## VALEDICTORY

General Booth's Farewell to America

## MADE STIRRING SPECTACLE

SALVATION ARMY IN THOUSANDS PARADED THE STREETS OF NEW YORK—LAST WORDS OF THE VETERAN LEADER OF THE GREAT RELIGIOUS MOVEMENT.

New York, Nov. 8.—Tonight, at a big open air demonstration, at which stereoscopic reproductions of various scenes connected with his life work was a novel feature, general Booth, who is to sail tomorrow for Europe, after what will probably be his last American campaign, bade his soldiers in America to show zeal and affection in their work. He preferred an open air meeting rather than an indoor meeting, he made an address in which he said that he believed that no place was better fitted for the pulpit for his unique demonstration than out doors, where many of his army triumphs have been won. As he stood on the steps of the city hall surrounded by hundreds of uniformed followers, the glare of dozens of torches strikingly showing his tall, erect figure, but his voice was somewhat husky from the strain of his many recent public addresses, so that it was necessary to repeat his words through a megaphone.

Thousands of adherents and friends of the Salvation Army bearing flags and torches formed in a parade in West fourteenth street, near the national headquarters of the organization, at 8 o'clock, and to the music of four bands marched down through the poorer sections of the East Side. Thousands of the residents of that district followed in line to the city park.

When a near approach to order was had, general Booth addressed the assembly, three megaphones standing before him repeating his words in unison. He said: "My beloved comrades and friends: We have had an amazingly good time. I believe with confidence in the war. Be true to your principles and your Master, stand by His cross as He stood by you; be true to your commander, as he is worth of it; be true to your general. Prepare to fight to the death for God, for salvation, for the true welfare of the nation; to get people to be good men and women, to be the saviors of the world, to be the saviors of the world."

"You have nearly killed me but I shall recuperate on the steamer. Friends of everybody, enemies of none. Good night. I may never live to come to see you again, I have lots of friends here. God bless them, your wives and your selves. Hallelujah, all live for the salvation of the world. Fire a volley." (Chorus of amen.)

Commander Miss Booth interrupted, "Be careful father, you are killing yourself," and the general concluded his epigrammatic address with the words, "God be with you till we meet again." The hymn of this name was then thrown upon the screen and the crowd sang the words feelingly, after which the Salvationist leader stepped into an automobile and was taken to the steamer St. Louis, on which he will sail tomorrow.

After the meeting, general Booth dictated to the Associated Press the following words to the people of America: "Farewell America; you have given me a right generous welcome. On this visit I have been welcomed to the heart of the nation than on any other occasion. Fain would I have stayed longer with you, indeed, I would have wished that some method might have been invented that I could have been constituted one of your own sons, and so taken a practical step towards that fatherhood of the people which must of necessity be the first step to the brotherhood of nations, on which so many hearts are set. But I understand this to be impossible without sacrificing my fatherland, which nothing can prevent; however, my living is the spirit of that relationship and that spirit I shall think of you as I go forward on the path to which the beckoning finger of my duty invites me. My visit has been a busy, and I hope, a useful one. It has served amongst other things to reveal to me the fact of the improved understanding as the objects and methods of the army, together with the extent of higher appreciation of its value and influence. Many of your leaders in thought, commerce, politics, and religion, have said so in a most emphatic manner at the great gatherings, which I have been privileged to hold. The press, which if any where under the sun is a true exponent of the mind of the nation, has also said so in unmistakable terms. In fact your confidence and sympathy have made me happy for your hearty co-operation in carrying out the great program to

which I have consecrated my life. That program, which contains the highest happiness and the truest welfare in this world, the world to come, not only of every citizen, high or low, but of every member of the human race. With every assurance of my prayers and toils in all that concerns the righteousness and confidence in the future triumphs, on which the Army is founded, I remain, yours in the bond of faithful friendship."

"SERENE CAPITALISTS."

Labor Organizer of Hamilton Jobs Issue With Rev. Dr. Johnston.

Montreal, Nov. 8.—John A. Fleet of Hamilton, Canadian organizer of the American Federation of Labor, criticized the remarks made by the Rev. Dr. Johnston on the Asiatic question in British Columbia before the Manufacturers' banquet at the Canada club on Tuesday night. In Fleet's opinion, Dr. Johnston did not know of whom he was talking when he addressed the manufacturers. He did not suppose Dr. Johnston ever had experience with manel toil and consequently by reason his environment and education could not sympathize with those who depend upon their labor for their living. Fleet declared that statements made by Dr. Johnston was the product of a large army of skeptics and scoffers who are inclined to believe that a number of advocates of "serene capitalists" are not in sympathy with the under men in their struggle.

## UNSANITARY CONDITIONS

PRESENT STATE OF THE PUBLIC SCHOOL BUILDING.

IS UNPLEASANT BUT IS NOT A MENACE TO HEALTH.

Dr. Arthur, who is not only secretary of the school trustees but also city medical health officer, speaking yesterday to a representative of The Daily News of the sanitary condition of the public school and of some of the rumors which are rife in this regard, said: "It is perfectly true that the sanitary condition of the school, especially with reference to the lavatories, leaves much to be desired. It is also true that the hot air with which the school is heated is sometimes mixed with smoke from the chimneys, although, unfortunately, not so much as to compel a shutting down of the building, nor is it likely that the health of the children will suffer in consequence. Generally and perseverance in the war. Be true to your principles and your Master, stand by His cross as He stood by you; be true to your commander, as he is worth of it; be true to your general. Prepare to fight to the death for God, for salvation, for the true welfare of the nation; to get people to be good men and women, to be the saviors of the world, to be the saviors of the world."

"The lavatories are being constantly patched up. Every month there is a bill of repairs varying between \$5 and \$15. For years past the lavatories have been a constant source of trouble. It is well known that the building in sight it would be foolish to make any change. With the new building proper lavatories will be installed and there should then be no further trouble. It is true that the years ago close upon \$1000 were spent to put the building in a better condition but as far as permanent benefit is concerned the larger part of that money might just as well have been thrown into the lake.

"As to heating arrangements, they are not good. It is possible, that, under exceptional circumstances, in rare cases, the health of a child might suffer from the smoke which is occasionally given off by the stoves. But as a nuisance, it is a menace to health. Still, as with lavatories, with a new school, in sight, it would not be justifiable to plunge into an expenditure which would mean many hundred dollars to have the heating arrangements brought up to date. With the new school all these desirable arrangements will be made but it is not worth while patching up the old building."

## COPPER MINERS STRIKE

MICHIGAN MEN HAVE ISSUED AN ULTIMATUM.

OBJECT TO WAGE REDUCTION RECENTLY ANNOUNCED.

Calamet, Mich., Nov. 8.—The copper miners in the employ of the Calumet and Hecla Mining company, have issued an ultimatum to the management that the employees of the company will strike on Monday unless the management rescind the wage reduction of 12 1/2 per cent which has been recently announced and effect on December 1st. About 500 men are involved.

Because of threats of personal violence against general manager MacNaughton, the company, sheriff Brent is now arranging for the swearing in of deputy marshals to be available in case they are needed.

Since the company announced a wage reduction a week ago, it has been a source of anxiety to the copper miners of Michigan who are now out of work.

## EFFECTS OF LIBERAL RULE

A. BELLCOURT AND A. CAMPBELL WILL GO TO THE SENATE—A CONFERENCE HELD AT OTTAWA TO RECONCILE DIFFERENCES AMONG ATHLETES.

(Special to The Daily News)

Ottawa, Nov. 8.—The financial statement of the Dominion at the end of October, issued today shows a total debt of \$251,506,728, a decrease of \$56,719 during the past month.

The total revenue for the first seven months of the present fiscal year was \$58,267,719 and the total expenditure was \$53,504,232, of which \$13,107,334 was on capital account.

The principal items of revenue are: \$36,209,282 from customs, \$9,364,155 from excise, \$3,730,000 from the post-office and \$6,016,494 from public works, including railways.

The total revenue for October was \$2,233,071, an increase of \$443,587 over October of last year. The total expenditure for the month was \$5,173,873, a decrease of \$1,331,879 as compared with October, 1906.

Ottawa, Nov. 8.—Hon. A. Bellcourt, ex-speaker of the house of commons, goes to the senate in the place of the late senator Cashgar of Windsor. Archibald Campbell, M. P., Centre York, also goes to the senate. These appointments involve two bye-elections, which will take place before the meeting of parliament.

A snow plow was out at Hull this morning scraping the mud off the streets. The spectacle was a novel one. An important conference was held here today between the representatives of the Canadian amateur athletic union, the federation of athletes and coaches, and the Canadian representative on the English Olympic games committee. Messrs. Frank Nelson, N. H. Crowe, and J. G. Merrick are here on behalf of the C.A.A.U. and Messrs. Victor Buchanan, Charlie McLean and N. Spriggins on behalf of the federation.

The conference was arranged, it is understood, with a view to having the rival athletic unions come to some agreement whereby the athletes of both countries could compete for the Olympic games next year. The federation is expected to act for the American athletic union and some interesting results are expected.

## SHOULD ACT PROMPTLY

F. C. WADE ON IMMIGRATION QUESTION.

ADVANTAGES OF B. C. SHOULD BE PRESERVED.

Vancouver, Nov. 8.—F. C. Wade, K. C., who has just returned from a trip to London in an interview on the immigration question said, in part: "While Mr. Lemaire is busy with his mission in Japan, no time should be lost in putting forth every effort to procure white immigration for British Columbia. No other province is half as good as this one for the immigration of white people, which is that of distributing centres, the new tariff is the only logical one."

A fair-sized audience greeted the Jere McAllister company last night when they presented "Why Women Sin." The play was replete with exciting episodes causing interest throughout. Today the McAllister company give a matinee at 2.30 when they will present "Wives of the Priests of Liar," and tonight "Confessions of a Wife."

A presentation was made yesterday in Rossland at the house of C. B. Winter to the wife of the rector of the Anglican church, Rev. J. A. Cleland, on the occasion of her departure for Penitence to join her husband who has recently been appointed to the vicarage of that place. The presentation was a silver tea set and a purse of gold together with a highly eulogistic address to herself and husband for their five years work in the parish of St. George, Rossland.

The many friends of S. S. Taylor will learn with regret of the death of his son at Rossland last night. Stephen Taylor was born at Edmonton on June 8, 1883, and was therefore in his first year. He had been suffering from tuberculosis of the kidneys and it was thought that an operation might save him. This was to have been performed by Dr. Mayo at the Rochester sanitarium, but it was found that June that this was impossible as both kidneys appeared to be affected which afterwards proved to be true. Poisoning of the system had already set in and the end came yesterday morning. The body will be brought to Nelson for interment. Mr. Taylor will leave tomorrow on Monday to check his wife and the remains of his son at Rossland. The funeral will take place immediately after his departure here on Tuesday at Wednesday next.

## OFF FOR ENGLAND.

Berlin, Nov. 8.—Emperor William and the empress departed shortly before midnight for Flushing where they will embark for England. The emperor looked well and chatted cheerfully with prince von Buelow, the imperial chancellor and prince Oscar, his young son. The public is concentrating enormous interest in this visit. The railroad station was thronged with cheering crowds, among the people being several members of the cabinet, prominent military officers and other officials.

of Canada within the next few years of the most astonishing proportions. The outlook could not be brighter, so far as British Columbia is concerned, but if for no other purpose than to receive the white settlers who will come, whether some people here like it or not, it is the time to get busy."

## IS QUEEN OF THE SEAS

THE LUSITANIA MAKES ANOTHER RECORD.

IN THE FACE OF VERY STORMY WEATHER.

New York, Nov. 8.—The marvellous record established less than a month ago by the giant turbine, Lusitania, when she cut several hours from the passage time across the Atlantic, already has been broken. But the Lusitania still remains the Queen of the Seas, as it was herself that established the record for the full 3781 miles. The best new records to her credit. These include the best single day's run, 618 knots made on November 6th, an average of more than 600 knots for every 24 hours, and an average hourly of 24.25 knots for the full 3781 miles. The best previous record for the westward passage across the ocean was by the Lusitania on her last voyage, when she covered the distance in four days, nineteen hours and fifty-two minutes. The voyage ended today over the same course, was completed in four days, eighteen hours and forty minutes thus clipping one hour and twelve minutes from the previous record.

In the face of conditions none too favorable. From the start the weather was stormy and on the last two days when the big steamer was on the home stretch, the weather was even more stormy. It was expected she would have to fight her way through a strong wind, high confusing seas and occasionally sharp squalls.

## NELSON NEWS OF THE DAY

District freight agent C. P. B. W. C. Bowles, got back last night after a tour around the immediate portions of his district.

The remains of the father of G. H. Barnhart, who recently died in this city, have been shipped to New York for interment. The corpse was accompanied on its way east by an elder brother of Mr. Barnhart.

Although the chief justice and the full court have decided against his contention, R. A. Hamilton, has decided to appeal the well known will case of Marks vs. Marks and the appeal book is now being printed in the job department of the Daily News.

Although there is likely to be some trouble, in view of the expressed opinions of the chairmen of the railway commission, over the probable working of the new C. P. R. tariff, the C. P. R. men declare, that accepting the old basis, which is that of distributing centres, the new tariff is the only logical one.

A fair-sized audience greeted the Jere McAllister company last night when they presented "Why Women Sin." The play was replete with exciting episodes causing interest throughout. Today the McAllister company give a matinee at 2.30 when they will present "Wives of the Priests of Liar," and tonight "Confessions of a Wife."

The matters discussed were: The appointment of an inspector at British ports to examine Manitoba grain certificates. The amendment of the Dominion Railway Act to enable farmers to secure damages from the railway companies for losses caused by fires originating from this source. It was also desired that an amendment be made to the grain act as at present in force. All members of parliament present concurred with the members of the association in their demands, and promised their strongest support in bringing the various matters before parliament at the coming session.

## "OPEN DOOR"

Japan Violating Its Own Express Agreement

## CHINA CLAIMS MANCHURIA

JAPS ARE ATTEMPTING TO TREAT MANCHURIA AS IF IT WERE A PART OF ITS OWN COUNTRY—PEKING IS ALARMED AT ITS OWN TEMERITY.

Peking, Nov. 8.—Although temporary arrangement regarding the transport of mail which the imperial Chinese railroads are operating, pending the proposed Russian, Japanese and Chinese conference, was intended to simplify the complicated postal situation existing in Manchuria, China's re-application, two days ago, of the coercive order forbidding Japanese mail under Japanese regulations on the Newchwang branch line of the Chinese railroads, has aroused the resentment of Japan and has resulted in the postponement of the final question until such time as the Japanese department of communications is disposed to consider the new telegraph and postal regulations as imposed by Peking.

This will probably require months. The telegraph negotiations, which have been going on for a period of fifteen months, have made no headway because Japan declines to admit the basis upon which China is negotiating, namely, that Manchuria is solely an Chinese soil. Further, more Japan is maintaining telegraph lines in this territory, professedly restored to itself, in violation of the policy of equal rights and the "open door." Japan also has assumed exclusive control of the postal operations. It is apparent today that in view of the attitude taken by Japan, China is alarmed at her own action in excluding Japan mail carriers from the Newchwang branch.

## PLENTY OF APPLICANTS

BRANDON CONSERVATIVE FACTIONS IN WINNIPEG.

WORK AMONG THE INDIANS TO BE IMPROVED.

Winnipeg, Nov. 8.—The conservative factions in Brandon have lost no time in looking to the filling of the seat left vacant by the sudden and much regretted death of the hon. W. S. Macdougall. A delegation of three men from Brandon, comprising B. W. Wallace, T. M. Percival, president of the conservative club of the Wheat city, and another worker were closeted with premier Borden for a long time this morning and it is understood that there are a number of the leading supporters of the party who would like the nomination to go to Mr. Wallace, and that he has a good chance of carrying the constituency. Another party of workers of the conservative cause is advancing the claims of James Argue for the same position. The names of Joe Bernier and T. W. Taylor are also being discussed for the position, so it can readily be seen that there is a problem before the government in the rearranging of the slate.

Rev. John Ferrier passed through the city today. While in the east Mr. Ferrier was a member of the delegation of ministers and laymen of the Presbyterian, Methodist and Anglican churches which interviewed hon. Frank Oliver in reference to the future of the work of the church and the government among the Indians. The object of the members of the delegation was to increase the general efficiency of the Indian schools, and in order to do this more money is required. Should the additional money be furnished, the equipment of a number of the schools will be greatly improved, a building will be erected, and the management of some of the institutions will also be bettered. The churches will continue to superintend the working of the institutions as in the past, and will be responsible for any deficits arising from bad management.

The minister expressed full sympathy with the purpose of the delegation and acted with probably be taken at once to improve the schools in accordance with the wishes of the representatives of the churches.

## GRAIN GROWERS.

Manitoba Members of Parliament Attend Conference.

Winnipeg, Nov. 8.—An important meeting was held in the parlors of the Leland hotel this morning, when the board of directors of the Manitoba Grain Growers company, by a pre-arrangement met several Manitoba representatives of the federal government to discuss several subjects relating to the future of Manitoba farmers with a view to having the matters under discussion brought before the Dominion house at the coming session of parliament.

The following members of parliament were present: John Grandford, M. P., Portage la Prairie; Theodore Burton, M. P., Dauphin; W. B. Staples, M. P., Macdonald; and Dr. Schreiber, M. P., Souris.

The matters discussed were: The ap-

pointment of an inspector at British ports to examine Manitoba grain certificates. The amendment of the Dominion Railway Act to enable farmers to secure damages from the railway companies for losses caused by fires originating from this source. It was also desired that an amendment be made to the grain act as at present in force.

All members of parliament present concurred with the members of the association in their demands, and promised their strongest support in bringing the various matters before parliament at the coming session.

## POWER SCHEME.

Winnipeg's Mayor and City Engineer Look Horns Over Plans.

Winnipeg, Nov. 8.—"He'll just wait till he gets it," laughed Cecil Smith, Winnipeg's power engineer tonight, referring to the mayor's demand for resignation. "Should I resign because the mayor slandered me?" Mr. Smith can be dismissed on giving six months notice, but he desires the idea. "The council is solid for me," he said. He adds that he has cards up his sleeve if the mayor forces him to play them. He places the opposition which has arisen in Winnipeg at the door of the various conservative interests which might be injured by the new power plant. "I thought long ago," he said, "that these interests might have balked the work if there had not been money available to go on with it."

## WEEKLY TRADE REPORT

MONEY TIGHT BUT BUSINESS IS STEADY.

BANK CLEARINGS MAKE GOOD SHOWING.

Montreal, Nov. 8.—Bradstreet's tomorrow will say: "Tight money retards but does not stop trade in Canada, which is steady, all things considered. There is some disposition to curtail industrial developments pending a return of easier money. The grain movement from the west is large despite the scarcity of rolling stock and exports are liberal."

Toronto reports good holiday trade and shipments to the interior are large. Eastern conditions are quiet. St. Louis, Mo., reports a steady business, tight and less activity in industrial development despite the tendency to look for quieter trade but depression is not expected.

Weekly factors number 34 as against 25 last week and 23 in this week a year ago.

Bradstreet's bank clearings for the week ending Nov. 7th are as follows:

	In Dec.
Montreal	\$37,004,000 6.4
Toronto	29,130,000 7.9
Winnipeg	16,920,000 13.9

## EASILY AROUSED.

Sault Ste. Marie, Nov. 8.—This entire community is aroused over part of the attempt of "blackhand," which have become public. Some weeks ago captain Letcher, a wealthy Englishman residing here, received letters from Medicine Hat demanding money which was to be placed on the porch of his residence. The provincial department sent secret service men to investigate and they learned that Messrs. John McKay, a well-to-do lawyer and John Dunne, a merchant, also received letters demanding money. Letcher's house was watched and a dummy parcel placed on the spot mentioned in the letter, but no person appeared and the detectives departed. At daybreak Letcher found the parcel gone.

## TO TEST SUNDAY ACT.

Montreal, Nov. 8.—The executive of the Lord's Day Alliance has decided to consider the question of testing the validity of the recent passed provincial Sunday law. There is uncertainty, it is said, as to the attitude of attorney general Gouin in regard to prosecutions under the Lord's Day Act. In cases where the latter is more stringent than the provincial law.

## HURRICANE IN FRANCE

IMMENSE DAMAGE WAS DONE AT MARSEILLES.

Marseilles, Nov. 8.—A hurricane swept over this city tonight, causing immense damages to docks and other water fronts. The gas works were flooded by the terrible downpour that accompanied the storm, and the city was plunged into darkness. A number of people were killed by collapsing houses, but in the confusion and darkness it is impossible to determine the extent of the damage tonight.

All southern France continues to suffer from the floods following the excessive rains. In many places the inundations are worse than those which followed the September storms. The extensive mines at Grasse have been completely flooded, and all work has been suspended.

DESPERADO MADE DETERMINED  
ATTEMPT TO ESCAPE AND DE-  
FENDED HIMSELF TO THE LAST  
—MAN HUNT LASTED OVER  
A WEEK

(Special To The Daily News)

Kamloops, Nov. 15.—Harry Stout wanted for shooting Williams at Kamloops last week, was shot and killed, after a week's hunt, by a party of men, including a member of the pursuing posse. Stout had been the bush since the crime but three days ago descended to the river, stole a canoe and dropped down stream. He was seen by an Indian woman who informed the police. Stout did not travel far but took to the bush again, the posse locating him at dusk last night. When called upon to surrender he fired, slightly wounding Gordon, one of the posse. Mr. Lean fired a bullet, penetrating Stout's chest and causing instant death.

The tragedy of last night marked the end of a man hunt that has stirred the north country as did the Tracey case in Washington. A week ago Stout wanted for the shooting of Williams, owner of a series of trading posts in the Caribou and Big Bend country. Stout had attempted to escape from the district and was shot in the back by a party of men. Stout was shot in cold blood. The count was aroused and the police posse was sent to Kamloops in charge of provincial constables.

McDonald stated today that all con-

tracts for the steel work here, have

been cancelled. Mr. McDonald ad-

ding down, he hoped that they would

have enough work to keep a small

force of men employed.

A petition is being circulated in

city asking the C. P. R. to run the

passenger train through the city

of the Kettle Valley line track to the

station. If this is granted it will

be a great convenience to the

people of the city. The idea of a

side of the business section and a

The funeral of James T. H. died

in the hospital on Tuesday. He

held from Standall's boarding house

yesterday. About seventy-five mem-

bers of the Grand Forks union fol-

lowed to his last resting place. Rep-

resentatives of the Volunteer Fire de-

partment, of which deceased was a

member, attended to pay their tri-

bute.

Indications point toward a good

of activity in logging this winter,

the north fork country, and prob-

ably 100 men in all will be engaged

getting out supply logs for

spring drive to the mills.
