Russians Take 26,000 Men and 100 Guns

Halicz Captured in Victorious Sweep

TRIUMPHANT RUSSIANS CAPTURE CITY OF HALICZ, THE KEY TO LEMBERG

With 30 Guns and Host of Prisoners--Pursuit of Fleeing Huns Continues--British Make Air Attack on Turkish-German Fleet Near Constantinople--Germans Make Heavy Attack on British on the Nieuport Front But Are Driven Back in Counter-Attack.

TOTAL CAPTURE BY THE RUSSIANS IN THE PAST TEN DAYS IS 26,000 MEN AND 100 GUNS.

PETROGRAD, July 11.—A report from the general staff states the pursuit of the enemy in Galicia continues. More than thirty guns and a great number of prisoners were taken in Halicz city. The total captures by the Russians in the past ten days show at least 26,000 men and over 100 guns.

BRITISH NAVAL AIR SERVICE ATTACKED SUCCESSFULLY THE TURKISH-GERMAN FLEET

LONDON, July 11.—A British official statement says that a successful attack was made on Monday by the Royal Naval Air Service against the Turkish-German fleet lying off Constantinople. Direct hits were obtained on the Goeben and other enemy ships. Big explosions took place on board vessels and several fires were observed. The Turkish war office was also attacked and a direct hit obtained.

HEAVY GERMAN ARTILLERY FIRE LEVELLED BRITISH DEFENCES FOR A SHORT DISTANCE ON THE NIEUPOORT FRONT

LONDON, July 11.—The British War Office report states that after an intense bombardment, lasting 24 hours, the enemy made a determined attack on the British positions on the Nieuport front. Owing to the concentrated and heavy nature of the German artillery fire, the British defences were levelled and the enemy penetrated the British positions on a front of three-quarters of a mile to a depth of one-third of a mile reaching the right bank of the Yser near the sea. Further south opposite Lombaertzyde after gaining temporarily some of the British advanced positions, the enemy was driven back to his own lines by a counter attack.

CONFERENCE WILL CONSIDER ALL WAR PROBLEMS

PARIS, July 11.—The forthcoming conference of the Allied governments to be held here will consider, not only the question of the Balkans, but also everything regarding to the conduct of the war, according to Excelsior.

FRENCH REPULSE MANY ATTACKS

PARIS, July 11.—Today's official statement reports the repulse of German raids around Saigneul in the Champagne. A number of prisoners were taken. The Germans were also thrown back in the Woivre, north of Ffifrey.

SWEDEN MAKES PROTEST AGAINST WORK OF SUBS.

STOCKHOLM, July 11.—The government has instructed the Swedish minister at Berlin to protest against the torpedoing of Swedish fishing boats by German submarines.

HARDEN'S PAPER SUPPRESSED — HIMSELF MOBILIZED

COPENHAGEN, July 11.—Die Zukunft, Maximilian Harden's publication, has been suppressed for the remainder of the war, according to The Berlin Tageblatt. Harden has been mobilized under the auxiliary civil-service law and will be employed as a military clerk.

STRIKE PARALYSES BUSINESS IN TORONTO

TORONTO, July 11.—The conductors and motormen of the Toronto Railway Company decided early this morning after a two and one half hour session and by a vote of 1555 to 73 to

strike work forthwith to enforce their demands for higher pay and as a result the entire street railway system is tied up today. Factories, workshops and offices all over the city are partially if not wholly paralyzed.

RUSSIANS TAKE HALICZ PRESS ON TO DOLINA

LONDON, July 11.—Halicz, the strategic key to Lemberg, capital of Galicia, has been captured by the Russians, says a despatch from Reuter's Petrograd correspondent.

Halicz, 63 miles southeast of Lemberg on the Dniester River, is an important railroad junction and the most important key to the Galician capital. It is 18 miles north of Stanislaw and about eight miles north of Jezupol captured by the Russians under General Korniloff on Sunday. The fall of Halicz was presaged by the success of the Russians in breaking the Austro-German line between that town and Stanislaw and in driving the Austro-Germans to the Lomnica River, which enters the Dniester a short distance above Halicz.

Halicz was the center of much heavy fighting last August and September, after the Russians had captured Bukowina and were attempting to reach Lemberg. Stanislaw was captured by the Russians in August, but the Russians failed to take Halicz after engaging in furious battles at Mariampol and Monastryzka, and forcing the Austro-Germans to retire between the Ziota Lipa and the Dniester. In September Halicz was bombarded by the Russian artillery but attempts to storm the town were unsuccessful. The fall of Halicz probably will mean that the Austro-Germans must retire from the present line along the Ziota Lipa, from northeast of Halicz, through Brezeczany and Zlochoff, in order to protect Lemberg. The next line in the rear of the Ziota Lipa is the Gnala Lipa.

An earlier Petrograd despatch says: General Korniloff's operations in Galicia along a front of 20 miles, have broken the Austro-German front between Halicz and the Carpathians, and already the Russian cavalry has pressed forward for a distance of sixteen miles.

HUN CHANCELLOR WILL CLING TO HIS OFFICE

LONDON, July 10.—The crown council called by Emperor William was held in Berlin yesterday according to an Exchange Telegraph despatch from Amsterdam today, but no announcement as to what took place at the gathering has been made.

"The German public is very uneasy regarding the absence of news as to the decisions of the crown council which the Emperor held yesterday," says the despatch. "Only in times of great stress are such meetings held." Other advices from the same source say that the meeting of the crown council lasted 3 hours, being one of the longest on record since July, 1914, when Emperor William signed the mobilization order that preceded the declaration of war. The ministers of both the empire and the kingdom were in attendance, together with the members of the Emperor's military and naval cabinet.

It is believed, says the despatch, that one of the results of the council will be the introduction of a franchise bill for Prussia granting universal, direct suffrage and the secret ballot.

A despatch from Bern, Switzerland, says: According to the summary of the chancellor's speech before the main committee, published in The Lokal Anzeiger, of Berlin, he said "We must continue the war with our whole energies. I do not deny that we have great difficulties to overcome, but so have our enemies. We shall see whether their difficulties or ours are greater. I am sure we can win if we hold out. Nothing was further from my intention than to cling to my post, but now it is a question of protecting the fatherland from injury, and for this reason I consider it necessary to retain my post."

PTE. A. STARK PAID THE PRICE

Missing for Months, He is Now Presumed to Have Been Killed, Was Well Known Stationary Engineer

Missing since October 8th, 1916, Pte. Andrew Stark of the 59th Battalion, is now presumed to have been killed in action. Yesterday Mrs. Stark, 173 Mary Street, received an official message from Ottawa, conveying the sad news.

Pte. Stark enlisted about two years ago in the 59th Battalion and spent the winter of 1915-1916 in Brockville. One year ago last March, he went overseas with that unit and was at the front for many months.

He was 42 years of age when he enlisted. He was a native of Scotland. For twenty three years, he lived in Montreal and was, for 13 years, engineer with the Imperial Oil Company. For six years he had lived in Belleville where he was engineer with the Steel Company of Canada and the Graham Company, Ltd. He was also engineer on Mr. McDonald's tug.

Of a quiet disposition, Andrew Stark was beloved by all who knew him. Besides his widow, he leaves three daughters and four sons—Mrs. Finley, Toronto; Miss Aches, employed in a Toronto munition plant; John Andrew, working on munitions in Lindsay; and William Gordon, Russell, Lawrence and Ethel, home.

Andrew Stark was a member of Court Maize, I. O. F. of Belleville. Mrs. Stark had a premonition of her husband being among the casualties. One Saturday night in October, while neither asleep nor awake, she felt she was near him and that he told her to bind up his arm. She looked and saw his wrist and arm lashed and bleeding. She bound up the injury and started to cry, but he told her not to weep. On the Monday following, she received a field card from him, stating that a letter would follow. On Wednesday, two days later, came the word that he was missing. Since then she had hoped that he would be found alive but yesterday's tragic message has crushed all hopes.

The deepest sympathy is extended to the bereaved widow and family.

GALLANT YOUNG CANADIAN AVIATOR

Although only nineteen years old and a young Canadian aviator, Captain W. A. Bishop, Owen Sound, has created a record in the way of decorations for bravery and gallantry at the front. Word has been received at Ottawa that he has won the Victoria Cross. Previous to the awarding of this great honor he had been decorated with the Distinguished Service Order and the Military Cross. He is said to be the only man alive to have won these three decorations.

Up to June 10th the young aviator had brought down twenty-one German air-planes, two balloons, and had been in fifty-seven combats. He has been congratulated by Sir Douglas Haig, and Premier Sir Robert Borden has recently written a congratulatory letter to his father, W. A. Bishop, registrar of Grey County.

THE CANADIAN RED CROSS SOCIETY

Belleville Cheese Board District Branch Report for June

The following letters, with others have been received from hospitals and associations acknowledging shipments received by them:
From Lady Perley, Chairman, Canadian War Contingent Assn.—

"I have to advise you the consignment about which you wrote me in your letter of March 28, has now been received, and I am directed to convey through you the most grateful thanks of the Association for this splendid gift.

"We are very grateful to you for your continued assistance to us in our work, and are always ready to do anything we can to carry out any wishes you may express.

"I write to acknowledge with grateful thanks, the safe and correct receipt of your kind contribution addressed to us on March 28, now unpacked. The twelve suits of pyjamas, the dressing gowns, socks, bandages, quilts, etc. are all very welcome.

"Several of our Red Cross workers gathered at the home of Mrs. B. Winsor on Wednesday of last week and spent the day sewing, and again on Thursday of this week at Mrs. S. Holden's, two dozen suits of pyjamas were made.

"Some of the farmers are making hay. Mrs. J. B. Weaver and Miss Myrtle have returned home after spending a week at Wellington, visiting Mr. and Mrs. F. Vandervoort.

"The Sunday School picnic on Saturday was well attended. Miss Lulu Rowe was surprised by her friends of the Maple Leaf Club at the home of Rev. Mr. Poston on Tuesday evening.

sympathy and its expression. We are very busy here at present. Very gratefully and sincerely, (Sgd.) Agnes Jekyll.

"Please accept our very grateful thanks for the cases sent by your Society. Everything was so nice and of such good quality, beautifully made and they were, above all, useful.

"The Red Cross shirts are always acceptable of the faces of the sisters on the section brightened at the sight of the beautiful piles of towels.

"We have two sisters from Belleville here just now—Miss Anderson and Miss Geen. Both are, I believe, going on transport duty very soon.

"I have to acknowledge receipt of four boxes of Red Cross supplies, marked as from the following sources:—one from Roslin W. I., one from Wallbridge W. I., one from Plainfield W. I., one from Tweed, R. C. Soc.

"I must thank you very much for these supplies, which will be most useful, and will be appreciated. (Sgd.) Jean Urquhart, Matron.

THE CAMP MEETING

Next Sunday there will be inaugurated at Oak Lake, a beautiful sheet of water in the high hills immediately south of Stirling, a movement that will be watched with deep interest by all denominations, but particularly by the members of the Methodist faith.

Just why more of the churches have not seized upon this camp-meeting system is to us a problem that is difficult to understand. It has always had a popular appeal as well as the highest religious sanction. Jesus didn't spend His time preaching in the synagogues or in the magnificent temple at Jerusalem.

Methodism has been fittingly described by Goldwin Smith as "an organised enthusiasm". George Whitefield, the peerless preacher, John Wesley, the shrewd organiser and Charles Wesley, the inspired hymn-writer, gave to the Methodist movement a powerful genesis and insured its continuance.

Methodism spread to the United States and later to Canada. On this continent its unquenchable earnestness, zeal and enthusiasm seemed exactly to fit pioneer conditions, where hardships were to be endured, vast spaces traversed and the message carried to those who were scattered about the advancing frontiers of civilisation.

MADOC BRETHREN ATTEED SERVICE

Impressive Sermon Delivered by D.G. Chaplain of Orange Order

The members of L.O.L. 160 Madoc, attended Divine Service in St. John the Baptist Church, Madoc, on Sunday morning last. The Rev. A. E. Smart, D.G. Chaplain, officiated at the Service.

REDNEVILLE AND ALBURY Mr. and Mrs. E. Adams have returned home from their brief honeymoon to Ottawa. On Tuesday evening of last week a number from this vicinity gathered at their home and presented them with a miscellaneous show.

the church bodies. But of late years all has not been well with Methodism. It has suffered in common with all other churches by declining attendance. But, what is infinitely more serious, it appears to have lost a large measure of the enthusiasm and evangelistic fervor that carried it triumphantly forward in the days when it was poor in tangible property but vastly rich in missionary zeal.

Our own impression is that the Methodist church has become too wealthy and too respectable. Its success caused many imitators to arise. The imitating denominations have in many cases shown such excesses of emotionalism that they have caricatured and thrown into some disrepute the "revival" services, so long a feature of Methodism.

Without emotion and enthusiasm religion would speedily die. In fact religion is the emotional expression of love and reverence for the benevolent Power that rules the world. No denomination, no matter how dignified and sedate it may be, gets away from emotion.

Methodism in its earlier development was strongly emotional, demonstrative and filled with evangelistic zeal. Latterly it has become sober, matter-of-fact, and contented with itself but enthusiasm has died.

The object of this camp-meeting is partly to rekindle the old enthusiasm and partly to develop enthusiasm along new lines. In the pioneer stage of development of the church in this country and in the United States the camp-meeting was one of the most notable features of religious effort.

All religious bodies, as they become powerful, develop a passion for costly buildings. But these rich and fashionable surroundings do not attract the mechanic or the laboring man. When he does go he has much the feeling of a rat in a strange garret, and he fails to return.

The coming of the automobile has had a serious, deleterious effect upon church attendance. The people seek rest and recreation in the open air on Sunday but they cannot be forced to attend church in the hot weather.

At Oak Lake camp the services will be in charge of a strong district committee of laymen and ministers. Rev. L. M. Sharpe, of Galt, a sane, thoroughly practical evangelist, will be the leader in the evangelistic work which will always be kept to the fore.

Should this year's experiment turn out to be a success the camp-meeting will probably be continued as a permanent feature of Methodist religious effort in this district.

REDNEVILLE AND ALBURY Mr. and Mrs. E. Adams have returned home from their brief honeymoon to Ottawa. On Tuesday evening of last week a number from this vicinity gathered at their home and presented them with a miscellaneous show.

The Misses Letitia and Walla Brown, of Shannonville, spent last week with Mrs. W. R. Russell.

Mr. Chas. Loveless and Reta Brickman took dinner at T. G. Thompson's on Sunday.

CHISHOLM

Mrs. Jas. Cole, of Point Peetre, returned home Saturday after spending a week with her parents, Mr. and Mrs. Wm. Campney.

Mrs. W. J. Instead, of Wellington, is spending a few days with her sister, Mrs. R. J. Huff.

Mrs. A. Murphy, Mrs. G. C. Blakeley, and Mrs. Wm. Chamberlain, of Wellington, spent Friday with Mrs. Ed. McDonald.

Miss Muriel Campney spent Sunday at Demoreville.

Mr. and Mrs. H. Cooper, of East Lake, spent Sunday with Mr. and Mrs. David Hubbs.

Miss Edna Christie spent a day recently with Miss Vera McDonald.

A number from the vicinity attended the social at Burr's, Friday evening. All report a good time.

Mr. and Mrs. E. A. Hubbs and Mr. and Mrs. Sherman White motored to Deseronto Sunday.

MADOC

Mr. Samuel Stork, of The John Winters Lumber Co., of McDonald's Siding, was in town Thursday on business.

Mr. Chas. Summers, of Millbridge, accompanied by his two brothers, Uriah and Thomas, of Glamire, motored to Madoc Tuesday evening and were in attendance at Masonic Lodge.

Mr. Manley Tuffs and family, of Gilmour, and Mr. Garret Turts and family, of Saskatchewan, are visiting their parents, St. Lawrence St., Madoc.

Mr. and Mrs. Chas. N. Wellington, of Port Arthur, are visiting their daughter, Mrs. Geo. West, at her home on St. Lawrence St. Mr. Wellington being an old Madoc boy, we are all pleased to see him looking so well.

Miss Ida Rollins and Mr. Allan Johnston were quietly married at the home of the bride's father on Friday, June 29. Miss Rollins was formerly a teacher in the Model School.

The soldier's comfort shower held at the home of Mrs. Wm. Cross on Tuesday, July 3, was an assured success both in money and comforts.

The total amount received was over \$100. The Women's Patriotic League should be congratulated on their success.

Mr. Will J. Hill and Mr. W. H. Brooks motored to Napanee and Deseronto Sunday, July 9. They report a wet run, but the rain will help the crops, which are looking the very best.

Miss Ruth Bristol, who has been teaching in Peterboro, has returned to her home for the holidays.

Miss Eleanor Nickle is visiting her aunt at Havelock.

A basket picnic will be held in Jas. Moore's grove, Queensboro, under the auspices of Queensboro L.O.L. on July 12. A number of lodges will be represented and a parade will be formed at 1:30 p.m. Then there will be games and athletic sports. A pleasant time is hoped for.

At 12 o'clock noon, Wednesday, July 4, a very happy event took place at the home of the bride's mother, Mrs. Jno. A. McCoy, when Miss Kathleen A. McCoy, B.A., and Mr. Frederick S. Brown, B.A., were united in marriage, the ceremony being performed by the Rev. Dr. W. S. McTavish of the Presbyterian church.

The wedding march was played by Miss Luella Harrison, and Miss Irene Whytock sang beautifully a solo during the ceremony. The bride was given away by her brother, Mr. C. A. McCoy, and Miss Grace acted as flower-girl. The bride wore a gown of pearl colored crepe-de-chine and tulle hat. A dainty luncheon was served, after which the happy couple left amid showers of good wishes and confetti to spend their honeymoon at the chain of lakes, north of Peterboro. Among out-of-town guests we noticed Dr. and Mrs. Binns, of Welland, Mr. and Mrs. J. G. Brown, Lakeside, the Misses Helen and Marion Moore, Campbellford, and Mr. Frank Smith and party were in Trenton and Belleville Sunday.

Dr. Young and family, of Toronto, arrived Saturday to spend their holidays at Moira Lake. We are sorry to hear the Doctor did not find his cottage in as good condition as he left it.

Dr. Tummond and wife are camping at Moira Lake for the summer.

Mr. and Mrs. Gordon Munn, of the Noyes Fluerspar Mine, are occupying Mrs. Arthur Coe's cottage.

Miss Carrie Rollins, of Winnipeg, is visiting her mother, Moira St.

A basket picnic will be held at Eldorado on July 12, at which our popular representative of East Hastings will deliver an address. We are sure all will be delighted to hear Mr. Northrup at this particular time and so soon after the conscription vote.

A meeting of the Fair-Directors is called for Wednesday evening, when they will discuss the betterment of Madoc Fair.

Mr. Angus Nicholson is in Ottawa this week on business.

THIRD LINE THURLOW

We had a great rain on Sunday, which was needed. The farmers of this locality have harvested some lucerne hay in good condition during the past week.

Our new minister, Rev. Mr. McMullen has assumed his duties on Cannitton Circuit.

Mr. and Mrs. Oliver Pascoe and Mr. and Mrs. Draper, of Whitby, motored down on Saturday and visited Mr. and Mrs. Wm. McCreary, of Halston, and Mr. and Mrs. A. Rutan. Mrs. Pascoe is Mr. and Mrs. Rutan's eldest daughter.

Mr. Robert Wilson is some better. A number of his sons and daughters have come to see him during the past week.

Mr. Gilbert Clapp is helping Mr. Fred Swain in building some farm buildings.

Miss Laura Phelps and Miss Evelyn Cooley are home for the holidays.

Mr. A. Rutan visited his son at Bayside one day recently.

GLEN ROSS

The fine rain on Sunday was much appreciated and we are looking for a bumper crop.

The new pastor, Rev. A. L. Howard, preached a very effective sermon at Carmel on Sunday afternoon. He took for his subject, "Why see you, a Christian?" He will speak next Sabbath on "What it means to be a Christian."

Pte. Chas. Weaver, of Kingston, has been enjoying a few days with relatives at home.

We regret to learn of the death of Mr. James Johnson, of Crookston, which took place on Saturday, July 7. He had some warm friends in this vicinity, having spent a few months among us. The family have the sympathy of this community, especially his brother, Charlie, who resides here, and is one of our best citizens.

Miss Lilly Knockles is very ill with spinal meningitis. We hope she will soon recover.

Mrs. S. Holden spent a couple of days last week visiting her father, who is on the pick list.

Mr. and Mrs. J. Broad and others from Rimington spent Sunday at Mr. J. Holmes'.

A merry load motored out from Sulphide on Saturday to Mr. R. Pycar's, leaving some of the party and returning in the evening.

Mr. and Mrs. Gilbert Winsor, of Avon, are home for the holidays. Examinations being over, they spent the first week visiting London, Kitchener, Niagara, Toronto, Peterboro and other places.

Miss Aletha Hammond has been visiting relatives in this neighborhood.

We are pleased to learn that Mrs. Bert Searies is home again from the hospital and is somewhat recovered. Mrs. M. Anderson visited Mrs. W. Merginson recently.

Messrs. D. A. Weaver and W. Anderson have finished their work at Trenton.

Prayer meeting at Mr. Weaver's Friday night.

Strawberries are quite plentiful this year; some of the women and girls are busy laying in a supply for the winter.

SURPRISE AND PRESENTATION AT WALLBRIDGE

On Thursday evening, June 28, over fifty friends and neighbors gathered at the home of Mr. and Mrs. S. E. Lane to say good-bye to their daughter, Clara, before leaving their midst, and presented her with a beautiful wicker rocking chair and a pedestal, accompanied by the following address:

To Miss Clara Lane, Dear friend:

Originality and common sense properly blended in character is a rare possession indeed. Some of the human family have the former only,

TWO LONG YEARS HE SUFFERED

"Fruit-a-tives" Made Him Feel As If Walking On Air

OSWEGO, Ont., Nov. 28th, 1914.

"For over two years, I was troubled with Constipation, Drowsiness, Lack of Appetite and Headaches. One-day I saw your sign which read 'Fruit-a-tives make you feel like walking on air.' This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and now I feel fine. I have good appetite, relish everything I eat, and the headaches are gone entirely. I recommend this pleasant fruit medicine to all my friends."

and become faddists or fanatics. Some have a good share of the common sense, but lack the valued ally named above and so are numbered as epitomists and plodders through life; while, again, too many, alas! are wanting in both traits and soon find their level among the masses who "go with the crowd", mere-copyists and automatons.

Yours seems to be a happy lot, in that you have been generously endowed with the two blessings in due proportions. Therefore, in our assembling tonight to show honor to you, ere you embark upon the sea of matrimony, we feel that we must call to your attention certain characteristics which make you, beloved in the community of your birth and girlhood.

You will pardon our pausing specially upon some of these, for we desire to be honest in our expression. Your originality has so often helped us in your labors as President of our Mission Band, as 2nd Vice-President of our League, as teacher of the Boys' Sunday School Class and in every activity of church work, and your common-sense application has so well adjusted the efforts that we know we will sadly miss your presence and aid. Then your devotion to every good cause and your charity towards all has multiplied your influence in patience and power.

Truly your College courses have never estranged, but much endeared you to us all. And in the choice that you are now making we feel that you are being guided by the same Author of all Good, who has permeated and blessed your life.

Our prayer and trust will be that in the establishment of your new home you will find everywhere the reflection of those Christian graces which have by the accumulation of generations been showered upon you; and in the new community surroundings which you are about to enter, that your talents will still find ample opportunity for exercise.

This will cheer us most when we meet to miss you thus knowing that our loss is the daily appreciated gain of co-laborers about your future home.

"For there is no home in the halls of pride; They are too high and cold and wide. No home is by the wanderer found— 'Tis not in place; it hath no bound. It is a circling atmosphere. Investing all the heart holds dear; Where love and duty sweetly blend; To consecrate the name of friend. Where'er thou art, a home will be. For home, without this, cannot be."

Please accept our accompanying tokens as memento of the true and lasting friendships of the Wallbridge home.

(Sgd.) Mrs. G. A. Ketcheson Mrs. W. J. Sharpe Miss Maza M. Seeley Miss Hattie Bird.

Miss Lane expressed her thanks, and Mr. John Hinchliffe, one of our oldest Sunday School workers, made a few remarks and acted as chairman, calling of several others to say a few words. After singing a verse of "Blest be the Tie That Binds" cake and sandwiches were served.

MOUNTAIN VIEW

Mr. Ross Anderson is spending the vacation with his uncle, Mr. J. R. Anderson.

Mr. and Mrs. Earle Anderson took a trip to Point Peetre Lighthouse recently.

Last Wednesday evening the Women's Institute of Mountain View gave a very successful social at which they realised \$81.50, which is to be used for Red Cross purposes.

Next Wednesday afternoon, July 18, Mrs. Roy Giles will give the report of the W.M.S. Convention, in Mountain View Church. Luncheon will be served. All are welcome.

DEAF PEOPLE

"FRANK ORLENE" absolutely cures Deafness and Noise in the Head, no matter how severe or longstanding the case. Hundreds of persons whose cases were supposed to be incurable have been permanently cured this New Remedy.

This Wonderful Preparation goes direct to the actual seat of the trouble, and One Box amply to effectually cure any ordinary case. Mrs. Rowe, of Portland, Oregon, writes: "The Orlene has completely cured me after twelve years suffering."

Many other equally good reports. Try one box today. It only costs \$1.00, and there is nothing better at any price. Address: "ORLENE," Care of SOUTHWVIEW WATLING ST., DARTFORD, Kent.

ICE CREAM

BIG ISLAND

Miss A. Bristol has returned to her home in Belleville after spending a pleasant week, visiting her sister, Mrs. S. Sprague.

Letters have been received from Pte. Harold E. Cobourne, stating that he is well and at Witley Camp, England.

Mr. Peter Barragar, of Madoc, is at his brother's, Mr. Geo. Barragar. Mrs. E. Sprague, of Mountain View is staying at J. E. Sprague's. Mrs. John M. Kerr and Miss May Kerr spent a recent afternoon with Mrs. Jas. Hallett.

Mr. and Mrs. Jas. Semple were guests of Mr. Wm. Vitter's on Sunday, the 1st. inst.

Next meeting of the Institute will be held at Mrs. Geo. Canagher's.

The indication of worms are restlessness, grinding of the picking of the nose, extreme peevishness, often convulsions. Under these conditions the best remedy that can be got is Miller's Worm Powders. They will rid them to atoms that pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

ANNUAL SUMMER SCHOOL CLOSES

The Summer School has closed its sessions. It has been marked by deep earnestness. Students go to their respective homes to apply their increased knowledge to the communities in which they live. A vision of service has come to many. One cannot converse with them and not feel impressed with their serious purpose and devout zeal. Testing times are ahead for the church and nation, and in the Quinte District the influence of these young people will be for good and for efficiency.

TWILIGHT TALKS

Rev. C. S. Reddick, B.A., spoke on "Anointing for Service", reading Isaiah 61. Anointing would make us more effective than otherwise. There is nothing in the work itself to draw us into it. Is telling people of their sins attractive? Is a foreign field attractive of itself? The qualification cannot be in the service itself. That which makes us more effective must be in ourselves. It is not a power like magnetism. It must be something that enters into our self-conscious life.

Not Machines

We are not machines. Whatever the anointing is, it must invigorate and call into action the powers native to us; something that will fall to effectiveness every power I have. What causes a mother to go without sleep to attend the child? Something in herself.

Every achievement that is great comes from love; love, not for the service, but love for Him whose service it is. Anointing for service is not something that is dumped down on us. It does not depend on feelings. All we need is Christ Himself.

REV. HIRAM HULL, B.A.

Spoke on "The Pre-eminence of Christ" in a brief address. Jesus Christ has pre-eminence as a soul-saver and personal worker. His sermons were excellent if He had interruptions. It might do preachers good if they had interruptions, for it would show people were not sleeping with their eyes open. Christ spoke at much time with the individual. The Gospel according to Mark has been called the Gospel of the personal touch. A good instance is the woman at the well.

The Ethiopian Church

It is supposed to have been founded by the convert Phillip reached in his journey, "led by the spirit". He has preached to one. In the Korean Church, every member must give evidence of winning souls. For the most of us, our work must be with the individual. The speaker told of a young girl who won eighteen for Christ by individual work.

WORK AMONG JUNIORS

Mrs. W. P. Rogers gave a most instructive address on work among Juniors. The problem of the quality of the boyhood and girlhood needs to be borne in upon us mightily. There are few organizations for these of middle adolescence. "Give me the child, and I care not who makes the laws, or sings the songs."

A Vision

Zachariah saw the future glory of Zion when the streets of the city should be full of boys and girls. Christ brought a new estimate of children—"of such is the Kingdom of Heaven." One of His last admonitions was, "feed my lambs." Life is to be redeemed at its fountain and source. In the child is the potency for future service. Life, in the seed, calls for showers and sunshine. So the child nature calls for motherly love to bring forth its powers. We should study the needs of the child and remember He has strong social tendencies, especially manifest about the tenth year. This calls for organization, but the form of that organization will depend largely on local conditions.

C. S. E. T.

The church is not the only candidate for the attention of the boys and girls. We can win them not by human might or power, but by the power of God. We must live and play with them. The Canadian Standard Efficiency Test for boys is to be recommended as helpful. We must take account of the new thoughts and emotions that are coming on them, and so direct them that they may centre in Christ.

SUNDAY SERVICES

The spirit of the week was intensified and seemed to break forth in joyous song and testimony at the fellowship meeting Sunday morning, led by Rev. C. W. Barrett. This was followed by Bible Study, by Prof. Potter. The principle of losing life that we might gain it, was clearly expounded. Then followed the Sacrament of the Lord's Supper, administered by several ministers.

CALL TO WOMANHOOD

In the afternoon, groups of students gathered in the halls, music filled the air and at 3 o'clock, Rev. Hiram Hull, B.A., President of the National Training School, Toronto, spoke on "The Call to Christian Womanhood". He said we seem to get near to each other at the Summer School. There is a desire to enter into the place God intends us to be. Some may feel their place is not where they are today. In his boyhood days, the speaker said some thought a call to the ministry must be such as Paul's. The call comes today as the result of need, and a knowledge of that need.

The Future Need

We are getting all the Deaconesses we need for the present, but he believes there will soon be a great need for more. He remembered with what undying interest he had first heard a woman preacher. The Woman's Movement was of comparatively recent growth.

Paul and Woman

Paul realized the prejudices of the Jewish Church and among heathen nations, and he saw how serious a thing it was for women in those days to do so bold a thing as to preach. So Paul said they had better be careful. But Paul had immortalized the names of certain women, who had ministered to life. He saw women had something to do in the church, and, were he living today, would probably be Principal of the Deaconess Training School.

War and Women

War was affecting women by bringing them "out of themselves". He had one hundred applications last year from women who desired to take the nursing course to aid themselves for war service. We are on the eve of employing women as never before. Women can have no higher thought than that of home. The speaker related how he had asked a beautiful woman of twenty-three years what her aim in life was, and she had said, "I am going to be the best kind of a mother that it is possible to be." He had said, "God bless you!"

Deaconess Work

The Methodist Episcopal Church in Russia was started by a deaconess, in a room in Petrograd about ten feet square. There are 1,500 deaconesses in the M.E. Church in the United States, and 350 graduated last year. They could use the west of Chicago, ten times the number coming forward. The M.E. Church has 600 deaconesses in Europe, every one a trained nurse.

Tests

Candidates are tested physically. They must pass examinations showing mental powers. Three hundred lectures are given in the two years' course at Toronto. They are tested as to leadership and as to personality; also as to common sense, for some good people haven't common sense. Other tests relate to energy and adaptability to community life.

No matter what your ability, there is a place for you, as authors, dictators, book-keepers, evangelists, farmers, musicians, pastors' assistants, rescue-workers, druggists, or school teachers.

If God has called you, it is for you to get ready. He doesn't want you with your present preparation unless it is sufficient. Educationally, one should be at least a graduate of a Collegiate Institute.

EVENING SERMON

This School follows the plan of having the leader of the Bible Study during the week, preach the sermon on Sunday evening. Prof. Potter, who is a much more popular preacher than the average college professor, having spent eleven years in the pastorate, took as his text "Inas-

much as ye did it unto one of these my brethren, even these I have done unto me." There are three related factors in the Christian religion: (1) God; (2) our own soul; (3) our brother. These should be held in proper relation in our thought. By over-estimating one factor, we may not do what we should in the others. If we spend too much time in prayer, we may not give time enough to work; and vice versa. How can we love God, whom we have not seen, if we hate our brother, whom we have seen.

We can't have God's forgiveness apart from our forgiveness of others. The same law touches our possessions—our brother's need must be considered. The love of God in the heart is the most practical thing in the world. We cannot be indifferent to social questions and maintain our relationship to Jesus Christ.

No Solitary Life

There is no such thing as a solitary life possible. Mysticism went to the extreme of forgetting the highest communion is possible only as we bring others into communion. A dead intellectual orthodoxy drove men out of the churches because they did not see eye to eye with others on every doctrine.

The Danger

In reaction against these incomplete conceptions of Christ's teachings, we are in danger of forgetting God in our consideration of the brother. We must remember that the brother is a member of God's family, and it will be your love, not your creed, that will lift up the people.

In speaking to others of God's love, let the heart of love dictate the words. Eloquent speech is not necessary.

AN IMPRESSIVE CLOSING

Covenant cards were then handed the delegates and their significance explained. Quietly and deliberately the delegates wrote their answers to the questions. Sixty promised to keep the morning watch; fourteen made a decision to serve Christ; sixty-eight pledged to try to win at least one for Jesus Christ; fourteen to establish Mission Study Classes; others to form Teacher Training or Bible Study Classes, while sixty-eight pledged themselves to systematic giving of time and means. Three offered for the Weston field, and two as deaconesses.

President Higgs addressed a few words of counsel, and Rev. S. C. Moore, B.A., B.D., led in prayer. Delegates then clasped hands and forming a circle, made a silent prayer, sang "Blest be the Tie That Binds" and Prof. Potter pronounced the Benediction.

NOTES OF THE QUINTE SCHOOL

Miss Tillie Wood, Ivanhoe, presided graciously at the Sunday afternoon meeting. There were choruses by the young men, also by the young women.

Miss Ketcheson, daughter of May-Ketcheson, a Deaconess from Shorbourne Street Methodist Church, Toronto, spent part of Sunday at the School, and many young women sought her counsel.

One speaker remarked that the average person could listen intensely for only ten minutes at a time. Prof. G. P. Stewart's address on "Service" was remarkably effective. Dr. Baker has Albert College written on his heart. Many delegates visited the magnificent proposed new site of old Albert. It will be a great thing for Belleville if proposed plans are carried out. It would be "par excellence" the College City of Ontario.

Rev. Hiram Hull gives the impression of reserve power as a speaker.

Prof. and Mrs. Stewart have thoughtfully supplied roses for the Chapel meetings.

The studies of the Moslem world have had added significance, owing to the presence of British Armies in Mesopotamia and other parts. The fellowship service Sunday morning will be remembered as having the old-time spirit of Methodism.

FIELD SPORTS AT QUINTE SCHOOL

Delegates Relax—Amusing Features—Prizes Given

A half day was spent at the Quinte School in field sports. Delegates enjoyed it immensely and seemed to become better acquainted by mingling on the campus. The following are the prize winners. Prizes were distributed in the dining hall just after supper on Saturday.—Ladies' 50-yard race, Miss Kingsbury, Miss Rutherford; running high jump, Mr. Hall, Prof. Potter; standing broad jump, Mr. Hall, Prof. Potter; ladies' 75-yard relay race, Miss Snarr, Miss Kingsbury; potato race, Miss Rundle, Miss Snarr; putting shot, Mr. Hall, Mr. Hall; throwing the ball, Miss Hess, Miss Couch; three-legged race, Miss Rutherford and Miss Kingsbury; Miss Snarr and Miss Davis; neck-tie race, Mr. Hall and Miss Rutherford; Miss Kingsbury and Miss Stiel; threading the needle, Miss Rundle and Miss Werry; Miss Worden and Miss Thompson; nail-driving contest, Miss Hilda Reid, Miss Hatherly; cake-eating race, Mr. Hall, Miss Quantrell; general efficiency, Mr. Hall, Miss Kingsbury.

Prize for bringing largest delegation went to Rev. S. F. Dixon, Rawdon Circuit, Stirling, whose delegation comprised about one-sixth of the members of the School.

INCREASED COST OF SUGAR IS SURPRISINGLY LOW

Women Now Realize what a Foolish Extravagance it was to Do without Homemade Preserves

There is nothing quite so effective as facts and figures to demolish a fallacy.

Last year, when sugar went up a few cents in price, some people decided that they would not put up their regular supply of homemade preserves. They could only see the 2 cent or 3 cent increase in the price of sugar. They could not see how much more it would cost them to replace preserves with anything else. They did not stop to figure how this increase in the cost of sugar, was going to affect the cost of preserving.

Others did, however, and proved that the cost of preserving, due to the increased cost of sugar, had been greatly exaggerated.

Here is the way these clever women proved it. Before the war, we know that sugar was 5 1/2 cents a pound. Because of war conditions the price of sugar fluctuates, but the retail price for the best granulated sugar averages 8 1/2 cents a pound. This is an average increase of only 3 cents a pound.

Every good housekeeper knows that a quart jar of preserved berries or fruit requires only half a pound of sugar, so that the increased cost of preserving, due to the increased cost of sugar, is only 1 1/2 cents a pound.

This is why a jar of homemade Strawberries, Raspberries, Cherries, Plums, Peaches or Pears, is about the most inexpensive sweet or dessert that can be put on the table.

Besides the economy of putting up a goodly supply of homemade preserves, there is another reason. We must conserve our food supply. We must save our fruit crops. Last year because of the mistaken idea of economy, hundreds of thousands of dollars worth of berries and fruit were wasted. Now that the women realize that the cost of preserving was greatly exaggerated last year, they are determined to do more preserving, and also to enjoy an abundance of delicious homemade jams, jellies and preserves this winter.

REOPENING OF MOIRA CHURCH

Impressive Services on Sunday and Successful Lawn Social Last Night

The Methodist Church at Moira has one of the largest and most important congregations among the rural churches of the County of Hastings. This has always been a center where the church was thoroughly alive and every branch of religious service strongly maintained. This particular church has enjoyed a perennial vitality that has bid defiance to falling attendance and the other disintegrating influences that have played havoc with other well placed country congregations throughout the district. The church has been and is alive because it has always been blessed with a membership of live workers. "Service" for many decades has been the distinguishing aim and practical accomplishment of pastors and people.

The church edifice is a substantial roomy structure of stone and was erected at about the same time as when Canada became a Dominion. It appears to be quite as sound of body as upon the day of its dedication.

For some time past the church has been undergoing a thorough renovation. Mr. C. B. Scantlebury of this city has had a company of skilled men on the job in charge of Mr. Scrimger and they have done their work remarkably well. Mr. Geo. Post, an able decorator of Moira also gave valuable assistance.

The color scheme as worked out has given admirable results. The tints blend and harmonize in a beautiful manner and give to the whole an appearance of good taste, richness and refinement.

The walls are of light brown with wide border of a still lighter tint. The field of the ceiling is ivory white with style in fan and frisco work in light tan. All the color-work was done with oil and is permanent.

Behind the choir loft is a magnificent oil painting, the work of Artist Fritzen of this city. The painting shows the figure of Christ, the good Shepherd in the midst of the sheep and carrying in his arms one of the lambs. This work of art is singularly life-like and forms a most fitting background for the pulpit and altar.

Those who had charge of the work of renovation have been showered with congratulations and compliments.

The reopening services took place on Sunday, Rev. W. B. Tucker, B.A., B.D., of Madoc, president of the Bay of Quinte Conference was the special preacher for the day. He was assisted in the services by Rev. C. G. Redick, B.A., the pastor of the circuit. Mr. Tucker's sermons both morning and evening were most able, impressive and scholarly.

In the morning he chose for his text—Psalm 96-6 "Strength and beauty are in His sanctuary." The speaker ingeniously developed the idea lying back of the text and showed that the real sanctuary did not consist of magnificent church surroundings but was found in the heart consecrated to service.

In the evening Mr. Tucker found his text in Revelation 21-16 "And the length and the breadth and the height of it are equal." Taking for a symbol the cube, having equal dimensions of length, breadth and height, the speaker made application of these expressions of measurement to the individual character. Life should have length, that is to have a definite calling to be strongly pursued. Life should attain breadth by the cultivation of the social qualities and various interests not too closely connected with one's real occupation. Life should also have height and reach after the higher things. There should be the upward reach towards God. Without length, life was weak; without breadth life was narrow; without height, life was thin and shallow.

Both sermons were masterly deliveries and were followed with deep attention by the congregations present.

During the services the choir rendered a number of appropriate selections in a very capable manner. Miss Evelyn Salisbury presided at the organ and Mrs. Fred Haight sang a solo at the evening service.

Last night the proceedings were brought to a close with a garden party that was in every respect a huge success. Notwithstanding the threatening weather people came from far and near in anticipation of having a good time and in this the guests were not disappointed. The Ritchie company of this city was represented by about twenty of the staff who drove out in the evening.

MASONS SOON TO MEET HERE

Election Will be Chief Matter of Interest and Men Likely to be Chosen

Toronto, July 10.—The Masonic Grand Lodge of Canada, in the Province of Ontario, will hold its sixty-second annual communication in the city of Belleville, on Wednesday and Thursday, the 18th and 19th of the present month. The sub-committees of the Board of General Purposes will meet on the Monday previous to arrange for the business to come before the Grand Lodge. It is expected fully one thousand delegates will be in attendance, and Belleville will be taxed to its utmost capacity to supply the proper accommodation for so large a number.

This being what is known as "election year", interest naturally centres around the election of a brother for the position of Deputy Grand Master and from present appearances R. W. Bro. F. W. Harcourt, K.C., of Toronto, the official guardian of Ontario, will be elected.

The present Deputy Grand Master, R. W. Bro. W. H. Wardrope, K.C., of Hamilton, will undoubtedly be chosen Grand Master. Other officers who will have no opposition and who will be re-elected are, M. W. Bro. E. T. Malone, K.C., of Toronto, Grand Treasurer, and R. W. Bro. R. L. Gunn, of Hamilton, Grand Secretary. A Belleville brother, as is the custom, will be chosen for the position of Grand Senior Warden. For the office of Grand Junior Warden so far two names are mentioned, W. Bros. Geo. McLeish, of Toronto, and G. W. Plucker, of Smiths Falls.

The reports submitted to the Grand Lodge will show that the Masonic Fraternity in the Province of Ontario, is in a most flourishing condition. The membership will be in the neighborhood of 62,000, distributed among 450 lodges, with peace and harmony prevailing throughout the jurisdiction.

There is not a Masonic lodge in the province today that has not some of its members either in France, Flanders, or in other parts of the world, fighting against the common foe of civilization; and this natural reflects itself upon the attendance at lodge meetings.

HOME SAVINGS BANKS

Advocated in England as Means to National Thrift

Thousands of boys and girls all over Canada are daily appealing for an opportunity to do war work. Some are on the farm. Others are acting as Boy or Girl Scouts and helping to win the war. Still others are engaged in other forms of service. Many of them are making money. Some boys have enlisted and more than one has succeeded, although under age, in reaching the firing line. Where it is not being so used, the temper of such young Canadian can be employed in direct war service. Every dollar saved is a dollar for the country. When Great Britain was in the middle of its first great thrift campaign, Savings Banks for every home were advocated. With the help of the father and the mother, by the practice of strict household economy, and through the united savings of the family it was urged that great sums could be secured for investment in Government loans. Such sums can be secured in Canada. Family co-operation would raise more money than the Dominion has ever imagined. Such co-operation would result in increased and valuable investment in War Savings Certificates.

The indication of worms are restlessness, grinding of the picking of the nose, extreme peevishness, often convulsions. Under these conditions the best remedy that can be got is Miller's Worm Powders. They will find them to atoms that pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

It is a Liver Pill.—Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbance that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Parmelee's Vegetable Pills. Their operation though gentle is effective and the most delicate can use them.

SOME IDEAS ON SOCIOLOGY

Dr. Scott Speaks—Great Psalms Explained—Need of Telling Stories—Summer School Elects Officers.

Story-telling is of ancient origin. We are all children to some extent. But children are particularly interested in stories.

Why should we give them stories? It is of fundamental importance that we give pleasure to the children, so they may look forward to Sunday.

What Kind of Stories? Fairy stories are of inestimable value for children of twelve years and under, because of their imaginative disposition.

Stories from literature should be used. Hawthorne, Dickens, Tolstoy, Stevenson et al. are storehouses. But original stories will live best.

How to Tell Stories First of all, so prepare that the story is a part of yourself. Get the children around you in semi-circle if possible.

Practical Sociology The evening session presents variety. If the school is a training force, it should as far as practicable, show how the truths taught may be applied.

The Caste Spirit Is the antithesis of Christianity. Women are largely responsible for it, as men are, in the main, democratic.

Accurate Information Is needed in studying social matters. There are 6,000,000 young women in America working for \$6 a week, and we are told that it takes \$9 a week to live decently.

Give Yourself We cannot discharge social obligations by doing out money. We must strive for social justice.

Consumer the Third Party In the organization of industry, capital is entitled to returns; labor should meet its reward; but the consumer is the third party who is entitled also to fair play.

A Universal Reign The universal reign of Jehovah is the theme of a majestic group of Psalms—93 to 100—in which the

today, the speaker expressed the opinion that it is not right for the Government to compete with private companies.

A King and His Kingdom Prof. Potter touched the hearts as well as informed the minds of students. Continuing his studies of the Psalms and other poetical books, he showed that poetry must, to a great degree, be the expression of the joy and sorrow, the faith and doubt the defeat or triumph of individual souls.

Nature a Revelation The Hebrew poet seems to have had none of the modern poet's delight in nature for its own sake. He saw nature only as the manifestation of God.

National Aspirations The poet becomes the mouthpiece of national aspiration and faith, or national triumph or despair. Thus, in the principles that govern in the narrower round of personal life, govern also in the wider.

The Hand of Fate But this fair ideal of glory seemed to be completely shattered by the fate which befell the nation. No more tragic drama of national life has ever been enacted.

Night of Despair It is hard for us to fathom the night of despair that descended on the people under these blows. Was Jehovah powerless to save? Is it any wonder they could not sing the songs of Zion, or that they should voice their despair and fury in words that appear harsh.

The Secret Is that God has given him an intellectual and moral nature, and thus he is lord of created things. Even the weakest of the race are witnesses to character and greatness of God, because their wonderful capacities, instincts, powers of reason, thought and speech.

Prosperity and Privilege In days of prosperity, pride of place and privilege had been but poorly balanced by realization of resulting responsibility.

A Wider Vision It was in the dark hours that Israel's poets realized something of the relation of sorrow to the salvation of the world, and obtained a new vision of their destiny.

A Greater Hope Their faith not only survived the shock of national ruin, but out of the blackness of their desolation they entered upon the true career of glory as the spiritual guide and teacher of the world.

whole earth joins in praise of His honor and majesty.

The central figure was the ideal king, who became the glorious Messiah of later Jewish thought.

This idealization of Israel's king led gradually to the conception of the Messiah.

Psalm 72 may have had an historical occasion, but it soars far beyond the earthly range.

The Hebrew poet seems to have had none of the modern poet's delight in nature for its own sake.

The gentle flowing of Shiloh expresses the peace of his heart. The canals of Babylon, with rank vegetation and stagnant waters, typify his despair.

This harmony reaches its climax in worship of God. A united song of praise rises to God. The majesty of the heavens spoke of God's eternal love.

The Psalms should give us a greater love for nature, and a deeper reverence. (Read Ps. 102.)

Are closely related in the Hebrew poet's thought. God had manifested Himself in both; but man is by far God's greatest work.

THE LATE RICHARD L. LAZIER

We copy the following from the Monitory Daily Cypress, California: "Mr. Richard L. Lazier, father of John C. Lazier of Gonzales and of Donald Lazier of Salinas, both widely known in this country, died at his home in Pacific Grove, Tuesday night, after an illness of about two weeks, at the ripe old age of eighty-six years and nine months."

Mr. Lazier was a native of Shannville, Canada, where, in this vicinity, the greater part of his life was spent. In 1904 he came to California, and has lived most of the time since then in Gonzales.

He leaves an invalid wife, eighty years of age, with whom he spent fifty-nine years of his life; five sons and two daughters, Miss Josephine, who has resided at home with her parents, and Mrs. Minaker of Gladstone, Manitoba. The sons, besides those mentioned above, are Richard L. of Lompoc, Samuel W. of Walla Walla, Wash., and Arthur K. in England with the Canadian forces.

Mr. Lazier, though most of his life was spent in Canada, lived long enough in this vicinity to make many friends who loved him for the grand old man that he was.

To know him and be counted as his friend was to be honored.

He was a man of great strength of purpose, indomitable will and firm adherence to principle; a friendly man; a man whose unblemished life, was an example to all with whom he came in contact.

His death coming so near, while his wife is young, just ill, makes it doubly hard on the members of the family, who have the sympathy of a wide circle of friends in their sad bereavement.

Note.—The deceased was a son of the late Richard Lazier, a Colonel in the Sedentary Militia for many years before his death.

EVERY CARE SHOWN DECEASED

John Thompson, aged 55, Died of Results of Chronic Kidney Trouble.

That John Thompson, of Brockville came to his death as a result of uraemic poisoning and an epileptic fit caused by chronic kidney trouble was the verdict of the coroner's jury on Saturday afternoon at the close of the inquest held in Messrs. Tickell and Sons' Morgue.

Coroner Yeomans' jury was composed of the following: L. Soule, P. Harrison, J. B. Archibald, W. Britton, T. F. Willis, B. R. Quincey, W. Wilkins and J. Laferty.

Evidence was produced to show how Thompson had been located on a lot near Church street shortly after his arrival from Trenton.

On Monday night last, the friends and pupils of S. S. No. 16 assembled at the home of Mrs. Mary Sills and presented Mr. Morrow, their teacher, with a military set.

The chairman of the evening was Mr. Percy Caverly. After calling the company of about forty guests to order, Miss Annie Sills read the following address:—

Dear Teacher and Friend— It is with deep regret that we learn of your departure from our midst.

As a teacher of our school, and a member of our community, you have always been held in the highest esteem by all. Your pupils who have endeared to you by your many efforts and your painstaking bearing in their behalf.

We hope and trust that your influence and daily intercourse may long be felt among them, as they take their separate paths through life.

The work of teaching and training the young mind is one which carries many responsibilities, but we feel assured that you have endeavored to reach the highest standard.

As a sportsman, the young men considered the game incomplete without your presence.

And now we ask you to accept this small token as a slight remembrance of our love and esteem for you.

We sincerely hope success may crown your efforts in whatever undertaking in life you may choose in the future, and that we may often see you again in our midst. We feel assured that every home in the section will gladly welcome you at any time that you may wish to claim their hospitality.

Signed on behalf of S. S. No. 16, Hildred Sills, Emily Chumbley.

Mr. Morrow was much surprised but he managed to express his appreciation and gratitude in a very feeling and appropriate reply.

Then impromptu addresses were delivered by Messrs. Tunmon, Hamilton, Lott and Ray. Refreshments were served and the rest of the evening was spent in music, singing and conversation.

Before leaving, they sang "God be with You Till We Meet Again".

WASTAGE OF 64,552 MEN

Sir Edward Kemp Explains 33,887 Were Medically Unfit.

Ottawa, July 10.—Sir Edward Kemp, Minister of Militia, gave a statement of wastage of men in Canada. This he estimated at 64,552. Of these, 33,887 had been found medically unfit and had to be discharged after enrolment; 13,081 had deserted, 2,086 were under age, 1,248 had purchased their discharge, 6,271 were undesirable, 918 secured other positions, 1,127 were let out by special request, there had been 572 deaths, and 1,085 were classified as miscellaneous.

GADSBY'S LETTER

TAWA. hen gets a raw deal. She has all the toil and parturient pains, and Sir Joseph has all the money. This is not an even break, does it?

It goes without saying that the egg was cut out by most people long before Food Controller Hanna took hold. He will not need to curb our extravagance in that direction. Anybody who has an egg now treats it more as an heirloom than as an article of food.

Of course vegetables and fruits are very dear in winter. Even the canned stuff is prohibitive. The Food Controller doesn't touch this branch of the subject. What about the green stuff he recommends, when a white mantle of snow covers the ground. What is the cheap, plentiful, and convenient substitute for green stuff which may be used instead of something to eat? The only thing that occurs to my mind is hay—preferably baled hay. Horses and other of the lower animals eat hay, but it can probably be made more palatable for human beings by proper treatment.

Indeed the story goes that the Department of Agriculture will presently issue a little pamphlet entitled "One Hundred Ways of Cooking Hay." This ought to help some. At all events it will help just about as much as Food Controller Hanna's advice to eat less. As if we didn't all have to eat less, when it takes more money to buy it.

INQUEST JURY THINKS NO INTENTION TO KILL

In the Gallagher-Rogers Tragedy of Marmora Township Recommendation that Rogers Be Not Charged With More Than Manslaughter—Autopsy Shows Fracture of Skull as well of Neck of Jas. Gallagher

"We find that the deceased James Gallagher came to his death on June 30th, 1917, while performing stonemason labor on the side line between lots 15 and 16 on the eighth concession of the township of Marmora in the County of Hastings from a blow of a shovel delivered from the hands of Samuel Rogers not with intent to kill the deceased," said James Gallagher.

These words sum up the finding of the jury at the inquest held on Thursday in Marmora village before Coroner Dr. Bissonette of Stirling. The town hall was crowded so great was the interest in the unfortunate occurrence of Saturday last when James Gallagher met his death. Crown Attorney Carnew conducted the examination of witnesses. Mr. A. McDonald, of Marmora appeared on behalf of the relatives of the dead man. Mr. W. D. M. Shorey, of Belleville, was present in the interests of the youthful prisoner, Samuel Rogers. Mr. Chas. Jones was foreman of the inquest jury.

Since the funeral of the unfortunate man Gallagher, the body had been exhumed, taken to the village and a postmortem held to find out the exact cause of death. Prisoner Did Not Take the Stand. Many of the spectators were interested in the account which Rogers would give of the tragedy. When all the other evidence was in, it was expected that the man who had been committed for trial at the assizes would go into the box. His counsel, Mr. W. D. M. Shorey, however, had advised him to say nothing in view of the fact that no good would result in his giving evidence as he had already been committed for trial if as usually occurred, the inquest had been held before the preliminary examination, counsel said he would have raised no objection to Rogers going upon the stand. Crown Attorney Carnew did not press for the evidence of Rogers, leaving the matter in the hands of the jury. The jurors took an open vote and none demanded Rogers' evidence. Story Says No Religious Dispute. According to evidence given yesterday by Edward Story who was working with Rogers and Gallagher

about the time of the tragedy, the dispute was not over religion. No quarrelling or jangling occurred until about three o'clock in the afternoon had been taken out of the pit. Gallagher went to spread the gravel which had been already placed on the road and wanted to take Story. Rogers thought Gallagher was "running on" Story and interfered with Gallagher, remonstrating with him. Story says Gallagher called Rogers a name to which Rogers did not reply. Gallagher said "Throw away your shovel, let's have it out." Rogers did not accept the challenge and Gallagher called him a "Protestant". The young man replied in words like these: "Well if I'm a Protestant, you're a Papist". Rogers was in the gravel wagon and drove on, Gallagher following, and Story walking in the rear. Rogers drove to where the gravel was to be dumped. Gallagher went up and walked past the heads of the horses. What actually occurred then is unknown. Story did not see the blow struck but heard Gallagher fall and saw Rogers hit Gallagher twice as he lay on the road. Story had to pull Rogers away. Story told the Crown Attorney that back on the hill prior to the occurrence Rogers said he was going to hit Gallagher as he could not stand his remarks any longer. To Mr. Shorey, Story said that Rogers declared if he (Gallagher) bothered him any more, he would hit him as he could not stand it any more. Rogers, said Story, showed no signs of fight, but Gallagher wanted to fight. Hugh Farrell, for whom Rogers worked, bore testimony that he had found Gallagher of a quarrelsome disposition.

Skull Badly Fractured. Drs. Crawford and Thompson, of Marmora who performed the post-mortem on the exhumed remains, found the skull of Gallagher badly fractured, the fracture extending from the side to the center of the top and thence along the top to the center of the forehead, above the nose. The nose was broken, and there were marks on the side of the head. On the other side of the brain was a clot of blood and the neck was

fractured near the third vertebra. Both physicians thought that death was due to the fracture of the skull. Edward Flynn, one of the jurymen, went on the stand to tell how Rogers had told him that he had a tracas with Gallagher and hit him. Rogers according to the evidence has borne a good name. His father and mother are both dead. He was brought back to the county jail here late on Thursday afternoon.

MILITARY NOTES. The feeding of hundreds of returned soldiers, some tubercular, some hospital cases following sickness, or major operations, and others who have recovered almost enough to go back into civil life, will be a large undertaking. The working out of this problem is now demanding attention and will probably result in the erection of several new buildings.

St. John, N. B., July 5.—In a thick fog which enshrouded Port Howe magazine last night, Lance Corporal Hamm, in charge of a guard there approached Private Arsenault, a sentry, in a skylarking spirit and disregarded the halt order. He ran away calling out "You can't get me now." Arsenault, not knowing Hamm, fired and Hamm fell mortally wounded and died early today. Arsenault is under arrest. Hamm expiated him.

Winnipeg, Man., July 5.—Lieut. Col. A. L. Bonnycastle, who has returned after taking his battalion to France, says there are 27,000 Canadians discharged on account of wounds, unfitness and gas in England at present, waiting for ships to bring them back home. A special hospital train, with about 150 wounded soldiers, left Halifax early Thursday afternoon and will go right through to the Pacific coast, travelling Interoceanic to Montreal, Grand Trunk to Winnipeg, and C. P. R. to Regina, Calgary and Vancouver. The train consists of five hospital cars, Red Cross car, diner, a sleeper and baggage car. Capt. J. B. Lambkin goes through on the train to its destination, looking after the welfare of the men. This is the first through soldier's special that has gone to the coast.

All sold at 2 1/5-16 cents.

DR. LESTER RIGGS IN TOWN. Dr. and Mrs. Lester Riggs, of Valparaiso, Arizona, are visiting Dr. Riggs' parents, Mr. and Mrs. W. B. Riggs. Dr. Riggs is taking a couple of weeks' holidays and will go to New York from Belleville and later to Washington. He will perform duties in connection with the American participation in the war. Dr. Riggs is a Belleville boy. He reports that the Americans are fully alive to the situation. Everywhere he saw the Stars and Stripes associated with the Union Jack.

MILITARY NEWS. Tuesday night there was a big fire at Petawawa Artillery Camp, where there are so many soldiers in training for overseas service. About 10.15 the fire started in the hospital and spread with remarkable speed all over the building. Fortunately the patients were taken from the building and none was injured. Strenuous efforts were made by the commanding officer to save the structure but it was burned to the ground before the limited facilities which are provided could be brought into use. There are no systematic fire drillers at the camp and the equipment is insufficient to cope with a large conflagration. It was thought for a time that the flames might spread to some other parts of the camp and burn the canvas tents but luckily none of the shels fell on the soldiers' quarters and the hospital was the only building which suffered. It has not been learned yet whether the fire was of incendiary origin.

I OWE MY HEALTH

To Lydia E. Pinkham's Vegetable Compound.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham remedies." —Mrs. ROBT. STORTEL, Moore Avenue, Washington Park, Illinois.

We wish every woman who suffers from female troubles, nervousness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound. If you have any symptom about which you would like to know write to Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

A NEW ROAD FROM KINGSTON TO DESERONTO. The road from Kingston to a point fifteen miles past Napanee, which would go beyond Deseronto, will be rebuilt, according to a movement on foot in Napanee to take the benefits of the suburban road area scheme.

The suburban road area is working out well, although it has only been in operation a few months. It has started a complete new road along the lake shore westward from Portsmouth. This road is being widened, and will be rebuilt on permanent lines in the most modern way.

The road from Kingston to Odessa is fair, by motorists are so afraid of the Odessa-Napanee highway that many are clearing away around by Yarker to get it. This is a detour of some seven miles, but the better road is claimed, makes up for the lost time, and the convenience.

The Napanee business men are making every effort to improve the country roads in that district. By use of the suburban road area scheme, they would be able to have a new highway to connect with Odessa and Kingston.

The Napanee people are working on the supposition that an allowance would be made for the expenditure on the road should the provincial highway through Ontario become a fact.

SLEET STORM IN QUEBEC. Quebec, July 6th.—A heavy squall of sleet and rain fell over this district at 1 o'clock Thursday causing heavy damage to crops and property. CAMPBELLFORD

Mrs. Harold Jones, who left here with the 69th Batt. has arrived in Halifax having been invalided home. He will likely arrive here soon. Pte. Andrus also returned here on Tuesday morning.

Gunner T. H. O'Connor, son of Mr. and Mrs. J. A. O'Connor, who enlisted with the R. C. H. A. at Port Hope nearly two years ago, has been signally honored by being awarded the military medal for conspicuous bravery on the field.

Mr. and Mrs. W. W. Hill and family left here on Tuesday to reside in Carleton Place, where Mr. Hill has been engaged in the woolen mill for some time. Our citizens will regret the removal of Mr. and Mrs. Hill from town, where they have always been held in high esteem. We wish them success in the future.

Rev. Charles Carpenter, who for the past six years has been Rector of Christ Church, announced to his congregation on Sunday last that he had been asked to take charge of a parish in Toronto, and that he would leave here at the end of August. The parish to which Mr. Carpenter has been called is just being organized, a larger one having been divided. The duties incident to organization will be arduous but we believe Mr. Carpenter is well fitted for the work.

Since coming to Campbellford, Mr. Carpenter has won a high place in the esteem, not only of his own people, but of our citizens generally. He has proven himself to be a man of broad sympathies, having shown a deep interest in the religious, moral, educational and social welfare of the town.

While we regret the departure of Mr. and Mrs. Carpenter from town, we congratulate him upon having been called to such an important work.

With deep regret we again have to record the passing away of one of Campbellford's old and respected citizens, in the person of Mrs. Robt. McGregor at the age of 76 years.

Deceased was a daughter of the late John Free, one of the pioneer settlers, who left Ireland to hew out a home in Upper Canada, settling in the township of Seymour. Here the family was reared and brought up. In 1865 she was married to the late Richard Melville, who with his wife moved to Western Ontario but later returned to Campbellford. By this marriage three children were born. In 1872 Mr. Melville died, leaving a widow and two children to mourn his loss. In 1877 deceased married the late Robert McGregor, who died in 1903. By this marriage two children were born, one of whom survives.

Mrs. McGregor leaves to mourn her loss one daughter, Mrs. T. L. Diamond of Seymour, and John McGregor of town. Four sisters still survive, two of whom, Mrs. Stevenson of Percy, and Mrs. James Wright of Orland, are older and Mrs. Geo. Lacey of Portage La Prairie, and Mrs. Robert Thomas of Swan River, Man.

In religion the late Mrs. McGregor was a Methodist, being a member of the church for many years. Her quiet and devoted life spoke stronger than words of the true Christian character she possessed. In later years she has not taken an active part in church or social matters but will be well and favorably remembered by those who, years ago, were brought into association with her.

The funeral on Friday was largely attended, services in the home being conducted by Rev. A. R. Sanderson, the remains being laid to rest in Mount Pleasant Cemetery. —Herald

It was decided to send \$100 to the Red Cross Society, London, Eng., for them to send weekly parcels to our Belleville boys who are prisoners of war in Germany.

Before closing the meeting, the President, Mrs. Lazier, spoke of the removal of Mr. Sneyd from the city and of his able assistance to the Association. It was unanimously decided that the following resolution be sent to Mr. Sneyd:—

Resolved: That the members of the Women's Red Cross and Patriotic Association of Belleville desire to express and convey to Mr. Sneyd their appreciation of the courtesy extended to and the assistance given to the Treasurer of the Association in the management of its finances, and also to express their sincere regret at his departure from the city; and the loss the Patriotic Association of Belleville will sustain by his removal.

The following letter has been received by the Association from one of the Belleville boys, which will explain itself:—

Somewhere in France, June 2, 1917.

Dear Mrs. Lazier,
I beg to acknowledge with thanks receipt of the box of socks sent me by the ladies of the Belleville Red Cross and Patriotic Assn. I have distributed the contents of the box among the boys from Belleville, and have also given a few pairs to other men who needed them. All the boys join me in thanking the ladies of Belleville for their kindness, and in wishing the Red Cross and Patriotic Assn. every success.
Sincerely yours,

ORDER IN THE PARKS

Mr. Willet Scrimshaw, curator of the Belleville Parks has been sworn in as special constable. His new authority enables him to place under arrest anyone guilty of disorderly conduct or of destroying plants, trees, seats, or any public property. Order must be maintained in these places of public resort. A game complaint has been lodged against some boys for causing damage at Victoria Park.

It is a liver pill—Many of the ailments that man has to contend with have their origin in a disordered liver, which is a delicate organ, peculiarly susceptible to the disturbance that come from irregular habits or lack of care in eating and drinking. This accounts for the great many liver regulators now pressed on the attention of sufferers. Of these there is none superior to Parpelee's Vegetable Pills. Their operation though gentle is effective and the most delicate an use them.

NINE HUNDRED FOR VETERANS

Result of Tag-Day Collection on Saturday—Some Generous Donations.

The Great War Veterans' Tag day proved to be a great success. The total collections altogether will amount to \$900, which in itself bears out the patriotic spirit of the people of Belleville and vicinity.

Great credit is due to the Argyle, Quinte and St. Julien Chapters of the I.O.D.E. of this city who, with their assistants, made every effort to make the day a success. They allowed no person to escape and many people volunteered three and four times to buy badges during the day.

Late in the afternoon a telegram was received by the president of the Great War Veterans' Association from Mr. E. Guss Porter, K.C., M.P., who is now at Mount Clement, Mich. stating that he was pleased to donate \$100 to the fund. With collections this brought the total up to \$844, and Saturday evening Mrs. R. J. Graham kindly donated \$56, bringing a grand total of \$900.

The Great War Veterans of Belleville take this opportunity of expressing their sincere thanks to the ladies of the I.O.D.E. and their many kind helpers and to those people who kindly responded so generously to their patriotic appeal.

With the kind permission of Rev. Father Killen, the Junior League of Holloway St. Methodist Church held their picnic in the pine grove, yesterday. The children spent a most enjoyable day. Mr. G. T. Woodley, superintendent of the Sunday School, conducted the races which resulted as follows:

LATE MRS. HOLTON

The remains of the late Mrs. W. E. Holton, arrived late yesterday afternoon from Brooklyn, N.Y., via the Grand Trunk. Many friends accompanied the body and a large number of relatives and acquaintances in this city awaited the arrival of the train at the depot. From Brooklyn many flowers had been sent with the casket in silent tribute to the esteem in which the deceased lady was held. At the grave in the family plot in Belleville cemetery, Rev. Dr. Scott, of Bridge St. Methodist Church conducted the last sad rites. The bearers were Messrs. John Williams, Robert Tannahill, C. M. Stork, David Price, F. S. Deacon, and Col. S. S. Lazier.

KICKED CRIPPLED TERRIER INTO RIVER

Several boys Tuesday evening met a crippled terrier on the east revetment wall above the Moira and kicked the poor canine into the river. A couple of boys with kinder feelings got down the bank and rescued the creature and saw that he was properly housed for the night.

Miss Eida McDowell is visiting her sister, Mrs. Robertson.

SUNDAY SCHOOLS AND THE MASSES

Great Factor in National Life—Some Hard Hits at Summer School—How Not to Do It.

The Summer School is not a "convention school," there are chapters on "Introduction," "The S.S. is not a mass meeting," "It is a school for training workers," for developing efficiency. Its work is done quietly, hence its results do not evaporate as vapor. It has some features of the mass meeting, for the evening meetings are inspirational; the conference idea is there, as numbers confer and take counsel on their work; and the convention idea is not forgotten, as delegates are appointed and the work of several departments of church life is studied. At the very centre is Bible study; then comes mission study, methods of work, teacher-training and other features which give variety.

Rev. W. Harold Young, M.A., B.D., of St. James' Church, Montreal, is giving talks on Sunday School work. Speaking of "Worship in the Sunday School" he said such worship is the entering of the school, as a school, into fellowship with God. It is more than opening exercises. We should teach the children to worship. If the child is not taught to approach God, he is denied the development of his natural instincts. By teaching him to worship, we help meet his needs in the days to come. He should be taught to pray, and trained in the qualities and spirit of worship.

Religion an Attitude
The core and centre of religion is an attitude to God. There should be developed an attitude of gratitude, love, reverence, faith and loyalty. These attitudes developed in boys and girls will produce true Christian in adult life.

Organized Worship
The period before the lesson should not be regarded simply as so much time. The hymns should be hymns, not songs, or cheap nonsense. The prayers should be brief and not travesties, and the worship should have adequate leadership and should be the children's own worship. The children can thus learn in the worship period and thus their thought is enlarged and changed.

Better S.S. Lessons
The Sunday School should give instruction fitted to the needs of pupils, and it is impossible to do this with lessons uniform for all ages and classes. Graded lessons solve the problem. The school must give the child a chance to work out the truth into life—Sunday School evangelism does this.

THE FRANCHISE
The Rev. J. N. Clarry, B.A., gave an instructive address on "The Power and Purpose of the Franchise." He defined the franchise in law as definite aim in its work. In a book meaning some right or privilege of entitlement. Success in the Sunday a local or exclusive character, more

particularly as regards voting. Representative government is one of the outstanding features of Anglo-Saxon peoples, especially representation by population. The origin of parliament is to be traced to Anglo-Saxon times. In their own land they had chiefs and leaders, but no kings. Conquest was followed by the assumption of royal dignities, and victorious chiefs were accepted by their followers as kings. The Saxon king was a patriarchal king of limited authority, who acted in concert with his people; and the succession was hereditary in his own family, though his direct descendant was liable to be passed over in favor of a worthier heir. Today the king governs with the advice and by consent of a free parliament. In the intervening centuries, strife between king and baron resulted in improved laws and greater justice, and at Runnymede the Great Charter of English rights was granted and liberty assured. Commons has demanded redress of grievances in return for granting money.

In Canada, the real political power rests with the Commons, elected by manhood suffrage, but a new chapter is about to be written, since women have been granted the franchise in some provinces. Faith, vision, courage, pointing to an ever-mastering purpose should inspire us as we face the destinies of our nation, for ours is a surpassing heritage. The intelligent voters, prizing the ballot, should make in days to come a larger, purer and better life in Canada.

SUCCESSFUL C.W.C.A. TEA

A very delightful and enjoyable tea was given yesterday afternoon and evening at the Quinte Tea Rooms by the C. W. C. A., a patriotic organization of which Miss Mary Falkner is President. Any social event now, to be successful, must combine with the social, the patriotic element, and when the two are so charmingly united, as at the Quinte Tea Rooms, yesterday, only a very great success could be the result.

The rooms were prettily decorated and the several booths and tea table, which presided over by Mrs. McCarthy and Mrs. Jenkins, were gay with flowers and flags.

The home-made cooking table at which could be bought all manner of good things to eat, was in charge of Mrs. S. Clarke and Mrs. S. Bougard. The flower booth was in charge of Mrs. W. J. Campbell and Miss Paton, and the refreshment table was looked after by Mrs. W. Brown and Mrs. Ray.

During the afternoon, several musical numbers were given. Among those who contributed were Miss Stork, Mrs. Singer, Mrs. Duff and Mrs. Burrows. For those who wished to know what the fates had in store for them, two well known fortune tellers were on hand and if one were to judge by the number of patrons of this particular booth there are very many people here who are interested in what the future holds for them.

During the evening the living pictures, which were produced at the Hospital Tea, held a short time ago, were by request, reproduced and were thoroughly enjoyed by all. Mrs. W. J. Bell and Miss M. Campbell were in charge of this branch of the entertainment. The girls who took part, were Miss Eileen Jenkins as The Duchess of Devonshire; Audrey Wilcott as Diana Vernon; Gwen Wilmott as Evangeline; Jean Caldwell as Martha Washington; Jean Macintosh as Spanish Gypsy; Georgie Springer as Lalla Rookh; Sybil Grant as Empress Josephine; Dorothy Grant as Olivia and Helen Fralck as Italian Fruit Girl.

A pleasing feature of the evening's proceedings, was a presentation by the President of a Life Membership certificate to Mrs. W. J. Brown in return for her great services in war work. Since the beginning of the war she has been unceasing in her efforts to help and last night the presentation of the certificate and a huge bouquet of roses went to show in a small measure that her services had not been overlooked by her fellow workers.

The proceeds, which will be used for comforts for our boys overseas, amounted to over one hundred dollars.

NOTES OF THE SCHOOL
The Sustentation Fund Committee of the Conference met at the School this week.

The Rev. E. S. Howard, Montreal Conference, was a visitor.

Fifteen delegates, including the pastor and wife, are here from Rawdon Circuit. One morning a special table was reserved for them, and they favored the delegates by singing "For We are Jolly Good Fellows." No encore was demanded.

President Higgs presided with grace and dignity, and received a special vote of thanks. Revs. W. E. Honey, B.A., and W. H. Clark were also greatly helped.

This School gets down to everyday, practical problems even better than do the International gatherings.

Miss Rummings, Peterboro, led the open air service one evening.

DIED IN THE AMBULANCE
John Thompson, Scotchman, Was Being Removed to Hospital—Inquest—Ordered

To die in the ambulance while on the way from the police station to the general hospital was the fate of John Thompson, aged 55 years, and a native of Scotland. Yesterday morning Thompson came to town by train from Trenton and was noticed by a citizen to be in a very weak state on one of the streets of the city. Sergeant Harman and Constable Smith went to the poor man's rescue and brought him to the police station in the former's auto. At the station Thompson gave a short history of his life, saying he was born three miles from Edinburgh. For five years he had been a florist in Brockville. Latterly he had been working in a lumber yard in Toronto. He had come to Trenton and paid his fare that far. He stayed in Trenton on Friday, the Trenton chief put him on the train-paying his fare to Belleville.

The man looked to be in a very feeble state. He told how he had been in a hospital in Cornwall, and for nine months in Brockville. He had suffered from kidney trouble. He had no settled place of abode, he said. He carried a suit case containing overalls and other clothing.

The unfortunate man was housed until the night, being put in one of the cells. A doctor was called. Dr. Boyce gave him treatment. Late last night about ten-thirty he was put in the ambulance and taken to the hospital. When he was carried into the institution, it was seen that he was dead. The body was at once taken to Messrs. Tickell & Sons' morgue.

This afternoon Coroner Dr. Yeomans will open an inquest at the undertaking rooms. A postmortem examination of the remains will likely be made.

LATE SENATOR'S GIFT TO CITY
Every Man, Woman and Child in City will Soon Have Opportunity to Learn to Swim at Public Baths

The presentation of baths to the city is one of the many good things done by the late Senator Corby which will live long in the memories of the citizens of Belleville. As the years roll on, many a person will be able to trace his knowledge of swimming to that generous act, which knowledge may be the means of saving his own life and the lives of others. Swimming is not only the best sport and exercise but it is one of the most useful branches of knowledge. It is also the cleanest sport and requires the least appliances to engage in it.

If a boy or girl is unexpectedly thrown into the water and cannot swim, all the classics and mathematics in the college course will be of no assistance.

Let us hope that as a result of this gift every boy, girl, man and woman in the city the late Senator loved so well will learn this splendid sport, exercise and branch of knowledge.

MUSICAL EXAMINATIONS
Misses Libbie McConnell and Sylvia H. Dracup recently passed the Junior piano examination, most successfully of the Toronto Conservatory of Music.

They are pupils of Clea E. Heath, A. T. C. M., A. O. C. M., Stirling, Ont.

PERSONAL PROBLEMS

The Twilight Talks each evening deal with very practical problems. Rev. R. A. Whittam dealt with "Finding Christ." Few men will deny the possibility of finding Him. We can know Him in our hearts just as consciously as we know we are living. He is "nearer to us than breathing." He can be as intimate as a friend, and there is no one whose friendship is so precious. Are there things in your life that are wrong? Put them away, and let Christ have the right place in your will and affections.

ABIDING IN CHRIST

The following night Rev. W. H. Clark spoke on "Abiding in Christ." Christ promised His other self in the person of the Spirit. The Spirit's presence brought courage and peace to disciples.

The speaker told of a soldier who was abiding in Christ, and who wrote home that in the trenches he felt the presence of God as never before. In the valley of the shadow of death, soldiers felt the abiding presence of Christ's presence and power are promised to those in His service. "Go ye" and "I am with ye" are linked.

Christ is the door into a larger service. He is the giver of strength. "I am the vine." Let Christ control life. "I live, yet not I, but Christ liveth in me." Christ needs us to express Himself. We are to bear fruit.

PRaise FOR LOCAL POLICE

Chief Detective of C.N.O.R. Pays Tribute to Belleville Police Force

Speaking yesterday afternoon to the Ontario of the assistance which the Belleville police department had rendered the detectives in the investigation into the railway wreck on the C.N.O.R. and other cases at Thurlow, Mr. Herbert J. Page, of Grimsby, chief detective agent of the Canadian Northern paid a high tribute to the unselfishness and efficiency of the local police. Mr. Page is known from one end of Canada to another and is in consultation with police officers wherever he goes. He said:

"There is no place we go where we get better co-operation in our work than from the police in Belleville. The officers are always willing to lend their assistance in our investigations, and their aid is at all times cordial and efficient."

Mr. Page finds the local officers individually and collectively of great assistance to him and has nothing but the warmest words of praise for Chief Newton, who, he says, is held in the highest esteem by the police authorities in all sections of the country. Detective Page commented favorably upon the unselfish spirit of the police. Sometimes one finds that there is a little jealousy of special officers, but the local force has never manifested any of that narrow spirit.

THOUGHTS BY THE WAY
Vacation
Written for The Ontario by "Wayfarer."

It's mighty nice that nine times nine
Makes eighty-one forever;
But oh, I know a place that's fine
For bathing in the river!

How vividly we all recall the days
Of our childhood and with what joy
We hailed the long vacation, as we
Gazed down the vista of those sunny
Summer days!

Again has come the season when
Schools and colleges are closed for
The long vacation, and boys and
Girls are enjoying the freedom from
The tasks at school.

Everyone should like a vacation.
From school and office, from work-
shop and factory, from desk and
counter of crowded cities, comes an
army of tollers to join the ranks of
the summer holiday-seeker, endeavor-
ing to gain renewed strength for
the battle of life.

The little cares that fretted me,
I lost them yesterday.
Among the fields above the sea.
Among the waves at play;

Among the lowing of the herds.
The rustling of the trees;
Among the singing of the birds.
The humming of the bees.

The foothills fears of what may
come.
I sent them all away.
Among the clover-scented grass.
Among the new-mown hay;

Among the hushing of the corn.
Where drowsy poppies nod;
Where ill-thoughts die, and good
are born—
Out in the fields with God.

LETTERS FROM OUR SOLDIERS

Seaford, June 12 '17.

My Dear Mother,—
I received your most looked-for
letter yesterday, dated the 10th. I
certainly was glad to hear you were
all well at home. I am feeling fine,
only I think a rest would do me good.

Yesterday we went on a route
march with all our harness, as we
call it, on, and full pack and rifle.
It was about 110 degrees of heat.
We went about ten miles around a
block; had two ten-minute rests. Ev-
ery little way you would see a fel-
low faint or fall headlong. I man-
aged to stick it out. The Captain
rode his horse in front of us, run-
ning up and down yelling "keep in
step".

When we arrived back, they told
us to get our boots off for foot-in-
spection. I was sitting on my bunk
in my bare feet when the mail man
came in and yelled out my name.
I thought it was a message from
Fred. Say, it cheered me up! But
I soon found out what was wanted.
They told us to fall in after supper
at 7. Well, I got my boots and put-
ties on and was sitting reading your
four-page letter when a sergeant
came in saying, "four of you fellows
with boots on, fall in on the double
to the orderly room, with belts and
bayonets, to catch the 7.30 train."

I thought we were going for a little
trip, but found out we were to escort
ten prisoners. When I got back I
finished your letter and took a bath,
which finished me up; but I went
without my supper. However, we
have a canteen here and can buy
cakes and other things.

They are getting very strict. The
Major called us out at 5.30 the other
night, after doing our day's work.
We had to parade with everything
shined up. We paraded with full
pack and rifle. There were the Ma-
jor, two captains, thirty-one officers
—just imagine the bunch inspecting
you.

You see, we are busy all the time,
cleaning rifles, boots, buttons and so
on. There are only 37 pieces of
brass to shine on your equipment.
We clean one half one day and the
other half the next.

Today we had trenching. We
have a tool to dig ourselves in with.
It is something like a cultivator
tooth. Also how to put up wire en-
tanglement, which is good. They
have great gas masks. They are sure
a protection, that is if you get it on
quick enough. I went into a room
this morning where it was full of
gas. If would kill a person in five
minutes without the mask on. Say,
mother, I wish you were here to see
it. And I have a pair of boots with
soles two inches thick, and weigh
about ten pounds.

One day last week we had a half
holiday. We paraded to the grounds.
I sat down to watch some bayonet
fighting. I saw this returned
soldier sit down in front of me, and
here it was Blake Waterhouse. We
were both tickled to see each other.
He is looking fine. He is practicing
to be a sniper and expects to
go to France again soon. I also saw
Arthur Palmer, who was playing ball
at 3rd base. He is the same old pean-
uts, only his hair is quite grey.

I sent Fred about twenty pictures
tonight, and am packing a box to
send him. I have a shirt, two pairs
of socks, can of salmon, can of pine-
apple, can of jam, and will fill in
with cakes, cigarettes and candy.
I know he will be glad to get them.
I am also sending Cousin Ella, Miss
Rush, Flossie and you a fancy post-
card, worked in silk.

Ripe Cherries and Lantic Sugar advertisement with images of a cherry basket and a sugar canister.

send us until we are 19 years old.
Don't think I am a coward and
afraid to go. But they told me to
send for it. Just one thing I ask of
you, mother, and that is not to wor-
ry about either Fred or me, as hun-
dreds have gone before us, and there
is nothing to think of only that we
will be back. You know, after one
is over here a while, he gets anxious
to go farther, and that is to France.

We have comfortable huts, some-
thing like our church shed at Can-
nifton, only enclosed; board floors,
good straw beds, and I still have the
pillow you gave me, which comes in
very handy. I washed the pillow-
case and it was as white as snow.

Tell the little girls I will be home
in January to see them if the war
ends. That is my birth-month.
Will close, sending my love to all.
Your loving son,
Harold.

Somewhere in France,
June 3, 1917.
Dear Mother:
Just a few lines to let you know
that I am well and hope you are the
same. I hope Grandma is well, and
also all the children. How is Mrs.
Bradford? I hope she is well too.

Well, mother, I am in France now
and I like it better than England.
I have been here a week. I haven't
been in the trenches yet, and I don't
know when I will be sent to the
front line.

You can tell Mrs. Taylor I saw
Arthur Ferguson. He is looking fine.
I also saw Stanley Harris. He was
not very well when we were in Bar-
rfield, but he couldn't look better
than he does now.

I am going to the same battalion
that Norman was in, but I guess he
is in the hospital in England yet. I
hope to see him soon.
Well, mother, I can't write very
much in a letter now, so I hope you
will excuse me for writing a short
letter.

Tell Garfield to tell Charlie Mott
and the rest of the boys that I am in
France and will write to them in a
few days.
Well, mother, I will close for this
time, hoping to hear from you soon.
From your loving son, Harve.

ORANGEMEN AT CHURCH SERVICE

Ven. Archdeacon Beamish Addresses Brethren on Jacob and His Dream

Yesterdays downpour of rain did not dampen the spirits of Belleville Orangemen. Always expecting Jupiter Pluvius to be active about the time of "The Glorious Twelfth", they were not surprised on Sunday to have to attend the annual church service under adverse conditions.

The Orangemen on Sunday, attended St. Thomas' Church, accompanied by the True Blues, Prentice Boys, Sons of England, and members of other societies. The turnout was very large in view of the atmospheric conditions.

Rev. the Venerable Archdeacon Beamish, rector of St. Thomas', was in charge. Prof. Wheatley and the choir led in the music. Miss M. Terwilliger at the offertory, sang "The Ninety and Nine". The hymns were "Onward Christian Soldiers", "Stand up, Stand up for Jesus", and "O God Our Help in Ages Past".

After the service of morning prayer, Archdeacon Beamish preached on the subject of Jacob's Ladder. The preacher referred to the pride Orangemen felt at the response of the order to the call of duty. The aim of life is service; the law of life is sacrifice; the strength of life is fellowship with God. Two thousand and Orangemen have laid down their lives. We remember them in our prayers that they may have joy and peace in the Paradise of God, and a joyful resurrection.

Jacob possessed a master will and mind. Banished for deception, he found himself in the position of having a stone for his pillow, alone with nature and a sense of God's presence came upon him. He realized his birthright and the need of personal relationship to a personal God. Jacob learned what he had not known before—the reality of a future life and reconciliation with God. Supernatural aid and help were at his disposal, will anyone say heredity and environment are responsible for failure when God has bridged earth and heaven. Jacob received the promise of a good land and of a posterity, which would bring blessings on the world.

"Men, you have a wonderful birthright. You are British subjects. What a blessing to have a birthright not to be bought or sold but valued above the price of rubles—the birthright of freedom!" Jacob experienced an awakening communion with God, who speaks through the conscience, His Holy Word and nature. The awakening should be a stirring of the dry bones and from the death of slumber and sin, we should arise to power. Embodying all the gifts and powers of God, according to His plan, is working with God. What is sin but following God's plan, casting down the image that God made in His Own likeness. Jacob took a vow of absolute, unwavering loyalty and obedience.

MARRIED On July 3rd, 1917, Mr. Thomas Manley, son of Mr. and Mrs. Thos. Manley of this city to Miss Ellen Bresnahan, of Detroit.

LATE JOHN HOSKINS The funeral of the late John Hoskins took place on Sunday afternoon from his late residence, 717 concession of Thurlow, Rev. S. A. Kemp, of Foxboro, officiating. Burial was in Youker's cemetery, the bearers being Messrs. J. McMullen, Jas. Wilson, John Wilson, E. Yateman, R. Allison and J. Lewis.

SUMMER UNION SERVICE On Sunday the first of the Presbyterian summer union services was held in John Street church with a fair attendance of John Street and St. Andrew's congregations. Rev. J. H. Dawson, B.A., of Kingston, was the preacher in the absence of Rev. E. C. Currie. Next month John Street congregation will worship in St. Andrew's church.

DR. BLGRAVE AT CHRIST CH. Rev. Dr. Blgrave last evening in the course of his sermon at Christ church expressed his opinion as to Quebec's acquiescence in the Militia Service Act with much trouble and contrasted present day parliamentarians with the statesmen of Confederation days. CHANGE MADE IN G. T. R. AP- PRENTICE SYSTEM

An important change has been made in the Grand Trunk apprentice system which means a betterment for the boys. The length of the apprenticeship has been reduced from five to four years.

The present scale of wages is \$10, \$12, \$14, \$17 and \$20 per month for each year respectively. Hereafter it will be \$12 per month for the first year, \$14 for the second, \$17 for the third and \$20 for the fourth.

Boys who have entered on the fifth year of their apprenticeship are now free. In regard to the sub. system an important change has also been made. The boys who have been acting as assistants to men working on the percentage system have been paid a proportion. They will hereafter receive the full schedule.

NEW THEOLOGICAL HEAD

Kingston, Ont., July 9.—It is now stated that Principal S. W. Dyde, of Robertson College, Edmonton, will take charge of Queen's Theological Hall here in November, 1918. The Presbyterian General Assembly meeting next June will ratify the appointment.

MARRIED

ROSE—CLARK—At Napanee, on Monday July 2nd, by Rev. C. W. DeMille, Rosamand Letitia Clark, to Raymond Rose, both of Belleville.

DIED SUDDENLY

Mr. and Mrs. Stanley Kelcher of Lindsay lost their two-year-old son after a short illness of two hours. It appears that Master Morris Joseph was playing about the house, and while his mother was looking after a younger child, Morris climbed up on a chair and succeeded in getting some "heart pills" from a shelf, which had been prescribed for Mrs. Kelcher. It is not known how many the young lad took, but ordinarily one would be sufficient to cause death. A doctor was hurriedly summoned, but within two hours the little fellow had passed away.

OBITUARY

A gloom was cast over Shannonsville on Tuesday morning, June 19th when the news spread that Mr. Henry King had suddenly passed away from heart failure. Deceased had been in poor health for a couple of years but was working around on Monday as usual. Mr. King who was in his 69th year, was born in Sheffield, near Tamworth, where he lived until about 12 years ago when he, with his family, moved to Emmon's Corners, near Shannonsville, where he had made a host of friends.

The funeral service, which was held at the family residence, was conducted by his pastor, Rev. J. G. Robeson, assisted by Rev. Mr. Rorke of Tamworth. Deceased was a life-long member of the Methodist church and always took an active part in church work. His wife, two sons and five daughters mourn the loss of a kind and indulgent husband and father. Besides other floral tributes was a beautiful representation of "The Gates Ajar" laid on the casket by the grandchildren, who were his special favorites.

A loved one from our midst has gone. A voice we loved is stilled, A place is vacant in the home, Which never can be filled. (Napanee Papers Please Copy)

RUN SLOWER TRAINS TO SAVE MORE FUEL

Toronto, July 9.—Mechanical and operating officers of the eastern divisions of the Canadian Pacific Railway were in conference on Friday at the King Edward Hotel, presided over by Alfred Price, assistant general manager of the eastern lines. The subject under discussion was the manner of operating trains with the greatest possible economy in the use of coal. Fuel saving devices will be used on the engines. It was pointed out that slower trains mean proportionately less coal consumed. This may mean an alteration of both freight and passenger schedules.

There are so few prisoners in the county jail at Kingston, that the county council fears it will have to discontinue the manufacturing plant which has been operated by the prisoners for some years. At present there are only a half dozen men confined, and most of these will shortly be at liberty. The Honorarium is contracted present day parliamentarians with the statesmen of Confederation days. Dr. Blgrave is himself spending a few weeks in Rawdon, Quebec.

TAX RATE 32 MILLS : LESS THAN LAST YEAR

Shrewd Financing Reduces General Rate Two Mills—Board of Education Adds 1.7 Mills—How City Saved \$10,000 This Year by Investing in War Bonds—Collection of Taxes Made Promptly—Firemen Receive War Bonus of Five Dollars Per Month—Ald. Smith Given Leave of Absence for Remainder of Year—Separate School Supporters Will Pay Lower Rate

The general tax rate this year will be 17.6 mills, which is two mills less than for last year. The Board of Education has, however, pretty well eaten up the two mills, as the 1917 public school rate is 7.8 mills as against 7 mills in 1916, and the high school rate 3.6 mills in 1917, instead of 2.7 mills in 1916. The separate school rate is unchanged—6 mills. The rate will be 3-10 of a mill less than in 1916 in the face of the increase.

The estimates were brought down last night by Ald. Woodley, Belleville's Finance Minister. Mayor Ketcheson explained how it was that such a fine showing was being made. This year the debentures were sold at a premium of \$2,875. Besides, the surplus earnings of the sinking fund over 3 per cent. are \$10,000, owing to the purchase of war bonds. The tax ends of all the arrears of taxes are in the sinking fund. Today the sinking fund is on an absolutely safe basis. We have the absolute securities and the actual cash. The city has less than \$40,000 of unpaid taxes. The biggest taxpayer in the city does not now owe the city one cent. It is expected that the 1917 roll will not be given out until the 1916 roll is cleaned up. From 1910 onwards, as taxes had not been collected as the 1915 roll was collected, \$14,000 was lost.

"You may be proud of the way the tax situation has been dealt with," stated the mayor. "I want to congratulate the mayor and the chairman of the executive, this year and last year," said Ald. Deacon.

Mayor and Ald. Woodley—"We don't want any of that. We could not have accomplished what we have without the support of the Council." The executive approved the estimates as presented by Ald. Woodley. Mayor Ketcheson said the manager of the Gas Department had caused letters to be sent holding landlords responsible for unpaid gas accounts of tenants. Was this with Ald. Robinson's approval?

"No," said Ald. Robinson. Ald. Whelan—"Why not have slot metres installed in tenants' houses?" Ald. Robinson said he had thought of this, but Mr. Gardiner said the expense was too high.

Ald. Platt said the accounts should not be allowed to accumulate beyond one month. The chairman, Ald. Robinson, will have payments made regularly, so as to avoid losses by tenants moving out.

The Great War Veterans of Belleville requested the use of the city water service free of charge. The Water Department willingly agreed to this.

Fourth Electric Pump

Ald. Deacon stated that the gasoline pump as proposed for the new pumping station would not suit the underwriters, as it would not carry a fire pressure. At a meeting in Toronto, which Ald. Deacon and Manager Austin attended, it was suggested that instead of three electric pumps, four be installed. The extra pump will cost \$2,250, while the gasoline unit would not cost less than \$5800. Accordingly, the new scheme will save about \$2,500. The plan would satisfy the underwriters, and two electric lines would make it possible to eliminate all danger of electric trouble.

The electric pumps ordered according to the underwriters, were the best that can be bought. This will make possible a better base rate of insurance.

A Lower Rate of Insurance

The mayor—"A good fire alarm system, costing \$10,000, would mean a reduction of 5 cents on the base rate, or a saving in insurance premiums per year of \$10,000." Ald. Deacon—"A duplicate main would mean a further reduction of 10 cents, but the underwriters do not expect this until after the war, when conditions are normal. The water committee decided to amend the resolution regarding the

He has the privilege of subletting. Two Hundred Dollar Grant

Belleville Agricultural Society requested the Council for a grant. Two hundred dollars was voted, although the Society petitioned for \$300.

The Military Y.M.C.A. asked for a grant. The matter was left for future consideration.

The committee approved of a by-law based upon an agreement between the City of Belleville and Messrs. Daniel Stapley and Charles Stapley.

The usual grant of \$400 to the Children's Aid Society was recommended.

The executive recommended that leave of absence be granted Alderman W. S. Smith, who has enlisted in the Aviation Corps.

NEW POTATOES ON MARKET

Young Beets and New Cabbages are Sold—Eggs a Little Steadier in Tone

New potatoes have arrived! Belleville market had them this morning at 15 cents per berry box and the purchasing was quite brisk. The 1916 "spuds" are today selling at \$4.00 per bag for eastern importations and \$3.50 for westerners.

Hides are a little firmer in tone, the quotations being: deskins \$1 to \$1.25, heavy hides 15c to 17c, veals 20c to 23c.

Grain prices are as follows: wheat \$2.04 85c, barley \$1.20, buckwheat \$1.75

Strawberries were quite plentiful at 12 1/2 c per box. Ultimately the price reached 15c per box. Young chickens of fair size were featured at \$1.25 per pair. Butter hovered around 40c and 43c per pound. Eggs sold at 33c dozen. The wholesalers are paying 28c per dozen this week, which is two cents higher.

Hogs are quoted today at \$15.50 per cwt. Beef is held at 16 1/2 cents wholesale for hindquarters. Lamb is wholesale at 23c per pound and mutton at 18c. Veal is worth 15c per pound by the carcass.

Young beets were sold today at 5 cents and cabbages at 10 cents. Both were of fair size. Vegetables of other kinds sold at the usual prices.

DEATH OF MRS. STRACHAN

About noon today, Mrs. Elizabeth Strachan, wife of Mr. James K. Strachan, was stricken with heart failure at her home 44 Yeomans St. Her health had apparently been good and her death came as a great shock to her friends. She was born in Lancaster, Ontario and had lived in this city for forty years. Mrs. Strachan was a member of St. Andrew's church and was very highly esteemed by a wide circle of friends. AN OLD TIME PREACHER PREACHES NEW TRUTHS

Tremendous Sensation in His Early Life By the Finding of a Book—Denounces Sin of the People—Vindicates Ways of God.

The Quaker Summer School is studying the character, early training and life work of one of the old-time preachers in the person of Ezekiel. Prof. Potter is exercising historic imagination to bring to the students a picture of the times in which this preacher lived, and how the experiences of his nation and of himself helped to develop some great doctrines. There is much in the study that is applicable to the times in which we live; the tragedies of Israel have their counterpart in the terrible desolations of the Great War.

Should Doctrines Change?

We hear much about changing creeds; but should the great doctrines of the past be discarded? Comparing the teaching of Ezekiel with those of the earlier prophets, we find that no single element of the doctrinal system of earlier prophets is lacking in Ezekiel's teaching, and there is none that does not receive a more distinct intellectual expression in his hands. There is, however, a change of emphasis, and a development, which came out of the circumstances of the time. May we not believe that the emphasis will change and development come, as the result of the Great War? Will not some of the shams and superficialities disappear in the light of reality? will not some of the conventions go to the scrap-heap?

The Man

To understand the Book of Ezekiel, we need to understand the man. He was likely born in the reign of Josiah. His wide range of knowledge indicates he was a mature man when the book was produced. A great religious reform took place in Josiah's reign. A book was found which made a tremendous sensation. Deuteronomy became first known then. The date was probably 621. Ezekiel came under the influence of that great reform. By birth and training he was a priest, and the two currents of priestly and prophetic met in him. But the most important influence on Ezekiel was the personality of Jeremiah. It was true then as today that personality is a tremendous factor in moulding other lives.

An Ancient Beligion

In 597 the Babylonians ruined the Holy City and led into captivity the children of Israel. Ezekiel was a member of that first captivity. He was probably then a young man in his prime—at the right age to profit by the captivity. He knew the traditions of his nation, and of the Holy City. The gorgeous ritual of Babylon must have impressed him as a young priest. Five years after he was taken there, he heard the call of God, and for twenty-two years he wrought his ministry.

A Striking Figure

Ezekiel was a striking and dramatic figure; uncompromising, bold in declaring convictions, and fearless. He was an idealist, though not a poet. He believed in the future of his people, and that the captivity was not the end.

The People Warned

The people had come to believe that, as the chosen people of God, He would take care of them. Now they were in exile, and the Holy City in ruins. They were taunted that their Jehovah was not able to save them. The temptation was to doubt Jehovah. But Ezekiel warned them not to expect Jehovah to work miracles if they did not obey Him, and demonstrated the folly of expecting Him to intervene to save a faithless people.

A Thought for Today

In the destruction of the nation, exalted in point of privilege, God had vindicated His glory and holiness. Shall He not vindicate His righteousness today by the destruction of any nation that is not true to its privileges and opportunities?

Punishment Not Enough

The Holiness of God was not satisfied with punishment alone. God must not show weakness, so He must restore His people from exile. So Ezekiel comforts the people by

Picture of An Old Battlefield

It is a picture of an old battlefield thickly strewn with skeletons of those slain in the far distant past conflict. "Can these bones live?" is asked. Its real significance is "can this nation, dead in sin, buried in exile, be restored?" The answer is that God can put life into a dead nation, and be restored to her own land.

Resurrection

This figure of the quickening of a nation to new life became the preliminary step to the doctrine of individual resurrection. In the period just before the coming of Christ, the doctrine was developed, and received from Him its final confirmation.

The Other Nations Exult

But when Israel is again dwelling in peace and prosperity, God will give a fresh revelation of His power and nature, and of the principles on which He rules His peoples and the world. These nations will be destroyed. Ezekiel's God was a God of transcendent majesty, but also of boundless grace, who had no pleasure in the death of the wicked, and who sought to win them to repentance.

Suffering and Sin

The great problem of suffering was then acute as it is today. People complained they suffered for the sins of others, and that the ways of God were unfair.

Individual Responsibility

This led to Ezekiel's doctrine of individual responsibility, but the circumstances of the exile gave it a particular form. "So long as Jewish state existed, the principle of solidarity remained in force." Individuals suffered for the sins of the nation as a whole. Now the nation as such is dead and the doctrine of individual responsibility comes into operation. The statement "the fathers have eaten sour grapes and the children's teeth are set on edge" reflected on God's equity.

Ezekiel's Answer

His answer is found in the celebrated 18th chapter. The individual will not be helplessly involved either in the ruin of a nation or guilt of ancestors, or even in the consequences of their own past sins. Retribution and reward belong strictly to the individual himself. The human will be free. Wicked may turn from wickedness; the righteous face away from righteousness. Ezekiel does not deny men suffer because of sins of others, but he puts the emphasis on guilt of the individual, and the circumstances and need of the time led him to put special stress on responsibility of the individual.

Prophecy Becomes Pastor

He thus got a new conception of his ministry. Realized his mission now to be the watchman of individual souls, and the salvation of individual souls is his special care. He must warn the people or bear the responsibility of their unwarned destruction. But if he delivers the message, he has saved his own soul. He gives us an ideal picture of pastoral responsibility and faithfulness in chapter 16.

A Great Passage

The prophetic teaching on cleansing, forgiveness and regeneration by the spirit is summed up in chapter 36, verses 24-29. "This passage has no parallel in the Old Testament, and reads like a fragment of a Pauline Epistle."

The Kingdom of the Future

Ezekiel conceives of restored Israel, not as a nation, but as a church in the pastor's task, he does not stand alone, but every officer of the restored nation is to share in this duty. There is to be no king, but a Prince, who was to be a shepherd of his people. It is here that for the first time, the Messianic picture, so precious to us, of the Good Shepherd, makes its appearance in Hebrew literature. God will restore Israel for His name's sake, that he may reveal Himself as He truly is to all mankind.

Purpose of All History

Thus by His judgement of His people for their sins, and His regeneration and restoration of them for His name's sake, the purpose of all history will be attained, viz. Jehovah has been revealed both to His own people and to the world, but to the world only which had come in to contact with Israel. There are

other nations in far-off lands which have never heard of Jehovah's fame or seen His glory. Hence in chapter 38 and 39 Ezekiel tells in graphic language of the mighty hordes in a final attack on Israel; but this host is met, not by the might of Israel, but by the power of God alone. Thus is Jehovah known to the ends of the earth as God alone.

Ceremonies and Ritual

He pictures a restored temple and ritual. But outward forms could not keep a people clean, so we have God's promise: "I will give you a new heart and will put a new spirit within you; I will take away the heart of stone and will give you a heart of flesh. I will put My spirit within you and will cause you to walk in My statutes, and ye shall keep My judgments and do them."

School Notes

Sunday School work is emphasized in Teacher Training. The class on "The Teacher" is conducted by Miss Stella Hetherington; "The Pupils" by Rev. W. P. Rogers, B.A.; and on "The School" by Rev. C. W. Barrett.

The delegates are enjoying baseball, tennis, croquet and quills in the intervals of study.

The motto of the School is "Study to show thyself approved of God, a workman that needeth not to be ashamed."

There is many a slip—"Brother Rogers will pronounce the Benediction" was hardly in place just before the delegates had set down to breakfast. There is sometimes both a difference and a distinction between a "Blessing" and a "Benediction."

Prof. Greaves

Is a teacher who really teaches. He was born in Minnesota, graduated from Carleton College and from Boston University School of Theology. He took training in Curry School of Expression, Boston, and was a teacher there. He then taught at Queen's University, Kingston, and is now Professor of Public Speaking at Victoria College, and Supervisor of Public Speaking in the C.S.E.T. He spends the summer on a farm near Concession. His searching criticisms of the readings of the Schoolites are made in so kindly a manner that it is almost a pleasure to be criticized.

DIED SUDDENLY IN THURLOW

John Hoskins, a well known agriculturist who has been living a retired life died suddenly this morning at an early hour at his home in the seventh concession of Thurlow. Death was due to heart disease with which he had been troubled for the past five years. He was born in Fredericksburg, Addington County, in 1825 and was accordingly 82 years of age. He is survived by his widow and one son Harvey A. Hoskins, Albert St., Belleville. For the past fifty years he had lived in Thurlow. Interment takes place in Youker's cemetery, near Zion's Hill.

THREE BOYS ACCUSED OF OPENING SWITCHES

Detectives and Police After Investigation Cause Arrest of Frank Wilson, Ray Sanford, and a Lad of Fourteen—Two Former Held on Two Charges—Ball Not Considered—Eight Days' Remand.

Through the efforts of detectives of the Canadian Pacific and Canadian Northern Ontario Railways, and the Belleville Police Department during the past few days, the authorities have caused the arrest of three boys in connection with the cases of interference with switches in the past sixteen days. Since June 19th, Detective Harry Harper of Toronto, of the C. P. R., has been quietly working with the assistance of the city police, to unravel the tampering with the switch in the C. P. R. yard. Last Saturday's wreck on the C. N. O. R. brought more detectives on the scene, headed by Mr. Herbert J. Page of Grimsby, special detective of the C. N. O. R. As the result of interviews, yesterday, two boys were taken into custody by the Belleville police. Roy Sanford, aged 17 years, and a lad, aged 14 years, whose name, on account of his tender age, cannot be published. The detectives and police were on the lookout for Frank Wilson, aged 18. It was thought he might be in Toronto, but on a 2 A. M. today, he was seen going down Front St. in an auto. A few minutes later he was arrested at his home.

Last evening the fourteen year old boy was remanded for a week in the care of the Children's Aid Society and will be left at the shelter. The seriousness of the charge against the boys, may be understood from the following charges: Frank Wilson and Roy Sanford are charged on information laid by Detective H. Harper, that on or about the 19th day of June, 1917, they did unlawfully and wilfully break a lock and open a switch of the Canadian Pacific Railway in its station yard, at the City of Belleville in the County of Hastings, with intent of rendering and so as to render such railway dangerous and impassable within the provisions of Section 510 of the Criminal Code.

Frank Wilson, Roy Sanford and the fourteen year old boy, are charged with having, on June 29th, in the township of Thurlow, unlawfully broken a lock on a switch and placed an obstruction in the said switch of the Canadian Northern Ontario Railway in its station yard at Thurlow Station with intention of rendering and so as to render such railway dangerous and impassable, within the provisions of Section 510 of the Criminal Code. This charge was laid by Detective Herbert J. Page of Grimsby.

This morning Wilson and Sanford were brought before Magistrate Masson and on the request of Crown Attorney Carnew, were remanded until Saturday, July 14th, as the charges were so serious. Mr. W. C. Mikel, K. C., appearing for the accused, wanted to know why copies of the warrants had not been served on the boys. It was shown that Constable Ellis had served Wilson, but Sanford had not been served, his copy awaiting him in the police office.

Mr. Mikel said that it had been reported that some kind of statement had been secured from one of the accused. If it was intended for use against the prisoners, he would like to see a copy of the document. Magistrate Masson stated that this rested with the Crown Attorney.

Mr. Carnew explained that he did not object to doing what he could in this matter and told how, under the Canada Evidence Act, ten days' notice must be given the defendant's counsel of the contents of any statement, if intended for use against him.

On behalf of Sanford, Mr. Mikel asked bail, but Magistrate Masson said the offence alleged, was the most serious in the calendar, next to murder. The question of bail would rest with the Crown Attorney, although if he consented, it would have to be substantial bail.

The Crown Attorney said: "At present bail is absolutely unarguable." The authorities were opposed to it.

Magistrate Masson: "I do not feel that it is a case for bail." The two accused were thereupon taken to the jail on remand.

VETERANS TO HOLD MUSICAL FESTIVAL

Event of the Season to Musica, and Patriotic Belleville.

In the years to come Belleville selections to the most popular tune, will have many opportunities to show its appreciation of the magnificent work done for the Life and Liberty of our country by her glorious sons who are writing into history the undying story of heroism and self-sacrifice with their life's blood; but the first opportunity, there is always a beginning, will come on the week of July 23rd, when the Great War Veterans' Association of Canada, Belleville branch, makes its initial bow as empressario, presenting a week of Music such as Belleville has never had the privilege to hear before. Miss Isobel Menges, England's greatest Violinist, accompanied by Miss Eileen Beattie, at the Helmsman and Co., Piano, kindly loaned for the week by the C. W. Lindsay Co. Limited, will be heard in a change of programme each concert, ranging from the most classic to the most popular tunes, to suit every ear and every taste. Miss Menges, besides being a wonderful artist, is always anxious to do her bit to assist any war work, and in England was always looked to by the different patriotic committees to assist in concerts for all patriotic purposes, and has given many concerts for the "wounded" soldiers in England. It is a great pleasure to Miss Menges to be associated once more with the heroes who have shed their blood on the battle fields of Belgium and France that we may enjoy the liberty that our democratic institutions grant us. It is to be hoped that every citizen of Belleville will keep in mind the fact that they are being called upon to respond to the first call of our veterans, as our veterans have responded to the first call of their country, and should attend at least one concert during the week of July 23rd.

ADDRESSES BY WELL-KNOWN SPEAKERS AT SUMMER SCHOOL

Bible study is an essential element in conducting Church Summer Schools. The morning sessions open with song service, followed by study of the Word. This year the theme is "Character and Scope of Hebrew Poetry."

Poetry reveals the soul of the people. It expresses their intimate experience and life. Racial Characteristics To understand Hebrew poetry we need to know the racial peculiarities of the people. They have a passionate temperament. They love and hate intensely.

The lecturer, Prof. Potter, thinks that the founding of a Jewish State in Palestine is but a dream as the Hebrew race is not adapted for self-government. He is, however, tremendously religious, and has a depth of religious faith.

Milton said that poetry had three qualities. It was simple. The Hebrew had usually one word to express one idea. Thus was a simple pastoral language adapted for lyric poetry. Poetry is also, sensuous. Hebrew poetry abounds in imagery. Their intense nature is the third factor from which poetry springs forth for poetry needs to express emotions.

It is older than prose. It is the medium for the whole range of feeling of ancient peoples. National events were commemorated in song. Much of the messages of the prophets is in poetry. There is, however, in this, only one form of Hebrew poetry, the lyric, to be sung to music. It has no metre, but parallelism is its chief characteristic.

This lecture is but the foundation for the studies that will follow every morning. Prof. Greaves who is well-known in Belleville, is giving a course of lectures on "The Nature of Expression," a new feature at the school. From the nature of the course, this work can hardly be reported in print, as much of the work is to be done by the students. They are to read portions of the Bible and criticisms will be made in the hope that improvement may result.

The Professor illustrated in how many ways people might say the same thing e.g. "How do you do?" "I heard him speak." The speaking of the name of the Deity should always suggest reverence. A lady had said to him that she would submit as soon as the name of God taken in vain as to hear some preachers use it, as it was done so carelessly that no reverence was apparent.

Evening Meeting Prof. Geo. F. Stewart gave an illuminative address on "Some Life Lessons from Literature." The teacher and preacher who does not make use of literature and nature is neglecting a most potent aid. We need not go to college to learn this. All it requires is an alert and open mind.

The speaker covered much ground in the time at his disposal, freely quoting from some of Tennyson's masterpieces as well as from others. One of the best is entitled "God's Love." "Like a cradle rocking, rocking, Silent, peaceful, to and fro, Like a mother's sweet looks dropping On the little face below, Hangs the green earth swinging, turning, Jarless, noiseless, safe and slow; Falls the light of God's face bending Down and watching as below, And as feeble babes that suffer, Toss and cry, and will not rest, Are the ones the tender mother Holds the closest, loves the best, So when we are weak and wretched, By our sins weighed down, distressed, Then it is that God's great patience Holds us closer, loves us best."

Japan The Rev. H. W. Outerbridge, B.A., B.D., who returns to Japan shortly, gave a most interesting talk on that country, its people and its crisis. We should remember, they are very different from us and yet in fundamentals are the same as we are. They seem to think in the opposite way from us. Even in using the plane and saw they pull them towards them. In addressing a letter, they first write the name of the country, then the Province, City, Street, Surname, then Christian name. In their meetings they sit down in a circle, talk on the outside of the question gradually working in until they come to a conclusion. Individual action is lacking among them. The family is the social free. Only as a child is the Japanese. When he goes to school he gets into the school machine.

Essentially Like Us In essentials the Japanese is fundamentally the same as we are. Gain their love and you have all they are or have. The personal touch of man to man is a great factor. Future World Problems The speaker thinks the three great dominant world forces after this war will be Great Britain, United States and Japan. Great Britain dominating Europe, Africa, Australia; the United States being dominant in the Americas and Japan in Asia. Tendencies in these nations will determine international policy. Great Britain and United States are Christian and democratic. In Japan there is a conflict between the ideas of autocracy and militarism and the ideals of peace and democracy and as that question is decided will come the decision as to world peace. The situation today in Japan is critical. The thought-life of Japan is rapidly crystallizing. We should put into Japan in this generation our very best. Japan Becoming Industrial Great Britain and the United States have gone through the process of passing from agricultural work to industrial development. That is the process through which Japan is now going. We have, in some measure, kept pace with this change by our social and ethical ideals. The Christian conscience has helped us settle some questions arising in the process. But in Japan, where Buddhism is strongest, vice is also strongest. Every year 300,000 young girls leave home to work in mills, and their average life is a little over two years! Christianity teaches the sanctity of personality.

A NATIONAL DUTY Support the National Service Board in its Great Campaign

The man who cannot fight, who is not engaged in industrial work, who is not doing a direct war service can help his country by investing in War Savings Certificates. The woman who is not nursing, who is not connected with war and patriotic activities, whose whole time is taken up in the home can do national service by practising thrift, reducing expenditures, eliminating domestic luxuries, and refusing to purchase luxuries. By saving and giving to the country, all these people can have a direct part in the great struggle for victory.

Finally, Christ is our exemplar for service. He "went about doing good." This school is a preparation for service. May we catch the inspiration of Christ's example! Jottings of the School Four prayer meetings are held at 7 o'clock in the morning. After breakfast, when delegates are still around the tables, some minister reads the scripture and leads in prayer. In the book room is a varied assortment of books for sale. Five mission study classes are held simultaneously from 9.45 to 10.30 a.m. Rev. R. A. Whattam is leader of "The New Life in Christ." Rev. R. T. Richards, B.A., of "The Moslem World." Rev. S. A. Kemp conducts the classes in "Sunshine in the Sunrise Kingdom." Rev. P. H. Neville in Canada "His Kingdom." The W.M.S. work is studied under Mrs. (Rev. Dr.) Bishop, formerly of Belleville.

When is a dream not a dream? Your reporter had a dream, during evening meeting. He dreamed the president was nodding "assent to what was being said." Saturday afternoon will be reserved for field sports, when awards will be made on the basis of C.S.E.T. There can be no question as to the desirability of remaining at the school throughout the week. If delegates are to find its true spirit and receive its full benefits, the studies are interlinked, and the cumulative effect is most important. Fellowships also deepen toward the close of the school.

LATE MRS. JANE T. DORAN The funeral of the late Mrs. Jane T. Doran, who died at the home of her daughter, Mrs. James Savage, Buffalo, took place on Sunday afternoon from the residence of her son, W. H. Doran, 24 Albion St., to St. Michael's Church, thence to St. James Cemetery and was largely attended. The funeral services were conducted by Rev. Father Killeen, parish priest, at the church, and Rev. Father Hyland officiated at the grave. The bearers were Messrs. Thos. Collins, Timothy Daly, Thos. Gorman, Wm. BARN AND TWO AUTOS DAMAGED Early Morning Fire in Building Opposite City Hall

Once again the barns in the rear of what was once the Victoria Hotel, have been visited by fire. This morning at 3.15, an alarm was rung in that the Victoria barns were ablaze. The reflection of the flames seemed to show that the fire was on the west side of the river and led, at first, to the belief that the alarm was a mistake. When No. 1 fire company reached the vicinity of the City Hall, it was seen that the fire was actually in the barns where it was reported to be. Flames were already bursting out of the roof in the centre of the building, which is of stone construction, having once formed the hall and stables of the fire department in days gone by. Three leads of hose were placed from Front Street to the building. The firemen, at first, could not enter even the northern section of the barn where two second-hand cars were stored, so intense was the heat. Finally, by the use of water, one of the cars, an E. M. F., was backed out by hand. The other car, a Hupmobile, had to be left in. It was protected from serious damage by the plentiful use of water.

Within half an hour, the fire was under control. The central portion, seemed to be the place where the fire originated. Here the flames burned their way through the loft and roof. A buggy, in this portion, was badly damaged. In about an hour's time the fire was extinguished. The south part of the barn was badly charred and the flames had even got through to sheds in the rear. Fortunately little or no wind was blowing at the time. Chief Brown and his brigade did great work in restricting the flames to the one building. Had the flames been allowed any headway, they might have worked their way into the brick buildings rented by Mr. L. J. Buckley, the local agent of the Maxwell Car, or into the Ontario Printing Office, the rear portion of which is adjacent to the building which was affire. The stables and barn, which were partially burned, were used by Mr. Buckley for Garage purposes. The two cars, that were in the building, are damaged in the upholstery and finish. The tires and engines were not affected. The loss on these and on auto goods stored in the barns may total \$300. It is likely the loss on the building, owned by Mr. T. S. Carman, will exceed \$500. The losses are covered by insurance.

When the fire broke out, Constable George Ellis and Gilbert Seams broke open the doors and took out a Maxwell Car owned by Mr. Geo. Vandewater, which was not insured.

Office of O.C. No. 3 Can. Gen Hospital (McGill), Boulton, April 18, '17. Mrs. Peter Hubel, Pres., Plainfield, W. I., Plainfield, Ont. Dear Madam, I have just received a consignment of hospital supplies kindly sent through the Belleville Cheese Board Patriotic and Red Cross Association, per Mrs. S. D. Lazier, to whom I have sent an acknowledgement by this mail. As I understand the members of your Institute have also contributed, I hasten to take this opportunity of expressing to you, and through you to the members of the Women's Institute, our warmest appreciation and thanks for these goods, which have proved most useful. Happily, they arrived at a time when our supplies were being taxed to the utmost inasmuch as we have now a hospital of two thousand beds. With renewed thanks, believe me, Yours very sincerely, H. S. Birckett, O.C.

INTRUDER IN HOUSE The police last evening investigated an alarm to the effect that a man had got into a residence on Charles street. Although a thorough search was instituted, no trace of him could be found.

TERRIFIC HAVOC Wrought by Shell May Cost Thousands of Dollars.

It costs some thousands of dollars to discharge a modern howitzer. The latest type of machine gun costs more per minute than a day's ammunition did for riflemen in old times. The modern soldier needs a new rifle every few months. A solitary shell may wreck a costly aeroplane or destroy an ammunition train loaded with freight valued at anything from \$10,000 to \$25,000. Canada is meeting huge war expenditures every day. It cannot continue to foot the bill unless every man and woman in the Dominion helps to meet the account. It is to secure such individual assistance that the National Service Board is making its appeal for thrift. Millions are wasted every day in the Dominion through extravagant expenditures. Such extravagance is a crime against the men at the front. There should be no luxuries at home. There are none in the firing line. Waste is an offense against the nation. Anything but the exercise of true economy is opposed to the best interests of the Canadian divisions and is a direct handicap in the prosecution of the war. If you are not serving your duty to your country, save your dollars and invest in War Savings Certificates.

MILITARY MEDAL AT ST. ANDREWS Confederation was celebrated in the Old Kirk on Sunday afternoon when a service of song, and responsive readings was supplemented by addresses by Rev. A. S. Kerr, Rev. E. C. Currie, Wm. McIntosh, W. J. Campbell and Col. W. N. Ponton. Incidental to the reading of the Roll of Honor of the Church, which was unveiled by Col. Ponton, the King's Military Medal won by Private Brooks and inscribed "For Bravery in the Field" was presented through his two sisters who were present. Nine of the sons of St. Andrews have fallen in the War. The Church was beautifully decorated and the service was most impressive. The Choir sang as anthems "Lest we Forget" and "We stand on guard for Thee."

Mr. and Mrs. W. R. Phillips and family, of New York City, arrived in town Saturday to spend the summer at "The Grove". Mr. and Mrs. Stanley Bond and children, of Toronto, spent the weekend in town with Mrs. Bond's mother, Mrs. McCullough. Mr. and Mrs. Mills and family, of Hamilton, arrived in town on Saturday to spend the summer at "The Grove". Mr. Irwin, Supt. of the C. N.R., went to Toronto Saturday. Mr. R. M. Mowat received a telegram today stating that his son, Lieut. Angus Mowat, had reached Halifax on his way home. Mr. Claude A. Kells, who is in charge of the Y.M.C.A. here, was in Toronto Saturday, attending a meeting of the Executive of the Y.M.C.A. Rev. W. L. Armitage was in town Saturday, on his way home from attending the Summer School at Ottawa.

COUNTY COURT Handley vs. Hart. This was an action by the plaintiff for \$270, balance of account. It was entered for trial at a regular sitting of the court some time ago but was adjourned to the 30th of June, when the case was tried and judgement given for the plaintiff for \$75 without costs. W. Carnew for plaintiff; W. C. Wikel, K.C., for defendant.

MILITARY NEWS

Lieut. Col. R. J. Gardiner, A. D. M. S., left on Wednesday for an inspection trip to Lindsay, Peterboro, Cobourg and Belleville. The famous collie dog "Major" which has since the war been constantly in military circles—with the 21st to England, with the 59th to Brockville and finally back in Kingston with the 156th—is now on duty with the Special Service Company. Perhaps no dog has been so constantly with the soldier element or has had such a peculiarly interesting few years of life as this "Major". The platoon of cyclists at Barrfield Camp has been getting a reputation for good training. Every man, under the expert instruction of the Infantry school staff, have learned their work in the same way as is taught officers and N. C. O's. In addition the new signalling course will also enhance the usefulness as cyclists at the front.

The Military Hospitals Commission is taking up the proposal of having almost as complete a system of handling supplies as the Militia Department. At each of the several units in the city, will be places for the storage of non-perishable goods. In some central place a big building will be erected, and this will hold at least a monthly supply for the institutions in this command.

In the great demonstration in Toronto Monday there were 3,000 troops in the parade, a fleet of ten aeroplanes soaring over the city, 1,000 veterans of the great War, 250 of the veterans of the War, '66, '70, '75, and South Africa, 100 boys from H. M. C. S. Niobe, chorus of 300 school children who sang, patriotic addresses delivered by Premier Sir William Hearst and other prominent citizens.

CITY FOR ADOPTION Detroit, Mich., Will Be Asked To Restore Soissons, France Washington, July 6.—Detroit is to be asked to adopt the French city of Soissons, which has been subjected to so many sieges during the war and restore it. The committee of the French restoration fund have telegraphed: "Soissons must be adopted at once. There are forty communes dependent upon Soissons that have been absolutely destroyed. The people have neither home nor church nor school." Soissons was a city of 20,000 inhabitants.

FARMER'S CONVENTION TO BE HELD IN PETERBORO Arrangements have been completed for the holding of a district convention of the United Farmers of Ontario in Peterboro on the afternoon of July 7th. It will be the first convention of the kind to be held in Peterboro, and the speakers will include John Kennedy, Vice-President of the Grain Growers' Grain Co., Winnipeg, who is considered to be one of the most able speakers in western Canada. The object of the Peterboro meeting is to enable the farmers to meet the leaders in the farmers' movement and become better acquainted with the farmers' platform.

5,750 MORE RECRUITS Ottawa, July 6th.—During the month of June a total of 5,750 recruits were secured in the Dominion. Canada's total enlistment from the beginning of the war now stands at 423,888. During the last two weeks Toronto division headed the list with 620 recruits raised, Ottawa and Kingston coming next with 452. London was fourth with 222.

HAROLD Mr. W. Hawkins and Mrs. Roy Heath and little son spent a day at Mr. Harry Heath's. A number from Harold attended the funeral of Mr. David Mumby. Mrs. John Heath spent Sunday with Mrs. Geo. D'Alton. Mr. and Mrs. Blake Faulkner spent Sunday at Mr. Jas. Bailey's, Belleville. Mr. Thomas Laycock of Marmora, spent Sunday at Mr. H. Heath's. Mr. Louis Wilson has gone to spend a few days with his father, who is very ill. Miss Erna Snarr is spending a few days in Belleville. The farmers are very busy in the hay.

AUTO DAMAGED This morning an auto owned by Mr. Anderson of Napanee and driven by Bruce Davis was damaged on the lower bridge by being forced, it is said by another car against the bridge work. The fender was bent up

A SURE INVESTMENT War Savings Certificates Bear Splendid Interest Rate

Every bank and every money order post office sells War Savings Certificates. The National Service Board in its thrift and saving campaign has made it possible for every individual to do a war work which will help himself as well as helping the man at the front. Money is needed for the prosecution of the war. The Government is raising that money through its War Savings Certificates. They are issued in three amounts. They bear interest at over five per cent. They are redeemable at the end of three years or the purchaser can secure his money back at any time plus the interest on his investment. The certificates are registered at Ottawa. They cannot be lost. The purchaser is protected by the Government and assured of a splendid return on his money. By investing his money, he is helping in the mobilization of the financial resources of the country which is essential if victory is to be secured. He is lending his resources to Canada-at-home, where the most profitable national use can be made of them. Patriotism and good business demands the investment of your money in Government Certificates.

POLICE COURT Bad Language Before Children Mrs. Kellar, who lives at No. 1 Douglas Terrace, Pinnacle St., laid a charge against Mrs. Breen, who lives in No. 2 of the same Terrace, of using grossly insulting language. The witnesses for the prosecution and also some of the witnesses for the defence showed that the accused had used grossly insulting language in the presence of children. The magistrate informed the parties that if this was not stopped, it might justify the taking of the children from the parents. As it was a first offence he fined the accused \$1 and costs. W. C. Mikel, K.C., for the prosecution; E. J. Butler for accused.

CRIPPLED AND MAIMED HEROES REACHED KINGSTON Forty-six returned soldiers reached Kingston for treatment at the Queen's Hospital there. They were practically all cot cases and the Canadian Government Military Hospital cars which brought them to the city were splendidly equipped for the comfort of the soldiers. They all seemed glad to be back in old Ontario, although the great majority of them belong to British Columbia.

FELL FROM FACTORY ROOF Mr. John Neill, an employee of the Maple Leaf Rubber Company, slipped and fell from the roof of the factory building, thithering, and was rendered unconscious by the fall. He was removed to his home on Gilbert St. and was found to have escaped with some extensive bruises. He will be able to be around in about a week.

CANADA'S DAY OF TRIAL

It is a peculiar coincidence that the greatest crisis in the political history of this country should come at the fiftieth milestone of its career, when the whole of Canada should be throbbing with jubilation. Instead of this day being dedicated to the memory of the patriotic men who brought unity out of dissension and order out of chaos, and started the fair young Dominion on the high road to nationhood, it is a day of fear and trembling, racial discord threatening to tear down the foundation pillars which seemed so well and truly built.

Since the moment when confederation became a fact, Canada's composite soul has not had the searching which it is undergoing now. The discords of the past, great as they then appeared, have been mere incidents, out of which the spirit of the country emerged refined and ennobled. The test today is the test of fire lighted by nationalism, fed by antagonism to British institutions and British integrity, brought to a white heat by racial bigotry.

Is the semi-centennial to mark the end of confederation? No individual in the wide Dominion can answer. Only the heart of Canada, as exemplified by the fathers of confederation, as illuminated by fifty years of progress, as illustrated by the heroism of Canada's sons in the trenches, if it comes through the trial triumphant, can tell the tale. Whether it still pulsates with the warm, red life-like blood of the nation, or is a thing seared and inert, time not distant must disclose.

Men in public life are frankly worried. The menace of nationalism has been permitted to gain a foothold which only a united opposition can overcome. Bourassa the mouthpiece of the force which would destroy the spirit of Canada, has become a tower of strength. Today it is Bourassa against Canada and Canada against Bourassa. The government which allowed his propaganda to flourish will answer at the bar of justice with the people as the jury. He it is, and his propaganda, so encouraged, which makes conscription necessary in Canada today. Ontario, Western Canada and the East are to be forced to offer all, not so much because of the war in Europe as the war in Canada, the war on Canada's heritage of freedom of action and respect for duty.

The struggle for confederation is on again. The spirit of Canada militant must wrest Quebec from Bourassa and all that he represents, or must itself be crushed. For fifty years it has maintained a united country, built for itself an important place in the arts, culture and commerce of the world, and for three years has fought for the peace of humanity. It has contributed to all the world's highest traditions. In the day of its greatest triumph, will it succumb to the enemy within; will it present a vulnerable spot? It is a question for the individual, who, according to his manhood, is or is not the embodiment of the spirit which has made Canada. The answer to be given when the time comes will determine the future of the country and of confederation. A united front will save Canada itself; division will strengthen the cause of those committed to its destruction.

THE GROWTH OF CANADA.

The growth of the Dominion formed by the B. N. A. Act, has become one of the marvels of the modern world. It has been, of course, largely a part of the general advance of mankind. The increase in wealth, mechanical equipment of all sorts, manufacture and trade, the progress in new inventions, in education and material comfort, all this is the world's movement, Canada gaining with the rest. Our growth in population has been rather fitful and in artistic and spiritual development perhaps other countries have surpassed us, let us sadly admit. But in some respects Canada has done particularly well, and in the face of enormous difficulties.

For example, our comparatively peaceful political extension has been spectacular. First the great Northwest was acquired, with but little disturbance. The B. N. A. act indeed had explicitly contemplated this development. Next British Columbia, troubled by debt and the activities of a small but vigorous annexationist

faction, languishing in remote isolation and eager for a railway to knit up west and east, as the Union Pacific had a generation earlier done for the United States, with eminent success, came into the Dominion in 1871. Hence the great C. P. R. Prince Edward Island, another poor and honest relation, finally got over its difficulties of dignity, and since 1873 has constituted a symmetrical balance in the east to Vancouver Island in the west.

The filling of the Northwest, the magic rise of cities out of nowhere, the creation of our railway and canal systems, are achievements of which we are reasonably proud. Of late, however, Canada has done higher things than the more material feats. We have developed an imperial and now a cosmopolitan consciousness, Canadians are not as in 1867 a people of rather provincial villagers. The maple leaf is stained a sacred red with the blood of sacrifice in the cause of world freedom and humanity. We have the happiness of giving, of losing, for love and loyalty. We have stopped snarling and snapping at our English brethren as we stand by them in a desperate fight. Canadians are fused with Britons all, with the free peoples of the world, particularly now with the United States. It is pleasurable to consider the growth of better feeling between two nations along whose 3,000-mile peace front no shot has been fired in 50 years. Almost enemies in 1867 we are fast friends in 1917, bound together for ever, as Mr. Balfour said the other day on his return from Washington.

One cloud hovers in our sky. Fused with Great Britain, with the United States and with civilization generally, Canada becomes aware of a rift within herself. Some cure must be found for the sore feeling of Quebec Nationalism. It must not be allowed to divide the Dominion or to hamper our work in the war afterward. In the mighty future now manifestly awaiting this country English and French must stand united and mutually satisfied, both playing a manful part, both aiming to reach higher levels of private welfare and public morality, assisting and contemplating each other in a rare combination of national qualities and ideals. Canada has surmounted great obstacles in the past. In this summer of jubilee we stand amidst anxieties, alarms and some distraction, serenely confident in our national future. We are sure of a glorious 1967, a greatness such as cannot now be even surmised.

WASHINGTON'S SPEED

President Wilson's request that beers and wines be omitted from the list of articles the manufacture of which is prohibited by the food control bill now before the United States Senate does not signify that he is in favor of continuing these industries, but that he believes they will do less harm than the delay which their inclusion would cause in the passing of the bill.

The president's action shows that he is seized with the gravity of the situation and realizes the value of speed in all requisite measures. Having ranged the United States alongside the Entente Allies, he desires to make its weight felt as quickly and effectively as is possible, and in order to do this he is willing to grant certain concessions rather than risk any long-drawn-out discussions.

The promptitude with which the United States has acted since declaring war has been remarkable. Hardly had the policy been settled before aviators and hospital units were landing in France to be greeted by their commander-in-chief already there and busy. These were followed by a contingent, how large is not definitely stated, of fighting troops and within a very short period of time despatches will be telling of their presence in battle.

Canada sent her first contingent away in record time, but she had not the same problems to face. The United States has not only despatched the men and arms, but the food to sustain them and all the auxiliary services, besides providing convoys for the transports. Now in the question of food control the president and his advisers are showing equal eagerness; there is danger of a shortage, therefore they are taking the saving steps while there is yet time to avoid the disaster instead of waiting until it is upon them.

UNLOAD THE CARS

Co-operation between the big consumers of coal and the railways is necessary if trouble in securing the quantities required for the coming winter is to be overcome. This is evident from the complaints made by the railway companies that some factories are keeping cars standing on their sidings much longer than is reasonable, and thus causing a shortage of transportation facilities, which militates against a regular supply reaching the city.

From all points comes the information that the coal supply is largely dependent on the ability to keep cars constantly moving. There is a shortage of rolling stock, and American railways are refusing to send their cars over the border because they claim the demurrage charges in Canada are so slight that consignees do not hurry to unload, and other customers have to be kept waiting because of this lack of consideration. Under these conditions, the Canadian railways are asking the railway commission to amend the rules and have the demurrage charges begin much sooner than at present, so that it will be to the advantage of those receiving the coal to unload it as quickly as possible.

Being a vital necessity, the coal supply is everyone's concern. It should not satisfy one consumer, be he using ten tons or 1,000 tons, that he has obtained his requirements, but he ought to give every assistance to others to enable them to reach a similar happy condition. It may be that the railways should supply more cars, but if they will not or cannot, other means must be taken to better conditions, and this one of quick unloading and constant moving is to hand. Surely no one will be selfish enough to delay when he realizes the trouble he may cause.

THAT THREATENED INVASION

There is considerable evidence to substantiate the statements of Count Max Louden—that there was a well-planned scheme to have five German army corps invade Canada from the United States. The finding of 2,000,000 rounds of ammunition in one house shows that there was some plot of the kind.

The remarkable part of his story is that there were carried on drills in every Turner Hall in the country to fit the invaders for their work. It is surprising that these could continue week after week without the American authorities discovering the fact. Perhaps it was known, and all preparations to deal with it when the attempt was made.

This story of the count seems to justify some of the somewhat alarming expectations so general a little while ago. Many there were who fully anticipated some attack on the frontier, and who urged that troops be held ready on this side to repulse it. The situation at Niagara Falls, Ont., where the hydro-electric plant stood open to attack, was pointed out, and the Government was begged to make provision for its protection. Such ideas were laughed to scorn by the powers that be at Ottawa, but extra precautions were taken at Niagara.

What prevented the invasion? It is an interesting subject for thought. Was it that the Germans believed Canada prepared to give them a hot reception, or was it that we are indebted to the Americans for deterring these foes? Perhaps after all, the United States, which some were inclined to revile for not joining the Allies, was really protecting Canada from a serious assault.

CANADIANS CHOSEN

If good work is wanted in any department Canadians seem to have inspired confidence that they can do it. The American Committee of Engineers in London, a body of prominent engineers organized to render advisory and practical assistance to the United States Government and the Entente Allies during the war, has sent to Russia two military railway experts to offer advice and aid in reorganizing the railroads already built. They will give assistance to the American Railroad Commission now in Russia. The experts chosen as the London committee's representatives are Lieut.-Col. J. W. Boyle of the Canadian Militia, and Lt.-Col. J. A. McDonnell of the Canadian Pioneer and Railway Battalions. They are recommended to the British and American Ambassadors, the Provisional Government of Russia and the committee representing the United States in Petrograd. Both Lieutenant-Colonels Boyle and McDonnell have had experience in military railway construction in France since the war began and confidence is expressed that they will be of service to Russia. Canadians generally will hope that this confidence is well placed as it appears to be.

FOR CHURCH UNITY.

Dean Henson of Durham, Eng., is still laboring at his task of drawing the established church and the non-conformists closer together. One of the most liberal of churchmen as to both doctrine and organization, he is also one of the most evangelical. He believes that the time has come for a new Christian reformation based on that of the sixteenth century.

Speaking at the City Temple in London recently, he contended that the principle of the reformation which four hundred years ago divided Christendom should now be the principle to reunite it. That principle was the freedom of private judgment. It has at last

become possible, Dean Henson thinks, for men to co-operate and have fellowship in good works while agreeing to either agree or disagree on points of doctrine.

As Dr. Henson says "the war has forced into universal attention the political impotence of the Churches within Christendom, and also a rift between them, and the best conscience and intelligence of the modern world" which is losing the church its "moral supremacy." Union, then, is the only way back to this "moral supremacy," a union "no smaller than the whole company of Christian people dispersed through the world." The war, while far from strengthening the influence of the churches among the thinking classes, is reviving superstitions of one kind and another. A reunited and revitalized church should check such retrogression and promote a true religious force among the nations.

German radicals give up all hope of reform until after the war. Were it not that the Allies will then insist upon it, the post-war hopes would be doomed to disappointment.

It looks like the resurrection of Russia.

Not since the revolutionary year 1848 has the spirit of revolt been so bold and so vocal in German legislative bodies as it is at present. Already the war has done much to weaken autocracy in Germany.

Philip Scheidemann, the German socialist leader, having made the declaration that the only way to stop the war is through "sweeping democratization of Germany," it now remains to be seen how long it will take for the German people to arm themselves with new brooms.

Daylight saving in Canada is to be postponed until next year. It is realized that to be workable and satisfactory, the arrangement should be continental in scope, and the United States is not yet ready to take it up. So Canada waits. Good news for all sluggards.

Herbert C. Hoover, the head of the food administration service in the United States, is asking people to put themselves on voluntary rations, to eat one wheatless meal a day, to eat beef, mutton or pork not more than once a day, to economize in the use of butter and to cut the amount of sugar in their tea and coffee. Many might act as suggested and improve their health as well as their purse.

The U. S. appointed a food controller in a few hours. It took Borden three years to do so. Meantime the big interests grew fat at the expense of the working classes.

The Manitoba University will not admit to its classes any unmarried men of military age. If all the eligibles were treated in this way, in every walk of life, there would be no need for conscription.

Senator Robertson, a labor man, is said to have been offered a seat in the Borden government. Should the labor party not be consulted about the manner in which it is to be represented thus?

THE DAY'S RESULT.

Is anybody happier because you passed his way?
 Does anyone remember that you spoke to him to-day?
 This day is almost over and its toiling time is through;
 Is there any one to utter now a kindly word of you?

Did you give a cheerful greeting to the friend who came along?
 Or a churlish sort of "howdy" and then vanish in the throng?
 Were you selfish, pure and simple, as you rushed along the way,
 Or is some one mighty grateful for a deed you did to-day?

Can you say to-night, in parting with the day that's slipping fast,
 That you helped a single brother of the many that you passed?
 Is a single heart rejoicing over what you did or said?
 Does a man whose hopes were fading now with courage look ahead?

Did you waste the day or lose it, was it well or poorly spent?
 Did you leave a trail of kindness or a sear of discontent?
 As you close your eyes in slumber do you think that God would say
 You have earned one more to-morrow by the work you did to-day?

FUNERAL OF LATE MRS. STRACHAN

The obsequies of the late Elizabeth Strachan, wife of Mr. James K. Strachan, took place this morning from the family residence, Yeomans street, Rev. J. N. Clarry, of Holloway St. Church officiating in the absence of Rev. A. S. Kerr, of St. Andrew's and being assisted by the Rev. A. L. Geen. There were many present to pay their last tribute of respect to a highly esteemed lady. Interment was in the Belleville cemetery, the bearers being Messrs. J. Lang, J. Riggs, N. Jones, C. Cook, E. Brown and R. Anderson.

MANUFACTURERS' BASEBALL

On Saturday afternoon in the manufacturers' league the Rolling Mills baseball team defeated Marsh and Hawthorn's by 5-1, and Wilson's defeated the Lock Works by 15-8, at the Agricultural Park.

The Eyes in Relation to Health.

Dr. George M. Gould, the celebrated Eye Specialist and Author of Philadelphia, in a lecture some time ago before an Association of Teachers in New York City, said many interesting things of great importance to health. We here quote his summing up:

- "There is no eyestrain however slight that is not serious."
- "It is not the high but medium and low refractive errors which cause the greatest suffering."
- "School Hygiene is mainly a matter of Ocular Hygiene." History shows that in all walks of life the survival of the fittest lies in their Ocular Fitness."

Some of the symptoms of Eyestrain:

- 1 The simplest is inability to see.
- 2 Lid and surface diseases.
- 3 Squint, which is always due to eyestrain, and which can always be corrected with lenses in the early years.
- 4 Headaches of which there are over 100 varieties. But 90 per cent. of all of them are due to eyestrain.
- 5 Vomiting and nausea, which the Doctors of a century ago, admitted were symptoms of eyestrain, but which the modern physician seems to ignore.
- 6 Indigestion showing early in the child and recognized by his having no appetite for breakfast.
- 7 Nervousness, so called for lack of more specific term.
- 8 Swooning and fainting spells, one case cited of a woman who had over 1000 attacks, and who was cured with glasses.
- 9 Epilepsy, of which the Dr. had seen many cases directly due to eyestrain, and cured with lenses.
- 10 Langour, tiredness, morbidness and also truancy, because it has been shown that the boys imprisoned at Elmira Reformatory nearly all have refractive errors.
- 11 Tilting of the head due to astigmatism, with oblique axis.
- 12 Spinal curvature, 90 per cent. of which results from bad vision."

We specialize in latent and obscure forms of Eyestrain. Alexander Ray, Opt. D., Exclusive Eyesight Specialist.
