### CURRENT TRADE CONDITIONS.

#### ONTARIO.

There have been evidences during the past week that the pine market is not as firm as it has been, although as yet it cannot be said that prices have receded. There does not seem to be much life to the market, from which it appears that consumers are not greatly in need of lumber. This may be accounted for by the backward spring and consequent delay in the commencement of building operations. Purchasers of lumber seem to be in no hurry to have the stock shipped. A favorable feature of the market is the fact that several manufacturers have already disposed of a large proportion of their season's cut. Thus when the mills commence operations there will not be the usual quantity of stock thrust upon the market. It is generally admitted that present prices of pine and hardwood lumber will not hold much longer, the question in doubt being as to how soon the break will occur. More enquiries are being received for box and mill cull lumber than for the other grades, and it is possible that prices of these grades will not recede for some time to come. The dry stock of mill culls at the mills has become completely exhausted, while the bulk of the production for 1900 has been sold ahead. There is also a good demand for Norway pine for export, and this stock is likely to hold its own for some time.

#### QUEBEC AND NEW BRUNSWICK.

The spruce market has felt the effects of the alarming report from New York of a serious break in prices. Investigation proves, however, that nothing to cause alarm has occurred, and that the lowering of prices was the result of exceptional conditions and likely to be only temporary. Local and export trade is fairly active, the most urgent demand pertaining to the lower grades of stock and dimension timber. Cedar shingles are holding firm in price, and some sales are reported on the basis fixed by the new association of manufacturers, namely, \$3.25 for extras on Boston rate of freight. It is quite probable that this basis will be maintained, as the ultimate goal of the association is understood to be \$3.50. We question, however, whether these prices will be reached in the near future. Another meeting of the association was held on the 18th inst., at which arrangements were inaugurated to take over the stock of smaller manufacturers who wish to realize on their holdings.

Should this be successfully accomplished it will no doubt strengthen the market, but there is just the danger that prices may be advanced to such a degree as to allow other classes of shingles to find their way into the natural market for cedar shingles. Spruce deals for export are selling at about the same prices as heretofore. Many of the mills have already sold their season's production.

#### UNITED STATES.

Reports from the United States lumber markets are in some respects disappointing. The season has been backward and a slight reduction in price is being offered by holders of stock. Pine piece stuff shows more weakness than the other classes of lumber. There is a general shortage of inch lumber in nearly all the leading markets, as the box factories are still purchasing low grade pine in large quantities. The box trade is so brisk that it seems almost impossible to satisfy the demand for stock from that quarter. Buffalo and Tonawanda dealers tell of light trade, and it is evident that the East is not purchasing to any extent.

The spruce market has weakened slightly. This is largely due to the arrival in New York harbor of about thirty cargoes of lumber. Many of these vessels had been beating back and forth waiting until a change in the weather would make it safe to make port. The result was that prices were forced down from two dollars to four dollars per thousand, but it is said that the market is again recovering, and that spruce prices are likely to remain firm throughout the season. In the New York market eastern spruce of thirteen feet average is strong and active. Lath is quoted at \$3.50 to \$3.75.

The hardwood market retains its strength. Offerings of white ash are reported to be more numerous, but to offset this is the announcement that the cut of northern hardwood logs was not exceptionally heavy. At Buffalo and Boston an increased quantity of maple is making its appearance, but the demand is improving in a corresponding degree. Some of the manufacturing concerns are using thick maple in place of thick ash. Basswood is selling at \$31 to \$32 for inch No. one and two, \$33 to \$35 for one and one-quarter and one and one-half inch, and \$35 for two inch.

#### FOREIGN.

It is a difficult problem to solve the British lumber market. The high price of lumber has no doubt materially decreased the volume of consumption, and

the basis of prices has only been maintained by the firm position taken by shippers. Whether they will be obliged to weaken in their asking price is a question in doubt, but unless there should develop an exceptionally good demand from South Africa, France, and Germany, we would not be surprised if lower prices would have to be met before long. Spruce and pine deals have, to our mind, reached their limit of value under present conditions. There seems to be a considerable enquiry for oak and elm planks, a desire being shown by importers to purchase more liberally from Canada than heretofore. But the fact has also been brought out that the importers have not regarded the prices quoted by Canadian shippers as offering much inducement. Reports from South American markets tell of favorable conditions and a moderate demand for lumber.

STOCKS AND PRICES.

Smith Bros., of Blissville, N. B., have taken out over 2,000,000 feet of logs during the past winter.

The McKinley-Wood Lumber Co., of Parry Sound, Ont., expect to cut 1,000,000 feet of lumber this season.

The Nelson Saw & Planing Mill Co., of Nelson, B. C., have purchased 4,000,000 feet of logs for the season's supply.

J. L. Reaume & Co., of Essex, Ont., have about two million feet of logs and 1200 cords of bolts in their yard for their season's supply. They have also about five thousand logs in the woods waiting to be hauled to the mill.

The W. H. Kelly Lumber Co., of Buckingham, Que., have sold their production of lumber this year to Alex McLaren, of Montreal, the consideration being given as \$300,000. The lumber will be exported to the European and United States markets.

A correspondent at Wiarton writes that the production of hardwood logs in that district last winter was much below the estimate of 18,000,000 feet as given in a recent issue of this journal. He states that not more than 7,000,000 feet of hardwood logs were taken out by the mill owners of Wiarton, and that much of the coming season's production of lumber has already been contracted for.

An important deal has just been concluded, by which the Michigan Land & Lumber Co., of Bay City, obtain control of the mills and stock of the Blind River Lumber Co. at Blind River, Algoma district. For the plant the company paid \$28,000, and for the production of logs \$26,000. The transfer of the property is looked upon as a direct result of the prohibition of the export of saw logs.

Advices from the Aroostook river, flowing into the St. John, between Woodstock and Grand Falls, N. B., state that the winter's cut will be about 40,000,000 feet, divided as follows: Hale, 10,000,000 feet spruce, 4,000,000 cedar; Hilyards, 7,000,000 spruce; McCollum, 3,000,000 spruce; Fraser, 3,000,000 spruce; Estey, 2,500,000 spruce, 200,000 birch timber; Upham, 3,500,000 spruce; Beveridge, 2,000,000 spruce; scattering along the shore, 3,000,000 feet.

Alfred Dickie, of Lower Stewiacke, N. S., estimates that his cut of lumber for the present season will be about 40,000,000 feet, divided among the various mills as follows: Lower Stewiacke and St. Andrews, 7,000,000 feet; Tusket, 14,000,000 feet; Musquodobouit Harbor, 6,000,000 feet; Ship Harbor, 5,000,000 feet; Three Fathom Harbor, 2,000,000 feet; Landsdowne, 2,000,000 feet; Liscombe, 1,000,000 feet. Several portable mills and other operations not mentioned in the above list, 3,000,000 feet. Already this season Mr. Dickie has shipped five cargoes of lumber, two going to Glasgow, two to New York and one to New Haven. He has chartered about thirty five vessels to carry cargoes of lumber this year.

Manufacturers in a position to supply oak and elm planks, 12 inch and up wide, for export to Great Britain, are asked to send their business cards to this office.

THE BOSTON MARKET.

(Correspondence of the CANADA LUMBERMAN.)

The improvement in the demand for spruce lumber last noted has been better than continued. Sellers report an excellent demand for large timber, 10x12 and up, with orders that cannot be filled as soon as they are wanted. On this class of timber prices are very firm, with full agreement prices, or even a little better. On small dimensions the market continues easy, however, with full agreement prices not easy to get. This state of the market is easily understood when it is stated that housebuilding is not active, while factory and large construction are the present feature. Agreement prices are steady:

Frames, 9 inch and under	\$17.00
10 and 12 in. dimensions	19.00
10 and 2 in random, 10 ft. and up long	18.50
2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4, 10 feet and up	15.00
All other random, 9 in. and under	16.50
Merchantable boards planed one side	17.00
Out boards planed one side	14.00
Spruce floor ng. 1 x 2, 1 x 2 1/2 and 1 x 3 planed one side	20.00 to 23.00
Furring, 1 x 2, 1 x 2 1/2 and 1 x 3 planed one side	13.50 to \$15.00

Hemlock is yet scarce, with no dimensions offering. Boards are nominally very firm:

Eastern	\$17.00 to \$18.00
Pennsylvania	20.50

with 16 for 20s and \$12 for 14s.

The market on western pine is well sustained, with a fair demand:

Uppers, 1 in.	\$58.00 to \$60.00
1 1/2 to 2 in.	60.00 " 62.00
3 and 4 in.	70.00 " 75.00

Sheathings	40.00 " 56.00
Horn boards	28.00 " 32.00
Coffin boards	26.00 " 28.00

Finishing hardwoods are in quiet request, with little change in the market:

Whitewood, 1 in.	\$37.00 to \$39.00
Whitewood, thicker	38.00 " 44.00
Saps, inch	28.00 " 30.00
Common	25.00 " 28.00
Quartered oak	70.00 " 80.00
Fancy Oak	90.00 " 110.00

Cherry	90.00 " 130.00
Maple	30.00 " 40.00
Sycamore, quartered inch	40.00 " 50.00
Walnut	100.00 " 130.00

Clapboards continue very quiet, and yet it is suggested that it would take no great demand to start the market up, since the supply is positively limited. Manufacturers say that they can hardly afford to use big spruce for clapboards under the present good demand and high prices for large timber:

Spruce, extra	\$29.00 to \$30.00
Spruce, clear	27.00 " 28.00
Spruce, 2nd clear	23.00 " 25.00
Pine, extra	40.00 " 45.00
Pine, clear	35.00 " 40.00
Pine, 2nd clear	30.00 " 32.00
California redwood, clear	42.50 " 45.00
Second grade	42.00 " 44.00

Cedar shingles are firm at the recent advance made in prices by the manufacturer's association:

Extra	\$3.25
Clear	2.85
2nd clear	2.35
Clear white	2.00
Extra No. 1	1.50

These prices are for Boston, freight paid.

Laths are very firm, with a good demand:

1 1/2 inch	\$3.50 to \$3.75
1 1/4 inch	2.85 " 2.95

Boston, April 24th, 1900.

CONDITIONS AT LIVERPOOL.

The arrivals from British North America during March, says Farnworth & Jardine's wood circular, have been 6,180 tons register, against 5,200 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1898, 1899, and 1900 has been 55,521, 53,896, and 55,847 tons respectively. Business during the past month has been quiet. The arrivals have been fairly moderate, but the deliveries have been rather disappointing. However, stocks generally are light, and prices continue steady.

CANADIAN WOODS.—Pine Timber — Of waney the deliveries have been fairly satisfactory, and the stock is now very light; prices are firm. Square is only in limited request, and the stock is sufficient. Red pine: There has been little enquiry, and the stock is almost exhausted. Oak: There has been a little more enquiry for next season's shipments, and prices are firm; the consumption, however, has been small, and although the stock of first-class wood is not large, it is sufficient for present requirements. Elm: There has been fair enquiry and prices rule high; the stock is almost bare. Ash: Large wood has been in fair request and prices are firm. Pine deals: The deliveries have been fairly satisfactory; the stock is now reduced to more moderate compass, and a considerable advance in value has been established. Red pine deals continue in good demand, and prices are firm.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS.—The arrivals slightly exceed those of the corresponding month last year, viz.:—2,769 standards, against 2,650 standards; the deliveries have been satisfactory, and the stock is fairly moderate; there is little change in value to report, and steady progress is being made in contracting for next season's delivery. Pine deals: There has been more enquiry and stocks are reduced.

BIRCH.—Of logs, chiefly from St. John, there has been a moderate import; the deliveries have been fair, and the stock is not too large; values are unchanged. Planks have been imported freely, and are going largely into consumption direct from the quay; stocks are light and prices continue steady.

LUMBERING AT SACKVILLE.

A good deal of activity is displayed the present season in lumbering operations about Sackville, New Brunswick. Pelton & Beharrel have purchased the Midjie lumbering properties of Ogden & Hicks for \$23,000. It embraces about 3,000 acres. They expect to take off 2,000,000 feet this season. Another new operator is C. J. Willis, who purchased the Cook property and has sawn 750,000 feet this season. Hon. D. L. Hanington is lumbering on the Dorchester Road, and will cut about 400,000 feet; Lew Johnson, at Westcock, about 800,000 feet; J. C. Pickard, at Fairfield and Midjie, 1,000,000 feet; Wallace Copp, 500,000 feet; B. D. Teed, McLeod and Cousins, each about 300,000 feet, and Cousins, S. McAllister and A. Seaman, each 200,000 feet. The Calhoun Lumber Co. purchased from A. & W. Ogden their Beech Hill lands, 1,000 acres, for \$5,000. These lands are being lumbered closely by the Calhoun Co., and will yield some 3,000,000 feet. The same company will cut a million feet at Calhoun's Mills, Memramcook. It is also operating extensively at Gaspe. The largest operator in the district is J. L. Black. His recent pur-

chase of the Kinnear mill properties, on the Aboushagan River, from Hiawatha Dixon, rounds out what was previously a splendid lumbering property. His area extends from Memramcook river into Westmorland parish, a belt thirteen miles long and five miles wide across the upper end of the parish of Sackville. These lands extend to within five miles of the Gulf shore, and are watered by the south-west and north-west branches of the Aboushagan river, which are most excellent streams for stream-driving.

TIMBER LIMIT SALE.

Timber limits on Lake Nipissing, French river and Vermillion river, the property of Mr. Alex. Fraser, of Ottawa, were offered for sale in Toronto by Mr. C. J. Townsend on April

19th. Three limits were put up. The bidding was very inactive. Berth No. 5, township of Patterson, was withdrawn at \$45,000, berth No. 16, township of Falconer, \$40,000, and berth No. 23, township of Dowling, at \$30,000, the latter figure being bid by Mr. J. K. McFadden, of Ottawa. The offers made did not nearly represent the value of the limits.

ENQUIRIES FOR WOOD PRODUCTS.

The following were among the enquiries relating to Canadian trade recently received at the office of the High Commissioner for Canada in London, Eng.:

27. A Copenhagen (Denmark) firm ask to be placed in communication with a first rate exporter of wooden handles from Canada. They are willing to take up any other article suitable for the Scandinavian and Baltic market and offer a good reference.

Canadian manufacturers may open up correspondence with any of the firms making the above enquiries by addressing a letter to the publishers of the CANADA LUMBERMAN. When writing refer to the number of the enquiry.
