The copy filmed here has been reproduced thanks to the generosity of:

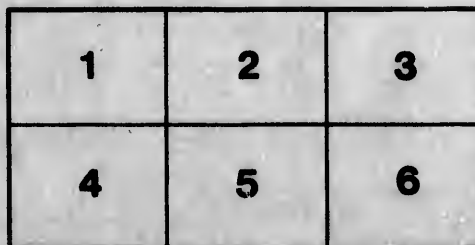

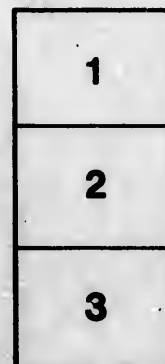

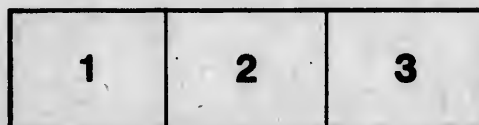

Mills Memorial Library
McMaster University

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Mills Memorial Library
McMaster University

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

Eclipses.

In the year 1852, there will be three Eclipses of the Sun and three of the Moon.
 I. A total Eclipse of the Moon, January 6, 1852, visible in Canada. The following table contains the mean time of the principal phases of this Eclipse, at each of the places named :

 The first contact with the shadow occurs at 86° from the northernmost point of the Moon's limb to the east. The last contact at 83° towards the west.
 II. A partial Eclipse of the Sun, January 20, 1852, not visible in Canada, being confined to regions surrounding the South Pole.
 III. A partial Eclipse of the Sun, June 17, 1852, not visible in Canada, being confined to the Southern portion of South America.
 IV. A total Eclipse of the Moon, July 1, 1852, not visible in Canada, being confined to the Eastern Hemisphere.
 V. A total Eclipse of the Sun, December 10, 1852, not visible in Canada, being confined to the Continent of Asia and the North Pacific ocean.
 VI. A partial Eclipse of the Moon, December 25-26, 1852, not visible in Canada, but visible in the more Western parts of the Hudson's Bay Company's Territory.

Magnitude of the Eclipse (Moon's diameter=1) 0.677 on the Southern limb.
Saturn's Ring.—To render Saturn's Ring visible to the earth, it is necessary that the Sun and the Earth, as viewed from the Planet, be elevated on the same side of it, which is the case during the whole of 1852. It will attain its greatest apparent diameter in November=45.8'

Explanation of the Articles in the Calendar.

THE SUN'S DECLINATION is given for mean noon at Toronto, for every day; the difference for mean noon for any other place in the British Provinces, will rarely amount to one minute.

APPARENT NOON, SHOWING THE EQUATION OF TIME.—This column contains the mean time corresponding to the apparent noon on each day, or the hour which should be shown by a clock or watch at Toronto, when a Sun-dial marks twelve o'clock. Its error at any other place in the British Provinces will rarely amount to one second. The Equation of Time is the difference in time between the real place of the Sun, and its supposed or mean place. The actual interval between the successive arrivals of the Sun on the meridian, or the length of successive solar days, is variable, owing to the difference in the rapidity of the motion of the earth in different parts of its orbit, and in the inclination of the successive parts of the ecliptic to the equator. But as time-keepers cannot be made to measure an interval which varies every day, a clock or watch is made to mark twenty-four hours in the average of all the days. In other words, it is made to keep pace with an imaginary or mean Sun, having a motion exactly equal to the average motion of the real or apparent Sun. Hence, when it is twelve o'clock by the real Sun, it may be before or after twelve by the mean Sun. The true Sun and the mean or imaginary Sun coincide four times in each year, viz., about the 15th of March, the 15th of June, the 1st September, and the 24th December. The difference between them or the Equation of Time, is never more than sixteen minutes. A Sun-dial gives apparent time, and must be corrected by applying the Equation of Time before setting a clock or watch by it.

SUN RISING AND SETTING.—The mean time of the Sun rising and setting is given for every day for Toronto and Montreal, and will be found given for every tenth day at Quebec, Halifax, and Fredericton, by referring to the Table at page 17. If the time is wanted for any intermediate day, enter the table of Semi-diurnal Arcs (page 17) with the Sun's declination for that day, the value given, subtracted from, or added to, the mean time of apparent noon, will give the hour of rising or setting. The value as it stands in that Table is the apparent time of setting and its complement to 12h, the apparent time of rising.

THE MOON'S RISING OR SETTING is given for every day at Montreal and Toronto: the time of rising being when she sets during daylight; and the time of setting when she rises during daylight. The time given for Montreal will never be more than four minutes in error for Halifax, three minutes in error for Fredericton, and five minutes in error for Quebec; and it is, therefore, near enough for ordinary reference at those places.

THE PLANETS.—The hour of meridian passage, right ascension and declination of each of the principal planets, is given for the 1st and 15th of each month. (m signifies morning.) To which is added the mean time transit φ or the mean time of transit of the first point of Aries, being the mean time corresponding to 9h. 6m. 0s. of Sidereal time, on each of those days. By the aid of this Table the time of the meridian passage of any heavenly body may be readily found. From the right ascension of the body subtract the retardation, which is at the rate of 9.63s. for each hour, or 0.16s. for each minute of its RA; add the remainder to the mean time transit φ ; the sum, diminished if necessary by 24h., will be the mean time of the meridian passage of the body in question. For any other day than the 1st or 15th of the month apply a correction at the rate of 3m. 53.91 s. per day, reckoned from the nearest given day, to be added if for an earlier date, subtracted if for a later.

THE POLE STAR.—For the convenience of land surveyors and others, we this year give a Table in which will be found not only the mean time of the meridian passage of this star for every tenth day of the year, but also the mean time of its greatest elongation from the meridian, upon the parallel of 44 $\frac{1}{2}$ deg., and its azimuth at that time upon three parallels, namely, 43 deg., 44 deg., and 46 deg. The middle of these is the parallel which passes through the greatest number of Townships; and the first and third are nearly the limiting parallels of Upper Canada. The object of the Table is to furnish a ready and accurate way of referring a Theodolite or other instrument to the true meridian. Where the time is known with accuracy, this is best done by means of the Pole Star when on the meridian; but as at that time it changes its azimuth at the rate of half a minute of arc to one minute of time,

In these latitudes, when the latter is not known with accuracy, then the Star must be referred to when at its *greatest elongation*, at which time its azimuth changes so slowly that an error of a few minutes will not be important, and the angle given in the Table must be added to, or subtracted from, the reading, as the case may be. For any other day, or any other latitude than those given, a value can be interpolated. By means of the North Polar distance of the Star, which is added, the same opportunity may be employed for determining the latitude very nearly.

Twilight begins in the morning, when the Sun is about 18 degrees below the horizon, and ends in the evening, when it is eighteen degrees beyond it. The mean time for beginning and ending for every tenth day will be found at page 17, together with the time of the Sun's rising and setting at Quebec, Fredericton and Halifax.

SEMI-DIURNAL ARCS.—This table is useful for determining the times of *rising* and *setting* of the heavenly bodies. Enter the table with the declination of the object; under the proper column for the locality will be found half the time which the object remains above the horizon, which is to be subtracted from the time of its meridian passage. If the time of rising is required, or added, for the time of setting.

Example.—Required the time of rising for the Planet Jupiter, at Montreal, June 16th, 1852, Declination of Jupiter 15° deg. 8'

Corresponding to which we find the semi-diurnal arc 4 57
Jupiter on meridian 9 0 ' P. M.

Jupiter rises 4 6 P. M.

METEOROLOGICAL.—Having in previous almanacs given comparisons of Canadian climates with that of the Southern portion of Great Britain, represented by Greenwich, we this year select for the purpose Makerstown, in Roxburghshire, North Britain, in latitude 55° 35', the Observatory of Sir Thomas Macdougall Brisbane. The particulars are derived from eight years observations 1843-9, except the quantity of rain, which has been recorded for 18 years.

The observations at Fredericton, New Brunswick, were made by Lieut. Col. Page, R. E., to whom we are indebted for them. They embrace about two-and-a-half years, from September 1817 to February 1820, but include a period of six months in the summer of 1818, when the observations were made at St. Johns, N. B. The thermometer was recorded daily, at 5, 6, or 7, A. M., according to the season of the year; at noon, 5 P. M., and 10 P. M.; the mean temperatures here given are reduced to the true mean of the 24th, the largest correction being however only 0° 7'. The data for Quebec are also of old date, being derived from the observations of the Rev. Dr. Sparks, from 1809 to 1818, as reduced by Mr. Justice McCord. (Hall's British American Journal, vol. 1.) Those values which are marked by an asterisk are from another source and refer to the years 1822 to 1828.

The observations at Hamilton, C. W., are those of Dr. Craigie, (ib. vols. 3, 4, and 5) and include five years, from 1846 to 1850. Although the mean temperatures are derived from observations at 0 A. M. and 9 P. M., which give a value somewhat below the true mean; they are invariably considerably higher than those of the same months at Toronto. The difference being much more than can be due to the difference in the geographical position of the two localities, may be attributed, probably, to some special circumstance in the position of the instruments.

Her Majesty's Magnetical Observatory, Toronto.—DIRECTOR.—Captain J. H. Lefroy, R. A., F. R. S. ESTABLISHMENT.—Four Non-Commissioned Officers of the Royal Artillery, as Assistants.

For Twilight at Toronto, Montreal, Quebec and Halifax; also Table of Semi-Diurnal Arcs, see page 17.

NOTE.—The army in Great Britain, and the navy, merchant seamen, and other persons on board vessels in the ports are included in the return for 1851; the army, merchant seamen, and persons on board vessels were not included in 1841. The apparent decrease of houses in Scotland, between 1841 and 1851, is attributable to the fact that in 1841, flats or stories were reckoned in many places as "houses;" in the present census the more correct definition has been employed.

The details of the census of 1848 were given in the *Canadian Almanac* for 1850. The population by Townships, Cities and Towns, for Upper Canada, taken in 1850, is given in the County Lists, in a subsequent part of this Almanac. An Act was passed last session, 14 and 15 Vic. Cap. 49, "to provide more effectually for taking the periodical census of the Province," which enjoins that it shall be taken in January, 1852; and in the month of January every tenth year thereafter. We hope to have full and reliable statistics of the Province—both Lower and Upper Canada, for the *Canadian Almanac* of 1853.

*The population of the United States, at successive periods since the taking of the first Census, in 1790, was as follows:

Banks in Canada, New Brunswick, Nova Scotia and Newfoundland.

The following list is arranged under separate heads, viz., Canada, New Brunswick, Nova Scotia and Newfoundland. Under each of these the towns are arranged, alphabetically, in which Banks are established or Branches or Agencies placed, showing the names of such Banks, and also those of the officers in charge, whether President, Cashier, Manager or Agent. These Banks transact the local and other business usually done by Bankers, including Exchange on Foreign Countries; their arrangements being to supply Bills at all times on London, New York, &c., at the current rates. Their capital is supplied by Joint Stock Subscription, with limited liability to the extent of the respective shares. Their dividends heretofore paid have established the Stocks in the market as good investments, and the security to the public is ample. The Capital Stock of each Institution is as follows:—Bank of Montreal, £750,000; Bank of Upper Canada, £500,000; Commercial Bank, M. D., £300,000; Bank of British North America, sterling, £1,000,000; Gore Bank, £80,000; Farmers' Joint Stock Bank, £25,000; City Bank, Montreal, £300,000; Bank du Peuple, £300,000; Quebec Bank, £100,000; Bank of New Brunswick, £100,000; Commercial Bank of N. COUNTY GRAMMAR SCHOOLS, U. C.—These Schools are managed by a Board of Trustees in each County or Union of Counties, appointed by the Provincial Government. There is one Grammar School in every County Town, and where the Funds will admit of it, the Trustees are allowed to establish others. Formerly an additional Grammar School was not allowed within the distance of six miles of the County Town, but that restriction has been removed by an Act passed last Session of Parliament. Pupils attending these Schools are prepared to enter the University. A list of the present Masters is given below.

Number of Teachers trained in the Provincial Normal School during the first Session, ending 15th April, 1842, 63 males; ditto, during second Session, ending 15th October, 1842, 101 males, 24 females—total 125; ditto, during the third Session, ending the 15th April, 1843, 76 males, 31 females—total 107; ditto, during the fourth Session, ending 15th October, 1843, 89 males, 21 females—total 111; ditto, during the fifth Session, ending the 15th April, 1850, 92 males, 43 females—total 135; ditto, during the sixth Session, ending 30th May, 1851, 91 males, 25 females—total 76. The Sessions are half yearly, commencing 15th of May and 15th of November, and continuing for a period of five months each—concluded by a public Examination, and followed by a vacation of one month. Students not admitted after the first week of Session. We learn from an address of the Chief Superintendent of Schools for Upper Canada, in 1851, that the principle on which the Normal School is established and conducted, forms the basis of the system of public elementary instruction for Upper Canada. It recognizes Christianity as an essential part of education, and unites the clergy with their people in providing for and imparting it. The people of Upper Canada have, during the last year, paid, by self-imposed taxation, for the support of teachers alone, under this system, the sum of £28,526, besides £14,159 for the erection of school houses. There are 3059 schools, attended by 151,691 children. The new Normal School is created by a public grant of £15,000—an enlightened liberality on the part of our Legislature, in advance of any other on the American continent. The Normal School is designed to accommodate 200 teachers in training, and 600 pupils in the Model School, attached to it. It also affords accommodation for the offices of the department of Public Instruction; a depository for maps, apparatus, &c., library, and museum; and rooms for a school of art and design. The lands attached are also set apart for botanical garden, experimental farm, and grounds for gymnastic exercises. The premises will be ready for occupancy in the Spring of 1852.

LOWER CANADA.—*Superintendent of Education*—J. B. Meilleur, M. D.; *Secretary*—L. Girard; *Clerk*—W. S. Williams. *Education Office*—Government House, Montreal. An Act has been passed by the Legislature to establish a Normal School in Lower Canada. From the report of the Superintendent of Education, we learn that, for the first six months of 1850, there were in operation in Lower Canada, 1879 schools; that the number of children attending these was 73,551; and that the amount paid from the Parliamentary Grant towards their support was £12,663. We have no returns for the second six months of the year. The total amount paid for building and repairing School houses in Lower Canada, from 1842 to 1850, inclusively, was £52,921; and the entire sum paid in Lower Canada, during the same period, for the support of Teachers and the building and repair of School houses was £248,330.

THE MONTREAL DISPENSARY is open daily, and is accessible to students. It has a staff of six medical officers, and is established on the self-supporting system, adopted in similar institutions in Great Britain.

THE MONTREAL EYE AND EAR INSTITUTION.—This valuable institution is also open to students; and is under the care and management of Mr. Howard, Oculist and Aurist. Established six years ago. The annual average of patients treated falls not far short of 1000, and the daily attendance about 20 or 30. Its success is entirely due to Mr. Howard's philanthropic exertions, and it has been conducted to a very considerable extent, at his own individual expense. This institution presents to the student as fine a field for the study of Ophthalmic and Aurist diseases as is to be met with on this Continent.

THE UNIVERSITY LYING-IN HOSPITAL, MONTREAL.—Physician—M. McCulloch, M. D.; Consulting Physicians—The Members of the Medical Faculty of McGill College.

Since the erection of the Richardson and Reid wings, it can accommodate with facility 300 patients, although the daily average, has not, within the last two years, exceeded 50. Both Medical and Surgical cases are admitted into the wards, and a fine field of study is thus presented to the diligent student. Post mortem examinations are a rule of the Hospital, at the discretion and in presence of the attending Physician. The staff is composed as follows:—Consulting Physicians—A. F. Holmes, M. D., O. T. Bruneau, M. D., and A. Hall, M. D. Attending Physicians—Drs. Campbell, Crawford, Arnoldi, David, Fraser, Sutherland, Scott, and Sewell.

The Institution is open to the public on an order of a Director, or that of the Medical Superintendent, between the hours of 12 Noon, and 3 P. M., every day, Saturdays and Sundays excepted. The admission of patients is regulated by an Act of the Provincial Legislature, 2nd Victoria, Chapter II, which requires that the patient be examined by three licensed Medical Practitioners, collectively, who certify to the insanity; also, that the patient is a subject of Her Majesty, and a resident of

the Province. Forms of the above may be had at the offices of all the Clerks of the Peace throughout the Province, or by application at the Asylum. It is required that patients or their friends having the means, will contribute towards their support, while in the Institution. The Board require the parties presenting any destitute or pauper Lunatic, to obtain the certificate of a Clergyman and Magistrate in the neighbourhood of the residence of the patient, that such Lunatic, or his friends, have not the means of paying the expenses to be incurred for his maintenance and support, see 2nd Victoria, Chapter XI, section 8. Idiots and persons afflicted with Paralysis, are inadmissible into the Institution.

This Institution was established in 1834, as the Upper Canada Penitentiary, but at the Union it was made applicable to the whole province. No prisoner is received for a shorter term than two years. The system of discipline is that known as the silent or segregate. The convicts are kept at hard labour for the benefit of the Crown during daylight, their services being leased to contractors, who teach them useful occupations. The buildings have been chiefly erected by convict labour, under the superintendence of the officers, but they are not yet complete. The draft on the public exchequer for maintaining the prison for 1840, 1847, and 1848, averaged over £10,000 per annum. For 1849, it was £10,300, for 1850, £7,500, and for 1851, the estimate was only £4,900. An Act was passed in August, 1851, to come in force on the 1st October following, (14 and 15 Vic., Cap. II.) "for the better management of the Penitentiary," but nothing was of course done under it, when this summary was written—(September, 1851.)

[For their duties in detail, see the *Municipal Manual, latest edition.* An Act was passed in 1851, viz.: 11 and 15 Vic., Cap. 120, "to explain and amend the Act of the last Session, intitled, an Act to amend the laws relative to Tavern Licenses in Upper Canada."]]

ELECTION OF SCHOOL TRUSTEES.

Under the School Act, 13 and 14 Vic., Cap. 48, the annual meetings for the election of School Trustees, are appointed to be held, in all the Villages, Towns, Cities, and Townships of Upper Canada, on the second Wednesday in January—for the election.

SELECTORS OF JURORS.

Under the Acts 13 and 14 Vic., Cap. 55, commonly called the Upper Canada Jurors' Act of 1850, and 14 and 15 Vic., Cap. 112, to amend the same, Mayors, Town-reeves, Clerks and Assessors, in their respective Municipalities, are *ex officio* Selectors of Jurors. They are required to assemble annually, on 1st September, for the purpose of selecting from their several Assesment rolls for the year, the names of persons qualified to serve as Jurors, between the ages of 21 and 60. The qualifications of Jurors and exemptions from serving, are specified in the Acts. The number of Jurors selected must be equal to two-thirds of the whole number of names on the Assesment Roll, provided there be that number qualified by law to

serve. These are to be distributed into four divisions, viz.: Grand Jurors of the Superior Courts, and Grand Jurors of the Inferior Courts; Petit Jurors of the Superior Courts, and Petit Jurors of the Inferior Courts. The distribution to be in the following proportions, viz.: one-fifteenth under the first division, two-fifteenths under the second, four-fifteenths under the third, and eight-fifteenths under the fourth. The Selectors are to make their reports in duplicate, one copy of which to be deposited on or before the 15th September with the Clerk of the Peace for the County, and the other with the Clerk of the Municipality. The Clerks of the Peace are then to prepare from these Rolls, Jurors' Books for their several Counties, according to forms set down in the Statute. These to be done between the 15th September and 31st October, and to be handed to the Chairman of Quarter Sessions, in Court, the first Court thereafter, and sworn to. Jury lists are then to be balloted for from these Rolls. On or before the 31st December, the several Clerks of the Peace are to deposit a correct copy of their respective Jurors' Books with the Clerk of the Crown and Pleas of the Queen's Bench, at Toronto, and another with his Deputy in the County. [Books and forms, for all purposes, under the Act, are supplied by the Publisher of this Almanac, at Toronto.]

PAYMENT OF JURORS.

The Act 14 and 15 Vic. Cap. 11, makes provision for the payment of Petit Jurors in Upper Canada. It also authorizes County Councils, in their discretion, to make provision for the payment of Grand Jurors.

Assessment Law, Upper Canada.

The Acts regulating the assessments by Municipalities, for taxation for local purposes, in Upper Canada, are 13 and 14 Vic. Cap. 67, and 14 and 15 Vic. Cap. 110, the former denominated, "the Upper Canada Assessment Act of 1850," and the latter, "the Upper Canada Assessment Law Amending Act of 1851." The property liable to taxation for local purposes, comprises all lands, including all buildings and other things erected upon or affixed to the same; all machinery so fixed in any building or real property, as to form in law part of the realty; all trees and underwood growing upon the lands; and all mines, minerals, quarries, and fossils, in and under the same, except mines belonging to Her Majesty. The occupant of any land belonging to Her Majesty shall be liable to taxation, for the land so occupied, but not the land itself. The personal property liable to taxation, embraces only,—all horses of three years old and upwards; all Neat cattle of all descriptions, and also all carriages kept for hire: The average Stock of Goods on hand of every Merchant, Trader or Dealer, Manufacturer, Tradesman or Mechanic; such average stock to be considered to be the mean between the highest and the lowest amount of goods on hand at any time during the year, which shall include all materials intended to be used by him in the manufacture of any goods, in whatever state such materials may be, as well as the manufactured goods themselves, whether in a complete or incomplete state; and every person, partnership, company or body corporate, shall be assessed for his, her or their average stock of goods, in the place where such stock of goods is kept, or if it be kept partly in one place and partly in another, then in each such place, for the average stock there, although such person, or any member of such partnership, company, or body corporate shall reside elsewhere; but no person assessed for such stock or any part thereof, for a greater amount than his income, shall be liable to be taxed upon his income in the same or any other place: the amount of all Stocks or Shares in Steamers, Schooners, or other water craft employed in the conveyance of freight or passengers, and owned within the Municipality: No person deriving income from any trade, calling, office [including all pensions payable out of the public moneys of this Province] or profession, exceeding the amount of £50, per annum, shall be assessed for a less sum, as the amount of his net taxable personal property, than the amount derived from such income, during the year then last past, but such last year's income shall be held to be his net taxable personal property, unless he has other taxable personal property to an equal or greater amount: Every person liable to be assessed upon his income, shall be so assessed in the municipality where he resides, al-

though the place at which he exercises the trade, calling, office or profession, from which such income is derived, may be within some other municipality. The income of a farmer derived from his farm, or the full or half pay of any one in any of Her Majesty's Naval or Military services, or any pension, salary or other gratuity or stipend, derived by any person from Her Majesty's Imperial Treasury, or elsewhere out of this Province; or the other personal property of any such persons, in such Naval or Military services, on full pay, or otherwise actual then present services, are declared not liable to be assessed; and these persons not liable to perform statute labour, or to contribute for the same. The Governor, Lieutenant Governor, or person administering the Government for the time being is also exempted from assessment under these acts. The other exemptions from taxation under them are, Indian Lands; Public Lands of the Province; places of worship; real estate of Universities, Colleges, incorporated Grammar Schools or other seminaries of learning, actually used and occupied by them, but not if occupied by others or unoccupied; Public School Houses; Town or City Halls, Court Houses and Goals, Houses of Correction and Lock-up Houses, and the lands attached thereto; Public Hospitals, the lands attached to them, and the personal property belonging to them; Public Roads and Ways, or Public Squares, and the property belonging to any municipality, if occupied for the purposes thereof, or unoccupied; the Provincial Penitentiary and the land attached to it; Industrial Farms, Poor Houses, Alms Houses, Houses of Industry or Lunatic Asylums, Houses belonging to Companies for the reformation of offenders, and the real and personal property belonging to or connected with the same; and lastly, the property of every public library. All real and personal property, liable to taxation, must be estimated by the assessors at its full value, (or full yearly value, as the case may be) as they would appraise the same in payment of a just debt, due from a solvent debtor. Every vacant lot in a city, incorporated town or village, must be assessed at its actual value, and six per cent. thereon shall be deemed its yearly value; and no lot having any building upon it, shall be assessed at a less sum than if it were a vacant lot. All local taxes must be levied on taxable property generally, and not on any particular kind. The means for enforcing payment, by the collectors, are of a very summary nature. The lands of non-residents or absentees, are liable equally with those of residents, for their proportionate share according to value of all local taxes; and they are payable yearly to the County Treasurer, from whom the amount can always be ascertained, and to whom regular yearly payment must be made, to avoid a sale of the property for taxes. In Townships, the assessments are levied on the aggregate value of taxable property, as returned by the assessors; in cities, towns and incorporated villages, the assessment is levied on the rental or annual value, which on real property is the real rack-rent, or the full yearly sum of six per cent. on the actual valuation by the assessor; and the yearly value of taxable personal property is six per cent. on the amount of such property or income. The assessors and collectors are appointed by the Municipalities. The assessors are required to make out their Rolls yearly, between 1st February and 1st April, but when unable to do so, then as soon thereafter as possible, and also to notify each party assessed of the amount of his assessment. The Collector's Rolls have to be made out by the Clerks of the various municipalities; and the Collectors upon receiving them, are to proceed to the collection of the taxes, and return their Rolls to the Treasurer, with the taxes, on or before the 14th December, unless otherwise provided by the County Councils. County Councils are empowered, at an annual meeting on the first Monday in May, with power of adjournment, to examine the several Assessment Rolls of their Municipalities, and to increase or decrease the aggregate valuations of real and personal property, in townships, villages, or urban wards, adding or deducting such sums upon the hundred, as may in their opinion be necessary to produce a just relation between all the valuations of real and personal estates in the County; but they are not in any case to reduce the aggregate valuation for the whole County, as made by the assessors.—

Protection to Magistrates and Others.

14 AND 15 VIC., CAP. 51.—1851.

An Act to amend and consolidate the Laws affording protection to Magistrates and others in the performance of public duties.

Whereas there are divers Acts of Parliament in force in Canada, both public, local and personal, whereby certain protections and privileges are afforded to Magistrates and others; and whereas the said Acts are not of an uniform character, and it is desirable that many of the provisions of such Acts should be altered and amended, and the whole reduced into one Act: Be it therefore enacted, That so much of any such Act or Acts now in force in this Province, whether public, local or personal, as confers any privilege, either as to notice or limitation of action, or as to amount of costs, or as to pleading the general issue and giving the special matter in evidence, or as to the venue of the action, or as to tender of amends or payment of money into Court, upon any Magistrate, Public Officer, or other person, for any act done, either by virtue of his office, or under the provisions of any such Act or Acts, be and the same is hereby repealed, except as to any action, suit or proceeding which has been commenced or prosecuted before the passing of this Act.

II. That no Writ shall be sued out against any Justice of the Peace or other officer or person fulfilling any public duty, for any thing by him done in the performance of such public duty, whether such duty arises out of the common law, or is imposed by Act of Parliament, either Imperial or Provincial, nor shall any judgment or verdict be rendered against him, unless notice in writing of such intended Writ, specifying the cause of action

with reasonable clearness, shall have been delivered to such Justice, officer or other person, or left at the usual place of his abode, by the Attorney or Agent of the party who intends to sue out such Writ, at least one calendar month before suing out such Writ, and in computing such calendar month, the day of the service of such notice and the day of suing out such Writ shall both be excluded, and on such notice shall be written the name and place of abode of such Attorney or Agent suing out such Writ, and by the cause of action stated in such notice the party suing out such Writ shall be bound, and shall not be allowed to give evidence of any other cause of action at the trial thereof.

III. That any such Justice, officer or other person acting as aforesaid, may at any time within one calendar month after the service of such notice as aforesaid, tender amends to the party complaining, or his agent or attorney; and in case the same is not accepted, may plead such tender in bar to any action brought against him grounded on such Writ, together with the plea of not guilty, and any other plea; and if the Court or jury shall find the amount tendered to have been sufficient, they shall find for the defendant; but if the Court or Jury shall find they were insufficient, or that no tender of amends was made, and they shall also find the other issues against the defendant, or if they find against the defendant where no tender of amends is made or pleaded, then they shall give a judgment or verdict for the plaintiff, with such damages as they shall think proper, and the plaintiff shall have his costs of suit.

IV. That any such action against such Justice, officer or other person, acting as aforesaid, shall be laid and tried within the County in Upper Canada or District, or Circuit in Lower Canada, as the case may be, where the act complained of was done and committed: *Provided always*, that such Justice, officer or other person, acting as aforesaid, may change the venue in such action, upon notice to the plaintiff in such action, if he shall think fit so to do: *And provided also*, that the venue may be changed to any other County in Upper Canada or District, or Circuit in Lower Canada, as the case may be, that the Court in which such action is brought, or any Judge thereof in Chambers may order, if it shall be made appear to such Court or Judge that such action cannot be tried fairly and without prejudice in the County or District or Circuit in which the venue in such action is laid.

V. That every such Justice, officer or person acting as aforesaid, in any such action or suit as aforesaid, may plead the general issue only thereto, that he or they is or are not guilty, and give all special matters of justification or excuse, or that he or they received no notice of action thereunder, as fully and amply as if the same were specially pleaded in such action.

VI. That it shall be lawful for such Justice, officer or other person acting as aforesaid, if he shall not have tendered amends, or shall have tendered insufficient amends, to pay into Court such sum as he shall think fit, without requiring the leave of the Court or a Judge therefor; and such payment into Court shall be specially pleaded, and shall have the same effect, and such proceedings shall be had thereafter, as in ordinary cases of payment of money into Court.

VII. That if in any such action or suit, judgment shall be rendered in favour of such Justice, officer or other person acting as aforesaid, either on demurrer, verdict, non-suit, or non-pros, or otherwise, or the plaintiff shall discontinue his suit, the defendant shall be entitled to and recover against the plaintiff all his costs, as between attorney and client, but no double or treble costs shall in any case be taxed or allowed against the plaintiff.

VIII. That no such action or suit shall be brought against any Justice, officer or other person acting as aforesaid, for any thing done by him in the performance of his public duty, as aforesaid, unless commenced within six calendar months after the act committed.

IX. That the privileges and protection given by this Act, shall be given to such Justice, officer or other person acting as aforesaid, only, and to no other person or persons whatever, and any such Justice, officer and other person acting as aforesaid, shall be entitled to such protection and privileges in all such cases as he shall act *bona fide* in the execution of his duty, although in such case, he shall have exceeded his powers or jurisdiction, and have acted clearly contrary to law.

But if recorded, shall be null and void, and Deputy R. O. incur a penalty of £10.

Returning Officer bound if required, under penalty of £50, to give written acknowledgment of delivery of such declaration, and possession of such acknowledgment to be *prima facie* evidence of possessor's having been authorized by Candidate to deliver the same to R. O., and whatever be the date of attestation, or receipt, it shall be deemed to have been made on the day of delivery.

An Act to abolish the Right of Primogeniture in the succession to Real Estate held in fee simple or for the life of another, in Upper Canada, and to provide for the division thereof amongst such of the relatives of the last proprietor as may best accord with the relative claims of such parties in the division thereof.

WHEREAS it is expedient to abolish the right of Primogeniture in the succession to real estate held in fee simple or for the life of another, in Upper Canada, as such right now exists according to the laws in force in that section of the Province, and to provide for the division of such real estate amongst such of the relatives of the person last seized or possessed, and who shall have died without leaving any testamentary disposition thereof, as may best accord with the relative claims of such parties in the division thereof: Be it therefore enacted, &c., That whenever on or after the first day of January, which will be in the year of our Lord one thousand eight hundred and fifty-two, any person shall die seized in fee simple or for the life of another of any real estate in Upper Canada, without having lawfully devised the same, such real estate shall descend or pass by way of succession in manner following, that is to say:

Firstly—To his legal descendants, and those claiming by or under them, *per stirpes*;

Secondly—To his father;

Thirdly—To his mother; and

Fourthly—To his collateral relatives;

Subject in all cases to the rules and regulations hereinafter prescribed.

2. That if the intestate shall leave several descendants in the direct line of lineal descent, and all of equal degree of consanguinity to such intestate, the inheritance shall descend to such persons in equal parts, however remote from the intestate the common degree of consanguinity may be.

3. That if any of the children of such intestate be living, and any be dead, the inheritance shall descend to the children who are living, and to the descendants of such children as shall have died, so that each child who shall be living shall inherit such share as would have descended to him if all the children of the intestate who shall have died, leaving issue, had been living, and so that the descendants of each child who shall be dead shall inherit the share which their parent would have received, if living, in equal shares.

4. That the rule of descent prescribed in the last section shall apply in every case where the descendants of the intestate, entitled to share in the inheritance, shall be of unequal degrees of consanguinity to the intestate so that those who are in the nearest degree of consanguinity shall take the shares which would have descended to them, had all the descendants in the same degree of consanguinity who shall have died, leaving issue, been living, and so that the issue of the descendants who shall have died, shall respectively take the shares which their parents if living would have received.

5. That in case the intestate shall die without lawful descendants, and leaving a father, then the inheritance shall go to such father,—unless the inheritance came to the intestate on the part of his mother, and such mother be living; and if such mother be dead, the inheritance

descending on her part shall go to the father for life, and the reversion to the brothers and sisters of the intestate and their descendants, according to the law of inheritance by collateral relatives hereinafter provided; and if there be no such brothers or sisters, or their descendants living, such inheritance shall descend to the father.

6. That if the intestate shall die without descendants and leaving no father, or leaving a father not entitled to take the inheritance under the last preceding section, and leaving a mother and a brother or sister, or the descendant of a brother or sister, then the inheritance shall descend to the mother during her life, and the reversion to such brother or sister of the intestate as may be living and the descendants of such as may be dead, according to the same law of inheritance hereinafter provided; and if the intestate in such case shall leave no brother or sister, nor any descendant of any brother or sister, the inheritance shall descend to the mother.

7. That if there be no father or mother capable of inheriting the estate, it shall descend in the cases hereinafter specified to the collateral relatives of the intestate; and if there be several of such relatives, all of equal degree of consanguinity to the intestate, the inheritance shall descend to them in equal parts, however remote from the intestate the common degree of consanguinity may be.

8. That if all the brothers and sisters of the intestate be living, the inheritance shall descend to such brothers and sisters; and if any of them be living and any be dead, then to the brothers and sisters and every of them who are living, and to the descendants of such brothers and sisters as shall have died, so that each brother or sister who shall be living, shall inherit such share as would have descended to him or her, if all the brothers or sisters of the intestate who shall have died leaving issue had been living, and so that such descendants shall inherit the share which their parent would have received if living, in equal shares.

9. That the same law of inheritance prescribed in the last section shall prevail as to the other direct lineal descendants of every brother and sister of the intestate, to the remotest degree, whenever such descendants are of unequal degrees.

10. That if there be no heir entitled to take under any of the preceding sections, the inheritance, if the same shall have come to the intestate on the part of his father, shall descend:

Firstly—To the brothers and sisters of the father of the intestate in equal shares if all be living.

Secondly—If any be living, and any shall have died leaving issue, then to such brothers and sisters as shall be living, and to the descendants of such of the said brothers and sisters as shall have died, in equal shares.

Thirdly—If all such brothers and sisters shall have died, then to their descendants; and that in all such cases the inheritance shall descend in the same manner as if all such brothers and sisters, had been the brothers and sisters of the intestate.

11. That if there be no brothers or sisters, or any of them, of the father of the intestate, and no descendants of such brothers and sisters then the inheritance shall descend to the brothers and sisters of the mother of the intestate, and to the descendants of such of the said brothers and sisters as shall have died, or if all shall have died, then to their descendants, in the same manner as if all such brothers and sisters had been the brothers and sisters of the father.

12. That in all cases not provided for by the preceding sections, where the inheritance shall have come to the intestate on the part of his mother, the same instead of descending to the brothers and sisters of the intestate's father, and their descendants as prescribed in the preceding tenth section, shall descend to the brothers and sisters of the intestate's mother, and to their descendants, as directed in the next preceding section; and if there be no such brothers and sisters or descendants of them, then such inheritance shall descend to the brothers and sisters and their descendants of the intestate's father as before prescribed.

13. That in cases where the inheritance has not come to the intestate on the part of either the father or the mother, the inheritance shall descend to the brothers and sisters both of the father and mother of the intestate in equal shares, and to their descendants, in the same manner as if all such brothers and sisters had been the brothers and sisters of the intestate.

14. That relatives of the half blood shall inherit equally with those of the whole blood in the same degree, and the descendants of such relatives shall inherit in the same manner as the descendants of the whole blood, unless the inheritance came to the intestate by descent, devise or gift of some one of his ancestors; in which case all those who are not of the blood of such ancestors shall be excluded from such inheritance.

15. That on failure of heirs under the preceding rules the inheritance shall descend to the remaining next of kin of the intestate, according to the rules in the English Statutes of distribution of the personal estate.

16. That whenever there shall be but one person entitled to inherit according to the provisions of this Act, he shall take and hold the inheritance solely; and wherever an inheritance, or a share of an inheritance, shall descend to several persons under the provisions of this Act, they shall take as tenants in common, in proportion to their respective rights.

17. That descendants and relatives of the intestate begetten before his death, but born thereafter, shall in all cases inherit in the same manner as if they had been born in the life time of the intestate and had survived him.

18. That children and relatives who are illegitimate shall not be entitled to inherit under any of the provisions of this Act.

19. That the estate of the husband as tenant by the courtesy, or of a widow as tenant in dower, shall not be affected by any of the provisions of this Act, nor shall the same affect any limitation of any estate by deed or will, or any estate which, although held in fee simple or for the life of another, is so held in trust for any other person, but all such estates shall remain, pass and descend as if this Act had not been passed.

20. That if any child of an intestate shall have been advanced by the intestate by settlement or portion of real or personal estate, or of both of them, and the same shall have been so expressed by the intestate in writing, or so acknowledged in writing by the child, the value thereof shall be reckoned, for the purposes of this section only, as part of the real and personal estate of such intestate descendable to his heirs, and to be distributed to his next of kin according to law; and if such advancement be equal or superior to the amount of the share which such child would be entitled to receive of the real and personal estate of the decedent, as above reckoned, then such child and his descendants shall be excluded from any share in the real and personal estate of the intestate.

21. That if such advancement be not equal to such share, such child and his descendants shall be entitled to receive so much only of the personal estate, and to inherit so much only of the real estate of the intestate, as shall be sufficient to make all the shares of the children in such real and personal estate and advancement to be equal, as near as can be estimated.

22. That the value of any real or personal estate so advanced shall be deemed to be that, if any, which may have been acknowledged by the child by an instrument in writing, otherwise such value shall be estimated according to the value of the property when given.

23. That the maintaining or educating or the giving of money to a child, without a view to a portion or settlement in life, shall not be deemed an advancement within the meaning of this Act.

24. That it shall be lawful, and competent for the parties authorized to make partition of any such Real Estate according to law, and they are hereby required to receive from any of the persons entitled to a share of such Real Estate, an offer or proposition to purchase the share or shares of the other parties interested therein, giving the preference, however, to the person who would have been the heir-at-law thereto had this Act not been passed; and after such heir-at-law, then giving such preference to the several persons successively who would have been such heirs-at-law had this Act not been passed, and after such heir-at-law, then giving such preference to the several persons successively who would have been such heirs-at-law, had this Act not been passed, and had those persons preceding them respectively in the series of such preference been dead at the time of the death of the intestate; and the parties so authorized to make such partition, shall certify particularly to the Court in which proceedings for such partition may be commenced or

pending, the particulars of such offer or proposition for purchase, the nature, quantity and value of the Estate or share proposed to be purchased, and whether they advise such offer or proposition to be accepted or rejected, and their reasons therefor; Provided always, nevertheless, firstly, that it shall be competent to any Court authorized to make partition of Real Estate, to direct a sale of the same if they shall think it right so to do, upon the application of any of the parties beneficially interested therein, giving however the preference at all times to the person who would have been the heir-at-law to such Real Estate had this Act not been passed, and after such heir-at-law, then giving such preference to the several persons successively who would have been such heirs-at-law, had this Act not been passed, and had those persons predeceased them respectively in the order of such preference, been dead at the time of the death of the intestate. And provided also, secondly, that every such preference shall be upon and subject to such terms, security and conditions as such Court may think it right to direct.

25. That the term "Real Estate" as used in this Act shall be construed to include every estate, interest, and right, legal and equitable, held in Fee Simple or for

the life of another (except as in the nineteenth section of this Act is before excepted) in lands, tenements and hereditaments in Upper Canada, but not to such as are determined or extinguished by the death of the intestate seized or possessed thereof, or so otherwise entitled thereto, nor to leases for years; and the term "Inheritance" as used in this Act, shall be understood to mean Real Estate as herein defined, descended or succeeded to, according to the provisions of this Act.

26. That whenever, in the preceding sections, any person is described as living, it shall be understood that he was living at the time of the death of the intestate from whom the descent or succession came, and whenever any person is described as having died, it shall be understood that he died before such intestate.

27. That the expressions used in this Act, "where the estate shall have come to the intestate on the part of the father" or "mother" as the case may be, shall be construed to include every case where the inheritance shall have come to the intestate by devise, gift or descent from the parent referred to or from any relative of the blood of such parent.

28. That this Act shall apply to that part of this Province called Upper Canada, and to none other.

Another very noticeable fact, to which we would draw attention, is the remarkable increase in our Export Trade to the United States by Inland Ports and which is shown in the following Comparative Table for the three last years.

Exports from Canada by Inland Ports.

ARTICLES.	1848.	1849.	1850.	ARTICLES.	1848.	1849.	1850.
Ashes, brls.	7,718	11,392	21,700	Indian Corn, bushels..	2,941		21,700

When it is considered that this latter Trade is still in its infancy, and, in fact, had no existence only a few years ago—and that in many articles it already equals, and in some exceeds our exports to the Mother Country—it affords matter for reflection, as to what the future Commercial Policy of this Country, should be. For instance, the quantity of Ashes exported by inland last year, was 21,700 brls., against 25,630 brls. by Sea. The quantity of Flour was 369,761 brls., against 230,678 brls. by Sea. That of Wheat was 1,213,078 bushels, against only 91,951 bushels; and of Oats, 637,039 bushels, against only 13,613 bushels by Sea. The Export of Timber and Sawed Lumber also shows that our Trade with the United States in these Articles is increasing in a rapid ratio, whilst that with England, in the same articles, has apparently seen its maximum, being for the last four years less in the aggregate, than for the two years preceding.

For the course of Prices for the last eight years, we must content ourselves with merely remarking, that the average prices of Breadstuffs and Freight, show a decline year by year, for the last few years—whilst Ashes show a very considerable advance.

In conclusion, we would draw attention to the gratifying evidence of returning prosperity afforded of the value of Bank Stocks since 1843. For instance, in 1849, "Montreal Bank" Stock stood for months at 10 @ 11 discount—it is now worth 104 @ 11 premium; "Commercial" stood for months at 10 discount—it is now worth 2 premium. "City" was as low as 40 discount upon the Reduced Stock—and is now worth 27 discount; "Upper Canada" was at 37 discount—and is now worth 8 discount.

COUNTIES, UPPER CANADA.

The recent Acts affecting the territorial divisions of Upper Canada, are 12 *Vic. Cap. 79*, abolishing Districts, and establishing Counties and Unions; 13 *Vic. Cap. 70*, respecting Essex, Kent and Lambton; 13 *Vic. Cap. 96*, respecting Huron, Perth and Bruce; and the Act of 1851, 14 and 15 *Vic. Cap. 5*, "to make certain alterations in the territorial divisions of Upper Canada." These Acts are given at length, in the third edition of *Scobie's Municipal Manual*, now in the Press. The arrangements of Counties and Unions of Counties on the succeeding pages, are those provided by the Act of 1851, and they take effect on 1st January, 1852. The extent of Townships in acres, and the amount of their population, have been taken from a return laid before Parliament in June last, certified by the Commissioner of Crown Lands, and the Secretary of the Board of Registration and Statistics. The total values of real property, and of taxable personal property in Townships, and their annual values in Cities, Towns and Villages, taken under the provisions of the Assessment Act of 1850, (*vide* page 46), are given, as also the names and Post Office addresses, of various Municipal Officers. These have been made up from Returns which we obtained from the Clerks of the respective Municipalities. While we acknowledge, with thanks, the promptitude with which on application, these were sent to us, we regret that there are several instances, in which no returns have reached us; and probably the parties to whom we applied, and from whom we expected to have obtained them, will now see the bad effects of the omission. The Townships which are divided into Wards, are marked with a *; the Unions of Townships are marked with a ~. Considerable irregularity may be discovered, in the comparative valuations of property in Townships, arising probably out of the conflicting views entertained by different assessors, of the meaning of certain parts of the Assessment Act, and also from the assessed value of vacant or absentee-lands, being included in some of the returns and not in others. This latter discrepancy may be pretty accurately discovered, by contrasting the stated values, with the extent and population of the Townships. The Cities of Toronto, Kingston and Hamilton, are Counties in themselves, for Municipal purposes.

Commencing 1st January, 1852, the Townships composing the County of Bruce, will form one Municipality; also, Ashfield, one; Wawanosh, one; McKillop and Grey, one; Hullet and Morris, one; and Uxborne, one; and steps, one.

There is a reciprocal Free Trade established between Canada, New Brunswick, Nova Scotia, and the Island of Prince Edward, in the articles enumerated in the Tariff, (see page 44), as therein stated. This reciprocity does not extend to Newfoundland.

We hoped to have been able to have given here, not only the Tariffs of, but also a variety of other information, respecting these Provinces. To do so would, we find, extend this Almanac far beyond the limits of a 74d. pamphlet. We fill up the remaining space, with the following condensation, of valuable materials sent us from New Brunswick.

EDUCATIONAL, N. B.

The Provincial Board of Education for New Brunswick, is composed of the Lieutenant Governor and the Executive Council. *Secretary*—John Gregory, Fredericton. *Training Master*—E. H. Duval, St. John.
 THE UNIVERSITY OF KING'S COLLEGE, is established at Fredericton, of which the Queen is Patron, the Lieut. Governor is visitor, the Chief Justice is Chancellor, and the Bishop is President. There is also a Council, composed of distinguished persons. The Convocation comprises the Chancellor, President and Professors, and persons admitted Masters of Arts, or to degrees in Divinity, Law or Medicine. The Professors are—*Principal and Professor of Classical Literature, History, Moral Philosophy and Divinity*—Rev. Edwin Jacob, D. D.; *Mathematics and Natural Philosophy*—Wm. B. Jack, A. M.; *Chemistry and Natural History*—James Robb, M. D.; *Modern Languages*—
 There is a Collegiate School attached to the University, with an efficient staff of Classical and Mathematical Masters.

GRAMMAR SCHOOLS, N. B.—The supervision of the County Grammar Schools in New Brunswick, is vested in Boards of Directors and Trustees, appointed by the Lieut. Governor in Council. There are thirteen of them, from which we have been favoured with returns for 1850. These are situated severally in the Counties of St. John, Charlotte, Northumberland (2), Gloucester, Carleton, Sunbury, King's, Queen's, Restigouche, Albert, Westmoreland, and Kent. The teachers receive £100 a year each, from Government, and fees averaging something over £50; but the teacher at St. John is more amply provided for, his government allowance being £150, and his other emoluments £200; while the second teacher at Northumberland, receives only £50 from Government, with £30 only as his other emoluments. The following abstract statement, relating to these thirteen Grammar Schools, for 1850, will convey some idea of their importance:—

Number of Teachers	13
Emoluments exclusive of Government allowance	£870
Amount drawn from Government	£1300
Number of Scholars	470

PARISH SCHOOLS, N. B.—The general management of

the Parish Schools in New Brunswick, is vested in the Board of Education, composed of the Lieut. Governor and Executive Council. The average number of Schools in the Counties has heretofore been limited to nine for each Parish: but the number may now be increased to thirteen in any Parish, provided the whole number in the County does not exceed the established average. The Government allowance to the teachers, is £30 a year for the first class; £22 for the second; and £18 for the third. The other emoluments range between £20 and £100, the general average being about £30. The following is taken from the Parish School returns of 1850:—

Number of Schools	647
Teachers, Male	455
" Female	102
Scholars, Male	11300
" Female	8730
Amount drawn from Government	£11367

There are besides, in New Brunswick, the following Educational Seminaries, viz: The Wesleyan Academy, Mount Allison, Sackville; the New Brunswick Baptist Education Society; and the Madras School.

UPPER CANADA CLOTHING ESTABLISHMENT.

Messrs. STOVEL & BAINES,

20, KING STREET EAST, TORONTO, AND

158 NEW BOND STREET, LONDON, ENGLAND.

MESSRS. STOVEL & BAINES

HAVE opened this branch of their Establishment at the solicitation of numerous Gentlemen in the Province who have long felt its necessity; it is the only Clothing Establishment in the Province in direct connexion with a European Firm, and will be found to present advantages not to be obtained elsewhere.

Messrs. S. & B. import their own Cloths, and will select their Canadian and London Stock of Fancy Goods in the same Markets, and at the same time they have the facility, and will use it, of obtaining the best Workmanship, and the style of their garments may be inferred from a perusal of the annexed Report, presented to Mr. Stovel by the Board of General Officers appointed by HER MAJESTY for inspecting and regulating the Clothing of her Army. They only feel it needful to say, that the Cutting Department is under his (Mr. Stovel's) superintendance.

Messrs. S. & B. pledge themselves to strive to render their Establishment in Canada all that can be desired; they will make up Canadian manufactured materials in the same style as those imported, and they will always have on hand a supply of the best West of England

CLOTHS, CASSIMERES AND DOESKINS,

As also Fancy Materials of all kinds; but Gentlemen preferring their garments made in London may obtain them from their London House at a very slight additional cost.

Messrs. S. & B. will charge as low as possible for every article, they will reserve to themselves only sufficient profit on their Cash Prices to remunerate them and those they employ for their services; charging those who take Credit the Interest of Capital and their proportion of the loss sustained by a credit system.

Messrs. S. & B. supply every article of

Gentlemen's Clothing;

Civil and Military Uniforms;

**Ladies' Riding Habits; and
Servants' Liveries.**

They will also (as soon as they can obtain convenient premises) keep on hand a small but well assorted

STOCK OF HOSEY,

Selected every Season from the first LONDON HOUSES.

OFFICE FOR MILITARY BOARDS, 20th December.

SIR.—The Committee of the Consolidated Board of General Officers, having had before them the two inclosed letters from Mr. Joseph Stovel, (with memorandums from the Duke of Wellington and the Deputy Adjutant General attached thereto,) together with a pair of Trowsers submitted by Mr. Stovel to exemplify the improvements which he proposes in the cut and make of that garment for the Service of the Cavalry, have deemed it expedient to obtain his personal attendance, and also to see some Trowsers fitted with Overalls made after this Pattern; and they are therefore now in a position to form a decided opinion upon its merits.

The advantages of the proposed Pattern over that at present established, are, that it fits the body neater and better in any position; that, while riding close at the fork, it admits a greater freedom of stride; and that the leg-strap is so placed as to be less exposed to friction by the saddle or by the stirrup-leather. It is found, moreover, on reference to some of the principal Army Clothiers, who admit the proposed Pattern to be an improvement, that these advantages can be obtained without entailing an additional expense upon the Colonel. The Board are therefore enabled to submit, for the consideration of His Grace the COMMANDER-IN-CHIEF, their entire approval of the proposed Pattern, for which, in their opinion, Mr. Stovel deserves much credit; and they have caused a Pair of Overalls to be prepared, of the proper quality, and of a size calculated to fit a man of 5 feet 10 inches in height, (the usual standard of scaled privates,) which they beg to recommend to His Grace to be scaled as the established Pattern, in place of that now deposited in this Office.

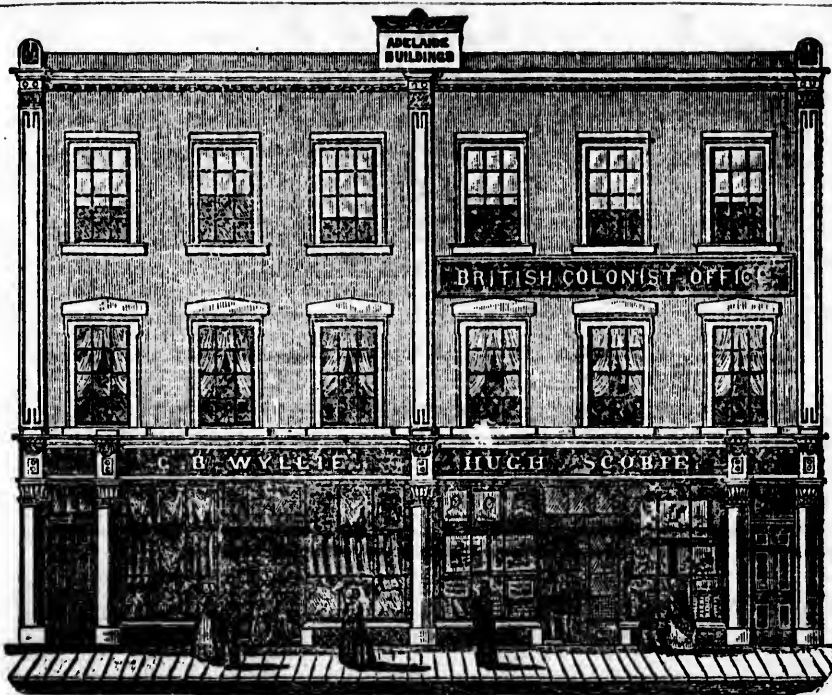

I have the honour to be, &c.,

THE CASTILIAN HAIR INVIGORATOR.

THIS elegant Toilet Preparation is warranted to excel all others ever offered to the public, for Preserving and Restoring the Hair: It prevents or cures *baldness and grey hair*; cures *dandruff and ringworm*; and what is of the highest importance, is, that it is unlike most other Toilet preparations, by being perfectly harmless, yet successful for the purposes recommended. It gives the hair a beautifully soft, smooth and glossy appearance; in this it also differs from other preparations, all of which more or less harden and dry the hair. The Spanish Ladies, so justly famed for beautiful and glossy hair, have used

THE CASTILIAN HAIR INVIGORATOR

for centuries. It causes the hair to retain its original colour to the latest period of life, only making it assume a darker shade if originally very light. *Diseased hair* loosens and falls out or turns grey. The INVIGORATOR removes such disease, and restores the skin and hair to a healthy condition.

SCOBIE'S CANADIAN ALMANAC.

THE CANADIAN ALMANAC for 1852 is the fifth annual issue of the series—the first having been published in the Fall of 1847, for the year 1847. Of that publication there were 15,000 copies printed, which met with ready sale. The next year the edition was enlarged to 20,000, and each year, in consequence of the growing demand, there had to be a corresponding increase in the quantity, until 1852, when the number has reached the large amount of

40,000 COPIES.

The utmost care is taken in the compilation of the Almanac to give information only which is derived from authentic sources. In collecting the materials for the Almanac of 1852 no less than 1,000 Circulars were sent out, and the information got together by this means is now presented in a connected form for the work, which for quantity and variety and cheapness, is not surpassed by any publication in North America.

As an advertiser or medium, the Canadian Almanac presents advantages not to be elsewhere secured. The wide-spread circulation, which an edition of upwards of **40,000 COPIES** insures, is worthy the attention of persons in business, of whatever description; and the prices charged for the insertion of advertisements in the Almanac are less in proportion than the rates usually paid to Newspapers with limited circulations. The following are the Almanac rates for Advertising:

For a whole page, £10 0 0 | For a quarter page, £2 10 0
For a half page, 5 0 0 | For an eighth of a page, 1 5 0

All letters to the publisher must be post-paid. The Almanac for 1852 will be issued on or about 1st Nov., 1852.
