary effect.

**GERMAN MINISTER
 FIERCELY INDICTS
 THE INDEPENDENTS**

Charges Them With Using
 Spartacans to Further
 Political Ambitions.
 PRECIPITATED STRIKE
 Declares They Are the Root
 of the Whole Terror-
 ist Movement.

Berlin, March 19.—That the majority and independent Socialist parties are irreconcilably at war is the common impression in political circles, resulting from a speech by Wolfgang Heine, in the Prussian diet, made in reply to the demand of the independents for a repeal of martial law in Berlin.

Following closely upon Minister of Defense Noske's explanation of the independent and Spartacans from the first day of the revolution. In denouncing the Prussian cabinet's action in proclaiming martial law, Heine charged the independents with "using the blood of Spartacans' victims for the purpose of furthering their political aspirations."

Herr Heine told the independents that they were more concerned about Russia than about the welfare of Germany. He branded Karl Radek, the Russian Socialist, who is under arrest in Berlin, charged with attempting to bring about a revolution in Russia as a "universal criminal," and said that it was not the Russian steam fleet, but Bolshevik revolution and corruption paid for with stolen Russian funds.

While the independents winced under the onslaught, Heine repeatedly attempted to embarrass Heine by noisily interruptions, the Prussian minister was loudly applauded by his own party and the bourgeoisie.

Heine and the bourgeoisie were double dealing, and that their political deception had been going on since November 9, when Philip Scheidemann's party agreed to enter into a party pact with the Haase faction, with the purpose of taking over the government.

GRANGERS RESENT ATTACK ON H. WOOD

Declare Col. Currie is "Choir
 Boy" for Manufacturers'
 Association.

Calgary, March 19.—Both C. Rice Jones, president of the United Grangers of Alberta, and H. Higginbotham, secretary of the United Farmers of Alberta, were indignant today at the attack made upon H. W. Wood, the president of the latter organization by Col. J. A. Currie, in the house of commons.

The statement that the United Farmers of Alberta is an absolute falsehood," exclaimed Rice Jones, "and to say that Mr. Wood is an annexationist is equally ridiculous. Such statements are only to be expected from a man like Col. Currie, who appears to be the 'choir boy' for the Manufacturers' Association in the house of commons."

L. Higginbotham said: "I suppose that is what Col. Currie calls Bolshevism, because it will upset the traditional national policy. A good many things are being done in Alberta, and some people at Ottawa will shortly realize it, if they have not already done so."

MAHARG'S TREAT.
 (From The Farmers' Sun, March 19.)
 Professing to speak for the farmers of Saskatchewan, Mr. Maharg of Moose Jaw warned the government on Monday that the western farmers would resign if concessions were not made. We are amazed to read that one of the farmers' spokesmen, the government was commanded to accept was the guarantee of a wheat price of \$2.20. That is to honor Mr. Maharg's support, at least, the government must pay out of the general resources to the farmers of Saskatchewan possibly one hundred and fifty millions. In that case, how would the Saskatchewan farmers maintain their assault on the tariff? How would they hold the support of sound opinion, which is necessary to their success? A speech of two more like Mr. Maharg's would discredit and destroy the farmers' movement.

GOVERNMENT BILLS AND RESOLUTIONS IN HOUSE OF COMMONS

RAILWAY POLICY
 Sir Thomas White Will Today
 Make Statement Regarding
 Grand Trunk Railways.

Ottawa, March 19.—Both the government and private members had an innings in the commons at the first business session subsequent to the conclusion of the debate on the address. A large number of questions which members have placed on the order paper since the house opened, were answered, and orders for papers passed, the majority without discussion. The government business was taken up.

At the adjournment, Sir Thomas White announced that the resolution on which a bill will be based, giving parliamentary sanction to the order-in-council appointing Hon. J. D. Reid receiver of the Grand Trunk Pacific Railway, will be proceeded with on Thursday. In connection with this the acting prime minister will make a statement of the government's policy in regard to the Grand Trunk Pacific and Grand Trunk railways.

There was some discussion of Hon. Arthur Meighen's resolution, covering advances for the purchase of seed grain for western homesteaders. Hon. W. S. Fielding remarking that a definite amount should be specified, Meighen explained that it was quite impossible to make an accurate estimate of the amount likely to be required.

Resolutions adopted included one providing for the issue of a smaller one cent piece and another authorizing the banks to issue excess currency until financial conditions become normal. Sir Thos. White expressed the opinion that this would be in about two years.

In answer to a question in the commons today, the minister of militia (Continued on Page 2, Column 6).

TRADE SPIRITS ARE PROHIBITED

Britain Restricts Importation of
 All Alcohol to West African
 Colonies.

London, March 19.—The government has prohibited the importation of all spirits into the British West African colonies, except under license, which will not be granted for the importation of so-called trade spirits, it was announced tonight.

This decision was taken as a preliminary measure pending decision on the question of the permanent prohibition of the trade spirits into West Africa.

HELD AS SUSPECT IN VOSBURG MURDER

Indian Has Been Arrested on a
 Nominal Charge of Vagrancy,
 Pending Inquiry.

Chatham, March 19.—John Jackson, an Indian, better known in this district as "chief," has been arrested by the county police on a vagrancy charge and is in the county jail under suspicion as result of circumstantial evidence until the authorities can decide whether or not he will be charged with complicity in the murder of Thomas Whalen, aged farmer, who was found dead at his home at Vosburg on Friday last.

Stains which might be made by human blood have been noticed on the Indian's coat and trousers. These are being analyzed. A piece of red leather belt, which the murdered man's son says is of the material of his father's wallet, which was missing from the body when a search was made, was found in the back-pocket of the Indian.

Thomas Jewell, section foreman, says the Indian is the man he saw climbing out of a ditch near the Whalen home on Wednesday last, about which time the crime is believed to have been committed. The Indian stoutly denied all charges and assertions before W. J. Merritt, J. P., in the police court this morning.

CANADA WILL WIN IN LAND-TO-LAND FLIGHT

"The more the merrier," comments Lieut.-Col. Raymond Collishaw, D.S.O. (with bar), D.F.C., D.S.C., M.C., C. de G., etc., referring to simultaneous despatches from London and Washington today, announcing that Pilot Harry Harker (with Commander Mackenzie Grieve), R.N., and Lieut.-Commander Bellinger, U.S.N., are preparing for early transatlantic flights, the former pair with a 375-h.p. Sopwith, and the latter with a 400-h.p. Curtiss design and construction. The British pair left London yesterday en route to St. John's, Nfld., whence they will essay a non-stop flight to the Irish coast.

If Harker and his companions carry out their plans as announced in the news cablegrams, Col. Collishaw added, "we may have a bit of a race for that 21,000 miles from London to Malis, for I hope to be back from England and make my flight from St. John's too about the end of April or during the first week of May, weather conditions permitting. Our aerodrome is now built, not far out of the ancient colony capital."

Harker, in the contest for the Sopwith people, and a good aviator," Col. Collishaw continued. "I do not know Commander Grieve. As for their chances, with the ill-luck, but I conscientiously don't think they will turn the trick, and am quite confident that I shall be successful in my first continent-to-continent flight."

TWO MILLIONS FOR TORONTO IN THE FEDERAL ESTIMATES

Including Harbor Improvements and New Buildings—Total Estimates of \$437,679,071, an Increase of \$137,996,832—Many Millions for Shipbuilding.

Ottawa, March 19.—The main estimates for the fiscal year which commences on April 1, were tabled in the commons today by Sir Thomas White. The total estimated expenditure is \$437,679,071, an increase of \$137,996,832 over the expenditures of the year which is just closing. The largest increase is in public works, which will be largely in connection with harbor improvement.

The chief Toronto votes for public works are as follows: Assistant receiver internal revenue office, \$62,000; improvements and alterations, \$62,000; repairs in buildings, \$21,000; Toronto public buildings, \$500,000; Toronto postal stations, \$500,000.

There is a vote for Toronto harbor improvements of \$500,000. The sum to be expended will include thirty million dollars required for the construction of vessels in accordance with the government's shipbuilding program.

Of the total proposed expenditure, \$85,893,581 will be chargeable to capital account, and \$351,785,490 to consolidated revenue account. Very large expenditures are again to (Continued on Page 7, Column 1).

**STRAIGHT-SPEAKING
 CHARACTERIZES THE
 DEBATE ON NICKEL**

Member of Provincial Legislature Says Government
 Must Tax Ore.

AGRICULTURE REFORM
 W. H. Fraser Would Have
 Practical Men to Head
 Departments.

Some good straight speeches were addressed to the government yesterday morning just prior to the adjournment. Mr. Mageau, Sturgeon Falls, took a new line of sight on the confidential relations of the government with the International Nickel Company, and the consequent loss of millions of dollars to the province in taxes which the United States did not hesitate to collect for war purposes.

Mr. Mageau said there was no need to impress the government by argument. The fact that the United States had stepped in and collected \$1,500,000 in taxes was sufficient to shut off argument. Ontario is entitled to the taxes of this corporation. It was not his province to tell the government the exact method of procedure. It was the government's own duty to devise some way by which the ore or matte would be taxed upon its value in all metals, precious as well as nickelerous. The taxes should be secured before the matte left Ontario.

J. A. Pinaré (Ottawa East) in discussing Sir Joseph Flavelle, said one of the things he had done was to take Mr. Newton Wesley Towell down to Ottawa. Mr. Rowell's transfer was intended to protect Sir Joseph Flavelle in Ottawa. Liberals in the Ontario assembly could, however, afford to thank Sir Joseph for ridding them of a fellow who while in the Ontario assembly had merely been driving Liberals out of the party. (Laughter.)

With regard to the temperance question, Mr. Pinaré could not consent to the restoration of the bar. But stronger beer and wine should be considered, he declared, instead of going to War Street where his political announcements, Hon. Mr. McGarry would have done well to give his condolences to the house direct. During the session of the assembly the house is certainly the place for a minister to speak on such matters as the temperance policy of the government.

French Bared
 Mr. Pinaré denounced the settlement laws of the government for New Ontario as barring settlement by French-speaking people, settlers from Flanders or northern France

DEMOBILIZATION OF PRINCESS PATS

Famous Unit Disbanded at
 Ottawa Last Night in
 Record Time.

Ottawa, Ont., March 19.—The famous Princess Patricia's Canadian Light Infantry, Canadian expeditionary force, is no more. Demobilization was completed shortly after 7 o'clock tonight, the last man being discharged from the unit disbanded. It is considered that demobilization constitutes a record for the unit, as the men did not reach their barracks for dinner until shortly before one o'clock this afternoon. There was a touching scene as Lieut.-Col. A. H. Harker, the organizer of the unit, bade the men farewell. Many of the men for their homes tonight, those living at a distance being provided with first-class sleeper accommodation and tickets in addition to generous allowances for meals en route. Toronto and western men were among those leaving tonight.

Third Political Party; Veterans, Labor, Grangers

Regina, March 19.—With a view to forming a third political party in Canada, recruited from the ranks of the Great War Veterans, grain growers, and labor, a resolution is to be introduced at the provincial G. W. V. A. convention in Moose Jaw next month by J. C. Secord, of this city, a re-elected major. The father of this resolution stated today that he would present his resolution to the veterans as members of the association, but as citizens.

EARLSCOURT VESTRY APPROVES PLAN TO ENLARGE CHURCH

Increased Attendance at St. Chad's Makes Further Accommodation Necessary for Congregation.

The congregation of St. Chad's, North Dufferin street, Earlscourt, must enlarge to meet the increased attendance at this church, which has entirely outgrown the present capacity.

At the meeting of the vestry held last night in the man's room, Rev. J. Reid, pastor, presiding, the following resolution was put to the meeting and carried unanimously:

"Whereas the seating capacity of St. Chad's Church is too small for the increasing congregation and Sunday school, and there is every prospect of a considerable addition being made to the population and church membership of the district in this present year, therefore the vestry approves of the preliminary plan now discussed and proposed by the architect, Mr. Eden Smith, for enlarging the church to accommodate a congregation of 450, and hereby instructs the architect to proceed with the plan..."

THE DAY AT OTTAWA

Ottawa, March 19.—Sir Thomas White may not be ready yet to establish a state bank of issue and redemption, but he intimated to the house this afternoon that the government would continue its present policy of re-discounting securities for the chartered banks by an issue of national currency.

At the Ottawa of the day he stated, the Dominion note circulation amounted only to \$112,000,000, secured by a gold reserve of \$91,000,000. That is, except for hand-to-hand currency, there was a one-dollar and two-dollar bill, we had a gold dollar coin-marked for every Dominion note outstanding.

The house you will see was busy this afternoon, with concrete business. It dealt with one government measure after another until it looked for a time as if the session would be closed in a single sitting.

Tomorrow morning there will be another important session on the tariff question, and of course, there is a great deal of talk about the sharp differences of opinion on this subject among supporters of the Union government.

Of course the principal customer we have had for re-discounting paper has been the imperial government. The Dominion government has advanced large sums to the imperial government for the purchase of munitions, foodstuffs and other supplies in this country.

The expansion of bank note circulation has kept pace with the expansion of national currency. In August, 1914, the bank circulation amounted to less than \$100,000,000, against which they had a gold reserve of \$55,000,000.

stated that there had been raised under the voluntary system 465,884 men and under military service act 88,355. There had been given leave without pay and subsequently discharged 24,933.

It was further stated that recruits and draftees included 228,751 British-born and 286,705 Canadian-born.

Amend Yukon Act. Third reading was given to the act amending the Yukon act. This amendment provides for a decrease in the membership of the Yukon council from ten to three. Amendments to the statistics act and the railway act were also given third reading.

A resolution introduced by Hon. Arthur Meighen making provision respecting advances for the purchase of seed grain for western homesteaders caused some discussion. The minister of the interior explained that hitherto his department had advanced money to holders of unpatented lands when they required it for the purchase of seed grain. As a security they had the land, and the homesteader could not get his title without paying for the grain. A better arrangement was now being made. This provided for the government to advance the money to the farmer requiring seed grain on the recommendation of the department inspector. Advances were guaranteed by the government. An error-in-council had been passed authorizing this procedure and now legislation confirming the order was sought.

Hon. W. S. Fielding objected to the resolution on the ground that no limit as to the total amount which the government could advance for purchases of seed was stipulated.

He said that the government appeared to be asking for a blank cheque for this purpose.

Mr. Meighen replied that he hardly knew how he could state definitely the amount which would be required. If the government put the figure at a million dollars, there was a possibility that next spring a million and a half would be required in order to seed as much as possible of the western acreage. The situation then would be an awkward one.

The house went into committee on the Yukon placer mining bill. Amongst the provisions is one to protect the claims of settlers who have been overseas. Another allows former owners of claims to re-locate after one year. The bill was read a second time.

The Finance Act. A resolution of Sir Thomas White providing for the continuation in operation of certain provisions of the finance act, which have been operating during the war under proclamation, was then considered. These provisions, among other things, authorize chartered banks to issue excess circulation. Sir Thomas White explained that the provisions of the finance act which would be in force in cases of war or financial crisis, or other emergencies.

The financial situation at present, however, owing to the length of the war, made it advisable to continue the provisions until the end of the war. It was estimated that this would be accomplished in about two years.

In connection with this resolution, the minister of finance gave a brief review of the financial situation. He said that of all the belligerents who had been in the war since its beginning, the condition of Canada was, he thought, the best. Before the war Dominion notes outstanding totaled \$112,000,000, and against this the government held \$91,000,000 in gold. During the war the note circulation had expanded to \$319,000,000, and the holdings of gold to \$112,000,000.

New Note Cent Piece. Sir Thomas White introduced the resolution which was passed unanimously, and which has for its purpose to provide for the issue of a new one-cent piece, smaller in size than the present coin. He said he had had the matter under consideration before the war, but the pressure of other business had caused delay. He said the weight of the present coin was eighty grains and a half grain, while the new coin would be fifty grains. The present coin weighs eighty to the pound, while the new coin will weigh one hundred and forty to the pound. It will approximate the American bronze cent, which weighs 48 grains. It will be a little larger than the ten-cent silver piece, and distinguished by the touch. The old one-cent piece will continue in force, and the new one will be issued by proclamation.

Sir Thomas explained that it was not intended to withdraw the present one-cent piece from circulation, but as they became smooth and worn, they would be redeemed. This would take a long time. Sir Thomas then introduced a bill based on the resolution. The bill to reclaim Dominion lands by drainage was given a second reading, and passed the committee stage.

NEW YORK STRIKERS WILL AID GOVERNMENT

New York, March 19.—Brigadier General Frank T. Hines, chief of the army transportation committee, today appealed to workers at this port not to allow their strike to handicap the war department in handling of troops.

Private boat owners and their striking employes apparently made no progress toward settlement of their differences.

WORLD CONGRESS OF THE RED CROSS

Forty Eminent Specialists Will Be in Paris to Organize Bureau of Hygiene.

Paris, March 19.—More than forty specialists, each the foremost in his field, are expected here for the preliminary conference on April 1, which will prepare for the congress of all Red Cross societies, which will be held at Geneva thirty days after peace is declared. The work will deal with the organization of an international council and bureau of hygiene, which will strive for the prevention of epidemic diseases, such as tuberculosis, and the perfection of measures for child welfare.

The general aim of the congress may be compared with that of the league of nations, as it seeks to devise a procedure by which all peoples will co-operate for the promotion of the health and happiness of one another, as the league of nations aims to hold all peoples together in efforts to avoid war and insure freedom.

At the preliminary conference in Paris, Great Britain and France will have ten representatives, Italy six, Japan two and the United States thirteen.

WILL STAND TRIAL FOR MANSLAUGHTER

Galt, March 19.—Wm. Bolduc of Preston will stand trial at the fall assizes at Kitchener, on a charge of manslaughter, having been committed for trial in the local court today by Magistrate Blake.

On the night of Feb. 25, Bolduc, while driving a motor car, ran down a young lady on the main street of Preston, the victim of the accident received injuries which brought about her death, and the jury at the inquest found Bolduc had committed a breach of the traffic by-law.

Bolduc is at liberty on \$500 bail.

CONTROL OF EXPORTS IS INJURING TRADE

Chancellor of Exchequer Tells Commons Britain is Trying to Abolish It.

London, March 19.—Speaking in the house of commons today on the second reading of the appropriation bill, George Lambert, former chief lord of the admiralty, said there were two budgets this year, aggregating £1,600,000,000, and that if this sum were raised by taxes it would mean fifteen shillings in the duties on tea and the doubling of the duties on tax and sugar. The chancellor of the exchequer, the member added, would have to resort to borrowing. He appealed to the government to be resolute in restoring the export trade, unhindered and unchecked by any "absurd government regulations."

Sir Frederick Banbury, privy councillor, warned the government that a continuance of the present financial methods meant, eventually, national bankruptcy. Other speakers complained that control of exports permitted America to step in and capture British trade abroad.

Trying to Abolish It. J. Austen Chamberlain, chancellor of the exchequer, replying to the criticisms, said that the government was trying to abolish control as quickly as was safe. The export of cotton goods was free to every part of the world, except the blockaded countries, he said, and in this case restrictions were maintained for reasons of inter-allied policy. The house, he believed, would hardly assume the responsibility for acting in opposition to Great Britain's allies.

Mr. Chamberlain said he was advised it was not a fact that Americans were sending goods where British goods were not admitted.

The sooner the blockade could be raised, Mr. Chamberlain asserted, the better the government would be pleased, and it would gratify the government if Germany could draw some of her supplies thru neutral countries.

Canadian Candy is wholesome It produces real energy

ALL through the war the highest medical and food authorities were insistent in their recommendations to give the soldiers candy. In Military Hospitals and Convalescent Homes candy was allowed to seriously wounded patients whose condition called for constant nourishment in a light, nutritious, easily-digested form.

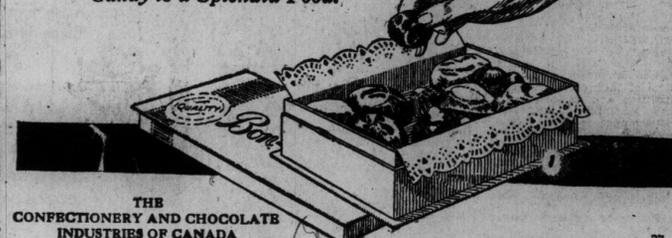

As the war progressed, the demand for candy grew to enormous proportions. Soldiers and sailors alike found by experience that candy produced real energy, while stimulants gave only deceptive temporary strength.

This war experience is supported by scientific opinion, and some misconceptions are set right in the following extract from the Canada Lancet:-

"Candy and Chocolate are nutritious, stimulating foods. There is not the least scientific foundation for the opinion that eating candy is injurious to the teeth. The lack of sugar is much more likely to injure the teeth through impaired nutrition than even its excessive use is liable to do by any digestive troubles which might result from overuse.

"In like manner there is little foundation for the common opinion that the consumption of candy causes digestive troubles."

Candy brings sunshine into the lives of children. Children are fond of candy because their bodies require fuel which candy best produces. Not only eat it yourself, but encourage your children to eat candy in rational quantities.

Candy is a Splendid Food. THE CONFECTIONERY AND CHOCOLATE INDUSTRIES OF CANADA

VERDICT OF GUILTY IN MATRIMONY FRAUD

Ethel Vannoy of Engagement Fame is Held for Sentence.

In the general-sessions yesterday, Ethel Vannoy was found guilty, by the jury, of obtaining money by false pretences, and was remanded in custody until the end of the sessions for sentence.

The prisoner appeared before Judge Coatsworth, charged with obtaining \$1,600 from John H. Russell, and \$765 from George Shaw, by false pretences.

Russell, who is a carpenter, employed at the Union station, testified that he had replied to a matrimonial advertisement, and met the defendant by appointment outside a theatre.

Subsequently on various pretexts, she had borrowed money, and later told him her name was Mrs. W. O. MacDonald, and that her husband, who was killed overseas, was one of two adopted sons of William MacDonald, the tobacco manufacturer of Montreal; and that under a will made on Sept. 25, 1915, she was entitled to a fortune consisting of \$600,000 in cash, and \$200,000 Bethlehem Steel stock. They became engaged, and he advanced more money to defray expenses in connection with the probate of the will.

George Shaw, another witness, had met Mrs. Vannoy thru the same advertisement, and he had taken her to her home, and advanced various sums. He also had been engaged to her, but later, when visiting the defendant in a patient's hospital, where she was a patient, had met a man there named Vannoy, who she told him, was her husband.

Detective Mulholland, who arrested Mrs. Vannoy in Montreal, testified that she had admitted that she lived with Vannoy, and that her maiden name was Sproule. An engagement ring which cost Russell \$275, is to be returned to him.

HONORABLY ACQUITTED; HARRY CODD EXONERATED

A charge of receiving stolen money which was laid some weeks ago against Harry Codd, bookkeeper for Tomenson, Forwood & Co., stock-brokers, was withdrawn in police court yesterday. Charges against Mr. Codd were returned "no bill" in each case, when they reached the grand jury.

The charges arose out of losses made by an army paymaster now serving a sentence.

At no time was the slightest evidence of wrongdoing of any kind produced against Mr. Codd, and the withdrawal now of the charge follows a most exhaustive investigation on the part of the crown and militia department officers of all the transactions involved.

CHARGED WITH THEFT OF TWO MOTOR TIRES

While Detectives Young and Levitt were walking a prisoner along Richmond street to the City Hall, they noticed Frank Hyland, of 6 Calendar street, hustling along the street with two large motor tires over his shoulder.

Young walked over to him and, not satisfied with the explanation given him by Hyland as to where he got the tires, Young arrested him. At headquarters it was learned that Hyland had broken into the Standard Garage, 109 Richmond street, and stolen the tires. Hyland was detained on a charge of theft.

Among the prisoners taken by the detectives to the central office was Alex C. Mason, wanted in Trenton on a charge of burglary. Mason is alleged to have broken into a jewelry store at Trenton and then stole ten gold watches valued at \$290. He will be held in custody until the chief of police from Trenton arrives to take the prisoner back for trial.

Heliconian Club Celebrate St. Patrick's With Masquerade

Members of the Heliconian Club held their annual St. Patrick's Day celebration last night at their rooms, 801 Yonge street, the festival taking the shape of a masquerade. A number of interesting costumes were noted among the dominos. Mrs. E. J. Elliot was master of ceremonies, and called on the company by number to perform certain "stunts," which resulted in an interesting program of songs, speeches and dances.

The supper table was decorated with green flags and shamrocks. The most interesting part of the evening was the view which those present had of the grand spectacle of the C. M. R. Battalion as they marched past the club quarters.

MOTHER! DON'T TAKE CHANCES IF CHILD'S TONGUE IS COATED

If Cross, Feverish, Sick, Bilious, Clean Little Liver and Bowels.

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, Mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailments give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "internal cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness. Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups, plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

MANY NOMINEES FOR HYDRO POST

J. L. Church and J. C. Wilson, M.P., Among Those for McNaught Vacancy.

STANDARDIZE RATES

Is Mayor Buchanan's Suggestion to Municipal Electrical Association.

When the Ontario Municipal Electrical Association met yesterday a number of resolutions were passed dealing with matters of interest to the Hydro commissions in the municipalities throughout the province. W. K. Sanderson of St. Thomas presided.

Representation on the Ontario Hydro-Electric Power Commission was the subject of a good deal of discussion. Those present felt that one of their number ought to be appointed by the government to fill the vacancy caused by the death of the late Col. W. K. McNaught. The following men were named from among those present and their names will be submitted to the provincial government, and it will be asked to select one from the list to fill the vacancy: Mayor J. E. Carter, Guelph; T. J. Hannigan, W. K. Sanderson, St. Thomas; J. W. Lyon, Guelph; Mayor Church, J. C. Wilson, M.P., Dundas; P. B. Yates, St. Catharines; W. H. Gough, Hamilton; T. F. Matthews, Peterboro. Controller Maguire's name was also suggested, but on the request of the controller it was withdrawn.

At the executive committee meeting held in the morning, Mayor Buchanan of Ingersoll suggested that Hydro-Electric rates ought to be standardized throughout the province. There should be a uniform rate in the Hydro zone, he said.

Nasty Rumor. On the strength of a rumor that the money of the association was being used in the Toronto Electric Light fight, Mayor Buchanan further stated that "the time has come when we should express our views forcibly. Unless we fall in with the views of men higher up we wouldn't get very much consideration. We have got to have a knowledge of our own business. We run our own affairs and put everything in the hands of a few men we know nothing about."

"What respect" he was asked, "is being used in the Toronto Electric Light fight?"

Two resolutions were passed at the meeting of the association in the afternoon, one calling for representation on the Hydro-Electric Commission and the other, moved by Mr. Hannigan and seconded by J. B. Buchanan of Ingersoll, that the association endorse the resolution previously passed asking that the revised Railway act be amended to provide for the control of their own streets by the municipalities and to cooperate with the city council in urging the Dominion government to enact legislation safeguarding the rights of the municipalities.

Vice-Presidents Elected.

W. K. Kyle of Brockville and J. B. Buchanan of Ingersoll were elected to fill the offices of third and fourth vice-president respectively. The other officers were elected at a previous meeting.

J. B. Buchanan made an attack on the Toronto Hydro Commission, objecting to their methods of "butting" the business of the association. Controller Maguire replied that Mr. Buchanan had always knocked Sir Adam Beck and the Hydro-Electric Commission.

G.T.R. Passenger Men From Whole System Meet

A conference of the passenger traffic representatives of the Grand Trunk Railway System opened at the Union station yesterday morning. In addition to the representatives in Canada, the general agents of the passenger traffic departments of the road from New York, Chicago, Boston, Buffalo, Detroit and the other United States points have arrived for the conference. The meetings which are to continue tomorrow, are being presided over by G. T. Bell, passenger manager of the system, assisted by W. S. Cookson, general passenger agent.

EXPENSIVE JOY RIDE.

Cecil Anthony Remanded to Arrange Payment for Damage to Auto. Cecil Anthony, who appeared before Judge Coatsworth on a charge of criminal negligence, was remanded for a week to make arrangements to pay for the car, which was wrecked when he drove into a Hydro pole on College street, Oct. 19 last. Anthony said the car skidded into the pole when he was making a turn. John Sutherland, a passenger, had his leg broken. The owner estimated repairs at \$210.

RESIDENT GIVEN PEACE MEDAL BY POPE

The first "peace medal" that has been received in Toronto from the Pope is that of which Mrs. McLean French is the recipient. The medal, which was especially struck to commemorate the declaration of peace after the great war, is of silver, with the head of his holiness and the inscription, "Benedicite XV. Pont. Max. II." on one side. On the reverse is the Queen of Peace, with surrounding group, and the inscription, "Regina Pacis, Ora Pro Nobis." The medal is enclosed in a red morocco case, inscribed with the papal coat of arms in gold, and was accompanied by a letter from Mr. Riordan. Mrs. French received the remembrance because of the benefactions of her father, the late Eugene O'Keefe, who during his lifetime was honored with the title and insignia of papal chamberlain.

TORONTO BACKWARD IN HELPING JEWS

Helping Hand Fund Fails in Objective—Extended Two Days.

Owing to a number of circumstances which are thought to have diverted interest from the campaign in favor of the suffering people of the Holy Land, it has been decided to extend the canvass for another two days. It is said that success in other parts of Canada is even beyond what had been expected, but Toronto, up to the present, has failed in its objective.

"Will Toronto people allow Ottawa to oversubscribe them?" telegraphs Mrs. J. J. Allen, the general convener of the work. Mrs. Allen is in receipt of daily bulletins telling of the pitiable condition of the people of Palestine. All classes and creeds are subscribing generously, across the line. The workers are hoping that Toronto will measure up to its past record during the remaining days of the campaign.

A fresh breeze of enthusiasm flew into headquarters yesterday afternoon, when thirty-five cadets from McCaul Street School joined the workers. Mrs. Fred Armstrong, local convener, pinned a white satin badge on everyone of the red-coated lads, and with this credential they went out on a "cleaning-up" campaign. Places missed by the adults were ferreted out by the boys. "No one gave me less than a dollar," said one bright boy as he handed in his twenty-two envelopes. A good supply of good clothes from Knox Church congregation was received. Among the voluntary subscriptions was one of \$3.05 from the inmates of the Aged Women's Home. BLAMES BOLSEVISM FOR TROUBLE ON FORCE

"That Bolshevism was responsible for the trouble in the police force was the opinion expressed by ex-inspector Stephen before the royal commission yesterday. He denied using influence to get P.C. Parker transferred because the latter had reported him neglecting to clear the snow off the sidewalk in front of his house on D'Arcy street. P.C. Annis testified that Parker had been called a "fool" and "not fit to be a policeman" by the inspector for reporting the infraction of the snow bylaw.

Welcome Home

Canadians

It is glorious to see you back again—to know that you who were prepared to give up life itself in the fight for Freedom, have gained the objective without being called upon to make the great sacrifice.

Rousing cheers, waving flags, and hearty handgrips will greet you. With tears, we watched you go. With pride we followed your fighting. It is with glad hearts we welcome you back. The wild delirium on November 11th was mainly because the danger to you had passed.

There will be a number of people less demonstrative in their welcome to you Home Coming Soldiers. You will understand, for you, too, mourn the comrades left behind.

And now for the days to come.

How best can you settle down into civilian life, and take up the tools laid down for a while? Profit by the experience you gained in the Army.

Where it is your duty to issue orders, you have learned to demand prompt, unquestioning obedience—not as a tribute to yourself, but as the means to the attainment of an end.

That man who brings to the industrial world the loyal co-operation which animated the Canadian armies, is headed for success and happiness. He will make rapid advancement.

You learned, too, the value of smartness in appearance. It was not by mere chance that you acquired the habit of the daily shave with your Gillette Safety Razor. Inspecting officers demanded smoother chins, and perfection in the Kit, because these things kept a man alert, and they are well worth preserving in civil life.

You lay down your rifle. You put aside your uniform and accoutrements; but you would not part with your Gillette—it is the one item in your equipment as necessary to the man in "civies" as to the soldier.

Your Gillette Safety Razor will continue to serve you every morning.

It is possible that in one of the many moves you have made lately, your Gillette has disappeared. If you find it necessary to invest in a new Gillette, the price is still \$5.00 and almost any jeweler, druggist, or hardware dealer is ready to supply you.

PREFERENCE GIVEN TO TORONTO MEN

Controllers Hear Complaints From Civic Employees' Union.

Secretary Mitchell, of the Civic Employees Union, complained to the board of control yesterday that some of the civic departments were laying off employees, and taking on returned soldiers who did not belong to Toronto. He was unable, however, to name a concrete case. Commissioner Wilson assured the board that this had not been the case; returned soldiers of Toronto were given the first preference, and civilian ratepayers of the city the second opportunity.

Queen Mary Circle, I.O.D.E., Hold Bridge for Child Welfare

A very successful "bridge" was held at the home of Mrs. J. Knox by the Queen Mary Circle of the Sir Henry Pallat Chapter, I. O. D. E., when the sum of \$40 was realized for child welfare work. Miss Evelyn O'Donoghue sang charmingly, accompanied by Miss Ida Knox. The tea table was very attractive in a setting of lace, flowers and St. Patrick favors.

CANE.—On Tuesday, March 19, 1919, Charles Patrick James, infant son of Beulah B. and J. M. Cane, aged 3 months 10 days.

FARRINGER.—At his late residence, 56 Sussex avenue, on Wednesday, March 19, 1919, Edward Emile Farringer, in his 56th year.

KEMP.—Suddenly on Monday, March 17, 1919, at Somerville, S. C., William Arthur Kemp, beloved husband of Margaret Van Vliet.

WADDELL.—On Wednesday, March 19, at his late residence, 5 Lakeview Avenue, Toronto, Robert Waddell, in his 71st year, beloved husband of Jane Elizabeth Lindsay Waddell.

Established 1892. FRED W. MATTHEWS CO. FUNERAL DIRECTORS. 665 SPADINA AVE. TELEPHONE COLLEGE 791.

At the opening yesterday, Premier Hearst made an announcement of the arrival of the 4th C.M.R. The members of the legislature in turning out at the sailing point in front of the parliament buildings to participate in the right royal welcome would be honoring brave soldiers carrying honorable wounds nobly won.

There are a number of increases in the appropriations for the department of agriculture, including \$187,968 more than last year for experimental farms, and \$200,000 additional for the development of the live stock industry.

Portland, Me., March 19.—Altho no word has been received from the hospital ship Araguay since she sailed for this port from Liverpool on March 11 it is believed that she will arrive here Friday or Saturday with 812 commissioned officers.

Strong westerly gales have been encountered by every ship arriving here during the past ten days so it is regarded as probable that the Araguay has met the same sort of weather and that during the height of the gales she has been forced to run at reduced speed.

Twenty-five, including tourist, sleeper, and hospital coaches with a force of army nurses, arrived here today over the Grand Trunk to carry the wounded Canadians to their homes.

Francis-Canadian Service Will Soon Be Restored

New York, March 19.—The French Steamship Line Compagnie Generale Transatlantique will re-establish its Canadian service between Montreal and a French port as soon as conditions permit, so as to give a direct Franco-Canadian service similar to that maintained before the war, according to Gaston de Pellerin de la Touche, chairman of the board of directors of that company, who sailed for France today on board the steamship Espagne.

SIX AIRPLANES VISIT EX-KAISER'S CASTLE

Amerongen, March 19.—Considerable excitement was created at Amerongen Castle, where former Emperor William is staying, when six airplanes appeared suddenly at noon yesterday from behind a bank of clouds. They came from the east and, after encircling the castle twice, disappeared in a northerly direction.

The nationality of the machines could not be distinguished owing to the overcast weather, but it is generally assumed that they were Dutch.

RAN HANDBOOKS IN WINDSOR

Windsor, March 19.—Fines of \$74 each, including costs, were imposed on Robert Greenfield, Charles Wickens and Patrick Henderson, in police court here today, for conducting handbooks where bets on horse races were made.

Wickens runs a cigar store and barber shop on Ouellette ave., Henderson is manager of a pool room in the International hotel, and Greenfield is an attaché of Wickens place.

STRAIGHT SPEAKING IN NICKEL DEBATE

(Continued From Page 1).

desired to come into northern Ontario they should be regarded as desirable settlers. (Applause.) But even if they spoke the Parisian French of Toronto, that no human being could understand, or only knew what is called the "patois of Quebec" by the Toronto press, they were barred by the regulations of the minister of land, who opposed woman's suffrage. Why was the question not submitted to the women of the province? The petition of the women of the province, that could be enacted in any country. There are only a few women in the province making noise about the vote. They are the few who look for the detection of N. W. Rowell.

Mr. Richardson asks the government how many motor cars, motor trucks, and other motor vehicles are the property of the province, or kept for the use of different departments, commissions or officials?

Sir Adam Beck the man who does things, and accomplishes great strides in municipal progress by his Hydro-Electrical policy, will be heard by the western farmers.

The United Farmers of Alberta asked Sir Adam to speak at their annual meeting at Calgary a short time ago. Sir Adam being unable to present at the meeting the Canadian Council of Agriculture, who hold their annual meeting at Winnipeg on April 1 and 2, are making efforts to bring him present at the meeting.

He is now making his appointments for the balance of the month fit in with the date of the Winnipeg meeting.

Tribute to Premier. His supporters in the legislature had passed, and presented the following resolution to Premier Hearst before the house this yesterday afternoon: "Dear Sir William: We esteem it our privilege and pleasure to present to you a copy of resolution, carried unanimously and enthusiastically at a caucus of your supporters in the Ontario legislature."

The resolution is as follows: "That the Liberal-Conservative members of the Ontario legislature, in caucus upon the first occasion since the signing of the armistice, do extend sincere congratulations and hearty thanks to our leader, Sir William Hearst, for the eminently able, conscientious and worthy discharge of the onerous duties devolving upon him since his elevation to the office of prime minister, and particularly for his war policies and war work, which have redounded to the credit of this great province, and further, that with the knowledge of his tasks and the tremendous responsibilities resting upon him, we declare ourselves to be unitedly and loyally behind him in his leadership of the great Liberal-Conservative party, and we do pledge him our unanimous support."

The premier is standing all the while of the sessional debate, and the session is becoming one attack after another. Yesterday, the storm signals were again displayed. The license department will soon be under attack again, and it has so far found no real defenders.

At the opening yesterday, Premier Hearst made an announcement of the arrival of the 4th C.M.R. The members of the legislature in turning out at the sailing point in front of the parliament buildings to participate in the right royal welcome would be honoring brave soldiers carrying honorable wounds nobly won. (Applause.)

S. Ducharme (North Essex) acknowledged appreciative references made to the late Sir Wilfrid Laurier from all parts of the house. He called himself as a farmer willing to treat on a 50-50 basis with all other classes of the population. He concluded even to laws enacted by the Farmers have as good a right to organize as any other class of the community, provided they organize for advancement of the public interest.

With regard to the high price of bacon, he believed the government would do well to investigate whether the cause is on the side of the farmer or the packer.

He also said that the Beet Growers' Association and the sugar manufacturers have endeavored to settle the price of sugar beets on a 50-50 basis. He did not believe the Canadian tariff would be smashed down in any time, but a modification in favor of the consumer, particularly the farmer, should be made.

The legislative assembly he considered entitled to more information concerning the projected provincial highway. He made a spirited appeal for unity among all members of the house in facing and dealing with the problem of unemployment. The O.T.A. is a thorn in the side of many people, but until the referendum is submitted it is premature to discuss government intentions. Perhaps the Prudential Society may be coming back again to give them all joy. (Laughter.)

O. T. A. Maligned. J. Thompson (East Peterboro) denied that conditions throughout the province under the O.T.A. are as bad as they are painted.

W. H. Fraser (U.F.O. Liberal, North Huron) said the condition of agriculture in Ontario is such that the farmer has only a choice of one of two things—either he must turn out the powers that be to move to the city. Farmers do not say this because they are sore heads, but knowing the truth about abandoned farms and the impossibility of securing labor, there is a strong feeling in the country. He declared that a practical man must be at the head of every department of government. The practice of the government has been to put educated men in such positions. Short courses taught by practical men in agricultural college are to be commended. He criticized many appointments of men unfitted by their former occupation for such work as the government placed them in. He regarded the tariff as giving support to one industry at the expense of another and believed such a course disastrous to the country.

W. C. Chambers (West Wellington) claimed the good roads idea is only in its infancy in Ontario. The farmers as owners of autos are as much interested in good roads as city people. He counseled caution with the tariff, which is a charged wire that must be handled with rubber gloves. Any radical change of tariff might put the country back 20 years. He regarded the O.T.A. as a war measure. Some people say the committee of one hundred scared the government into the tariff. Don't believe it. The government intended it, and when the time comes and the people say what they want

the government will back up the people.

John Grieve (North Middlesex) declared the school system of Ontario has much to do with the farmers' sons leaving the farms.

Joseph Edgar (Parry Sound) followed and H. H. Dewar moved the adjournment of the debate.

A number of private bills got a second reading and were referred to committees of the whole house.

The house went into committee on some government measures of no special public interest. Mr. Dewar remarked that Hon. G. Howard Ferguson's bill for the better regulation of mines and mining works had only been printed within the past day or two.

Approval of All. Hon. Mr. Ferguson said the regulations had not been printed last year and had the approval of all interested in mining operations, including the labor unions.

Mr. Dewar referred to the method of issuing patents to mining partnerships. His suggestion is that the patent should be issued to the syndicate, representing the parties by names and their undivided interests.

Hon. Mr. Ferguson said the suggestion will have consideration. The house adjourned.

BRITISH MAJORITY EAGER FOR LEAGUE

Gen. Maurice Says There is No Other Way to Prevent Recurrence of War.

New York, March 19.—Because "there is some hope of making war impossible thru a league of nations, but no hope of doing it in any other way," Major-Gen. Sir Frederick Maurice, former director of military operations of the British general staff, declared here tonight that he favored the project. The general, who held his military portfolio from 1915 to the early part of 1918, added his opinion that a "great majority" of the British people were enthusiastic for the league.

Arriving in this country for a stay of several months, Gen. Maurice told interviewers that for the first time in history, the British people had been "war-weary" and they don't like it. "Provisional conflicts involving the empire, he said, had been fought "with the fleet, gold and a proportionately small army," but this time the whole nation had been engaged. For every American mother who had lost a son, he added, 15 British and 20 French mothers were in mourning for the same cause, and this had a tremendous influence on popular sentiment, at least in Great Britain, for an insistent offering of a chance of preventing future wars.

In France, where Sir Frederick recently traveled extensively, he asserted the desire was paramount to make Germany impotent, as security for France's future safety. But he predicted that as soon as the terms of the league covenant were settled, French opinion would be more favorable than at present.

The general reported England "almost unanimously opposed to conscription," but said it would be necessary for a few months to reduce the regular army disorganized by the war.

Admitting that "you can't stop a nation from arming and fighting," he hoped that reduction of the German army to 100,000 would "get Germany and other nations out of the habit of spending money on armament."

BRANTFORD TRAVELERS TO HELP. Brantford, March 19.—The Brantford travelers' club has decided to take charge of a drive for the Brantford children's shelter in order to secure funds to place the shelter in good financial condition for increased needs. The travelers will also assist the Kiwanis rotary G. W. in the drive scheme to secure an assembly hall.

GALT MERCHANTS ORGANIZE. Galt, March 19.—Galt Retail Merchants' Association has reorganized for 1919, with the following officers: President, A. S. Taylor; first vice-president, R. L. McGill; second vice-president, J. H. Laird; treasurer, R. A. Briscoe; secretary, W. J. Braide-wood.

SAYS AN UNKNOWN WOMAN TOOK BABY

Story Told by Mrs. Thompson, at Kingston, Accused of Murdering Her Infant.

Kingston, March 19.—That a woman from Toronto, whose name she had forgotten, had admired her two weeks old baby girl while they were at the C.P.R. station here on Feb. 28, that she handed the infant over into this woman's care and that was the last she saw of it, was a part of the preliminary hearing in the case of the Lovice Thompson, accused of murdering her baby, told to Provincial Detective A. B. Boyd, who arrested her, on Feb. 16. The prisoner, who has four grown-up children, showed no emotion whatever when faced with the murder charge. She pleaded not guilty to the charge thru her lawyer, T. J. Rigney.

Detective Boyd told the magistrate that the prisoner had endeavored to have the baby placed in the infants' home here, but that the officials refused to take the child unless the mother stayed in the institution, owing to the fact that the child was so young.

The prisoner parted from her husband some time ago.

AN ADVANCE POST OF THE 58TH BATTALION IN SIGHT OF GERMAN TERRITORY ON ARMISTICE DAY. The above official photograph secured from the British War Records Office was taken in the Mons sector on the morning of Nov. 11, 1918, the day the armistice was declared. It shows an outpost of the 58th Battalion, which will arrive home Saturday. It is the 58th's proud boast that its outpost was nearer German territory than any other British battalion on the western front. The men of the outpost are from the famous "B" Company. Attached to this company at different times were Capt. Walter Johnson, M.C. and two bars; Lieut. Fred Martin, killed at Arras; Lieut. G. F. Dyke, who reverted from the 208th; Capt. Arthur Field, M.C. and two bars; wounded Lieut. R. Kerr; wounded Lieut. Joe McGrath, M.C.; Lieut. Thomas H. George, wounded at Boire Notre Dame; Lieut. A. A. Anderson, D.C.M., M.C. and bar, who rose from the ranks, and others. The sergeant to the right of the picture is "Mickie" Saunders, the well-known lacrosse player of Owen Sound.

G.A.C. MAY RESIGN FROM COMMITTEE

President Says Association Opposed to Repatriation Committee Principles.

H. W. Parsons, president of the G.A.C., the soldiers' political organization, yesterday expressed the emphatic determination of the association to dissociate itself from the stigma of seeking money or other grants from public bodies. He stated that this sentiment was so strong that the advisability of resigning from the repatriation committee was being seriously considered. "I have no hesitation in saying that we feel the hour for seeking new grants has passed if ever it had been reached," said Comrade Parsons. "I do not hesitate to say that the public will refuse longer to stand for any continuance of the system. The latest expectations include a call for large amounts by the repatriation committee on behalf of returned soldiers' clubs. We are taking in money ourselves, but by purely business methods, as witness our several ventures, the newspaper, the cigar stores, the selling of flags today and others still under consideration. We believe such means form the only justifiable channel for paying our way, and as a matter of sticking to our principles our resignation from the repatriation committee would appear to be inevitable."

EMPLOYMENT OF SOLDIERS.

The G. W. V. A. is taking up with the government the returned soldier problem at the local offices of the national war savings committee. There is said to be a strong feeling in certain quarters that returned soldiers should be more generally employed at these offices, and that the appointment of a returned soldier as secretary for the Toronto district of the committee would bring about the desired results. It was pointed out

yesterday that sub-section six of the regulations of the committee provided that "salaries of officials and employees, and all other expenses incurred in carrying out the provisions of these regulations shall be paid upon the approval of the minister of finance, out of the moneys available for the defence and security of Canada, under the war appropriations act." In other words, it was felt that returned soldiers were particularly considered under this heading.

More than a hundred new members are to be initiated at the next meeting of West Toronto G. W. V. A., which is to be held at St. Julien Hall, Bloor street and Lansdowne avenue, tomorrow night.

At the smoker of the University Active Service Association, held on Wednesday evening, many returned soldier problems were considered, among others that of proportionate grants to returned men taking university courses. It was pointed out that many pre-war undergrads were not returning to college because of the expense involved. Lieut. Beverley Robinson, R. A. F.; Professor G. O. Smith, and Professor J. J. Mackenzie addressed those present.

Corp. W. Maddock, a spine injury, who has been in Central Convalescent Hospital two years, celebrated his birthday on the 17th of Ireland, in the most approved style. Those present at the celebration included Nursing Sister Morrison, Mrs. Graham of the I. S. C., Lieut. Holmes, Corp. Giles, Pres. Lauchette, Smith and Hawkins, and the patient himself.

VARSITY SOCIAL CLUB.

Only actual fighters, and as such those who were graduates, undergrads, or members of the faculties of Toronto University, will be privileged to join the newly formed University Active Service Association. Lieut. Col. C. H. Mitchell, D.S.O., C. M. G., was elected honorary president; Professor T. Mackenzie, late of Salomon Hospital, was elected honorary vice-president, as well as Major T. R. Loudon and Major D. MacDowell, V.C., of Ottawa. W. McQueen was elected president. Other officers were: Vice-president, F. Lloyd, secretary; F. O'Leary, and treasurer, J. C. A. Houston.

Twenty infectious cases are registered at the Base Hospital.

J. V. Conroy, organizing secretary of the G. W. V. A. for Toronto, is in communication with government officials at Ottawa, and with members of the local board of pensions commis-

sioners respecting the case of Robt. O. Jones, a crippled veteran, who claims that he was fired from service with the local pensions office for apparently no good reason. Four new branches of the G. W. V. A. were reported last night to the Ontario office, making a total of 106 for the province, and 266 for the entire Dominion. The four new branches have been formed at Walkerton, Prescott, Clinton and Sharbot Lake.

SAMPLE BUREAUCRACY.

An instance of Ottawa bureaucratic inefficiency was recently brought to light, affecting the endorsement of a recent public resolution, calling for a great mass meeting to take up the case of the Canadian British reservist or his widow. Perhaps no class of soldier has done so much to uphold the honor of Britain's name, and none has received such indifferent, not to say disgraceful treatment at the hands of the government. It is practically assured that West Toronto G.W.V.A. will unanimously carry the recommendation.

Third Battalion returned men nominated a reception committee to welcome the boys home at their regular meeting held on Wednesday evening at St. James' parish hall. Major H. C. Goodie was elected president for the evening year, and other officers were elected as follows: First vice-president, Major Ward Price; Second vice-president, Sergt. R. Willies; hon. secretary, W. G. Platt; executive council: J. J. Shannahan, J. C. Scott, J. D. Streight, and John Cameron.

NEW G. A. C. JOURNAL.

The G. A. C. Journal, the new effort of the Grand Army of Canada, has appeared in the streets, and its pages augur well for its future popularity. A Journal of 16 pages, it comprises almost 20 specialized columns of interest, among which the most notable are "When the Postman Knocks," "The Listening Post," "Lights Out," "Shrapnel," "The Ginger Pot," and "On Parliament Hill."

The columns of the weekly clearly describe the aim of the association to preserve a broadminded attitude toward the public and a genial yet firm attitude toward the powers that be, with no intent to respect any cloth while criticism may prove desirable in the interests of the returned soldier.

WEST BRANCH MASQUERADE.

One of the best masquerades yet held by the West Toronto branch G. W. V. A. was attended on Tuesday night by 80 couples at St. Julien Hall, Bloor street and Lansdowne avenue. Miss Annie Sargent gained a first prize in original costumes as "The Butterfly." William Sargent as "Dick Turpin," and Miss Kate Gruffey as "The Duchess of Devonshire," gained honor as leaders of the Grand March while Comrade Robinson as the groom and Mrs. Robinson as the bride were first as comedians. W. E. Gibbons gained a first in the patriotic series as "John Bull," while Comrade W. Woodley, M. M., and Miss Maude Howard gained firsts in the fancy costumes; Sergeant R. Geddes, the well-known recruiter, F. W. Bullis and E. F. Paeker were the judges.

Take First Steps in Kitchener For a Chamber of Commerce

Kitchener, March 19.—Initial steps in connection with the organization of a chamber of commerce were taken here tonight at a representative meeting which was addressed by C. W. Otto of the American City Bureau. A comprehensive committee representing all public bodies was organized for the purpose of considering details of the campaign.

HEAL IN KITCHENER THE THREE YEAR RIFT

Kitchener, March 19.—After three years of bitterness, which resulted in a cleavage of the manufacturing interests of this city over the name changing controversy, Kitchener's two opposed manufacturing associations are on the verge of a get-together movement, which will in all probability be the closing episode of the controversy.

Negotiations for an amalgamation of the Kitchener Manufacturers' Association and the Waterloo Employers' Association have been in progress for some months. Negotiations will be brought to a head on Thursday evening when members of both associations will meet on neutral ground and effect a coalition. It is expected the new organization will be known as the Kitchener-Waterloo Manufacturers' Association, as firms from Waterloo will be included in the merger of the interests.

Troops Arriving on the Celtic Say Aliens Caused Rhyll Riot

Halifax, March 19.—Conditions at Rhyll camp were not as bad as painted in the cabled despatches, is the consensus of opinion among the two thousand odd Canadians who returned on the Celtic last night. Eye-witnesses of the rioting said that it had its origin among a number of foreign soldiers who worked on the smouldering discontent of the men, due to the repeated cancellation of sailings, and say they succeeded in fanning it into flames. It was ended by the action of troops from Ontario and Nova Scotia, who organized in battle formation and held their ground until the ring leaders had been arrested. The ship docked at eight o'clock, after an uneventful passage of eight days. At 11.15 o'clock the last train of seven drew out from the pier. Col. Thomas Gentley of New Glasgow, and Lieut.-Col. Arthur Pratt, M.L.A., of Toronto, also returned on the Celtic.

Sentence of Seventeen Years For Hold-Up of Returned Soldier

Montreal, March 19.—Found guilty of holding up and robbing A. Urbain, a grocer, at 1167 Chabot street on Jan. 27, and of holding up, robbing and beating a returned soldier on the street some time before, William Patterson was sentenced to seventeen years by Judge Basin in the court of sessions yesterday.

BRAZILIAN RISES ON BRISK BUYING

N. S. Car Issues and Steel of Canada Also Strong—Cement Lower.

Brazilian was the active trading feature on the Toronto Stock Exchange yesterday, more than 500 shares changing hands at rising prices. The market in general was, however, somewhat irregular, the strength of the N. S. Car issues and Steel of Canada being offset by the heaviness of Cement, and Maple Leaf also recessions were kept within moderate bounds. The buying movement in Brazilian did not get under way until the afternoon, only a few shares being dealt in in the morning at from 54 1/4 to 54 1/2. On the afternoon board a brisk demand for Brazilian developed, and the closing price, 55, the high of the day, was up 5-8 from Tuesday and only 1/4 below the high point of the year to date. Predictions are being made that the adverse exchange rate which has held so heavily against Brazilian's earnings will undergo material improvement in the next few months. The N. S. Car issues are again being bought as the inside buying had been resumed. The common advanced two points to 14, and the preferred at 59 was also two points higher, the the closing sale was slightly lower at 57 3/4. Steel of Canada was a strong feature in the steel group, closing up 1-2 at 48, while Dominion Iron at 49 1/2 and N. S. Steel at 52 were steady. Cement, next to Brazilian, the most active stock of the day, was weak in the afternoon when it yielded 3-8 to 48 1/4. Maple Leaf Milling declined 1/4 to 138 1/4, and the preferred was 112 1/4 at 100. A small lot of Toronto Railway sold for 21 1/2, the bid advanced from 41 to 43. In the war loans the only activity was in the 1918 issue which closed 1-8 higher at 104 3/4. The day's transactions: Shares, 1,687; mines, 170; war loans, \$125,700.

SOME ACTIVITY SHOWN IN MONTREAL MARKET

Steel of Canada, Brazilian and North American Pulp to Fore.

Montreal, March 19.—The Montreal stock exchange interested itself today in two or three stocks, of which steel of Canada and Brazilian were features in the listed stocks and North American Pulp was the feature in the unlisted. Trading in the last named issues about equaled the total trading in all the listed stocks. Over 3500 shares of North American Pulp were traded in, with the demand slightly exceeding the supply and the price rose a small fraction to 5 1/4, the year's best. Steel of Canada was the most active stock in the listed department, followed by Brazilian. Large blocks of the former were offered at the previous day's price and were taken up. The demand continued, however, and the last sale was put thru at a fraction higher, at 63 1/4, with more wanted at that price. Transactions in this stock amounted to 885 shares. Brazilian was in demand at 54 1/2 to 55 1/8, with the close the latter price.

The bonds were quieter, with the 1913 Victory the most active. The general trend of the bond list was downward.

MIXED FEELING IN WALL STREET

New York Operators and "Western Contingent" Hold Opposite Views.

New York, March 19.—The stock market today was governed by the same influences that have characterized the operations for the past few weeks. Professional interests were in absolute control, but some divergence of sentiment was reported between local traders and "the western contingent."

Reports credit the latter faction with an extension of bullishness, while board-room gossip ascribes much of the recent short selling and profit-taking to a group of well-known local operators. Altho trading fell slightly under the recent daily average of one million shares, the scope of the market was broadened by the activity of numerous secondary specialties, particularly the fertilizer and food divisions. Shippers held their supremacy of the previous session, at gains of one to four points, secondary equipments ranking next at similar advances, followed by sugars, electrical issues, leathers and the usual unclassified. Oils, motors, Industrial Alcohol, tobacco and several of the better known utilities were hesitant or heavy, and rails retained their listless attitude. U. S. Steel fell a fraction under yesterday's minimum, and continued under pressure until the final hour, when heavy buying effected a sharp rally at a net gain of 1%. Reactions of 1 to 4 points from top levels featured the later dealings, the setback coinciding with an advance in call money to 6 per cent, due to withdrawal of bank loans, an irregular tone prevailing at the close. Sales amounted to \$25,000 shares.

Trading in bonds was moderate and featureless, steadiness ruling in Liberty and other domestic issues, foreign issues yielding slightly. Total sales, par value, aggregated \$10,750,000. Old U. S. registered 2's eased 1/4 and coupon 2's rose 1/4 on call.

BANK OF MONTREAL TO ENLARGE CAPITAL

Montreal, March 19.—Capital stock to the extent of 30,750 shares has been issued by the Bank of Montreal to shareholders of the absorbed Bank of British North America, in fulfillment of the agreement to purchase the assets of the latter organization. This issue raises the total issue of the Bank of Montreal to \$19,075,000. In a special circular to shareholders, the directors of the bank announce that it has been deemed advisable that the bank's paid-up capital be increased to a round \$20,000,000, and this makes it necessary to issue a further 9,250 shares. These paid-up shares have, therefore, been allotted to the shareholders of the bank of Montreal at the close of business February 28 last, pro rata, one share of new stock for every twenty-one shares then held. These shares will be issued at a premium of \$7.50 on each share, being at the rate or price of \$137.50 per share.

GREAT PROGRESS BY BANK OF HAMILTON

Forty-Seventh Annual Report Shows Greatest Strides in Institution's History.

The forty-seventh annual financial report of the Bank of Hamilton for the twelve months ended Feb. 28 last, shows unprecedented expansion in all departments of the bank's business. Not only were the special war needs of the country looked after in the closing months of the conflict but commercial needs given more attention than usual, current loans in Canada expanding from \$33,134,198 at end of previous fiscal period to \$37,719,378. In addition to this, the government wheat loans on demand, figure at \$5,816,000, a new item in the balance sheet. Call loans in Canada stood at \$4,421,377, against \$3,487,456; but in previous year there was also call loans outside Canada of \$1,400,000.

Proportion of quick assets to public liabilities is particularly gratifying, now exceeding fifty per cent, and are up from \$29,616,152 to \$35,996,451, or more than six millions in the twelve-month. Gold and Dominion notes stand at \$5,451,589, against \$6,926,208. Cash assets at \$14,459,166 against \$13,216,799. Government securities of all kinds make about the same large total as in previous year. Healthy expansion is shown in both kinds of deposits, the total being \$64,377,058, against \$53,359,981, a gain of more than 20 per cent. The gain was about evenly divided between savings and current deposits.

An examination of the profit and loss account shows gratifying results were obtained during the year. Net profits were \$71,228, or within a little of the \$98,522 earned in the fifteen-month period previously reported, and some \$128,701 above 1916. In addition there was also \$200,000 recovered from over-appropriations, making with previous surplus of \$23,421, some \$903,647 available for all purposes. The directors have adopted appropriate resolutions, there was \$373,000 set aside for reserves and reduction of bank preferences account, still leaving a substantial balance to carry forward.

THE BOND MARKET

Local bond dealers are anticipating that, in addition to a number of small municipal issues, there will be some important flotations of provincial and municipal bonds in the course of the next few months. Some of these, for instance, will shortly have to raise money to repay the Dominion government for the loan it obtained last summer. The Manitoba government is discussing the advisability of making a \$12,000,000 issue, while Ottawa, if it carries out its proposals to purchase the local street railway system and approximately be compelled to float bonds for the purpose.

Bond flotations in Canada during the first two months of the year are estimated to have an aggregate value of \$40,000,000; and present indications are that the next few months will see an unusually busy bond season.

A block of City of Welland bonds amounting to \$50,000 has been bought by A. E. Ames & Co. The issue is for a straight twenty-year term and bears 6 per cent. The money is to be used for a new fire hall. The following tenders were received: A. E. Ames & Co., 105-11; Canada Bond Corporation, 105-05; A. Jarvis & Co., 104-77; Mulholland, Bird & Graham, 104-78; National City Bank, 104-55; Housauer, Wood & Co., 104-51; R. C. Matthews & Co., 104-17; Wood, Gundy & Co., 103-84; Mackay & Mackay, 103-27.
