In the course of a long editorial note, says the *Catholic Review*, in which Brann of *Iconoclast* fame, pays his re-spects to the publisher of the A. P. A. magazine of San Francisco, he says : With Price for example and Slattery for exemplar the little 'Apes' must indeed be a sweet scented aggregation of simians. There seems to be something peculiarly demoralizing about this secret politico religious society. Or perhaps it were more correct to say that its objects being inherently evil, it only attracts those who are politically rotten and morally corrupt. We could scarce expect a loyal American to be connected with a society essen-tially un-American in character; the advocate of freedom of conscience to ally himself with one that would disfranchise worthy citizens because of a difference of opinion anent religious dogma ; the pure in heart to become active workers in an organization whose weapon of offense and defense is cowardly calumny."

Missions to Non-Catholics.

Missions to non-Catholics are rapidly pecoming popular in many lands. A Danish clergyman of the Reformed Church, recently converted to the true faith, has been lecturing in Copenhagen on the reasons of his change of religion. His audiences, of mixed Protestants and Catholics, spoke so highly of his discourse that his old to oppose it. Of late years the inno-vation has extended to cemeteries, parishioners invited him to come back and address them on the same subject. This fact speaks well for the religious from which the cross was banished utterly. No crosses can be seen among iberty enjoyed in Denmark ; and the the old tombstones of New England. His Lordship replied felicitously. le said : My dear people of the parish f Cobourg-Most assuredly you must el a pardonable pride at the ceremony to-day, and at the thought that you are gathered in this beautiful and handsome church, which you say in your kindly address, when anticipated last year, filled you with doubt as to your eing able to bring it to a successful ompletion. Thanks be to God, you ave witnessed its dedication to Alighty God, not only as an ordinary urch, but, as you say, it far eclipses our expectations in beauty and grandur and equipment in every particu-ar. We may apply to this beautiful mple the words of the Psalmist, "How beautiful are thy tabernacles." We know in the Oid Law when Solomon was commanded to build the temple, it was to be the most magnificent temple hen known, for the worship of God. Hence even in the New Law it is our uty to make what sacrifices we can in order to erect churches and temples to the glory of God. You have erected a temple here that is worthy of praise, considering your means. As you say, the workmanship of the temple speaks for itself. To whom is the credit due? In the first place, it is due to your good and zealous pastor. When he spoke to me over a year ago about the necessity of a church in the centre of the town,

The Irish Leadership.

Mr. Thomas Sexton has absolutely refused to take the leadership of the Irish Nationalist party. He has gone further, and declines to serve it in Parliament so long as the party is riven by miserable dissensions and personal jealousies. Whether he be wholly right or not in this decision, is not continue to the fact that such not so important as the fact that such a decision, made by an able and experienced statesman, shows how sorely the cause has been hurt by its discordant elements.

Mr. Dillon's spotless character and long record of patriotism should suffice to protect him from calumny. He is a man of boundless courage, for whom neither jail nor gallows holds any terrors. In the crisis of the Venezuelan controversy, he told the House of Commons, in plain language, that Ireland would not take up arms to aid Great Britain in a war with Ireland's friend, the United States. You know I have my mother's property; now you are not going to put any obstacles in the way," she continued, as Geof-frey stood before the fire, with his hands in his pockets, and a long note of interrogation on his countenance, and it was not a Committee on Ways and Means that I wanted. At least, it was Ways, but not Means. What I want to know is, how are we to do it? 'Simple enough," said Geoffrey,

"get an architect, have a plan, get an estimate, and so forth, and begin in the spring, I should say.

"Oh, yes," said Aurelia, but the case is not by any means as simple as that. You can't imagine what the chapel is to my father. He spends half the day there, damp as it is. I always tremble lest he should get a chill, and nothing will induce him to have it warmed. If an architect takes it in hand, and in-sists on having his own way, I don't tries, he makes a sad mess of

"A farmer ! My dear Aurelia, Mr. Julian Wyvern is heir presump-tive to an earldom, and Geff's dearest friend. You must have heard of him and his pictures, and his lifeboats, and I don't know what besides?

"How stupid I am," said Aurelia " of course I know who Mr. Julian Wyvern is, though I have never seen him, that I know of. He is just the one who could tell us about it. Really, Geoffrey," she continued, turning to him as she spoke, "you are every-body's friend. I wonder what we should all do without you. You think of everything.'

Geoffrey became scarlet to the root of his hair, and looked more awkward than ever; but though extremely pleased, was far too shy to enjoy the satisfaction. "I think if you'll excuse me," he

said, "I must be off to Tremadoo was to be there by 11, you see, and it only wants a quarter. "Then don't stay," said Aurelia, 'only let me know as soon as you can

Everybody knows Geoffrey is not a genius - but he works so hard, and does so much ; more, I think, than many who make a better show - and, then, he is the best of brothers.

Aurelia sighed. "How happy you are," she said, "I don't know what it is, but whenever I come to Laventor it seems to me like something too beautiful to be real — as though it were a scene in a book."

Mary laughed heartily. "To think of your dressing up our poor little Laventor in that style," she said, "just one step above a comfortable farmhouse! If I were to speak so of your wonderful castle, there would be some meaning in it. I never enter Merylin, with its tapestry and its armor, and its ancestral pictures, but I ask myself if it is not all an en chanted dream.

"And it is just all that which I am so weary of," replied Aurelia, "and which makes me feel as I do when I am here. The flapping tapestry and the weird old pictures are but sad companions. "You, a Pendragon, to talk your ancestors' portraits !" said Mary. 'It is something like felony.

"Perhaps so," said Aurelia: " but the fine talk about Pendragon ancestry has cost us dear. What I love at Laventor is the bright home atmos phere, like one's nursery days grown

up." "Well, I know what you mean," said Mary, "though I should never have thought of your putting it in comparison with the grandeur of grandeur of Merylin. We have kept our happy childish days longer than most family circles, I think. But it is all Geoffrey -it is indeed. He is a home in him-self. He is not clever or handsome. and he can't talk ; and often, when he

ting Geoffrey Houghton in the balance against him

It was extremely gratifying to him to find Miss Pendragon in the drawingroom : for the Pendragons were peopl of consideration, and mixed so little in general society, that to be able to tell his friends he had spent a morning with the beautiful Aurelia would be something worth saying. He, there-fore, laid himself out for being brilliant and amusing, and would probably have ceeded in winning the applause of a large majority of ladies, whether young or old, by his small talk, his whether droll way of telling nothings, and his sarcastic skill in hitting off the weak.

nesses or absurdities of everybody of whom he spoke. But Aurelia was not captivated, or rather, to tell the truth, she was excessively weary, and took an early opportunity of making her escape. She had ordered the carriage not to wait, and was going to walk home. "In the snow !—and alone !— impossible !" said Rodolph. "Would she allow him to accompany her as far as the castle lodge?" Resistance and expostulation were in vain, and Aurelia, once more enveloped in her furs, found herself most politely escorted homewards by her talkative com-

panion. " Most fortunate I resisted our friend Geoffrey's powers of seduction," said Rodolph, battling with the acknowl-edged difficulties of holding an umbrella over the lady by his side. agine trying a life boat in such weather as this !"

" Is that what he has gone to Tremadoc for ?" said Aurelia. "I am so glad something is being done about the life-boats. I did not know Mr. Houghton had taken them up.

"Well, you know what an excellent fellow he is, though as simple as a child. I suppose he understands as much about life boats as I do of upholstery-but he goes in for it as a duty he owes to society; just like his magistrate's work-solemn duty. Nothing comes of it you know, but the satisfaction of his own mind. If the dear fellow could learn to put two words together it would be a great providence. When his sister Mary is at his back, she prompts him ; but if he tries to express his sentiments without her at his elbew, as he did yesterday at the meet-

ing, the effect is peculiar." No doubt Mr. Rodolph Beresford had no intention of being ill-natured. He was obeying his instincts of hitting off the droll side of everybody. Geoffrey did do his work rather solemnly, it is true ; and his style of speaking was, as has been said, fragmentary and im perfect, but he was no simpleton ; and if the amount of real business do him at the meeting alluded to had been set side by side with that effected by Rodolph, glibly as the latter had spoken, the balance would have gone against him. Of this Aurelia felt an instituctive assurance. "I have the greatest regard for Mr. Houghton," she said, "he has been everything to my father." "Oh, he is thoroughly worthy," said

Rodolph. "only not so fortunate as to have had a fairy god mother to look after his personal charms, 'and so forth,' to use his own expression." "What a hateful man!" thou

thought Aurelia, as they reached the Merylin Lodge at last, and he had bowed his Lodge at tast, and leave-taking. "What can Gertruce see in him to admire!" Then she laughed at her vehemence. "Just like everybody, I suppose, everybody but Geoffrey;" and then she laughed but Geoffrey; " and then she laughed would have been, could he have heard her comments, or have guessed it posMARCH 7, 1

The Final Triumph of Grace Over a Proud Heart. BY EMILIE FOSTER.

AT THE LAST MOMENT.

MARCH 7, 1896.

With Dupuytren's death closed the eneration of distinguished surgeons generation of distriguished surgeons who have given pre-eminence to the hospitals of Paris. Regarded by his subordinates with fear and dread, disliked by his equals

on account of his offensive and arro gant manners, his home rendered deso late by his overbearing conduct, there seems little, save his talent, to admire, but his life was full of incident.

It is a worn old adage that "Nothing is so successful as success," and For tune seemed ever ready to lend Dupuy tren a helping hand.

While still a youth, treading the streets of Paris, at early dawn, on his way to the Hotel Dieu, where he was an interne, studying indefatigably by the bedside and in the dead room, returning at night to a frugal meal and cheap lodging, he one day was at-tracted toward a crowd of excited Parisians making frantic endeavors to check the progress of a run-a-way horse. In another moment came a crash, and the young interne eagerly pressed forward to proffer his services. The unfortunate occupant of the car riage proved to be one of the Roths childs, and the young surgeon's en deavors were rewarded by the an-nouncement of the patient, when con-valescent, that there were 20,000

francs in the bank awaiting his pleas Years later, as the Duke de Barri vas ascending a narrow stairway the Opera House, to attend a masked

ball, a treacherous assassin, maddened by jealousy, recognizing him despite his disguise, as the heir apparent the throne of France, plunged a dagger into his side. Dupuytren, alread known as a skillful surgeon, was sum moned to attend him, and henceforth regarded as court physician

ure.

His term of service at the Hotel Dieu was indeed a reign of terror ; the shrinking patient gained neither confidence or sympathy from his eye, and internes and nurses well knew that the fierce imprecation or cutting sarcasm was all their inexperience would wir from him.

One day a very pale, delicate looking cure, from one of the little villages out lying Paris, appeared at the surgeon residence and sought advice regarding a tumor upon his neck.

Dupuytren closely scrutinized the swelling, and then in a harsh tone ex claimed : "Avec cela il faut mourir That will kill you)."

The pale face neither flushed nor became a shade whiter, nor did the quiet, honest eye show the slightes emotion at the verdict of the unsym pathetic judge, as he exclaimed, a sweet smile illuminating his counten ance : "I thought so, but it was at the

earnest wish of my people I came t Then proffering five francs, he you. said : "It is but a small recompense, but it

is all my people could raise, for they are very poor.

The assistants were amazed to see a semblance of emotion upon the sur-geon's face. Then he hastily took from his drawer an order for a bed in Hotel Dieu, and giving it to the cur bade him report there upon a certain

day. The hour of the operation came, and he whose life had been spent in the shadow of the Cross, imbibing the spirit of his suffering Master,

that those who bore that dazzling badge of the old British royalty were marked by destiny either for great misfortune or for heroic career, possibly even for both. And, in point of fact, the loyal cavalier who had died for his king on the scaffold, and another noble youth who had assumed the priestly character and been hanged at Tyburn, were both known to have been true golden-haired Pendragons. It seemed

a sort of outward and visible token of inward greatness of soul, which rose above the common lot of mortals, and led them to a noble, if even, as the world counted it, unhappy end.

The family misfortunes, and in particular the sorrows of her father, had stamped their own impress on Aurelia's character. Perhaps, also, the influence of these old traditions had told on her, for it could not be denied that there was a certain exaltation of ideas in the Pendragon race not altogether unallied with superstition. Be that as it may,

acted as her brother's domestic lieuten ant ; and she had accompanied him into the hall to take his last directions and witness his departure, when, as the hall door opened, they perceived approaching a carriage, which both re-cognized as the Merylin equipage. I It was an unusual apparition, and an unusual time for visitors, and as the solitary occupant was received at the door by the brother and sister, Mary's exclamation of joyful wonder shall serve as her introduction : "Is it

"Very true," said Geoffrey, "it's like lawyers; they're all rogues. I mostly do my own buildings on that account — with a builder, you know. There's Jones, of Tremadoc, he's a very honest fellow. Well, we got the mill down there set right, and the granary ; capitally done, and we employed no architect.

Aurelia smiled again, but before she could reply, Mary interposed. "My dear Geff," she said, "you are the best of mill-builders, and Jones, as all the world knows, is a capital tradesman. and not a rogue ; but I don't think he would quite do to restore a chapel of

the thirteenth century." "I didn't say he would," replied Geoffrey, "but you are always so quick ; you don't give one time. What mean is that architects are great nuisances, and if one can do without them it's much the best.

"I am afraid in the present case there will be no hope of doing without one," said Aurelia. "What I wanted you to try and find out for me if you can, is, who would be best ; if there is anywhere such a thing as a man who would consider papa's wishes and feelings, and do no more than he wished to have done ? I should be in agonies if anybody were to begin upon the mortuary chapel ; yet it is in a dreadful state.

Geoffrey continued standing as be fore, jingling his keys in his pockets, in serious reflection. "Well," he said, at last, "I think I'll ask Julian. You see he knows everybody-I mean art ists and so forth. I'm sure if there is a man in all England that would suit you, Julian would know him, and if he doesn't know him, he'll find him. Extraordinary he is for hunting people out, and getting what can't be got elsewhere. sometimes if it will always go on so-I suppose it can't-but, as you say, we are a happy family.'

The tears came into poor Aurelia's eyes, and Mary wished she had chosen any other subject. "No," said Aurelia, "that is the sad thing with family happiness. It is so beautiful— but it can't go on. A death or a marriage, and the whole thing is changed." changed.

"Well, dear Geff will never turn Benedick, I think," said Mary. "But you and Gertrude might leave him," said Aurelia. "I hear Gertrude

and Mr. Beresford are supposed to understand one another. Perhaps it

is only gossip?" "Oh, I don't know that it will come to that," said Mary. "He's here now, and Gertrude likes him, certainly. I don't. Old Geoffrey is worth a hundred of him, with all his blunders. Whatever Gertrude does, Geff and I shall keep together, and take care of one another.

That's our dream. Their dreams and their talk were interrupted by the entrance of the other members of the family, including Mr. Beresford, who had excused himself from accompanying Geoffrey to Tremadoc on the plea of having

pledged himself to escort Miss Gertrude "A crick in the back," a pain under Houghton somewhere; for, as Aur-elia had hinted, they were on terms of mutual understanding. Fulton Again.

The New York Sun thus pays its compliments to the notorious bigot Justin D. Fulton :

"The Rev. Justin D. Fulton, now of Somerville, Mass., formerly of Brooklyn, has withdrawn his support from the Christian Endeavorers and refuses to allow them to bask in the light of his countenance. Persons familiar with the principles of Mr. Fulton and the high old crusades upon which he has gone will now make up their minds that the wicked Jesuits have crept into the Christian Endeavor fold in Somerville. Mr. Fulton cannot abide Jesuits, and indeed the Pope gives him more than a permanent uneasiness. The particulars of the Somerville business are not at hand, but depend upon it, Dr. Fulton would never frown upon the Christian Endeavorers if they had not fallen under Jesuit influence. He has a wonderful scent as a Jesuit finder. Even the most noble Henry William Blair of New Hampshire cannot find so many Jesuits, or in so unexpected places, as Dr. Fuiton can. He discovers them every time he looks for them, and as he looks for them between fourteen and eighteen hours a day, he naturally has made an impressive record as a discoverer.

Learning of Jesus how to die ! as he had learned from the same

blessed Exemplar how to live, now calmly endured the torture of the surgeon's knife. Dupuytren, from time to time, sharply scrutinized the pale face of his patient, but could never detect an outward expression of the tor-ture he was inflicting.

The operation was successful ; the patient lived, and for several years, each returning anniversary the grate ful cure appeared at Dupuytren's resi-dence with some slight tribute of his gratitude. Sometimes it was a basket of golden pears or ruddy crimson plums, again a few fresh eggs or a pair of tender chickens, but the day was never forgotten. Years passed on, and the cure worked

on in a placid, contented spirit, work ing ever for his Master, in the simple little village, and Dupuytren, too worked, but for himself and science : and then came a day when the suffer ing surgeon read his own verdict in the eye of a celebrated contemporary, whose opinion he eagerly sought for his own ills.

His days were numbered : the heart which had so rarely beaten in sym-pathy with his fellow men would very soon cease its heavy throbs.

Then, as the wolf creeps into his lair to die alone, the great surgeon shut himself up in his own apartment with his God.

No one will ever know what struggles that lonely chamber witnessed, as the proud man yielded himself to the power of the King of Death.

One day the cure was surprised at receiving a card with these words in Dupuytren's characteristic hand-writ-

ing : "Le medecin a besoin du cure." Dupuytren. (The physician has need of a priest.) (The physician has need of a priest.) He quickly obeyed the summons, and only left the bedside when the hard look had passed from the surgeon's face, the fire from his eye, the hand which for forty years had so successfully wielded the scalpel, lay nerveless at his side, for Dupuytren was with his God. -Catholic Columbian.

It will certainly be a great consola tion for our associates to think that the country in which we live adopted the devotion to the Holy Family from the beginning. It is a glory for Can-ada to have at so early a date held in high honor a devotion destined in the designs of Providence to become, after the lapse of centuries, universal in the Church. Our glorious reigning Pontiff, Leo XIII., in the Brief we have already quoted, takes especial pains to point out that Canada was among the first of the nations to recognize fully all the advantages of the Association of

the Holy Family. We offer no other apology to our associates for having gone more minutely into the particulars of its first establishment on the

According to Bishop Fallize, however the reaction in favor of Catholicity is as strong as the prejudice was violent. At the dedication of a Catholic church and hospital at Christiansen recently thousands of Protestants, including the chief officials of the province, were preent. At the close of the ceremony a prominent official made an address, in which he prayed for Christian unity and the decay of religious hate. Frequently be fore he had been summoned at night to attend the sick, and found that he might have remained in bed without any risk of serious consequences to the sick person, or of conscientious remorse to himself. However, on a moment's reflection, he remembered that after a succession of some dozen or more of these cases, in which he might have put off the visit to more convenient time, there was one instance in which he found the patient in his agony, and had barely time to administer Extreme Unction. So he goes to the Church, takes the Blessed Sacrament from the tabernacle, the holy oils from the sac-risty, and, in the darkness of night, walks the silent streets till he arrives

REGULATIONS FOR LENTEN 1896. (OFFICIAL

The following are the Lenten regulations for he diocese of London : Ali days of Lent, Sundays ex

cepted, are fast days. 2nd. By a special indult from the Holy See, A. D. 1884, meat is allowed on Sundays at every meal, and at one meal on Mondays, Tuesdays, Thursdays and Saturdays, except the Satur-day of Ember week and Holy Saturday.

Brd. The use of flesh and fish at the same time is not allowed in Lent. The following persons are exempted from abstinence, viz, Children under

seven years ; and from fasting, persons under twenty-one ; and from either or both, those who, on account of ill health, advanced age, hard labor, or some other legitimate cause, cannot observe the law. In case of doubt the pastor should be consulted.

Lard may be used in preparing fasting food during the season of Lent, except on Good Friday, as also on all days of abstinence throughout the year those who cannot casily procure butter.

Pastors are required to hold in their respective churches, at least twice in the week during Lent, devotions and instructions suited to the holy season, and they should carnestly exhort their people to attend these public devotions. They are hereby authorized to give on these occasions Benediction of the Blessed Sacrament, Besides the public devotions, family prayers, especially the holy Rosary of the Blessed Virgin, should be recited in every Catholic household of the diocese.

M. J. Tiernan, Sec.

N. B .- The pastors will take up a collection for Peter's Pence in their re spective parishes on the second and third Sundays of Lent. As this is the first time in many years that a collec-tion of this kind has been taken up in the diocese, it is to be hoped that all will contribute according to their means, and show by their generosity the filial affection and high esteem they have for His Holiness the Pope. The amounts collected will be remitted to His Lordship the Bishop as soon as possible.

THE SCHOOL QUESTION IN THE PROVINCES.

During the discussion of the Manitoba school question it has been frequently stated by the journals opposed to the restoration of Catholic rights that they should not be restored because the Catholics may easily reconcile it with their consciences to make use of the Public schools, Nova Scotia and New Brunswick being given as THE CATHOLIC RECORD

It appears, however, that As in most of the rural districts, in regard to this he has changed his Catholics or Protestants are grouped together, the result is that a liberal ult. he and his wife, Mrs. Maud Booth, administration of the law usually gives made a statement to the effect that they to Catholics nearly all the advantages would make no trouble concerning the of a Separate school system, though the relinquishment of their command, and law itself makes no provision for this the transfer of the property, on the purpose. Mr. Booth's announcement was received by the staff officers with cheers and demonstrations of approval.

It appears to be the intention to popularize the American branch by making it subject to representative government to some extent at least, in order to fashion it more after American ideas.

Whatever may be the outcome of the present critical situation the event has shown that anything like a universal, or even an international, Church organization is an impossiblity in Protestantism, notwithstanding all that we have heard within the last few years concerning a reunion of sects.

The Salvation Army differs from most other Protestant sects in this respect, that it has no special creed, no sacraments and form of worship beyond something in the form of processions, band playing, and other imitations of a military display.

The latest advices make it appear probable that Commander Ballington Booth will put himself at the head of an independent army for the United States, to be known as the American Catholic faith with that of the Apostles. Salvation Army.

It is true that the Ritualists, while adopting many Catholic practices and doctrines, are very hostile to the mind, and though so lately as the 22nd supremacy of the Pope, yet when we see that by their earnest theological investigations they have arrived at a belief in so much of Catholic doctrine, there is room for hope that the last obstacle to their return to Catholic unity may also disappear. In thousands of parishes confessions

An article appeared in the Presbyterian Record for February, which ished public respect for the House of was full of the misrepresentation characteristic of that journal, and we are surprised that the Toronto Globe, which proclaims itself to be a model of fairness and liberality, should have reproduced it in a prominent place in its columns on the 26th ult., as if to manifest its approval thereof. If the State does this, it is guilty of gross injustice and does violence to the conscience of those who make or are ready to make provision for the complete education of their children, moral as well as secular.

It is impossible in a mixed commun. ity like ours for the State to supply religious instruction in the schools, but if it gives aid to the schools at all it is an injustice to exclude from this aid schools which teach religion to the pupils. We do not mean that the State should pay for the religious teaching of the schools, but it should furnish religious schools with all the facilities for secular instruction which it affords to godless schools. This is the key to the school question as far as it regards State control-and thereby we find that a Catholic country like Quebec has at least the same right to establish a school system based upon religion, as a country without religion has to establish a system of godless schools.

As far as Quebec is concerned, it is o be borne in mind that Protestant children are in no case bound to receive Catholic teaching when they attend the Catholic schools ; and, on the other hand, so great are the facilities afforded to the Protestants to have schools of their own that though their numbers are only a little above onehalf of the Catholic population of Ontario, while there were in Ontario in 1893 only 313 Catholic schools receiving Government aid, there were in the same year 941 Protestant schools receiving such aid in Quebec, including 47 Model schools, 2 Normal schools, etc. In fact, it was not long since stated by The article maintains throughout Mr. Morris, who represents the Protestants of Quebec, in the Provincial Government, that on every occasion when he had deemed it necessary to bring forward any claim of the Protestant minority, he had always been listened to with attention and respect, and that no reasonable demand of theirs had ever been rejected. How different ince by taxing them at all for the from this is the treatment accorded to the Catholics of Manitoba by the Proas have Protestant schools : whereas it testant majority there !

The article of the Presbyterian Record is also at fault in maintaining that the Catholic laity of Canada do not want Catholic schools. They have proved before now that they do want them, and our contemporary gives no proof but its bare assertion that they have ceased to want them.

But we forget : the article tells us that numbers of Catholics "take advantage of other and better schools (i. e., the Public and Protestant schools) when they have the opportunity." We have only to say that this is a mis-statement. There are a few cases where Catholics send their children to Protestant or Public schools, when Catholic schools "In Manitoba the majority provide are within their reach ; but we know MARCH 7,

In addition to all this, it is being universally recognized that the cold ceremonial, or rather the absence of ceremonial, introduced by the Reformation into public worship, has dimin-

It is for these reasons that the Ritualists have deemed it necessary to reintroduce the new forms of worship which are now denominated "Ritualism." These forms, however, are not really according to the Catholic cere-

extent. However, the general tendency of the Ritualistic movement is to increase, reverence for those things in the Catholic Church which Protestants have been taught to regard as superstitions, and the result must be that multitudes who have supposed that the claim of the Catholic Church to be the one true Church instituted by Christ to teach mankind is not worth examining into, will be led to give more attention to Catholic teaching, and the result will be numerous conversions. as they discover the conformity of the

cases in illustration of the statement.

It is said that the Public school system of Nova Scotia especially gives universal satisfaction, and that Catholics make use of the Public schools without any difficulty or remonstrance, and that they might do the same thing in Manitoba.

We have also been reminded that, after Confederation, there was an Nova Scotia against the school legislation then passed by the Nova Scotian Legislature, but the appeal was dismissed by the Canadian Government on the ground that the Provincial Government was not bound to continue the grants which had previously been made to the Catholic schools, because these schools had no legal status, and therefore the Act of Confederation did not limit the powers of the Provincial Legislature to legislate them out of existence, as far as the law could effect this.

This is not a fair statement of the case. It will be remembered by our readers that there were appeals made by the Catholics of both Provinces to Ottawa, and that though the Dominion Government at the time referred to did not take remedial action, the New Brunswick Government, at least, was requested by a resolution of the House of Commons to take into consideration the grievances of which the Catholics of the Province complained. Thus while it was admitted that the appears that the American Commis-Dominion Government had not the legal right to interfere by legislation followed certain methods which were to enforce the equitable treatment of Catbolics, the Parliament recommended | ingly received orders to retire from his that they should be dealt with equit- command, and to give way to a sucably, and as a matter of fact the Govern- cessor who has already been named,

were legal difficulties in the way of a non-resident foreigner holding the title to the army property, the nearest to this which could be done was that it and it was deemed nearly the same Booth, should hold the title deeds, and

thus the latter has now in his name all the property of the army in the United appeal made by the Catholics of States, to the amount of about \$700, 000.

Down to the present moment the plan seemed to work fairly well, though there has been from time to some discontent at the exercise of so much absolutism by one man. The confidence reposed in the general enabled the army to retain its coherence in spite of the murmurings which at times disturbed it, but within the last couple of weeks its cohesive powers have been sorely tried, and at this moment it is threatened to be broken in twain by a serious schism, no less than

the secession of the whole United States army from the parent stock. The immediate cause of the threatened schism is an act of absolutism on

the part of the general. Under Mr. Ballington Booth's rule, the United States Army prospered to an amazing degree, but the inevitable principle of disintegration which pervades Protestantism in all its forms, was at work, and there arose a spirit of discontent that the Army should be ruled by orders from England, and it sioner, though he is the general's son, distasteful to his father, and he accord-

THE REUNION OF CHRISTEN DOM.

At the opening of a mission chapel should be held by a trusted lieutenant, in Landport, near Winchester, England, the ceremony was most Ritualist thing that his son, Mr. Ballington ically elaborate. The procession which was formed to pass through and around the chapel is thus described by a press reporter :

"First came a thurifer swinging the censer, from which was emitted the fragrant odor of incense. Beside him was an acolyte carrying the crucible. Both were attired in red cassocks, with shoes, stockings, and skullcaps to match; and above the cassocks was worn a white surplice or robe. Other acolytes, similarly dressed, came next Some bore aloft long white candles, and another the cross. Following came the choir, the clergy, and other acolytes with an upraised crucifix, and Immediately a censer with incense. behind the choir came the Bishop, and on each side of him walked two clergy. men. Most of the clergymen wore birettas. The company of clergymen was brought up by 'Father ' Dolling in gorgeous cope and alb ; and then a large number of worshippers, walking four abreast, completed the pageant. The use of the "crucible" is some

thing novel in the way of church ceremonial, but it may be a mistake of the reporter for crucifix, unless it be a novelty specially introduced by the English Ritualists. It is worthy of remark, however, that the Bishop of Winchester was present, and must have approved of the gorgeous ceremonial, yet the Evangelicals or Low Church party would have us believe that they constitute the real Church of England, and they do not hesitate to attempt to drive the Ritualists and their Ritualism out of the Church.

by St. Paul in his second epistle to Thessalonians, "who opposeth and exalteth himself above all that is called God or that is worshipped." It takes time for people who have been thus indoctrinated to return to common sense, but common sense is asserting itself as they become better educated, and the prejudices of past days are fast passing

away.

There is no more satisfactory evi dence of this than the changed attitude of Presbyterianism toward the Catholic Church. The Westminster Confession declares as a matter of Christian dog. ma that the Pope is the anti Christ, but though that antiquated document is still held by most Presbyterians to be the "standard " of divine faith, there are very few Presbyterians of the present day who are bold enough to maintain that in this particular the " standard " is correct. The late Dr. Philip Schaff stated that it was based on an "erroneous exegesis," and at the present day, when the utmost liberty of belief is allowed, there are found even . among Presbyterians, many who are willing to acknowledge that the Catholic Church is not the " synagogue of Satan " which the Confession of Faith declares it to be, but a

" branch " of the Church of Christ, equally with their own. We are not superabundantly grate-

ful for this concession, but we think that, weighing all these things together, there are indications that Protestants are more disposed than heretofore to consider the claim of the Catholic Church to be the one true faith "delivered to the saints" and handed down by tradition through the ages which have elapsed since the days of the

advancing the special interests of Pres byterians, Roman Catholics, or any other denomination."

The very absurdity of these conclus-

This implies that the State should impose a system of non-religious education upon the people, and force all to maintain it, even if they provide a more complete system of education for their children, including both secular and religious subjects.

Again we are told in reference to the school system of Quebec, " to compel Protestants to support such schools, established for the purpose of opposing or destroying their most cherished beliefs, would be bringing into Canada something of the middle ages when men had to worship with Rome or die.' From this it would follow that Que. bec, or any other Catholic State, ought not to have a Public school system. unless it be a godless one. Protestant States may, however, impose either a godless or Protestant system upon Catholics. It is now admitted that the schools of Manitoba are Protestant schools, inasmuch as Protestant religious teaching is insisted upon in them under penalty of deprivation of the school grant, and under this system the editor of the Presbyterian Record maintains that Catholics are treated as they deserve. He says :

" Fair play demands that the present order of things in Manitoba be main tained. To go back to the former position is to give to the Romanists an advantage that others are not allowed.'

We do not by any means pretend that the State exceeds its duty or right when it insists upon the education of the children, and even when it provides for such education, and we fully approve of any reasonable steps taken

for being good citizens, but demand that these schools shall not be used for where Protestants send their children where Protestants send their children to the Catholic schools by preference, often on the plea that the moral influences are better there, and somesomes even on the other plea that the education given is superior. We may well balance the cases with each other and admit that a few exceptional cases count for little or nothing either way. _____

> AN OUTRAGEOUS ACT OF IN-JUSTICE.

We copy the following from the Montreal Star of 27th Feb. :

"The Senate had a most unusual and exciting time yesterday afternoon, the bone of contention being the ap pointment of a Housekeeper in the place of the late Peter Dunn, which came up on the report of the Committee on Contingencies. Now, our Saviour said, "Upon this rock I will build my church." Our Saviour did not build upon the sand. When the winds would blow and the All these windows are works of high rain should fall and the waves should art, and reflect credit upon the manu wash against it, it would never fall. facturers, the Dominion Stained Glass The rains came and the winds blew, yet the house fell not. Why? Because

it was built upon a rock, that will stand for all time and will preserve the Church from all error. This will This will render it impregnable for all ages, de spite the storms of this world and all the powers of hell. But where is this rock to be found? Our Saviour prepares that rock ; He fashions it so that it will bear the Church for all time.

He chose Simon Peter from His Apostles, and sought a confession from him. "Whom say ye that I am?" and eter replied "Thou art Christ the son Peter replied of the living God." Then our Saviour said, "Blessed art thou, for flesh and blood hath not revealed it to thee, but my Father who is in heaven. Therefore, I say unto thee, that thou art Peter, and upon this rock I will build my Church, and the gates of hell shall not prevail against it; and I will give to you the keys of the Kingdom of Heaven, and whatsoever thou shalt loose on earth shall be loosed in heaven, and vhatsoever thou shalt find on earth shall be found in heaven." See how He pre-pares that Rock ! It is Peter, and it is the confession of Peter's faith that eads Him to the belief that Peter shall be the Rock, against which nought shall prevail.

But our Saviour sought another conession from Peter-a confession of his life. "Simon, lovest thou me?" And Peter answered, "Thou knowest that I love thee." "Then feed my lambs," I love thee." "Then feed my lambs," replied our Saviour. Peter was asked a third time, "Lovest thou me?" and a third time, "Loyest thou me?" and he answered, "Thou knowest all things that I love thee." Then, said our Saviour, "Feed my sheep." Here the same Peter was made the shepherd

of the faithful. In establishing His Church to continue for all time He made a visible society. He made His Church a city upon the mountain which cannot be hid, all might see it. He tells hid, so that

Yet the apostles testified to their God. faith in Christ, even to the shielding of their blood. What has been the history of the Church down to the present; time? Look at the days of the Roman power when the name of Christian was hated, when the sight of a Christian called for persecution. St. Peter first established his See at Antioch and then moved it to Rome, where he died, shedding his blood for the faith of Christ-died on a cross like his Saviour; but in his humility, even in death, he asked that he might hang with his head down, so unworthy did he feel to die the death of our Saviour. So St. Peter died, leaving that Church to his successors ; and with it the power and authority of St. Peter remains. As the Bishops are the successors of the apostles, so is the Bishop of Rome the successor of the chief of the apostles. Our Saviour prayed that there might be one Church. "Holy Father, grant that these all may be one as Thou and I are one. As there cannot be more Gods than

one, so there cannot be more faiths than one ; there cannot be more baptisms, more means of salvation, than those established by Christ. In teaching these doctrines the Church with persecution, and during three hundred years there were attempts to wipe out the Christian religion. But power of the Roman Emperor could no more than the power of hell prevail against the Church, and soon a change came. Another Emperor suceeds the persecutors, and as he approaches Rome, in the high heavens appears a cross and on that cross the words, "In hoc signo vinces;" and placing that sign upon his banner he marched to victory, and the Christians rushed out of the Catacombs and built their magnificent basilicas that stand even unto this day.

So did the Christian religion triumph over the pagan power of Imperial Rome. But other persecutions that must have come right up from hell it-self were followed by the heathens of the early ages, who sought to bring error into the teaching of Christ What a history does Germany present to us during the reigns of the Frede-ricks, how they sought to impose upon the Church the right of investiture, that the Bishops should acknowledge that they received their authority from the German Emperor, and not St.

Here we see this new land covered with churches, teaching the same doctrine as did the apostles. We see the Church granting the same sacraments, and we see at our altars the same sac rifices offered up as did the Apostles. From this church shall go forth to your souls all those graces which Jesus Christ purchased by His bloed and Here you bring the new born death. child that the waters of regeneration may be poured upon it ; here the child growing up may be instructed in its faith ; here shall come the sinner to press for pardon and his sin made light; and here, time after time, you will come to receive that Christ, that cross, that pledge of everlasting life. When the sick call comes to the priest, he hastens to this church that he may be the bearer of peace to the sick ; and at last when death does come, to receive the body and blood of Jesus Christ before the soul departs to receive its judgment.

EDITORIAL NOTES.

A TELEGRAM from Washington, dated Feb. 28, states that the universal theme in the corridors of the capital on that day was that W. Bourke Cockran, the celebrated orator, had applied to a well known Catholic seminary for admission as a student for holy orders. The sensation created is profound. Congressman Cockran does not deny the rumor. Since the death of his wife he has forsaken the charms of political strife and sought the consolation of religion.

For this reason there was a general desire upon the part of Catholics and non-Catholics to witness the ceremony of the opening of the building to the worship of God. CHATS WITH YOUNG MEN. hoped for.

Catholic Columbian.

An assistant pastor in a poor city parish, determined to do something expressly for young fellows from fifteen to twenty, to keep them Christian and make them manly ; tried, and at first not succeeding, tried again to help them. What he failed to do and what he did, he himself will tell us : THE LADS OF ONE PARISH.

Grieved to see how many promising boys fell gradually away from attention to their religious duties as soon as they left school and went out into the world to earn a living, I determined, possible, to form an organization which would keep them faithful. Securing the cordial co operation of the pastor, I first had some little gymnastic apparatus put up in a large lot behind and belonging to the church. This, however, was appropriated by the younger boys chiefly, and was soon de-serted, even by them, for baseball. It was plain, then, that I was not working in the right direction.

Next I organized a sort of sodality, composed of all the boys up to sixteen, who had made their first Communion. For a time this worked well, but when the next first Communion class came in, the larger boys, now growing into young men, dropped off from the Communions, and it became general evident that that plan could not work as I had hoped.

At last, I decided upon another, the one at present in operation. I called a meeting of all the youths of the congregation between the ages of fifteen and twenty-one, without stating its The result was a very fair attendance of such drawn by curiosity to see what was to be done. I made little speech, showing them how necessary it was for their advancement in the world to get a better education than most of them had had the opportunity, or the willingness to use the opportunity, of getting it. Then I assured them that it was not too late to repair this misfortune, or error, at least in part, and unfolded the plan I had for enabling them to de

so. I would have a room opened for them in the basement of the church two nights in the week from dark un til bedtime : would provide some little games for their amusement; would furnish a small library of entertaining book; and would, if they desired give them half-hour lectures on some useful subject, and assistance in any branch of literature or science they might wish to pursue. They were to be at liberty to go and come as they pleased without question or offence, and could withdraw when they saw fit They were pleased with the offer

and every one present gave his name to the proposed organization.

Some younger boys wanted to join, but it was seen that to admit such would drive away others whom it was more important to keep, and they were refused, the only exception being the admission of a very few over fourteen who were as tall as the average youth of sixteen.

The meetings began on the first Tuesday of October, 1894, and have been continued during the autumn, winter and spring. No formal organization, took place until Decemformal ber, when, at the urgent request of almost all the attendants, a "Young Men's Union " was formally organized a simple constitution adopted, and officers elected. Since that time regu lar minutes have been kept, the roll has been called at each meeting, and such business as was desirable, trans acted, and though it was intended to open the rooms until the first of April only, from the idea that no considerable attendance could be expected

PRINCIPLES MAKE THE MAN.

Behind all character there are en during principles, and it is by these principles, handed on from sire to son, but developed for the first time some times by him in whom they are illus trated, and greatness is nurtured and the truest kingship achieved. We see now and then, men of the humblest ineage, as the world reckons such who mount to the loftiest em things, inence from the lowliest and most ob scure beginnings, and we see all along in the history of such men, certain dominant aspirations, certain clean convictions, a faith and courage and majesty of rectitude, which rule and mould them from the beginning. given the following interesting account of Cardinal Manning : "If it be permitted to review a reviewer, I should like to say some-

thing 'per contra' to the writer who reviews Purcell's life of Cardinal Manning, my old friend and my father's friend, in to day's Tribune. I say my father's friend, for he dedicated the first volume of his Anglican sermons to my father, whom he met when

he went to England to preach the sermon at the opening of the parish church at Leeds, at the invitation of Dr. Hook. It is an inherited friendship as well as a personal one, the latter founded on my seeing him on several occasions when I was in Europe I first heard his silvery voice and his persuasive words in the Church of St. Andrea delle Fratte, in Rome, over

forty years ago. "No one who has never been through the throes of conversion from Protestantism to Catholicity can form any idea of what it is, especially when the mind is losing hold of the old ideas and has not yet grasped the new. It is a period of perplexity, uncertainty and difficulty, and must have been doubly so in the early days when the converts were pioneers. I know of no sadder book than 'The Letters of Cardinal Newman,' describing that period of his own life. He had lost aith in Anglicanism, and yet he was uncertain as to his own conclusions fearing lest he might be misled and mislead others, and knowing the grief that his leaving the Church of England would cause to so many who were dearer to him than life. This, in his case, and in the case of Cardinal Manning, led to apparent oscillation and charges of dishonesty and duplic-ity, of which neither of them were capable. As soon as they saw their way clear before them they made the trenendous sacrifice, humanly speaking,

and bravely entered upon it That there were differences of opinion as to undefined dogma and policy of action between those two great men is not to be denied. Just as Paul withstood Peter to the face, so Newman and Manning differed about certain matters, and their difference was public and well known.

One statement of your reviewer, that Cardinal Manning never did a noble or disinterested deed, is too astounding to be passed by. 'Ex uno disce omnes,' to be passed by. 'Ex uno disce omnes, and almost all his criticism is of the same character and of the order of ravesty. Toward the end of his life, when the golden jubilee of his priesthood (or perhaps the silver jubilee of his episcopate) was celebrated, offerings amounting to many thousand

pounds were made to him. When the money was given to him, he gave it all away to hospitals asylums, seminaries, churches, and one of the most beautiful things he even wrote was the address that he delivered on that occasion. I have not yet seen Mr. Purcell's book : but surely that must be mentioned, and this act was in keeping with his whole life. · Per transit beneficiendo' (he went about doing good), might have been said of him, as was said of his Divine Master. Finally, anent putting found, but in the slums, among the poor, leading the temperance crusade, and trying in every way to promote the spiritual and temporal interests of his flock. He led a most mortified and abstemious life, and died leaving almost nothing behind him, acting on his own principle that a priest should be without money and without debts. His manner was cold and irresponsive, and he was often misunderstood, but a nobler man or more faithful priest never lived than Henry Edward Manning, second Cardinal Archbishop of Westminster in the restored hierarchy of England. "The last time I saw him was a few months before his death, when his emaciated frame and impaired hear ing showed the ravages that time had made upon him, but the fire was still in the eye and the kindliness in the voice which I had remembered in by gone years, and which once seen and once heard could never be forgotten. am glad to have the opportunity of

ness?

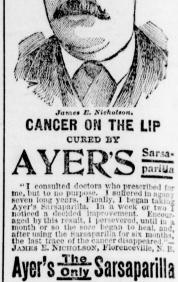

The Puritans are dead. The taste for salacious drama grows apace ; and as the coming generation gives no promise of being more reverent. modest, or conservative than the pres-ent one, the question arises, Where will it all end?

Twenty years ago the late Professor Blackie asked : "Is it not a strange thing that in modern times, with our high strung religion, we have made divorce between the stage and morality and religion ; whereas in ancient times, growing out of mere jovialityout of the harvest-home, as it were there came up a Greek tragedy, which became a pulpit from which you have sermons upon conscience which go to move the inner strings of the heart as much as any sermon which was even preached ? Recall the opening chorus of 'Agamemnon,' or read over the choruses of ' Eumenides, 'and tell me in it is not a most monstrous thing for men preaching the gospel to say that there is anything in these tending to a divorce between the Church and the theatre.

The question is still pertinent. It is idle to speak of the "essential immor ality" of the drama. The first modern theatre was a convent, and the first dramatist a nun. It is idle to propose shunning the stage and delivering it up to a reprobate sense. That is not the way of the Church. When an offensive institution can not be ban-ished, she endeavors to change its char acter and make it an ally. Thus some of the feasts of the ecclesiastical year had in so far a Pagan origin. And if church goers would insist that all man agers should be like the lamented Mr Booth, the theatre, too, might become not merely a place of innocent amuse ment, but a pulpit of truth, a hand-maid of the Church. On one occasion Mr. Booth was asked by a minister if he could not enter the theatre by a side door to avoid being seen. "No, sir," answered the great actor : "there's no door in my theatre that Almighty God can't see through." Here was a con scientious manager, and one who more than any other succeeded in lifting from the theatre the odium which unscrupuous management and depraved patron-

age had cast upon it. The Church can not banish the drama, but organized and enlightened Catholic opinion-at least, to a large extent-can change it. It is purely a question of dollars and cents. Manigers are like most other public serv ants: they give people what they want and what they pay for. Let it be shown that the dangerous drama is not profitable, and the dangerous drama will be promptly abandoned. Let it be once understood that the public wants decent plays, and the public will have them.

Ours is a day of agitations and move ments-many of them stupid or useless or worse. But there is work for one more agitation, reasonable in its demands and vigorous in its methods. If the patronage of the better element of theatre-goers were withdrawn from plays of doubtful character, and from theatres where such plays are enacted. the managers would very soon be

Brethren, th

to continue the meetings for the present, and they have so far been fairly During the long nights of the later

autumn and winter, the boys began to collect from 7 o'clock and amuse themselves by playing checkers or dominoes, or in conversation. At first, there was a disposition on the part of some of the younger members to skylark a little, but this was soon checked by the determination of the executive committee, to suspend them under clause of the constitution giving it that power, and, thenceforth, there was excellent order. By 8 o'clock the o'clock the attendance was good, and then the roll was called, the minutes read, and whatever business there was, transacted.

Then the writer began his lecture, and briefly sketched the history of Phoenica, Assyria, Egypt, Greece, and Rome, as far as the establishment of the Roman empire, besides giving some readings germane to the subjects treated of. He was heard with strict He was heard with strict attention and endeavored to make his subjects as interesting as possible. After the lecture, the library was opened ; it was, at first, well patronized, but, gradually, the number of readers fell off, the books, such as Scott, Dickens, Thackerary, Cooper, etc., being evidently too heavy for most of the members ; but the few Catholic stories have been most read, much to the writer's satisfaction. When the giving out of books was over, games etc., were resumed, and often there was some very good singing. At 9:15 the lights were put out and the room closed.

The monthly Communions are on the same day with those of the younger boys, but the Union occupies a separate place in the church and the attendance of the older boys is much better than before, and they have begun to join, when old enough, the literary society of Catholic gentlemen, which is doing much good in the city. Much remains

Intemperance and impurity go hand n hand. They are closely allied. Drink turns a young man's mind out of its balance, and his mental capac ities and his body become impure His will-power becomes destroyed, and he higher faculties are sluggish and deadened.

God has absolute power to give life. All creating centersin Him. He has conferred infinite honor and indefinite responsibility on man by giving him power to re create and perpetuate his kind. Fatherhood is one of the most sacred functions. In this life alone its exercise is wraught with measureless results for good or evil : considered in view of the endless life on which all men have entered, the possibilities and results are beyond conception or

computation. The indifference which bounds among men-otherwise well informed-concerning fatherhood and its obligations, are startling and criminal ; while the wickedness which de grades this function to the low level of animalism is a shameful badge of degradation.

Fatherhood demands physical purity and soundness. Whatever one may have received by the laws of heredity, he must make the most and best of himself for the sake of those who are to carry his life and name into succeeding generations. Physical soundness and physical purity are insepar able. These form the best basis for all that is best.

While we all concede that purity is an essential attribute to a true man, some persons reserve to themselves an undefined feeling that a Joseph is somewhat effeminate in character.

this they are mistaken. Natural law is inviolable; it carries its own penalty The power of unrestrained imagination means loss of purity irreparable and loss of chivalrous regard due to woman. The man who loses these fine feelings has committed moral suicide. We may deceive ourselves, not others. Your sin will find you out.

the Badge into the envelope, it was placed on the high altar in the chapel, where a supplicant, kneeling with exed Sacra before the Bless tended arm ment, reminded Our Lord, there present, of all the promises He has made in favor of those who honored His Sacred Heart, and asked Him, too, to manifest His glory before so many Protestants. That morning another priest went to see G---- and anointed him ; he was still delirious ; there was no confession, and the Father feared he would die without one.

Mrs. L----, in replying to the note, said that she regretted to say there was no improvement in G----'s state, and that the Badge had been pinned on his clothing as requested. Who can tell what marvels took place in that Protestant assembly? Little - remembered nothing and knew nothing then about the Badge ; however, next morning he asked for something to eat, and in less than twenty four hours his wounds had all healed without discharge. The Pro testant doctor, who knew nothing about the lamp and the Badge, said i was a most wonderful thing, and at the end of his visits, his patient was quite himself, though well marked A couple of weeks later he left the school and was prepared for confirma tion. He paid the convent another visit, where a Badge of the Sacred Heart was put on him, and he was taken to the chapel to thank Our

Blessed Lord and His Virgin Mother for his recovery. May the Sacred Heart of Jesus be everywhere loved !-Irish Catholic.

THEATRE. The remarkable success of Mr. Wil son Barrett's new religious play, "The Sign of the Cross," ought to encourage thoughtful Catholics who have long mourned over the degeneracy of the stage. It should also spur them on to vigorous action. The drama is here to stay, and obviously it will continue to exert a powerful influence on the morals of the people. At present that influence is deplorably noxious. Young people sit side by side in our theatres and lock unblushingly upon scenes which would shock them in real life, and which could not be so much as mentioned in respectable company Whoever glances at the theatrical posters which make our cities hideous, whoever skims over the dramatic re ports in the newspapers, must be convinced that the atmosphere of the theatre is, to speak in general terms,

brought to a sense of their responsibil-ity. A strong Catholic league, organized by priests in every parish, and supported as it would be by the best non Catholic opinion, would speedily transform the drama, and conduce to a higher tone in public morality. The need of such a league is great and immediate.

The drama in itself is a legitimate form of entertainment; and if it is offensive, it is so because of accidental and wholly unnecessary perversion. Let us aim not to banish the playhouse — an impossible feat, — but to purify it. To quote Professor Blackie again: "If they who are God's chil-dren know not how to use the drama, depend upon it the devil is far too clever a fellow not to use it for his own ends. ' A healthy public opinion in revolt against indecency has already suppressed the erotic novel ; let us hope that a similar movement may suppress the erotic drama. - Ave Maria

You note the difference in children. Some have nearly every ailment, even with the best of care. Others far more exposed pass through unharmed. Weak children will have continuous colds in winter, poor digestion in summer. They are without power to resist disease, they have no reserve strength. Scott's Emulsion of cod-liver oil, with hypophosphites, is cod-liver oil partly digested and adapted to the weaker digestions of children.

Assessment System. A STRONG COMPANY.

Twelfth Annual Statement of The Provincial Provident Institution of St. Thomas, Ontario.

Provincial Provident Institution of St. Thomas, Ontario. Herewith is presented the Twelfth Annual Report of the P. P. I., covering the business transacted during the year 1895. Notwith-standing the exceeding scarcity of money, and also unprecedented hard times, as must be considered highly satisfactory by all in-terested in the welfare of the institution. During the year, 1,814 applications were received and 1,386 policies were issued for \$2,407,000 new insurance. There were 174 applications rejected, showing the deter-mination of the management to accept only first class risks and thus build up the Com-pany with the very best material obtainable. The P. P. I. has had the lowest death rate during the past twelve years of any com-pany reporting to the Insurance Depart-ment at Ottawa for the same period and every precaution is taken to insure a con-tinuance of the same. The large volume of new business written is conclusive evidence as to the confidence of the insuring public in the Institution. Only eight assessments were required to meet the claims of 1805, although \$94,550 was paid out to members and beneficiaries, and a net increase made in the Reserve and Emergency Funds of \$16,973.05. The large increase in the Reserve is one of the most gratifying features of the report, showing, as it does, that it is effected without impart-ing any burden upon the policy-bidders. It is a bulwark of strength to the Company and a guarantee to the policy holders against the paying of more than ten assessments in any one year.

following resolution being carried using mously: "That the members of the Provincial Provident Institution, in annual meeting assembled, desiring to place on record their high opinion of the business capacity of the trustees of the said Institution, and their appreciation of the business methods pursued by them in the upbuilding of the Institution ; Be it therefore resolved that we do hereby approve, ratify and confirm the business transactions and acts performed and methods pursued by the trustees and officers up to the pursued by the trustees and officers up to the present time, and that we do hereby express our continued confidence in the integrity and ability of the said officers and trustees to successfully manage the affairs of the insti-tution, which is to-day one of the largest and strongest life insurance companies in Can-ada.

strongest life insurance companies in Can-da." Secretary Miller, in moving a vote of thanks to the agents, said that the members should not overlook the fact that the success of the Institution rested largely with the agents, and spoke in very complimentary terms of the splendid showing made by them during a year of such financial depression. It is motion, which was seconded by J. Farley, Q. C., was in substance as follows: "That the members of the P. P. I., in annual meet-ing assembled, do hereby express their hearty thanks to the agents of the Institution, who, notwithstanding the unprecedented hard times, worked faithully and well in the face of many discouraging circumstances, with such success as enabled the Institution to show a gain in new business over that of 1894, and to show a gain of nearly half a million dollars in insurance in force a the close of 1895. Both the trustees and agents acknowledged of the township of Wolford.

1895. Both the trustees and agents acknowledged the compliments and thanked the members for their expression of confidence. The meeting throughout was indicative of a desire on the part of trustees, agents, and members alike, to make the P. P. The last public function given by Branch 77 took place on Feb. 13, ult., in the form of a dramatic and musical entertainment held in the Academy of Music. The weather was most unfavorable, as the recent snow-storms had entirely prevented travel from the constry and were sufficient to prevent friendly townspeople from turning out to attend an an evening's entertainment. But such as the public esteem of anything Branch 77 has a hand in, and so favorable has been the public recognition of the high quality of the entertainments heretoffore given by the branch, that a large and cultured audience was gathered in the academy when the time came for the rising of the curtain. The first part of the programme was the amusing comedy, "A Tertible Tinker," followed after the musical portion of the entertainment, by the sparkling farce, "A Regular Fi," All the characters were taken by young people of the town, who compose the "Lindsay Dramatic Club." Peterborough Examiner, Feb. 25. In view of the removal of Rev. Father Scollard to North Bay, the Emerald Benefic-ial Association, of which he has been the honored chaplain for years, tendered him a farewell reception at the Catholic Association rooms last night, and the enthusiastic char-acter of this farewell must give the rev. gentleman a striking revidence of the love and esteem in which he is held ; and not only by the members of that order, but by the congre gation generally, which was numerously represented by the large company that crowded the hall, and even the aute-cham-bers.

Father Scollard, who was about to leave them, and he thought by the large attendance that the audience sympathized with the E. B. A. in their de-sire to do honor to their departing chaplain. Mrs. Geo, Ball and Miss Lynch sang a duet entitled "The Minute Gun at Sea," which was excellently performed. At this point Mr, Jas. Rev. Father Fitzpatrick felt that the con-gregation was losing a zealous priest, and that the clergy were losing a fellow-priest, who had won their love and respect.
Mr. M. H. Quinlan said that all united in endorsing the beautiful sentiments of the address, which were the feelings of the E. B. A. and Separate School Board. He was sure that the respect of St. Peter's and the E, B. A., which Father Scollard's enjoyed, was a reflection of the feeling of the citizens of the town generally, irrespective of creed.
Mr. W. J. Devlin paid a hearty tribute to the fidelity of Rev. Father Scollard's serv-ices towards the E. B. A. His wise counsel was highly appreciated.

ARCHDIOCESE OF OFTAWA

ARCHDIOCESE OF OTTAWA. We learn from the Ottawa. Free Press of the 26th ultimo that the formal welcome and reception tendered to His Grace Arch bishop Duhamel in the Basilica on the pre-vious night was a magnificent aftar in every particular. Long before 7:30, the hour set for the opening of the ceremonies, the church was crowded almost to the limit of space, but still people came pouring in. The side galleries were reserved for ladies, and, soon after the opening of the doors, every seat was occupied, with the result that some, not being able to secure a favorable position up-stairs, braved the ordeal of commingling with the sterner sex on the floor below. The arrival of three hundred university students was followed by the filling of the aisles and the occupation of every available nock. Seldom indeed has such a crowd been seen in the cathedral.

In the cathedraft. L'Harnonie Band was on hand shortly before the appointed hour, and in their march through the church, rendered a very pleasing selection. This was followed by temmes' Marche Pontificale, played on the organ by Mr. Tremblay, and while this was in progress His Grace entered, accompanied by the canons and priests of the diocese and the seminarists from the college. Immediately upon the conclusion of the organ solo, Boner's ''Orate pro Pontifice'' was ren-dered by the choir, with Messrs, N. Mathe, F. Breton and R. Saucier as soloists. The choir, very strong, both in numbers and in the pleasing renditions, was under the direc-ing of Mr. Napoleon Mathe. Mr. Dewan was one of the most estimable young men of our city. He began his business career as a telegraph operator, and, step by step, rose to a high position in the service. He was a duitiul son, a sincere Catholic, and in every respect a model young man. To the afflicted family we offer our sincere sympathies.

where a constrained by the raining the overring in trying situations of the play. The house i maid in each comedy, Miss Jennie Macdonald, was a charming embodiment of the character, being smart, pert, and engaging, as such a person should be. Miss Norah Kennedy, as the niece in one play, and ward, in the other, of the irascible old gentleman, acted her part in a graceful and natural way, displaying a just sense of the dramatic requirements of her character, and winning the sympathies of the andience by her dignified and lady-like dememor. As wife of the irascible gentleman in one play, and as cook, sister to the tinker, in the other, Miss Florentine O'Leary was a decided success, and won the applause of the audience in a most unmistakable manner. Of the re-maining gentlemen actors, Mr. Peter Ken-nedy, as the dude admirer of the married lady in " A Terrible Tinker," and as the porter, in " A Terrible Fix," caught the aburdities of his parts. Mr. A. O'Loughlin acted his character of the lawyer's clerk and the mufin man perfectly, and his friends, who comprised the whole andience, were delighted with his rendition of the part he assumed. Mr. Frank Shannon and Mr. Thas. Brady did their characters so much justice that lovers of the play hope to see them often again on the local stage. On the whole, critics agree that no better amateur performance, and few better professional entertainments, have ever been presented on the stage of the academy of music. The axists who sang were the Misses Minnie and Bessie Murphy, of Woodstock, Ont. To say the audience was delighted expresses but feebly the enjoyment and relish afforded by the solos and duetts given by these ladies. The Misses Murphy are not strangers in Lindsay, since they spent most of their girlhood in the town, where their father, Mr. Eugene Murphy, resided for some years as Local Road Masier of high-Cleas music, executed with the grace that charms, and the aristic sympathy that thrills an audience, the this first appear ance in the role of trained singer, was beforehand, so favorable and well description was the impression they created at the C. M. B. A. entertainment. The Misses Murphy were accompanied on the piano by Mrs. Halloran, of St. Joseph's Convent, whose ar-tistic skill contributed in no small degree to the success which accompanied the musical portion of the programme.

As chaplain he felt that he had not at all times given the daties of the office all the attention they deserved—had not been present at all the meetings, but he knew that the society's in-terests were in good hands. He highly ap-preciated the address and entertainment which he felt had received the co-operation of the congregation.
