No 6 SAINT ANDREWS, N. B., WEDNESDAY, FEBRUARY 6, 1850. [Vol. 17]

Advertising by the year as may be agreed on

ON THE SUBJECT OF A LINE OF RAILWAY FROM ST ANDREWS, to WOODSTOCK On the River St John, in New Branswick, and thence to Quebec in

expensive bridges at the Grand Falls and Madawaska
It is stated that capitalists in the United States have pledged themselves
to cross act the road from the mouth of the Aroostock, up the vidley of the
river, and across the Allegash to the Canadian Fronteer, and also to procure
a Rulway Act of the state of Maine, and an Act of Congress, to allow British goods and mails to cass day free, or at the same rates as through British goods and mails to cass day free, or at the same rates as through British goods and mails to cass day free, or at the same rates as through British goods and mails to cass day free, or at the same rates as through British goods and mails to cass day free, or at the same rates as through British goods and mails to cass day free, or at the same rates as through British goods and mails to cass day free, or at the same rates as through
there would be a connecting Railroad between Quebec and Saint Andrews,
of 250 miles, as originally mended. Were either of these lines completed, the
flour and goods of Canada, could be brought from Quebec to St. Andrews,
for one ceit, per ton, per mile, less than Is. 3d. per barrel. But suppase,
that charge were double, its al vantages are still apparent, when we consider
the great demand which exists for Canada flour for the whole Bay of Fundy.
25 and the intermediate country from St. Andrews to Quebec; the present price
of flour at St. Andrews and other sea ports in the Bay of Fundy.
25 and the intermediate country from St. Andrews to Quebec; the present price
of the great demand which exists for Canada flour for the whole Bay of Fundy.
25 to 25.65 per bable; at St. John and St. Andrews oats
set 2 to 25.65 per bable; at Canada in winter 9d. to 1s, and all other goods
in proportion. Possibly in Canada in winter 9d. to 1s, and all other goods
in proportion. Possibly in Canada in winter 9d. to 1s, and all other goods
in proportion. Possibly in Canada in winter 9d. to 1s, and all other goods
in proportion. Possibly in Canada in winter 9d. to 1s, and

That the uniavourable character attributed to the Bays of Fundy is unifure, would appear by the following facts x. In the year 1817, it is proved by Custom House electrics, that between Cape Sable and Eastport 5.000 registered vessels entered the Bay of Fundy. For the last ten years the losses the health of the Bay of Fundy. For the last ten years the losses the health of the Bay of Fundy and that it will, and that its returns will be more renunerative than those of ary, line of Railway on the Continent of America, I sustain this continuage of the St. Lawrence is far less than that of the Bay of Fundy. The amount of health of the Bay of Fundy and its free from ice at all seasons of the year. St. Andrews is the surveys, as the British Government explored the line, and pand aid coast gently surveys, as the British Government explored the line, and pand aid to coast at the constitution of the above Merchandize.

The Upper St. John and its tributaries produce the large pumpkin or soft in health of the same quality.—
The great staple of this country is lumber. Upwards of 130,000 tons of ed, will pay a large portion of the cost of the line.

An account shewing the quantities of that river, is proved by the following facts x. In the produce the last per basic from the will have per basic and duther is produced the last per basic and there is no doubt that this will be horserably redeemed by the present the stream that the produce of the produce of the stream of a doubt that it is proved by the following teasons of the same and that this will be horserably redeemed by the present of the produce of the present the produce from Boston to the substant this will be more renunerative than the produce of the substant plant to the produce from Boston to the substant plant to the produce from Boston to the substant plant to the produce from Boston to the substant plant to the produce from Boston to the substant plant to the produce from Boston to the substant plant to the produce from Boston to the substant plant to the produc

The Upper St. John and its tributaries produce the large pumpkin or soft pine in abundance, which no other country furnishes of the same quality.—
The great staple of this country is furnishes of the same quality.—
The great staple of this country is furnishes of the same quality.—
The great staple of this country is furnishes of 130,000, tons Boston is principally supplied with cord wood and hemlock bark from Nova-Scotia, which occupies fully one quarter longer voyage that from St. Andrews. There is no limit to the quantity of wood, bark, clapboards, shingles, timber, deals, ship timber, that could be furnished by this Railway.

The Iron works at Woodstock are now in active and successful operation, and possess every element necessary to their becoming an extensive and mission of timeer, and the expense of transportation is 50 per cent, more than forming and maintaining this opinion it would be by Railway to St. Andrews, without actual loss of any portion. The Railroad Company, are he

and possess every element necessary to their becoming an extensive and important establishment. The same argument with respect to the transportation of limber der equally applies to the expertation of their Iron, and to

the importation of supplies for their workmen.

Our Simple Fish and Lumber both for Eritish and U States markets, Cause a great importation of bread stuffs and supplies particularly for the lumbermen, which are chiefly imported from Boston. These goods pass by Eastport to St. John 50 miles as before stated, and carried thence to Fredericton 84 miles, thence to Woodstock 75 miles by water, making 209 miles. As the St. John river is frosen up from 5 to 6 months in the A. Carman, Esq.,

209 miles. As the St. John tiver is frozen up from 5 to 6 mough in the year, and not navigable, from drought to Woodstock during a part of Summer; the expense of supplying this upper country is or great draw back to its prosperity, which would be obviated, were the contemplated Railway in operation. Woodstock is only 80 miles from Saint Andrews, so that, the cost of transmitting imports and experts by the proposed selection. Wheleas, some persons having objects which appear to encera their nerves in operation. Woodstock is only 80 miles from Saint Andrews, so that, the cost of transmitting imports and experts by the proposed scheeting would be obviated to the first of the first of Fandy, and of the truth of the proposed selection, the Arosstock, Fish river. Madawaska and other, places is principally and to state professionally, my judgment on the navigation of the United States from the Part of Fandy and to state professionally, my judgment on the navigation of the Bay of Fandy, and of the truth and saint per training the proposed state professionally, my judgment on the navigation of the Bay of Fandy, and of the truth and saint per training the proposed state professionally, my judgment on the navigation of the Bay of Fandy, and of the Bay of Fandy, and of the Bay of Fandy, and of the Bay of Fandy and to state professionally, my judgment on the navigation of the Bay of Fandy and to state navigation at any seconds. It is not seen to be a subject to the state of the professional training that is between these familiar, that is between Cape Bangor to Houlton by sields in winner, a distance of 117 miles, Bangor to attended to the professional training that is between these familiar, that is between Cape Bangor to attended to the professional training that is between these familiar, that is between the professional training that is between the professional training that is the work of the state of the familiar training that is the work of the state of the familiar training that is the work of the familiar training

line at an (average, co. by Railway from Saint Andrews'to Woodstook of Hounton for one shilling.

Passengers could be coveyed from Houlton and Woodstock to Saint Gampobelle, January 1, 1850.
