CLOSING DAY AT RANGES 13TH WIN THE GZOWSKI

Team Results in Tait-Brassey Not Yet Known—Armstrong Wins Aggregate.

Long Branch Rifle Ranges, Aug. 24.—(Staff Special)—A young gale trocked on the ranges nearly all day of the last matches of the Ontario Rifle Association this year, but there was remarkable shooting considering the conditions. The Gzowski match, which was the last one, provided the spectacular feature. It is a skirmishing and quick-firing competition, covering nearly all distances on the ranges, and is named after the late Col. Sir Casimir Gzowski. The teams went in two relays and the result showed the 13th Regiment of Hamilton in front, with 44 points. The first team of the Grenadiers was next, followed by the Queen's Own and a tie between the Ottawa Foot Guards and the fifth team of the Grenadiers.

HAMILTON HAPPENINGS ENTRANCE FOR NEW RADIAL OVER THE DUNDAS RAILWAY

Conference Between Companies and City May Lead to Satisfactory Settlement.

Hamilton, Aug. 24.—(Special)—A meeting was held in the mayor's office at noon today between the representatives of the Hamilton and Dundas Railway, the Brantford and Hamilton Railway and the city, to confer regarding the extension of the latter to the southwestern part of the city, who want the Brantford and Hamilton road to come into the city over Dundas street.

Housebreakers Sentenced. Judge Monck today sentenced Michael Davie to a term of twenty-three months and William Blood for three months on charges of housebreaking and theft, preferred by William Thompson, York street. It was Blood's first offence and the judge was lenient with him.

Object to Transfer. The residents in the vicinity of King and Caroline-streets are putting up a vigorous opposition to the license commissioners transferring the hotel license held by T. B. Fairchild, one of the opponents of the transfer is said to have made the statement that he would organize a stock company to build a big hotel in another part of the city if the transfer was not granted.

W. J. Taylor, president of the Woodstock Sentinel-Review, is indignant at the treatment received here yesterday by about five hundred excursionists who came down to take a rail to Toronto. Mr. Taylor says that it took the street railway half an hour to carry the people from the G.T.R. station to the steamboat wharf, and that when they arrived there the boat was gone.

Not a Pauper. The remains of William Shelton, who was buried in a free grave at Hamilton Cemetery yesterday, will be interred in an new grave. He was thought to have been without funds in the city, but it has been learned that he left a will, and appointed Rev. G. Livingstone and Mrs. Argent, Stanford-avenue, as executors.

The funeral of Sister Mary Augusta took place from the House of Providence at Dundas street yesterday. A number of the clergy from this city, were present. Rev. J. J. Craven, of Galt, and Rev. Father Doyle of Freetown.

Mrs. Margaret Althouse of North Crimsby died suddenly to-day after a brief illness of pneumonia. Major Maunsel, government engineer of the militia department, arrived here from a business tour, and is looking into the matter of the junction restraining the Brantford and Hamilton Railway from building their road back to the city at the rifle ranges. It is thought that the matter will be settled satisfactorily.

The Y. M. C. A. annual pentathlon was held this evening at Britannia Park. Jameson secured the highest number of points in the list of events, his total being 322, thus winning the pentathlon. W. Clark was second. The winners each received silver medals, which was the award for all over 200 points.

Decline Invitation to Play the Civil Service. Ottawa, Aug. 24.—(Special)—The civil service bowlers have invited the British lawn bowlers to visit Ottawa, but the tourists have declined.

This is looked upon as a snub, and a well-deserved one at that, for the city council earlier in the season refused patronage of any invitation to the Britshers.

GOURLAY PIANOS
Empire Design

In the early years of the nineteenth century, under the Napoleonic regime, everything in France had a military touch to it, and the victor's wreath of conquest became the keynote of all architectural embellishment.

The Empire Art Piano case is simple, strong, manly. The wreaths that here and there dignify its simplicity mark it as Empire.

An ART GOURLAY in EMPIRE design (as per illustration) will be shown at the Exhibition next week, and the manufacturers bespeak your careful examination.

Other designs to be seen at the Gourelay exhibit are:—

Sheraton, Louis XV., Marie Antoinette,
Louis XIV., Colonial, Old English,
Classic Grecian, Florentine.

Chairman Shaw of Education Board Blames Red Tape.

Chairman Shaw of the board of education is a warm advocate of the free use by the people of all the high and public school grounds throughout the city. Mr. Shaw would also have this apply to the grounds under the control of the city council. The law, as at present enforced, prohibits the use of school lands, except during stated hours, and under certain restrictions, to obtain which requires a trip thru the "circumlocution office."

"There is no necessity for all this," says the chairman. "Let the grounds be placed in charge of some competent officer, to be paid for by the board of education, and let the children be carried out of this procedure now."

"Let the children have the free run of the grounds from 8 or 9 o'clock in the morning to 8 at night."

Queen Alexandra School ground, in the east end, containing about four acres, has been kept closed all summer because the children of Riverdale have been at a loss for playgrounds during the vacation.

Gives 25-Year Franchise.

Goderich, Aug. 24.—The town council has granted a twenty-five year franchise to the children's Gas Company, on condition that \$5000, or half the stock is subscribed locally within three months.

TROOPS DEFEAT HIGHWAYMEN

Accepted Rescue of Revolutionist Robbers is Checkmated.

Warsaw, Aug. 24.—Revolutionists last night attacked the railroad station at Orzowick, killed an employe and escaped with \$400.

The troops arrested eleven suspects, but to-day when the train carrying the prisoners approached Warsaw, fifty armed men stopped it.

Ten soldiers fired on the highwaymen, killing one, and wounding one, and arrested another.

The others fled to a neighboring forest.

In the crowded waiting room of the railroad station at Smolka, five men armed with revolvers attacked the station master to-day. Three bombs were exploded, and a number of persons were injured, but not fatally. The brigands got off with \$350.

The superintendent of a factory belonging to M. Sabinsky, a member of the council of the empire, was way-laid and robbed of \$5000 to-day.

SAPPERS MUTINY.

Odesa, Aug. 24.—The eleventh and twelfth Sapper Battalions encamped at Morozovka, near Odesa, mutinied last night.

They met and passed a resolution not to fire on the revolutionists if called upon.

Officers of the battalions who tried to break up the meeting were beaten by the soldiers.

Odesa, Aug. 24.—Robberies and murders having become more frequent here, the citizens have petitioned the government to double the police force and compel every proprietor of a house to maintain three instead of one armed porter.

Bishop Mills at St. Paul's.

The Right Rev. Dr. Mills, Bishop of Ontario, will preach in St. Paul's Church (Anglican), East Toronto, to-morrow morning, and the rector, Rev. Canon Cody, M. A., D. D., in the evening.

CANADIAN LABOR TO ORGANIZE

Discontent With U.S. Federation May Lead to Separation.

St. John, N.B., Aug. 24.—A movement among a section of Canadian trade union men to build up a strong labor organization in this country, independent of the American Federation of Labor, has reached the stage where it is expected definite action will be taken.

Next month a body known as the National Trades Congress will meet in this city for the purpose of arranging a definite program for an active campaign, leading to the complete freedom of Canadian labor unions from the control of the American Federation of Labor.

Some time ago a number of the Canadian unions severed their connection with the federation and inaugurated a campaign in the interest of establishing a strictly Canadian organization. Many of the local unions are still affiliated with the American Federation, and are obliged to pay assessments and contribute to that body. For some time there has been dissatisfaction with international unions, and Canadian labor organizations have been divided on the issue.

The National Trades Congress is strongly opposed to international unions, and it is expected that the effect of any action it may take will have on the unions not identified with it.

WERE ARTISTS OSTRACIZED?

Complaint Made and Denied That Pictures Were Behanded.

There is some dissatisfaction among a few artists and their friends in the gallery at the exhibition. Comment heard yesterday was in these terms:

"It should be more than a small local exhibition, and every Canadian artist should be represented in the collection. No artist, whatever his views on other matters, should be boycotted or prevented from exhibiting."

"The strained relations that often exist among men in the professions should not in any measure prevent their pictures from being hung in the gallery. Manager Orr should see that justice is done, and that no artist is subjected to the order of professional ostracism."

To the World, John A. Cooper, chairman of the art section, said that he was not present when the choice of exhibits was made, but that some twenty-five names were rejected. "Pictures were not got aside on account of any animosity that I know of," he said, "but simply because they did not come up to the standard set by the committee, like many of the pictures entered. That is all."

Chairman Shaw of Education Board Blames Red Tape.

Chairman Shaw of the board of education is a warm advocate of the free use by the people of all the high and public school grounds throughout the city. Mr. Shaw would also have this apply to the grounds under the control of the city council. The law, as at present enforced, prohibits the use of school lands, except during stated hours, and under certain restrictions, to obtain which requires a trip thru the "circumlocution office."

"There is no necessity for all this," says the chairman. "Let the grounds be placed in charge of some competent officer, to be paid for by the board of education, and let the children be carried out of this procedure now."

"Let the children have the free run of the grounds from 8 or 9 o'clock in the morning to 8 at night."

Queen Alexandra School ground, in the east end, containing about four acres, has been kept closed all summer because the children of Riverdale have been at a loss for playgrounds during the vacation.

Gives 25-Year Franchise.

Goderich, Aug. 24.—The town council has granted a twenty-five year franchise to the children's Gas Company, on condition that \$5000, or half the stock is subscribed locally within three months.

FIVE MORE MEMBERS.

Alberta and Saskatchewan Entitled by Population.

Ottawa, Aug. 24.—There is little doubt the representation of Alberta and Saskatchewan in the house of commons will be raised from five members each to ten each, on a charge of having the census which is now being taken will show the population has increased to such an extent that the above arrangement of representation must be made under the acts by which Alberta and Saskatchewan were given provincial autonomy.

TEMISKAMING AND NORTHERN ONTARIO RAILWAY COMMISSION

TENDERS FOR MINING LEASES.

Sealed tenders, addressed to the undersigned, and endorsed, respectively, "Tender for Mining Lease, Northwest Port Hope," and "Tender for Mining Lease, Northeast Port Hope," will be received at the office of the Commission, 25 Toronto-street, Toronto, 27th, 1906, for the following mining leases:

(a) That portion of the right-of-way of the Temiskaming & Northern Ontario Railway lying north of Cobalt Lake and east of the regular right-of-way, together with 228 1/2 acres of land, more or less, north of prospect and mine on the following two portions of the right-of-way:

(1) Between mile-ages 101 and the intersection of the right-of-way with the southerly shore of an arm of Cobalt Lake, being 128 1/2 acres, more or less, north of mile-ages 102.

(2) Between the intersection of the right-of-way and the northerly shore of Cobalt Lake, being 440 feet, more or less, north of mile-ages 108 to mile-ages 109.

Terms of lease and agreement provide for a rental of \$50 per annum, plus a royalty of 25 per cent. of the gross value at the mouth of the mine of all ore mined.

An accepted cheque on a chartered bank of Canada, payable to the order of the Chairman and Secretary-Treasurer of the Commission, for the amount of cash bonus (which must not be less than \$20,000), tendered for such lease, must accompany each tender.

That portion of the town site of Cobalt, in the District of Nipissing, known as the northwest 40 acres, more or less.

Terms of lease and agreement provide for a royalty of 10 per cent. of the value at the mouth of the mine of ore mined assaying 50 per ton or less; 25 per cent. of the value at the mouth of the mine of ore mined assaying more than 50 per ton, and not exceeding \$1000 per ton, and 50 per cent. of the value at the mouth of the mine of ore mined assaying over \$1000 per ton.

An accepted cheque on a chartered bank of Canada, payable to the order of the Chairman and Secretary-Treasurer of the Commission, for the amount of cash bonus (which must not be less than \$20,000), tendered for such lease, must accompany each tender.

Forms of tender, copies of proposed leases, and full information may be obtained and plans showing location in respect to all parcels, may be examined at the said Toronto office of the Commission.

Tenders should be made on the forms supplied by the Commission for the purpose, and signed with the actual signatures of the parties tendering.

In each case the party whose tender is accepted will be required to enter promptly into a formal lease and agreement with the Commission, failing which his deposit will be absolutely forfeited to the Commission.

The cheques sent in by unsuccessful tenderers will be returned to them.

The Commission does not bind itself to accept the highest or any tender.

H. W. PEARSON,
Secretary-Treasurer.

CUBA---THE LA... OF SUNSHINE

CANADA-CUBA LAND AND FRUIT COMPANY, Limited

TO THE CAPITALIST.

Absolute security. Land that will in two years be worth five times the present price.

TO THE MERCHANT.

If your business or health fails a plantation will give you a handsome return. No laborious work in a climate of perpetual June.

TO THE WORKINGMAN.

An easy way of procuring a home. A future that cannot be obtained elsewhere. Don't fail to write or call. Every information freely given.

The heat in Cuba is never so oppressive as it has been the past week in Toronto. Visitors to the Exhibition should call and see us, when all information will be cheerfully given and literature supplied.

If the United States assumes the government of Cuba, in six months' time not a foot of fruit land will be sold for less than \$200 per acre.

Upwards of 200 people intend to leave for our property during September to make their home amongst numbers, who are already on their Plantations and who give most encouraging reports. It is necessary to purchase now to have your Plantation ready for this winter's crop.

This Company will undertake to have your plantation cleared, plowed and planted at the mere cost of trees and labor, thus ensuring you a permanent home for the future. No investment is more profitable or so sure as an orange plantation. Trees bear for over one hundred years. Good returns can be made by growing all kinds of vegetables and small fruits (between the rows of orange and other trees), which can be shipped to Havana, New York and Canada during winter months, when everything commands the highest prices.

Bear in mind all citrus fruit land must be a light sandy loam soil; this is the experience of all citrus fruit growers; so many inexperienced judge the light soil of Cuba falsely. We undertake to locate for all our purchasers and will get them expert reports on their location and give them the privilege of exchanging the same into any part of our property so set apart and not already sold. We give you every acre free from swamp or rock. Any low lands are not charged for. You can't get any better or fairer contract than this.

THE BEST PRACTICAL ORANGE AND OTHER FRUIT GROWERS, WHO HAVE PURCHASED FROM OUR COMPANY, SELECT THE LIGHTEST OF OUR LANDS AND CLAIM THEM TO BE THE FINEST LAND TO BE FOUND IN CUBA FOR ALL CITRUS FRUITS.

GEO. F. DAVIS, MANAGING DIRECTOR. Head Office: 24 King St. West, Toronto.

NEXT WEEK AT THE THEATRES

Reopening of the Princess Will Reveal What is Practically a New House of Real Grandeur--"Yankee Consul," "Buster Brown," Vaudeville and Burlesque.

What should prove the most interesting event of the local theatrical season is the reopening of the Princess Theatre on Monday night. First because it will disclose to view what is practically a new theatre, and one of the handsomest in America. Secondly, because the most important comic opera production ever made outside of New York City will be presented for the first time on any stage at the Princess Monday night, and lastly, because B. C. Whitney, the owner of the Princess Theatre, whose name for a good many years has been synonymous with all that was best in theatricals at Toronto play houses, is making the production and presenting Adin E. Henshaw, the popular comedian in the star part.

Miss Alice York, the Toronto prima donna, who will be seen with Mr. John E. Henshaw in "Captain Careless," Mr. B. C. Whitney's big production, at the Princess Theatre on Monday evening.

ed view of the stage is not obtainable. By the rearrangement of the floor plan the seating capacity is increased by about 300; at the same time wider space between the seats is provided. A heavy cork covers the entire floor and muffles the noise of entrance. The ornamentation and lighting effect of the immense dome in the new roof will be the object of much admiration.

The company engaged to support Mr. Henshaw in "Captain Careless," numbers eighty people; and there are twenty-four singing and speaking parts in the opera. Among those whose names are familiar to the majority of theatre patrons are Alice York, May Ten Brock, Forrest Huff, Effreda Busing, Sol Solomon, Frances Golden, Harry Lane, Kathryn Bessford, Walter Warr, and The Five Sisters. The company will arrive here by special train over the Grand Trunk Sunday afternoon from Detroit, where they have been rehearsing for the past three weeks.

That mythical prank-player, Buster Brown, will cut up his dices on the stage of the Majestic all next week with a matinee every day. This time Buster and his dog, Tige, will be seen in an entirely new and up-to-date version called "Buster Brown's Holiday."

It is said that his spicy jungle of moriment promises a greater success than the theatre-going than did its companion piece of last season. The forthcoming performance has new scenery and costumes.

ISABEL CARROLL in "The Yankee Consul" at the Grand Next Week.

Heading the bill at Shea's Theatre next week will be John W. World and Mindell Kingston, who have just returned from a tour of the world. Their singing and dancing sketch has been greatly improved since their last visit. Miss Kingston, who is known as the sourest, with the grand opera-voice, has a number of new songs. Hugh Stanton and Florence Modena are presenting a comedy pantomime act entitled "The Reformation" as a special attraction. Zazel Vernon & Co. have an original comedy pantomime act, entitled "The Reformation"; Stealy, Doty & Coe are singing and musical comedians of the best order and are new here. The "Real Hebrews" are Howel and Scott, who call themselves "Chatterologists," and they are provided with some of the best parodies of the season. The Balzers are European acrobats, and will play their first engagement in the country at Shea's next week. The troupe will close the bill with "How the Office Boy Saw the Ball Game."

In "The Yankee Consul," the opening attraction at the Grand, John P. Stocum offers his very best, and the success the opera has enjoyed during extended engagements in New York, Boston, Philadelphia and Chicago presages.

CASTORIA For Infants and Children. The Kind You Have Always Bought. Bears the Signature of Dr. J. C. Watson.

a repetition of his success in this city. There are songs hits without number, and no more desirable concert has been offered to a discriminating public than "In the Days of Old," "Ain't It Funny," "What a Difference Just a Few Hours Make," "In Old New York," and "When the Hammers Go Rap, Rap."

ISABEL CARROLL in "The Yankee Consul" at the Grand Next Week.

San Francisco, Aug. 24.--Southern Pacific officials state that the Salton Sea, in the Colorado desert, is rising less than an inch a day now, and they expect in a few weeks to begin work on a plan by which the Colorado River will be once again restored to its old channel. This will probably cost the company \$700,000. Engineers say that once the river is sent back into its old channel, the water in the so-called Salton Sea, notwithstanding it is thirty feet deep in many places, will, thru percolation and rapid evaporation under the terrific heat of the desert, all disappear within two or three years.

Great Specialists in Stomach Catarrh

Though often they fall to give even temporary relief, Mr. W. Seymour of Huntsville, Ont., cured himself with Ferreroze. "My trouble," he says, "was chronic catarrh of the stomach. There was constant bad taste in my mouth. I was constipated and usually nauseated before and after meals. I also had a gnawing sensation in the stomach. Ferreroze gave me great relief, and I also used Catarrhose, which is good for catarrh. Although it took a number of boxes of Ferreroze, I got back my health and to-day am quite well." For stomach catarrh, indigestion and kindred disorders nothing excels Ferreroze. In a thousand cases it has proved a wonderful success. Try it yourself, 50c per box at all dealers.

CLOSING OF THE D. M. A. CONVENTION BEST EVER

Nearly 2000 Delegates Registered—Two Points Emphasized by the Gathering.

Only one or two previous meetings of the British Medical Association have exceeded the present one in point of attendance, and that only to a slight degree, while, considering that those had been held in London, the present gathering beats all records.

Yesterday afternoon, when the registration lists were closed, nearly 2000 names had been enrolled, and the ladies who accompanied their relatives are estimated to bring the number up to not less than 3000. The Toronto meeting is, therefore, legitimately considered to be of a record-breaking character in this respect.

In other directions, little has been left to be desired. The weather was for the most part extremely trying to the British visitors, but such assistance in removing the idea in England that Canada is a desolate waste, in the frigid zone, that those who go to the heat will not be in vain. Since the equinox on Thursday they had an opportunity of seeing the best of the summer weather, and they appreciated it.

The main object of the meeting, however, was not attendance, nor was it the great aims of science and philosophy. In this respect the general testimony was to the high character of the papers and addresses, and the valuable nature of the subsequent discussions. It was frequently observed that, although the arrangements were most complete and satisfactory, seating and accommodation was constantly taxed.

The extraordinary conservatism of the whole British profession renders it almost impossible to obtain any expression of opinion of a comparative nature, but a few points have been emphasized, and indicate a tendency of professional interest. One of these is in regard to cancer. On this subject the incalculable loss made from time to time by members of the profession in the United States have been usually observed, and it was frequently observed that, although the arrangements were most complete and satisfactory, seating and accommodation was constantly taxed.

The use of alcohol. On several occasions during the meeting the use of alcohol as a drug was the subject of discussion. There is an undoubted difference of opinion on this point. There was no difference on its use as a beverage. Dr. Rose Bradford's summing up of the arguments advanced in the section on therapeutics yesterday morning indicated the preponderance of medical opinion upon its value as a therapeutic agent. Physiologists thought that in certain cases it should never be used in routine fashion, but that in symptomatic treatment, it was useful in entering to procure sleep when given for this purpose, and in the given moment. In delirium tremens very few would use it, and personally.

In diseases indirectly due to alcoholism, alcoholic hepatitis being a example, it might be of service. It was a dangerous disease, and in convalescence, and he described the habit of prescribing wine to those recovering from disease as a most mischievous practice, and that the profession had a great responsibility. The many illustrious men who take these views justify the conclusions advanced by one of their leaders the other day that until a definite value is demonstrated in alcohol as a therapeutic agent, the profession will hold its head in exhibiting it.

The enterprise of the British Medical Journal in issuing a special Toronto number with the three great addresses of the meeting, should be commended. Dr. Barr, Sir Victor Horsley, and Dr. W. S. A. Griffith, the masters in medicine, surgery, and obstetrics respectively, and their papers, while technical interest only to the public mind, meeting with signal distinction. The general prevalence of the minor papers read in the sections was a subject of comment.

The work of the meeting closed yesterday with the adjournment of the evening session. There was no formal closing ceremony. The association takes its resolutions and votes of thanks quite seriously, and these will be passed upon by the council of the association at its next regular meeting in London, according to custom. Toronto has still to congratulate herself in having the president of the association as one of her own residents, and should some more of his fellow citizens than already know him learn to recognize Dr. Ross's unassuming but distinguished merits the effect will be good.

The hospitalities of the city have been dispensed with a lavish hand, and it is pleasant to know that the British visitors feel that they have been made welcome, and that they have given ungrudging expression to their satisfaction and delight. Canada, in general, and Toronto, in particular, will stand higher in the estimation of the old land—the mother country, as Sir William Broadbent hoped to be known, and that also for the knowledge gained of our scholars and of the field of their labor.

ATTITUDE OF DOMINION NOT ONE TO BE PROUD OF

Glasgow Herald Despairs of Canada's Adhesion to Empire to Say Nothing of Paying for Navy.

(Canadian Associated Press Cable.) London, Aug. 24.—The Glasgow Herald, in a lengthy editorial on imperial defence, refers to the speeches of Sir Wilfrid Laurier and Earl Grey at Quebec and says: "It is quite clear the Dominion is not prepared with an offer."

Further on the Herald says: "The point is that the sensitiveness of the Dominion government with regard to the problem of imperial defence has been reckoned with when we collate the sentiment with the want of cash and the Monroe doctrine. We are inclined to despair of Canada's permanent adhesion to the empire, not to speak of its contribution to our far-flung battle line. If the navy is necessary for the preservation of the separate existence of the Dominion the attitude of its representative government is not one it can be proud of from our point of view. It poses as a nation particularly vis-a-vis of the United States at the expense of our feet."

In the state medical section, Dr. Bryce contributed a paper on certain immigration problems of sanitation. The practical co-operation of the United States and Britain had brought desirable results.

Jennie Drennan, M. D., St. Thomas, read a paper on "State Health." She thought health inspectors should not be asked to, but should do things on their own initiative. Only certain trained men should be allowed to practice medicine, and they should spend one year in the home, and then in hospitals to keep abreast of the times.

Dr. A. McGill of the inland revenue department read a paper on "Food Preservers." Most of our food preservatives—sugar, salt, wood, smoke and alcohol—were comparatively harmless, but rigid regulation was now necessary with the new means employed.

H. L. E. Johnson, M. D., secretary of the American Medical Association, read a paper on "National Supervision and Standardization of Foods." Publicity was the great remedy for adulteration. Pure food was of equal importance with good government, and urged international co-operation in standardization.

In the section of dermatology, Dr. L. D. Bulkeley advocated milk as a drink. It can be absorbed directly into the system, taken quite alone, and heated to 100 degrees temperature, but not boiled. The best time to take it is an hour before meals. The result is an hour's rest, and an hour's rest is an hour's rest. Taken in the ordinary way, milk often affects the liver, but, as he recommends, will clear the skin.

In the section of medicine in the discussion of Dr. F. J. Smith's paper on typhoid fever, Dr. Thomas Barlow, a pathologist, surprised many by advocating a more generous diet during convalescence, taking care, however, to avoid risks with solid foods.

Tests for Pilots. The section of ophthalmology brought out a paper by Dr. C. G. de Quoy, a paper on testing the eyes of pilots. As officials of the department they were reticent about submitting to the tests. The impression that a more stringent examination was required.

Dr. Chas. H. Williams, Boston, on a similar subject, gave many illustrations of railway practice in slight examination with figures of results. He stated that the effect of alcohol on the eyes was not injurious in the experience of railway firemen. Drivers of motor cars should be required to submit to the same tests as railway men, since they go at a speed often equalling that of a railway train.

DODD'S KIDNEY PILLS. CURES RHEUMATISM, BRUISES, BACKACHE, GRAVEL, NEURALGIA, MIGRAINE, SCIATICA, GOUT, CALCULI, AND ALL AFFECTIONS OF THE URINARY SYSTEM. Sold only in bottles.

WHO'LL RUN IN CARDWELL? THREE THOUSAND DOLLAR CANADIAN PIANO

A Magnificent Gold Laid Piano, Purchased by the Hon. S. N. Parent, Ex-Premier of Quebec.

Amid the keenest competition of leading piano manufacturers of the United States and Canada, the order was given the old firm of Heintzman & Co. of Toronto, a few weeks since, by the Hon. S. N. Parent, ex-Premier of Quebec, and now chairman of the transcontinental railway commission, for a magnificent parlor grand piano. The piano is finished in gold; the body of the piano in mahogany, and the burnings are of the most beautiful quality.

Further on the Herald says: "The point is that the sensitiveness of the Dominion government with regard to the problem of imperial defence has been reckoned with when we collate the sentiment with the want of cash and the Monroe doctrine. We are inclined to despair of Canada's permanent adhesion to the empire, not to speak of its contribution to our far-flung battle line. Visited Exhibition Grounds. The parks and gardens committee yesterday made its annual jaunt to the exhibition grounds. The committee was accompanied by W. K. McNaught, M. L. A., and ex-president of the show; W. K. George, vice-president; Mayor Coatsworth, Park Commissioner Chambers, Ald. Dr. Hawkins, Halifax, N.S.; Charles Relfor Jr., secretary of the board of education, Pittsburgh, Pa.; A. J. Dunn, Edward Hanlan, Commissioner of the National Board of Health, and J. M. Jones, the hustling secretary of the committee.

Smoke Causes Wreck. Sugar Laden Ship Runs Ashore on British Columbia Coast. Victoria, B. C., Aug. 24.—(Special.)—A bush fire, raging both on Vancouver Island, the smaller islands of the Gulf of Georgia and the adjacent mainland, are working incalculable loss in timber and rendering navigation difficult. The worst line steamship, "Kwickenauk," of the British Columbia Navigation Company, was wrecked on the coast of the Gulf of Georgia, near the mouth of the Fraser River, on the morning of the 23rd inst. The ship was carrying a cargo of sugar, and was bound for Seattle, Wash. The vessel was driven ashore by a heavy sea, and was wrecked on the rocks. The crew and passengers were rescued, but the cargo was lost.

Drifted Dredge Deceived. R.C.Y.C. Many of the island dwellers were unable to reach their homes, so Mr. Gooderham opened his premises as a public thoroughfare. Contractor Brown also lost a dredge in the eastern gap at a loss of \$5000.

Work for Railway Board. The Ontario railway and municipal board have agreed to "Citizen" Brown's proposal to proceed with his case before the board without any notifying the Toronto Railway Company.

Penalty Writs Called Off. No More Will Be Issued—City Hall Notes. Corporation Council Fullerton has decided that no good can be gained by continuing to issue the "penalty" writs against the Street Railway. Those now issued total about \$75,000, and will be fought out. When the city's application comes before the railway commission the company will contend that the body has no right to deal with it, as the matters in dispute are already in litigation. If this contention holds good it simply means that the city will have to submit to the slow process of law. The Grand Jury has already agreed to pay one-third the cost of the York street bridge, about \$60,000.

How uneven soles stoop the back. How uneven soles cause bow-legs. How uneven soles cause knock-knees. Foot-rite makes legs straight from hip to toe.

A locomotive that bumps along on an uneven track soon bumps into deformity and loses its power to pace the steel highway with ease, style and fleetness. A man who treads an uneven heel and sole is jolting along on a track that's certain to stoop his shoulders, swell his knees and ankles and bend them in or out, producing permanent knock-knees or bow-legs and feeble ankles. (See first three illustrations.) The unevenness of the heel and sole bends the shoulders forward; stretches the muscles and wears off the knee and ankle bearings until they cause inward or outward inclination of the legs and convert the smooth, careless, athletic gait of youth into a slouchy, awkward, lumbering stumble. Foot-rite is built with a Plumb-Line Level Heel and Sole—level as a plumb-line from rear of heel to tip of toe and just as level from side to side. Unless hopelessly deformed, the Foot-rite Plumb-Line Level Heel and Sole will keep the back erect and line up the legs as straight as a straight edge from hip to toe, as per fourth illustration above. There never was a successful runner, long walker, graceful carriage, nor smart hanging pair of trousers without straight legs. The Foot-rite retailer in your town's a clever shoe man and his door swings inward but never outward to find a more welcome store. His name's below. He'll show you the Foot-rite Plumb-Line Level Heel and Sole which gives erect backs, straight legs, ease of carriage, fleetness of foot and handsome hanging trousers. Anywhere in America, Canada or Great Britain—\$4.00 and \$5.00. Every pair Goodyear Welted.

CANADA'S FIRST DUTY.

London Globe Says Railways Must Not Be Postponed.

London, Aug. 24.—Referring to Earl Grey's saying that the first duty of Canada to the empire is that she herself should first be strong, the Globe says that the railway schemes for crossing the Dominion cannot be postponed whatever else may come.

Heart Disease RELIEVED IN 30 MINUTES

Dr. Agnew's Heart Cure is the Mystic Remedy.

This remarkable preparation gives perfect relief in 30 minutes in all cases of organic or sympathetic heart disease and speedily effects a cure. It is a magic remedy for palpitation, shortness of breath, smothering spells, pain in left side and all symptoms of a diseased heart. It also strengthens the nerves and cures stomach disorders.

Dr. Agnew's Liver Pills are the best.

There are signs, it points out, that the Pacific Ocean will be the scene of the next great international conflict, and that it depends on our ability to concentrate the whole force of the empire in these seas at a critical moment whether we emerge victorious or not.

DISCOVERS NEW COMET.

Heidelberg Professor Saw It Wednesday Night Thru Telescope.

Cambridge, Mass., Aug. 24.—A cablegram has been received at the Harvard College observatory from Prof. Kreutz, at the Kiel Observatory, announcing that a comet, visible thru a small telescope, was discovered by Prof. Kopff at Heidelberg University, Aug. 22. 571 Greenwich mean time (Wednesday evening in eastern standard time) in right ascension 22 hours 49 minutes 22 seconds, and declination plus 10 degrees 23 minutes.

The daily motion in right ascension was given as minus 40 minutes 44 seconds, and in declination plus no degrees and 2 minutes.

Edward Barton, bass of the Sherbrook Male Quartet, will sing at both services Sunday at the Cowan-avenue Presbyterian Church.

TWO SLIGHT SHOCKS.

Rain Increases Suffering of Valparaiso Victims—Epidemic Feared.

Valparaiso, Aug. 24.—(3 a.m.)—There were two slight earth shocks here last night.

Rain began falling again this morning, increasing the sufferings of the thousands who are living in tents.

Many of them sought refuge from the rain in houses whose walls are in a dangerous state of ruin.

It is believed that if the rain continues much longer a serious epidemic is sure to break out here.

About 10,000 workmen are employed in clearing away the ruins here and in searching for the bodies of those who lost their lives during the recent earthquake and fire.

In the ruins of a house to-day workmen found a child alive, in a barrel, which had protected it from harm.

The sale of articles of food by merchants here is strictly supervised by the city and government officials, in order to prevent any abuses in the direction of increases in prices.

Merchants detected in the act of selling food above the fixed prices are compelled to close their stores.

In addition to money received here from various parts of Chile for the relief of the sufferers, \$35,000 has been received from San Francisco, California.

The government of Chile, in reply to cable messages received from Chilians abroad, offering to collect funds for the relief of the sufferers, has thanked them but has not given them any authorization to collect money in the name of the government, as Chile has sufficient resources to care for the homeless.

Suggestions have been made that the site of Valparaiso be changed, but President-elect Montt, to-day declared that in his opinion the city should be reconstructed where its ruins now stand.

A committee composed of engineers has been appointed to examine all the buildings now standing, and to report upon their condition, so that those which are in a dangerous state may be pulled down.

SHOOT 150 ROBBERS.

Santiago, Chile, Aug. 23.—(10 p. m.)—(Delayed in transmission.)—The news received here from Valparaiso continues to confirm the worst impressions formed of the situation there.

As a result of the strong measures taken to preserve order, at least 150 robbers have already been shot.

Bodies are still being taken out of the ruins and thus far about 700 have been buried.

It is said that an epidemic is almost certain to occur at Valparaiso as a result of the unsanitary conditions existing there.

The houses here are being more and more damaged by the continuing rains. In addition to the one which occurred at about 10 o'clock this evening, there was another shock this morning.

Business Failures.

New York, Aug. 24.—R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say:

Failures this week numbered 167 in the United States against 190 last year and 34 in Canada compared with 27 a year ago.

GUARDS BAND AT QUEBEC EVOKES GREAT APPLAUSE

Expert Musicians Declare It Equal of Any Band That Has Visited Us.

Quebec, Aug. 24.—(Special.)—The 2nd Life Guards Band gave two concerts in the Auditorium here to-day and made a decided hit, arousing the house on each occasion to a really extraordinary pitch of enthusiasm. Encores were generously demanded and generously given. Bandmaster Lieutenant Hall's arrangement of "Killarney" and "Bedelia" forming two of these epicoes and eliciting ringing applause.

When the late Sir Arthur Sullivan thanked the band for the way in which they performed selections from his works, it was not difficult to understand that the band well-deserved such recognition.

Several expert musicians here enthusiastically declared that the band was easily the equal of any we have had, and in some respects superior. The band is especially good in the brass division, while the conductor makes admirable use of the wood wind instruments.

Probably the piccolo player, who is a real wizard in his playing, is the best ever heard in Canada. He created a furore in the afternoon with a morceau from "Demare," and again in the evening with "Les Echos Du Bois," by the same composer.

The solo cornetist, Corp. Herman, is also a star, and the equal of any Canadianians have been privileged to hear in the four great British military bands that have recently visited these shores. The men do not belie the promise of handiwork, for they are an exceptionally impressive selection, and in their bright scarlet uniforms present a most attractive appearance.

Samuel Northey, who heard them on the boat crossing the Atlantic, declared they were a splendid band, and the audiences to-day emphatically confirmed that opinion.

A MOTHER'S STORY.

She Tells How Dr. Williams' Pink Pills Saved Her Daughter.

Anaemia is the doctor's name for bloodlessness. It is an ailment that affects almost every one of our people. Womanhood makes new demands upon her blood supply that she cannot meet. Month after month her strength, her very life, are being drained away. No food and no care can do her any good. No common medicine can help her. She needs new blood. New blood is the one thing—the only thing—that can make a healthy woman of her. Dr. Williams' Pink Pills actually make new blood. That is why they never fail to cure anaemia. That is how they save from an early grave scores of young girls whose health and strength depend upon their blood supply.

Mrs. Anson Clark, Argon, Ont., says: "Dr. Williams' Pink Pills have been a great blessing in my family, as two of my daughters have used them with marked success. When my eldest daughter was about seventeen she began to fail in health. Her blood seemed to have been turned to water. She was troubled with headaches and dizziness; the least exertion would cause her heart to palpitate violently and she could not walk up stairs without stopping to rest. She doctored for upwards of a year and the doctor said she did not have as much blood in her body as an ordinarily healthy person would have in one arm. The doctor said that did not do a particle of good. She seemed slowly fading away. Then she became afflicted with salt rheum and her hands were almost raw. About this time a neighbor advised the use of Dr. Williams' Pink Pills and she began taking the pills until she had used thirteen boxes, when she was as well and strong as ever. Every trace of both the anaemia and salt rheum had disappeared and she has since enjoyed the best of health. Later on my youngest daughter, aged fifteen, began to lose her health, but thanks to our experience with Dr. Williams' Pink Pills we knew where to look for a cure, and after using four boxes of pills she was all right again. I have also used the pills myself for nervous troubles with complete success."

Rich red blood is the secret of health—Dr. Williams' Pink Pills is the secret of rich red blood. They actually make rich red blood, that is why they cure anaemia, headaches and backaches, indigestion, nervous prostration, heart palpitation, neuritis, rheumatism, sciatica, St. Vitus' Dance and numerous other ailments that make the lives of so many women and growing girls miserable. Sold by all medicine dealers or by mail at 50 cents per box or \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

ROCKY'S GOLD REFUSED.

Oil King Offered Russia \$100,000,000 for Concession.

Paris, Aug. 24.—Referring to the question of changes in the Russian State Bank, the correspondent of The Temps at St. Petersburg, asserts that Mr. Rockefeller, at the beginning of the year, offered Count Witte to advance Russia \$100,000,000 in gold in return for a concession to build the Baltic-Black Sea Canal.

The Russian financiers refused to accept the offer, and Count Witte then planned a transformation of the Russian State Bank into a private institution, the government taking over the present deposit of 600,000,000 of roubles in gold, which would be replaced by subscribed capital.

THE EXTRAORDINARY DURABILITY OF GERHARD HEINTZMAN PIANOS

A large piano dealer in Western Ontario writes of the Gerhard Heintzman Piano as follows:

"We have been using a Gerhard Heintzman Piano for the past four years for concert work and country entertainments. We feel that in saying the piano has been moved over four hundred times we are not going beyond the mark. Open air concerts on damp foggy nights are certainly hard on pianos, and unless properly constructed cannot possibly stand the test. It is this piano that has given us such great confidence in the Gerhard Heintzman instrument. We have sold most of the high-grade pianos made in Canada, and can conscientiously recommend the Gerhard Heintzman as the very best in the Dominion."

All our instruments are constructed on the same principle, and the great reputation the Gerhard Heintzman pianos enjoy has been gained through the years of satisfaction given by the instruments both in public and private, and the adamant principle of the founder of the Gerhard Heintzman Piano to produce the highest grade possible at all times. A Gerhard Heintzman may cost you a little more in the beginning, but it is by far the cheapest piano in the end. Can be purchased on easy terms. Old instruments taken in exchange. Don't fail to see our display at Canada's National Exhibition and at our City Warerooms, 97 Yonge St., Toronto.

HOTEL MEN PETITION.

Ask Permission to Sell Liquors to Guests After Hours.

At the regular monthly meeting of the license commissioners yesterday afternoon a deputation of the principal downtown hotel keepers applied to the board for permission to sell liquors to guests after the regular hours. No ruling on the subject was given.

The application for a transfer of the license of Campbell's English Chop House at 33 West King-street to J. J. Duran was granted by the board, as was also the transfer of the Royal Oak Hotel license, 233 Yonge-street, from James Robertson to Harry W. Burns.

Steal Horse and Rig.

St. Catharines, Aug. 24.—Lorne K. Collidge of Buffalo and Robert Hardy of Picton were sent up for trial by Magistrate Comfort this morning, charged with stealing a horse and buggy from John Eberhart, a Buffalo liveryman, last week. They were arrested at Beamsville.

BESSES O' TH' BARN.

Engagement of This Famous Barn Drawing to a Close at Hanlan's.

The engagement of England's champion band, "The Royal Besses of th' Barn," is drawing to a close at Hanlan's Point. Special programs for this afternoon and evening have been arranged. Those who heard the band were delighted, and those who have not should take advantage of these last opportunities.

This afternoon Starling Stewart will make another of his thrilling trips to the clouds, and driving thru space.

WHY ELECTRICITY CURES AND DRUGS FAIL

Drugs Cure Acute Diseases, But Fail to Cure Chronic Troubles.

Drugs cure acute diseases because the latter are of poisonous origin, and the poison in drugs counteracts or neutralizes the poison in the body. They fail to cure chronic diseases, as you know who have tried them. Chronic ailments are caused by depletion of the nerve tissues, lack of recreation, of fresh air and of exercise, the non-assimilation of food, and often by excesses in eating, drinking and numerous other excesses and violations of the laws of Nature, which result in weakness of the various organs of the human body. It goes without saying that the taking of poison into the body will not, cannot cure these conditions, for poisons do not give nourishment. What must be the means of cure? It certainly must be something which replaces and reinstates the lost or wasted vitality. It must be a natural element of the body, not an unnatural one. No one will claim that poisons are natural elements of the human body, for it revolts every time they are taken.

An experience of more than 20 years with drugs and Electricity has confirmed us in the belief, until it has become fully grounded knowledge that electricity alone, without any other material aid, will replace and renew lost energy and vitality. Thousands of grateful letters from cured people tell us that drugs failed to cure and that Electricity as given by

Dr. McLaughlin's Electric Belt is the only successful means of cure.

These people will tell you they have been cured by this Belt of weakness, nervousness, backache, rheumatism, sciatica, stomach troubles, constipation and liver and kidney ailments after spending large sums of money fruitlessly in drugs and other treatments.

Electricity cured them by exercising the relaxed nerves, muscles and organs and putting back into them the element which was lost and which is the foundation of strength.

I was cured of heart disease and stomach trouble in August, 1902, and have never experienced a return of it in three years.

ROOSEVELT TAKES HAND IN SPELLING REFORMATION

Believed to Have Scooped in Two Hundred Dollars for Three or Four Days' Work.

The fake canvasser who has been working the province for the last three or four weeks in the interests of The World (not The Toronto World), has been trimming the public for fair, according to despatches received at this office. Every day a sheaf of letters and telegrams are received from people who have been victimized, and also receipts issued by this enterprising advertiser who stuns himself generally "J. E. Ray," and sometimes "J. G. Gray." It is believed also to have traveled under other names.

Not long ago he operated in Dundalk, Markdale and Owen Sound, and appears to have left the province for the north after leaving about twenty-five mourners in Markdale and three or four times as many in Owen Sound, and commenced operations on the leading business men. His proposition was to give The Toronto World for one year and a copy of the latest edition of Webster's dictionary for three dollars, and when it is understood that three dollars is the regular subscription price of The World it is not surprising that a number took the opportunity of getting a dictionary for nothing. Some got off for two dollars, but most coughed up the three dollars, getting in return a receipt which does not state on it The Toronto World, but "The World" and the dictionary to be delivered prepaid. It is surprising that some of the victims did not recollect that exchanging cold cash for a receipt and promises was not the approved method of soliciting orders from strangers these days, and can only be explained by the fact that the solicitor was a well-dressed man, possessing an oily-tongued individual, and was well up in his profession, if it can be called such. The fact that many newspapers never mention him also helped some. The fake was not suspected here until definite word reached town from Owen Sound that a suspicious customer telegraphed The World concerning the agent, and his fears were realized when The World replied, stating they knew nothing of the agent and he wasn't working under instructions from them. The agent must have got wind of the fact, or he just worked long enough to be clear of the danger zone, for nothing has been heard of him since leaving here, and also there is a warrant out for his arrest and instructions have been wired every constable in the county and elsewhere, there is still no word of his capture. Out of the three towns he probably pulled about \$200, which is a pretty good salary for three or four days' work.

What is believed to be an accurate description of this man is as follows: About 35 years of age. Nearly 6 feet tall. Thin. Fair complexion. Clean shaved. Wore eyes. Walks flat-footed. A week or so ago he was wearing a suit of light clothes, white vest, and yellow straw hat.

As The Dundalk Herald says, his description has been wired to every county constable in Ontario. It is now up to these men. If they can make good, the last chapter in the fakir's story will be closed. He will soon be written. But it is not absolutely necessary that he should be captured by a constable. Any private citizen, if he saw any money, or other goods, or cash, or the trick just as well. First, be sure you have the right man, then hold on to him with both hands and notify this office.

ROOSEVELT TAKES HAND IN SPELLING REFORMATION

Hereafter Public Documents Will Print "Thru" and "Tho" as the Correct Form.

Oyster Bay, Aug. 24.—President Roosevelt has endorsed the Carnegie spelling reform movement. He issued orders to-day to Public Printer Stillings that hereafter all messages from the president and all other documents emanating from the White House shall be printed in accordance with the recommendation of the spelling reform committee, headed by Brander Matthews, professor of English in Columbia University.

This committee has published a list of 800 words, in which the spelling is reformed. The list contains such words as "thru" and "tho," as the spelling for "through" and "though." The president's official sanction of this reform movement is regarded as the most effective and speediest method of inaugurating the new system of spelling through the United States.

PARDON FOR WATT.

British Ex-M.P. Who Had Wife Murdered, is Lucky.

London, Aug. 24.—The home secretary has decided to release, upon the expiration of one year of his sentence, Hugh Watt, the financier and ex-member of parliament, who, December 21 last, was sentenced to five years' penal servitude for having incited hotel agents to murder his divorced wife.

MORE WATER PRESSURE.

Winnipeg Accedes to Demands of Unemployed Water Workers.

Winnipeg, Aug. 24.—The city council has acceded to the demand of the Toronto insurance men and will improve the water supply.

The Assiniboine pumping station will be once fully manned, and kept in readiness to be used at a few minutes' notice, to increase the pressure of the city mains in case of conflagration.

The pumps will be fully tested to see that they are in good working order, and their capacity unimpaired.

ELECTRIC MOTORS
% to 1% Horse Power

Westinghouse Bi-Polar Motors
perfectly meet the demand for
machines of small power that shall
be easy to install, easy to operate,
require little attention and give
consistently satisfactory service.

These Motors are made with
the same careful attention to details—and the same regard for
quality—that characterize our 1,500 Horse-Power Locomotives.

NO NEW ISSUE OF TORONTO ELECTRIC.
World Office, Friday, Aug. 24.

Sir Henry Pellatt was asked to-day whether there were any
new developments to account for the rise in Toronto Electric
stock. "Nothing that I know," was his reply. "You have noticed that the
stock is strong? Oh, yes; but the small amount of floating stock
is very small." Sir Henry further stated that no new issue of
stock was contemplated, and that the financing for the conduits
and other extensions recently made by the company, in preparation
for the distribution of Niagara power, had all been accomplished
three years ago, and caused no further discussion on these shares
to-day. He confirmed the opinion now gaining general credence
that it is only a matter of a short time before the dividend will
be increased to 6 per cent. Offerings of Twin City, except at ad-
vances, have suddenly dried up, and those who have remained
friendly to the stock through its many vicissitudes during the last
three years appear confident that their patience will be rewarded
by much higher prices. It is also argued that the freedom with
which the stock can be carried at New York places the issue out-
side the restrictions of the domestic money market.

Liverpool Cables Higher, But
American Quotations Barely
Hold Their Own.

World Office,
Friday Evening, Aug. 24.
Liverpool wheat futures closed to-day 3/4d
higher than yesterday, and corn futures
3/4d to 1/2d higher. At Chicago, September wheat closed 1/4c
lower, and September oats 1/4c lower.
Chicago car lots today: Wheat, 128;
corn, 96; oats, 96. Oats, 230, 20.
Clearances: Wheat, 167,807; corn, 10,
417; oats, 208,400. Last year, 191; last week,
200; last year, 233.

Price Current says: Corn crop larger
than last year, but it is wise to await pos-
sibility of frost damage, and corn futures
should, but large northwest crop will make
up shortage elsewhere.

Last day of The Fur Sale

To-day ends the special discount of 25 per cent. on furs.

Garments must be bought and paid for to-day to get the benefit of the special reduction. We will store free of charge until wanted.

American tourists will be surprised at the money we can save them on a new set of furs. Store open till late to-night and extra salesmen ready to insure prompt service.

A little forethought to-day will save you a good many dollars. No time to lose!

BATTERY "B" FOR TORONTO.

Will stay at Stanley Barracks for a while.

Stanley Barracks will be the quarters of Battery "B," Royal Canadian Artillery, now of Kingston, after the 28th of September.

Lieut.-Colonel Ogilvie has been notified from Ottawa that as soon as the camp at Petawawa is concluded the battery will proceed to Toronto, owing to the improvements being made in the Artillery Park at Kingston. There will be about 60 men. The horses will be quartered at Exhibition Park.

Charles Garfunkle of Lorne Park tells "The World" that he intends to prosecute the persons who recently annoyed him, his wife and child. He will not drop the case. He has the names of the persons who he thinks threw stones at his house at Lorne Park.

Thomas Shenkey is suing the Canada Foundry Co. for damages. He was crushed with iron bars, which he says, were imperfectly constructed. A citizen yesterday showed Detective-Sgt. Duncan a penny, silvered over, which had been palmed off on him as a 50 cent piece.

To Medical Visitors

We want you to visit our store and see the beautiful establishment we have got for our Tailoring and Haberdashery, which you will find the most complete and up-to-date in Canada.

We always aim to have the highest and most exclusive grades in the kind you want, and extend to you a most cordial invitation to call and see us before leaving the city.

INSURGENTS ARE SCATTERED IN SANTA CLARA PROVINCE

Pino Guerra's Program Includes Occupation of Guanac and Capture of Pinar Del Rio.

CUBANS WILL NOT FIGHT FOR TWO DOLLARS A DAY

Havana, Aug. 24.—Reports from the country districts say that the people generally have been influenced by the Liberal leaders, and are inclined to distrust the motives of President Palma's government. Therefore, they readily sympathize with the cause of the insurgents.

In the cities there is much more approach to genuine patriotism, but the government's offer of two dollars a day for all recruits meets with slow response. Many men are interested in the crisis, as onlookers, but a genuine, general desire to fight for the government is lacking.

Havana, Aug. 24.—The first encounter in Santa Clara Province occurred this morning. A detachment of Rural Guards attacked an insurgent band, commanded by Manuel Gonzalez, between Santo Domingo and Colon.

The insurgents were scattered, and some of their arms and ammunition were captured. The government regards Guerra's movement on Guanac as being a retreat before the forces sent against him from the City of Pinar del Rio.

Guerra declared, previous to his departure from San Juan de Martinez, that after occupying Guanac and getting accessions, he would return and surround and capture Pinar del Rio without the shadow of a doubt. Pino Guerra, who yesterday captured the town of San Juan de Martinez, Province of Pinar del Rio, following his capture of San Luis the day before, says that his policy is to occupy the towns as peacefully as possible, to convince the local authorities in office for the present, and to change the officials gradually, and compel the officials to annul the last elections and hold new ones.

A letter received here from a reliable correspondent, who visited Pino Guerra at San Juan de Martinez, says that the insurgent leader's force amounts to 2000 men; that all the people in that part of the country are Liberals and sympathizers with the insurrection, but that Guerra has not sufficient ammunition either to take Pinar del Rio or sustain a prolonged fight. The government force in the City of Pinar del Rio to-day consists of 250 soldiers, 400 volunteers and 200 Rural Guards.

The inhabitants of the City of Pinar del Rio are reported to be loyal, and it is said that many of them are armed, and will assist the troops in resisting an attack on the part of the insurgents.

TOWN RETAKEN.

Havana, Aug. 24.—A force of government artillerymen under command of Capt. de Martiney occupied San Juan de Martinez without resistance. This town was taken Aug. 23 by a band of insurgents operating under Pino Guerra. At San Antonio de los Baños, Havana Province, a detachment of rural guards to-day encountered a band of insurgents. Of the latter two were killed. Their comrades were dispersed.

YORK COUNTY AND SUBURBS

EAST TORONTO.

East Toronto, Aug. 24.—Laborers to-day were engaged in filling up a serious washout, which took place on Lee-avenue, a short distance south of the King-street road. The centre of the road was cut out to a depth of 6 feet.

The Toronto & Scarborough Railway are removing the poles some 100 feet farther back from the track, from the Woodbine to Blantyre. Their presence so close to the cars was said to constitute a menace to the general public.

Frank Wilson, on the towline between York and Scarborough, lost a valuable horse yesterday when he beat back two private cars, with the lady members of the British Medical Association, passed over the Scarborough line to the westward this afternoon, returning about 4 o'clock.

The Toronto Type Foundry Company have definitely decided to change the location of their proposed factory on the Danforth road to the street immediately north. The board of education opposed the change, the new site being close to Lansdowne-avenue Public School.

The Excelsior Quilting Club will hold their annual tournament in Little York on Sept. 6, 7 and 8.

Mr. and Miss Cobblestick of Exeter are visiting at the home of N. B. Cobblestick on Danforth-avenue.

Deputy Supreme Chief Robert Nimmo, of the I.O.F., has returned home after a prosperous trip in the Ferry Sound district in the interests of the order.

Arthur Yelsh of the Quebec Garrison Artillery is visiting at the home of Rev. Mr. Osborne.

Ex-Councillor Hinds is building two new houses on Main-street, and one on Lyall-avenue.

Fred Mothersill is completing the erection of three handsome residences on Swanwick-avenue.

For the first time this summer, since the opening of the boating season, the lake shore along the Beach was free from craft of any description, the heavy swell effectively stopping even the most venturesome.

Markham.—Surveyors have been engaged during the week in trying to locate a line for the extension of the Schomberg line towards Ottawa, thru the northern part of the township, one line crossing concession 8, near Dixon's Hill, above Markham Village.

Adam Scott has refused an offer of \$4000 for his farm of fifty-three acres just outside the town limits.

The Box Grove branch of the E.Y. W.S. will meet on Tuesday, Aug. 23, at 2 p.m., at the home of Mrs. Break.

The death of Thomas Graham, formerly of concession 7 of Markham, is reported from Burnside, in Manitoba, whether the family removed some four years ago. The deceased is survived by a widow, four sons and one daughter.

A special meeting of the directors of

THE FARES CHARGED IN EAST TORONTO IS COMMENTED ON AS SHOWING DISCRIMINATION.

North Toronto is not half the distance from the centre of the city that East Toronto is; yet a full double fare is exacted, and this means, in some cases, over three cents a mile for the suburban roads are owned by the one corporation, it is not considered possible that the railroad commission will allow anomalies of this kind to exist.

This is not even the worst feature of the fares. Two separate rates exist in the one municipality, as far as Glen-grove Park being in the five-cent belt, and an entire two cents is tacked on for the further ride to Bedford Park. It is surmised that these grievances will be used as a set-off for the privilege of a double track, but a ratpayer at the north end of the town is desirous of having these matters settled before any question of double-tracking is even entertained, and will try to move the council in this direction.

Here are some cold cuts in hot weather wear prices FOR MEN—

Most any man with reliable information on a "sure thing" to make a dollar would be after it quicker than fire would scorch feathers—

Why not be just as quick to save a few dollars on wearing things you're needing every day?

Here are some "sure things" for to-day's selling—

Shirts—

A few dozen more of those fine white negligee shirts have gone into the "broken lots"—worth 1.50 and 2.00—**.75**

11 dozen men's negligee shirts in exclusive patterns—all sizes in the lot—were 1.75 and 2.50—**1.00** for....

7 dozen men's very fine custom made soft bosom shirts—made in our factory and worth 2.00 and 3.00—**1.50**

Underwear—

Clearing out broken lines of summer wear that were 1.00 to 2.25—**.50**

Half-hose—

Finest French and German hosiery half-hose—plain and fancy—3 pairs for 1.00—the pair... **.35**

Neckwear—

Letting you pick or choose from any of the 4-in-hand washable neckwear at 35c or 3 for 1.00—

20.00 Suits for 10.50

We've been giving them a special mention for days—but there are a few good ones left in the 2 and 3-piece summer suits in blue serge—Scotch wool, fancy worsteds, worth 18.00 and 20.00 and you're welcome to them at **10.50**

Pearl Soft Hats—

We have stylish soft hats in black and all other good colors and shades that are fashionable—but we emphasize the "Pearls" because they're the nicest and most comfortable head dress for now—**2.00 to 6.00**

Or ting—Y & Bing and Ante Hats and Caps—35c to 5.00

The Standard Insurance Company will be held in Markham to-day to confirm the appointment of the new officers.

Edward Sanderson, proprietor of the Tremont House, has returned from a two months' visit to Great Britain.

Bracebridge.—Yarmouth Juvenile Lodge, S.O.E., No. 52, was opened in Wychood Hall by the district deputy, Bro. J. Crossland, assisted by members of the adult lodge.

About twenty of the boys were initiated. The next meeting will be held the first Monday in September. Bro. W. Attenborough, Wychood, is the secretary.

A number of the ladies of the Ladies' Aid Society in connection with Zion Methodist Church, St. Clair-avenue, enjoyed a pleasant drive to Mr. R. Phillips' farm, at Downsview, in the four-in-hand, Alexandria.

North Toronto.—Now that the new Ontario railroad commission is duly constituted, it is being suggested that the town council should get down to business in forcing the Metropolitan to at least keep up to its charter. The antiquated cars now provided for the short trips on this road are entirely out of date. They saw service in Pittsburgh or some other city on the other side a decade ago, and are a parody of the class of vehicles now being utilized on other street railways, as they are to the cars used for the thru trips, even on this road.

The track thru the town is a portion of the road entirely appropriated to the railway, as it is not possible for us by other vehicles in that the ties are exposed and the ballast depressed from three to four inches below the rails. The reference in yesterday's World to

the fares charged in East Toronto is commented on as showing discrimination. North Toronto is not half the distance from the centre of the city that East Toronto is; yet a full double fare is exacted, and this means, in some cases, over three cents a mile for the suburban roads are owned by the one corporation, it is not considered possible that the railroad commission will allow anomalies of this kind to exist.

This is not even the worst feature of the fares. Two separate rates exist in the one municipality, as far as Glen-grove Park being in the five-cent belt, and an entire two cents is tacked on for the further ride to Bedford Park. It is surmised that these grievances will be used as a set-off for the privilege of a double track, but a ratpayer at the north end of the town is desirous of having these matters settled before any question of double-tracking is even entertained, and will try to move the council in this direction.

Mount Dennis.—Official notification has been received here that the mineral claim of John Boyles of Mount Dennis, the popular president of Woodbridge Fair, has been passed by the government inspector on the Montreal River. This is said to be the final disposition. There are two other claims to pass yet.

Toronto.—This afternoon a cricket match between St. Barnabas and St. Cyprian's cricket clubs, and a baseball game between the Brillants and Chester, are scheduled. The cricket match will take place on St. Barnabas' grounds, and the following players are picked: A. Jeffrey (capt.), J. Wood, J. Hove, A. Smith, S. Althershaw, J. Edge, W. Edmunds, W. Kendall, A. Rumley, C. Rumley, reserves, W. Marchington, F. Fallon.

The following players of the Brillants will battle against the Chester on Don Mills-road grounds: Baldwin, C. E. Moses, pitcher; G. Crozier, 1b; F. Hazelton, 2b; E. Baldwin, ss; H. Ashby, 3b; A. Hill, lf; R. Tasker, rf; H. Kimberley, cf; spares, L. Wilton, A. Weby, N. Cooper.

A horse hitched to a light delivery wagon, the property of H. G. Woods, corner Broadview and Danforth-avenue, got frightened at an automobile, and took to its heels yesterday afternoon. It collided with an electric wire pole and freed itself, but no great damage was done.

Stouffville.—Stouffville, Aug. 24.—The usual crowd attended the local markets yesterday. Butter and eggs still rule high. The crowd of shippers gave evidence of a continued haul. The Stouffville Brass Band discoursed sweet music the other evening at a garden party, and yet no conductor. The Christian Church found its finances improved to the amount of \$45. CONDUCTORS ARE SLOW.

Editor World: The system of relieving men on the Toronto Railway seems to the casual observer to be far from being perfect. Yesterday afternoon Broadview car No. 547, came to a stop at River-street and the motorman and conductor took their belongings and went to the car shed. A fresh motorman took charge of the car, but no conductor showed up. Waiting for about 5 minutes a passenger on the car ventured to ask the motorman how long the car would stop, to which the polite answer came: "Till a conductor comes." Finally Broadview car No. 548 came up and yet no conductor. The second car also had to wait. Finally the motorman hunted up his conductor. One of the Detained.
