[Canadian Press.] London, Aug. 17.—After scoring important gains along a front of nearly three miles in the Somme region, both north and south of the river, the French are busily consolidating the newly won ground, making preparations for the expected German counter-stroke. No such attack developed last night, but the Paris bulletin today reports intense artillery activity north of Maurepas, where the French yesterday, in conjunction with the British, effected their most telling advance, capturing more than three-quarters of a mile of trenches. GERMAN HOLD WEAKENS.

GERMAN HOLD WEAKENS.

The new allied advance north of the Somme weakens the hold of the Germans on Guillemont and Maurepas, which latter place the French already partially hold. For Fall and Winter

You have already been advised through Fashion of the coming of velvets and cord vel-

vets for fall and winter wear. Manufacturers have been planning for the past year

ways and means to cope with the demand. Skilled workmen have been searce in

the velvet industry, and through the lack of proper dyes only limited quantities could

be undertaken in manufacture. Under such conditions buyers had to act quickly a year ago in order to obtain a contract for delivery this fall. We are pleased to announce that already a big assortment has been received and other shipments will

be following in close order. You pay practically no advance on this new stock, which

comes from the world's best velvet manufacturers in England and France. Look

MIDDLESEX LEADS IN HONEY OUTPUT

More Than Double the Production of 1915.

BEE-KEEPERS IN SESSION

Prices Shall Not Be Raised and Fixes Them

[Special to The Advertiser.] Ontario have gathered a bountiful yield of honey this season, according to a report issued by the Ontario Beekeepers' Association. A large crop of light honey has been extracted this season, and the quality is unsurpassed. The honey is light in color with a heavy body and good flavor.

The association's honey crop com mittee has advised its members that prices shall not be increased this year. The prices recommended are 10 to 111/2 cents per pound for No. 1 light, extracted, wholesale, and 21/2 cents above those prices for retail.

Combs will be sold at \$2 to \$2.75 dozen, wholesales, for No. 1, and \$1.50 to \$2 a dozen for No. 2.

Middlesex County holds the lead as far as volume of production is concerned, with 262,812 pounds of white honey extracted this year, in contras to 118,945 in 1915.

York County stands second on the list, with a production of 138,220 pounds, showing an increase of 64,000 over last year. Peel, Halton and Simcoe are the other counties that stand over the 100,-Ontario's total yield is 2,127,903

pounds. The average number of pounds per colony was 89.

SAGINAW, Mich., Aug. 16. - Two favorites went down to defeat this afternoon at the second day of the Shortship meeting, the racing being hard, and the time better.

One of the big surprises was in the

second division of the 2:19 pace, in which Marion Ashley figured best. She led in the first heat until the stretch, where Baronwood came up and beat her a nose. After that Baronwood was well within himself at the end of each mile, none of the others being able to race with him. The clever little mare, Pearl Thorn, upset calculations in the 2:25 trot, in

which Belle McLee was the final favorite. Pearl Thorn led at all times and won handily. Haley C., the favorite, started off like a runaway in the first division of the 2:19 pace. She pocketed two heats, when Miss Preble slipped .9 through on the pole and beat her in the third. Haley C. was game, and raced Miss Preble into submission in

New York, Aug. 17 .- The London correspondent of the Tribune, cabling last night, says:

"As an answer to the German taunt that the Allied offensive in Picardy was spent, the French, aided by the British, resumed the attack today on both sides of the Somme. North of the river they took by storm trenches along a front of more than two miles, and south of the river a line three-quarters of a mile long.

Though we sympathize with the child who is compelled to resort to glasses, yet, if the eyes need them, it is wrong to deprive them of this comfort. If your child evinces a desire to avoid study, complains of headaches or drowsiness, it may be due to imperfect refraction of the eyes. At all events, don't be in doubt about this, but have us make a careful examination.
