ST. JOHN GIRL WEDS CAPTAIN IN STATES; THEY ARE NOW HERE

Capt. Hilton Has Had Experience With the German Under-sea Pirates

A wedding of considerable interest to many in St. John was solemnized in the Church of the Incarnation, Philadelphia, on Wednesday by Rev. Mr. Leavis, when Miss Minnie E. Haynes, daughter of Mr. and Mrs. Gifford Haynes of 145 St. James street, became the bride of Captain Charles E. Hilton, of Seattle, U. S. A.

The bride was attended by Miss Mary Sattler and the groom was supported by Doctor Ward Britton. Mrs. G. Howard Johns, an aunt of the bride, gave her away.

The bride and groom arrived in St. John last night.

Captain Hilton, when seen by a Times reporter today, said that he had been through the war some fifteen times, and smiled as he said that he had finally decided to marry a St. John girl.

He said that he had visited in the course of his activities in the mercantile marine service, was, unmistakably, Philadelphia.

In the number of voyages between the United States, England, France and other parts of Europe, he was once

chased by a German submarine, and on another occasion was held up by one. It was on his last trip, said the Captain, "we had just entered the war zone when our steamer, from Philadelphia to England, was held up by the German submarine the U-45. The German wanted oil and we had to give it to them," said the captain. "We were threatened and abused, but fortunately were allowed to proceed after they had looked our vessel over."

Captain Hilton was chief officer on this trip.

Another time a ship on which the captain was acting as chief officer, was chased for fifteen miles by a German submarine. "They gave it up," he said, "as something went wrong with the underwater craft and our vessel proceeded on its way."

Captain and Mrs. Hilton will spend a short time in St. John and will then start on an extended honeymoon trip in Nova Scotia. They will make their home in Philadelphia.

Captain Hilton has followed the sea since he was fifteen and, he said today, he would not give it up now.

FUNERAL OF MONSIGNOR BOYLE

St. Stephen, N. B., March 30—At the funeral of Very Rev. Monsignor Doyle, of Milltown, service was held in St. Stephen's church, Milltown, this morning at ten o'clock. Pontifical high mass was celebrated by Bishop LeBlond, assisted by Rev. F. L. Carney as deacon, Fr. Flaherty as sub-deacon. There were twenty visiting priests in the sanctuary. The sermon was preached by Rev. J. J. Ryan, of Woodville, who presided at the sermon at Monsignor Doyle's jubilee last year. Rev. A. H. Mahan, D.D., of St. Andrews, was director of ceremonies.

The pall-bearers were: P. Casey, Chas. Casey, Philip Milligan, Jas. Heffron, John McCall and W. J. Graham. The church was filled to the doors with all classes and denominations. Business houses and schools were closed, and flags at half mast. Interment in the Catholic cemetery at Milltown.

GERMANS TO MAKE THE POLES ENLIST

Copenhagen, March 29.—Via London, March 30—Compulsory recruiting for the Polish army is evidently about to be introduced in the new kingdom of Poland instead of the voluntary system which has so far produced only a few hundred recruits. Two army corps were fired at last night by Austrian machine calculations when the kingdom was established.

According to Warsaw dispatches to the German papers, a sort of national convention convoked by the Polish council of state has passed a resolution for the organization of the Polish army on the lines on which the Polish legion was recruited.

POLAND'S FUTURE

London, March 30—The Russian government has issued a proclamation to all Poles announcing formally the government's wish that Poland should be itself the form of government it desires. The government takes it for granted that the decision will be for "a new independent Poland, formed of all the three now separate parts."

FIRE

Youngsters playing with matches were responsible for a small blaze this morning in the barn of H. B. Barrett, near the Boys' Industrial Home. They set fire to a little hay in one of the corners of the building, and the framework caught fire. A bucket brigade, composed of some of the boys and residents of the neighborhood extinguished the blaze.

Suffer With Heart For Ten Years Would Nearly Smother

There is nothing that brings with it such fear of impending death as to wake up in the night with that awful sense of smothering. The uncertain and irregular heart action causes the greatest distress of both mind and body. Milburn's Heart and Nerve Pills are the only remedy that gives prompt relief and effect a complete cure in cases of such severity. They strengthen and invigorate the heart, so that it beats strong and regular, and tone up the nervous system so that the cause of so much anxiety becomes a thing of the past.

Mrs. M. O. McCready, Wapella, N.S., writes: "I am not much of a believer in medicines, but I feel that it is only right for me to let you know what your wonderful remedy has done for me, and in a very short time, too. I had suffered terribly with my heart for nearly ten years, could scarcely do any work, and would nearly smother at times. I had many remedies, some only relieving me for a time. I got a box of Milburn's Heart and Nerve Pills and felt so much better that I kept on using them, and can truthfully say I feel like a new woman."

"I would advise anyone with heart trouble to use them."

Milburn's Heart and Nerve Pills are 50c. or three boxes for \$1.25, at all dealers or mailed direct on receipt of price by The T. Millburn Co., Limited, Fredericton, N.S.

Suffered From Severe Headaches FOR TWO YEARS

Headaches are many and varying; but when the head starts to ache you may be sure there is some chief cause. The stomach may go wrong, the bowels become constipated, the blood may not circulate properly, but the presence of the headache clearly shows that unless the cause is removed some other beneficial disease is liable to assert itself.

Burdock Blood Bitters has, for the last forty years, been curing all kinds of headaches and has proved itself to be a remedy that cures where others fail.

Mr. J. N. Petersen, Dnipere, Man., writes: "I am only too glad to be able to state that I derive wonderful benefit from Burdock Blood Bitters. I suffered from severe headaches for two years. I was treated by several doctors, but received no benefit until by chance I heard of B.B.B., and I at once procured two bottles and in a short time I was completely cured. I am, and always will be, grateful for what Burdock Blood Bitters has done for me. I am glad to recommend it to all who suffer from headaches."

B.B.B. is the oldest and best known blood medicine on the market today, having been manufactured for the past forty years by The T. Millburn Co., Limited, Toronto, Ont.

SALE CONTINUED.
The Ladies' Aid of St. Andrew's church held a most successful tea and sale yesterday afternoon at the home of Mrs. B. R. Macaulay, Mecklenburg street, from 1:30 until 9 o'clock. Much of the material was not disposed of, so it was decided to continue the sale. Mrs. R. H. Chipman, Mrs. George McA. Bissart and Mrs. Percy Howard were in charge of the candy table. Mrs. C. B. Allen, Mrs. Tomantoway and Mrs. F. H. White presided at the home cooking table. Mrs. Alex. Macaulay and Mrs. Frank Rankine poured. Mrs. John B. Magee was convener and young ladies of the Ladies' Aid Society waited on the tables.

WHARVES NEED REPAIRS.
Preliminary examination of some of the West Side city wharves has been made by William Murdoch, city engineer. Among recommendations to be submitted to the common council, will be one for the construction of bracing for the under foundation of pier No. 1, and several others along the waterfront. According to the officials of the Eastern Steamship Corporation, their wharf has settled some two feet at the outer edge.

PROPOSED CITY FARM.
A scheme whereby some of the vacant lots on the outskirts of the city could be put under cultivation by the prisoners in the county jail has been suggested by a citizen, and heartily endorsed by Chief of Police Simpson. A large plot could be tilled and sowed by men who were formerly of the chain gang.

TO CHANGE SHIPPING BASE?
According to George M. Drew, engineer for the Pejepscot Paper Company, who was in the city last night, plans are now being considered for transferring the shipping base of the company from the Bay of Fundy to Belfast, Maine. It is supposed that the broadening of the pulp and paper industry in the Pine Tree State is largely responsible for the proposed change. Definite announcement will not be made, however, for another two or three weeks.

47 years of success behind SHILOH

SHILOH is good for coughs—for nearly half a century that has been the watchword in thousands of homes.

Shiloh brings quick relief to an inflamed cough-racked throat. It cuts the dangerous phlegm in croup, eases a hard tearing cough and is the great preventative of more serious troubles. Shiloh doesn't upset the stomach. It is extremely pleasant to take and because of the small dose you will find it, we think, the most economical medicine you ever used.

PROVINCIAL AFFAIRS

The people of New Brunswick are now able to measure fully the reliance to be placed in such newspapers as those which supported the late Murray government. We were told that the government would not resign, that it might not resign, and that if it did resign Mr. Foster would not be called on to form a new government.

It is perfectly clear that Premier Murray and his colleagues did not want to resign. They hung on to office as long as possible. After the manner of the Tory government at Ottawa they were waiting for something to happen and hoping that by some trick of political fortune they might be able to defeat the will of the people. We may be sure, also, and no doubt the evidence will yet be produced, that they tried to make deals, which if they did not immediately serve their turn might at least embarrass the new government. In the end, however, they were compelled to throw up their hands and get out of the game.

It may be taken for granted that the province is in for further revelations of a deplorable nature. There are rumors that the financial condition of the province has been made very much worse during the last few years. One of the first acts of the new government, in addition to a very thorough application of the probe, should be to strike an honest balance sheet, and let the people of the province know the exact financial position. When the people do know all the facts, they will be prepared to give approval in taking whatever measure may be necessary to put the province on a thoroughly sound financial basis, with enough working capital to ensure a progressive administration of the various departments. The burden of responsibility must be placed where it belongs, and if the people find that they must pay for so costly a luxury as the government which they have had since 1908, and especially since 1911, they will be more likely in the future to refuse to be blinded by partisanship.

Premier Foster and his colleagues have assumed a heavy burden of work, and they deserve the most generous consideration at the outset of their governmental career. To apply business methods to the conduct of the various departments will call for radical changes, and it may be hoped that as far as possible they will abolish the patronage system. It goes without saying that there are a great many persons all over the province with whom they will not care to do business, because of the record of those persons in the matter of patronage and graft. One thing can at least be done, and that is to insist that every man who does business with the government shall give an honest return for money received. After a return has been defeated there are always those, with personal aims to serve, ready to approach the new government and present all kinds of arguments in support of their claims to special consideration. The sooner all such persons are given to understand that the members of the government regard public office as a public trust the better it will be for the province, and for the government which has the courage to declare its principles and stick to them. The people of New Brunswick look hopefully to Premier Foster and his colleagues for redemption of the pledges made while in opposition; and the term people include very many who did not vote for candidates of the opposition party, but who are greatly relieved that the old government was defeated and that the province has followed the example of Manitoba and British Columbia.

In the last-named province the premier, who is a native of New Brunswick, is doing all in his power to abolish the patronage system; and Rev. Dr. Pidgeon told the recent Social Service Congress in St. John that from his personal knowledge of Premier Brewster he believed the thing would be done. Sir George Foster told parliament not long ago that he had never discovered in all his long political experience that the patronage system ever brought any permanent strength to a party. The new government of New Brunswick might well take these messages into its serious consideration. It will be assailed at the very outset of its career by influences which if heeded would tend to its downfall, just as they tended to the downfall of the government whose shameful record is now a part of the history of New Brunswick.

THE WAR SITUATION

On the eve of the special session of the United States congress to deal with the question of peace or war, the German chancellor, von Bethmann-Hollweg, made a public statement that Germany never had the slightest intention of attacking the United States, and has no such intention now. He adds, somewhat defiantly, that if the Americans regard the unrestricted submarine campaign as a cause for war the Ger-

mans are ready to face the situation. If we may judge from the correspondence that comes from Washington, there will be no hesitation, when congress meets next week, in taking up this challenge and declaring that a state of war already exists. President Wilson is in conference with his advisers today, and the whole tone of the American press seems to warrant the conclusion that when the president delivers his message to congress next week that body will declare itself in favor of vigorous measures.

On the western front the Germans are now offering vigorous resistance both to British and French, and are reported to be entreching themselves. Both British and French, however, are still gaining some ground, and successfully holding all that they have occupied since the German retirement began. If the Germans have decided now to make a stand, there will be a partial lull until the Allies have brought up their heavy guns, completed their communication lines, and made all preparations for another great drive. All the correspondents emphasize the wanton destruction of everything by the enemy as they retreated, making more difficult the task of their pursuers.

The workmen of the British have issued an appeal to those of Germany and Austria to throw off the burden of autocracy and bring about peace, but they add that they will defend their own liberties and continue the war if necessary to the bitter end. "When we speak to Germans," significantly observes one of their spokesmen, "we keep guns in our hands."

There are interesting reports of unrest in Spain, as a result of food shortages and the alleged pro-German attitude of the government. It is even suggested that Spain may presently find herself in the throes of revolution. The country has been hard hit by the submarine campaign, and its economic condition is a cause of deep concern to the government.

The most significant part of the war news is the call of the British government for more young men. A bill giving the military authorities power to re-examine men previously rejected has passed its second reading by a vote of 178 to 18, which shows that parliament realizes the gravity of the situation. A shortage of 100,000 recruits must be made up at once. Mr. Bonar Law's grave words on this subject are supplemented by Mr. Stewart Lyon, the Canadian correspondent at the front, who tells of the wastage and the absolute need of more young Canadians to fill the ranks. Meanwhile Sir Robert Borden stays in London and his colleagues at Ottawa do nothing. Red-blooded Canadians ought to bestir themselves. This is Canada's war and Mr. Bonar Law points out that "a falling off in recruits might make a difference between real and almost defeat results and a victory that would have nothing like the same effect." Canada must give more men, and there should be no delay.

One of the great needs of the city of St. John is a maternity hospital, connected with the general public hospital. It would not only provide facilities for the complete training of nurses, but it would have a marked effect in reducing infant mortality in the city. The testimony of physicians is that in numerous cases, because of the lack of such an institution, and the ignorance of young mothers of the proper care of infants, many of the latter are sacrificed and pass out of life before they attain the age of one year.

Mr. William J. Bryan is a somewhat pathetic figure. He wants the dispute between the United States and Germany investigated, and is also in favor of a referendum before the nation enters into war with Germany. We can imagine Mr. Bryan, after a murderer had killed his children, inviting the criminal to enter into an amicable discussion of the merits of non-resistance before proceeding to kill his wife and himself.

Many friends in St. John as well as throughout the province will congratulate Mr. Charles H. Eason, the new general manager of the Standard Bank of Canada. In his case ability has received steady and growing recognition in banking and business circles generally.

OVERWORKED MINISTER

Tells How Vinol Restored Strength and Vitality.

St. John people will realize that we could not publish such letters as the following if they were not genuine and truthful statements of facts. The Rev. Mr. Hughes, Holly Springs, Ark., says: "I am a Methodist Minister, and suffered from broken down nerves, loss of appetite and sleeplessness. I was weak, my circulation was very poor, and I was not able to do my duty in my parish as I felt I should. I had tried various remedies but did not seem to get any better. Through Mr. Giddin of Bearden, Ark., I learned of Vinol, and it built me up, I regained my appetite, can sleep better and do more work."

There is no secret about Vinol, it derives its power to build up the overworked, broken-down, nervous system from beef and cod liver peptones, iron and manganese peptones, and glycerophosphates, etc., which it contains. Anyone in St. John who wishes to try Vinol can do so with the understanding that we will return their money if they are not satisfied.

Weakened by Anaemia Doctors Gave No Hope

Said She Was Threatened With Consumption, and Gave Her Three Weeks to Live.

Anaemia is indicated by thin, watery blood. The gums and eyelids grow pale, there is great weakness and fatigue and digestion fails. Since Dr. Chase's Nerve Food forms new, rich blood, it is naturally most suitable as a treatment for anaemia. This letter proves its efficiency in the most severe cases. Mrs. J. Adams, Port Hope, Ont., writes: "About six years ago I was taken with very weak spells and though I consulted with the family physician and used other medicines for two years, I got very little relief and, in fact, continued to grow weaker. I was so weak I could not walk on myself or raise my hand to my head and decided to go to my daughter in Toronto. When examined by Toronto doctors they pronounced me to be in a dangerous condition, threatened with consumption and other ailments and said I would not live for three weeks. One day I was looking

PROF. FALCONER ON SOCIAL SERVICE

It Deals With Child Life and Welfare, Housing, Poverty and Industry—What the Individual Should Do

(Halifax Echo)

The last of the series of important and practical lectures on Social Service, which have been given at the Church of England Institute this Lent, took place last evening, when Rev. Prof. J. W. Falconer, D.D., lectured on "A Social Service Programme for the Individual." His Grace the Archbishop presided.

Prof. Falconer pointed out that in social service, as in other fields, we must ultimately get back to the individual. Not until a community consists of regenerated and consecrated individuals devoted to the service of others, will the community life be thoroughly founded and wholesome. The characteristic of the New Testament is the love of the individual, and our Lord taught the spirit of man as being the ultimate factor.

In the sermon on the Mount, our Lord, our Redeemer, and the duties of aims giving, prayer and fasting are taught. Our duty to our neighbor is set before us in St. Matthew 7, and summed up in the golden rule to do to others as we would that they should do unto us.

Four Great Problems. Dr. Falconer then dealt in an exceedingly able way with four of the great social problems: Child life and industry, housing, poverty, and industry.

The lecturer related the story of the African prince who, after a visit to England, said: "You English people take great care of your goods, but throw away your children." The lecturer pointed out the lamentable death rate among children was due to one or more of the following causes: Malnutrition, poor housing, congestion, lack of knowledge on the part of parents. He was shocked to learn that the infant death rate in Halifax was double that of Montreal, and half as much again as that of New York.

Lord Rosebery has said: "You cannot rear an imperial nation in the slums." One of the reasons for poor housing was the high rents—many poor people having to pay from a quarter to a half of their income in rentals. The lecturer referred to the splendid work done by Charles Booth in the study of poverty. He pointed out that in Britain five millions of the population owned half of the property, while the other half of it was divided among thirty millions. In the United States the wealth of the country was still more unevenly divided.

The problem of industry is regarded by some as the great basal question of all. Christian principles must be applied to this great problem. Under feudalism the Baron lived in the castle upon the hill, his serfs in huts below it. Industrialism had taken the place of feudalism, the capitalist living in the great house, his work people too often in unhealthy and overcrowded tenements. The desire to get gain, too, had led to the employment of women and children at too low wages for too long hours and in unhealthy conditions. It must be remembered that it is labor and capital working together which create wealth. Where is the solution of the problem of industry to be found? In profit-sharing, in socialism in syndicalism?

What can we as individuals do? The lecturer made the following suggestions: 1. Take an intelligent interest in these problems. Why not have one novel

READY SUBMISSION TO THE NEW TAXES

Loyalty of India Shown—Speeches at Closing of Legislative Council Prove Willingness to Share the Burden

London, March 27.—(Via Reuter's Ottawa Agency.)—A special dispatch from Delhi reports the final meeting of the season of the legislative council of India, at which stirring speeches were delivered by the viceroy and members of the council in reference to the new taxation measure and the participation of India in the war. The dispatch says: At the legislative council's closing meeting today several members declared that the manner in which the new taxation proposals had been received was proof of the enthusiasm and patriotism of the people. Great satisfaction was expressed that to further the war effort the raising of railway rates and the participation of the community, although some members deplored the raising of the general rates and urged development of the general industries of the country.

The Cotton Duties

Many of the speakers expressed the grateful thanks of the country to Austin Chamberlain, secretary of state for India, for his "firm and just action" in the matter of cotton duties. They said that the attitude of the Lancashire cotton manufacturers in opposing the Indian tax imposed on the Indian goods was a want of knowledge of Indian affairs.

All the speeches contained expressions of patriotism and loyalty, and voiced the willingness of the people to share the burdens of the empire. Sir William Meyer said he was glad to find that the offer of £100,000,000 to the imperial government had met with practically the unanimous accord of the council. There would be sacrifices in the necessities of ordered government, namely, in education, sanitation, public works, etc., but these sacrifices were trifling compared with those of other countries. Thrown back upon herself, he said, India had already increased the output of her industries a hundred-fold. In fact, he believed the war would prove the date of India's industrial birth. He urged that it was the duty of everyone to subscribe to the war loan.

Alluding to the cotton duty, the viceroy said that a grievance had been removed which had been a long-standing source of irritation, but the whole question of duties would be considered after the war. He added that the imperial government could not, in existing circumstances, do more, but the history of this incident is highly encouraging to India, proving that she had true and staunch friends, and that her interests would be stoutly defended when "the fiscal system comes to be revised."

Alluding to the gallantry and endurance of the troops in Mesopotamia, he said that the fall of Kut marked the nadir of India's fortunes. The Indian army had been bled white in providing troops and equipment for the four fronts; the breakdown of medical arrangements had brought a storm of obloquy on the Indian administration; the hardships of the summer had sap-

ped the strength of the troops, and the sick had poured into India. This, he said, had been remedied. Lord Chelmsford paid a high tribute to the labors of the past and present commanders-in-chief, General Sir Beauchamp Duff and General Sir Charles Monro, who had enabled General Maude's heroic troops to achieve success and victory.

Message from Lloyd George

The viceroy concluded by reading a message from Premier Lloyd George, expressing on behalf of the British government the most sincere gratitude for the magnificent contribution which India had just made towards financing the war.

"Coming in addition to the enthusiasm and loyalty manifested throughout India on the outbreak of the war, and the invaluable military services rendered by the Indian army, the gift is," said the premier's message, "a moving proof that India shares wholeheartedly with other subjects of the crown the ideals for which we are fighting. That India should come forward of her own accord, in this crisis, and render such real and opportune assistance, is not only a source of sincere gratification to His Majesty's government, but must produce a better understanding among all races and peoples under the British crown."

A. P. CONTENTION UPHELD

New York, March 29.—The application of the Associated Press for a writ of injunction restraining the International News Service from appropriating complainant's news at any time prior to publication by complainant's members, was granted by Judge Augustus W. Hand in the federal district court today. As to the right of the complainant to an injunction restraining the defendant from the publication of complainant's news after publication, the court states as follows: "While I am personally satisfied, after giving the matter most deliberate and it is said 'will be the first of its kind in the United States and will deal with which we are fighting. That India should come forward of her own accord, in this crisis, and render such real and opportune assistance, is not only a source of sincere gratification to His Majesty's government, but must produce a better understanding among all races and peoples under the British crown.'"

THE RED CROSS AND THE RUBBER COLLECTION

To the Editor of the Times: Sir—In your paper of the 19th inst., we have read an article in regard to the progress the Red Cross Society of St. John is making in the collection of waste paper, and the benefit the above-mentioned society has of the same. In addition to that, it was widely advertised that the society intended having certain days, which days volunteers will be going from house to house collecting rubbers. This was done on the 24th. Perhaps afterwards, the Red Cross Society will have volunteers collecting rags, bottles and other junk. No doubt it is for a good cause, we admit, because every cent the society gets goes to the benefit of our wounded soldiers who are fighting at the front for our motherland, for freedom and for rights.

When the Red Cross Society started the collecting of waste paper, which is being done by all the branches of the above-mentioned society in the dominion, it had our full sympathy and support as well, because it did not interfere with anybody's business. But as for collecting rubbers and other junk, the leaders of the society and the ladies of St. John must bear in mind that the poorer classes of citizens of St. John, who are also paying license to City Hall, are only making their living by buying rubbers, rags, bottles and junk. Therefore it is not fair to take away bread from a certain class of poor people. Why, if the leaders of the Red Cross Society are after business and want to make money, for a good cause, why not start a dry goods store, a hardware store or a coal yard, of which the leaders of the Red Cross Society in St. John are the honorees? By dealing in coal they would make a big profit by selling it even at \$2 a ton less than the coal merchants of St. John are selling. By doing this, they would at the same time help the poor people by giving them the opportunity of getting their coal supply at less money. But they would not do that, because it would mean competition for themselves. It is a very easy thing to take away bread from the poor people, and no one paid any attention to this fact. The ladies of St. John thought they were saving rubbers and giving them to volunteers, they had done a good thing. The very same thing was advertised in Ottawa a year ago, and it was published in street cars, public buildings, on street corners and in the local newspapers. But all the advertisements were taken off the next day. Do you know why? As soon as the scheme was brought to the attention of some ladies with human hearts, they went immediately to the city officials and explained the matter to them. Consequently the scheme of collecting rubbers was stopped. Why did not the ladies of St. John do the same, after it was published in the paper of the 19th? Are there no ladies with feelings of humanity amongst you? Are you in favor of a disgrace of this kind? If so, we are satisfied as well as we can.

S. COPLAN, SELICK & FREEDMAN.

WOMAN CONDUCTORS

ON BOSTON ELEVATED IF U. S. GOES TO WAR Women conductors may be seen on the Boston Elevated road if war comes. Plans are already under consideration by the elevated officials to meet a shortage of men employees in the event of war.

Among the plans is that of training some conductors for service as motormen and hiring women to replace men on the rear platforms.

A few conductors have already been called out with the 9th Regiment. If the U. S. government should call for large numbers of volunteers, a serious shortage of men employees might result on the elevated.

The elevated intends to be ready for any emergency, and did not hesitate to consider the plan adopted in cities of the war-ridden European countries, the hiring of women for streets car work.

The plan is contemplated, however, only in case of a grave national emergency.

**WONDERFUL SAVING
IN HEATING BILLS**

Demonstrations of "Majestic Electric Heaters" at Thorne's Show Remarkable Results

That a really wonderful saving in heating bills can easily be effected by the use of "Majestic" heat which can be proven beyond question to the large numbers who have been attending the demonstrations of "Majestic" electric heaters being conducted at W. H. Thorne & Co.'s store by a representative of the makers of this remarkable heating device which is the most powerful contrivance of its kind, having three and one-third times the efficiency of any similar appliance.

As the "Majestic" can be connected to any light socket, the simple turn of a switch results in an abundance of pure, clean, healthful heat which can be continued for hours at an outlay of a few cents, doing away with kindling, coal, ashes and soot. The "Majestic" is being highly recommended for household use in health and in sickness alike. With coal at present prices, with infrequent delivery troubles, the "Majestic" in addition to saving fuel expense, is a very great convenience. It is extremely simple and absolutely safe. The "Majestic" which is very moderately priced, comes in various styles from the small portable types to the "Majestic" electric grate log.

Housewives, especially those with an eye to all round economy and convenience, should make a point of attending these demonstrations in the household department of W. H. Thorne & Co.'s establishment.

**SPANISH GOVERNMENT TAKES
FIRM GRIP ON SITUATION**

Madrid, March 29.—via Paris, March 30.—Count Romanones, the premier, at a meeting of the cabinet today, outlined the situation in Spain and announced that all precautionary measures required in the circumstances had been taken in Madrid. "The People's House" had been closed and all the provincial labor-centres adhering to the general strike will also be closed.

At the present time Madrid is quiet and the bulk of public opinion approves the energetic attitude of the government in view of the revolutionary and anti-patriotic character that a general strike would have under the present circumstances.

The men say nothing and equal Zam-Buk for the many ailments and injuries incidental to a soldier's life at the front. It is invaluable for cuts, scratches, burns, sore hands, cold cracks, chilblains, blistered feet, and all skin ailments.

Zam-Buk is antiseptic, and its application to a wound as soon as sustained will prevent blood-poisoning and save suffering.

Zam-Buk has been aptly described as "a dispenser in a two inch box," and every soldier should carry a box in his pocket. All drug stores sell Zam-Buk Co., Toronto. 50c. box, 3 for \$1.25.

POLICE COURT

"Halifax papers will have this tomorrow, quiet and peaceful St. John, with a total of fourteen prisoners before the police magistrate in one day," said Magistrate Ritchie, in dealing with this number of prisoners in the police court this morning. The city treasury is now \$88 richer than it was yesterday.

Daniel Sullivan was fined \$8 for drunkenness and \$32 for resisting and attempting to assault the police when being arrested. Sergeant O'Neill said that he placed the man under arrest in Carleton street yesterday afternoon. On the way over to the ferry the prisoner, it is said, made several attempts to kick and strike the policemen.

The magistrate said that it was a shame for men having to pay hard earned money like this. "But," he said, "the law is making it (meaning the liquor law) now, with sugar and barley and incidentally paving the way for May 1 with private distilleries."

The case of a blue jacket having lost his naval uniform coat was brought to light when Alfred Stiles, of the local naval transport office, charged Charles McDonald with the theft of his coat, a pair of boots and a scarf. Stiles said that on Wednesday he missed his coat and other things from the Hamilton Hotel, the value of which he estimated at \$20. The coat, he said, was recovered, but the boots and scarf have not been. He said he had a ticket for the defendant in Mill street yesterday, and gave the man in charge.

George A. Whitaker, proprietor of the Hamilton Hotel, in Mill street, said the defendant went to the hotel on Tuesday and remained there. He left the next morning after paying for his bed and breakfast. He returned in the afternoon and asked permission to go up stairs and change his clothes. When the defendant came down again the witness did not see him.

A room mate of the complainant in the hotel will give evidence this afternoon. Five other prisoners were fined \$8 or two months in jail with hard labor for drunkenness.

FUNERALS

The funeral of William McCain took place this afternoon from his late residence, Marsh street. Services were conducted by Rev. R. J. McKim and interment was made in Cedar Hill.

The funeral of Samuel Hector took place this afternoon from Messrs. Chamberlain's undertaking rooms. Services were conducted by Rev. R. W. Finkett and interment was made in Cedar Hill.

The funeral of George Smith took place from his son's residence, Red Head, this afternoon. Services were conducted by Rev. Gilbert Barrie, and interment was made in Fernhill.

The funeral of Private Parsloe, a member of the 19th battalion, "Canadian Rifles," took place this afternoon from the Mission church, St. John Baptist. Services were conducted by Rev. Mr. Thompson and Rev. J. V. Young. A firing squad chosen from the members of the 62nd detachment accompanied the body to Fernhill, where interment was made.

J. L. Seldensticker, manager of the Atlantic Sugar Refineries Limited, St. John, returned to this city today after spending a few days at the head office in Montreal. The recent changes in the management of the company there necessitated some additional changes in the organization, resulting in O. C. Bissell, who has been sales manager in the Maritime provinces since the refinery started, being transferred to the Montreal office and made assistant sales manager of the entire Canadian territory. L. R. Wilson, who resigned as general manager a short time ago was elected a director at a meeting of the board of directors held in Montreal yesterday.

Former Manager of Bank of Nova Scotia in St. John Gets High Position

A Canadian Press dispatch from Toronto, received this morning says:—"At a meeting of the directors of the Standard Bank of Canada yesterday afternoon, Charles H. Easson was appointed to the position of general manager to fill a vacancy caused by the death of the late general manager, George P. Schofield."

The new general manager was born in Bridgetown, N. S., in 1871, and entered the Bank of Nova Scotia service here at an early age.

He was successively manager of that bank in Ottawa, St. John, and Winnipeg. In 1912 Mr. Easson became general manager of the Bank of New Brunswick, a position he held until the amalgamation of the banks of Nova Scotia and New Brunswick in 1913. He then became Toronto manager of the Bank of Nova Scotia.

In 1916 he again left the Bank of Nova Scotia, this time to become vice-president and treasurer of Brown's Copper and Brass Rolling Mills Limited, of Toronto.

WINCARNIS gives New Health to all who are Weak, Anaemic, Nervous, Run-down.

THE wonderful results of Wincarnis in cases of Weakness, Anaemia, Nerve Troubles and Run-down condition, are due to the four-fold power that Wincarnis possesses. Wincarnis is not merely a tonic—it is a Tonic, a Restorative, a Blood-maker, and Nerve Food—all in one. Therefore, when you take Wincarnis you derive new strength—and at the same time new rich blood—and at the same time new nerve force—and at the same time new vitality. Thus the whole system is invigorated, and re-vitalised, and becomes surcharged with a feeling of new life. That is why over 10,000 Doctors recommend Wincarnis.

A very important feature about Wincarnis is that you derive a definite amount of good from every dose. And every additional dose gives you more strength than you had before—more rich red blood than you had before—stronger nerves than you had before—and more vitality than you had before. This Wincarnis is not a luxury, but a positive necessity to all who are Weak, Anaemic, Nervous, Run-down—in many cases to individuals—to all established by Old Age—and to invalids striving to regain strength after an exhausting illness. Remember that the health Wincarnis creates is lasting health—not a mere "flash-in-the-pan"—not a temporary "whipping-up" of the vitality—but real vigorous health that makes you feel it is good to be alive. Take advantage of the new and lasting health Wincarnis offers you. Don't suffer needlessly. Remember that Wincarnis has an unrivalled reputation of 30 years' standing. Don't accept substitutes.

Appeal to Teutonic Workmen.
Petrograd, March 29, via London.—An appeal to the workmen of the German and Austrian coalition to rise against the imperial authorities and to establish their freedom, says the Petrograd Telegram Agency (the Russian official news agency) was launched at a mass meeting of workmen, soldiers and deputies held today at the Duma.

The appeal was directed to the proletariat of the whole world, but it especially designated the central powers, urging the workmen of those countries to "throw off the yoke of autocratic rule, as the Russian people have overthrown the imperial autocrat, and refuse to serve longer as an instrument in the hands of kings, capitalists and bankers."

By a united effort, the appeal declares, "we can stop this awful murder, which is the shame of humanity."

March Worst Month For This Trouble—How to Remove Easily.

There's a reason why nearly everybody gets freckles in March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled. Simply get an ounce of othine, double strength, from your druggist and apply a little of it at night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all summer and spoil an otherwise beautiful complexion. Your money back if othine fails.

LOCAL NEWS OF SOLDIERS

Six recruits were secured in the city yesterday: James E. Daley, St. John; Michael James Blake, Halifax, A. S. C.; Albert Thomas Bright, St. John, Canadian Engineers; A. McI. Blair, Rotherham, No. 9 Siege Battery; R. A. Raymond and P. Dick, New Brunswick, No. 16 Field Ambulance Trench.

Small Men in Artillery.
At least the small man comes into his own. It has been decreed at Ottawa that men of five feet four inches and over may now be admitted into siege and heavy artillery units for overseas service with the Canadian expeditionary force. Heretofore a man handicapped by the lack of inches, has been barred from this branch of the service; but now that events have proved the small man is the equal of his taller brother, he will enjoy the same advantages. From this out men measuring five feet four inches in height and weighing 120 pounds, if able to pass the physical examination, will be accepted in any artillery unit.

The name of D. H. McKney, Andover, N. B., wounded, appears in the midnight casualty list.

WAR CABLES OF LAST NIGHT

London, March 29.—The British forces in France have captured the village of Neuville Boujoval, east of Ypres, in their advance towards the Cambrai-St. Quentin line, according to the official communications issued this afternoon. Heavy casualties were inflicted on the Germans. The statement says: "The village of Neuville Boujoval was captured this morning, after a short fight in which the enemy lost heavily. We took a few prisoners."

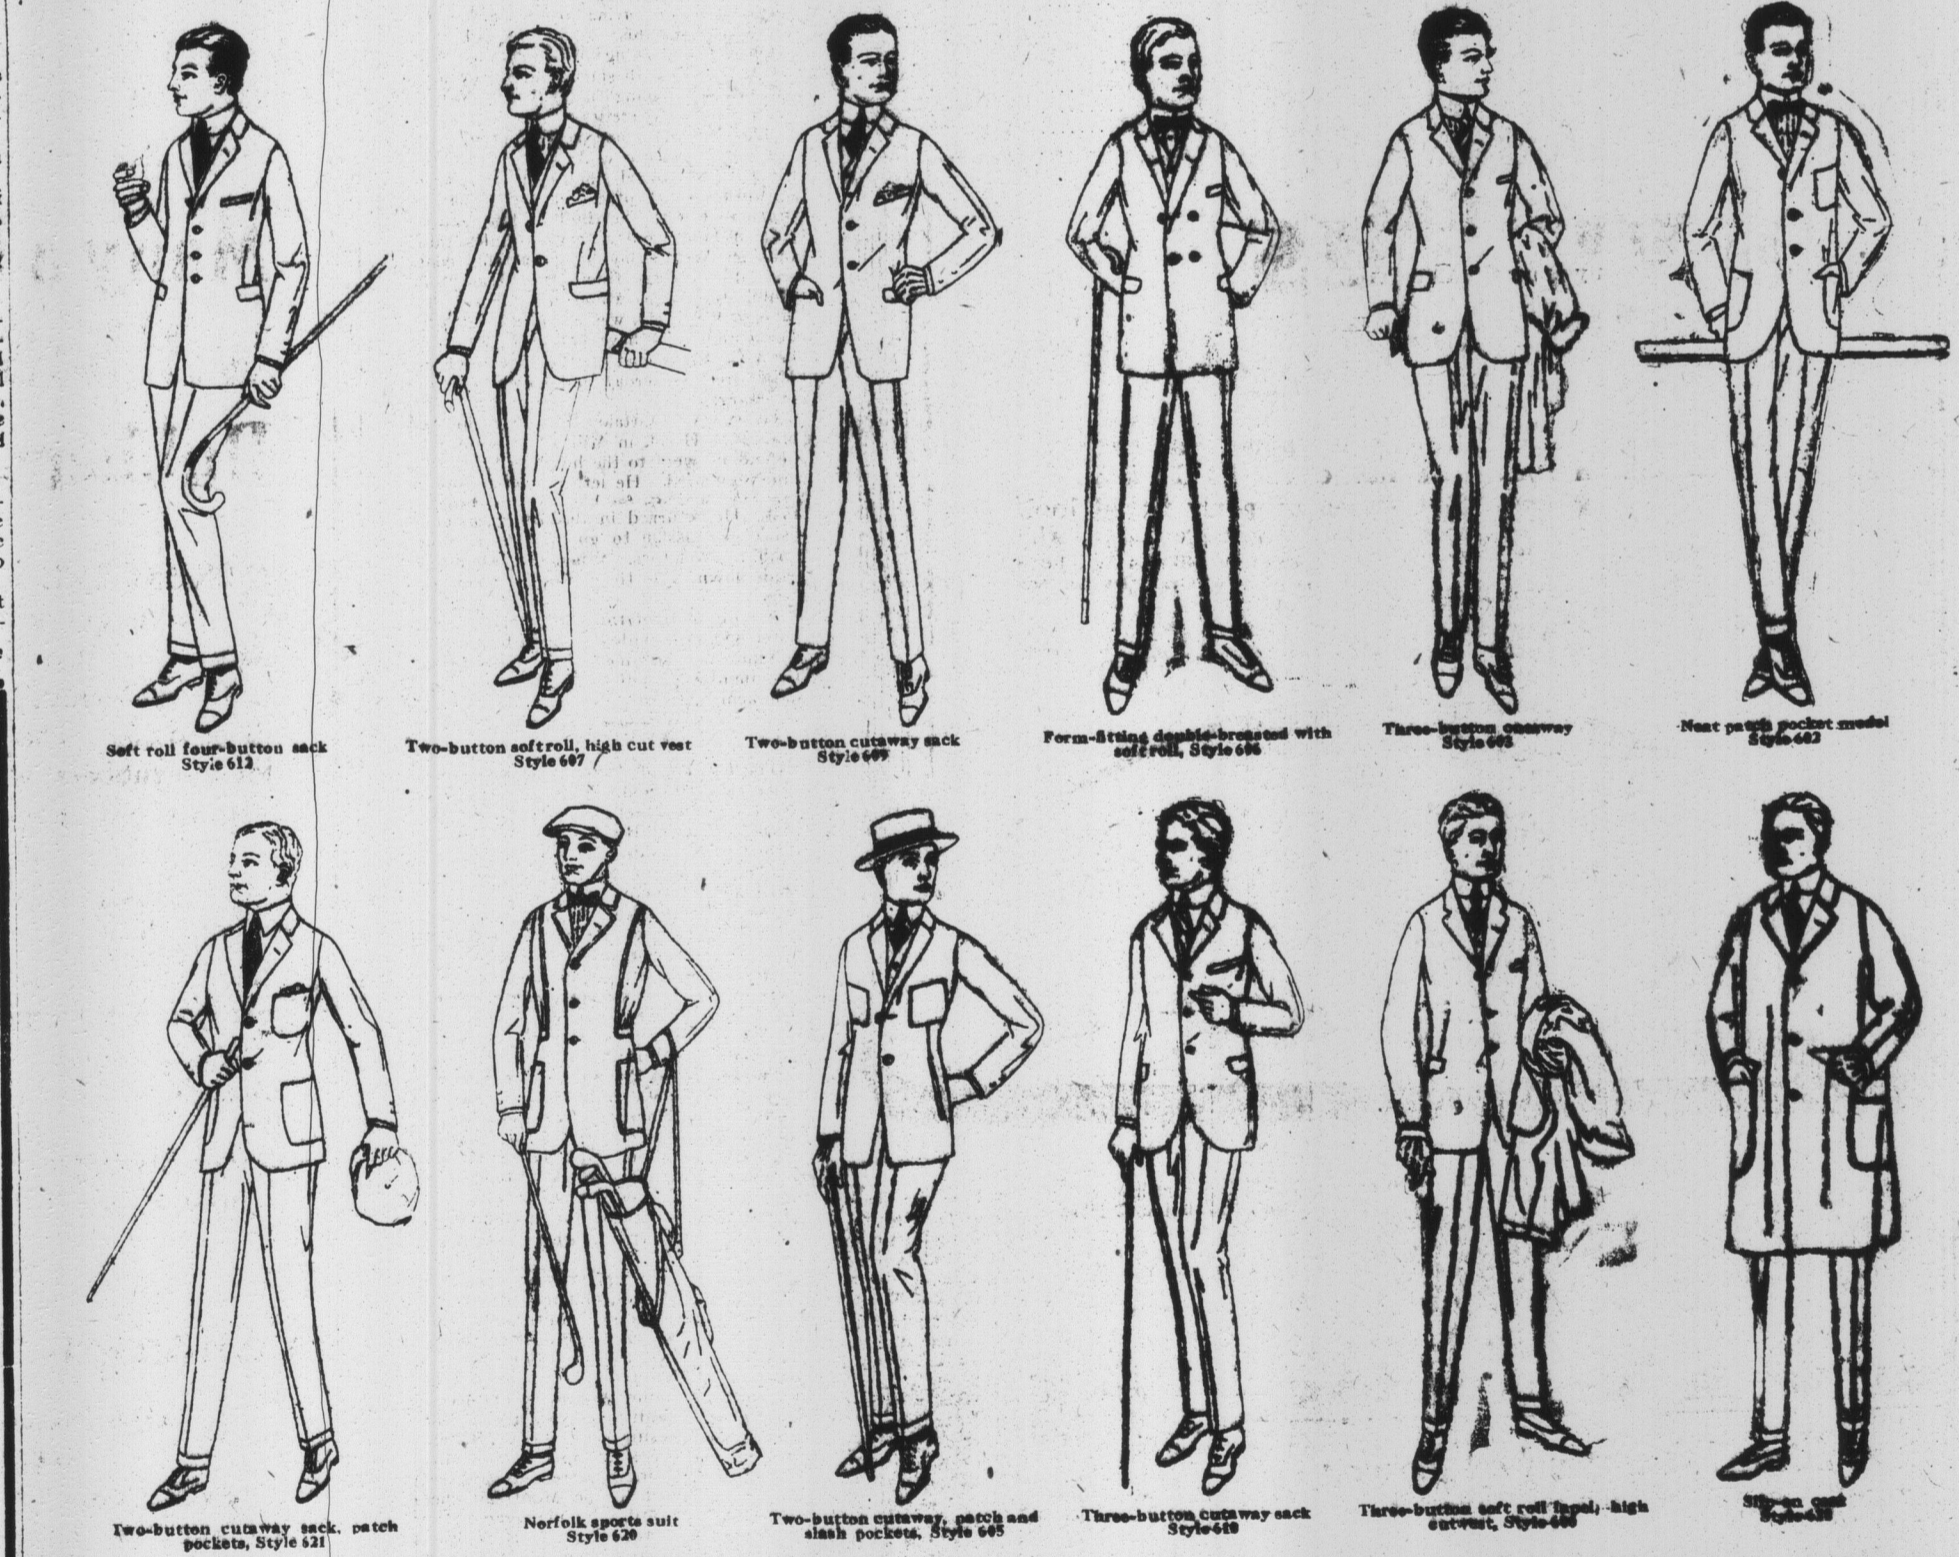

"Our raiding parties entered the enemy's lines during the night east of Arras and in the neighborhood of Neuville-St. Vast and Neuve Chapelle. Several depots were destroyed and casualties were inflicted."

"Two German airplanes were driven down in a damaged condition during air fighting yesterday."

"Three of our machines are missing."

Berlin, March 29, via Sayville.—Germany never had the slightest intention of attacking the United States of America, and does not have such intention now. It never desired war against the United States of America, and does not desire it today," was the declaration made by the German imperial chancellor, Dr. Von Bethmann-Hollweg, in a speech in the Reichstag today. The chancellor made declarations concerning Germany's policy toward the United States and Russia, declaring that Germany had undertaken unrestricted submarine warfare for its defense.

London, March 29, 4:25 p. m.—A bill giving the military authorities power to revoke the examination of men previously rejected for military service, and also of men who already have served and been discharged in consequence of wounds or illness, was moved in the house of commons today, on second reading, by Chancellor Bonar Law and passed by a vote of 178 to 18. The chancellor said the bill was an absolute necessity owing to the military situation. Arrangements were made last August which it was hoped would give the mil-

Doctors Stand Amazed at Power of Bon-Opto to Make Weak Eyes Strong—According to Dr. Lewis

Guaranteed to Strengthen Eyesight 50% in One Week's Time in Many Instances

A Free Prescription You Can Have Filled and Use at Home

Philadelphia, Pa. Victims of eye strain and other eye weaknesses, and those who wear glasses, will be glad to know that according to Dr. Lewis there is real hope and help for them. Many whose eyes were failing say they have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. One man says, after using it: "I was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for 15 days everything seemed clear. I can read even fine print with out glasses." Another who used it says: "I was bothered with eye strain caused by overworked, tired eyes which induced severe headaches. I have worn glasses for several years both for distance and work and without them I could not read my own name on an envelope or the type-writing on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what it has done for me."

It is believed that thousands who wear glasses can now discard them in a reason-

"Chip" Olive Ties Record.

While in competition with Commissioner McLellan yesterday afternoon "Chip" Olive, whose name has been connected with bowling matches since the game was introduced in this city, tied the three string record on Black's alleys. His strings were 106, 121 and 155. In his last string he hit eight spares, set record was held by Clarence Lumney who ran up a total of 382 a few weeks ago. The single string record is held by Private Vincent Kelly, who made a score of 176 last year. Some one told Commissioner McLellan that "Chip" was "has been" and today he is looking for the cheerful gamblers who so informed him.

BASEBALL.

Cubs Will Miss Doyle.

Larry Doyle may not be able to play second base for the Chicago Cubs until July. Doyle, it will be recalled, broke his leg shortly after the Giants had traded him to the Cubs. He reported to Manager Mitchell in Pasadena, Calif., several weeks ago and said that he was ready for hard work. But after taking part in several practice games Doyle pulled up lame. A bone letter in Los Angeles examined his leg and told him to remain idle for at least four months if he wished to avoid a permanent injury. The loss of Doyle will be a severe handicap, inasmuch as Manager Mitchell must supply him at the middle bag with the ancient Steve Yerkes. Doyle also will be missed because he is the captain of the team.

Indians Lose Game.

New Orleans, March 27.—Pitcher A.G. Gould passed five men in succession in the ninth inning in today's exhibition game here and thereby enabled New Orleans to defeat Cleveland by eight to seven. Herbert Kelly, a recent Pacific Coast acquisition of the Indians, hit a home run with one on in the seventh inning.

Diamond Sparkles.

Dallas, Tex., March 28.—The Giants reported here today for today's game with Dallas in a feeble condition after having won from Waco three two, in the ninth inning. Ben Kauff is said to have rediscovered his batting average.

Waxahatchie, Tex. March 28.—Ty Cobb stole home for the natives against Fort Worth, but didn't win laurels at bat. It was his first game. He failed to hit safely in five trials.

Galveston, March 28.—Dolly Gray is the latest White Sox to draw the walking papers. Gray, a former Boston star, has been farmed out to Forth Worth by President Comiskey.

Notes of Interest.

Tom O'Rourke and a Philadelphia sporting man are going to open a big boxing club in the Quaker city.

Although the entries for the National boxing championships, which are to be held in Mechanics' Building, Boston, on Monday and Tuesday evenings, April 9 and 8, closed last Monday night, there are still blanks coming in from various parts of the country. In Tuesday's mail were the entries of a team of boxers from the Majestic B. A. of Chicago. The boys who will endeavor to carry championship titles back to the Windy City are Paddy Clancy in the 125-pound class. Clancy won the Central Association championship in the 108 pounds class in Cleveland in 1915. In the 145-pound class Mickey Krest will be the representative. Krest won the 115-pound championship of Minnesota in 1916. A clerk in one of the leading New York banks is also going to enter. He has been coached by Tom O'Rourke and Bob Armstrong for several months.

Tom McMahon gave Gus Christie quite a whaling in Dayton, O., last night.

Stanley Younkum will meet Mike Smith at Long Island, N. Y., on Saturday night.

Pete Hartley and New York Jimmy Duffy will clash in Brooklyn on Saturday night.

So many little fellows in Australia are eager to become boxers that promoter Snowy Baker of that country has added

members they advised that the present method of assessment remain, namely: "That in the case of a rateable person carrying on business his personal earnings shall be deemed to be a sum equal to that which would ordinarily be paid to an equally competent person for rendering to such business the same services as are rendered by the person assessed."

In the original report the commission shows how the present act fails to secure a full assessment of the higher incomes, and thereby is doing a real injustice to other tax payers, and it cannot recommend its continuance. Fairness demands either the extension of the present method of assessment by sworn declarations to all income tax payers, or else, if this cannot be successfully accomplished, that it be entirely abrogated and another method of assessment be applied to everyone.

The method suggested, but not recommended, by the committee of the board of trade, namely, of estimating income by the rental value of residence occupied by tax payer, is one that the commission considered very carefully before proposing the amendment of the present act.

Through the kindness of the secretary of that commission your commissioners were furnished with a copy of their proposal and gave it a careful consideration but the fact that the rate of

MUST KEEP REGISTER

Proposed Law Governing the Regulation of Lodging Houses in City

This is the proposed law governing the regulation of lodgers in boarding houses, as submitted to the commissioners at their meeting today.

A law to regulate lodging houses in the city of Saint John: Be ordained by the City of Saint John in common council convened, as follows:

1. (1) In this by-law the word "lodging house keeper" shall mean the master, mistress, keeper or person exercising the ostensible control by the management of any house, apartment or building, other than a hotel where a regular register of guests is kept.

(2) The expression "lodger" shall, where used in this by-law, mean the person occupying by himself or in company with another person any sleeping apartment or bed in any room appointed for such purpose in any lodging house.

2. Every lodging house keeper shall keep a register containing the names in full, occupation and place of employment from time to time of all lodgers in his lodging house. Such register shall be kept in the English language and the particulars required by this section shall be plainly written and the information required shall be filled in at the time to time so that the same shall always be correct at the time of inspection.

3. Such register shall at all times be open and available for the inspection of the public.

4. Every such lodging house keeper shall upon demand made by any police constable or city license inspector produce to such constable or inspector the person or persons designated upon such register by any name or names.

5. For each violation of any of the provisions of this by-law the person offending shall be liable to a penalty of five dollars.

6. All fines, penalties and forfeitures imposed and incurred under and by virtue of this by-law shall and may be levied, prosecuted and recovered with costs in the name of the chamberlain for the time being of the said city.

7. The commission in regard to the following amendments and alterations in its proposed act:

Section 2, Subsection (4). Add the following words: "This shall not render liable to assessment any person under the age of twenty-one years in respect of income earned by personal exertion."

Section 4 (c). After the word "dollars" insert the words "and a further penalty of ten dollars for each day after the first day of such default, if the person refuses or neglects to furnish such plan or plans."

Section 6, Subsection (1). After the word "business" in the fifth line strike out the words "and from any other source except real estate and property the income of" and in lieu thereof insert the words "but not from income."

Section 6, Subsection (2). Strike out the words "including gains from the sale of capital assets employed therein."

Section 6, Subsection (2) (a). Strike out the word "and" at the beginning of the fourth line and insert the words "notwithstanding that the capital of such bonds, debentures or scrip are."

Section 9 (1). At the top of page 92 strike out the words "the amount from which it was deducted" and insert the word "it."

Section 9 (2) (b). Strike out the words "the amount from which it was deducted" and insert the word "it."

At the end of section 24 add "the Common Council may from time to time, designate one member of the board to have the special supervision of the tax on incomes, business profits and stocks in trade, or any of them."

After section 27 add the following words "and the assessor designated to have charge of the assessment on incomes, shall take the oath as set out in schedule 'D' of this act."

Form 'D' I, A.B. do swear that I will well and faithfully perform the duties of an assessor for the city of Saint John and also that I will not divulge to anyone whatsoever any information obtained by me as such assessor except in so far as the same may become necessary in the performance of my duties as such assessor. So Help Me God.

St. John, N. B., 29th March, 1917. Respectfully submitted.

ARRESTS MADE IN SUSSEX BURLGARY

Two Taken in Moncton Said to be Absentees From Cruiser Niobe

Moncton, N. B., March 30.—W. G. Asbell, chief of police of Sussex, arrived in Moncton this morning and will leave this afternoon for Sussex with Harry Smith, of Montreal, and Fred Wingate, of London, Ont., who were arrested here yesterday charged with stealing a ride on a train from St. John, and who, on being examined by Chief of Police Rideout, confessed to having broken into the store of Mills Electric Company, Limited, Sussex, on Wednesday night. In Moncton police recovered goods valued at about \$800 consisting of watches, knives, rings, razors and other articles.

Clifford Price, representing the Mills Electric Company, Limited, accompanied Chief Asbell, and today identified the goods.

They admitted being deserters from the "Niobe." The officer commanding cruiser had been notified of the arrest of the men here before Chief Rideout was notified of the Sussex burglary. An escort from the cruiser was sent to Moncton, but the prisoners will be tried in Kings county.

SIX BIG SAILERS IN PORT IN A WEEK

With the arrival of six three-masted sailing vessels during the last week of the coastwise trade has again been revived after several months of inactivity.

Most of the vessels, which came from the United States, brought cargoes of hard coal. Harbor officials say that the opening of the smaller harbors and larger ports to the south have enabled the sailing vessels to resume their coastwise trade and judging from the present outlook, the season will be a busy one.

Milder weather conditions have also had their influence in getting the wooden ships under way from the southern ports.

Philadelphia, though more than twenty miles up the Delaware, and the chief shipping port for the Pennsylvania coal fields, is open all winter, but ice jams are frequent. Ferry boats plying between the Pennsylvania and Jersey shores are frequently damaged by ice, and many of the smaller sailing vessels do not attempt to clear from the Quaker city until the ice is fairly well out of the river.

According to present figures, January has so far been the biggest month of the winter season. Maritime officials feel that the season here will run another four or five weeks and will close with the last week in April.

FAIRVILLE NEWS

Presentation to Mrs. W. P. Dunham—First Butterfly Seen Today

Yesterday afternoon, at a meeting of the junior branch of the Women's Auxiliary of the Church of the Good Shepherd, Fairville, a very pleasing incident occurred when, in recognition of faithful service, Mrs. Dunham, their superintendent, received a life membership in the Women's Auxiliary. Miss Brock of St. John, acting on behalf of the local juniors and diocesan, superintendent of junior branches, made the presentation.

Lough great tokens by surprise, Mrs. Dunham made a suitable reply in which she thanked the junior branch for their kind remembrance, realizing what the achievement meant to them in raising the necessary funds to make the gift possible.

The membership certificate is a beautiful thing in itself, and a gold pin accompanies it. The junior branch of the Church of the Good Shepherd has done excellent work under the capable guidance of Mrs. Dunham, assisted by Mrs. Medley McNeil and Miss Edith Warren, and that the children appreciate the efforts of the excellent leadership they are under, was very pleasantly demonstrated by yesterday's incident.

First spring snow of the earliest signs of the season were noticed in Fairville and immediate vicinity; and it would seem as though the honors would likely go to that section again, for this morning a beautiful butterfly was observed in the sunny grounds of the Church of the Good Shepherd. The specimen is said to have been a particularly good one, bright yellow in color and its finder is naturally proud of it. Another good omen is that the butterfly was found near church property. It must needs be a "good" butterfly.

CHILDREN'S AID SOCIETY WORK

Mrs. W. R. Robinson, secretary of the Children's Aid Society, has been kept active in the last few days. A young girl, committed to the care of the society, was placed in a good foster home this morning by the secretary.

Other cases in which these husbands have been warned for neglecting their wives and families is already bearing fruit. One responded and is making restitution; another is making the necessary arrangements today and the other case is being pressed. One is the father of two children, the youngest one month old and the second has a wife and five children.

A little boy, now in the care of the C. A. S., taken from the North End, will be placed in a good home in the country.

THROUGH SUBMARINE ZONE

Word has reached Sackville that Capt. Milton Ward of that town has arrived safely on the other side after bringing his vessel for the fifth time through the submarine zone without mishap. Capt. Ward left Halifax under cover of darkness about two weeks ago and the news given above is the first word heard from him. His vessel carried a gun, but so far, in the course of his trips he has not been obliged to use it.
