DIRIGIBLE TEARS CLOSE IN GALE

R-33, WITH 20 MEN ABOARD, IS DRIVEN TO SEA

All O. K., Says Wireless Message From Dirigible At Noon

MAKES PROGRESS

Airship Is Expected To Be Able To Return By This Evening

Canadian Press Despatch.

LONDON, April 16.—The British air ministry has announced that the Fulham air station received a wireless message from the R-33 at 3.30 o'clock, and at that hour the dirigible was from 60 to 70 miles northeast of Lowestoft. She was making an approximate speed of 35 miles an hour.

LONDON, April 16.—The air ministry early this afternoon stated that there are 20 men aboard the dirigible R-33, which broke loose from her mooring mast at Fulham this morning. With a crew of this size it is explained, there had been no difficulty in working the ship, which has sufficient fuel aboard for a two days' cruise. An official announcement by the Air Ministry says the R-33 is in wireless communication with Fulham and that according to the latest message she is near Yarmouth.

GALE BLOWING OUT.

The gale is blowing itself out over England, and it is hoped that it will have subsided sufficiently by this evening for the dirigible to land either at Dunham or Castlington. Meanwhile she has been manoeuvring in the headway against the wind in order to be able to return with it. The latest advice from the ship was that she was making from 20 to 25 knots an hour and had already made some progress.

SAYS ALL O. K.

PULHAM, England, April 16.—The dirigible R-33 broke from her mooring mast in a gale here about 10 o'clock this morning but signalled "All O. K." shortly after noon. The wind was blowing a gale and by 10.45 o'clock the airship was being far out at sea. Her engines were running. At 10.55 she was lost to the view of those watching from the shore at Lowestoft.

SAINT JOHN MAN BEING HELD IN ROME, GEORGIA

Taken in Connection With Stealing From Frank Jones

NAME IS WITHHELD

Local Police Now Arranging to Bring Prisoner Here For Trial.

Patient and exhaustive work during the last five years has led the local detective department to believe they have at last apprehended the man supposed to be responsible for the theft of bonds valued at \$4,000 and some cash belonging to Frank E. Jones, electrician, whose safe was rifled of its contents in 1920. News of the break was made public only recently, when one of the \$1,000 bonds was located and identified. The person alleged to have stolen the bonds and cash is a local man, and he has been found in Rome, Georgia. He has been placed under arrest there by the United States authorities, who are now awaiting further instructions from the local detective department.

TO BE BROUGHT HERE.

Steps are now being taken by Detective Sergeant Power to have the man brought to Saint John to stand trial, and while the local police are reticent over details of the arrest, it is understood they anticipated little difficulty in bringing the man here to face the charge.

BOND DISCOVERY.

The bond thief came to light recently when George T. Kane was asked to deliver \$1,000 bonds, which he had purchased in good faith from the Royal Securities Corporation about a year and a half ago and which were identified in Ottawa as one of the stolen. Three were 1894 Victory Loan bonds, while the fourth was a \$1,000 City of Halifax debenture. Kane placed the matter of recovery of the bond in the hands of his lawyers, but the contention of the local detectives they had a right to it, as it was stolen property. They have retained it and say they will use it as evidence in the forthcoming trial. Meanwhile the city solicitor, asked for his opinion by the Common Council, said the bond should be returned to Mr. Kane.

**BOY ARTIST WINS
FAME IN ILLNESS**

**Edmond Barry Was Telegraph
Messenger Boy While Work-
ing at Pictures.**

WOODSTOCK, N. Y., April 16.—No one knew much about Edmond Barry when he trudged with a slight limp into this community of artists last July. He was a shy youth and he didn't say much about himself.

When he got a job taking telegraph messages relayed by telephone from Kingston, the metropolis of this Catskill region, he became less reticent and people learned that he had limped from New York City because he wanted to be an artist. He, too, in company with many famous members of the American art world, had come to Woodstock to follow the gleam.

Even then no one knew that Edmond's small salary at the telegraph office was all the money he had, and when the office was closed last fall Edmond stayed on and began spending his meager savings for food and fuel.

Sent to Hospital.

Two weeks ago, after having survived the rigors of the mountain winter and fed himself less and less frequently as his money diminished, he collapsed. Neighbors found him virtually in a state of coma and he was sent to the winding road to the hospital.

Two days later, in the immaculate exhibition hall that has housed the work of George Bellows and other established artists, the walls were lined with the work of Edmond Barry. The exhibit was announced by the board of governors and the community flocked to it. The boy had finished seventy-five drawings and water colors during his hermit-like winter in Woodstock and a dozen of these were auctioned, bringing \$200.

Bon Ami
—keeps kitchen-ware like new!

Take a little Bon Ami on a damp cloth, and give your aluminum kitchen-ware a few brisk rubs. You'll find that dirt and tarnish vanish like magic!

The soft Bon Ami powder gently absorbs all grime—brings back the original lustre without making the slightest scratch on the smooth surface. That's why it's so good also for cleaning the inside as well as the outside of kettles or saucepans. Scars, even tiny ones, catch and hold the food, causing it to scorch—making the utensil harder to clean next time. But with Bon Ami you never need worry about scorching.

There's nothing like Bon Ami for cleaning and polishing dozens of other things throughout the house! And it won't redden or roughen your hands!

The Evening Times-Star

The Evening Times-Star printed at 23-27 Canterbury Street, every evening (Sunday excepted) by New Brunswick Publishing Co., Ltd., The D. McKenna, President.

SAINT JOHN, N. B., APRIL 16, 1925.

CONGRATULATING SAINT JOHN.

In the course of an editorial expressing regret because of the resignation of Mr. F. Macdure Scandera as Commissioner of the Chamber of Commerce in Windsor, the Border Cities Star heartily congratulates Saint John upon securing his services.

a great majority of the citizens want and there is no doubt that they want the King street site—should not hesitate to meet their wishes.

CANADA AT SCHOOL.

Assuming that Canada has 9,000,000 inhabitants to-day, approximately one-quarter of them are attending school. The federal statistics for 1923 show that at the end of that year there were in attendance at schools of various kinds in the Dominion no fewer than 2,200,000 pupils.

Of the total, 1,928,000 were attending the ordinary day schools under the control of the state. The private schools had about 100,000 pupils, the universities and colleges some 60,000, the Indian schools 14,000, teachers training schools, 9,600, schools for the blind and deaf, 1,600, and vocational or similar schools, 81,000.

Under his guidance, the chamber has become a leading factor in the business and social life of the community. The position is more than ordinarily difficult for the reason that the chamber serves all the Border municipalities and its problems are therefore much more complex than those of similar organizations operating in single municipalities.

"The retiring commissioner is a gentleman of unusual personal charm and far more than ordinary ability. In addition to his onerous duties in connection with the chamber, he has found time to take an active interest in many other things, including the deep waterways association, the Junior Chamber, the position is more than ordinarily difficult for the reason that the chamber serves all the Border municipalities and its problems are therefore much more complex than those of similar organizations operating in single municipalities.

In concluding his tribute to the Commissioner, the Star predicts his success here, saying, "The enterprising city of Saint John is to be congratulated on its choice of Mr. Scandera as its Board of Trade Commissioner. That he will 'make good' in the New Brunswick seaport goes without saying."

Mr. Scandera, who is well acquainted with conditions in this city and this province, and who has spent his vacations here year after year, even went to travel all the way from Saskatoon to do so as an enthusiastic promoter of the city's interests, its opportunities, resources and climate. It is evident from the remarks of President Simms at Tuesday evening's meeting of the Board that this organization is prepared to undertake a very promising and highly necessary work in instituting a sustained campaign in expanding and promoting the city's business interests, having in mind its port activities, the immense possibilities of the tourist traffic, the securing of industries, and work in bringing the city into closer relation with the agricultural interests of the province. The programme is of the utmost importance. In this work the Board should be able to depend upon the active support of the whole community. This is not the task of a day, but really progressive and enterprising work along such lines is bound to bring success. Now is the time to press forward, vigorously and confidently.

GRANT THE RIGHT SITE.

Differences of opinion will arise, but it has been unfortunate that there should be any prolonged division of controversy over a matter which touches the public sense of duty and honor so closely as the War Memorial. A review of this question, if made impartially, indicates clearly enough that the great volume of public opinion favors the site at the head of King street, and action at City Hall to satisfy public sentiment is now in order.

The President of the local W. C. T. U., in a letter published this morning in The Telegraph-Journal, says that organization gave permission for the removal of the W. C. T. U. fountain more than three years ago, and that the motion passed at a small meeting a few days ago "means nothing." It is a matter for regret that such a motion was passed, but it constitutes no real obstacle to placing the War Memorial in the central and dominating site it should occupy.

Previous discussion leads to the belief that the majority opinion at City Hall favors giving the Memorial what is obviously the right site, and it would be ungracious should opposition continue. The Mayor and Commissioner, once they understand clearly what

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer."

What! Dividends For the Taxpayer?

Ottawa (Citizen). Knoxville, Tennessee, has declared a "dividend" of 10 per cent. for its taxpayers. The why and how of this achievement are contained in the following statement recently made regarding the city:

"We've declared a dividend of 10 per cent. of our taxpayers, giving it as a rebate. We've saved \$280,000 in a year by running the town on business. Evenhubs. Our city manager plan did it. One city at least is proud to boast of its city-manager plan, and has tangible reasons for doing so. But any real business methods will produce similar results. Baltimore, Maryland, bearing of Knoxville's boast, replied in effect: 'I've declared a dividend, too. City manager nothing! Our old-style government run right, did it. We've saved \$2,000,000 this year just by putting all departments on a business basis and cutting out expenses.' It has been urged that even if the British army would have been unable to take advantage of the German collapse, there was forming in the Metz region a new and powerful offensive on the part of the gathering American and strong French divisions. That the American strength was increasing from day to day was known as well in Berlin as in Washington or Paris. Never twenty-five per cent. of that strength was applied in the war. A year might have been necessary to develop it to the full. Perhaps in another year the Germans could have been beaten as decisively in the field as the French were at Waterloo. But hundreds of thousands of lives would have been lost in the fighting. Generalissimo Foch understood this, and since every detail of the armistice was drawn up by the Allies, it might well be asked what more could have been secured by marching to Berlin? Certainly the Germans as a surrendered army could not have promised more than the German representative agreed to at Versailles. It is true that all they agreed to has not been performed, but perhaps not all they might have agreed to in Berlin would have been performed. Those who still contend that the Allies should have marched up the Wilhelmstrasse really mean that the fruits of victory as salvaged by the Allied politicians have not been sweet in the

mouth. That, however, was the fault of the politicians, and is in no sense a criticism to end the war by the armistice instead of ending it months later in the capital of Germany.

After The Armistice. (Toronto Mail and Empire). At the time the armistice was concluded in November, 1918, public opinion in the Allied nations and in the Allied armies was divided as to its wisdom. Even now there are those who insist that the peace ought to have been dictated in Berlin, just as the peace at the end of the Franco-Prussian war was dictated to the vanquished in Versailles. The recent death of Lord Hawkeley has revived the discussion in some quarters because of the opinion he wrote in an introduction to Gen. Wainwright's book, "The Story of the Fourth Army," to the effect that in November, 1918, "it would have been a mistake to march up the Wilhelmstrasse, and I think, for any of the reasons mentioned in the book."

HAD MORBID PASSION TO INFLICT SUFFERING

People Died From Effects of Poison Used as Grapevine Insecticide

NIMES, France, April 13.—(By The Associated Press).—Six mysterious deaths in almost identical circumstances, which have aroused speculation among the 6,000 inhabitants of the cathedral town of St. Giles, culminated in the arrest of Antoinette Scierri.

She has confessed that she poisoned three persons she was attending as a nurse, police say. It is declared also that she named Rosalie Gire as her accomplice, saying it was Mile. Gire who suggested the poisoning with a preparation used in the district as a grapevine insecticide.

Mile. Scierri arrived in St. Giles last November. She was attending a poor woman named Maria Audourard, who died in December after terrible sufferings. Mile. Scierri installed herself in Mme. Audourard's room with her brother-in-law, named Rossignol.

On Christmas Day, Mr. and Mrs. La Chapelle, who ran a grocery and were friends of Mile. Scierri, died of poison. Their deaths were attributed to their having eaten birds which had spoiled. Rossignol, a currier, left home one day at the beginning of March, taking his dinner with him. He died during the night after he had returned home.

Mile. Scierri said she had eaten music. At the end of March Mile. Scierri invited two neighbors, Mme. Martin and Mme. Boyer, to have coffee with her. Mme. Martin died the following day. Mme. Boyer swallowed only a mouthful of the coffee because she tasted bitter. Nevertheless, she was taken violently ill and has not yet recovered.

These two women the night before they were invited to have coffee with Mile. Scierri had eaten music, and the police say that suspiciously against Mile. Scierri were somewhat allayed until a woman to whom she had given credit for the coffee, named Gouin, died with symptoms resembling those in the five other deaths.

The townspeople were furious and the police saved Mile. Scierri from lynching by placing her in prison when she admitted having been the La Chapelles and her brother-in-law Roger, Rossignol. By these deaths the police credit the woman with admitting she obtained 800 francs.

The police assert that Mile. Scierri has a morbid passion for inflicting suffering.

SHRINERS HOSTS AT SOCIAL EVENING

Grand Potentate J. H. Crockett Speaks of Hospitals For Crippled Children.

A special feature of the annual dance and reception of Luxor Temple, Mystic Shrine, held last evening, was a showing of pictures of the new Shriners hospital in Montreal and an explanation of the picture by J. Herbert Crockett, potentate of the Temple. Receiving the guests with Mr. and Mrs. Crockett, were the other members of the Divan and their wives, Mr. and Mrs. Orville B. Dobson, of Moncton; Mr. and Mrs. LeBaron Wilson, Mr. and Mrs. A. McIowan and Mr. and Mrs. Charles Robinson. Novelly dances were introduced and supper was served in buffet style under the direction of Harry Talbot, chairman of banquets for the Shrine. Others responsible for the success of the social part of the affair were H. Colby Smith, chairman of entertainment; Rex Cornier, floor committee, and Dr. Parri Saway, decorations.

TELLS OF HOSPITALS. Mr. Crockett, in his address, told of the origin of the Shriners' hospitals for crippled children which idea was conceived in the mind of nobles of the Mystic Shrine, who had visited the hospital for crippled children in Atlanta, Ga., established and maintained by the Order of the Scottish Rite. W. Freehand Kendrick, past potentate of Luxor Temple, Philadelphia, was one of the first to promote the idea. The honor fell to a Canadian, the late Philip D. Gordon, of Carnk Temple, Montreal, to present the resolution urging

GOL. McAVITY SPEAKS OF 26TH TO CITY G.W.V.A.

**Applies the Lesson of War
Co-operation to
Civil Life**

**ANNIVERSARY OF
FOUNDING IS KEPT**

**Observance by Veterans of
City and Carleton Branches
Last Evening.**

The local G. W. V. A. last night celebrated the eighth anniversary of the founding of the order in Canada by a smoker and entertainment held in the G. W. V. A. hall. The meeting was well attended and the remarks of the various speakers were received with enthusiasm by the members of the order.

Following the formal opening, the president, J. G. Dryden, introduced the speaker of the evening, H. Priestman, who told of the G. W. V. A., its founding and its aims. He was followed by Lieut.-Col. J. L. McAvity and E. A. Schofield.

SPEAKS OF 26TH

Colonel McAvity said in part: "The army text books tell us that morale and discipline are necessary to

victory. I may add a third element and that is 'esprit de corps'. These three elements demonstrated the wisdom of the text book writers during the war. I am now going to speak of my own unit—the 26th.

"What was done in my unit was paralleled throughout the Canadian Corps. We were a volunteer unit. We recruited from among citizens who had, with the exception of some who had militia training, no previous military experience. By the splendid attention to work, superintendency by the officers, attention to detail by the N. C. O.'s and willingness to learn by the other ranks we were able to whip the unit into line so that their morals and discipline was second to none among the volunteer units of the British army.

"Morale is of slow growth and we attained that high standard by the painstaking and patient methods of the officers and N. C. O.'s and above all by the splendid 'esprit de corps' among all ranks. I will not refer to the record of my unit in the field. It speaks for itself and has forever deeply imprinted itself on the pages of history. The same I say of every other unit which went from this province.

APPLY TO CIVIL LIFE

"Now, in war we civilians banded together in a common cause. We were, subject to the necessary regulations made by the exigencies of the service, all comrades. Why not continue in peace time as such? For that reason the G. W. V. A. came into being. Returned men decided to continue the same 'esprit de corps' in civilian life. This is as it should be. First, to keep alive the memory of our service and, second, to see that our unfortunate comrades receive a square deal.

"I had the honor to be a president of this branch early in its organization and I am glad to see that it has prospered. It has prospered through the same spirit which dominated us in France—that is co-operation. Remain banded together. Its advantages are manifold, and, above all, show that we are all good co-operative men and can be of further use and service to the

country by being good citizens. If our organization can accomplish this it has justified its eight years of existence."

The special guests were then called on for a few remarks. Among the number speaking were Mayor F. L. Potts, Commissioner J. H. Frink, Dr. W. P. Brookes and Dr. J. Roy Campbell, K. C. A reading by O. Coll and selections by the orchestra concluded the entertainment for the evening.

CARLETON G. W. V. A.

Carleton G. W. V. A., at a meeting held last night in the Carleton Curling Rink, celebrated the eighth anniversary of the founding of the order. The affair was largely attended and the speakers were received enthusiastically by their large audience.

Hon. B. J. Ritchie pointed out that the formation of the G. W. V. A. was the result of the comradeship which grew among the men while they were serving overseas. He paid a glowing tribute to the Maritime Provinces, emphasizing particularly the scenery which he said was equal to any in Italy or other European countries famed for their beauty.

Colonel W. H. Harrison gave a forcible address. He dwelt on the unity of spirit shown during the great conflict and said that a similar spirit shown today would go far to solving the problems of citizenship and making the country better. He also delivered a message of praise for the Maritime Provinces.

Rev. F. T. Bertram made a few remarks.

RECEIVES GREETINGS.

Prize winners at the card playing which followed were: Bridge, first, George A. Robinson; second, Robert K. Smith. Forty-fives, first, J. J. Merryfield; second, Gordon B. Smith. A meal of bully beef, hardtack and tea were served and trench songs were sung to music provided by a mandolin played by Lawrence Hardy. Letters and telegrams of greetings were received from many other branches of the order. One from Grant MacNeil, Dominion secretary, included the message from Field-Marshal Sir Douglas Haig and from the Dominion president, James G. Hart, president was in the chair for the meeting.

MESSAGE FROM HAIG.

Earl Haig cabled as follows: "On the eighth anniversary of the founding of the Great War Veterans' Association, I send most hearty congratulations to all its members on all they have accomplished, especially on their efforts towards uniting the ex-service men of Canada. I am greatly looking forward to meeting many of the Canadian friends shortly and sincerely hope the comradeship, which has greatly helped to maintain our Empire, may be strengthened and feeling of brotherhood among our ex-service men developed."

PRESIDENT'S MESSAGE.

President Sharpe of the G. W. V. A. Dominion Command, telegraphed as follows: "Our association was born of the idealism of the C. E. F. Our association will come to the manhood of a better Canada. Our Dominion must depend upon its service men to give new reality and new vitality to the ideal of service of sacrifice and unselfish devotion to these principles by which our nation thrives."

RAND DEFENDS GOVERNMENT POLICY

Premier and Opposition Leader Clash Over Gloucester By-Election Issue

NEW ATTORNEY GENERAL TAKES STAND ON HYDRO

Richards Starts Storm by Reading Affidavits Regarding Election Campaign

RACE AND RELIGIOUS APPEAL REPUDIATED

Premier, Shaking Fist at Conservative Chief, Declares Story Untrue.

By D. LEO DOLAN Staff correspondent of The Times-Star
FREDERICTON, April 15.—Speaking with a force and vigor that has never before characterized his utterances in the House, C. D. Richards, opposition leader, this afternoon assailed the Government in a manner that roused his followers to greater heights of enthusiasm than they have attained at any stage of the present session.

Right at the opening of his address he engaged in verbal battle with Premier Veniot and brought about the liveliest tilt of the session. It came when the leader of the Opposition was reading to the House affidavits of Frederick Landry, resident of Gloucester county, and A. J. Doucet, M. P. for Kent in the federal parliament.

AFFIDAVITS CHANGED.
The former affidavit which was first referred to some weeks ago by Premier Veniot and later given to Mr. Richards, charged that Mr. Doucet had circulated a story through Gloucester county during the recent by-election to the effect that Hon. I. C. Rand, Attorney-General, was a son or nephew of Colonel Rand, who led the soldiers into the famous Carleton Place. Mr. Doucet in his affidavit denied the allegations in the Landry affidavit, declared that he had never used the race and religious cry in Gloucester and had made no reference to Hon. Mr. Rand's relatives.

DEFIANT BY PREMIER.
"Mr. Doucet is saying what is untrue," shouted Premier Veniot while Mr. Richards was reading the affidavits. "You have no right to make that statement," came back Mr. Richards with heat.

"I have and I don't intend to allow Mr. Doucet to impugn the reputation of such an honorable man as Mr. Landry," declared the Premier, shaking his fist at the leader of the Opposition. "Mr. Doucet is also an honorable man and I don't intend to allow you to call him a liar," was the fiery retort of Mr. Richards.

LANDRY DEFENDED.
"Mr. Landry's character is 80 per cent. higher than that of A. J. Doucet," shouted the Premier, as he again jumped to his feet.

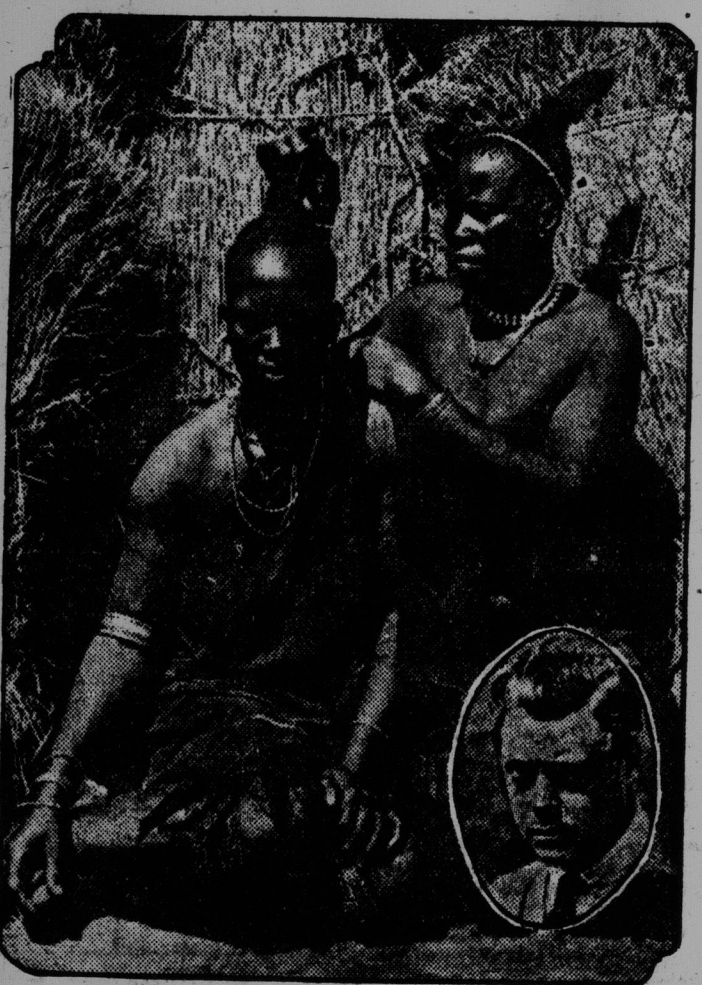

"I don't know Mr. Landry, but I do know Mr. Doucet and when he is not here to defend the attack made on him by the Premier, I intend to make that defence of the member for Kent," declared Mr. Richards, who went on to read the affidavit.

The leader of the opposition attacked the Government for its reckless expenditure and while he admitted that it had not been possible to show great profit actually existing in the administration of the public affairs he cited instances where excessive amounts had been paid for bridge contracts, denouced in most bitter language the Queen Hotel purchase and charged that the Government had wilfully violated all constitutional procedure in over-expending year after year the appropriations voted by parliament.

VENIOT BLAMED.
And in this connection he charged that Hon. Mr. Veniot, Minister of Public Works, was the greatest culprit, quoting figures to show that in every year since he became a member of the Government the Department of Public Works had exceeded by hundreds of thousands of dollars the estimates voted by parliament.

Mr. Richards criticized the Government for increasing the debt of the

All Primp For Prince.

No matter where H. R. H., Edward, Prince of Wales, goes, the girls turn out in their best to greet him. White or black, yellow or brown, they all primp for the prince. On his present trip he will visit Zululand on June 5, 6 and 7. And already the Zulu maidens are getting ready to entertain the gallant prince. Here are two of them, dressed in their court costumes—which are in the latest mode, being rather décolleté—fixing up their hair in the latest style of Zululand.

BIG SUM GIVEN TO CHARITY BY CALGARY MAN

Believed Total Value of the Estate May Run as High as \$2,000,000

TERMS UNKNOWN UNTIL PROBATE TAKEN

Indications Are That New Orphanage Fund Is Most Impressive Bequest.

CALGARY, April 16.—When the terms of the will of the late William Roper Hull are fulfilled, which will necessarily be a matter of some years, it is reported that his bequests for community and charitable purposes will be found to be the most magnificent in the history of Western Canada. The exact terms of the will cannot be made known until probate is made, which may not be for several weeks.

Estimates of the total value of Mr. Hull's estate place it at upwards of \$2,000,000. An exact or approximately exact estimate is impossible at the present time.

Last year the business of deceased was turned into a joint stock company, which will continue to function uninterrupted.

The most impressive bequest of the late Mr. Hull, it is understood, will provide a fund for the establishment of the William Roper Hull Orphanage in Calgary. Just what amount will be available for this purpose cannot be even estimated for some time but it is believed that the sum will be very substantial. Before this fund can be applied to the erection and maintenance of this institution, a final settlement of the estate is necessary and this process naturally will require several years.

It is further reported that an endowment of \$100,000 has been left to the Anglican diocese of Calgary, the interest to be used as an annual contribution toward the support of the bishop and the rector of the Pro-Cathedral.

The immediate members of the family of Mr. Hull are fully provided for, and bequests are made to many relatives in the old country. Mrs. Hull will have the family residence, together with a substantial annuity.

Another bequest, so it is understood, provides \$20,000 for the Alberta branch of the Holy Cross hospital, \$500 to Mr. Hull was an official and a staunch supporter.

The Boy Scouts' Association will receive \$5,000; the Navy League (another organization for Alberta boys' benefit), \$5,000; the Lacombe Home \$5,000; the nurses home of the General hospital, \$2,000; the operating room at the Holy Cross hospital, \$200; \$1,000 to the church in Dorset, where he was christened and confirmed. It is reported, also, that there are other substantial bequests.

The late Mr. Hull's donation of a set of chimneys to the Pro-Cathedral of the Redeemer was made prior to his death and does not enter into the will's provisions.

Roberts Called On To Resign

FREDERICTON, April 15.—Hon. W. F. Roberts, Minister of Health in the Veniot administration, was called upon to resign by C. D. Richards, leader of the Opposition Party in the Legislature, during his speech in the budget debate today.

The Daily Gleaner has called upon Premier Veniot to ask for the resignation of Dr. Roberts.

Both demands were made as the result of the address of the Minister of Health on the previous day, when he condemned the Government's administration of the Prohibition Act and called upon the people to elect prohibitionists irrespective of party politics.

SEX WAR IS WAGED IN BRITISH SCHOOLS

Boys Object to Employment of Women Supervisors For Physical Training.

By HERBERT BAILEY, British United Press.

LONDON, April 15.—A sex war has broken out among the teachers in British schools. Men teachers charge that for a long time boys have objected to the supervision of their physical training by a woman inspector.

The association also insists that boys over the age of seven shall come under the predominant influence of men. Unless this is done, they fear a detrimental effect upon the future of the race.

Girl Admits Bootlegging Her Way Through School

NEW YORK, April 16.—Frances French, of Clermont avenue, Manhattan, admitted before United States Commissioner Pasquin in Brooklyn that she was bootlegging her way through business school. Patrolman James Dolan testified he had paid 50 cents for a drink of whisky Miss French poured from a flask concealed in a headbag. She was held in \$1,000 bail.

BEMOANS FATE DOOMING HIM TO TALK BOOZE

'Pussyfoot' Johnson Declares It Is "Same the Whole World Over"

SAY CONDITION IN N. Y. NOT SO BAD

Inform Enquirers He Thinks Balkan States Are Drying Up.

NEW YORK, April 16.—William E. ("Pussyfoot") Johnson's globe-trotting prohibition crusade is reducing him to a sort of melancholy. It is due to the fact that wherever he goes people insist on talking to him exclusively about rum.

Mr. Johnson came to New York to pass a week in a renewed effort to instruct the metropolis in its duty toward the Volstead act. In the afternoon, clothed in gray flannel underwear, making a sort of mounlain under a gray blanket in his room at the McAlpin, he lamented the fate that dooms him to talk nothing but liquor.

"People seem to think," said the "Pussyfoot" in his mild voice, "that I can't discuss anything but prohibition and booze. Sometimes when I'm in London or Archangel, Buenos Ayres or Indianapolis, I would like to discuss the weather or politics. But am I permitted to? No."

Signs at His Fate, "When I'm in London, which is my home town now, I go often to the club. What do the men I meet say to me? They tell stories of how easy it is to get in the States. Or they talk about the advantages of prohibition in increasing quantity production."

Mr. Johnson asked the reporter, "what about prohibition in Europe and the Modern lands of the Near East?"

"Yes," replied Mr. Johnson, "the Balkan states are going dry. Having had their boundaries adjusted by the Versailles treaty they have mostly given up thoughts of war, and are finding a common enemy in drink. Two of the presidents of these states—Austria and Czechoslovakia—are prohibitionists."

Hon. Mr. Rand, in opening his address, made an extended reference to the Moncton and Gloucester by-elections in which he was one of the principal actors. WILL LOST 4 YEARS IS FOUND IN SHOE

Administration of \$10,000 Estate Had Been Granted to Widow Two Weeks Before.

PITTSBURGH, Pa., April 16.—Missing for four years, the will of Frank Calto, a former business man of this city, has been discovered in the shoe of a dead son.

Efforts to find the will had been futile, and letters of administration had been issued to the widow. The estate was closed two weeks ago and approved by the court.

The will was written by Calto and was executed soon after his son's death. Grief-stricken, the father placed the will in the child's shoe, which was retained by the family. A few days ago the widow discovered the slip of paper in the shoe.

Reading the will, which was written by Calto, the widow found the following message:

"If I should die without explaining this paper to you, I hope our innocent beloved son in heaven will help you find it."

The property was estimated to be worth more than \$10,000. The widow was sole beneficiary.

THE EVENING TIMES-STAR, SAINT JOHN, N. B., THURSDAY, APRIL 16, 1925

NEW ATTORNEY GENERAL TAKES STAND ON HYDRO

Continued from Page 9.

The Opposition was an explosive exhibition, containing a mass of criticism based on generalities.

MARITIME RIGHTS

Hon. Mr. Rand's dissertation on Maritime rights created a profound sensation. He claimed this question had brought about some superficial thinking and added that where the Maritime Provinces had any moral or legal claims of recognition from the rest of Canada these should be pursued with aggressiveness. It was fatal, he declared, to promote claims which could not be upheld.

Hon. Mr. Rand tonight gave the viewpoint of the West and his remarks in this connection carried considerable weight, because for some years the Attorney General resided on the prairies. He referred to the claims of the Maritimes for a share in the western lands. A claim which he asserted could not be substantiated. These lands, he argued, were administered by the provinces for the imperial authorities and rightfully belonged to the provinces

within whose boundaries they were situated.

CALLS CLAIMS UNTENABLE

Mr. Rand declared that on the railway question many of the claims of the Maritimes were untenable and that the Maritimes would never forsake the union, but on the other hand would endeavor to prosper within it.

"The delegation which recently went to Ottawa to press the claims of the Maritime Provinces made itself ridiculous," said Hon. Mr. Rand. "They didn't know what they went after and didn't know when they got there what they wanted."

PROHIBITION OPPOSED.

"The essential hypocrisy that accompanies prohibition, not only political but personal," said Hon. Mr. Rand, "is one of the reasons the results which have been expected from this legislation has failed to materialize."

After proclaiming himself a strong supporter of the cause of temperance, Mr. Rand said he was prepared to support prohibition with certain well-defined qualifications.

CALLED MEANS TO END.

"Prohibition is not an end, it is a means to an end," said Hon. Mr. Rand, "and that law cannot be legitimately applied unless there is behind it a preponderance of public opinion."

Today respectable men are conspiring to defeat the law and are laughing at it. What is wanted, he said, is an intensive education of the people along temperance lines, a work that was left off years ago.

MUSQUASH DEFICIT.

There had been no attempt by the opposition, said Hon. Mr. Rand, to

criticize the feasibility of Musquash, but they had, through mathematical dexterity, endeavored to show that the money spent here had been wasted. In this connection he said the actual deficit on Musquash last year was \$1,200 and not \$200,000 as charged by Mr. Reilly. The latter figure had been arrived at by pooling. He charged that the opposition had surrounded themselves with an air of holiness or something more ethereal when they approached all public questions, and declared that they uttered all their criticisms ex cathedra. Today, said Hon. Mr. Rand, the opposition is seeking a political Messiah who will

no doubt write the present carefully hidden policy of the party on new PUBLIC OWNERSHIP.

He asked whether or not the Conservative party stands pledged to public or private ownership of the water powers of this province. One member of the opposition, Lewis Smith, had announced his support of public ownership, but the party as a party was strangely silent, yet they had affirmed their belief in hydro, which, said Mr. Rand, was comforting.

He declared New Brunswick, so far as the Grand Falls project was concerned, were applicants of Maine and Quebec, and then launched a bitter attack on the opposition to the province's bill in the Quebec House, an opposition which he charged had been

LIE GIVEN ON BOTH SIDES IN BUDGET DEBATE

Continued from Page 9.

provinciate \$18,000,000 in seven years and said the wanton extravagance of the administration was a matter of amusement and astonishment to the people of the province.

URGES PULPWOOD BAN.

E. A. Reilly, M.L.A., for Moncton, speaking in the budget debate tonight came out in favor of an export duty and embargo on pulpwood declaring that New Brunswick protect its own natural resources and not permit them to be meted out for the benefit of those not in this province. In this connection he made a strong plea for the conservation of our forest wealth pointing out that a serious loss in assets and revenue will result if the present rate of depletion is continued for ten years more.

FARMER AID ADVOCATED.

Mr. Reilly declared that 60 per cent of New Brunswick's population is located in the rural districts of the province and argued that a more advanced policy should be adopted to aid the farmers of New Brunswick who last year received out of a total revenue of \$3,725,285.99 the sum of \$105,000. He claimed greater encouragement should be given the farmers to keep them on the land and added that it was not surprising, in view of the scant attention paid to the farming class that New Brunswick is today losing population. And this province has the smallest population, with 14 inhabitants to the square mile, of any in Canada.

HYDRO CRITICIZED.

Mr. Reilly again returned to his criticism of the Musquash development, quoted a mass of figures, and charged the development there would cost the province \$4,000,000, when all lands and other damages had been paid. He claimed the carrying charges at Musquash amounted to \$428,000 and further that the cost of generating the power was 3.1 cents per k.w.h.

Yet, said Mr. Reilly, this power is being sold to Saint John at 1.5 cents, thus forcing the province to carry a

loss of \$200,000 per year in this contract.

Discussing the financial position of the province Mr. Reilly charged that the Government was juggling with figures in their attempt to show a surplus in 1924. The member for Moncton city argued that a deficit of \$248,129.91 actually existed, declaring that the interest on the Saint John Valley Railway is an obligation on the province and must be paid.

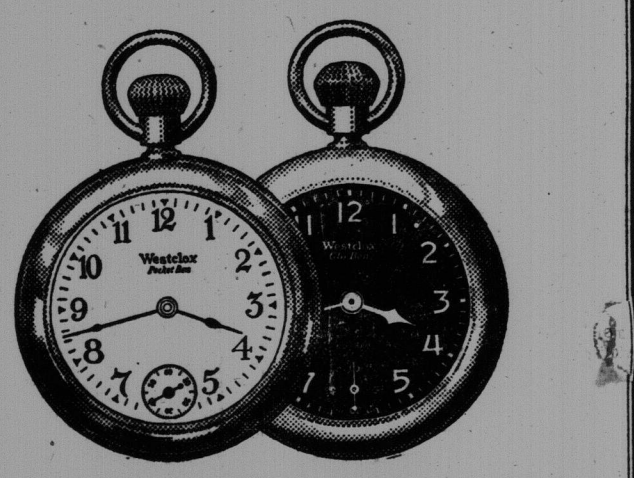

OVER-SPENDING CHARGED.

Mr. Reilly went on to criticize the Government for over-expending in certain departments last year. He quoted

from the Comptroller-General's report to show that special warrants had been issued in excess of and beyond the legislative authority. These warrants totalled \$1,540,406.66 for current and capital account for roads and bridges. Mr. Reilly said if this method is permitted to continue, parliament might just as well not be called in session and the Government allowed to issue special warrants for such dues and demands as may from time to time be required.

Mr. Dickson gave notice of inquiry for Tuesday next with respect to the operations of the ferry steamer "Maggie Miller."

URGES BUREAU AT ST. STEPHEN FOR TOURISTS

E. G. Beer Tours Maritimes in Interest of Proposal

TELL TRAVELERS OF PLACES OF INTEREST

Points to Large Influx at Border in Advocating Plan.

A proposal to open a bureau at St. Stephen to provide information concerning the Maritime Provinces to tourists coming from the United States is made by E. G. Beer, of St. Stephen, who is touring the provinces in an effort to have public bodies and the Governments of the three provinces interested in the scheme.

In view of the heavy travel of United States tourists in the three provinces, Mr. Beer believes that there should be some means of providing them with information concerning the places of interest. He suggests that premises in St. Stephen just inside the Canadian boundary be secured and opened so that literature could be distributed and tourists informed of roads, hotels and other objects of interest.

NUMBERS INCREASE.
The numbers of tourists entering Canada through St. Stephen have increased steadily. This number of tourist cars entering through the Customs there in several years was as follows: 1918, 345; 1922, 2,044; 1923, 3,262; 1924, 5,128. With the increase continuing at this rate the cars to come from the United States during 1925 would number 7,000.

During the last year literature concerning Prince Edward Island was distributed from the Customs House in St. Stephen, but so many requests have been received this year that the Customs officials find they cannot handle the work suggested and they are supporting the scheme to open a proper information bureau.

It was pointed out by Mr. Beer that every car entering Canada via St. Stephen must stop at the Custom House, which is in the same building with the office he suggests for the information bureau.

Already Prince Edward Island has declared for the plan and the matter is being considered in Nova Scotia. However, Nova Scotia had an Act of its own between Saskatchewan and Alberta and it is reported that the results from it were obtained by the Highway Board of Nova Scotia.

The proposed office in St. Stephen could be operated at a moderate cost, Mr. Beer said, and he thinks it should be run as a public institution and not supported by concerns which would require special attention to particular businesses. He believes that the Governments of the three provinces should operate the office. In case they would not handle it, he thought it would be good business for the tourist associations of the provinces to back the plan.

He also pointed out that action was necessary at once in order that the office might be ready for the opening of the tourist business.

CITIZENSHIP IS SPEAKER'S TOPIC

President of King's Gives Address at Canadian Club Meeting Here.

"The citizen must rule and the citizen must obey." With these words Rev. A. H. Moore, M.A., president of the University of King's College, Halifax, summed up the fundamentals of citizenship last evening in his address to the Saint John Canadian Club at its banquet in the Hotel Dunlop. He emphasized the need of education in the homes and schools on civics and government and held up this education as the best hope for the improvement of the present poor citizenship as witnessed by the failure of people to turn out to the polls and do their duty as voters.

W. J. S. Myles, president of the club,

introduced the speaker. Magistrate George A. Henderson spoke a few words on the League of Nations Society, mentioning the membership campaign to start on May 1 and 2. Dr. Moore concluded his talk with a few words on Canadian citizenship. It was no easy thing to be a citizen of this country, he said. The country was facing problems of great magnitude and enormous difficulties must be overcome.

He deplored sectionalism and declared that there was a great work ahead in unifying the conflicting interests in the Dominion. There should be an insistent call on the people today to be serious in their citizenship. A great deal of patience and optimism was needed to face the problems of life in the right way.

TO OUR CUSTOMERS
\$1,000.00 Is Yours

The Consumers Coal Company Limited has been importing Welsh Coal for three years. The popularity is greater today than ever. Like other coals there are many varieties in Wales. We had various coals the first year, some were good and some not so suitable for domestic use. We located, however, the most suitable all round domestic coal and for the past two years this coal has been gaining favor.

To protect our patrons, so that no other of the many varieties may be offered as "just as good" we are going to give our WELSH COAL a trade name, which will be selected from those submitted to us under the rules of this contest.

You Can Win \$1,000.00

The first 2,000 (two thousand) purchasers and receivers of Welsh Coal are entitled to submit on the back of their "YELLOW DELIVERY SLIP" supplied by us with each load of coal, one name for Welsh Coal, for every 2,000 pounds of Welsh Coal marked thereon. This slip is a triplicate of two records maintained in our files and must not be changed in any way. Just write or print plainly on the back of this slip and bring to our office, 331 Charlotte street. The date, hour and minute will be stamped on it by a clock, then enclosed in a plain white envelope and deposited in a securely locked slot-box in our office.

We have reduced our price on Welsh Large and Welsh Nut coal \$1.50 per ton, but we do not guarantee this new price to hold throughout the entire contest.

All coal must be paid for promptly, according to terms of purchase. And other conditions of purchase must be adhered to.

No employee of this company is eligible to enter.

Neatness, handwriting and time of registry will be considered as well as the name, in the case of ties. Only one sum of \$1,000.00 will be paid.

One or more delivery slips may be enclosed in the one envelope if desired, but remember the earlier you register the name with us, the better chance you have of winning.

The selection of the name will be made by a committee. The names of which will be published later. We cannot at any time give any idea, as to how many customers have been delivered to, or how many are yet to be delivered to, to make up the 2,000.

We reserve the right to terminate this contest without notice, should any cause or causes interfere with our business, such as strikes, loss of coal in transit, etc. In which case the selection will be made and the \$1,000.00 paid as though the 2,000 persons have been delivered to.

Please remember that we cannot do the impossible, so in fairness to yourselves and to us, we ask that you arrange as early as possible for your delivery.

This contest applies only to re-screened Welsh Large, Nuts and Pea Coal delivered only to our retail trade and also only for delivery to the City proper, Carleton, Fairville and East Saint John.

AUDIENCE GIVES ARTISTS OVATION

Rotary Will Help Crippled Children—Reception in Visitors' Honor.

Three renowned vocal artists of New York, Miss Olive Marshall, soprano, Paul Althouse, tenor, and Arthur Middleton, baritone, enthralled a packed audience in the Imperial Theatre last evening with a program that for richness of merit and rendition has not been surpassed here in a great many years.

Two hours were consumed for the programme that ranged from light, rollicking songs to the thrillingly dramaticarias of grand opera but at all times was the big audience held breathless under a master spell, broken at intervals by thunderous bursts of applause that at times amounted to ovations.

Wealthy Fiddler

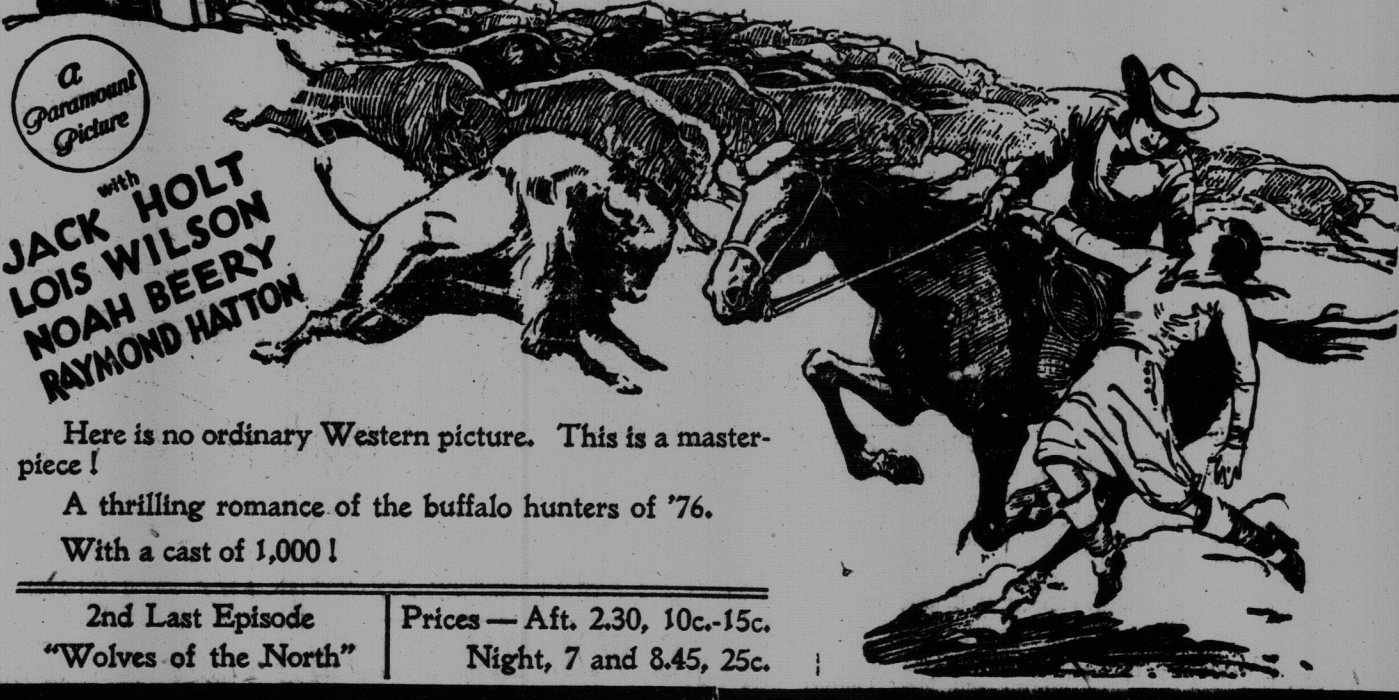

JAMES CANALE, millionaire vice-president of a southern produce company, boasts that he's a regular "fiddler" and has entered the "Old Fiddlers' Contest" to be held in Memphis, Tenn. He will match his genuine strivings against all comers in rendering "Turkey in the Straw" and "Old Black Joe."

Attention was outstanding, every word being heard clearly in her songs, all of which were given in a sweetly clear soprano voice. Her high notes were well sustained and her work with Mr. Middleton in the duet from "Thais" made it one of the outstanding numbers of the evening.

Mr. Middleton, who is well-known through his work on the phonograph records, is the possessor of a "renowned" well-balanced baritone, rendering brilliantly such a powerful theme as "Danny Deever" and giving sympathetically that tender melody, "The Bellman."
