Early This Morning Mrs. Farmer Pays Penalty at Auburn For Peculiarly Brutal Murder.

AUBURN, N. Y., March 28 .- The current of events to-night and the final hours of the life of Mrs. Mary Farmer, who dies at sunrise to-morrow in the electric chair, for the killing of Mrs. Sarah Brennan at Brownville, moved on relentlessly the dramatically after

nightfall in Auburn prison. Brought from the woman's prison to the receiving cell in the condemned row, Mrs. Farmer bade farewell to her husband, and was then lodged in the cell that adjoins the execution chamber to await the call to the chair.

James Farmer, the husband, also un der sentence of death for the killing of the Brennan woman, and whose case is now before the court of appeals, was taken to another part of the prison, that he might not hear the witnesses on their way to the execution.

Mary Farmer was sentenced to death for a shocking and brutal murder. The Farmers, man and wife, on April 23, 1908, enticed Mrs. Sarah Brennan, 55 Organized on Permanent Basis and years old, a neighbor, into their home in Brownsville and killed her. While Mrs. Brennan stood looking out of a window she, Mrs. Farmer, stole up be-hind her and struck her on the head with an ax. Then Mrs. Farmer and her husband chopped up the body so that it would fit into a small trunk.

sion of Mrs. Brennan's property. Mrs. Brennan was a next door neighbor of the Farmers and lived in comfortable circumstances with her husband, Patrick. The house and its furnishings were owned by Mrs. Brennan. Knowing this, the Farmers deliberately set about to possess themselves of this house. Mrs. Farmer forged deeds to the house and its furniture, and, personating Mrs. Brennan, made a transfer of the property to her husband, James, in a Watertown lawyer's office. This ating Mrs. Brennan, made a transfer of the property to her husband, James, in a Watertown lawyer's office. This was in October, 1907. Then, in the following April, Mrs. Brennan was murdered and the Farmers took possession of her property, producing the forged deeds to the astonished Brennan. The Farmers declared that Mrs. Brennan was gone to Watertown. Suspicions, however, were aroused, and the body was found.

Scarcely have the postar transfer the from the first work, and already they are organizing another want already they are organizing another strike, which, if it takes place, will be far more serious than the one just ended, and threatens to bring into action all the other civil employes, together with the bakers, electricians and all who feel that they have a grievance.

The Clemenceau Cabinet all along favored the formation of associations of civil servants for their mutual, social and economical welfare, but these

Facing death at dawn, the wretched woman showed no evidences to-night of collapse tho the last words between herself and husband, separated in their parting interview by heavy bars and an impenetrable screen, were affecting to the two women attendants and the children of the guard. As the law does not permit it, there was no fare-well embrace to-night, when the time-came for separation. When the steel door of Mrs. Farmer's cell had closed, and James Farmer, weeping, had been led away, the woman fell upon her cot and wept for a few moments and then began to pray. Miss Lulu Glaser will be seen to-night at the Princess Theatre, when the most delightful of all American lyric comedications will begin an engagement that is to continue thruout the week, with a matinee on Saturday, in a new musical play, "Mile, Mischief," which, like "The Merry Widow," is of Viennese birth. As "Mile, Mischief," Miss Glaser will appear in a succession of disguises and characterizations. She is said to wear boy's clothes boyishly and a girl's gown girlishly.

In her latest success, "The Unbroken Road," Bertha Kalich will open her Toronto engagement to-night at the Royal Alexandra Theatre. For the first time in her notable career Madame Kalich will interpret the role of an American girl—Eva Fellonova. The scenes are set in a capital city of a middle west state. The story is one of optimism and uplifting sentiment. The prices for this engagement will be 25c to \$1.50.

"Take Me Back to Kidland," is the title of a song in Gus Edwards' musical comedy, "School Days," which will begin an engagement of one week at the Grand Opera House, with a matinee this afternoon. This is said to be exactly what those responsible for this play have tried to do. Its characters are those that all have known, and in the schoolyard and classroom scenes. The company engaged in the interpretation of the various characters numbers sixty.

Note and Comment

Ho for Chatham! is the cry and everyone looks that way this week.

Newark are showing some class at their training grounds in the south. After three close games with New York Americans, he best the Boston Nationals could do was to win from McGinnity's team by I to o. These will be nothing to the victories to be earned in the immediate fu-ture by the Torontos when the Tilbury Terrors and Essex Centre Cornstalks take their turn at Chatham, Ont.

The C.A.A.U. on Saturday issued an important permit to the Hamilton Tigers' Rugby Club for an athletic meet Saturday, May 15, to be in the nature of a benefit to enable Bobby Kerr to visit England and defend the sprint championship he holds on July 3 next. The union also gave the Central Y.M.C.A. permission to hold an outdoor field and track meet in June.

In Lindsay they have decided to reward their hockey champions with new clothes, if this style of prizes is not at variance with the amateur idea.

Not since the sensational fight between loe Walcott and Kid Lavigne at Maspeth Joe Walcott and Kid Lavigne at Maspeti 1895, has there been such a contest as that provided by Stanley Ketchel and Philadelphia Jack O'Brien at the National A.C. on Friday night, says a writer in The New York Sun. It was the talk of the town to-day and those who had the good fortune to be eye-witnesses, declargood fortune to be eye-witnesses, declarded that even the Walcott-Lavigne affair had been surpassed in point of thrilling incidents. The wonderful gameness of both Ketchel and O'Brien was widely combot Toronto and the surpasses of the surpasses

that the pugilists fought on the level.

No pugilist, big or little, ever received the walloping that Ketchel handed to the Philadelphian in the last two minutes of the battle. Ketchel's blows were simply overflowing. Strictly speaking and in occordance with the rules of the ring. O'Brien stayed the ten rounds and all bets made on that proposition were won. Ketchel's exhibition was even more remarkable. Like Kid Lavigne in the old days. he took all the punching that O'Brien could land in his face and body without once retreating on the defensive.

Even when Ketchel was bleeding and so groggy that he seemed on the verge of tottering headlong to the floor, he stood up and walloped with so much power that the old-timers at the ringside threw up their hands in astonishment. Ketchel's recuperative powers probably with the fight for him.

That Ketchel known

That Ketchel knows very little about scientific boxing there is no doubt assent the experts, but he is learning all the time and in a year or so it is believed that he will be almost inxincible. So far Ketchel has avoided Langford, because he says he has nothing to gain by defeating the negro and does not care to fight a colored man anyway. But Ketchel will make an exception of Jack Johnson and Intends to go after the present heavyweight champion in dead earnest. O'Brien says that Ketchel would stop Tommy Burns easily Ketchel said that the reason that he received so much punishment from O'Brien was that he was compelled to force the fight in order to win decisively inside of the ten-round limit. Ketchel does not helieve that Johnson cah hit any harder than O'Brien and that the negro is not Philadelphia Jack's equal in gameness. He says that if he ever gets one of his great smashes into Johnson's stomach or over the jaw, the negro will go down and out just as O'Brien did.

Catcher Nec'sham Goes to Chicago.

MEMPHIS, Tenn., March 27.—Fred W.
Leise, drafted by the Chicago National
Club from the Madison Club of the Wisconsin League, has been traded to the
St. Paul Club of the American Association
for Tom Needram, catcher, formerly of
New York and Boston. Chicago gave a
cash consideration with Leise. This trade
is taken to mean that Manager Chance of
Chicago has decided to let his famous
lackstop, John Kling, stay away if he
wishes to, and also that all negotiations
for the return of "Doc." Marshall from
the Brooklyn Club, will be called off, as
Needham will give the champions their
third experienced catcher.

PARKDALE CANDE CLUB READY FOR THE WATER

Officers Elected at Annual Meeting-Prospects for Paddling the Brightest

The annual general meeting of the Parkdale Canoe Club on Saturday night was the largest and most successful in the history of that growing and energetic organization. In the absence of Dr. S. A. Weismiller, George F. Duthie, vice-commodore, presided.

The treasurer's statement showed the financial affairs of the club to be in a healthy condition, and the reports of the various committees on the past year's work spoke volumes for the disinterested manner in which officers and members alike had united to further the club interests.

alike had united terests.

A review of 'the year's work in aquatic and land sports shows the Parkdale paddlers well to the fore in whatever nature of sport they entered. Not only did Frank Longstaff and his war canoe crew show indomitable pluck and endurance, which won for them the half mile and mile Dominion war canoe championship, as well as the Shea trophy, which carries with it the half mile championship of Toronto Bay, but the splendid aggregation of Rugby players kept the club escutcheon bright and brooght to Toronto the Canadian junior Rugby football championship.

On Thursday The Telegram had a special two-column article trying to show what a loser Toronto will be by known as the Midway and Chester, and especially alleging that the city will be buncoed if a fixed assessment, as was the case with the three or four northern annexes, is also granted here.

A sufficient answer to The Telegram article appears in its news item of Fri- ac day revealing the wonderful building boom that is already under way in these proposed annexes, due largely to the certainty of union. Any number of buildings are under way and some of the big properties complained of medicine by that paper are about to be carved

It may be that somebody is going to make money, as The Telegram says, within the next five years, on account of annexation and fixed assessment, or from some other cause. The World is not afraid to say it hopes this will be the case, and there is no reason why the rise in the value of property in and around Toronto should not go on. As a matter of fact, Toronto real estate has the most reasonable valuation of any city in Canada.

The Telegram must remember also that the fixed assessment applies only as long as the property continues in present owners' hands; as a matter of fact, the great bulk of it will change hands in the next year or two; imme-

diately on changing hands it will come under the regular assessment code. No wonder The World enjoys the patronage and confidence of the cititens over the Don. It has always done whatever it could to promote the welfare of a section that has been hither-

This bi-monthly journal, now in its enth number, is increasing in attractiveness and steadily winning its way favor with Canadian Scotsmen. The current issue is of exceptional interest, especially to Scotsmen at home. and is designed to stimulate home interest in Canada as a fleld for Scot-tish emigration. This is a valuable side of the purpose for which The Canada Scotsman was established which it is the intention of the editor, Mr. John Cowan, to develop, and the provincial government publishes in the number a special statement setting forth the importance of Ontario's agricultural and mineral opportunities. This issue is profusely illustrated and contains much excellent matter.

BRITAIN'S EARLY SEA DOGS Exploits of Hawkins and Drake In

Large, spell-bound, and at times enthusiastic, was the audience which heard Prof. M. A. Mackenzie in the last of the Lenten lectures at Trinity College Saturday afternoon on "The Sea Dogs." Hawkins and Drake, two of a group of men, largely of humble birth and slender, education, but who revolutionized the face of Europe. The power of Spain, which had dominated Europe and was crushing out in the Low Countries the reformation, was broken by this group of men

whom Spain despised. Until this time no use had been made of sailing ships in war. At the battle of Lepanto, when the Turk was crushed, not a boat in the fleets but had been manned by oars. The "sea dogs" had developed two pivotal points in Britain's command of the seas, the art of handling sailing ships, better seamanship and better gunnery. . The tragic ending to Hawkins' second voyage to the West Indies, when he was accompanied by Drake, was thrillingly told, and his extraordinary

# COBALT---Signs of Improvement Are Evident in Mining Markets---COBALT

# Mining Markets Are Improved After Irregular Week WAS "TOTED" TO MINES

General Opinion Is That The Market Is Low Enough Late Trading Many Great Obstacles Which Had Has Been Largely Professional.

Saturday Evening, March 270 Local mining markets this week have sionals dealing on the short side of the sionals dealing on the short side of the market. Drives were frequent during the last few days, and some brokers report that the lower prices brought good buying orders from outsiders. After a rather stormy week the market closed firm, with an upward tendency in all of the higher priced stocks.

The feature of the week was the dead set made against Temiskaming and Beaver by floor traders. Temiskaming an Beaver by floor tracers, femiskathlis in 1, 1000 at 11, 5000 at 15, 500 at 45, 500 at 46, 500 at 46

Elk City is having a real estate boom, while Gowganda is rapidly growing in size. The South Lorraine silver camp is coming to the fore and should soon take a pro-minent place amongst Ontario's silver

It is concliently expected that in the course of a few days the Hargrave will strike the Jacobs vein. This has occasioned frequent enquiries and heavy buying of Hargrave stock, which closed the week with a strong upward

almost cheerful outlook; the recent drives may have been the means of freezing out weak holdings, and causing a general clean up. The undertone is firm and the opinion of dealers in general is that prices have seen the

### An Interesting Booklet. Paul A. Neumann, head of the firm

Neumann & Company, 65 East Adelaide-street, Toronto, who recently re turned from Gowganda, has prepared a most interesting booklet describing trip into that country.
This booklet is profusely illustrated with half-tone engravings, and will give those who have never visited a "wild and woolly" mining country a clear idea of the hotels, camps, mines. etc., as they exist in Gowganda at the

Mr. Neumann has shown considerable literary skill in describing his trip and we feel sure the book will interest any one who will take the trouble to write to Neumann & Company, who mail it free for the asking.

WELLAND IS PLEASED

At Prospect of Gas Being Kept in tors.

WELLAND, Ont., March 27.-The announcement that the government would prohibit the export of natural gas from this district to the United States is received here with the greatest satisfaction, as our citizens have been fighting this matter for years: Factories have been refused gas, while t has been exported to Buffalo and sold at lower prices than offered here. The prohibiting of the exportation gas will mean a great boom in manuacturing circles here.

Undoubtedly No. 3 is, by all odds, the premier vein of Kerr Lake, as it maintains its uniform richness and permanency for level after level, and it is no doubt, largely due to the high values and abundance of ore in sight in this vein that Kerr Lake can go on increasing its dividend disbursements. In fact eminent mining men pronounce fact eminent mining men pronounce Kerr Lake's No. 2-as the wonder vein of the whole Cobalt camp. Kerr Lake's dividends have been as follows:

# HARGRAVE

Our information on the Hargrave Mine impels us to advise our clients to buy these shares both for speculation and for investment.

The Company owns two very valuable lots. They are situated in the heart of the richest district in the Cobalt camp. The famous Lawson (still in litigation), which has a vein on the surface a foot wide of practically pure silver, and for which the owner of a one-quarter interest was offered \$1,660,000, adjoins one of the lots on the west. The Kerr Lake Mine (Jacobs), adjoining the lots to the north and west, is one of the largest shippers in the camp.

The Hargrave properties are in a particularly favorable location as regards transportation, as they lie within 150 yards of the Kerr Lake spur line of the Temiskaming & Northern Ontario Railway.

The Hargrave property is no prospect. It was a shipping mine when the Government enjoined the lessees. They had sunk a shaft on the continuation of the Kerr Lake vein 75 feet. They had built excellent camps, the equal of any in the country. They had erected a shaft house, blacksmith shop and ore houses. There is considerable ore in the ore houses at the present time.

We also advise the purchase of Peterson Lake and

The early part of the week on the Toronto Exchange was the most inactive period since the beginning of the year, the speculative transactions chilv. being of the most nominal character. On Wednesday a rumor of an early settlement of the Coal-Steel financial difficulty caused a little stir in these issues, and but for this the market has been pretty void of features thruout the whole week. The noteworthy incident in connection with recent business is that offerings of speculative stocks as well as of the investment stocks are still of the lightest kind of character, and this has been considered as a good omen for further business.

publication of the annual stateof the Dominion Coal showed that this concern is in a good state of progress and that the damages which will have to be paid to the Steel which will have to be paid to the Steel Company will not embarrass the financing of the debtor company. This with a perfect freedom in money, which promises to have no interferences, certainly favors a better market, both for speculative and investment securities. All the local investment stocks appear to be most tightly held and any bidding for these can only be satisfied by advancing prices above the present quotations. The outlook from a speculative standpoint from now on is certainly favorable to the buyer.

PETERBORO, March 28 .- (Special.)

The principal feature on the program, the proposed visit to the pride of Peterboro, the hydraulic lift lock, was, to the sorrow of the visitohs, omitted. When the party arrived from Toronto, they proceeded to the mammoth Company and saw, the art of building "Bob." has passed over. He slipped away on Saturday at the age of 64, after an illness that had lasted since last June. For nearly a year he had been tied to his home at 43 Grenvillestreet. Bob O'Hara was a true son building electric motors from start to finish.
