SUMMER VACATION.

The following are the revised Regulations of the Council of Public Instruction respecting summer vacation in the Public Schools:—

1. The vacation for the present year will begin on Saturday, July 16th :

2. Schools will re-open as follows :—

(1). In general, on Monday, August 15th, but Trustees of any school may at their discretion, without loss of grants, defer the reopening until Monday, August 22nd, taking care in all cases to give due notice of this extension to the Inspector of Schools in connection with the sectional return sent in at the close of the term. *When such notice is not given, in any case of doubt it will be assumed that only the four weeks' vacation was taken.*

(2). In all incorporated and county towns, on Monday, Aug. 29th. Also, this extension of vacation may be taken by the Trustees of any other town, the schools of which embrace at least three regularly graded departments, due notice thereof being given to the Inspector with the sectional returns for the term.

(3). The Trustees of any school whose teacher shall have attended the entire session of the Summer School of Science may, at their discretion, give said school a summer vacation of one week in addition to the summer vacation taken under general regulations. Trustees intending to claim this privilege must in all cases forward to the Inspector of Schools a certificate from the Secretary of the Summer School of Science, showing that the teacher in question had been a *bona fide* member of the School, and had attended the entire session.

NOTE.—For the present year the above dates for beginning and closing vacation may be anticipated *two weeks* to enable teachers to attend the Dominion Educational Association at Montreal, July 5th-8th.

COUNTY ACADEMY RETURNS.—In addition to the special returns to Education Office, Trustees will send the usual returns to Inspectors. In no case should drafts for County Academy grants be drawn on the Superintendent of Education without previous authorization.

EXAMINATION FOR TEACHERS' LICENSES.

These examinations will begin at 9 a. m. on Tuesday, July 19th. They will be held at the usual Stations throughout the Province. Candidates will particularly observe that their applications for admission for examination are to be forwarded to the Inspector of the District in which the Station at which they wish to be examined is situated, and not to the Deputy Examiner of the Station, if he be not the Inspector. Printed forms of examinations (though not required) may be obtained from the Inspectors after May 1st. The place entered in the form of application should be that to which the candidate wishes his certificate of admission to examination to be mailed. The revised Regulations of Council (republished in this number of the JOURNAL) should be carefully read by intending applicants. Candidates will take notice that in all cases the questions on Professional subjects will be set in accordance with the provisions of the Syllabus of Examination as published.

SPECIAL GRANT TO GRADE A TEACHERS.—By a recent minute the Council of Public Instruction has ordered that "any Grade A teacher proposing to claim special grant referred to in Section 10, of 'Act to encourage Academic Education,' and No. 16 of 'Regulations relating to County Academies and Graded Schools,' shall, *within three weeks of the opening of the Term*, notify the Inspector of the District in *writing* of his intention to qualify for such claim, and to present at the terminal inspection the required number of High School pupils."

TRUSTEES' RETURNS.

As the Act passed at the Session of 1837, for the further regulation of teachers' grants, has come into operation, trustees and teachers will find it to their interest to have their returns placed in the hands of the Inspectors at the earliest possible moment.

The Department of Education will not be in a position to take a single step towards the distribution of grants, until complete sheets from every County or District have been received. *To prevent general inconvenience and loss from the negligence of individuals, the Inspectors are instructed to report on such returns as shall have come to hand on the 7th of May (or November). Delayed returns run the risk of postponement until the next terminal distribution.* In reply to enquiries, it may be stated that it is impossible to predict the exact date at which teachers may expect to receive their grants under the new arrangement. A general assurance is given that no unnecessary delay will take place. As a careful collation of the returns from the entire Province is now necessary, involving calculations both minute and extended, payments need not be expected at dates as early as these at which grants have heretofore been paid in some Counties sending in prompt returns. Still it is hoped that with due promptitude on the part of all officials concerned, the grants will be ready for distribution somewhere about the average time of previous payments.

ENGLISH LITERATURE IN THIRD YEAR'S COURSE:

Shakespeare's *Hamlet*. (Edition recommended, Rolfe's—Harper Bros., N. Y.)

TEACHING DAYS.—The number of teaching days for the current term, closing April 30th, is 117. The number of Teaching Days for the ensuing term, beginning May 1st, is 109.

ADDITIONAL HOLIDAYS.—To enable teachers more conveniently to aid Trustees in preparing returns for transmission to the Inspector, the Council of Public Instruction has been pleased to order that hereafter "the 30th of April and the 31st of October shall be holidays in the Public Schools, and when either of these days shall fall on Saturday or Sunday, the preceding Friday shall be a holiday." At the request of the Board of School Commissioners, the Public Schools of the City of Halifax are excepted from the operation of this Regulation.

SATURDAY AS A TEACHING DAY.—The Council of Public Instruction has ordered that to existing regulations defining the limits within which school may be kept on Saturdays (see Manual page 70), there shall be added the following: "Provided that nothing contained in these Regulations shall prevent a teacher from teaching on Saturdays in order to make up for not more than two teaching days necessarily lost at the beginning of the term in travelling from a distant section in which he (or she) had been previously engaged."

ARBOR DAY.—To encourage the proper adornment of school grounds, and thereby a cultivation of a taste for the beautiful in nature on the part of the pupils, the Council of Public Instruction has ordered the publication of the following Regulation:

"On such one of the first thirty teaching days of the summer term, as according to season, weather, or other circumstances may be deemed most suitable, trustees are authorized to have substituted for the regular school exercises of pupils the planting by the latter of trees, shrubs, and flowers on the grounds surrounding the school-house. The day devoted to this purpose shall be known and entered in the Register as 'Arbor Day,' and when duly observed full credit will be given for it in the apportionment of public funds, on the basis of the actual attendance of pupils as ascertained by roll-call at the beginning of the exercises, or other convenient time during their progress. Additional value and interest should be imparted by mingling with the practical duties of the occasion short addresses from the teacher and other competent persons and the æsthetic and economic importance of arboriculture. During the summer visitation Inspectors should take note of all schools in connection with which 'Arbor Day' has been observed."

Our native trees grow so freely in the woods that we are apt to suppose that they are merely to be taken up by the roots and transplanted to start at once into a vigorous growth as before. This is a mistake. Great care should be taken in digging up the trees to preserve the fibrous roots; long runners should be cut across with a sharp knife, and not torn. All trees thrive best in well-drained soil, varying from sandy loam to clay. A clay loam suits all descriptions. The holes for the trees should always be made ^{so} the trees are brought on to the grounds. They should be ^{Signa} rather than too small. In filling in, the better soil from ^{in the} the face should be returned first, so as to be nearer the ^{Name of} ^{Witness} the soil; is at all sterile; and generally there should around the roots some well-rotted compost, mixed

with sand and sandy loam, in order to promote the growth of the rootlets. In setting the tree it should be placed a little deeper than it stood before, and the roots should be so spread out that none are doubled. When finally planted the tree should be tied to a stout stake in such a way as to prevent chafing of the bark. Some mulch or stable litter should be thrown around the stem to protect the roots from drought. Stirring the ground is preferred by some cultivators to mulching. In transplanting evergreens, the roots should not be exposed to air or light—especially to the heat of the sun—more than can be helped.

Several varieties of shrubs planted together in clumps produce a very pleasing effect, while the care of judiciously arranged flower beds will be to the children an important means of education.

There will be found subjoined some practical suggestions which will be serviceable to those who wish to make the occasion a really profitable one. A day (this year Friday, May 8th) has been fixed by the Maritime Provincial Grange as an "Arbor Day" within the jurisdiction of that body, for the purpose of impressing on the public mind the importance of restoring and preserving our forest resources. Where the season suits, there might appropriately be a co-operation of the Grangers and the school authorities.

In selecting trees, it is well to avoid those that bear flowers or edible fruits, as such in the flowering and fruiting season are apt to meet with injury from ignorant or mischievous passers-by, and to offer temptation to the pupils. Butternuts and Horse Chestnuts are not to be commended as shade trees. The Balsam Fir is objectionable from the liability of its balsam to stain the hands and clothing. Deciduous or broad-leaved trees are easily grown, their fibrous roots rendering transplanting a comparatively simple operation. If care is taken, the young saplings of the elm, maple and ash, as found in the undergrowth of the forest, can be transplanted without difficulty.

No school-grounds should be without a suitable number and variety of the standard deciduous trees. However, during the winter season they are bare and unattractive, and afford little or no shelter. On the other hand, evergreens, such as Spruces, Pines, Hemlocks, and Cedars, retain their foliage and provide a shelter as useful in winter as it is grateful in summer. Trees should always be planted according to a definite plan, being arranged either in curves or straight lines, according to circumstances, and with an obvious relation to the building and fences. They should never be placed so near the school-house as to interfere with the free play of light and air.

TEXT BOOKS.

Comment.—In performing the duty of selecting and prescribing text-books for the Public Schools, the Council of Public Instruction has availed itself as fully as possible of the knowledge and experience of those who are engaged in the practical work of education. The sole aim of recent modifications has been to secure, at reasonable cost, a series of texts, adapted for use in schools. Change in authorized books is in itself a very undesirable thing; and it is hoped and believed that matters may remain where they are now for years to come, without substantial alteration.

The general effect of recent changes has been to largely and permanently reduce the cost of text-books, especially to pupils pursuing an extended course. The Council is engaged in inquiries and efforts with a view to still further diminish expense by securing, wherever practicable, a lowering in price and an improvement in the mechanical quality of the prescribed texts.

Inspectors and teachers are reminded:

1. That the Course of Study for Common Schools encourages an economical expenditure for text-books by providing a system of oral instruction for junior classes. Too many teachers try to satisfy themselves in respect to their more youthful pupils by placing in their hands text-books not needed in any case, and worse than useless when unaccompanied by proper oral exposition. A text-book should not be required for a child until he is prepared to use it intelligently.

2. That the regulation which makes it illegal and improper for a teacher to introduce unauthorized texts, by no means hinders him from giving his pupils the benefit of other treatises to whose explanations he may attach importance. The progressive teacher will always have such aids within reach, and will so use them as to impart variety and interest to his instructions.

The opening will take place in the hall of the Centennial school, the Mayor of St. John presiding; and, besides the opening address by the President, G. U. Hay, Ph.B., speeches will be delivered by Premier Fielding, Dr. MacKay, Dr. Inch and others.

An excellent faculty of instructors has been secured, consisting of the following:

Each afternoon will be occupied with pleasant excursions for field work in Botany, Geology, &c., to such points of beauty and interest as Lawlor's Lake, Lancaster Beach, Falls of St. John, Pokiok Hills, &c., or to such indoor work as a visit to Parks and Son's Cotton Factory or Owen's Art Gallery. A moon-light trip is to be made on the Kennebecasis.

The evenings will be occupied by lectures on Astronomy in the open air, public lectures by Dr. MacKay, Supt. of Education for Nova Scotia, Principal Cameron, Chief Supt. Inch, and others, and a closing entertainment under the direction of Miss Alexander, instructor in Elocution. No teacher who attends can fail to have a good time, to say nothing of what will be learned in the direction of science and of teaching. Of the last two the prizes of the faculty

are a sufficient guarantee. Those who were present at Antigonish last year voted it the most pleasant and profitable fortnight of the year. Board can be obtained from \$3 upwards. NOTE.—Discussion will form a prominent feature of every session.

In view of the many and important changes made in the School Law by the "Act relating to Public Instruction" passed at the last meeting of the Legislature, and published below, a mid-summer edition of the Journal of Education will be issued, containing Revised Regulations of the Council. This will be placed in the hands of Trustees and Teachers in ample time to enable them to make all necessary arrangements for the ensuing year.

AN ACT TO AMEND THE LAW RELATING TO PUBLIC INSTRUCTION.

Passed 30th day of April, A. D., 1892.

Be it enacted by the Governor, Council, and Assembly, as follows:

1. Sub-section 15 of section 3 of chapter 29, Revised Statutes, Fifth Series, "Of Public Instruction," is hereby repealed and the following substituted therefor:

"(15.) To appoint qualified persons to constitute a Provincial Board of Examiners to examine and report upon the written exercises at the annual examination of pupils who have pursued a high school course of study at the County Academies, high schools, or elsewhere, the results of such examinations to be used as evidence of scholarship in the case of application to the council for licenses to teach. The council shall also have power to prescribe the mode in which examinations shall be conducted, to designate the times and places at which candidates shall present themselves for examination, and to make such further arrangements as may be deemed necessary. The examiners so appointed shall be paid such sums as the council may determine, and the persons appointed to conduct the examination at each station shall be paid a sum not exceeding three dollars per diem while actually engaged in the duty."

2. Section 6 of the said chapter 29 is amended by inserting the word "annually" after the word "trustees" in the third line.

3. Sub-section 1 of section 31 of the said chapter 29 is hereby repealed and the following substituted:

"(1.) To contract with and employ a licensed teacher or teachers for the section, and where necessary licensed (or unlicensed) assistants for a period not less than one year, or if the section be poor, not less than three months. Provided, however, that for special cause, with the consent of the inspector, trustees may employ a teacher for a term less than a year."

4. Section 39 of the said chapter 29 is hereby repealed and the following substituted therefor:

"The sum of one hundred and sixty-seven thousand five hundred dollars for each school year shall be paid semi-annually or as the Council of Public Instruction may prescribe, to legally qualified teachers employed in the common schools in accordance with law, to be divided to each teacher in conjoint proportion to the number of days taught and to the following scale for the respective grades or classes of license held, namely, Class A (Academic)—in the case of a principal two hundred and twenty dollars, and in the case of a subordinate teacher one hundred and eighty dollars—when employed in a graded school doing high school work under conditions prescribed by the Council of Public Instruction in a section not maintaining a County Academy; Class B (first), one hundred and twenty dollars; Class C (second), ninety dollars; and Class D (third), sixty dollars."

5. Section 43 of the said chapter 29 is amended by striking out the words "one-half" in the tenth line, and the syllables "semi" in the eleventh line.

6. Section 44 of the said chapter 29 is hereby repealed and the following substituted:

"44. The amount provided to be raised annually as aforesaid shall at the close of each year be apportioned to the trustees of schools conducted in accordance with this chapter, to be applied to the payment of teachers' salaries, and each school shall be entitled to participate therein at the rate of twenty-five dollars per year for each licensed teacher employed, and the balance of the municipal fund shall be distributed among the schools according to the average number of pupils in attendance and the length of time in operation, but no school shall receive any allowance for being in operation more than the prescribed number of days in any year."

7. Section 48 of the said chapter 29 is hereby repealed, and the following substituted:

"48. A sum not exceeding one-half the amount assessed as a county rate in any municipality for the support of schools may be advanced from the Provincial Treasury to the municipality for a period not exceeding four months, and the municipality shall repay to the Province such sum out of the municipal taxes when collected."

8. Section 63 of the said chapter 29 is hereby repealed, and the following substituted:

"63. The annual school meeting for the election of a trustee or trustees shall be held in the school-house of the section, or if it be not commodious, or if its use cannot be obtained, or if there is none, in any other convenient building, on the last Monday in June, or at any previous date which may for special reasons be

"fixed for any inspectorial district, county or section, by the Council of Public Instruction," the meeting to be called by the trustees, "or when none exist, by the inspector, by notices posted in three public places within the section five days previously, signed by the trustees, or the inspector, as the case may be."

9. Section 69 of the said chapter 29 is amended by striking out of the tenth and eleventh lines the words "which date shall not be later than the fourth Monday of October."

10. Section 72 of the said chapter 29 is amended by striking out of the eleventh line of sub-section 1 the word "half," and substituting for sub-section 12 the following:

"(12.) To transmit to the superintendent on or before the first day of August in each year a statement of the annual distribution of the county fund, and also by the first day of October a general report of his labors, noting the condition of the schools in his district, and the means of improvement, stating the sections visited where schools did not exist and the results of such visitations, and furnishing therewith such statistical information as the superintendent may require."

11. Sub-section 9 of section 74 of the said chapter 29 is hereby amended by striking out the word "half" in the first line.

12. Sub-section 12 of section 74 of the said chapter is hereby amended by substituting for the words "the half-yearly return" in the first and second lines, the words "all returns."

They also advertise several excellent side-trips at low rates. For Bulletin with full information address—C. W. Bardeen, Publishers, Syracuse, N. Y.
