Charges Made By a Liberal

Sensation In The Legislature of Manitoba

BRIBERY AT ELECTION

Senior Allegations in Connection With Contest in Gimli Last May—Open Statement on The Floors of The House

(Canadian Press)

Winnipeg, Feb. 7.—T. H. Johnson, Liberal member for West Winnipeg, read the following statement in the legislature:

"I, on my responsibility as a member of this house, charge—

"That public money was improperly and corruptly employed in influencing electors to vote for E. L. Taylor at the election in the constituency of Gimli on May 19, 1913, clear evidence of which is to be found in items in the public accounts, aggregating some \$88,000, expended directly by the government.

"That bribery was extensively practiced in this bye-election on behalf of E. L. Taylor.

"That corrupt treating was carried on throughout the constituency to a degree never before known in this province.

"That liquor was freely dispensed by the agent of E. L. Taylor in the opinion territory and elsewhere.

"That intimidation was largely practiced.

"That employees of the Manitoba government and officers of the law were personally guilty of acts of intimidation, bribery, corrupt treating and distribution of liquor.

"That violators of the law were protected by officers of the government, and charged with enforcement of law and order.

"That prominent among the workers and agents of E. L. Taylor were owners, managers, employees of notorious drinking resorts in Winnipeg and clubs of that class.

"That this campaign of corruption, intimidation, bribery and illegal liquor was directed and managed by prominent members of the Manitoba legislature.

Johnson also cited more than 100 instances of alleged corrupt practices during the Gimli election. The government has not yet replied.

NEW PLAN OF TAXATION OF PERSONAL ESTATE OF DECEASED PERSONS

The city is advertising a bill to amend the assessment and bring the taxation on the personal estate of deceased persons in line with similar legislation throughout the province.

Under the present act assessment is made according to the place of residence of the executors or administrators. For instance, if a person dying in Fredericton leaves his estate to the hands of executors in St. John, the whole personal estate is assessed in this city.

There are two executors, one in St. John and one outside, half of the estate would be assessed here.

The amendments will provide that the estate shall be assessed only at the place of residence of the deceased until it is distributed, after which it will be assessed only according to the place of residence of the beneficiaries.

Thus a St. John man may act as executor for an outside estate and be assessed on the estate for the full value of the property.

The new arrangement is regarded as much fairer than the former provision.

ORDER TRAVIS TO LEAVE TOWN

Keeps His Liberty if He Stays Away From St. John—His Return Caused Police Activity

The mystery surrounding the story of a fight which took place on the South wharf has been cleared up by the police as told in the Times yesterday and now as a consequence John Travis is ordered to leave the city this morning.

It was learned by the police that John Travis conducted a boarding house in that locality where the scuffle and went out to investigate. This was about 10.30 o'clock. He found a man whom he recognized as Travis lying near the house.

He appeared injured and blood was coming from his mouth. Stotrom told the police that he advised Travis to go home or he would be arrested as he is out on suspended sentence. Travis replied "This is my beat, I cannot leave here until two o'clock in the morning."

Stotrom said he then called up Travis home and asked that someone be sent down to look after him. A short time after that his sister and a man named Rankine came down to the wharf but Travis refused to go home. A short time after that the man went away.

The police say Travis was seen that night at the Metropolitan.

When this information was gathered by the police Judge Forbes was absent from the city. His Honor returned yesterday and Travis was notified to appear before him this morning. Chief of Police Clark reported the circumstances of Travis' behaviour and asked that something be done. The chief said he had left the city and asked that a man like Travis and asked that he be disposed of in some way or another.

Travis was arrested on Thursday morning and he had been requested, Daniel Mullin appeared for him and said that he would see that he left the city or if he did not do so Mr. Mullin said he would do nothing more to do with the matter.

Travis is also on bail on the charge of setting fires in the city and was then allowed to go on suspended sentence, breaking and entering the premises of George J. Barrett in Dock street last July.

This department is in a flourishing condition, having a membership of more than 100, and its meetings are of the most interesting character.

May Put Noon Train Into Commission Again

Outlook For Evening Suburbans Not So Favorable—Night Express to Make Suburban Stops—Residents Along I. C. R. Confer With Manager Gutelius

As the result of a conference between General Manager Gutelius of the I. C. R. and the residents of the suburban towns along the I. C. R., held in the Board of Trade rooms at one o'clock today, Mr. Gutelius promised favorable and sympathetic consideration of the request for the restoration of the trains leaving St. John at noon and arriving at the suburban towns about three o'clock. He also intimated that the night express for Halifax would be allowed to make the suburban stops but said that a sufficiently strong case had not been made out for the restoration of the evening suburbans.

On motion of E. A. Schofield, L. P. D. Tilley took the chair and announced that Mr. Gutelius and Mr. Halliday were present to hear with regard to the discontinuing of the four suburban trains to Hampton. Understanding that E. A. Schofield was the representative of last night's meeting, he called upon him to speak.

Mr. Schofield regretted that the meeting was of such a formal nature. He expected that Mr. Gutelius would come and announce that the trains would be put on again. He is not prepared to do so, said Mr. Schofield, "and therefore all that can be done is to point out to you how the discontinuance of the service is affecting us. There are representatives here from each station, who can explain very convincingly how seriously they are affected by the cutting out of the suburban service, which we have been enjoying these last four years."

Mr. Schofield said that he himself speaks for the residents of Hampton. He explained that he had induced many families to purchase properties in that locality, and the place was fast building up. He told of the inconvenience to business men coming in the morning and going back at night, and also to members of the families who wish to travel to the city for a half day. He said that all the trains, which have been cut out, are necessary to the residents of the town.

Mr. Gutelius: "You need not bother with the morning and evening trains. I have explained to you that we have no more of them. We have welcomed the Golf and Country Club to the city and the men who will mean much more business for the city than the suburban service."

Mr. Schofield: "Could you let us know the loss to the railway for the three round trips as compared with only one?"

Mr. Gutelius: "I would say that the loss is \$10 a day."

Mr. Schofield: "Would you not expect to stop the Maritime at least five times and would not that more than balance the saving?"

Mr. Gutelius: "Those stops are made only by the post-offices of the conductors and engineers and I am glad they do it although they have had no instructions."

Mr. Schofield: "I think we could show you where there are opportunities to build up a much larger business and a paying business, while this is being built up it may cost the railway something but nothing so much as it will cost the residents of the town."

H. F. Puddington called to the fact that the noon train was a necessity especially on Saturdays on account of the half holiday. Last Saturday there were 288 passengers and the average would be at least 90.

Mr. Gutelius: "A matter of \$4 or \$5, I understand. You must take into consideration the way the business is increasing and that the growth of the city is rapid. The Sussex train is largely due to the improved service. During the last three years it has been necessary to run a good train service. The men of the families may travel on the Sussex train but they would not be able to get into the city if the other members of their families did not have the use of suburban trains. The growth of the suburban loss of the noon train will be a great inconvenience to the city. MINISTER OF RAILWAYS SAYS SUBURBAN TRAINS WILL NOT BE RESTORED

Ottawa, Feb. 6.—Before the orders of the day were called, at the opening of the commons today, Hon. H. R. Emmerson said there was complaint because arriving late in some parts of the maritime provinces. For instance, Toronto morning and Montreal evening papers formerly reached such points as Moncton on the afternoon of the day following publication. Since the Ocean Limited train has been withdrawn from the intercolonial lines papers did not reach places like Moncton until the morning of the second day after publication, coming via the Maritime Express which leaves Montreal about noon. At the Canadian Pacific had a train which left Montreal in the evening for the maritime provinces, there seemed to be no good reason for this delay. Postmaster General Pellier agreed that there seemed to be no good reason for this delay. He would call the attention of officials in Montreal and have the papers hereafter forwarded by the C. P. R. evening train. Mr. Emmerson said there was trouble over the English mail. In former years it reached Moncton on Friday or Saturday each week. Now it did not arrive until the following Monday or Tuesday. There was no answer to this from the government.

HAPPY YEARS FOR QUEEN CHRISTINA

Alfonso's Mother Sees Son Well Established HIS GUIDE THROUGH PERILS

King of Spain Owes Much to Her and He Has Justified Her Care —Not Loved But Highly Respected By All Spaniards

(London Ideas.) Now that King Alfonso and his charming English queen have such a considerable family, and an army of Spain seems at last to have arrived at a pitch of security which it has not known for seventy years, the most active of the able lady who gave Alfonso birth, and who herself reigned in Spain as queen regent for sixty years.

Yet these are Queen Christina's happiest years. Full of interest in her son and his country, keenly devoted to her royal daughter-in-law, and her numerous children, Queen Christina may be said to do so, for in spite of considerable personal unpopularity in Spain, where she is supposed to have the "evil-eye"—she has scored a triumph as a queen which is not paralleled in the rest of the world. It is a wonderful thing, when this simple Austrian archduchess, widowed at a most trying and untimely hour, brought her son through the gravest dynastic perils, and has lived to see him firmly established on the most wicketly throne in Europe. Only a woman of tremendous personality and foresight could have achieved such a triumph!

King Alfonso's Father Prior to the accession of Queen Christina the late husband to the Iberian crown, the Spanish throne was a dynastic volcano. Kings and queens came and went in quick succession.

Just now when we have one king from the peninsula, permanently called in England, it is interesting to recall that young King Alfonso's father was in a similar position when he was called to Spain to take upon himself the dangerous yoke of king. The Spaniards had grown disgusted with the rule of the Spanish royalists, and a republic had been proclaimed. The then ruler of Spain, Queen Isabella, had fled to Paris, and her son, the Prince of Asturias, had come to England, and joined the army at Sandhurst. He never expected to be King of Spain, and in England he was as a king from the fear of assassination.

But the Spaniards soon grew sick of the republican state, and when they asked the Prince of Asturias to return to Madrid as "King of Spain," he was obliged to do so. He obeyed. The Spaniards had not seen him for years, and when they met him they were charmed. They beheld a smart and dapper young king entirely at odds with the old monarch who had been so long and so loyally as can be expected in the land of the proud. The new king was not allowed to remain a bachelor long. He had long cherished a keen affection for a young girl, the Princess Mercedes of Montenegro. The marriage was not a popular one, for the bride was a Catholic, and the Spaniards, but it was a "love-affair," and the Spaniards are not known for their conservatism. In spite of this the Princess's health began to fail. In one of every attention the King Queen of Spain only lived for two days after her twentieth birthday. She left no children.

"As Spain's first necessity was a heir (all the bloods of her many years covered her to his crown), King Alfonso was promptly married to the Austrian archduchess who was a great-great-niece of the late monarch. This young princess had been doted upon by her father, and she had two little daughters, death overtook him suddenly. Alfonso owes to his Mother But youth and hope were with Alfonso, and he was with Alfonso. But youth and hope were with Alfonso, and he was with Alfonso. But youth and hope were with Alfonso, and he was with Alfonso.

Daily Hints For the Cook

Chicken Pie Boil chicken until tender. With the water in which it was boiled, make a gravy, allowing one-half cup of flour and two tablespoons butter to every quart of water. Season with salt and pepper, put in baking dish, add chicken from which bones have been removed. Cover with one-half pint cream and pieces of butter, bake as you would a fowl. Garnish with slices of lemon and watercress. Baked Shad Stuff with bread crumbs, salt pepper, butter parsley, and mix this up with beaten egg. Fill fish with it and sew it up. Pour hot water over it and pieces of butter, bake as you would a fowl. Garnish with slices of lemon and watercress. And No Heart for the Job The man who is his own worst enemy has a fool to overcome.

CARUSO'S SPURS TRIP HIM ON STAGE

Become Entangled in Mme. Destinn's Dress as Two Are Making Hasty Exit. New York, Feb. 6.—During the second act of "The Girl of the Golden West," the Metropolitan Opera House here, Senor Caruso introduced a piece of stage business which it is not likely he will repeat. It was when he, as Johnson, and Emmy Destinn, as Minnie, ran together to the cabin door at the first alarm from the outside that indicated the pursuing posse was catching up with them. As they came together at the door Caruso's spurs caught in the blanket Mme. Destinn was wearing. The tenor fell to the floor with his feet tangled, helpless for a moment. Mme. Destinn, absorbed in her part, did not at first notice what was wrong with her colleague. Then she reached down and helped untangle his spurs from her apron, after which the tenor made the delayed hasty retreat to his hiding place. It was a hard fall, but Caruso suffered no effects from it.

COERCION INSTEAD OF CONCILIATION

Amendments to Labor Act—Minister on the Grill—Bisley Team Will Not Compete—Small Sized Bonds. Ottawa, Feb. 6.—The present government has decided on new methods to end strife between capital and labor. The late government endeavored, with great classes together by conciliation, by a mutual understanding of differences, by publicity of the facts on both sides, by agreement through arbitration. To this end the industrial disputes, and investigation act was created. The present government today proposes to substitute coercion for conciliation, authority for agreement, the penalty of the law for the force of public opinion, physical compulsion for moral suasion. The minister of labor, Hon. T. W. Crothers shoulders upon the act the blame for the non-settlement of the great coal strike at Newcastle, and has indicated that amendments must be made to that act, which will bring a speedy end to compulsory arbitration, which penalties shall be imposed for non-compliance with the findings of boards of conciliation established under the act. Hon. Sam Hughes said today that he proposed to stand by the Ross rifle in Canada and would not change it, even though there was no Canadian Bisley team this year. The regulations of the National Rifle Association were opposed to the aperture sight as in use in Canada, but he believed in its practicability, and would gladly loan Canadian rifles for the use of English soldiers as a test. The war office is using an obsolete cartridge, and a rifle inferior to those of Canada. F. B. Carleton, N. B. and E. M. Donald of Pictou, N. S., congratulated him upon the strong Canadian tone of his speech, although the former said he was not in favor of the large expenditures for militia matters in Canada. The first day's consideration of the estimates of the minister of labor was responsible for the most acrimonious debate which has so far taken place this session. Member after member on the opposition side, representing constituencies from the maritimes to the Rocky Mountains, stood up and bitterly denounced the inaction of the minister, and his department in one of the greatest, and most disastrous labor disputes since Confederation. Frank Carvell, of Carleton, led the attack, and in plain language reviewed the events leading up to the dispute, the strike which followed, the entire inability to bring about a settlement, and his final leaving for England when the trouble was at its height "to study labor conditions." The minister, driven to desperation under the heavy fire, showed considerable temper throughout, but failed to convince in his answers to the charges of incompetence made against him. A proposal for a Canadian issue of government four per cent bonds of ten dollars and multiples thereof is contained in a notice of resolution of which E. N. Lewis, member for West Huron, has given in the commons. He believes that Canadians with small amounts to invest in safe propositions should be given a chance to lend to the government at four per cent interest. His resolution declares that the ten dollar bonds should be releasable on demand and placed on sale at every money order post office. The amount of the bond issue could, of course, be determined by the government, a clause of incompleteness being restricted when government loans can be obtained more cheaply in the London market.

T. W. COAKLEY DEAD

Many Years Active in Courts and Politics in Boston. Timothy W. Coakley, formerly one of the best known attorneys in Boston, died of erysipelas early on Wednesday evening in the City Hospital there. Mr. Coakley leaves his mother, wife, five sisters and one brother. He was 87 years old. There were few brighter or more acute legal minds in Boston than Timothy Coakley—better known to his friends as "Tim" Coakley. He was an able lawyer, forceful and dramatic speaker, a warm-hearted friend, a chivalrous enemy, and full of characteristic traits which gave him a distinction that was probably enjoyed by most any body else. Some of the liveliest political campaigns in Boston ever saw were those in which "Tim" Coakley and John B. Moran were mixed up about twenty years ago, and some of the most dramatic scenes enacted in a courtroom were in which Coakley was leading counsel. His mind was so acute in the council, that it was almost uncanny when he took up the law—his experience dramatic that he always scored his points in the psychological moment. He was also an able writer. He had had a good training as a newspaperman before he took up the law—experience which served him in a good purpose in the law and which developed his power of concentration as well as the flexibility of his mind. He detested sham and he went straight to the point, in any argument; but he touched and glided nearly everything he said or wrote with something from that Gallic imagination of his—something sentimental or dramatic—something unexpected.

Can You Beat This Case?

No ordinary liniment will ever relieve Sciatica. Nothing but the most powerful kind of a remedy can penetrate the Sciatic Nerve. You can always depend on the old-time "Nerviline." Nothing made today is as good for Sciatica as Nerviline was when first produced, about forty years ago. All this time the same old "Nerviline" has been curing Sciatica, Lumbago, Rheumatism, and is considered to be without an equal in relieving pain or soreness anywhere. "Nerviline" couldn't be made stronger or better," writes James E. Edwards. "The way it cures Sciatica is to me simply a miracle. For years I suffered frightfully. I rubbed in gallons of oils and liniments—none were strong enough. One good rubbing with Nerviline relieved. I kept on rubbing and shortly was cured. My father cured rheumatism in his right arm and shoulder with Nerviline, and my mother cured herself of chronic lumbago with Nerviline. Our family simply swears by Nerviline, and we are never without a 50c family size bottle in our home. We find that for external pain, for coughs, colds, earache, such minor ills it is a veritable family physician."

SOCIAL REFORM AND THE PULPIT

Dea of St. Paul's, London, Expresses Views on Socialism

London, Feb. 7.—Doctor Inge, Dean of St. Paul's, who is noted for his striking criticism of current happenings and ideas delivered a lecture in which, among other things, he dealt with socialism. He said he doubted whether this theory had taken much hold in England except where it was regarded as a machine for expropriating landlords and capitalists. He declared that it was really an individualistic movement.

Doctor Inge declared that the spiritual current on which the labor movement and every revolutionary agitation floated and which was miscalled socialism, was really an individualistic ideal. It was so with the women's movement, at the bottom of which was the desire that every woman as well as every man shall be able to make the most of her or his life.

The current of social reform, Doctor Inge said, had invaded the pulpit. Many ministers found it difficult to welcome refuge from preaching dogmas in which they no longer actively believed and which bored their congregations. The doctor declared that anybody must be either a saint or a humbug to preach the gospel pure and unalloyed. The most of the preachers were neither one nor the other, but any average citizen could talk on temperance, the woes of poverty, and the iniquities of landlords, and thus they had the acute satisfaction of Christianity.

The dean thought that the modern trend of pain was one of the most remarkable changes in the last century, and, while not condemning the development of more tender feelings, thought the present revolt against pain not altogether right or good. He thought the horror of physical suffering went beyond what was justified in Christianity.

The dean declared that there had also grown up a thoroughly un-Christian sentimentality in regard to death. Everybody, he said, of course, had sympathy for those who perished on the "Yankee," but the groan of horror that arose from the whole nation and the letters which had been written asking how this disaster could be remedied with belief in a good God, carried humanitarianism and the dread of death to a point, he thought, after all, was an austere creed. It's symbol was an instrument of torture; it taught its followers to be prepared to suffer, and it was not always reluctant to inflict pain for a good purpose.

MORNING NEWS OVER THE WIRE

Sylvia Pankhurst in London yesterday announced that she had left the ranks of the Women's Social and Political Union, as a result of differences of opinion with regard to policy.

Miss Pankhurst is said to be too revolutionary in her ideas for the other members, and henceforth will apply herself and her schemes as a member of the east end branch of the federation, which will be independent of the first named.

Robert Wright of Ashgrove, Ontario, was killed and two girls, Mildred and Kent Bessey were badly injured yesterday when a train struck the buggy in which they were driving.

Six workmen were killed in an explosion in a Lexington, Ky., saw mill yesterday. Four of them were brothers named Haver, all belonging to Urban, Ky.

An action is being brought in Ottawa to oust Mayor Taylor McVeity from office, on the grounds that he is in the debt of the city for taxes amounting to \$170 for three years, that he is insolvent, and that he had been acting for Thomas Clary, as counsel in an effort to have some of the city by-laws quashed, when elected to office.

A committee of ministers and laymen of Winnipeg yesterday waited upon Premier Roblin, and asked that an investigation be started into social clubs in that city, that no more liquor licenses be granted and that the bars close earlier. The premier said he could do nothing until specific charges were made.

It was said yesterday at the meeting of the Provincial Temperance Alliance of P. E. Island at Charlottetown, that \$2,000 had been offered for carrying on this year's work in the cause but another thousand was needed. It was decided to adopt the same tactics as last year and to employ the aid of detectives in trying to abolish the illegal sale of liquor.

CHICAGO MAY HAVE TRADE SCHOOLS FOR UNEMPLOYED

Chicago, Feb. 7.—Establishment of trade schools for the teaching of unemployed men will be recommended in a report soon to be made by the commission on unemployed which was appointed two years ago by Mayor H. Harrison.

Prof. Charles H. Henderson of the University of Chicago, chairman of the commission, announces the substance of the report. It will propose that the suggested trade schools be placed under the supervision of a board of public welfare similar to that of Kansas City, Missouri. The commission may also offer the suggestion that compulsory schools be maintained for those who do not want further schooling and who refuse to work.

Luxuries vs A Necessity

You wouldn't want a poor opera glass, or an inferior field glass. You would insist on first-class ones. And you use either of these only occasionally.

You use your eyeglasses daily, and perhaps all day. Then how much more important it is that they should be perfectly satisfactory, since they are a necessity and in continual use.

To secure satisfactory glasses a thorough examination is essential. We make this kind of an examination, and guarantee the glasses we supply to be correct.

RECENT DEATHS

Stephen S. Hall.

Stephen S. Hall, head of the firm of Hall & Fairweather, Limited, St. John, and one of the best known business men in eastern Canada, passed away last night in his eighty-eighth year, after an illness of two weeks' duration. On Tuesday, Jan. 30, Mr. Hall spent the whole day working in his office. On Friday, Jan. 33, however, he was taken ill at his home, and since that day gradually sank till his death exactly two weeks later at 10 o'clock last night.

He was always bright and active, devoting much energy to his business as well as to social duties, for he was for years warden of St. Paul's church, Rothery, and at the time of his death was president of the Relief and Aid Society. He had been president of the board of trade and was also a past president of the Brunswick Board of Fire Underwriters.

Born in 1826.

Stephen S. Hall was born in Annapolis (N. S.) on July 27, 1826. He was the son of James and Jane (Thorne) Hall. His ancestors on both sides were Loyalists who removed to the maritime provinces immediately after the close of the American revolution, the Halls coming from Massachusetts and the Thornes from New York.

Stephen S. Hall came to St. John in 1848 and, commencing his business life as a dry goods clerk with Charles Kelchum, was later with R. P. McGivern in the same line of trade in Dock street, subsequently worked on South wharf for his uncle, R. W. Thorne, whom he left to enter the employ of J. V. Troop; and when Mr. Troop went into the shipping business Mr. Hall engaged in the wholesale grocery trade. He conducted business alone from 1843 to 1854, when he formed a co-partnership with Charles H. Fairweather. For many years they were extensive importers. They continued in business until the death of Mr. Fairweather in June, 1894, since which time the firm has been known under its present title of Hall & Fairweather, Limited. The concern is still transacting a large wholesale business, and is under the management of William C. Cross.

In 1851 Mr. Hall married Havilah Shaw, a daughter of the late Israel Fellows, and a sister of James J. Fellows, formerly of St. John. Mrs. Hall was born in Annapolis county (N. S.), and her ancestors were Loyalists. She became the mother of seven children, namely: Florence, now deceased, who married F. R. Fairweather, Mabel, who married Dr. C. D. McMurdo, of the United States army at Fort Huachuca, Arizona; Maudie, accidentally burned to death in childhood; Henry F., who is now in Vancouver; Herbert B., of Lloydminster (Sask.); and Edward, who is residing at home, and Stephen T., the eldest son, who was in business with his father and his younger living sons.

His widow, Mrs. T. Hall, has since been living with her father-in-law.

Publicly, Mr. Hall was a Conservative. He was a member of the Church of England and deeply interested in religious affairs, having been for many years prominently identified with St. John's (Stone) church. Mr. Hall was agent for the Phoenix Fire Assurance Company of London.

The funeral is to take place from St. John's (Stone) church, on Monday at 9:30 o'clock.

Death came very suddenly to Mrs. Edna McBroos yesterday afternoon, the sad news being a great shock to her many friends. Mrs. McBroos was the only daughter of the late L. T. Richardson, for many years a teacher in the Queen's public school. After her father's death Mrs. McBroos succeeded him, proving a most efficient and sympathetic teacher and she gave up the work, ten months ago, when she was married to J. G. McBroos. A large number of friends who knew her many

REVENUE TWO MILLIONS LESS BUT THE DEBT GROWS ELEVEN MILLIONS MORE

Ottawa, Feb. 6.—The financial statement for the month of January, as issued by the finance department, is a record-breaking one with the record on the wrong side of the account.

The difference between falling revenues and increased expenditures was never more marked in the history of Canada. During the month the net debt of the dominion increased by \$10,821,758, and now stands at \$314,388,870.

For the first ten months of the fiscal year the total revenue has been \$138,101,513, an increase of \$1,081,850 over the first ten months of the preceding fiscal year.

Indications now are that the total revenue for the complete fiscal year will fall a little below that of last year, namely, \$1,088,899,903, while total expenditures will probably run up to about \$184,000,000, or an increase of approximately \$40,000,000.

It is stated that owing to the continued illness of Hon. W. T. White, minister of finance, Hon. Geo. E. Foster will be called upon this year to deliver the budget speech. It will be a familiar role for him to announce a substantial increase in the public debt, but at the same time it is rather hard luck to ask him to shoulder the explanation of the minister of finance, who is properly responsible for the extravagant expenditures, which Mr. Foster deplores.

AUCTION MEAGRE EFFECTS OF EIGHTEEN UNKNOWN DEAD

(Montreal Star).

Eighteen unidentified bodies lying in unmarked graves—the graves of infants, young children, and penniless, died within the limits of the city and were buried at its expense. This is the record since last June.

When the earth closed over the bodies of these unknown dead, they were apparently forgotten by all, mourned by none, but yesterday their memory was revived, when a letter from Dr. S. Boucher, medical officer of health, was sent to the board of control for instructions as to the disposition of their meagre effects.

The present procedure is to make a neat parcel of the generally insignificant goods of the dead, and after keeping it for a specified time, to put it up at public auction, the amount received being placed on the other side of the funeral expense account.

The total amount of money found in

BABY COVERED WITH RASH

From Head to Foot, Itched and Burned, Disfiguring, Face and Arms Worst. Cuticura Soap and Cuticura Ointment Cured.

Legere Corcor, Montreal, N. B.—"When my baby was five months old he had a rash which used to trouble him very much. The rash was very bad and he was covered from head to foot. I got him Cuticura Soap and Ointment and had only used them two or three times when I saw a great change. The sores dried up and came off and he was cured." (Signed) Mrs. George French, May 29, 1913.

For pimples and blackheads the following is a most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores. Cuticura Soap and Ointment are sold everywhere. For a liberal free sample of each, with 32-p. book, send postcard to Potter Drug & Chem. Corp., Dept. D, Boston, U. S. A.

MR. STEPHEN S. HALL

No gentler, kinder soul moved in business circles in St. John these sixty years past than he whose death is today announced. Mr. Stephen S. Hall was one of the last survivors of the group of merchants who by their own enterprise and through their efforts as members of the board of trade promoted the welfare and advanced the interests of the port of St. John through what was by far the most trying period of the city's history. At the age of eighty-seven years he lays down a life work which had continued active until within two weeks of the end. As a member of the firm of Hall & Fairweather he had been in business for sixty years, and for some years before had been in business on his own account. Mr. Hall was ever a quiet man, of even temperament and kindly ways, and through his very long business career he enjoyed the fullest confidence and esteem of the citizens. He sought no public honors, but never failed to do his duty as a good citizen. The rancor of partisan politics never disturbed his relations with his fellow citizens. A consistent party man, he was never an extremist, and only the kindest remembrance of him will live in the hearts of the people among whom he had moved for more than three score years. A descendant of the Loyalists, he was true to his best traditions; and as a Canadian he set a high example of worthy citizenship.

ADOPT A SYSTEM

There is now an excellent opportunity for the city council to make a permanent arrangement for relieving individual citizens from the burden of taking care of the detritus which drift to the city in winter and who have hitherto found lodging at the Salvation Army Menopol.

Whatever is done in this matter should be done by the city council in behalf of all the citizens. Such provision should be made as would supply work of some kind by which these men would be able to earn the price of meals and a bed. It is not proposed that all they should be paid a high rate of wages, but just enough to enable them to tide over the days or weeks during which they would remain in the city and be without money or employment. As this paper pointed out yesterday, many such men would be well content to be provided with meals and lodging without having to earn them, but it is not in the interests of the city that this system should continue. Knowledge of it would give the men a false hope, and the city would be forced to provide for them in winter should they be undertaken for their benefit, and they should be paid a fair rate of wages, but those persons from outside points, who have no resources of any sort, should not be made a burden upon the general community, for under those conditions they are also a menace to its welfare.

The city council is now afforded an opportunity to make an arrangement, in conjunction with the Salvation Army, by which a general shelter could be provided, along with work that would make the inmates to some degree self-supporting. Now that the opportunity has come, it is just as well to plan for the future, and adopt a system which can be satisfactorily carried out from year to year.

This is Gaiety Day in St. John. It's rather stormy.

The journalistic changes that have been taking place in Montreal of late should make it easier for the directors of the St. John Standard to secure an editor for that newspaper. Their previous efforts in this direction were not crowned with success.

The efforts of the St. John Standard to elevate the standard of journalism in this city are watched with much interest by its readers, with the hope that it will eventually finish the job on Canterbury street and begin its lofty task on Prince William street.

The long expected revolt against the tory machine in York county has broken out. The bolters have brought out strong candidates in Mr. James S. Scott, who is the nominee of the machine. Mr. Pinder is one of Mr. Scott's supporters, and other strong Conservatives are working in his interest. The Standard's correspondent, referring to the fact that the meeting which chose Mr. Scott as

a candidate was held in the Y. M. C. A. Hall, sneeringly observes that "James K. Pinder, M. L. A., is not a regular attendant of meetings at the Y. M. C. A." In view of past indications Mr. Pinder will be able to bear this species of attack with equanimity.

It would add to the public interest in the Standard's statement that "St. John is not as black as it is painted," if the name of the city official on whose authority it is made were also given. Among those who have used the dark colors are some ministers, Adj. Cummings of the Salvation Army and Commissioner McLellan.

Hon. Mr. Cochrane declared yesterday that the suburban train between Marysville and Fredericton would not be restored. It is said that Hon. Mr. McLennan threatened to resign if this train were not restored. It will therefore be interesting to note his attitude following the declaration of Mr. Cochrane.

During the month of January the net debt of Canada increased nearly \$11,000,000, while the revenue showed a decrease of nearly \$2,000,000. As might be expected under the present government the expenditures, despite the increasing debt and falling revenue, showed an increase of over \$4,000,000 compared with January last year. The country is paying a high price for having placed a tory government in power.

It is said that owing to the continued illness of Hon. Mr. White the budget speech will be delivered by Hon. Mr. Foster. The latter was not considered eligible for the finance portfolio when the Borden government was formed, but the irony of fate has placed him in a position where his colleagues are compelled to call upon him to perform some of the duties of that office. The whirligig of time brings its revenges to Mr. Foster.

The suggestion made by Building Inspector Carleton in regard to the construction of brick houses is worthy of consideration in connection with proposed changes in the building laws. Brick buildings are more desirable than those of wood, and if the cost could be reduced a general benefit would be conferred on those who desire to build.

The leather manufacturers of Canada have profited by the downward revision of the American tariff. Large quantities of leather have been shipped from this country to that market since the new tariff went into effect. This enables the manufacturers to keep up the price of leather in the Canadian market, and the Canadian consumer gets no compensating advantage. This is another fine illustration of the one-sided reciprocity which the Borden government refuses to change.

His friends will be greatly pleased to learn that Hon. William Pugsley's health is improving much more rapidly than had been reported. The universal expressions of regret at his illness show the kind regard of his fellow citizens, and his political friends will rejoice if presently his health is sufficiently restored so that he may take his place in parliament, where his services during the last two years have been of such great value to his party and to the country.

The Standard this morning brings out its large type to make these courteous observations:—"Hon. Mr. Crothers flays the grit dirt brigade—Minister of Labor lashes Messrs. MacDonald, Carvell and Neely in response to dirty attack—has and discreditable assertions of Liberals shown up—Unsuccessful in their steadily attempts, vent personal spleen—During all day and most of night Liberals continued mean and despicable tactics but were handled without gloves—The White Plume dragging in dust gets more smut on tip."

BIRTHDAYS OF NOTABILITIES

SATURDAY, FEBRUARY 7.

Hamar Greenwood, M. P., a Canadian barrister, who has made quite a name for himself in British politics, reaches his forty-fourth birthday today.

His career may be well illustrated by a story of his student life in Toronto, which is still repeated by his fellow students. They say that when he arrived at the University from the country, he wore a disreputable "blazer" or tennis coat of many and glaring colors, trousers with a pronounced stripe and somewhat frayed at the bottom and a disreputable straw hat. In this garb he was a mark for student satire. Next year however the new freshman blazer came out in a frock coat of delicate grey, with neatly pressed trousers, flower in buttonhole, patent leathers and silk. In such the same way he has come to the front in England, whether he originally traveled, it is said, aboard a cattle ship.

SUNDAY, FEBRUARY 8.

Dr. George R. Parkin, C. M. G., organizing representative of the Rhodes Scholarship Trust, celebrates his sixty-eighth birthday today. Dr. Parkin is a New Brunswick and a graduate of the University of New Brunswick. He was for many years principal of the Collegiate School in Fredericton, N. B., after which he received the appointment of the cause of Imperial unity and is one of the small group of men who are constantly speaking and writing on the subject. He has written several books, among which his life of Sir John A. Macdonald in the Makers of Canada series stands out prominently.

LIGHTER VEIN

A man who had been convicted of theft was put into town stocks. A passerby, observing his sad state, stopped and spoke to the man.

"What did you do?" asked the passerby.

"O, nothing. I just found an old piece of rope on the road and picked it up."

"And is it possible that they have punished you in this way for simply picking up an old piece of rope?"

"Yes—only it seems there was a cow at the end of the rope."

A county gentleman recently had his house fitted with electric bells, and giving his instructions to his servant, he said:

"Now, I want you to understand me clearly, Joseph, that when I ring once I want you, and when I ring twice I want Maggie, the housekeeper never moved. Presently it rang, again, and Maggie hurried to her master, who was very angry.

"Why didn't thatascal Joseph come when I rang for him?" demanded the gentleman.

"Why, sir," answered Maggie, "Joseph was busy reading the paper when he heard the first ring, and he said to me, 'Now, Maggie, wait until master rings again and then it will be you he wants.'"

"Why didn't you make use of the report Johnson brought in last night?" said the editor-in-chief to one of his "subs."

"What report?" inquired the "sub."

"The story of the madman who was throwing sovereigns about the streets; would have made a most interesting item, and would have been exclusive, too. I see the other papers haven't got it."

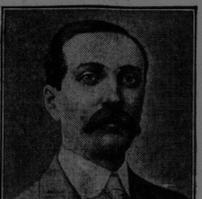

"Well, I didn't use it because I thought it wasn't true."

"What made you think so?"

"Why, because I felt sure that if he had been, Johnson would have been following the man yet."

LIFE THREATENED BY KIDNEY DISEASE

His Health in a Terrible State Until He Took 'Fruit-a-tives'

B. A. KELLY, Esq., Hagersville Ont., Aug. 26th, 1913.

"About two years ago I felt my health in a very bad state. My kidneys were not doing their work, and I was all run down in condition. I felt the need of some good remedy, and having seen 'Fruit-a-tives' advertised, I decided to try them. Their effect I found more than satisfactory. Their action was mild and the result all that could be expected."

"My kidneys resumed their normal action after I had taken upwards of a dozen boxes, and I regained my old-time vitality. Today I am as well as ever, the best health I have ever had."

"Fruit-a-tives" is the greatest Kidney remedy in the world. It acts on the bowels and the skin as well as the kidneys and thereby soothes and cures any Kidney soreness.

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 for \$2.50, trial size 25c, or will be sent on receipt of price by Fruit-a-tives Limited, Ottawa.

MEN'S AND BOYS' CLOTHING DEPARTMENT

Manchester Robertson Allison, Limited

No Good. The tailor sent in his bill. He waited three months; then he ventured to send a polite note saying that he wanted his bill.

Back came the bill. Written across in red ink was: "Certainly; here it is!"

"The bill was submitted again, and in a month's time the sartorial artist wrote: "Kindly send me the amount of my bill."

By return of post came a postcard with the desired information. "By all means; it is 277 1/2 104."

The long-suffering tradesman made a few remarks more or less appropriate to the occasion, and in a month's time he once more penned a letter:

"Please send me a cheque for the amount of my bill," he wrote.

"The reply was certainly astonishing—a blank unsigned cheque with these words written on the back: "Of course I will; here is the cheque. I have kept the amount of your bill."

After the knight of the needle had recovered consciousness he tried once more.

"I want my bill paid, please," he wrote plaintively.

It was a telegram he got this time. "So do I," it ran.

Then the tailor gave it up.

All Seasons at Once You can see many things when standing for a minute on most corners in New York City. On this particular occasion it was at 42nd street and Fifth avenue. A delivery wagon, of the motor variety, came whizzing by. On its side was the lettering, "Doctor, the Butcher." Two men noticed it.

"That reminds me," said one, "that uptown there is a man named Doctor Butcher."

"Well look in the directory some time," said the other, "not willing to be outdone—and you will find that there is Spring in East 28th street, Summer in Grand street, Fall in William street and winter on Broadway."—New York Tribune.

Heart and Nerves Were Bad. Could Not Sleep.

To the thousands of people who toss on a sleepless pillow night after night, or who pace the bedroom floor with nerves on the jump, the heart action all wrong, and to whose eyes sleep will not come, Milburn's Heart and Nerve Pills offer the blessing of sound refreshing slumber, as they restore the equilibrium of the deranged nerve centres and correct the wrong action of the heart.

Mrs. Charles Teel, Horncastle, Ont., writes:—Just a few lines to let you know what Milburn's Heart and Nerve Pills did for me. My heart and nerves were so bad I could not sleep, and the least noise or excitement would make me feel so that I used to think I was going to die and I would tremble until I could hardly stand. I took doctor's medicine, but it did not do me much good. At last I tried Milburn's Heart and Nerve Pills and can certainly say they did me a great amount of good. I can recommend them to anyone who is suffering as I was.

Milburn's Heart and Nerve Pills have been on the market for the past twenty years, and have done more to steady shaky nerves and strengthen weak hearts than any other known preparation.

Price, 50 cents per box, or three boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

NOTICE Until and including February 15th next, the Commissioner of Public Safety will receive samples and prices for blue serge cloths of 22 oz. and 19 oz. weight respectively. Cloths to be suitable for Police and Firemen's Uniforms.

JACK FROST ON THE WAY EAST; LOOK OUT FOR COLD

Washington, Feb. 7.—Cold weather sweeping eastwards, spread its frosty blanket over the Ohio Valley and the Upper Lake region today, with promise of bringing the lowest temperature of the year.

Storm warnings ordered up all along the Atlantic coast from Delaware Breaker to Eastport, Maine, heralded the cold wave, which by all predictions, will be over the Atlantic coast district and lower lake region by tonight and will stay over Sunday.

Zero temperatures throughout the Mississippi valley and the plains states, being pushed eastward, are expected to make it very cold and clear for the lower lake region and northern New England, where snows were expected. Generally fair weather was predicted elsewhere.

MAY PUT NOON TRAIN INTO COMMISSION AGAIN

(Continued from page 1)

F. J. Gattelus said that eleven families are spending the winter at Renforth as compared with three last year.

Mr. Gattelus summed up the disadvantages as follows: There are only five paying workmen a full day's work for every trip to the suburbs; the loss of the suburban afternoon in the country, the disadvantages to colleges which should be taken care of and the inconvenience to families. He summed up what, in addition to these, made the difference between these trains and those to St. Ann which were taken off with no objections being made.

Mr. Gattelus said he was pretty well satisfied with the noon train and was sympathetic to the residents and amusement and the residents are more dependent upon the city than in other districts.

Mr. Carter showed the need of these trains. Gattelus: "Remember I recognize that the trains cannot possibly pay and my intention is to give you as good a service as I can within reasonable limits."

J. S. Gibson, of Riverside, said that he had been planning to erect winter homes along the line who were holding up the building contracts until they saw if the trains were to be re-installed. He also referred to the extension of the electric lines and telephone service on account of the growing industry and the establishment of an industrial community in developing their property dependent upon the suburban service. He added that the women, both mistresses and servants had declined to go on strike which would drive all the people to the city.

Mr. Piddington suggested as a compromise the restoration of the night service on Wednesdays and Saturdays.

Mr. Gattelus said this would not meet the situation, and Mr. Gattelus said that stopping the Halifax train might be better.

Harry Gilbert, manager of the Coldbrook Realty Co., said they had spent \$800,000 in developing their property and told of the industrial development resulting.

Mr. Carter presented a petition from twenty-five persons who wished to build houses at Fair Vale.

Mr. Gattelus explained that stopping the night Halifax express would not meet the situation, as it was frequently held for several hours, when the Boston train was late.

Mr. Gattelus said he would take under consideration all suggestions which were sympathetically inclined towards the noon train but felt that a case had not been made for the evening and night trains. The railway desired to give everything possible to keep the service to a point where it would meet the needs of the patrons but it was a losing proposition and it was now a matter of cutting off the losses.

Wm. Tait asked if the night express for Halifax would make the suburban stops. It was explained that the morning express from Halifax made the stops, when flagged.

Mr. Gattelus: "Do you mean to say that you have three suburban trains in the early morning? That is better than any other town of this size on the whole earth." He added that he thought they would not be stiff about stopping the late train.

On motion of Mr. Piddington a vote of thanks to Mr. Gattelus for the conference was passed and Mr. Gattelus promised to meet the suburbanists at another time to discuss the summer service.

TRAMPS SEND FLOWERS FOR COMRADES' COFFIN Fifty Organize a Choir and Hundred Follow the Hearse

Cincinnati, Feb. 7.—The body of a tramp who was shot and killed here at breakfast into a house to steal food was identified in his coffin by Mrs. Nettie Nealand of this city as Robert Doorn of Louisville, Mrs. Nealand said that his family in Louisville was prominent.

The tramp was given a unique funeral. Vagrants who had been compensated at a charitable institution contributed 75 cents to buy flowers for him. Fifty of them sang a choir and sang hymns at the funeral service.

An undertaker donated a hearse and more than 100 tramps lined up behind it to the cemetery, bearing banners asking for work.

The British freight steamer Queen Louise, Swanes to New York, is ashore on the New Jersey coast. She will likely be flooded.

STRONG MAN vs. CHAMPION WRESTLER. The wrestling bout booked for Tuesday in the old Nickel theatre building is causing a hum of gossip among followers and admirers of this form of athletics. Norman Taylor, the vaudeville strong man, and his backers have been dissatisfied with the decision they lost in the last bout with Middleweight Champion McDonald, who is teaching physical culture classes in this city. Taylor, who has met with such success in his native United States, because of his prowess as a strong man, pure and simple, that being out-wrestled by a man of lighter weight touched his pride considerably. Tuesday's event is expected to take a different turn, as McDonald has agreed to bar the toe hold which has always been one of his specialties. As the genial McDonald is still victorious of the middleweight championship belt, he is obliged to meet these vainglorious aspirants for the trophy, and the

exhibitions being put on in this city of late make good clean sporting entertainment for all classes of citizens.

When You Are Old

Who will provide the money to keep you? Will you then be compelled to keep on working the same as some old men you know?

Or will you be able to enjoy an old age of comfort and independence?

It all depends upon what use you make of your present opportunities.

A moderate annual saving for a few years now—when you can spare the money—if invested in an Imperial Endowment policy, will secure you a regular income in your old age; or it will provide for your family should death call you early.

May we tell you more about the advantages of Imperial Endowments? A postcard will bring the information.

Fred Huxtable, who played comedy roles in St. John with the Pinks Stock Co. some year ago was tendered hearty congratulations last week in Wilmington, Del.

Complicity to Miss Brandt: A neat and appreciated compliment was this week tendered Frances Brandt...

Tom Carrigan, who was lead with Huxtable here a few seasons ago, is supporting Edith Wynne Matheson in New York in "The Deadlock."

Plans are being consummated where by Edmund Breese will go to Portsmouth, N. H. for a four or five weeks special engagement in stock company.

"A Message From Mars," one of the Thompson-Woods stock bills was the vehicle which made the name of Charles Hawtrey brother of William, who died recently and who made a hit in St. John in "Dear Old Billy," renowned throughout England and the United States.

While many of the best standard productions of the legitimate stage have been given at the Opera House during their eighteen weeks' engagement by the Thompson-Woods Stock Co., the list is by no means narrowing for a lengthy line of first-class offerings has been announced by W. B. Woods, who says also that he will produce his good play desired upon a sufficient number of requests from local patrons.

There is a possibility that Miss Brandt may be seen on the stage as Napoleon in a play written by H. Hector Fleischmann. She has played many parts, including Hamlet and Napoleon's unlovely son, the King of Rome.

THE LONDON STAGE

Successful Actress Declines To Advise Other Girls

HAGGARD'S BOOK AS PLAY

The Circus Coming Back to Popularity in London—Novel Hamlet is Promised by William Poel With King as Pivot.

(Times-Special Correspondence) London, Jan. 24—Martha Holman, a Swedish actress who, "sent" by Charles Frohman to Sir George Alexander, has made such a hit in "The Attack" that she has been offered half-a-dozen times...

"I should never dare to advise any one myself," says Miss Holman, "the responsibility is too great. But what I am quite certain of is that the girl who is really born to be an actress will not allow herself to be misled by the advice of others who are not in the face of all difficulties, living through hard and disagreeable things, defying disappointments and the treacherous ability of which is decided asset in musical comedy exploitation, according to A. Tozer Wood, New York, by his account the treasurer at that house was required by a lady over the telephone to whistle a waltz number from the Girl on the Film, which is the current attraction, that she might be sure that this was the piece a friend recommended. The treasurer's noble effort, however, following which she succeeded in selling her two orchestra seats for the night's performance."

There has been some talk of Asche building his own theatre but I doubt very much if that scheme will materialize in the near future. In the meantime he has entered into an arrangement with Charles Frohman whereby he takes over the "Globe," now being redecored, for a season. His first production will be the revival of Edward Knoblauch's "Kismet" which seems reasonably sure of a successful run. Indeed the original production was going strong when Asche had to withdraw it to fulfil his Australian engagements.

For subsequent work Asche has secured the dramatic rights of Rider Haggard's latest book, "The Child of Storm," and he is busy writing a play around the intensely interesting adventures of the heroine, a sort of Zulu Helwarr to satisfy her ambitions.

"Even now the Zulus are at work in their kraals preparing our costumes, and oxen of the right color are being slaughtered to get the proper hides for our shields," says Asche. "I spent some time among the Zulus myself in order to get an idea of their life, and have been practicing a little to get the proper 'click' into the pronunciation of Zulu proper names."

Charlie Cochran seems to be making a success as going strong when Asche had to withdraw it to fulfil his Australian engagements.

Motion Picture Women May Have Organization—The Movies and the Saloon—Former Cut Down Number of Latter in New York

As due entirely to the influence of the movies. Kenneth Casey whose features are well known through his appearance in Vitagraph life portrayals, is making a hit on the vaudeville stage in England. The youngster is under the management of Larry Trimble, speaking of the juvenile performer London Referee says: "We have little doubt that the British public will take kindly to him in the versatile vaudeville artist that he is proving himself to be. During a highly entertaining and accomplished performance the younger singer accented a comedy number, he dances, and plays both the cornet and the violin."

The picture produced by the Canadian Bioscope Company is the result of several months' experimenting and a considerable outlay of money and is the first of their productions they have deemed worthy of the American market. Every scene was made in as nearly the authentic location as history or tradition could locate it.

Nine hundred and eighteen fewer seasons in New York than when the present circuit was laid out to effect a 1896 and 109 seasons fewer on Jan. 20, this year, than on Jan. 20 last year, are explained by the ex-cis license local boards.

Probably no industry has ever developed so quickly as the cinematography. In Great Britain today it may be estimated that about 7,000,000 individuals attend the pictures every week, while the picture theatres employ more than 130,000 people, at a weekly bill amounting to £2,900,000. Six years ago the number of such workers was certainly below 900, and the weekly bill amounted to £2,900.

London possesses 508 picture theatres, Oxford Street, W. Commenced to be the most generously provided thoroughfares; they contain no less than 1,000 picture houses. The "madness" was merely a veil for his political utterances. But the great point was the importance of the king, and his marriage with Hamlet's mother is made more repugnant in the Poel version by the fact that he is shown as a young man wedded to an old woman.

One hundred cords of wood in eighteen days over a five-mile haul is the record made by H. H. Roberts of West Hill, Me., in taking advantage of the recent good sledding.

HOCKEY. The New Rink. It was announced yesterday that P. Thomson had secured options on two both suitable for a hockey rink, thought that there will be no difficulty financing the project for an up-hockey rink here.

Halifax last night the Sydney Millers defeated the Crescents, 4 to 1. They now leads the league.

New Glasgow beat St. John's. The New Glasgow team swamped the Halifax last night, 20 goals to 6. Moncton defeated by Newcastle. In Newcastle last night the Moncton hockey team was defeated by Newcastle, goals to 4.

R. C. S. and F. H. S. Tie. Fredericton High School and the Fredericton School hockey teams played a game last evening, the score being 3-3.

City League. The Tigers won from the Imperials, 10 to 1, in last night's game of the City League. Total pinfall was 9 to 1240. Moore, for the winners, a high man with the good average of 9.8.

Woodstock Races. The following were the results of the races at Woodstock yesterday: 1st race, Shingo, Walter, Mott, 2nd race, Princess Pat, Frank Simpson, Class C, pace, Anna D, 3rd race, Class A, trot, Hamner, Shinnery, Class B, trot, Lady Bell, James Gallagher.

Turf Items. The Jockey Club has a special providing that in case of death a Mr. Hill claimed a portion stake as breeder of the winner. Hill purchased from Mr. Hill, in foal to March Arch. The result of the mating was Castalia, which was the breeder, and the club was unable for the mating. Against this Mr. Hill appealed to the court, contending that as he was the owner of the foal he was the breeder. The court decided in Hill's favor, holding that he was breeder.

What Is a Knock-out

(FROM T. S. ANDREWS) Milwaukee, Feb. 4.—The question of what is a knock-out has been going the rounds. From London the matter passed to the United States and back to England. It was also commented upon in Australia by Professor Osborne, an expert on physiology. Now it has been taken up by Snowy Baker, an Australian night promoter, who succeeded Hugh D. McIntosh in the handling of the big events at the Sydney stadium.

It has been discussed this matter "many times" writes Mr. Baker, "but the usual theory is that a blow on the chin is the most direct way of effecting a nervous shock which is felt in a saucer of the nerves beside the eye. The points at the side of the chin are the best to strike but the central point of the chin is also vulnerable. For instance, in a recent match between Jerry Jerome and Les O'Donnell, a physician, who was sitting just under the men when the last blow was struck, told me he saw it perfectly and the man which toppled Jerry over came fall to the center of his chin. The knockout on temporarily the activity of the nerves concerned in respiration and the man is 'winded.' This is a painful way of being knocked out, as foot-balls know just as well as boxers. Neither the blow to the jaw nor the blow to the mark as

deal with Philadelphia Nationals for Burns. This makes the fourth contract received by Captain Joe Yegorin, first baseman Carlstrom and Catcher Schmitt, having also accepted President Lichtenfels's terms.

Signing Players. Toronto Mail and Empire—President Kerwin has signed these players for his Toronto Canadian League team—J. L. Killian, outfielder; F. Schmitt, infielder; Al Burns, catcher; Mike McGinnis, outfielder; and Kirley, pitcher. Burns and McGinnis are local boys, while Schmitt is a brother of the famous slinger who was with the Leafs last year.

Devore Signs With Phillies. Philadelphia.—The signed contract of "Woah" Devore, a former outfielder of the New York Giants, who was traded to Cincinnati and then to Philadelphia last year, has been received at the National League Club office. Devore was granted an increase in salary.

Kick About Extra Games. Bill Schardt, Indianapolis pitcher, formerly with Brooklyn, has proposed a ruling to the Players' Fraternity to improve conditions of the players who are compelled to play extra exhibition games throughout the summer and get nothing for it.

Second Break into Big League. The signed contract of first baseman George F. Wilson, who was drafted last fall by the Boston Red Sox, arrived on Thursday. Wilson had the distinction of leading New England League in batting last year, having a mark of .365. He played in 122 games for Pat Flaherty and was at bat 471 times, making 172 hits for a total of 285 bases. He led Major of Lowell by one point. Wilson scored 87 runs for Lynn last year, made twenty-six two base hits, fifteen three-baggers and nine home runs, besides stealing fifty-seven bases and making ten sacrifice hits. He led the league in base-stealers by a big margin. He fielded for .978.

Wilson by no means comes to the Boston club without experience. In 1909, 1910 and 1911 he played for the Bowdoin College nine, and was elected captain of the 1912 team. However, in the spring of 1911 he was taken over by the Detroit American League and tried out. In 1912 he played with both Toronto and Providence, in the Eastern League, now the International League, and last year was with Lynn.

He developed rapidly last year, and the Boston club seems to think he will succeed in this, his second opportunity to break into the major league ranks.

Big League Notes. Charley Herzog, the new manager of the Cincinnati Reds, admits that he has long harbored the ambition to be a manager, and declares that now that he has the opportunity he proposes to make a success of it if hard work counts for anything. Herzog thinks pretty well of

A WOMAN LOST HER HAIR AND GOT IT BACK WITH HERPICIDE

While there are no thrills in the narration of Mrs. P. T. Nichols, 623 Broadway, Beloit, Wis., her story is nevertheless one of amazing interest. "Stricken with neuritis and erysipelas I lost all my hair. My doctor recommended Newbro's Herpicide. I used six or eight bottles and now have a fine head of slightly curly light brown hair. Not a gray hair in my head. This is the more remarkable as I am middle-aged."

While the results which follow the use of Newbro's Herpicide are always more or less astonishing they are always natural. Herpicide destroys the dandruff, stimulates the flow of blood to the hair follicles and keeps the scalp perfectly healthy. It makes possible a natural and luxuriant growth of hair, except in cases of chronic baldness.

Applications may be obtained at good barber shops. Send 10c. in postage for sample to The Herpicide Co., Dept. R., Detroit, Mich.

E. Clinton Brown, special agent.

The sugar market, which has been very strong for some time yesterday showed its first signs of weakening, when the Acadia Sugar Refining Co., Ltd., of Halifax, reduced their price of Limited Empire refined twenty cents a hundred pounds. All other grades however, remain unchanged.

WAS MUCH APPRECIATED
Mrs. E. A. Smith returned this morning from Andrews, where she had delivered her illustrated address, "Through Canada with the Camera." The address was given under the auspices of the Cadet Club, an organization of ladies who are doing much for the benefit of the library and social atmosphere of the place. Mrs. Smith's address was delivered in the new Opera House, which was crowded with an appreciative audience. Sheriff and Mrs. Tibbitts held a reception for Mrs. Smith, and enabled her to make the acquaintance of many of the people. She found much interest there in the playgrounds work that has been carried on in St. John during the last few years.

TWO INJURED IN A COASTING ACCIDENT

T. H. Tonge, Miss Milne and H. S. Brown upset. Former Two Are Hurt

The overturning of a large double-runner on which three persons were coasting on Carmarthen street here last evening was the cause of a painful accident in which T. H. Tonge and his sister-in-law, Miss Milne, were badly bruised. They will be kept to the house for several days. Mr. Tonge, Miss Milne, and H. S. Brown, were members of a coasting party, which started from the shore for coasting, and, starting from Duke street, it was not long before the sled on which they were riding gained considerable momentum when, for some unknown reason, it upset, throwing all heavily to the ground. Mr. Brown escaped almost without a scratch but Mr. Tonge and Miss Milne were badly bruised about the hips and legs. They were taken to Mr. Tonge's house in British street, where they were attended by Dr. A. E. Macaulay.

A. C. RITCHIE'S NICE COTTAGE IS BURNED

Fire Today Destroyed It With Loss of Nearly \$4,000

Fire this morning totally destroyed the attractive self-contained cottage of A. C. Ritchie, at 77 Sand Cove road with its contents, at a loss estimated at nearly \$4,000. It broke out about 9 o'clock or a little after when no one was inside. Mr. Ritchie and his three sons having gone to the home of Percy Manchester, near at hand, for breakfast, and Mrs. Ritchie not being at home. When they left home, the men of the household had seen no signs of a blaze, but it is supposed that a spark from the stove might have caught the sheathing. The fire had gained headway before being seen. The interior was safe for several moments before the flames began to shoot through the building. Frank Bilsard, superintendent for the Greenwood cemetery Co., was probably the first to notice the blaze, and, thinking someone might be asleep in the house, broke through the door. He was greeted with an angry rush of flames which scorched his face painfully. There was no water or other means of quenching the flames, and in fact they had gained too much for any amateur effort, and before long all that remained of the handsome residence, only two years old, was a heap of ashes. Mr. Ritchie is well insured.

PAYS TRIBUTE TO THE WORTH OF S. S. HALL

"There is nothing I can say with regard to the honor and business integrity of Stephen S. Hall that will be in the least an exaggeration," said W. C. Cross, this morning in referring to the death of the man with whom he has been associated in business for nearly thirty years. "During the time I have known Mr. Hall, he has been called upon to pass through various business troubles, but he has always borne them in the same, sweet-tempered manner. His presence in the office has always been like a ray of sunshine and I am sure there was no one who was not always willing to please him and help him along in his own work. "Mr. Hall's honor and integrity in business have gained for him not only the esteem of those with whom he had to deal, but they have grown even to love this kind old gentleman. The relationship between him and myself has been almost as father and son and to me as well as all the members of our office, his memory will always be a benediction."

NEW BUILDING TO BE ADDED BY MRS. JORDAN TO BE SPLENDID ONE

Tenders For Building For Free Patients at River Glade Sanitarium

Architect F. Nell Brodie is today calling for tenders for the construction of a building for the accommodation of free patients at the Jordan Memorial Sanitarium, River Glade, Albert county. The cost of this new work is borne entirely by Mrs. Jordan. The building will be two stories in height, forty feet wide and 100 feet long. A two-story verandah, ten feet wide, portions of which will be enclosed with glass to form sun rooms. The entire front and part of the rear of the building. This new addition to the sanitarium will be placed about 250 yards from the administration building. The main entrance, which is to be at the end will give access to a corridor, twelve feet wide, off which will open the doctor's laboratory, equipped with glass-topped table, cases, porcelain sink, etc.; emergency room, nurses' room, with bath; coat room, linen room and nurses' station. At the end of this hall will be a sixteen bed ward, off one side of which will be recreation room, diet kitchen, equipped with steam table, sinks, cases, refrigerator, dumb waiter and dish elevator and uterine room with sink, ventilating cases, etc. The bath, toilet and locker room which will be near the entrance of the ward will be supplied with three hospital toilets, four wash basins, two dental lavatories, two shower baths and sixteen dressing lockers. At one side of the ward will be placed an improved blanket warmer. The second floor will be practically a duplicate of the ground floor. The building will be heated throughout by steam piped from a power house about 800 feet distant, where is also located the electricity required for lighting, etc. The plumbing appliances will be of the latest and best for hospital use. The walls and ceilings will be finished in white enamel. The doors, casings, base, etc. are to be of cypress and Douglas fir in natural finish. Fire protection will be afforded by equipping each floor with a two and a half inch stand pipe, swinging hose brackets and fifty feet of hose, the stand pipe connected with the water system of the institution which is supplied from a 20,000 gallon tank on a sixty foot steel tower. Work will be begun at once and is to be completed by May 30.

TORIES PLAYING SMALL GAME OF POLITICS HERE

Ward Heels Go Nearly to the End of the Tether; The Better Thinking Ones Call Halt

There is a particularly small and narrow game of politics being played by the Conservative ward heeled in a section of the city at the moment. If Mr. Heese and his lieutenants are deriving any glory out of what their party men are doing, then one must conclude that their idea of glory is a very limited one. The situation developed as a result of the Liberal overthrow at the last general election, and is centred around the I. C. R. Men are employed by the railway at temporary work loading and unloading cars or vessels at the Long wharf. The work is not steady and pays but laborers' wages. The men who had been doing it were industrious, capable and faithful, and were on hand through the slack times as well as the busy ones ready to go to work at a few minutes' notice; and their work was satisfactory. But what happened? The triumphant Tories cried "no quarter." Heads were to fall into the basket everywhere, and they surely did. So narrow did they have their idea of glory, that even these laborers, with their little day's pay to take home, on off the list kept in the employing foreman's office at Long wharf, and the week's household supplies had to be sought from another source. A big row was raised, and for shame's sake, the party wolves drew off and the men were allowed back to work. But the trouble has broken out anew, and at the demand of some violent party men they have again been laid off. The better men of the Conservative party are known to have been opposed to such petty politics, and to have seen that the political interests of the party were not being bettered by the narrow line being followed. And, so the story goes, the most of the men have again been put on the list of those eligible for work. Not at all, though, and the case of a man named O'Brien is cited. He has a large family, is industrious, had been seven years or more at the work, and always around when needed, even when no work was offering. There seems to have been more difficulty in having his name again placed on the list. It was said yesterday, however, that the right thinking men of the party who know what is going on, see that harm is being done, and for that reason, if no other, the petty business will be ended. The story has gained wide circulation, particularly in the North End, and has caused a good deal of critical comment.

BANK BOUGHT FINE KING STREET EAST RESIDENCE AS HOME FOR MANAGER

The handsome residence in King street East, purchased from L. B. Knight by the Bank of British North America will be used as a permanent residence for the manager of the chief local branch. The new owners will take possession on May 1, and the manager, A. C. Skelton, will move in during the summer. In this matter the Bank of British North America is following the example of the Bank of Montreal, which provided a residence for their manager several years ago.

We Started This Sale With Over 2,000 Pairs of Trousers

and the reductions are from prices that were already 25 per cent. and more below those of any other stores. Of course there's not that number now, but assortments are wonderfully complete, and there's not a man or young man who can't find something to his liking in his size, we want to especially emphasize the excellence of the materials. Those used in the lowest-priced Trousers are of a very serviceable grade, while those in the higher priced Trousers are the kind used by high-class merchant tailors. The workmanship is unexcelled—Oak thoroughness is evident in the well-fitted seams, in the way the linings are put in—a thoroughness that tells in the life of the garment.
