BULLETIN

Athens, Sept. 6.—The Athenian chamber of commerce at a special meeting yesterday decided to break off commercial and industrial relations not only with Italy, but also with all Italian firms in Greece.

(Canadian Press.) Geneva, Sept. 6.—Efforts of the League of Nations council to reach some agreement on the Greco-Italian crisis constituted the reason for the sudden decision to hold no session of the assembly today.

Lord Robert Cecil and other members of the council desire to go before the assembly with something definite, for they realize that if the world nations met together as a forum before any tangible results were obtained, there would doubtless be a forcible explosion on the floors.

The assembly as a whole is looking to the council to take some action on the Italian question, and the council, as the executive body, is concerned with saving the league and preventing any dangerous split.

No Meeting Held. No meeting of the council was held this morning, but its members consulted together privately in attempting to reach a tentative accord with regard to procedure and the attitude to be adopted at the next formal meeting, which may possibly be convened tomorrow.

There has been extensive telegraphing by all the delegations to their home Governments asking definite instructions on the great question of the day, which has moved all interest from the problems figuring on the agenda of the conference.

Rev. Dr. Hutchinson, pastor of Main street Baptist church, who returned home yesterday after an extended tour through Europe and also from the third Baptist World Congress, which was held in Stockholm, this morning gave a brief but interesting account of his trip to the Times.

The Congress opened on Saturday, July 21 and remained in session until Saturday, July 28. On the opening day a reception was tendered the delegates and in the afternoon the inaugural meeting was held. A welcome was extended by Rev. J. Brystrom D. D., president of the Baptist Union of Sweden.

An impressive service in connection with the congress was held on Wednesday, July 2, when the session was adjourned at noon and the delegates marched to the historic church, the Westminster Abbey of Sweden, and there a wreath was laid on the tomb of King Gustavus Adolphus, who took such an interest in church work.

Referring to his tour Dr. Hutchinson said that enroute to Stockholm he spent a week in Germany and there tried to study conditions. He found the people well clothed, working hard, and Berlin, in general condition, and in general everything indicating prosperity.

En route to Stockholm Dr. Hutchinson was accompanied as far as Germany by G. S. Mayes of Toronto. The latter then went to Antwerp and Brussels and later rejoined the doctor in England and they traveled to Scotland together.

PROFESSIONAL MILLINERS GET HATS BY SPEAR

In a rather flattering way St. John has come up in the world of millinery. Experts have stopped off here to visit the collections made at New York by following the showing of her own speciality.

Yesterday, for instance, no less than four milliners got away with their own personal hats from Spear's. One of them, Miss Love, who has a millinery place of note in Charlottetown, came through with Miss Finn from Boston. In preferring what she found in St. John, Miss Love paid Mr. Spear the compliment of saying she found nothing in Boston like his, and she proved it by getting her own hat from him.

Miss King of Martin's Ltd., Amherst, did the same on stopping off en route from Toronto, and reported no collection in that city the equal of the St. John salon, at 177 Union street. Like opinions came from other here the past week or so, such as Mrs. Feder, head milliner from Jensen and Mills, Halifax, Mrs. Cole, the leading milliner, Sydney, Miss Cottrout of Yarmouth, Miss Seaman of S. A. MacDonald, Charlottetown, Miss Hirtle, Lunenburg, Miss Reid of the millinery shop, from Pictou, New Glasgow, St. Stephen, Hartland and other places.

All took extensive notes of the Spear importations, many coming a second time to get further points of the newest and best in hat art. The fresh run of fashionable color was one feature, but the praise of the St. John house of Spear ran to other touches of excellence like the amount of hand work exhibited.

SUMMER COMPLAINT CRAMPS AND DIARRHOEA

There is no other kind of disease that comes on so quickly and with so little warning as an attack of bowel trouble. One may retire at night, in the best of health, and before morning be awakened by terrific cramps and pains in the stomach followed by diarrhoea, dysentery, summer complaint or bowel trouble in one form or another.

At this season of the year, when bowel troubles are so prevalent, we would advise the precaution of always having on hand a bottle of Dr. Fowler's Extract of Wild Strawberry so that you will be ready for any and all emergencies. You will find that a few doses of this valuable remedy, taken promptly, will be the means of preventing a great deal of unnecessary suffering, and many a time save life.

COOLIDGE ASKED FOR LIQUOR VOTE

Assemblyman Writes Urging a Referendum on Beer and Wine.

New York, Sept. 6.—An appeal to President Coolidge to submit the question of modification of the Eighteenth Amendment to the youth of the United States is made by Assemblyman Louis A. Cuvillier in a letter. The letter arraigns the present Volstead act as causing debauchery to the youth of the nation, making it citizens a whiskey-drinking people, bringing about moral degeneration, hypocrisy and disregard for law, corrupting officials and establishing a spy system, increasing taxation and special privileges for the rich, and depriving citizens of their inherent rights of liberty.

The letter is occasioned, Mr. Cuvillier tells the President, by the address of John W. Davis, president, at the recent meeting in Minneapolis, of the American Bar Association, in which Mr. Davis proposed changes in the present method of making constitutional amendments by submitting such proposed amendments directly to the people of the nation.

"In my opinion," writes Mr. Cuvillier, "this proposed amendment to the Constitution of the United States will forever set at naught the contentious uncertainty of the people that the legislators of the respective states in adopting or rejecting proposed constitutional amendments to the Constitution of the United States that the legislators do not at all times reflect the judgment and opinion of the people of the United States on the change of the organic law."

NO OPERATION FOR HER

The Took Lydia E. Pinkham's Vegetable Compound and Escaped the Operation Doctor Advised

Louisville, Ky.—"I wish to thank you for what your medicine has done for me. I was in bed for eight or nine days every month and had a great deal of pain. The doctor said my only relief was an operation. I read of Lydia E. Pinkham's Vegetable Compound and tried it for me. A few days later I was cured. I feel fine now and am picking up my weight. I will tell any one that your medicine is wonderful and you may publish my letter if you wish."—Mrs. Ed. BOENHLEN, 1130 Ash St., Louisville, Ky.

Large numbers of Yokohama refugees are arriving in Kobe. The steamer Douglas brought 404 of all nationalities including 172 Chinese. The President Jefferson arrived with 255 Europeans. The steamer Lycoan brought 119, including 21 Europeans, 15 Chinese and 46 Indians. The Empress of Canada has 1,500 survivors on board.

Many of the refugees are in a deplorable condition owing to injuries. A majority of them are without clothing. Of the 10,000 Chinese inhabitants of Yokohama, 5,000 are said to have perished. Chinatown went down in an avalanche of bricks.

This nation, Mr. Cuvillier continues: "May I respectfully suggest that you recommend to Congress when it convenes this December that the Volstead law be amended to permit the manufacture and sale of light wines and beers of such alcoholic strength that will satisfy the desire of the people without violating the spirit of the Eighteenth Amendment, and in addition thereto that Congress pass a referendum law so that the people of the United States can be permitted to vote at the next Presidential election on the following question: 'Shall the Eighteenth Amendment be repealed?'"

"Second, shall the Eighteenth Amendment be modified so as to permit the manufacture and sale of light wines and beers of such alcoholic strength as existed prior to the adoption of the Eighteenth Amendment? Third, shall the Eighteenth Amendment be amended permitting each state in the Union to choose local option on prohibition?"

Explanation By Royals' Manager

To the Sports Editor of The Times, St. John, N. B.—I have been asked to explain the Royals and Trojans would meet in an exhibition game on the East End grounds on Friday evening 7th, at 6:45 p.m. and up to the present, so far as the management of the two teams are concerned, no alteration of this arrangement has been made.

In the past the Royals have helped in every way possible—concerts, ball games and in many other ways—and in the future will be only too glad to help in any way possible to boost amateur sports that is, if approved by the proper way and dates and arrangements do not interfere with our own club arrangements.

MILLIONS EACH YEAR FOR ROADS

California Adopts Gasoline Tax; More Than a Million Autos.

Los Angeles, Sept. 6.—California, already termed a paradise for motorists, will have a state income tax on gasoline, which will go into effect on September 30, and it is expected that the auto census, as disclosed by licenses issued, will show that the Golden State either is second or third in the list, coming up from fourth place in 1922.

The star mentioned is in actual use, the state auto licensing department having adopted the sign of the star to represent the number of 1,000,000. Therefore, any license plate with the figures preceded by a star shows that the number is above a million to the extent of the figures given. Thus, the license number 1,001,234 would appear as *1234. And the majority of machines are in Southern California, with Los Angeles having one for every family.

Experiments are being made in using garbage to produce steam for heating. Smoke will create fogs.

CAUSE MUST BE ADJUSTED, MADE RIGHT

CHIROPRACTIC is based on fundamental natural laws. The organs of the body are the motors, the nerves are power lines which carry vital energy over to all parts of the body. Impingement or pinching of the nerves interferes with their life-carrying power and disease is the result. The Chiropractor adjusts with his hands the misaligned vertebrae and the impinged nerves are freed. The flow of life enters the part diseased, normal functions are resumed and health restored. The Chiropractic way is Nature's way.

WRANGEL ISLAND. The agitation for the annexation to Canada of Wrangel Island will be discouraged by the announcement that comes from the Arctic to the effect that Allan Crawford, who was in charge of the party left by Stefansson in 1921, is dead with all his comrades, and that of the members only an Eskimo woman is left alive. The instructions given to Stefansson by the Government of Canada when he was sent north are not known. Whatever they were they should not have included authority to annex territory which another government claims, which belongs to another continent, and which is of such inhospitable climate that it cannot sustain even the

handful of men left to hold it. Four courageous young men have lost their lives in a venture that should not have been undertaken under the circumstances. Stefansson claims that Wrangel Island will be valuable as an air route station when the development of flying reaches a stage that will make it possible for passengers from north-

ern Europe to travel to China, Japan and Asia more rapidly by going north over the Arctic waste and the pole than by taking the east or west course and sticking to the temperate zone. The thing may be possible; but it will not likely come soon, and no more Canadian lives should be put in peril for the sake of the expectation.

THE LEAGUE MUST ACT

It is unbelievable that Italy will be permitted to defy the League of Nations with impunity. The Greek Government is not responsible for the crime committed on the Greco-Albanian boundary, but the Italian Government is responsible for the deliberate bombardment of undefended Corfu. The Boston Herald puts the case clearly as follows:— "Was Italy's twenty-four hours' ultimatum to Greece more justifiable than Austria's forty-eight hours' ultimatum to Serbia in 1914? Each was based upon a crime for which the government addressed was not immediately responsible, and each made humiliating demands to which no sovereign state could agree. In the Italian case the government did not permit the shorter period to expire before beginning the bombardment, though the Greek Government had promptly expressed its deep regret and promised just reparation. And Italy did not stop with the warlike demonstration at Corfu, but proceeded to seize the smaller Ionian islands, to block the Corfu channel and the strait of Otranto with submarines against Greek merchantmen, and to set up her own administration and hoist her own flag in the occupied Greek territories. Both hot-headedness and high handedness are painfully apparent in these proceedings. Let the league hear the Greek appeal and halt them, insisting on holding a strict inquiry and delivering a just judgment. Italy and Greece are charter members of the League of Nations, which was devised to deal with just such difficulties as that which has now arisen. It will be agreed that Greece has been very troublesome, both during and after the war, but there is no justification for Italy's present attitude. Premier Mussolini is playing the firebrand in Europe, and the league should not bend to his dictatorship.

BAY OF FUNDY TIDES

(Christian Science Monitor.) The tide is out; the wet gray stones that form the standing beach now glisten in the sun, and white gulls are circling round. Are watching for the shining fish emeshed in nets and seines. Down at low tide between the rocks all barnacled and mussel-grown. Surprising shells are found—rare pink and lovely shapes. A sunfish whose round back is like a rainbow tinted spider's web. And a green lobster that's been wedged against the rocks. By pieces of a broken net. The fog has lifted and is rolled in small white puffs. Above the soft blue horizon. Now when the tide is in no beach is visible. The green bay stretches full, and surf booms with a deep note against the cliffs. And splashes in a foamy spray high in the air. Hiding the rocks and shoals that border Fundy's shore. Little sailboats bob about on white-capped sparkling waves. Now is the bay more beautiful when tides are high or when they're low? Some one who loves it less more easily could tell. —Erica Austin Selfridge.

IN LIGHTER VEIN

City Guy (condescendingly)—Well, my good man, how are the peas going to be this year? Farmer Hank—Well this year they're agoin' to be round—come tear think of it—they were that way last year too! Topsy Man—Where's Washington street? Citizen—You're on it. "I'm on it. Now how the devil did Washington street get here?" He—Do you know there are germs in kisses? She—Oh! The lovely little darlings! Old Lady—Why, I am shocked! You are smoking. Little Fellow—What do you think I am doing? "Don't you know that a little fellow such as you should not smoke? It will do you harm." "That's all right, lady; I am used to it now." "You should keep away from cigarettes." "I use a cigarette holder." "You had better come along with me." "Sorry, lady, I am waiting for the wife."

TO HONOR THE LOYALISTS

The 140th anniversary of the settling of Upper Canada by the United Empire Loyalists is to be celebrated on a grand scale next year. The U. E. L. Celebration Corporation, 1924, has just been formed at Belleville, Ontario, with a strong group of local officers, and a list of vice-presidents which include Sir Alan Aylesworth, Sir Arthur Currie, Sir Robert Falconer, Sir A. E. Macdonell, Sir Edmund Walker, Sir Henry M. Pellatt, Sir John Willison, Sir Hugh John Macdonald, Sir William Mulock, and a long list of prominent judges, educators, members of Parliament and the Ontario Legislature, Mayors of cities and others. The following patrons have been elected: Sir Henry Thornton, president; Canadian National Railways; E. W. Beatty, K. C., president; Canadian Pacific Railway; Hon. P. C. Larkin, Canadian High Commissioner, London, Eng.; Tom Moore, president Trades and Labor Congress of Canada; and the Lieut.-Governors of a number of the Canadian provinces. Of course all these people are not the descendants of Loyalists, nor will they all take an active part in the celebration. They have been named in the list and their co-operation will be solicited. If this first announcement is an indication of the quality of the commemorative programme it will certainly be of a very notable character. Nor should it be less, if due honor is to be paid to the memory of the United Empire Loyalists.

HIGHEST HONORS TO ST. JOHN DOG

Keltie Wilson's Ridgeway Gamefeather Adjudged Best in Show.

Ridgeway Gamefeather was adjudged the best dog at the fifteenth annual show of the New Brunswick Kennel Club, which was brought to a close last evening. This pointer pup is only eight months old and is owned by Keltie Wilson of this city, who was awarded the president's cup. The vice-president's cup was awarded to C. H. Craft for his English bull dog, which was considered the best of the opposite sex. The presentation of cups and other trophies was made by H. R. McLean. He also presented to M. S. Kilby of Montreal, who made the awards in the non-sporting class, a handsome set of pipes. Referring to the best dog in the show, Mr. Kilby said he was a beautiful specimen and well merited the honor, although there was little to choose between this Ridgeway Gamefeather; 2nd, R. B. Lasky's Crown Ajax. By winning this cup this year, Valentia McLean, of the Ashburn, became permanent owner of the trophy. He won it with one of his collies in 1921 and again this year with the same breed. Mrs. Francis Kerr took the silverware last year with one of her prize bull dogs. The following were the results of the judging: English Bull Dogs. Canadian bred bitches—1st, H. C. Craft's Smiler Glamore; 2nd, Chas. Wills' St. John Smasher; 3rd, R. D. Mays' Lord Byng. OWNER OF POPYRUS IS SURE OF \$20,000

New Terms Give Guarantee in Case Derby Winner Beaten.

New York, Sept. 6.—It is announced at the office of August Belmont, Chairman of the Jockey Club, that copies of the contract for the international thoroughbred race at Belmont Park on Oct. 20, are now on the way to England. Terms for the race, in which Papyrus, winner of the English Derby, will meet the best of the American three-year-olds, have been accepted tentatively by Ben Irish, owner of Papyrus. He will now be asked to sign a formal agreement for the match. The terms which will be submitted to Mr. Irish, who bought Papyrus as a yearling for \$17,500, will differ somewhat from the original proposal, it was stated by Major Belmont. The first plan was to race for a purse of \$100,000, \$80,000 to go to the winner and \$20,000 to the loser. The new terms guarantee to Mr. Irish a flat sum of \$20,000 and his expenses in the event that his horse is beaten by the American three-year-old. The winner of the race will take the lion's share of the \$100,000 purse offered. The new contract was sent to England in charge of C. J. Fitzgerald, a special representative of Mr. Belmont, head of the governing body which engineered the preliminary negotiations looking to the scheduling of the race. Mr. Belmont regards the signature of Irish to the contract as merely a formality. Fitzgerald, it is understood, has been empowered to adjust any minor details necessary when he meets the owner of the Derby winner. Westminster is receiving a coat of whitewash to prevent it from rotting. Phone M. 2152 • • 91 Germain St.

WOMAN SHOPI AFTER GETS THE MAXIMUM

Widow Accused of Heading Band That Stole \$25,000 in Garments.

New York, Sept. 6.—Mrs. Florence Fisher, a widow, who said she was 36 years old and lived at 28 Jane Street, pleaded guilty to the theft of a dress from Lord & Taylor's when she was arraigned in Special Sessions, and was sentenced to a maximum term of six months to three years in the penitentiary. The severity of the sentence followed the statement of a detective of the Stores Mutual Protective Association that the woman had admitted she was the leader of a band of women shoplifters who had stolen cloaks and dresses valued at \$25,000 from the store in the last four months. George J. Clausen, the detective, said that the woman was employed in the store and that investigation revealed that some of the garments stolen by the band had been sold by her and other members of the band and that part of the proceeds had been used by Mrs. Fisher, who is the mother of two small children, to pay alimony to the divorced wife of a man with whom she had been on friendly terms. He said that she told him that her confederates in the thefts obtained the loot with her co-operation and that they carried it away in a series of visits to the store in hat boxes. Mrs. Fisher, it further was alleged, had received half of the goods as her share of the thefts and, with the money she had not used in paying the alimony, furnished her home with many luxuries, including an expensive player piano. She also bought an automobile in which she and her confederates frequently made out of town trips, she said. Clausen said that when suspicion

was directed towards Mrs. Fisher, detectives were sent to her home where they purchased some of the stolen garments from her with marked money. On these visits the detectives learned that she had a daughter 16 years old and a son 14 years old. When she was arrested, Clausen added, search of her home revealed eighty dresses and a considerable quantity of expensive dress material. He said that the daughter of the woman had a wardrobe of gowns valued at \$300. He added that between 250 and 300 dresses and cloaks had been stolen from the firm before Mrs. Fisher's arrest on Aug. 21 last. When she pleaded guilty to the charge, Mrs. Fisher urged Justices Edwards, Nolan and Levine to be merciful. She said she realized that she had disgraced herself and her children and spoke about keeping "bad company."

This Leaves the Arms Free From Hairy Growths

(Toilet Talks)

A simple method for completely removing every trace of hair or fuzz is here given. This is painless and usually a single treatment will banish even stubborn growths. To remove hairs, make a thick paste with some powdered delatone and water, spread on hairy surface and after about two minutes rub off, wash the skin and the hairs are gone. This method will not mar the skin, but to avoid disappointment, be certain you get delatone.

SOMETHING WRONG.

(Richard in Forbes Magazine.)

Within the memory of the present writer, hucksters used to drive through the residential sections of a Southern city singing, "Here's your water-melons fresh and fine; one for a nickel and two for a dime."

The melons were of the best. Chicago women have established a boycott on water-melons because house-to-house dealers, who handle the bulk of the retailing of them, demand \$1 a melon.

This year's crop is large and Chicago is said to be glutted with the fruit, yet \$1 is the ruling retail price and 75 cents is demanded for second-grade stuff. Costs of distribution in this country are outrageously high. Some authorities explain it by the fact that for every three producers there are two distributors.

Lining of Gray Satin. One in Rock Gray has a Mole collar and pocket trim with strappings down from the pockets and almost all over the back.

Viatka Opossum in Black and Gray intertoning forms the collar of a Navy Marvella wrappy coat that ties at left on a large button and has wide columns of stitching pointing high from the hem and topped by three crossed straps. Brocade Satin lining. There is also very much to get to know in Coats.

The newer color range for Autumn extends from Green through Bronze to Brown. Blues in Navy, Royal, Adriatic, then come lighter wood shades, Grays and Blacks.

AMERICANS ACQUIRE 6 ENGLISH PAINTINGS

Lord Glenconner, Who Recently Sold Two by Reynolds, Disposes of More Masterpieces

London, Sept. 6.—The list of paintings by English masters which are to cross the Atlantic has received another addition. Lord Glenconner, whose sale of two fine pictures by Reynolds was announced a few days ago, has now sold to Arthur Rusk, Hopper's "Franklin's Daughter," two Turners, two Moorlands and Romney's "Lady Derby." All of them have found American purchasers, the identity of whom is not announced. Lord Glenconner, who succeeded to his title in 1920, has been induced to thin out his picture gallery, which still remains important, on account of heavy incidence of death duties.

Joha Hoppner, painter of "Franklin's Daughter," was a painter of royalty and the people of fashion of his day. He was a contemporary and rival of Sir Joshua Reynolds, whose style he imitated to a certain extent, though he had individuality. In a revival of interest in the work of the English portrait painters at the end of the last century, it was Hoppner's work, which had not previously been so highly considered, which brought a

FLEISCHMANN'S YEAST FOR HEALTH CONTEST

Prize winning reports soon to be announced—number of contestants greatly exceeds expectations

Every mail brought entries by the thousand to the Fleischmann Health Contest Judges swamped with work ask postponement of announcement for two or three weeks

REPORTS on "What Fleischmann's Yeast has done for me" have been received from every state in the Union, thus assuring a nation-wide participation in the Contest.

And these reports have come from schoolgirls of fifteen and grandfathers of seventy—from farmers, lawyers, teachers, firemen, housewives, business girls—from people of almost every age and in almost every walk of life.

The Contest closed August 15. The judges have been steadily at work ever since—reading, comparing, deciding the merits of each report. But so immense has been the amount of work involved that it will be necessary to postpone for a short time the final announcement of the prize winners.

We are sorry for the judges! But we are much pleased over the results of the Fleischmann Health Contest, which have been astonishing, far exceeding our expectations.

We knew, of course, that the use of Fleischmann's Yeast for health was nation-wide. The report of our field force from every part of the country, as well as our sales figures, told us that, and many letters in the past have come to us to tell us the same story.

But it is a most gratifying and impressive experience to have thousands upon thousands of men and women send in personal reports to tell us how their lives have been brightened by

the use of this simple fresh food, Fleischmann's Yeast; how they have been relieved from constipation and all of its attendant evils—from skin and stomach troubles, from depressing lack of strength and vitality.

"My friends actually stop me on the street and ask me what wonderful thing has happened!"

"It accomplished in six months what I had failed to overcome in six years!"

"I was skeptical when I first heard of it, but today I would not take ten thousand dollars for what Fleischmann's Yeast has done for me!"

Such phrases by the hundreds from people far and wide reflect the new importance of Fleischmann's Yeast in correcting many common disorders and in restoring many of their victims to buoyant health.

The 153 prize-winners will be announced in this publication the latter part of this month. Meantime we want to thank each of the thousands of participants in this great Contest, and to assure them that each report is receiving most careful consideration.

If you have never eaten Fleischmann's Yeast, send for a free copy of our latest booklet, "The New Found Value of Fleischmann's Yeast in Building Health". THE FLEISCHMANN COMPANY, 701 Washington Street, New York.

Officials and employers suspected of having employed gunmen in connection with strikes. His announcement followed the arraignment before Judge Mancuso in General Sessions of Louis Cohen, the youth who killed "The Dropper," as the latter was seated beside Detective Captain Wilkense in a taxicab in front of the Essex Market Court. Judge Mancuso designated State Senator James J. Walker and Hyman Bushel to act as Cohen's counsel when the gunmen informed him that he was without means to obtain legal aid. When he was brought into court from his cell in the Tombs Senator Walker, who is the Democratic majority leader of the Upper House of the State Legislature, was not present. Mr. Bushel entered a formal plea of not guilty for Cohen, however, and, on his request, Judge Mancuso granted ten days in which the slayer's counsel could prepare any motions before the case is definitely set for trial.

Deserted and Dejected. There was a noticeable absence of habitues of the east side when Cohen was called to the bar. It was expected that some of Cohen's associates in the "Little Augie" gang would put in an appearance, but it was evident that the gang had deserted the youth who had defied certain arrest in order to kill "The Dropper." Cohen eagerly scanned those in the courtroom, evidently in expectation of seeing some of his co-members in the "Little Augie" gang who had promised

youth when he was examined after the shooting by Assistant District Attorney James J. Wilson, who presented the evidence to the Grand Jury. District Attorney Banton told Judge Mancuso at the arraignment that Cohen and others arrested in connection with the shooting of "The Dropper" would be brought to trial speedily. He added that it was his intention to enlist the police in a real drive against all gunmen "who think that they can get away with shooting up New York streets."

"Gunmen have got to get out of New York," he added, "and to force them to do so we will have a special part of the Court of Special Sessions set aside to try nothing but 'crimes of violence' for the next month. We will give the gunmen, hold-up men and other rough gentry the same kind of treatment accorded them last year when they tried to take the bit in their teeth."

To Seek Out Employers. "Another thing that I would like to do would be to get the employers of these gunmen—the fellows who hire the gun-toters to 'do up' their adversaries. Such thugs are for hire. I want to connect up the men who engage them and prosecute them and put them behind prison bars. It is a common practice, it seems, when trouble breaks out between employers and unions for somebody on one side or the other to employ gunmen against the other side. As to Cohen, we will entertain no negotiations whatever from him. He is going to be placed on trial for murder in the first degree, and we will try to convict him for that offense. We will accept no lesser plea from him."

Assistant District Attorney Wilson examined several new witnesses during the day in an effort to connect other gunmen with the killing of "The Dropper." It was said that he obtained sev-

Boston Students on Budget System—How They Get Along.

Freshmen students of the College of Business Administration at Boston University are required to turn in monthly accounts, and Professor Charles Stratton, who supervises them, tells of some of the ways and means employed to earn their expenses. The accounts must be balanced accurately enough to pass the reports to the professor, who says, however, that he knows some of them are not absolutely accurate.

The reports throw considerable light on the wide range of occupation adopted by the students. They work as bus boys, waiters, usher, elevator boys, bell hops, clerks in grocery stores and department stores. One student is employed nightly tossing griddle cakes in

a restaurant window. Another has a job which necessitates his standing on a street corner at certain hours of the day and counting traffic for an insurance company. Another youth has to induce his wealthy employer into the mysteries of golf. Several of the students were shown to be engaged in the majority of the jobs mentioned, but the golf instructor was alone in his class.

Jobs in restaurants are in greatest favor, according to the statements which accompany the reports. Here the student is at least sure of his meals and a regular, if small, pay envelope. One freshman, serving as cashier in a restaurant, reports his remuneration as his meals and \$100 a month. His studying he does on Saturday and Sunday, with what he can sandwich in between rush hours.

Regarding the petty expenditures of the students, nickles spent for telephone calls are noticeably thicker in the accounts during the latter part of the week and the chief outlay at all times goes to the motion pictures.

Professor Stratton says that most of his students take the budgets quite seriously, and he believes that they serve their purpose by bringing forcibly before the student the many unnecessary expenditures he makes in a month.

WHAT'S DOING IN THE MONEY AND STOCK MARKETS TODAY

SURVEYS INDICATE REVERSAL OF TRADE

Increased Activity in Basic Lines, With General Conditions Improving.

(New York Times.) Business indications point clearly to the revival of trade during the autumn months, according to the reviews of industry compiled by Dun's and by Bradstreet's. In all lines, according to these reviews, a more cheerful tone is evident, and there has been a particularly robust revival in the basic lines in which raw materials are a long time in the process of manufacture.

Commenting on this situation, Dun's Review summarizes conditions as follows: "Signs point more clearly to a gradual breaking away from the business irregularities still exist, but moderate acceleration of activity has occurred in certain leading markets and generally, as in the effecting of this condition, Dun's list of wholesale commodity quotations shows a decided narrowing of the excess of declines, increased buying activity in some prices and sellers being less disposed to make concessions as the fall season approaches."

"While conservatism continues to govern most operations, with some uncertainty induced by prevailing uncertainties, more interest in forward requirements is noted and September is expected to bring a further quietening of demand. * * * Even with the absence of a full development of foreign commerce, due to the disturbed European situation, aggregate transactions in this country remain heavy and the outlook for autumn is considered promising."

IRON, STEEL AND METAL COMMENT

In its summary of the iron, steel, metal and machinery markets, Canadian Machinery and Manufacturing News, Toronto, makes the following comment in its Aug. 20 issue: "Sentiment during the last week has, in the main, been decidedly hopeful as to the immediate future of Canadian industry. The summer lull is on the wane and fall business is expected to be more active than in the summer. The absence of important developments in the European situation, interest has turned to the home output. On this horizon there is noted a moderate improvement in several important trades. Public buying is apparently again on the upgrade, although slowly."

It would, perhaps, be misleading to say that autumn buying has thus soon given promise of a speedy resumption, and executives, while emphasizing the fact that a stronger demand is apparent in many lines, makes it very clear that caution is still uppermost in the minds of buyers, who are still restricting their purchases to present necessities. In many instances it has been evidenced that the downward trend of prices has been checked, at least for the time being. Steel quotations, for instance, are expected to rule at or near present levels for some time to come. There have been no changes in pig iron during July shows a decline of 17.7 per cent. from the record of the previous month, when 99,238 tons was produced. The cumulative production of 616,798 tons for the seven months ending July 1923, showed an increase of 231 per cent. over the corresponding period in 1922. Ferrous alloys, consisting of ferro-silicon of the various grades, rose to 2,242 tons, a slight increase over June, when 2,185 tons was produced.

An electrical razor has been invented which is said to work perfectly.

PAVE STRIP OF WATERLOO BRIDGE

Commissioner Frink's Plan Adopted—Tenders Opened.

That he intended to change back to horses for short hauls in the Public Works Department was said this morning by Commissioner Frink while the paving of Waterloo street was under discussion at a committee meeting. It was decided to pave a strip 18 feet wide in the middle of Waterloo street, from Goding to Hospital street with asphalt. The contract for the crib work at Indiantown slip was awarded to the New Brunswick Contracting and Building Co. A report will be submitted to a committee meeting. It was decided to pave a strip 18 feet wide in the middle of Waterloo street, from Goding to Hospital street with asphalt.

Waterloo Street. Commissioner Frink reported that he had out \$20,000 left from the estimated cost of the Waterloo street paving and moved this amount to be used as a strip of pavement in the middle of the street, from Goding to Hospital street, 18 feet in width. This was seconded by Commissioner Wigmore.

LOOK FOR ANOTHER BIG DAY'S ATTENDANCE AT THE EXHIBITION

More Judging Completed—Tonight's Events—Notes on the Grounds.

A bright and warm morning presaged another good day at the big fall show, and at noon the people were already beginning to stream through the gates. During the morning and afternoon judging was continued in the horse, cattle, sheep and swine classes, and killing, plucking and captioning were scheduled in the poultry section both afternoon and evening.

Art Display. The art display as usual is in a separate room. The collection of pictures is of a high order and will repay more than a passing scrutiny. The management obtained an interesting collection of hand-colored steel engravings of views in St. John and Fredericton from England, which is almost a hundred years old. These will be sold after the exhibition is over. There are a large number of photographs of school buildings in the province, many of which were supplied by F. Neil Brodie. Seventy paintings, the work of the late Alexander Watson, are on display and form the chief feature of the art department.

More Orphans There. The children from the Catholic orphanages of the city and some of those from the Municipal Home were the guests of the exhibition executive today, and an invitation has been extended to the boys at the Industrial Home for tomorrow.

Norman E. Trimper

Beas River, N. B.—"My back was so bad I could hardly work. I was always tired out and had no ambition; was nervous and dizzy, and everything seemed to worry me. I also had terrible pains in my right side. I felt badly for about eighteen months, and could not do my work as it should have been done. I tried several doctors, and also bought about \$25.00 worth of put up medicines, but I found no relief until I took Doctor Pierce's Golden Medical Discovery and Doctor Pierce's Anuric (anti-uric-acid) Tablets. I have taken two bottles of the Discovery, and four of the Anuric Tablets, and can say that I feel as well as I have felt for the last ten years. I advise any sufferer to give Dr. Pierce's remedies a fair trial. I cannot recommend them too highly for what they have done for me and shall be pleased to answer any one who cares to write to me."—Norman E. Trimper, R. R. 1, Beas River, N. B.

TRAIN COLLIDE IN NOVA SCOTIA

Moncton, N. B., Sept. 6.—A rear-end collision occurred on the C. N. R. near Moncton, N. S., about 10.30 a.m., when freight train No. 476 in charge of Conductor Wrynn and Driver George McKee, which left Moncton at 8.15 a.m., crashed into a passenger train headed for Moncton at 12.30 in charge of Conductor MacKinnon and Drivers Miller and Jefferys.

15 MONKEYS GET 'DRUNK'

Indianapolis, Sept. 6.—Fifteen monkeys in a local park went on a chloroform 'bender' when they were given a bottle of the fluid in their cage here. Two of the animals engaged in a fight and in an attempt to separate them the keeper saturated a piece of cotton with chloroform and held it near the fighters' noses. In the melee the bottle was knocked from his hand. The other monkeys sniffed inquisitively at the fluid and soon all became hilariously drunk. It was some time before order was restored among the former jungle residents.

BEAUTY HINT FOR WOMEN

For clear skin and bright eyes. Take Beecham's Pills.

When food is only imperfectly digested, it gives rise to fermentation, clogs the bowels, and renders the blood impure. This results in dull eyes, muddy skin, blotches, pimples and other disfiguring marks. Beecham's Pills act immediately on the stomach, liver and bowels; regulate them and keep them in a vigorous condition. They are mild, harmless and dependable. They are compounded of remedies of vegetable origin having great medicinal value.

GOOD RACING ON MOOSEPATH TRACK

Three Events Contested Yesterday, but Attendance Was Not Large.

Only a small number of spectators assembled at Moosepath Park yesterday to witness the first day's card of the meet arranged in conjunction with the exhibition. The three classes were run off in a highly efficient manner by Starter James Nell, and the judges, timers and other officials did everything in their power to make the race well worth while for those who had taken enough interest to be present.

Miss Abbie Brino, owned by Ira Scott of this city, won the 2.16 class in a manner which won the admiration of all. Although the time was slow, this little pacer went out in front and stayed there in every heat. The 2.22 class was won by George Moore, three out of four heats. The finish of the third heat was one of the most thrilling of the day, Jack Volo leading the winner of the class by a scant head. In the 2.30 class Cambria won three out of four heats. The winner is a trotter, and one of the prettiest performers seen on a local track for some time.

BABE RUTH GETS 33RD HOMER

New York, Sept. 6.—Babe Ruth hammered out his 33rd homer of the season yesterday in the Yanks' game with Philadelphia, tied Cy Williams for the 1923 home run lead, and regained the batting average lead, which for the past little while has been held by Harry Hallman. Besides all that, the Yankees beat the Athletics, 6 to 3, in a fast game. Hoyt pitched for the New Yorkers and scattered nine regulation wallop to the Philadelphiaans. The Cincinnati Reds lost in Pittsburgh, thereby dropping to four games behind the Giants, who were idle, and allowing the Pirates to come within one game of a tie for second place. The Pittsburghers won 6 to 2, taking the lead in the fifth inning on a wild throw by Luque and then steadily advancing. The Cuban allowed thirteen hits against twelve which the Reds were able to collect for Meadows.

MISS EDERLE STILL BREAKING RECORDS

New York, Sept. 6.—That Miss Gertrude Ederle promises to be the biggest winner for the United States in the women's swimming events in the next Olympic games appears ever more certain than ever before following her remarkable work in the Olympic pool at Long Beach this week, when she set a new world's record for 500 yards in a short pool, as well as smashing her records for shorter distances in the same race, when she won the event in 6m. 42s. GRADWELL SHOWS WELL IN WORKOUT

Promises Speedy Bout in the Arena—Groff and Paris Ready.

Giving a clever demonstration of foot work, free hitting ability and general all-around ring generalship, Willie "Young" Gradwell, who is to meet Johnny McIntyre tonight, thrilled a few spectators at the Arena yesterday afternoon. He is apparently in the pink of condition and is anxious to defeat McIntyre so that he will be in line for a match with Nelder Healey for the championship of the Maritime Provinces. It will be recalled that he

GRADWELL SHOWS WELL IN WORKOUT

won a decision over McIntyre in Halifax about a month ago. Press comment after Leonard fought Gradwell was that he was the hardest man up to that time that the present champion had met. He has boxed with three world champions during his career. McIntyre is preparing for the battle of his life. He knows what Gradwell is like. It means much for Johnnie to carry off tonight's bout, for he, too, is looking for a bout with Healey in St. John. McIntyre is in perfect condition. Groff and Paris are also shaping up well. Groff says the stiffness has left him as well as over tonight. He has trained faithfully since his arrival in St. John and has made many friends in sports circles here. He appreciates that his future boxing career in Eastern Canada depends upon his showing against Paris tonight. Paris, who has returned from a trip to Nova Scotia, is reported to be in excellent condition and has been training hard this week. He has never seen his opponent in action, but his manager has and Gordon has been warned of the vicious left hand punch which made Healey win several times when he met the Western boxer recently. TO SHOW FIGHT FILMS

Chicago, Sept. 6.—Motion pictures portraying the Dempsey-Gibbons fight will be shown in Chicago theatres, it was announced, after Circuit Judge Harry M. Fisher granted an injunction restraining the police from interfering with the exhibition. The judge's decision was rendered after he viewed the pictures in the exhibition room of the local censorship board. He pronounced them neither obscene nor immoral. In his decision he compared the right of free speech, the freedom of the press and the "freedom of the screen" and held all analogous. Immediately after the ruling James J. McGrath, owner of the pictures and his attorney, Louis Plouquet, who brought the petition for an injunction, announced that steps would be taken at once to present the pictures to Chicago people.

MORE WATER FOR WEST SIDE USE

Tunnel From Menzies to Ludgate; Raise Spruce Lake Dam.

Commissioner Wigmore has in mind a scheme to give a much larger volume of water to the west side by the cutting of a tunnel from Menzies Lake and the raising of the dam at Spruce Lake by six inches.

The commissioner said this morning that he had been over the ground at Menzies and had about decided to cut the tunnel. He said that when the city first took water from Spruce and Ludgate lakes there had been a tunnel cut from Menzies but the owners of the latter lake had made them close it up again. Since then Menzies had been acquired by the department and they could do as they liked about the matter.

In connection with the raising of the dam, he said it would be necessary very soon either to repair the dam or build a new one and six inches would be added to the height in either case. Spruce Lake at the present time, he said, was the lowest ever in the history of the department and this six inches, together with the flowage rights, Menzies would remove any possible danger of water shortage.

REDEMPTORIST HEAD COMES HERE

Is Visiting Houses of Order—Father Wojciechowski Going to Rome.

Rev. Patrick Murray, Rector Major of the Redemptorist Congregation, with headquarters in Rome, is at present in Western Canada and is expected in St. John in the near future. He recently returned from Australia after visiting all the Redemptorist houses on that Continent. The Rector Major, who is the head of the Redemptorist Congregation throughout the world, is of Irish birth. He was appointed to his high office about fifteen years ago. After completing his visit to the Canadian houses he will go to the U. S. and there terminate his extended tour.

When he sails for Rome he will be accompanied by Rev. L. Wojciechowski, C. S. R., a young priest who recently completed his second novitiate at St. Peter's Rectory here, and who last evening on a visit to his parents in Milwaukee. Father Wojciechowski is to take up a course of higher studies in Rome and on his return to Canada will become one of the professors at the Redemptorist College.

DAY OF WONDER FOR THE KIDDIES

Orphans of West Side Institution Given Treat at the Exhibition.

Thirty-five kiddies of the West St. John Protestant Orphanage thoroughly enjoyed themselves yesterday afternoon at the exhibition. Through the kindness of several friends they were able to take in many of the attractions. They were in charge of the acting matron and two nurses. To a Times reporter this morning the acting matron said the kindness of many gentlemen at the exhibition enabled those children to miss nothing at the big show. She said she was greatly indebted to the motormen on the street cars in caring for the children and also to the ferry employees.

The exhibition authorities had admitted the children to the grounds free of charge and a policeman and another gentleman had seen to it that they entered the grandstand. In addition to this, through the kindness of other friends, they had been able to enjoy the merry-go-round, the whip, the Ferris wheel, the acro swing, and the dog show. They had been provided with ice cream and peanuts by fairy godfathers and one among them who was taken ill was cared for by the Red Cross ladies. They were given soft drinks and a kind gentleman had taken the kindergarten for a ride on the black pony, much to their delight. Thoughtful acts of many persons at the grounds and in transit had made a day of wonder for the happy youngsters, and those in charge expressed deep gratitude.

As Hiram Sees It

"Look-a-here!" said Mr. Hiram Hornbeam to The Times reporter.

"Didn't you and me agree we wouldn't call one another names any more?"

"We did," said the reporter.

"An' didn't we agree afore we hed any back talk we'd put the bull case afore a judge?"

"We did," said the reporter.

"Well," said Hiram, "you're a reel-footed, slab-sided, lantern-jawed, spay-footed, goose-necked, bearded, turkey-breasted apology fer a chimpanzee. You s'nt fit to be a chambermaid in a sewer. You orto be hung."

"Hiram," said the reporter mildly, "don't you think we hed better adjourn to the judge's chambers before we proceed further with the subject?"

"No, sir," said Hiram—"this s'nt no time fer a judge. Me an' that there Primer Musselmy of Italy hed talked things over an' made up our minds judges was made fer other people—an' not fer us. We kin run our own show—an' we're a-gonto do it, too—By Hen!"
