Dominion Parliament.

So far there is no positive information as to the time when the first session of the seventh Parliament of Canada will be brought to a close. It is still dragging its weary length along, having been now nearly five months in session...

Personal.

Miss Emma Rand left last week on a visit to friends in Boston. Mr. Abraham Clark, of Woodstock, brother Mr. Thos. Clark, of Newcastle was in town last week on account of the dangerous illness of Mr. Clark who died on Thursday last.

Another Man's Nest.

The 'Advance' in reply to our remarks of last week in the Kent Election, in which we stated that the editor of that paper had been hired by Mr. Blair to do his dirty work, returns in its usual style of bluff and braggadocio as to its wonderful consistency, and charges that the 'editorial columns of the ADVOCATE have been sold for money to promote the election of a certain man and states that it had the proof. It is not many years ago that the editor of the 'Advance' was posted up throughout the county and province as a 'liar,' and has well earned the title of champion in that regard, and his latest attempt is but a pail with former attempts to injure. When his former master, who was purchased by a seat in the Senate to treacherously desert the party which had supported him and followed his lead in the Liberal interest, when he turned over in support of the government candidate was the consternation 'Advance' why advocating the election of a man it had abused in all the moods and tenses, and why, because he charged the editor of the 'Advance' with not fulfilling a reporting contract and then refusing to perform the work for which he had been paid, having indignantly drawn his pay beforehand. Yet at the bid of his master he turns over, deserts the party he was brought here and established here to champion, and of course he did it for love of the Liberal Conservative government and Mr. Adams. Of course.

And now Mr. Blair has got rid of Mr. Crockett, simply because his son is proprietor of the 'Advance' and for some time past has been in opposition to Mr. Blair's peculiar methods of running Provincial affairs to suit his own not the people's interest, and Mr. Blair would like to get rid of the son as he has the father and this is what he has tried to do, unscrupulously, unprincipled 'Advance' editor to endeavor to do for him, and for which Mr. Blair is to pay him Fourteen Hundred Dollars a Year, with all the pickings and stealings he can get besides, to conduct his Frederick organ.

This man who for years has sold his columns as a cooler for an illegal lottery, which is now being suppressed by the United States authorities after having swindled millions of dollars of the people's money, this is the creature who charges us with having sold our editorial columns for money, and professes to have positive proof of such sale. We have no hesitation in saying that he lies, and defying him to produce any such proof, but know he is quite capable of manufacturing any kind of statements which may suit his purpose at any time and hence he will not doubt produce some trumped up story to support his charge. We hope all subscribers to the paper will be especially on their guard, and we should be pleased to have the same settled forthwith. It takes cash to run a paper, and a man who is not a member of the party is not to be trusted. We are sure that the subscribers to the paper will be especially on their guard, and we should be pleased to have the same settled forthwith. It takes cash to run a paper, and a man who is not a member of the party is not to be trusted.

Newcastle Trotting Park.

Yesterday afternoon's races attracted a large crowd of persons to witness the contest. The weather looked threatening, but the races set down for yesterday drew the following entries:

Green Race, for horses owned in the city, prize \$50; General Jackson, Jennie L., Doctor, Long John, Electricity, Birdie C.

245 Class, prize \$125; Frank Topsy, Dearborn, Electricity, Harry Allright, Sir William Wallace, Jr., Birdie.

For Wednesday's races the following are entered:

3 Minute Class, prize \$85, Maggie G., Harry Simm, Topsy, Frank M., Meridian, Harry Allright, Birdie, Jennie L., Dearborn, Electricity.

Free for all, prize \$125, Sir Garnet, Ben M., Wildflower, Heck, Whistler, Troublesome.

At dark last evening the races were not over. Electricity entered by Hugh M. Johnston, was the Green Race.

Canada's International Exhibition.

The time is approaching when the above exhibition will be in full blast and attended by thousands of people, the opening being advertised to take place on Wednesday next, September 22nd, and will remain open to October 3rd. The horse fair will be a new departure and is expected to attract large numbers of purchasers. For some months past the secretary, entirely at his own expense, has been carrying on correspondence and issuing circulars and other matter inviting horsemen to send their animals to the city with a view to making sales. Advertisements of this kind have been placed in all the leading stock and agricultural journals of Canada, the United States and Great Britain. The aid of the High Commissioner was invoked, and the following letter, received through him, will be read with interest:

Horse Guards, London, Aug. 19, 1891. Sir.—With reference to the letter of the 22nd inst. in relation to the International Exhibition of Horses, etc., to be held at St. John's, New Brunswick, opening on the 22nd September next, I am directed to inform you that an officer of the British service will be directed by general officer commanding Her Majesty's forces in Canada to attend at the exhibition in St. John and report on the quality of horses shown there and their general fitness for service in the event of their being required for Her Majesty's service.

I am, etc., F. G. B. SULLIVAN, Inspector General of Remounts.

In reference to this matter Mr. Ira Corwell, the indefatigable secretary of the Exhibition, says:—The failure in the recent attempt to purchase horses in this country for the use of the English army, was attributed largely to the expenses of the agents in having to travel over so much ground to make their selections.

A Poor Outlook for Lobsters.

A correspondent writes: Prospects are beginning to look pretty bleak for the lobster packing industry next year. Prices have dropped in England over \$1.50 per case for ordinary stock, since July last, and many large shipments are still unsold. One dealer in N. E. Island who has about six thousand cases unsold in England cannot get a bid for these at all, so completely are the markets glutted. This is particularly unfortunate for many people on the shores who have made arrangements to erect factories, and pack fish next season.

There is little doubt but most of them will shut up the season much sadder but wiser men. The lobster packers of years gone by have had to suffer many ups and downs in prices and hundreds of them could not stand the pressure. Next season will surely bring a repetition and most of the small packers will lose all they put into the business.

With a pack as large next season as the present year's catch, prices will probably be under five dollars per case, which simply means ruin to packers of limited capital. [Pictou Standard.]

Death of Mr. James Girvan.

The Bathurst correspondent of the Globe telegraphed as follows to-day: "The community was shocked this morning on hearing of the death of Mr. James W. Girvan, agent of the People's Bank, Bathurst, who died suddenly on the 11th inst. of a heart failure. The deceased was thirty-five years of age. He had not been in good health for some time, being troubled with asthma, which developed into bronchitis. Mr. Girvan was a son of Mr. Wm. Girvan of St. John and a son-in-law of Hon. T. F. Gillespie of Chatham. The deceased was a general favorite with all who knew him. Great sympathy is felt for Mrs. Girvan and the children." News of the death of Mr. Girvan was conveyed to his father, the venerable Inspector of the Bank of New Brunswick, by the Rev. L. G. Macdonald. There is much sympathy felt with the family, and Mr. Girvan's old friends in St. John heard of his death with deep regret.—Globe 11th.

General Intelligence.

DESTRUCTIVE STORM. (Halifax Herald.) HALIFAX, N. S., Sept. 8.—Yesterday's weather was showery. There was a S. W. rain storm. Late in the evening a cyclone came on. At ten o'clock the wind was blowing thirty miles an hour, and all eleven must have been in the water. Much damage was done on land. The telephone service was completely demoralized: shutters, trees, chimneys, fences, etc., were blown down. The cyclone's greatest fury was felt in the harbor. The railway drawbridge at the Xarrows was lifted from its foundations and swept down the harbor. Its destruction is a serious loss to the I. C. R. and Dartmouth, as all freight and passenger trains going to and coming from Dartmouth have to be hung up. It will take a year to rebuild it. Four hundred feet of the grain elevator chute was blown down. Sch. J. L. Croley was sunk at the gas house wharf. There was \$1,000 insurance on the vessel. Sch. Fanny B. was torn from the fastening at the sugar refinery wharf and driven ashore. Sch. Salvador, also at the refinery wharf, had all her deck washed away. At the Lorne club the tiled mud machine. Bathing houses were swept away and all the small boats smashed. Yacht 'Lemore' dragged her moorings and ran down the Yacht 'Nautica', carrying away the latter's jibboom and forward gear. At the yacht squadron wharf the Wenonah and Youla came to grief. Both went ashore and are badly damaged. Yacht Hebe, moored in the Arm, broke loose and drifted ashore. There is a large hole in the bow.

As a result of the storm on Monday night, dispatches from various parts of the province report much damage. The schooner Flora Belle is afloat at Mabou. A dispatch from Ketch harbor says the storm played havoc with the schooner Josephine. This vessel's cargo was lost. The schooner Josephine was capsized and sank and a great deal of fish was lost.

An Annapolis dispatch says it was the worst storm known there for years. The fruit crop suffered severely. Many houses were carried away between Annapolis and Digby, and serious damage occurred along the Missing Link. Two schooners were driven ashore, Port George and the crew had a narrow escape from drowning.

A dispatch from Grand Pre says between 25 and 50 per cent of the entire apple crop in that neighborhood was blown down and the market will be flooded with fruit.

Many vessels were driven ashore at Annapolis, West Annapolis, Petit Digby and Besouasse. C. B. The sch. Reservoir was driven from Lower Desouasse across St. Peter's Bay and is a total wreck. The sch. Swan, Lottie M., Hardy, Heintzecher and Dupin were badly damaged at Annapolis and many boats lost.

During the gale at North Sydney the American fishing schooners Rapid Transit, and Eddy Arnold and the brigantine Perseverance and Halford were driven ashore, but all subsequently floated. Captain Fletcher and a young man named McKinley left Mastowwa for Cornwallis just before the storm, in their boat, which was wrecked and both were drowned. Fletcher was a well-to-do farmer. He was wrecked under

The Methodist Exclusion.

Nearly six hundred persons went to Fredericton on the Methodist excursion, Tuesday. The train made good time, reaching the Celestial City between 10 and 11, and got back to Chatham about 11. It was the big excursion of the season, and a decided success in every respect. The day was everything that could be expected. Tourists visited every place worth visiting. Some of our prominent merchants examined the parliament buildings to ascertain if our thought the City Hall was sufficient for our Legislative representatives, while some aspirant for legislative honors thought otherwise. He sat in the surveyor general's chair, while some of the men present suggested that perhaps after the next election he himself might be the occupant.—World.

But if you refuse to help mamma and answer by frowns and crosses, words, you leave an ugly picture in her memory, one that will give her sorrow and pain to look at afterwards.

When you are thoughtful enough to bring papa's wrapper and slippers when he comes home tired at night, when you help mamma when she is busy, whenever you are kind and loving, you are making beautiful pictures in papa's and mamma's memories.

Yes, indeed, Auntie, said Elsie, 'I wish I could always make beautiful pictures and never make any ugly ones.'

Don't all of my readers wish the same? water? This will absorb the noxious gases and prevent the offensive smell.

HOW TO SELECT FISH. The simplest way to discover if fish is in good condition and fresh is by the color of the gills and small.

KITCHEN FURNITURE. By kitchen furniture I do not mean chairs or table, but some of the labor-saving contrivances that should be in every woman's kitchen.

A Cough Remedy. Take one ounce each of thoroughwort, stick licorice, slippery elm and flax seed, add three pints of water, put all into a bright tin pail, put this in a kettle of boiling water and let the contents simmer for three hours, stirring every few moments.

From "Harper's Bazar." For canning or preserving choose always the very best fruit, it should be thoroughly ripe, but firm and not soft.

HOW TO SAVE DOCTOR'S BILLS. Never go to bed with cold or damp feet.

Never begin a journey until the breakfast has been eaten.

Never take warm drinks and then go out into the cold.

Never omit regular bathing, for unless the skin is in regular condition, the cold will close the pores and favor congestion or other diseases.

When hoarse, speak as little as possible until the hoarseness is recovered from, else the voice may be permanently lost.

Never stand still in cold weather, especially after having taken a slight degree of exercise, and always avoid standing on ice or snow, where the person is exposed to cold wind.

When going from a warm atmosphere into a cooler one keep the mouth always closed, so that the air may be warmed by its passage through the nose, ere it reaches the lungs.

Keep the back, especially between the shoulder blades, well covered; also the chest well protected. In sleeping in a cold room establish the habit of breathing through the nose, and never with the mouth open.—Medical Journal.

Some Growing Too Fast. become listless, fretful, without energy, thin and weak.

SCOTT'S EMULSION OF PURE COD LIVER OIL AND HYPOPHOSPHITES. OF LIVER AND BONES.

PARSONS' PILLS. Make New, Rich Blood! Preserves all four of pure fruit, after packing in layers with the sugar.

HOW TO PREVENT CABBAGE ODORS. When you boil cabbage put a good sized lump of stale bread in the

water? This will absorb the noxious gases and prevent the offensive smell.
