GRAND FALLS NEWS

George Hartt of Grand Falls Portage received the following message, on May 7: "Regret to inform you Pte. Owen Albert Hartt of the Mounted Rifles died of wounds in Ontario Military Hospital, Orpington, on May 6." Pte. Hartt was one of four brothers who have enlisted in the great struggle for Liberty and Justice. He was about 20 years of age and leaves an aged father and mother and two brothers and one sister at home, one sister married, and three brothers at the Front. He was a general favorite and much sympathy is felt especially for his aged and crippled mother in this sad time.

Fred Myshrahl, an aged resident, died on Tuesday of last week, aged 89 years. One son, Thomas, and one daughter, Mrs. Thibedeau, live in town and a son and daughter in the West. The funeral was on Thursday at the R. C. Church.

J. Lanahan, teller of the Bank of Montreal here, who has been so ill with typhoid fever at the hospital in St. Basil has gone to his home in Montreal for a few weeks before taking up his work again.

Mrs. J. G. Kirkpatrick and little son arrived in town Tuesday from Presque Isle and will spend the summer in her own cottage here.

Mr. and Mrs. Orrin Day moved up from Woodstock this week and are living in the I. Michaud house which the Day brothers have bought.

Mrs. Effie Tuck who has been in Limestone the past month is home on account of sickness.

Mrs. Stroup has moved from the Curless house to Mrs. J. C. Carruthers house, Chapel st.

W. F. McCluskey who has been quite ill with typhoid is able to be out again.

Mrs. J. Michaud has bought moved into the house owned by Miss A. A. Day.

Mrs. J. C. Carruthers who spent

the week-end in Fredericton and Gibson returned home Monday.

Mrs. Michaud who has been so very sick with fever is getting a little better.

S. C. Merritt is moving into the Connors house on Chapel st. this week.

Frank W. Mitchell spent Sunday with friends in town.

Scott Merritt left Tuesday for Bathurst on business.

F. Page is finishing his handsome residence.

Mrs. Carrie Walker is quite ill with La grippe.

E. McCluskey also has a dandy new car.

A. A. Dixon has a fine new Ford car.

John Wilfred Britton

John Wilfred Britton, a highly respected citizen of Woodstock, died at his home on Main st., April 30, 1917, from paralysis aged 77 years.

Mr. Britton was born at Wakefield in 1840 where he lived most of his life, a prosperous farmer of that section. Failing in health 10 years ago he retired and a year ago took a residence in Woodstock. He is survived by his aged widow, who was formerly Miss Helen Shaw, also one son, Burrell W. of Woodstock, two daughters Mrs. Maud McLean of Woodstock and Miss Frances Britton, a trained nurse of Portland, Maine; eleven grand children, also a brother, Benj. Britton of Littleton, Me., and a sister Mrs. Rainsford Orser, Bryant, Wash.

In religion, the deceased was a Baptist, for many years a deacon of the church at Wakefield. In politics a Conservative. The funeral took place from his late residence on May 2. Rev. J. D. Wetmore of Victoria was in attendance. Interment was made in the cemetery at Upper Woodstock. Four nephews, Percy, Clare and Harold Britton and Darius Downey were pall bearers.

Mrs. Allen Cummings offers for sale her fine, large, new dwelling, thoroughly finished with modern equipments. This is a bargain.

CENTREVILLE NEWS

This is clean up time and we would suggest that the citizens appoint a half holiday for everyone, stores, schools, work shops, in fact all citizens, and all go to work in a systematic manner and clean not only the backyards but the streets generally and everywhere that needs it, especially those places which are in public view. Let some one get busy and call a general meeting and organize for the "clean up" campaign.

Our new commissioner, W. B. Webb, has made a start on the roads and from present appearance is going to make a boulevard of the flat. There is a chance for lots of work on our streets and sidewalks and we hope the road money will hold out in good style.

The big snow storm last week made the roads bad again retarded farming operations for another week. The season is getting far advanced and farming will have to be done quickly when seeding once starts.

It is reported that Perry Fitzgerald of Glassville in about to move back to our village, having bought the G. W. White & Son store and stock.

A. A. H. Martison attended the Greater Production Convention in Fredericton last week.

Rennie Tracey and Sewell Trafford were visitors at Woodstock Saturday.

Ernest Burt and wife of Woodstock visited friends here last week.

Mrs. W. Wiggins is visiting her daughter, Mrs. Jas Scott at Andover.

Dennis Cronkite has moved to Avondale.

Purebred Improved Berkshire pigs are offered for sale by Shaw Bros., at Highland Stock Farm, R. F. D. 3, Hartland.

Carr's goods, bought last fall, before the late advances, are now coming in. Call and get prices and don't purchase elsewhere.

To the United States, \$1.25 a year, in advance.	

Subscriptions are not discontinued unless request is made by mail or in person, and all arrears paid. Subscribers will receive a statement of account when subscriptions become due.

Vol. VIII. MAY. 10, 1917 No. 48

George Herbert Drost

Memorial services for our Carleton county soldiers falling in battle are being held frequently enough these days to remind us how surely the fatal levy of the times is reaching even unto us. One such service was held in the Methodist church in Bath on April 15 in memory of Private George Herbert Drost of the 140th New Brunswick Infantry. Private Drost is one of the many Canadian boys who have been killed in action during the great Somme battle which is still in progress. This young man was one of the creditable contingent of men which have enlisted from Bath and vicinity at various times since the beginning of the war. He is the first to whom duty has brought death.

On Sunday the people of Bath repaired to the Methodist church to pay due honor to the soldier's memory. They filled the church, aisles and porch, many not being able to get in at all. Adequate arrangements had been made for the fitting recognition of Private Drost's service to our country. The auditorium of the church was tastefully decorated with flags and bunting, the chancel being filled with flowers. A program of appropriate music had also been provided and it added greatly to the impressiveness of the service. The Rev. Geo. A. Ross addressed the people from the text Matt. 15: 25—He that would lose his life for My sake, shall find it.

In the course of his remarks he voiced the tribute which all would utter to the service and memory of the dead soldier.

What matter it for praise or blame We only know he played the Game; Home beckons, and the lights are lit.

Leonard Durost and the members of his family wish to say that they are most grateful to those who assisted in any way in arranging and carrying out the public service, and to all for their sympathy.

Eggs for Hatching—Pure Bred White Wyandottes—Enquire of Aiton.

RHEUMATISM CONQUERED

"I have been for the last two years a cripple with Rheumatism. I tried almost everything known to medicine to relieve me of the intense pain and inflammation. I sought change of climate in Keweenaw and other Southern points without relief. Your manager in this city recommended GIN PILLS and I have since taken eight boxes and am now cured. I consider

GIN PILLS

ROYAL YEAST CAKES

Albert S. Kinney

A well known and respected resident of the county passed away last week in the person of Albert S. Kinney who for many years was a resident of Bath. Mr. Kinney died at the residence of his brother-in-law, John Smith of Summerfield, from which place he was buried on April 22. Interment being in the Wicklow cemetery. The deceased suffered much from a long illness of tuberculosis, being bed-ridden for many months. All that human care could do to smooth and lighten his path to the inevitable end was done by his faithful wife and relatives. The funeral, which was conducted by Rev. Geo. A. Ross, was largely attended.

The late Mr. Kinney was born in Greenfield, the son of Josiah Kinney of that place. He was married 40 years ago to Martha Parker, who survives him. They have one son, Harry A. sergeant in the Royal Medical corps, who was fortunately able to be present at the laying away of his father's body. Other surviving relatives are two brothers of the deceased, Daniel Kinney of Fort Fairfield and Whitney of Idaho. Mrs. Alex Kinney and Mrs. James Turner are sisters. The late Mr. Kinney was a Methodist in religion and Liberal in politics.

Kidney Disease Overcome

Mr. James Prouse, cattle dealer, Sheno, Sask., writes:—"For about ten years I suffered from Kidney disease at times I was bad with backache, and derangements of the digestive organs. During that time I was treated by four different doctors. One day I read in Dr. Chase's Almanac about the Kidney-Liver Pills and began to use them. Altogether I used six boxes. All I need say, is that I feel well now and attribute this condition to the use of Dr. Chase's Kidney-Liver Pills."

Lower Brighton School

Following are the names of the pupils who made an average of 50 per cent and upwards on the April examinations:

Grade Va—Minnie McGee 92, Austin Nixon 80.5, Cecil Dow 78.6, Clara Nixon 74.6.
Grade 7(b)—Mina Noble 83.7, Lillian McGee 73.6, Mabelle Eacrette 72.1.
Grade IV—Eva Dow 76, Marion Robinson 71.2.
Grade III(a)—Gladys Chase 78, Russell Dow 11.
Grade III(b)—Garfield Richardson 90.6, Rebecca Saunders 77.6.
Grade II—Stanley Richardson 95, Edith Chase 91, Elva Nixon 95, Charles McGee 90, Beatrice Richardson 65.

Teacher, Hattie P. Ebbett.

Elizabeth Hartley Street

Elizabeth, the eldest daughter of Mr. and Mrs. Jack Street of Perth, died at her home on Monday, April 23, aged 14 years, after a brief illness from diphtheria.

The deceased, was a child of many lovable qualities and her untimely death was a great shock to her class mates and friends with whom she was a general favorite. The funeral took place at her home on April 24, Rev. J. R. Belyea in attendance. Interment was made in the Methodist cemetery at Andover. She is survived by her grief-stricken parents, a brother George and little sister Maud, who have the deepest sympathy of their many friends.

Presentation at St. Thomas

Willie Delong, son of William Delong, St. Thomas, has enlisted with the 65th Battery. On Friday evening friends and neighbors gathered at his home and presented him with an address and a wristwatch. John McInnis presided over the affair and just before refreshments were served Mrs. McInnis read the following address:

"On behalf of your neighbours and friends assembled here this evening you are presented with a wristwatch as a small token of our friendship and good will to you who have volunteered to join the ranks and do your bit toward defending our country from her enemies."

"We wish you health and a safe return and trust that you will be among the number to soon bear the tidings home that the enemy is crushed, victory ours and peace restored to the world."

Card of Thanks

We wish to thank the many friends and neighbors who showed so much sympathy in the loss of our dear son and brother on the battlefields of France.

Mr. and Mrs. Wm. Grant and Family

Jeremiah Dickinson, an old and well known resident of Newburgh Junction, died on Monday and was buried yesterday. W. B. Dickinson of Upper Brighton and G. T. Dickinson are sons of the deceased.

Messages From the Deep

Mr. Olaf Nord, of Copenhagen, has made an invention by means of which the crew of a submerged submarine will be able to communicate their position. The invention consists of a special buoy which the crew sends to the surface of the water. The buoy is fastened to a cable and supplied with an electric lamp, by means of which the crew below can make light signals, showing where the boat has foundered, and in the buoy is an apparatus through which a rescuing crew can speak to the men in the submarine.—Daily Telegraph.

Sardines in Galilee

Sardines have appeared within the last two years in the sea of Galilee and a packing house will be established on its shores.

A New Telephone

For use in noisy places where telephoning is difficult a new instrument has receivers for both ears to shut out outside sounds.

Laugh When People Step On Your Feet

Try this yourself then pass it along to others. It works!

Ouch! ? ! ? ! This kind of rough talk will be heard less here in town if people troubled with corns will follow the simple advice of this Cincinnati authority, who claims that a few drops of a drug called freezezone when applied to a tender, aching corn stops soreness at once, and soon the corn dries up and lifts right out without pain. He says freezezone is an ether compound which dries immediately and never inflames or even irritates the surrounding tissue or skin. A quarter of an ounce of freezezone will cost very little at any drug store, but is sufficient to remove every hard or soft corn or callus from one's feet. Millions of American women will welcome this announcement since the inauguration of the high heels.

Ford SATISFACTION

Wherever you find Ford's car and Ford service, you find SATISFIED FORD OWNERS—men who appreciate the car for its quick starting, its easy control, its simplicity and its extraordinary capacity for hard work.

The phenomenally large sale of Ford cars is the direct result of this Ford SERVICE and Ford SATISFACTION.

Ford satisfaction is as universal as the Ford car itself. Doctors, lawyers, salesmen, bakers, grocers and farmers all praise the Ford—all are satisfied. Its low first cost appeals to them. Its universal low upkeep cost pleases them. Its sturdy, steady, service-giving character wins them and satisfies them. Even the wealthy prefer to drive Ford cars rather than bother with the costly, cumbersome limousine and chauffeur. It means economy when "saving is a national duty".

Ford satisfaction is just as valuable as upholstery, or a fancy finish. Ask any Ford owner about it.

If you intend to buy an automobile place your order early. I also specialize on GOODYEAR and NOBBY Tires and all Accessories. Distributing Agent for GRAY & DAVIS STARTERS, in the Maritime Provinces.

THE BLESSING OF A HEALTHY BODY

Has Not Had An Hour's Sickness Since Taking "FRUIT-A-TIVES".

MR. MARRIOTT
73 Lees Ave., Ottawa, Ont.,
August 9th, 1915.

"I think it my duty to tell you what 'Fruit-a-tives' has done for me. Three years ago, I began to feel run-down and tired, and suffered very much from Liver and Kidney Trouble. Having read of 'Fruit-a-tives', I thought I would try them. The result was surprising. During the 34 years I have taken them regularly and would not change for anything. I have not had an hour's sickness since I commenced using 'Fruit-a-tives', and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain".

WALTER J. MARRIOTT.

50c a box, 6 for \$2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

ECONOMY ON RAILWAYS

Bad Air in Homes Breeds Disease—A Cross Draft Good

It is regrettable that the interiors of the majority of homes in Canada are breeding places for disease, because of the difficulties in admitting fresh air, says a writer in "Conservation." Foul air, containing exhalations from the lungs of the inmates, constitutes the atmosphere in many homes, and it cannot be otherwise when houses are built to exclude the external air. It is a common mistake to confuse heat and bad air or cold and good air. The atmosphere may be below freezing and still be bad, or it may be excessively warm and still be pure.

Buildings should be ventilated so that it will be impossible for the occupants to breathe air already used. A simple means of keeping the air of a room fresh is by a cross draft, secured through open windows on either side of a house. Where there are windows on one side of a room only, the upper sash should be lowered, and the lower one raised. This allows the warm, foul air to escape through the opening above the upper sash as the pure cold air enters below the lower.

To utilize an opening above the upper sash of a window fully for ventilation and at the same time to lower the window shade, the latter may be attached to the roller by four or five pieces of tape, about five inches long. This leaves a space between the roller and shade through which the impure air may escape. The shade should also be shortened so that when drawn down to expose the opening at the top it leaves an opening also at the bottom. This will permit constant changing of the air of a room.

Canadians should be as fond of fresh air in winter as in summer. The benefit of the three or four warmer months with the open-air life is often offset by the shutting-in process adopted in the autumn, and the life and vigor displayed during the open-air months are frequently followed by lassitude and nervous depression, due entirely to the lack of proper ventilation.

WOMAN COULD HARDLY STAND

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Fulton, N. Y. — "Why will women pay out their money for treatment and receive no benefit, when so many have proved that Lydia E. Pinkham's Vegetable Compound will make them well? For over a year I suffered so from female weakness I could hardly stand and was afraid to go on the street alone. Doctors said medicines only an operation would help me, but Lydia E. Pinkham's Vegetable Compound has proved it otherwise. I am now perfectly well and can do any kind of work." — Mrs. NELLIE PHILLIPS, care of R. A. Rider, R.F.D. No. 5, Fulton, N. Y.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound. If you have bad symptoms and do not understand the cause, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free.

Paint The Floors

YOU can't "touch up" worn-out spots in the linoleum or carpet. When it's worn, that's the end of it.

A Painted Floor can be "touched up" whenever it shows signs of wear. It's bright and cheery—sanitary—easily cleaned—and the cost of painting is a mere detail.

SENOUR'S FLOOR PAINT

(Made in Canada)

is the old familiar, tried-and-tested, reliable Paint for the floors that wears and wears and wears. It's ready for the brush—simply stir and spread. Dries quickly with a high lustre, and free of stickiness. Anyone can make a grand job of it with Senour's Floor Paint.

14 serviceable colors—something to suit every room in the house.

"Floors, Spie and Spa", and "Town and Country Homes", are two books on home beautifying that you will enjoy reading. We have copies for you—ask for them.

J. L. WHITE, GRAND FALLS.
H. N. BOYER, HARTLAND.

The Men who buy McLAUGHLIN SIXES

A good idea of the quality, efficiency and popularity of McLaughlin Sixes can be formed from a knowledge of the type of men who buy McLaughlin Sixes.

As a class they investigate before they invest.

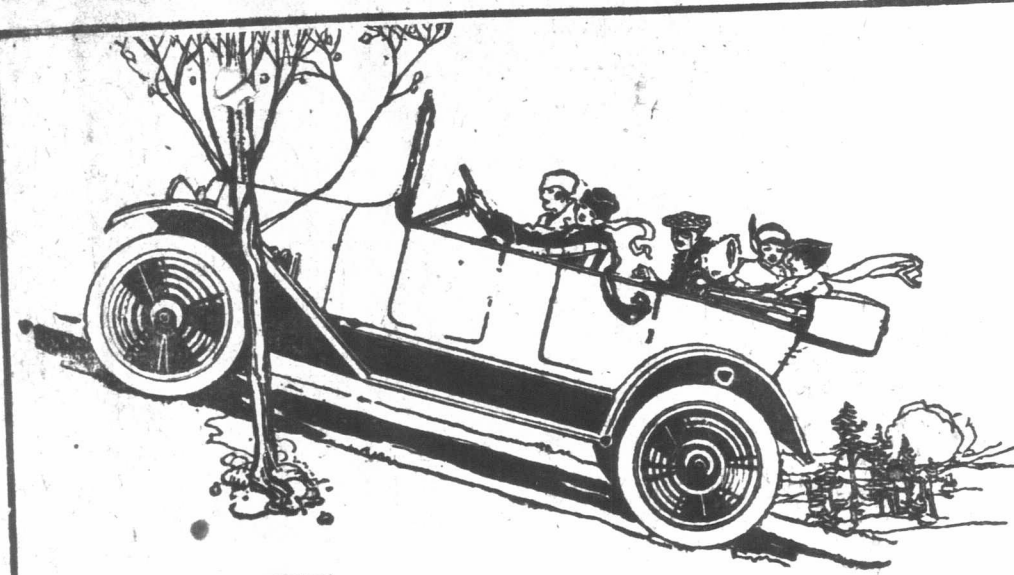

They are strong men of good judgment and keen discrimination, who approach the task of purchasing a car with the same clear analytic reasoning that they use in any business venture. Unswayed by glowing accounts and glittering generalities clothed in high sounding phrases, in newspaper print or salesmen's talk, these men assimilate the facts and recognize in the McLaughlin Six the combined qualities of the car they wish to own.

Abundant power is a necessity and these men realize that the McLaughlin valve-in-head engine develops more power with less gasoline consumption than any other type of motor of the same bore and stroke. Moreover the power of the Six is flexible power, easily controlled, making gear shifting almost unnecessary. The long wheelbase and deep wide seats, luxuriously upholstered in genuine leather, provide supreme comfort. The spring suspension smooths out the rough roads.

With twelve branches and hundreds of service stations all over Canada the McLaughlin Company gives the kind of service that appeals to the men who buy McLaughlin Sixes.

THE McLAUGHLIN MOTOR CAR CO., LIMITED

CITIES OWN WATERSHED

Canadian Cities Should Gain Control of Water Supply

Statistics respecting Canadian waterworks show that many of our systems are supplied by gravity from distant sources, thus minimizing the danger of pollution. The number of such systems is rapidly growing, as well as their importance; over 100 of them are in use in the Dominion, including those in many large cities from Halifax to Vancouver. The necessity of properly protecting against both pollution and deforestation the watersheds upon which these systems are dependent cannot be too strongly urged.

In this connection, the example of Newark, N.J., is unique. The city owns in fee simple some 62 per cent. of the 63 square miles of the watershed from which the supply is drawn, and in the course of a few years will probably own the whole area. This case is hardly parallel to that of Seattle and other far western cities which own all or a large portion of the watersheds of their municipal water-supplies, for the impounding reservoirs of those cities are in comparatively unpopulated areas, while Newark's reservoirs are within a 30-mile radius of New York city.

Experience indicates the practical impossibility of enforcing laws and regulations upon an indifferent public, and the only feasible method of protecting watersheds is complete control and exclusion from settlement. In Canada, most of these watersheds are yet unpopulated and immediate action would avoid future complication. Scientific forestry has been conducted with great success on several of these reservations in the United States. With many municipal waterworks departments, forestry has become an important accessory, while a private company, supplying water to Nashua, N.H., has demonstrated complete success on a 1,000-acre tract, which is actually yielding considerable profits, and will continue to do so indefinitely.

EDMONTON LAND SCHEME

Loans to Supplement Services of Banks to Farmers

The Edmonton board of trade have adopted a scheme for land development. The principal difference between its recommendation and most of the other schemes is, explains Mr. W. T. Fisher, secretary of the Edmonton board, that the recommendations put forward by his board were formulated by a committee, the members of which have given long study to these matters and are equipped with a practical working knowledge and extensive experience regarding these problems, gained where the schemes are expected to be applied. One of the recommendations made is for a farm loan scheme designed to supplement the services which the chartered banks and loan companies are able to afford. This matter is approached by the committee much more conservatively and with a much keener sense of the difficulties in the way, than by the advocates of numerous farm loan schemes which have been put forward. While the committee had a keen realization of the fact that cheap money for our farmers is highly desirable and would tend to promote increased agricultural production, they also realized that neither the ordinary laws of supply and demand nor the accumulated experience as to what constitutes sound financing, can be set at naught by an act of a Legislature.

India's Tailor Bird

The tailor bird of India, a tiny yellow creature, makes a most curious nest. To escape snakes and monkeys this bird takes a dead leaf, flies up into a tree, and with a fibre for a thread and its bill for a needle, sews the leaf to a green one hanging from the tree, an opening to the nest thus formed being left at the top. The leaf, apparently hanging from a twig, would never be taken for a nest.

Homesick Cows

Did you ever notice that cows suffer from homesickness? Don't you think you have been cheated if the newly purchased cow falls away in her milk flow for a few days.

The Racking Pains of Sciatic Rheumatism

Were Well-nigh Unbearable—After Five Years of Suffering Cure Was Effected by Dr. Chase's Medicines.

For downright excruciating pain few ailments can be compared to sciatic rheumatism. Since this condition of the sciatic nerve denotes exhaustion of the nervous system, the logical cure is found in the use of Dr. Chase's Nerve Food to nourish the starved nerves back to health and vigor.

Reports are continually coming in to us regarding the splendid results obtained in the treatment of sciatic rheumatism by using Dr. Chase's Nerve Food after each meal and Dr. Chase's Kidney-Liver Pills occasionally as a means of arousing the action of the liver, kidneys and bowels and thereby keeping the system freed of pain causing poisonous impurities.

Mr. W. J. Talbot, Edenwold, Sask., writes: "It is a great pleasure for me to recommend Dr. Chase's Kidney-Liver Pills and Nerve Food as a

remedy for Sciatic Rheumatism. The pain I have suffered has been well-nigh unbearable. It would start in the hips and run down the legs to the toes, gradually getting worse. The nerves contract until one is practically useless. My doctor tried many different treatments, but could only afford relief for a time.

About five years I was subject to this trouble with severe attacks which would last about two months. The last attack I had was shortened by two weeks by the use of Dr. Chase's Kidney-Liver Pills and Nerve Food. This treatment was continued until I was satisfied that the cure was lasting."

This statement is endorsed by Mr. H. P. Woolley, J.P.

Dr. Chase's Nerve Food, 50 cents a box, six for \$2.50. Dr. Chase's Kidney-Liver Pills 25 cents a box, all dealers, or Edmondson, Bates & Company, Limited, Toronto.

VARIED RICHES OF GREATER ONTARIO

Northern-grown Wheat is Province's Best—Climate, Minerals, Pulpwood and Fisheries Discussed

Mr. J. L. Englehart, as manager of the Ontario Government's Temiskaming and Northern Ontario Railway gave facts on the riches of Greater Ontario; the agricultural, fishery and mineral possibilities of which equal the very best in the world. The climatic conditions, he said, are all that are to be desired; the rainfall well distributed throughout the area, with temperate summers, delightful autumn, and sunshine at Haliburton equal to that at Toronto. There were virtually three soils mould, created by leaves and forests for countless ages; below this, clay which on test compares favorably with that of Lambton county, except for fall wheat and corn; underlying the clay is limestone—a reservoir into which roots descend and refresh themselves, create growth, ripen grain, roots, vegetables. Greater Ontario has twenty millions of acres of alluvial soil. This does not include vast stretches of natural possibilities south and west of James Bay.

Success Already
Mr. Englehart said further that wheat taken up by settlers at fifty cents per acre are now valued at \$100 to \$150 per acre. Temiskaming took the highest mark in 1915 in the standing field competition for Ontario. An export of spring wheat from Uno Park awarded first honors in competition with counties from York east to Parry Sound south. Settlers are usually \$15 per acre for wood cut, drawn and peeled; thus they were paid for clearing their land, the work being easy as compared with old Ontario, as there is no tap roots; while uncleared wood forms a savings bank for settlers on which they may draw. In New Ontario the approximate value of pine on Crown land was \$150,000,000; on licensed land, \$10,500,000; free land, approximately \$300,000,000.

Cheap Power and Munitions
Fisheries are important, with annual value of four millions. The largest fresh water fisheries on the continent, he claimed, are within the province of Ontario. The salt waters of James Bay and Hudson Bay are swimming with fish—a virgin field. The speaker predicted that that region would form the future summer resort of the Province, with motoring from Pacific to Atlantic. Between Couchiching and James Bay there were more than a million horse-power. Some day the navigation of that region will come to Ontario and Toronto. In that secluded part of the world a ideal conditions for munition factories that may be of imperial importance, as minerals are plentiful which furnish nitrates for explosives and also for the very best fertilizers, which will be needed in our Canadian West.

WELSH SURNAME FEW

Quaint Peculiarities of People of Celtic Principality

Wales has plenty of coal, slate, scenery, and consonants, but very few surnames. If a Welsh schoolmaster should say, "Jones, you may go home now for being a good boy," the whole school would quit. People who are not called Jones are called Williams, or Evans, or Hughes, or Lloyd. They divide these names between them, and make the best of it. They do not follow the English method of taking their surnames from towns and villages. They felt that to do so would cut them off from the rest of mankind. Nobody could possibly call on Mrs. Llanyrnach. Dislocation of the jaw is a great drawback to social intercourse.

The Welshman has the Celtic imagination. He never calls a spade a spade. When he has done describing this implement of agriculture, the stolid Englishman thinks he has been listening to a story from the Arabian Nights. Hence the Englishman says the Welshman is an "untruthful." He isn't really. It's only a difference of method. The Welshman means the truth, which is the main thing. His conscience is all right, if his story isn't.

WHEN CANADIANS UNITED
Races Gave Together For Soldiers—Lord Shaughnessy's Tribute

At a celebration in Montreal over a successful campaign for Patriotic Fund subscriptions, Lord Shaughnessy made one outstanding declaration which was loudly endorsed, and the business men came away from the meeting with this announcement in their hands: If I were in charge of the affairs of the country, if I were administering the Government, I would get just such assistance to carry these things through as we have had in this fund. Such enthusiasm, such singleness of purpose, would give us results a thousand times better than can be had without them. We have to consider political exigencies or party advantages. The bonne entente spirit, which has characterized the whole campaign, was very much in evidence at the final demonstration. Mr. J. W. McConnell, the chairman of the Patriotic Fund Committee, announced that no less than 60 per cent. of the contributions included in his magnificent total came from French-Canadians.

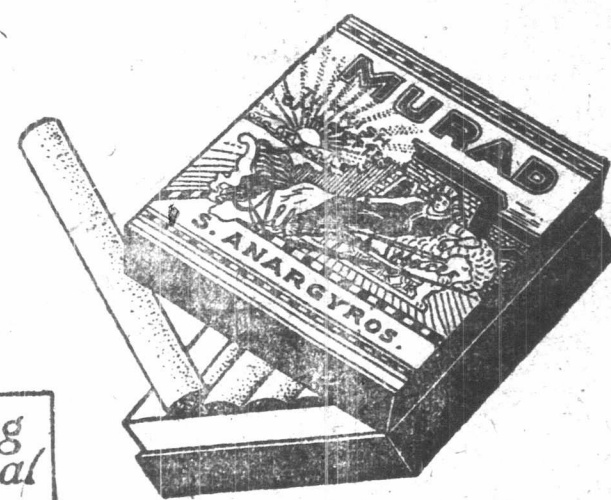

A handful of hops in the brine in which hams and bacon are pickled add to the flavor of the meat and keeps the brine sweet.

The Crisis!

Untold sacrifices are being made in defence of the world's liberty, assailed by the Hun, who declares he fights for "existence." Let us not forget that other crisis in which the fate of the dread Liquor Traffic, subdued just now by the necessities of war, is also fighting for existence.

Prohibition must be impregnable fortified now by means of proper enforcement in readiness for the struggle to come when Prohibition must be finally ratified, or lost by the votes of the people in many provinces, including New Brunswick.

Alberta, Saskatchewan, Manitoba, Ontario, Nova Scotia and New Brunswick have adopted Prohibition during the war. Prince Edward Island has enjoyed its benefit since 1901. The great majority of districts in Quebec are "dry." That is the situation to-day, but remember, the crisis comes after the war.

The total value of foodstuffs destroyed by the liquor traffic in 1916 was approximately \$4,244,000.22. Add to this the immense waste of transportation facilities, clogged and hindered by carrying the grain to destruction, and again conveying the product of the breweries and distilleries to make precious men less efficient in this solemn hour!

Ontario's Splendid Record

Since September 16, 1916, Ontario has enjoyed good enforcement of Prohibition in all but a few districts. Not the most daring anti-prohibitionist hopes for a return of the curse of the traffic in Ontario. Here are some figures showing results in Ontario's largest cities for the last three months of 1915 and 1916:

ARRESTS FOR DRUNKENNESS

	Under License 1915	Under Prohibition 1916
Toronto	2,908	953
Ottawa	286	234
Hamilton	498	61
London	367	141
Brantford	152	16

Note.—It will be noted that Ottawa has not much reduction in arrests for drunkenness. It is perhaps strange that it should show any reduction in the drunkenness record, inasmuch as it is separated only by the river from the license city of Hull.—PIONEER, Toronto.

Whether your district be under the new Provincial Prohibitory Law, or under the Canada Temperance Act, help us to arouse the full force of public opinion for vigilant enforcement of province-wide Prohibition.

L. E. McFARLAND, Agent HARTLAND, N. B.

Service will be held in the Methodist church, Hartland, on Sunday, May 13, at 7.30 p.m., when the pastor, Rev. G. S. Helps, B. A., will preach. A hearty invitation is given to all.

The Epworth League will meet in the Methodist church, Hartland, on Wednesday, May 16, at 7.30 p.m. Mrs. J. F. Murdock and Mrs. C. H. Taylor will conduct the meeting, the subject being "Medical Missions". The Christian doctor is of the utmost importance in the progress of missionary work, and all are invited to attend this interesting service.

Pleasant Event at Home of L. E. McFarland

By invitation, the United Baptist W. M. Society met at the home of Mrs. L. E. McFarland, on May 2. After devotional exercises and business, Miss Alforetta Estabrooks, district secretary, who has resided in Hartland through the winter and whose presence has added greatly to the interest of the meetings, gave a short talk and sang a sweet solo, which was much appreciated. At this stage of the meeting

Mrs. McFarland was called to take a seat near the presiding officer, when Mrs. G. C. Watson on behalf of the Society presented her with a fine "Flash-Light" and a unique address, in recognition of her services as Treasurer (which office she has held for nine consecutive years). It also was anniversary of her birthday.

Mrs. McFarland was taken completely by surprise but endeavored to thank the ladies for their kind thoughts expressed in this practical manner. Light refreshments were served and all dispersed feeling it was good to be alive.

DO YOU WANT A FARM?

FARM NO. 1

A 130 acre farm fronting on the St. John River and a splendid opportunity for any one wishing to go into potato raising. Beautifully located in the best sections of the banner county of New Brunswick and surrounded on all sides by prosperous farmers who are growing rich from the fruits of their toil because of the great productiveness of the soil. Soil a rich, sandy loam well suited to wheat, grain, potatoes, other roots and fruit; 40 acres cultivated, 10 acres brook pasture, 80 acres woodland containing over 400,000 feet soft wood lumber, besides pulp and hard wood.

Crop last year 35 tons hay, 500 bushels potatoes, 300 bushels oats, 40 bushels wheat, besides other grain, roots and apples. Taxes about \$20 annually. Two houses, one comfortable large 12 room house, stone foundation and frost proof cellar.

The other, a 5 room house with shed and practically new. Barns 28x38, and 26x38, hog house and manure shed. Buildings all in fair condition. Insurance \$1400. Property well fenced, good well near dwelling. To school, 3.4 mile, church 1 mile, C. P. R. station 1 mile; daily RFD mail. Situated at Middle Simonds in Carleton county. Splendid view of river for 6 miles. Price \$4,500. Terms \$1000 down, balance to suit purchaser.

FARM NO. 2

A 182 acre farm fronting on main Becaguimac river. A good large farm for a little money; 80 acres in cultivation, 30 brook pasture, 30 acres wood land, balance scrubby second growth. Soil is part rich loam and part clay subsoil, well adapted to raising grain, hay, roots or fruit. Buildings consist of two large barns, that could not be built for \$500, and a small shack, small amount of lumber and pulp, small orchard. Last year cut 30 tons of hay besides grain and apples. Post office and school half mile, station 7 miles, neighbours near, village of Rockland 2 miles. Price \$1200. \$200 down balance to suit purchaser.

Here are SIX unusual Bargains:

FARM NO. 3

Thirty acre farm, about 20 acres cleared, balance mixed growth. Soil good quality; buildings consist of small house and barn which are in need of repair but could not be built for twice the price of place; excellent spring 2 rods from dwelling.

To Coldstream village, post office, Consolidated school and church 3.4 mile. To Hartland and C. P. R. station less than 6 miles.

A wonderful bargain for any one looking for this kind of a farm. Price \$175. Terms to suit purchaser.

FARM NO. 4

This splendid property considered one of the best and most profitable farms in the County of Carleton, has been placed on the market by the heirs of the late owner at a remarkable low figure. It is ideally situated in a well-to-do and prosperous community and is a great bargain for anyone wishing to go into potato raising. Plenty of good neighbours near, in fact three other residences are within 500 feet of dwelling. Farm contains 100 acres, 80 acres in good state of cultivation, soil an excellent quality, 20 acres of woodland mixed growth with small amount of lumber and plenty of hardwood. Buildings consist of a comfortable 9-room house on stone foundation with frost proof cellar, 2 large barns 40x60, besides shed, wagon house, hog house and granary, buildings could not be duplicated for \$2500, good orchard, water in yard and could be very easily run in dwelling. Taxes about \$20 annually, situated 3 miles from Florenceville 1 1/2 mile to school and church, daily mail R. F. D. Crop last year consisted of 60 tons of hay, 500 bushels potatoes, 500 bushels oats, 100 bushels wheat, besides other grains and roots. Price \$3500; terms agreeable.

Farm No. 5

A 300 acre farm at \$9 per acre; not a dead run-out, worked-to-death farm, but a live-going profit-paying proposition and an excellent chance for stock raising; 150 acres in good state of cultivation; 30 acres in pasture; 70 acres woodland, mixed growth; property well fenced; nearest railroad at Hartland a distance of 10 miles; nearest store 3 miles, post office and church 1 1/2 miles, school 1 mile. Taxes about \$25 annually; good water at dwelling, two orchards. Buildings consist of a 6-roomed house with shed, frost proof cellar, 3 barns 30x43, 28x38 and 24x30 with sheds attached. Crop last year 80 ton of hay, 300 bushels of potatoes, 1100 bushels of grain, besides fruit. Price \$2700.

Terms \$1000 down balance on mortgage. This price includes considerable personal property.

Farm No. 6

This farm well equipped with buildings, all of which are in good repair, and now carry \$1000 fire insurance. The dwelling alone could not be built for considerable more than the entire price of property. This farm, situated in a well-to-do community, is on the market because the owner has a large amount of other property and is offering to sacrifice this. Farm contains 50 acres, 25 of which is cleared and an excellent state of cultivation and well adapted for potato raising, situated 5 miles from Hartland and railway, 1 1/2 miles to nearest village and church, 1 mile to school, mail three times per week, R. F. D. Good well near dwelling. Buildings consist of 10 room house and good sized barn and hog house all in good repair, good frost proof cellar. This property is well fenced and includes a good orchard. Woods is a mixed growth and contains some pulp wood. Crop last year 500 bushels potatoes, 250 bushels oats, 8 tons hay, besides fruit and roots. Price \$1100. Terms: \$500 down, balance on mortgage. Should the purchaser want more land I have two other properties within 1 1/2 miles distance, on which there is no dwelling, both of which I consider a good bargain.

TO-DAY EVERYDAY AND

You'll Like the Flavor

WOOD-FUEL VS. COAL

Comparisons by Government Experts
Value of Various Varieties

The fuel value of two pounds of wood is roughly equivalent to that of a pound of coal. This is given as the result of certain forest service laboratory, which show also about how many cords of certain kinds of wood are required to obtain an amount of heat equal to that in a ton of coal.

Certain kinds of wood, such as hickory, oak, beech, birch, hard maple, ash, elm, locust, longleaf pine, and cherry, have fairly high heat values and only one cord is required to equal one ton of good coal. It takes a cord and a half of shortleaf pine, hemlock, red gum, Douglas fir, spruce, and soft maple to equal a ton of coal, and two cords of cedar, redwood, poplar, white pine, Norway pine, cypress, basswood, spruce and white pine.

Equal weights of dry, non-resinous woods, however, are said to have practically the same heat value regardless of species, and as a consequence it can be stated as a general proposition that the heavier the wood the more heat to the cord. Weight for weight, however, there is very little difference between various species; the average heat for all that have been calculated is 4,600 calories, or heat units, per kilogram. A kilogram of resin will develop 9,400 heat units, or about twice the average for wood. As a consequence, resinous woods have a greater heat value per pound than non-resinous woods, and this increased value varies, of course, with the resin content.

The available heat value of a cord of wood depends on many different factors. It has a relation not only to the amount of resin it contains but to the amount of moisture present. Furthermore, cords vary as to the amount of solid wood they contain, even when they are of the standard dimension and occupy 128 cubic feet of space. A certain proportion of this space is made up of air spaces between the stooks, and this air space may be considerable in a cord made of twisted, crooked and knotty sticks. Out of the 128 cubic feet, a fair average of solid wood is about 80 cubic feet.

QUEER WAYS OF NAMING

Japanese Rattle Themselves—Several Christenings Are Needed

The Japanese have many quaint customs handed down from generation to generation. One of the strangest is that of their christening ceremony. When one month old, a Japanese child gets its first name with ceremonial pomp. Its first name is blown, and the child is borne in great state to the family temple, and behind the procession march the household servants carrying the infant's wardrobe. The servant in the rear of the procession carries a huge box, in which is the priest's fee, together with three slips of paper, on which three names are written. On reaching the temple the names are thrown into the air, and the first that touches the ground is the one which the child receives.

When three years old the child is again christened, accompanied by elaborate religious rites. At the age of fifteen his education is supposed to be finished, and as he then enters manhood (according to Japanese law) he is again christened. When he takes to business he receives his "business" name, by which he is known in the commercial world, and upon every upward step in life he receives a new name. If his master decides to have the same name he must at once change it, as it detracts from his superior's dignity. At his marriage his name is altered again, and his last and only permanent name is that given him after death, which is written on his tomb.

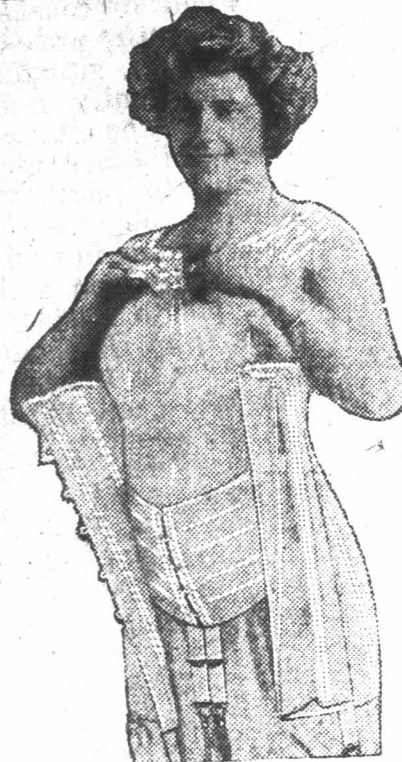

Germany's Increase

At the age of 25 years the population of Germany has increased from 48,000,000 to 55,000,000.

Immaculate Stove Polish

Application of a little turpentine to the stove polish blacker, more brilliant and more glossy.

No Chance For The Germs

Disease germs cannot live in rich, red blood. It is people in vitality that fall victims to germ disease. By using Dr. Chase's Nerve Food you enrich the blood increase vitality and prevent disease germs from finding lodgment in your body. There's wisdom in prevention. It's easier to keep well than to get well.

Bristol Events

Mrs. E. L. Brittain of Wicklow spent the week-end at her home here.

Albert Brittain of St. Andrews spent a few days at his home last week.

Stanley Gilmour who has been assisting in the station here returns to his home at Penniac this week.
