

# LEADERS IN INDUSTRIAL WORLD OF CANADA GATHERED IN FORCE AT ST. ANDREWS

### Feature of Opening Session of 51st Annual Meeting of Canadian Manufacturers' Association Was Address of Its President, W. S. Fisher, Who Referred to Work of Year, Made Forecast of Future, and Suggested Moves for the Association to Undertake for Canada's Betterment—Reports Show Healthy Condition of Affairs.

St. Andrews, N. B., June 20.—(Canadian Press)—"Generally speaking, business is steadily, though very slowly improving, the international situation seems to be clarifying, money is easier, surplus stocks have been reduced, basic production is recovering, unemployment is decreasing, prices are stabilizing and demand is reviving." W. S. Fisher, St. John, president of the Canadian Manufacturers' Association addressing the opening session here this morning of the association's fifty-first annual general meeting, thus summarized Canada's position, following what he termed the "trying experience of the last two years."

Work is the panacea for most of our ills, physical or mental, he added.

Mr. Fisher devoted a large part of his address to the defense of a protective tariff. He thought an adequate customs tariff the best safeguard of the home market, which he declared to be the greatest market for the country's products. Taxation could raise sufficient money to pay current expenditures, interests on the national debt, a debt which had increased from three hundred and thirty six millions in 1914 to two billion four hundred and twenty seven millions at present. But he did not think any form of taxation of the country's present wealth could be applied to reduce the principal.

He reported that development of Canada's natural resources, the farms and mines, the forests, the fisheries and the development of the country's factories so that these could transform its raw materials into usable forms, would produce the wealth which, when taxed, would pay off the additional debt.

#### Canada's National Resources

Canada's natural resources, Mr. Fisher said, included three hundred million acres of farm land, a world-wide ten per cent of the world's supply of coal in Alberta alone. The country also had, it was estimated, ninety per cent of its asbestos, eighty-five per cent of its nickel, twenty per cent of its cured fish, etc. Mr. Fisher thought it an extraordinary thing that Canada had seen three downward revisions in the tariff in 1918, 1920 and 1922.

He said: "Should the national resources be sold in crude form, presenting to other countries the profits and employment from turning them into finished products, leaving the risks forever, putting interest on the national mortgage?"

Mr. Fisher knew only one argument of weight against a protective policy, namely, that if there were no customs tariff, Canadians might be able to import certain articles cheaper than they could now be obtained through Canadian manufacturers. He believed on the contrary, that if the customs tariff were abolished the manufacturers of other countries would force many Canadian manufacturers out of business, and that accomplished, could set what price they wished for the same of their goods in Canada.

The manufacturers' president said that several thousand articles were now manufactured in Canada which were not made in this country six years ago, and referred to Canadian manufacturers as having expanded "greatly" under the decreased competition of the war years and under the increased protection given when the government imposed a revenue tariff increase of seven and a half per cent.

Mr. Fisher said it was not generally realized that Canadian transportation was inseparably linked with the customs tariff, and that a large percentage of the high paid tonnage carried by the transportation companies consisted of goods carried between factories, and to factory people or consumers. The transportation systems had been developed on the east and west principle.

Their welfare was dependent on the maintenance of adequate duties between Canada and the United States. He thought it strange that the strongest demands for a reduction of tariff came from the Western Progressive members of Parliament, who were equally insistent upon getting low freight rates.

Mr. Fisher thought the Government should be careful to abstain from "harmful activity." The manufacturers, he said, would offer co-operation in the giving of public ownership of railways and a merchant marine a fair trial. The experiment would succeed only in the degree to which it avoided political interference and provided that efficient service at reasonable cost which was so necessary to stimulate foreign and domestic trade.

#### Urges Gov't Economy.

The president urged Government economy, but thought it a foolish economy which deferred necessary expenditures and thus increased ultimate demands on the public. He said the Dominion Government "has wisely broadened the basis of taxation by establishing and increasing the sales tax," continuing: "We are the only nation in the world that has the manufacturers who have to support it, and we hope it will serve the purpose and disappear in time, but it has the merit of providing a large amount of revenue with practically no administrative cost."

Mr. Fisher commented on the Ottawa banking session, stating that it showed the strength of the bank and other

## THE QUESTION OF TAXATION IMPORTANT

### C. M. A. Urged to Devote Its Greatest Effort to This Question.

St. Andrews, N. B., June 20.—(By Canadian Press)—Protest against the payment of taxes on stock dividends, and a strong desire to see increased co-operation between employers and employees was expressed in the discussion at the first session here today of the general annual meeting of the Canadian Manufacturers' Association. One speaker said that the members of the association should not pay the tax, and allow the Government to sue them in order that the true situation and their liabilities might be determined.

First Vice-President J. R. Shaw thought the taxation of stock dividends an "outrage." Some of our legislators fail to realize, he said, that Canada is young industrially, and that nearly every one of her manufacturers must put back into their companies the profits which, according to paper figures, they made. He thought the association should devote its greatest effort in the coming year to the question of taxation, or otherwise it "will ruin us."

A resolution thanking S. R. Parsons, an expert of the association, who represented the employers of Canada at the International Labor Conference, Geneva, 1921, and also at the Washington Labor Conference in 1919, was moved by George G. Copley, Mayor of Hamilton, and seconded by F. W. Stewart, Montreal.

#### Independents Surprised All.

The successes of the Independents have affected both the treaty and anti-treaty panels, but the anti-treaty candidates fare more severely than the others. The Republicans had counted on dropping fifteen seats of their existing strength, and thus far, with twenty-eight seats still unannounced, they have dropped eleven. According to estimates, they may drop at least eight more.

#### Have Served Notice They Will Fight Committee's Report on Crow's Nest Pass.

Ottawa, June 20.—Hopes of prorogation on Saturday went glimmering tonight when it was learned that the Committee of Railway Rates had carried a report favoring a two-year suspension of the Crow's Nest Pass agreement, and that the Progressives, who fought against suspension in committee, are serving notice on the Government that legislation affecting suspension can only be carried through the house by closure.

#### PROGRESSIVES SHATTER HOPES ON OTTAWA HILL

The Progressives suggested suspension of the agreement on everything but again. This recommendation, however, was rejected by the committee. The report in favor of a two-year complete suspension being carried by the vote of the chairman, A. K. MacLean. What attitude the Conservatives will take in the House when the question comes up is unknown.

#### TRUE BILL AGAINST MRS ATKINSON

Cumberland County, (N. S.) Grand Jury Find She Caused Death of Husband by Neglect.

Amherst, N. S., June 20.—In the Supreme Court here today, Mr. Justice Russell presiding, a true bill was returned by the Grand Jury against Mrs. Calvin Atkinson, of Port Lawrence, Cumberland county, on a charge of manslaughter by criminal negligence growing out of the death of her husband under distressing circumstances early in the year. At the preliminary hearing, at which Mrs. Atkinson was committed for trial, it was alleged that Atkinson's death from Bright's disease had been hastened by under-nourishment and uncleanness.

#### IRISH STATEMENT COMING LATER

Churchill Thinks It Inopportune Time to Comment on Irish Affairs.

London, June 20.—Winston Spencer Churchill, the Colonial Secretary, told the House of Commons today that he thought the present time was inopportune for a discussion on Ireland, and asked the House to allow him to reserve any statement he would have made to the Commons Thursday until some time later.

## HEAVY GUARD ON TOWN HALL AT WATERFORD

### Hitch Occurred There Over Irish Election Results and Returns Held Up.

### DE VALERA MEMBERS ARE ENDANGERED

### Returns So Far Show Strong Support for Treaty in New Dail.

Dublin, June 20.—The results of the elections are still incomplete and final figures in some of the important constituencies will not be announced until Wednesday afternoon. There has been some hitch at Waterford, which, with Tipperary East, forms a constituency of five seats, and two officials of the Provisional Government have gone there to straighten the matter out. The De Valera members, whose seats in the Dail are endangered, include Charles Burgess, former Minister of Defense, and Semus Robinson, one of the leaders of the dissidentist section of the army. Unusual precautions have been taken against interference in the counting, and a strong bodyguard, presumably a regular section of the Irish Republican army, is guarding the Town Hall.

#### Nature of Hitch Not Known.

The nature of the hitch is not definitely known, but it is expected to cause postponement of the declaration of the result for possibly twenty-four hours. It is known that a pro-treaty candidate headed the poll, and that there is one huge constituency in Cork county returning eight members, with three new-comers contesting the seats of the four treaty and four anti-treaty members, the former including Michael Collins, and the latter the well known novelist and poet, Daniel Corkery.

#### Independents Surprised All.

The successes of the Independents have affected both the treaty and anti-treaty panels, but the anti-treaty candidates fare more severely than the others. The Republicans had counted on dropping fifteen seats of their existing strength, and thus far, with twenty-eight seats still unannounced, they have dropped eleven. According to estimates, they may drop at least eight more.

#### Results So Far Known.

Including all the uncontested seats, the results are known in the case of 100 members. Of these, the pro-treaty panel won thirty on the contest, which with seventeen uncontested seats, give a total up to the present of 47.

#### TRAIN NARROWLY ESCAPED DISASTER

Timely Warning by Laborer Prevented Boston-Montreal Express Crashing Into Land Slide.

Medford, Mass., June 20.—The Montreal express, which left Boston at 8 o'clock on the Boston & Maine, narrowly escaped disaster last night when a landslide, caused by heavy rains, occurred near Medford Hillside station. Three minutes before the train was due to pass through at a speed of fifty miles an hour, hearing the crash of falling earth, Walter J. Ballou, of Medford, telephoned the railroad offices in Boston of the slide and on being told the express was due, ran down the track with a red flag, which he found in the station, and flagged the train, which had it continued. On its course, would have crashed into a large boulder lodged in the middle of the track.

#### DISTRICT NO. 26 HAS CREDIT BALANCE

Treasurer's Report to Convention of Miners at Truro Satisfactory One.

Truro, N. S., June 20.—District No. 26 of the United Mine Workers of America, ended its year on April 30 with a credit balance of \$25,173.52 and a total expenditure of \$55,014.48. The remainder of the day's proceedings were devoted to the approval of credentials and the appointment of committees. Following a brief discussion president Robert Baxter ruled that the press should not be excluded from the meetings.

#### RIO GRANDE GOES ON RAMPAGE

Hundreds of Mexicans Rendered Desolate When River Overflowed Iowlands.

Bulletin, Laredo, Texas, June 20.—Hundreds of Mexicans were rendered destitute, scores of houses washed away, the Laredo Lighting plant put out of commission and much livestock when the Rio Grande reached a crest of 45 feet here today, and spread out over low-lying sections of Laredo and Nuevo Laredo, opposite.

## What Storm Did in Boston

Here's what happened to a house in Cambridge, Boston suburb, wrecked by a tree felled by lightning when the worst tempest and cloud-burst in years lashed Boston.

## GREAT RESPONSIBILITY RESTS WITH WOMEN OF CANADA FOR GREAT FORWARD MOVEMENT

### At Tenth Annual Convention of New Brunswick Women's Institutes, the President Stressed the Important Part Its Members Could Play in the Developing of a Greater and More Prosperous Dominion.

Fredricton, June 20.—The tenth annual convention of the New Brunswick Women's Institute assembled here this morning in the gym of the Provincial Normal School with an attendance of 67 delegates from the various institutes throughout the province, as well as a number of visitors, the sessions of the convention having been thrown open to the public, making a total attendance in the vicinity of eighty.

The three day programme was opened by Mrs. C. J. Osman, of Hillsboro, President of the Advisory Board, who is presiding at the sessions of the convention with a brief reference to the great responsibility resting with the women of Canada for the greater forward movement of the Dominion. Following the opening chorus of "O Canada," Mayor J. A. Reid briefly welcomed the visitors, and spoke highly of the work already accomplished by the Women's Institutes in the past. He characterized the objects of the institute as purely of an unselfish nature, especially benefiting those less fortunate than the members with some degree of mutual benefit as an indirect result.

Mayor Reid announced that arrangements had been made to provide a number of autos with which the visiting delegates and their friends would be driven around the city this evening, and given an opportunity of viewing several of the local institutions which were of natural interest to the members of the association.

#### Committees Appointed

The committees which were appointed this morning were as follows: Credentials, Miss A. Wetmore, Mrs. H. Scott, Millerton. Resolutions—Mrs. Herbert Reid, Stonehaven; Mrs. W. Fawcett, Upper Sackville; Miss Mabel Culligan, Jacques River.

#### CUT IN FREIGHT RATES ON BASIC COMMODITIES

C. P. R. Informs R'y Rates Committee That Potatoes Will Be Included in List.

Ottawa, June 20.—At the close of a session in private, which lasted till past midnight, the special House Committee on railway costs voted to suspend the Crow's Nest Pass agreement for one year, with the option of suspension for a second year by order-in-council. Under the terms of this suspension, the reduction in rates on basic commodities, as offered by the railways yesterday, will, it is understood, come into force. These reductions include a cut of twenty per cent on grain, while on the other basic commodities the cut is 16.66 per cent. In the West, and twenty per cent in the East. An exception is made in the case of potatoes, in which a reduction is offered of 10.15 and twenty cents a ton, varying with the length of the haul.

A reduction in the freight rate on potatoes has been offered by the railways in addition to the list of reduced rates announced earlier in the day. The reduction on potatoes, under the railways offer, will be 16.66 per cent in the West, and twenty per cent in the East. W. B. Lanigan, freight traffic manager for the C. P. R., informed the committee that the purpose of looking after the requirements of the Maritime Provinces, which have been excluded from the American market by the Fordney Bill.

Requests were made by members of the committee for reductions on fruit and fish as being in accord with the reduction of 16.66 per cent in the West and 20 per cent in the East. O. H. Dickie, of Nanaimo, pressed for a reduction on trout, but Mr. Lanigan, who was then on the stand, replied by recalling that, while formerly British Columbia did not sell a box of apples in Winnipeg, she now sold them in New York. William Duff, of Lunenburg, urged the claim for fish, and Mr. Lanigan suggested that the fish dealers should make representations direct to the railways.

#### CAPTAIN PLACON HEAVILY FINED

Hull, June 20.—Captain Placon, master of the schooner Annie B., which was seized last week by customs officers while entering Halifax harbor with a cargo of rum, was today fined \$200, and costs, in a magistrate's court. He has given notice of appeal to the Supreme Court.

## RESOLUTIONS OF THE BUDGET BEFORE HOUSE

### Steady Strain of Amendments from Progressives Looking Toward Lower Duties.

### SHORT DEBATES ON NEARLY EVERY ITEM

### Chief Interest in Proposal to Place Excise Tax on Beet Sugar.

Ottawa, June 20.—(By Canadian Press)—Rapid progress was made in the Commons today as the resolutions of the budget occupied practically the whole sitting and were passed steadily, although a steady stream of amendments from the Progressives, each looking toward lower duties, brought on short debates on nearly every item. But one item—that fixing the value of German goods for customs purposes—was stood over. An amendment by Hon. H. H. Stevens, Conservative member for Vancouver Centre, providing a special dumping duty causing the delay in this case.

#### Beet Sugar Tax

The chief interest during the evening sitting centered around the discussion on the proposal to place an excise tax on beet sugar. Sir Henry Drayton started the drive against the tax by declaring that sugar beets would pay 52.8 cents a ton. "The tax was detrimental to Western Canada," eventually B. W. Fansher, Progressive member for Lambton East, moved an amendment that the tax should not become operative until a thorough investigation into the industry was made. This was the first time in the history of Canada, he said, that an excise tax had been proposed for a food product. The tax would only bring about \$100,000 to the Federal treasury, while a stamp tax of two cents per hundred pounds of sugar made in Canada would bring in approximately the same amount. The amendment was generally supported by Progressives and by several Ontario members. It was finally defeated on division and the tax approved. It comes into force January 1st, 1923.

#### Insurance Contracts

The tax of five per cent on inter-insurance contracts taken out with British or foreign underwriters, brought down another debate. Hon. J. B. Baxter, Conservative, St. John, N. B., began it and drew from Mr. Fielding a defense of the tax. Mr. Fielding said that there must be a misunderstanding abroad. This tax did not seek to prevent this class of business being written. It was only a small tax on the premiums.

R. H. Hanson, Conservative, York-Sunbury, claimed that the tax was not really a revenue measure at all but an indirect means of forcing those foreign companies to take out a license in Canada.

T. W. Caldwell, Progressive, Victoria-Carleton, pointed out that under the resolution each person who had a policy was bound to make an annual return to the Department of Insurance. A good many of them might not even know that the law was in force.

"That would apply to every law that we pass" remarked Mr. Fielding. "The tax was approved."

## MURDER CAMPAIGN STILL CONTINUES

### South Armagh the Scene of Further Slaughter and Attempts at Incendiarism.

Belfast, June 20.—The murder campaign continues in South Armagh. The body of a man, aged about thirty, was found this morning on the bridge near Coraghwood where the Great Northern railroad branches to Newry. A religious emblem on the body indicated that he was a Catholic.

Incendiaries entered the premises of an oil merchant in Cross street, Belfast, early today and sprinkled gasoline about the place. They were interrupted by the approach of a police patrol, however, and fled. One of them, who showed fight during the pursuit, was shot by the police and mortally wounded.

It was announced today at Clones that the blockade on the frontier in this section had been raised. For the first time in three months traffic of all kinds is being permitted to pass. The special constables have drawn back from the border line, thus avoiding the danger of friction.

## GERMANS TOLL TO ACT PROMPTLY

### Belgium Demands They Redeem 5,000,000 Marks Issued in Exchange for Belgian Money.

Brussels, June 20.—Premier Thunys of Belgium today gave the German delegation here forty-eight hours to accept or reject the proposed arrangements for the redemption of the 5,000,000 marks the Germans issued during the war in exchange for Belgian money. He announced that if the Germans failed to reach a decision, Belgium would immediately begin the liquidation of accumulated German property.

POLITICAL ASSOCIATES OF HON. W.S. FIELDING PAY TRIBUTE TO HIS WORTH AS A CITIZEN

Yesterday Marked the Fortieth Anniversary of the Finance Minister's Entry into Political Life and On That Occasion He Was Presented With a Loving Token by His Conferees.

Ottawa, Ont., June 20.—(Canadian Press)—Before the House met this afternoon, Liberal members of the House gathered together to pay tribute to Hon. W.S. Fielding, Minister of Finance, for his forty years of public service in public life.

GREAT RESPONSIBILITY RESTS WITH WOMEN OF CANADA FOR GREAT FORWARD MOVEMENT

(Continued from page 1.)

The Superintendent's report, presented by Miss Elizabeth Nutter, showed that the receipts from 64 branches during the year amounted to \$14,472.02, and the expenditures to \$10,717.13, leaving a balance in the treasury of \$3,754.89.

Miss MacDougal spoke of the cooperation with the Department of Health, and the assistance given in the rural districts, as far as contagious diseases are concerned.

REPORT OF C.N.R. G. T. EMPLOYEES SYSTEM SHOWS SLIGHT DEFICIT

It Also Reveals the System in Better Condition Than Ever Before.

Toronto, June 20.—The annual report of Canadian National Railways was issued this afternoon. For the first time it co-ordinates the C. N. R., I. C. R. and the G. T. P., and comparative figures for the co-ordinated roads are given for the first three years.

For Thin Waists and Sleeveless Gowns

A soft, certain method for reducing the skin of any body part is to use... This is entirely harmless and seldom requires treatment.

Graduates From Rothesay School

Fourteen Students Were Successful—Address by Dr. Hibbard at Closing Exercises.

A class of fourteen was graduated from the Rothesay Collegiate School at the closing exercises which were held at the School Hall at Rothesay at 4 o'clock yesterday afternoon.

Reprived

The reprived of Captain Ronald True, convicted slayer of a London music-hall girl, has stirred British political circles.

Carleton County Council Meets

Dr. Ferris Appears Before Councillors Relative to Hospital Bills Against County.

Special to The Standard. Woodstock, N. B., June 20.—The semi-annual meeting of the county council commenced today.

Apology Made to Halifax People

Outbreak Against Navy League Executive Repelled by New Dominion President.

Halifax, N. S., June 20.—The Halifax executive of the Navy League of Canada, headed by F. K. Warren, who recently resigned from offices following a slighting reference to him by the Halifax, N. S., branch of the League.

Griffith Strong Leader at Polls

Panel Pro-Treaty Candidates Elected in Constituency of Cavan.

Belfast, June 20.—The election result in Cavan showed Arthur Griffith, president of the Dail Eireann, a strong leader in the polling.

Knowles Board IS IN DISFAVOR

Calgary, June 20.—Both coal mine operators and the miners express dissatisfaction with the Knowles Board.

By-Law Matters IN POLICE COURT

Seven by-law matters constituted the chief items of business dealt with in the police court, yesterday morning.

Children Cry for Fletcher's CASTORIA

Fletcher's Castoria is strictly a remedy for infants and children. Foods are especially prepared for babies.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Peppermint, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance.

GENUINE CASTORIA ALWAYS Bears the Signature of

# MEMBERS IN ASSOCIATION IN FORCE AT ST. ANDREW'S

(Continued from page 3)  
Canadian Chamber of Commerce,  
London.

The Association has been asked to endorse the work of the recently organized Canadian Chamber of Commerce in London, England. Your Committee has made a careful investigation and has no hesitation in recommending that the Hon. P. O. Larkin, Canadian High Commissioner in London, be requested to act as Honorary President of the organization.

The Association has been asked to make an annual grant of \$10,000 to its support. Your Committee could not see its way to making such a large amount, but it is felt that the work of the Chamber is worthy of some assistance. Your Committee therefore recommends that the incoming Executive Committee endeavor to arrange for some measure of financial assistance, possibly by circulating the figures being made known to those who are interested in exports to Europe to make individual contributions.

held at Divisional, Ottawa and branch offices with a total attendance of 1,360.

122 meetings with a total attendance of 9,068.

**Correspondence**

Owing to the great area of this country it is only occasionally that the majority of members can visit the Head, Divisional, Ottawa and Branch offices of the Association and consequently the services of the Association must be carried to the members largely by correspondence. During the past year the Association has issued bulletins, circulars and post card notices covering a very wide range of subjects. The totals are as follows:

Issued by Head Office ..... 845,800  
Issued by Division, Ottawa and Branch Offices ..... 53,890  
499,690

The following list indicates some of the more important circulars issued:

Sales Tax, and Amendments.  
Legislation Respecting Marketing of Goods.  
Changes in Customs Act of Canada.  
Wages in Industrial Countries.  
Made-in-Canada.  
Company Cases.  
Parliamentary Legislation, 1921.  
General Reduction in Freight Rates Effective December 1st, 1921.  
"Good Will" Donations and Advertising.  
Taxation of Unlicensed Insurance.  
The West Indies.  
Coal Legislation in the United States.  
Budget, 1922, Taxation and Tariff Changes.

For the past fiscal year the Head, Division, Ottawa and Branch Offices have handled a great number of dictated typewritten letters, both incoming and outgoing, the figures being approximately as follows:

Income Outgoing  
Head Office ..... 41,500 \$3,845  
Divisions, Ottawa and Branch Offices ..... 21,000 \$1,228  
Total ..... 62,500 \$5,073

From records taken for the Head Office alone, over a set period, it is evident that approximately 60,000 incoming calls were made over the telephone, and the records also indicate that the Head Office staff gave approximately 15,000 personal interviews to members and others who visited the office during the year. Many visitors from other countries and our offices throughout Canada points of call.

In conclusion, your Committee begs to express its thanks for the loyal support which has been given it by the members during the year.

All of which is respectfully submitted.

W. S. FISHER, President.  
J. E. WALSH, Gen. Manager.  
J. T. STIRRETT, Gen. Secretary.

**Industrial Canada**

Industrial Canada has been handicapped during the past year by the printers' strike which began June 1st, 1921.

During the greater part of the year it was necessary to have parts of the magazine printed in several plants, one of them outside Toronto. However, the publication appeared with reasonable regularity and the July issue will be produced under normal conditions.

Special departments for the news of each of the five divisions has been an editorial development of the year, and recently a section has been printed in French. The amount of news writing out of the activities of the Association is steadily increasing, and a summary is presented each month for the information of our members.

Special effort has been made during the past year to secure from a large number of our members their views on business conditions, and this has been a valuable addition to the journal. The "Annual Review" of the January Number and the reports on increased industrial activity in the March issue demonstrate the success of this policy.

In spite of adverse conditions in some of the industries from which Industrial Canada derives much of its material, advertising has been maintained at a creditable standard, as the Treasurer's report shows, and with a rising business conditions the coming year is faced with confidence.

**The Canadian Trade Index**

"The Canadian Trade Index," the last edition of which was brought out in 1920, is now being revised under the direction of the Commercial Intelligence and Publishing Committee, and will be ready for distribution early in 1922.

The index performs a most valuable service in developing and facilitating the buying of Made-in-Canada goods both at home and abroad and should have the support of our members, who can assist in the information required by the editorial department for classification and also by making use of its advertising pages.

**Library**

The library maintained at the head office has been considerably extended and improved during the past year. It contains approximately 15,000 books, pamphlets and reports and 800 volumes on legislation. In addition to the bound volumes, over 100 magazines, many of them technical, are received regularly, also the chief daily and weekly newspapers. We take three press clipping services, one from New York, which furnishes clippings from the United States publications; one from London, which provides United Kingdom clippings; and one from Toronto, which supplies Canadian clippings. The Association subscribes to the chief daily newspapers published in the territory of each Division and its Divisional Secretaries read these papers and forward clippings to the head office for the attention of the Departments concerned.

The library passes all magazines, clippings, and journals to the Departments as they are received and thus keeps them in touch with current events in which they are interested. The conference department files away material likely to be of future use, and this is available not only to the staff but also to our members at any time upon request.

**Trade Sections**

In the past two or three years there has been an increasing tendency for the trade sections to function through the Divisional Offices. Last year, 434 meetings of 76 different groups had been held, distributed as follows:

Toronto	193 meetings	39 groups
Montreal	145 "	31 "
Quebec	63 "	11 "
Victoria	63 "	8 "
Hamilton	13 "	1 "
Windsor	9 "	2 "
Ottawa	9 "	2 "
Amherst	8 "	2 "

In the previous year there were 384 trade section meetings. Thus last year showed an increase of 50 meetings. With few exceptions those who attend these meetings are located within their respective Divisions. Reports of these meetings are centralized in the Head Office, so that co-operation may be developed where necessary, and there have been many instances where prompt action has been facilitated through the co-operation of groups in different Divisions.

**Total Meetings**

The value of the Association to members depends on how much they use it. That members are using the services of the Association is shown by the number of meetings held during the past year which are summarized as follows:

237 General Committee and Trade Section meetings held at the Head Office with a total attendance of 1,360.

122 meetings, Ottawa, Committee and Trade Section meetings

**Company Licensing Cases.**

One of the difficult questions arising under the British North America Act has been that concerning the right exercised by provincial governments to exercise jurisdiction over companies incorporated by the Dominion Government.

While the recent decision of the Judicial Committee of the Privy Council in the Great West Saddlery Company vs. the King, and the various other cases consolidated therewith (involving about seventy-five companies which were doing business in Canada under Dominion charter and were taxed by the provinces in which they operated) throws an additional light on this question, it does not establish that the provinces have no right by any provincial legislation to interfere with the operations of Dominion companies. An attempt to do this has been made in several provinces by statutes requiring Dominion companies to take out provincial licenses before doing business in Canada, and carrying on of business in case of default. While it is conceded that the provinces may impose a tax on all companies doing business within their respective limits, there can be no discrimination in this respect between provincial and Dominion companies.

Since the judgment of the Privy Council was handed down on 25th February, 1921, seven provinces in all have enacted amendments to their provincial acts to square with the findings of the Judicial Committee, namely Ontario, Quebec, Nova Scotia, New Brunswick, British Columbia, Saskatchewan and Alberta.

The Ontario Government has now announced the terms on which licenses-in-mortmain may be issued by the Lieutenant-Governor-in-Council to any corporation to acquire and hold land in mortmain in perpetuity or otherwise.

Fees for licenses-in-mortmain are based on the value of the land owned by the corporation for the purpose of carrying on business in the Province of Ontario.

Following upon negotiations by your Legislation Committee, the Ontario Government has agreed to take the initiative in convening an inter-provincial conference in the course of the

### On The Street Line

City Council Asked to Cooperate in Observance of Health Week.

The City Council held its regular meeting yesterday morning at eleven o'clock, at which some of the commissioners wished to attend the anniversary of No. 1 Salvage Corps.

The report of the committee of the whole, as published yesterday, was adopted.

A petition from F. W. Kelly for permission to move a gasoline tank to the edge of the curb in front of his property, 19 Leinster street, was referred to the Commissioner of Works.

A communication was read from Dr. J. R. Campbell, K. C., advising that the DeBury estate would grant an easement for a sewer at Newman Brook. A copy of a proposed agreement was attached.

The Mayor read from the proposed agreement a clause which set out that the city would be liable for damages to property which might be erected above the sewer, should the city agree to interfere with the buildings in making repairs to the conduit; further, that the damages should be determined according to the Arbitration Act. The Mayor opposed the clause and said that no buildings should be erected over a sewer. He referred to a Massachusetts case in support of his contention.

Com. Frink replied that he was sure that a roadway would be extended along the line of conduit. He moved that the communication of Dr. Campbell, together with the document attached, be referred to the Mayor and the city solicitor, Dr. J. B. M. Baxter, K. C., for a report.

A letter was read from the Health Week Committee, Royal Sanitary Institute, London, requesting co-operation in the observance of Health Week, Oct. 8 to 14. Referred to the Commissioner of Works.

A claim of B. Dungey, Kennedy street, for damages on account of blasting, was referred to the Commissioner of Works, with power to act.

Commissioner Frink called attention to the proposed order-in-council which requires that the setting out of the street line is a condition precedent to the granting of a building permit. He advised that Mr. Brown has started construction of a house at the corner of Newman and Adelaide streets, and that the building encroaches three feet on the street. The concrete walls have been built and part of the superstructure has been erected. The commissioner said he was of the opinion that the permit was granted before the recent order-in-council requiring the fixing of the street line in advance of issue of the permit was passed.

The Mayor replied that in 1915 a similar order was put into effect. He said the building would have to be moved off the street line.

Adjourned.

### Awarded Contract

Lancaster Highway Board Gives Job to Lowest Tenderer—Work to Begin at Once.

Messrs. Wheaton and Company were awarded the contract for the concrete sidewalks in Lancaster, by the Highway Board last evening, after they had appeared before the Board and given a satisfactory bond and an Assurance that local labor would be employed on the job. Their price was \$127 per square yard and that of the next lowest tenderer was \$220 per yard.

The sidewalks are to be laid on Duke street, Prince street, Lancaster Avenue, Main street, and Mill street, Fairville, and work will be begun the first of next week.

The money for this work has been loaned to the parish by the Municipal Council, to be repaid in two years time. The loan was authorized at a special meeting of the council, on the understanding that legislation for a bond issue would be passed at the next session of the legislature.

## Weddings

**Moyn-Benham.**

A very pretty wedding was solemnized at three o'clock yesterday afternoon in St. Mary's Church, when Rev. R. Taylor McKim united in marriage Miss Laura May, daughter of Mrs. May and the late Charles Benham, of Fredericton, to James Albert Moyn, son of Miss Moyn, of this city. The bride was given in marriage by J. R. Hopkins of this city. Following the ceremony, Mr. and Mrs. Moyn left for a short trip on the St. John river, and on their return will reside at 54 Elmwood street.

## Obituary

**Mrs. Rebecca Tool.**

Friends of Mrs. Rebecca Tool, 80 St. James street, West End, will regret to learn of her death, which occurred at about 11 o'clock yesterday morning at her home, following an illness of about two months. Mrs. Tool was the widow of John H. Tool. She was 87 years of age and had been a resident of West St. John for about forty years. She leaves two sons, Ernest H. and W. Harold, both of the West Side; two daughters, Mrs. Geo. W. Cummings and Mrs. Edward Ramsay, also of the West Side; three brothers, William Marshall of Toronto, David M. Marshall of Little River, and Jas. C. Marshall of McAdam; and two sisters, Mrs. Harry Gillies of McAdam and Mrs. George Mitchell of Old Loch Lomond Road. They will have the deep sympathy of many in their great loss.

## Funerals

The funeral of Charles J. Hagarty took place yesterday morning from his late residence, Mill street, Fairville, to St. Rose's Church for high mass, at 9 o'clock, by Very Rev. Dean Charles Collins. Interment was in Holy Cross cemetery. The floral and spiritual offerings were very numerous.

The funeral of Mrs. Jas. Mudge was held yesterday afternoon from her late residence, 63 St. David street, to the Cathedral for service by Rev. R. McCarthy. Interment was in the new Catholic cemetery. Floral tributes and spiritual bouquets marked the sorrow of friends in her death.

## ENJOYABLE CONCERT GIVEN LAST NIGHT

The concert given last evening in the vestry of the Waterloo street Baptist church was well attended and those present enjoyed to the full the program of songs and instrumental music. The conclusion of the programme ice cream and cake were served by the ladies of the church.

Following is the programme: solo Miss Bortie Campbell; reading Mrs. Coggins; solo Miss Edith Magee; dialogue, "Almost a runaway," Miss M. G. Hurdson; solo Miss Southouse; Miss Ethel Parrie; monologue, "A woman in a shoe shop," Miss Laura Parrie; solo, J. W. Mott; recitation, "The Old Man," Miss Southouse; reading, Fred Coggins; God Save the King.

## A HUNDRED DOLLARS WORTH FOR THIRTY FIVE CENTS

When you are awakened from a sound sleep by cramps, when without a moment's warning pain springs upon you, it is then you would readily pay a hundred dollars for the quick relief you could secure from a thirty-five cent bottle of trusty Old Nerviline. Nothing like Nerviline to relieve cramps, stomach gas, diarrhoea and kindred ills. Nothing better for throat, neuralgia, cold in the chest and sore throat. The price of Nerviline is thirty-five cents, no more, no less, in all stores where medicines are sold.

## FEELING FINE

—A few days ago though, I felt pretty miserable—kind of tired and drowsy. I must have been very much run down, until someone recommended—

DR. WILSON'S HERBINE BITTERS

An old fashioned, natural preparation made from Dandelion, Mandrake, Burdock, and other purifying herbs, which tend to relieve Dyspepsia, Jaundice, Liver Complaints and Constipation. It purifies, enriches the Blood and builds up the whole system. It cures a bottle and get back that puppy feeling you need to have.

50c a bottle. Family size four times as large \$1.00. Try a Bottle.

### SOVIETS FACING STERN TEST OF COMMUNISM IN PRACTICE

#### Prospective End of Food Shortage Throws Russia Once More Upon Her Own Resources.

By GARDNER L. HARDING.

In Christian Science Monitor. The recent statement of Col. Wm. N. Haskell, head of the American Relief Association in Russia, that the Volga food shortage had been conquered is a great tribute to America, but a still greater blessing to Russia. Although America's initiative and generous hands of Russian volunteer workers to every American relief official, a third of the funds were contributed by the Russian state itself, and the Soviet Government turned out to be sincere and exemplary.

Merits Must Decide. Friends and foes of the Soviet regime will rejoice alike over the prospective end of the emergency, for now Russia's experiment in Communism must stand on its merits alone. If we take the statements of Tchitcherin and his associates at Genoa as their face value with the highest possible assurance. What are the facts which give them this assurance?

Undoubtedly it is the utter failure of the unfortunate series of foreign-aided expeditions and counter-revolutions to cost them. The Soviet Government has defended Russia and it has reaped a prestige in the world which will last for years. Secondly, the Red Army, the heritage of that defense, now numbers over 7,500,000, according to Trotsky, and is probably the one really efficient piece of human organization in Russia today. Thirdly, the autocratic system of the Soviets, a shadow of group control based on a stern dictatorship, and the working power of the Government shall remain in the hands of its present possessors, and to this end the government's control of food as well as of the army, makes opposition to its policy as hazardous and fruitless an undertaking as any rebel ever faced in the world's history. Finally, the Russian people have been sustained through their recent extremities by a visionary impetus which, however ill-founded and howsoever costly in excess, has carried the nation through a winter of troubles whose origin nine-tenths of the people have barely understood.

Collapse Possible.

In spite of these things there is plenty of reason for the attitude of the American State Department that Soviet Russia is as near collapse today as it has been at any time since last year's statistics on foreign trade have just been published reveal that in 1921 Russia's exports were only one-seventh of what they were before the war; while her imports, amounting to nearly one-sixth of the pre-war total. The non-revival of Russian trade and the persistent arrogance of the Soviet negotiators have induced Sweden, whose Socialist government has long been one of Russia's most tolerant and hopeful well-wishers, to throw overboard the treaty which she had signed. Undoubtedly, the Soviet negotiators hoped to bring the Swedish treaty into the Hague Conference as a model fait accompli, and its loss is a severe check to the trading treaties from England, Italy and Germany, meanwhile, it should be remembered, are little more than arrangements by which Russia should be allowed to establish purchasing agencies in those countries, paying for commodities with gold.

Communism Ending. The question is not whether Russia needs the rest of the world more than the rest of the world needs Russia; it is simply to make a start somewhere in the rehabilitation of the Russian people that provides a security consistent with the standards of the bourgeois governments and that bankers who have the money to lend. That is the issue the world is facing at the Hague. America's isolation from that center of representation is formidable, and unless Russia will fall to pull herself together on her own terms, and express a powerful policy already affected by its antagonist toward a Soviet collapse.

Meanwhile, observers in Russia itself report that the Government has now yielded, by one self-sabotaging step after another, to the forces of private trade and men of private capitalist exploitation which are making the Communist regime at Moscow little more than a propaganda bureau. The co-operative societies have been largely restored. The "new economic policy" inaugurated by Lenin at the beginning of the year over the fervent protests of the party Jacobins, has started buying and selling in the big towns all over Russia on the old conventional model, and has actually created a small but hardy class of producers. It seems clear that peace is having its victories over Communism where counter-revolutions only dramatized and falsified the issue. The Russian doctrinaire leader attacked capitalism at the root to restore anything like an ordered life in Russia, they must revive trading in increasing by leaps and bounds all over Russia. From the permanent booths at the village fairs to the reviving urban shops, a network of merchandising has come into existence since January.

If this year's crops are productive, they will not amount, according to hopeful estimates, to half of Russia's normal needs. This is the background of the real Russia for which the Soviet delegates to the Hague and its self-appointed spokesmen and the steady change may reduce their arrogance much more materially than could their diplomatic adversaries across the table.

### INDIA TO HOLD ITS ELECTIONS IN SHORT TIME

#### Complications May Arise, But Outlook, on Whole, Justifies Some Optimism.

London, June 19.—The Indian debate in the House of Commons last night was less unresisting than most of its annual predecessors in that assembly, for the "non-co-operation" even if incomplete—has been introduced into this great country, Indian affairs can no longer be relegated to the obscurity of an official bureau. The story which was told of continued working of the experiment of endeavoring to enable 300,000,000 Orientals to govern themselves showed that many difficulties have arisen and that a large body of "non-co-operators" are still in opposition to the new system of rule. This system is admittedly transitional. Its development depends upon to which a further advance in the direction of complete democratic control can be made, without the risk of chaos at one time during the past year life all over India became so insecure that grave fears were felt as to what the future would be. Revolution and murder, arson and boycott threatened to prevail. The British authorities were much criticized for their slowness in restoring order by force. The eventual restoration of order by force, the British authorities have been followed by a lull in the disturbances. The main Indian question is now how best to utilize this lull to establish permanent tranquility to prevail. In the Calcutta excitement has been taken a religious trend. The Hindu-Muslim antagonism has been sharpened by the more advanced wing of Hinduism for an extension of the franchise and the introduction of complete popular rule. On the other hand so high does color feeling run that the difficulties between the new Indian Government and the white community in India have also to be taken into account. The course which the British Cabinet is endeavoring to steer is a middle one between extremism on either side and, for the time being at least, the situation has improved. The new Indian administration is proving more costly than the old and a serious financial deficiency has to be met. Indian elections which must shortly be held may also produce complications. Fortunately, both the autumn and spring crops in India have been abundant this year, which moves for the time being the ever-present shadow of food deficiency. The industries also are developing and the mills in Calcutta, Bombay, Ahmedabad and Cawnpore have all been making money. The serious strike of Indian operatives on the East Indian Railway which was one of the features of the non-co-operation movement, has ended, with the result that India's rich resources in coal are once more being put upon the market. The Indian outlook, upon the whole, therefore, justifies at least some of the optimism with which the British Government's statement last night was tinged.

### Radio Direction Control Achieved, Says Mr. Marconi

#### Further Freedom from Static Interference Is Desire of Wireless Expert.

New York, June 19.—"I have succeeded in reducing, but not in eliminating, static interference in wireless transmission," said Guglielmo Marconi today in a talk with a representative of the Christian Science Monitor aboard his yacht Elettra. "Great progress has been made toward a solution of the problem, which you understand is an atmospheric one; but please do not imagine that the difficulties are all disposed of yet. I have been quoted as saying that wireless transmission has reached such a state of development that all undersea cables can be scrapped, or something of that sort. 'Pay no attention, I beg of you, to that kind of nonsense, but give heed to one or two things we actually have done. 'Large numbers of tests have been made for increasing the speed of transmission, and these have been successful. And when I say speed of transmission, I do not mean the speed with which a message travels through the air. That, of course, is so rapid as to need no hastening on our part. What I refer to is the practical speed of operating the wireless and getting messages through. We have increased the speed of receiving up to 100 words a minute, whereas formerly we could take but 50 or 60. 'We also have carried out experiments with a system whereby we transmit messages in one direction only, instead of sending them all around. 'The interviewer asked if the illustration of a stone thrown in the water, causing ever-widening circles, was not I do not mean the practical speed of operating the wireless and getting messages through. We have increased the speed of receiving up to 100 words a minute, whereas formerly we could take but 50 or 60. 'We also have carried out experiments with a system whereby we transmit messages in one direction only, instead of sending them all around. 'That's it," replied Senator Marconi. "We can send the messages now like a gleam from a searchlight. We can direct their course just where we desire. Suppose a station were here aboard this vessel," he explained, "and another were over there on the shore, (pointing out of the cabin window) the New Jersey side of the Hudson River. A message goes from here to there without spreading. That now has been achieved up to a distance of 100 miles. 'It has been tried in England, although not elsewhere. That is a subject upon which I shall talk in an address before a gathering of New York engineers Tuesday."

### INDONESIA GENERAL CHEN'S FORCES IN CANTON; VICTORY FOR NORTH

#### Dr. Sun Yat-sen Seeks Safety Aboard Gunboat and Army Is in Precarious Position.

Peking, June 19.—(By The Associated Press)—The two greatest obstacles to the union of China, namely Dr. Sun Yat-sen and General Chang Tso-lin, apparently are eliminated and the prospect for bringing the whole republic under one government seems brighter today than at any time since the establishment of the South China regime at Canton in 1918. Dr. Sun Yat-sen, head of the South China Government, has fled from his capital, according to official notices received today. The forces of Gen. Chen Chung-ming have occupied Canton and Dr. Sun has sought safety aboard a gunboat. General Chen is understood to favor the plans of provisional President Li Yuan-hung and Gen. Wu Pei-fu for assembling a constitutional All-China Parliament here. Indores General Wu. General Chen, one of the most powerful of the southern military men, joined 13 provincial military governors last month in endorsing General Wu's call for the assembling of the Parliament. Only a few days ago Dr. Sun offered him the command of all the southern armies, for his support against the Peking Government. At Canton, Dr. Sun's principal army is in a precarious position. These forces are facing 12,000 of General Wu's troops at Nanchang in Kiangsi Province, while the hostile army of General Chen occupies their base at Canton. Complications in Manchuria. General Chang Tso-lin, the Manchurian leader, while not wholly eliminated, is in a conciliatory mood as a result of his recent defeat by General Wu's Chihli Army on the Chihli-Manchurian front. The opposing commanders on that front are reported to have boarded a British warship at Chinwangtao to arrange an armistice. The situation in Manchuria has been further complicated, apparently by the proclamation in an assembly of the provincial government for each of the three Manchurian Provinces. Dispatches said the assembly had appointed Gen. Chang Tso-lin commander-in-chief. It was represented as the purpose of the assembly to give Manchurian provinces separate administration, but to consider them still a part of China. Dr. Wellington Koo, Minister to Great Britain and formerly Minister to the United States, today was appointed by President Li Yuan-hung, to head a commission that will investigate China's financial condition with a view to reorganization. Men are different. Husbands are alike.

### DO YOUR EARS BUZZ? HAVE YOU HEADACHES?

When your ears ring, your head aches, and you seem slightly hard of hearing, beware of Catarrh. Mr. J. A. Hammill writing from Greenmount, P. L., was similarly troubled and writes that I had for years. It caused partial deafness, bad taste, upset my stomach, made me sick all the time. "Catarrhone" cleared my nostrils, stopped the cough and gave me a clear feeling in my breathing organs. I am now absolutely well, thanks to Catarrhone. Nothing so certain as a Catarrhone Inhaler to strengthen a weak throat, to rid you of Bronchitis, to drive out Catarrh, coughs and colds. Sold everywhere, 25c, 50c, and one dollar for complete two months' treatment. Dealers, The Catarrhone Co., Montreal.

### No Job for a Bachelor

"Soon every copper'll have to show a diploma from a masher school to make the force!" says Captain John Higgins, New York, who leads the care of the lost kids at Camp.

### ETHICS OF "BIG BUSINESS" DEFENDED BY JUDGE GARY

#### Corporations and Individuals Similar, He Said, With Highest Ethics Making for Greatest Success.

Evanson, Ill., June 19.—Robert H. Gary, chairman of the board of the United States Steel Corporation, in an address at Northwestern University today discussed "Ethics in Business." "During the last decade the world's structure of civilization has been threatened, assaulted and damaged, even to its foundations," Judge Gary said. "At times faith in a merciful and self-wise Providence has been the only perfect assurance of safety. We are emerging from under the clouds of doubt and fear into the sunlight of hope and confidence, and with feelings of gratitude we may calmly survey our somewhat battered institutions in order to determine what, if anything, can be done to repair and restore them and make them firmer and stronger than ever before. "Our country is doing and will continue to do its part, and every citizen has a personal responsibility and must share in the work of reconstruction and readjustment. "Business is no more exempt from moral turpitude than any other profession. As compared with individual enterprises, corporations are no better and no worse. Attitudes and results depend upon the management by individuals. The degree of merit or moral turpitude only is involved. "Nations disregard ethics. "And the disregard of ethics by great nations has been especially noticeable during the few years last past. The treatment of international compact and established forms and modes of procedure as mere scraps of paper or as inapplicable to exigencies, the unnecessary destruction of military forces temporarily victorious, the needless delay in promptly fulfilling agreements to compensate; in short, the apparent indifference to laws—all these furnish a deliberate intention to violate moral ideals. "Miscellaneous by a few injuriously at the reputation of large numbers of others, and for this reason professional men—lawyers, doctors, and even clergymen—have been assailed as dishonest and unworthy, sometimes without discrimination, by the thoughtless or incompetent. The same is true of industrialists and all others, regardless of their vocations. "Business: The Higher Plane. "And it may be asserted with absolute confidence that within the last 20 years or more there has been a decided change in the standards and conduct of business. Handicrafts upon hundreds, yes, thousands upon thousands of business men, all over the country, who 20 years ago believed that the subject of ethics had little if any, rightful place in business conduct, now assert, and insist, that it is essential and controlling. Business throughout the United States is today transcended on a higher plane than ever before. The world is surely growing better. "The subject of ethics had little if any, rightful place in business conduct, now assert, and insist, that it is essential and controlling. Business throughout the United States is today transcended on a higher plane than ever before. The world is surely growing better."

### MASONS WARNED TO AVOID THE KU KLUX KLAN

#### Grand Master Denounces False Claim That Klan Is Allied With Masonic Body.

Masonry in Massachusetts is warned by Arthur D. Prince, Grand Master, to have none of the Ku Klux Klan, which, he says, is being organized in the several lodges of the State is couched in language unusually emphatic and direct for official Masonic documents, thus indicating the depth of the thought of the first Freemason of Massachusetts on the subject. Mr. Prince declares that this society, alleged to consist of night-riders and self-appointed law enforcers is un-Masonic utterly and that the propaganda intimating that Masonry is secretly in sympathy with the movement is entirely false and malicious. He indicates that there is no Masonry in Masonry forbidding membership in the Klan or any such society, but plainly states that no Mason, mindful of his obligation, can belong to such an organization. The text of the official communication to the lodges of Massachusetts follows: "Every member of this fraternity knows that one of the great fundamentals of Freemasonry is obedience to and respect for the majesty of the law. "When our fathers wrote Masonic precepts into the constitutional law of this republic, they declared that every man was guaranteed 'life, liberty and the pursuit of happiness.' They also declared that every man was entitled to the protection of the law and could not be punished for crime except after due trial by a jury of his peers under duly constituted authority. They also declared that men could not be tried by the law without interference. "Freemasonry believes that any organization which does not uphold these principles is un-American and un-Masonic. "Within recent months we have heard a good deal about an organization called the Ku Klux Klan, the principles and financial foundations of which were quite thoroughly exposed in a congressional investigation, from which we learn that the objects of the Klan are political, sectarian and racial. As a grand lodge, we would take no interest in this organization but for the claim made by its officer and organizers that its membership is largely Masonic and that it has Masonic approval and support. This statement is absolutely false, as the Klan has no connection with and neither does it have the support of any Masonic jurisdiction. To the contrary, in jurisdictions where the Klan has been active grand masters have repudiated its claims in the strongest terms and some have issued edicts warning their members against the Klan under penalty of Masonic discipline. "It was not supposed that an organization with such principles could gain a foothold in this Commonwealth, but from information I have received the organization is beginning activities here, making the same false claims Masonic sympathy. "You have placed in the hands of the Grand Master the honor and reputation of the Masonic fraternity in Massachusetts, and I should fall in my duty if I did not, without fear or favor, warn our membership against a movement which, if not thwarted in its inception, will prove derogatory to the reputation of the craft in a dangerous degree. "Without hesitation I declare the Ku Klux Klan an un-Masonic organization, utterly without Masonic support or sympathy. "Its avowed principles violate Masonic law at every point and it would be impossible for me to conceive of a Mason who could so far forget his Masonic teachings as to affiliate with an organization which advocates taking the law into its own hands, condemning men and women in secret trials, and imposing the punishment of the whip, the tar bucket or unlawful banishment. "How long will it be before the law-abiding people of this Commonwealth visit dire punishment upon those who forget or flout the sovereignty of the law? "This is not an edict against the Ku Klux Klan. We cannot prevent its trials, and imposing the punishment of the whip, the tar bucket or unlawful banishment. "We must protect the fair reputation of Freemasonry from being spotted by any connection, official or otherwise, with such an organization. No Masonic temple or apartments must be used for their purposes, and let every Mason who is tempted to join the Klan consider well if he can harmonize his obligations as a Mason with the principles of the Klan."

### MAGNESIA FINE FOR DYSPEPTICS

#### Neutralize Dangerous Stomach Acids Which Cause Indigestion.

The almost universal use of Magnesia by physicians and stomach specialists is due to the fact that it instantly neutralizes the dangerous stomach acids which cause nearly all digestive stomach trouble. With acid gone and stomach sweet, easy and painless digestion invariably follows. Old dyspeptics, whose indigestion and sour, weak and sickly stomach, have made miserable for years, find quick and lasting relief in this simple remedy, and are again able to eat what they please. A glass of hot Magnesia water after meals prevents all trouble. Prepare Magnesia water at home by dropping one teaspoonful or four tablets of pure Bisulphate of Magnesia in a glass of hot water. Any reliable druggist can sell you the genuine Bisulphate of Magnesia and stomach sufferers and dyspeptics who follow the plan and avoid the use of pepsin, charcoal, soda milk, drugs and stomach medicines will soon find that the stomach, relieved of irritating acid and gas, soon resumes its normal tone, and will do its work alone without the aid of artificial digestion.

### THE GUMPS—A TOUCHING LETTER FROM MOTHER

# THE STANDARD'S FINANCIAL SECTION

## Mexican Petroleum Star Performer On Active Stock Market

Extraordinary Operations of This Issue Regarded As Menace to General Market.

New York, June 26—Mexican Petroleum again was the star performer in today's active and strong stock market. It made an extreme advance of 1 1/4 points, with a net gain of 9/16, or a total of 23 3/4 points above last week's final price. At times, traders seemed to regard the extraordinary operations in Mexican Petroleum as something of a menace to the general market. Animations of a "corner" were scouted, however, the opinion still prevailing that the movement was mainly levelled against an extensive short interest.

Other oils in the foreign and domestic groups registered gross advances of 2 to almost 6 points and the independent steels were equally strong at a sudden burst of activity at higher levels for United States Steel in the final hour. Next to the oils, Studebaker was the leading stock, its net gain of 6 1/2 points to the year's high record being associated with rumors of increased or extra dividends in the near future. Baldwin was foremost among the equipments on its gain of 4 1/2 points, and the less prominent issues to show material advances include American Woolen, Tobacco Products, Mercantile Marine, preferred, and Mallinco. Rails lagged until the latter part of the day, when news of the extraordinary regular dividend on Great Northern hurried buying on that stock at a gain of 4 1/2 points. Northern Pacific advanced 3 1/2 points, and several cotton and trunk lines, especially Reading and New Haven, strengthened substantially. Sales totalled 1,060,000 shares.

Developments, which accelerated the day's upward trend, included a vigorous rebound in leading foreign exchanges, advances from the Middle West that steel and iron mills were run at 90 to 95 day capacity, and a declaration of initial dividends on Maryland Oil.

The money market followed yesterday's course, save for the free supply of 20 to 25 per cent at midday and private offerings of this character were reported at 2 1/2 per cent. The rally in international currencies carried sterling fully 5 cents above yesterday's lowest quotations.

## B. E. Steel Issues Leading Feature On Montreal Market

They Showed Strength and Fair Activity in Comparison With Other Issues.

Montreal, June 26—British Empire Steel issues were outstanding in today's trading in listed shares on the local stock exchange, showing strength and being fairly active in comparison with the rest of the market, which showed some improvement, although far from being active. The greatest weakness of the day developed in Ames-Holden, which was almost wiped off the list, being down to 1, a decline of 14 points. Two other issues touched new ground. The greatest advance of the day was 1 1/4, and was recorded by two issues, namely, British Empire Steel, common, which closed at 13, and National Breweries, preferred, at 90.

Crown Reserve was the market leader in activity, and closed at a new low of 11 off '06. Brazilian came second and was off 1-3 at 47 1/4. British Empire Steel, preferred, was third and was up a point at 34. Steel of Canada was also up a point at 73. In the papers, Abitibi was off 7-8; Brompton was up 3-4, as was also Laurinville. Price Bros. was unchanged. Spanish common was up a point and the preferred was up 1-2. Ogilvie, with only 35 shares dealt in, was off 5 points to 250. Detroit Railway was up 1-2, and Quebec Railway was up 3-4.

Bond trading dwindled below the \$100,000 mark, with only a few important changes. Total sales, listed, \$1,156; bonds, \$98,000.

## TRADING QUIET ON LONDON MARKET

LONDON, June 26—Trading was quiet and prices were steady on the stock exchange today.

## BAXTER AND HALE ARE REMANDED

Portland, Maine, June 26—Senator Frederick Hale and Governor Percival P. Baxter, were remanded by the Republicans by large pluralities in yesterday's primary.

## GAS BUGGIES—Practising What You Preach is a Different Thing Again.

I WAS SO MAD TODAY—THE CAR BROKE DOWN WITH ME SO I PLOADED THE GARAGE TO TOW ME IN—AND HOW MUCH DO YOU THINK THEY ASKED?

## Parachuted 24,206 Feet

After Lieutenant Leigh Wade, Dayton, O., had set a new height record for a month's bombing plane, his pal, Captain A. W. Stevens (right), jumped out and set a new parachute record by drifting 24,206 feet to the earth, lashed by a 120-mile gale.

## SCHOOLS WILL LOSE PUPILS UNLESS NEW LAW IS ENACTED

Congress Warned of Need for Prompt Action to Keep Children from Mines and Factories.

Washington, June 26—Schoolhouses will be emptied to provide thousands upon thousands of child workers in factories and mines during the coming year. Congress bears from all sides, and it speedily enacts a new child labor law or drafts a constitutional amendment.

Lack of compulsory education laws and adequate child labor laws in many states, particularly in the south, adds to the seriousness of the situation created by the Supreme Court's decision declaring the federal law invalid.

## Toronto Board Of Trade Quotations

Toronto, June 26—Market quotations—Wheat, No. 1 northern, 1.23; No. 2 northern, 1.24; No. 3 northern, 1.24 1/4.

## Montreal Produce

Montreal, June 26—Oats, Canadian Western, No. 2, 62 1/2 to 64. Oats, Canadian Western, No. 3, 61 1/2 to 62.

## Winnipeg Market Displayed A Most Stubborn Undertone

This in Spite of An Absolute Lack of Domestic or Export Business.

Winnipeg, Man., June 26—In spite of an absolute lack of business, either domestic or export, the local market today displayed a stubborn undertone, this being especially true of the wheat futures, and prices throughout the major part of the session were ranging higher.

## Price Trend In Bond Market Mainly Upward

New York, June 26—The trend of prices in today's bond market was mainly upward, but dealings were small and irregular.

## Cotton Market

New York, June 26—Cotton futures closed steady. Closing bids: June 22 1/2 to 22 3/4.

## Liverpool Cotton

Liverpool, June 26—Cotton futures closed steady. Closings: June 13.25; July 13.15; August 13.08; Sept. 12.97; October 12.87; Nov. 12.77; December 12.67; January 12.56; February 12.47; March 12.39; April 12.33; May 12.22.

## Dry Weather Reports Carried Advances In Wheat Prices

Market at Chicago Closed Unsettled With Net Gains Recorded.

Chicago, June 26—Dry weather complaints from Canada, and some sections west of here, had considerable effect today with bringing about an advance in the price of wheat.

## Trade In Raw-Sugar Futures Inactive

Demand for Refined Continues Active With Several Refiners Out of the Market.

## LONDON OILS

LONDON, June 26—Close: Calcutta linned 2.20, 50; linned oil 4.25; sperm oil 2.32.

## PRICES IRREGULAR ON PARIS BOURSE

Paris, June 26—Prices moved irregularly on the Bourse today.

## SAVANNAH TRADE

Savannah, Ga., June 26—Turpentine firm 1.08; sales 1.07; receipts 408; shipments 94; stocks 2,552.

## NEW ISSUE \$30,000 VICTORIA ST. BAPTIST CHURCH 7% BONDS

at 100 and interest to yield seven per cent. These bonds are first lien on property valued at \$100,000.

## J. M. ROBINSON & SONS LIMITED

MONCTON, FREDERICTON ST. JOHN.

## We Offer New Issue CITY OF Windsor, Ontario 5 1/2 p. c. Bonds Due 1945 To Yield 5.50 p. c.

Thomas, Armstrong & Bell, Ltd. Investment Securities 101 Prince William Street, St. John, N. B.

## FOR INVESTMENT WE RECOMMEND BONDS

Our list gives particulars of high grade bonds selling to yield 5.20 P. C. to 7 1/4. Ask for copy.

THE WEATHER

Toronto, June 20.—Pressure is low over the Southern States with troughs of relatively low pressure extending northwestward from Arizona to Alberta, and from North Carolina to Quebec. Pressure is high over the central portion of the continent and of the Pacific and Atlantic coasts. Showers are reported from some districts of Alberta, Saskatchewan and the Maritime Provinces, but weather in these provinces has been generally fair and warmer. Fair, moderately warm weather prevails elsewhere in the country.

Forecast
Maritime—Light to moderate winds, partly cloudy with showers in a few localities and much fog; stationary or a little higher temperature.

Northern New England—Cloudy and unsettled Wednesday and Thursday; moderate temperature; moderate east and southeast winds.

AROUND THE CITY

NEW SIDEWALK.
A start on the new sidewalk on Duke street, between Charlotte and Sydney, was made yesterday.

MADE GOOD RECORD.
S. Leslie Mitchell, son of Mr. and Mrs. J. Cecil Mitchell, Douglas avenue, has passed his fourth year in medicine at McGill, taking honors in pathology, obstetrics, clinical medicine and mental diseases.

LITTLE DAMAGE DONE.
A slight fire in a house at 300 King street West, owned by W. J. Cornfield and occupied by Abraham Craft, was put out by the West Side chemical engine yesterday morning before much damage had been done.

RECENT APPOINTMENT.
J. R. MacMillan was sworn in as a customs and excise examiner by C. B. Lockhart, Collector of Customs, yesterday morning. He will take up his duties on July 3. Mr. MacMillan is a returned soldier.

PATIENTS GIVEN TREAT.
The patients at the St. John County Hospital were given a decided treat last evening, when Mrs. Blake Ferris paid that institution a visit and sang a number of selections. The concert was thoroughly enjoyed by all, staff as well as patients. She was most acceptably accompanied by Mrs. McEneaney.

TO BEGIN SURVEY FOR NEW LINE.
A. E. Hanson, civil engineer, of Fredericton, has been engaged to make a preliminary survey for a proposed line of railway between Black's Harbour, one of Charlotte County's deep-water harbours, and the C.P.R. shore line division. The proposed line is expected to link up with the C.P.R. near Penfield.

HAMPTON CASE.
The prosecution closed its case on Monday, in the Hampton case before Magistrate Parlee, in the case against Ernest Ryan, charged with assault upon Mrs. Rose Garnett. The hearing was postponed until Friday morning, when the defense will submit their evidence. In the meantime, Ryan is out on his own recognizance to the amount of \$500 and two sureties of \$250 each. E. J. Honeberry of this city appeared for the complainant and F. Sproul for the defendant.

IN A HOLE.
When the fire department arrived on the scene in answer to an alarm rung in from box 51, about four o'clock yesterday afternoon, they found that their services were not required, as fire-diggers, as they were called. However, they discovered that a horse, owned by the Christie Woodworking Company, was in a hole, literally and figuratively speaking, near the company's factory on City road. The firemen extricated the animal from its predicament, and the "all out" was sounded within a few minutes of their arrival.

TWO CHEQUES AS TRAY.
On Monday afternoon, between the West Side ferry boats and the Colwell Fuel Company's, were two C. P. R. pension cheques. They were not yet returned either to the payees or the C. P. R. The banks have been notified not to cash these cheques, and the merchants of the city are warned, if the same are presented in payment for goods, to collect them and return to the C. P. R., without cashing for the perpetrators or presenting them. The cheques are C. P. R. white cheques, similar to the monthly wage cheques, and are issued in payment of pension for the month of May. Of these cheques No. 5664 is made out in favor of J. Baillie, and cheque No. 5630 is issued in favor of J. A. Kirkpatrick.

HARBOR COVERED WITH OIL.
Many complaints have been aroused along the water front because of the damage done by the large quantities of crude oil, which since Sunday have been floating on the surface of the water. Considerable damage has been done. It is said, to the fishing nets, and weirs, and newly painted boats have been badly dabbled. The wharves on both sides of the harbor have also been thickly coated with an oily muck. Harbor Master F. D. Alward stated that the presence of the oil was due to the sinking of an oil tanker at the MacAvity tanks, Courtenay Bay with 500 tons of oil, which have since floated to the surface. It has been stated that the engine fishing in the harbor has been ruined and actions may follow to recover damages. It is also claimed that the floating oil is serious fire risk.

INTERESTING ADDRESS GIVEN BEFORE THE CANADIAN CLUB

Canadian Trade Commissioner at New York Deals With Trade Problems Affecting Canada and the United States—Urges Development of Canadian Spirit.

At the noon-day luncheon of the Canadian Club held yesterday in Bond's, a large attendance of members listened with much interest to a highly instructive address by Frederick H. H. C. C. president of the club, introduced the speaker of the occasion. A small boy was once asked to give his definition of a friend, and he replied, "A friend is a person whom you have known for a very long time and still like." Perhaps this sentiment is the basis of Canadian-United States relations. One of the most potent factors in maintaining a proper understanding between the two peoples is the interchange of population. It is estimated that there are 3,000,000 Canadians in the United States and we should be happy that New Brunswick has found enough of her stock to make Massachusetts one of the most prosperous States in the Union. Indeed, I sometimes wonder whether anyone is ever born in Boston!

The present situation between the two countries brings very forcibly to our minds the value of trade as a contribution to economic stabilization as well as to understanding and good will. The United States is one of the natural markets of Canada. It is now proposed to set up a tariff in that country which will have the effect of almost completely shutting out Canadian goods. Already the existing United States emergency tariff which has been in operation since June last has shown a serious effect. In 1921 Canada's exports to the United States fell from \$52,000,000 to \$28,000,000, a decrease of nearly one-half. Although there was an average fall of 27 per cent. in prices in 1921, the reduction in volume of Canadian exports to the United States was approximately 45 per cent. as compared with the exports during 1920.

Regular Meeting of Y. W. C. A. Directors
Several New Members of Board Present—Reports Received from Conveners of Committees.

Several new members were welcomed to the monthly meeting of the board of directors of the Y. W. C. A., which was held yesterday afternoon in the recreational centre, with vice-president Mrs. A. E. Leslie, in the chair. Mrs. J. D. Hunter led the devotional exercises. The new directors present were Mrs. H. B. Peck, Mrs. Polly, Mrs. A. W. Estey and Miss Alice. Reports were read and greeted by these members added greatly to the interest of the meeting.

Mrs. John A. McAvity read letters from the headquarters of the association in regard to new workers for this district. The local branch is endeavoring to secure a new physical director and a new general secretary to replace Miss Littlefield and Miss MacIntyre. Mrs. J. Robertson gave the travellers' aid report, which showed that 288 trains and 21 boats had been met during the month; 115 persons had been sent to the depot, and 73 persons had been cared for at the transient home. The convener reported that travel had been very light during the month.

Mrs. E. C. Weyman, for the physical committee, reported that the months of April and May had been the busiest at the gymnasium. In connection with the gymnastic review at the Imperial, the committee reported that the expenses had been quite heavy, totalling \$470. The returns from the display, up to date, amount to \$1,083.30, leaving a balance of \$613.30, but these returns are not complete. The report also showed that a farewell party had been given by the gymnasium girls for Miss Kennel. Two hundred girls are at present taking part in the various activities, and there is 131 girls in the swimming classes. Mrs. Weyman said that week-end trips were becoming popular, and asked if the directors knew of any vacant summer cottages, where the girls could enjoy week-end trips. She also stated that the girls were enjoying the privilege of using the Gormain street Baptist church tennis court this year.

LEWIS MUST SERVE A SIX YEAR TERM
The culmination of the case against Charles Lewis, a former member of the local police force, occurred yesterday morning, when he appeared before His Honor Judge Armstrong, under the Speedy Trials Act, and was sentenced to six years without labor in the Maritime penitentiary at Dorchester. The charge against Lewis was that of theft of goods to the value of \$68 from the store of Steady and Co., Dock street.

TO INSPECT HORSES.
Officers commanding the units which go to Camp Sussex this summer will leave this morning, accompanied by Captain L. E. Donovan, of the C. A. V. C., to inspect and choose from a shipment of horses due there today.

No. 1 Salvage Corps 40th Anniversary

C. A. Clark, Only Active Charter Member, Presented With Gold Pencil—Excellent Programme Carried Out.

The 40th anniversary of the organization of No. 1 Company Salvage Corps and Fire Police, was fittingly observed yesterday by expressing the Log Cabin Fishing Club, Loch Lomond, where members of the Corps and their guests spent a very pleasant afternoon and evening.

After full justice had been done to the establish, Capt. MacRae, in a brief address, welcomed the guests and members of the Corps. He then gave a brief review of the history of the organization since it was organized in 1882, making special reference to Charles A. Clark, an ex-captain of the Corps, who was the only active charter member of the Corps. He then called Mr. Clark to the front and on behalf of the Corps presented him with a solid gold Everhart pencil, suitably engraved. Mr. Clark made a short address, thanking the members for the good wishes expressed in the gift. He made a short reference to old times in the Corps and expressed the hope that he would be able to continue in active service for many years to come.

Capt. MacRae then made reference to the departed members of the Corps and spoke particularly of the late John I. Robinson, who gave his life in an attempt to save a life during the fire in the Sydney Hotel. He called E. Percy Howard, secretary of the Corps, to say a few words about Mr. Robinson. Mr. Howard in glowing terms described the life of service lived by that gentleman, who had lost his life by going to the rescue of an employee of the Sydney Hotel when that building was burned some years ago. A toast was then drunk in silence to the memories of the departed members of the Corps.

The chairman expressed his regret at the absence of Mr. McLellan, who owing to a previous engagement was unable to be present, and called on Commissioner Frink to respond to the toast to the City of St. John. Commissioner Frink expressed his pleasure at being present and paid a well deserved tribute to the splendid work of the Salvage Corps in saving property during the forty years of its history.

Commissioners Bullock and Thornton made brief addresses, congratulating the Corps on its splendid history of achievement. Commissioner Wigmore, who is an member No. 1, referred to the prohibition of fishing in Loch Lomond, and expressed his belief that this was not the cause of contamination, and he stated that he intended to ask the Board of Health to restore the privilege.

Major R. A. McAvity, who was called on to respond to the toast to the guests, extended hearty congratulations to the Corps on their fine history. After the dinner an enjoyable afternoon was spent in sports. A game of baseball between the Orioles and the Red Sox resulted in a tie, each team making 9 runs. The batteries were Orioles, McLellan and Bartlett; Overalls, Christie and Stewart. The umpires were Charles Percy and G. C. M. Frink. Following this a golf game between John Tonge and Harry Ervin vs William Stewart and C. A. Christie was won by the former pair. The last on the list was a tug-of-war between the two teams and this caused a lot of fun for the spectators. Suitable prizes were given the winners in all these events.

An excellent supper was served in the evening, an affair of thanks had been passed to the Log Cabin Club for the use of their premises and to all who had assisted in making the party a success. The happy party returned to the city.

Among those present were: P. B. Holman, Fred Dolg, R. C. O'Connell, John H. Tonge, J. H. Thornton, Harry Ervin, T. H. Bullock, R. M. Robertson, Charles A. Clark, W. E. Campbell, C. A. Christie, G. C. PYREX

"Showers" are Quite the Thing
Beauty, usefulness and economy have combined to win for Pyrex Transparent Glass Oven Baking Ware its ever increasing popularity as a "shower" and wedding gift.

The perfect culinary results with Pyrex are due to the fact that Pyrex takes ALL the oven heat—takes it evenly and quickly, thus making for economy in fuel. Besides, you can watch the entire cooking process when baking dishes of Pyrex are used. The full Pyrex line affords you in our Household Department.

W. H. THORNE & CO., LTD. HARDWARE MERCHANTS

BARNES & CO., LTD.

The following have been the officers of the Corps from 1882 until the present: Capt. O. B. Hols, 1882-1883; Lieut. Peter Clinch, 1883-1885; Capt. R. W. Frink, 1885-1893; Lieut. J. Allan Turner, 1893-1895; Charles A. Clarke was captain from 1895 until 1902, and the following lieutenants served under him: 1895-1898, C. T. Lugin; 1898-1900, Geo. T. Lawrence; John I. Robinson, 1900-1901; James Stinchell, 1901-1902; H. L. Frink, 1902-1903; W. F. Shaw, 1903-1905, when he resigned on account of removal to Moncton, where today he is the captain of the Salvage Corps in that city. John I. Frink was lieutenant during 1902-1903. G. Herbert Green was captain from June, 1903, until his resignation for business reasons in December, 1906, when Chas. S. Robinson was lieutenant. During that period, R. W. Frink was again chosen as captain in 1906 and served until 1911, the following being lieutenants: Fred Dolg, 1906-1907; Fred Shaw, 1907-1911; Fred Shaw was captain from April, 1911, until his death in September 9, 1911, and his lieutenant was G. H. Tapley. The present incumbent, K. J. Tapley, was elected captain after the death of Mr. Shaw, and G. H. Tapley acted as lieutenant until 1921, when he was succeeded by G. C. M. Frink, the present lieutenant.

YOU OUTA ZEE MORE OF JACKIE COOGAN HE TAKEZ A BATH IN "MY BOY" IF HE EVER TAKEZ ANOTHER HE'Z GOIN TO USE "LIFEBUOY" JACKIE COOGAN

Col. Houlston Takes Over The Command

Assumes Office Today As Colonel Commandant of Military District No. 7.

The resignation of Col. Alexander Thomas Ogilvie, D.S.O., who succeeded Brig.-General Macdonald, as G.O.C. of M.D. No. 7, has been accepted by the Militia Department. Col. Ogilvie will sever his connection with his command today and Col. John Houlston, D.S.O., will take over, as colonel commandant of the district.
