British Trying to Surround the Boers at Wepner, Rouxville and Ficksburg.

Gen- Barton Fighting With a Commando Northeast of Krugersdorp-Doctors Give up All Hope of Capt. Nelles' Recovery.

ALIWAL NORTH, Cape Colony, Monday, Oct. 1.-Gen. Dewet is reported to be a few miles south of Wepener. (in the Orange River Colony, about seventy miles north of Aliwal North). The Boers near here are in a state of reat excitement. All the outpost camps have been called in and preparations are being made to defend the town. A detachment of Cape police engaged in reconnoitering Rouxeville (somewhat less than half way between Aliwal North and Wepener) rode out of one end of the town as the Boers galloped in at the other end. Two mounted Australians were captured. Some of the Rouxeville merchants have destroyed their stocks to prevent them from falling into the hands of

the past month's service it may interest you to know that the battalion has so far completed 1,000 miles of straight marching since its arrival in this country, and that during the last two weeks we have not had a man fall out on the march, although our average was 17 miles a day. The battalion when it reached Krugersdorp, August 22, was very weak, under 400 all ranks, but was certainly in first-class marching trim.

General Hart, on our leaving Krugersdorp, took occasion to express his gratification with the conduct of the battalion and his regret at parting with it, and wished it every good fortune. This expression from an officer of General Hart's stamp I consider a great compliment.

During our recent marches I have tried the experiment of organized singing, and found this to work admirably. I am very glad to be able to report that Capt. Macdonell has re-joined the battalion, after being a prisoner in

that Capt. Macdoneit has re-joined the battalion, after being a prisoner in the enemy's hands since 7th June last. He has appeared before the usual board of officers (imperial) and has been exonerated from all blame. He is looking very well and gives a very interesting account of his experience in the enemy's hands. Although well treated, he still underwent a good deal of privation and physical hardship, with Gen. DeWet's commando."

Col. Otter reports with regret the loss of the following regimental reforms cords: Order books from date of debarkation to February 11, records of officers services, regimental defaulter books, court martial, board of officers, were left at Bloemfontein in charge of a non-commissioned office for safe-keeping, but when Capt. Macdonell came along he undertook to transport them to the regiment, and they were lost when he fell into the enemy's hands at Roodeval, 7th June. The matter will be enquired into.

JOHANNESBURG, Oct. 8.-General Barton is fighting with a Boer commando northeast of Krugersdorp. Several bands of guerillas have re-appeared in that district recently and more are expected. Mr. Edwards, an Englishman, commanding a Boer force, who became prominent after the Jameson raid on account of a rabid anti-British speech he made, has surrendered in Krugersdorp with a few men. A colonial force has gone south to Elandsfontein to clear the Boers out of the Klip Riversberg pass. These hills have been a regular rendezvous

for the burghers lately. The ignorant Boer inhabitants here attribute the fact that the British officers are selling and distributing food to a desire on their part to clear out the stores before they give up the cuntry, but these same people still readily believe and circulate the most absurd stories about the intervention by the powers.

FIERCE TORNADO.

DULUTH, Oct. 6.-A fierce tornado visited this section this afternoon, killing two persons, injuring eight and doing damage variously estimated at from \$200,000 to \$500,000. The damage consists of the destruction of shaft houses, dwellings and business houses. The Austrian settlement of Biwabik suffered severely, twenty houses being blown down.

Tornado conditions prevailed today all over northeast Minnesota. Violent thunder storms were almost continuous. A great amount of rain has fallen. Iron mines which had been flooded by recent rains and which were getting into shape to operate are flooded again in many cases. The funnel shaped cloud passed over B wabik with a power that was irresist ible. It tipped locomotives over, lifted cars off the track and carried them from 100 to 200 feet. They also assert that Messrs. Reid and Morine have entered into a combination for this express purpose, and that the latter's promise to resign the post of counsel to the former is not an adequate safeguard, considering the great interests involved.

It is generally understood that the Reid enterprises will be capitalized at

Hon. Messrs. Blair and Pugsley Took Part in the Proceedings - Mr. Emmerson Explains Why He is a Candidate.

MONCTON, N. B., Oct. 8.-The liberal convention for Westmorland met here today and unanimously nominated ex-Premier Emmerson as their candid to oppose Henry A. Powell, the pre-nt member. There was a good attendance and considerable enthusiasm. Hon. A. G. Blair, who was in fown on his way from Ottawa to St. John, addressed the convention briefly and told a hopeful story of the position of the party throughout the dominion. Tonight a ratification neeting was held in the Opera house and addressed by candidates Emmerson, Attorney General Pugsley, C. W. Robinson, M. P., and John T. Hawke. The chair was taken by A. H. Jeness and the convention delegates occupied seats of he platform. Hon. Mr. Emmersonullas received with applause and cheers.

Mr. Emmerson did not undertake to discuss political issues, but would ex-plain why he was a candidate. A person with his experience in the political whirlpool might naturally desire to get into the eddy and even to a place of rest, but though the place of retirement had been within his grasp he had not chosen to accept it. He was firmly convinced that the Laurier government would be sustained, but felt that it was desirable to send a strong contingent to Otlawa to strengthen Hon. Mr. Blair's hands, hence he was a candidate. He be-lieved the maintenance of the Internoionial ever of paramount import-nce, especially to Moncton. The Candian Pacific had jealous eyes upon the Intercolonial, and would have had possession before this if it had not seen for the change of government. Hon. Mr. Blair had done more for Moncton than any other minister of railways, but there were still greater things in store if only the liberals were retained in power. The government had a large surplus, and one of the planks of his (Emmerson's) candidature was that the increased receipts of the railway should be distributed among the working men. Though the cost of living had increased, the wages were the same as years ago, and he had heard so many harrowing tales of suffering among the working men that Il the tender feelings he had simply ushed out in their behalf. He would not prophecy, but he'd gone into the

Hon. Mr. Pugsley followed, paying some attention to Hon. Mr. Foster and Dr. Stockton's candidature in St. He said he had parted com-John. pany with the conservatives at the '96 election, and the people were not so much interested in what views a man held at different times so long as he was honest. He had opposed the conservative candidates in St. John in '96 because they were lending themselves free people. He did not ask the people to support the government because it was liberal, but because it was as good, honest and patriotic a government as ever existed. Referring to the C. P. R. business, he said Mr. Shaughnessy's contention was that the government should restore traffic through St. John and he gave Mr. Blair the credit for daring to stand up against that great corporation. They were putting a pistol to Mr. Blair's head and it was the duty of the people to send at least ten or eleven liberals to support him. The people ought not to grow panicky about the temporary loss of the C. P. R. business, as there was many times as much traffic in the other direction.

John T. Hawke declared that the government dismissals were justified, and that if there was one weak point in the liberal policy it was that they did not introduce the spoils system. C. W. Robinson, M. P. P., spoke last and briefly, and the meeting broke up with cheers for Mr. Emmerson, Premier Laurier and the Queen.

The latest reports leave no doubt of the loss of all New Brunswick fishermen missing at the time of the storm off the P. E. Island coast last month. Several bodies have been washed ashore, but it is feared the majority will never be recovered. The death roll now amounts to 46, of whom 27 belong to Caraquet, 16 to Lameque, and three to Shippegan, all in Gloucester county. It was the most terrible disaster of the kind on record in this province. The ill-fated men are all French Acadians and many leave large families.

LOOKS LIKE MURDER.

WINNIPEG, Man., Oct. 8.-At Boissevean on Sunday the bodies of Jacob Smith and Charles Daw, two farmers who have been missing since July 31st, were discovered in an old well on Daw's farm, where they had been covered with earth, stones and brush.

A few days before they disappeared young man named Walter Gordon arrived from New Mexico and bought both Daw's farm and Smith's stock. stating that he paid \$5,000 to Daw and some \$700 to Smith. Both men disappeared some days afterwards, when it was stated that they had gone to the Brandon fair. Not returning for several weeks, enquiry was begun and has since been going on. The man Gordon also disappeared on Sunday last, when he found detectives were working on the case.

Mr. Blackmer is the result. preparations were going on in the court room for a preliminary hearing on charges brought against him for assault with intent to commit rape on a ten-year-old daughter of Geo. Chapman. Before the hearing had opened. Blackmer arose from his chair, took a revolver from his pocket and fired a well directed shot into his forehead. The ball lodged at the base of the brain and all efforts to remove it have proved fruitless and it is believed that his death is only a question of a few hours. Blackmer is 60 years of age and married. He was a member of the First Vermont Cavalry durbecause they were lending themselves ing the civil war and was adjutant general to one of the greatest outrages ever of the G. A. REMARKABLE DEATH.

NEW YORK, Oct. 8 .- Mrs. Uswald. of 211 East 48th street, was suddenly awakened early this morning by a crash through the ceiling of her room. A man dangled through the break in the plaster. An investigation showed that he was dead. The police theory is that in walking across the roof of the building the man's weight caused him to break through and he was killed by the descent. The body was identified as that of Thomas Goodsill, 65 years old.

THE COAL STRIKE.

President Mitchell Issued His Call Yesterday for the Miners' Convention.

The Big Conference Will be Held in Scranton on Friday - Expected the Men Will Accept the Increase and Return

PHILADELPHIA, Oct. 8.—President Mitchell issued his call today for the much talked of miners' convention to consider the operators' offer of a ten

per cent increase in wages.

The convention will be held at Scranton and will open on Friday next. Representation in the convention will be on the basis of one delegate with one vote for each 100 persons on strike.

It is the general expectation that the decision of the convention will be to accept the increase and return to

Quietness prevailed throughout the anthracite region today, the call for the convention being generally accepted as a signal for cessation of hostilities all around. There were many expressions of satisfaction by miners and operators, and by merchants and others in the mining section today over the prospect of an early settlement of the troubles.

The miners will have parades and mass meetings at Shamokin and at Scranton on Wednesday. President Mitchell will be in attendance, and is expected to speak at both places.

HAZLETON, Pa., Oct. 8.-The issuing of the call today by President Mitchell of the United Mine Workers for a joint convention of the anthracite miners to be held at Scranton beginning next Friday for the purpose of deciding whether to accept or to reject the ten per cent net increase in wages offered by the operators is a long step in the direction of bringing the great coal miners' strike to a close. Genuine satisfaction was expressed by both miners and persons not directly connected with the coal industry that the contest is approaching an end. Business throughout the entire anthracite coal field is practically at a standstill, and it will take some time before normal conditions will again prevail.

It is believed the convention will not be a long one, as it is expected the strikers will almost unanimously accept the advance in wages. There is. however, a possibility that by the introduction of a proposition to abolish the sliding scale and another to have the operators agree to a yearly scale and another to have the operators agree to a yearly wage contract, the termination of the strike might be

somewhat delayed. None of the operators who could be seen today would have anything to say in regard to the convention call Most of them preferred to wait and see what action the convention will

Some of the local unions in various parts of the coal field have selected their delegates to the convention and many of them were in session tonight for that purpose. President Mitchell will leave here tomorrow morning for Shamokin, where a labor demonstration is to take place in the afternoon. On Wednesday he will go to Scranton to take part in a big mass meeting and parade of miners on that day and will remain there until the convention adjourns. He will then probably return to Hazleton.

CHINA SITUATION.

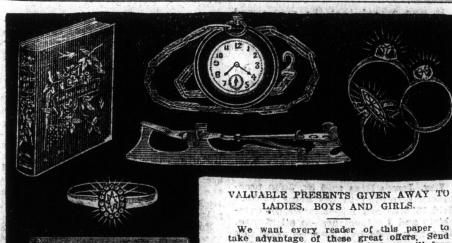

LONDON, Oct. 9.-The Times publishes a report that Emperor Nicholas recently decided to recall the Russian troops from Manchuria after Mukden had been occupied.

LONDON, Oct. 9,-The Shanghai correspondent of the Times, wiring Oct. 7, says:

"It is reported that French troops hold Lu Ko Chiao on the Lu Han railroad. The Russians and Germans hold the Pei Tang forts and have also taken Tong Shan and the Kai Ping mines, thus monopolizing the coal supply in Northern China.

"It was expected that Count Von Waldersee would maintain an even balance between the powers, whereas the actual result of the operations places all the strategic positions in the hands of other nations. A strong feeling prevails that the situation is daily becoming more gloomy."

Arrangements Made to Secure Consolidation of Synod Funds - Next Synod Will be Held in St Andrew's Church, This City

CHATHAM, N. B., Oct. 3 .- Much of the time of the synod today was taken appointment of a synodical secretary for Sabbath school work. Rev. D. Stiles Fraser, the convener of synod's committee, explained that the general assembly has discussed a scheme of appointing men in each synod with special training to care for the Sabbath school work and to direct it. The matter had been sent down to the synods that they might express their opinion on the general principle, the details being left for later consideration. The general assembly's report showed serious disease in the Sabbath school department. The scholars were fewer, and the schools even were decreasing. Much of the work was very inefficient. The cause of the trouble really lay with the teachers, who are often incapable of interesting and instructing the restless minds of the young. It is necessary to undertake some systematic work in the way of training teachers, and a man with pro-

ing of teachers should be done by the pastor; Rev. Mr. Wright by the presbyterial conventions. Mr. Fotheringham replied that the

secretary would gather the teachers into one body, organize them into associates and institutes and give the present system unity and strength. Mr. Fraser, replying, said the pastors and inspection.

Principal Pollock pointed out that the arts classes in Dalhousie were by much larger than ever, and urged ministers to press upon young men the needs of the church and their native land. Synod accordingly "instructs ministers to keep the need of the church before the minds of young men and to seek candidates for the ministry."

The new library building remains with a debt of less than \$4,000, of which \$1,500 are covered by subscriptions, leaving but \$2,500 to be yet found, all of which is a remarkably good show-

Prof. Gordon gave in the report on religious instruction in the public schools. He said that in New Brunswick the law was that teachers might, when it was agreeable to trustees, read the Bible without comment and lead the children in the Lord's prayer or teach the texts. He said that the schools in the city of St. John largely availed themselves of the liberty given, but in Miramichi presbytery the country parts only did so. The law was generous, but the people either did not know their privileges or did not care to exercise them. Synod agreed to F. M. LORD ROBERTS, urge the people as far as practicable to secure the legal amount of religious instruction, and to instruct ministers to further the matter by consulting with the ministers of the other denom-

home and foreign missions. Rev. Thos. Stuart of Dartmouth, the new convener of home missions, made an intensely interesting report. He emphasized the misfortune threatened through the lack of men to man the fields. The generosity of the church towards home missions has grown steadily. In 1876 29 cents per family were given; in 1890, 49 cents per family: in 1900, 54 cents per family.

Rev. James Ross said St. John presbytery employed in the home mission field 13 ordained missionaries, 10 catechists and 2 colporteurs-in all 25 men. Two new fields had been occupied this summer in places where no other churches had services, and one of them on Lake Temiscouata, had already given \$100 to the century fund.

Mr. Greenlees of Belle Island, Newfoundland, in a capital speech told of his going to the iron mines there in connection with Sydney. When he landed, the Roman Catholic priest en-

eting 38 Presbyterians were ent. The collection was \$14. During the summer a church had been built for \$1,100; \$500 were given in St. Johns Newfoundland, the rest was raised o the field. In connection with foreign missions, Dr. Falconer, the convener, announced that Rev. Geo. A. Sutherland had accepted the call of the church to mission work in Demerara in the place of Mr. Cropper. Mr. Cropper is combining mission work with government work, and thus we have three mission aries in the field. Also, Miss McCully up with the discussion of the proposed of Truro, recently a missionary in China, is to go to labor in our field in Corea, her friends still supporting her

> Dr. Morton, missionary to Trinidad, said that the mission to the New Hebrides had had a potent influence upor the other fields. The Trinidad mission sprang naturally from it, for Dr. Geddis had been his inspiration to missionary work. Trinidad and Demerara are Indian missions, and India, containing as it does the whole of the great Hindoo system, lies as a special duty upon the churches of the empire. India is the great problem both for the empire and for the kingdom, Trinidad and Demerara furnish near at hand for the Presbyterian church of Canada the opportunity of doing something to solve this great problem for the empire and Christianity.

Robertson and Infantry Duncan School Men Arrived Here

Duncan Robertson, of the first contingent, whose failure to arrive home Tuesday disappointed so many of his friends, came in Wednesday on the Quebec express and found a weicome none the less warm on account of its postponement. A large crowd assembled at the station and greeted their returned friend with cheers and hearty hand-shakes. He was escorted from the car by Mayor Daniel and car ried on the shoulders of the boys of the Neptune Rowing club to the barouche in waiting to take him to his home on Germain street. He was cheered as he left the station and passed through the gayly decorated streets, and at his home another crowd greeted him no less heartily. Private Robertson has entirely recovered from his severe illness and looks none the worse of his trip.

On the fast express from Halifax yesterday afternoon two more of the invalided boys arrived in the city unexpectedly, so no crowd was present to welcome them. Mayor Daniel and Col. McLean, who have always been the first to greet any of the returnand associations would work as usual, ing soldiers, were, however, on hand, but the secretary would give system gave them a warm welcome and conducted them to the Grand Union where they spent the night.

Sometimes it costs hundreds of dollars to convince a man; very often less is required, but in the case of Nerviline that sovereign remedy for puin, 25 cents foots the bill, and supplies enough Nerviline to convince the purchaser that it is the most prompt and certain pain remedy in the world. It is good for all kinds of pain, pleasant to take and sure to cure cramps and all internal pains. It is also nice to rub on, for it has an agreeable smell, quite unlike so many other preparations which are positively disagreeable to use. For general use as a family remedy Nerviline has no equal, and no household should be without a bottle ready for use at all mes. A single trial is all that is necestry to establish its value. A few drops Nerviline taken in hot water will break a sudden cold. "MINISTERS OF RELIGION were only permitted to attend once a month, though the Wesleyan and Congregational ministers, who have proved true friends to the British in these trying times, were anxious to visit them more frequently. The names of these gentlemen are the Revs. H. W Goodwin and Bates. I regret to say that the Rev. J. Godfrey, the sole representative of the Church of England in Pretoria, appeared to value the safety of his position more than duty as a clergyman, and, after the escape of Mr. Churchill, withdrew from religious services for the officers, and wrote a letter which they considered both improper and insulting. Mr. Godfrey is a clergyman ordained at Cape Town, who had held (according to Crochford) curacies in South

I went about 20th February to Waterval, where I found Dr. Haylett, and, in company with him, I inspected both the camp and the hospital. In the camp I found the prisoners housed in sheds built of strips of corrugated iron, open towards, the front, and by reason of the correstedthe iron sheets being old, letting in the rain through the roof. The central road being higher than the floor level of the sheds, the rain water drained into them. The men consequently in wet weather (and this was the rainy season) were lying in water. It was stored in large tanks, and I found men were in the habit of drinking indifferently from the drinking water tanks and washing water tanks, and also of using the drinking water tanks to wash their clothes in. The prisoners' clothes were in rags. Some being without trousers-others without coats or boots. The food supplied to the men was quite insufficient. The result was that the men became very weak and liable to disease, and I had to admit several men to hospital simply from weakness from want of proper food. THE LAST NAMED GENTLEMAN was one of the witnesses examined by the court. He described, in detail. the absolute lack of sanitary arrangements at Waterval.

Dr. Veale, questioned by the court, denied responsibility for the medical and sanitary arrangements for the Waterval prisoners. "I do not," he said, "consider that I had any responsibility whatever, and my only connection with the hospital was that I was practically a supplying chemist, and Dr. Havlett drew his medicines through me.'

Sergeant S. Dudley, 18th Hussars, said the latrine trenches were within about 20 yards of the huts in which the men slept. When the prisoners arrived there were only two for the and employes of the Emmerson two use of about 3,000 men.

EISHOP COURTNEY IN AUSTRALIA. His Lordship Hailed as a Grand Speaker and a Fine Man-The Synod Rose to Greet Him.

(Halifax Herald.) Extracts from a letter received from Sydney, Australia, by the last mail, written by a Nova Scotian:

"I was at the cathedral here this morning and heard the Bishop of Nova Scotta preach a grand sermon. I have heard him preach twice and speak at two meetings. preach twice and speak at two meetings. On Friday night he was advertised to speak in the Town Hall, which was crowded with between 4,000 and 5,000 people. He kept the attention of the whole house all the time, and was enthusiastically received. The chairman had to remind him that his time was nearly up, still the went on, and fin-ished a splendid speech amid great ap-plause. He is no doubt a splendid speaker, plause. He is no doubt a splendid speaker, and I was proud of Nova Scotia, for though there were twenty bishops here, none had the attention of the audience more than Bishop Courtney. On Wednesday, when the bishop rose to address the synod, the whole synod rose to greet him. So you see he is appreciated here. He is a fine man in every His Lordship's Address to the Church

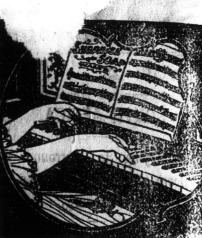

Synod.

The following is from the Sydney Herald:
"The Bishop of Nova Scotia said he conveyed from Canada and the United States a message of greeting to the church in Australia. When he looked back upon the country he had just left, and then remembered the events that had resembly occurred. bered the events that had recently occurred in South Africa, he could not help recall-ing the fact that Australia's example in raising the first contingent suggested to Canad o raise a Canadian contingent for South Africa—(applause)—and to supplement that by a second and third contingent, enhanced by the magnificent patriotism and generosity of Lord Strathcona, who had raised a splen did body of cavalry at his own expense. The Canadian and Australian boys had stood shoulder to shoulder with the Imperial troops, and by God's grace had established the right of England to establish that rule of justice consistent with their inborn sense of liberty in a country that for some time had been administered in a very opposite sense and temper. When he thought of how the Canadian ranchman and the Australian ranchman had managed together to show to the old country and her soldiers some of the advantages of their different modes of the advantages of their discreti modes of scouting and warfare, by means of which reverses had been avoided and disasters put on one side, he could not forget that the Canadian church and the Australian church were engaged in a warfare for a still more glorious monarch, and for the attainment of nothing less than the kingdoms of this world being brought into the Church of world being brought into the Church of Christ. It might be that these two new churches might show to the mother church from which they sprang the new policy by which success might be at last achieved. which success might be at last achieved. There was a great co-operation possible between Canada and Australia. The meetings they were now holding would be a power for good in the future. Additional people would take an interest in their work, and the interest of those now laboring would be deepened and intensified." (Applause.)

WANTED-A TANTALIZER.

(Toronto World.) The latest about George E. Casey, M. P. for West Elgin, is that he will be appointed postmaster of the senate. Dominion archivist will be Dr. Hannay, editor of the St. John Telegraph, whose military and historical works are of exceptional merit. The genial doctor would certainly be an acquisition to the civil service staff, but one had gained great headway. Reference wonders what S. D. the By-election on Saturday.

Mr. Ryan Had a Majority of Two Hundred and Forty-two:

MONCTON, Oct. 6.-The by-election in Albert county today resulted in the election of S. S. Ryan the government candidate, by a majority of 242, nine than Hon. Mr. Emmerson defeated Mr. Peck by in the general election last year. The vote at the last election was: Emmerson, 1,355; Osman, 1,346; Peck, 1,122; Trites, 1,109.

The election was hotly contested, Premier Tweedie and ex-Premier Emmerson and others taking part in the interests of the government candidate. The lists were padded with the names of over one hundred non-residents who have no property qualifications whatever, and in Coverdale alone about fifty votes of this class were polled, all who offered, with one exception, taking the qualification oath on the advice of the member of the government. These non-residents included I. C. R. employes and officers price bridge building concern, who were driven over from Moncton in wagon loads. In one case, when the oath was read to the voter of this class, he said he would not take it, as he did not own any land in Albert county and was not qualified, but a brother of the government candidate persuaded him to take the oath, saying it only meant that he was the person named on the voters' list. Under the circumstances and considering the desperate nature of the campaign conducted by the government party, the conservatives are well satisfied with

the result. Application is being made to have faggot voters struck off the list so that they cannot be polled in the approch-

ing dominion elections. The complete returns for today's

SIR CHARLES TUPPER

And C. H. Cahan Given a Most Enthusiastic Reception at Pugwash on Saturday.

PUGWASH, N. S., Oct. 7.-Sir Charles Tupper and C. H. Cahan, the conservative candidate for Cumberland, held a meeting in Pugwash, Cumberland county, Saturday night. Sir Charles was met at Pugwash Junction by a reception committee, and on the arrival of the train at Pugwash was escorted to his carriage, where he was cheered again and again by the large crowd at the station. The horses were taken out and a large number of old and young men lined up and dragged the carriage containing Sir Charles to Mr. Wilson's house. The streets were decorated with bunting. A happy incident occurred at the station, when old "Uncle David Reid," one of the oldest men in the place and one of Sir Charles' oldest supporters in the county, was lifted up by the crowd and placed in the carriage alongside the leader. During the meeting, which was attended by 2,500 people, Sir Charles Tupper was presented with an address. In acknowledging the address he had to wait for some minutes in order to let the crowd, which had risen to its feet, finish cheering. He thanked the liberal conservatives of Pugwash for the enthusiastic reception which they had given him. He evidently held a warm place in their affections yet. In conclusion, he assured the meeting that wherever he had been throughout the country the same enthusiasm was being manifested, and that the same wave of repulsion that swept over Canada in 1878 was starting now; in fact, land. Rousing cheers for Sir Charles, Mr. Cahan and Hugh John, with the rational anthem, brought a recordbreaking political demonstration to a close. Mr. Cahan made a splendid speech. Sir Charles and he speak in Springhill on Monday and at Parrsboro on Tuesday.

CIGARETTES.

The use of tobacco in any form is hurtful, but cigarette smoking is by far the most injurious. Cigarettes are made from inferior tobacco; stumps thrown away by smokers (perhaps a smoker with a

contagious disease) are gathered, and used largely in the manufacture of cigarettes. This being poor tobacco, salt-petre is freely employed to keep it from becoming musty. Salt-petre is highly injurious. A physician who analyzed a cigarette found it strongly impregnated with opium.-The paper wrapper had lead | or arsenic, sometimes both, in it.

our young men and boys, and is by far the most serious evil to growing boys, especially to school boys. Tobacco is in all its forms, whether used in the pipe, cigar, or for chewing, absolutely poisonous and pernicious, and the cause of sickness and death where its victims are not in the least aware of it—the evil is so wide spread, and the habit so common

amonog all chasses. OUR LEADER IN CHINA.

We have no detailed biography of the leader of the white ribbon forces in China (in fact we have, with few exceptions, no detailed biographies of any of our world's leaders), and can only give here the brief mention found in "Thumb-Nail Sketches of White Ribbon Women."

Mrs. Mary J. Farnham was born and educated in England. At the age of twenty she was bereft of both parents in a single day by a cholera epidemic, and went to live with her sister in New York. She was married in 1859 to a Presbyterian minister and went with him as a missionary to Shanghai. Besides sharing her husband's labors and caring for her family, Mrs. Farnham conducted a free day school for poor girls and a large boarding school. A total abstainer from childhood, she was always interested in temperance work, and when Mrs. Leavitt went to Shanghai in 1886 was rejoiced to welcome her to her home, and later to cooperate with Miss Ackerman and Mrs. Andrew and Dr. Bushnell in their work

in that country. With many cares and amid almost insuperable obstacles Mrs. Farnham has pushed the white ribbon work in the celestial empire with the faithfulness and self-sacrifice so characteristic

of the missionary spirit. In these days when the war cloud hangs so heavily over China and the foes of Christianity and of progress are aroused to active hostility, the prayers of the W. C. T. U. women everywhere will ascend in behalf of their comrades and all other Christian workers in China.

A USELESS SYSTEM.

A striking evidence of the uselessness of the present system of dealing SUSSEX, - N. B. with inebriates is to be found in the case of Bridget McMullan, who recently appeared before the stipendiary magistrate of Liverpool, Eng., charged with drunkenness for the 377th time. Even then the penalty imposed was the old absurd penalty of a fine with the alternative of imprisonment.

Lager beer is claimed to be a harmless beverage. The liquor people contend that while it answers the craving for alcohol, it also eliminates the danger of drunkenness and crime, and tends to destroy the appetite for

strong drink. Milwaukee is the head centre for of Los Angelos, Cal., trade-mark lager beer in America. It has one saloon to every 160 of its population, in all 1.726 to a population of 280,000. If there is any place where a good Yet 74 per cent of all the arrests in Milwaukee are due to drunkenness (total arrests, 5,266; for drunkenness 3,893) which is the worst showing made by any city in the United States, the nearest to this being New Orleans, with 52 per cent. Sixty-two out of every 100 of the total death rate in Milwaukee are due to alcoholism. which also exceeds the percentage in any other American cities, with the

exception of fifteen. It is surprising that any sensible man should swallow the silly theory that drinking alcohol in any form will

tend to diminish the appetite for it, It really looks like a reasonable, rational assertion that mild doses, such as lager, would be the proper way to start people in the drinking habit.— BY THE WOMEN'S CHRISTIAN TEMPER-Canadian Royal Templar.

CHATTED WITH THE QUEEN. Her Majesty and a Former St. John Boy

Have Quite a Talk. Fred H. Dunham, a St. John boy, born and brought up in the Dunham block, cor-ner Princess and Sydney streets, but who has lived in Toronto several years, had a chat with Her Majesty at Cowes, Isle of Wight, during the latter part of August. He and a fellow invalid soldier were being feted and made much of at the stylish watering place, but this is what Fred himself says about it.

about it:

"When we got up opposite the carriage we saluted and turned in the gateway, but the Queen called us back and spoke to us. She enquired concerning our health, and was pleased to learn that we had improved very much since coming to Cowes. Princess Christian and Princess Beatrice were with her and they also spoke to us, but the chief pleasure came in having the Queen speak. She has a very sympathetic heart, and has a real motherly bearing toward the soldiers, for she calls us at the home her children.

"You have heard lately rumors of the illhealth of the Queen. Such are false, for health of the Queen. Such are false, for one could not wish to see a more healthy looking person at her age. While she is stout and somewhat troubled with rheuma-tism, her skin is clear and her cheeks are tism, her skin is clear and her cheeks are of a delicate pink, which speaks clearly of good health. Her appearance and her kindly bearing towards us was sufficient to call forth immediately our highest esteem and reverence. Ever will I hold her in deepest respect and affection, while my loyalty has been increased tenfold by what I have seen of her and what I have known of her actions here and attention to the soldiers seen of her and what I have known of her actions here and attention to the soldiers who have been invalided home. Now, I have told you of my high privilege of seeing and speaking to Her Majesty, and I suppose you think that nothing greater could be had by me, but indeed I had a higher privilege still, for recently as she was on her way to her yacht, which was to take her to Portsmouth on her way to Balmoral, and while the streets were lined with people, and Her Majesty attended by royalty and soldiers, it was my great privilege to Cigarette smoking, which was formerly confined to Cubans, is now the favorite mode of using tobacco with and soldiers, it was my great privilege to present her with a bouquet with a of red, white and blue. This honor such I never dreamed of, and I was fortunate to have the privilege, which came to me because I am the senior non-commissioned officer in the home and a Canadian.

Fred Dunham is son of the late D. E. H. Hall. Duke street.

POWER HOUSE BLEW UP.

BIWABIK, Minn., Oct. 7.-The Adams mine powder house at Eveleth, Minn., blew up this evening, breaking every glass window in the city. No fatalities are reported and only a few slight accidents from flying glass occurred. It is not known what caused the explosion. The shock was distinctly felt here, 12 miles from the scene of the ac-

THE SEMI-WEEKLY SUN

ST. JOHN, N. B., OCTOBER 10, 1900.

"PURELY A BUSINESS PROPOSI-TION."

Much interest attaches to the speech made on Wednesday at Montreal by Mr. Lawrence A. Wilson, president of the Licensed Victuallers' Association. Mr. Wilson is the gentleman who organized the anti-prohibition campaign in the province of Quebec at the time of the plebiscite election. He scored a magnificent success, bringing out on his own side a vote so great that it nearly swamped the prohibition majority obtained in all the other provinces. The Quebec majority against prohibition was 94,032, and this, notwithstanding a prohibition majority in several of the counties comprised in the Eastern Townships. Some polls gave extraordinary results. One place in Vercheres with 142 names on the list gave a majority of 128. Another in Potneut with 83 on the list gave a majority of 77. One in Quebec city with only 10 names on the register gave the ex traordinary poll of 98 against prohibi tion and 7 for it. No less than 11 votes were polled on a list of 115 in one place in Quebec West. The general result affords the highest testimony to Mr. Wilson's gifts as an organizer, though it is not to be supposed for a moment that he personally had anything to do with prolific polls mentioned.

How far Mr. Wilson used his influence afterward to cause the government to disregard the majority which the Quebec vote failed to efface is not known. Doubtless he had his share in it.

But Mr. Wilson is not yet satisfied with his victories. He now demands the banishment of Mr. Foster and Hugh John Macdonald from public life. The despatches gave only a brief outline of Mr. Wilson's appeal on this point. We take from the Montreal Herald a full report of his words:

We are at present about to enter into campaign, in which one section of the peo ple will support the liberals and another a question of sentiment; with us it is purely a business proposition. We all know the Hon. G. E. Foster's position on the question of prohibition, and with the presence of Hugh John Macdonald, in the event o the conservative party being returned, his hands would immeasurably be strengthened and that which is the fate of our friends o Manitoba today may be ours tomorrow.

Hugh John Macdonald was elected premie of Manitcha not many months ago. One of the principal planks of the platform which caught the fanatical vote was prehibition. Immediately upon assuming office he redeemed his pledge, and passed a prohibitory law, which will blot out on June 1, 1901 every licensed victualler of that province Needless to tell you of the ruin and destruc tion he is causing and will cause to our brethren of that province. He is now seeking admission to the councils of the whole dominion, and I would ask you in common sense whether the election of such a man and his presence in the cabinet would not be a menace to the livelihood of ourselves and families.

This is not political sentiment; it is simply hard facts, and I would ask you to consider and to weigh well the position of the trade in this matter. Our friends in Manitoba have been ruined by Hugh John Macdonald. Are we to permit ourselves to be ruined also? This is for you to consider and for you to judge. Hugh John Macdonald is now knocking at the door of the house of the supreme power of the dominion to do with us as he has done with our friends in Manitoba.

It is of no account to me what a man's politics are, that is his own business; but would ask the common sense of the trade of the whole dominion whether it is within the possibilities that you will calmly submit to help to admit a man who has so unmistakably declared himself your enemy. Let every licensed victualler in Canada who supports a candidate of either party demand that such candidate publicly have his constituency declared, and his views on the subject of prohibition, and state what course he will adopt in the event of such legislation being submitted to the dominion power. Time has come when we must be able to distinguish our enemies from our friends.

It will be observed that Mr. Wilson has no fault to find with Mr. Fisher, the temperance representative in the government, nor with Mr. Flint, who sometimes figures as a prohibition leader. In the ranks of the Laurier government and its supporters matters appear to be fainly satisfactory.

____ TWO VICTIMS OF THE MACHINE.

If the learned editor of the Telegraph should find George E. Casey, M. minion exchivist he will not be dis-

posed to take the advice of Organizer Preston as to hugging the Machine. Mr. Casey is not qualified for the position, whereas Dr. Hannay is eminently fitted for it. But Dr. Hannay has not been a member of parliament, Casey pull would, we fear, be more effective. If, as a result of Mr. Casey's intervention Editor Hannay should remain with us vigorously contradicting his former vigorous tributes to Sir Charles Tupper, it will all be because

Mr. Casey represents West Elgin which includes a part of the provincial riding of the same name. It was in the provincial riding that the machine elected McNish, in whose behalf deputy returning officers brought in from abroad, and holding the polls under false names, manipulated the ballots so that McNish was elected. Preston's hug-the-Machine dispatch was sent to McNish on the night of the election. Next day Preston was made a dominion government immigration officer and went to Europe One Pritchett has since made affidavit explaining how the palfors were "switched."

Unfortunately the supporters of the Zaurier government, and of the Ross government in Ontario have got so in the habit of stuffing the ballot box that they sometimes carry the custom into the convention of their own party. Mr. Casey, who has been twenty-six years in parliament, and who calls his constituency a "hive," had no thought that he would be set aside by his party. But when the convention votes number were thrown for a rival aspir ant, and later made the discovery that the number of votes east was largely in excess of the number of delegates. This result afforded the gratifying assurance that the convention was a genuine gathering of the party. and also proved that the machine was in a good state of repair and ready for duty. Yet the minority side objected to the use against them of the devices only supposed to be used at election time against the tories. Consequently the convention broke up in great disorder. All attempts to settle the dispute have failed, and Mr. Casey now proposes that both candidates step aside, leaving the field open for a third, who would not be mixed up with the dispute. The offer has not yet been accepted by the temporary owners and promoters of the balloting Machine, but it is believed that Mr. Casey will have to fall out

It will thus be seen that the Machine which has kept the Ontario govfederal seats for Huron and Brockville, has started Mr. Casey on the road to office, and placed him between Dr. Hannay and the archives.

----A GROWING TIME.

\$1,234,021 \$2,046,377 The following interesting facts will

be noticed: The people have paid nearly half a million more in customs and excise duties than was collected in the same quarter of the previous year. The correct expenditure for the three months is nearly \$700,000 more than in the

same period last year. The capital expenditure is more than three-quarters of a million above that of the same quarter of last year, and that without including the cost of the

South Africa contingents. The total expenditure has increased from \$7,393,353 to \$8,898, 757, a growth

of over one and a half millions. The increase in total expenditure is greater by more than \$400,000 than the

increase in the total revenue. The Telegraph in a rather conspicuous way states that there is a surplus for the six months of six millions on current account and of four millions on all accounts. This, of course, is not to be taken seriously. The payments are usually a few weeks behind, so that most of the payments made in July and August are charged to the previous year. The figures given above show a surplus of five and a half millions on current account for the first

three months of last year. But when the accounts were closed the surplus Winter Term, Monday, October 1st, for the whole year was less than eight millions. The figures show a surplus of more than four millions over current and capital expenditure combined for the first three months of 1899. But when the year was out, then the expen-P., installed into the position of do- diture on all accounts was found to exceed the revenue.

THE ALBERT ELECTION.

The provincial government and the liberal party, so called, has held the constituency of Albert by about the majority of the general election. In 1899 Mr. Emmerson polled 1,343 votes. On Saturday the government candithan his leader got last year. In Mr. Trites obtained 1.107 votes. this year Mr. Gross gets 1,050, a loss of 57. Mr. Ryan owes 100 of his majority to a group of faggot votes polled in Coverdale and elsewhere, so that his genuine majority appears to be under two hundred. The majority on Saturday, including the faggot votes, was 242, which is precisely the same as that obtained by Dr. Lewis over Dr. Weldon in 1896. In the provincial election of 1895 Mr. Emmerson's majority was 376.

In the last series of by-elections the seats attacked by the liberal conservatives had all been carried by the other side both in the federal and provincial election by majorities of 200 to 500.. The government has succeeded in holding the three constituencies, with the help of a large campaign fund, the machine, and the open ballot.

The opposition party in Albert has ad the pleasure of bringing the whole of the Tweedie cabinet and the whole the late Emmerson ministry into the county. In common with Kings and Queens, Albert has had a few days of "growing time." The people of that riding do not need the assurance of Mr. Tarte that "elections are not made with prayers." There is no earthly record that any of the ministers offered prayer during the period that they were camped in the county, But they offered everything else.

MR. BLAIR'S SATISFACTION.

The statement, that a bargain has een made by which Alexander Gibson becomes the government candidate in York, and Mr. Blair agrees that the government will buy Mr. Gibson's railway, has no terror for Mr. Blair's rgans. The Fredericton Herald says: They connect his probable candidature Well, all the Herald has to say is this: that constituency, who has its interests at heart, will be very glad to extend a hearty support to the mayor of Marysville for higher

The Herald for one is not afraid to go to the county of York on the question of the proposed government control of the Canada Eastern railway, and it will be glad if opportunity offers to endorse Mr. Gibson's andidative for parliament, and to exert a the influence it can to secure his elction.

The 200 delegates who met of Thursday evening to nominate candidates thought that they selected strong and popular men. They did not know their business. The government organ vesterday morning informed them that they had chosen most weak and unpopular persons. The liberal conservatives of St. John will never do right until they adopt the government method and nominate the candidates in a private car. ----

In the fiscal year 1899 Mr. Blair sent to the United States \$426,958 to buy engines and cars. Of this \$184,300 went to the Baldwin Locomotive Works at Philadelphia, and the rest to the Wagner company at Buffalo. In the year 1900 the Kingston Locomotive Works in Canada closed down and went into

BRITISH ELECTIONS.

These slow that the liberals have gained two seats, one in Carmarthenshire and the other, strangely enough, in the Radcliffecum-Farmworth division of Southeast Lancashire, which had hitherto been strongly con-It looks, therefore, as if there might be a

slight reaction in the county polling, but this will be too late to affect the general result seriously.

Last evening Herbert Henry Asquith, of the liberal leaders, admitted that the Saf isbury government would return to power with a majority of from 150 to 160. Of the 492 members already declared officially elected, the ministralists number 327 and the opposition 165. The former have gained twenty seats and the latter eighteen. LCNDON, Oct. 9.—The Daily Telegraph says it understands that the cabinet has re-signed as a formality and in order to enable

any necessary reconstruction. SPAIN'S FISHING DIFFICULTY.

VIGO, Spain, Oct. 8.-Fresh disorders have occurred as a result of the industrial rivalry between fishermen of this neighborhood and those of Cangas, province of Pontevedas, the latest disturbances have resulted in a number of men being wounded and a fishing boat being burned at Cangas. The gunboat Vasco Nunex de Balboa has seized seven fishing boats.

> Outbreak of Diphtheria - Found a Hat Pin in His Cow's Throat

WHITE'S COVE, Queens Co., Oct. .-Diphtheria has broken but in the family of William Carney of Cherry Hill. One child died of the disease on Wednesday, and other members of the family are down with the disease. Dr. M. C. McDonald is in attendance. One night this week Burton Ferris noticed something wrong with one of his cows, which refused to eat and appeared to have something lodged in its throat. Mr. Ferris examined the animal's mouth and found a hat pin sticking in the side of its jaw, and it was with great difficulty that Mr. Ferris removed the obstacle, as it was deeply embedded in the flesh.

ALL DAY SUNDAY,

She Thought about a good that Would Agree with Her.

An unnatural appetite for rich and improper food is really kept alive by the use of such foods, whereas a change to healthful, nourishing and scientifically made food, will correct the unnatural appetite. A little woman up at Peekskill, N. Y., Margaret Smith, P. O. Box 193, says:-

"I was such a sufferer from dyspep sia that life was a burden. I could hardly keep from eating all sorts of pastry, cakes, and other rich foods. although they did not agree with me. nor in fact did any sort of food. I became low spirited and discouraged, was too weak to work and very seriously troubled with palpitation of the heart.

"Drugs seemed to make me worse rather than better. A friend said one day: 'I belive Grape-Nuts food would cure you,' explaining that that food was made with great care and intended for the prevention and relief of diseases that were brought about by improper food.

"That was Saturday night, and all day Sunday I kept thinking about Grape-Nuts, and the first thing Monday morning I sent for a package. had it in my mind that the food would look like nuts, and was disappointed when I found it had to be eaten with a spoon. However, I followed the directions and made a meal of Grape-Nuts and milk, which I found to be delicious, and for the first time in months, I suffered no distress after eating.

"I at once began to feel hopeful that might be cured at last. Since that day I have used Grape-Nuts constantly, morning and night, and have steadas well as I ever was in my life; weigh have no palpitation of the heart and can work all day long.

"At supper I have Grape-Nuts mixed with soft-boiled eggs. I make my dinner on any kind of food I desire. One of the best things about this cure by proper food is that I no longer have any desire for the rich, indigestible rubbish of which I used to be so fond."

CRESCEUS FAST MILE.

Famous Son of Robert McGregor Reels Off a Mile in 2.04 Over the Cleveland Track.

CLEVELAND, Ohio, Saturday .-Cresceus, the famous trotting stallion, still holds the undisputed championship. This afternoon, at the Glenville track, he broke his own record, which was the world's record for trotting stallions, and came within three-quarters of a second of equalling the record of The Abbott, the world's champion trotter. Four thousand persons saw Cresceus do his wonderful mile. The track was in splendid condition and the weather was perfect, the temperature being up nearly to 90 and not a

breath of air was stirring. Cresceus was driven by Geo. Ketohum. He was given several workout miles for the purpose of warming him up, and he was finally called to the wire at four o'clock. After two scores he got away with his two running mates, but broke at the first furlong, and was brought back. On the second attempt he went away without a skip at the first score, and covered the mile as he had begun. The son of Robert McGregor seemed to know what was expected of him, and he strained every muscle to meet the expectations of his admirers.

The first quarter was reached in 31 1-2 seconds, and on he sped to the half, which was passed in 1.01 1-2. A hundred watches marked 1.33 as the three-quarter pole was passed, and the stallion went under the wire in exactly 2.04, as a cheer arose from the multitude of spectators who had watched the game struggle. This beats Cresceus' former record

of 2.04 3-4 and set a new record for all stallions to strive for. Cresceus finished strong and in fine condition.

Fifteen years ago, she said, while passing through Yarmouth a man by the name of Killam, she thinks, did some trucking for her, but misssing him she did not pay him for his work at the time. She requested Mr. Cook to try to find the man and pay him the quarter. HAMPTON

The Dorchester agricultural society's Private Hubley Given a Rousing Reception by His Old Friends.

> Possibility of Another Local By-election Kings County-H. S. White May Retire.

HAMPTON, Kings Co., Oct. 8 .- The superior school at this place gave a rousing reception to Private Hubley, of the first Canadian contingent, who has just returned invalided from South Africa. Mr. Hubley was principal of the school when the call for volunteers was first made, and at once sent his name, was accepted, resigned his position, and joined his comrades at Quebee, who sailed on the Sardinian. At noon today he reached the shiretown and was met on the platform by crowd of young people, who went wild with delight when they saw their old teacher, in khaki uniform. He was taken off by friends for luncheon and shortly after one o'clock went to the school house, where the departments were massed, and the pupils went through an improvised programme of patriotic songs, recitations and speeches. Twelve girls went through a musical flag drill, in Mr. Hubley's honor, which he described as the very best thing he had seen in all the demonstrations in which he had been called to take a part since he left Hampton.

Between the numbers Mr. Hubley gave brief sketches of the soldier's life and experiences as they had come within his own view from the day of sailing to that of re-landing on Canadian soil. Among the narratives given nothing was more touching and thrilling than his story of the death of Hampton's hero, Patrick McCreary. Mr. Hubley is suffering from chest trouble, and before coming to this part of his story his voice failed him, so that he could only speak in a whisper, and in the hush of silence the sad details were rehearsed in ears strained to catch every word. He told of the march to Modder River, the Sunday morning tramp through its chill waters, and the fight at Paardeberg, during which McCreary was tolled off as a bearer, and was actively engaged in bringing in the wounded. After nightfall he was determined to go forth again to aid any who might have been overlooked during the hours of daylight. His superior officers urged him to desist, but he said he could not rest knowing there were men who needed help. So he went forth never to return. In the morning he was found near the Boer trenches with three bullet wounds -one in each preast, and one through the forehead. He was borne back to camp, and Private Hubley sought for and was granted permission to wait upon him, which he did until the end came two days later, without the heroic sufferer was supposed that in his eagerness found. to help his wounded comrades he had strayed too near to the enemy, who engaged in the work of saving the perishing.

Mr. Hubley referred to the long and severe marches, the scant provisions. the privations, distress and sufferings of the wounded, the emergency rations-English and Canadian, and the worthless character of the latter. He prietor went up river and far into the exhibited a belt covered with insignia wilds last week on the trail of the of the various regiments-imperial and lordly moose. He was accompanied colonial-a Boer's tooth extracted from a dead body on the field by a comrade, the riband to which his medal is to be attached when received, and other souvenirs of the war.

At the close addresses were delivered by Dr. J. N. Smith, John March and J. D. Howe, principal of the school. Among the suggestions made was one which caught the hearts and interests of the children and visitors alike. namely, that the school children should take up the work of starting a subscription towards the erection of a monument upon the square or in front of the court house in honor of Kings county's dead hero. Patrick Mc-Creary. This is a work which ought to enlist the sympathies of all classes. and with the help which such an enterprise cannot fail to secure from outside sources, it looks as though it

might be made a "fait accompli" within a year. After the school had been dismissed the pupils waited outside until Mr Hubley appeared on the steps, when they sung "The Soldiers of the Queen," "He's a Jolly Good Fellow," and the elder boys placing their old erfontein. Still no word of going home master in a large rocking chair, bore

him along the road in triumph, the girls and boys cheering as they went. Although loking robust and hearty Mr. Hubley is exceedingly hoarse, and was somewhat exhausted after the strain of speaking. He returned to his parents' home at Sussex in the evening.

A few evenings ago Frank Casey, an employe of the Ossekeag Stamping He was with Capt. Turner of our Co., undertook to go through a gate by the side of T. G. NOVA SCOTIA TRAGEDY.

Bridgetown the Scene of a Fatal Shooting Affair Saturday.

Fifteen Year Old Lad Shot a Negro Because He Called Him a Liar.

The Man Lived But a Few Minutes - Lad Who Did the Shooting Committed to Jail at Annapolis.

BRIDGETOWN, N. S., Oct. 6.-A very unfortunate shooting affair took place here this afternoon about two o'clock in the most public street in the town.

Four boys met in front of Abram Young's residence on Granville street. Two of them, Avard Chandlers and Howard Wade, were in the woods yesterday shooting rabbits and this afternoon Harold Young asked Chandler how many rabbits they shot yesterday, and Chandler replied , that he shot three and Wade three. Young then said that Wade had said that Chandler shot only two, whereupor Chandler said Wade was a liar. Wade had a rife of 32 calibre in his hand, and without a word, pointed it at Chander, who was standing only a few feet away, and fired. Chandler called out to S. N. Weare, who was near by: "Mr. Weare, I'm shot," and started to go to Mr. Weare and Mr. Weare started to meet him. Mr. Weare was about two hundred feet away, and when he got to Chandler the latter fell at Mr. Weare's feet and died in about two minutes, without saying anything further.

Chandler was about 18 years old, colored, and worked round town at odd jobs. Wade is 15 years old and the only child of Reed Wade. He was apprehended and brought before F. R. Fay, who remanded him until next Wednesday and committed him to jail at Annapolis. An inquest was then held by Mr. Fair, and at the desire of prosecuting counsel Dr. Deblois made a post mortem examination of the body. It appears from the medical testimony that the bullet entered just below the left clevicle and penetrated the arch having regained consciousness. It of the aorta. The bullet could not be

WATCH COFFEE-And Watch It Carefully.

Any brain worker that depends on thought for his success in life, uses up daily, by brain work, a varying amount of the delicate particles of phosphate of potash and albumen of which the brain and nerve centres are composed. The fine, microscopic particles of phosphate of potash are found in quantities in the pores of the skin after the brain has been used actively. This must be replaced from food, or brain fag and nervous prostration sets in.

This breaking down of the little cells each day, from brain work alone, is a natural process, and the cells can readily be built from the right sort of food drugs, but if an increased amount of cells are broken down by the use of coffee, trouble then begins.

Frequently, it first shows in dyspepsia, lack of power of the bowels to operate properly, or palpitation of the heart or some other lack of vitality and healthy vigor. There is but one thing for a sensible man or woman to do,-quit coffee absolutely. "Hard to do," you say. Take up Postum Food Coffee, use it regularly, have it well made, so it tastes good. NOT SETTLED YET.

MONTREAL, Oct. 5.-It is learned from an authoratative source that an agreement has been reached between the government and the Canadian Pacific railway officials whereby the old arrangements will continue in force during the coming winter and the C. P. R. will handle export freight to St. John as usual, giving that port its full share of winter export business. It is understood that the C. P. R. are preparing to send their usual staff of officials to St. John during next week.

A representative of the Star called upon Mr. J. N. Sutherland this morning in connection with the above despatch to last night's Globe, and also in connection with a despatch to the Star, stating that an agreement of some kind had been reached.

Mr. Sutherland stated that on reading the above despatch he had at once communicated with the Montreal head office of the company, and had received a reply giving the statement a most emphatic denial, and declaring positively that there was no truth whatever in the statement that an agreement had been reached between the C. P. R. and I. C. R. with respect to winter port traffic via St. John. Star, Saturday.

The attendance at the synod has been much less than was anticipated and many of the towns people who had made preparations to entertain had less guests than they expected.

Hunting parties are largely in evidence here just now. Caribou and moose are reported to be in profusion was seen a few days ago in the fields near Douglastown, on the north side of the river; a moose made his appearance on the Cranberry marsh at Pointau-Car while the pickers were at work, a few days ago, and a boy at Black river discovered a moose among the cows when he was driving them home a few days ago. A sportsman at Tubusintac, while poling his canoe up the river one day last week, began "calling" moose, and was rewarded by a shot at a large bull which came down and waded into the stream, where he received his death-blow.

A salmon was caught a few days ago near Bartibog. It was clean and bright and looked just like a line fish: indeed. when caught he still had some lice adhering to him, which showed that he was lately in from the sea. Old fishermen say they never saw so bright a fish taken at this season of the

SEARCH FOR BODY FAILED.

SOUTH FRAMINGHAM, Mass., Oct. 4.—The theory that Mrs. Jennie R. Harvey, wife of Ruel S. Harvey, private secretary to Supt. Marshall of the northern division of the New York, New Haven and Hartford R. R., who strangely disappeared from her home yesterday, has met her death by drowning in Learned's pond was exploded this afternoon, when a systematic search was made of the pond under the direction of the police without finding any trace of her body. During the morning parties in boats were busy with grappling irons, but this afternoon the water was so clear that the bottom of the pond could be clearly seen, and although every foot was carefully gone over nothing was found to reward the searchers. Dynamite cartridges were also exploded in the hope of dislodging the body if it should be beneath the water, but without

Banquet to Australia's First Governor.

Kipling's Latest Poem - He Celebrates the Federation in a Poem of Ten Verses.

(Cable to Mail and Empire.) LONDON, Oct. 3.-Earl Hopetoun. formerly Lord Chamberlain, who will sail on Thursday to assume the first governorship of the Australian Federation, was entertained at a banquet here this evening. Sir Wilfrid Laurier, the Canadian premier, cabled "United Canada sends greetings to United Australia." Rudyard Kipling celebrates the federation in a poem of ten verses in the Times, entitled The Young Queen. The following is the

Her hand was still on her sword-hilt, the spur was still on her sword-hilt, the spur was still on her heel,
She had not cast her harness of grey wardinted steel;
High on her red-splashed charger, beautiful, bold, and browned,
Bright-eyed, out of the battle, the young Queen rode to be crowned.

The poem then goes on to describe her coming to the old Queen's presence, crying, "Crown me, my mother," and replying to the old question. "How can I crown thee further, O Queen of the sovereign south," by saying: It shall be the crown of our crowning, to

hold our crown for a gift, In the days when our folks were feeble thy swords made sure our lands. Wherefore we come in power to beg our crown at thy hands. The old Queen, after crowing the young one, addresses her as "Daughter no more, but sister," and asks: "What shall I wish thee?" The poem concludes:

God requite thee, my sister, through the strenuous years to be,
And make thy people to love thee as thou hast loved me,

ber mill at New Ross was struck and burned to the ground. The wife of Willard Illsley of Woodside died on Monday, after a few weeks' illness. She was formerly Miss Eva Beatie of Grand Pre.

WEDDING BELLS.

A quiet wedding took place Wednesday morning at the residence of the oride's father, O. J. Emery, 190 Britain street, the contracting parties being James Akerley of Boston, formerof Queens county, N. B., and Miss laggie Emery. The ceremony was performed by Rev. A. D. Dewdney. The bride wore a most becoming brown travelling costume, with hat to match. Among the many presents received were handsome remembrances from the choir of St. James' church, of which Miss Emery has been member for several years. The happy couple left by the International line steamer for their future home in Boston with the best wishes of many friends.

The marriage of Charles Reid and Miss Margaret M. Keenan, both of Fairville, at St. Rose's church, was a matter of interest in that locality yesterday morning. Rev. Chas. Collins was the officiating clergyman. The bride, who was becomingly attired in white muslin, was attended by Miss Agnes Reid, sister of the groom. John Keenan, brother of the bride, was best man. The happy couple go to Fredericton on their bridal trip.

SUCCESSFUL HUNTING.

(Monoton Times.) J. W. Y. Smith has returned from a five weeks' hunting trip in the woods of northern New Brunswick. Mr. Smith, accompanied by Mrs. Smith, first went up the Cascapedia, where they spent about three weeks. Then Mr. Smith went up the Metapedia about fifty miles to the ox-bow, where he took a portash road for about 18 miles to the Ramsay brook lakes, which are seven in number and famous for their big game. Here he succeeded in bringing down a fine bull moose, the carcass of which weighed about 1.200 pounds. The head is a very fine one, the antlers measuring 54 inches from tip to tip. The first shot took effect in the bull's neck, and the nraged animal showed fight and made straight for Mr. Smith. Mr. Smith was fortunate in having in his party Rory McLeod of Robinsonville, one of the most expert towmen on the Miramichi and a general good fellow. The moose's head has been forwarded to St. John to be dressed.

AN APPLE.

(Kentville, N. S., Wedge.)

Henry Beckwith of Sheffield Mills has sent to us an apple which has a eculiar coloring. The apple is a ravenstein. About one-eighth of it g of the deepest red, while the balance s of a much paler color. The marking is very distinct, and shows the action of the sun's rays, where it has ad its direct influence, as against ther parts of the apple where it was shaded from the sun. This shows that or the proper coloring of fruit the oranches of trees must be thinned so as to let the sunlight in. It is better to raise three barrels of apples from a ree that are first class than ten barreis of poor fruit, not well colored and ot full grown, and lacking the come iness of proportion and beauty of coloring that can only be given in this climate. About the flavor of our fruit there is no doubt. It remains for us to sacrifice quantity to quality, and it will be eventual money in our pocket weigh this thought carefully.

By Michael Whelan. (Lines suggested by an article in The Chatham World.)

O Blackville, thou beautiful vision, On the seat between the streams, With thy hills and thy haunts elysian, When the golden sunlight gleams!

From thy cross-crowned church to the station.
From thy bridges to busy mills,
The sounds of thy life's pulsations
Come over the shining hills.

From the hills that rise above thee
To the river that round thee flows,
One cannot choose but love thee
In thy silent and sweet repose.

From the heights that rise behind thee, Where the new church building stands, The scenes that I see reminds me Of the cities of distant lands.

A scene I shall long remember, Ferhaps while life shall last, For the sweet screne September It glories around thee cast.

Ah, never the hand of painter Could picture a scene so fair, (Far duller and darker and fainter Than that glorious vision there).

Where the splendid sunlight streaming Gilds fields and forests green, Till the silver moonbeams, gleaming, Complete the "raptured scene." For the merciful hand of the Master Hath given thy tints to thee, And his pencil infinitely vaster Hath painted this scene for me.

Grow on, thou glorious village, Beneath September skies, And flourish, fair fields, that tillage Would make them a paradise.

Flow on, thou beautiful river. Sing on to the sounding sea
Thy song of praise to the Giver
For His gifts to thine and thee.

WHY THEY CAME.

It is an old adage that money makes friends; the carpenter was surprised to find that the mere fact of his having a moneyed relation had the same effect, and that men to whom he had hitherto shown a certain amount of respect due to their position now sought his company. The stood him beer at the "Bell," and walked by his side through the street. When they took to dropping in of an evening to smake a pipe, the carpenter was radiant with happiness.

"Smoke his pipe," replied her husband, confidently.

"Smoke his pipe," replied her husband, confidently.

"And old Wiggett?" persisted Mrs. Tidger.

"Smoke his pipe," was the reply. "Why, what's the matter, Polly?"

Mrs. Tidger sniffed derisively. "You men are all alike," she snapped. "What do you think Ann wears that pink bodice for?"

"I never noticed she 'ad a pink bodice, Polly," said 'the carpenter.

"No? That's what I say. You men never notice anything," said his wife. "If you don't send them two old fools off, I will."

"Don't you like 'em to see Ann wearing pink?" inquired the mystified Tidger.

Mrs. Tidger bit her lip and shook her head at him scornfully. "In plain English, Tidger, as plain as I can speak it," she said, severely, "they're after Ann and 'er bit o' money."

On the Gridiron.

CAMBRIDGE, Mass., Oct. 6.-Harvard won from Bowdoin in the football game on Soldier's Field this afternoon by a score of 12 to nothing. Only the poor physical condition of the Bowdoin team, however, allowed Harvard to score. The Harvard defence was no better than in previous games this year and had Bowdoin been able to keep up a fierce attack on the Harvard line for any length of time the game would have been much closer. Lee, the big Harvard left guard, was out of the game on account of injury, and his subs., Hollingsworth and Carroll, were very weak on defensive. Bowdoin's mass plays were especially effective. Both teams punted frequently. For Harvard, Keenan and Ellis were er ratic in kicking, and only the fast work of the Harvard ends saved them from being outpunted by Upton, the Bowdoin full-back.

Ellis played full-back for Harvard for the first time this year. His linebucking was disappointing, as he ran high and did not gain as well as Graydon, who played full-back during the first half. Kendall ran well with the ball and made several long gains, but missed two easy tackles.

Captain Daily played through the rst half, but got a bad cut in the face and gave way to Fincke in the second. For Bowdoin, Marshall and Gregson played the best game. On the kick-off Pratt of Bowdoin made 25 yards. Time of game, 20 and 17 minute

PRINCETON, N. J., Oct. 6.-Princeton was surprised by Lehigh today, when the latter scored a touchdown against them. Princetown, however, won the game by a score of 12 to 5. Soon after the first kick-off, the Princeton boys rushed the ball through the Lehigh line and circled the ends, and Hodgman went through left tackle for a touchdown, and kicked goal.

WEST POINT, N. Y., Oct. 6.—Pennsylvania State College and the Military Academy football teams played two short halves here this afternoon, in which neither side scored. West Point played a very aggressive game while the Pennsylvanians were very sluggish all through.

ITHACA, N. Y., Oct. 6.—Bucknell University eleven put up a strong game against Cornell today, and the home team was able to make but one touchdown and goal, and that in the latter half of the game.

Much Anxiety Over the Condition of Two Soldier Lads.

from Archdeacon Neales Who is Now in England.

Robt. Hughes of the same quota About six weeks ago or more he was reported in the papers as dangerously ill. Nothing further was heard until a couple of weks ago, when he was again reported dangerously ill at Kimberley. Last week Mrs. John Hughes received a letter from a lady, unknown to her, living near Kimberley. It was a very kind letter, and the writer said that Robert had been unconscious over a week, but when she wrote was feeling better. She said she visited him constantly, and would write every week saving how he is getting on. It is thought that the poor fellow has had a relapse, but on the ground that no news is good news his parents and many friends in town hope to hear of his pulling out of his illness all right. He is said to have been slightly wounded and also to

Rev. Mr. Hopkins of the Tobique mission officiated in St. Luke's church, Woodstock, and St. Peter's, Jacksontown, yesterday. Next Sunday the duty will be taken by Rev. J. DeW. Cowie. It is expected that Archdeacon Neales will sail from England next Saturday. He will spend a Sunday in Newport, R. I., and get back to his work in Woodstock about the last of the month. It is learned that he has been highly honored while in the old land. He attended services in St. Paul's and Westminster Abbey, and was accorded the privilege of occupying a stall on both occasions.

Robinson and Harry McCallister.

Yesterday was a most successful day in the Methodist church. Rev. W. W. Brewer preached in behalf of the general missionary society in the morning, taking the parable of the Good Samaritan for his theme. At night the church was packed and for fifty minutes he held his audience while he

delivered a most telling discourse on the Prodigal Son. Alexander Gibson of Marysville was resent at both services and helped the offerings of the day very consider ably by his well known liberality.

The pastor rendered the report at the missionary service, which showed the following particulars: Ordinary income for the dominion, \$207,997.65; legacies, \$20,731.16; miscellaneous and Indian department, \$46,760.24; total, \$275,489.05. Net increase, \$9,509.65; the N. B. and P. E. I. conference, \$6,577.26; St. Stephen district, \$464.07. The average giving per member per district is: Charlottetown, 75 cents; St. John, 58c; St. Stephen, 54c; Summerside, 41c; Fredericton, 39c; Chatham, 39c; Sackville, 35c; Woodstock, 33c; average for conference, 48c; average for Milltown, 57c. The average giving for all purposes on Milltown circuit for the year per member, \$10.13, against \$3.20 last year. St. Stephen church gives an average for all purposes of \$13.42, and Old Ridge of \$11.19. These figures were very favorably received by the congregation.

BIG INSURANCE FRAUD.

Three Men Under Arrest Charged With Conspiracy to Swindle

Several Big Insurance Companies - A Female Accomplice Dies Under Peculiar Circumstances.

CHICAGO, Oct. 8 .- The Tribune says: The prosecuting authorities of Cook county last night laid hands on what they regard as one of the startling crimes of the country's history. Charges of conspiracy, back of which are allied insinuations of murder, are lodged against three men, two of whom are already in custody. These men will have to answer allegations of a carefully laid plot to swindle an insurance company and two insurance societies. A plot which, it is said, progressed with the growth of the year into the actual death by poison, it is thought, of the insured person.. According to the theory on which the prosecution will proceed, the dead person, a young woman of Chicago, was originally one of the quartette of conspirators. She had expected that i her death was to be feigned and that another dead body was to play the passive role of her corpse. Instead of that real death came to her. The person whose death Council be asked to confer on the members of the contingents, who were citizens of St. John, the freedom of the city.—Carried.

It was decided, on motion of Ald. Baxter, Marie Defenbach, 23 years old, and the two nesday evening. Unger | rectory fund. and Frank H. Smiley. A third person, for whom a warrant has been issued, is not yet

> under arrest. The alleged conspiracy has been investigated with searching care by a private detective agency, by the Chicago attorney and detectives of one of the insurance companies, and by the state attorney himself. Yesterday it was decided to cause the immediate arrest of the suspects. Last April Miss Defenbach applied to a New York insurance company for a \$10.00 policy. This was re-fixed, but later one for \$5,000 was taken out on or about August 10 last. She also secured in a Canadian company another to the amount of \$5,000. At the same date she took out a policy in an American benefit order for \$2,000. Two weeks afterwards she was dead, leaving a will which directed that a part of these insurance policies should be paid to Frank H. Smiley, her "affianced husband," and that her body be cremated. Her death was attended by the most horrible agony. The attending physicians refused to issue a certificate of death, but the coroner's jury later and after the body had been embalmed, found a verdict of death from dysentery. The next day the body was counted. Without much delay, proceedings were begun to recover the of the insurance policies she had left. This was resisted by the insurance companies, with the result that the fraud was discov-

NEW YORK, Oct. 8 .- Lawyer George W Hubbell, attorney for the New York Life Insurance Co., said today that the company had issued a policy of \$5,000 to Marie Defenbach a short time ago. They had been notified of the death of Miss Defenbach and ar investigation was being made, but they had not resisted paying the amount of the policy, as no claim had as yet been made for

the morey.
"However," he added, "I am without information and am not prepared to discuss the matter in detail." The three men under arrest were later arraigned before Judge Gibbons, and in default of \$15,000 bail each, were committed to

It was learned today that besides the pelicies taken out on Miss Defenbach's life several others had been applied for. In each case \$10,000 was sought.

of a brilliant ceremony on Monday morning, the occasion being the marriage of Miss Mary Evelyn Lynch, daughter of David Lynch, to William Levis, secretary-treasurer of the Robt. Taylor Co., Ltd., Halifax. Solemn nuptial mass was celebrated by Rev. J. J. Walsh, the full choir being present. Over five hundred persons, many of whom were invited guests, assembled in the church to witness the ceremony. Miss Lynch was an exceptionally pretty bride and charmingly dressed in a travelling suit of grey cloth with hat to match. She carried a bouquet of white roses. Miss Nellie Lynch, her bridesmaid, wore a pretty blue costume, with a large picture hat. The bridegroom was attended by George Tracey of Halifax. Miss Lynch was given in marriage by her father.
