DRYGOODS PRICES LIKELY TO RISE

Says A. R. Auld, Retiring Chairman Drygoods Section, Board of Trade.

Wholesale drygoods section members of the board of trade met yesterday to elect their officers for 1920. A. R. Auld, the retiring chairman, made the following address, in which he pointed out that prices, far from receding, were likely to increase all along the line. "The drygoods trade of Toronto and province should not let the year pass without expressing appreciation of the work done by the Canadian manufacturers of textiles. No branch of business has done more in the way of production and to stabilize trade than they, and, moreover, where they have been able to manufacture their goods from the raw materials (that is, not having to buy their yarns) they have placed their goods on the market at a lower price than have the manufacturers of any other country in the world. They have also succeeded in distributing their goods fairly, giving preference possibly to those jobs who gave them the preference prior to these difficult times. "The past year was satisfactory and the present year to date is equally so. The market for dry goods today than twelve months ago. Largo stocks manufactured (and in \$200,000 worth) for the armies have been converted and consumed by the civilian trade. "Prices Still Higher. "Authorities twelve months ago suggested the possibility of lower prices after March in assuming this possibility; it was thought that the 1918 high prices would hold during the first six months of 1919, and that we might then look for reductions. Unfortunately for these authorities, the reverse has been the case. Prices receded somewhat in all lines except linens the first months of 1919. Since May there have been increases all along the line, and the end does not seem yet. This applies more intensely to the finer lines in woolens, silks, cottons and linens. Here we might say that with regard to linens there has never been anything like a receding in price at any time and today the market is perhaps more bare of linen goods than any other textile. This, with other factors, has tended to create a greater demand for linens, and the supply, depending increased advance in price. "With regard to silk in its various forms, prices have advanced recently in a greater ratio than perhaps even woolens or cottons, but in the face of this the demand for such articles has been so great there is said to be large quantities of raw material held in Japan that might fetch prices in the market. "Much has been said about the export trade, and there is no doubt that the Canadian manufacturer has been able to sell his entire output outside of Canada to advantage, but, as stated earlier, they have been loyal to their goods in foreign markets where they might have been in competition with higher prices. "Officers Elected. "The election of officers resulted as follows: Chairman, J. A. Lattin; Vice-Chairman, G. W. Hambly; Secretary-Treasurer, F. G. Morley. Executive: Messrs. F. B. Abbott, Arthur A. Allen, L. Baker, Lt.-Col. H. Brock, J. W. Bundy, F. C. Daniel, W. A.

PLAINTIFF UNREASONABLY SOUGHT SPATS THAT FIT

In the first divisional court before Judge Morson yesterday, Miss B. E. Nurse brought an action against Miss Cummings and Horace Wing to recover \$50 paid as a deposit on a house which she had intended to buy, purchasing thru Wing, a real estate agent. Judgment was given for plaintiff. Miss Marshall, of 436 Clinton street, brought action against Collins and Wilson, of 579 West Bloor street, for properly fitting shoes and spats or for return of her money. The judge remarked on the unreasonableness of woman, and gave judgment for the defendants. He advised the young lady to take the shoes. Mrs. W. Nelson claimed \$98.75 from W. Nelson as payment of an account in full. Judgment was given for \$27.50.

BNAI BRITH LODGE HEARS JOHN A. TORY

Sun Life Insurance Official Gives Talk on Canadian Citizenship. At the first bi-weekly luncheon of the Bnai Brith Lodge, held at the Prince George Hotel Tuesday, John A. Tory of the Sun Life Insurance Company gave a most inspiring talk on "Canadian Citizenship." He showed the great diversity in religion, race and nationality of the Canadians, and urged the necessity of the elimination of all class distinction for the greater good of a greater Canada. Canada, with an area of 100,000 square miles greater than that of the United States and Alaska combined—comparatively sparsely settled, with less than nine million people and with natural resources scarcely touched, has before her an era of tremendous development, which requires the unified action of all peoples cemented by Canadian citizenship into one solid unit. By that method alone can Canada develop as it should and achieve the place among nations that it justly deserves. This was the first of a series of bi-weekly luncheons to be held by Toronto Bnai Brith. The attendance was large and enthusiastic, and the affair was acclaimed a big success.

JUSTICE ROSE DECIDES ON DRASTIC ACTION

Two justices have been appointed to sit in the non-jury sittings in the city hall to handle the large list of cases. Five cases were on the preliminary list to come before Mr. Justice Rose and four to come before Mr. Justice Logie today, but none were ready to go on, and Mr. Justice Rose decided on drastic action. The clerk was directed to take thirty cases which have been on the list for some time and place them on the preliminary list for Thursday. Unless good cause for retaining them on the list is shown they will be struck from the list at the opening of court.

WILL OPPOSE RED ARMY; DENIKINE AS LEADER

Novor Ossisk, Caucasus, Feb. 17.—A special council representing the Don, Danubian and Terek sections with a population of 3,800,000, agreed at a meeting at Ekaterinodar to oppose the Bolsheviks under the leadership of Gen. Denikine. The desire for a more democratic government was expressed, however, a minority of the council favored fighting only in Cossack territory. The council desires to make laws until a constituent assembly is possible. The ministers appointed will be held responsible to the council, except the ministers of war, railways and supplies, who will be responsible to Gen. Denikine, the council being willing to grant Denikine the power to veto. The newspapers are untrammelled in the territory Denikine is holding and apparently are generally demanding a more democratic government.

LIBERTY LEAGUE MEETS IN CAMERA

Press of Business Prevents Statement on Raney Fight. The delegates to the Citizens' Liberty League convention were in private meeting all day yesterday. A statement of the results arrived at on the various matters under discussion was due for issue to the press last evening, but owing to the stress of work placed upon the shoulders of the league officials, they were unable to draw up any detailed statement for publication until today. When the conference adjourned about five o'clock The World was able to gather the informal statement of the delegates had come to no definite decision in regard to placing a candidate in the field to fight against Mr. Raney in East Wellington. It was understood the matter is held over for further consideration. If the league's officials can spare sufficient time from their duties today to prepare an official statement of the business transacted, the public will know on Thursday the decision the delegates arrived at on Tuesday.

REVEREND MRS. ROBERT HALL CELEBRATE GOLDEN WEDDING

A large number of friends met at the home of Rev. and Mrs. Robert Hall last evening to congratulate them on the fiftieth anniversary of their marriage. Amongst these were Rev. John Neil, D.D., president of the City Mission; Mr. Charles McD. Hay, chairman of the executive; Mr. Harry L. Stark, treasurer, and Mr. W. D. Steele, also a member of the executive, and a number of other friends. Many letters of congratulation were also received. The president in a short address spoke very highly of the splendid services rendered by Mr. and Mrs. Hall in their work among the poor of the city during these 55 years. He then called on Mr. Stark, who in a few fitting words of appreciation, presented Mr. and Mrs. Hall with a purse of gold. This was followed by Missionary Orsborn, who, representing the other missionaries and volunteer workers, also in a very few words of appreciation of Mr. and Mrs. Hall's services and fellowship, presented them with a small basket of gold. Mr. Hall in replying spoke with evident feeling and more eloquent testimony of the helpfulness of Mrs. Hall, without which he could not have borne the responsibilities nor attained the success which had attended the work during these years.

MRS. WM. FRASER LAID TO REST

Church of St. Agnes Mourns One of Its First Parishioners. The funeral took place yesterday morning of Mrs. William Fraser of 41 Grace street, one of the best known and most respected parishioners of the parish of St. Francis. High mass was read in the church of St. Agnes (old St. Francis), of which the deceased lady had been one of the first members. The celebrant was Rev. Father John Fraser, head of the Chinese College at Almonte, a son of the deceased; another son, Rev. William Fraser, assistant at St. Francis, was deacon and Rev. Frank Carroccio the staff of St. Augustine's Seminary, grandson, sub-deacon. A number of the local clergy, among them Right Rev. Mr. Whelan, V.G. and Rev. W. A. McCann, pastor of St. Francis, were in the sanctuary. The large congregation, amongst which the religious communities of the city were represented, spoke of the esteem in which Mrs. Fraser was held. The pall bearers were Messrs. H. Mcintosh, W. Fealey, A. McGinn and Jas. Carroll. The choir was under the direction of the organist, Miss Annie Connors. Interment was at Mount Hope Cemetery.

HARBOR COAL CASE ADJUDGED

The motion in connection with the Harbor Coal Company and the board of commerce was before Mr. Justice Latchford yesterday at Osgoode Hall, and was adjudged for two weeks or until such earlier day as Mr. Justice Middleton, who took it before, but who is now in New York, arranges to hear it. The case hangs greatly on the decision which is expected to be announced shortly, of the supreme court of Canada as to the legality of the board of commerce.

FAVORS CANADIAN GOODS.

Montreal, Feb. 17.—In view of the high rate of exchange which prevails in the United States against Canadian money, Mayor Martin in a communication he has addressed to the members of the city council, has announced his intention of supporting the policy of purchasing Canadian products. The regular monthly meeting of the Riverdale Reading Club was held at the home of Mrs. Noller, 79 Langley avenue, on Monday, February 16. Mrs. Harvey Jones arranged a very interesting program on Thackeray's "History of Henry Esmond," and took character sketches on Lady Castlewood and her two children, Beatrice and Frank. The president, Mrs. Worth, read a paper which was written by Mrs. Barker on "Henry Esmond." Mrs. Harris also read a paper on the historical contents of the book which was composed by Mrs. Barry, who, on account of illness, was unable to be present. Mrs. R. Pountney gave a character sketch on the "Dowager Viscountess of Castlewood." The usual social half-hour followed.

WORLD STAFF MOURNS MISS ELEANOR MILLOY

After a very brief illness of influenza followed by pneumonia, Miss Eleanor Milloy died early Monday morning and was buried yesterday afternoon, from the home of her parents, Mr. and Mrs. A. E. Milloy, 13 Montague street. A sister, Mrs. P. Moffatt, her parents and a host of sorrowing friends mourn the loss, not the least of these being her associates on The World staff. The late Miss Milloy, who was only 19 years of age, was a gifted vocalist, with an exceptionally sweet contralto voice, and was at times soloist and a member of St. James' Square Presbyterian Church choir. The pastor, Rev. D. N. Morden, conducted services at the home and at Prospect Cemetery. Many floral tributes were laid on the coffin by her friends and associates, among them being a wreath from The World staff, which was represented at the funeral by Mr. F. Richards, Mr. A. N. Bastedo and Mr. Charles Meek.

M'MORDIE ILL; CARRIERS WORRIED

Afraid He May Not Get to Ottawa to Represent Them.

Letter carriers at a rather small meeting held last night at the Labor Temple, decided to hold nominations for convention delegates next month and elections in April.

Delegate North pointed out in response to these suggestions that Mr. M'Mordie was a federated officer and could not be replaced or added to by any single branch.

Lacked Common Sense. Mr. North again pointed out that such a plan was lacking in common sense.

Declared Teachers Badly Underpaid. The time expired at noon yesterday for sending in the tenders for the proposed Mount Pleasant street railway.

Lack of Public Vision. Prof. W. F. Osborne, Manitoba, said it was simply breaking the teachers' hearts to feel that they were not on a man's or a woman's job.

Urges Question. Another delegate declared that men coming back from overseas with former teachers, were not going back to the profession and this on the advice of college professors.

Urges Question. The convention appointed committees to go into the question of survey of all Canadian text books and to prepare estimates of cost of such a step.

Urges Question. The notice of motion made by A.H. Honeyford at the inaugural meeting of this year's council, came up at the board of control, came up at the board of control.

Urges Question. The question of granting refreshment both concessions by the city took up a considerable portion of the meeting.

Urges Question. Parks Commissioner Chambers recommended that instead of calling for tenders on a straight rental basis, bids be invited for the use of the grounds.

Urges Question. Cont. Gibbons suggested that the city take over these concessions as a public utility.

Urges Question. Mrs. R. Gibson headed a deputation of three ladies asking that provision be made for the use of the grounds.

CITY HALL NOTES

The city hall was decidedly a humming hive of activity yesterday. In the morning the board of control met to discuss many weighty civic matters.

The railway viaduct over the tracks south of the Esplanade was brought up again at the board of control meeting.

Referring matters back to a favorite pastime at the city hall. The motion of A.H. Honeyford regarding a change in the municipal election day, which was referred back by the city council, was again referred back for further consideration.

Ald. (Mrs.) Hamilton brought forward her motion made at the last council meeting that application be made to the legislature for the purpose of enabling the city to appoint women magistrates in police courts and other institutions where women are tried for various offences.

Conditions are not as they should be in police courts and institutions of correction for women, explained the alderwoman.

That the city architect's department be asked to expedite the drawing-up of plans for new live stock markets.

Mr. North again pointed out that such a plan was lacking in common sense, since Ottawa would not list delegates to delegates from single branches.

The acquisition by the city of a large plot of land to be used as a nursery is now under consideration by the parks department.

After the reading of the demand in Canada that all the good roads that money can be found to pay for shall be constructed with as little delay as possible.

The president emphasized the need for solid organization amongst surveyors in order that their material interests should be safeguarded.

Mr. Spight reported that the survey which was withdrawn last session would be presented early in the new session as a government measure.

Col. Leckie said that aerial photography in war was the most revealing of concealed hidden batteries and concealed guns.

Dr. Deville described the post adopted for surveys of Dominion lands, which he considered fulfilled all requirements.

SURVEY FROM AIR QUITE PRACTICAL

Says Colonel Leckie, Addressing Ontario Land Surveyors' Association.

BIG UNION PROPOSED Importance of Surveys and Good Roads Impressed by Members.

A large attendance of members assembled yesterday morning for the opening meeting in connection with the twenty-eighth annual convention held under the auspices of the Ontario Land Surveyors' Association.

After the reading of the minutes of the previous meeting and other formal business being transacted, the president delivered a very interesting address which he devoted, as he said, to "shop" talk to surveyors.

Dealing first of all with the question of good roads he declared that there is a demand in Canada that all the good roads that money can be found to pay for shall be constructed with as little delay as possible.

The president emphasized the need for solid organization amongst surveyors in order that their material interests should be safeguarded.

Mr. Spight reported that the survey which was withdrawn last session would be presented early in the new session as a government measure.

top is a bronze cap, three inches in diameter, into which the iron pipe is forced. It bears the inscription "Dominion Lands Survey" and "Seven years' imprisonment for removal."

In regard to the amount of work which can be accomplished by aerial photography, Col. Leckie said that 800 square miles can easily be photographed in one day by one machine.

Another benefit of aerial photography would be the providing of additional information over areas already surveyed or filling in of existing maps of photographs, from the air.

Cost of aerial transportation Col. Leckie would not go into, but gave an arbitrary figure of \$100 per flying hour or per 100 miles.

One hundred square miles of country, he said, can be photographed with a modern machine in one hour.

Several pictures were shown on the screen of photographs taken from the air.

Financial Statement. The financial statement read by the secretary showed expenditure of \$17,785.31, being \$214.45 over the revenue, while the cash on hand and in bank totaled \$629.14.

Considerable discussion took place over a proposal to form an association to be known as the Dominion Land Surveyors' Association, with delegates from the land surveyor associations in the different provinces and also from the Dominion surveyors.

Mr. Hawkins, from the Dominion Land Surveyors' Association, outlined the benefits which might accrue from the formation of such an association, being of opinion that it would enlarge the prestige of the surveyors generally and tend to secure the necessary legislation which would give them as a body more power with which to approach the governments in connection with legislation which might be considered necessary in their interests.

It was unanimously resolved that the Ontario Land Surveyors' Association appoint three members as a committee to confer with the committees from the other associations interested and report to the next meeting.

That surveying from air craft is entirely practical, but has not been brought to the point where it surpasses ground topographical surveying, nor which it is ever likely to approach in accuracy, was the opinion expressed by Lieut.-Col. R. Leckie of the Canadian Air Board, at the evening sitting of the Ontario Land Surveyors' Association.

REAPER VERY BUSY.

Seven deaths have taken men away from the service of the Toronto Railway Company since January 1 this year. Of this number five died of Spanish flu and pneumonia and two following collisions.

LABOR BRIEFS

Melville P. White of the Canadian Founders' Association has written to the press what purports to be a fair resume of the situation in Ontario relative to the molders' strike.

RELATIONS HARMONIOUS.

Noteworthy as evidence of the harmonious relations now existing between the Electrical Workers' Union and the electrical contractors in Toronto is the fact that both James T. Gunn, business manager for the union, and E. W. Lyon, president of the conference board, will address the contractors at Moscrop Hotel on Thursday, March 4.

O'BRIEN BACK TO WORK.

William O'Brien, business manager for the Canadian Portable and Hoisting Engineers, has returned to his duties, although not fully recovered from his recent attack of "flu."

TO HIM WHO WAITS.

The rather remarkable case of a returned soldier receiving quite a fortune in back pay came to the notice of the Brotherhood of Carpenters yesterday afternoon, when it was reported that one of its members had received \$1400 in back pay in payment for about three years' extra working pay.

PERMANENT ADJUSTMENTS.

Negotiations between the electrical contractors in Ontario and the electrical helpers are progressing favorably, and wage and hour adjustments will follow the present deliberations.

Hamilton stonecutters have had their wages increased from 70 cents to 87 1/2 cents an hour.

Hon. Gideon Robertson, minister of labor, has received word that the report issued recently in Toronto relative to the effect that machinists were to be offered \$100 a week in and around Baltimore was incorrect.

Toronto is not alone in consideration of a new Labor Temple. Montreal has already decided to have one, 48 laborers having pledged \$100 each to this end.

Fred Bancroft, Herb Lewis, John Doggett and other members of the women's compensation committee, at a closed session, held last night at the Labor Temple, considered many proposed amendments to the act, and will meet again next week to continue the conference.

George Sangster, organizer of the Toronto local of the International Union of Journeymen Tailors has placed a levy of two hours' pay a week upon every member on a \$20 a week basis for November and December in various needs of the organization.

ELECTION PETITIONS ARE POSTPONED

Action Between U.F.O. and C. H. Ferguson Holds Over.

Brookville, Feb. 17.—Local Registrar A. E. Baker has been notified that the petition of G. Arthur Payne, U. F. O. candidate, against the election of Hon. G. H. Ferguson, in Grenville, Ontario, and the counter-petition of Ferguson against Payne has been postponed until after the coming session.

Gordon Waldron, barrister, counsel for G. Arthur Payne, U. F. O. candidate in Grenville, when asked last night concerning the foregoing despatch said there was no significance in it pointing to a saw-off. Mr. Payne wishes the trial to go on, and he has the say. The rota of judges for election trials appointed the hearing of five cases all in one week. It would be impossible to take up the case appointed on the day appointed and Mr. Ferguson's counsel made application for postponement till after the session as the statute says trial cannot be held in less than a week's session. Mr. Waldron opposed the application, which was granted.

JUDGE ALLOWS B. O. T. A. APPEAL

Italian, Charged With Procuring Whiskey, Claims It Came From Montreal.

Judge Coatsworth in the sessions yesterday afternoon allowed the appeal of the Italian, Albert Perletto, against the decision of Magistrate Denison of a B. O. T. A. charge brought against Thomas Roncone, 165 Parliament street, by the Ontario license department, and scene sentence, saying he was not experienced in B. O. T. A. charges, until Thursday next.

According to the evidence of crown witnesses License Inspector Albert Perletto and an Italian drove in a motor to the corner of Parliament and Queen streets on January 3 last. Here they let Perletto out after searching him and finding that he had no whiskey, but a one dollar bill and a five dollar bill, the number of which they gave to the minister of education, and W. E. Roadhouse, deputy minister of agriculture.

King Street Association Decide to Centralize Their Activities.

The annual meeting of the King Street Association was held in their own rooms on West King street at noon February 17, and took the form of a luncheon at which Vice-President H. A. Taylor presided.

It was determined to extend the activities of the association for the coming year to a point west of Bathurst street. The success of the association for the past year has justified the members in believing that the whole street could be very well handled by the same methods which have built up King street and made it the best advertised thoroughfare in the Dominion.

TEA PRICES UP.

A cable received yesterday by a local tea company states that the rupee has now advanced in value to 2s 11-4d. Before the war the rupee was worth 1s 4d, and, as money has to be changed into rupees to buy Ceylon and India products such as tea, this greatly enhances the cost to purchasers here.

WEDNESDAY MORNING, FEB. 15.

Use the Union Station.

The Board of Control is going to see the Harbor Commission about the Esplanade Viaduct. The railways make it clear that the Union Station cannot be used for a long time, if trains must come in and out on the higher level. But it would be possible to use the station next summer if the present level were utilized.

The mayor blames the present uncertainty on the indefinite ownership of the Grand Trunk. But that question should be settled tomorrow in London. The majority interest in the Union Station as well as in the viaduct will be the Canadian National interest, and whatever policy is decided on must be in harmony with the coordination of the Grand Trunk, the National Railways and the Hydro radial. That co-ordination must avoid an outlay of from thirty to sixty millions on what experts call a mud wall. The Harbor Commission wants the viaduct, the railways don't. The Hydro scheme of a terminal with roads going to the east along the waterfront is predicated upon the viaduct scheme. The attitude of the National Railways is important, and as soon as the Grand Trunk transfer is fixed a conference of parties concerned could deal with the problem.

The World has opposed the viaduct for reasons which have to it appeared sound. Nobody is finally committed to impracticable solutions of the waterfront development, if they can be shown to be impracticable. The whole situation must be reviewed without a day's unnecessary delay. But the public wants the Union Station and wants it soon, as the first great move in the reconstruction of Toronto transportation, on which so much of the city's future growth and prosperity depends.

One Road to Relief.

Signs increase that relief of the exchange situation and the difficulties of supplying this continent and Europe with cheaper food and other necessities is possible thru a slump in profiteering. Britain is shortening imports from the United States. Steamers are leaving Atlantic ports with partial cargoes of grain and other foodstuffs. London warehouses are glutted with wheat which the new trading scheme brings into sight, for the succor of stricken central Europe. The use of supplies already available thru Britain and Russia, and the Antipodes, can help this government to force the profiteers to lower prices over there, and will compel the profiteers on this continent to reduce the cost of living to the hundred and ten million people between the Gulf of Mexico and Northern Canada. Let prices fall, and the countries concerned will feel like a man freed from incipient strangulation. Freer exchange of commodities will help restore normality to supply and demand, and clear the road to a blessed improvement in international financial relations. There can be no magic dispersal of the world's burden of debt, of course, but victory over the immediate economic constriction would be a tremendous gain.

Shall the Boys Be Trained for War?

Two bills are before the U. S. congress to establish compulsory military training for all the young men of the country between the ages of eighteen and twenty-three years. The bill before the senate is fathered by Senator Wadsworth of New York, and is entitled The Army Reorganization Bill. It provides for five months of compulsory service during the period of five years. But the service during the first year continues four months. The cost to the country is variously estimated at from five hundred million to one billion dollars a year. The house committee on military affairs is at work on a similar bill under the chairmanship of Representative Kahn of California. Mr. Kahn happens to be a native of Germany, and the foes of compulsory military training are calling this scheme a plan to Prussianize America. It was this same Mr. Kahn, however, who, laying aside his party politics, took charge of and piloted thru the house the administration's bill for the selective draft at the beginning of the war. A great deal of nonsense is being talked by both sides and enemies of compulsory training. Its friends are ignoring the fact that the United States has already four million well-trained soldiers, a considerable number of whom have seen actual service in a theatre of war. The foes of the bill are using all the threadbare arguments against conscription. The cynical may remark upon the great energy everywhere displayed in making more munitions and training

more soldiers after the victorious conclusion of a war that was said to be waged for the purpose of ending war. But it is a condition, not a theory, that confronts the United States. Few doubt that she will some day have to fight Japan, and probably Japan in alliance with Mexico. She is fortunate indeed that Germany is in no position to join the alliance. Moreover, since the experience of 1914 no nation can consider herself safe from the peril of war no matter how meekly or discreetly she picks her steps. Having recognized the principle of conscription in carrying on a war why should not the United States practice the same principle in preparing for or guarding against war? No doubt we have many advocates of universal military training in Canada. Such a system exists without peril to their freedom in the sturdy democracies of Australia and Switzerland. Yet we venture to think there would be strong opposition to such military preparation in Canada as there will be to any large expenditure upon naval defence. Fully one-half of the revenues collected by the government from the people are absorbed in paying the interest on a war debt and pensions. Millions more are being expended on the soldiers' land settlement and other government schemes to properly repatriate the returned soldier. Still more money must be expended before our pensions are altogether adequate or all of our returned men are properly re-established in civil life. Hence the mere expense attendant upon a scheme of compulsory military training would prevent its adoption for some time at least in Canada.

"P. R." in Ireland.

The Dublin Irish Times, the Conservative organ for the Irish metropolis, states as a result of the recent elections that proportional representation has come to stay, and its belief "that the early future will see its adoption for municipal and parliamentary elections throughout the United Kingdom." The Irish elections, asserts The Times, "establish all the virtues that were claimed for this scientific method of feeling the popular pulse." The mechanism worked without a hitch, it testifies, and the number of spoiled ballots among half a million votes are declared negligible. The town clerk of Dublin and his staff counted and classified the 70,000 ballot papers of ten large areas inside 24 hours. With the provincial government of Ontario pledged to adopt the system at an early date, and a Speaker's committee of the Dominion Parliament formed to report upon it, with the assurance that if the report be favorable the government will adopt it, the assurance of The Irish Times should help to awaken interest in the most important electoral reform that has been brought forward in several generations.

A Successful Effort.

Altho the churches were unable to complete the totals they had aimed at in the "Forward Movement" campaign, they have nothing to be ashamed of in the amounts raised up till the present, and the Congregational and Baptist bodies have both exceeded the sum they had set themselves. We are inclined to think that the very severe winter weather has been unfavorable to the canvass, and also somewhat chilling to the impulses of those who find the extraordinary demands of the season upon their resources to be already sufficiently onerous. With milder weather, a little further effort, and a realization of what the Congregationalists and Baptists have done, it seems probable that the original designs will be attained. The Presbyterian Church already has assurance that the million still to be collected will be available. \$3,000,000 being already in hand. The Methodists set out for a similar goal, and should have the \$4,000,000 originally contemplated complete this morning. The Methodists, however, had determined to make \$5,000,000 their objective and this seems readily possible. The Anglican Church has fallen behind in comparison more than the others. But only about \$500,000 remains to be collected, and there can be no doubt that the Anglican Communion will secure the \$2,500,000 it desires. The raising of \$12,000,000 by the five important churches named indicates an entirely new spirit in church work, a keener appreciation of the service rendered, a determination that the workers will be more suitably rewarded, an awakening interest in the value of church teaching and discipline to the community. Beyond these facts of the various churches cooperating together is a notable one. The churches, at least, have learned one of the lessons of the war.

Seven Indictments Returned in Big Bond Robbery Case

New York, Feb. 17.—Seven indictments were returned today for thefts of millions of dollars' worth of bonds in the financial district by brokers' messengers and others. Five of those indicted were already under arrest—Edward J. Furey, chauffeur, whose revelations have given promise of a solution of the mysterious murder of one messenger, and Irving and Joseph Gluck and Rudolph and Herbert Bunora, brothers, who were employed as messengers. The names of the other two indicted were withheld pending arrests.

SERVING OF LATE CZAR A PUZZLE TO THE COURT

New York, Feb. 17.—Information as to how legal papers can be served on Nicholas Romanoff, deposed and supposedly executed czar of Russia, was asked of Supreme Court Justice Callaghan today by the Marine Transport Service Corporation, which holds a judgment for \$117,840.11 against him. Justice Benedict ruled nearly a year ago that the corporation must serve Romanoff in order to prosecute its claim for \$1,000,000 in damages. New York bankers for the Russian government applied to the payment of the judgment. Today Justice Callaghan was asked how Romanoff could be served when nobody knows positively whether he is alive or dead. The judge refused to solve the puzzle, dismissed the suit and gave the corporation permission to appeal to a higher court.

Predict Pneumonia Cses Will Follow Flu Epidemic

BUT HE KEPT A PATH OPEN

ITALIAN PRESS SORE ON WILSON

Strongly Object to His Interference in the Question of Jugo-Slavia.

FOR A TRADE TREATY Premier Nitti May Go to Belgrade With the Consent of His Cabinet.

Rome, Feb. 17.—At a meeting of the council of ministers yesterday Vice-Premier Nitti, now in London, read the note to the supreme allied council relative to the Adriatic question and also communicated the decision of France and England to stand by the compromise agreement sent to Belgrade on July 20, notwithstanding Mr. Wilson's objections. The council also considered a message from Premier Nitti, now in London, regarding the possibility of his going to Belgrade in the hope of reaching an understanding with the Jugo-Slav government, and also to lay the basis for a commercial treaty between Italy and Jugo-Slavia. Before definitely deciding upon this journey, Premier Nitti desires full agreement by the entire cabinet, but it is understood his proposed trip is a mere possibility, its realization depending on the trend of international relations. These, according to the Giornale d'Italia, may be influenced by the last "Ukraine from President Wilson, which has again encouraged the greedy and disproportionate claims of the Jugo-Slavs." Press Comment Commenting on Mr. Wilson's action, the Giornale d'Italia says: "His intervention was couched in such an unbecoming form as to arouse the suspicion it was suggested only by his invincible aversion toward Italy. He must have convinced even his compatriots that he is guided only by animosity. Therefore, the allies have reacted energetically against his attitude, which is offensive also to the discussion of the Adriatic question, which is being framed chiefly by Premier Lloyd George. Mr. Wilson, who purposely was not represented at the discussion of the solution of the Adriatic question, when it was discussed, instead of when it was discussed, while The Idea Nazionale says: "Secretary Lansing's resignation proves Mr. Wilson's opinion is not the opinion of the United States." "Italy's aversion is to be prolonged by the will of one man, who is dictating the laws of Europe," says Italia, a newspaper printed in the French language. "Mr. Wilson, 'places an insurmountable obstacle in the way of a settlement of the Adriatic question. Free Europe cannot tolerate the imposition of the will of one man, who in no wise represents the view of his country, nor even his own party.'"

IDA AT BOARD OF CONTROL

BY IDA L. WEBSTER. The meeting of the board of control yesterday morning was one worthy of a report in the archives of the British Empire. For the reason that the business before the "gang" was carried over the top with a zip that nearly bowled the ordinary every-day reporters off their pins. Among other things a letter was again read from the acting attorney-general wherein he asked for a full notification of what was expected of him in regard to the police court. The matter was held over until today on the next time the board meets, in order that Alderman Singer may be on the job when the members deal with the affair. This is the second time to our knowledge that the case has been laid over, and on each occasion it was instead of having the long-looked-for investigation held up indefinitely; in fact, for that matter the longer Mr. Singer holds off his fire the less effect it is going to have. Certainly if he has a special grievance which he wishes to clear up, there is no time like the present for doing the clearing.

DECLINE TO HEAR HON. W. ROLLO

Action by St. Catharines City Council Over Firemen's Dispute.

RARE SITUATION

Minister of Labor Points Out He Was Invited to Speak to a Committee.

St. Catharines, Ont., Feb. 17.—Hon. Walter Rollo, minister of labor, who the city council declined to hear on the dispute with the local fireman's union, which the council has refused to recognize, keenly felt his position this morning, not so much by the council declining to hear him, but as he put it himself, being brought here "under a misconception." "I had no knowledge that I was coming here to address your city council," Mr. Rollo said. "If I had, I should have expected some more formal invitation. On Saturday last I was called up by Ald. Avery and asked to come to St. Catharines, as I understood it, to tell the committee about how the Hamilton firemen got along with the union and the city council."

PRISONERS WILL WATCH HANGINGS IN CHICAGO

Chicago, Feb. 17.—Prisoners in the Cook county jail will be permitted to witness executions, despite protests by women's organizations, public officials and others. Sheriff Peters announced today. Jack O'Brien will be hanged Friday for the murder of a policeman, and prisoners in surrounding cells will look on, the sheriff said. "The mere hanging of a particular subject is not meant to punish that subject alone," said Sheriff Peters, "but the real object is to punish the criminal class. If capital punishment means anything at all, it is a deterrent to further crime, and it is intended to reach as those confined in the jail."

Great Welcome to Danish Leader in First Plebiscite Zone

Copenhagen, Feb. 17.—H. P. Hanszen, minister in the Danish cabinet, and recognized Danish leader in the struggle of Schleswig for restoration to her mother country, received a remarkable public reception in the first plebiscite zone. He was picked up and borne thru the streets on the shoulders of his admirers. Hanszen addressed a great crowd massed in Axel Square. He expressed his gratification over the outcome of the plebiscite in the first zone, and returning to the approaching election in the second zone, said he wanted only "to see Denmark get as far south into Schleswig as Danish hearts are beating."

THE GIRL WHO SMILED THRU

By MARION RUBINCAM

WHAT ALICE ANSWERED. CHAPTER 9. It all came so suddenly that it startled her. Alice took a gasp of breath. Every girl, of course, thinks forward to her first proposal, and wonders what he will say and what she will say in answer and such mental visions are always most romantic in character. And few girls are taken unawares. If feminine instinct ever errs, it is rather on the other side—the girl is apt to exaggerate the man's feelings, rather than to underestimate them. But Alice was not prepared for this. And when David took her hand and asked, "Was it because you loved me?" there was an instant when everything whirled about her. Sometimes it happens that great joy has much the same effect as great sorrow, the only sound was the ticking of a clock in another room and the musical dripping of the rain outside. "I love you, dear," David told her, and repeated it gently after another minute. Then he raised her face and kissed her cheeks, which were warm and flushed, and her eyes which were moist from the tears of happiness that had started to them—and finally her sweet, firm mouth. After a time Alice drew away from him and looked at him, her eyes the softest, deepest blue in the world, and shining with happiness. "I suppose you think I'm silly," she said, her voice not quite steady. "But I didn't know—I really didn't. We've only known each other such a little while, just a few weeks—and there

WORLD'S DAILY BRAIN TEST

NO PEACE UNTIL UNITY RESTORED

Hungary's Premier Says Country Cannot Be Dissected Into Five Pieces.

Budapest, Feb. 17.—Hungary's new national assembly, which was elected on January 25, convened yesterday. It will be called upon to consider very important matters during the session, among them being the acceptance or rejection of the peace treaty, determination of the future form of government for Hungary and economic laws. Premier Huszar, in the course of his opening address, said: "We solemnly declare it is impossible to dissect Hungary into five countries. There can be no peace until unity is restored. We want a plebiscite and will not accept territorial dispositions provided for in the treaty without it."

CHARLES E. HUGHES NOT A CANDIDATE

Has Requested That Name Be Omitted for Republican Nomination.

MARSHALL MAY RUN

Letter Defining His Principles is Taken to Mean His Serious Entry.

Washington, Feb. 17.—Several interesting moves in connection with the presidential candidacy in both the Democratic and Republican camps were reported today.

At Lansing, Mich., petitions to place the name of Governor Edward I. Edwards, of New Jersey, on the Democratic ballot in the presidential preference primary on April 5 were filed with the secretary of state this morning.

Governor Edwards is one of the leaders of the "wet" forces. He recently created consternation in the Democratic camp by declaring that a definite statement of policy in regard to prohibition must be included in the party platform.

A letter written by Charles E. Hughes to the county clerk at Omaha, Neb., asking him not to proceed with plans to present Mr. Hughes' name in the state primary as a candidate for president, was made public this morning.

He declares himself "utterly unwilling" to undertake a second candidacy, and states that, while he is deeply interested in Republican success and anxious that there should be Republican unity, he does not recognize any obligation to permit his name to be used.

Dr. Nicholas Murray Butler, president of Columbia University, and mentioned as a candidate for the Republican nomination, today declined to permit resolutions to be introduced at the Republican state convention on Thursday instructing the New York delegates to support him for the nomination, according to an announcement issued at New York.

Dr. Butler holds that the delegates to the national convention should be free to decide on those policies and candidates which, in their judgment, would best serve the interests of the people.

He declares no state or group of states should be tied by instructions or pledges to any particular candidate.

In the opinion of Democratic politicians here, the recent letter of Vice-President Thomas R. Marshall defining his principles means his serious entry as a candidate for the presidential nomination.

In this letter the vice-president asserted himself as a proponent of the older principles of Democracy, and it is believed he is tired of self-entanglement and has determined to come out as a candidate on that stand.

LIQUOR CONVICTIONS GREATER IN MANITOBA

Infractions, of M.T.A. in 1919 Nearly Double Those of Preceding Year.

Winnipeg, Man., Feb. 17.—Six hundred and ten convictions were obtained during 1919 for infraction of the Manitoba Temperance Act, according to the report of J. N. MacLennan, administrator of the act.

During the six months ending Sept. 1, 1919, 218,777 gallons of spirituous liquors were sold on prescriptions, the report states.

Mr. MacLennan recommends that in cases where convictions have been obtained under the act a jail sentence should be imposed without the option of a fine.

LEAGUE OF NATIONS ADMITS FOUR MORE

All South American Countries—Some Smaller Than Canada.

IS AID TO DOMINION

Ottawa, Ont., Feb. 17.—(By Canadian Press).—Official notification was received by the government today that four additional countries have joined the League of Nations.

At the time of the Paris peace conference, the four were included among states (not represented at the conference) invited to join. They were named in the annex to the covenant.

Admission of the South American countries is regarded here as of particular significance in view of the stand taken by the Canadian government in respect of Canada's status and voting rights in the league.

Paraguay, for instance, is a country of only one million population, as compared with over eight millions in Canada. But Paraguay will now have the same voting rights in the assembly as the Dominion.

Before the admission of Paraguay a number of Central and South American states, with an even smaller population, had voting rights equal with Canada.

They, however, were signatories of the treaty of Versailles, and, along with Canada, were counted among the original members of the league.

According to advices received by the government, there is a strong sentiment throughout the Dominion in favor of insistence on full Canadian rights in the league.

Mr. Meighen, minister of the interior, is to speak in Winnipeg on the league tomorrow night. It is expected that he will further outline Canada's stand.

VICE-CONSUL DIES

Winnipeg, Man., Feb. 17.—Andrew Schmidt, retired manufacturer and Danish vice-consul for over 22 years, died yesterday after a long illness.

Mr. Schmidt was of Swedish descent, having been born in Malmo, Sweden. He came to Canada after finishing his education about fifty years ago.

He lived for some years in Montreal, but moved to Winnipeg about 1882.

BOLSHEVIKI ACTED LIKE BARBARIANS

Swiss Consul Tells of Outrages Committed When They Took Kiev.

Geneva, Feb. 17.—Charles Wigler, Swiss consul at Kiev, arrived here penniless yesterday with 16 companions by way of Odessa and Mariupol.

Three hundred more Swiss are expected in the near future. Wigler said that when the Bolsheviks entered Kiev in December, they pillaged and then burned most of the shops.

They arrested all the foreigners and robbed them of everything, even their clothes and shoes being taken. A number of foreigners were forced to work for the Red army or starve.

Wigler said that the Bolsheviks acted like barbarians towards foreigners, shooting to death Madame Bevechi, a Swiss, because ten years ago she subscribed 150 rubles to the Nationalist Club at Kiev.

The banks of Kiev quoted a sovereign of 2,500 rubles. Wigler said while dollars could not be obtained at any price. The English, French and a few Americans in the interior, suffered severely under the Bolshevik regime, the consul asserted.

The Reds maintained no pretense of order, murders and robberies being common.

TO RAISE SALARIES OF GUELPH OFFICIALS

This, in Turn, Will Affect Fixing of New Civic Tax Rate.

Guelph, Feb. 17.—(Special).—Increased salaries will form no unimportant part in fixing the civic tax rate this year, the proposed increases to civic employees being made public today.

Almost every civic employee is affected. The list does not indicate who received the increase, or how much, but some of the principal ones are worthy of mention.

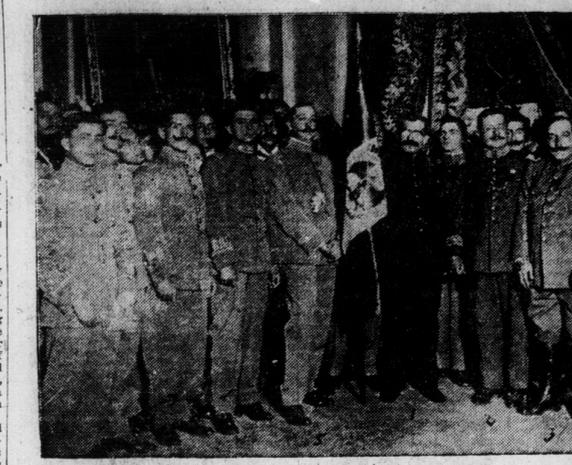

City Manager Moore's salary is increased from \$3,000 to \$3,500; City Treasurer Rose and Assessor Geo. Hastings had their salaries brought up to \$2,500 each.

The fire chief receives a boost of \$200, bringing his salary up to \$1,900, while the other members of the fire brigade all get increases ranging from \$50 to \$150.

The total increase in the fire brigade will amount to about \$2,000 per year. Relief Officer Col. Clark gets \$100 more this year, and also Caretaker Cassidy.

All of these increases will have their effect on the tax rate. In addition to these there are the increases to the teaching staff, which will run over \$12,000.

MORE TROUBLE AHEAD FOR MEXICO

GUNMAN OFFERS TO SQUEAL ON PALS

Chicago's Gang World Yesterday Suffered a Series of Shocks.

Chicago, Ill., Feb. 17.—Chicago's gang world, which has not recovered from the murder of "Boss" Enright, "King of the gunmen," three weeks ago, received two more shocks today.

A grand jury returned four indictments charging murder in the first degree in connection with Enright's death, and the state announced it would ask the death penalty in every case.

Two of those indicted, "Big Tim" Murphy, former secretary to Congressman McDermott and one time member of the Illinois legislature, and Mike Carrozzo, are both presidents of Chicago unions.

The second shock came when John O'Brien, sentenced to hang Friday for the murder of Policeman Richard Burke, appealed to Governor Lowden and the state pardons board to save him and offered to reveal the secrets of gangland in an effort to prove that he did not fire the shot that killed the patrolman.

In his appeal O'Brien charges he took the blame to save a relative of Enright, who promised to get O'Brien off with not more than a two-year sentence. Even after his conviction, O'Brien says, Enright insisted he could get a pardon, but with the gang leader murdered and the sheriff preparing to hang O'Brien Friday in the presence of 300 prisoners as an "object lesson," the convicted man has given "up hope in his former friend's efforts."

A Sister of Mercy carried O'Brien's appeal direct to Governor Lowden, who is in the city today. O'Brien's attorney announced later that the governor probably would grant a thirty-day reprieve to investigate the story.

TURKEY RECEIVES A STERN WARNING

Told That if She Does Not Behave Herself, Severe Conditions Are in Store.

London, Feb. 17.—Great Britain, it was learned today, has instructed Admiral De Robeck at Constantinople to announce there the fact that the allies have decided not to deprive Turkey of Constantinople.

If the persecution of the Armenians continues, however, the admiral was instructed to say, the peace treaty with Turkey may be made more rigorous.

The fact that continued possession of Constantinople had been granted her should not be misconstrued by Turkey, the British representative was directed to inform the Turkish government in plain words.

It did not mean, he was told to say, that the allies would deal leniently with Turkey should the recently reported atrocities continue.

The allied supreme council today considered the latest reports of massacres of Armenians. Note was taken of the fact that the reports for the most part emanated from Armenian sources.

Admiral De Robeck will point out to the Turks that they must show an inclination to comport themselves properly or be subjected to a peace more severe than the council now is disposed to arrange.

LAURIER TRIBUTE IN CITY OF OTTAWA

Observe First Anniversary of Liberal Chieftain's Death by Special Service.

LARGELY ATTENDED

Lady Laurier, Mackenzie King, Hon. Sydney Fisher Among Those Present.

Ottawa, Ont., Feb. 17.—(By Canadian Press).—The first anniversary of the death of Sir Wilfrid Laurier was duly observed this morning by Lady Laurier, the immediate relatives and close personal and political friends of the departed statesman, attending an anniversary requiem mass granted in the Sacred Heart Church for the repose of the soul of the great Liberal chief.

His Grace Archbishop C. H. Gauthier officiated at the solemn requiem mass, assisted by Canons Campau and Plantin as deacon and sub-deacon of honor, and Monsignor Routhier, vicar-general of the diocese.

Church Decorated.—The interior of the church was beautifully decorated with mourning draperies. The Sacred Heart altar was rendered in an impressive manner Perost's mass for the dead.

The immediate relatives of the late Sir Wilfrid Laurier, who attended the mass were Lady Laurier, Mr. M. Laurier of Montreal, Mr. Caroleus Laurier of Montreal, Mr. Robert Laurier of Ottawa, and Mde. A. N. Brodeur of Montreal.

Others present included Hon. W. L. Mackenzie King, Hon. Sydney Fisher, Senator Belcourt, Justice L. P. Brodeur, Sir Joseph and Lady Pope, E. B. Devlin, M.P., Jos. Archambault, M.P., Hon. Cyrille Desjardis of Quebec, H. A. Fortier, M.P., Ald. Albert Pinard, M.L.A., Dr. J. E. Fontaine, M.P., Lady Taschereau, Mde. P. E. Marchand, president of the Federation Des Femmes Canadiennes-Francaises D'Ottawa.

Visit to Cemetery.—Hon. W. L. Mackenzie King and Hon. Sydney Fisher afterwards visited Notre Dame Cemetery, where each placed a laurel wreath on the grave of the deceased Liberal chief.

Later in the day Mr. Justice Brodeur also visited the cemetery and placed a wreath on the grave of Sir Wilfrid.

South Wellington Farmers Link With Guelph Chamber

Guelph, Feb. 17.—(Special).—The secretary of the chamber of commerce has received a letter from T. J. Mahon, secretary of the South Wellington U.F.O. Club, in which he states that a number of the farmers are anxious to become members of the farmers' branch of the chamber.

The board of directors are agreeable to this scheme, and a canvass will be made of the farmers at once.

THE SUNDAY WORLD

--Toronto's Greatest Weekly--

GET IT THIS WEEK, EVERY WEEK.

REASONS for the constantly expanding circulation of The Sunday World are not difficult to enumerate. First in the field, it has always led the way. Today it is read from coast to coast. Listen to this message from a newsdealer in a small town in Quebec: "Circulation Manager, Sunday World: "Please add this week twenty-five copies to our order. Feature sections and comics more popular here than any others offered either by Montreal or Toronto publications." From both East and West, week after week, such hurry calls arrive. Among the departments, each pre-eminent in its own sphere, are the following: News Section—World news covered by the Associated Press service; by exclusive cable and telegraph services; and by staff writers. Illustrated Sections—Reproductions of photographs from all parts of the globe, touching life in all its phases, and giving a clear view of "how the other half lives." Feature Sections—Crammed with special articles by Canadian and foreign writers. Profusely illustrated by staff artists and photographers. Offerings of the best foreign picture services constantly available. Sporting Section—Week-end events in all parts of the world fully covered by telegraph and by local writers. Exclusive sporting features by largest staff of experts in Canada. Colored Comic Section—"Tom Sawyer and Huck Finn," by "Dwig," the creator of "School Days"; "Betty," by C. A. Voight; "Hairbreadth Harry"; "Uncle Wiggily" and others, the whole being admitted on all sides to be the best offerings of the kind on the continent. Departments of The Sunday World offer infinite variety: The Editorial, the Children's, the Automotive, each conducted by editors of Dominion-wide reputation. In addition to which, each week brings a new contribution to the "On Secret Service" Series of detective stories.

40c A SHARE

Authorized Capital \$2,000,000—Shares \$1.00 Each. 1,000,000-Shares Reserved for the Treasury.

In sessional paper No. 26, page 47, dealing with the work of the geological survey branch of the Department of Mines, Ottawa, for the year 1911, it is said that "only a few small patches of Keewatin were found this year. West Shining Tree area, the most important one, is the extreme southwestern lobe of a great Keewatin area that continues northward to Porcupine."

In this paper the Parliament of Canada adopts the report on Shining Tree prepared by W.H. Collins of the Department of Mines, and one of the ablest geologists in Canada. Mr. Collins shows that the gold-bearing rock is the same in both camps. Shining Tree is a part, or an extension, of Porcupine and this gives point to the comparison we are about to make between the Hollinger mine of Porcupine and the Herrick Gold Mine of Shining Tree.

The Herrick has been proved by diamond-drilling to the depth of 800 feet. There the vein shows \$15 ore over a width of 22 feet. A shaft is down 60 feet where values are equally good, though the payable zone is only 10 feet wide at the immediate surface.

The Hollinger was capitalized at \$3,000,000 in \$5 shares. In 1911 shares were sold at \$3.50 or 70 cents on the dollar. When these sales were made the mine had not been proved to a greater

depth than 200 feet; but by the first of January, 1916, dividends totalling \$7.15, or 200% more than the purchase price, had been paid. At that date the property was consolidated with the Acme and Millerton, and the capitalization was increased to \$25,000,000, of which \$24,600,000 have been issued.

For each of their shares the original Hollinger shareholders received 4 shares in the consolidated company. These 4 shares had a par value of \$20. They are now worth about \$28. Their owners have also received dividends since the first of January, 1916. These dividends would have been much greater but for the war.

The properties of the Hollinger Consolidated are conservatively valued at \$75,000,000, equivalent to more than \$15 per share.

The Hollinger had only 160 acres. The Herrick has 275 acres. The main vein on the former is about 8 feet wide. The vein on the latter is approximately 10 feet wide at the surface, increasing substantially in width at depth.

At 40 cents per share participation in the Herrick is on the basis of \$800,000 for the property. \$3.50 for Hollinger shares meant \$2,100,000.

We believe that the Shining Tree extension is the richest part of Porcupine.

Though all now admit that the Hollinger Consolidated is the greatest gold mine in the world, it was not so regarded in 1911. Its owners had faith, though men who posed, and even succeeded in passing as experts, condemned it while only in the development stage as the Herrick is now. It was, however, almost impossible to make a mistake as to the location of the ore on the Hollinger. In this respect the Herrick and Hollinger are much alike. The veins on both are large, clearly defined and regular.

The Herrick shareholders have so far provided \$200,000, of which \$60,000 has been already spent and \$140,000 is available for working capital.

Moreover, the Herrick can profit by the knowledge that has been gained in the development of the gold deposits of Ontario during the past ten years. Great advances have been made in exploration, development, mining and metallurgy, all of which are available to the management of the Herrick.

As the original offering of 100,000 at 40c is being rapidly absorbed, we would advise all those interested in this fine property to let us have their orders at once.

Orders may be wired at our expense.

Exclusiveness in Furs

A Thing Dear to the Feminine Heart and Essentially a Feature of Simpson Furs

There is nothing in the way of raiment in which an air of exclusiveness is more to be desired, or in which the effect of distinction in the mode is more gratifying than in the furs one wears. They must have quality. They must have presence.

It is the possession of these two qualities which makes Simpson furs preferred. The quality of the fur itself is dependable, the cut of the garments authentic, and the prices at which they are offered are most reasonable. The wise will purchase furs this winter when the quality is so excellent and the prices are so attractive, as the future has no telling. Moreover, Jack Frost is promising to linger for a while yet, and street wear demands these comfortable garments.

Rouse the Music Genius

In the Little Children by Establishing a Canadian Phonograph in Their Midst--Artistic and Economical

The old Greek father who set a lyre in the roof, so that the wind rustling through it in early morning would wake his young son, set an illustrious example for posterity. The germ of music lies latent in every childish breast, frequently unsuspected, waiting to be called forth and encouraged. And it is the wise father and mother today who train the musical ears of the children and stir up the gift within them.

What excuse could there be for not doing so when the Canadian Phonograph, the ideal instrument for such a purpose, is so efficient, so artistic and so easily accessible? With clear dulcet tone quality, the power to faithfully reproduce the delicate nuances of the most artistic aria or to strum out the strains of a fox-trot emphatically enough for the tripping of a hundred little feet. A versatile machine is the Canadian.

This phonograph makes a double appeal to you. Firstly, for what it does in the way of entertainment, and secondly, for what it is--a Canadian phonograph, representing Canadian industry. In your home it will tickle the fancy and charm the ears of all the little Canadians who live there.
