MUST DISARM AS THE VERSAILLES TREATY PROVIDES

Allied Military Experts on German Matters

Report Submitted to Supreme Council Today—Reparations and Austrian Situation Also Taken Up.

Paris, Jan. 26.—Allied military experts today handed the supreme allied council their report of a plan for the disarmament of German military units. The report gives satisfaction to the French viewpoint on the question, providing for full compliance with all disarmament clauses of the Versailles treaty.

It concedes to Great Britain's view as to the granting of a further delay, which was suggested on Monday before the supreme council by Lloyd George. Two-thirds of the operation of disarmament must be completed by March 1, and the work must be finished by July 1.

This decision means that the Einwohnerwehr, or civil guards, and the security police, must be disbanded, as must all other similar organizations not allowed by the treaty of Versailles, and that it was the general opinion last forenoon that it would approve the conclusion of the experts.

Reparations. Paul Doumer, French minister of finance, opened the discussion of German reparations by the council today. He read a report on the financial situation and outlined the French viewpoint concerning a solution of the reparations question.

The conference then heard Baron Edgar Vincent d'Abernon, British ambassador to Germany. A committee appointed yesterday to consider measures for the relief of Austria has begun work on this problem, solution of which is being deferred to an indefinite future date.

A proposal that the matter be turned over to the League of Nations was not entertained, and the committee was advised to formulate a plan contemplating assistance for the whole situation.

Mr. Doumer's report recommended a return to the terms of article 238 of the treaty of Versailles, which placed the duty of determining the amount of compensation to be paid by Germany with the reparations commission. He advocated strict adherence to the terms of that article.

Girl Court-martialed. Cork, Jan. 26.—Mary Bowles, a fifteen-year-old girl, was court-martialed yesterday, but sentence was deferred. At the trial she remained silent throughout.

THINGS IN BAD WAY IN SIBERIA

Peasants' Revolt and Reign of Terror by Reds Varying Reports.

London, Jan. 26.—Reports that disturbances which broke out recently in Siberia are assuming an alarming character are contained in a Helsingfors despatch to the Central News. The peasants, it is declared are besieging several towns here and fortified by Soviet forces, thus cutting off the supply of foodstuffs. On the other hand, the advisers assert that in Eastern Siberia the Bolsheviks have begun a campaign of terror against the peasants and that terrorism is reigning over a large area.

London, Jan. 26.—A wireless despatch from Moscow says that there is no truth in Helsingfors advice received in Copenhagen to the effect that part of the Kier garrison mutinied recently, seized several strategic points and compelled the soviet troops to withdraw after sanguinary encounters.

Says 273 Could Have Been Saved if Captain Had Given Word.

Seattle, Jan. 26.—All the 273 lives lost when the S. S. Princess Sophia went ashore on Vanderbilt reef, Alaska, in October 1918, could have been saved if the Sophia's commander had given the word, said Captain E. Harrington, former first mate of the lighthouse tender Cedar, which stood by the steamer, in testimony in U. S. court here yesterday. He was a witness in the hearing on the application of the C. P. R. for a limitation of liability in connection with loss of the vessel.

Captain Harrington declared that all arrangements to rescue passengers of the steamer had been made aboard the schooner King and Wings, and Elsinor were ready to go to the assistance of the stranded ship.

NEWFOUNDLAND FISH QUESTION

St. John's, Nfld., Jan. 26.—Minister of Fisheries (Coaker), of the Newfoundland government, who is in Europe on a mission intended to overcome difficulties which have prevented the marketing of the usual large quantities of fish from this colony in Southern Europe, called his first recommendation yesterday. The minister, who is now in Portugal, urged the continuance of the regulations previously imposed by the government and fixing minimum prices on sales of fish and fishery products.

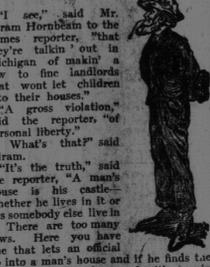

He said that if authorized he could sell all fish destined for Portuguese markets at reasonable figures. Representatives of the fish exporters last week urged the government to withdraw these regulations. After the government had submitted Mr. Coaker's cablegram to exporters agreed to allow him a week within which to make sales at figures stipulated by them. They said if he failed to do this they would renew their request for withdrawal of the regulations.

As Hiram Sees It

"I see," said Mr. Hiram Hornbloom to the Times reporter, "that they're talkin' out in Michigan of makin' a law to let landlords that want let children into their houses. 'A gross violation,' said the reporter, 'of personal liberty.' What's that?" said Hiram. "It's the truth," said the reporter, "a man's house is his castle—whether he lives in it or lets somebody else live in it. There are too many laws. Here you have one that lets an official go into a man's house and if he finds the children ragged and covered with vermin and nothing to eat, you let him raise Cain with the parents or cart the children away. If I want my children that way, so that I can loaf or spend my money on myself—whose business is it? On the other hand, if I don't want any children at all in the house I own—it's my house, and nobody's business what I do with it. 'Mister,' said Hiram, "you're wrong. One man has no right to tell people they can't hev children, an' another man has no right to neglect an' abuse his own children. What the world is onto depends on the children. They didn't ask to be born, an' they hev a right to fair play—an' if you an' me an' everybody else that gets it we orto be hung—By Hen!"

(Special to Times) Ottawa, Ont., Jan. 26.—It is expected by the commissioner of taxation that all the income tax forms for the year 1920 will be available for distribution within two weeks. The onus of obtaining the forms rests in each case with the taxpayer. Every form this year, when filled out, must be returned to the inspector of taxation in the district of the respective tax payers. Last year forms T 3, T 4 and T M covering salaries and wages paid to employes and dividends to shareholders were all forwarded to the department at Ottawa but this year they will be filed with the inspector of taxation as well as forms T 1 and T 2 for returns of corporation and individuals. Forms T 3, T 4 and T 5 must be filed with the inspectors on or before March 31 while forms T 1 and T 2 must be in on or before April 30. The act provides that the tax payer can send with his form a check to cover the total amount of the tax. In any case a check for twenty five per cent of the tax must be filed with forms 1 and 2, and if that course is chosen the balance of the tax must be paid in bi-monthly instalments with interest at six per cent. It is expected that final returns will show income tax collections of \$40,000,000 and excess business profits tax collections of \$35,000,000 dollars.

REBUFF FOR THE PREMIER IN HIS OWN TERRITORY

Something of Sensation in British Politics

Cardigan Liberals Refuse Lloyd George Candidate—British Leader Said to be Annoyed at Paris Newspapers.

London, Jan. 26.—A political sensation has been created today by a rebuff which Premier Lloyd George has received in his own territory. The Cardigan Liberals have refused to accept as their candidate in the forthcoming by-election the coalition candidate, Captain Ernest Evans, and have nominated instead Llewellyn Williams, a champion of the anti-Lloyd George Liberals. When the vacancy occurred it was assumed that the seat would go to Evans as a matter of course. He is one of the premier's private secretaries and a former member of parliament. The decision was taken by a meeting of M. L. Vaughan-Davies, who has received a per centage, was returned by the constituency in 1918, unopposed.

Paris, Jan. 26.—The Oeuvre says that Premier Lloyd George is understood to have taken exception to an article in a Paris newspaper criticizing his attitude on various questions now being discussed by the supreme allied council, and has protested to Premier Briand regarding the tone of the French press.

"Since I was treated this way," the newspaper quotes Lloyd George as saying, "I tell you I will never come to Paris again."

Mr. Briand, in consequence of this protest, appealed to newspaper reporters last night to use moderation in writing of the work of the supreme council. It is not supported by all of you as indicated. "Indiscreet, even pure inventions, were printed this morning, which do not please my interlocutors. If that goes on you will make it impossible for any more meetings to be held in Paris."

TAXES AND RENTS.

To the Editor of The Times: Sir,—It would appear that the landlords of the city are determined, this year, to increase rents to even a greater extent than in former years.

LINOLEUM

Floor Oilcloth and Feltol

Floor Coverings may now be purchased at lower prices than have prevailed for years. But it is not only their low first cost that recommends them to the thrifty housewife—their wear-resisting qualities make them the least expensive as compared with hardwood or other types of floor coverings.

Your dealer will show you a wide variety of pleasing designs in Linoleum, Floor Oilcloth and Feltol, suitable for any room in the house, as well as a wide choice of Linoleum and Floor Oilcloth Rugs in many attractive patterns.

To-day it is important to insist upon getting Made-In-Canada goods—insist therefore on getting Floor Coverings that are made in Canada, by Canadian workmen to withstand Canadian climatic conditions.

What Linoleum Is: Finely ground cork, scientifically combined with linseed oil, embedded in strong base of selected burlap, making the most durable of sanitary washable floor coverings. Wears like iron.

What Floor Oilcloth Is: Selected pigments are applied, layer after layer, to burlap back. Pigments are then printed and surface coated with wear-resisting varnish.

What Feltol Is: A new process felt base covering made on jet similar process to Floor Oilcloth. Most moderately priced sanitary floor covering.

TRADE WITH WEST INDIES

Speaking in Toronto last week Mr. Ernest E. Ross, editor of the Caribbean Herald said: "The new United States tariff regulations will further emphasize the need of a commercial union between Canada and the British West Indies and Guiana on the one hand and the people out there are solidly for a policy of commercial union and reciprocity with the Dominion, and recent developments in the States will, in my opinion, force us closer together."

WOMAN KEEPS 40 YEARS VIGIL FOR BRIDEGROOM

London, England, Jan. 26—Every Christmas Day for forty years a woman who lives in a cottage on one of the Clamorgan hills has sat down to her dinner alone, with a place set for another opposite her. She was married in May, 1880, to a sailor, who two months after the wedding left Cardiff on a ship which was given up as lost. He had assured her he would be back for Christmas, and urged her to spare nothing in the way of food for their Christmas dinner together. No husband came for Christmas, but she omitted nothing in the preparations, and every Christmas has remembered his words. She says she will do so until the end of the chapter.

An Investment Better than Ponzi's Even if Ponzi's get-rich-quick scheme had been presented to the National Council, it would not have been such a blessing to humanity as is Buckley's Bronchitis Mixture, the one sure remedy for colds, coughs, bronchitis, chronic asthma and other throat and chest troubles. Ponzi's scheme only meant wealth. Buckley's means health and perhaps life.

RUNNING TO FATHER; CHILDREN DROWNED

Fell Into Cutting in Ice Made by Their Parents—Fatality at Vaudreuil, Que. (Montreal Gazette.)

Running to meet their father, who was crossing the ice from Isle Perrot, Margaret Downs, six years of age, and her brother, William Downs, four years of age, of Vaudreuil, on Saturday afternoon and fell into a hole near the roadway and were drowned.

The children had been playing on the bank of the Ottawa river opposite their home during the afternoon and were on the lookout for their father, who had gone to Isle Perrot to bring back a load of lumber for his neighbor, Ulric Lalonde. Apparently the children saw their father starting from the opposite shore with his load of lumber. With their sleds and a small snow shovel with which they had been playing, the children took the ice road across the river, but examination later showed that at a point where the road passes near a hole in the ice, the children had taken a short cut and fell into the water.

The hole had recently been made by the children's father, Stephen Downs, when he cut the ice to gather in his supply for the coming summer. The hole is about twenty feet square and not protected in any way. Downs, coming across the river with his team, did not see anything of the children. It was nearly an hour later before he learned of the fatality.

At about 3:30 o'clock Mrs. Downs became aware that the children were not visible, searched for them and found the sled and the little shovel lying by the hole in the ice. She shouted and her neighbor's daughter heard the cry and called her father, Ulric Lalonde. The latter ran out on the ice and found the body of Willie, floating in the open space. The body was quickly recovered from the water. Dr. D. Bellemare, of Vaudreuil, was summoned by telephone. Recovered Second Body.

Possess Good Health By Looking After THE BOWELS A free motion of the bowels, once or twice a day, should be the rule of every one, as half the ills of life are caused by allowing the bowels to get into a constipated condition. When the bowels are allowed to become constipated, the stomach gets out of order, and the liver does not do its work properly on account of holding back the bile so that it does not pass through the bowels, but is allowed to get into the blood, thus causing a poisoning of the whole system.

"Kinship of Two Brothers"

BUSINESS MANAGER OF "THE NEW YORK TIMES" ADVOCATES NOT ONLY U. S.-CANADIAN UNION FOR DEVELOPMENT, "BUT PERHAPS, AT SOME TIME, FOR MUTUAL DEFENSE"—CANADIAN ARMY PRAISED—THE NEWSPRINT SITUATION

(Louis Wiley in The Maple Leaf.) The relationship between Canada and the United States, always close because of the proximity and the similar ideals and ambitions of the two countries, in commerce and along every line of development, not only for our mutual good, but, perhaps, at some time, for our mutual defense.

The leaders in Canadian national life are resourceful, strong, patriotic men, and behind them stands a splendid body of intelligent and courageous citizens. Canada sent an unusually large percentage of its young men into the war to fight under the banner of the British Empire. The Canadian Corps were the corps d'élite of all armies. At the end of the war, after four years and a half of fighting, Canadian soldiers were fresher and better than ever before. They occupied Vimy, the most forward position on the western front, but the Germans never would come near them. Throughout the whole offensive of 1918 the Germans carefully avoided Canadians, and whenever there was any contact it resulted in the complete discomfiture of the Germans. For every daring enterprise Canadians were selected, because they were not only as brave as the bravest but they had the North American instinct to take care of themselves. Canadians were chosen to capture Paschendaele, a position that commanded Ypres, and which the British found it necessary to take in order to prevent Ypres from daily slaughter. The British tried in vain for months to overcome the defense of Paschendaele. They were unable to do it, and finally they called on the Canadians. The whole Canadian Corps was dug out of Ypres and sent to the Paschendaele front. When they got there they found there were no roads and no light railways on which to bring men and guns and food up to within firing distance of the town. They spent eight days in the open, under fire from the Germans, building these roads. They found the British soldiers in the mud without any way to get up munitions and supplies in sufficient quantities, firing away at Germans on the heights of Paschendaele. This was beautiful and brave, but it was not war. When the Canadians completed their roads, they went after Paschendaele and took it. The whole operation was completed within thirty days, and the Canadians went back to Vimy. Paschendaele cost the Canadian Corps 15,000 casualties.

The NEW EDISON "The Phonograph with a Soul"

What Edison did during the War

THE official announcement is out. Ask us for your copy of "What Edison Did During the War." Write for it, if you can't call. It tells how Edison left his home and business and went to sea, how Edison's "Yankee magic" foiled the German submarines. The bulletin tells many other things Edison did while Chairman of the Naval Consulting Board. It explains how Edison kept the price of his phonograph at bed rock during an era of high costs and soaring prices. Since 1914 the New Edison has advanced in price (in the United States) less than 15%—and part of this is war tax. This bulletin also describes the Budget Plan, which makes it possible for every home to enjoy the benefits of good music without feeling the financial outlay.

Watch for the announcement of Mr. Edison's New Research!

As to Government Ownership.

In the matter of the rehabilitation of returned soldiers, Canada has advanced much further than has the United States and other allied countries have based their rehabilitation plans upon Canada's experience. Entering the war at its beginning, in 1914, Canada's post-war organization for returned soldiers was started in 1915. The early state of this organization has enabled Canada to perfect provisions of vocational training, payment of allowances, and other going treatment, establishment of labor bureaus and assisted settlement of returned soldiers on the land.

In the United States, the government, a few months ago relinquished its operation of railways; but Canada emerged from the war having the largest number of miles of government-operated railways of any country. Canada is now proceeding to develop a permanent national policy toward the transportation facilities of the dominion. The results will be followed with the deepest interest by authorities in the United States and other countries.

To a large extent, in the United States, the necessity for government development has passed. The transportation question in the United States is now one of providing adequate facilities at the lowest possible rates to take care of the enormous volume of natural and manufactured products, which await carriage from one section to another, and for export. Government operation in the United States in the period of war stress cannot be taken as any indication of the results which such operation in a normal period might bring about. Private ownership of railways, under favorable financial conditions and with the serious labor problem satisfactorily solved, many authorities contend, is productive of better results than government ownership.

Canada has a number of great newspapers, rivals in influence and enterprise of the leading journals of the United States. They differ little in ideals and in methods from United States newspapers of equal size and circulation. A serious problem which confronted American newspapers for some time after the end of the war was the shortage of newsprint paper. There has been a large increase in the consumption, due to the expansion of advertising; but the production has not kept pace with the demand. Recently, however, there has been a great improvement in the situation.

PLUMBERS START A COSTLY BLAZE IN ASHBURNHAM

(Canadian Press Despatch) Ashburnham, Mass., Jan. 25.—Two firemen were overcome by smoke when the Central House, a three-story wooden hotel, was destroyed in a \$50,000 fire which threatened the town centre this afternoon. Plumbers thawing pipes started the blaze. Aid was called from Fitchburg. Cushing Academy boys, with local firemen fought the flames while girls from the same school brewed hot coffee.

CEREMONY FOR PARLIAMENT

Ottawa, Jan. 25.—The opening of parliament on February 14 will be marked by all the old-time display. The ceremony will be full-dress and will be held in the new chamber of the senate, and for the first time since the outbreak of the war, their excellencies, the Governor-General and the Duchess of Devonshire will hold a drawing room in the senate chamber, the Saturday following the opening. Following the example set in drawing rooms at Buckingham Palace, feathers and veils will not be worn.

WANTS FEWER OPERATIONS

St. Catharines, Ont., Jan. 25.—That about fifty per cent of the operations now being performed by the medical profession are unnecessary was a statement made by Dr. Hott, ex-mayor of Kitchener, in an address at Welland on the nationalization of the medical profession. He advocated that doctors should be under government salary and the people educated by a system of lectures up to a standard of healthful living.

U. S. REDS PASS DEATH SENTENCE

Boston, Jan. 25.—The action of some of the eighteen alien radicals now at Deer Island awaiting deportation in passing a sentence of death on one of their number caused their confinement in cells today. Demetrio Iwankiw, who was the man marked for death, was separated from the others today. Iwankiw apparently had undergone a change in his radical views. He voiced his opinion among his fellows and as a consequence a committee tried him as a spy. The committee bound itself to see that the death sentence was carried out as soon as the party reached Russia.

QUOTES SCRIPTURE FOR FIRE PENALTY

Boston, Jan. 25.—Proponents of a bill to make persons whose negligence results in fires responsible for the loss and for the cost of extinguishing them quoted the Bible before a legislative committee today. "If fire breaks out and catch in thorns, so that the stacks of corn be consumed, he that kindleth the fire shall surely make restitution," was the quotation, from the book of Exodus. The bill was supported by John R. Murphy, fire commissioner, who said that 75 per cent of the fires in Boston were caused by negligence.

NEWS NOTES ABOUT PROMINENT BAPTISTS (Maritime Baptist).

The new Year Book gives the address of L. J. A. Beyer as St. John. It should be Smithtown, N. B.

Another error occurs in connection with L. W. J. Alexander, pastor of the Harvey (Albert Co.) group of churches. At the last meeting of the New Brunswick Association he was granted an associational license. This should have been shown in the list of licensees.

We much regret to state that Rev. Irad B. Hardy is not coming to Truro. The good people at Sanford, Maine, would not listen to the suggestion of his resignation.

At the recent annual meeting of the German street church, St. John, the members showed their appreciation of the work of their pastor by voting to increase his annual salary by \$600.

Rev. F. E. Meyer, famous pastor of Christ church, Westminster Bridge road, London, will, at Easter, retire from the pastorate of that church. Dr. W. C. Poole, who has been serving as acting pastor, will succeed Dr. Meyer, who will become pastor emeritus.

Many will hear with a sense of personal sorrow and loss of the death of Mrs. Alice Shaw Chipman, widow of Dr. Alfred Chipman. Early on Monday morning of last week a telegram reached her son, A. H. Chipman, of Hampton, that she was very low. He hastened to her home in Berwick, and the end came on Tuesday morning. Throughout her long life of nearly eighty-nine years she exercised a potent influence for righteousness and true spirituality. To the very end of life she retained in a wonderful manner her mental and physical vigor and alertness and her deep interest in all the work of the Kingdom of God.

Her childhood home was in Berwick, and after her graduation at Mount Holyoke Seminary she founded a school for girls at her native village in 1859. In January, 1861 her school was moved to Wolfville at the solicitation of the Baptist Education Society, and was affili-

ated with Horton Academy under the name of Grand Pre Seminary. In 1862 she married Rev. Alfred Chipman, who that year completed his theological work at Newton.

CIGARETTE FOE DISMISSED. Kansas League Drops Miss Gaston After "Coffin Nails" Dispute.

Topeka, Kan., Jan. 26.—The Kansas Anti-Cigarette League has refused to pay Miss Lucy Page Gaston, its organizer, any more salary, or to be responsible for bills incurred in her campaign against the cigarette, so Miss Gaston announced adding that she will leave for Iowa immediately to begin the organization of a State league there.

The controversy resulting in Miss Gaston's dismissal from the Kansas League began when she announced that "Coffin Nails," a magazine devoted to the Anti-Cigarette League interests, would be published in Topeka. The national headquarters of the league in Chicago refused to approve the proposed publication.

Miss Gaston said the national headquarters also refused to incur any more expenses in connection with her work in Kansas.

J. H. Gray writes to the Times in protest against an alleged statement before the city council to the effect that some of the employees at the sugar refinery are colored people. He asks why there should be any discrimination against the colored man, who has to pay taxes the same as the white man.

PLEASANT EVENING.

Members of the Young People's Society of the Mission Church enjoyed a sleigh drive on Monday evening as far as Rothesay and back to the school room of the church, where a delicious supper was served. The remainder of the evening was spent in games and music. They were accompanied by Rev. J. V. Young.

DEATH OF J. T. RENEHAN.

His wife, who was formerly Miss Mary Wynne, survives, with one son, John L. Renehan; a daughter, Miss Mary E. Renehan; a sister, Mrs. Cornelia Mahoney of Cambridge, and a brother, Peter L. Renehan of Lynn. Mr. Renehan will be remembered by many friends here by whom he was greatly liked and respected and who will sympathize with the family in their loss.

ISSUE OF STOCK AND BONDS IS NOT ALLOWED

Application of Madawaska Light and Power Co. Dismissed—Increased Rates for Minto Coal Co.

Two applications were heard by the New Brunswick Public Utilities Commission this morning, one of which was granted and the other refused. A. B. Connell, K. C., the chairman, presided and there were also present Commissioners Michaud and Lewis and Fred P. Robinson, secretary.

The application from the Minto Coal Co. for permission to increase their rates for time as an apprentice was considered. R. B. Hanson, K. C., presented the case for the company. An order was made by the board approving the schedule of rates filed.

The Madawaska Light & Power Co. petitioned for approval of an issue of \$250,000 capital stock and \$500,000 in bonds. The board delivered judgment stating that upon the evidence adduced, it was unable to see the expedience of the issue. The application and petition were therefore dismissed.

BROOKVILLE HAS A \$3,000 FIRE

Residence, Barn and Hen House Destroyed This Morning.

Fire this morning totally destroyed an all year round cottage, the property of H. G. S. Adams, at Brookville, and occupied by Arthur W. Harvey and family. A large barn and hen house were also demolished. The entire loss is estimated at about \$3,000.

About half past ten o'clock fire was seen by Mrs. Harvey, who called for help from employees of the Smith & Merritt plant near by. The men quickly responded, but as there was no fire protection and the flames had already gained headway, nothing could be done towards putting out the fire. The men were successful, however, in saving some of Mr. Harvey's furniture.

Luckily the wind was blowing towards the woods or another cottage and Mr. Adams' large residence might have been in danger. Before noon the fire was out.

Mr. Adams carried \$600 insurance on the barn and \$600 on the property occupied by Mr. Harvey. The latter had \$300 on the house furniture.

The blaze was spectacular, as quite a large quantity of hay and straw was stored in the barn.

SORTING OUT THE CAPTURED BOOZE

Some of it Goes Into the Harbor—Hopkins in Kings County.

Little bottles, big bottles, bottles of all sizes and shapes, containing liquor of in colors and varieties ranging from a questionable variety of two per cent to some rare liquors, packed in cases, boxes, barrels, kegs and suitcases, lay spread around the offices of the local liquor inspectors this morning. A sorting programme was in progress, as a result of which a quantity of drink of doubtful origin and purity was mingled with the salt water of the harbor and the rest turned over to one of the wholesale vendors. This morning's action was part of Chief Inspector Hawthorne's house cleaning operations.

It is understood that the present abiding place of former Inspector Hopkins has been ascertained and one of the local inspectors will be sent to interview him to have some details of his office cleared up. Mr. Hopkins is living in Kings county.
