Ontario

## BOXING THE COMPASS

Captain E. Landy, Commander of the Canadian Pacific liner "Melita" was at some pains to explain to one of his passengers the mysteries of the compass. Dick Anderson, the favoured traveller, was the youngest member of a party of boy immigrants from Dr. Barnado's Homes. He has been received into the North Toronto Home and is in the process of being turned into a first class Canadian citizen and worker.

### Millgrove

Dr. MacLean of Frelton will address the Millgrove Women's Institute Wednesday afternoon, May 30th at the home of Mrs. John Allison. The committee has arranged for a good program.

### CARD OF THANKS

Mrs. Wm. Flintoff and family wish to thank their many friends for their kindness and sympathy in their recent sad bereavement.

### COURT OF REVISION Village of Waterdown

The Court of Revision to hear and determine the appeals against the Assessment Roll for the Village of Waterdown for the year 1923 will hold its first sitting at the Community Memorial Hall, Waterdown, on

Friday, June 9th, 1923

At 8 o'clock p. m.

Of which all persons interested are required to take notice.

J. C. MEDLAR,  
Clerk of Said Municipality  
Waterdown, May 24th, 1923.

### COURT OF REVISION

#### Township of East Flamboro

The Court of Revision to hear and determine the appeals against the Assessment Roll for the Township of East Flamboro for the year 1923 will hold its first sitting at the Township Hall, Waterdown, on

Monday, June 4th, 1923

At 2 o'clock p. m.

Of which all persons interested are required to take notice.

L. J. MULLOCK,  
Clerk of said Municipality.

## NOTICE

NOTICE is hereby given that a By-Law was passed by the Corporation of the Township of East Flamboro on the 11th day of May, 1923, providing for the issuing of Debentures to the amount of \$25,000 under the provisions of 13-14 George V. Chapter 61, and that said By-Law was registered in the Registry Office of the County of Wentworth on the 14th day of May, 1923.

Any motion to quash or set aside this By-Law, or any part thereof, must be made within Three months after the first publication of this notice, and cannot be made thereafter.

Dated at Waterdown this 15th day of May, 1923.

L. J. MULLOCK,  
Clerk of Said Municipality

### Locals

Miss Maud Cutter of New York is visiting her mother.

Mr. Clifford Reid of Woodstock spent the holiday at his home here.

Miss Lily Reid and friends from Welland spent the week end in the village.

Mrs. Geo. Greene of Davenport, Iowa, is visiting her son, G. H. Greene and family.

Mr. J. Ellsworth has sold his property on Mill street, to Mr. Guthrie of Hamilton.

Mrs. Gardiner and daughter of Woodstock visited her sister, Mrs. J. F. Vance, over the holiday.

Mrs. McKee of Southampton spent a few days last week with Rev. and Mrs. C. L. Poole at the parsonage.

The Terpsichorean Club are holding another dance in the Memorial Hall on Friday evening, June 1st.

The Mother's choir which acquitted itself so acceptably at Knox Church on Mothers' Day, was under the leadership of Mrs. I. Baker.

Sunday services in Grace Church will be held at 3 p. m., May 27th. Dean Owen of Hamilton will be present at the induction of the new rector, Rev. Mr. Slack.

Dr. Harold Richards, who graduated from the Dental College, Toronto, this year, has been successful in obtaining a practice in Brantford. His many friends here wish him every success in his profession.

The annual amateur athletic sports day was held here this year under the management of the W. A. A. A. with the proceeds going to the Community Club and the Public Library. A concert was given in the Memorial Hall in the evening by the Wilson Fun Company.

Of much interest in Waterdown and the surrounding district is the marriage, which takes place Thursday, May 24th, of Mrs. Henry, formerly of Waterdown, now of Toronto, and Sheriff J. T. Middleton of Hamilton. Rev. Mr. Hutchinson of Fergus, Ont., a brother of the bride, will perform the ceremony.

## Thomas Mann Died Suddenly

Mr. Thomas Mann who has been a resident of this village for a number of years and rural mail carrier on Waterdown No. 1 route, was seized with a stroke on the 5th concession, West Flamboro, while on duty Thursday and died shortly after being removed to his home. Mr. Mann had used a horse and wagon for mail delivery for years, but a few days ago he purchased an automobile for that purpose and while going his rounds that he was seized. The funeral will take place from his late residence, Dundas street, Sunday afternoon at 1.30, to Westover cemetery.

## Musical Competition

A large audience filled the Community Hall on Thursday afternoon May 10th, to witness the competition held under the auspices of schools of the district. The schools taking part were the Beach Bungalow school the Maplehurst school and Waterdown Public school. The contest was very keen in every department and the class of work done was vastly superior to that of last year.

The competition resulted in four wins for Waterdown school, the Junior and Senior choruses and the Boys' solos. Maplehurst school won in two departments, Intermediate chorus and Junior Girls' solo. Special mention was made of the Junior Girls' solos and the Senior chorus. In the Senior chorus the successful choir was highly complimented on the manner in which the three part chorus was handled.

Rev. Mr. Samuel, Director of the Welsh Eistedfad, acted as adjudicator. His criticisms of each number were highly instructive and will result in a higher standard in future.

## A. Y. P. A. Meeting

The annual meeting of the A. Y. P. A. of Grace Church was held in the Parish Hall on Tuesday evening last. The following officers were elected.

President	Miss May Cutter
Vice-Pres.	Mr. A. Lovejoy
Secretary	Miss N. Walker
Treasurer	Mr. Brown
Editorial Sec.	Earl Griffin

It was decided to hold the meetings every two weeks until October and then every week during the winter months.

## Greenville

Miss Ruby Williams spent the week end with Miss L. Green.

Mr. and Mrs. Walter Goodbrand and family spent Sunday at Mr. A. Goodbrand's, Copetown.

Miss Hazel Tunis of Toronto is home on a visit to her parents, Mr. and Mrs. J. N. Tunis.

The death of Mr. Robert Wallis occurred here on Sunday last at his son's residence.

Miss Marion Hpslop underwent an operation last Sunday progressing favorably.

Issued Every Thursday morning from the office, Dundas Street, Waterdown

Member C. W. N. A.

**Here and There**

Each acre of corn grown in Ohio costs on an average 48.26 hours of labor.

Canada is now second on the list as an exporting land, the per capita being \$100.63 per annum.

A new station is being built by the Canadian Pacific Railway at Fredericton at a cost of \$50,000.

Half a million Canadians look to the forests each day for their meals and lodging, and more than 100,000 Canadian workmen are engaged in converting forest products into one form or another.

The large party of Hebrideans who were brought to Canada on the Canadian Pacific Steamships "Metagama" and "Marloch" have gone to Red Deer, Alta., where they will form an agricultural colony.

Seven hundred farmers and farm laborers arrived in Canada recently on the Canadian Pacific steamer "Montcalm." These colonists are proceeding to Ontario and western points where they will take up farm work.

The project of a ship canal across Scotland from the Clyde to the Firth of Forth was brought to the fore again at a recent meeting of the Mid-Scotland Ship Canal Association, and there is a possibility of something being started in this connection in the near future.

A single pair of potato bugs would, without check, increase to 60,000,000 in one season; the hop aphid, developing thirteen generations in a single year would, if unchecked to the end of the twelfth generation, have multiplied to ten sextillions.

Canadian air pilots flew 294,449 miles carrying 9,153 passengers and 77,850 pounds of freight in 1922, according to a report of the Canadian Air Board. Saskatchewan pilots led in the Dominion, carrying 3,622 passengers. Manitoba pilots carried 1,622 people, and British Columbia pilots 1,122.

A company has been formed in London to exploit sunken treasure in Navarino Bay, off the west coast of Greece. The promoters state that there is a matter of \$45,000,000 in bullion and other forms still at the bottom of the Bay, where it was sunk with the united fleets of Egypt and Turkey by the united British, French and Russian fleets in 1827.

Last summer 4,000 forest fires cleared away at least ten times as many trees as were cut down for lumber, pulp and paper, and all other industrial purposes. A very large percentage of the fires were caused by careless campers and sportsmen who "thought it would die out" or cast away a lighted match or cigarette end.

Improvement of camping facilities at Banff for automobile tourists is now being made. The Mount Rundle camp site is being improved and enlarged, and will be equipped with all modern appliances. It is expected that as a result of the opening of the Banff-Windermere road this year, the tourist traffic through Banff will be the heaviest ever recorded.

**Peerless Fence**  
Stands every test

Nothing but the highest quality materials go into Peerless Fence. We can recommend it unreservedly.

Bull strong, pig tight, chicken high—there is a Peerless style for your every fence requirement. All are heavily galvanized and give years of satisfactory service. Come in and let us show you.

THORNDALE, April 6—Farm labor is scarce in this locality and farmers find it impossible to secure men who will work on the farm. In order to overcome this difficulty many are purchasing tractors, as they claim since the prices have been lowered they can purchase one as cheaply as a good team of horses, and it is possible to accomplish more work with one tractor than with two teams of horses.

## Attractive Scenes in Blossom Time

JAPAN has so distinctly put herself "on the map" that the well-travelled person is now compelled to put the "Land of the Rising Sun" into his life's itinerary. Improved trade relations and growing interest in things belonging to the other side of the globe, make a closer study of the countries there of prime importance.

Transportation, trans-continental and trans-Pacific, has become so highly developed that it is as easy to get to Japan as to Italy. Ninety-two hours from Montreal to Vancouver, trans-Canada, and the fastest time across the Pacific—a trifle more than nine days—puts the traveller into Yokohama, the chief port of the Land of Nippon.

Here the sights are unusual. Jinrikashas jostle one another in their competition to get the few cents charge for running the traveller in and out among the narrow streets

amid crowds of strangely garbed people, curious shops, street hawkers, endless numbers of brilliant kimono-clad children, and carts drawn by men and beasts.

Adding to the natural beauty of Japan is the cultivation. Japanese are the best agriculturists and gardeners in the world. Tomes have been written about Mount Fuji and the mountains, lakes and streams of the country. Lake Chuzenji is the Lake Louise of Japan and Mount Fuji, its Mount Rainier, although not so high. The cherry blossoms are not so wonderful as those of this country—if one remembers the hundred miles of orchards in Nova Scotia's Evangeline Land and Annapolis Valley.

Those who are contemplating an early summer holiday might well select Evangeline's Land, Nova Scotia, for a trip. For miles and miles along the Dominion Atlantic Railway the land is one mass of apple blossoms. Cherry blossoms,

too, dot the scene, making a sight that is wonderful and refreshing. The bulk of the Nova Scotia apple crop goes to Great Britain, but great quantities of British Columbia apples are exported to the Orient.

The cherry trees in Japan are raised for their flowers and not for their fruit, as, strangely enough, they bear no fruit.

Although the voyage from Vancouver to Yokohama is longer than the four days at sea from the Eastern seaboard via the St. Lawrence River Route to Europe, the Canadian Pacific Empress steamers, largest and fastest on the Pacific, are so thoroughly comfortable that the time slips away quickly. All of these steamers are so equipped that most all of the amusements to be had on land are also to be found on board.

April marks the beginning of the best season in Japan and even further down the Chinese coast to Manila.

## "FEELING" FOR LAYERS

This Method Is About as Certain as the Trap Nest.

Experiments With Capons — Feeding Costs—Excellent Flesh Produced Without Confinement—Handling Baby Chicks.

(Contributed by Ontario Department of Agriculture, Toronto.)

The writer carried on a series of experiments with poultry when connected with the Agricultural Experiment Station for Vancouver Island, Sidney, B.C., and presents the following notes as among those worthy of consideration:

### DETERMINATION OF EGG-LAYING

A test was made of the feeling method, to determine its accuracy. Thirty hens that were under trapnest record were subjected to the feeling process for eight days: January 17 to 24.

The results of "feeling" were checked up and tallied perfectly with the "trapnesting," indicating that it is quite possible for any careful person to determine which hens are laying by feeling the egg in the oviduct, in the early morning before she leaves the perch. The method also has an advantage in that it eliminates the necessary confinement of the birds in a "trapnest" for a period which is frequently longer than is actually required to produce an egg.

The great disadvantage of the feeling method is that it is impracticable for pedigree breeding, inasmuch that the eggs from individual birds cannot be recorded.

### CAPONS.

Thirty cockerels were operated on when twelve weeks old. These birds were a thrifty and well-grown lot, averaging 2½ pounds in weight. After caponizing, they were kept under the same conditions as the cockerels. The feed cost for a pound increase in weight was slightly less for the cockerels up to six months of age. At this time the cockerels and capons weighed the same. These birds were killed for Christmas trade when 264 days old, and weighed, plucked, 8 pounds 2 ounces. The percentage of offal was low, being but 18 per cent.

of the total weight. The birds were not crate fed, but were finished on a liberal milk ration. The quality of the flesh was excellent, and the wholesale price received was 30 cents per pound. The advantages of caponizing are that an excellent quality of flesh can be produced without confining the birds in small feeding crates and the tender flesh can be retained to a greater age and weight. The cockerels made just as good gains, and when milk fed in crates for two weeks, produced the same high grade of flesh. Following is the feed cost of an eight-pound two-ounce capon:

Feed cost to rear to end of third month	21.54c
Feed cost to rear during fourth month	16.2
Feed cost to rear during fifth month	13.17
Feed cost to rear during sixth month	21.2
Feed cost to rear during seventh month	21.3
Feed cost to rear during eighth month	23.4
Feed cost to rear during December, 20 days	14.4
Total feed cost	\$1.31½

These birds were sold for \$2.43 each wholesale, leaving \$1.11½ per bird. From this we can deduct 20 cents, the price paid for the bird as a day-old chick, and have 91½ cents per bird for labor and shelter.

### HANDLING BABY CHICKS.

In another experiment a thousand one-day-old chicks were procured from two reliable local breeders. The first day they remained in the incubator, and on the second day they were transferred to the brooder, but were not fed until forty-eight hours old. The following hints on general treatment are given:

Do not chill or overheat the chickens, or disastrous results will follow. If they pant they are too hot, and if they huddle together they are not warm enough.

Do not overfeed during the first week.

Change the water daily and see that it is perfectly clean.

Give plenty of green food.

Feed sour skim milk whenever possible.

Do not forget to supply charcoal, grit, and shell.

Make all change of food and feeding gradually.

Clean and disinfect brooder often.

Do not use damp, mouldy feed or straw.

Never allow chicks to crowd in brooders or colony houses.

Place chicks on the range in colony houses, after the eighth week.

Do not let the cockerels and pullets run together on the range.—L. Stevenson, Sec., Dept. of Agriculture.

A farm needs a windbreak in summer as much as in winter. Did you ever notice the difference in the garden and fruit plantation on the two farms, one sheltered from the hot southwest wind and the other, exposed to it? The windbreak pays in dollars and cents.

When a new house is built among trees, none should be cut except those where the home actually stands. After the home is occupied, one can tell better which trees to retain for shade where it is most needed.

When our great-grandmothers were girls, tomatoes were called "love apples," and one or two plants were grown in the garden or flower beds on account of their bright red fruits. No one thought of eating them, for they were considered poisonous. When after a time it was found that they were not poisonous, people began to eat them and they soon became one of the standard garden vegetables.

### Vegetable Matter.

The advantage of matter in the soil may be summed up as follows: It aids aeration, retains moisture, prevents baking, provides conditions suitable for bacteria, aids decomposition of soil particles, supplies plant food, deepens soil layer, prevents leaching, washing and drifting. Every opportunity to return to the soil vegetable matter of any sort should be taken advantage of by all farmers having any respect for the soil of their field.

Continuous grain cropping decreases the productivity of soils. This is due largely to the reducing in quantity of the fresh vegetable matter in the soil that is essential to chemical and bacterial action. Without chemical and bacterial action in the soil the feeding of plants would be difficult.—L. Stevenson, Toronto.

If you are concerned about the future welfare of Canada, buy a Victory Bond and make it a sure thing.

Don't forget the future of your children. Lay a good foundation with a Victory Bond.

Would you lend a soldier \$500 if you knew it would save his life? Buy Victory Bonds and keep your hospitals up.

**Economical—Dependable  
Comfortable—Beautiful**

*The "Master-Four" Touring Model 23-35 Special*

The McLaughlin-Buick "Master Four" Touring is its own best advertisement. Every car sold means a new friend made. Its all-round goodness commends it to everyone and its thorough dependability insures its staying sold with its owner.

A close inspection of its construction, finish and equipment and a comparison with other cars of its price will convince anyone of its unusual value. But its value does not end here, as it is continually making new records in operation cost and low cost of repairs.

It is a car that is always ready to start—and to keep going. It has proven its dependability under the hardest conditions in all parts of the world. It has the beautiful, graceful lines that grow on one, and in comfort of riding and ease of operation it leaves nothing to be desired, as a ride in it will quickly prove.

Standard equipment includes massive crown fenders, drum type head and cowl lamps, bumper, combination tail and stop light, scuff plates, transmission lock, etc.
