WOLFVILLE, NOVA SCOTIA, FRIDAY, SEPTEMBER 17, 1920.

\$1.50, payable in advance.

## Daughters of Empire

### Local Chapter Holds An Important Session

A meeting of the Sir Robert Borden Chapter, I. O. D. E., was held in the Town Hall, Sept. 14th.

The treasurer reported the funds in the current account as \$216.38.

Mrs. R. E. Harris and Miss Mona Parsons signed the roll of member hip.

Mrs. F. E. Wheelock, Convenor of the Educational Committee, explained the need of flags and books for the library of our public school. On motion it was decided that we purchase at once a flag for each room. Books suitable for the school library, which can be donated by citizens of the town will be gratefully received by the Chapter. These may be given to Mrs. Moore, who will arrange with the Librarian as to classification, etc.

The Regent asked that a number of the members help in repairing the maps of the school and that all members take an interest in the school Exhibition and encourage the children in this work. It was also suggested that inquiries be made concerning children who are seen on our streets during school hours, in the hope that public opinion might be as helpful in encouraging regular attendance as enforcement of the public school act.

The members decided to have a series of social teas with an admission of 25 cents, to secure funds for school purposes. The first tea will be at the home of Mrs. L. H. Moore, on Thursday, Sept. 23rd, from 4 to 6 p.m. All are cordially invited.

It was a source of satisfaction to this Society to know that the Union of Nova Scotia Municipalities had passed the following resolution: "Resolved, that in the opinion of the Union of Nova Scotia Municipalities the time has now come for the Legislature of the Province to take up the matter of the Home for the Feeble Minded and take such action as will assure the erection and maintenance of such an institution."

The Chapter will send two delegates to the Provincial Conference to be held in Halifax in October for the purpose of organizing a Provincial Chapter of the I. O. D. E.

The Society is anxious to help in any way possible in the erection of the bronze Memorial Tablet, which is to perpetuate the memory of the men of our town, who gave their lives in defence of the

## Wolfville's War Trophy

### Captured German Gun Causes Some Stir.

Thinking evidently that a sufficient time had elapsed since the receipt of the captured German gun to expect some move in the direction of properly locating the trophy, some unknown persons last Friday night removed the gun from its resting-place and on Saturday morning citizens were surprised to see it located on the lawn at the East end of the Government Building. The gun was surmounted by a placard having the following: "Presented to and placed by the boys of Wolfville. By order of the Mayor the gun was removed and now occupies an imposing site on the vacant lot between S. P. Heales' and Waterbury & Co's. stores. Steps should be immediately taken—they ought long ago to have been—to place this valued war trophy in a suitable location, and the spot selected on Friday night appears to us to be the most appropriate in town. Wolfville officials have been notably backward in any steps in the direction of recognizing the part played by our boys in the great war, and our returned men are certainly justified in insisting that at least their gun should be properly located. However, we should like to see the final placing of the gun attended with more public and appropriate ceremony."

### RALLY DAY

Sunday next will be Rally Day at the Wolfville Baptist Church Sunday school. An interesting program has been prepared and a successful gathering of young and old is anticipated.

Empire in the Great War. This is a sacred duty.

The report of the National War Memorial Committee was read and on motion the Treasurer was instructed to send \$150 to Memorial Fund as the balance of our pledge.

The need of a district nurse for the town was earnestly discussed. Many pathetic instances were given in past months, the help of such a nurse would have relieved much suffering if not even saved life. Many members considered this the most important work in which the Society could invest its funds for the betterment of the community.

The members of the Chapter are urged to attend the meetings and actively assist in the winter's work.

## Wolfville High School

### Provincial Examination Report

Thirty of the Wolfville High School students completed the course and wrote the Provincial Examinations for High School certificates. Twenty-seven were successful. In other words, 90 per cent. were successful.

In the following lists, the aggregates and averages are based upon the highest marks in six subjects, including English which is imperative. Six subjects make a full High School course in each grade.

#### GRADE XI

Pass Mark — 300.	Aggregate Average
5 candidates, 4 successful.	
Leon Rhodenizer	392 65.3
Evelyn Beattie	365 60.8
Gertrude Rogers	358 59.6
Madge Pratt	328 54.6

#### GRADE X

13 candidates, 12 successful.	
Ruth Young	491 81.8
Wallace Barteaux	486 77.
Leicester Coit	465 77.5
Margaret Mitchell	444 74.
Margaret Allen	443 73.8
Reginald Sutherland	433 72.1
Graham Patriquin	415 68.8
Ena Roop	412 68.6
Esther Tamplin	383 63.8
Curtis Newcombe	342 57.
Helen Redden	330 55.
Blair Elderkin	325 54.3

#### GRADE IX

12 candidates, 11 successful.	
Jean Creighton	472 78.6
Donald Munro	471 78.5
Dorothy Hennigar	468 78.
Marjorie Mason	459 76.5
Harold Gould	439 71.5
Bernice Hales	437 71.1
Valentine Rand	384 63.9
Elisabeth Ford	376 62.6
Ralph Russell	355 62.5
Ina Baird	343 57.1

As usual, some very high marks were made in individual subjects. Some high marks were very well distributed over the subjects taught. The following exhibit the marks of those who scored 70 or more in any subject.

#### Grade XI.

	English	French	History	Geography
Leon Rhodenizer	95	72		
Madge Pratt	90			
Gertrude Rogers	71	71	70	
Evelyn Beattie	71	70		

#### Grade IX.

	English	Latin	French	Geog.	Art	Algebra
Dorothy Hennigar	75	77	79	73	97	
Jean Creighton	79	81	83	98		
Marjorie Mason	70	87	90	85		
Bernice Hales	77	75	72	76		
Donald Munro	87	72	93			
Harold Gould	82	73	93			
Ralph Russell	73	77				
Elisabeth Ford			76			
Valentine Rand	72					
Ina Baird						70

R. W. Ford, Principal.

## CANADIAN ARTISTS AT CHAUTAUQUA

The LaDell Trio, a group of Canadian musicians and entertainers, will be heard at the Chautauquus concerts on Tuesday next, in College Hall.

Miss Marietta LaDell, leader and manager of the Trio is a reader of exceptional ability. As a reciter and entertainer she is a platform favorite of many years standing. For a number of years she was under the management of the Midland Lyceum Bureau of Des Moines, Iowa, and was one of the most sought-after entertainers on its list.

She is an interpreter of literature, and child life, and in the latter role she excels. She does not merely imitate the child, she enters enthusiastically into the thought and action of the child she is impersonating.

Miss Muriel Lomax, dramatic soprano, has an excellent voice of great range and full tone quality. Her pleasing personality adds the touch which makes her work a success.

Miss Florence Dewey, violinist, is an exceptional artist. She is not only a skilled violinist, but also unusually fine at the piano. Her interpretations of both popular and classic selections are received with the greatest enthusiasm by her audience. Ability, technique, and personality account for her success.

This is an all-star trio and its appearance, together with the lecturer of the second day, will make that day an outstanding one in the Chautauquus Festival.

## Old Timer Reminiscences

### Tells of Wolfville of Long Ago

To the Editor of THE ACADIAN:

Dear Editor,—I have been interested in your references from time to time to the desirability of a real work being undertaken in the direction of filling in and beautifying that part of what has been long known as "Mud Creek" south of the railway.

Those of us who have resided in the vicinity for half a century have been impressed by what has already been done in this direction during the intervening years without much effort from human hands. The writer well remembers when as a boy of seven he made his first faltering journey over the railway bridge then a trestle—with the fear that the train—in its first year of service—might meet him at any minute.

Shortly before this ocean-going vessel loaded with railway iron had come up to what is now Main street where the wharves of the port were then located. In those days "Mud Bridge" was the community centre. Here business was done and a busy scene was presented while the vessels with their jibbooms extending well over the narrow street discharged and took on cargoes.

Since the days of the writers' boyhood "Mud Creek" has been a somewhat disreputable locality and a blot upon our beautiful village and later town. Much improvement has been made but still much remains to be done. One of the first things advocated by THE ACADIAN was the widening and strengthening of the street and these were only accomplished after years of agitation on the part of the Editor and correspondents.

The way is now open for real improvement. The removal one by one of the old buildings that stood in the way of

## Get a Season Ticket

### Remember The Guarantors

Do you realize that a few of your friends have guaranteed a certain ticket sale for Chautauqua? And do you further realize that they are limited to the sale of season tickets to protect themselves, and that these season tickets must be sold before Monday noon? If—and we are sure of our statement—if the guarantors fall down in their sale this season, it will be impossible to get guarantors for any future Chautauqua? Now if you are going, even for only the three evening performances, it will pay you to get a season ticket at \$1.50—and you can lend it to some other member of your family for the afternoon performances. Buy a season ticket at once.

progress, the strengthening and improvement of the street and the levelling and filling process that nature has been carrying on during all these years, has brought us to a point where real aggressive action should be taken.

It takes no great stretch of the imagination to picture the transformation that may be effected. In place of the muddy flats, a resting-place for the towns' rubbish, there might easily be a handsome town plot with walks and shady nooks and inviting seats, where one might enjoy the cool breeze from the Basin on Summer days—if put to no more useful purpose.

What is needed—and all that is needed—to bring about this most desirable change is an optimistic leadership with a vision, backed by a united and patriotic community spirit. "God, give us men."

Yours for progress,

OLD TIMER.

NORMA TALMADGE in "A DAUGHTER OF TWO WORLDS"

Adapted from the thrilling story of the same name by LeRoy Scott

When she cries, you'll cry. When she smiles, you'll smile. When she gasps, you'll gasp. When she clutches for help, you'll grip your chair, and when she screams, you'll probably be put out. But come anyway, and see Norma Talmadge as Jennie Malone in "A Daughter of Two Worlds"—it's a picture!

Shows at 7.30 and 8.45, P. M.

PRICES: 17c and 28c.

**Notes and Comments**

The man who loses his shadow gets ahead of the detective.

Lord Burnham says that the eyes of the Imperial Press delegates have been opened as to the possibilities of this Dominion. Of course, this is the Twentieth Century Country.

MONTREAL, Sept. 7.—The statistics compiled by the Lovell company for the new issue of the city directory gave the city of Montreal a population of 801,216, making it the fifth largest city on the continent.

The Financial Times of Montreal says the "prophecy is made that sugar will be down to the vicinity of 10 cents per pound ere long, bringing it back not far from pre-war prices." Cheer up! Keep the glad news going.

A plague of lizards has descended upon Manitoba. A few years ago the Prairie was overrun with the pestiferous grasshoppers. Down in this happy land, both grasshoppers and lizards are perfectly well behaved. Don't go west, young man!

A Montreal dealer is authority for the good news that the peak has been reached in the prices of woolsens. From now on a gradual decline in the prices of finished goods may be expected. Again the slump in the United States is credited with affecting the Canadian prices.

This paper provides the best means of publicity obtainable in this vicinity. It reaches hundreds of homes for the advertiser at lower cost than any other possible way. Are you taking advantage of the opportunity of using its columns to help your business.

Canada's spring wheat crop this year is now estimated to be greater than that of the United States. The Toronto Globe points out that in total wheat output—winter and spring—the Dominion with about a thirteenth of the population of the United States, grows over a fourth of the United States production.

Canada's sixth census will be taken next year. The first was taken in 1871. The population then was 3,669,257. The Bureau of Statistics estimates the present population at 8,750,000, which will be an increase of about 1,500,000 over that of 1911, considerable less than the increase in the preceding decade between 1901 and 1911.

Appropos of this record made at the Olympic Games, a writer in The Manchester Guardian points out that no amount of training could produce runners from the side of the Atlantic capable of beating some of the Tarahumare Indians, who—fortunately for other nations—do not compete in the Olympic Games. These Indians of whom about 15,000 survive in Mexico, are in great demand as Government couriers, for they are said to be able to cover 170 miles a day on foot, and have been known to run 600 miles in five days. "When short of ammunition," writes Mr. G. C. Terry, "the Tarahumare Indians will run down a deer. Half a dozen men will take part in the chase. They head off the animal, taking up the pursuit in relays, until finally the poor beast, running in ever-narrowing circles, drops from sheer exhaustion. They also chase and capture the wild turkey in the same fashion."

**The Treasure of Good Health**

Easily Maintained Through the Use of Dr. Williams' Pink Pills.

There is not a nook or corner in Canada, in the cities, the towns, the villages, on the farms and in the mines and lumber camps, where Dr. Williams' Pink Pills have not been used, and from one end of the country to the other they have brought back to bread-winners, their wives and families the splendid treasure of new health and strength.

You have only to ask your neighbors, and they can tell you of some rheumatic or nerve-shattered man, some suffering woman, ailing youth or anaemic girl who owes present health and strength to Dr. Williams' Pink Pills. For more than a quarter of a century these pills have been known not only in Canada, but throughout all the world, as a reliable tonic, blood-making medicine.

The wonderful success of Dr. Williams' Pink Pills is due to the fact that they go right to the root of the disease in the blood, and by making the vital fluid rich and red strengthen every organ and every nerve, thus driving out disease and pain, and making weak, dependent people bright, active and strong. Mr. W. T. Johnson, one of the best known and most highly esteemed men in Lunenburg county, N. S., says:—"I am a Provincial Land Surveyor, and am exposed for the greater part of the year to very hard work travelling through the forests by day and camping out by night, and I find the only thing that will keep me up to the mark is Dr. Williams' Pink Pills. When I leave home for a trip in the woods I am as interested in having my supply of pills as provisions, and on such occasions, I take them regularly. The result is I am always fit. I never take cold, and can digest all kinds of food—such as we have to put up with hastily cooked in the woods. Having proved the value of Dr. Williams' Pink Pills, as a tonic and health builder, I am never without them, and I lose no opportunity in recommending them to weak people whom I meet."

Dr. Williams' Pink Pills should be kept in every home, and their occasional use will keep the blood pure and ward off illness. You can get these pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

**WORLD'S HARVEST PROSPECTS**

The world's harvest prospects show a total yield just equal to the requirements. The wheat crops of the United States, Canada, Spain, Italy and Switzerland are estimated at 95 per cent. of the yield of 1919. Rye, barley and oats in most countries exceed average. Potatoes in Canada, the United States and Switzerland are estimated at 184 per cent.

**APPLE SUCKER QUARANTINE IN NOVA SCOTIA**

The apple sucker a new and foreign pest was discovered in Nova Scotia in the summer of 1919. This pest is a native of the old world and is a serious apple pest, particularly in England. The insect passes the winter in the egg stage on the host plant, and in order to prevent its distribution into new territory on nursery stock, an Order-in-council was passed on November 28th, 1919, forbidding the shipment of apple stock from the infested area. As a result of scouting work carried on during the past summer, this pest has been found in certain portions of Kings, Hants, Colchester and Cumberland counties in Nova Scotia. As a result of this it has been necessary to replace the Order-in-council passed last year by a Ministerial Order which went into effect on August 21, 1920. This order quarantines the counties of Kings, Hants, Colchester and Cumberland, but provides for the movement of nursery stock under certain conditions. No nursery stock may be moved from points within the quarantined district to points outside the quarantined district unless accompanied by a certificate of inspection, and no nursery stock may be moved within the quarantined area unless accompanied by a permit. No certificate or permit will be issued for shipment of apples, pear, plum or quince stock from points within the area actually infested by this pest to points outside that area: it is permissible, however, to make such shipments within the infested area provided they are accompanied by a permit. An inspector will be stationed at Wolfville, during the shipping season, to inspect all shipments going out and to issue the necessary certificates or permits. Nurserymen or others intending to ship out stock from the quarantined counties should apply well in advance of the intended date of shipment for the services of an inspector. Applications should be addressed either to the Inspector in Charge, Apple Sucker Quarantine, Wolfville, N. S., or the Dominion Entomologist, Ottawa. Further details regarding this quarantine may be had by applying to either of the above officials or to the Provincial Entomologist, Truro, N. S.

## W. C. T. U. Notes.

### UNREST AMONG THE BEES.

A farmer in Fairfax County, Virginia, has complained to the Department of Agriculture at Washington about the conduct of his bees, of which he owns a great many. They have, he says, deserted their regular employment as gatherers of honey, and have taken to the ground under his apple trees, and there make themselves drunk by consuming the oozing juice of decaying fruit. He anticipates a heavy financial loss owing to the behavior of his bees this year.

At one of the Ontario summer resorts last year something similar occurred. Beside one of the cottages stood a scrub oak and day after day it was seen to be alive with wasps. On closer study it was found that wasps and bees were extracting some sort of sap or gum from the tree, after which they would drop to the ground or fly off until they bumped against something. If two of them met on the ground they would fight furiously. A professor of Toronto University who was present on different occasions assured us that he saw one bumble bee in particular sit on the ground, wave its arms, and sing in a manner which undoubtedly disclosed an extreme state of intoxication.

The owner of the cottage reports this year that the tree is practically dead, only a few live shoots showing. He finds marks of an axe on it, and the fame of the tree having spread, he suspects that some of the other cottagers or native residents have been tapping the tree in his absence to extract its potent juices. He decided, therefore, to make away with the tree in the public interest.

### TOO TRUE.

Teacher: "Give the future of 'drink.'"  
 Pupil: "Present, he drinks; future, he will be drunk."—Forward.

The Financial meeting of the Windsor District of the Methodist Church was held at Wolfville on Tuesday, Sept. 7th. There was a good attendance of ministers and laymen, and a fine spirit prevailed in all the sessions. Excellent addresses were given on "Intercession," "Christian Stewardship," "the Referendum" by Revs. F. J. Armitage, A. Lund and G. W. Whitman, respectively. Rev. Dr. Steel, Prof. Watson and Rev. J. Coburn were present, and in their addresses represented very effectively the Missionary, Educational and Social Service departments of the church. In all the sessions there was evidenced a strong desire to discover the path by which the spiritual objectives of the Forward Movement may be served, and some decisions were reached having this end in view. Rev. F. Friggins, President of the Conference presided. The Wolfville friends were heartily thanked for kind entertainment.

The Department of Trade and Commerce issues the startling announcement that Canadian sugar refiners recently were under-bid by the American refiners in an order for 12,000 tons of sugar for foreign export. The American price was 13 1/2 cents a pound. We suspect that the announcement is made more in sorrow than in anger.

**EXCESSIVE ACIDITY**  
 is at the bottom of most digestive ills.

**KI-MOIDS**

## "Your Teeth"

By Rea Proctor McGee, M. D., D. D. S.  
 Editor ORAL HYGIENE.

### INLAYS IN TEETH

An inlay is a filling that is made outside of the mouth and when finished is fastened in the tooth cavity with a dental cement. The making of inlays is a very ancient process that was a lost art for many centuries. The Aztecs of old Mexico used a green stone inlay in their teeth. The green stone was not used to stop cavities as we use inlays, but was purely decorative. The Aztec nobility had fanciful designs cut in their front teeth, probably tribal marks on the order of our coat-of-arms, then the green stone was cleverly cut to fit the cavity and cemented with a very durable transparent cement. The durability of these prehistoric inlays is proved by the fact that there are in existence a number of Aztec skulls with the green stone still firmly in place.

Inlays of porcelain were the first to be made in modern times. Porcelain was used because it can be made to closely approximate the color and characteristics of the natural teeth. The process of making a porcelain inlay is very difficult but the result is so satisfactory that many are made for fillings where gold would be objectionable.

The gold inlay is now very widely used. There are many ways to make them but the object is the same; that is, to perfectly fill the cavity, to restore the original contour, and to be durable. All of these things a gold inlay does. The miniature sacking that is required to make a gold inlay is an art of modern times. Gold inlays are made with remarkable accuracy, and as they are made outside of the mouth, they are much less painful than gold fillings that must be malletted into the tooth. Whether a good gold inlay is better for the tooth than a gold filling that is also good is not yet decided. I would say that either one is all right.

### AMERICANADIAN QUARTET COMING

The Chautauqua Festival which opens here Monday afternoon Sept 20th, will have as the initial numbers two concerts by the Americanadian Male Quartet. Named after the Circuit upon which they operate they will have a reputation to live up to, and they will make good.

The four members of this organization are Mr. Fraser, Mr. Lisman, Mr. Kidd, and Mr. Horn. Each is an individual artist, and together they make a fine combination, both for harmony and fun.

Mr. Fraser is not only a musician but an entertainer. His readings will be interspersed throughout the program and will provide the strictly musical program with interesting variations.

The quartet will give secular, sacred, and humorous selections assuring a variety of offerings to please all members of the audience from the small boy up or down. (The last depending on whether the reader is a small boy or not).

The two programs of this organization on the opening day together with Mr. Chas. H. Poole's inspiring lecture will give all attendees the worth of a season ticket that day alone.

### PEDESTRIANS HAVE RIGHTS

According to the ruling recently made by a Toronto coroner, pedestrians have the right of way on the street as much as on the sidewalk, and it is the duty of auto drivers to make sure that accidents do not occur. This is no at new doctrine of law; it has always been in force in Britain and other countries that have inherited the English common law. Too many autoists and drivers of other vehicles proceed on the assumption that a pedestrian has no business on the thoroughfare and that his being there at all frees them from liability under any circumstances. This is an entirely erroneous notion, and the Toronto coroner was justified in expressing the contrary opinion.

"Save the surface and you save all" Paint & Varnish

Your House Need Never Grow Old

CERTAINLY it can be kept as good as new throughout the lifetime of its owner—by proper paint treatment. To preserve its surface you have two alternatives—that of painting it frequently with ordinary paint, and that of painting it infrequently with B-H PAINT.

**B-H PAINT** ENGLISH 70% Pure White Lead (Standard's Crown 2.5) 30% Pure White Zinc 100% Pure Paint

Admitting—as indeed you must—the imperative need of paint for the protection of your home. Your next thought should be, "How can I paint it so that it is well protected?"

Use B-H there's a guarantee on every can of it—to make you certain that you are getting the best. That guarantee—our word of honor—assures you of the 100% combination in which the chief ingredient is Brandram's Genuine B.H. White Lead. Rates for Contract Advertisements furnished on application.

Copy for change of contract advertising must be in the hands of the printer not later than Tuesday noon to insure publication in the next issue.

### Editorial Notes

A visitor in Wolfville recently called THE ACADIAN's attention to the absence of street signs. Some years ago metal signs were placed at all the street corners stating the name of the various streets but for some purpose these have been removed. These signs should be replaced at once and new ones supplied where necessary. The cost would be small and the advantage gained great.

Chautauqua opens next Monday. By purchasing your season ticket before the opening you save money for yourself and secure the guarantors who at their personal risk give us the promised treat.

### ORATORICAL CONTEST

In order that oratory might be encouraged among the pupils of the public schools, Mr. James Sealy, of Kentville has offered two medals, to be competed for yearly in an oratorical contest. The details of the contest have been worked out by the Inspector of Schools for Kings County.

The first contest will be held at Kentville, Friday, November 19th, 1920, at 8 p.m.

The following conditions should be noted:

1. The contest is open to the pupils of any public school of Kings County.
2. Each contestant must mail a written copy of his or her oration, not later than November 12th, to the Inspector of Schools, Wolfville, N. S. Accompanying the copy should be a certificate that the pupil is registered in a public school. This certificate should be signed by the teacher or principal of the school.
3. The decision shall rest with three qualified men, none of whom are connected with any public school on any official capacity.
4. The oration must be upon one of the following subjects:
  - (a) Joseph Howe, Patriot and Statesman,
  - (b) The Future of Agriculture in Kings County,
  - (c) The League of Nations.

### BUCKNER'S JUBILEE SINGERS

The above organization will be the drawing card at the Chautauqua entertainments on Wednesday next. Do not fail to hear them.

"Buckner's Jubilee Singers" means the best that can be secured in the interpretation of the jubilee songs and melodies of the southland. Their singing of these old songs is an inspiration and a delight. Their voices blend perfectly in a harmony that seems impossible of attainment by any other race.

These negro melodies constitute one of the distinctive contributions to folk song music lore.—in fact they are America's one great part in folk song music. The modern jazz music, now so popular, is an outgrowth of the old negro folk songs and melodies, but the modern jazz music does not contain the charm and haunting melody of the old negro spiritual.

Miss Kathryn Watson, soprano, has a remarkable fine voice. She is a college graduate and a real southern negress.

Miss Georgia Isabelle, contralto, is the soloist in a large colored church in Chicago.

Mr. Charles Mason, basso, has those deep tones which seem to come from his boots. He is jolly and full of fun.

Mr. A. J. Nimrod, tenor, has a clear voice of excellent quality, and one which blends most harmoniously with the rest of the group.

Miss Mary Gordon, pianist and accompanist, does her important work in a style to provoke the most favorable comment.

Altogether this group of ladies and gentlemen will delight and please you with their harmonious renditions of the old southern negro music.

The two concerts on the last day will linger in your memory after they are gone as the finest harmony of the program. Their concert on the last night will alone be worth the price of a season ticket.

### HALIFAX ATHLETE TO ENTER ACADIA

HALIFAX, September 2.—Robert Ellsworth, a popular local boy, who made a great showing in athletics at Allen Military School, which is located outside of Boston, last year, is slated to enter Acadia University. Ellsworth had at first planned to enter Dartmouth University, Hanover, New Hampshire, but a few weeks ago decided in favor of Acadia. A clipping from the Boston Post says: "Robert Ellsworth, of Halifax, N. S., who has been elected track captain at Allen, is developing into an all-round athlete. Before entering Allen he had confined his athletic activities to Rugby football, but during the past fall he was valuable as a utility player in football, now he is showing speed in the dash and will be a candidate for the baseball team in the spring."

### WESTWOOD HOSPITAL NOTES

The many friends of Mrs. J. W. Manning will be glad to hear she is progressing as well as can be expected after her serious operation.

Dr. Tufts, who is convalescing at the Hospital, is progressing favorably.

Mrs. Tamplin, who was operated upon about two weeks ago, is making a good recovery.

Miss Marjorie Eaton has returned to duty after a three weeks holiday spent at Kingsport and Middleton.

Miss Ruth Parker, of Medford, is a recent addition to the nursing staff of the Hospital.

### CANNING NOTES

A special meeting of the Canning Branch of the Women's Institute, was held on Wednesday of last week to decide on the proposed Memorial for the boys of Ward 1, who died in the war. The committee, Mrs. Kennedy, Mrs. Kinsman, Mrs. Charley Dickey, Mrs. Parker, and Mrs. Avery was appointed at the June meeting, to obtain designs and estimates for a monument to be placed on the Armouries and to inscribe thereon the names of those who paid the supreme sacrifice, reported at the July meeting with a photograph of the Berwick-Morristown Monument which cost \$800. The committee recommended that members proceed to collect a they had communicated with Red Cross workers of Ward 1. The same committee was re-elected, and instructed to procure details. As the sum of \$600 has been collected it was decided to order the monument.

Miss Rita Davidson, has accepted a position on the staff of Habitant school. Dr. Stanley Spicer has purchased from the Supply Co. Ltd., the property on Main St. owned and built by the late W. H. Payzant.

Scott Eaton is taking a course in upholstery at the Technical College, Halifax.

Mr. and Mrs. A. D. Payzant have been spending a few days in Liverpool.

Gerald Huston has accepted a position as manager of Mr. Ogilvie's ware house at Sheffield Mills.

### BEGINNERS IN PIANO

Parents who desire to secure piano-forte instruction for their children should apply to Mr. Frank Marsh, Jr., at his studio in the Seminary, anytime Wednesday, Sept. 22. Pupils in the Senior Normal Class of the Seminary will teach under his direction. Individual lessons for bona fide beginners are Thirty Cents. Apply to Mr. Marsh for full information.

### SEMINARY NOTES

The Exhibition of Etchings and Water Color Sketches given by Miss Muriel Thompson last Saturday afternoon was quite largely attended. The general opinion expressed is that the work displayed was of exceeding high order in drawing, color and composition. Miss Thompson is an artist in the fullest use of the word.

Advertise in "THE ACADIAN."

**Items of Local Interest**

Hillcrest Orchards, near Kentville, has been sold to Mr. Maurice Lowe, of London, England.

The Yarmouth Herald has increased its subscription rate to \$2.50 a year when paid in advance.

The town of Kentville has purchased a motor chemical for fire protection. The new car arrived last week.

The high marks for Grade X, of the Wolfville High School will be published in THE ACADIAN next week.

The Fall time table of the D. A. Railway goes into effect on Sunday. The last trip of the "Bluenose" will be made to-morrow.

Don't forget the B.Y.P.U. entertainment including "The Family Album" to-night at 7.30 in the Baptist Vestry, Silver Collection.

Mr. P. W. Davidson, Collector of Customs, is having a two weeks vacation. His place is being taken by Mr. Roy Millett, of the Kentville office.

That Acadia Collegiate Academy had resumed was very much in evidence on Friday evening last when the pupils enjoyed their regular annual "pyjama parade."

Mrs. J. A. Baxter announces the engagement of her daughter Vera Maude, to Hedley MacDougall O'Brien, of Dartmouth. Marriage to take place September 23, 1920.

Lovers of stylish headwear are cordially invited to be present at the opening of a line of new Fall Models at Miss Saxton's Millinery Rooms on Tuesday the 21st inst.

The United Farmers of New Brunswick have established a produce shipping department through which they propose to market all the produce offered for sale by the members of their branches, and an arrangement is being made with the United Farmers of Ontario whereby livestock will be marketed in the same co-operative manner.

Five carloads of war trophies for Canada arrived at Montreal on the steamer "Melita" this week. Among the trophies which are to be distributed throughout the Dominion are some wonderful range-finders, 15 feet in length, searchlights, some of which are 10 feet in diameter, and a large number of pompoms, machine guns, German bayonets, helmets, pistols, and rifles.

Mr. H. M. D. Stevens, a well known resident of Wolfville, has been appointed secretary of the American School of Correspondence for Nova Scotia, and will make Wolfville his temporary headquarters. Mr. Stevens will be pleased to explain the merits of the various courses offered by his school. Any one desirous of information please phone 43-4 or write care of General Delivery.

The annual meeting of the Wolfville A.A.A. will be held on Friday evening, Sept. 24th, in Temperance Hall. Full particulars of the meeting are given on another page. This is to be very important meeting and, all those interested in sport should make it a point to attend. Several matters of great importance are to be discussed. Dr. H. T. DeWolfe will be present and give an address on Athletics and Civic Life.

Good sized audiences, especially at the evening performance, greeted the Majestic Players at the Opera House on Saturday last, when they presented the three act comedy, "39 East". All the parts were excellently taken, the acting of Miss Edna Preston and Mr. Rickel Kent being of a very high order. The Majestic Players are a splendidly balanced company, and can always be assured of a hearty reception from a Wolfville audience.

**W. C. T. U.**

The first of a series of what is hoped to be profitable and instructive, Mothers' Parlor Meetings, which the W. C. T. U. purpose holding this year was held on Monday evening at the home of the Pres. Mrs. B. O. Davidson. During the evening well rendered vocal solos given by Misses Evelyn Duncanson, Jennie Pineo, Mrs. W. O. Taylor, Mr. Waldo Davidson, a piano solo by Miss V. Duncanson and Readings by Doan Hatfield were much enjoyed. All present felt that a pleasant and profitable evening had been spent.

# MOTORS AND MOTORING: A Page Full of Interest to the Owner or Prospective Owner of an Automobile.

## TO CLEAN HEADLIGHT REFLECTORS

Do not try to clean the headlight reflectors with an ordinary cloth, because you are apt to scratch the highly-sensitive surface and do more harm than good. The best way to polish them is to first sponge them off lightly with a soft cloth, so as to remove all loose dirt. When dry, take a piece of dampened chamois and dip it in jeweller's rouge, then polish the reflector with a spiral or circular motion, starting at the centre. You will be surprised what a difference clean reflectors will make in the light reflected upon the road.

## DRIVING BACKWARDS

In driving a car backwards or forward, the motor always revolves in the same direction. Ratios of speed are controlled by engaging different sized transmission gears arranged on a transmission or driving shaft and a counter shaft, among which are gears which when meshed will turn the driving shaft in the reverse direction, moving the car backwards when the clutch is engaged.

"Many a dog is considered mad when he is only thirsty," says Our Dumb Animals. In these Prohibition days many a man is both thirsty and mad at the same time.

Grown-ups may learn something from little Johnnie. On the morning of his birthday this notice was found pasted on the door of his room: "Remember my birthday, give till it hurts."

## 80 Years Old — Attributes Health to Internal Baths.

Mr. D. C. Newcombe, 704 N. 4th Ave., Atchison, Kan., writes Tyrrell's Hygienic Institute of New York as follows: "My next birthday is July 13th—80 years old. Have used Tyrrell's 'J.B.L. Cascade' for more than 20 years. Best and only remedy that brings relief without the use of drugs. My experience proved that it always relieves. No danger from it. My ailments were principally Rheumatism, Billiousness, Constipation, etc."

This is by no means an exceptional letter for Tyrrell's Hygienic Institute to receive, as there are now over half a million Canadians and Americans using Dr. Tyrrell's "J.B.L. Cascade" with like results.

By the scientific use of Nature's cleanser—warm water—it eliminates all poisonous waste from the lower intestine and gives Nature a chance to work unhampered.

You will be astonished at the difference in your feelings the morning after an internal bath.

The "J.B.L. Cascade" will be shown and explained to you by A. V. Rand, Wolfville Drug Store, who will also give you free, on request, an interesting booklet by Dr. Chas. A. Tyrrell, "Why Man of To-day is Only 50% Efficient."

Get this booklet and know just why Internal Bathing is so effective in the promotion of better health.

## CYLINDER SQUEAK

The cause of a squeak in a cylinder is lack of lubricant. Excessive friction between the heat expanded piston rings and the cylinder wall will quickly wear the bore and burn the rings unless sufficient oil is soon provided.

## KEEP YOUR BATTERY FILLED

If a battery is allowed to go for any length of time without having the plates fully covered with the electrolyte (water and acid), its usefulness will be impaired seriously, if not altogether. The reason for this is the formation of sulphate of lead on the plates when exposed to the air. The sulphate is a non-conductor of electricity and acts as an insulator to prevent the flow of current. If the acid is allowed to get in the battery so that only part of the plate is covered, the remainder soon becomes coated so that when the battery is filled it does not function as powerfully as before.

Where the coating is not too heavy, a long, slow charge will dissolve it and save the battery. A heavy rate of charge would cause overheating and ruin the battery.

Some car owners cannot understand why it sometimes takes from four to five days to charge a battery. Heavy sulphation is the reason. The motorist should not complain if it takes longer than he expected to get the battery in shape, for the service man is having to work just that much harder to save the battery.

## MOTORING NOTES

If stalled at night and without a trouble lamp, scrape together a small pile of sand, pour about a cupfull of gasoline upon it and set ablaze. It will burn from 15 to 20 minutes.

When the spark plug is removed from the engine for any cause it is well to put a cork in the spark plug hole to exclude dirt and grit until the time comes to restore the plug to place.

Leaks mean power wasted. The leak may be of water, fuel or oil. Good gasketing is the best insurance against leaks. If you are not sure of the existence of a leak, squirt a little oil over the spot. Bubbles will reveal a leak.

A good way to prevent oil leaking out of the crankcase through the bolt holes is to back off the studs a quarter of an inch or so, and then wind several turns of cotten twine around the bolts. When you again draw the studs down onto their seats, the leakage will be overcome. The string acts as a packing material and is very effective.

## A LECTURE ALL SHOULD HEAR

Chancellor George H. Bradford's lectures on the Chautauqua summer circuits in 1919 and 1920 were voted 100% by the audiences in the official vote recorded by the Lyceum Magazine. He will please and inspire you in the same 100% manner at College Hall, on Tuesday evening, when he delivers his lecture entitled "This Way Up."

Chancellor Bradford looks like Bryan and he can talk like the "silver tongued" orator. His message is intimate and points out the "How—When—and Where" of your own way up. He is optimistic but practical as well. Definite suggestions for community and individual improvement find willing ears when "put over" by the virile personality of Chancellor Bradford.

Well fitted by education, training, and experience he drives home powerful truths in a way to make not only converts but friends. He spent eighteen years as a University student and Chancellor and then resigned to become a member of the faculty of a new college, the "University of the Universe."

## WATER COOLING

A water cooled cylinder should not be heated above 212 degrees, the boiling point of water. In fact, it should always be kept below the boiling point of water. At 212 or above, evaporation will occur in the water in the cooling system and if this evaporation is allowed to continue the temperature of the cylinders will rise and the working parts will very likely be injured and warped.

## MAKE ALL CARRY LIGHTS

Did you ever drive along a country road in an auto after dark and all at once come across a horse and buggy hugging the road trying to keep out of the way? Rather took your breath away for a second or two didn't it? The driver of the horse could see the car, because the motor carried lights, but perhaps it was not possible for the autoist to see the horse and rig, for the reason that quite frequently his vision is spoiled by the glare of another car, headed in the opposite direction. A sharp turn in the road may also be responsible for his failure to see the outfit in time to avoid that missed gasp of breath or maybe a collision. What is the answer? Why lights on the buggy, of course; in fact lights on everything that moves along the King's highway after dark (cows, of course, being excepted.)

It's easy enough to be pleasant when your automobile is in trim, but the man worth while is the man that will smile when he has to ride home on the rim.

## SHOCK ABSORBER

The purpose of a shock absorber is to keep the spring from working too fast either in deflection. In other words, it retards too rapid and violent action of the springs in going over bumps.

## PUMPLEAKS

Leaking at the outlet or inlet connections of a water pump is commonly caused by loose packing at those connections. Draw up or tighten the packing of graphited asbestos.

## AUTOMOBILES FOR SALE!

Several second hand Autos. and Auto Trucks. All thoroughly overhauled and ready for the road.

**MALNUTRITION** is the root of much weakness and hinders progress and growth.

**Scott's Emulsion** the world-famous tonic-lead, is the natural enemy of malnutrition and weakness.

Scott's three or four times daily, builds strength—helps drive malnutrition away.

Scott & Bowne, Toronto, Ont.

Minard's Liniment for Burns, Etc.

**When Baby is Cross**

Mothers, when your baby is cross—when he cries a great deal and no amount of attention or petting cheers him—something is the matter. It is not the nature of little ones to be cross and peevish—the well child is a happy child. Give him a dose of Baby's Own Tablets and he will soon be well again. The Tablets are a mild but thorough laxative which regulates the bowels and stomach; banish constipation and indigestion; break up colds and simple fevers and relieve the other minor ills of little ones. Concerning them Mrs. Oscar Bedard, Ste. Sophie, Que. writes:—"Baby's Own Tablets are an excellent remedy for constipation. They relieved my little one when nothing else would and I can strongly recommend them to all mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**EFFECTIVE BAPTISM**

At one of the smaller cities of New England there was an Episcopal church which had two mossin chapels, commonly known as the East End Mission and the North End Mission, from the parts of the city where they were located. One day the rector gave out the notices in his most distinguished high church tone, as follows: "There will be a service at the North End Mission at 3 o'clock and at the East End at 5. Children will be baptized at both ends."

Everybody hates a knocker. They are not even using them on front doors any more.

**DISTINGUISHED NEW ZEALAND STATESMAN**

**Will be Heard at College Hall Monday Evening**

Mr. Chas. H. Poole, who will deliver an address in College Hall on Monday evening, is the representative of the important district of West Auckland in the New Zealand parliament. He is considered one of the prominent figures in Parliament, holding positions on many of the important committees.

Mr. Poole's subject, "Social Redemption," is a broad-minded discussion of governmental problems, embodying an analysis of some of the modern laws enacted in New Zealand and the manner in which they have been working out in that progressive country.

His lecture, while full of information and educational worth, will contain much of that spontaneous humor for which the Chautauqua platform in general, and this speaker in particular, is well known.

"Social Redemption," by Chas. H. Poole, will be an informing lecture given in a highly interesting fashion. Hear Mr. Poole on the opening night at Chautauqua.

The value of the rolling stock used on the highways in Canada is approximately equal to that of the entire capital stock of the railways, the automobiles alone being valued at \$500,000,000 in the Dominion.

Typhoid can be cured in from one to two weeks, according to Dr. Carlos Heuser, a Buenos Aires physician and medical research specialist, who claims he has discovered a cure for the disease.

**ACADIA GRADUATES WED.**

**MACINTYRE—PRESCOTT**

A wedding of much interest was solemnized at the home of Mr. and Mrs. Isaac Clayton Prescott, Albert, Albert County, N. B., on Wednesday evening, September first, at seven o'clock, when the Rev. I. B. Coldwell, pastor of the Baptist church, united in marriage their eldest daughter, Jane Catherine, to Mr. Willard MacIntyre, of Norwich, Conn.

The spacious drawing rooms had been tastefully decorated for the occasion and the bridal party stood beneath an arch of green and white, while the decorations throughout were of mauve and pink.

The bride was charming in a gown of hand embroidered white duchess satin, court train with shell pink lining, conventional veil and coronet of orange blossoms. She wore a string of pearls the gift of the groom and carried a shower bouquet of shell pink roses and white orchids.

She was attended by her sister, Miss Sue Prescott, gowned in orchid satin with gold lace trimmings, who carried a bouquet of orchids and roses.

Little Miss Frances Duren, of Boston, daintily dressed in white gorgette acted as flower girl. The groom was supported by his cousin, Mr. O. S. MacIntyre, of St. John. The brides mother was lovely in a gown of black silk velvet with corsage bouquet of American beauty rose buds. The wedding march was played by Miss Eunice Curry, Boston, with violin accompaniment by Crandall C. Prescott, Sussex, N. B. At the conclusion of the ceremony Miss Kathleen Prescott, youngest sister of the bride, sang, "All Mine Alone."

Following the reception a buffet luncheon was served. Mr. and Mrs. MacIntyre left by automobile for Moncton en route to Fishers Island, Mass., where the honeymoon will be spent, later returning to their future home in Norwich, Conn., where the groom has a large pulp business. The bride travelled in a beaver colored velour suit, with duvetine hat to match.

There many friends remembered them with beautiful gifts. One of the most appreciated was a purse from the Baptist church where the bride had served as organist for several years.

Among the out of town guests were: Mrs. Estelle MacIntyre, mother of the groom, and Miss Muriel MacIntyre, St. John; Mrs. L. H. Burnaby, Chicago; Mr. and Mrs. Gordon MacIntyre, Bear River, N. S.; Miss Grace MacIntyre, Springfield, N. B.; Mrs. James Gross, Mr. and Mrs. Frank Schumann, New York; Mrs. J. Armstrong, Toronto; Mrs. S. Sinton, St. John; Mrs. Jesse Prescott, Miss Prescott, Miss Ethel Davis, Sussex; Mrs. James Magee, St. John; Mr. and Mrs. G. K. Prescott, the Misses Prescott and Master Ronald, Wolfville, N. S.; Miss Laura Bray, Moncton.

The groom is the son of the late Rev. W. F. MacIntyre and was graduated from Acadia in 1910. Later he studied law and while practising in Vancouver enlisted with the 29th Battalion and remained in the service until the end of the war. The bride graduated from Acadia in piano with the class of 1915. Mr. and Mrs. MacIntyre carry with them the hearty good wishes of the home friends.

**ACADIA GRADUATE GETS GOVERNMENT POSITION**

The following clipping was taken from the Ottawa Citizen of Sept. 2nd. The Miss King referred to is a graduate of Acadia in the class of 1905, and a niece of Rev. Noble Crandall, of this town.

TORONTO, Sept. 1.—The Mothers' Pensions Commission this morning spent some hours going through about one hundred applications for the position of secretary, but made no appointment. Four investigators have been appointed at a salary of \$1,500 a year each. They are: Miss Elizabeth King, of Ottawa; Miss Edna Storms, of Hamilton; Miss Dowthy Farncombe and Miss Elizabeth Rogers, Toronto. Two hundred applications from widowed mothers for pensions have been received. More investigators will be required and the commission has 200 applications for these positions.

**IMMIGRATION TO CANADA GAINS**

Immigration to Canada is steadily increasing both from overseas countries and from the United States. Approximate July figures which were secured today show a total of 12,178 persons entering Canada from ocean ports and 4,300 from the United States during July, 1920. Against this total of 16,478 for July was a total of 11,977 for July, 1919. The increase is 5,401 for the month.

The immigrants reaching Canada during July were chiefly British. The farming class led with almost thirty per cent. of the total, and next came laborers and mechanics with about 25 per cent. for each class.

**A Promise that has made good**

When KING COLE TEA was in its infancy we associated with it the slogan—"You'll like the flavor." It was a modest statement, yet when you come to think of it, it covers all that you are looking for in the tea of your choice. How well KING COLE has lived up to its promise is proved by the many thousands of users today.

Perfectly packed in bright lead foil and price marked on every package.

"YOU'LL LIKE THE FLAVOR"

**KING COLE TEA**

**Personal Paragraphs**

Mrs. S. M. Steadman, of Kentville made a short trip to Wolfville on Tuesday.

Miss Linda Higgins is spending September with Mrs. C. S. Muir, of Parrsboro.

Miss Frances Keirstead and Mr. Ronald Keirstead, of Toronto, are visiting in town.

Mr. Lysander Richmond, of Sanford, Me., is visiting his mother, Mrs. C. P. Richmond.

St. Joseph, Levis, July 14, 1903. Minard's Liniment Co. Limited. Gentleman,—I was badly kicked by my horse last May, after using several preparations on my leg nothing would do. My leg was as black as jet. I was up in bed for a fortnight and could not walk. After using three bottles of your MINARDS' LINIMENT I was as well as ever, so that I could start on the road.

JOS. DUBES, Commercial Traveller.

Mr. and Mrs. R. B. Blauveltdt and little daughter, of Yarmouth, are visiting at the home of Mrs. S. B. Bishop, Prospect street. Mr. Blauveltdt leaves this week for Halifax to be admitted to the Bar of Nova Scotia.
