

Annual Meeting of the Board of Trade.

The annual meeting of the Annapolis Board of Trade was held in the Town Hall on Monday evening, January 6th. The meeting was well attended. Two new members were added to the roll.

After reading of minutes of last meeting, which were approved as read, the retiring president read his annual report, as follows:

To the MEMBERS of the BOARD OF TRADE: One of the things accomplished the past year has been the laying of the asphalt sidewalk around the Post Office by the Government, the matter having been called to their attention by this Board, and the work has now been carried out in what I think the citizens of the town will concede to be a satisfactory and efficient manner.

Ten thousand pamphlets were got out for distribution, and they have had a wide circulation. The town has been benefited by the attractive style of the publication, and we will be imitators along the same line in the future.

We had the pleasure of entertaining this summer fifty members of the Summer School of Science, and they were given their appreciation in a very marked way, and within a few days past communications have been received from some of the members, with a kindly remembrance for the parties received during their visit to Annapolis Royal.

There are several important matters that should be considered by this Board of Trade for the present and future benefit of the town.

I would mention more particularly the continuance of the present established industries. Even though the town is the capital in the enterprises of this town, members of this Board, and citizens of the town, can give valuable support by talking up and not talking down our present advantages.

I would mention more particularly the continuance of the present established industries. Even though the town is the capital in the enterprises of this town, members of this Board, and citizens of the town, can give valuable support by talking up and not talking down our present advantages.

Trade in regard to better mail service on the Minas Basin, and that a copy of said resolution be forwarded to the Dominion member, F. B. Wade, Esq., asking him to give same his support.

Mr. Adams reported re-forestation, that the matter is now left in the hands of the N. S. Historical Society to take the initiative. He suggested the adding of the other members to this committee. Upon motion, J. M. Owen and Dr. Robinson were added to this committee.

The president asked W. J. Shannon to take the chair. F. C. Whitman brought to the notice of the Board the very destructive ravages of dogfish on the Atlantic coast from Mark's Bay, and, in mentioning the whole fishery, and more particularly the shore fisheries of this province. This Board of Trade recognizes the fact that unless some step is taken to curtail this evil it will in the future a greater calamity befall us.

With this in view, the president is now trying to collect all information that can be obtained, and interest the fishing firms and fishermen in the problem, and then to bring the matter before the Government. The Board of Trade in fishing counties are asked to give their best consideration to the movement, and others who may be interested in the subject, to communicate with the Annapolis Board of Trade.

It is hoped that some plan may be devised which will abate the dogfish nuisance on our coast. F. C. Whitman moved, S. Thordon seconded, the following resolution, which was adopted unanimously by a standing vote:

Resolved, That this Board of Trade express their regret for the financial difficulties that have fallen on one of the oldest and best fishing ports of the County of Annapolis, and extend their sympathy to Mr. John H. Runciman for the sympathy and for the assignment of the firm of Geo. Runciman & Co.

F. C. Whitman spoke re Forestry. This matter was brought to the notice of the provincial government by resolutions passed by this Board, and taken up by other Boards of Trade in this province, and by the Maritime Board. So far, nothing has been done except to awaken public attention, but it is to be hoped that the matter will again be presented to the Provincial Government to take steps to preserve the valuable timber in the province.

Mr. Whitman moved the following resolution, which was seconded by A. M. King: Resolved, That the Provincial Government's attention be called to the necessity of forest preservation in Nova Scotia, and by the preservation of forests, and by the acquisition of lands formerly granted, and now vacant, and used, by purchase or otherwise, as a large area of wild lands may be placed under government control, and the natural growth of the trees be maintained.

A. M. King brought up the report of the Loring Factory, and upon motion the Board of Trade appointed a committee, to be known as the Loring Factory Committee, to report on the matter of the proper time.

Mr. J. M. Owen spoke very strongly against the speculating in stocks on margins, and thought that some effort should be made to curb such practices, especially in the small towns of Nova Scotia.

Upon motion, meeting adjourned. Wireless Way Instead of Post. GLACE BAY, N. S., Dec. 2.—Two hundred words a minute, one cent a word and the wireless telegraph is a very large part of the personal correspondence that now passes between America and Europe are developments which will be of great importance to the Atlantic to-day.

I shall leave tabled in a few days for Cape Cod, where I shall put in operation at once the first trans-Atlantic wireless station in the United States. The station is to be located on the tip of Cape Cod, and the prediction for having solved the problem here, the success of Cape Cod station means only the application of the same methods, and I expect within a few weeks to possibly a little longer, to have it in perfect working order.

Mr. W. E. Anderson, a native of Staten Island, New York, but for the last 20 years resident of Bridgetown, died on Wednesday last, aged 65 years. Mr. Anderson was a resident of Bridgetown, and was a member of the Methodist church. He was a man of high standing in the community, and was a member of the Board of Trade.

A Siege. The matrons of the Edison Orphanage at Lowell, Mass., U. S. A., wrote that they had a siege of whooping-cough in their institution. They said that every case was promptly relieved by Vapo-Cresline. Its value in coughs and colds was so great they always kept it ready for use. You know how it's used, don't you? "I breathed by a vaporizer and you inhale it. Write us for a book that tells all about it."

Vapo-Cresline is sold by druggists everywhere. The Vaporizer and Lamp, which should last a lifetime, and a bottle of Cresline complete, \$1.00. Illustrated booklet containing physiological facts, sent upon request. Vapo-Cresline Co., 116 Fulton St., New York, U. S. A.

A Successful Nova Scotian. Forty-four thousand miles by steamboat, train and tram cars is the record of Mr. B. H. Hardwick, of Annapolis, in the interests of the Province of Nova Scotia. He is another man, not connected with railroad or steamboat, who travels over as much territory every year as Mr. Hardwick. He has made the past five years his average was about 35,000 miles, the lowest being 33,000. He has traveled 225,000 miles in the year just ended. He has covered 44,000.

His travels this year embrace trips to the Pacific Coast from Vancouver to Seattle, to the South and Middle West States, California, Colorado, etc., and a tour of the Province of Nova Scotia.

Thirty-one years ago Mr. Hardwick started out in the employ of Mr. Pyle, of New York. By degrees he worked from position to position, each time taking a step higher, and to-day he occupies the responsible position of general outside manager of that big business. Mr. Hardwick has charge of all the agencies. He visits all the agencies each year, employs the men and makes any changes he sees fit. To-day he has 75 men to look after, and they are scattered almost all over the continent of America.—Yarmouth Herald.

At 10 o'clock on Sunday, Jan. 4th at 3 o'clock, Mrs. C. Corbett is visiting her sister, Mrs. Chesley, at Granville.

Miss Stella Messenger and Miss Edith Brooks are at home, spending their vacation.

Mr. and Mrs. Rainforth, of Berwick, spent Christmas with Mr. and Mrs. Charles Hickey.

Mrs. A. Roney went to Digby on Friday to be present at the marriage of her son, which took place on Monday. Miss Hattie Bruce, accompanied by her niece, Miss Beatrice Gilliant, went to Weymouth last week for the week-end.

Mr. and Mrs. R. A. Roney made a short visit at the home of Miss M. A. Messenger.

Miss Hattie Bruce and niece returned home after a visit at Weymouth, on Saturday.

Mr. W. S. Messenger and brother made their friends here a flying visit last week.

Special Interest to Ladies. Complete wardrobe can be removed in a few hours by Putnam's Patent Corset and Waist Trainer. It is reliable, safe and sure and costs but 25c. Inset on Putnam's is the best.

Belleville Notes. Mr. Jacob V. Bent, of Hudson, Mass., was the guest of his friends, Mrs. M. P. Troop, during the holidays.

Higgins Taken to Rochester. Upon the closing scene of this late tragedy the curtain falls. And the prisoner hears his sentence pronounced without a word.

It will be hung upon the scaffold until pronounced "dead." This is the concluding scene of the fifty-six in which one Henry G. Adams has been hanged in the story of the Doherty murder.

Whatever Mr. Adams merits as a poet may be, he is a failure as a prophet, for Higgins, when he "saute" his "the gloomy dungeon walls" today, did not hang upon the scaffold, but proceeded to the I. C. R. station, there to take the train for Rochester, to commence his term of life imprisonment.

The boy, who was as cheerful as usual, was in charge of the train, and when the pair reached the I. C. R. depot for the early morning train the redoubtable Daniel Higgins said cheerily: "What's the matter, Dan, why don't you keep step?" Dan had one of his own special brand of answers.

There was quite a crowd in the special, but the prisoners, estranged, and the shackled pair showed no signs of embarrassment. They smiled all the time.

ACUP OF Bovril

Imparts a natural glow of warmth and health, without which, the system is always an easy prey to colds, chills and influenza...

Sullivan Reported.

The former mighty John L. Sullivan reported in a school and at the Saturday evening in his cell in the Central police station, Detroit.

"You are a fine specimen, you are, you looked, gray-headed rattle-snake. Why don't you brace up and be a gentleman, even if it does hurt you?"

"You are making your last night with King Bozo, old man, and he's got you pretty gony at the present time. It's been a long fight and a hard one, but it can't go on forever.

A New English Submarine Boat

The submarine boat "A 1," built by Vickers Sons & Maxim and the Admiralty, was tested in deep sea experiments in the Irish Sea recently.

After several days' special trials at the Barrow Dock the vessel was towed out before daylight to about five miles from Walsley Island.

The boat was quickly submerged and travelled several miles, not returning to the surface for some hours.

An Hour to Finish Yet.

A young man was waiting for a young lady at the church door. "Isn't the sermon nearly done?" he inquired of the sexton. "No sir; another hour off yet. He's only an hour to go through his lastly."

Hungry Hair is the beginning of Baldness.

Protracted hunger means starvation, and starvation means death. When the scalp is starved the hair dies at the roots. What's the matter with your hair? It gets dry, harsh, brittle, dull of color, the ends split. You wash it and brush it, but it still comes out. It's hungry! If washing and brushing would stop starvation, then all the expense of a horse's keep would be a sponge and a currycomb. Hunger breeds bad, not a bath. That is why
