PAID A FLAT RATE OF \$10

Millionaire Duffield Gives \$400 To Change 40 Gray Votes

JOHN C'NEARA GETS BAIL

Toronto, Nov. 3.—James C. Duffield, the millionaire gas man of London, was the feature witness in the London conspiracy case yesterday. He admitted that he had given a grocer named Depper \$400 out of his own pocket if he would reduce Gray's majority in No. 10 sub-division on the third ward by forty, or at a flat rate of \$10 a vote. This was the only money he had contributed during the bye-election. He did it of his own free will, and no one knew about this service.

John O'Meara was yesterday released on bail in two sureties of \$4,000 furnished by himself and his uncle, Martin O'Meara of London. Justice MacMahon granted the order.

John Milton, the first witness yesterday, received \$5 for his vote in the Ryan-Gray election.

"Tom" Adolphs got an envelope with a \$5 bill from a man named Stark for his vote, although he voted for Gray. He produced the money and the envelope, which has been in the possession of the secretary of the London Conservative Club.

James Cooper of Buffalo canvassed a man named Herbert for his vote, and promised him \$10, but witness would not accept. He was not that sort of a man. Herbert's son was also asked to sell his vote, but he refused.

Back to Brookville.

Mr. DuVermet here switched the evidence to the Comstock-White election, and called J. W. Fulford, a deputy returning officer at the time.

In the afternoon of the polling day the witness stated, he gave a ballot paper to a man named Henry, who gave him back a bogus ballot marked for Comstock. He detected the paper immediately for the forged initials and did not put it in the box. He was asked to get out a warrant for this man, but the man got out of town. Later Henry was arrested and tried by a jury and acquitted.

Coming back to the London case John Cook swore he got \$5 for voting in the general election for Hyman.

W. J. Day, employed by the Hobbs Hardware Co., was canvassed by a man who promised him \$10 if he would not vote at all and \$7 if he would vote right.

The magistrate thought it was strange that the witness would get \$10 not to vote and only \$7 to vote, but Mr. DuVermet explained that this was the old trick.

"They would swear him, don't you see?"

"Oh, yes," said his worship.

Witness Asks "Protection."

George Pope swore that he never received any money to vote for Hyman, not even from a great friend named O'Donald, who had Grit money to canvass with.

An agent named O'Donald was the next witness. He wanted to be protected and he would tell the truth. He got \$10 from a man named Bennett and he gave two voters, Pinkham and Adams, \$5 each for their votes.

"The understanding was that the \$10 was to be used for bribery?" asked his worship.

"There was no conversation."

"Oh, tell the truth. You know I don't like to be deceived. I have been here too long. I don't like perjury."

"So I see by the paper," said the witness, and the court laughed.

Was Asked to Switch Ballots.

Brook Cowan, another D. R. O. from Brookville, told of meeting a stranger during the Comstock-White election, who invited him to become a ballot switcher. He corroborated the evidence of Pritchett as to how the deed was done. He used five or six ballots and destroyed the remainder of a dozen he had been given and got \$30 for his work. Cowan could not identify O'Gorman.

Mr. DuVermet then called Ed. Croden, a D. R. O. in West Elgin. He had been asked to go to West Elgin by the defendant, Reid. Witness swore that he had no hand in any crooked work in London, although he acted as deputy during the general elections. He received no money more than the regular fee. He did not know O'Gorman. Croden denied leaving his ballot box with Sheriff Brown over night.

ELECTED STEWARDS

The Quarterly Official Board of Victoria avenue Methodist church met Thursday evening for the purpose of appointing stewards for the ensuing year. The election resulted in the following gentlemen being appointed: Messrs. J. F. McKeough, J. W. Humphrey, James Holmes, W. C. McArthur, J. C. Fleming, J. W. Dyer and D. W. Crow.

Mr. Humphrey was appointed envelope steward, Mr. McKeough recording steward and Mr. McArthur pew steward.

Mr. John Banks was appointed as janitor to take the position left vacant by the resignation of Mr. Keeley.

AN IMPORTANT SUBJECT

The Macaulay Club will discuss a very important subject at their meeting this evening. Rev. A. H. MacGillivray will give an address on "The layman from the preacher's standpoint." At the last meeting of the subject of the preacher, from the layman's standpoint, was dealt with by Fred Stone. It is expected that there will be a very large attendance at the meeting this evening. Several of the preachers of the city have signified their intention to be present. The evening is being looked forward to by the members of the club.

THE NECESSITY FOR IMPROVING THE HORSE RAISING INDUSTRY

Meeting Of Horsemen Held In Harrison Hall Last Evening—Valuable Information Gained By Government Commissioners—The Aim of The Department Is To Protect The Farmers

A meeting of horsemen was held in County Clerk Jonas Gosnell's office, Harrison Hall, last evening, at which there was a very fair attendance. The object of the meeting was to gain information if possible which will be of value to the Legislature in devising a scheme to improve the conditions of the horse-raising industry in the Province of Ontario.

Wm. F. Smith, of Columbus, and John Graham, of Toronto, were present as commissioners on behalf of the Government, to receive suggestions. Other men who were present at the meeting were Messrs. W. Everitt, Geo. McGavin, Howard Marshall, John Longmore, Thos. Brady, Lawton, Wright, Gosnell, B. K. Harper, McLachlan, A. B. McCoig, M. P. P., and Messrs. Brewer and Laurence of Thamesville.

Mr. Smith in a short address explained the object of the meeting, and this was followed by a general discussion, in which all present took part.

In the matter of licensing horses, Mr. Laurence, of Thamesville, favored the idea. Mr. Marshall opposed it on the grounds that the people and the owners, and leave too much to the inspectors.

Mr. Brewer, of East Kent, favored the prohibiting of the importation of western bred ponies, and the meeting went on record that it was their opinion that it was all right for syndicates to own horses, providing they got the right horses. It was also the general opinion that the Farmers' Institutes should do more work towards bettering the breeding of horses. They should do all in

their power to get rid of cross-bred horses.

The meeting was unanimously in favor of the licensing of horses leading up to an inspection and regard to pedigree and individuality along certain lines of breeding. The want of breeding in line is greatly felt by horsemen. This was one of the most important points brought out at the meeting.

Mr. Graham in the course of the discussion said that it is impossible now to find one good carriage horse, where a few years ago you could find twenty-five. The farmers do not realize the importance of this, and as a result the horse-raising industry, which should be one of the best in the province, is less profitable both to the farmers and to those who would purchase horses of good breeding.

Another point brought out by one of the men at the meeting was that the inspectors brought out from the old country an inferior class of horses. In too many cases, the horses brought out are the culls of the country across the sea. Many of these horses while they have a pedigree over, there are not fit to be entered in any first class horse, and farmers have a wrong impression of these breeders. Another thing which should be considered by the farmers is the necessity for holding on to the good mares. The people should be educated along these lines of breeding.

Mr. McCoig brought up an important point which was fully explained by the Government representatives at the meeting. He said that some of the farmers who had heard of the visit of the commissioners, were of the opinion that they

HONORED HIM

The Entre Nous Club met last evening at the residence of Mr. Joseph Martin, corner of Wellington and Adelaide streets, where they honored Mr. Bert Ellison, the departing chairman, by presenting him with a leather souvenir on which were engraved the names of the present members of the club.

The presentation was made by Mr. Wantless, who in doing so, referred to the regret which the club felt in losing such a valued member as Mr. Ellison. Mr. Ellison made an appropriate reply. Mr. Ellison left for Essex this morning, where he will spend Sunday before leaving for Detroit, where he takes his new position.

CHANGE OF MANAGEMENT

John A. Walker, Esq., K. C., of this city, has been appointed to take charge of the business of The Reliance Loan & Savings Company here, owing to the retirement of Mr. S. F. Gardiner to enter private business.

In Mr. Walker the company has secured as its manager and solicitor a gentleman very widely and favorably known in both city and county, and particularly with our business and professional men. During a residence in Chatham of twenty-five years, he has earned the reputation of strict integrity and good business ability. He has also a pleasant and agreeable manner in his dealings with the public. The company has at considerable expense remodelled and improved its buildings, and has now one of the best banking offices in the city. These changes all go to prove that the interests of its customers will be safely protected and well looked after.

We bespeak for the company a successful future under its new management. We learn that Mr. Walker intends to continue his private legal practice in addition to the management of The Reliance Company.

HE GOT THREE MONTHS

Charles Holly, of Merlin, is now spending a term of three months in jail for selling liquor without a license. He was convicted by Wm. Hickey, J. P., and Geo. C. Marshall, J. P., at Merlin.

On Saturday, October 20, Holly bought twelve bottles of whiskey in Chatham. He took them home, and on Monday morning there was no whiskey left. He had disposed of it all. He had evidently taken some of it in jail for selling the liquor. He was not feeling in very good humor, and he threshed his wife. The wife laid an information with the Crown Attorney against her husband for thrashing her, and incidentally gave the information to the inspector, Mr. Massey, that her husband had sold liquor without a license.

Holly came up for trial in Merlin and was fined \$5 in all for beating his wife, and \$50 or three months in jail for selling the liquor. He did not have the money so he took the jail sentence. H. D. Smith, Crown Attorney, prosecuted.

HIS ADVICE TO FARMERS

To the Editor of The Planet:

Dear Sir,—Someone has said—probably Josh Billings—and it is true, "Despatch has done all the great things that has been done in the world, while Hurry has been at work at the snail ones and hasn't finished yet."

This has been particularly applicable to the using of insecticides. Since I wrote last, advocating the use of the Lime-Sulphur-Salt spray in the winter and early fall for the extermination of scale insects, I have been in correspondence with experts from across the border, and I imagine that ordinary scale insects cannot be kept in check in the summer or late spring, for the reason that the foliage is injured when a sufficiently strong solution of a contact insecticide is used. They also agree that the method I have adopted as regards peach and plum, especially peach, that is, cutting back all the limbs and treating the stumps with the lime-sulphur insecticide—of course I mean where the scale is thick. This rejuvenates the tree and it will make from five to six feet of a growth the first season, which growth will be half cut back the following spring, leaving a compact, strong, low tree, which the following year again will bear fine peaches; perhaps not as numerous as at first as before the tree was cut back, but still the fruit will be more marketable and probably of the same bulk.

I am indeed sorry that the Government is not going to send their sprayer until the spring, because there will be such a short time that the number of orchards treated must be very limited, therefore some will not be done at all, which makes co-operation out of the question, and without co-operation I fear the scale will still "hold the fort."

Some of the small gardens are now being treated by their owners. Let those interested look at them about next September or October, and they will be astonished at the thriftiness of the trees. I remain, Yours truly,

Visit To The Castle Of Holyrood, The Abode Of Scotch Royalty

A Venerable Spot, Long To Be Remembered By Every Tourist Who Visits It - Built By David I., In 1128 - Geo. Sulman's Impressions

From London we went to Oxford to see that seat of learning and view its historic institutions, the most valuable of course being the Bodleian Library, which has been in existence since the time of Charles II. Adjoining the library we were shown the theatre built by Sir Christopher Wren in the seventeenth century. We saw the gigantic plant of the Clarendon Press, where Bibles and prayer books are printed in every language and in enormous quantities by the greatest plant of its kind in the world. We passed the Martyrs Monument, erected on the spot where Cranmer, Latimer and Ridley were burned at the stake. We visited All Souls College, founded in the fifteenth century; Lilliol College, founded in the thirteenth century; Brasenose, founded in the fifteenth century; Christ Church, founded by Cardinal Wolsey, which that beautiful quadrangle and heard hours from his tower strike the air; Exeter College, founded in the fourteenth century; Magdalen College, which is the most beautiful of all with its handsome gardens and the great tower of the cloister; Oriel College, founded by Edward II.; Queen's College, founded in the fourteenth century; University College, which is founded the oldest of all, having been founded by Alfred the Great; also many other colleges make Oxford truly a city of learning for the world. We visited the cathedral built in 1160; it is a fine type of Norman architecture. The city proper has many fine streets lined with good houses and boarding houses, and has no factories other than that of the Clarendon Pottery, which is called the fair pot in England. From Oxford we went to Warwick to see that ancient castle, the most magnificent ruin of the old English nobility; also the old church of St. Mary's, which is supposed to have been instituted before the Christian era. Warwick is the quaintest of English towns, crooked with narrow streets and the very air breathing quaintness and retirement. We had a real English lunch at the Woolpack Hotel and took carriages to drive to Stratford-on-Avon to see our respects to the shrine of the immortal bard. Our drive took us through some of the prettiest parts of rural England, over the most perfect roads, past beautiful cottages, slatey homes, and it being a charming day we more than enjoyed the trip. First we saw the farm of St. Thomas Lucy and then over the beautiful Avon to the house of Shakespeare, where we saw the rooms in which he was born and lived many years. The bedroom is marked by many mementoes in English literature, and where he showed the visitors. From the house we went to old Trinity Church and saw his tomb with that quaint inscription in old English: "Good Friend, for Jesus closed here; blessed be the dust that squares these stones; the curst be he that moves these bones." Then to Ann Hathaway Cottage, a typical old English rural home, and then to the Shakespeare memorial theatre and museum, a magnificent theatre has been built on the banks of the Avon in commemoration of the greatest of poets and dramatists. We also had a look at the home of Maria Corelli, a beautiful vine clad house; and an ideal spot for a dreamer such as its owner. We were in the room at the tavern where Washington Irving lived for many months and wrote his beautiful sketches. We then drove back to Warwick and took the train for Birmingham, that great city of factories. Outside of the general business character of the city, its fine streets and handsome parks, there is nothing to interest the tourist. It has a population, including its suburbs, of over a million. After a pleasant drive here, we went to Edinburgh, over the way many historical cities, catching a glimpse of many ruined castles. We saw at Chesterfield the crooked people of the church there which has been twice as tall as the elements in such a manner as to be one of the greatest curiosities of England. Edinburgh is situated on several hills and rocks, and no doubt has been built up around the castle, which commands the most prominent eminence in the city. In the castle formerly the residence of the Kings and Queens, we were shown the rooms of Queen Mary, where James I. was born; the crown room, which consist of magnificent jewels, and the armour in that magnificent banqueting hall and the ancient chapel of St. Margaret, at whose shrine so many of the old Scotch Kings and Queens had worshipped. In the castle yard we saw Mons Meg, the great cannon so often mentioned in Scotch history and story. From the castle we went to Holyrood, over the ground which had been treasured many a time by Queen Mary. This venerable abode of Scotch royalty is the most interesting spot in Edinburgh. The rooms of Mary, in which Rizzio was killed, are marked by a brass tablet. The picture gallery with its portraits of Scotch sovereigns, the association of the facts that here was sheltered the remnant of French royalty, during and after the revolution. The beautiful fountain in the quadrangle, and the unique sandial, a relic of the times of Charles I., and last but not least by any means those mouldering old ruins of the Royal Chapel, which was built by David in 1128, make Holyrood a spot even remembered by anyone who favors it with a visit. We drove out to Arthur's seat and up Calton Hill to view the grand panorama and to see the ball ground from the tower at noon. Edinburgh has many fine public institutions and public buildings. DIED IN BARRIE

Ald. W. H. Benson received the sad news yesterday morning of the death of his only brother, John Benson, who died in Barrie. Ald. Benson left for Barrie yesterday afternoon to be present at the funeral.

The late Mr. John Benson was 58 years of age, and had been living in Barrie for the past few years. He is survived by a wife and a family of four grown up children. The funeral arrangements had not been definitely made yesterday morning.

A WOMAN'S BACK WAS NOT MADE TO ACHE

Thousands of Women suffer Un-told Misery Every Day with Aching Backs That Really have no Business to Ache.

Under ordinary conditions it ought to be strong and ready to bear the burden of life. It is hard to do housework with an aching back. Backache comes from sick kidneys, and what a lot of trouble sick kidneys cause.

But they can't help it. If more work is put on them than they can stand it is not to be wondered that they get out of order. Backache is simply a warning from the kidneys and should be attended to immediately so as to avoid years of terrible suffering from kidney trouble.

Dean's Kidney Pills will cure you in the same way as they have cured thousands of others.

Mrs. Thos. Craig, Almonte, Ont., writes: "I was doctored for six months for kidney trouble and my back was so lame I had to lie in bed. I was advised to try Dean's Kidney Pills. I did so and in one week I was able to walk with very little pain, and in five months my back was as strong as ever."

Dean's Kidney Pills are 50 cents per box or 2 boxes for \$1.25 at all dealers, or will be mailed direct on receipt of price by The Dean Kidney Pill Co., Toronto, Ont.

IN A DEADLY DECLINE

Saved Just in Time by Dr. Williams' Pink Pills.

"Before my daughter Lena began taking Dr. Williams' Pink Pills she looked more like a corpse than a live girl," says Mrs. Geo. A. Myles, of South Woodlee, Ont. "Her blood seemed as though it had all turned to water. Then she began to have bad spells with her heart. At the least excitement her heart would beat so rapidly as to almost smother her. She grew very thin, had no appetite, and what little food she did eat did not seem to nourish her. She was treated by one of the best doctors in this part of the country, yet she was daily growing worse and her heart got so bad that we were afraid that she would die. She slept but very little, and would frequently wake up with a start and sometimes would jump right up in bed. These spells would always bring on a bad cold and leave her weak and exhausted. We had almost given up all hope of her ever being well again, when we decided to try Dr. Williams' Pink Pills. After taking a couple of boxes she began to sleep better at night, and color began to return to her lips. From that on she kept right on gaining, and after taking eight boxes of the pills she was again in good health. She is now fifteen years of age, and the picture of health, and since beginning the pills has gained about forty pounds in weight. Only those who saw her when ill can appreciate the marvelous change Dr. Williams' Pink Pills have brought about in her condition. I believe that had it not been for the pills she would be in her grave to-day, and it is with feelings of great gratitude that I write you in the hope that it may benefit some other sufferer."

And Dr. Williams' Pink Pills can do just as much for every weak, ill-looking, pale-faced young woman who is slipping from anemia into a deadly decline. Dr. Williams' Pink Pills actually make new blood. In that way they strike straight at the root of all common diseases like anemia, headaches and backaches, heart palpitation, indigestion, neuritis, rheumatism and the secret ailments and irregularities of girls and women. Sold by all dealers in medicine or by mail at 50 cents a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

IN ARCTIC WILDS.

Belleville Member of Northwest Mounted Police Tells Interesting Story of Wonders of the North Country.

Constable John Phillips of the Northwest Mounted Police has recently been in Belleville, Ont., visiting his parents, Mr. and Mrs. Norman Phillips. He has just returned from a two years' expedition to the Arctic Ocean, where the party visited Herschel Island and other northern points. They only saw one white resident during their sojourn in the north—a Scotchman, named Firth, who has been stationed at Port McPherson for over 40 years as a Hudson Bay agent. Port McPherson is 100 miles south of the Arctic Ocean and the most northerly Hudson Bay post. The agent, who is married to an Esquimaux woman, has an interesting family of 13 children.

Constable Phillips says the Government sends in mail overland from Dawson once a year. One of their party received 250 letters in one mail.

Dogs Alone Used.

The only means of transportation in the far north is by dogs. A horse is unknown. A good dog is worth \$50. Four dogs will draw a man and from three to four hundred pounds, almost any distance. Traveling overland is impossible except during the winter. His party went in from Edmonton, a distance of 2,000 miles from that point. The country, he says, is rich in coal, copper, lead, gas, oil, etc. Some of these minerals are exposed on the surface. Coal in abundance was applied along the banks of the Mackenzie River. Some of it seems to have been burning for years. At one point on the Mackenzie River ignited gas was gushing skywards to a great height, and the natives said it had been burning for a great many years.

High and Low Temperature.

The temperature during the winter ran as low as 64 degrees below zero, and in the summer it went as high as 84. At Herschel Island the summer temperature is often around 60 degrees above zero. The sun shines continuously for six weeks at a stretch, succeeded by the same duration of semi-darkness, during which time the sun is not seen at all. The natives are Indians—those who live on muskoxen, many Indians being superstitious in the use of such a diet. These Indians are almost extinct through the ravages of consumption.

Mr. Phillips says the region is desolate beyond description, two of a previous party sent out by the Mounted Police going crazy through the monotony of their surroundings.

Constable Phillips went through the Boer campaign in South Africa, and is a boy of whom all Bellevillians are proud.

No Canadian-made Piano has been endorsed by the World's Great Artists as has the **HEINTZMAN & CO., PIANO.**

This is a very plain statement, but one that is not in any way open to contradiction.

The tone standards of this piano, its remarkable singing quality—its completeness really in every detail of construction make it a piano that is not, nor can it be, copied or imitated.

ALYS BATEMAN

The English Soprano, of the Crystal Palace, London, Royal Albert Hall, Queen's Hall, St. James Hall, and other leading concert halls of London and the Provinces, will be heard for the first time in Chatham early in November.

When Alys Bateman made her debut in May, 1903, St. James Hall, London, was crowded, and her reception beyond her most sanguine expectations. Since then she has repeatedly sung at Crystal Palace and Royal Albert Hall, and originated the idea of the Union Jack Club Concert, 1903, at which the King, Queen and Prince and Princess of Wales were present.

At Harrogate recently, Alys Bateman aroused the audience to remarkable enthusiasm much in the same tone as Madame Patti, pronounced by expert critics such a performance as few modern vocalists could have achieved.

Date for Chatham is Monday, Nov. 5, at the Briscoe Opera House.

NOW IS THE TIME TO ADVERTISE

The prompt action of Crown Attorney H. D. Smith and License Inspector N. Massey, in convicting the Merlin man who was guilty of an infringement upon the license law, is indeed to be commended. It is not often that such cases arise, but the only way to put an end to them altogether is to make the results follow immediately the offense is committed. The intention in making the law was that it should be enforced to the letter, and the sooner the people understand this the better it will be for the good of the community.

The Inspector may rest assured that he will have the support of the people and the Government in following closely the lines laid down, no matter what may be the political complexion of the person who leaves himself liable under the act. The license laws were put on the statute books for the good of the people, and they cannot derive that benefit which is intended for them and which is their right, unless the law is properly and fearlessly enforced.

USING A PAPER.

The Brockville Times makes this good point:

"Every newspaper knows full well how many people shrink responsibly in public affairs. People come to a newspaper time after time and want the newspaper to fire some shot which they dare not. The editor asks them to sign their names to certain charges or statements which they made in the press, and it is astonishing how quickly they crawl back into their shells. Plenty of ardent party men want the newspaper to criticize this, that and the other person or thing but they will not do it themselves lest they might 'lose business.' Has a newspaper no business to lose also?"

Scarcely a day passes, adds the Ottawa Citizen, when one or more persons do not desire to have expression given in these columns to a statement that is antagonistic to the interests of certain individuals; yet the parties, as a rule, are not willing to have it appear that they are in any way identified with its publication. There is a well defined cowardice in many cases; in more a malice for which they do not want credit, and in most a desire to unload responsibility upon the paper. If contributors of letters or news items would accept responsibility for the publication of the facts there would be a greater accuracy in the reports, less bitterness in tone and generally the public interests would be better served.

PRISON FOR CORRUPTIONISTS.

There is but one cure for corruption, and that is the penitentiary for the men who promote their crime and profit by it. It is well to bear in mind that the people do not corrupt themselves. The money to buy votes does not come from the elector, or from persons who are not interested in the Government of the day. The men who go forth to demoralize the electors are not volunteers engaging in their nefarious work for the pleasure of the thing. This system of rogues is directed from a central source. The money is collected from persons doing business with the Government; and the bribes are sent out by agents and experts employed for the purpose.

It is right enough to get at the instruments through whom the wrong is done. But it is not just to generalize, and to accuse the people as a whole of immorality because the machinery of the Government is corrupt. When a Government designs a system of corruption, and on being found out pleads that the crime is a merely representative of the business and social morality of the period, it is adding to its offense, for it makes its own guilty the occasion for sending the people in their own relations of life. Again, when a Government organizes a plan of corruption, and upon discovery, discusses the advisability of disfranchising the constituency it has debauched, it is guilty of an intolerable and irreparable injustice. It is trying to cover up its sin by punishing parties who, far from being guilty, are really the sufferers from its conspiracy of wickedness. Once more, the argument that the growth of this form of political crime is attributable to slackness on the part of the church is hypocrisy. The church is preaching honesty continuously. Why should it be blamed for the sins of the men who happen to hold high office in the State? What can be more impudent than the institution of a system of corruption, and the pretence by the

Much interest was apparently being taken in a prize fight to come off in England between Jim Mace and Joe Warmold.

The Chatham Township Council met, there were present at the meeting Reeve L. H. Johnson, Deputy Reeve S. Kinney and Councilors Barley, Houson and Mickle.

A woman died in Brantford named Perkins, who confessed that she had committed six murders during her life. She had a mania for destroying human life, and standing by watching her victims in their death struggles. One of those who were murdered was a former husband, and two were her own children. The despatch said that "she died in the greatest horror, with the images of her victims constantly before her eyes, her cries and imprecations were fearful, and her actions, language and appearance steeped in and stopped her groans and curses, among which she made her exit from the world."

An editorial appeared exhorting the municipal authorities to take steps to prevent an outbreak of the terrible plague of cholera, which was then sweeping over Europe, and was feared would reach this country before long.

DESPITE VIVENDI
Newfoundland Government Announces Policy to Prosecute Fishermen That May Stir Up Trouble.

St. John's, Nfld., Nov. 2.—The Colonial Government has decided to test the validity of the modus vivendi, it forcing an official notice yesterday enforcing the Act, which forbids foreign vessels within colonial waters, and it intends to prosecute one or more colonial fishermen who have been shipped limit after these men have been paid off by American vessels on which they were serving.

After this the Supreme Court or Privy Council will determine whether the modus vivendi overrides the colonial enactments. The Government, furthermore, expects that threats of prosecution will deter the colonists from going beyond the marine boundary to join American vessels, and that secure crews to catch herring.

As this would nullify the spirit of the modus vivendi, which agrees that nobody shall be penalized for joining American vessels, it is expected to result in trouble between the Cabinets at London and Washington.

Matter of Local Politics.
Toronto, Nov. 2.—Hon. A. B. Morine, now of Toronto, but formerly leader of the Opposition in the Parliament of Newfoundland and ex-Minister of Fisheries for the island colony, was the guest at the Empire Club luncheon yesterday. He explained at some length the recent disturbance in Newfoundland respecting the fisheries and contended that the Imperial Government had shown to the colony every consideration. He more than intimated that the present outcry was largely a matter of local politics. He strongly favors the annexation of Newfoundland with Canada.

Britain in Odd Plight.
London, Nov. 2.—(C. A. P.)—Referring to the resolve of the Newfoundland Government to test the validity of the modus vivendi, The Daily Graphic says it has placed the Imperial Government in an awkward predicament. The incident is significant as an illustration of the levity or carelessness with which the modus vivendi was negotiated. It is difficult to see what the Home Government can do by way of fulfilling the pledges to the United States if the Newfoundlanders stand firm.

Mr. Hays is Summoned.
Toronto, Nov. 2.—A summons was issued in the police court yesterday afternoon for no less a person than Charles M. Hays, vice-president and general manager of the Great Northern Railway. The information was filed with Col. G. T. Denison, police magistrate, and charges Mr. Hays with omitting to carry a third-class carriage on one train daily and to carry third class passengers for the fare of one penny a mile. W. N. Robertson is the complainant. His solicitor explains that Mr. Robertson was determined to compel the G.N.R. to comply with its charter and to carry passengers upon at least one train each day at the rate of a penny (two cents) a mile. This charter is contained in the act passed by the Parliament of Canada in 1862.

It is Radio-Telegraph.
Berlin, Nov. 2.—The delegates to the wireless telegraph conference finished their work yesterday and expect to sign a convention Saturday. The agreement will be framed upon the principle of free inter-communication between all systems, but Great Britain and Italy will sign with reservations designed to protect the existing arrangements with the Marconi Co. The term "radio-telegraph" was chosen as the one to be used officially in defining the new function of electricity.

THANKS TORIES!

For Contributing, Along With Providence, His Good.

Hull, N. S., Nov. 2.—Hon. W. S. Fielding arrived from Shelburne last night.

A reception was tendered him at 30 Queen St. by Liberals of Hull. He was in good voice, and spoke for 30 minutes on the prominent features of the campaign.

"Providence," said Mr. Fielding, "often brings good out of evil, and all it does works for good. In some such way the Conservative party have been contributing to the triumph of the Liberal party at the Dominion."

He said he would gladly welcome an improved election law.

Sir Fred Borden, Minister of Militia, was present at the reception. Mr. Fielding leaves for Ottawa to-day.

TOWNSHIP COUNCILS

RALEIGH COUNCIL.

The above Council met on Oct. 22, with all members present. Minutes of last meeting read and confirmed.

The report of A. McDonnell, C. E., for the proposed construction of the Lambie drain, at a cost of \$950.00, was received and the clerk instructed to notify the interested parties that the report would be read and considered at the next meeting.

The engineer's account of \$28 for survey and \$8 for assistance was ordered paid.

The Council adjourned and met as a Court of Revision on the Wadlock drain bridge on the 8th Con.

Appeals were received from M. Early, that the wharf of 21, Con. 10, did not use the Wadlock drain; from Geo. Bennett, that only one-half of the wharf of 16, Con. 12, drained to Wadlock; and from Blake West, that the railways were omitted and should be assessed.

Moved by Sykes and Shreve, that the assessment of \$1.78 on the wharf of 21, Con. 10, be struck off, and the assessment on the wharf of 16, Con. 12, be assessed 88 cents, the P. M. 73 cents and the roads increased \$2.12, and the Court of Revision be closed.—Carried.

Moved by Sykes and Wellwood, that the Commissioner of the Wadlock drain bridge be empowered to build a plain concrete top on said bridge instead of a fancy one, as designed by the engineer.—Carried. James Keet complained that Luke Brown had not removed his fence from the 4th Con. Road across lot 19, according to the survey of A. McDonnell, and he should be compelled

to do so. Left with the commissioner.

Rebecca Banier, who lives on lot 3, Con. 3, east of the R. P. drain, wrote that her children were not able to attend school because they could not cross the R. P. drain on the 3rd Con. road, and if the Council did not take some steps to build the bridge he would enter an action against the township. No action.

Mr. Wellwood reported that he had a bridge over the Carter drain, on the 9th Con., repaired at a cost of \$235.00, Com'r fees \$2. One repaired over the Donne drain costing \$17.19, Com'r fees \$2, and one over the Foxton drain costing \$24.80, the Com'r fees being \$2, and charged the same to their respective drains.

The treasurer reported that he had transferred the township's account to the Mellon's Bank at Merlina.

Mr. Shreve submitted his final report on the completion of the Crow drain. Balance Com'r fees \$10.

That he had a bridge over the Shadd drain repaired and charged to the drain.

Moved by Wellwood and Jenner, that T. Bourassa be paid \$10 and Wm. Millar \$17.33, for sheep killed by dogs.

In reference to the nuisance in the Merlin drain, the Sanitary Inspector reported that it was caused from the Marquis Hotel, and no others, and that it was now stopped, and he had caused the Merlin drain to be cleaned out, at a cost of \$120; charges for same \$5.

Moved by Wellwood and Sykes, that the report of the Sanitary Inspector be adopted, and the clerk instructed to place \$115 on the collector's roll against the property of the Marquis Hotel, and \$10 be charged to the Merlin drain.—Carried.

Council adjourned to the call of the Reeve.

JNO. ELLIOTT'S AWFUL FATE

Port Credit Man's Terrible Death Yesterday Afternoon

DRAGGED INTO THE COGS

Port Credit, Nov. 2.—John Elliott, a man about 30 years of age, residing in the village and employed here at the St. Lawrence Starch Works, was killed almost instantly shortly before noon yesterday, while he was at his work.

Elliott was in charge of a portion of the manufacturing plant, and at the time of the accident was engaged in rolling one of his machines. His coat accidentally caught between the sprocket wheels of the latter and he was dragged between the cogs of the two wheels and killed almost instantly.

Dr. Sutton was called at once, but nothing then could be done. An inquest will be held.

Elliott was a married man, but had no children.

Devotion Leads to Death. Windsor, Nov. 2.—A fast westbound Wabash train struck and killed Mrs. Louis Lafevre, 60 years old, near Walkerville early yesterday morning. The body was smashed almost to a pulp and was unrecognizable. She was on her way to church, and was probably half a minute's time as she attempted to run across the track. The body was hurried with terrific force against a telegraph pole.

Killed in Explosion. Hamilton, Nov. 2.—George Perkins, 337 West Main street, walked into the T. H. & B. car shops yesterday morning, about 2 o'clock, with a lighted torch. The building had been filled with gas from a leak in a main, and a terrible explosion followed. Perkins was so badly burned that he died shortly after. James H. Collins was also seriously injured. The roof was blown off the building. The loss will amount to about \$10,000.

Suffocated by Coal Gas. Brockville, Nov. 2.—Mrs. Bryant, an elderly woman, living alone, was found unconscious yesterday, suffering from asphyxiation by coal gas. She has not regained consciousness.

TRAGEDY ON BLACK RIVER.

Canoe Upsets, and Six People Drown, One From Toronto.

Bryson, Que., Nov. 2.—Miss Pearl Bertrand, a girl of 17, who, after an arduous journey of 50 miles on horseback, arrived here to give evidence in the Bertrand incendiary case at the Assizes, relates of having been an eyewitness to the drowning of six people in the Black River, near Hope's Farm, on J. R. Booth's limit, about 50 miles above Des Joachim, some days ago.

A canoe containing Norton Brown of Toronto, an Indian, two squaws, and two Indian children, were crossing the Black River above a dangerous chute, when a paddle of the Indian broke, and in the swift current, the canoe, with all its occupants, was carried over the chute and all drowned.

The Indians residing in the neighborhood instituted a search for the bodies not ceasing day or night until all the bodies were recovered. The body of Brown was found the day after the accident, and the other bodies two or three days later.

Duck Hunter Drowned. Hamilton, Nov. 2.—Mrs. Foyton, Crown Point, 22 years of age, while duck-shooting from a skiff, fell head first into three feet of water in the bay near Gage's Inlet, and his head sank into the mud so deep that he was held fast. His body, while one was clinging out of the water, was not found until some hours afterwards by William Johnston, 288 North East avenue, Coroner McNichol may hold an inquest.

Kicked by a Horse. Peterboro, Nov. 2.—While taking a young horse out of a stable, William Hambridge, farmer, of Otonabee, was kicked in the abdomen yesterday. His condition is very low.

COLLISION AT BRANTFORD.

66 Sheep Killed in Early Morning Wreck—Rolling Stock Damaged.

Brantford, Nov. 2.—About 4 o'clock yesterday morning the regular east-bound freight from London crashed into a west-bound special freight from Stratford, which was standing on the main line, near Niagara street subway, in this city.

The standing train, to which a yard engine had been attached, was just about to pull out when the London train swept round the curve, and, despite the flag signals which were given, was unable to pull up and struck the yard engine with full force. The tender of the former was huried over the embankment. The train tore over the subway, plowing the yard engine on top of the London engine.

A caboose was smashed to splinters, and several cars were telescoped, two of them being loaded with ninety-eight sheep, ninety-six of which were killed outright. The other two escaped injury. Fire broke out in the debris, the flames not being extinguished for two hours.

The engineer of the London train, whose name the company refuse to divulge, was slightly injured.

Train Mishap at Lindsay.

Lindsay, Nov. 2.—Train No. 54, G. T. R. Whittby mixed, due at Lindsay at 8:45 p. m., was wrecked Wednesday evening near Mariposa station. Fortunately the passengers and crew escaped without injury. The cause of the accident was weakness in the structure of the bridge. Seven coal cars and one car heavily loaded with wheat were derailed.

Sinks Schooner; Saves Crew. St. John's, Nfld., Nov. 2.—The coast mail steamer Falcon yesterday collided with and sank the schooner Lillian, but saved her crew.

British Steamer Burned. Queenstown, Nov. 2.—The British steamer Vedmore passed Kinsale Head yesterday morning and signalled that she saw the British steamer Nema abandoned and on fire in latitude 51

COATS and SUITS

New York's Latest Offerings

October as usual has brought forth a variety of cloak and suit styles—different of course from those shown earlier of these later productions. We received several shipments this week, these shipments embrace an assortment which is broad, which reaches a big total in many instances. However, there is but a single garment of a kind. Our cloak and suit department, you know aims for style exclusiveness, this exclusiveness is quite noticeable in almost every garment we show. We're proud of the style, character which compels visitors to say—"Well in The New York Cloak Store things are different." A coats a coat and a suits a suit of course, but our offerings bear the hall mark of the aristocracy of fashion, the price is not a bit higher than quality and style. Call for smart new coats \$6.50 to \$25.00 Smart new suits \$8.50 to \$35.00.

OYSTERS.

We have something new in the way of oysters—or rather in the way of handling. We have just received from Baltimore a large box of solid oysters. These are called

Seal Shipped Oysters.

The oysters are opened in Baltimore, put in a large box in their own juice, ice is placed in a separate compartment, they are then sealed and come direct to us. They are SOLID OYSTERS—no water or ice has ever touched them since being taken out of their shells in Baltimore. In this way they retain their flavor and are much superior to the ordinary oysters we are accustomed to here.

They cost more but are cheaper in the end as they are SOLID OYSTERS.

The Gordon Store NOVEMBER Fur Announcement!

Furs are increasingly and deservedly popular as articles of dress. Some of the best fur-producing countries are unsettled, and the hunters' catch hindered or neglected, causing an advance in the price of raw furs, which we were sure would occur. To secure to our customers the very best of values, and equal or even lower prices than former years, we have secured the agency for this section of **The Celebrated Beaver Brand Furs.**

In the face of a steady advance in the price of furs, we want to show you what a saving you can accomplish by purchasing at **The Gordon Store.**

In the **Beaver Brand** you can rest assured you are getting honest manufactured furs, of good quality, the most careful workmanship and up-to-date models. We guarantee satisfaction in style, price and wear. To insure against ripping, wear and tear, especially in astrachan coats, ladies' coat leaders, we have our reinforced by a new system of seaming and interlining, which shall be fully explained to every purchaser. If you are not already one of our regular fur customers, we ask the opportunity of making you one, and when you are in need of reliable fur goods, and at lowest cash prices, be sure first of all to examine the reliable, the **Beaver Brand Furs.**

LIVELY DEBATE IN COMMONS

Act Of Omission Indicates The Plan Of Campaign

JOHN REDMOND ROUSED

London, Nov. 2.—The resumption in the House of Commons yesterday of the debate of the trades' dispute bill, including the amendment of Oct. 20, to clause 4, placing union funds beyond the reach of attack, led to some lively scenes.

Members of the Opposition, in their speeches, twitted the Ministers with surrendering to the Labor party. Herbert H. Asquith, Chancellor of the Exchequer, retorted that the question at issue was not one of principle, but of methods. He said he saw nothing dishonorable or unworthy in deferring to the feelings of those most interested in the matter, and he unhesitatingly supported the amended clause.

Conservative Defeat. After other members of the Government had spoken in a similar strain, Samuel Roberts, Conservative, proposed to insert the original clause. This proposal was defeated by 372 votes to 179, amid loud ministerial and Labor cheers.

There subsequently was further heated scenes on the motion, made by a member of the Opposition to omit Ireland from the operation of the act. In moving this motion, Viscount Castlereagh, Conservative, contended it would give absolute immunity to boycotting. Samuel Henry Butcher, Conservative, seconded this motion, on the same ground.

Redmond Roused. John Redmond, the leader of the Irish party, said he could conceive no more unworthy or disgraceful scandal than to come into Parliament when Ireland was in a state of profound peace, and suggest that it was unsafe to give Ireland the same rights as England. This was evidently to be the plan of campaign, in view of next year's legislation for Ireland.

After further heated discussions, in which the Speaker ignored appeals to call Mr. Redmond to order, Sir John Lawson Walton, Liberal, explained that the agricultural associations of Ireland did not come within the legal meaning of a trade union. The motion was rejected by 282 to 85. The incident was then closed.

WILL WAR WITH THE LORDS.

Education Bill Changes So Great That Ministry Will Fight.

London, Nov. 2.—The House of Lords continues to make far-reaching changes in the education bill, and in Liberal circles the opinion is expressed that if the Opposition continues in its present spirit the bill hardly will be recognizable when it returns to the House of Commons.

Clause 2 of the bill was completed Wednesday night after radical alterations, mostly by large Opposition majorities. There is a distinct atmosphere of tension in the upper House. It has apparently been determined that the Ministry will not tamely submit to the Lords.

This metamorphosis was indicated by President of the Board of Trade Lloyd George, who, speaking at Spalding, declared that the work of "re-editing" the bill would terminate in a way probably far from agreeable to the House of Lords, a majority of whom were endeavoring to establish the principal of compulsory religion, to which the country would not submit.

ONTARIO BANK AFFAIRS.

Shareholders Have a Successful Preliminary Meeting On Thursday.

Toronto, Nov. 2.—A preliminary meeting of the shareholders of the Ontario Bank, called by Cephas Goode, was held yesterday afternoon in the Goode's office in the Gooderham Building, when an active effort was made to secure co-operation upon the part of the shareholders.

The shares controlled by those present or heard from amounted to \$445,000. A committee of five was appointed to take steps to bring about a more satisfactory representation upon the part of the shareholders, and to protect and guard the interests of the shareholders more generally. A fund was subscribed to for the necessary expenses incurred in any action against the Ontario Bank, and for all legal advice.

MILLIONS IN BONDS.

Secured By Charles Whitney Norton By Fraud, Chicago Police Say.

Chicago, Nov. 2.—Charles Whitney Norton, said by the police and postal authorities to be responsible for extensive swindling operations, is under arrest here and will be turned over to the federal officers by the local police, who took him into custody. It is claimed that Norton has defrauded people in all parts of the United States out of bonds and securities amounting to \$3,000,000.

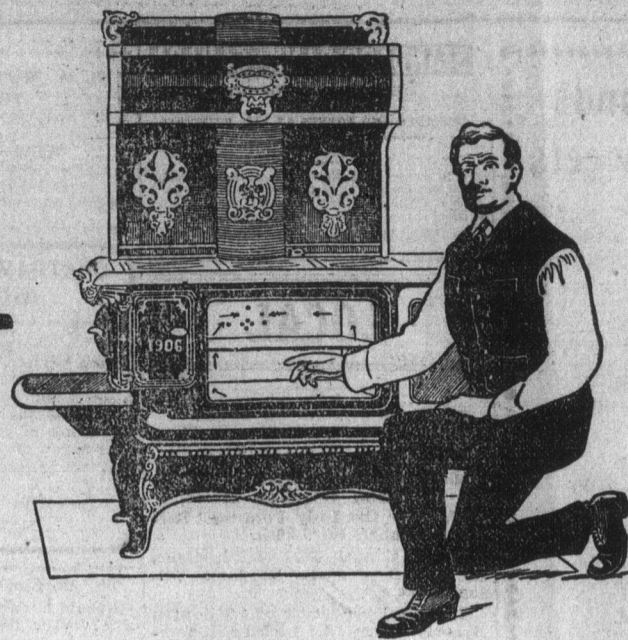

A federal warrant was served upon Norton late in the afternoon, and he was taken to the county jail. He will be arraigned to-morrow before United States Commissioner Foote.

Ottawa Is Aided.

Ottawa, Nov. 2.—The Hydro-Electric Commission will, in a few days, forward to the city for ratification a new agreement for power with the Ottawa and Hull Power Co., The Commission, however, has managed to modify the terms somewhat in the city's interest.

Zero Weather at White River.

Toronto, Nov. 2.—The first zero weather this fall was reported from White River, north of Lake Superior. The thermometer up there just touched the zero mark the previous night and then rose again to 14 above yesterday.

"Grand Peninsular" The Ideal Kitchen Range

The "Grand Peninsular" is my ideal of what a perfect cast-iron range should be. It is the most reliable cooker of its kind—because the oven is built exactly like the oven of an expensive steel range.

Steel radiates heat quicker than cast-iron. Instead of using only a steel BOTTOM—I make the ENTIRE OVEN—top, bottom and sides—of patent Levelled Steel Plate.

That's one reason why the "Grand Peninsular" is such a quick, even cooker—and saves so much fuel.

Then I do away with all guess work about the baking, by putting a thermometer on the oven door. The oven is perfectly ventilated—the air kept fresh and dry—thus preventing soggy baking. I make the Grate Bars large and strong and easily removable.

All the ornamentation—the nicked parts—can be lifted off the range when cleaning, without loosening a single bolt. You can see Peninsular Ranges at your local dealer's store.

Hygienically Cooked Meats The doctor orders meat broiled for his patients—he wants it hygienically cooked in pure oxygen, with all the nourishing juices and the sweet tasty flavor retained. Meat roasted in a SOUVENIR RANGE comes out of the oven in exactly the same condition as it broiled. The Souvenir's Aerated Oven causes meat therein to be constantly surrounded by fresh oxygen, and really roasts it. Most ovens only bake meat. Every Souvenir is absolutely guaranteed by the makers. THE ESSAYS.

One of the essays which we publish this week is written by a girl ten years old, and the other is written by a boy of ten. We have not corrected them in any way, and you are to tell us which you think the better.

Next we are going to publish some that we received from little children seven or eight years old, and we think you will all agree with us that they are very good for such little ones to have written.

We did not hear from our little friends in Dresden this week. Perhaps they were too busy with their homework to write to the Junior.

How many of you saw the pumpkin baskets in Anderson's window on Halloween? They winked, and they blinked, and looked as if they would like to be out joining in the fun.

MAKING DOLLS.
How the Toys So Beloved by Little Girls Are Constructed.

If in your parlor or composition book, you wish to make a doll, you will find it is about the same. Machines are used in Europe, and the hot liquid is poured into the plaster of lead molds. In America, the workmen, holding the mold in one hand, turn a faucet and allow the molten wax to run into the mold over a quickly revolving turntable.

Another way of making dolls is to use a mixture of wax and oil. This mixture is poured into a mold and then the doll is turned on a lathe. The doll is then finished by hand.

There are many other ways of making dolls, but these are the most common. The dolls are then painted and dressed in clothes.

"How I Spent My Vacation"

Some of the Best Essays Received in the Recent Competition, Which the Juniors are Asked to Judge.

Dear Cousin,
I thought I would write to you, and tell you a nice time I had during the holidays. The first of July we went to the shore of Lake Erie. It is twenty miles from our place. I was riding before we got there, but it is lovely indeed.

There is a pavilion for bathing and a swimming beach. The water is so clear and cool. We went to the shore and swam. It was so nice. We had a picnic under a big tree.

Uncle and I went to the fair. There were many games and rides. We had a very nice time. We went to the shore and swam. It was so nice. We had a picnic under a big tree.

There were boys of other pleasant times. I had a very nice time. We went to the shore and swam. It was so nice. We had a picnic under a big tree.

My vacation was so nice. I had a very nice time. We went to the shore and swam. It was so nice. We had a picnic under a big tree.

A POT OF SWEET
ALYSSUM.

BY KATE UPSON CLARK.

"It seems as if I must give her something!"
Eunice Wells almost sobbed out these words as she stood, quite by herself, gazing at a pot of sweet alyssum. It grew in a bed in the garden, and she had just picked a few flowers. As she looked at them, her eyes were filled with happy tears.

After the rest of their two tiny rooms and the other household bills were paid each month, these were the only few dollars left. Eunice was so glad to see the flowers, and she had picked a few for her mother.

WINNING THE
VICTORIA CROSS

The recent jubilee in honor of the founding of the Victoria Cross brings to mind many instances of bravery which won that token of courage.

Among the heroes exploits which are recorded in the Victoria Cross list is that of Sir William Buller, who won the trophy for a deed of heroism during the Zulu War. The incident is recorded in the English Illustrated Magazine.

During an encounter the Zulu warriors, as it is called, well-remembered British into a circle of prepared ambush. A long line of over a thousand warriors suddenly leaped upon the plain, and the Zulus were cut to pieces. Then the British fired into the air. The Zulus were so terrified that they fled. Buller's men pursued them until they were out of sight.

Best Kidney Remedy Known To Science

For pain in the back—scanty urine—highly colored urine—irritated bladder—irregular bowels—bad stomach—there is nothing that will bring such quick relief and so certain a cure as FRUIT-A-TIVES.

These marvelous tablets are nature's natural remedy for irritated or weakened kidneys. They act directly on the kidneys—soothe the irritated membranes—clean, heal and strengthen the organs—help them to new vigor with their work.

Often kidney trouble is not due to any organic defect in the kidneys. If the bowels are constipated—if the skin does not throw off the tissue waste of the body—then these impurities are carried to the kidneys. In a vain endeavor to rid the system of impurities the kidneys are overworked—the blood vessels are dilated—the nerves inflamed. That causes a host of kidney troubles.

Fruit-a-tives not only heal and strengthen the kidneys but they also increase the action of the skin, and act directly on the liver, thus curing the constipation.

The Easier Task. The following notice is posted up outside the ticket office of the bathing place on the sands at Eastbourne:

Mrs. Martha Tong, of Bothwell, says: "I was in a terrible state through acute indigestion. For four long years I had regular attacks. I used to suffer everything, splitting headaches, pain around my heart, a heavy feeling in my chest and heartburn. When these attacks were on my complexion would be very sallow, and I would feel heavy, tired and unfit for my household duties."

"Humble" is a word that has gone out of fashion during the lifetime of many of us. An Australian paper that is reproducing extracts from its files of fifty years ago prints this advertisement of 1857: "Young woman wants home in a humble family."

HOPE OF SLOCAN

S. S. Fowler Discusses Possibilities And Limitations Of Operations by Working Lessees. With the general renewal of the mining industry throughout the west, and especially in British Columbia, due in part, perhaps, to the rising values of silver, copper and lead, general interest is again being centered on the one district that means to feel the stirrings at least of all.

The Slocan district has already been introduced—the leasing system—from which much is hoped by those who have watched it in operation. S. S. Fowler, of Nelson, has so far been one of the most successful operators on the leasing system, and his views on the possibilities and limitations of the system should be of considerable value.

The greatest and also the most obvious advantage of the leasing system is the great saving of expenditure. The mining operations of a big company necessarily involve an office staff of fair-salaried men, accountant, clerks, manager and engineer. Where the authority of the manager is limited it also involves frequently costly delays in obtaining consent and approval for projected operations.

The system has been in vogue for some years in Colorado and has been successful there. The returns of printed contracts show that the lessees pay a much higher royalty in Colorado than has so far been paid in British Columbia. There the companies usually do a certain amount of development work, sink a shaft and equip it, and start drilling. They then lease parts of the drifts, making it a condition of the lease that the lessee shall do a certain amount of development work before he begins to stope ore.

FOR SCHOOL DAYS. A Simple Little Gown For The Wee. Here is a charming little frock that is sure to please the young wearer herself at the same time that it is simple and well suited to its use. The model is made from one of the pretty claid plaids in lightweight wool and is trimmed with bands of the velvet rib.

Tea Table Superstitions. An old superstition is that if the lid is forgotten when the tea is put in the kettle to steep there will be visions.

Those who help themselves to the milk or cream before putting in the sugar will be crossed in love. A tea leaf floating on the top of a cup of tea means that the drinker has an admirer. If the tea is stirred quickly and the spoon held upright in the middle of the cup, the lover will call that day if the leaf is attached to the spoon. If, on the contrary, the leaf clings to the side of the cup, he will not come until another day.

A Pretty Dessert. A dessert that is good to eat as well as to look at is made of a bunch of grapes in wine jelly. Prepare the jelly, using a little more gelatin than the recipe calls for. The bunch of grapes should be small and perfect. Place it in the mold so that when turned out the stem will be right side up. Next fill the mold about half full of jelly and set it in a pan of ice. As soon as it begins to set put in some loose grapes and some candied cherries. Pour the remainder of the jelly into the mold and let it stand until it is firm enough to hold the grapes; then set in the ice to harden.

THE FIELD TRIALS

Entries For The Derby Are All In -Event Promises To Be A Success

The eighteenth annual trials of the International Field Trials Club will take place at Ruthven, Ont., commencing with the members stake, on Monday, Nov. 19.

For this stake, which is open only to members of the club, who must handle their own dogs or have amateurs handle them for them, J. B. McKay, of Detroit, has donated a handsome sterling silver cup, which must be won twice by the same kennel or owner; the club will donate a trophy to the winner.

The regular trials will begin on Tuesday, Nov. 20th, with the Derby, to be followed on its completion by the all aged and stake trials. The Derby stakes are lighter, owing to sportsmen having let up a little in breeding on account of the past two seasons having been gloom ones on quail in Ontario.

The entries for the all aged stake close Nov. 10th. Birds are more plentiful on the club grounds at Ruthven than they have been for years. The judges are Mr. Montague Smith, of Forest, Ont., and Mr. J. G. Armstrong, of Detroit. The following are the Derby entries:

SOCIETY

Judge Woods is reported to be very seriously ill at the Sanita.

Mrs. Ed. Northwood, Wellington St. West, gave a card party yesterday afternoon.

Mrs. Samuel Stover, who has been visiting Mrs. John Piggott, returned to Windsor to-day.

Mrs. Geo. T. McKeough gave a bridge party on Tuesday afternoon of this week. A delightful time was spent by the guests present, and the prizes were won by Mrs. Spencer Stone and Miss Fleming. Both prizes were afterwards presented to the two visitors of the afternoon, Mrs. Drury and Mrs. Crease.

Mrs. Crease, of Toronto, is visiting her daughter, Mr. Montgomery, King St. West.

On Thursday afternoon Mrs. Montgomery, King St. West, entertained three tables of bridge. The affair was very interesting.

Mrs. James Fleming was the popular hostess at a smart bridge party on Thursday evening. Quite a number of guests were present, and the coveted prizes were won by Mrs. Woodward and Mr. Will Hadley.

Mr. and Mrs. Knafel, Victoria avenue, entertained a number of guests at cards last evening.

Mr. S. Stephenson gave a stag party last evening. The event was given to celebrate his birthday. It served a double purpose, as Mr. P. D. McKellar, one of the guests of the evening, had also intended to give a similar affair in honor of his own birthday. The congratulations were many and sincere. Neither one of the gentlemen would admit that he was over 35 years of age.

Miss Carter, the popular soloist of the Baptist Church, entertained the members of that choir on Halloween.

Miss Mollie Warren, Head street, leaves shortly for Denver, Colorado, where she will spend the winter.

Mr. George Gilbert Taylor and bride have returned from their honeymoon trip to New York. They will take up their residence on William street.

On Thursday evening of this week the music-loving people of this city were favored with the charming recital in the Auditorium given by Mrs. S. C. Walker. Miss Reid, of London, who sang so admirably, was the bright guest of her aunt, Mrs. Walker, for a few days.

Westlake, the well known, entertained during the tea hour on Friday in honor of this talented Maple City visitor.

Mr. Wm. Dick, Manager of the Wallaceburg branch of the Bank of Montreal, is in Chatham, New Brunswick, where he is relieving the bank manager of that place. In the meantime Mr. Simms is acting as manager of our local branch.—Wallaceburg Herald.

The first ball of the season in Tilbury was given on Tuesday evening in the Anderson hall, by the Tilbury Assembly Club, and was attended by about 30 couples, who spent a most enjoyable time.

WADDELL-LANG. On Wednesday, October the 24th, the residence of the bride's parents, Mr. and Mrs. Lang, of Windfall, was the scene of a quiet but very pretty wedding, when their eldest daughter, Lillie May, was united in marriage to Stanley P. Waddell, of Tilbury East.

SPRING-RATH. A very pretty home wedding took place at the home of Mr. and Mrs. Henry Rath, "Bellwood Farm," Crampton, on Wednesday, September 28th, when their daughter, Clara Edith, became the bride of William Spring, of Mossley. Guests were present from London, Metrola, Chatham, Ingersoll, Belleville, Rockford, as well as the neighboring places.

WEAVER-STANLEY. The home of Mrs. E. A. Stanley, Louisville, was the scene of a very pretty event on Halloween, when her second daughter, Miss Violet, was united in holy matrimony to Mr. Mr. Clarence Henry Weaver, of Darrell.

The wedding ceremony was conducted at high noon by the Rev. Mr. McKelvy. One corner of the parlor was artistically decorated with smilax, maiden hair ferns and roses, in the form of an arch.

The bride was given away by Mr. S. E. Arnold, looked charming in a dress of cream cologne, and was assisted by her sister, Miss Hattie, while Mr. Reginald Arnold acted as best man. The bridal party marched from the drawing room into the parlor to the strains of Lohengrin's Wedding March, beautifully rendered by Miss Olive Stanley.

After the ceremony the guests adjourned to the dining room, where they partook of a very daintily arranged luncheon.

The happy couple, amid the hearty congratulations of their friends, left for western points.

GOOD AND BAD. Did your husband find that golf improved his health? Yes; it improved his health. But unless he learns to play better it will greatly spoil his disposition.

Odd Overcoats

We have a few odd overcoats scattered through the stocks that were carried over from last year, of course that are not as stylish as those we are making this year. How could they be? But then they are just as serviceable and we have knocked all signs of style out of the prices as the following list of reduction shows.

Table with 2 columns: Price and Size. \$7.50 for \$5.00, \$10 for \$8.00, 10.00 for 6.50, 15 for 8.00, 15.00 for 10.00, 20 for 16.00, 12.00 for 10.00, 22 for 18.00. This lot has: 5 size 34, 4 size 38, 4 size 36, 3 size 39, 3 size 37, 2 size 40.

Also Ends of Stock in Boy's and Men's Sizes at a Snap.

Quite a number of these coats are in big boy's and small men's sizes, others are for very big men. If you are not a stickler for extreme style and want to be warm this winter, now is your chance.

NECKWEAR SALE

On Saturday we will place on sale 60 dozen fine silk ties principally "Hook-on", made from 50c silks—in an immense variety of the best fall patterns and shading at 19c.

We were able to clear all that a manufacturer had, and we got them at our own bid, hence the ridiculously low price. Here's a chance for you to see what our great buying power is constantly doing for you.

The Necessity For Improving

Continued from Page 1.

should be consulted, and their views should be ascertained, as well as the views of the horsemen. If these commissioners are going to report to the department, with a view to introducing legislation, regulating the breeding of horses, the information should not all be received from the men directly interested in the business.

Mr. Smith explained that their visit to the County of Kent was to gain all the information they could about the horse-raising industry, and their report to the department would not necessitate immediate legislation. He was inclined towards the opinion that no bill on this question would be presented at the next session of the Legislature, as was hinted by Mr. McCoo's. Their report would

merely give the department an idea of the conditions throughout the Province, and at some future time probably, after the question is given ample consideration, a bill, regulating the industry in the best interests of the Province, may be introduced.

Mr. Smith made it clear that it was the intention of the department to protect the farmers first and always. He knew that there were some farmers who were not well versed in the art of breeding who are now being imposed upon by owners of inferior horses, and it may be that these horses will be weeded out. Any legislation which will benefit the owners of good horses, will certainly benefit the farmers. The main object is to elevate the standard of the horses raised, and any information which will lead towards this desirable end will be welcomed by the men who are trying to effect this change of conditions. He regretted that there were no farmers present at the meeting, as their views would undoubtedly be of value

to the commission. He thought that the Farmers' Institutes should take more interest in this important question. They are the people whom the department is trying to benefit through this inquiry.

Yesterday Mr. Smith and Mr. Graham made an inspection of all the horses in the county as far as they could in the time given to them. They will finish this part of their work to-day. They will afterwards make a personal report to the department on the condition of these horses and the quality of their breeding.

The commission is being assisted in their work in Kent by Buff Bryan, of Ridgetown, a bright young horseman, and a man who is well acquainted with the local conditions. At the conclusion of the meeting, a vote of thanks was tendered to Mr. Gosnell for kindly giving the commission the use of his office for the purpose of holding the meeting. The commission announced that they had secured valuable information as a result of their visit to Chatham.
