FIRE LOSS OF \$125,000 AT UNION STOCK YARDS 12 ACRES BURNED OVER

Sheep and Cattle Pens, With 500 Tons of Hay, Go Up in Vast Pillar of Smoke—8 Residences Are Also Destroyed—City Firemen Render Valuable Aid.

BOYS TELL STARTLING STORY OF SEEING 3 INCENDIARIES

Fire which swept the stables of the Union Stock Yards at West Toronto early last evening caused a loss roughly estimated at about \$125,000. This includes the destruction of a row of eight dwellings on Albany-road, just outside the yards, six of the houses being the property of the company.

The insurance will run about \$90,000. The cause of the fire is unknown, but some boys state emphatically that they saw three men on bicycles ride up to the yards at Albany-road and throw burning paper in among the straw in one of the pens. They then got on their wheels and rode off westward, so the boys state.

The fire was a spectacular one for thousands of townpeople, while from all the northern part of the city, even east of Yonge-street, the sight of a great pillar of smoke mounting apparently to the sky, caused intense interest. It made the fire seem much younger than it was, and hundreds of youngsters must have run a good many blocks before sadly discovering that the blaze was beyond their reach.

Even Deputy Chief Noble of the fire department was deceived. He saw the smoke from Dovercourt-road, believing it was in his district started on a gallop for the scene. He kept on till he reached the scene and then turned in a call for assistance from the city fire department.

The cattle and sheep pens destroyed covered an area of 450,000 square feet and were completely destroyed. Luckily it was not a market day, and the only stock lost were 96 lambs, 2 steers and 4 bulls. A day earlier and a great barbecue would have resulted. Five hundred tons of hay were also burned. This was what caused the great pillar of smoke.

The absence of a strong wind at the beginning gave the firemen a better chance, but it was a hard struggle. At 8:30, however, the flames were under control.

How It Began. It was about 6:45 when smoke was seen coming from the glass ally by workmen who were stabling their horses preparatory to going home. A moment later, before an alarm could be given, flames burst from every side of the large building, which was used for show purposes. This was a building almost entirely glass, 200 x 180 feet. The evening breeze carried the fire rapidly to the north.

The employees immediately after sending in the alarm hurried the stock to safety. The yards were comparatively empty and it was at first thought all the stock but four bulls, which were in the shed next to the fire, were saved, but it was afterwards found that 96 sheep and two steers were burned in the shed at the Gunn abattoir.

Before the West Toronto firemen arrived the wind veered to the southeast and the fire was beyond control. The sheds which were of pine 30 x 300 burned like tinder. From one to the other the fire jumped until twenty-six were a mass of flames. The Toronto fire department sent 20 men with 1800 feet of hose and an engine.

Unfortunately the water supply was so inadequate the firemen could do little.

No Tips; Waiters Mutiny

BUFFALO, N.Y., Aug. 25.—On top of the steamer Northland, which arrived here to-day from Chicago, ten of the 25 waiters refused to serve the meals because of the failure of a number of students of a military school among the passengers to tip them. They demanded an increase of wages in lieu of the tips and on being refused they declined to work.

They were arrested on arrival here and taken before Deputy United States Marshal Conking and charged with mutiny.

ROLLING STOCK IS IN BAD SHAPE

Government Inspector, Touring West, Finds Many Disabled Locomotives and Defective Cars Along the Line.

That the strike of the C. P. R. mechanics is having its ill effects is apparent to travelers. The Canadian Pacific Railway is not maintaining its passenger service at anything like standard either in the east or in the west. Many of the trains are late, with a tendency to be still later. Quite a lot of the best passenger engines are disabled, or only partly efficient. There are hours at a time when no traffic passes over the main line here in Ontario.

Notwithstanding, therefore, all the claims of the company that it is getting lots of mechanics to take the places of the strikers, the fact is that it cannot keep up the engines and passenger cars so as to make time. There will be more disabled engines and cars day by day. The sympathetic character of the strike is also growing. The engineers and firemen and telegraphers, not to mention conductors and brakemen, are becoming more dissatisfied; they think they are risking their lives and the lives of others with engines and equipment that are out of repair or run down. These operating men are holding meetings, and it is now known that they regard the struggle with the mechanics, if successful, will be followed by similar policy towards them a little later on. Unless, therefore, the company improves its position at once, it will soon have the brotherhoods, first restless, then dissatisfied, then out in sympathy.

MECHANICS MISSED.

Rolling Stock in the West Suffers Through Strike.

CALGARY, Alb., Aug. 25.—(Special).—Everything is quiet in strike circles, but the men here are confident of ultimate victory. They claim to be in shape to last some time before applying for assistance.

James Clark, inspector of accidents and rolling stock for the board of railway commissioners for Canada, arrived from Toronto on Tuesday.

RAILWAY BROTHERHOODS MAY JOIN THE STRIKE.

The C.P.R. strike is reaching a critical moment for the contenders.

The crisis will be reached before the end of the present week. Authoritative word has been received from Montreal that executive officers representing the Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen, Order of Railway Conductors, Brotherhood of Railway Trainmen, and the Order of Telegraphers have assembled in Montreal to hold a conference respecting the machinists' strike.

If the representatives of these five executives consider that the strike should be continued, supported and fought to a finish, steps are to be immediately taken with a view to tying up the C.P.R. system.

Each of the five orders has grievances which, if deemed advisable, can be forwarded to Ottawa early next week with formal applications for the appointment of arbitration boards.

GIBSON NOT QUITE READY TO BECOME "HIS HONOR" SIR WILLIAM STAYS ON

The Colonel Has Too Many Business Irons in the Fire Just At Present to Assume the Care of State.

In the ordinary course of events the new lieutenant-governor of Ontario would be appointed on Sept. 1.

The gentleman who is to succeed Sir Mortimer Clark, Hon. J. M. Gibson, is not, however, prepared to enter upon the duties of the position at the present juncture. Mr. Gibson's affairs are so interwoven with the Cataract Power Co. and kindred electric interests that it will be some time before he can disengage himself. He is, however, arranging to withdraw from these investments at as early a date as possible, and the world has it on good authority that Sir Mortimer Clark, tho' anxious to retire from public life, has consented to remain in office until such time as Mr. Gibson is prepared to be sworn in.

As long ago as last May Mr. Gibson's friends were prepared, as the world then announced, to congratulate him upon his appointment, and they do not now expect to have to delay their felicitations much longer.

BURGLAR USES CHLORFORM

Tilbury Family Overpowered and Some Belongings Taken.

CHATHAM, Aug. 25.—Frank Mero and family of Tilbury awoke this morning with racking headaches and odor of chloroform permeating the house. Later Mero discovered he could not find his clothes, which he afterwards found outside the house with his watch, bank pass book and \$27 gone.

BIG ORDER FROM C.P.R.

\$5,000 Tons of Steel Rails Ordered From the Soo.

SAULT STE. MARIE, Aug. 25.—The Canadian Pacific has placed an order with the Lake Superior Corporation for 55,000 tons of 85-pound rails for delivery soon. The company has also been assured of big contracts from the Grand Trunk Pacific, the first of the month, when the plant will probably resume operations.

Fifteen hundred men will go back to work.

BABE DESERTED IN SWAMP.

But Found Alive and Well—Woman's Tracks in Mud.

GUELPH, Aug. 25.—(Special).—A baby boy, about a week old, was found alive and well, apparently very hungry, in the thick of a cedar swamp, about 100 yards from the Berlin-road, and quite near Riverside Park, this afternoon about a quarter past four. From Smith's farm within the past long flannel nightdress, lying face downwards in a little hollow in the heart of the swamp.

The underbrush where the child was lying was considerably trodden down and a woman's footprints could be discerned quite distinctly in the wet, boggy ground. The babe is being cared for at the Children's Shelter, where it is doing well.

NO TENDERS.

OTTAWA, Aug. 25.—It is understood that in the tenders recently received for the remaining portions of the Montreal Railway there are two sections in Northern Ontario, aggregating about 200 miles for which no valid tenders were received.

THE TRUTH ABOUT THE WESTERN CROPS

Estimates Place the Yield at Below 100,000,000 Bushels—Why Harvesters Are Too Numerous.

WINNIPEG, Aug. 25.—(Special).—Latest conservative estimates are inclined to put the total wheat crop at under a hundred millions, some experts placing the figure as low as eighty millions, while others run up to a hundred and fifteen million bushels.

It all depends on the point of view and individual opinion as to the extent of the drought and frost damage. The optimist says that local areas only have been affected by either cause, but the pessimist shakes his head and says thising will tell a different story.

It is certain, however, that the crop will be very variably according to the district and local conditions. Southern Alberta, for instance, is now safely harvesting wheat that will average twenty-five bushels and has escaped all frost damage, while some parts of Saskatchewan and Manitoba, on the other hand, grain suffered much from the prolonged drought of July and early August, which checked growth, prematurely withering the straw before heads had well filled out. Many fields thus affected will not run more than eight or ten bushels.

Must Wait for Threshing. Early frosts have done damage to late grain in certain low lying localities and on heavy lands the total damage from this cause will be considerable, but its effect on the crop as a whole can only be ascertained as threshing returns come in from known or suspected frosted localities.

Where spring wheat has escaped frost and did not suffer too much by reason of drought, or in other words where cultivation was good, the crop should turn out a good twenty bushels, but taking the good with the bad, fall and spring wheat together are not likely to average more than sixteen bushels, which with the total acreage of six millions, would give a wheat yield of ninety million bushels, an unusually large proportion of which should grade high.

Farmers Are Encouraging. Mainly because of protracted drought, straw is short and the crop will be economically handled. In other words farmers will not need so much help as was anticipated, when the total yield looked like twenty to thirty millions more than to-day, and oats were also regarded as a big crop.

Mrs. Cutts' Chamber Found. Mrs. Cutts' chamber found the patient suffering from what she suspected was poisoning. Quickly she asked the husband for milk. He refused. The woman threatened to call the police and he gave her the milk. An emetic was administered and Mrs. Cutts recovered.

After this the Cutts moved to 112 Glenmore-avenue, West Toronto. In June Mrs. Cutts claims her husband made some tea and gave it to her but the taste was nauseating and suspecting the tea was poisoned she asked him to taste it. With an oath he threw the tea, cup and all, out of the window.

On the night of July 20th after she had retired, Mrs. Cutts states she heard a noise in the house, and upon calling out who was there, Mr. Cutts' voice answered. A few minutes afterwards a cloth containing chloroform was thrown over her face. Marks of burning are still noticeable on her face.

Mr. Cutts claims that when he came home he found it unconscious on the bed and immediately went for a doctor. "When the doctor arrived he found all the gas cocks turned on and the windows and doors closed, altho," says Mrs. Cutts, "I had closed the windows before retiring. The doctor restored me to consciousness and left a tablet for me to take, but a little later Mr. Cutts threw this out of the window."

The next day Mrs. Cutts went to her father's house with two of her children and has been staying there ever since. Her two other children were left with Mr. Cutts' mother.

The facts as given above have been given to the attorney-general's department by Mrs. Cutts' father, J. G. Croucher, superintendent of the Toronto Electric Light Company. Cutts was employed at one time by the board of fire underwriters as inspector. He owns the property at 275 McPherson-avenue.

YESTERDAY'S NOMINATIONS

At Galt: South Waterloo Conservatives nominated George A. Clare, M.P. At Dresden: East Kent Conservatives decided to leave the matter of nomination with the executive. No candidate may be named.

At Mount Elgin: South Oxford Conservatives nominated Donald Sutherland, ex-M.L.A., by acclamation. Mr. Sutherland was defeated in the recent provincial election.

At Hensall: South Huron Conservatives nominated John Sherritt of Stephen, for the commons, J. J. Nerper of Zurich and Thomas Hay of Seaforth, contested the nomination.

At Ottawa: The Conservative convention nominated Dr. J. L. Cuyler by acclamation and Thomas B. Brett on the first ballot by 50 majority. The vote being Birkett 456, P. D. Ross 150, Fred Cook 130. Mr. Birkett suggested that the other candidates had jumped into the fray while he was on holiday, it having been understood, he said, that he would receive the nomination unanimously. He claimed the nomination against Mr. Cook on the ground that he himself was a native of Ottawa, while Mr. Cook was an Englishman.

Mr. Cook's reply was that he had lived longer in Canada than in England, but that any man who came to this country and became a good citizen had a right to ask for the suffrage of the people.

A Well Known Short Hander

THOMAS BENGOUGH, Elected President of the Chartered Stenographic Reporters' Association, Now in Session Here.

SAYS HUSBAND ATTEMPTED LIFE

Mrs. Eugene Cutts Believes She Was Thrice in Danger—Crown Authorities Will Make Enquiry.

Alleging that his son-in-law, Eugene Cutts, had made three attempts upon Mrs. Cutts' life, J. G. Croucher, 122 Dupont-street, has taken his daughter under the protection of the parental roof, and has called the attention of the attorney-general's department and Louis Monahan, acting county crown attorney, to the affair.

Mrs. Cutts, who is 29 years of age, tells of having lived contentedly with her husband for eight years until last November, when Mr. Cutts became infatuated with a young Toronto girl of good family connections.

Mrs. Cutts objected and so did the young woman's father and the matter was taken before Police Inspector Archibald, when a settlement was reached.

The Cutts were then living at 275 McPherson-avenue. The first attempt upon her life was made, Mrs. Cutts affirms, in March, when she was ill and a neighbor, who has some knowledge of nursing, had been attending her.

One morning as she was laboring under violent pains in the stomach the neighbor called to see her and the husband locked the door. The woman inquired as to getting in, however, and he opened the door, but did not want her to go upstairs. But she would not be put off, and upon reaching Mrs. Cutts' chamber found the patient suffering from what she suspected was poisoning.

Quickly she asked the husband for milk. He refused. The woman threatened to call the police and he gave her the milk. An emetic was administered and Mrs. Cutts recovered.

After this the Cutts moved to 112 Glenmore-avenue, West Toronto. In June Mrs. Cutts claims her husband made some tea and gave it to her but the taste was nauseating and suspecting the tea was poisoned she asked him to taste it. With an oath he threw the tea, cup and all, out of the window.

Mr. Cutts claims that when he came home he found it unconscious on the bed and immediately went for a doctor. GRENS' GREAT DAY AT OPENING OF O.R.A.

Capture Canada Company Tyro Match, Jubilee Trophy and Several Individual Prizes.

HIGH SCORING RULES ENTRIES BIGGEST YET

LONG BRANCH, Rifle Ranges, Aug. 25.—(Star Special).—It was Royal Grenadiers' day at the Ontario Rifle Association annual meet, which opened on these ranges this morning.

The Grenadiers captured the Canada Company match for Tyro teams over the 200 and 500 yard distances. Pte. Alex. McGregor, C. Company of the same corps won the first prize, O.R.A. silver medal and \$5 in cash for the highest score in the Canada Company match, and "B" team of the Grenadiers copped the Jubilee Challenge Trophy valued at \$250, and donated by Messrs. Hiram Walker & Sons, Walkerville, Ont.

In this latter competition it was a tight squeeze, the successful team gaining by 1 point from the 13th of Hamilton. Last year the Hamilton regiment won this trophy with an aggregate of 141 for 5 men. To-day the Hamiltonians scored 156 points.

For the individual prizes for highest scores in this match three men tied for first place with "possible" scores (85 at 400 yards) and the three leading cash prizes of \$20, \$15 and \$12 respectively, will be bushes and divided evenly among them as follows:

G. W. Andrews, Winnipeg Rifle Association; Staff Sergt. T. Mitchell, 13th, Hamilton; Sgt. W. A. Smith, Governor-General's Foot Guards.

Also in connection with this match a special trophy was donated by Hiram Walker & Sons of Walkerville, Ont., valued at \$25, for the highest score made by a member of the winning team. In this contest will be necessary for Staff Sgt. Mitchell, 13th, and Sgt. W. A. Smith, G.G.F.G., Ottawa, to shoot off their heads on Friday.

Throughout the whole day there were high scores in plenty on account of the excellent weather conditions. The light was clear and steady, the weather moderate and the wind the brisk steady, and in a "9 o'clock" location directly across the ranges until after 4 o'clock, when it dropped and came in puffs varying from "9 o'clock" to "9 o'clock" altitudes, and making the flags do some "9 o'clock" antics.

The entries reached the highest notch ever, running in the neighborhood of 350, with considerably more outsiders than usual. There are four participants in the 200 yard match, namely, Lt. Peverell, Ordnance Sgt. Larsen, Corp. Sheppard and Corp. Leslie of the 3rd Regiment, Rochester N.Y.N.G.

Two marksmen from the Royal Northwest Mounted Police are present in the persons of Sergt. Brunkey and Constable E. Tait, Calgary. There are about one-half dozen men from Nova Scotia four from Montreal, twelve from the 43rd D.C.O.R., Ottawa, and with them is Major Holmer, deputy adjutant-general for musketry, with the G.G.F.G., Ottawa.

From the 48th of Bowmanville comes Sgt. Morris, who won the grand aggregate at Bisley, and Major King, adjutant of the Bisley team.

From Hamilton there are about 25 men from the 12th Regiment and 21st Highlanders, the 7th of Dundas has about 20 entries.

From the 90th of Winnipeg and the 10th of Regina there are about 15, and the same number from Alberta, including the two from the N.W.M.P. Twenty entries from British Columbia are also recorded, being mostly detachments from the 8th C.G.A. and the 4th D.C.O.R.

As for cadets, there are about 40 all told, representing Guelph, Seaforth, Dundas and Hamilton colleges and Harbord and Ryerson Schools, Toronto.

Lt. Mortimer of Ottawa made the best string of bulls eyes, putting on 8 in succession at 200 yards. He got a bull for a sighter.

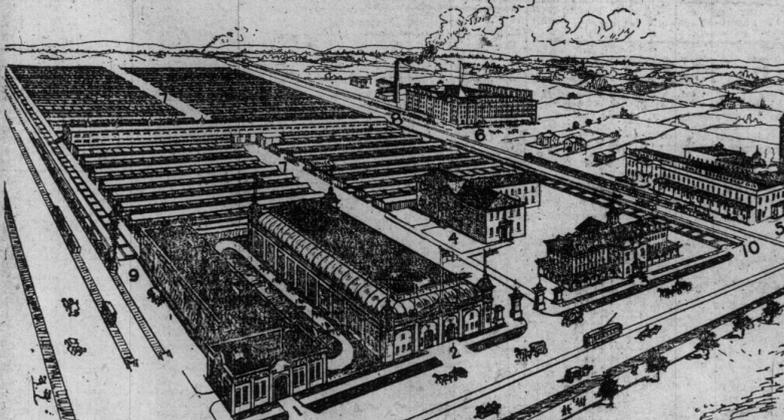

Lt. A. Gooderham is in charge of the Grenadiers' team and he was about the proudest man on the ranges last night. He has won exceedingly hard with the corps this season, seldom missing a day's practice at the butts. The two successful Grenadier teams were composed thus:

Canada Company (Tyros). 200 and 500 yards, possible 50 points: Pte. McGregor 48, Pte. White 48, Pte. Sinclair 43, Pte. Poulney 43, Pte. King 41. Total 221.

600 yards, possible 25 points: Pte. Laitimer 54, Sgt. Hancock 23, Pte. Clifford 22, Pte. Roberts 21, Lt. Corp. Whitehorn 20. Total 140.

BARROW WOULD HIS JOB REORGANIZATION FALLS

Special Committee Couldn't Get Quorum Together to Discuss the Matter Last Evening.

HAMILTON, Aug. 25.—(Special).—The attempt to place City Engineer Barrow in a subordinate position and to engage a new city engineer will probably end in a fiasco. The committee appointed at the beginning of the year to reorganize the department was called together last evening, but not enough members were present to hold a meeting. It is claimed that Mr. Barrow has a majority of aldermen supporting him and that the committee in his position will be made this year. James Hammond, 8 West Macaulay-street, who has been seriously ill, was reported to be out of danger to-night. William J. Lawson has had to go back to jail because no one would give him the money he would need to pay his wife. Martin Malone says he has received instructions from a ratepayer to take steps to quash the by-law which the city council proposes to make a new deal with the Street Railway Company, on the ground that it is illegal. It will mean a decrease in the city revenue, and the expense of submitting the by-law has not been provided for by the appropriation of the council. Four more houses were broken into last night by thieves. Without securing permission the G. E. R. this morning started the work of building a switch from the Ferguson-avenue tracks to connect with the H. C. & B. tracks. Mayor Stewart had the operations stopped at once. Thomas Bradfield, 42 Railway-street, fell under a train at Niagara Falls and had one of his feet crushed. William White broke down and cried in police court this morning when charged with trespass. He was fined ten cents by the magistrate, and given until Christmas to pay the fine. Charles Sykes, 100 St. George-st., a letter received from his wife, who disappeared a couple of weeks ago. It is said she volunteers to come back. The Pattersons, 100 St. George-st., are making an effort to secure money for the construction of the Hamilton, Waterloo & Guelph Railway. Now open for visitors. Complete new building, home comforts, very central. Excellent cuisine. Terms \$1.50. Geo. Midwinter, 100 St. George-st. 101 AND ABOUT WOMAN

Priscilla Landeth not her skill in rare housewifery... BY PROXY.

Royal Lace at Exhibition.

For some years the ladies' committee of the exhibition have been interested in creating a taste for real laces, and prizes have been offered by the board for the encouragement of workers in Canada.

This year an added attraction will be the excellent collection of Italian laces loaned thru the Women's Art Association of Canada, by the "Industria Femminile Italiana".

Some very handsome examples of the famous Pisan work are shown—an ancient Saracenic work recently revived at Pisa.

Some beautiful examples of silk and some handsome woven altar cloths after ancient specimens found in chapels at Perugia and Ravenna are among the attractive exhibits.

National Suffrage Convention.

A "College Woman's Evening" will be one of the features of the convention of the National American Woman Suffrage Association, to be held in Buffalo, Oct. 15 to 17.

A Toronto Actress.

Miss Marie Quinn, a dainty little actress, who has many friends and relatives in Toronto, has one of the principal roles in "Dion O'Dare", the Irish romantic play which will be presented by Fiske O'Hara at the opening attraction at the Grand on Monday.

Liking and Succeeding.

When you come to think of it, isn't there a satisfaction in doing a thing well just for its own sake and the joy of achievement? You say, sometimes, that you do well in a certain subject because you like it. Did it ever occur to you that you like it because you do well in it? Just try beginning at that end sometime, with doing your very best in a thing making a good success of it and see how long you will consider it dry and uninteresting.

When One Has a Cough.

A medical journal is authority for the statement that a tablespoonful of glycerine in hot milk or cream will at once relieve the most violent attack of coughing. This is a simple, easily obtained and harmless remedy, and if it keeps good its promise will prove to be of great value. Equally simple and quite as effective is the use of a glycerine and water spray thru an atomizer.

A Natty Little Russian Suit.

No. 8254. Little Boy's Blouse Suit. Sizes for 2, 3, 4, 5, 6 years. The 5-year size will require three yards of 36-inch material. Few styles for little boys have so much to recommend them as the Russian modes, and they are especially attractive when made with a broad collar. This design is appropriate for serge, linen, duck and galles.

Some very handsome examples of the famous Pisan work are shown—an ancient Saracenic work recently revived at Pisa.

Some beautiful examples of silk and some handsome woven altar cloths after ancient specimens found in chapels at Perugia and Ravenna are among the attractive exhibits.

The twenty-second International Lawn Tennis Tournament is continuing all this week on the Queen's Royal grass courts, and is attracting a great many onlookers. For the evening amusement of the tennis players and their friends a fancy dress ball dance has been arranged for Wednesday night, a concert for Thursday and the annual concert ball will be the event of Saturday evening, while a concert will be given by the orchestra on Sunday night. On Tuesday, Wednesday and Thursday there was a ladies' handicap golf match for prizes donated by Mrs. Moncrieff and a bridge tournament was held on Tuesday night.

Mr. Powell said that if this were true Mr. Millicamp should have stopped the work. The latter said he had reported to Mr. Powell. The roadways engineer replied that Mr. Millicamp's report indicated that a sufficient quantity of cement had been used, but the former inspector explained that this report didn't cover the condemned section. FAMOUS IRISH TENOR WILL OPEN THE GRAND

Fiske O'Hara and Big Company Present Dion O'Dare Next Monday Evening.

Fiske O'Hara's engagement at the Grand next week is attracting considerable attention among theatregoers as the presentation of his famous romantic Irish drama "Dion O'Dare" at the opening of the big playhouse marks the commencement of the regular theatrical season locally.

The season's bookings are up to the standard set since Mr. Small took control of the theatre, and many big, high-priced productions will be offered all at the scale of moderate prices which has made the Grand a favorite with theatregoers.

Mr. O'Hara's play deals with the love story of a poor peasant boy, who, after many struggles becomes Ireland's most famous sculptor, for a girl of quality who masquerades as a village collier. He has a rich tenor voice and will be heard in several new songs of his own composition, of which are: "Nora McNamara," "Just a Sprig of Shamrock" and "My Little Irish Rose." The play is given an elaborate scenic production and the company is one of the strongest that has ever appeared in support of the popular star.

The sale of seats will open at the box office at 9 o'clock Thursday morning, and judging by the enquiries already received a heavy advance sale is looked for.

"On Trial For His Life," a new military melodrama which is meeting with favor in the popular price theatres, will be the next attraction at the Majestic. It is said to be given a splendid scenic mounting and a cast of exceptional ability.

NOT WON WITH PRAYERS.

MONTREAL, Aug. 25.—(Special.)—Election expense accounts are filed by the Hon. Bourassa and the contestants in St. Ann's division.

In St. Hyacinthe Bourassa spent but \$500, according to the official statement. What the costs were in St. James' division, Montreal, has not yet been made known.

The St. Ann's election appears to have been costly, the bills being almost entirely made up of charges for committee rooms. M. J. Walsh spent \$2100, while Tansey spent slightly under \$2000. The result is being contested before the courts.

A DEBENTURE ISSUE.

MONTREAL, Aug. 25.—(Special.)—The offer of Hanson Bros. of \$8.95 for the loan of \$625,000 required by the Town of St. Louis, a suburb of Montreal, has been accepted, the rate being 4-1/2 per cent. at 40 years.

MR. DUNN NOT A QUITTER.

Doesn't Intend to Resign from the License Board.

"Make it just as strong as you like—I haven't resigned and I'm not going to; neither have I seen Hon. Mr. Hanna nor Mr. Saunders of the provincial license department, because both have been away."

So said John Dunn, of the license commission, to The World late yesterday afternoon in reference to a morning newspaper yarn.

"I didn't see the item until an hour ago," he explained, "and there's absolutely no foundation for it. I'm not going to resign because of the difference between the chairman and my self."

"I know the game they are playing," he added.

Editor World: Great objection has been taken against vehicles and during the fair.

In the exhibitions of Franco-British or Pan-American they were not allowed, and it is a great pity we in Toronto cannot roam around the grounds without a fear of being knocked over.

Bath chairs, which could be used would be just as convenient and pleasant, and as remunerative to the exhibitor, and we trust after your attention to this matter it will be considered by them.

Bottles Up Temperature

When you put a boiling hot drink into a Thermos Bottle it stays hot for 24 hours. When you put an ice cold drink into a Thermos Bottle it stays ice cold for 72 hours.

The Thermos Bottle is a scientific wonder and the most useful invention of the age. It is really two bottles—one inside the other with a vacuum between. That vacuum keeps heat or cold from escaping. Anything, hot or cold, put into a Thermos Bottle must remain hot or cold. Always ready—never any preparation required.

Men Business men, clerks, workmen—men in every walk of life—find the Thermos Bottle both a convenience and an economy. It provides hot or cold drinks any time they're wanted. You can always drink hot coffee made at home if you have a Thermos Bottle.

Women Those who stay at home and those who work in factories, stores or offices—all need the Thermos. At home it saves labor and coal or gas. For the workers it means hot coffee made at home for luncheon.

Babies Day and night the Thermos Bottle keeps the baby's milk warm and sweet, making it easy for mothers and nurses. Filled, cleaned, emptied same as any ordinary bottle.

The Thermos Bottle provides hot or cold refreshments on MOTOR TRIPS—on RAILROAD JOURNEYS—on any kind of OUTING TRIPS.

Thermos Bottles are sold at the leading department stores, hardware stores, drug stores, jewelry stores, leather goods stores, automobile supply stores—everywhere. Pint and quart sizes. Prices from \$3.50 up. Send for free booklet.

LONE HIGHWAYMAN HOLDS UP ABOUT 125 PEOPLE

Most Daring Exploit in Many Years in Yellowstone Park—Carried an Automatic Rifle.

LAKE HOTEL, YELLOWSTONE PARK, Wyoming, Aug. 25.—The hold-ups yesterday were the most daring in the west in many years within the boundaries of Yellowstone Park.

The work was done by a lone highwayman and the passengers were absolutely helpless in his hands, as no guns are permitted in the park to either drivers or tourists. From the statements of passengers it is estimated that approximately \$2000 in cash was obtained, drafts worth \$10,000 and other papers and transportation besides a rich haul in watches and jewelry.

In all, 21 coaches left the upper Geyser Basin in the morning. The highwayman was encountered about five miles further on at a lonely point along the banks of Spring Creek, a tributary of the Fire River. The creek is lined with bushes. The first lot of coaches, numbering seven, and following each other closely, passed the place unharmed. There was a gap between that and the next lot following. As the first of the eight came along the highwayman stepped from the bushes and ordered the driver to halt. He did not molest any of the drivers, but warned each one not to start his team or he would be shot.

The last coach contained five young ladies. The highwayman obtained very little from them, but stopped long enough to appropriate some candy. In all about 125 people were held up, but not all of these suffered losses.

The man is described as about five feet, eight inches high and having blue-grey eyes, bristling grey whiskers

GIANTS CATCH HOLD FOR FIRST POSITION

Defeat Pirates, who Couldn't Hit With Men on Bases, 5 to 3—Other Scores.

PITTSBURGH, Aug. 25.—New York took the third straight game from Pittsburgh today by scores of 5 to 3, thereby clinching their hold on first place. Maddox and Crandall, the opposing pitchers, did the work, but the home team were unable to hit with men on bases. Breanna and McGraw were put off the field by umpire O'Day for disputing a decision. The victors won the game in the sixth innings on three singles, a base on balls and a sacrifice fly. Score: N. Y. 5, Pitts. 3.

BAIRD BEATS REGGIE Mc Donald Drives First Winner in American Handicap Derby

Burns Wins From Avery of Detroit—International Tennis Scores.

NIAGARA-ON-THE-LAKE, Aug. 25.—The international tennis tournament which is being held on the courts of the Queen's Royal Hotel is now in full swing. The weather to-day was moderately cool, but with the exception of a light wind, nothing better could be asked or looked for. To-day saw some splendid playing, especially the match between Baird of Toronto and Reggie of Harvard, the former winning after a hard-fought three-set match. To-morrow the doubles and the ladies' handicap will begin. The score of to-day follows: Baird (Toronto) defeated Reggie (Harvard), 6-4, 4-6, 6-3; Burns (Toronto) defeated Sloan (Cleveland), 6-3, 4-6, 6-3; McEachern (Toronto) defeated Cutler (Buffalo), 6-3, 6-4; Collins (Cleveland) defeated Sloan (Cleveland), 6-3, 4-6, 6-3; Johnson (Philadelphia) defeated Large (Buffalo), 6-3, 4-6, 6-3; Niles (Boston) defeated Sloan (Cleveland), 6-3, 4-6, 6-3; Spenser (Toronto) defeated Collins (Cleveland), 6-3, 4-6, 6-3; Kirwood (Buffalo) defeated Morton (Toronto), 6-3, 4-6, 6-3; McEachern (Philadelphia) defeated McDonald (Detroit), 6-3, 4-6, 6-3; Kirwood (Buffalo) defeated Dineen (Toronto), 6-3, 4-6, 6-3.

McDonald Drives First Winner in American Handicap Derby

Purse Was Worth \$30,000 to Winner—Prince C. Was Second Heat.

READVILLE, Mass., Aug. 25.—The well-known harness racing of the American Handicap Derby, which is the largest share of the \$30,000 American Handicap from the field of 38 starters, is believed by many of the 30,000 followers of harness racing who saw the contest to establish a new era in the history of the sport and ensure its rejuvenation in the country. The race was now in its conditions, which placed the horses at their own-quarter to three-eighths of a mile behind the usual starting point, most advanced of the grand circuit most advanced, and at the conclusion it appeared to be the general opinion of all who saw the race that this system of racing will be popular in the future. It was the first race in which Allen Winter had trotted this year, and L. McDonald, his driver, sized up the field in the two preliminary heats. In the first heat, Prince C. and the other horses placed at marks from 133 to 170 feet behind the usual starting line, sweep once and a quarter from each starting post, and a quarter from the lead in the lead in the second heat, with his own horse 170 feet from the wire, and 120 feet to travel, he pushed Allen Winter carefully, but surely, past three other horses, and kept ahead of the others, finishing a good third to Prince C. and the other horses, both of which had started 150 feet ahead of him. The first heat had been run off at a 2:08 gait for the mile, but the second was a few seconds slower.

STRATFORD, Aug. 25.—(Special.)

The Stratford bowlers defeated the Clinton challengers today in the seventh round of 10 shots. The three-eighties of the local trundlers have succeeded in holding the honors which they captured in the early in the season, when they defeated the silverware from the Mitchell defenders. This is the next challenger. The scores: Clinton, 100; Stratford, 80.

TWO YOUNG BOYS DROWN

ONE'S LIFE FOR THE OTHER Owen Sound Families Mourn for Victims of Sad Accident—Brother of One a Witness.

OWEN SOUND, Aug. 25.—(Special.)—Two boys today lost their lives in a tragedy which was witnessed by a brother of one of the victims. The boys, aged 12 and 10, were swimming in the river when the older boy, who was a witness, saw the younger boy struggling in the water. He tried to help him, but the younger boy was too far away and he was unable to reach him. The younger boy was found floating in the river and was taken to the hospital, but he died before he could be revived. The older boy was also taken to the hospital, but he was not seriously injured. The tragedy has caused a great deal of grief in the Owen Sound community.

BOY CHARGED WITH THEFT

Alfred Flude, a 15-year-old boy, was arrested by Detective Moffitt last night on a charge of stealing 200 pounds of iron castings from the property of Messrs. J. J. West & Co., Ltd., at Ottawa. The police found a quantity of the castings on the premises of Chas. Cohen, junk dealer, 189 St. Patrick street, and from the description furnished young Flude was arrested. The castings are alleged to have been taken from the "Duck" yards, near the city cattle market.

Joe Kelley Will Play

Manager Joe Kelley of the Boston Nationals will play in the game with Toronto on the island next Monday afternoon in the exhibition game with the Toronto Eastern League team, which is expected to be a baseball test of the season. Joe has been filling in at utility roles all season but his best work has been in the outfield. He is expected to receive a royal welcome on Monday from the fans, with whom he was so popular last year. Kelley was with Toronto last year in the Toronto favorite, Dan McNeill at first base, George Browne at second base, Pat Flaherty, the famous left-hand pitcher.

Baseball Notes

Caffyn was hit by the weather yesterday. Thielman taking his place in right field. Thielman had two assists and an out. Manager Duffy of Providence has released Jimmy Barrett, who has gone to his home in Montreal. Roy Rock injured his leg so badly in Monday's game, that he will probably be out for some time. He was taken to the hospital for treatment. It was his leg, not the one that he broke two years ago. Yesterday was his first day in four seasons with Providence. Kelley did not play a great record. Phil Poland, the Providence outfielder, who was loaned to Haverhill, has been recalled by Manager Duffy. He will join the team Thursday at Rochester.

Markham defeated Stouffville Saturday in an interesting game of baseball by 6-4. Casey Curzon for Markham pitched great ball, fanning 18 men and allowing only three hits. Batters—Stouffville, Sangster, Story and Stevenson; Markham, Curzon and Little.

Draw at Port Arthur. PORT ARTHUR, Aug. 25.—(Special)—Vernon Austin and Billy Rhodes met tonight and fought a draw before two thousand people. It was the best contest ever witnessed here. In the fifth round Austin broke his hand, but fought stubbornly all through the sixth round. He was sent down in the seventh round and was unable to meet some of the fast men on the coast.

Tennis at Newport. NEWPORT, R.I., Aug. 25.—F. B. Alexander of New York and B. C. Wright of Boston won their matches in the semi-finals of the all-comers' national tennis tournament to-day, and will meet in the finals to-morrow.

Alexander defeated former champion William J. Clotier of Philadelphia, three sets to love, the score being 7-5, 7-5, 6-4; while Wright put out Nathaniel Emerson of Chicago, three sets to one, in 6-2, 6-2, 6-3.

The defeat of Clotier was the surprise of the tournament.

C. W. A. Grants a Sanction. The Dominion racing board of the C. W. A. have granted a sanction to the Canadian National Exhibition to hold the Dominion championship bicycle races on the exhibition track Saturday afternoon, Sept. 12, 1908. A sanction has also been granted to the Ward Marathon trustees to hold the ten-mile Dominion championship race on the exhibition track on Oct. 16. W. A. THE WORLD'S WATER POWERS.

Within the next few years electricity generated at the Victoria Falls, on the River Zambesi, will be in process of distribution over an area covered by a 600 mile radius from that centre.

Water-generated electricity will ultimately compel a readjustment of the relative position of the nations as centres of industry. Hitherto that has depended on their wealth of coal deposits.

POITICAL INTELLIGENCE

If it is decided to hold the election as it seems to be, why not dissolve parliament now? Is the question often asked. The answer, not quite convincing, is of some value, and it is to this effect, that the government is bound to keep the existing parliament alive within a measurable distance of its successor.

The Globe yesterday let the public into the secret that a "fall election" is almost certain. There will be no dissolution and no definite announcement of an election immediately.

BOURASSA SLIPS HOME. On His Native Heath, Tho He Didn't Want It Known.

MONTREAL, Aug. 25.—(Special).—Henri Bourassa, M.L.A. for St. James' district, Montreal, has returned quietly from his European trip.

THE KNOWLEDGE of his return only leaked out thru the indiscretion of friends to whom N. K. Lafamme, K.C., the assistant Nationalist leader, confided the fact of the leader's presence in the province.

It seems the Nationalist leader desired to avoid reporters, who might ask him embarrassing questions on the result of his mission regarding the Baron Lepine allegations in Belgium. It is expected that Mr. Bourassa will turn up in Montreal in a few days and make a statement.

THREE ATTEMPTS AT SUICIDE. Port Arthur Man, Love Craned, Tries Head, But Fails.

PORT ARTHUR, Aug. 25.—(Special).—Alfred Halverson, disappointed in love, made three attempts to commit suicide last night.

He tied his hands together and went to jump off the dock, but was caught; later in the hotel he tried to strangle himself, and was taken to goal, and was about to cut his throat when officers caught him.

Put in cell, but he was later found endeavoring to choke himself.

WOMAN'S MYSTERIOUS DEATH. SAULT STE. MARIE, Ont., Aug. 25.—(Special).—Marie Demers died at Espanola to-day. Report has it that she died in a fit, and there is also a suspicion that she committed suicide by poison.

She had been separated from Alfred Carriere, who, it is alleged, is now serving a term in jail for abortion.

ONLY ROUTINE MATTERS GAME BEFORE CABINET

Not Enough Ministers Present—Patterson and Fisher to Go on "Stumping" Tour.

OTTAWA, Aug. 25.—(Special).—The Ontario and Quebec ministers alone were present at the meeting of the cabinet held this morning, the consequence being that routine matters only were dealt with.

There was no meeting in the afternoon, as was expected, but the majority of the ministers will get together on Wednesday to discuss the situation.

The absentees will include Hon. Sydney Fisher and Hon. William Patterson, who will leave for eastern townships to address a series of meetings.

There was quite a flurry of politicians around the capital to-day, those including George Taylor, Conservative whip; Fred Pardee and Charles Marcell.

Why Harvesters Fall to Get Job. Harvesters are being "bunched" in the west, and the result is that some districts have a surplus and others a shortage. At Moose Jaw 200 had to be fed by the township.

James Hartney, Manitoba's emigration agent in Toronto, says it's because harvesters want to go where they please, instead of taking official advice.

Yachtsmen's Attention. In fitting out for a cruise and making a list of supplies, above all things, do not omit a case of radnor water.

When in the middle of Lake Ontario, a bucket over the side will get you all the water you want, but if you are anchored in any harbor, you are lost without a really good mixer, and it is just in these places where the careful steward is blessed by the thirsty crew if he has a good supply of radnor water.

Appointed Receiver. Henry Robertson has been appointed receiver for the Ontario Sugar Co.

EXPERT STENOGRAPHERS ARE NEAR DEPARTURE

Believe That Present Schedules Are Not Commensurate With the Work Done.

That salaries in Toronto, especially, and Ontario generally, have not kept pace with increased living expenses was once more confirmed at the meeting of the "Chartered Stenographic Reporters' Association of Ontario" yesterday at the parliament buildings.

It was the annual convention, and as a result of discussion the council was instructed to write on the Ontario Government and request an increase in the retaining salary from \$1200 to \$2000 a year.

Thomas Brough, president, in his address, compared present rates with former scales, and with rates elsewhere. Ontario at present having reduced rates, he said.

"Compare, for example," said Mr. Brough, "the position of our high court reporters with that of men in analogous work in the United States. This afternoon we shall have a number of our American confreres. Those who come from Philadelphia will take 'Fruit-a-dive' as a Gurney-Oxford boiler.

INQUEST WILL BE HELD ON DEATH OF MAX MAGNUS

Walter Mulock Charged With Attempting to Kill, Tho Accident is Alleged.

Coroner S. Singer will open an inquest at St. Michael's Hospital at 8 o'clock to-night on the body of Max Magnus, the youth who was shot on July 28, and who died at the hospital yesterday afternoon.

Walter Mulock of Todmorden, who was with Magnus when the shooting occurred in the harness shop of J. B. Moat, 189 West Queen-street, was arraigned in the police court and charged with attempting to kill Magnus, who was 16 years old. The case has been remanded from week to week to await the outcome of the boy's injuries.

Crown Attorney Corley said last night he could not say whether or not the charge would be altered until he had received the coroner's report. Mulock is 22 years of age.

The shooting was attended by both Mulock and Magnus to have been accidental. Mulock, when arrested, said that they had been examining a revolver, when, in some manner, it was discharged, and, at the same instant, Magnus turned his back. The bullet penetrated his hip and lodged in the bowels. It was recognized at St. Michael's Hospital from the outset that the youth's prospects of recovery were slight.

AFFINITY ARTIST JAILED.

Is Accused of Having Assaulted His Wife.

MIDDLETOWN, N.Y., Aug. 25.—Ferdinand I. Earl, the artist of "Affinity," was arrested at his home near Monroe to-day, charged with assault on his wife on Oct. 16, 1905. The complainant was Mrs. Inez Barry, an aunt of Mrs. Earl.

BUY UP THE NEWSPAPERS.

Telegraph and Times of St. John Will Now Be Liberal.

ST. JOHN, N.B., Aug. 25.—(Special).—The Telegraph and Times newspapers have again changed hands, this time from Conservative to Liberal interests. The deal which has been hanging for some time was consummated to-day. Those figuring in the purchase are Dr. Pugsley, minister of public works, Geo. McAvity, John E. Moore and David Russell, former owner of the papers. The price is \$150,000. A cash payment was made to bind the sale and notes were given for the balance.

The purchase of the Telegraph and Times by the Liberals has been brought about in the hope of depriving Conservatives of newspapers during the federal campaign.

With the aid of the Telegraph, and Times, Sun and Star, Dr. Pugsley hopes to be able to carry \$50,000. The Globe, which is not any too friendly to Pugsley, cannot be relied upon to be very enthusiastic over his candidature.

WHALE RAGES OCEAN LINER.

Attempts to Cross Bow and is Cut in Two.

MONTREAL, Aug. 25.—(Special).—The steamship Kennington, which has arrived here from Liverpool, reports a remarkable incident at sea.

While nearing the banks of Newfoundland a big sperm whale was noticed racing alongside the liner, and for upwards of half an hour a contest took place in full view of the hundreds of passengers who cheered the big mammal lustily.

Slowly the whale gained on the liner and then made a fatal move. It tried to cross the bows of the steamer, and was a slight jar, and all that was left of Mr. Whale was a few scattered pieces, while the Kennington ploughed on, leaving in her wake a blood stained sea.

THE COMMON APPLE A GREAT SOURCE OF HEALTH

The Juice of the Ordinary Apple is One of the Best Things in the World for Keeping the Blood Pure.

Few people there are but enjoy a few juicy apples. But how many realize that it is a medicine as well as a treat?

Apple juice has a very marked effect on the kidneys, increasing their power to throw off the waste products of the body, called urea, and thus prevent Rheumatism, Sciatica, Neuralgia and similar troubles that come from poisonous blood.

Similarly, other fruits stimulate the action of the liver and bowels—others of the skin. Combined, they keep the blood pure—the body clean and healthy.

To get this effect, however, one must eat a great deal of fruit, or better eat a little fruit—take "Fruit-a-dive."

"Fruit-a-dive" are tablets in which the juices of ripe fruits, with their medicinal value intensified, are combined with vegetable concentrates, and directed on Bowels, Kidneys and Skin and put them in perfect condition—thus ensuring the thorough elimination of all waste matter from the body. Trial box 25c. Regular size 50c.—4 boxes for \$2.50. Fruit-a-dive Limited, Ottawa.

FIRE LOSS \$125,000

Continued From Page 1.

The engine was placed at the corner of Franklin and St. Clair and kept the fire from spreading to Gunn's abattoir and the houses on Franklin-street.

The 100 yards distant from the sheds, were on fire repeated by the fire started to haul over some horse from the C.P.R. shops and before he got back the houses and all its contents were ablaze. His loss on furniture is upwards of \$300. The house was rented.

Muntz and Beatty placed the insurance, which totals \$50,000, in the following companies: Queen, Caledonia, Royals, Liverpool, London and the Globe, Atlas, Northern, British American, Home and Rochester German.

Twelve Acres of Fire. As night came on the scene was spectacular in the extreme. Viewed from Franklin-street on the west, the eight of 12 odd acres all in flame was the hay barn in which there were 500 tons of hay as a background, it beyond description. In all the sheds covered 20 acres. Of these but six acres remain.

Besides the stockyards the seven fire brick residences to the west on Albany-avenue were completely burned. They were occupied by Mr. Fred Nell, No. 28, loss \$300, insured \$600; Sam Item, who goes with the 10 cent rate. The Ontario Government rate inquests, etc. In police court proceedings and appeals where only one copy is required the rate is only five cents per copy. This is just about the time the rate was raised to 10 cents per copy.

The police protection at the fire was very good. There being such a large area for the four or five people living. One man whose house was one of the seven burned out, said he saw a couple of men drive a long Argyle-street, with an express wagon, to the fire.

In the houses there were bringing in their stuff on the street. This pair of men drove to a house where the owner was busy inside, and he had almost loaded the van, when the owner came out.

"Who are you loading my stuff on there?" asked the owner. "Oh, this is your stuff? I thought it was mine."

"Oh, well," he said to the driver, "just come along and I'll show you where mine is." And the wagon drove off with the goods, the owner helpless to interfere.

Another case was the theft of a mattress belonging to an old lady. She had brought it out on the street and two men coming and took it away right before her eyes.

The cause of the fire is disputed. Three men on bicycles were seen to ride the alley to St. Clair-street a few minutes before the fire broke out. Some boys claim they saw them throw some burning paper inside before mousing their wheels unburned.

The way the building broke all in flames at once indicated electric wires. Beattie, whose house was burned, says he was sitting at an open window and saw the fire break out. He went over immediately and claims it was a short circuit in the wiring.

All other accounts from different employees and officers say it was in the glass or show building that it started.

The C.P.R. were switching at the time, and so saved a long string of cars which would have been consumed. As it was the engine was in such bad condition it took ten minutes to pull them out.

Will Be Rebuilt. Andrew Dods, secretary treasurer of the stockyards company, stated that the yards would be rebuilt similar to what they have been.

"The only difference," said he, "will be in the sheds. I don't think they need be built half so high as they were formerly. One storey is enough."

"Our men got out here," said Chief Noble, "just in time to save those four houses over on Franklin-avenue. They were burning then, and I sent the men inside at once, and we flooded the hoses with water. The fire spread no further after the Toronto men got out there. The steamer, pumping thru 800 feet of hose and supplying two streams, sent a beautiful stream of water, in marked contrast to the slender little stream of the West Toronto pumps, to this latter improved a good deal, as the fire progressed."

Mayor Baird was on the scene of the fire and after watching the firemen's work for some time said: "It is quite evident that we should have a fire engine in West Toronto. That Brockton engine did splendid work."

Saved 240 Cattle. One cattle owner succeeded in getting out 240 head of cattle unharmed. "The yards are luckily saved just now after yesterday's market," said an official, "and the fresh stock had not yet begun to arrive."

A strong east wind arose and lucky it was so, as the whole town might otherwise have been endangered. The trees and shrubbery, and the street cut off the draft and kept the blaze from spreading farther west.

Upwards of 20,000 people watched the conflagration. Automobiles and rigs were in all directions on the Dundas car service was so taxed with the crowds who came up from the city that the service became completely disorganized up till 10 o'clock.

LOST LADY'S BLACK HAWK BAIT, on Bay-street, Front-street, or Church-street, or Rosedale, containing money and picture postcards. Reward, 50 Elm-avenue. Phone North 372.

A report was sent out yesterday that there are 40 dead engines between Schreiber and Chapleau, up north, and 15 between Port Arthur and Cartier, after they had worked all night at West Toronto the strikers say there are 40 engines in for repairs.

Engine 658 went out on train No. 8 to London yesterday, and one of the engine truck brasses was found to be burnt up. The staff of strike breakers and the boss turned out to fix it, but after they had worked an hour at West Toronto, the engine, 894, brought the train back to Toronto. This engine lost 17 minutes on the road down, because of leaks leaking.

Engine 867 lost 7 hours between Toronto and Muskoka and the Winnipeg train, came in 2 hours and thirty minutes late.

Engine 2181 has been working in the yard for two nights without a headlight, so the strikers say, and this endangers the lives of the yard men.

Train No. 3 was detained 20 minutes yesterday. No. 1108 had been sent up to Toronto, but it was found that the engine was not water in sight in the gauge glasses, so another engine was put on instead.

Three train crews came home on No. 6 last night. Their engines had "died" on the road and as they had no other engines available they had to come home.

HARDIE SAYS "FIGHT."

Says That Help May Come From Britain and States.

MONTREAL, Aug. 25.—(Special).—Speaking to-night in the Monument National, on the C.P.R. strike, Kelt Hardie, M.P., advised the men to hold together.

"A strike is war," he said, "and in the field of battle the man who flees and deserts his comrades is a coward and traitor. The same is true of the striker who goes back."

He urged other union men to contribute to the support of strikers, and hinted that financial aid might come from the United States and Great Britain. If aid did not come the strikers could never resist the C.P.R.

TO PROBE "PREMIER" FIRE.

Mounted Police and Commander Spain Ordered to Seize.

OTTAWA, Aug. 25.—(Special).—The department of marine and fisheries to-day completed arrangements to investigate the burning of the steamer Premier at Warren's Landing, Lake Winnipeg, entailing the loss of eight lives.

Captain Spain, Dominion commissioner of wrecks, will go to Winnipeg at once to inaugurate an inquiry as to the responsibility of the ship's officers from a navigation standpoint. The coroner's inquiry will be conducted by Major A. B. Perry, commissioner of Northwest Mounted Police.

As the accident occurred outside the limits of the Province of Manitoba, the Mounted Police have jurisdiction in the matter.

ENGINES GOING DEAD.

That's the Report Among the Local Strikers.

The striking mechanics are becoming more confident every day that they will win out, owing to the hard time the company is having with its rolling stock.

PRICES ARE INFLUENCED BY ANOTHER FAILURE

New York Stocks Turn Weak in Late Dealings—Manipulation Controls Local Market

World Office, Tuesday Evening, Aug. 25. Announcement of the failure of a New York brokerage house with connection here brought a certain amount of sanity into dealings at the Toronto Exchange this afternoon. It was understood that the house had a considerable block of Mackay, and the common stock of this company quickly responded with a drop of two points. The speculative end of the market was taken up almost altogether with the "foreign tractors," the three securing further advances on the active support of the various syndicates. Outside of the issues, which are being manipulated there was a rather moderate to prices. General Electric was without a bid all day, and the sale of one share had to be effected at a drop of 8 points. Investment securities were perfectly inanimate, but prices held steady. The tone of the market at the close lacked the confidence of stability.

Wall Street Features. Big rush of gold and cotton bills breaks sterling exchange 75 points, making gold imports possible soon.

Consumption of steel rails this year will fall below 2,000,000 tons, compared with nearly 4,000,000 last year.

Receivers of Metropolitan Traction Line refuse public service commissions order for transfers to 59th-street cross-town line.

United States and Mexico send gunboats to make demonstration against Honduras.

Insurance companies take the large proportion of the \$20,000,000 of new bonds recently issued by various corporations.

The banks lost \$52 to the sub-treasury yesterday, but since Friday they have gained \$65,000 from that institution.

Hollister & Babcock were among the largest buyers of Southern Pacific this morning, taking 5000 shares. There is a bull tip on this stock, and we look for considerably higher prices in it. C. D. Barney & Co. were the largest buyers of Union Pacific. We have been advising its purchase on the reactions and would still adhere to that policy, for we think that with Southern Pacific will be the pronounced bull feature of the market in the next week or so.—Town Topics.

Joseph says: Don't be afraid to keep long of the Pacific. These are going much higher. A fortune will be found on the long side of Rock Island preferred. Buy this stock and carry it for 50 at the very least. Good absorption of the Steels goes steadily on. Buy St. Paul, hold it for 150. Take on Atchison for a turn. There is still a good substantial outstanding stock market short interest.

The general stock market seems to be held out so far as frightened holders are concerned. It certain "messes" can be cleaned up, improvement of a conservative character may be decided upon. The action of the exchange authorities in appointing an investigating committee is highly commendable and will operate to restore confidence. Detailed stock gossip—New York Central meets stock toward 105, reports expected to be 120. Bullish on Erie, St. Paul 140 to 145, bullish on Atchison for a turn. There is still a good substantial outstanding stock market short interest.

While support is manifest in a limited number of stocks, it is lacking in the market as a whole and the general trend is still downward. This is more marked among the industrial and the rails, which, in part, is accounted for by the fact that both leading candidates are committed to an early revision of the tariff, which will make for business conservatism if not in the end for a serious curtailment in the earning capacity of many leading corporations. The reaction in copper per metal is due to the fact that business resumption has not been on the expected scale and we look for a further sharp break in copper stock. The metal stocks generally, including steel and also smelting, should be sold on all the highest prices. The best support is in Union Pacific and Southern Pacific and Reading, and

INVESTMENT BUYING STILL MISSING.

World Office, Tuesday Evening, Aug. 25.

In its general make-up the Toronto market to-day was no different from that of several preceding days. The foreign electric propositions were again given due prominence, and the dealings in them heavily overbalanced the volume of business in other parts of the market. The aggregate net earnings of Sao Paulo for the first seven months of the year increased only \$74,773 over those of the previous year, or, in the same proportion, \$128,186 for the full year. As the capital has been increased by \$1,500,000 and dividend requirements at the present rate will reach \$135,000 more, the position of the proposition is evidently not being bettered, but then matters of this kind are not figuring in the present market. Investment buying is still an almost unknown quantity in the market.

TO BEING CHARGED OUT IN THE COBALT MARKET

Heavy Dealings Occur in a Number of Securities at Toronto and New York. A big, broad market was witnessed for the Cobalt securities on all the exchanges to-day. On the Wall-street curb enquiries were made for several stocks which have hitherto had little representation on that exchange. At the Toronto markets dealings were heavy in Crown Reserve, as mismanaging Nova Scotia and Silver Leaf. Big blocks of the latter stock were bought for Cobalt on the information that another very rich find had been made on the property. Nervousness on the Wall-street exchange influenced dealings in Nova Scotia and La Rose, but the latter sold at a new high level and maintained its strength up till the close. Talk of dividend in influencing purchases of Nova Scotia, but there are few that believe this company is yet in a shape to establish any permanent return to shareholders. The market closed decidedly firm, with orders on hand sufficient to absorb all offerings at small concessions.

Dr. McLaughlin's Electric Belt... every one of them had spent from \$50 to \$100 on drugs before they ever came to me for relief. Are you weak or listless? Are you nervous or rheumatism? Weak back, kidney trouble, weak stomach, indigestion or constipation? Are you lacking in vitality? I can give you the blessing of health and strength. I can fill your body with vigor and make you feel as you did in your youth. My Electric Belt is worn while you sleep. It gives a soothing, genial warmth into the body. This is life-vigor.

It is the grandest invention of the age for weak people; the surest and easiest cure for all nervous and chronic distress which its vitalizing strength penetrates into all parts of the body, carrying new life to every function which has been weakened by excess or dissipation, restoring energy to the brain and power to the vital organs. No weak man, no sickly or delicate woman will ever regret a fair trial of the Dr. McLaughlin Electric Belt, which is nature's restorer.

MRS. WM. HOLMAN, 402 Quebec Street, London, Ont., writes: "I am well satisfied with your Belt. I have cured me of indigestion, and I have had none of those pains in my head since I got the Belt."

The reason so many men neglect to use my Belt is that they fear it will fall like other things they have tried. Now the security that I offer to you for my Belt until it does for him what I say it will do, if he will in turn give me reasonable security that he will pay me when cured. Put aside these testimonials. Don't make any difference whether you know that Dr. McLaughlin's Belt cured them or not. Give me reasonable security. I will arrange the Belt and send it to you and you can

Notice is hereby given, pursuant to Section 137 of Chapter 129, R.S.O., 1897, that all creditors and others having claims or demands against the estate of the said George Timothy Ashdown, otherwise known as George Ashdown, who died on or about the 21st day of June, 1908, at the said City of Toronto, are required to send by prepaid or to deliver to G. M. HENDERSON, GRANT & SKELTON, Solicitors for the said Estate, on or before the 21st day of September, 1908, to be sent by post, prepaid, or to deliver to G. M. HENDERSON, GRANT & SKELTON, Solicitors for the said Estate, the full particulars of their claims, a statement of their accounts, and the nature of the securities (if any) held by them. And further, that notice that after such last mentioned date the said Executor will proceed to distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which it shall then have received notice, and which shall then have been received by them, and the said Executors will not be bound to receive or pay any part thereof, to any person or persons whose claim notice shall not have been received by them. Dated at Toronto, 18th August, 1908. G. M. GARDNER, 2 Toronto-street, Toronto, Solicitor for Ashdown's Estate.

FREE TO MEN UNTIL CURED.

All men, with very few exceptions, were made strong, and should be so through life. Many have abused this privilege and through dissipation have become weaklings, puny, lack confidence, can't face the slightest difficulty, have drains, losses, impotency, varicocele, rheumatism, lame back, etc., and a mere plaything in the hands of their associates. How deplorable! But all these men can be made strong, and vigor and energy if they will only turn to the right source. Electricity cures these cases, have been cured thousands of times year for nearly forty years. So positive an aid of what my world-famed Dr. Soper Electric Belt will do that if you will call or send for one you can use it.

FREE UNTIL CURED.

Not a penny on deposit or in advance. I will take your word for results, and only charge price of belt—many cases as low as \$8. My wonderful success has brought for many a man, a new belt, but my valuable experience to be limited. It and my belt can be had at address as below. I also send two best books ever written on health and strength of men.

OFFICERS MAKE BIG HAUL UP THE HUMBER

Recover a Lot of Stolen Goods—Death of North Toronto Resident—County News.

HUMBER BAY, Aug. 25.—(Special.)—

County Constable George Simpson, the well-known officer who keeps watch over the Humber Bay and Mimico district, and who for the past two weeks has been keeping an especially sharp lookout up the Humber River, was amply rewarded for his diligence. About two weeks ago a large quantity of goods, amounting in value to \$150, were stolen from Mrs. Cornish, and to the value of about \$20 from Mrs. A. B. Rea. Constable Simpson found the stuff hidden away, and which was all identified to-day by the owners. The officer was accompanied by Mr. Tavenor, George May and George Smith. Accompanied by Detective Black and another officer, Constable Simpson to-night made other discoveries. The first was a valuable launch, which was found in the marsh, completely hidden from sight. Some time ago a valuable gramophone, valued at \$100, was stolen from the residence of Mrs. Magann at the foot of Downing-avenue, on the lake shore. This was recovered together with a number of records. The booty recovered is supposed to be all the work of the same gang, and but for the good and persistent work of Constable Simpson and the others would probably never have been recovered. Mr. Rea reports the loss to-night of his gasoline launch, which was taken out of Mimico Creek.

STILL ANOTHER FAILURE FOLLOWS WALL ST. WASH

A. O. Brown & Co. Go Under and Affairs Are Tangled—Toronto Clients Are Protected.

NEW YORK, Aug. 25.—A. O. Brown & Co., one of the largest brokerage houses in this city, announced their suspension on the Stock Exchange this afternoon.

The transactions of the firm in the remarkable stock market of last Saturday have been under investigation by the authorities of the Stock Exchange and to-day it was announced that transactions had been made for the firm's accounts under the rule which provides that where a firm is unable to deliver stock sold to another broker the purchaser may buy in the stock at the expense of the firm failing to make delivery.

At the height of the boom markets of several years ago, A. O. Brown & Co., did an enormous business, said to have been larger than any other brokerage house at one time. There were five branch offices in this city and many others throughout the country, but after the panic of last fall many of the out-of-town branches were closed. At the present time, however, the firm have offices in Buffalo, Chicago, Cleveland, Detroit, Erie, Utica, Toronto, Ont., and Paterson, N. J. The firm was organized in 1802. Its members are A. O. Brown, Lea Stout, E. F. Buchanan, Samuel C. Brown and W. Rhea Whitman.

D. W. Noel has been named as assignee. No statement of assets and liabilities is available as yet, but it is presumed that the figures will be large as the firm is generally supposed to have had a heavy interest in the market.

Badly Tangled.

A representative of the suspended firm gave out this statement: "The affairs of the firm are badly tangled, and it was felt necessary to suspend in order to straighten them out."

The effect of the suspension upon the stock market was not so violent as anticipated by those who knew how largely an amount of stocks A. O. Brown & Co. owed to other firms. The volume of trading increased rapidly for a short time in financial circles. The branch office here was in charge of J. Lorne Campbell with headquarters at the corner of York and Queen streets, and Toronto clients in this way will be adequately protected.

Mr. Campbell when asked if he had any statement to make said: "I have only received the bare information of the suspension from my firm and know nothing further. Accounts with Toronto brokers are very small at present and any losses here will only be of a paltry nature."

Montrealers Safe.

MONTREAL, Aug. 25.—(Special.)—A. O. Brown & Co. retired from Montreal some months ago, and also reduced the number of its branches throughout the States.

The failure will not entail any loss to Montrealers as the local accounts were all settled at the time of the withdrawal.

Seaman Court-martialed.

LONDON, Aug. 25.—Able Seaman Herbert Capley of H. M. S. Minotaur, struck his superior officer while the ship was lying at Quebec last month, and was court-martialed at Chatham in consequence. He told the court that he was in a passion at the time. He was sentenced to six months hard labor, to be followed by dismissal from the service.

All Principal Tourist Resorts.

Including Muskoka, Lake of Bays, Temagami, Georgian Bay, Magnesian River, Kawartha Lakes, etc., are reached by the Grand Trunk Railway System. Tourist tickets now on sale at very low rates. Good all season. For informative and descriptive literature call at city office, northwest corner King and Yonge streets.
