Militia Department Has Everything Under Way for Their Departure--C.P.R. President at Ottawa--Will the Commons Be Summoned?

The Canadian contingent is a sure thing. It had been talked over and planned two weeks ago by the permanent officers in Toronto...

Practically Ready Now. A man in authority told the World last night: 'The Canadian contingent is practically ready now.'

Hundreds of soldiers from the Q.O.R., the 48th Highlanders, the Royal Grenadiers, the 12th York Rangers, and the G.G.B.G. have signalled their desire to serve the Queen in the Transvaal.

But they won't all be chosen. A strict medical examination will have to be passed. No married man need apply, and, after all is said and done, the volunteers will be looked to only to fill the vacancies existing in the contingent.

Contingent Already Chosen. The contingent as already chosen is composed of the permanent officers, and non-commissioned officers who have shown their fitness for active service.

About 2000 Men to Go. The force that will go will be composed of 2000 men. The idea, stated in The Globe of yesterday, is that the contingent will be made up of 1000 men...

At Stanley Barracks. At Stanley Barracks the contingent is the sole topic, and the soldiers, both infantry and dragoons, are keen to get on the list.

Boer Nerve Stunned Them. This must not be interpreted as meaning that England is not alive to the realities of the situation.

Army Men Are Delighted. But they see that the Transvaal will not be a picnic by any means.

Gen. Buller's Department. Great preparations are being made at Southampton for the departure on Saturday of Gen. Sir Redvers Buller, and a great demonstration is anticipated.

Escorted by Warships. It is announced that the fleet of transport conveying Gen. Sir Redvers Buller's army corps will be escorted by warships, while further despatch boats and gunboats will be sent to South African waters.

The Government already has expended \$5,000,000 in naval and military preparations, the order amounting to \$600,000. The authorities, anticipating a serious reduction in the output of South African coal mines, have ordered 500 tons of English steam coal to be sent to Cape for the use of the warships.

Mr. White Has Left London. London, Oct. 11.—Mr. Montagu White, Com-Gen. of the South African Republic in London, closed the Consulate here this afternoon, and immediately left for the contingent.

Mr. White's reference to the Isandhlana massacre is an allusion to the attack under Jan. 22, 1879, by some 16,000 Zulus on a small force of British troops.

He Blames Chamberlain. 'For we had seen England's determination to force a hostile issue, or rather Mr. Chamberlain's, I am sure he is the one who is thoroughly mixed up throughout all the negotiations. What his intentions were is evident from the situation to-day.'

All Hope is Gone. 'However, Mr. Chamberlain has accomplished his purpose, and all hope is gone. The Transvaal will be nothing in the end, but a vast waste of money and blood.'

BRITAIN NOW READY TO CONQUER THE BOERS.

Continued from Page 1.

Britain, "brought the entire audience to its feet, and for a quarter of an hour the house resounded with the choruses of national airs and cheers. The Army and Navy Club, familiarly known as the "Hag," has not for many a day seen such a gathering of campaigners as was there last night.

Army Men Delighted.

Nor was the slowly aroused enthusiasm confined to the officers. At Wellington Barracks, where a battalion of Grenadiers which forms a portion of the First Army Corps, had just returned from 16 months' service in Gibraltar, the enthusiasm knew no bounds. Scoldon does "Tommy Atkins permit to himself the luxury of enthusiasm, but the regiment had had a long spell of dreary garrison duty, and hailed the call to active service with school-boy delight.

Lord James' Straight Talk.

The first Minister to speak publicly regarding the ultimatum was Lord James of Hereford, Chairman of the Committee of Enquiry, who, at Aberdeen, said: "The Government have done everything in their power to preserve peace. Apparently, however, diplomacy has failed, and the hopes of peace are virtually destroyed. And that is not by the action of the Queen's Government, but by the Transvaal Government."

A FLOOD OF WAR ORATORY.

Mr. Balfour Points Out That Peace and Good Will Have Been Wantonly Imperilled. London, Oct. 11.—A flood of oratory on the Transvaal situation has burst out here, Mr. A. J. Balfour, First Lord of the Treasury; Mr. Henry Herbert Asquith, former Home Secretary, and others speaking in various parts of the country. Sir Michael Hicks-Beach, Chancellor of the Exchequer, who was to have delivered an address on the subject, is suffering from an attack of bronchitis, and consequently was unable to speak.

LORD ROSEBERY HAS SPOKEN.

Says It Is Not a Party Question Now That the Nation Has Been Attacked. London, Oct. 11.—Lord Rosebery, the former Premier and Liberal leader, has finally declared his position relative to the South African question. In a letter, under today's date, he says: "I have maintained silence because I am loath to re-enter politics. To-day, however, I can speak without touching politics, for a situation has been created which is beyond party politics. I think there is much in the last three years of our relations with the Transvaal which it is essential to criticize if not to condemn; but that is all over for the present."

Time for General Peace.

"It is needless to discuss how we could best have attained our simple and reasonable object of securing equal rights for the white races in South Africa, for an ultimatum has been addressed to Great Britain by the South African Republic which is a fait accompli. No party in it now. In the face of this attack upon the nation, the people will undoubtedly close their ranks and relegate party controversies to a more convenient season. There is one more word to be said. Without attempting to justify the Transvaal, which concluded a peace after the reverse at Mafeking, I am bound to state my profound conviction that the only conceivable Government in this country which could repulse such an attack.

Peace Only in Defeat.

A curious story is in circulation regarding Lord Rosebery's silence, broken up today. It is said that the real object of his silence was to lead President Kruger to believe that the assistance of his followers might come to the assistance of the Transvaal, thus stiffening President Kruger's back against British demands. According to this explanation, Lord Rosebery's fear has been that the Transvaal would yield, which from His Lordship's point of view would have been fatal. It is fully conceded that the only way to permanent peace is the defeat of the Boers.

PLAN OF THE CAMPAIGN.

Sir Redvers' Advance May Be Through the Capital of the Orange Free State. New York, Oct. 11.—The London correspondent of the Tribune says: "Kruger, finding it impossible to hold back his peace warriors, has determined to bring on a war without delay. Failing to draw Mr. Balfour into a compromise, he has decided to attack the capital of the Orange Free State."

THE MINISTER'S COFFEE.

Hurt Him Worse Than the Devil Did. "I used the old-fashioned coffee from my babyhood, and, like many others, thought I could not live without it. Was in the army four years during the rebellion and came out very much broken in health. I was compelled to quit the active work of the ministry for more than a year at a time, suffering terribly from stomach and intestinal troubles and torpid liver, with the consequent nervous headache and prostration, languor and rheumatism. "Four years ago, being confined to bed with these troubles and ulceration of the liver, my physician positively forbade the use of coffee and brought me some Postum Cereal Food Coffee. Since that time, myself and family have used no other coffee. All my intestinal troubles have been greatly relieved, and I no longer suffer from rheumatism and very little from torpid liver or biliousness. "I am fully convinced that coffee is very largely responsible for the greater part of all stomach, intestinal and liver troubles from which people suffer. I am now 58 years old, and my health has been so much improved that I do as much work as ever did, and with abundant energy. I can conscientiously attribute it chiefly to the use of Postum Cereal Food Coffee. There are several friends who have had valuable experience with the leaving off of coffee and the use of Postum Food Coffee. It gives me pleasure to add my testimony to help humanity to understand that the very general cause of these troubles is coffee, and that the only remedy is Postum Cereal Food Coffee, and Postum Cereal Co., Limited, make it at Battle Creek, Mich.

IT WAS AN AMAZING DOCUMENT.

War in South Africa is Terrible, But the Blame is on the Boer Nov.

New York, Oct. 11.—Referring editorially to the Transvaal ultimatum, the Tribune today says: "A hackneyed proverb springs to mind at reading the amazing document sent from Pretoria to London: 'Whom the gods would destroy they first make mad.' We would not say that destruction of the Transvaal is the divine will. But madness than the despatch of such a defiance and virtual declaration of war. The ultimatum—assuming the cable reports of it to be correct—comes as all the more unwelcome shock to the peace-loving and moral sensibilities of the world because it has within the last few days been giving ground on all matters in dispute between Great Britain and the Orange Free State. There can be no doubt that the utterances of such men as Mr. Morley on the one side in England and the Duke of Devonshire on the other have indicated the presence and prevailing force of a spirit of justice and wisdom waiting to be supplied. Nor have similar utterances of good-will in South Africa been lacking. Yesterday morning, an enormous cause to reckon peace decidedly in the ascendant. This morning the creaking of the gates of the Temple of War was clearly heard.

TO PROTECT U. S. INTERESTS.

Cruiser Montgomery Has Been Ordered to Delagoa Bay for Protection of Americans.

New York, Oct. 11.—A special to the Herald from Washington says: "In the event of war, which officials here regard as practically certain, as a result of the Boer ultimatum, orders will be immediately issued for the cruiser Montgomery, which has just returned from Pernambuco, directing her to proceed to Delagoa Bay, where she will be the consul at Pretoria in the protection of American interests."

Pietermaritzburg, Natal, Oct. 10.—(Delayed in transmission.)—All concede that active operations are merely a matter of a few days, and perhaps of a few hours. They Had a Consultation.

Bloemfontein, Oct. 11.—The Orange Free State and Transvaal officials held a conference regarding the time limit of the Boer ultimatum. The Transvaal wanted to allow only 24 hours, but the Free State suggested a compromise on 48 hours, this view prevailing. It is not believed that any treaty will be signed.

Sir Henry Burdett Says the Boers Have Done a Foolish and Childish Thing.

New York, Oct. 11.—Sir Henry Burdett, who is one of Sir Thomas Lipton's guests on board the Erin, spoke earnestly to-day of the threatened war with the Boers.

England does not want war with these people," said he. "They are bringing it upon themselves by acting in a most unwise manner. As Arthur Balfour has truly said, we have nursed them along for 20 years as a mother nurses a petulant child, and now they seek an ultimatum that is almost silly in its demands."

"Is the report true that the British purpose is to gain more territory?" was asked. "Nothing of the kind," replied Sir Henry. "We don't want the land. We are not land grabbers in this matter at all, and the Government, I feel sure, would rather pay a rounder in the stations vacated by the Master students."

Who Wear "Semi-ready"?

No Canadian clothing maker has ever attempted successfully what "Semi-ready" is doing to-day.

"Semi-ready" is now quoted as standard of Canadian gentlemen's clothing.

It is worn by men qualified to judge good clothing—who have worn nothing but high priced, "custom-tailor" made goods before they began wearing "Semi-ready."

In less than nine months "Semi-ready" has won from the "custom-tailor" the large trade of our six Wardrobes in four cities.

Much of this trade is from the high priced "unapproachable" custom-tailors, because "Semi-ready" is equal to the best and costs a third less.

Some is from the medium priced custom-tailor's trade, because "Semi-ready" costs no more than mediocrity and is equal to the best custom-made.

BRICKS FROM GOLDEN STAR

Nearly Six Thousand Dollars Worth of Gold Represents the Mill Run for September.

WAS OBTAINED IN STRAIGHT WORK

The New Body of Ore Assays Well, But Has Not Been Milled Yet.

The new body ore encountered on sinking the shaft on Golden Star assays from \$15 to \$20 a ton. None of this has been milled as yet, the company being at present engaged in running through the main ore discarded by the former management. The last issue of The Rainy Lake Herald contains the following: "Manager R. T. Flaherty of the Golden Star mine came down on Tuesday afternoon from Mine Centre with a suspicious looking talus that seemed to be very heavy. When seen by the Herald Mr. Flaherty was just entering the Dominion Assayers office to hand over to them, the agents the precious package, which contained bricks to the value of nearly six thousand dollars. This ore, which was run on September from ore taken out in the course of sinking and drifting, as the manager is not taking out the ore from the veins with a view of robbing the mine, as was heretofore done, this work shows remarkable values and ought to be enough to satisfy the average stockholder. By sinking, drifting and cross-cutting Manager Flaherty says that another six months will reveal enough rich ore for sopping, with what is already in sight, to pay handsome dividends. As the mine is now paying expenses the head in reserve represents a valuable asset to the stockholders and shows what a large knowledge and proper management. The main shaft is now down to the 75-foot level and the rich jettish vein previously found still shows up as large as ever."

General Schwan's Column Is Having A Right Hard Time in Philippine Mud.

INSURGENTS KEEP RETREATING.

Occasionally They Pour a Volley Into the American Troops and Get Away.

San Francisco de Malabon, Oct. 11.—General Schwan's column, approaching this town, marched through a country so muddy that the mules all collapsed. He occupied the town without fighting. The insurgents retreating under cover of the creek beds. Later, reconnoitering in force southward, General Schwan came upon trenches where hidden insurgents poured several volleys upon the general and his staff. The rebels resisted stubbornly. The reconnoiterers, consisting of Capt. Geary's battalion of the 12th Regiment and two companies of Riley's Battalion, were met by one officer and seven men wounded. They found a field piece and several wounded and sick Filipinos lying on the ground, and captured 25 insurgents, including three officers. Many Philippine deserters were being sent along the American's total loss was one officer and seven men wounded.

A Hard Road to Travel.

Gen. Schwan's main column started at daylight this morning along the road on the left bank of the river, flankers being thrown far out, and Major Budd's Battalion on the right bank, covering the flank, rendering the fire from the insurgent trenches ineffective. Major Budd returned to Santa Cruz before dark. The natives seem to be generally supporters of the insurrection, but few have arms. There was much firing at American soldiers with native bullets. Gen. Schwan spent the night at Malabon.

A GENERAL ADVANCE.

Heavy Fighting Expected in the Philippines Within a Few Days.

New York, Oct. 11.—A special to the Herald from Washington says: A general advance along the American lines in Luzon has been begun, and War Department officials are reporting that some heavy fighting will be expected in the next few days. Official spatches received and not made public show that both generals Lawton and MacArthur are moving northward with their forces, purpose being to get control of the railroad and the important towns as far north as possible. According to statements made at the War Department the advance is to be made permanently. There are to be no more towns taken and then abandoned. It is this northward movement of the American forces that probably accounts for the great activity of the insurgents south of Manila.

Otis says: "Schwan's successful yesterday in driving insurgents south with loss from San Francisco de Malabon. He reports their force roads, which are impassable for artillery, wagons. No intention of occupying this country permanently or temporarily. His expedition will return by way of Rosario. The column will move in the direction of Dasmarinas, probably retreating to Imus. Country of no strategic importance."

Wives Must Stay at Home.

Gen. Otis disapproves of officers' families joining them at Manila. Regarding this question he today cabled the department as follows: "Population Manila much congested. Provision for officers' families cannot be made. Those already arriving of their preferred families enlisted men, have caused much perplexity. Would not permit my own family to come under existing circumstances. Nearly all officers and men here absent from Manila on duty. Families should await more peaceful conditions."

A COLLECTOR OF STAMPS.

Talked About His Interesting and Profitable Fad to The World Last Night.

Discussing Prince Ranjitsingh's big scores at cricket and the war alarms, at the Queen's last American Philatelic Society, ever name you call it by," remarked Mr. McKill to The World. "In fact the attempt to make postage stamps more artistic in Canada is doing, is giving the trade a regular boom."

What country produces the prettiest stamps? "New Zealand, I think, with its famous views of scenery. The series is a regular art gallery."

Asked what stamp has recently brought the highest price, Mr. McKill said: "The ten cent Black Baltimore. It was issued in 1846 by the Baltimore postmaster before the Government went into the business. The Government figure of \$4800, and the price fetched the figure of \$4800, and the price was W. H. Gaspel of New York. The finest collection on the continent," Mr. McKill said, "was owned by J. J. Crocker, the big pillar man of San Francisco."

It will be comforting news to collectors that counterfeit stamps have gone out of fashion, owing to the fact that a number of over six million were printed by the English Protective Association, and are now serving terms for their nefarious work.
