HYDRO POWER LINE TO BE COMPLETED TONIGHT

Another Move Will Be Made In The Inter-Provincial Bridge Merger

TOWN'S TRANSMISSION LINE FINISHED FROM MATAPEDIA TO WESTERN TOWN LIMITS

Upper Valley Line to be Completed and Hydro Electric Current Turned on by Nov. 15th.—Final Formalities to be Arranged in Next Few Days—3000 H. P. to be Available Immediately Power is Turned on—Other Particulars.

Unless some unexpected contingency intervenes, the hydro transmission line, constructed by the town, will be completed from Bell's Island at Matapedia to the Canadian National Railway line just east of Miller's Mill and near the town's western limits at six o'clock this evening.

The town has not yet secured permission from the railway to cross the tracks but this matter has been passed on at the Matapedia office and now merely awaits the sanction of the Telegraph Department. Necessary switchboard equipment has not yet arrived but this is expected shortly.

Word was received yesterday from the Lower St. Lawrence Power Co. to the effect that the transmission line from Metis to Matapedia would be hooked up with the town line and everything in readiness so that power could be turned on on the 15th of November.

Good Progress

This announcement made yesterday by Mr. H. G. V. Parnis, who is in charge of Campbellton's end of the hydro project, will be greeted with keen interest on the part of citizens here. The work of constructing the town hydro line has gone ahead very satisfactorily, in spite of some adverse circumstances. The survey for the line was accomplished in about one month in spite of the difficult country, over which the line has been erected. The clearing of the right of way occupied about six weeks, the nature of the country also figuring importantly in this work. Considerable thought has been given to the location of the line through woods.

The poles were erected from Matapedia down in fifteen days and the stringing of the wires, which was begun just two weeks ago will be finished tonight.

2000 Horse Power

When the hydro project is fully completed on November 15th, and the electric current is turned on, 3000 Horse Power will be available for consumption here. Just how much of this will be disposed of by the town in the near future cannot be accurately estimated at the present time but it is predicted that before long a good percentage of the total 3000 H. P. will be put to work. The Canadian National Railways' power contract expires shortly and it is anticipated that they will require an additional 100 horse power. The Richards Mfg. Co., have applied for 50 H. P. while the Miller Co. Ltd. and the McLennan Foundry each require about 25 Horse Power. A progressive reduction, which may be of considerable proportions may also be effected.

COTE IS CHOSEN AS LIBERAL CANDIDATE IN BONAVENTURE

Well-Known New Carlisle Lawyer Selected as Standard Bearer at Recent Liberal Rally.

(Special to The Graphic)

New Carlisle, Oct. 14.—At a Liberal rally held here on Saturday to select the standard-bearer for the coming provincial bye-election in Bonaventure County, Mr. Paul Emile Cote, advocate, was unanimously chosen to contest the seat.

Great enthusiasm marked the do-

LOCATED STOLEN CAR YESTERDAY

Found Cook Car in Chatham—Thief Being Brought to Dalhousie Tonight

Dalhousie, Oct. 16.—William Boucher who hails from Shippegan and who spent a couple of weeks in Dalhousie last summer looking for work was arrested in Chatham yesterday having in his possession the car which stolen from Herman Cook of P. Is. a few weeks ago. Constable George Ross of Campbellton and Herman Cook left last night with a warrant issued by Magistrate Wm. MacNeill of Dalhousie to bring the prisoner to Dalhousie for trial. The car will also be brought along.

FOUND DEAD IN BED ON TUESDAY

Lifeless Body of James Thompson, Retired Engineer Found by Neighbor Tuesday Afternoon.

James Thompson, a retired C. N. R. employee of this town and a bachelor who lived alone on Roseberry street was found dead in his bed early Tuesday afternoon by Clarence Hamilton, who, failing to get any response in answer to repeated knocks at his door, secured a ladder and entered the room. He found the body of the deceased in his bed, his head resting on a pillow and his arms outstretched. The body was found in a state of decomposition and it was immediately notified to the coroner. Dr. Martin, who accompanied by Chief of Police Adams, viewed the body. The coroner attributed death to acute congestion of the lungs and declared that, considering the deceased's condition he must have been dead some time. He decided that an inquest was unnecessary.

That the late Mr. Thompson had been illing of late was borne out by the fact that certain medical preparations were found in the room. It was also apparent that the deceased had not suffered any mental derangement previous to his death. Everything in his room was quite in order.

The late Mr. Thompson who was 67 years of age, was a retired locomotive engineer, having been superannuated some time ago. Until last June he remained in railway service working at the round house here. The deceased who has been a resident of Campbellton for about 40 years, is survived by two brothers, George Val d'Amour where it is understood the late Mr. Thompson was born, and Walter of British Columbia. Miss Jessie Thompson of Campbellton is a distant relative.

The remains were taken charge of by the deceased's brother George and removed to the home of Mr. Fred Clark with whom the late Mr. Thompson lived at one time, and from where the funeral services were held yesterday afternoon. These services were largely attended. Interment was made in the Campbellton Cemetery.

The deceased was a well known and much respected citizen of the town and his sudden death has evoked expressions of regret from all quarters. Little is known, even by old residents of the late Mr. Thompson's parents came to this country from Northern Ireland, except that they predeceased him many years ago.

COMPLETE TOUR OF GASPÉ RAILWAYS

Hon. H. A. McKeown and Com. Lawrence Begin Enquiry Into Railway Conditions on Coast.

Hon. H. A. McKeown, President of the Railway Commission and Commissioner of Railways have completed a tour of inspection over the Gaspé railways as part of an enquiry into complaints of the people in that territory.

Referring to the service there, Hon. Mr. McKeown said that there was a daily passenger and freight service but the great demand by the shippers was for more facilities in the winter season. The railways in this section run between Gaspé and Matapedia and covers 202 miles. The chief industries are a pulp mill at Chandler and a large fishing exporting concern established 168 years ago.

The engineers and traffic departments of the board accompanied the two commissioners and went over the ground and they will submit their report to the entire board soon. Hon. R. Lennieux, member for Gaspé and Charles Marvel, member for Bonaventure, were to have accompanied the party but the former was unable to make the trip on account of the illness of his daughter.

HOLDING ANNUAL CONVENTION HERE

Eighteenth Annual Convention of W. C. T. U. Completes Three Day Session—This Afternoon

The N. B. and P. E. I. Women's Christian Temperance Union is holding its eighteenth Annual Convention here this week. The sessions, which are being held in the Methodist Church, opened on Tuesday and continued yesterday and today.

A preliminary meeting was held at 8.30 on Monday night when the members of the Executive met and made some necessary changes in the programme and appointed the following officers:

Place of Work—Mrs. E. M. O'Neil. Finance—Mrs. Geo. Wilson. Resolutions—Mrs. Edgar Cook. Oriental—Mrs. Elgar Cook. Courtesy—Mrs. Hope Thompson. Press—Mrs. W. J. Linton.

Other members of the Executive present were—Mrs. Mary Seymour, Evangelistic Supt., Mrs. H. H. Coleman, Mrs. R. B. Gerrard, Mrs. O. D. Hanson.

Tuesday morning's session opened at nine o'clock with a good attendance of officers and delegates. Mrs. Seymour conducted the Devotional Service, after which the President took the Chair and declared the Convention open for the transaction of business. She gave the word "Others" as the motto for the Convention, and told of its origin.

Mrs. Seymour gave an excellent report of the various Unions. She stated that this was the 41st report she had given and expressed a wish to retire from that department of work. Aggravation of her work and worth was expressed. She was urged to retain her office.

The report of Sailors Work was given by Mrs. O. D. Hanson of Fairview.

Report of Parlor Meetings prepared by Mrs. R. D. Christie was read by Mrs. Edgar Cook.

Railway Men's Report prepared by Mrs. Slipp of Woodstock was read. It was decided to substitute this department for a Literary Department.

Mrs. D. J. Bruce, the President, gave an excellent report, stating that Newcastle, Hartland and St. Stephen had been re-organized. She also reported that much credit was due Mrs. Stewart McLaughlin of Campbellton who had arranged a Roll of Honor inscribed with the names of our heroes and heroines of our N. B. W. C. T. U. Mothers had received much praise from the National W. C. T. U. for the artistic manner in which it was arranged.

The Noon Tide Bible Reading was given by Rev. W. W. McNairn. His subject was "Good Citizenship." Mr. McNairn cited the dangers at the present time as lack of respect for authority in the home, in the church, and in industrial and social life. He stressed showing increase in divorce. He said marriage was looked upon as concerning the man, woman on the State, forgetting that it is a Divine Institution. Rev. G. W. Godfrey pronounced the Benediction.

The afternoon session opened at two o'clock. Mrs. P. J. Stratton took the Chair and read the report of the Devotional Service, after which the President again took charge. There was a contribution of Reports from the nineteen Unions.

Mrs. Geo. Wilson the Treasurer reported money received during the year was \$914.70, and the total expenditure \$509.29, leaving a balance on hand, including interest, of \$190.29. She stated that Mrs. James McWha had received a surplus of \$10.00 for compiling the Year Book which she generously donated to the funds of the Union. The cost of printing the Year Book was \$100.39. The advertisements contained therein amounted to \$78.00.

Mrs. Annie Mowat, Supt., of Scientific Temperance, from the St. Stephen W. C. T. U. presented an excellent paper, entitled "Christian Citizenship." It showed the spirit, development.

EXPORTS TO U.S. SHOW INCREASE

Newspaper Paper Exported from Bathurst More Than Makes Up Decrease in Other Articles.

Exports to the United States invoiced through the Campbellton Custom District for the three quarters ending Sept. 30, show a slight increase over those of the same period of last year. The exports this year amounted to \$5,698,670 while last year's figures were \$5,514,637.

The increase is due almost entirely to the export of newspaper paper from the Bathurst Company's Mills at Bathurst, N. B. A tabulated statement of these exports will be found on another page.

MAYOR MCKAY IS NEW CHAIRMAN

Wins Contest for Chairmanship of Order of Railway Telegraphers

The many friends of Mayor N. C. McKay, C. N. R. Trs' Dispatcher here will be pleased to learn of his election to the local Chairmanship of the Order of Railway Telegraphers.

The election was held some two weeks ago and was closely contested. Several opponents from outside places having numerous supporters. Mr. McKay, however, was advised on Monday that he had won by a substantial majority and his appointment has been received with evident satisfaction by railway employees here who are warmly congratulating him on his success.

In this position Mr. McKay represents the Canadian National Railway Telegraphers over that portion of the Atlantic Regions of the C. N. R. which extends from Riviere du Loup to Moncton.

WILL PREACH IN

Dr. Geo. J. Trueman, President of Mount Allison University, Sackville, will preach morning and evening in Wesley Methodist Church on Sunday Oct. 19th.

ment and organization of true citizenship.

Before the close of this session the following communication was read by Mrs. S. McLaughlin: "The Social Committee of the Campbellton W. C. T. U. extends a hearty invitation to the Officers, Superintendents and Delegates of the N. B. and P. E. I. W. C. T. U., all Hostesses, Clergymen, the Local Alliance, Chauffeurs of Driving Parties, Officers and Members Local Union of the Church, to the hall of St. Andrew's Presbyterian Church Wednesday, Oct. 16th, at 6 p. m."

In the evening at 8 o'clock a public meeting was held, and the church was filled to capacity. Rev. G. W. Godfrey, pastor of the Church, occupied the chair and conducted the Devotional Service. The choir furnished suitable music. Miss Bertha Boucher was the organist. Mrs. W. G. Godfrey and Mrs. G. McNutt sang a duet which was much appreciated.

The chair was then taken by the President, Mrs. D. J. Bruce.

Greetings were conveyed from His Worship Mayor McKay of Campbellton, on behalf of the citizens of the town; Rev. C. W. Camp, who represented the Ministerial Association; Mr. M. A. Kelly, Representative of the Local Temperance Alliance; Mrs. Stewart McLaughlin, from the Local W. C. T. U. Greetings were also conveyed by Mrs. Quimby, State President of the Maine W. C. T. U. wishing the Convention every success and assuring us of their hearty cooperation. Mrs. Edgar Cook of Dorchester, replied in a very gracious manner to these greetings. She commended Mayor McKay for the many stand he has taken in the problem of Temperance.

Rev. T. H. Marshall, Secretary of the N. B. Temperance Alliance, gave an outline of the Prohibition Movement in the province and expounded the principles of the movement, and pointed out the present opportunities for the government to take action. He stated that the remedy for the condition of things, which was by electing men for the legislature who could be depended upon to carry out the wishes of the people.

Rev. Mr. Kechaly, Armenian Relief Committee, present, and was granted a few minutes to explain the needs of the helpless children in Armenia, and to get the W. C. T. U. to endorse his work.

DEFINITE MOVE SOON TO BE MADE IN INTER PROVINCIAL BRIDGE UNDERTAKING HERE

Board of Trade and Representatives of Municipality of Bonaventure Confer Here—Next Action Decided on—Premiers of Quebec and N. B. Will be Asked to Banquet Here to Discuss and Take Definite Steps.

ACCIDENT OCCURRED IN LOCAL MILL

Herbert Ross Narrowly Escapes Loss of Hand in Shingle Mill Here

An unfortunate accident occurred at the shingle mill of the Stetson Cutter Co. here on Tuesday afternoon when Herbert Ross lost his thumb and two fingers which were cut completely off by a shingle saw which he was operating. He was rushed to the Soldiers Memorial Hospital and it was at first feared that it would be necessary to amputate his hand, owing to the fact that the thumb and part of the palm had been completely severed. This was, however, later found unnecessary and the injured man is this morning reported as improving favorably.

This is not the first accident which Mr. Ross has suffered at his work, as some time ago he lost some fingers of his other hand in a similar way.

POLICE SEEKING UNKNOWN MAN

Stranger Attempted Assault Near Tobique Road Yesterday—Mrs. Jos. Oullette the Intended Victim.

A young man, name so far unknown, is today being sought in this district on a charge of attempted assault which case was brought to the attention of the local police yesterday afternoon, at a secluded point to the rear of the Christopher property and near the Tobique Road. The intended victim was Mrs. Joseph Oullette who lives in the west end of town. Accompanied by her little girl she went out after dinner to pick some rounds from trees nearby and in passing through a clump of bushes just back of the hill was suddenly attacked. Although weakened as a result of recent illness the women fought desperately with her assailant. What the outcome would have been it is difficult to say had Mrs. Oullette not screamed for help. Fearing discovery, the man made good his escape. Mrs. Oullette was painfully scratched about the face and arms in the fight with the stranger.

Being questioned by the police, the frightened woman gave a fair description of her assailant. He was comparatively young and of no great height. The police are following up the case.

NEW ELECTRIC POWER RATES TO BE REMARKABLY LOW

Will Compare Favorably with Those Anywhere in Canada—Effective as Soon as Hydro is Turned on

Any definite announcement regarding hydro is of especial interest to Campbellton citizens at this time when, as near as can be judged, our town will see the end of its electric power problem by the 15th of November when everything will be in readiness and our new supply of electric current turned on. The proposed new rates for lighting, etc., which will go into effect with the advent of a supply, which is expected to be a very low and will doubtless be a marked improvement on the present rates. Here they are:

FOR DOMESTIC USE

Including cooking and commercial lighting.

20 Kw. Hrs. per month, 4c per Kw. hr.

Next 50 Kw. Hrs. per month, 4c per Kw. hr.

All excess per month 2c per Kw. hr.

Minimum Monthly Bill \$1.00

As an illustration, take an ordinary house using 20 Kw. Hrs. per Mo. for Lighting, 50 Kw. Hrs. for Toasters, Irons, Washers, etc., and 300 Kw. Hrs. for an Electric Range. This would work out—

20 Kw. Hrs. at 10c—\$2.00 for House Lighting.

50 Kw. Hrs. at 4c—\$2.00 for Toasters, Irons, etc.

300 Kw. Hrs. at 2c—\$6.00 for Electric Range.

All the above to be connected on the one meter so that large stores, hotels, etc., who use more than the ordinary amount of electricity, will come under the same plan.

It will be seen from the above that the cost of operating an Electric Range will be very low, and considering the convenience and cleanliness as compared with an ordinary Coal Range, it is expected that a large number of consumers will replace Coal Ranges with Electric Ranges. It is estimated from experience that an Electric Range will cost less than a Coal Range.

In Beautiful England

A Brief Account of our Pleasant Experiences with The Canadian Weekly Newspaper Party on our Trip abroad
By H. B. ANSLOW

(Continued)
London, July 1.—This is Dominion Day, and flags are flying on various public buildings in honor of the day. It is another beautiful day.

As we had planned with some friends to visit some of the big London stores, we breakfasted early and were soon upon our way. Regent and Oxford Streets are the principal shopping streets and there we went. But it was not long until in one of the larger stores we entirely lost the ladies of our party, so we men had an opportunity of looking about for ourselves, and we thoroughly enjoyed a couple of hours. We visited the sporting goods department of several, but while I saw much of interest, and the prices were very reasonable, we refrained from making any extended purchases, knowing full well that the ladies were planning to use all surplus space in our trunks and grips. We also visited a haberdashery, where many of our party were purchasing silk hats and requisites to be in style for the King's garden party, and many other questions which required morning dress.

At 3.30 we were due at the Dominion Day reception given by the Canadian High Commissioner, Hon. Peter Larkin at the Ritz Hotel, Piccadilly W.

Upon arriving we were ushered into the great reception room, and later presented to the hosts. We reproduced the London Telegraph's article in reference to this reception.

Telegraph—"The High Commissioner for Canada and Miss Allen Larkin, in the unavoidable absence of Mrs. Larkin, held a reception yesterday at the entrance of the restaurant, from which the little garden was reached, and at buffets here and in the big bay room summer refreshments were served. About a thousand guests attended."

Miss Larkin wore a charming pale pink gauze dress over pink with a satin girdle, and a large white crinoline straw hat with pink and white flowers laid on the brim. The Dowager Marchioness of Dufferin and Ava, all in black, and the Dowager Countess of Jersey, also in black, were early arrivals. Lady Jephson was in dull jade green, the Hon. Mrs. Douglas Vickers was accompanied by Miss Vickers and Mr. Sholto Vickers, was in palest dove-grey.

Among the large company were: The Belgian Ambassador, the Japanese Ambassador, the Viscount Cave, Lady Macnaghten, Lady (Gilbert) Parker, the Hon. R. B. Bennett, K. C., and Miss Bennett, the Hon. E. H. Armstrong (Premier of Nova Scotia), the Hon. C. A. Dunning (Premier of Saskatchewan), the Hon. C. A. Nesbitt, Mr. and Mrs. Campbell Nesbitt, the Hon. S. G. Martin (Minister of Agriculture, Ontario) and Mrs. Martin, Mr. E. P. Luke, Dr. and Mrs. G. W. Badger, Mr. W. L. Griffith, Colonel Beccles, Milson, Mr. Lucien Pacaud, Mr. and Mrs. William Phillips, Sir Clement and Lady Kinloch-Cooke, Miss Haldane, Mr. and Mrs. Alastair Sutherland, Canon O'Meara, Major and Mrs. A. C. Arthur, Colonel Murphy, Sir Charles Peers Davidson, Mrs. Charles Handcock, and Sir John and Lady Struthers.

Here we met friends from Canada, and those we had previously met in London, for by now they were indeed our friends, and persisted in seeing that we were enjoying ourselves.

While our late arrival in London made it difficult for our party to get seats at the Dominion Day dinner at the Cecil, yet the hotel management had reserved a large balcony overlooking the banquet hall for the use of our party. At 9 o'clock we wended our way to this vantage point, and were extremely fortunate in procuring seats in a box directly overlooking His Royal Highness, The Prince of Wales, and where we could see and hear everything that took place. The speeches were very brilliant and the applause was long and loud. I cannot do better than reproduce a report of the dinner published in the world's most celebrated newspaper The London Times of July 2nd.

"The Prince of Wales was the principal guest at a dinner to celebrate Dominion Day, held last night at the Hotel Cecil. Mr. P. C. Larkin, High Commissioner for Canada, was in the chair.

The Prince of Wales, replying to the Royal toast, said: "I am very grateful to be present at this Dominion Day banquet. It has given me an opportunity of meeting so many representative Canadians who are in London at the present time. Many members of my family have learned to know Canada and to love Canada. (Cheers.) I do not think I need to tell any of you that I have a certain love for the Dominion. Canada has known what it is exactly, whether it is the air or the great spaces or what it is, but the fact remains. I remember the tonic effect it had on me in 1919, the year of my first visit, a few months after the Great War, when I came straight from four years of horror and confusion to a great, free country and a young country with a bright future in the future. (Cheers.) And so it was last year—a real tonic, when I spent a happy month after a some-

Commonwealth of nations. So far as the Labour Party was concerned, so long as they endeavored to keep together the general mass interest of the Empire and safeguard its lasting value, they would deserve the respect of all his Majesty's subjects.

The toast of the chairman was honoured at the instance of Mr. E. H. Armstrong.

We in the balconies applauded enthusiastically and were frequently referred to by speakers who one and all hoped we were enjoying our visit. After the banquet which ended well after midnight, we returned to our rooms having spent a very enjoyable day.

UNUSUAL ACTIVITY IN AUTOMOBILE TRADING—SOME STARTLING BARGAINS—

In these days of big business deals and over-night fortunes, one is not surprised at anything, but in the peaceful quietude of the hustle of business, the boss of a big commercial establishment was enjoying the fragrance of his after lunch cheroot.

The door of the business was slightly ajar, and from beyond came the occasional bustle of the office boy and the clerk behind to guide the progress of the business during the lunch hour. Suddenly through the open window behind came voices.

"I'll trade you one of my Marmon for a Ford!"

Here was big business to be sure, but there must be a catch in it somewhere. The business man rubbed his eyes. Was he dreaming? But the reply was even more astonishing.

"I haven't got a Ford to spare, but I tell you what, I've got two Hudsons and a Studebaker I don't want, and I'll swap you for a Chevrolet."

Here was a big business with a vengeance; the commercial man decided he must get a look at the perpetrators of such hectic bargains.

He tipped good to the open window. Below him on the sidewalk was his office boy with a telegraph messenger. The messenger was carrying a bundle of papers, and he was looking at the car with a look of surprise.

He returned to the car, muttering, "They're on me."

BOOTLEGGERS AT WAR IN NEW YORK
Three Men Wounded, One Probably Fatally in Shooting Affray in East Side Early This Morning.

New York, Oct. 11.—Three men were wounded, one probably fatally, in the East Side early today in what the police declared was an outbreak of bootleggers' warfare. All three of the wounded men were innocent victims of the shootings, so far as the police have learned.

Louis Piana, an importer, was reported dying from a bullet wound in the throat. His companion, James Manella, who was shot by the same gunman. As he fled he was pursued by policeman who fired several shots.

A short time after the double shooting an East Side actor also was wounded in the chest and left arm by an unknown assailant in the same street.

Three hours later the body of a man who had been murdered was found in the apartment house area way. Police arrested an ex-convict suspected of being a man in a nearby restaurant and dragging his body to the area way.

POULTRY
Husbandry can be made to pay well if you follow the plain directions contained in our Home Study Course and supported by practical expert poultry men and highly endorsed by students and the best Canadian authorities in poultry raising. CLAIMS CONTROL OF DEATH RAY

Declaration of Noted English Scientist Following Researches—Renews Discussion of Much Debated Question.

London, Oct. 8.—Discussion of the subject of the "death ray" has broken out anew with the declaration by Prof. T. W. Wall, of the Electrical Research Department of the University of Sheffield, that he believes will be able soon to break up the atom and control its energy.

In a work of such importance, Prof. Wall explains, one has to proceed with the greatest caution and progress is necessarily slow. If the experiments he is now trying result in the release of atomic energy, the question of the possibility of directing such energy in any desired way would become a supreme importance, he added.

Prof. Wall has been employed in his researches for the past four months. They originated out of an investigation into the death ray and its possibility which he carried out earlier in the year. His work has been exciting, exciting and dangerous.

Prof. A. M. Low, famous scientist, commenting on the attempt to release atomic energy says: "It is a thing that is not impossible, but it strikes me as being not a little in advance of human knowledge as it stands at present."

On lodge night Friend Husband told Friend Wife he's going to the lodge. But what does he tell the lodge?

CORISTINE COATS Are Reliable

Plain, or trimmed with fashionable contrasting fur, they are the model! And they are made of the selected for beauty and quality, lined with genuine silk, tailored by experts.

Keep Your CHILD'S SCALP Healthy

Mother! Save your children from scurf, dandruff, itching scalp by applying **Zam-Buk** to the itchy spot or sore.

Zam-Buk is a powerful itching, it makes the head and hair healthy and sweet, prevents little troubles from spreading, quickly eradicates scum, ringworm and other troublesome diseases. Zam-Buk is most effective simply because it attacks disease at the root, killing poisonous germs and purifying the whole tissue.

Zam-Buk is compounded from certain rare extracts of exceptional healing and germicidal power. It contains no poisonous drugs or animal fat like ordinary ointments, but is a balm of the utmost purity with a far-reaching effect.

Zam-Buk

MOTHER'S BEST FRIEND.

Whenever the skin is cut, burnt, sore, inflamed, or "broken-out" in any way, Zam-Buk is always the safest and most reliable healer to use. Keep a box always handy! 50c. all druggists.

NEW LAMP BURNS

94 p. c. AIR

BEATS ELECTRIC OR GAS

A new oil lamp that gives an amazing brilliant, soft, white light, given better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up, in simple, clean, safe. Burns 94% oil and 6% common kerosene (coal oil.)

The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him to-day for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month. Sept. 4-13wks

CAMPBELLTON NEW BRUNSWICK, THURSDAY, OCTOBER 16, 1924

Keep Your CHILD'S SCALP Healthy

Children's Scalp is a natural scalp trouble by using Scalp-Zam-Buk to the first spot or soreness. Scalp-Zam-Buk is a healthy scalp. It is the best and healthiest and it prevents little troubles from arising, quickly eradicates eczema, worms and other troublesome diseases. But it is most effective simply because it attacks disease at the root, removing poisonous germs and purifying whole tissue.

Scalp-Zam-Buk is compounded from certain extracts of exceptional healing and germicidal power. It contains no harsh drugs or irritants like many other scalp treatments, but is a balm of the most purity with a far-reaching effect.

Zam-Buk

MOTHER'S BEST FRIEND.

Whenever the scalp is cut, burnt, sore, itchy, or "broken-out" in any way, Scalp-Zam-Buk is always the safest and most reliable healer to use. Keep a box always handy! 50c. all druggists.

IMPROVEMENTS ON GASPE RAILWAYS IN PAST FEW YEARS MAKE STORY OF VERY REMARKABLE PROGRESS

Road-Bed and Locomotive Power Improved—Only Two De-railments in Last Two Years Compared With 50 in 1916—Steady Progress in all Departments Under Severe Difficulties—Railway Enquiry Evokes Much Comment.

OTHER INTERESTING PARTICULARS

To the people of Bonaventure and Gaspé Counties the immediate future probably presents no question of greater interest and importance than that of the present investigation regarding the Quebec Oriental and Atlantic Quebec and Western Railway lines which operate on the Gaspé Coast. Deep interest has been aroused by distant rumors of a possible change in their administration but whether the railway enquiry will result in any definite action cannot yet be predicted with any degree of accuracy.

A tour of inspection of the Gaspé Railways was completed last week. Hon. H. A. McKeown, president of the Canadian Railway Commission, headed the board of enquiry and was accompanied by Mr. Lawrence and a number of engineers. This inspection which began last Thursday was, as is generally known, following the request made at Ottawa by the Hon. Charles Marcell, Minister of the Interior, and Hon. Rodolphe Lemieux, members in the Dominion Parliament for the counties of Bonaventure and Gaspé respectively. The Hon. Chas. Marcell accompanied the commissioners on their tour. It is thought that a second inspection trip may take place at a later date.

While they were in Gaspé the commissioners visited a number of manufacturing establishments including that of Robin Jones and Whitman, at Paspébiac, and the pulp mills at Chandler which are now operating at full capacity. His Grace, Mgr. Rosa, bishop of Gaspé met the commissioners and communicated to them in writing his views on the railway situation in his diocese.

False Rumors

Conservatively speaking, there is probably no business enterprise in Eastern Canada about which there has been circulated so much unfounded rumor in recent years than the railroads which operate along the south shore of the Gaspé Peninsula. These railroads which some years ago truthfully presented a rather pitiable, though courageous attempt, at modern transportation service, somehow acquired a reputation for uniqueness rather than utility. The appearance of the road, these legends which have so long accompanied by worn-out coaches, the unsatisfactory service and the peculiar lack of ambition on the part of trains to get anywhere on time all combined to promote a multitude of jests on the part of the travelling public which, for picturesque and humor can only be rivalled by those of the "Tin Can Branch" of fiction fame. A bad reputation is extremely difficult to live down and in the case of these railroads several years of remarkable progress has failed to dissipate the memories of former days and push into the background those legends which have so long associated with railroading on the coast. A widespread misunderstanding and misconception is the result.

Remarkable Progress

Whatever the findings of the Railway Commission now occupied with the Gaspé Railways' question, there is at least one discovery they are sure to make if the enquiry is as thorough as it should be, and that is—that during the past four or five years these two railroads have made truly remarkable progress. Of course this is scarcely realized by those who use these railroads most, and these improvements are little appreciated by the people which these lines serve. To many, some of the actual facts in connection with this progress may seem herculean but they can be vouched for and we present them just to show what has actually been done in recent years.

Even the casual traveller who takes passage over these lines today

improvement in the roadbed. Comparatively a few years ago a passenger on these lines walked down a

extraneous hazard to his physical well-being. The wobbly motion of the cars over the rough roadbed threw him about in a perilous manner. Today a great improvement is apparent. This has been achieved

last three years over 164 miles of track have been improved in this

way—much of this having been rebalanced during the period.

Only Two De-railments

As a result of this improvement in the roadbed only two derailments have occurred during the past two years, according to information secured by the writer. As compared with this 50 derailments occurred in a single period of twelve months about the year of 1916. Such evidence is too eloquent of the improvement made in this connection to require further comment.

Other Improvements

In our efforts to learn more about the progress of the Gaspé railways we elicited other equally interesting facts. In the last five or six years these roads have purchased and paid for—out of railway earnings—eight new locomotives. Only two old engines are now used in the service and the locomotive power of these roads is in splendid condition. In the last few years new ties have been laid wherever needed and all bad rails removed. This work is still going on. In this respect both lines will be in good shape before winter sets in.

Our Enthusiasm

Some of our readers may marvel at our enthusiasm. Well listen. Nine years ago we had occasion to travel over the Quebec Oriental Railway and we had never forgotten that trip. It was in July when railway trains are usually crowded. On this trip the cars were not only full to capacity; passengers were perched like so many monkeys every part of the train where perching space was available. The second class coach was jammed with "second-class" passengers who persisted in smoking, spitting on the floor, walking over one's feet, singing foolish songs and in other ways making themselves thoroughly disgusting. Liquor was in evidence and the aroma hung on the smoke-laden air. Hilarity reigned throughout the car. If one preferred being packed in among old men, women and squealing babies he might find beathing space in the first class coach. Once settled—no matter how uncomfortably—it was folly to move for in a moment your square inch of seating room was captured by some eagle-eyed passenger and with the next jolt of the train you landed upside down in an angrily protesting old lady's lap. The supply of drinking water on the car which was so warm that it scarcely seemed wet, was exhausted by fevered babies who you simply had to content yourself with the possibility that the train might break down near a brook so that you could jump off and get a drink. The more passengers were taken on the discomfort increased. People lined the aisles; they sat on the arm of our seat—or our shoulder, if it happened to look inviting—they bumped against us as the train lurched around curves; they tramped on our feet; they sneezed in our ear. The trip of only ninety-eight miles to New Carlisle consumed nearly the entire day, and it seemed like a fortnight. And through it all we were forced to smile even while we wished that the road had never been built—there was nothing else to do.

To-day however such conditions are a thing of the past. They merely make up a chapter in the story of progress. The improvement in the road itself insures the traveller a comfortable passage. Some of the coaches are not as smooth running as one could desire but as time goes on new cars will surely be acquired. The services and other accommodation has also under-gone a great change. The coaches, on leaving the terminus are as clean as they can be made. In the summer months when tourists and vacationists are on the move, parlor and chair cars are run. These are seldom crowded and one is assured a pleasant journey. At New Carlisle where the train halts some twenty-five minutes for supper the traveller obtains a splendid meal, served hot and appetizing in the

which is operated there by the railway companies. The superintendent of this spacious dining-room is

thing is up to a high standard. The meals are equally as good as those procurable on the dining-cars of the Canadian National and cost only about half as much.

These are only some of the improvements of the Gaspé Railway Commission

which is operated there by the railway companies. The superintendent of this spacious dining-room is

thing is up to a high standard. The meals are equally as good as those procurable on the dining-cars of the Canadian National and cost only about half as much.

These are only some of the improvements of the Gaspé Railway Commission

doubtless dwell at some length on the shortcomings of the present railway system in Gaspé and it is only fair to all interested that both sides of the question should be known and considered.

Other Facts

Many other facts dealing with the effort to improve the railway service on the coast could be cited did space permit. This summer the railway tracks of the Atlantic Quebec and Western Railway were moved back from the edge of the cliff just below the New Carlisle terminus of this road. The fact that the railway ran so close to the bank at this point has been the cause of complaint. The condition was not considered dangerous but it was deemed advisable to shift the tracks lest at some future date a accident might occur. Recently the numerous trestles on these roads have been inspected by engineers and all pronounced safe.

Emerging from Difficulties

Had these railway lines been taken over several years ago when the most strenuous complaints were well founded the change would have been a great blessing to the country. This may still be true but it seems rather unfair that this change, so long delayed, should come just as these railways are emerging from their difficulties. After years of up-hill work, making progress under heavy odds, these roads have apparently passed the crucible and are now entering a new era of progress. In recent years all surplus earnings have been expended in improving the road in an effort to give the people better service. In a few years both roads should be showing still more interesting results. Even now the Atlantic Quebec and Western railway line is being operated with a small surplus. IT IS SAFE TO SAY THAT NO GOVERNMENT CONTROLLED BRANCH LINE CAN SHOW SUCH A RECORD OF PROGRESS.

What is needed most is industrial development on the coast. If the proposed enterprises now pending at Escuminac and other places materialize the revenue of the railways will be subsequently increased and better service and lower freight rates will eventually be the result.

Comment

The recent railway enquiry has naturally evoked some comment from the Quebec press. These papers have taken a natural and favorable view naturally favor some move. This is only right. Gaspé needs development and if the proper steps are taken, great progress will be made. It is to be hoped that the investigation now in progress may finally result in solving this question to the satisfaction of all and in a way that will accomplish most for the common good of the country. The Le Soleil (Quebec) says:

LE SOLEIL

During this month beginning at Matapédia the investigation into the railway situation on the Gaspé Railway is taking place and the means of improving them if they prove unsatisfactory. In fact the investigation was announced to begin on Wednesday Oct. 9th.

Due to the death of Hon. Frank Carvell a few weeks ago the inquiry had to be taken place in August was delayed until an appointment could be made to the chairmanship. Hon. Mr. McKeown decided at the request of Hon. Rodolphe Lemieux and Hon. Charles Marcell to start the investigation immediately.

It is certain that the Gaspesian population is one of the most isolated in the country. The demands that have been made since sometimes did not come from a few discontented persons, but from serious and distinguished personages, in good faith, and whose judgement and uprightiness could not be doubted. The Hon. Rodolphe Lemieux, Speaker of the House of Commons, and Hon. Charles Marcell, Member for Bonaventure, fully aware of the grievances complained of by the Gaspésians.

That is why the investigation gives to all a ray of hope. It is difficult now to tell exactly what will be the practical solution which imposes itself is the acquisition by the Canadian national Railway the existing road. But some difficulty might arise: Will the Company accept the price that would be offered by the Railway?

EDGAR WADE MAY QUIT BATHURST

Moncton Report that He Will Not Play for the North Shore Town

A story to the effect that Edgar Wade, former Marysville and Fredericton back division player, who has been slated to be with Bathurst Hockey Club during the coming season, has left Bathurst and will not play there next winter, is published by the Moncton Times.

Bathurst had counted upon Edgar Wade and Kenny Carroll, who last season starred for Moncton, to transform their team into a sure championship winner and referring to Wade's defection, The Times states: "The loss of Wade will be a big one to the Bathurst team as he is a very capable player and one of the best 'shooters' back line men in the province, and his place will be hard to fill."

At Pénissie, where Edgar Wade's family reside, it was said to-day that Edgar was expected to arrive there this week from Bathurst, but as to his plans for the winter nothing was known.

Referring to the plans of the other teams of the northern section of the Maritime Provinces Amateur Hockey Association, the Moncton Times also says:

"The local backers are working slowly but surely and feel confident that enough new material can be developed to fill the gap left by Carroll, Webster and Cleveland."

"While in Chatham recently the writer had occasion to talk the prospects of the winter pastime over with a few of those interested in Chatham and was informed that from the present indications the town will not be represented this winter. But this is an old failing of the Chatham team, to drop the rubber then rush forward with a squad that is always a disappointment, calibr.

AWARD CONTRACT

NEWCASTLE SCHOOL

Newcastle, N. B., Oct. 13.—Messrs. Somers and Ramsay have been awarded the contract for the new High School. This building will be of brick interlocked in tile, will have eight rooms, four to be completed now. It will be built just back of Harkins Academy, facing on Campbell street. The foundation will be completed this fall and the building by Aug. 1st, 1925. The sub-contract for excavating, which was begun this week, is being held by Charles Sargeant.

tion will surely understand the necessity of favoring as soon as possible in the national interests, the development of Gaspésie. Nevertheless we ask what could be decided in case of a refusal? Would there be recourse to expropriation? A Mont real Daily asks the question without giving a reply.

There is one thing certain: that is that the counties of Bonaventure and Gaspésie can become important elements in the general economy of the province of Quebec.

It is in the country of fishing, where cod fish, abalones, mackerel, salmon, herring, oysters, lobsters, and many other kinds of fish are caught. These fisheries can be organized on a business basis, it is essential that communications of the region be excellent on land and sea. All obstacles to progress would remove and the efforts made for the well being of the fishermen. Further, Gaspésie is far from being foreign to cultivation: there is general farming and the products of the soil require an outlet and good means of transport.

BANDITS SHOOT TRAIN CREW

Mexican Bandits Kill Nine in Cold-Blooded Manner—Got Away with \$15,000

El Paso, Oct. 13.—B. F. Barker, of El Paso, auditor of the Rrupcion Mining Company, and eight other men were lined up and shot to death Thursday by bandits who wrecked a freight train of the Chihuahua and Oriente Railway, forty-one miles southeast of Juarez in a \$15,000 payroll hold-up.

The entire train crew was included in the nine men killed. A Mexican customs guard, the only man on the train who was armed, is missing. It is feared he also was slain. A full had been removed from a engine tender and a box car loaded with dynamite left the track. According to the story received here the train crew and Barker were marched to near the rear end of the train where they were required to sit down with their backs against an embankment, their hands raised. Each was shot in the forehead, except one man who apparently ran to the caboose and connected up a field telephone set before the bandits saw him. His body was found in the caboose, shot twice through the chest.

Federal troops are at the scene to start in pursuit of the bandits, two of whom are thought to be Americans.

HAPPINESS IN WORK FOR PRINCES

Many German Princes Forced to Work for a Living

Berlin, Oct. 13.—The last ten years in Germany has deprived many a prince of his income, and sent him out to make a living along with the rest of the world. Not a few of the nobility, particularly among the younger generation, have said they were happier and more contented with life generally since they went to work than they were when they had nothing to do but count their income and look for thrills in sports, society or military manoeuvres.

What the public is to do with the property that once belonged to former Emperor William is still an open question. He possessed large estates in Brandenburg, Pommern, Posen, Silesia and West Prussia, and other assets, which have been appraised at \$40,000,000, all of which he lost when he fled to Holland in 1918. His income to-day is relatively very modest indeed.

The castles, picture galleries and other valuable collections regarded as the property of the old dynasty were taken over by the state. A number of the princes, however, brought suit to retain their holdings and have regained title to some of the properties which were confiscated when the republic became a reality.

It has been estimated that the former King of Saxony, Friedrich August, was a loser to the extent of \$6,000,000. The Saxon Diet now gives him \$80,000 a year.

Other rich noblemen who to-day are living on greatly reduced incomes are the Grand Duke of Saxony-Weimar, the King of Wuertemberg, the Grand Duke of Oldenburg, and the Prince of Schaumburg-Lippe.

CARD OF THANKS

The Sisters and Nurses of the Hotel Dieu Hospital wish to express their sincere thanks for the following, who contributed towards the Graduation Exercises:

Messrs. W. D. Burns, L. G. Bourque, Mr. Bradley, Robert Butler, Alph. Boudreau, J. M. Carey, H. Dube, M. Kennedy, J. B. Leger, Lawrence Lynd, H. MacEvoy, R. Neilly, N. P. McLaughlin, C. Paret, Gerald Rail, E. Renault, L. N. Raymond, Lionel Roy, G. St. Onge, P. M. Shannon, Mr. Walsh, R. Vermette.

Of Interest to Women

Some Ways to Keep Your Teeth Lovely

Beautiful teeth are quite as much to be desired as a beautiful mouth. In fact, if I had to choose between the two I should choose upon beautiful teeth, for good teeth go far in their effect upon general health and beauty.

No matter how rosy and smooth and soft the lips may be, much of this is discounted if they part in a smile to reveal teeth that are ugly and discolored. And if teeth are misshapen, the mouth cannot very well be beautiful in outline, for teeth have everything to do with the shape of the mouth.

For this reason, no woman, young or old, should object to wearing a brace for her teeth if her dentist advises it. A brace is unattractive enough for the time being, but it can readjust a malformation of the shape of your mouth for the rest of your life. Remember this, too, in the proper time to wear a brace is when the teeth are young and more easily pushed into place.

Now, in the systematic care of your teeth, there are four things which are vitally necessary. The proper tooth brush and mouth bath, the proper paste or powder and the proper diet must be attended to, if you wish your teeth to have every beauty chance.

Every woman should visit her dentist about every three months. This will save trouble and expense in the long run, for if you follow

this practice, the dentist will probably be able to clean up on some of your visits with the information that your teeth are perfectly sound. On the other hand a decaying place that is neglected can stack up trouble for the future.

Use a small tooth brush that fits into the corners of your mouth and allows you to reach every side of every tooth. This is very important.

There are any number of good, simple, inexpensive mouth washes on the market. You may prefer to buy one that a reliable druggist recommends, or you may prefer to make your own. Here is an excellent one: Spirit of rose, 8 fluid drams. Tincture of orris root, 8 drams. Alcohol (95%) 8 fluid drams.

Keep this handy and use it after meals or whenever you feel that your mouth needs refreshing.

An excellent tooth powder is made from: Camphor gum, 1 ounce. Precipitated chalk, 5 ounces.

Pulverized orris root, diet, the best. As to the proper diet, the best general rules, for teeth-beauty are to avoid things that are very hot or very cold, very sweet or very sour.

Foods that contain much lime are very strengthening to the teeth. Gluten and whole wheat bread instead of white bread and cake are excellent.—Lucius Bori.

Inventions That Help In Kitchen Work

Inventors and manufacturers are striving in every way to make work easier for the housewife by bringing

out friendly conveniences for her apartment almost weekly. There are many sorts of washing-machines and dishwashers that are helpful in kitchen equipped for their reception.

One of the simplest dishwashers enough to melt the gelatine. Strain has a soap container above the hose attached to the hot water faucet which gives a stream of soapy water on the dishes stacked in the wire drainer below and a deft turn of the indicator shuts off the soap and leaves a stream of clear hot water that rinses the dishes thoroughly.

Simple to operate, effective, and inexpensive compared to the more elaborate outfits. There are three or four attachments of brushes for pots and pans. Women who are housewives or professional workers want to keep their hands in good condition, so appreciate not having to put them into strong sudsy soap water to do the dish washing, though a large percentage prefer to do their own cooking to eating at restaurants.

In homes where there is no electricity women are finding the vacuum cleaner a valuable and efficient thing. It works just like the old carpet-sweeper, though it carries a dust bag in its handle just like an electric vacuum, and its suction power is very strong so that it does excellent work. The device is as easily run as a carpet sweeper and is durable and inexpensive compared to the more elaborate ones using electricity. The woman who uses a carpet sweeper will find this cleaner a progressive step.

All of us who cook by gas are glad to know of the things that make gas-saving possible. Many of us now use the fitted saucapans, three cooking on one burner, and now comes a bake-pot that goes the old Dutch oven better. The pot is placed over the hole and potatoes and biscuits may be baked at the same time successfully and layers for cake and meat may be cooked at the same time, the flavors are not being contaminated in any way. This fact is due to the system of ventilation in the construction of this masterly cooker.

We all know what it means to light the oven to cook a couple of baked potatoes or a small pudding and it does not take long to see the advantage here in using the baking pot over one hole. The pot soon pays for itself and is one of the conveniences we cannot afford to overlook.

Women who have not met the standing broiler for gas stove use have missed making a valuable acquaintance. Remedy the oversight at your earliest opportunity and enjoy steaks broiled over one hole, so they are easily watched and cooked at a quarter the expense in fuel. The broiler is covered on either side, has a long dip up to catch the juices, and a stout broiler that is upstanding, may be turned if desired, and cooks the meat perfectly, much more evenly than it cooks in the regular broiler under the gas oven.

All medical men are in harmony on the question of the superiority of broiled foods and even laymen balk at a fried steak, or one that is burned on the outside and half done in the centre, a condition that frequently exists if the usual gas broiler is not watched and regulated by an expert cook.

In families where a great deal of lettuce is used, the daily salad being a dinner feature, should know the comfort of the salad basket. This is a globe like wire affair which the lettuce leaves are put into by opening the small door, or is placed under running water until the lettuce is well washed. It is then allowed to drain and may be shaken free of all water, then set right in the ice box until the salad is needed.

The basket comes in improved form which allows it to fold when not in use thus requiring very little storage space. Not only lettuce but spinach and other green stuffs may be washed in the basket easily and quickly thus making it a real kitchen labor-saver and comfort, that is moderate in price and durable.

Four Unusual Ways To Serve Oranges And Other Fruits

The modern recognition of the health giving qualities of the citrus fruits, makes the opening of their prime season in the northern market an event to look forward to. The season formally opens around the first of November and last until May, though there is hardly a month in the year when these fruits are not obtainable.

We are all familiar with grapefruit and orange cocktails, halved and served as appetizers, canapés, salads and frozen, but we are not so familiar with their use as cooked dainties. The following recipes will show just how they may be used to the best advantage. Fruit juice as a healthful drink is too well known to need any added praise.

Orange Layer Cake

Grate the rind of one orange into two cupsful of sugar and work to a cream with three quarters of a cupful of butter. Beat in the yolks of four eggs, then work in four small teaspoonfuls of baking powder, a cupful of sifted pastry flour, three heaping spoonfuls of salt and the same of bicarbonate of soda. Stir in three quarters of a cupful of strained orange juice and a quarter cupful of water. Stir until very smooth and light, then fold in the stiffly beaten whites of eggs. Divide in layer pans and bake as usual. Add a little yellow coloring matter to the icing and make the

Lemon Soufflé

Put the yolks of six fresh eggs and two ounces of sugar into a shallow pan. Heat thoroughly, beating constantly with an egg beater, but do

not allow it to boil. Stir in the grated peel of one. Soak half an ounce of gelatine powder in a cupful of cold water, then set it on the fire and allow the water to heat until the gelatine is melted. Strain into a half pint of heavy cream, whipped dry, mix the eggs and turn into a dish to chill. Garnish with strips of angelica and candied cherries.

Grapefruit Pie

Remove all skin and seeds from two large grapefruit and set to drain. Line the pie plate with rich short crust. Peel and chop two tart apples fine. Fill the pie with grapefruit and apple, add a cupful of sugar with a heaping teaspoonful of cornstarch and a tablespoonful of strained juice of three lemons and four sifted through a sieve. Four in the drained grapefruit juice and the juice of an orange, add the top crust and bake as usual.

Grapefruit Blanc Manger

Mix six tablespoonfuls of cornstarch with six tablespoonfuls of water. Mix well, then add a cupful and a half of boiling water. Bring to boiling point and cook until clear. Mix three quarters of a cupful of grapefruit juice with three quarters of a cupful of sugar and a saltspoonful of salt. Cook all together one minute, then pour onto the stiffly beaten whites of three eggs, beating constantly. Turn into a wet mould and set to stiffen and chill. Serve with a custard sauce or any pudding sauce flavored with orange or lemon juice.

Fancy moulds are flocking back to the counters they deserted during the war and proving of untold joy to the housewife who has been using substitutes all this time. As the holiday season approaches we are turning over thoughts of fancy holiday cookery, looking over our most treasured recipes and the use of moulds figure largely in our plans.

In this day of individual service of small moulds take precedence over the larger ones. For instance, individual plum puddings turned out of wee moulds that are the replicas of big ones, are fascinating and decorative in their own way, looking like children impersonating grown-ups.

We may run riot in choosing jelly moulds, for they come in many shapes, the most popular being melon, walnut, fish, pineapple, crown, ear of corn, wooden soldier, Mother Goose, swan, duck, star, diamond, heart, spade, club and numbers of other shapes. Moulding jellies is quite a knack and one who becomes expert can produce many attractive dishes.

Then come the various fish moulds. There is the flat dish mould, the curved fish set on edge, the lobster mould and the shell-shaped moulds. Their shapes give opportunity for many pretty ideas in garnishing. Strange to say, many of the moulds are turned over copper foundation, but seem perfectly satisfactory to use for the purpose, though we are told not to use tin things for fish. Perhaps this may apply only to standing in a tin receptacle or cooking the fish in it. A number of the moulds that are extra heavy are used for baking the fancy fish dish. When done they may be turned out onto a dish and are then garnished. The moulds may be gotten in three sizes, though the individuals are first favorites.

The copper ice cream moulds show a most attractive variety. Here again the individual ones show most variety, among them being special ones designed for children's parties, small fruits, vegetables, airplanes, kites, animals, a fascinating squirrel holding a nut in his paws, and many floral devices. These moulds are expensive, as they are double and hinged, but while the outlay is appreciable, the moulds last for a long time.

Ring moulds for border dishes, and cold pudding moulds of different varieties, are also rather expensive, but they wear indefinitely. We are advised not to use aluminum moulds for acid foods, but the tin ones are not so restricted.

Many women insist on china and glass moulds and there are a number to be had, but the design never seems to come up as clearly in them as in the metal moulds.

In chilling small individual moulds, it is a good idea to have a square pan in which six or more little moulds fit, then a shallow pan the same size that may rest on top and carry as many more. In this way room is economized in the ice box.

W. C. T. U.

THE BIBLE AND PROHIBITION

The Bible does not preach directly the prohibition of the liquor traffic. There was no liquor traffic, as we know it, in those old Bible days. Hard spirits, such as whiskey, brandy, rum and gin are but inventions. There was no organized, legalized monster then seeking whom he might devour, making rules and politicians to tremble, defying the Church, and causing general suffering and want and crime. If there had been such a creature, those fearless prophets of the Bible would have been the first to have advocated a prohibition law, for they hated tyranny, greed and corruption.

No, the Bible does not teach us the prohibition of the liquor traffic, neither does it teach the prohibition of the drug traffic, or slavery or polygamy, and there is as much reason in a plea for those three last named things—which no doubt Mr. Forster would be one of the first men to condemn—as there is in a plea for the continuance of the manufacture and sale of intoxicating drinks.

The Bible lays down great, guiding principles and trusts to the common sense of men of succeeding generations who read it to apply these principles to the vexing problems of their day.

The Prohibition Movement is an educational movement and is a result of the larger light which men today have of the nature of alcohol and its beneficial effects, when used as a beverage, upon human bodies and morals. It is also an intelligent recognition of the Golden Rule and of the exhortation of the Apostle Paul for the strong to bear the burdens of the weak and to deny themselves for the good of others. For one passage in the Bible that the Modernists can twist to suit his selfish purpose there are a hundred to uphold and encourage the Prohibitionist in his unselfish struggle to establish sobriety in the world.

The annual Provincial Convention of the W. C. T. U. will be held in the Methodist Church, Oct. 14th, 15th and 16th. The Rev. Thos. Marshall, Sec. of the New Brunswick Temperance Alliance will speak on Tuesday evening.

Carnation—For Baking

YOU will find Carnation Milk a wonderful aid to good baking. Use it in your fillings and icings as well as for creaming vegetables, making soups and gravies. Serve the coffee with Carnation. Use it diluted in tea (one part Carnation, three parts water.) Use it undiluted with fruits and cereals.

Carnation is just pure fresh milk, evaporated to double richness, kept safe by sterilization. Order several tall (16 oz.) cans or a case of 48 cans from your grocer.

Cook with Carnation Milk. Write for our Recipe Book containing over 100 tested recipes.

GINGERBREAD: 6 tablespoons water, 2 1/2 cups flour, 1 cup molasses, 2 tablespoons Carnation Milk, 1/4 teaspoon salt, 1/4 teaspoon soda, 1 1/2 teaspoon ginger, 1/2 cup butter or lard. Sift dry ingredients together. Add liquids to molasses. Combine mixture, add shortening and beat well. Pour into greased shallow pan and bake in moderately hot oven about 25 minutes.

Campbellton, N. B., Oct. 16th, 1924

MUST BE PROTECTED
 Occasionally complaints from citizens, regarding the destruction of trees in some locality of the town, come to our ears. Yesterday such a case was brought to our attention and this time the locality chosen by these vandals is the Campbellton Rural Cemetery—one of the most desirably located and best kept burial grounds in the province. A beautiful tree has been stripped of its branches and stands as a mute testimony to the mischief of some person or persons who could find nothing better to do than destroy property, the acquisition of which they are in all probability, too indolent to contribute toward.

Campbellton, regardless of what locality one may consider, can ill afford to have her trees ruthlessly destroyed. Those she does possess are too few in number to warrant any tolerance towards destruction of this kind for they represent considerable labor as well as a sizable financial investment. Persons be they youths or adults, who take pleasure in such an inglorious practice are, of course, insensible of beauty or its attributes and are totally indifferent to the loss they occasion. They cannot therefore expect more than a modicum of leniency in the treatment given them should their identity be disclosed. In the past the authorities have been prompt in dealing with such cases and no doubt this particular instance will find them on the alert. If our citizens keep in mind the necessity of tree-planting as a most effective means of beautifying our town, Campbellton will before long, have an abundance of lovely shade trees which will do much to add to the value of property as well as to make our town a place to live in. But unless these trees are protected a good object will be defeated.

THE RED CROSS DRIVE
 In the drive for membership which is to be launched here Monday by the local Red Cross Society and which is now in progress throughout the province, the public at large is given a splendid opportunity to materially assist in the promotion of a most worthy work. Probably no other organization works more quietly than this same institution yet no other association does more in its own way in ameliorating undesirable conditions throughout the country particularly in connection with Health and Relief work. In spite of this fact citizens generally are woefully ignorant of the splendid work being persistently carried on year by year by these societies, and in view of this we would like to present a few facts for all to remember when the proposed drive for membership begins. During the past year the New Brunswick Division of the Red Cross of which our local branch is a unit, (A) Cared for 385 Sick Soldiers in Lancaster, River Glade and East Saint John Hospitals.
 (B) Spent \$4,000 in maintaining Public Health Nurses in Province.
 (C) Has given out over 2,000 articles for Fire, Flood and Emergencies.

(D) Has given treatment to 2,939 Ailing Children by Travelling Clinics.
 (E) Has maintained Junior Red Cross, now comprising in vicinity of 5,000 members.
 (F) Are establishing and organizing Home Nursing Classes throughout the Province.
 (G) Besides which a large amount of Relief Work has been done in each Branch Community.

EDITOR'S MAIL

Editor The Graphic,
 Campbellton, N. B.

Dear Sir,
 There was an article in your paper recently in regard to the Scout Movement with which we heartily agree and am glad to say that there are now several troops of scouts in Campbellton but any organization of this kind is working at a decided disadvantage as there really is no suitable place for them to hold their meetings and to carry on their work. Campbellton has always been considered a very progressive town both in a business way and in regard to the welfare of the town and one is struck by the large number of excellent young boys and girls mostly of the teen age and for whom no provision seems to be made in the way of a clubroom or gymnasium. We now have a very fine Golf Club and Curling Rink for the older people but the younger generation are apparently left to work out their own salvation. It is a well known fact that all young people have a great deal of superfluous energy of which they must get rid and under the right conditions it is very easy to control and direct this excess energy so that it will develop character and make them better men and women. We are fortunate in having a very competent instructor here this year who would be very glad to start any work of this nature if a suitable place were provided, and no doubt there are many others who would be willing to help.

The suggestion has been made that a large plain building be put up which could be used as a gymnasium and meeting place for all the organizations such as the Tuxis Boys C. G. I. T. Scouts and so on, and surely in a town where lumber is the chief industry this could be done at a very moderate cost.

We would like to know just how many are interested as there certainly is a great need of a building of this nature.
 Interested Scout.

MISTOOK BOBBED HAIR

FOR A WOODCHUCK
 Attleboro, Mass., Oct. 13.—Seeing a busy object through a tree James F. Kennedy caretaker of an estate here fired a load of buckshot expecting to bring down a woodchuck. Instead he heard a scream saw a girl rise and swoon and discovered that the buckshot had lodged in the scalp of Miss Lidia M. White without serious injury. The gunner had mistaken for a woodchuck the young woman's bushy bobbed hair.

DYNAMITE HOUSE

NIAGARA FALLS
 Niagara Falls, Ont., Oct. 14.—An attempt to blow up the two storey frame house of Tony White, an Italian, at No. 7 Stanley street, was made at 2:30 o'clock in the morning. About a dozen windows were broken and the siding of the house torn off. The windows of Tony Frank's frame house adjoining were shattered and the side of his house torn off.

The explosion could be heard two miles away. Tony has lived here several years and has figured in police court for violating the Ontario Temperance Act. Mrs. Tony Frank has also been convicted of violating the O. T. A.

The family of Tony White were asleep at the time, but were thrown out of their beds, which were covered with glass.

Clash Occurred Last Night. Between Party of Montreal University Students and Police on St. Denis Street.

Montreal, Oct. 13.—A clash occurred last night between a party of Montreal University students and the police on St. Denis street, with the result that to-day the former are indignantly protesting he alleged rough handling meted out to them by the law's representatives. The students, about 150 in number, were parading home from the Orpheum Theatre in the middle of the street, giving their college yell, and incidentally pulling a few trolleys off the wires, when several policemen descended upon their ranks. Banners, according to the merry-makers' version, were indiscriminately used to disperse the procession and the police were "unnecessarily rough". The matter is to be officially reported to the Director of the university.

MILLS CLOSING

It is understood that the mills of the S. S. Gaspe Co. are to be closed down about the end of this week.

A SPECIAL ATTRACTION

It is understood that a Novelty Dance will be held at the Lyman on Halloween. This will doubtless prove a big attraction and be one of the most enjoyable social functions of the season. No details have yet been given out but a definite announcement will be awaited with interest.

PUBLIC HEALTH ACTIVITIES

HEALTH CENTRE
Monday Health League class 4 p.m.
Wednesday Mother's Class, 8 p.m.
Thursday 7 p.m. class for High School Girls.
Friday, Well Baby Clinic 2 p.m.
Office hours: Public Health 1.15-2.15 every day except Saturday.
Telephone 421.

HEALTH CENTRE

It is urged that more mothers bring their babies to the Well Baby Clinics. There have been many sick babies this summer in Campbellton. Babies showed gain a certain amount every week, how can the mother know if the child is gaining the required amount unless the baby is weighed—weigh your baby.

RED CROSS DRIVE

POSTPONED TILL MONDAY
The Red Cross Drive for members which was scheduled to begin today has been postponed here until Monday owing to the meeting of the Women's Institute which is in session here for three days this week. After these meetings are over however collections will be secured and the work begun with a will on Monday morning. Don't forget the Date, Oct. 20th.

CHATHAM BOY SHOT

Chatham, Oct. 12.—O. White, was shot through the shoulder and another boy, Thomas Campbell, had a bullet go through his cap when going through the woods a short distance from Chatham Saturday afternoon. White was taken to the Hotel Dieu Hospital where his wounds received medical attention. To-day he is reported as making favorable progress. The accident is believed due to careless shooting of young boys.

GASPE SHIPPING NOTES

The "G. S. St. Guinard" and "S.S. Rosalind" were among the recent arrivals in our port. The schooner "Astrid W" in charge of Captain Solberg was in port last week and left for Halifax, N. S. The "S. S. Philip T. Dodge" after loading pulp wood at the St. Maurice Lumber Co's wharf here sailed on Thursday for Portland, Maine. Before coming here this steamer loaded at Chatham, N. B.

NEW BRUNSWICK ASSOCIATION

OF REGISTERED NURSES

NOTICE TO GRADUATE NURSES

On Nov. 1st 1924 the following fee card goes into effect. Copies of this card may be obtained by nurses from Miss Bliss, Supt. Soldiers' Memorial Hospital, Campbellton or from Miss M. McMillen, St. Stephen, N. B.

BIRTH NOTICES

Born to Mr. and Mrs. Fred Dickie a son at the Soldiers' Memorial Hospital on Friday, Oct. 11th.

Born to Mr. and Mrs. J. E. Pichette, a daughter on October 12th.

CARD OF THANKS

The Social Committee of the Soldiers' Memorial Hospital Aid wish to thank Mrs. Robert Smith for her donation of fifty dollars.

ACADIA BANQUET

A Banquet in aid of "Acadia" will be held at the Vestry of the Baptist Church on Friday evening, October 24th, at 7 p.m. Tickets are on sale at J. H. Moore's Drug Store Price \$1.00.

IMPROVEMENT

It is expected in lumber circles in New Brunswick and Chatham that the price of lumber, in the American market will show an improvement in a short time. Indications of the upward movement are already to be seen.

IN AID OF S. M. H.

On Friday, Oct. 10th from 4 to 6 a very excellent fair was held on Mr. D. McBeath's premises in aid of the S. M. H. Those who organized it and worked so energetically were the Misses Catherine and Constance Grier, Isobel and Eva Love, Georgie Miller, Pauline and Rachel McBeath. Tickets sold at 1 cent each, candy apples, fish pond and puzzles were just as reasonably priced. A bowling alley was conducted by Alvin Miller. The sum netted was \$6.20.

INJURED IN FALL

FROM SHIP'S MAST
James Silver, married, and a resident of town suffered severe injuries on Saturday morning while at work on a mast of the schooner "Marion L. Conrad" which was at the time discharging a cargo of molasses for the Reid Company here. The unfortunate man who was working at the cross-head on one of the ship's masts, lost his footing and fell to the deck below, a distance of about thirty feet, breaking one of his arms in three places and fracturing several ribs. He was rushed to the Hotel Dieu Hospital where he is receiving treatment provided through the Workmen's Compensation Board.

BOOTLEGGER FINED

A case of audacious bootlegging which resulted in a speedy conviction and punishment, was disclosed here on Thursday afternoon. Last week Fred Bodin of Fort Daniel, Que., was discovered selling liquor to employees of the Stetson Cigar Co.'s Mill during the noon hour. Bodin's apprehension resulted from tick of judgment on his own part in as much as he carried on his nefarious trade almost under the very nose of Inspector Gray. Arriving in court he was fined \$75 and costs and served imprisonment by Magistrate Matheson for selling intoxicating liquor to men while at work in a mill where their own safety depended so much on sobriety and carefulness.

SAILORS ARRESTED

Two sailors, one of them an officer from one of the ships engaged in loading lumber at this port, were each fined \$10 and costs in the police court yesterday by Magistrate Matheson, being charged with resisting arrest on Saturday night.

Police Officer William Smith noticed some sailors under the influence of liquor and warned them two or three times to go back to their ship. Finally one of the men attempted to strike the policeman, after which a lively tussle took place. Two of the men made a hasty getaway but the fourth was obliged to use his bulley. With the help of an onlooker he succeeded in handcuffing one man and when the other persisted in refusing to the police station he was also lodged in jail.

WHIST PARTY

Don't forget the whist party at the Academie on Friday, October 17th in aid of the poor.

RED CROSS DRIVE

Remember the Red Cross Drive on Monday and help an eminently worthy cause by becoming a member of this energetic organization.

LATHS FOR AMERICAN MARKET

The schooner "Joan Kallier" 500 tons left port Tuesday with a cargo of four million laths for the American market. The vessel was loaded by the Stetson Cattle Co.

MOTOR MECHANICS

If you are interested in the splendid course in Motor Mechanics which will be available in the Vocational Evening Classes after Oct. 23rd, when this class opens get into communication with Mr. J. E. Vallis, Director of Vocational Training, Phone 237 or 259.

THE DUTY OF THE NURSE TO THE COMMUNITY SHE SERVES

Address by Dr. D. Murray, Vice President of the Medical Staff, to the Graduating Class in Nursing at St. Joseph's Training School for Nurses, Hotel Dieu Hospital, Campbellton, N. B., September 22nd, 1924.

(Published by Request of the Graduating Class.)
Nursing is both a Science and an Art. As an art the Nurse-in-training is taught what to do and how to do it, as a science she learns why she does it—the reason for each procedure.

In these days of scientific investigation it is imperative that the "why" and the "wherefore" of all important details of nursing should be thoroughly understood by the nurse in charge of each case.

By the term "Nurse" we mean a person who is specially educated and trained in the science and art of nursing and personally adapted to the work of caring for the sick and the wounded.

That day is past when an intelligent public will be satisfied to have the physical infirmities and welfare of their loved ones assigned to the tribunal of those whose knowledge of nursing savors only of prepetuated tradition.

As long as sickness and injuries prevail and frail humanity continues to be a prey to "the ill that flesh is heir to," just so long will skillful and intelligent nursing be required.

To the self-sacrificing devotion of the nursing fraternity we are much indebted for the recovery of many of our patients from the dread ravages of disease, as well as for the prevention of many ailments, which under different circumstances, might have terminated fatally.

Martha, when she anointed the feet of our Saviour and bathed them with her tears and Florence Nightingale, when she braved the hardships of the battlefield, in order to care for the sick and wounded soldiers, were both engaged in a labor of love and prompted by a keen sense of duty and unselfish devotion. As a matter of fact the whole history of Professional Nursing is replete with outstanding examples of great heroism and personal sacrifice.

National custom throughout the world has hitherto been to confer the highest honors on two distinct classes of persons, viz: those who have devised the most expeditious methods of killing, or putting out of commission the greatest number of human beings on the battlefield and those who have invented or discovered the most successful methods of eradicating and preventing diseases and the consequent saving of the largest possible number of human lives.

Until a few years ago however the latter class of workers have only been accorded a tardy recognition at the hands of those in authority. The tide however is turning and with the prospects of a reduction of the armaments of warfare and the united efforts now being put into practical operation along the lines of modern medical treatment and prevention, we can see the prospects of a new era in human happiness.

To be successful in her work the nurse must be in good health herself and have a good appearance. She must be patient, kind, firm in manner and discipline, even tempered, cheerful, have a pleasing disposition and possess a gentle touch. Her radiating countenance should reflect the true Christian impulses of her noble soul. She should be willing to forego the frivolous pleasures of fashionable society, in order to devote all her energies towards the alleviation of human suffering in any emergency, even at considerable personal sacrifice.

She should also keep abreast of the age in which she lives, by a careful study of the best literature bearing on the subject of her chosen profession and I have every reason to believe that all these qualifications are exemplified in a marked degree by the 10 graduates of St. Joseph's Training School, who have received their Diplomas this evening, as an evidence of their qualifications and a practical recognition of their scholarship and training.

J. G. STINE.

ANOTHER DROP IN CANADA'S DEBT

Reduction of Over Two Million Dollars Recorded During Month of September

Ottawa, Oct. 8.—The net debt of Canada dropped \$2,110,786 during September and now stands at \$2,385,406,861. In September, 1923, the debt showed a decrease of \$5,349,512.

Ordinary revenue for the month of September was \$24,642,556 as compared with \$30,925,501 during September, 1923, or a decrease of over six million dollars. Ordinary expenditure last month was somewhat lower than in September, 1923, the figures being \$22,629,292 for the last month and \$23,484,756 for September of last year.

Comparison of the figures for the last portion of the fiscal year shows a decrease of nearly twenty-six million dollars in ordinary revenue and an increase of \$1,518,355 in ordinary expenditure. The first half of the present fiscal year closed on September 30. Ordinary revenue collected amounted to \$181,135,872 for the six month period of 1923.

Ordinary expenditure for the six months just ended was \$136,885,123, against \$134,864, 49. The falling off in excise tax collections when the two six month periods are compared amounts to \$30,472,857, due largely to modifications in sales tax. Total excise tax collections in the six months of 1923 were \$60,847,798, while in the half year just ended they amounted to \$40,379,941.

Customs revenue also showed a falling off when the two half years are compared. During the six month period of 1923 revenue from customs amounted to \$62,265,652, while in that just ended it was \$54,705,388, this year totalled \$49,422,600, as compared with \$46,862,992 last year. The main item under the ordinary expenditure head is that of interest payments on the public debt. This shows a decrease from \$61,206,261 last year to \$59,749,240 this year. Pensions payments increased from \$12,719,715 in the six months of 1923 to \$14,136,092 during the year just ended.

AUTO FATALITY NEAR ST. J. HNS

One Woman Killed and Eight Others Injured When Car Was Struck by Train

Montreal, Oct. 15.—One woman was killed and eight other persons, including a baby, were injured when the automobile in which they were riding was struck by the Canadian Pacific Railway Montreal-bound Sherbrooke train on a level crossing in St. Johns last evening.

Mrs. Ernest Giroux, aged 30, of St. Johns, died in a hospital an hour after the accident. She was holding her child in her arms when the crash occurred. But though the infant was hurled into the ditch he escaped with slight bruises.

The injured, all of them residents of St. Johns are: Miss Trahan, Clarence Fredette, William Fredette, H. Remillard, Aurore Fredette, Emil Beaulieu and a young man whose name could not be obtained. All are confined in hospitals.

BATHED INFANT IN BOILING WATER

Daughter of Baby Home Proprietor Accused of Causing Death of Child

Morristown, N. J., Oct. 14.—Ethel Burke of Troy Hills was held without bail on a charge of manslaughter. She is accused of pouring boiling water on the 20-month-old son of Mr. and Mrs. George Estelle of Newark last Wednesday morning.

The act took place, it is alleged, at a baby home conducted by the girl's mother, Mrs. Della Burke, at Troy Hills, where nine infants were under Mrs. Burke's care. Prosecutor Bolitho asserted today that the home had been conducted without a license. On Wednesday morning, Mrs. Burke told County officers, she left the infants in her daughter's care while she went to a nearby store. The daughter, it is charged, put the baby in a bath tub, poured boiling water over it and washed its body. The infant died yesterday at 3 a. m. without having received attention from a physician. Coroner Tom Lewis of Bonton was called five hours later.
