

THREE N. Y. BANKS CLOSE THEIR DOORS.

Two Declare They are Solvent But Suspend Until Panic is Over.

Belief That the Situation is Well in Hand-- London Papers Criticise Roosevelt.

New York, Oct. 24.—All the overnight developments in the financial situation were reassuring. The series of conferences last night participated in by Secretary Cortelyou, J. Pierpont Morgan, John A. Stewart, James A. Stillman and other representative bankers and men of affairs resulted in an agreement in the opinion that the banking situation is well in hand, and that with the Government deposits to be made by Secretary Cortelyou to-day, there will not only be enough cash in hand, but even more than might be needed to meet safely any emergency.

The run on the Trust Company of America was continued this morning. As early as 6 o'clock a little knot of persons had gathered in front of the company's main banking house in Wall street, and by 8 o'clock their number had been augmented until about 100 were in line.

At the company's branch at Broadway and Ann streets, formerly the Colonial Trust Co., there were 50 or 75 persons in line at 8 o'clock.

As is always the case in time of financial excitement, New York bankers and brokers were at their desks early this morning, awaiting for the London quotations on American stocks.

The 1 o'clock prices on the London Exchange showed considerable strength among American securities. Union Pacific was up 3/8, B. & O. 23/4, Atchafalpa 23/4, Southern Pacific 2, Amalgamated Copper 1, U. S. Steel and Southern Railway 3/4, and Erie 3/4.

The stock market opened strong and higher. The Trust Company of America began payments to its depositors promptly at 10 a. m.

Small Banks Close Up. New York, Oct. 24.—A minor State Bank, in West 127th street, suspended payment to depositors to-day. A notice posted on the doors of the bank this morning announced that the bank was solvent, and that in justice to depositors payment had been suspended until public confidence in banking institutions was restored.

E. R. Thomas, who was associated with F. A. Heinze and Chas. W. Morse in several banks and financial ventures, was formerly President of the above bank, but resigned after the break in United Copper stock which marked the beginning of the recent financial troubles in this city.

Orlando F. Thomas, brother of E. R. Thomas, also recently resigned as a director, and Wm. R. Montgomery was elected President. The bank has a capital stock of \$200,000 and deposits of about \$7,000,000. The bank has four branches in New York city.

This bank is not one of the large institutions in the city. Its location in Harlem gave it a good neighborhood business, but it never was in any way a representative New York bank.

Twelfth Ward Also Suspends. Following the announcement came the news that the Twelfth Ward Bank, located at 125th street and Lexington avenue, had suspended payment. The Twelfth Ward Bank is a State institution, and a State bank examiner will be placed in charge of its affairs. According to a recent statement, the institution owed depositors about \$3,000,000.

Run on Savings Bank. The run on the Dollar Savings Bank, a Bronx, which began Tuesday, continued to-day. Nearly three hundred depositors were lined up outside the building at daylight. Many of them, a majority of whom were women, had stood all night in the line. A large percentage of the Dollar Bank's depositors are foreigners.

Empire City Suspends.

New York, Oct. 24.—The Empire City Savings Bank, located at 231 West 125th street, posted a notice this morning announcing its suspension for 10 days under the banking laws. The officials of the bank declare that the institution is entirely solvent, but they decided to avail themselves of thirty days notice of withdrawal under the State law, because they feared a run owing to the suspension of payment of other banks.

The Empire City Savings Bank is one of the city's comparatively minor organizations and does not rank among the great metropolitan institutions. Its suspension is without bearing on the general financial situation in New York.

Roosevelt Criticised. London, Oct. 24.—The financial writers express continued confidence to-day, and the editorial writers do likewise, that the British public will not be greatly affected by the financial crisis in the United States unless it should lead to drain of gold to New York, and in this connection there is considerable interest as to whether or not the directors of the Bank of England will raise the bank rate of discount to-day.

There is much difference of opinion in the matter of President Roosevelt's part in the present collapse. The Daily Telegraph says editorially that President Roosevelt's anti-trust campaign has done much to shatter confidence in the United States. The President's object is beyond reproach, the paper says, but it is absolutely necessary that the sky should be dragged down in order to catch the few larks the President is bent upon getting. Could the guilty parties be brought to book without involving thousands of investors in their punishment?

"We fear," the Daily Telegraph says in conclusion, "that the innocent will suffer more seriously than the guilty." The Standard, which reflects more the general opinion, thinks that a crash was inevitable sooner or later and that the action of the American Government, did no more than precipitate it. This paper says that probably President Roosevelt was justified in declaring that he had "only turned the light on."

Situation Favorable. New York, Oct. 24.—Developments in the financial situation this morning were more favorable than they had been at any time within the past week. The Trust Company of America opened its doors for business at the usual hour. A short time before that Oakleigh Thorn, president of the institution, announced to waiting depositors that the institution was entirely solvent, and was prepared to meet all claims.

The sub-treasury received \$10,000,000 in cash from Washington this morning. After a conference with Secretary Cortelyou this morning Geo. W. Perkins, of J. P. Morgan & Co., said:

"The situation is working itself out satisfactorily. Confidence is being restored, and I can say that the financial institutions of the city are perfectly solvent."

It's All Right. New York, Oct. 24.—The first half hour of business at the Trust Company of America this morning more money was deposited than was withdrawn. The deposits up to 10.10 a. m. amounted to \$900,000. At 10.45 J. P. Morgan, in reply to a question as to the situation, said:

"It is all right. James Stillman, president of the National City Bank, the largest bank in the United States, who was with Mr. Morgan, concurred, saying that the situation was satisfactory.

Bankers and brokers having in charge the placing of loans for John D. Rockefeller were instructed this morning to make all loans at the rate of 6 per cent.

LIBERAL CLUB Arranging for Opening and Other Interesting Events.

Arrangements are being made by the executive of the Liberal Club for its opening and for a busy fall and winter season. The club will co-operate with the Liberal Association in making the Mackay meeting of Saturday evening, Nov. 2, a great success, and is also arranging for the opening of the season on Thursday evening, Nov. 7. The opening this year will take the form of a first-class entertainment, open to all. A committee is arranging a programme, which will be announced later, and which will certainly be good.

The annual meeting of the club will come the week after the opening. Already the executive has taken up the question of a banquet and is arranging for speakers from the Dominion Cabinet, and others. As soon as possible the date will be announced.

FIVE MAY DIE. English Crew Attacked by Four Hundred Chinese.

San Antonio, Tex., Oct. 24.—A dispatch from Santa Cruz, Mex., says: That because 200 of their countrymen were detained on board by the sanitary inspectors of this port, 400 Chinese who had just been landed began a murderous assault last night on the English ship Woolwich and her crew. Many men were seriously injured in the affray, and five may die from their wounds.

SHOT HER LOVER. Jealous Young Girl Commits Murder and Suicide.

Shamokin, Pa., Oct. 24.—Wm. Klinger, of Locust Gap, near here, was shot dead by his sweetheart, Miss Lucy Doughton, of this place, late last night in front of her father's residence, after which she shot herself, death resulting instantly. Jealousy was the cause. Miss Doughton was 18 years old, and Klinger five years her senior.

NO HOLY WAR, But France Must Remain Neutral to Secure Property.

Paris, Oct. 24.—Mulai Hafid, Sultan of the south of Morocco, is quoted in an interview as insisting that he had not declared a holy war against the foreigners, but against his brother, Sultan Abd. El Hazi, who, he added, was ruining the country and gradually delivering it over to foreigners. Continuing, Mulai Hafid is quoted as saying: "If France wishes security for property in Morocco she must remain neutral."

FATAL SHAKE. Two Villages Destroyed—Ten Lives Lost—Cathedral Fell.

Rome, Oct. 24.—The earth shocks which were felt throughout Calabria yesterday caused considerable damage, destroying two villages, but so far as known only ten lives were lost. To add to the desolation, it was raining in torrents, which resulted in much suffering among the homeless people. The cathedral at Torre di Gerace was thrown down, as was an ancient tower, which had withstood all the Calabrian earthquakes for centuries past.

COUNCIL NOT PLACE FOR WORKINGMEN.

Such is Opinion of Ald. Anderson, After a Trial of One Year.

Suggestion to Continue Jolley Cut to the Head of Victoria Avenue.

"My advice to every workingman who contemplates seeking aldermanic honors is to take serious counsel with himself before making the plunge," said Ald. Anderson, one of the Labor representatives in the Council, who bases the warning on actual experience. Ald. Anderson does not think that the average toiler has the necessary time to devote to the management of civic affairs. When asked if this meant that he would not be a candidate again, Ald. Anderson replied that it was quite probable he would not, and, in any event, it would require considerable pressure to get him to face the barrier again. Referring to the vote of censure passed on him by the Trades and Labor Council, because he voted against the proposal to have the assessment rolls published, Ald. Anderson says he has no doubt he could have explained the matter to that body's satisfaction had any of its officials called upon him. At the meeting of the Fire and Water Committee, when he wanted to get an engineer appointed for the new steam engine, Mayor Stewart said he would rule it out of order, because there was no money for the purpose. Throughout the year there has been a lack of funds for necessary road work and other pressing needs. Ald. Anderson took the stand that when there was no money for these purposes there could be none for the publishing of the rolls. As regards his connection with the Trades and Labor Council, Ald. Anderson explains that he never belonged to a union in his life, and that he was endorsed by the council after he decided to be a candidate. During his term he says he has voted as his conscience dictated; was not associated with any clique, and permitted no influence to swerve him.

DOWN TO \$1. Wheat Took a Tumble on Local Market To-day.

Wheat on the Hamilton market is down to \$1 a bushel again. It reached that mark about the beginning of this month and then soared to the \$1.07 last week. That was the highest price in two years, but it did not last long. The drop from \$1.03 to \$1 took place this morning. The supply has not been very large this week, although a good deal came in when the price was at its highest. Some growers thought there would be a further advance, and now wish they had sold earlier.

FROM AUSTRALIA. Mr. P. A. Thompson Home From the Antipodes.

Mr. P. A. Thompson, after three years spent in Australia, representing H. J. Heinz & Co., is here for a visit to his people, Mr. P. Thompson and family, 29 Ontario avenue. Mr. Thompson has travelled the great British colony in the southern Antipodes from end to end, and is very much in love with it. Next to Canada, Australia is the country, he says. He brought with him some very fine views of Sydney, Melbourne and other places, and samples of the numerous ores found throughout the country. He likes the climate, particularly in the south, where it is not as warm as in the north, and where he has seen a little snow. There are not as many foreign nations represented in the large cities as in notices in Hamilton, the population being very largely composed of the three British peoples—the English, Irish and Scotch, with a small proportion of German. The great drought which so harassed the country some years ago was over before he went there, and the country has been marvellously prosperous during the period of his stay. Mr. Thompson will remain in Canada for some weeks, spending most of his time in Toronto on the company's business, before leaving for the other side of the world, about the beginning of the new year. He has in contemplation an extensive trip through India, China and Japan, also, before going back to the island continent.

MORNING WEDDING. Alex. Aitchison and Miss Rhoda McKeown Married.

A very quiet wedding took place this morning at the residence of Mr. Joseph McKeown, 503 King street west, when his eldest daughter, Miss Rhoda McKeown, was united in marriage with Alex. Aitchison, of this city. Rev. Hugh McDairmid performed the ceremony. Only the immediate relatives of the contracting parties were present. Mr. and Mrs. Aitchison left on the morning train for points east. Her going-away gown was brown, tulle-trimmed, with hat to match. Mr. and Mrs. Aitchison carry with them the best wishes of a large circle of friends for a bright and happy future. They will reside in the city on their return.

HARRY MARSHALL TO BE PARK SUPERINTENDENT. Practically Settled That He is to Fill Position About to be Made Vacant.

It is said to have been practically settled upon that Harry Marshall, 643 Main street east, a well-known florist, will be appointed to the position of Park Superintendent, to succeed Samuel Weaver, for many years caretaker of Dundurn and general foreman of the city parks, who was dismissed by the board at its last meeting, following charges made by Parks Commissioner Wild. The time for receiving applications expires at 3 o'clock on Monday afternoon. Only two applications have been received so far.

EMPEROR BETTER. Slept and Didn't Cough—Will Take a Walk.

Vienna, Oct. 24.—The physicians in attendance on Emperor Francis Joseph this morning announced for the first time since his Majesty has been confined to Schoenbrunn Palace that the convalescent stage of his illness has begun. His sleep last night was undisturbed by coughing and the catarrhal symptoms are improving. Preparations are going on to permit the Emperor to take a walk in the grounds, in the event of his improvement continuing and the weather is favorable.

ANOTHER BREWERY. May Be Started by Syndicate of Hotel Keepers.

The increase in the wholesale price of liquor means the passing away of "five cent" whiskey. A few hotels have sold draught whiskey at five cents, although the majority of bars abolished the cheap poison when the license fee was increased by the Whitney Government. Although the local association has not dealt with the matter, it is practically settled that draught whiskey will be 10 cents and "case" whiskey 15, two for 25 cents. The increase in the price of liquor is not worrying the retailers as much as the increase in the price of beer, which is the main source of profit. There is some talk of establishing another brewery. About fifteen hotelmen are interested in a mineral water company, a kind of co-operative concern. This has paid well, and some of the hotelmen think a brewery would pay even better. If Gus Kuntz, of Waterloo, does not start a branch here, hotelmen say they will take the question up. The Brewers' Trust. Ottawa, Ont., Oct. 24.—In regard to

UNSAVORY TRIAL AT BERLIN; PROMINENT PEOPLE INVOLVED.

Editor Sued by Gen. Moltke for Libel--Some Rather Peculiar Evidence.

Berlin, Oct. 24.—The libel action brought by General Count Kuno Von Moltke against Maximilian Harden, editor of the Die Zukunft, began here yesterday. Von Moltke is an intimate friend of Prince Philip Zu Eulenburg, the ex-German Ambassador to Vienna, and a kinsman of the present chief of the general staff, Lt.-Gen. Count Helmuth von Moltke and of the governor of the province of East Prussia, Frederick Von Moltke. These three Von Moltkes are nephews of the late great field marshal Von Moltke. Harden began last November to assert that Prince Zu Eulenburg was the head of a group at court that sought to influence the Emperor's political actions by subtle, indirect suggestions. Count Zu Eulenburg, Count Kuno Von Moltke and Lt.-Gen. Count William Von Hohenau, one of the Emperor's adjutants, were mentioned by Harden as members of the so-called camarilla, or "round table" and he further alleged that they were spiritualists and of abnormal temperaments and habits. According to report the Crown Prince Frederick William made an inquiry into the charges in May and went to his father with the result of his investigation, which caused Prince Zu Eulenburg, Von Moltke and Lieut. Gen. Von Hohenau suddenly to resign. After the clerk of the court had read one of Herr Harden's articles on the subject the defendant said: "I have fol-

lowed political aims alone in my articles and in so doing have been compelled to mention Count Von Moltke's name. I did not say he had practiced disgraceful vices, but said that he was abnormal in temperament." Count Von Moltke said that such a circle as the "round table," which, as defendant alleged, had sought to influence Emperor William's political actions, often in a sense contrary to the views of his constitutional advisors, existed. Herr Harden declined to withdraw anything that he had written, but admitted frankly that he had twice been imprisoned for insults to the sovereign, each time for six months, and that he had also been fined several times for the same offence. Harden said he did not accuse Von Moltke of criminal acts, but he regarded his friendship with Prince Zu Eulenburg as a crime in character, for the plain-Prinze's handkerchief, which she described the handkerchief identical, which she said she saw from an adjacent room. Referring to her divorce, Frau Von Elb said she had asked Von Moltke, "What will His Majesty say to our divorce?" "His Majesty only hears what I allow him to know." These words created a great sensation in the court room.

The Man In Overalls

New story this evening. There will be no right of way needed when we travel by air line as the crow flies. Do boss barbers mean by "open shop" that they will keep open 11 p. m.?

Alongside the coming Thanksgiving battle the Stoney Creek affair will look like a mere skirmish. No, Maude, the new diamond at the corner of Hess and Herkimer streets is not the Koh-i-noor.

Wasn't it Mr. Moodie who owned the first bicycle and the first automobile in the city? Will he also own the first balloon or airship? Likely he will.

Joe Downey thinks that if people would behave themselves and keep out of Central Prison there would be no prison labor problem to solve. Prize packages have been declared illegal. Limericks are still winked at.

Love and Crime

CHAPTER I

Two people are sitting on the veranda of a Paris hotel. They are in strange contrast. One, a woman of uncertain age, with a thin, unmusical voice and unattractive features, but dressed in the very height of fashion. The other, a young man, broad-shouldered, keen-eyed, with cheeks flushed and lips parted in a kindly smile, the very image of fresh, young manhood.

darkening afternoon, beneath the great, violet storm clouds that rise like menacing battalions on the low horizon. "No! How provoking! You should have put a useful book of that kind among the hand luggage! Give me the dressing bag key," she adds, irritably.

It is explained, as she sees a porter rushing past with a portmanteau, followed by a tall, stalwart, young fellow, who strides easily along, covering as much ground on one step as the porter does in two.

St. Catharines, Ont., Oct. 24.—According to the growers a good deal of damage was done to grapes still out, by frost last night, though reports are slow in coming in. SMALL FIRES.
Several Short Runs and Some Minor Accidents.
At 11:10 last night the fire department was called to a fire in a shed in rear of the Toronto & Hamilton Electric Co., MacNab street north, and found the shed beyond saving, and the roof of the electric shop on fire. They got the two fires out with a loss of one horse and the shed, valued at \$100. The shed and horse were owned by an Italian named Camille. The loss will be \$150 on the electric company's stock and building. While at this fire an alarm was turned in by a Spectator reporter for a fire at 248 James street north. A small shed was burning. No damage was done. The shed is rented by A. Gowdy.

The action is for the specific performance of an alleged agreement to sell land in this city. The defendants claim that the price was too low, and for that reason broke off the agreement. Mr. Thomson appeared for the defendant.

(Dundas Banner.)
Liberals! Ye good Reformers of the grand old constituency of Wentworth, get in good shape to stand the convention in Hamilton on the 9th of November.

THE HAMILTON TIMES

THURSDAY, OCT. 24, 1907.

A PERILOUS SITUATION.

The financial situation in the United States is far from assuring, and a condition of things has been brought about that will require all the generalship and resources of the country's financiers to avert a great national disaster.

From New York the disturbance has spread to Pittsburgh, where four of the United States Westinghouse firms have been placed in the hands of receivers, and the Stock Exchange has been closed to prevent foolish sacrifice of securities during an uncalmed panic.

That is not a bad record, but the Brantford Expositor points out that a still better showing is made when we include the fiscal year just ended. It says that a short time ago Mr. Fielding was able to announce that the surplus of the past fiscal year had more than wiped out the debt increase of the past ten years, and that Canada's debt-to-day is less than it was when the Conservatives went out of office.

THAT SANDSUCKER.

The Fire and Water Committee last night decided to repair the sandsucker, damaged by fire in the filtering basin, at a cost that the insurance will probably cover, and put it in working order again.

Now, when the financial fabric of the country is threatened with collapse, her great industries with ruin, and her commerce with resulting stagnation, it is the great princes of finance who have been so much assailed, the Morgans, the Rockefellers and their associates, who are looked to to save the situation and avert national disaster!

EDITORIAL NOTES.

But the automobile owners are not yet sacrificing their machines to buy balloons.

Thanksgiving turkeys, we are told, will be plentiful and cheap. Something to be thankful for.

Saskatoon has sold \$100,000 5 per cent. debentures at 90. But that is getting money at a rather high rate.

When Foreman Nelligan gets his accusers before the jury they will be obliged to produce the goods or own that they were misled.

New York is adopting the same style of street car as Montreal, with one door for ingress and one for exit. It is said to avoid much confusion.

Why is it that a lot of students who have passed the bib and nursing bottle stage cannot behave themselves when on a party visit to another town?

OUR GROWING BUSINESS.

We hear a good deal from Tory papers about the increase in the national expenditure under the Liberals. It has increased very materially; but who would wish to decrease it? Take the Post Office, for example. The increase in that branch of the service has been very large. But the demands of the country made it necessary, and there are not lacking Tory speakers and newspapers which assert that it should be much larger, and that higher pay should be the rule.

service has been greatly cheapened and extended.

And what applies to the Post Office applies to the other departments of the Government. The business has increased, and the figures of expenditure have largely increased. What the dishonest critics do is to conceal the fact that the business has also grown vastly.

What's wrong with Judd's gullotine? Was it out of order? A London despatch to the New York Sun says Canada is carefully guarding against the entrance of unfit immigrants even from Great Britain.

Toronto people are kicking over the increased cost of coal, which they suspect is the work of a combine, and they ask for a Government commission to investigate.

The Hague conference was not altogether a failure. The restaurant keepers and caterers furnished more than half a million dollars' worth of food and drink to the delegates.

The Board of Governors of Wesleyan Theological College sent heterodoxy in Prof. Workman, and ask him to resign, the vote standing 10 to 7.

HERE AND THERE.

Toronto Telegram: An increase in the price of wheat means dearer bread. A decrease in the price of cattle does not mean cheaper beef.

Montreal Herald: The czar hasn't made much of a success of his brief career, but he must at least hold the record for dodging plots to blow him up.

Vancouver Colonist: Sir Wilfrid Laurier told a Halifax audience that the All-Red line would surely be accomplished. We hope he has good grounds for his confidence.

Buffalo Express: Illustrating the promptness of the Dominion postal service, a letter carrier arrested in Toronto at 10.45 a. m. on a charge of robbing the mails was in jail within an hour of being arrested.

Ottawa Free Press: This time 365 days ago we all had the Nipissing fever. Everybody convalesced now.

Toronto Star: Secretary Hanna is back without a moose. And no wonder. Every moose within a hundred miles knows that Secretary Hanna had blood in his eye, and that almost any animal was in danger of being mistaken for Dr. Beattie Nesbitt.

London Advertiser: At a time when the cost of living threatens to rise beyond all precedent it is comforting to know that the prices of copper and cable messages are coming down.

Crazy Talk. (Brantford Courier.) One of the competing balloons in the international race came to earth near Hamilton. Probably the balloonist institution there attracted it.

Even Chances. (Brantford Courier.) The master barbers in Hamilton and their men are having trouble. At the time of writing it is a toss-up as to which will manage to lather the other.

A Toronto Vocalist. (Toronto News.) The man who stands on the street corner at 2 a. m. singing "Love Me and the World is Mine," is not likely to own this world for some time.

One of the Necessaries. (Toronto Star.) Beer now goes up in price. My, my! but the necessities of life are flying so high the poor man soon won't be able to touch them with a ten-foot pole.

Floated Softly Down. (Toronto Telegram.) A United States army balloon came down near Hamilton yesterday, but not so hard as a United States army came down near Queenstown Heights in 1812-13.

Tickles Billy Maclean. (Calgary Eye-Opener.) Now, perhaps, the leading Calgary Conservative, who so studiously ignores W. F. Maclean when that gentleman visits Calgary and goes out of their way to deny and belittle his work in the House of Commons on behalf of the plain people, will rise and explain to his constituents about his programme of public ownership and regulation of railways, telegraphs and telephones—agitated by him for incorporation into the Borden platform which they applaud so vigorously. Maclean is the strongest man in the Conservative side today.

MILITARY.

Ninety-first Parade—XIII Signa Corps Inspected.

The parade of the 91st Regiment last evening was excellent and the men showed themselves ready and willing to get into shape for the big fray on Thanksgiving Day.

The inspection of the signal corps of the 91st will be held about November 8th, and in the meantime a sergeant-instructor will be brought from Toronto to whip the corps into shape.

French-Canadian and Italian Detained to Await Arrival of Officer.

The prisoner was found at 381 Concord avenue, where the man formerly lived.

HOME WEDDING.

IN VALLEY CITY.

MARRIAGE OF NORMAN JAMIESON AND MISS NINA MOORE.

High School Commencement To-morrow Evening—Libel Action Against the Star—Other News of the Town.

Dundas, Oct. 24.—In the presence of a happy home gathering of the relatives of the contracting parties a wedding of great interest to the town and vicinity was quietly solemnized yesterday afternoon at 2.30 at the home of the bride's parents, Principal and Mrs. W. F. Moore, when their eldest daughter, Nina A., became the wife of Norman Jamieson, of Westover. The ceremony was performed by the Rev. Mr. Poole, of Plattsville, assisted by the Rev. T. J. Mansell, of Dundas.

The bride, who was given away by her father, looked beautiful in a dainty gown of white point over cream tulle, trimmed with white satin and lace and carrying a bouquet of lilies of the valley.

After the ceremony a dainty breakfast was served at which many good wishes were expressed. Mr. and Mrs. Jamieson left on a wedding trip to Buffalo and other American cities, the bride's travelling dress being a navy blue tail-made suit, with hat to match.

Many beautiful presents were received by the bride, and their many friends join in wishing them every happiness.

French-Canadian and Italian Detained to Await Arrival of Officer.

Toronto, Oct. 24.—At Sherbrooke today, George Albert Greenhill, found guilty of attempting to murder Lily Lynn at Melbourne on July 3 last, was sentenced to twenty years in the penitentiary.

The prisoner broke down after sentence was pronounced, and it was some time before he could be removed from the dock.

A Golf Story From Gullane.

They were a couple of veterans who had played on the course since the middle of the dark ages, and they progressed with leisurely enjoyment. Behind them came a fiery young couple, who were anxious to be on to the next, and the veterans felt that they were being pressed. Going up the hill the young couple drove into the heels of the men in front in a manner that became offensive.

By and by back came a youthful caddie, with this polite message: "Master Blank's compliments. I am to tell you that he and his partner are going slow, but they can gang a dashed sight slower."

BOOZE COSTS MORE NOW.

GENERAL ADVANCE WENT INTO EFFECT THROUGHOUT ONTARIO.

It Applies to the Product of the Brewers as Well as to That of the Distillers.

A general increase in the prices of liquors went into effect in Hamilton and throughout Ontario yesterday.

The following is the list of former and present prices:

Bottled ale, porter and lager: Quarts—\$1 per dozen, were 90 cents.

Pints—70 cents per dozen, were 60 cents.

Draught lager: One barrel, 32 wine gallons, \$8, was \$7.

One-half barrel, 16 wine gallons, \$4, was \$3.50.

One-quarter barrel, 8 wine gallons, \$2, was \$1.75.

One-sixth barrel, 5-13 wine gallons, \$1.35, was \$1.10.

One-eighth barrel, 4 wine gallons, \$1, was 75 cents.

Draught ale and porter—33 cents per imperial gallon, no change.

A discount of 5 per cent. is allowed on these prices if payment be made within 30 days.

The same regulations as before apply to empties, and all broken bottles must be paid for.

The advance of 50 cents on a half-barrel of lager comes as a great shock to most of the hotelmen, who were mostly unprepared for it.

In Toronto there were one or two wise men, who had been given a tip regarding the increase, and one improved the opportunity sufficiently to place an order for 400 cases of beer—800 dozen—while another out-of-town hotelman happened to drop into a brewery an hour before the increase went into effect, and at once filled an order for three cars of bottled goods.

The wholesale liquor men have also notified the trade that "owing to the recent advance in prices made by the distillers in Canadian whiskies, we are compelled to advance our selling prices to the same extent as the distillers have raised theirs."

The following are the increased prices: All brands, 25 under proof, 8c per gallon; G. & W. Special, 15c per gallon; all brands, 40 under proof, 7c per gallon; G. & W. Special, 15c per gallon; Wall's Imperial, 15c per gallon; Seagram's '83, 25c per gallon. The case whiskies have advanced on an average of 25 cents per case with the exception of Walker's Club and Baronial, which remain as before.

In Toronto it is said the action of the distillers was induced by the recent advance in the retail price of whiskey to 15 cents.

SHOT HIS FRIEND.

Had Quarrel Over Storage of an Automobile.

New York, Oct. 24.—In the course of a desperate fight over the storage of an automobile, Dorman Ormsby shot and killed Frederick Wehmann last night.

Ormsby told the police that he had done the shooting in self-defence. Wounds upon his head and body seemed to bear out the statement.

Ormsby and Wehmann had been friends for years. Ormsby was formerly in the business of manufacturing mineral waters in a building at 168th street and St. Nicholas avenue, but recently he sold out to Wehmann, with the proviso, according to his story, that he was to retain the privilege of storing his automobile on the ground floor of the building, which he had been using for a garage.

A dispute led to the shooting.

SCIENTIFIC TRAINING.

Mr. D. M. Barton has arranged to give a series of illustrated lectures on scientific physical training, on November 7 and 8. He will use his cabinet with its artistic light effects, and will give practical demonstrations with wand, dumbbells, and free hand in illustrating his work.

It was the general expression in the many cities where Mr. Barton has visited that this lecture, with so many fine practical illustrations is the best before the public. A medical student in his dissecting has a chance to see the various muscles, but it is not very often that the general public sees the living muscles at work, hence the frequent bursts of applause.

Mr. Barton will be assisted in these lectures by the Y. M. C. A. gymnastic team which will do some very fine work.

ST. PETER'S CONCERT.

A high class concert will be given in Association Hall to-morrow night in aid of St. Peter's Infirmary. There will be a splendid programme. All who attend besides having a musical treat will be helping Miss Chowne, who is still in the hospital from the effects of her recent accident.

THE QUEBEC BRIDGE.

Philadelphia, Oct. 24.—To investigate the causes that led to the Quebec bridge disaster, the Canadian Royal Commission to-day met in Phoenixville, Pa., to take testimony of a number of officials at the Phoenix Bridge Company, which manufactured the steel for the structure.

Y. M. C. A. NOTES.

The Religious Work Committee met last evening and completed arrangements for opening the song services the first Sunday night in November. A male chorus and orchestra were arranged for, and Mr. Charles Bonding will be the musical director.

The Reception Committee is making progress in its arrangements for the mock trial, managed by Professor Newton, of Worcester, Mass., on Dec. 3rd.

The officers and directors of the Central Association take tea this evening with the Committee of Management at the East End branch.

The championship basketball team has arranged a game with the first team of Central Toronto Association on Thanksgiving Day.

A meeting of the Membership Committee will be held to-morrow evening at 8 o'clock. Something in the way of a reception to new members received in October is contemplated.

The Abyssinian army has 200,000 men, and its equipment includes fifty modern guns.

RACED ON ROLLERS

Large Crowd Enjoyed Events at Alexandra Rink.

The Alexandra Rink was crowded last evening to see the two mile race in which some of the fastest roller racers of this city competed. The crowd got the worth of its money for the race was a good one from the start, and the finish was fast and furious. There were five entries, and Gordon Riggs beat them all for first place, by three-quarters of a lap. The time was 6:47 1-5. J. Morgan was second and F. Garson third, Morley Campbell and G. Hamburg were the other competitors.

A special session was held last evening from 10:30 till 12:30, for the Ninety-first Highland Regiment. There was a good sized crowd present and a very enjoyable time was spent. There was a skating competition for soldiers in costume, and it had a great many entries. It was won by Bugler Peters, with Pte. Cullen a close second. The judges were Capt. McCullough, Lieut. Linton and Lieut. Moodie.

GAVE THEM A FEED.

Students of the S. P. S. Banquet at Waldorf by the City.

Yesterday afternoon City Engineer Barrow delivered an address to the students from the School of Practical Science, who came here yesterday to see the big industrial plants. He spoke of the sewage and water systems of the city, and the students seemed quite interested in the subject. All of the students did not attend the lecture; some went on visits of inspection to industrial plants, and a few others visited the nickel theatres.

In the evening the visiting students were tendered a dinner at the Waldorf Hotel by the city corporation. In the absence of the Mayor, Ald. Dickson presided, and delivered a short speech, telling the boys the city fathers were glad to see them here, and hoped they profited by their inspection of the various manufacturing plants. He also mentioned some of the things that Hamilton is proud of, including the mountain and the Niagara.

There were just two toasts on the list, "The Hamilton Manufacturers" and "Our Guests." The former was responded to by Mr. A. E. Fleming, of the Canadian Westinghouse Co., who spoke briefly on the subject of "Illumination." This was followed by a toast to the "Our Guests," in the course of his address Prof. Ellis said that while the American people had not engaged in war that spills blood for many years, there was a great industrial war raging, and as time goes on this will become fiercer. In an industrial struggle those that take part are working for the general good, and it was the duty of Canada to prepare her sons for the battle. This country should be developed by her own sons, or at least the development should be directed by them—not by people from the United States.

At the conclusion of the speechmaking cheers were given for Hamilton and K. A. Robertson, President of the Board of Trade. The students left at 9:45 on a special train on the C. P. R., loud in the praises of Hamilton and Hamilton manufacturers.

A few unruly students in a street car on Barton street tore down advertising cards and pulled the register rope, but not much damage was done. On the whole the students were a well behaved lot of boys.

Had to Shut Down.

Crawford—I hope you still take an interest in your little boy's studies? I remember the delight you used to take in seeing how many he could count.

Crawshaw—I've stopped doing that.

Crawford—Too bad. A father should never lose interest in his son that way.

Crawshaw—But the boy can now count up to a thousand.—Harper's Weekly.

SMITHVILLE

Mr. John S. Davis has put an addition to his house on Main street and re-roofed it, which adds greatly to its appearance.

Mr. John L. Shrum, of Gainsboro, accompanied by his family, left on Thursday for Alberta, where he intends to spend the winter.

The novelty social given by the Y. P. S. C. E. in Brant's Hall was a great success. All seemed to enjoy themselves to the utmost. The singing of the Kentucky Cornucopia Club was much appreciated. Mrs. Grey sang a Scotch song very nicely and Mr. Harry Patterson played some fine pieces on the cornet. A goodly sum was taken at the door for church purposes.

Rev. J. A. Wilson, B. A., of St. Andrew's Church, Hamilton, preached two sermons, the first on the practical lessons to large congregations on Sabbath last, in the Presbyterian Church here, and was listened to with the closest attention.

A session of the Third Division Court, Lincoln, was held here on Wednesday last by Judge Carman, St. Catharines, when the following suits were disposed of: Shieton vs. Weaver, action on account, Carpenter for plaintiff, German for defendant; Hyslop vs. Merritt, judgment for plaintiff for \$62. Knowles for plaintiff, German for defendant; Hannigan vs. Township of South Grimsby, judgment for plaintiff for plaintiff, German for plaintiff; Kostick vs. Mandelberg, adjourned to next court.

Mr. Geo. Moore, of Missouari, is remaining overnight here.

Mrs. P. Cole has returned from a two weeks visit with her brother in Chicago.

Mrs. R. W. Bowman of Welland, has moved back to this village and is nicely settled in the Hamilton Hotel.

The Trunk Line Telephone Co. has folded its tents and moved to Canfield. The man was a lively lot.

J. K. Tisdale and R. J. Gracey attended the D.D.G.M.'s reception and supper at Dufferin Lodge, Wellandport on Tuesday evening.

David Brown, of Bismark, has been making a number of visits to this village lately.

The Laidlaw Bridge is undergoing repairs this week, which makes it quite inconvenient for the milk haulers and the public.

Deaman Tisdale sold about 50 tons of hay at \$12, and 200 bushels oats at 52c.

The Methodist Church people here will hold their annual harvest home service on Sunday, the 10th November.

Mr. Hiram Sensenbarger, who has been poorly so long with paralysis and its effects, passed away on Monday morning at the home of his daughter, Mrs. R. V. Tisdale, Amigari. The funeral took place at the old White Church, interment at the Sensenbarger cemetery on Wednesday at 10:30.

Two young men, Arthur Philbrick and Edward Clark, were taken before Smithville J. P.'s on Monday last charged with trespass and damage to the property of Richard Swartz, Gainsboro. After a lengthy trial, which was attended by Crown Attorney Brennen, of St. Catharines, the suspects were allowed to go.

PUGSLEY DOESN'T FEAR.

Being Prosecuted for His Course in the Tory Booodle Case.

(Halifax Chronicle.)

In his speech at Gagetown on Thursday, in which he very properly scored the hypocrisy of the Bordenites on the question of electoral-purity, Dr. Pugsley not only repeated the charge that in one inner circle in Montreal of Mr. Borden's personal friends and political organizers, a fund of \$500,000 had been raised for corrupt purposes and that of this amount the sum of \$25,000 had been spent in one New Brunswick constituency alone to secure the return of a Tory candidate—a candidate who was one of Mr. Borden's lieutenants, but he supplemented this by saying that of this sum of \$25,000, \$5,000 was sent into the constituency by telegram on the 24th day of October, 1904, and that both of these amounts were wired to the legal partner of the candidate who was contesting the constituency in the Conservative interest.

There is not much speculation as to which county Dr. Pugsley had in mind as having received this large allotment from the central fund. It was quite unnecessary for Dr. Pugsley to have given the name. The location of at least \$25,000 would seem to have been well established. But, whatever the county, the needs must have been great and the situation desperate, and the money was transmitted by wire; and it would seem that even \$25,000 did not suffice to satisfy the demand. Just the story goes that an urgent telegram, asking, "Can you repeat the dose?" was forthwith despatched to the fountain head in Montreal. Evidently, the recipient of the \$25,000 had quaffed deeply at the well of Tory inspiration. "Repeat the dose" is strongly reminiscent of the "Send another ten thousand" kind of asking" telegram of the old Tory chieftain himself. Whether or not the "legal partner" was as canny as "Zandray," et al, and used a code when arranging for "gifts of money," to be transmitted by way of the telegraph, is not recorded. So much appears to be known that it would seem that that precaution was neglected.

But, at all events, Dr. Pugsley states in the most positive terms that the money was sent. Where did it come from, who received it and who asked the Montreal treasurers to "repeat the dose," are all interesting questions, the answers to which would probably throw a flood of light on Tory election methods in at least one county in New Brunswick. Dr. Pugsley evidently knows whereof he speaks and is ready to "repeat the dose" when occasion offers.

A simple and efficacious remedy for a sprained wrist is to let cold water run on it every morning for some minutes, holding the wrist as far beneath the mouth of the tap as possible, so that the water may have a good fall. After this has been done bandage it tightly, letting the bandage remain till the next ablution. The sprain will be reduced in a few days.

(Translated from Transatlantic Tales from Fliegende Blätter.)

The Mother—If he proposes to-day, tell him he must speak to me. If he doesn't propose, tell him I want to speak to him!

Manager—For heaven's sake, Fraulien, what have you done? You've gone and accepted the hero's proposal in the first act, instead of in the fifth!

The Star—But he begged so nicely! And—why can't I just refuse him in the fifth act?

Physician—Herr Meier is a most conscientious patient; I believe if I were to prescribe a trip to the North Pole for him he would do and discover it.

"Work? Perhaps two-thirds of them."

Guest—Why does Huber never say anything?

Neighbor—Because his wife always declares that two people should not speak at once.

Master of the House—But, Mina, why are you so excited?

Maid—The mistress has dismissed me. "I congratulate you!"

"Well, how's your newspaper for poets going?"

"Not very well. We have 320 assistants—and 80 subscribers!"

"Who gave you permission to fish here?"

"Who? What a stupid question! My wife, of course!"

She (to her husband)—The poor children! When you get up in the morning they have gone to school, and when you return from the tavern at night they have gone to bed. At least, write them a souvenir post card!

HID HIS MOTHER'S BODY.

Son Said Stranger Shot Her and He Was Afraid to Tell.

Utica, N. Y., Oct. 23.—Mrs. James Scott, of a farming settlement near Norwich, Chenango county, went riding with her son last Friday. She did not return with the young man, who said she had remained at the house of a friend. His stories did not correspond and yesterday he was arrested. Search was kept up for the woman, and today the son was taken with the searchers. The woman's body was found in some woods with a bullet wound in the back of her head.

SANK WITH BARGE.

Captain and His Wife Lost in Lake St. Louis.

Montreal, Oct. 23.—The steamer Norwalk, Capt. Goodrow, bound from Quebec for Detroit, with a cargo of pulpwood, came into collision with the Montreal Transportation Company's barge Jacques, in tow of the tug Olive, flax laden, from Prescott for Montreal, this afternoon in Lake St. Louis. The collision resulted in the sinking of the barge, which was struck fair amidships, and sank almost immediately. Nothing has since been seen of the captain of the barge and his wife, and it is supposed that they went down with the boat. Two other men saved their lives by jumping to the other vessel. The Norwalk was not seriously injured.

ROBBER ATTACKS WOMAN.

Mrs. Wm. Cole, of Montreal, Saves Tray of Diamonds.

Montreal, Oct. 23.—A most daring attempt at robbery was made between 8 and 9 o'clock this morning at Mr. Wm. Cohen's store, 243 Craig street west, and Mrs. Cohen, who was in charge at the time, was severely handled and cut by broken glass. A man named Vincent entered the shop and tried to steal a tray of diamonds in the window, but was prevented by Mrs. Cohen after a severe struggle. Vincent was arrested. He came here yesterday from the United States.

LONDON LABOR MEETING.

A Small Attendance at Mr. Jacobs' Campaign Opening.

London, Oct. 23.—The first meeting of the Labor party at Treblecock Hall to-night was addressed by the candidate, Mr. Jacobs, Mr. Verville, M. P., Mr. Studholme, M. P., and Mr. J. G. O'Donoghue. The audience was small, less than sixty persons attending. Mr. Jacobs charged Major Beattie as director of the Gas Company with raising the price of coke in London, and took occasion to deny the stories regarding his personal life, which, he said, were being circulated about the city.

THE PANIC OVER

Financial Leader Restore Confidence in New York.

Westinghouse Companies in the Hands of Receivers.

Canadian Interests Untouched By N. Y. Slump.

New York, Oct. 23.—Mr. John D. Rockefeller has taken an active interest in the present financial situation, and he has arranged to loan very large sums to a number of New York financial institutions.

"I think," said Mr. Rockefeller to a representative of the Associated Press this evening, "that the existing alarm among investors is not warranted, and I hope the good common sense of our American people will control the situation."

"Personally, I have absolute faith in the future of the values of our securities and the soundness of underlying conditions. Instead of withdrawing any of my moneys from the banks, I am co-operating with others in helping to meet that which I firmly believe to be only a temporary crisis. Every one having the good of his country at heart should, by word and deed, lend a hand now to establish confidence, and I propose to do my part to the full extent of my resources."

The Westinghouse Smash. Pittsburgh, Oct. 23.—A flurry in local financial circles caused by the embarrassment of four concerns of the Westinghouse interests was quickly ended here to-day by the prompt action of the Pittsburgh Clearing House Association and the Pittsburgh Stock Exchange.

To-night the Westinghouse Electric & Manufacturing Company, the Westinghouse Machine Company and the Security Investment Company, a holding company for the Westinghouse interests, are in the hands of receivers appointed by Judge Ewing, of the United States Circuit Court. A fourth concern, the Nerst Lamp Company, will be turned over to receivers in the morning.

The Pittsburgh Stock Exchange, which was closed promptly this morning when informed of the situation by the Pittsburgh Clearing House Association, will probably remain closed to-morrow. This action was taken to prevent unnecessary sacrifice of values or a heavy liquidation of stocks.

Statements issued late to-day by Geo. Westinghouse, prominent banker, officers of the Stock Exchange and the Clearing House Committee show conclusively that the financial situation here is sound and there is no danger.

The stringency of the money market is alone responsible for the Westinghouse difficulty. The solvency of the embarrassed companies was unquestioned. They are enjoying the largest amount of business in their career. Inability to obtain funds to pay off maturing loans caused the embarrassment.

Too Much Business for Capital. The capitalization of the Westinghouse Electric Company is: First preferred stock \$4,000,000, second preferred authorized \$40,000,000, outstanding \$21,689,650, debenture 5 per cent. bonds, 1913, authorized \$3,500,000; outstanding \$2,278,000. Convertible sinking fund five per cent. bonds, 1911, convertible into stock after 1910, authorized \$25,000,000; outstanding \$15,000,000. The Westinghouse Electric & Manufacturing Company has more orders on its books than it can comfortably handle, according to statements of officials and bankers conversant with its affairs. So much business has been offered that it does not have sufficient capital to handle it.

The Situation Improved. Speaking of the situation in Pittsburgh resulting from to-day's developments, one of the best informed business men said: "Now that receivers have been asked for the Westinghouse interests the situation in Pittsburgh is much better than before. The Westinghouse Machine Company has profitable orders for one full year's work on hand. The Electric Company has almost the same and will show profits. The Nerst Lamp Company earns \$700,000 a year. The Investment Security Company is not so favorably situated. The receivership means that the works will now run full time. The scarcity of working capital caused the trouble. The amount of the indebtedness is about forty-five million dollars. Not enough of this amount is held by Pittsburgh banks to occasion any alarm."

Gold Sent to New York. The local situation is believed to-night to be in a better condition than it has been for some time. That the banks are well supplied with money was shown to-day when the Diamond National Bank sent \$100,000 in gold to New York. Late to-day it became known that as a precautionary measure the Secretary of the Treasury had arranged to place additional funds with local institutions. The amount of the Government deposit could not be learned.

Several factors contributed to this change of feeling. The foremost was the determination reached to-day by men of great influence in the financial world, whose probity is unquestioned, to re-

store confidence and prevent further panic. Mr. J. Pierpont Morgan practically assumed command in the financial district, and held a series of conferences with the Presidents of the more important trust companies.

After discussing the situation it was decided that a committee of five should be appointed similar in its character to the Clearing House Committee of the banks, to whom application for assistance from trust companies may be referred, and that this committee should have power to call for information from the various trust companies and to report to meetings of the Presidents, to be held from time to time, the result of an investigation, accompanied by advice as to what had better be done in the matter.

The committee consists of Edward King, President of the Union Trust Co.; Edwin S. Marston, President of the Farmers Loan & Trust Co.; J. N. Wallace, President of the Central Trust Co.; J. W. Castles, President of the Trust Co.; John L. Waterbury, President of the Manhattan Trust Co. It is understood that J. Pierpont Morgan and John A. Stewart, Chairman of the United States Trust Co., will co-operate with the committee. The committee's powers will be largely protective and supervisory. Its personnel is a guarantee of ultra-conservatism, including as it does the few "old line" companies which have steadfastly opposed the methods of the trust companies of later growth.

Ten Millions Deposited. Next in point of weight was the action of Secretary of the Treasury Cortelyou, who during the course of the day caused \$10,000,000 in Government funds to be deposited with the New York banks.

Yet another event which helped the situation was the ability of the Trust Company of America to withstand an all-day run as it successfully did. In the face of enormous withdrawals the officials of the bank expressed their readiness to settle with all depositors on demand, and even for closing the bank's regular hours of closing the company kept up paying out money at its main office in Wall street and at its Broadway branch.

A Failure in Nevada. Reno, Nev., Oct. 23.—The State Bank & Trust Company, with headquarters at Carson and branches at Goldfields, Tonahap, Manhattan and Blair, closed its doors this morning. The State Bank Examiner is in charge.

Not Dependent on United States. Toronto, Oct. 24.—Mr. D. R. Wilkie, President and General Manager of the Imperial Bank, had this to say when asked for his views: "Canada is not a part of the United States and should not be in any way affected by the collapse of the credit of institutions in that country. We are in no way dependent upon the United States as a market for our products, merchandise and manufactures. One can imagine what would have been the condition of affairs were our interests interwoven. So far as the investments in bona fide American securities are concerned, the mere rise and fall in the prices of those securities benighted one but the speculator and speculators are not worthy of a consideration; they are not wage-earners and create no increment. Canada stands on its own feet, and thanks to a fair tariff, its industries are not at the mercy of the over-producing American manufacturer. The basis of our wealth is our agriculture, our development, and surely that cannot be affected by a Wall street panic."

People Paying Off Their Debts. Mr. Byron E. Walker, President of the Canadian Bank of Commerce, also took a bright view of the situation, so far as it concerns and interests this country. "Canada," he said, "has not been affected at any time in the past by Wall street troubles, and I don't see why we should be on this occasion. It is to be remembered that the serious troubles there have to do with trust companies having unusual powers—powers, indeed, that the banks there don't have, and it is not the same as if any of the latter were in trouble."

In Canada, for instance, while it is true that, as elsewhere, money is tight and that the people are setting their faces to the paying off of debts rather than to expansion, and that will bring things out right."

No Reason for Fear Here. "Good Canadian securities should not be affected by the panic in Wall street, for there is no reason why our thoroughly sound securities should be the subject of such speculation as has been the case with the New York markets." This was the view of Sir Thomas Shaughnessy, President of the Canadian Pacific Railway Company, expressed yesterday afternoon.

SENTENCED TO HANG. Lawrence Gowland Pleads Guilty to Murder of Georgina Brown. Morden, Man., Oct. 23.—Lawrence Gowland to-day pleaded guilty to murdering Georgina Brown at Killarney on May 22, and was sentenced to be hanged December 13th.

Mr. Lemieux's Departure. Montreal, Oct. 23.—A large number of friends and supporters of Hon. Mr. Lemieux gathered at the Windsor Street Station to-night to see him start for Japan. More than ordinary interest attaches to his trip.

The Sovereign Bank has secured control of the building at the corner of King and Bay street, Toronto, formerly occupied by the Moisons Bank.

Pains and Aches of the Aged

You do not feel so young as you used to. The joints are a bit stiff. And you have dull heavy pains in the back and limbs with attacks of rheumatism, it may be. It is possible you have found out that the cause of the trouble rests with the sluggish action of the kidneys, liver and bowels, but if you have not used Dr. Chase's Kidney-Liver Pills you have not tested the most effective treatment for these conditions.

Dr. Chase's Kidney-Liver Pills are a comfort to the aged largely because of their unique combined action on the whole excretory system. Constipation and biliousness can no longer exist when the liver is enlivened to action by the use of this great medicine. Kidney derangements and backache likewise disappear when the kidneys are invigorated and an occasional dose of these pills ensures the elimination of uric acid from the system.

SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

ANY even numbered section of Dominion Lands in Manitoba, or the North-West Provinces, excepting those not reserved, may be homesteaded by any person the sole head of the family, or male over 18 years of age, to the extent of one-quarter section, of 160 acres, more or less.

Application for homestead entry must be made in person by the applicant at the office of the local Agent or Sub-agent. Entry by proxy may, however, be made on certain conditions by the father, mother, son, daughter, brother, or sister of an intending homesteader.

An application for entry or inspection made personally at any Sub-agent's office may be referred to the local Agent by the Sub-agent, at the expense of the applicant, and if the land applied for is vacant on receipt of the telegram such application is to have priority and the land will be held until the necessary papers to complete the transaction are received.

In case of "personation" the entry will be summarily cancelled and the applicant will forfeit all priority of claim.

An application for inspection must be made in person. The applicant must be eligible for homestead entry, and one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing and not liable to cancellation, may, subject to the approval of the local Agent, quit it in favor of father, mother, son, daughter, brother or sister, if eligible, but no one else, on filing declaration of abandonment.

Where an entry is summarily cancelled, or voluntarily abandoned, subsequent to the institution of cancellation proceedings, the applicant for inspection will be entitled to priority of claim.

Applicants for inspection must state in what particular the homesteader is in default, and if subsequently the same default is found to be incorrect in material particulars, the applicant will lose any prior right of priority, should the land being vacated, or if entry has been granted it may be summarily cancelled.

DUTIES.—A settler is required to perform the conditions under one of the following plans:—

(1) At least six months' residence upon cultivation of the land in each year during the term of three years.

(2) If the settler has no permanent residence upon a homestead, he may reside upon a farm in the vicinity of the land entered for such homestead, and such residence may be satisfied by each person residing with the father or mother or other person residing upon the homestead, the requirement may be satisfied by residence upon such land.

Before making application for patent the settler must give notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

MINING REGULATIONS.

COAL.—Coal mining rights may be leased for a period of twenty-five years at an annual rental of \$1 per acre. Not more than 2,500 acres shall be leased to one individual or company. A royalty at a rate of five cents per ton shall be collected on the merchantable coal mined.

QUARTZ.—A person eighteen years of age, or over, having discovered mineral in place, may locate a claim 1,500 x 1,500 feet. The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made, and upon complying with the requirements of the law, obtain a patent for the land.

The patent provides for the payment of a royalty of 2 1/2 per cent. on the sale of the placer mining claims generally are 100 feet square; entry fee \$5, renewable yearly.

An applicant may obtain a license to dredge for gold, of five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles.

Annual fee for each mile of river leased. Royalty at the rate of 2 1/2 per cent. collected on the output of gold.

IN THE WORLD OF AMUSEMENT

The plot of the novel of Sir Gilbert Parker's, "The Right of Way," created wide discussion throughout this country. The average reader was left unsatisfied as to the fate of Charlie Steele. In Mr. Eugene W. Presbury's version, which will be produced at the Grand to-night and to-morrow night, the problem is solved and the play vividly depicts the temptations through which every man passes in seeking an answer to the problem of life and the redemption through faith, love and death is the logical conclusion.

The powerful English company organized by Klaw & Erlanger, include many local favorites. Guy Standing and Theodore Roberts are both well remembered in the city for the many fine impersonations, and Miss May Buckley and Miss Alice Lennon have been especially engaged for the heroine Rosalie and Kathleen, the wife of Steele. It looks as if the house would be sold out for both performances.

Going to New York.

New York, Oct. 24.—There are not many habbing brooks in the play line that run forever along Broadway this season, and up to date Wallack's Thea-

trating all kinds of merriment at the popular theatre this week. Mr. Murphy is a typical Irishman, and he has an original line of talk. Mrs. Murphy plays her part well, and also sings a number of catchy songs. "The Card Party" is easily the most dramatic vaudeville sketch ever presented in this city. Edward Forsberg and his company are to be commended for the excellent delineation which they present of a rarebit fender's dream. The piece is well staged and is something out of the ordinary in the novelty line. Frank McNish and Thomas J. Penfold are a pair of clever entertainers, and they are responsible for a large amount of the merriment at the home of all-star vaudeville this week. They have a good line of talk. For genuine comedy artists Gardner and Steadard are eligible for a high place in vaudeville ranks. They have a delightful potpourri of comedy which is making a hit. The manner in which Miss Leila Taylor renders her songs is a rare treat, and the audiences are not slow to recognize this fact. The songs are illustrated, and in this regard alone they outshine the general run in this line of entertainment. Willis and Hassan are powerful equilibristas, and their act is the centre of much interest. Elsie Harvey and the Field boys are exceptionally clever dancers.

tre has had more than its share of hard luck in the distribution of attractions. Another change of bill will go into effect there on November 4th, when Klaw & Erlanger's production of "The Right of Way" will supplant "The Silver Girl."

"The Right of Way" is Eugene Presbury's dramatic version of Sir Gilbert Parker's novel of the same name. The piece was presented for the first time more than a week ago in Montreal, with Guy Standing in the principal role.

Cricket Night at Savoy.
Cricket night at the Savoy this evening will see the theatre packed to overflowing, the advance sale assuring that Winsome Grace Hazard, the dainty little girl, with a sweet voice, who has been making a tremendous hit, as usual had to return several times last evening to respond to enthusiastic encores. Her quick changes in full view of the audience to portray different characters and sing snatches from the opera, is a revelation. The Horas family, with their fine acrobatic act, Mlle. Chester and her wonderful dog, in their pretty number, Dosanquet, a great violin player, and several other most attractive turns make up his entertaining bill, one of the most enjoyable yet.

Bennett's Big Show.
"The Coal Strike," the skit which is being presented at Bennett's this week by Mr. and Mrs. Mark Murphy, is the object of general consideration among the local theatre-goers. The act is cre-

Good Shows Coming.

The attraction at the Grand next Wednesday matinee and night will be the powerful melodrama, "The Shadow Behind the Throne," which was seen here last year and made such a big hit. Seats will be on sale on Monday. The same excellent production in every way is promised. Seats are now on sale.

Win. A. Brady's "Way Down East," with its typical characters of the old New England, its realistic stage pictures, of their environments, with its famous snow storm and other scenic features, comes to the Grand for Thanksgiving afternoon and evening. Theatre-goers are too well acquainted with the good old play to dwell upon its story, to suffice it to say that the drama will be presented here with the same big cast and production seen during past seasons, the only changes in the personnel being the re-engagement of Mabel Strickland and Kate Brewster and Senator Frank Bell as the town constable, parts they have not been seen in since the long run in New York.

There are so many surprising features in "The Wizard of Oz," which is to be seen at the Grand on Friday and Saturday of next week, that there is little wonder that it retains its hold on the public. The two chief come-ons are wonderfully clever in their impersonations of the Tin Woodman and the Scarecrow, but there are enough other things intermixed in the play in the way of scenic effects, dances and songs, so that the funny men never become tiresome.

NEW PRESIDENT.

SUNDAY SCHOOL CONVENTION ELECTED JOSELYN FOR THE YEAR.

Next Convention to be at Orillia—Primary Secretary Appointed—Advance of \$9,600 Called For—Lazzy Teachers Scored—New Life Must Be Nurtured.

Brampton, Oct. 23.—The new President of the Ontario Sunday School Association, elected by adoption of the Executive's report this afternoon recommending him, is Mr. E. J. Joselyn, Superintendent of the Northern Congregational Sunday School, Toronto. The next convention is to be held at Orillia, Oct. 27th to 29th next. The sessions are largely attended. St. Paul's Church being crowded. The General Executive Committee's recommendations, presented by the Chairman, Mr. W. Hamilton, of Toronto, which were adopted, included the appointment of Miss Minnie Rayson, of Brampton, as Primary Secretary; the adoption of the adult Bible class department with a committee in charge; the adoption as a department of the association's work of the International Bible Reading Association, with Dr. E. D. Price, of Toronto, as Honorary Secretary, and the institution of life memberships at \$100 each. (At least two of such life memberships were subscribed during the afternoon).

The Peel County Association was again the banner winner for the year, and the township of Markham won the banner for township organizations. The estimated receipts for the year ending Oct. 15th, 1908, total \$7,940, including almost \$4,000 from counties, \$1,800 from personal subscriptions in Toronto, \$246 from Toronto Sunday schools, and \$1,254 from other cities; also from Teacher Training, and W. G. Smith, of the University of Toronto, and other items, bringing the outlay up to \$9,600. To this item will be added \$900 for nine months' salary of the Primary Secretary, who will begin her work in January. During this afternoon subscriptions were pledged up to about \$3,000.

The alumni of the teacher-training course of the O. S. S. A. had a supper at the Presbyterian Church, and formed an Alumni Association, with Rev. Dr. R. N. Burns as President, Mr. H. W. Brown, Secretary, and Mr. C. N. Hale, of Orillia, and Miss Maclean, of Mitchell, on the Executive.

"If the teaching in that school is a sample of what our Sunday schools are doing, it wouldn't pass muster in the worst public school in this Province. If the methods in the Sunday school are not at least as far advanced as in the public schools, it means the death blow of their usefulness." So said Mr. W. G. Smith, of the University of Toronto, this afternoon in discussing the question, "How Shall We Teach?" He was describing some schools he had visited, where the teacher was pinned down to his lesson books, and brought out none of the moral content of the lesson.

The regarding of "Decision Day" as a harvest of joy and the completion of work, so that a teacher says, "Now all my class are converted, I want another class," was characterized by Mrs. Lamoreaux, speaking in the afternoon, as entirely out of harmony with God's conception of the birth of a little spiritual life, just as of the natural life. The boy from twelve to sixteen should as a rule have a man for teacher, said Mrs. Lamoreaux this evening. Seven characteristics of the teacher that a boy loves she named as follows: Ability to do something physically, recognition and honoring of the budding manhood in the boy's life, ringing absolutely true, understanding of the boy's use of slang, his bragging about what he can do, and his social craving, sympathy with his ideals, confidence in the boy and showing that he expects the best of him, and love that never fails.

Some sentences from Dr. Gilmour's address this evening on "Misdirected Childhood" were the following: "Institutional life should be the last resort on the face of God's green earth for any child."

"Two classes of people should never deal with juvenile delinquents—the cynic, who sees no good in them, and the sentimentalist, who sees too much good in them. The father should ever sentence a boy or a girl."

"The best thing the Christian Church could do would be to establish two or three home nights, when we could stay at home, and get acquainted with our families."

"Not one time in fifty does a young man enter the Central Prison who has spent his early days in learning a trade."

An address by Mr. W. Hamilton tonight on "The Wilder Outlook" gave a glimpse of world-wide Sunday school work during the past year.

A GIFT OF PREFERENCE. Mr. Deakin Considers Reciprocity Improbable.

Melbourne, Oct. 23.—In the House of Commons to-day the preference proposals regarding Britain were adopted without a division. Discussing the proposals, Premier Deakin said to-day that the recent Imperial Conference made it clear that no reciprocity was possible at present with the Mother Country. The present proposals, therefore, offered the gift of a preference as a tentative one, to be extended and adapted according to experience, so as to render it more effective. He strongly urged the gift of a preference as a means of diverting trade from foreign to British goods and as a manifestation of attachment to the Mother Country.

GOT SOME, WANT MORE. Postmasters' Executive Held Meeting Yesterday.

Toronto, Oct. 24.—The Executive Committee of the Ontario Postmasters' Association held a lengthy session in the Palmer House yesterday. It was stated by some of those present that the recent increases granted by the Government were of a better nature, and that it was understood. Besides the increase in salaries other provisions had been made tending towards general betterment of conditions, but they still were holding out for their original demands. Considerable minor business was transacted and the announcement made that the Central Committee of the General Association would meet in January.

Mayor Coatsworth introduced a resolution providing for the construction of a trunk sewer and sewerage disposal works. Liberals of Alberta have organized for the Provincial campaign.

WITH DAD'S MONEY.

Fourteen-Year Old Lad Left it in Hotel Bed.

Welland, Oct. 24.—After having driven over fifty miles with a livery rig and attempting to escape to the United States, Herbert McTaggart, a diminutive lad of 14 years, was arrested by Detective Moriarty, of Port Colborne, yesterday. McTaggart, after spending Sunday at Marshville, where he left behind him a wad of bills under the mattress of a bed in the hotel, reached here on Monday and put up at Heister's Hotel, where he asked the hostler to look after his horse for three or four days, while he went on a trip down into Ohio.

The boy was so small that Mr. Heister's suspicions were aroused, and he notified the Ontario police officer, who made the arrest as the youth was boarding a train with a ticket for Buffalo. Later enquiries revealed the fact that he had hired the rig from W. J. Tufford, of Beausville, after having taken a considerable sum from his father. He was taken back to Beausville for trial, and the horse and vehicle were restored to their owner.

HE IS LOYAL.

CHIEF JUSTICE MULOCK CREATES FLAG INCIDENT.

Demands Removal of Foreign Ensign From Hotel Where He is Guest—Stars and Stripes Come Down.

Toronto, Oct. 24.—Every live and growing town has its "flag incident." Cobourg is the latest, and Chief Justice Mulock the chief character.

The fall assizes have just opened in the town and the ex-postmaster-general is presiding. On arrival at Cobourg he was met by Sheriff Proctor, a prominent local Liberal, and escorted to the Columbian Hotel, which is owned by J. B. McCall, M. P. for West Northumberland. Sir William was ascending the steps with the sprightliness of youth, when he glanced up. He stopped suddenly, and his companion looked puzzled. Then he, too, looked aloft, and something of understanding broke upon him. He was about to speak, but the chief justice forestalled him.

"I will not enter the hotel unless that flag is removed," he asserted, with a wave of his hand towards "Old Glory," which has hung above the portal for years as a tacit invitation to the United States tourist.

And then it was that the fealty of the member of parliament to a former chieftain asserted itself. Orders were given, the flag ratched, and the chief justice entered within.

The incident is a lively topic in Cobourg, and the consensus of opinion is that Sir William's loyalty is of properly active kind.

KILLED ON TRACK.

Sidney Guest's Body Found on Railway at Ingersoll.

Ingersoll, Oct. 23.—While on his way to work at 7 o'clock this morning Trackman John Hanford came upon the dead body of Sidney Guest, about a mile west of the Grand Trunk depot. The position of the body indicated that he had been struck by a westbound train, and from the nature of the wounds it is believed that death was instantaneous. The deceased was aged 37, and for a number of years had been in the employ of the Ingersoll Packing Company.

Coroner Dr. Neff opened an inquest at Melntyre's undertaking rooms, which will be resumed next Tuesday evening. Relatives of the dead man residing in Toronto were communicated with, and a sister, who reached here this evening, will take the remains to that city tomorrow for interment.

The deceased had resided in Ingersoll for nearly eleven years.

QUEBEC BRIDGE FINANCES.

Premier and Mr. Fielding Confer With the Directors.

Ottawa, Oct. 23.—The directors of the Quebec Bridge Company had a conference to-day with Sir Wilfrid Laurier and Finance Minister Fielding. The collapse of the bridge and the stopping of construction have caused the discontinuance of progress estimates, but the company are still under some expense for salaries and other current charges, and therefore are anxious to have access to some of the money which the Government holds subject to progress reports.

The whole question of the company's financial relations with the Government was discussed, as well as the question of the Government eventually taking over the project for which they now guarantee the bonds. It is doubtful if anything will be done until the commissioners have reported upon the cause of the collapse and have fixed responsibility for the catastrophe.

C. P. R. STEAMER LEAKING.

Mysterious Happening on the Empress of China.

Vancouver, B.C., Oct. 23.—The steamer Empress of China, lying at the C. P. R. wharf, was discovered this evening to be rapidly filling with water from some cause unknown. It was suggested that some stoker withdrew the stop cock. Excitement reigned on the wharf. The fire engines were called out to pump the water from the steamer. The Empress is scheduled for the Orient on Monday next, and is partly loaded. The cargo will probably be much damaged.

THE AIR RACE.

ALL NINE BALLOONS IN GREAT RACE LANDED.

France and Germany Lead—So Near a Tie of Over 800 Miles That War Office Will Decide Which Has Won.

New York, Oct. 23.—The great international balloon race for the Bennett cup ended to-day, with the German The Pomern and the French Isle of France cars, two out of the nine starters, so equally divided as to honors that it will be necessary to wait a decision to-morrow from the War Department at Washington to tell who wins. Oscar Erosloch and Henry H. Clayton, skippers of The Pomern, landed their craft at 9 o'clock this morning a half a mile south of Asbury Park, N. J. The Isle of France, with A. Lablanc and E. W. Mix at the valves, swooped down finally at Herbertsville, Ocean county, N. J., four hours later. It was said at the Aero Club to-night that each had covered approximately between 880 and 890 miles. An officer of that organization said that it was his personal opinion that The Pomern would win by a matter of a few miles.

Here is a list of the starters, where and when they finished: 1. Oscar Erosloch and Henry H. Clayton, German, The Pomern, Bradley Park, at 9 o'clock this morning. Covered approximately 880 to 890 miles.

2. H. B. Henry and A. F. Atherholt, American, United States, landed near Hamilton, Canada, at 6 o'clock on Tuesday night. Covered approximately 650 miles.

3. A. Lablanc and E. W. Mix, French, Isle of France, landed near Herbertsville, Ocean county, N. J., at 1 o'clock this afternoon. Covered approximately 880 to 890 miles.

4. Hugo Abercorn and Hans Heidemann, German, Dusseldorf, landed at Little Creek, three miles from Dover, Del., early this morning. Covered approximately 776 miles.

5. G. Brewer and C. Brabson, English, Louis I., landed near Sabina, Ohio, at 5 o'clock yesterday afternoon. Quit race, Brabson sick.

6. Chandler and McCoy, American, America, landed at Patuxent, Md., yesterday. Covered approximately 715 miles.

7. Rene Garnier and Levee, French, Anjou, landed near Armentieres, France, at 8 o'clock this morning. Covered approximately 700 miles.

8. Paul Meckel and C. Denig, German, Tschudi, landed near Manassas, Va., at 7 o'clock this morning. Covered approximately 680 miles.

9. Alan Hawley and A. Post, American, St. Louis, landed one mile south of Westminster, Carroll county, Md., at 20 minutes to 7 o'clock this morning. Covered approximately 632 miles.

The Pomern and the Isle of France shattered the record of 870 miles as the crew flies from St. Louis to Henderson, N. Y., made in 1850. They beat the distance covered by Lieut. Frank P. Lahm, U. S. A., who won the international long distance race from Paris in 1906. The American officer landed at Fylyngdale, England, 415 miles from the starting place, after being in the air only four hours. The record of Count de la Vaux in 1900 of 1,193 miles stands unbeaten.

KILLED IN RUNAWAY.

Engineer Augustine Macdonell, of Chatham, Meets Death.

Chatham, Oct. 23.—Augustine Macdonell, one of the best known engineers and surveyors in the Province, died here this afternoon as a result of injuries sustained by being thrown from his democrat during a runaway. The accident occurred near the corner of Raleigh and Gray streets at 2 o'clock. Mr. Macdonell was coming down St. Clair street from a survey trip to the country, when the horses became unmanageable, owing to a mad run, passing car, and started on a mad run, down Third street to Raleigh, where the rig swerved, throwing the deceased to the pavement. Surgeons were soon in attendance, but were unable to do anything.

WILL TAKE OVER ESQUIMALT.

Government of Canada to Assume Care of Ports and Docks.

Ottawa, Oct. 23.—The Canadian Government is arranging to take over in a few weeks from the Imperial Government the naval station at Esquimalt. The announcement that Canada would relieve Great Britain of the maintenance of the station at Esquimalt was made about a year ago, but since that time negotiations with the Imperial authorities have been hanging fire. It was thought at one time that the British Admiralty would change its plans and continue to maintain Esquimalt as an Imperial naval base.

Hon. Mr. Brodeur when in England this summer interviewed the Admiralty, and as a result arrangements have been practically completed for the assumption of the station by Canada.

PODGORNY COMMITTED.

Charged With Manslaughter in Connection With Brantford Stabbing.

Brantford, Oct. 23.—At the Police Court to-day Joseph Podgorny, a Pole, was committed for trial for manslaughter in connection with the death of John Dobrowski, who died from a knife wound alleged to have been inflicted by Podgorny. Magistrate Livingston, while he committed the man for trial, did not consider the case strong.

ROYAL VISIT TO CANADA?

Prince Arthur of Connaught May Come Next Year.

London, Oct. 23.—The correspondent of the Canadian Associated Press has heard that the King will be represented by Prince Arthur of Connaught at the tercentenary of the founding of Quebec next year. The Prince is to be accompanied by an imposing suite, and it is likely that the Prince, after the Quebec celebration, may tour Canada.

Calling to-day at Clarence House, the Canadian Associated Press was told that nothing definite was known there regarding the Prince visiting Quebec, but it was not unlikely he might.

Confessed and Was Remanded. Welland, Oct. 23.—The young man, E. Palmer, charged with attempted train wrecking, has confessed that he did the deed, but can give no reason for it. He has not a bad reputation. He was remanded until Oct. 28.

Sir Thomas Shaughnessy denies that the Angus shous at Montreal will be closed.

SENATOR COSTIGAN

SAVED FROM DEATH

New Brunswick's Grand Old Man Suffered Severely, but Made a Quick Recovery.

Practically everyone in Canada has heard of Hon. John Costigan—statesman, orator, M. P., Cabinet Minister, and now Senator from New Brunswick. For over thirty years this prominent man was a martyr to Chronic Constipation. Leading physicians of London, Paris, New York and Ottawa treated him in vain. It remained for a wonderful Canadian discovery to cure him—and in only three months, too.

232 Cooper Street, Ottawa. "I have been a dreadful sufferer from chronic constipation for over thirty years, and I have been treated by many physicians and taken many kinds of medicine, without any benefit whatever. Finally, I was advised to try 'Fruit-a-tives,' and after taking them for a few months, I feel I am well from this horrible complaint. 'Fruit-a-tives' is the only medicine ever took that did me any positive good for Constipation. I can conscientiously recommend 'Fruit-a-tives' as, in my opinion, it is the finest medicine ever produced."

(Signed) John Costigan. "This is only one of the hundreds of similar cases—all successfully cured by 'Fruit-a-tives.' Don't suffer longer. Take 'Fruit-a-tives.' They never fail to cure."

50c a box; 6 for \$2.50. If your druggist is not able to supply you, we will send 'Fruit-a-tives' postpaid, on receipt of price.

SEAS SWEEP DECKS.

TRAGEDIES OF THE GREAT GALE ON THE ATLANTIC.

Men Washed Overboard—Two Vessels Arrive at Nova Scotia Ports in a Badly Cripped Condition.

North Sydney, N. S., Oct. 23.—With Stars and Stripes floating at half-mast from the mainmast head, the Gloucester schooner Titania, Capt. Patrick Vale, sailed into port this afternoon, reporting the loss of a man, and showing signs of hard experience in Monday's awful gale. The Titania left Gloucester Thursday last, on a handling trip to the Banks. The wind, according to Capt. Vale, attained at a time a velocity of eighty miles an hour. Yesterday morning about one o'clock John Malmberg, a Swede, who was alone on the watch, was heard to cry: "My God, mate, here's an awful sea coming. The cry was scarcely finished when a mighty wave swept over the side of the schooner and washed Malmberg overboard at the same time, and into kindling wood the only dory on deck.

This morning the Gloucester schooner Maggie and May, Capt. Alex. McEachern, which left here for the grounds last week, put into Louisburg in a crippled condition, all her crew gone and one man, Basil Bourdreaux, aged about thirty, a native of Tusket-Island, Cumberland county, washed overboard. It took but one mighty sea of the Grand Banks to sweep every boat and every movable thing from his schooner's deck into the sea.

BLAME THE HORSE THIEF.

William Jennings Bryan on the Financial Situation.

Binghamton, N. Y., Oct. 23.—"I notice that one of the officers of the bank that closed its doors yesterday attributed it to President Roosevelt. That is not the reason. Don't blame the sheriff, but the horse-thief. Don't blame the officials who make and enforce the laws, but the criminals who make unnecessary such laws. Blame the unscrupulous financiers who have piled up greasy wealth and who exploit a whole nation as high finance."

So spoke William Jennings Bryan to a crowd of people who gathered at the railroad station in this city to-day when they learned that he was going to change cars here and who called out him for a speech.

STILL ON THE TRAMP.

Doukhorbor Pilgrims Make a Start for Fort William.

Fort William, Ont., Oct. 23.—The advance guard of the Doukhorbor pilgrims, who are searching for the Messiah, have left Ignace, 100 miles west of here, en route to Fort William. The party consists of seven, six males and one female. They left Ignace at 8 o'clock yesterday morning and camped for the night about 20 miles east of there. The march eastward was continued early this morning. The members of the party all appear to be in good shape and should reach here about the first of next month.

FINAL PRACTICE THIS EVENING.

Senior Tigers Will Leave for Montreal in Morning.

Tigers II. Will Meet Dundas Here on Saturday Afternoon—Tommy Hay Turns Out With Argos Again—Barber Reynolds Finished 22 Minutes Behind Scheduled Time.

There will be a host of football players out at the Cricket Grounds this evening, as the members of all three Tiger teams are requested to turn out for final preparation for Saturday's games.

The senior team will leave for Montreal in the morning for the M. A. A. grounds on Saturday morning just to get acquainted with their surroundings, as their game in Montreal last year was played on the McMillan College campus. Every one of the players is in good shape and ready for the game of their lives which likely Saturday's game will be. A number of spare men will be taken along with the team in case of accidents and the executive will likely go in a body. A crowd of supporters will likely go tomorrow night and there are many enthusiastic supporters going to run a special train, but the best the club can get from the railway is a single fare ticket for those who cannot go to Montreal. The executive has made capital arrangements for supplying tickets and food in abundance on Saturday and will certainly be football day in this city. Probably never before had a club three such representatives in a championship series as the Tigers have this year. It is certain that there will be a tremendous crowd at the game on Saturday. The day after tomorrow, Saturday, will be strongly appealed to the Gridiron lovers. The junior Tigers and Waterdown will start the proceedings with junior O. R. F. U. match and this will be immediately followed by the intermediate championship game between Dundas and the Tigers. This will be a hammer and sledge team as rivals and the winner of this game should come pretty near to winning the championship. There will be no delay in starting this game after the junior game so that there will be continuous football all afternoon. The junior game will likely start at 1:30. And the game between Dundas and the Tigers will be held at 3:30. The executive will be in the city on Saturday morning.

HAY WITH ARGOS.
Toronto, Oct. 24.—The Argos are steadily plugging away, and are apparently not discouraged in the least by their reverse in Hamilton. In fact, they are, on the other hand, quite hopeful of pulling out their three remaining games. Several changes will be made for Saturday's game with Ottawa. Dub Sale will replace McGuire at outside wing; Hannaforth and Grant will be played on the wing line, and Sinclair and Jeff Sheriff Taylor in scrumming, in their stead. Sheriff will give way to Tommy Hay, at quarter, a move, by the way, that should strengthen the team greatly. Sheriff has a bad ankle, and cannot be made use of on the line at present, but may be pressed into service later on. Guy Clarkson is scheduled to play outside wing Saturday, but may be unable to get away. If he does it will round off the team nicely, but even without him the Scullers will be much stronger than they were last Saturday, when several of the men were playing out of their positions. Hay was out last night, and exhibited all his old-time form.

FREE KICKS.
The champion police athletic team will go to Toronto on Thanksgiving Day.

FROM THE BATTLE GROUND.
Montreal Herald: Saturday is rapidly nearing, the day on which all probability hinges the 1907 championship of the Interprovincial Rugby Football League.

What that day means can only be appreciated by the most careful speculation. With flying start of three straight victories, Montreal's team has the best chance imaginable to land the coveted honors of Canadian football—the championship of the Dominion. A defeat may upset the whole reckoning.

When Montreal took Hamilton's measure in the home lot of the champs a week ago Saturday, the claim was made that the Tigers lost through lack of condition. Perhaps there was more logic than boasting in the assertion. At any rate it will be a much stronger team that Montreal will be called upon to face than that whose colors dipped in the red and black of the first encounter.

While Hamilton has improved her opportunities, Montreal has in no wise been asleep. Up and doing all the time, Coach Elliott has perfected his reliance in amazing fashion, until the wearers of the red and black are as hard working and game a bunch as ever thrilled a crowd. They demonstrated conclusively this assertion in the game against Montreal last Saturday.

Coach Elliott is not altogether satisfied with the work of his team at Ottawa. Montreal played the first two periods showed brilliancy only at defence. There was scarcely enough aggressiveness displayed in attack to suit the wishes of the fastidious instructor, whose work will be along the lines of developing more speed and power in consequence the boys will be drilled long and hard, with plenty of practice at kicking and handling punts, as well as scrumming and signal practice. Montreal has a slight advantage in the approaching duel, in that the team is at home.

R. R. WILL BACK TIGERS.
Ottawa Free Press: There is \$500 in Ottawa at the present moment to bet on Hamilton to beat Montreal next Saturday at odds of \$55 to \$100. The bet will be booked seven times if possible, and anyone communicating with the sporting editor of the Free Press, will be directed where the money can be placed.

Tigers play in Montreal next Saturday, and as a betting proposition, it looks a good one. The Argonauts-Ottawa game will also be productive of a handful of bets, with the home team the favorite. Argos beat Ottawa in Toronto, but it was only due to some outlandish tumbling in the third quarter. Ottawa should win here.

HIGHFIELD TEAM WON.
Highfield School's Rugby team defeated Kitley College II. here yesterday afternoon. From the start Highfield showed superiority, as Murray and Whiting combined to carry the ball over the line almost directly after the game began. Soon afterwards Higgins helped Whiting to score again. Murray, Kennedy and Higgins were to the fore with clever runs, and the game was scarcely ever out of the Kitley half. Gibson at quarter was very busy. The most conspicuous wings were Whiting, who showed considerable speed at outside wing, Scott, Bankier and Sutherland. The score was 24 to nil in Highfield's favor. Ferris, the captain, was unable to play.

Highfield team—Back, L. S. Murray; halves, J. C. Kennedy, K. W. Hopper (capt.), R. A. Higgins; quarter, C. W. Gibson; scrumming, E. Wheeland, M. Walker, K. W. MacDougall; wings, W.

ager, will probably succeed Al Buckenberger as manager of the Broncos next season.

REYNOLDS LOST.
Port Hope Barber Finished Race 22 Minutes Behind Time.

Port Hope, Ont., Oct. 24.—Jimmy Reynolds, Port Hope's plucky pedestrian barber, finished his great walk in 22 minutes past 6 last night. He accordingly covered the 138 miles in 35 hours 22 minutes, a wonderful performance. This is his second walk, and he is now 37 years old. Reynolds was accompanied by a large crowd, which accompanied him to the Queen's Hotel. He walked to the desk gayly and signed his name, amid a score of great enthusiasms. He smiled and bowed repeatedly in response to the cheering of the crowd. He was pale, but otherwise in good condition. He went over to his barber shop, where he was rubbed down before retiring. He says that the walk was an awful effort, but that he can do it again without any difficulty. He says that he may decide to clip the odd 20 minutes off his record before long.

HATCH FOR HAMILTON.
Chicago, Oct. 24.—Sidney H. Hatch, of the First Regiment, winner of the St. Louis Marathon, and a formidable contender in the recent I. A. C. Marathon, will be in Hamilton Saturday in the nineteen-mile Marathon run to be held Oct. 27, at Hamilton.

SHRUBB'S SILLY TALK.
Winnipeg, Oct. 24.—Shrubb evidently feels keenly his failure to get on a race with Longboat. Speaking at a smoker given in his honor last night, he said that he was raced in Toronto the spectators who lined the track delighted in making caustic remarks about what Longboat was doing. He said that he was in view of his standing and experience in the running game, it was only to be expected he would express his own opinion somewhat freely.

When there was some chance of having a series of races with the Indian, one of Longboat's principal backers had come to him and said that it would be necessary to allow the Indian to win a second race. Shrubb replied that if that was the condition, then he would never race with Longboat. He had never been beaten in his life, and every time he pulled on his shoes to run his friends could depend on him doing his best. The extraordinary fact time, 32.29 for ten miles, made against a trotting horse at River Park, here, recently, is accounted for by the fact that the track, which is a half-mile ring, is forty feet short.

The track is for trotters and pacers, which are kept separate from the Indian, who is run from the rail. Shrubb ran closer to the rail than five feet, which makes the distance covered considerably less than ten miles. The mark will not, of course, stand as a Canadian professional record.

LONGBOAT'S DOINGS.
Toronto, Oct. 24.—Longboat is entered in the four-mile open race at the Galway Men's game at York, Sunday. James E. Sullivan, the President of the A. U. C. will surely bar Longboat but the Galways have decided to let him, and the Irish-American Athletic Club, the New York Athletic Club, and the Irish New York are set on Sullivan, who is the big man in the N. Y. A. C., because he is always seeking to give the N. Y. C. C. the best of the N. Y. A. C. events, and Sullivan is sitting easy by suspending Longboat and Coley, the N. Y. A. C. is so averse to the I. C. A. C. sending Longboat to New York.

The I. C. A. C. has wired The Montreal Herald withdrawing the entry of Longboat, and the reason of the wiring from the Herald road race because it lacks C. A. U. sanction.

IS ROCHESTER TEAM SOLD? HERE'S A CHANCE

Rochester, N. Y., Oct. 24.—It is reported on good authority here that a baseball deal will be consummated this fall whereby the Boston American League Club will purchase the Rochester Eastern League franchise. If the deal goes through, Fred Lake, a former National League player and minor league manager, will probably succeed Al Buckenberger as manager of the Broncos next season.

FOR Hamilton to Get Into the Eastern B. B. League.

Montreal, Oct. 24.—The Montreal baseball franchise is for sale. It is stated that the people who backed it this year have lost about twenty thousand dollars.

SHORT ENDS.
Little Paragraphs of Sport From Far and Near.

Jamaica, N. Y., Oct. 24.—Faust, at 7 to 1, won the Southampton Handicap here yesterday, with Gretna Green second and Don Creole third. Gretna Green set out to make the pace, but Don Creole, who was badly interfered with and nearly lost his ride, bucked, and led to the stretch, where Faust and Gretna Green closed fast, and Faust won.

Many of the largest operators in the New York ring were depositors in the Knickerbocker Trust Company, and lose heavily by its failure.

Burlington Gazette: Burlington will again be represented in the Herald road race around the bay on Thanksgiving Day. Mr. Ed. Cotter, who ran third in 1905, and had the misfortune to sprain his ankle on a stone last year, has decided to enter the contest, and is training hard for the contest. Barring accidents, Ed's many friends hope to see him land the coveted cup this year.

New York World: The Canadians have unearthed a real champion sprinter in the person of Bobby Kerr, of Hamilton. The easy manner in which this sprinter covered the century in 9.45 seconds at the recent Canadian championships points to him being a very formidable rival in the forthcoming Olympic games at London next year.

Now that Jack Morton, the British champion, appears to have lost his former sprinting ability, it looks as if America will make a clean sweep of the sprinting event at London, as it did in the Olympic games of 1900.

Harry Littlefield, a former sparring partner of Gunner Moir, who is at present in the city, picks Tommy Burns to win the Moir-Burns bout in England. He says that Moir is very slow, compared with Burns. He has a terrific punch, however, which might score a "knock-out."

ABOUT BURNS-MOIR ABOUT IN ENGLAND.

If Gunner Moir, the British heavy-weight champion, fights as he looks, there is trouble in store for Tommy Burns when he hooks up with the Gunner in the National Sporting Club, London, the later part of November, says a U. S. writer. Moir certainly is a rough-and-ready sort of person. He has the bull neck characteristic of the eminent figures of the prize ring and he also has the broad shoulders and deep chest, not to forget the big muscular arms. Moir's arms, however, are short, and he will not have any advantage over Burns in the matter of reach, although he will tower above the Canadian champion three inches. Burns, being five feet seven inches tall, and Moir five feet ten inches.

In the matter of weight, Moir will have the advantage by 35 pounds, as the Briton weighs 210 pounds in condition, to 175 by Burns. But Moir has one thing that Burns does not possess, and that is some fine tattooing while he was a gunner in the British Navy. The broad chest of the gunner bears a tattooed portrait of Queen Victoria and he doubts would make a great struggle before he would permit the one-time ruler of Great Britain to go to the ring floor in defeat. Tom Sharkey has a ship tattooed on his breast and the craft has been engulfed several times in the waves of defeat.

Moir has been in the ring several years, but has accomplished anything to indicate that he is possessed of championship calibre. He won his present title by defeating Jack Palmer, who later came to this country and was disposed of by Jack (Twin) Sullivan in nine rounds, and made to look like a no-hope home with a fat wallet. Burns and any other Americans at the ringside will be able to make a lot of money if the Canadian wins, for the Englishmen are sweet on Moir's chances and will offer odds that he beats Burns.

Its all Right When You Think You Have it Fixed.

He was never known to bet upon the horse. He shuddered at the thought of such a thing. He would feel himself eternally an outcast if he ever strayed into a betting ring. But one day a fellow swarmed upon him with a coil of wire, a sander and a key. And he hid of a scheme to rob a pool room. As delicately simple as could be. For seven hundred. He receded in holy horror from the fight. And he joined in every move to lay 'em down. He stopped a few carousals with the mittens. Before the lads had time to strike a blow. But along comes Husky Dugan with the good thing.

IN \$1.00, 73,000 Microbes. (From Leslie's Weekly.)

"Clean money" is the slogan of A. Cressy Morrison, who is endeavoring to create a public sentiment which will render impossible the circulation of paper and metal currency which is "tainted" in the literal sense of the word. He has had some thirty and thirty examinees by a New York bacteriologist, and has found that one half bill, such as is handed you in change by your grocer or butcher, is inhabited by 73,000 bacteria. Coins are less populous, dirty pennies averaging twenty-six and dimes forty each. There is no means of tracing the history of this germ-laden currency; a bill may be in the pocket of a tubercular sweat shop tailor to-day and in the dainty purse of a millionaire's wife to-morrow. The number of cases of mysterious illness due to this universal means of transmitting disease can only be guessed at, but physicians agree that it is enormous.

"The Serge of the Serges"
In the first place "Blunoz" serge is not made in Nova Scotia. In the second place, it is not all a blue serge, for it is a freely woven Australian wool serge in both the navy blue and black colors. You have a choice of either. To be sure they call the Nova Scotians "Blunozes"—but that is not the derivative of "Blunoz" serge. Only two woollen mills in Canada can make the "Blunoz" Serge—and the Semi-ready Company control and absorb in their tailor shops the entire output. This is the Canadian Serge which has made the British mill "sit up," and it is the Standard cloth by which the Government judge the tariff needs of this particular Canadian industry.

THEY KNEW ABOUT COWS

And Were Acquitted of a Charge of Cruelty.

Old Man Charged With Serious Offense Acquitted.

Husband and Wife Case Before the Magistrate.

Albert Aikin, 33 1/2, Burlington street west, and Alex. Griffin, 73 Burlington street west, were charged by Constable Brown at Police Court today with ill-treating a cow. They pleaded not guilty.

E. T. Gartley said that he saw the two defendants, on Tuesday last, driving a rig with a cow tied to the back of it. They were driving at a trot and the cow was dragging behind, with blood at her hindquarters, and frothing at the mouth.

The accused took the stand and said that the cow was crazy with the heat when they got it, and that it broke away from them several times on the road in.

The blood was caused by its jumping through a barbed wire fence and the froth was due to the way it ran when it broke loose.

The Magistrate was inclined to believe the young men as to the cause of its appearance, as they apparently knew more about cows than the witnesses did, and he dismissed the case.

The lad arrested yesterday, charged by Aaron Schwartz with the theft of two chickens, was acquitted. Schwartz and his brother told a disconnected story in broken English.

His belief that the lad had stolen the chickens was merely from the fact that they saw him around.

Joe Magee, 341 Main street west, was charged by his wife with assault. Mrs. Magee said that he had assaulted her brutally and kicked her several times.

The defendant did not wish to testify and the Magistrate ordered him to find sureties in the sum of \$50 to keep the peace.

The old man who was charged with a criminal assault on a little girl last week was up this morning and the Crown Attorney stated that he did not see that there was enough evidence to put him on his trial. The case was dismissed.

Mrs. Stoneman, 121 Victoria avenue south, was charged by John Wilson with refusing to pay him \$4.36 due him for wages. The case was settled out of court.

FALL OF WRENCH.

Was Direct Cause of Death of Franklin Book.

Franklin Book passed away at the City Hospital yesterday afternoon, after a lingering illness of several months. Deceased went to work for the Westinghouse Company in December last. In July of this year, while working there he was struck on the head by a wrench, which had fallen from the hands of one of the men working above him. He was in the hospital for four or five weeks, and after his release seemed to have recovered.

BOTH PROMISED,

But One of Larmers Soon in Jail Again.

William and Alfred Larmar were before Judge Monck this morning, in default of sureties to keep the peace. They were in the Police Court some days ago on a charge of threatening to do bodily harm to their mother, Mrs. Annie Larmar. The magistrate bound them over to keep the peace, but they had no body to go security. As they had served two weeks in the jail, Judge Monck consented to let them go, on promise that they would behave in future. They readily gave their promise, and were let go.

ORDERED TO JAIL.

David Pearlstein Must Stay There Till He Apologizes.

A rather unusual incident happened at the Court House this morning, when Sheriff Middleton received an order signed by Chief Justice Mulock to commit David Pearlstein, of this city, to jail for a period of twenty-four hours for contempt of court. The order read as follows: "This court doth order that the sheriff of the county of Wentworth or the sheriff of the united counties in which the said defendant, David Pearlstein, was to be found, take the said David Pearlstein into his custody and commit the said David Pearlstein into the jail of his county or united counties for a period of twenty-four hours, and until the said David Pearlstein shall purge his contempt by filing with the honorable court a suitable apology.

"And this court doth further order that the said David Pearlstein do pay the plaintiff's costs of this motion forthwith after taxation thereof."

The order is the result of an action which was tried at the Assizes in May of this year, before Justice Teetzel. William Todd and David Turner brought the action to restrain David Pearlstein from using cigar labels with the union stamp on them. It was claimed that Pearlstein, who is not a member of the union, used the labels without the union's permission. The court granted an injunction restraining Pearlstein from using the labels, but he has disregarded it. Staunton, O'Heir & Morrison, who acted for the defendants, through their agent at Toronto, secured an order for Pearlstein's commitment. The order was handed over to the sheriff on Tuesday of this week, but Pearlstein could not be found until this morning, when Robert Stewart, the sheriff's officer, found him at his home. Pearlstein made no resistance, and was taken to the cells at an early hour this morning. He will put in the twenty-four hours, in any case, and he does not get out until he makes the apology that the court ordered. The plaintiff's lawyers are anxious to secure the costs.

OVERCOATS

\$15.00, \$20.00 and \$25.00

The notable demand for these fine Coats is nothing more than the increasing appreciation of a fact long since established—that the average custom tailor cannot at any price produce garments that will surpass these in quality of workmanship and material.

When we first introduced "Sovereign Brand" Overcoats they were at once pronounced the best ready-to-service garments to be had in Canada.

Each season has seen improvements, and we invite you to see our tailors' handiwork now.

WAS NOT TRUE.

Sunfield's Wife Denies Statement Made by Prisoner.

According to a letter received in this city from Mrs. Tamillo, wife of Jake Tamillo, alias Sunfield, who has been sentenced to be hanged for the murder of Andrew Radzyk, the condemned man told what was not true in the witness box at the trial, when he stated his wife owned real-estate in Chicago. She says: "I must let you know that my parents have some property, but I have nothing to do with that. I have to work for my children, as no one helps me. I have my children in Chicago now; ever since August 12th. My father can't be so stupid. I think it I think it must be awful to die like that. I pray that my children will not take after him, and I don't want them to know what their father was."
