**North Shore Judge, and how the "right of our denomination" is urged on the one hand secretly in his favor, while leading men of the same denomination who are held up as "francophobes" are abused, in order that a mere copy flourish of the "national" firebrand may have the hoped-for twofold effect,—that of injuring Mr. Burns with Judge Landry's "comparative" in Gloucester and, 2nd,—in securing a further boost for that gentleman, who has already turned this "comparative" business to excellent personal account.**

It is quite well known that there has, for some time, been a growing feeling in the province in favor of the claim of the North Shore counties for a resident supreme court judge. When it seemed probable—some months ago—that there would be a vacancy by resignation on our supreme court bench, the ADVANCE referred to the fact that the government at Ottawa had apparently assumed that it was only in Fredericton or St. John that they must look for members of the bar competent for appointment to such positions. We urged the commercial importance of the North Shore as one of the strongest reasons why the claims of this section of the province, to a supreme court judgeship should be recognized, pointing out the inconvenience and expense to our people of having to transact chamber business either at St. John or Fredericton. We also emphasized the fact that there were members of the bar resident and in practice at the North who were quite eligible for the position, and intimated that the Dominion Government must not expect that our people would much longer refrain from resenting the manner in which their interests in this important matter had been ignored.

A few weeks before the subject had been placed before the public, the members of parliament for Northumberland, Gloucester and Restigouche took it up, and requested of the Minister of Justice the appointment of Mr. R. A. Lawlor of Chatham, in the event of a vacancy occurring. This seemed to be a move on proper lines. We had no particular person in mind when we made the suggestion and either Mr. Lawlor or any other of our leading barristers would be acceptable, so far as we were concerned, for it was not the advantage or advancement of any individual, but the promotion of the business interests of the northern counties that we had in view.

It often happens in public matters of this kind, as well as in smaller affairs, that persons of narrow views, impelled by the most selfish motives, are, unfortunately, able to do much harm, and while they are generally fail in attaining their own ends, are successful in assisting those who are working against the community in which they are only marionettes. We regret to observe that an illustration in point is furnished in connection with this important subject by the Bathurst Courier, which makes it an occasion for a most virulent, far-fetched and inconsistent attack upon Mr. Burns, M. P., the representative of Gloucester in connection with the nomination of its own for the position under consideration. That paper has not only the bad taste and criminal recklessness to raise the question of nationality, which those controlling it seem to be ever-striving to intrude into our public affairs for the personal aggrandizement and profit of a few persons who have trafficked in it for years, but it has also the nerve to ask the people of the North Shore to push aside their own men who are eligible for the position, and treat them as if they were of inferior caliber, in order that a gentleman from Dorchester may be added to the list of supreme court judges. That paper thus presents itself to the people of the North Shore as being ready to forsake its duty to and interest in the portion of the province in which it seeks support of the people, in order that it may carry out its unworthy mission of arraying race against race, for the purpose of injuring a gentleman whose chief offence against the Courier seems to be that the elections of Gloucester county, by an overwhelming majority, preferred him as their Ottawa representative rather than the former editor of the Courier. That paper boldly puts forward the name of County Court Judge Landry, in opposition to the North Shore gentleman nominated by Messrs. Adams, Burns and McAllister, claiming that "there always has been and always will be a strong opposition to the nomination of our competitors to positions of honor and responsibility, but thanks to the persistence and energy which have, up to now, characterized those who devote themselves to the defence of our rights, the number of those francophobes diminishes day by day. If our race has had to struggle against a like opposition on the part of a certain number of persons of another nationality, it must be said that we have done so bravely, and hearts who have peacefully contributed, by their eloquence and influence to procure for us the prestige which we have been enjoying for a good many years."

In short, the Courier unmistakably indicates its meaning that the "francophobes" composed of "a certain number of persons of another nationality" are the co-religionists of Mr. Burns of Irish nationality, and yet it is only the other day that there was sent out from the same source—perhaps, by the same hand by which the Courier article was furnished, a printed appeal to Hon. Mr. Costigan to be signed by clergy men and others, asking that gentleman, as the Catholic representative from "New Brunswick in the Dominion "Cabinet" for his "advocacy with the "Honorable Minister of Justice, praying that the first vacancy on the supreme court bench of New Brunswick be filled by the appointment thereto of "His Honor Judge Landry." The document goes on to urge "the right of our denomination to insist on their being no longer ignored in appointments to the Supreme Court Bench of "New Brunswick," etc.

It is interesting to note the elements of this suddenly organized crusade in favor of Judge Landry against the Burns, Adams and others—offices which

**Our Smelt Fishermen's Grievances.**

The treatment accorded to the Chatham smelt fishermen by the Minister of Fisheries, shows that he is unfit to control an industry in which special conditions require intelligent consideration and a regard for the well being of communities of deserving and industrious people. We had thought it possible, for a good while, that if he knew all the facts and circumstances of the Chatham smelt fishery he would deal more intelligently with the subject. We have, however, reason now to believe that his stubborn and unreasonable exercise of authority in withholding from fishermen their rights and privileges from them, and his indifference to the hardships of the poor, are not the only reasons for his ill-considered and ill-managed policy during the past fortnight or more. A government with a minister who has been so grossly deceived in his own mind, need not expect much sympathy or support from the voters of Chatham. If they were large manufacturers, coal companies, or wealthy corporations they would not have to ask a second time for such protection, but as they are not, they must deal with their own government as they see fit.

The fact is that until the claim for a North Shore appointment was made by the Advocate and by Messrs. Burns, Adams and McAllister, no one outside of Dorchester appears to have thought of Judge Landry in the matter. As he was not in the field, so far as the public were aware, it is he who "ungratefully" has allowed himself to be put forward to oppose the wishes of the North Shore and its representatives in the matter. The effect that the ill-considered intrusion of Judge Landry's name can have at this stage is to excite prejudices which the better class of Frenchmen, as well as of English, Irish, Scotch and other nationalities are striving to ally, in order to the people of the Dominion may be better realized that they are all Canadians, whose duty it is to place their best men in the country's highest positions regardless of their creed or national origin.

Admitted abuse of Messrs. Burns and Adams, and the charge upon them of ingratitude, because they have recommended a North Shore barrister to a position which has been, subsequently, claimed for Judge Landry, come with bad grace from that gentleman's organ at Bathurst, for it cannot be forgotten that Judge Landry had no warmer supporters of his application to be appointed the successor of the late Judge Botsford than those gentlemen. If they were the "francophobes" the Courier represents them to be, they would hardly have stood by him in that matter as they did, and if there is any ingratitude to be charged, reasonable Acadians, as well as others, will say it is against those who so easily forget past favors and turn upon those who have bestowed them.

After all, we assume that the Acadians are not the simple laugh-ophobes or baiters of Irishmen and Scotchmen that these friends of the Dorchester Landries would have them be. When they are told that Messrs. Burns and Adams are such haters of their race, they will not be surprised if it came that both of them supported Mr. P. A. Landry's application for a county court judgeship as well as Mr. Pascal Poirer's application for a senatorship. The Acadians of the North Shore "complaint" will also have to be satisfied whether a clerk was going by looking at the hour hand. How we got there I will not attempt to explain further than by saying that we took our time.

Mr. Brown was at the mill when we arrived, and told us that one had cast a line on the pond that morning. I put my eight-ounce fly-rod together, and one of the mill hands, who was looking on, soon set the idea of my taking a grisle on such a dimmy-looking affair. "Where do they live?" he asked. "Do you see that little lake over there?" I nodded. "Well, if you catch any, you'll get them out there." "Where do you stand to get them?" I asked. "I generally stand in the water by that log there."

**Salmon Fishing at Bathurst, N. B.**

It was a lovely August morning, and as I lay under the trees in front of the Kenoy Hotel, watching the sky on the bay, I was suddenly interrupted by Mr. F., who asked if I could leave my boat long enough to try for a salmon at Brown's Pool. The boat went out of sight before you could have said "Amen," and I had not long as Mr. F. had been in town the night before, and consequently not a horse was in the stable. "Why not take the pony?" suggested Mr. F. John soon had the little fellow hitched up and we started off. "I had a horse struck when I was out there," said Mr. F., "and ears like a horse. Did you hear him sneeze?" He sneezed just like a horse, and he's got feet like a horse, but his pace is more like an ox. We couldn't tell where we were going by looking at the clock, but he was going by looking at the hour hand. How we got there I will not attempt to explain further than by saying that we took our time.

**UNLUCKY WHALEBACK.**  
The first whaleback to visit the Pacific Ocean has met with a quarter of a million dollar mishap before completing her initial voyage. The British steamer "Zambesi" from Hong Kong, arrived at Victoria, O., Dec. 10, having in tow the disabled whaleback steamer "Charles M. Wetmore," which was picked up on the 9th thirty miles south of the entrance to Columbia River. Captain Edwards, of the "Zambesi," has entered claims and damages to the extent of one-half the value of the vessel and cargo, which he claims were worth \$700,000. Captain Hastings, of the steamship "Wetmore," says that he began to lose his ladder two weeks ago when off Galapagos Islands. It dropped off bit by bit as the rivets fell out, but he hoped to make his destination, Port Townsend. Under the circumstances he was very glad to get to Columbia River. The whaleback was out eighty-three days from Philadelphia.

There have appeared from time to time in the ADVANCE during the past year accounts of remarkable cures in various parts of the Dominion. In each case the circumstances connected therewith had been investigated by well known newspapers, and there could be no doubt as to the entire reliability of the accounts given. Perhaps the case that attracted most attention was that of Mr. John Marshall, of Hamilton. This was not remarkable because his case was very remarkable than some others, but because it was attended by some other peculiar circumstances that served to emphasize it in the minds of the public, as for instance the fact that he had been pronounced absolutely incurable by half a score of clever physicians, and was actually paid the \$1,000 disability claim allowed by the Royal Tangle of Temperance. Elsewhere in this issue is given the particulars of a cure in Cape Breton, which is quite as remarkable as that of Mr. Marshall. The particulars of the case are taken from the Halifax Herald, but they are also vouched for by Mr. Richardson, the editor and proprietor of the Island Reporter, Sydney, C. B., who says that in not a single particular is the story overdrawn. We fancy we hear some reader say, "Oh, pah! this doesn't interest me." But it does. The story as told elsewhere is worth reading, and we will guarantee before you are through with it you will be thoroughly interested.

**NASAL BALM.**  
Soothing, Cleansing, Never Fails. HEALS. Instant Relief, Permanent Cure, Failure Impossible. Many so-called cures are sold as "nasal balm," but they are not. They are simply a mixture of oil and turpentine, and do not cure. The only true nasal balm is the one sold by J. T. Harris, of Chatham, N. B. It is made of the finest ingredients, and is guaranteed to cure all cases of nasal catarrh, whether old or new. It is sold by all druggists, and is also sold by J. T. Harris, of Chatham, N. B. Josephine was in her room, the door of which she had locked and bolted. Frances knocked at it. 'Let me in, dear,' she said. 'Who is it?' asked Josephine, cautiously. 'It is I—Frances.'

Good Advice. DEAR SIRS,—I have been troubled with headache for over 40 years, and had it so bad about once a week that I was sometimes not expected to live. I was advised to use B. B.
