Speaking of the defeat of the Compromise Bill and the adoption of that postion of it which provides a local Government for the territory of Utah, and in discussing the various measures which have been proposed since the defeat of the Omnibus Bill, the Morning Post observes, the most prominent, and just now most popular of these measures, is a Bill introduced in the Senate by Mr. Pearce, to define and fix the boundaries of Texas, paying her an indemnity for her claims, without raising the question whether they ought to be recognized as right.

This measure pussesses a marked interest for even Europeans, because it proposes to devote the sum thus paid as an indemnity, to the liquidation of the public debt of Texas already to some extent assumed by the United States, but not so unequivocally as the leavest

red that Texas has assumed When it is remembered that Texas has assumed a hostile position toward the federal government respecting this boundary, and that the President has declared his intention to quill by force of arms any actual demonstration on her part, it will be readily believed that any measure calculated to satisfy hoth parties is hailed with acclamation, and such fortunate'y is the character of Mr. Pearce's proposal to settle this Texas boundary dispute.— When it is rem proposal to settle this Texas boundary dispute.

The Prince de Joinyille, is said to be gaining in oppularity. The announcement that he would be a candidate for the Presidency at the election in '52, has caused considerable sensation in France, it is stated, on the authority of letters from De Chacus or Beacon, that the President's progress has been seriously interrupted at that place. It appears that just after his arrival at that town, he was attending a ball; crowder flowing to the place, and the attitude of the populace became so sinister, that the tycope had to be called out. As he entered the bialding, in which the ball was held, he was defeased with shouts of "Fire is Republique."

Eventually, the ball-room itself was invaded, and the dancers, the President; and his Staff among them, were turned out. Meanwhile Gen. Castilane, who had already drawn his sword for the profection of the President in the ball-room rallied the troops, and returned at the head of a strong detachment of cavalry, charged sword in hand. Presently the ball-room was cleared by infantry at the point of the buyonet. These measures sufficed to quell the riot, and restore order.

SATURDAY, SEPTEMBER 7, 1850.

The Late Adultery Case. The judgment lately rendered by the Montreal section of the Superior Court, although doubtless the law of the land, involves the following startling deductions, the consideration of which we recommend to our I agislature :-1. That adultery in a wife is not punishable in

Lower Canada, either criminally or civilly. 2. That an adulterous wife, who has dishonored her husband, and imposed upon him, as his heirs, the offspring of his own dishonor, is, if she sur-

corps et de biens, stands, as to pecuniary consequences, in precisely the same position as the chaste matron who has, by the gross ill-usage or immorality of her husband, been obliged to sue press a decided opinion against the present system for, and obtain such a judgment.

4. Fourthly, that an adulteress, who has brought considerable property to her husband, and wishes to resume the administration of it, may achieve her object, deprive her husband of that administration, and appropriate it to herself by committing

The County Council has resolved to offer £75,-000 for the three main roads leading to the city. I hear that a Company is in course of formation that will offer £90,000.

The gang of burglars that has paid us the honor of a visit are not yet all caught. On Sunday night they made an ineffectual attempt to get into Mr. FOR KINGSTON TORAL Proudfoot's house. RUTLAND & BURLINGTON RAILBOAD. - We, yesterday, through the politeness of the Agent of this Road, were enabled to publish an extra, containing full details of the news per Royal Mail Steamship Hibernia. The paper we received was the Boston Daily Mail, which, 24 hours after its publication, was in our Office. This is what we regard as rather fast.

The English Mail, per Steamship Hibernia, passed Burlington last evening. Amongst the assengers by this Steamer are the Lord Bishop of Montreal, family and suite. They will probably arrive here by the nine o'clock boat from Laprairie. We understand that it is the intention of the Rector and Clergy of the Diocese to assemble

The Conductors on this Railroad are exceedingly civil and obliging to passengers, and take care that the time allowed for running the several distances is strictly adhered to. If by any unvoidable detention, such as waiting for Trains which intersect at different points, the Boston Train happens to be a few minutes behind time on any portion of the soute, it is made up for on the next by a little additional speed, and the

LUXURIANT HAIR.

Boole's Hyreston Fluts.—One bottle of this truly valuable liquid is worth more than its weight in gold. There is no quackery in its composition; but healthy sure efficacious logredients, calculated to effect all that it professes. Baldinets will st once depart, and a luxuriant growth other take its place. Grey hair will return to the pristine brilliancy—weak hair become strongand vigorous, and the skin take a proper and healthy action by the use of the inestimable Hyperion. As an article for giving softness to the hair, and brilliant gloss, it cannot by any compound be equalled.

The following is from the New York Evening Mirror, May 25, 1645:—
"WISTAR'S BALSAM OF WILD CHERRY.—Among all the Passaceas advertised for the cure of human aliments, there is none in which we have more confidence than 'Wistar's Balsam of Wild Cherry.' We regard it as one of Nature's own preparations—simple, safe, pleasant to take, and almost certain to cure all bulious and pulmonary affections. We have witnessed its wonderful effects in cases that we re regarded as hopelessly desperate, and we can constructionally recemmend it as one of these cest medicines in the world,"

best medicines in the world."

The following is from a very respectable source:

Bostos, November 27, 1848.

Mr. S. W. Fown.s.—Dam Sin,—Although averse to having my name public in the newspapers, I make this unsolicited statement, and you are at liberty to make use of it as you may please. In the Fall of 1847, I took a violent cold, which brought on a severe cough that lasted through the Winter and Spring, and caused me to raise blood and plegtim continually, day and night, which greatly reduced me in flesh and strength; I tried several kinds of medicine, with little or no effect; I had become feeble and emaciated, and legan to despair of ever getting relief, when, by advice of my friends, I was induced to try Dr. Wistar's Wild Cherry Baisan; and after having taken five tottles. I found myself nearly, or quite well, and to this alone I think I owe present existence. I shall be happy to give further information to any one who will
